Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

The Eye of DESTRUCTION

Paul Shockley
Interpreter

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that these readings be read aloud.

ED's Note:

When Paul Shockley came up to Olympia in April, an extraordinary series of readings occurred. In order that the membership can better understand the significance of these messages, we are publishing these readings in their entirety, for although the subject-matter appears to change at times, there is a connecting thread which leads the reader in and out of an incredible series of events. The first three readings were given April 8th, the fourth on April 9th, and additional information which may be included after that came from readings given in the following three days.

THE SECRET WAR BEGINS TO SURFACE

(Opening Message, C.A.C. General Reading No. 1)

April 8, 1982 ---

COSMIC AWARENESS:

This Awareness indicates there are a number of intensities, forces and energies which need to be brought forth and examined at this time. This Awareness indicates that this is in part associated with the effects of Mars, Saturn and Pluto in Libra. This Awareness indicates that these forces moving into aspect with each other and with other planets, as that which is creating a time of intensity which can be somewhat unpredictable. This Awareness indicates that this relates also to the astrological charts of various nations and their own administrations during this period of time.

This Awareness indicates that essentially the intensities which are being experienced during this month of April, may appear to settle down during the month of May, in some areas. This Awareness indicates that this does not, however, indicate that the situation causing the intensities will be diminished or that the concerns are over. This Awareness indicates there are now surfacing those energies which have previously been kept behind the curtain, away from the general public. This Awareness indicates this in reference to the economic crisis, and also to the prospect of the increasing and expansion of the war which is presently occurring, in a semi-secret level.

This Awareness indicates that it is no longer a question of whether there will be a war, for the war is occurring. The question is: To what extent will this war escalate? This Awareness indicates that the public is now becoming more and more aware of the escalation of this international war which is occurring in various countries in the American continent and also in the Asian, African and European continents. This Awareness indicates that the forces involved are becoming more determined and focused on their own potential and power to make war, and are becoming more convinced that war is inevitable, therefore, the energies shifting to the concept of winning in an inevitable war which

can be devastating to those involved and to the entire planet if it escalates out of the level of control which these entities believe is possible to hold during such confrontation.

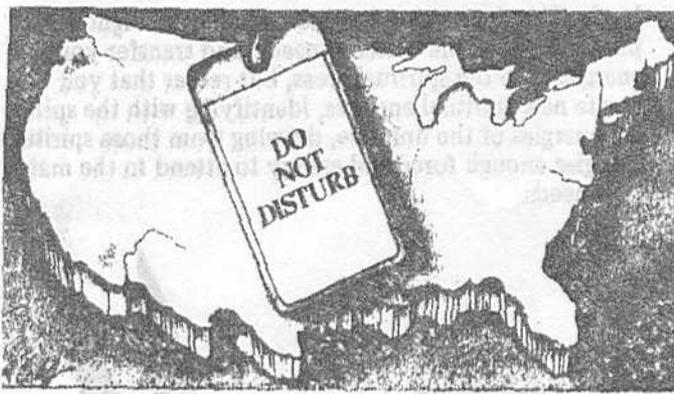

This Awareness indicates that the question which will escalate in the mind of the public is whether or not this will affect them, their communities, their nations, and to what extent, and in what manner? This Awareness indicates that the other question centers around the economic effects of the war and its accompanying recession or depression, which is being felt throughout the world by nearly all countries. This Awareness indicates that the nature of most entities is to sit back and do nothing other than follow routines which they have established in their lives as a kind of security rut, or pattern of behavior which has produced rewards by following those paths, pushing those buttons and receiving those rewards.

This Awareness indicates that even as rats in a maze, it is unusual for entities to step out of their pattern of behavior, giving up their usual forms of security and reward for following the proper steps, pushing the proper buttons to receive their proper reward. This Awareness indicates that the majority of individuals on this plane, whether aware or not, are victims of the experimenters who run them through their mazes and have them push the proper buttons for their reward.

This Awareness indicates that wherein entities outside of the hierarchy of power attempt to awaken the masses, these entities are often seen as interfering with the process, so that the rewards are threatened, or the entity becomes nervous in his or her performance, and it affects his or her ability to receive the rewards from the pattern of behavior. This Awareness indicates that some entities among the masses recognize their own patterns, the manipulations which they have been put through, and begin to awaken to these realizations that they are simply pawns in a game, or rats in a research, and that they are not fully free to think or act or behave as an enlightened and complete human being, so long as they are conditioned by the intense programming and need for depending on their security from those who are the representatives of the hierarchy of power.

This Awareness indicates these entities are few, and when discovered, often become targets for other threats and greater programmings from those in the hierarchy of power. This Awareness indicates therefore, it becomes necessary that entities often follow their routines, pretending to be unaware of their conditioning, even while awakening and becoming more and more aware of the hierarchy of power which hangs over them and rewards them with certain securities for certain behavioral patterns.

This Awareness indicates that when the pocket-book is threatened, the entity is aroused, and when the entity is aroused, the entity often will attack that which is closest to him, seeing those friends and neighbors, those acquaintances as being interferences to his pleasure and enjoyment and security, this because the manipulator is outside the cage, out of range, whereby the entity cannot get to the true cause of his plight.

This Awareness indicates that as these intensities increase and the insecurities grow, it is of utmost importance that entities who are aware, not turn on their own mates, their own friends, their own associates, their own families or their own communities, for this will simply add fuel to the strength of the manipulators, and harm each other, causing each other even greater distress, difficulties and tragedy than would be present if the entities simply went along with the manipulators, while not passing on their frustrations to others.

This Awareness indicates that were all the rats in the maze to go on strike, the manipulators would be at a loss as to what to do. This Awareness indicates however, this is not only unlikely, but at this stage of evolution, impossible, and the manipulators know this. This Awareness indicates therefore, the greater concern for those within the cage, is to focus on the level of enlightenment which is available and what that enlightenment is capable of doing. This Awareness indicates that the rats in the cage are not, at present, free enough to do anything about their plight other than to watch carefully, awaken themselves, and wherein possible awaken their neighbors, and wherein possible, let out a few squeeks and cries, statements, and ring the alarms, so that the others may awaken.

This Awareness indicates that also, wherein possible, that the rats in the cage seek to find some alternative to pushing the same button, unless that action of pushing that button serves their purpose, and allows them to have the necessities to keep going until something else breaks in their favor. This Awareness indicates that at this particular stage, those who have a button to push, may consider themselves to be rather fortunate, even if they must go through many gyrations to reach that button and to push that button. This Awareness indicates there are many waiting to take the place of those who wish to give up their button, and their pattern and habits of creating those rewards.

AN ALTERNATIVE LIFESTYLE IS SUGGESTEDSTRENGTHENING YOUR SECURITY

This Awareness indicates nevertheless, it is important for entities while following through on their routines, to create somewhere in the back of their minds, an alternative lifestyle which could be used in the event that this particular lifestyle is taken away. This Awareness suggests that in having alternatives, entities may create other levels of security so that they are not entirely dependent on one particular expression and experience and lifestyle, and so that they have within their own

consciousness, a greater sense of self-worth and self-confidence, regardless of the potential conflicts which may come.

This Awareness indicates that as individuals, it is necessary that entities think about their own potential for survival, that there have been entities with no greater skills or power than a mere savage who have survived off of the land and lived long lives. This Awareness indicates there have been entities who have not had even the first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh, or twelfth grade education who have survived upon this plane and have lived happy and long lives. There have been entities who have not had their Porsche, their Mercedes Benz, their Model A Ford, their carriage, their horse, or any other means of travel, who have survived upon this plane and have lived long and relatively healthy lives. There have been entities who have not had their fancy suits, clothes, make-up, and their ward-robe and stylish paraphernalia, who have survived long and happy lives. There have been entities who have not had their pizzas, their steaks, their sandwiches, their desserts and drinks, who have lived long and happy lives. There have been entities who have not been entertained by clowns, actors, or court jesters, who have still had happy lives.

This Awareness indicates there are entities who have not experienced knowledge of world affairs, who nonetheless have survived and lived relatively happy lives. This Awareness indicates therefore, one's lifestyle, though it may be of extreme and valuable meaning to an entity, needs not be considered as the crux of one's security, for an entity may also alter values, if necessary, and have a different set of values as one's security. This Awareness indicates that it brings these concepts out not to encourage entities to give up their present lifestyle, but to encourage entities to have a greater sense of security, even though the present lifestyle be altered.

This Awareness suggests the security not be dependent on your present familiar territory, the maze, the pattern of behavior, the familiar rut and the buttons which give you your rewards. This Awareness suggests that your securities be transferred into a greater concept and lifestyle, and recognize your present experiences as luxuries within that other lifestyle. This Awareness indicates that in this manner, entities can begin to feel secure, even when threatened with having their personal identifications and their ruts taken from them. This Awareness indicates that this feeling of security is that which is extremely important during times of crisis, the inner security is that which may become necessary in allowing one to keep one's sanity.

AWARENESS DESCRIBES "THE ULTIMATE SECURITY"

This Awareness suggests that the ultimate security which an entity can experience lies not in material things, regardless of whether these are of a poverty level or whether these are of a luxury level; the ultimate security which an entity can experience is when the entity identifies himself or herself as a portion of consciousness which is tied by eternal love, by eternal physics, to the consciousness of the universe itself, wherein an entity recognizes oneself not simply as a physical body, but wherein the entity recognizes oneself as a spiritual being having a physical body. This Awareness indicates that this is similar to the entity who looks at his physical body,

recognizes his physical body has a hand: the hand is not the entity, the physical body is not the entity, for the entity is what the entity is, and wherein the entity recognizes that the consciousness is that which is the essence of being, and that consciousness permeates the universe and is the essence of life, then the physical body simply becomes an attribute or an appendage of the True Being, and the entity needs not be insecure, unnecessarily so, in regard to the physical apparatus, for the entity will know that the spiritual, or Consciousness Being, is ever tied to the Universal Consciousness and can never be destroyed.

This Awareness indicates that the only way such consciousness can be destroyed is from the entity's own dissipation of self; wherein the entity dissipates his own identity, his own sense of self, and wherein the entity becomes so involved in destructive focus toward others, then in time, the entity turns that force toward himself, and begins to dissipate himself. This Awareness indicates that for those who are not of a destructive nature, or who do not pursue that path to that degree, the eternal life of the spirit is that which is assured, and the sufferings of the spirit is that which builds and creates the soul, or the magnetic center of the spirit which is called the soul, and which holds the entity together between lifetimes of various degrees of physical involvement.

This Awareness indicates that even as these identifications with spirit and with the soul become necessary in order to find security of the ultimate nature, it also is necessary to attend to the physical needs as though these were of utmost importance, in the same manner that an entity in a physical body tends to the clothing and attire which he or she wears, in order to fit the role which he or she wishes to play. This Awareness indicates the physical attire or the physical body, are simply the costume which the soul or the actor wears in order to perform the action, the act, or the role which he or she chooses to perform at a given time. This Awareness indicates that as an actor must take care of the physical attire, likewise the soul must take care of the physical body.

This Awareness indicates that when the role is complete and the costume is no longer necessary, it may be placed into the coffin, or discarded and thrown away. This Awareness indicates that in reference to the present changing times, and intensities, this Awareness wishes to assist entities in keeping their lives and consciousness in perspective in relation to the events which may occur, which will occur, and are subject to the alterations that are occurring in consciousness. This Awareness indicates wherein entities during the past have asked this Awareness many questions, mostly questions regarding material concepts, material needs, personal interests, personal finances, personal relationships, things which are important to this particular sojourn on earth, and wherein this Awareness has given entities much information in regard to the forces: political, economic, social and interpersonal, this Awareness wishes also that entities not forget the importance of the relationship between the soul and the essence of the universe, the Universal Consciousness.

This Awareness indicates that it is time that entities begin to shift much of their attention to the identification with the Universal Consciousness, rather than with their personal material identifications. This Awareness indicates that while the material should continue having the same concern as in the past, this Awareness asks also that you create new concern, new awareness, new energies which you may link into the Universal Consciousness

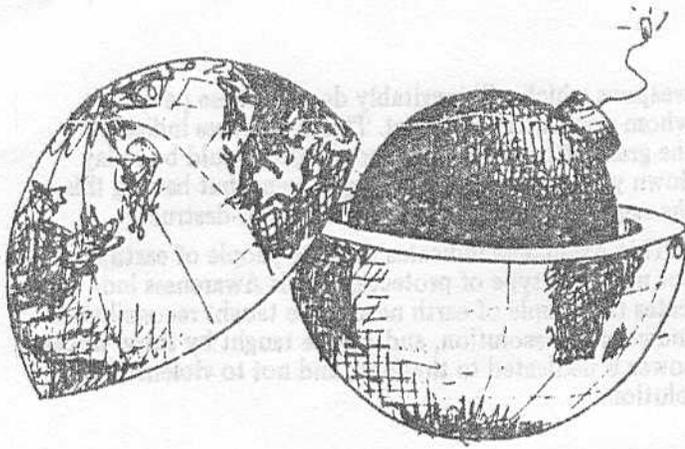

levels. This Awareness does not ask that you ignore the physical needs, the material needs, and transfer your energies into the spiritual areas, but rather that you create new spiritual energies, identifying with the spiritual energies of the universe, drawing from those spiritual energies enough force and energy to attend to the material needs.

AWARENESS IS EITHER TOO LIGHT OR TOO HEAVY
... IT CAN'T PLEASE ALL C.A.C. MEMBERS

This Awareness indicates that in reference to the members of *Cosmic Awareness Communications*, there are many entities who feel that the information which this organization releases is too serious, or as some say, "too negative, too frightful," while others indicate it is too bland, and there is not enough excitement and not enough information being released, and that they feel this Awareness is holding back information which should be given. This Awareness indicates that some entities perceive that this Awareness as expressing a negative view of earth society and should express something more uplifting. This Awareness indicates that other entities feel that this Awareness is not giving forth all of the information which they would like to have in order to assess the realities which they must face.

This Awareness indicates that this Awareness speaks that which is of urgency to entities, according to their general ability to accept and act and become aware of the information which this Awareness gives. This Awareness indicates that were you a more highly evolved civilization, this Awareness could give you information which would be of most profound and enlightening nature, in terms of concepts which you have never considered or imagined. This Awareness indicates were you less inclined to materialism and self-preservation, this Awareness could give you information which would be most enlightening in terms of your future and the events which will come. This Awareness indicates however, the general consensus of the human condition upon this planet at this time is such that the information would create almost as great a crisis as would the events which may follow.

CHANCE OF A NUCLEAR WAR STANDS AT 40%
DR. BETER'S SCENARIO IS 85% ACCURATE

This Awareness indicates therefore, often entities must be kept in ignorance in order that they may learn from experience, for entities cannot accept that which they cannot accept. This Awareness indicates that the question has come up as to the likelihood of nuclear war occurring upon this planet during the summer of this year, 1982. This Awareness indicates that when this Awareness gave *Its* earlier predictions for the year,* *It* brought entities up to approximately mid-summer, and indicates that *It* would not give further information at that time. This Awareness indicates that even at present time, this Awareness cannot give predictions in regard to the further events of this year other than to indicate that in levels of probability, this Awareness sees intense conflict with the potential of nuclear war being approximately 40% at this time,---the information given by the entity Dr. Beter as that which is of approximately 85% accuracy in terms of the plans and the details regarding this program.

*Revelations of Awareness No. 82-1
(What's Ahead in 1982):\$2.00 from
C.A.C.

This Awareness indicates that there are however, certain unforeseen forces and events which occupy approximately 60% of the probability, whereby these forces will create certain substantial changes, so that the events foreseen, according to the plan revealed by Dr. Beter, as that which will not occur as indicated. This Awareness indicates however, considering these forces at this present time, moving in a direction, having approximately 40% energies moving toward the probability of a nuclear confrontation between the United States and Russia, to occur in mid-September, and a 60% probability that this will be defused between now, April, and that time in mid-September, entities can expect that during the process of moving in this direction, changes may occur to alter these probability percentages, and also to alter the very effect of the prediction so that even if it does erupt, it may erupt in brief intervals, encounters of a less significant nature prior to, or along the way to that time, or if at that time to a degree that is less than the predicted potential, and strung out over a longer period of time.

This Awareness indicates that *It* recognizes the previous sentence as having been difficult to follow, and will attempt to summarize in a different way. This Awareness indicates that it appears, from the energy at present, which may of course alter, depending on circumstances and the changing of consciousness, but it appears from the energy at present that there will be

enough force to alter and prevent the predicted nuclear holocaust from occurring to the degree that has been indicated by the information given by Dr. Beter. This Awareness indicates that it appears also however, that entities will not escape scot-free, this in reference to the concept of the general condition, rather than in reference to particular individuals.

This Awareness indicates that you as a particular individual *may* escape scot-free from any involvement in what may occur. This Awareness indicates that others may not. This Awareness indicates that the energies are such that there will be some degree of chaotic experiences which can alter to become greater or less, depending on the changes which occur in consciousness in reference to the mass mind of entities upon this planet, as well as to those who are involved with manipulating those energies.

This Awareness indicates that still another force which has not been mentioned in regard to the destiny of this planet is that force from the inner planes which is essentially pulling the strings of the manipulators and others. This Awareness indicates that even as manipulators on this plane manipulate the masses, so likewise there are what may be termed 'political manipulators' on the inner planes who have their effects on entities of the physical planes. This Awareness indicates that these forces are also on the march, are moving to have their effect, and part of that movement requires a shock in consciousness, or a series of small shocks.

A SHOCK IN CONSCIOUSNESS MUST OCCUR
(CONSCIOUSNESS AT THIS TIME DEMANDS CONFLICT)

This Awareness indicates that the question is whether the shock in consciousness required to awaken the masses on this earth plane needs to be of great magnitude, or whether the masses can awaken from a series of small shocks, what may be termed conventional wars, or conflicts. This Awareness indicates that the consciousness on this plane demands conflict, and will not in many cases, awaken until experiencing such conflict first-hand. This Awareness indicates the masses upon this plane tend to be fascinated by the images of conflict, the arena of gore, slaughter, killing, violence and other forms of conflict, and the entities seeking to saturate themselves in the bloodlust, flock to movies or to any situation: automobile accidents, fires or fights, wherever this conflict may present itself, and these entities being fascinated at the sight of other people's blood, make up the greater portion of consciousness upon this earth plane.

This Awareness indicates therefore, it appears that the necessity for letting such entities saturate themselves in their own gore, their own blood, their own sorrow, their own tragedy, their own losses, until they have fully had enough; it appears that this is what must occur in order for the bloodlust to be satisfied. This Awareness indicates that those entities who have risen above such levels are those entities who may be spared the greater tragedies of such experiences.

This Awareness indicates that for those who wish this Awareness to give more entertaining and uplifting messages, this Awareness offers *Its* apology for speaking what *It* sees to be the truth, according to the necessities of the moment. This Awareness suggests also, that humanity apologize to this Awareness for creating such tragedies in consciousness that requires this Awareness to address such issues.

This Awareness indicates that there are many ways whereby entities can perceive the changes from a violent species to one which is peaceful. This Awareness indicates that great teachers have long stressed the importance of peaceful solutions to conflicts, and martyrs have layed down their arms, or refused to take up arms against oppressors, and these martyrs have had little effect other than to suffer and satisfy certain glorifications of those who sought power. This Awareness indicates that the masses whose tongue is generally silent, the masses who cannot give orders, the masses who can only whimper and cry, the masses who speak in disconnected voices, who are the subjects of the great tongue of the Beast which is organized as a machine for chewing up and spitting out the lives of entities upon this plane; the masses have little force in dealing directly with these powers.

COSMIC AWARENESS ADDRESSES
 THE TONGUE OF THE BEAST:
"COMMIT SUICIDE!"

This Awareness at this time wishes however, to serve as a tongue for these masses and to speak directly to the tongue of the Beast and to give suggestions for that Beast to follow, speaking for the masses upon this plane, this physical plane. This Awareness addresses the power, the force which holds power of life and death over the masses upon this plane, and suggests that this force, if it cannot exist as a civilized being on a civilized planet, living in harmony as a group of civilized persons; if this force cannot behave in a manner suitable for civilized and harmonious people, this Awareness then suggests that this force exhibit some form of nobility other than the slaughter of innocents and the glory of wallowing in their blood.

This Awareness suggests rather, that this force exhibit some form of noble action and turn upon itself and destroy its own self, rather than destroying the lives of innocents. This Awareness suggests that those forces within the military who would make war on others at the expense of innocents, that those forces in this country of the United States, in the country of Russia, in every country of the world which would make war upon innocents,---do something noble and turn upon yourself and commit suicide in an action of trade-off in percentage levels, whereby for each entity of the opposing force who commits suicide, that there also be a proportionate percentage of this force which also commits suicide and therefore the diminishing of these war-mongers and forces in the most noble act of all, other than laying down their arms and living peacefully, can occur in such a manner as to allow innocents to continue to exist upon this plane.

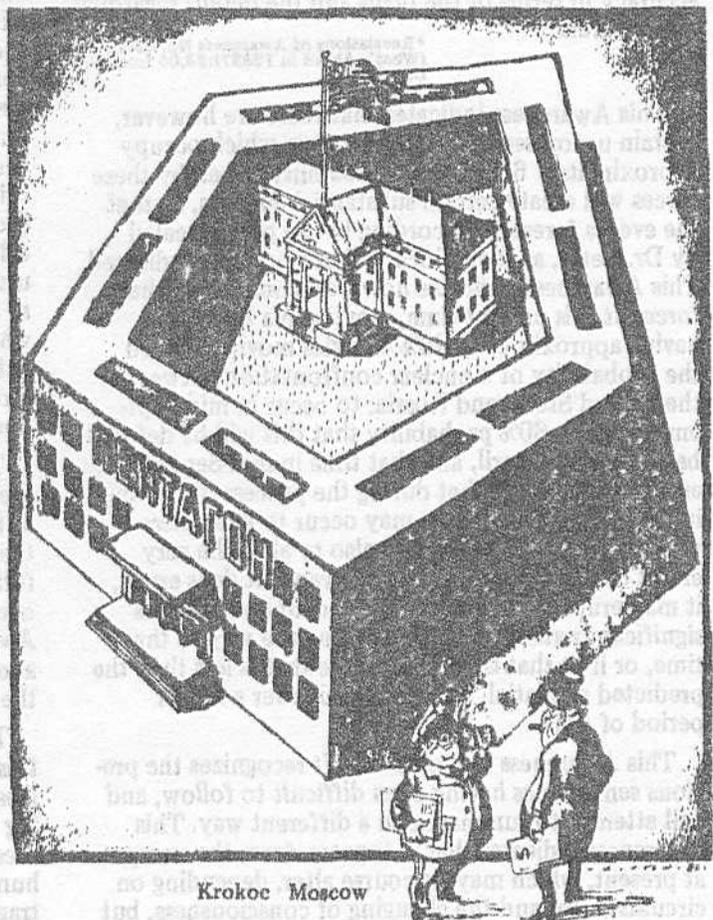

This Awareness indicates that *It* suggests that a disarmament can be effected, whereby percentages are considered and each opposing force reduce its armament 1% of its total in conjunction with the reduction of 1% of the opposing force. This Awareness indicates that other than disarmament, whereby the forces find ways to negotiate a reduction of threatening weapons, this Awareness suggests that the entities involved whose consciousness is lying prostrate to the Beast of power, or war, of vainglory; that these entities turn their hatred toward themselves in self-destruction and leave the masses alone. You are not protecting the peace loving people of the world when you are creating endangering

weapons which will inevitably destroy these people whom you *claim* to protect. This Awareness indicates the greatest protection you could give would be to lay down your arms in a mutual agreement, but barring this, the next most noble act would be to self-destruct.

This Awareness indicates that the people of earth do not need this type of protection. This Awareness indicates the people of earth need to be taught reconciliation and conflict resolution, and *can* be taught by those whose power is dedicated to that end, and not to violence as a solution.

This Awareness indicates that you may title this lecture, *The Eve of Destruction*. This Awareness suggests you quote the song in reference to this title. This Awareness suggests the Interpreter be brought from trance.

ED's Note: When Paul sat up from trance, he whistled through his teeth and whispered, "Even though Awareness suggested suicide to the war-mongers, it appeared from the energies I saw, to almost be a command."

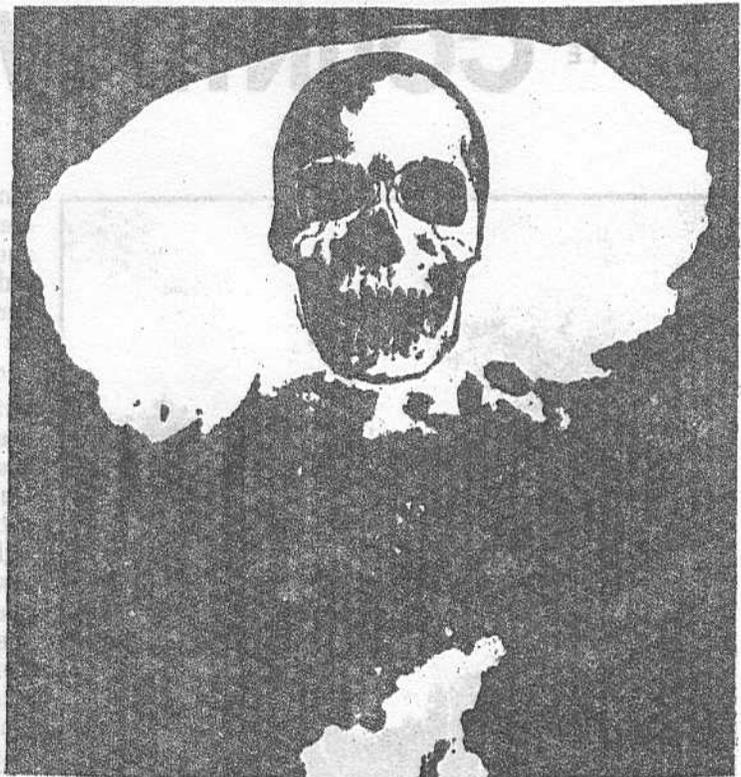

Krokoc Moscow

ED's Note: April, 1982 Dr. Beter Audio Letter (No. 73) included much heavy information. Dr. Beter is absolutely positive nuclear war is coming in the fall of 1982 and nothing short of a miracle can prevent it. Briefly, his latest tape revealed that the Space Shuttle Columbia, fully armed with laser-beam weapons etc. did not get destroyed this time like those previous space shuttles, but was able to complete its deadly mission in space and return. This means much to the Pentagon Bolsheviks. Also, Dr. Beter revealed a new secret weapon has been brought into play by the Bolsheviks, who are hell-bent on laying a first strike upon the Soviet Union this fall. This new secret weapon utilizes Einstein's Unified Field Theory, whereby a magnetic field can be placed upon and around bombers, loaded with nuclear bombs, and these planes then become invisible and can fly into Russia undetected and do their evil work. Both radar and laser weapons are unable to bounce off this invisible force field, but simply go around the flying object and then continues in a straight line. This same principle of invisibility was explained by Awareness in 'Revelations of Awareness' No. 80-9 (\$3.00 from C.A.C.) in regard to the U.S. Navy project "Invisibility" during World War 11, wherein the destroyer USS Eldridge was made invisible by the use of Einstein's Unified Field Theory. This was later known as the "Philadelphia Experiment" and a number of books have been written on this subject.

With the Space Shuttle Columbia now being able to give the Bolsheviks the reconnaissance needed to track the nuclear sites and launchers in Russia, these invisible bombers can be launched and a first nuclear strike can be accomplished against the Soviet Union. This is now planned for September of this year.

C.A.C. members who are not already subscribing to the Dr. Beter Audio Letter are urged to do so. We suggest you most certainly obtain this latest Audio Letter No. 73. You can do so by sending \$7.00 to the Dr. Beter Audio Letter, Suite 5092, 1629 K Street NW, Washington, D.C. 20006.

At the request of Cosmic Awareness, your editor includes below the lyrics to the song, "Eve of Destruction". Written by P.F. Sloan, it was made famous by Barry McGuire in 1975, shortly after President Kennedy's confrontation with the Russians over their attempt to import missiles into Cuba and the subsequent Bay of Pigs fiasco. This is a terrific rock song, sung with a passion and a snarl about the conditions of that time. However, with Reagan dismantling 20 years of civil rights legislation, and the Pentagon creeps again about to incinerate the world, this song is just as timely today as it was almost 20 years ago. If you haven't got this classic in your collection, you ought to. Check out the "Golden Oldies"--it's on quite a few of them. I have the original disc, No. 5003 Dunhill Record album, distributed by ABC Paramount Records, Inc., which also has the copyright to the following lyrics.

EVE OF DESTRUCTION

The Eastern world, it is explodin'
 violence flarin', bullets floatin';
 You're old enough to kill, but not for votin'
 You don't believe in war, but what's that gun you're totin'?
 And even the Jordan river has bodies floatin'; but ya'
 Tell me, over and over and over again, my friend,
 Ah, you don't believe we're on the eve of destruction.

Don't ya' understand what I'm trying to say?
 Can't you feel the fears I'm feeling today?
 If the button is pushed, there's no runnin' away---
 There'll be no one to save with the world in a grave.
 Take a look around ya', boy; it's bound to scare ya', boy; and ya'

Tell me, over and over and over again, my friend,
 Ah, you don't believe we're on the eve of destruction.

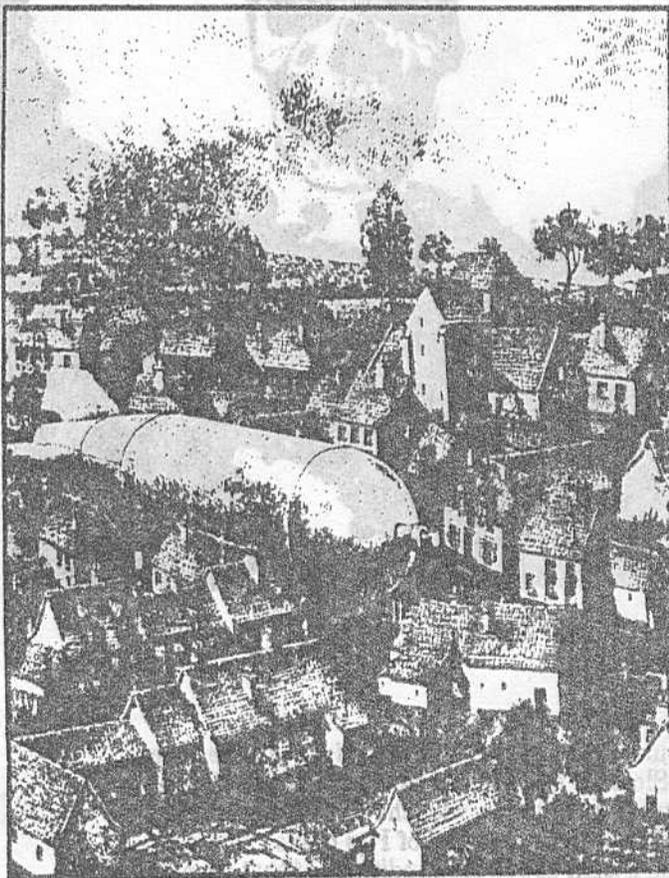

Yeah, my blood's so mad, feels like coagulatin';
 I'm sittin' here just contemplatin';
 I can't twist the truth, it knows no regulation;
 Handful of Senators don't pass legislation,
 And marches alone can't bring integration;
 When human respect is disintegratin'---
 This whole crazy world is just too frustratin'; and ya'

Tell me, over and over and over again, my friend,
 Ah, you don't believe we're on the eve of destruction.

Think of all the hate there is in Red China,
 Then take a look around to Selma, Alabama.
 You may leave here for four days in space,
 But when you return, it's the same old place---
 The pounding of the drums, the fright and disgrace;
 You can bury your dead, but don't leave a trace;
 Hate your next door neighbor, but don't forget to say grace; and

Tell me, over and over and over and over again, my friend, you
 don't believe we're on the eve of destruction. No, no, you don't
 believe we're on the eve of destruction.

THE COUNTDOWN TO ARMAGEDDON?

OPENING MESSAGE

(C.A.C. General Reading No. 2, April 8, 1982)

BILL SHEPPARD'S ERROR IN PERCEPTION

This Awareness indicates that there is an issue which has been recently introduced within the energy field of the Interpreter, the *Cosmic Awareness Communications* headquarters and also to a degree, among certain members of the organization. This issue as that which does need to be looked at and addressed so that energies on this level can be clarified and harmonized as much as is possible.

This Awareness indicates that this issue as that which relates to energies associated with the entity Bill Sheppard in relation to his particular channel and areas of concern to this entity and his frame of reference, and his subsequent withdrawal from *Cosmic Awareness Communications* and his continued efforts to communicate certain concepts with various parties of the organization, while refraining from direct communication with the headquarters personnel.

This Awareness indicates that in reference to this energy, this entity Bill Sheppard as having been one who can present information through the channeling process which is of a high and provocative nature, assisting entities to think deeply and to probe concepts through a

sense of purity and willingness to set aside personal interests and delve deeply into what is considered right, and the right thinking about concepts. This Awareness indicates the entity having as a strong attitude in his particular frame of reference, the attitude of seeking to be right, to do right, and to see that which is right.

This Awareness indicates that this entity seeks truth, but not at the expense of not being right. This Awareness indicates that there are certain twists in consciousness wherein entities can prefer to be right than to see truth. This Awareness indicates that this can be extremely subtle, particularly wherein an entity, in seeking to be right, also seeks that which is right, which is truth. This Awareness indicates that the slight coloration in this channel as that which has created a kind of distortion in the energy field associated with the *Cosmic Awareness Communications* organization and its relationship with this entity, so that there appears to be a kind of conflict when, in reality, no conflict actually exists, except in the slight distortion which this entity perceives as being present through his particular frame of reference.

This Awareness indicates that the entity's channeling as that which is of great value, and wherein this could be allowed and supported by entities, this could also be of great value in terms of allowing messages to flow through this channel, through certain currents and to assist in opening this frame of reference for others to learn by. This Awareness indicates that the entity appears to have misunderstood certain signals in relation to having his messages dropped from the *Cosmic Awareness Communications* mailing, the action as that which came about at his own request and as a result of feedback from members; yet, the entity in leaving the organization, experienced certain feelings of incompleteness, which the entity sought to complete without complete communication.

This Awareness indicates the entity not giving any further address whereby he could be contacted, nevertheless communicated without return address, information portraying his frame of reference and his presumed opinion relating to concepts he believed were held by *Cosmic Awareness Communications* and entities involved. This Awareness indicates without the dialogue, these concepts could not be discussed. This Awareness indicates that thereafter, communications flowed between this entity and others in Argentina, Hawaii, Kentucky, and in other places in which this entity continued his expression of his opinion in regard to errors he perceived in the channeling through this Interpreter and through *Cosmic Awareness Communications*, and also through the messages he perceived to be in error from Dr. Beter.

This Awareness indicates this has created many energy levels which are building in certain areas but which cannot be addressed through the means of communication because essentially, this entity, by withholding his address is not speaking, or not listening. This Awareness indicates the entity is speaking to third parties, but will not allow direct communication to him. This Awareness indicates that yet the entity is extremely concerned that the *Cosmic Awareness Communications* organization and Interpreter are negligent and failing in their

mission, and the entity believes that this failure will cause total chaos upon the earth, and in this manner the entity points the finger of blame to this organization and the Interpreter for all the ills which may befall this planet.

This Awareness indicates the entity believing that the Interpreter has a particular and special role, and is negligent and failing to fulfill that role, and therefore is to blame for the chaotic conditions which the entity perceives as a result of that negligence. This Awareness indicates that the entity has received support for some of his ideas from others who he has been in contact with, and this has created certain distortions in the energy field through which this Awareness must function. This Awareness indicates also, the entity has certain basic presumptions and premises which he builds his arguments on which are in fact invalid.

HOW DR. BETER GETS HIS INFORMATION
....some of it, that is.

This Awareness indicates the entity, for example, argues that Dr. Beter's channel has been interrupted and influenced by certain Russian electronic devices and energy fields so that the entity is operating under a particular screen of illusion when he channels his information. This Awareness indicates the argument appears to be interesting and difficult to disprove except for the fact that Dr. Beter does not channel his information, he rather gathers information from intelligence sources of a factual data, and presents this information in a manner which may sound as though it is channeled and of a psychic nature, but which in reality is the report of an entity who is watching history unfold and presenting his report of those historical events and facts as history unfolds.

This Awareness indicates this entity, Dr. Beter, as one who has established himself in certain circles as a man of extreme integrity, willing to lay down his life in order to present the truth of what is occurring to those who are willing to hear. This entity has many who are involved in the Intelligence agencies in the military and in political circles who give information to him, which he checks carefully by double checking or triple checking with other sources which have been proven reliable, and when the information is substantiated, the entity may choose to release this information on his tapes.

This Awareness indicates the entity does not release all of the information he has available for it would be more than most people on this plane could accept. This Awareness indicates however, the entity does release that which he feels is necessary to allow people to know what is actually occurring and his frame of reference is taken from the bird's eye view, the crow's nest, the peak of the power, whereby he peers into and is given information from the sources on the physical plane, the government levels, the secret planners,--given information which he presents as hard evidence and hard fact, rather than psychic information. This Awareness indicates that the entity Bill Sheppard, in misunderstanding this has created some confusion in regards to his frame of reference as it relates to his assumption that Dr. Beter has been channeling under the liability of a screen of illusion which has been presented by the Skoptsis.

This Awareness indicates likewise, the presumption of Bill Sheppard that *Cosmic Awareness Communications* advocates freedom from morality. This Awareness indicates the entity as having a strong frustration in regard to this concept. This Awareness indicates the entity again is operating from a faulty premise, in that the *Cosmic Awareness Communications* organization, and the mess-ages, have never advocated freedom from morality. This Awareness indicates that *It* at one time indicated the concept of freedom *OF* morality, whereby entities could choose their morals, not from tradition, but from the concept of doing what is right.

This Awareness indicates that *It* gave the indication that freedom of morality, so long as it harmed no other, should be considered. This Awareness indicates that the concept "so long as it harms no other," actually puts a greater restraint on behavior than does the Ten Commandments when used as a guide for morality. This Awareness indicates the Ten Commandments have long been used as a guide for morality, yet those who profess to follow the Ten Commandments still kill, still abuse others, and still break all of the rules. This Awareness indicates that the concept of creating a rule automatically implies the potential for breaking that rule, and the only way whereby entities can reach a level whereby rules are not always being broken is when entities become sensitive enough and understanding enough that the rules are not even necessary.

This Awareness indicates there *are* entities who do not need laws preventing murder, because they would not murder anyone anyway. There *are* entities who do not need laws preventing theft, for they would not steal from their neighbors anyway. This Awareness indicates that so long as entities believe they are controlled by laws, they do not take on the responsibility of inner guidance and inner controls. So long as entities believe that the laws against murder prevent them from murdering, they will always wonder if perhaps they might be of a nature to commit murder.

This Awareness indicates that therefore, the concept presented to entities who have been acquainted with higher levels of consciousness, to think in terms of freedom of morality, freedom to *choose* morality, freedom to choose morality that does not harm another. This type of concept as that which has a freeing action, freeing the soul so that it needs not have that suggestive force that *if* the entity had such freedom he would go mad and kill, pillage, or rape. This Awareness indicates that wherein entities follow the *Law of Love*, they need no laws of morality, they need no conventional social guidelines, they simply are sensitive enough, even as a small child, sensitive enough to recognize when they are infringing in the wrong territory or going too far in the wrong direction, or stepping on someone's toes.

This Awareness indicates that the small child is not concerned about morality until taught to be concerned about morality, yet the child learns from experience that to do this to that person results in a reaction which the child does not enjoy, thus the child begins to learn from experience, and the rules are not the teacher. This Awareness indicates the child will tend to break rules until the child discovers that the experience of breaking a rule is unpleasant. This Awareness indicates in this manner, morality is *instilled* in entities. This Awareness indicates that *essentially* it is behaviorism, and has little to do with awareness.

This Awareness suggests that when *It* spoke of freedom *OF* morality, which is quite different from Bill Sheppard's assumption that *It* meant freedom *from* morality, when *It* spoke of freedom of morality, *It* was attempting to assist consciousness to recognize the sensitivity levels of relationship rather than the mere rules of relationship. This Awareness indicates however, it may be too early in human evolution to expect sensitivity in relationships, and perhaps for many, Bill Sheppard's concept as that which is still timely, whereby entities should have rules dictating morality.

This Awareness indicates that *It* would at this time, request that this entity communicate directly with *Cosmic Awareness Communications*, giving an address of one whereby the entity could receive reply from *Cosmic Awareness Communications* so that a dialogue can occur. This Awareness indicates that this would assist in clearing certain distortions that have occurred in the energy fields through which this Awareness communicates.

ED's Note:

If Bill Sheppard should communicate with any of you C.A.C. members out there, leaving a forwarding or return address, please mail him a copy of this reading. (We will send you a replacement if you write and tell us.) As a matter of fact, yesterday, we received a letter from Bill (no return address, but postmarked San Francisco), stating that he had finally come down to earth and could see things now from a very different frame of reference--the grounded common man.

For more information on the Ten Commandments, please refer to "Revelations of Awareness" No. 81-26 (The Ten Commandments; How Jehovah Kept the Clones Confused); \$3.00 from C.A.C.

CAN ARMAGEDDON BE AVOIDED?

.....ANOTHER LETTER FROM BILL

QUESTION:

I had a letter that was forwarded to me from Bill Sheppard. It's relatively short; four pages; and I had intended to read this later on and ask Awareness to comment. I wonder if it would be appropriate to read that letter now?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative.

QUESTIONER:

This letter was sent to an ex-member, Carla, and he says:

"Dear Carla: I received your letter of Feb. 27, which was forwarded by General Delivery. I'd like to explain the nature of the distress which you have sensed. It is not a personal distress or a personal need of any kind, but is the travail of the planet, which I feel building up with great rapidity on the inner plane. Since we "missed the boat" during the "window" which opened during the year 1981, there is no way, absolutely no way, that the Earth will ever enter the Golden Age except through the refining fire of a planetary Armageddon. The last chance for Grace was extended to this planet in 1981, (even if the chances of anyone's accepting that Grace was only one in a billion, it was still extended). And never can it be said that God did not offer every possible opportunity to this world to escape its mass karma.

The distress is that of this world faced with the stark reality that its Armageddon is coming exactly as prophesied. All we have done is pushed Armageddon down the road a few years during the "Phase 1" of the Intercession, which has already closed.

"Phase 2", the Avataric Awakening, which was to occur during the 'window' last year, failed to occur. And with that failure, "Phase 2" was aborted and closed, and the last avenue of Grace disappeared for this planet.

Two or three months ago I sent J.R. some channelings which cover the whole subject in detail, and asked him to forward these to you. The initiation of J.R. as an agent of the White Illuminati did not "take" incidently, and even the White Illuminati, the USofA New-World Government is still totally in limbo.

Nothing but a full-scale Armageddon will ever awaken this place. The best we can hope for now is the scenario given in the Book of Revelation and in Matt. 24, in which there is an 'Elect' or remnant of survivors who repopulate the nuked-out Earth with a Christed humanity and who build the New Age out of the ashes. We must pray that there will be this remnant, and that the Earth will not be totally annihilated like Maldek. This is positively the best we can hope for at this point. And the best service we can render now is to exhort all who will listen to begin preparing for the inevitable,--the visitation of this world's karma to collect her dues. Only those who turn unreservedly to the Source, the God of the 8th plane, will survive in physical form to build the New Age.

That, in a nutshell, is the distress you feel.

The teachings of '888', the Mahakarma, etc., have no meaning or relevance now while maya holds sway. If these teachings ever do have any meaning on this plane, it will be in the crucible of Armageddon, when man is finally interested in knowing his Source. No doubt many of the Wanderers, who persist in sleeping, now will be among the awakened remnant who will begin building the New World.

If enough of this 8th Plane (or 8th Density) material can be disseminated, perhaps it will help the Wanderers regain the intuitive memory of their Source when the hammer of karma falls on this world. Then the White Illuminati, the USofA, etc. can finally be energized to light the heavens with a new star--the reborn Earth. It will be the showplace and "capitol" of this whole sector of the Cosmos--the "City of the Great King",

where the Source becomes perfectly conscious in matter. That is the completing of the octave, where the 8 and the One, the Beginning and the End, join together and God walks fully conscious as Man.

But this awakening will never come except through the purging fires of Armageddon, now that the final 'window' of Grace has closed. The only other alternative is total annihilation for the planet. Human nature is such that it will not turn to the Source until there is absolutely nowhere else to turn. As long as there is "something else" to cling to--the mayic illusion, the 7 planes of the Hierarchy, man will never consider the Source. Only when all else is taken from him will he turn unconditionally to his Creator. Thus Armageddon is the "blessing in disguise" and is necessary for humanity's awakening. Now is man's day of accountability, in which he pays his own karma, having rejected the last avenue of Grace. And there is no more Intercession or "taking the lumps" for humanity, which, from the standpoint of the Source, is nothing more than indulging and sheltering a spoiled child.

Cataclysmic changes are immediately ahead exactly as foretold by the seers and prophets. And the Earth will enter the New Age either as a lifeless cinder or as a new Christed world reborn from the ashes of the old. Let us hop and pray that it will be the latter.

I wish I could give you a more encouraging reply to your inquiry, but this is what I feel in the Etheric Sphere of the planet.

Your brother Bill

P.S. You might forward this letter to C.A.C. if you care to."

COSMIC AWARENESS:

This Awareness indicates that essentially, the channeling from this entity as that which is clear and concise, although it does have certain polarizations which not necessarily as fixed as this entity perceives them. This Awareness indicates that nothing is as crystallized as it appears, and all things are subject to modification. This Awareness indicates that in one respect this entity acknowledged that there are varying degrees of potential outcomes of what entities can expect.

This Awareness indicates that the lamentation of what is perceived as negligence of the Avataric company, or of entities suffering from the veil of maya, this as essentially irrelevant; although it is important in understanding the experience, it is irrelevant when considered in terms of finding fault or who's to blame, or looking back at failures. This Awareness indicates the only thing that IS relevant is whether entities are awake at present, or can awaken, and whether entities can awaken each other.

This Awareness indicates that unless entities can awaken and awaken each other, then the shocks in consciousness which have been prophesied, or other lesser shocks which may be attempted, can perhaps awaken the masses. This Awareness indicates that essentially, karma is that which enlightens or awakens entities to reality. This Awareness indicates that the extent, the suddenness, the impact and the degree of suffering involved in a karmic awakening is that which needs only be great enough to have the effect that is necessary.

This Awareness suggests that this is not the time for entities to think in terms of blaming or negligence or guilt, but this is the time for entities to think in terms of solutions, reconciliations and plannings for more productive and constructive experiences. This Awareness suggests that the hope of the future lies deep within each individual, and is not found by looking for leaders. This Awareness indicates that the authority which can give entities the pure life lies within each individual.

This Awareness indicates the opportunities for future happiness upon this plane find their roots in those authorities within each individual, as the individual pursues a pure life.

THE COSMIC 'WATERGATE' BEGINS

...THE RA-TA CYCLE COMES TO ITS END.

... LEE IAN MICHAELS ENTERS THE PICTURE

QUESTION:

Lee Michaels was here the other day, and indicated he has received some incredible information relating to the institutionalized crystallized structures and their relationship in consciousness in bringing forth the New Age,--this information through his own mediumship. He feels this information is quite significant, and requested that we ask Awareness to look at this and indicate if we should phone Lee and have him come down and ask Awareness a few questions on these matters during this current session, or whether the information should be dealt with at a later date, if at all?

COSMIC AWARENESS:

This Awareness indicates that this entity as having certain contacts through the walls separating dimensions, whereby the entity is capable of communicating with forces in the inter-dimensions, and is assisting these inter-dimensional beings to sort out and to unravel certain policies that have been misused and used in relation to agreements between the material realm and the inner dimensional realms.

This Awareness indicates that this entity as having contacts with certain inter-dimensional political bureaucracies, entities dealing with the inter-dimensional bureaucracies of the hierarchies of various political groups in the inter-dimensional levels, and many of these entities being able to gather more information regarding the affairs on this third dimension, are beginning to recognize some of the mistakes, errors and deliberate manipulations which have been effected upon this third dimensional plane because of political manipulations which have occurred in inter-dimensional levels.

This Awareness indicates that the entity Lee Michaels as essentially having poked a hole in the dike, to allow the energies of the third dimension to be tapped by the fourth dimension, and to allow fourth dimensional beings to communicate through him and through his channels into the third dimension. This Awareness indicates that these forces are essentially being allowed glimpses into varying layers of the onion, the onion being a symbol of the many overlaying dimensions wherein one surrounds the other and is surrounded by still another.

This Awareness indicates that as these dimensions are pierced, and information-gathering occurs on the many dimensional planes and is spread about, it is also creating an awakening within the inner planes so that many entities on the inner planes are becoming aware that this experience on the third dimension, this outer plane, is but a *reflection* of more subtle energies on the inner planes, and that until these energies are cleared on the inner planes, the extreme polarized energies on the physical plane will continue to create chaotic conditions.

This Awareness indicates this realization which has suddenly occurred and is growing in popularity on the inner planes, is essentially putting the responsibility for the physical world in the laps of those entities on the inner planes who have been guilty of setting up political schemes, scams and power seats on the inner plane, in their realm, in such a manner as to create a subtle bureaucratic organization or *hierarchy* that is not run in the highest interest of the plane or its inhabitants.

This Awareness indicates in an effort to explain this more clearly, this Awareness will restate the principle involved. This principle is related to the concept of leverage or harmonics, whereby a subtle energy on the inner planes, when extrapolated into the third dimension becomes extreme, exaggerated and highly polarized. This Awareness indicates therefore, entities on the inner planes in the hierarchy levels who are not living in the highest idealistic and most principled levels will have their most minute flaws exaggerated into the energy fields which occur on the physical plane.

This Awareness indicates that this realization has occurred among many in the bureaucracies of the inner planes and is creating what may be similar to or analogous to the experience of a scandal, a political scandal on the inner planes. This Awareness indicates this may be referred to as an experience similar to Watergate, except that it is occurring in psychic levels in inter-dimensional experiences between cosmic bureaucracies, rather than on the physical plane. This Awareness indicates that as the repercussions from these energies and the scandals and the upsets and dismissals occur on the inner plane, there will be experienced on the physical plane, complete shifts of power, whereby entities who at one time may hold great power will find that due to a withdrawal of support from the inner planes, at another time they are totally deserted and without power.

This Awareness indicates that there have been forces on the inner planes who have, due to certain contracts and agreements, been supporting forces on the physical plane which are not harmonious to the good of all. This Awareness indicates essentially, many of the errors which have occurred on the physical plane are due in fact to mismanagement on the parts of entities on the inner planes. This Awareness indicates the entities who assisted in setting up the laws and rules governing the physics of the inter-dimensional experiences in this universe, in many instances turned over their control to sub-contractors, persons who were supposedly hired to carry out the maintenance of the laws and procedures that had been established, but in many instances, corruptions among those sub-contractors occurred in such a manner that many entities of various cultures and of various experiences were deceived, manipulated, used or harmed or rewarded, according to the desire of the sub-contractors.

This Awareness indicates that this realization has essentially begun to rock the foundations of consciousness in the inner planes, and will have its effect upon the physical plane as this is moved to its climax. This Awareness indicates that it is because of this occurrence and the events which are occurring on the inner planes, that many of the frantic energies on the third dimensional plane are set in motion at this time, and will result in actions which are somewhat unpredictable, due to the overall movement of so many inter-dimensional energies.

This Awareness indicates that to put it another way, a lightning bolt, or consciousness bolt of enlightenment, has begun and a storm within the realm of consciousness which permeates through all of the inter-dimensional realms, sending shock waves throughout the universe of consciousness is in motion, is in fact the Armageddon, and is to have its completion in one manner or another, depending on how quickly consciousness awakens and shifts its energies into movements creating harmony and reconciliation, even at the cost of personal interest or position.

This Awareness indicates that wherein there are entities throughout the universe who are holding their personal gains and positions which have been accumulated at the expense of deception, at the expense of corruption, and wherein these entities refuse to give up their accumulations in order to move into harmonious positionings in consciousness, these are the forces which are being shocked and struck by the electrical currents of consciousness, and throughout the inter-dimensional realms these entities shall be removed, awakened or electrified by the events which are in motion.

This Awareness indicates the entity Lee Michaels as being capable of channeling much information and of energizing channels who can assist in drawing forth more information in regard to this situation. This Awareness indicates that there is that which is a force that has awaited for approximately ten thousand years on this plane to be set into motion. This Awareness indicates this force as that which is associated with the Ra-Ta project of ancient Egypt, and these forces or energies now in motion are essentially the gathering consolidation of the energies which were placed within the mummies of that ancient experiment.

This Awareness indicates that essentially these entities who were mummified had been placed in hypnotic trance levels, whereby they were in tune, in touch with entities, beings from other dimensional vibrations, and these entities entering into the potential mummy during that state of trance whereby the entity was put into deep hypnotic states, and the inter-dimensional being entered into the entity's consciousness as one who is in possession, but still connected to another dimension. These forces entered into and shared the body of the one to be mummified, creating a composite of inter-dimensional beings, all in one mummy, the mummy being a physical body, which was then crystallized by certain substances and the consciousness of these beings was frozen and locked within the cells of those mummies, to be held for some ten thousand years while the dark cycle passed, leading to this age of Aquarius, and the time for enlightenment.

This Awareness indicates that at this time, the consolidation of the mummies, those entities who had been mummified for this particular action, is that which is now in motion. This Awareness indicates this began

approximately one year ago, and with the assassination of Sadat, came into focus in such a manner as to gain intense momentum. This Awareness indicates the Interpreter for this Awareness as one who was under contract to pass over and join the consolidation of mummies and that force, but this entity as having moved into directions other than that which was his primary purpose, particularly the action of being a channel for this Awareness, and it was determined that this entity would remain on this plane and continue to serve in this capacity and to serve the consolidation through whatever means might be necessary while on this plane.

This Awareness indicates that of the entities who were mummified for this particular experiment in consciousness, the present Interpreter as the only one who now resides in a physical body, the others having returned for the consolidation. This Awareness indicates that this action as that which shall have its effect upon the geophysical realm, shall have its effect upon social realms, and shall have its effect in consciousness in general, and is now in motion and gaining momentum, and as these upheavals occur, changes in consciousness will be experienced by the masses, and the great awakening into the fourth dimensional realities as that which will follow.

This Awareness indicates that the energies from these movements of the consolidation of mummies is that which is in control of the minds and hearts of the powers which operate the weapons of war. This Awareness indicates that these forces shall utilize these minds and hearts of these entities to awaken the masses so that the fourth dimension, the consciousness of life as opposed to the consciousness of materialism, emerges supreme,

...THE COSMIC WATERGATE:

ASCENDED MASTERS MAY BE ABOUT
TO SOIL THEIR ROYAL TROUSERS

QUESTION:

Would Awareness indicate if Lee should be contacted and come down during this session and ask a few question on this subject?

COSMIC AWARENESS:

This Awareness indicates that this in the affirmative, according to his inclination.

QUESTION:

One question in regard to this celestial Watergate: Will this also affect these entities that call themselves 'ascended masters', and the hierarchy structure?

COSMIC AWARENESS:

This Awareness indicates it is essentially this area which is in part being shaken up. This Awareness indicates however, that in most instances, the problems which have occurred in the hierarchy levels are those which began eons ago during the early development of civilizations on this plane and which have progressively grown worse, simply because of the initial problems rather than because of deliberate neglect or man-

ipulations within the hierarchy system. This Awareness indicates it rather is that these errors in the original programming have only recently been discovered and that these discoveries are being recognized as having profound effects in upsetting the general balance of life on the physical plane especially, and on the inner planes, to a lesser degree.

This Awareness indicates that this is similar to an action whereby a computer makes a mistake every so many transactions; even though the mistake may be only one percent in error, over a long period of time the mistakes accumulate until all of the books and records and agreements are completely in error and the degrees of error are great. This Awareness indicates that similarly, on the inner planes, the slight errors wherein certain forces manipulated and stole and used others without scruples and honesty in their dealing, these errors of the past have, over a period of ten thousand years, created great imbalances and extreme karmic conditions whereby conflicts have emerged of extreme nature.

This Awareness indicates essentially, this experiment initiated in the time of Ra-Ta, approximately ten thousand B.C., and down through subsequent times, this experiment essentially created intensification of polarities to cause friction in human life so that through the friction, the organism would grow and evolve in terms of its soul growth and soul evolution. This Awareness indicates that to this extent the experiment speeded up the growth and development of the souls of entities upon this plane. It also speeded up the development of civilizations upon this plane.

This Awareness indicates that part of the plan also, was to create a force which countered an earlier force that also manipulated and polarized. This Awareness indicates this force being the Rhyee force. This Awareness indicates that the Rhyee force as that which has been caught up with, captured, and is in its death throes, the head already having been severed, and the force which now follows--the Ra-Ta force--as that which is approaching completion, whereby the cobra shall spread its hood and the consciousness shall awaken.

This Awareness suggests the Interpreter be brought from trance.

For more information on Ra-Ta and mummies, please refer to 'Revelations of Awareness' No.'s 77-8 (\$2.00); 78-15 (\$2.00); 78-16(\$2.00); 79-12(\$2.00); 80-19 (\$3.00).

For more information on ascended masters, please refer to numbers 78-35(\$2.00); 80-8(\$3.00) and the booklet, 'Cosmic Awareness Speaks', page 69 (\$3.00 from C.A.C.).

For more information on what to do if nuclear war should occur, please refer to No. 79-7 (The Eve of World War 11) which has radiation poisoning information;\$3.00 from C.A.C.

For more information on what to do if nuclear war should occur, please refer to No. 79-7 (The Eve of World War 11), which has evacuation and radiation poisoning information; \$3.00 from C.A.C.

ED'S NOTE:

Lee Michaels is an old friend the C.A.C. staff has known for years. He first came around about 10 years ago, contacting old Organization of Awareness members for no particular reason. However, one day we asked Awareness about Lee and Awareness indicated he was a sort of 'fineman' who was going about rebalancing the lines of old Awareness people who had been blown out by the energies, and thus establishing a psychic contact. This question appeared in 'Revelations of Awareness' No. 77-B (\$2.00 from C.A.C.).

When Lee first walked into our office, I thought I was looking at the model for one of R. Crumb's Fabulous Furry Freak Brothers (that weird and famous comic strip of the '60's wherein the Freak Brothers were always getting stoned out of their gourd, while their nemesis, a wily tom cat was always finding their stash of dope and using it for a send box etc.)

Anyway, Lee looked like the large Freak brother: a huge, rotund figure with a large red face and small eyes squinting out from behind thick-lens glasses, and an astonishing pile of kinky hair piled on top of his head. At first glance, I took him for some kind of 'basket case', because when he spoke it was obvious he had some sort of speech impediment. When he started following me wildly around the room as I spoke to him, I was almost certain I had a madman on my hands. However, all Lee was doing, I later discovered, was trying to keep my lips within range of his squinting eyes, so he could read my lips and understand what it was I was saying. Lee was practically deaf and the only way he could converse with others was to read their lips, which he secretly had taught himself to do.

As we got to know Lee, we found out a lot about him. He was born in Port Angeles, Washington 30 years ago; his parents sort of rejected him because he was born with a lot of things going against him. Many assumed he was simply retarded or even imbecilic and rejected him as such. Although Lee went along with this misconception, what he didn't reveal was that he was extremely sensitive and psychic, had the ability to trip into the inner planes, have visions, talk to animals and elementals as well as see auras etc. The entity was also born with an I.Q. of 280 and later classified as a "genius" by psychologists.

He ran away from home at the age of about 10, managed to educate himself by reading (and assimilating the information) in approximately 16 books daily. In order to defend himself from omnipresent bullies, Lee enrolled in karate classes and achieved the 'Black Belt' status. He moved to Seattle where he enrolled in 3 or 4 different classes in various schools and universities. In his quest to understand his various psychic experiences, he checked out every New Age type group in the area and devoured hundreds of books on the subject. Eventually he was led to Servants of Awareness and under the eye of David Worcester, channel for Cosmic Awareness, took the Cosmic Awareness Development Classes and became an official minister of Cosmic Awareness. He also had a personal reading from Awareness who told him, among other things, that he had once been Louis the 14th, King of France.

It was Lee Michaels who contacted Paul Shockley (who was unaware that we had started C.A.C.) and brought this entity to Olympia and was present at the first several trance sessions. After that Lee sort of disappeared, but would bob up 2 or 3 times a year to check in at the C.A.C. office to let us know what he was up to. What he was up to primarily was creating a "medium mill". By the use of hypnosis (which he is a master at) and other psychic energies at his disposal, Lee was able to put entities into trance levels after only a few sessions. These mediums began to channel ascended masters, ancient pharaohs, astral entities and on occasion, even Cosmic Awareness. It is Lee's fantasy to offer this 'Medium Service' to entities and groups who desire particular information. For many of these channels Lee has developed specialties in certain types of information-channeling. For example, technical information, medical information, locating minerals and lost treasures etc.

From time to time, Lee has given us tapes of some of these channels he has developed. Occasionally some of his information was so far out, we checked it with Awareness. One such subject was that of "contracts" on the inner planes. He gave us this information over a year ago as a result of tripping into the inner plane and examining the Great Hall of Records. Awareness confirmed this information in a reading we have yet to publish. Lee also talks to animals. He had a long talk with our hound Siegfried and we discovered that Siegfried was particularly disgusted with us at one time because we kept him inside the office too much, during a time his girl friend down the road was in heat and he had made previous commitments with her to help remedy that situation. Lee spent an entire Sunday once talking about his experiences talking to various animals. Many of these experiences were hilarious and we once asked Awareness if all this stuff Lee told us was true. Sure enough, Awareness confirmed that Lee indeed did talk to animals, and gave considerable information about this phenomenon. (This also is a reading we intend to publish someday).

Anyway, Lee Michaels is our good friend and a very, very heavy dude (if you'll pardon the pun). One day he plans to put together much of his various channelings into booklet form, as well as offer his medium mill service to the public. When Lee gets these things together we will notify the C.A.C. membership in the event any of you have any desire to contact this very far out and very aware entity.

When Lee phoned me a few weeks ago, telling me about what he had seen in his latest trip to the Hall of Records on the Inner Planes, I instinctively felt that this was important information and I promised I would ask Awareness about it the first chance I had. The question and response from Awareness is in this particular special report to the membership. (As the editor, I felt you should know a little something about this remarkable entity before you read any further).

Avaton

THE COUNTDOWN TO ARMAGEDDON

(BRINGING IT ALL BACK HOME)

THE "UNTHINKABLE" ENTERS
THE AMERICAN HOME

(C.A.C. General Reading No. 8)
April 8, 1982

This Awareness indicates that a recent issue of *Time* magazine had a cover titled: "Thinking the Unthinkable". This Awareness indicates this in reference to the concept of the nuclear war which is being planned on an ever-increasing scale. This Awareness indicates that many of the readers of the *Cosmic Awareness Communications* messages may prefer not to think of the unthinkable, may prefer not to have such so-called 'negative information' in their homes, in their lives. This Awareness indicates however, that now, even the commercial magazines are presenting the negative information and bringing in this message into entities' homes through television, newspapers and various magazines.

This Awareness indicates that the March issue of *Esquire* included a message relating to the Federal Emergency Program to survive a nuclear war with various conditioning suggestions to assist entities in believing that with proper action they can survive nuclear war. This Awareness indicates that the idea of continually discussing the unthinkable in terms of some plan for survival is that which is conditioning the masses to accept that which is being perpetrated against them. This Awareness indicates that at the risk of appearing to be a bearer of bad news, this Awareness wishes to bring entities up to date on various plans which are in the making and have already been put into action.

This Awareness reminds entities of the information given previously in the material called *The Gathering Storm** in reference to the planned economic crash followed by efforts to create an Electronic-Fund-Transfer System whereby entities would have currency removed, and all transactions of financial nature to be done through electronic operations between the retail outlet or terminal and the bank computer. This Awareness indicates that this action is still in progress. This Awareness indicates that it is also linked with the situation which is tied into the nuclear war syndrome.

This Awareness indicates the National Emergency and the economic crash, along with the Electronic-Fund-Transfer program are all tied together with the efforts to create a nuclear war, to put certain opposing forces out of business so that the Beast program can be established. This Awareness indicates that the plan is to create a nuclear holocaust with the idea that whoever emerges first and reestablishes after the holocaust, that nation, or group of people can set up the system which dominates the world. This Awareness indicates the planners for this holocaust have planned in a manner whereby recovery is as important as winning or as creating the war in the first place.

This Awareness indicates the idea is something akin to game-players, whereby one destroys the game, knocks the checkerboard off the table and replaces it with another game, such as Monopoly, so that all have to play the game which this entity has cornered. This Awareness indicates that in this instance, the game is mutual destruction of the major powers on this earth, and resurrection from the ashes at a very quick pace, to set up a new world domination. This Awareness indicates this includes postal programs whereby entities surviving a holocaust could locate other survivors, whereby the post office would allow a certain network or address system, so that entities seeking to find each other could write to a central place, asking for information relating to that person. This Awareness indicates if information is available, whether the entity is alive or dead, this information then would be forwarded to the individual.

This Awareness indicates other programs relate to the use of property, the ownership of property, and the dispersment of properties of those who are deceased. This Awareness indicates other programs relate to sanitation, cleaning up, burying the dead and rebuilding and restoring lines of communication. This Awareness indicates other programs relate to the storage of records so that records are stored in various places in the event that certain records are destroyed, they may be saved in other areas and brought out in the aftermath. This Awareness indicates this particularly in reference to financial records.

This Awareness indicates that other programs relate to the management of population and entities who survive, others in reference to the care for those who have been wounded, or are in the process of dying. This Awareness indicates there are stored several types of essential pain killers, these stored by the tons for this particular purpose.** This Awareness indicates that other programs relate to the revitalizing of the currency so that business can again be conducted quickly, after the holocaust. This Awareness indicates currency as having been printed and stored in the underground caverns of vaults, particularly in the area of Culpeper, Virginia, at the Federal Reserve vaults. This Awareness

indicates that there are also those underground facilities with computers and communications systems, and living quarters for the elite group of war planners, so that they may ride out the storm in their storm cellars, while the surface of the earth is peppered with nuclear holocaust.

This Awareness indicates that these entities in their underground caverns, having food and supplies stored for their long use, plan then to surface and in an orderly and organized force, to quickly reestablish a government before other governments know what to do. These forces also will have their armaments which have been saved for the aftermath of the holocaust, to be used for further domination. This Awareness indicates that it is according to the plans of these entities at this time, that the Anti-Christ will come forth to set up its rule, and to dominate the world.

AFTER THE HOLOCAUST-THE ANTI-CHRIST IS SCHEDULED TO APPEAR AND THE 666 NUMBERING SYSTEM IS TO BE IMPLEMENTED

This Awareness indicates it is at this time that the entities will be coerced into accepting the brand, or that which is the mark, the 666. This Awareness indicates that these marks already are being used, the 666 being conditioned, used in various countries throughout the world, used by various organizations. This Awareness indicates that the purpose being to condition entities into thinking the 666 is a good thing. This Awareness indicates that in all of this, there is a conditioning process which occurs, conditioning entities to accept the unthinkable, conditioning entities to accept even suicide, conditioning entities to accept these changes which are totally meaningless and useless. This Awareness indicates that the conditioning process is that which turns entities into sheep.

This Awareness indicates that out of fear, entities follow, and that it is essential that entities understand the total picture so that they not need to be afraid, and not need to follow because of fear. This Awareness indicates that the forces which are acting and attempting to bring forth this plan have great power and are in fact already in movement, bringing these energies into play. This Awareness indicates however, that there are still other forces which are also capable of creating interference in those plans. This Awareness indicates that there will be many parts of the plan which are successful, yet there will also be those alterations to that plan, so that in the end, the Beast will not prevail.

*Revelations of Awareness' No. 79-1 (The Gathering Storm); \$4.00 from C.A.C.

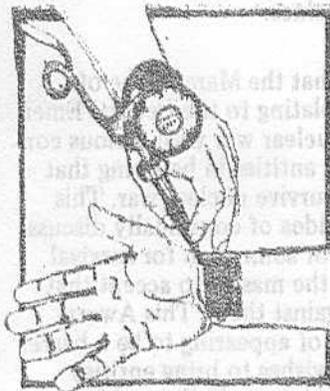

** On Thursday night, April 15, this information was confirmed on ABC's "20-20" news program with Hugh Downs. In a segment called "Life After Doomsday", they showed the underground vaults and shelters in Culpepper, Va., and underground sites in Kansas where billions in cash is stored, as well as tons of opium to be used as pain killers. Inside these huge underground bunkers are huge computers tied into all the banks, including the 'Beast' in Belgium. During 'war games' these computers keep track of how many are alive and dead in major cities. These huge, well-stocked underground bunkers are designed for a few particular government leaders and bankers. A 'Doomsday' tape being shown by the government on TV, touts evacuation methods after the holocaust, stating "to bring food, shovels and credit cards". In other words, as it now stands, only politicians, bankers and generals are going to survive the holocaust.

This Awareness indicates that many entities will experience that which they consider negative. Some entities may move through these times without being scratched or touched by the forces. This Awareness indicates it depends largely on your own grace, and the grace you share with the Divine Forces. This Awareness suggests that as entities move in grace, they can also avoid the greater difficulties during these times.

**THE SKOPTSIS HAVE LOST CONTROL---
DELIVERANCE MUST COME FROM ELSEWHERE**

This Awareness indicates that the Skoptsis as having at one time an opportunity to prevent these forces from gaining power, yet the Skoptsis as having been at odds with themselves and unable to function in one unit, as one mind, and therefore did miss that opportunity, and now it is that these forces have gained a new hold in consciousness and that the energies required to free humanity will need to come from new sources, new energies which have not yet asserted themselves, and these energies appear through the inner planes, inner dimensions, and work through other forces on this plane.

This Awareness indicates that consciousness itself can balance itself, and it needs no weapons other than to be aware.

WHAT THE C.A.C.

MEMBERSHIP

CAN DO

QUESTION:

Awareness, is there anything positive we can tell the members that they can do about this situation?

COSMIC AWARENESS:

This Awareness indicates that it first must be recognized that these changes often occur over long periods of time. This Awareness indicates that if all of the events which occurred during the past two years occurred simultaneously in one week, entities would believe the earth was coming to an end. This Awareness indicates however, as these things are stretched out over long periods of time, entities find those spaces whereby they can have moments of reprieve, away from the intensities which have occurred.

This Awareness indicates these spaces not only in terms of physical space, but also in terms of time. This Awareness indicates that likewise, the events which this Awareness speaks of will not occur at a single moment, a single time, but will occur over periods of time, and can be modified in varying degrees so that it may not seem so dire in the experiencing as it was in the hearing of the experience. This Awareness indicates

also, there is always that potential for reprieve, as entities rally around concepts of peace and harmony, as entities pour their energies into actions which bring forth peace, harmony, reconciliation and good will toward others. This Awareness indicates that as these occur, it affects levels in consciousness and diminishes the strength and power of those forces which would perpetrate disaster.

This Awareness indicates that as entities speak out for peace, as entities give love to one another, as entities turn away from personal fear toward concern for the welfare of others, for the welfare of the planet, for the welfare of people in general, for the welfare of others yet to come,—as entities turn away from personal fear and look toward others with concern for their welfare, this begins to have an affect upon the etheric body of this planet, upon the biosphere computer, or the collective consciousness on this planet, and will help to defuse the energies which are driving these entities toward the insane suicide.

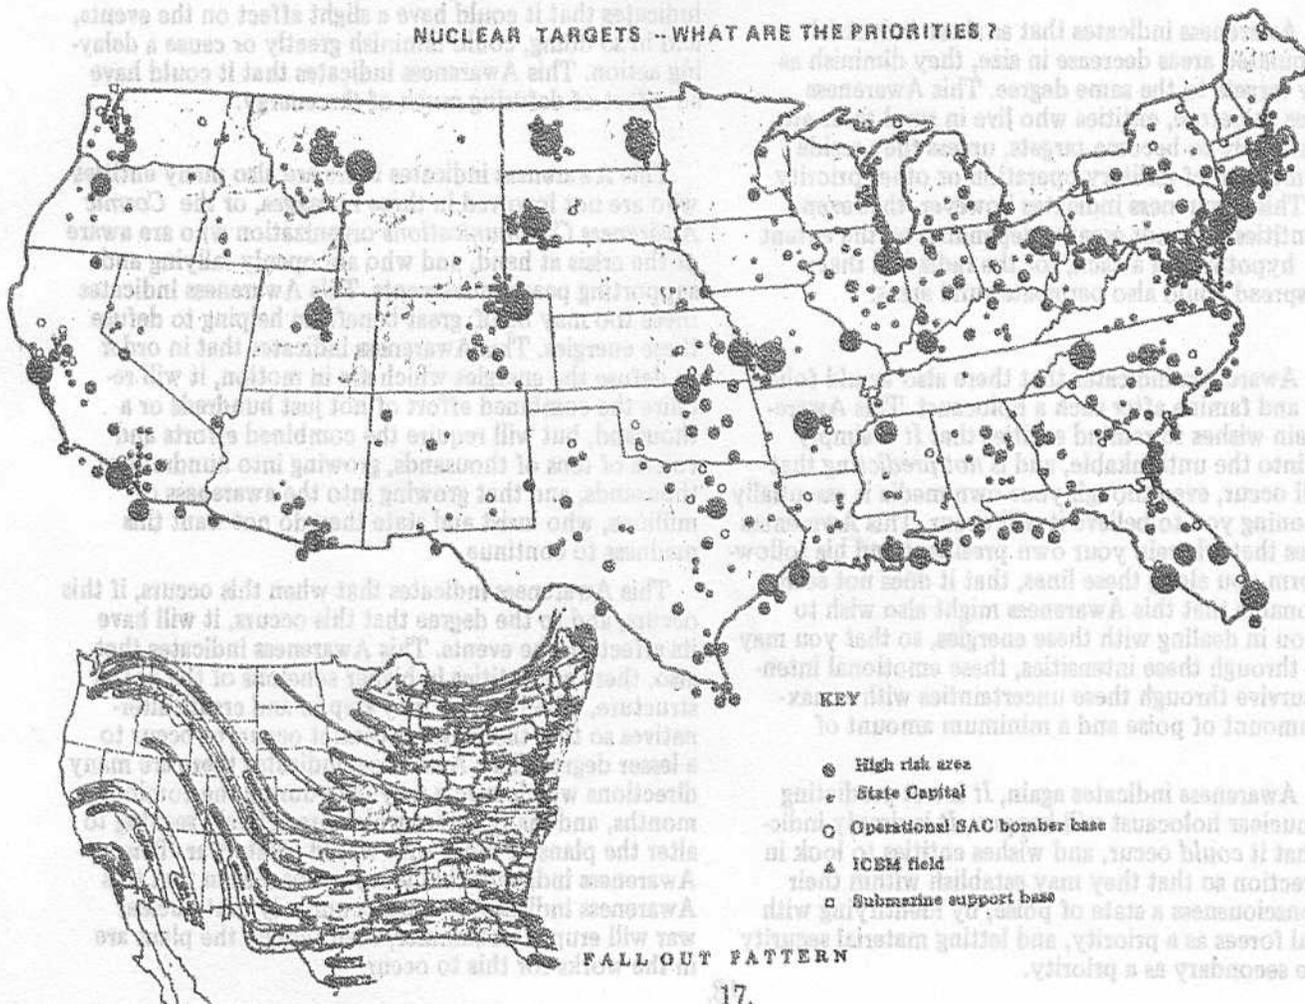

This Awareness indicates that in terms of individuals and their personal lives, this Awareness recognizes that most entities can do little to alter the course of history. This Awareness suggests that entities concentrate on your own spiritual and personal lives, so that you love one another, and that you prepare yourself so that in whatever events you encounter, you can be at peace with yourself and your spiritual identities. The identification with spiritual forces is that which can carry you through these difficult times.

This Awareness indicates that those entities who are not mentally prepared, many of them may experience extreme personal crisis, or even insanity. Many will become emotionally distraught, and for these entities it will be healthful to find someone who is spiritually calm and who can keep that poise and grace, even during times of confusion, uncertainty and great insecurity. This Awareness suggests that for those who can remain identified with the spiritual energies, who can remain in poise during these times, these entities shall evolve and grow in their souls at a very fast rate, which under such circumstances, accelerates.

This Awareness indicates that it is the soul which is of greater importance, and therefore this Awareness asks entities to focus on your own soul growth and not to focus on the physical securities except as a secondary concern. This Awareness indicates that in terms of your physical security, this Awareness suggests that you first keep your emotions poised, recognizing that forces may prevent the nuclear war from occurring, or from occurring to such a devastating degree, and that in the event these forces do not prevent this from occurring, whatever the situation may be for you, you will survive better if you remain calm and attentive, rather than panicked and distraught.

Will the Bombs Fall on You?

NUCLEAR TARGETS -- WHAT ARE THE PRIORITIES ?

- KEY
- High risk area
 - ◉ State Capital
 - ◌ Operational SAC bomber base
 - ▲ ICEM field
 - ◻ Submarine support base

FALL OUT PATTERN

This Awareness suggests that keeping your emotions in a state of poise is *essential*. This Awareness indicates that following this priority, it is important that you consider alternative lifestyles or living arrangements in the event that you see the potential for nuclear catastrophe growing to an uneasy climax. This Awareness indicates that for those who live near military bases, particularly those who live near bases wherein missile silos are placed, these entities should recognize that these will be priority targets.

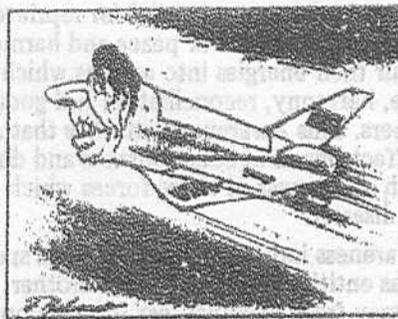

This Awareness suggests that the priority targets of a nuclear strike as first those targets which are capable of launching nuclear strikes against the enemy, whether these are in the air, in the sea or on the land, these being the top priority targets. The next targets being those bases of operation which direct the activities of war. The next targets being those bases which carry out the activity or war, such as naval bases, air bases and army and marine bases.

The next priority of targets being those communication bases which serve to assist a nation in its communication systems, and the next priority of targets would be heavily industrialized and heavily populated areas which could be a threat in a prolonged war. This Awareness indicates that the cities and industries are not high on the priority list of targets, yet these may be included, depending on the extent and degree of the conflagration.

This Awareness indicates that as these industrial and populated areas decrease in size, they diminish as priority targets to the same degree. This Awareness indicates therefore, entities who live in rural areas are the least likely to become targets, unless they reside near some base of military operation or other priority target. This Awareness indicates however, that even those entities may not escape, depending on the extent of such hypothetical attack, for the radiation that would spread could also permeate rural areas.

This Awareness indicates that there also would follow disease and famine after such a holocaust. This Awareness again wishes to remind entities that *It* is simply tuning into the unthinkable, and is *not predicting* that this will occur, even though your own media is essentially conditioning you to believe it will occur. This Awareness indicates that wherein your own president and his followers inform you along these lines, that it does not seem unreasonable that this Awareness might also wish to assist you in dealing with these energies, so that you may survive through these intensities, these emotional intensities, survive through these uncertainties with a maximum amount of poise and a minimum amount of panic.

This Awareness indicates again, *It* is not predicting that a nuclear holocaust will happen, *It* is simply indicating that it *could* occur, and wishes entities to look in this direction so that they may establish within their own consciousness a state of poise, by identifying with spiritual forces as a priority, and letting material security become secondary as a priority.

LETTERS DEMANDING REAGAN'S IMPEACHMENT COULD HELP

(NO MORE WAR-MONGERS IN WHITEHOUSE!)

QUESTION:

During previous situations like this, --crises, potential crises that were in the works,--Awareness suggested certain transmutation exercises and the writing of letters to various entities. Is it too late for those types of things at this point?

COSMIC AWARENESS:

This Awareness indicates that if enough entities wrote enough letters to enough persons in Congress, demanding that the President be impeached for his movements toward war, it could have some effect in creating a dialogue so that the intensities in this direction could become worked out through discussions to some degree. This Awareness indicates it could have an affect of throwing certain energies off guard. This Awareness indicates that it could have a slight affect on the events, and in so doing, could diminish greatly or cause a delaying action. This Awareness indicates that it could have an affect of defusing much of the energy.

This Awareness indicates there are also many entities who are not involved in these messages, or the *Cosmic Awareness Communications* organization who are aware of the crisis at hand, and who are openly rallying and supporting peace movements. This Awareness indicates these too may be of great benefit in helping to defuse these energies. This Awareness indicates that in order to defuse the energies which are in motion, it will require the combined effort of not just hundreds or a thousand, but will require the combined efforts and voices of tens of thousands, growing into hundreds of thousands, and that growing into the awareness of millions, who insist and state they do not want this madness to continue.

This Awareness indicates that when this occurs, if this occurs, and to the degree that this occurs, it will have its affect on the events. This Awareness indicates that also, there are entities in higher echelons of the power structure, who likewise may step in and create alternatives so that these events cannot occur, or occur to a lesser degree. This Awareness indicates there are many directions which events may take during the coming months, and many forces which are actively seeking to alter the plans of those who would create war. This Awareness indicates that it is for this reason that this Awareness indicates it appears unlikely that nuclear war will erupt this summer, even though the plans are in the works for this to occur.

This Awareness indicates that it appears approximately 40% in favor of the nuclear war, and 60% opposed. This Awareness indicates that the outcome appears to be some type of conflict which may vary in terms of its intensity and the degree of its magnitude. This Awareness indicates that it will have a profound affect upon consciousness in one way or another, and it is in a state of flux, being quite volatile and unpredictable, in that it could go in any direction, to any degree. This Awareness indicates however, at this time, it appears the energies are opposed to the disaster, more than in favor.

PEACE MARCHES COULD TURN THE TIDE

QUESTION:

The American Friends Service Committee has quietly put together a campaign to have at least three massive demonstrations against this growing nuclear war threat. The first, called 'Ground Zero' is to happen this month, another in May and a very large one is scheduled in June, and another big one in September. Does Awareness see that these demonstrations might grow and have some lessening effect on this situation?

COSMIC AWARENESS:

This Awareness indicates these demonstrations *must* grow and *must* increase in order to have an affect on the situation. This Awareness indicates that it appears the media will begin to rally around the programs for peace, the call for peace. This Awareness indicates that it appears certain entities within the media will have an influence upon the masses to assist in helping to bring about a growing awareness of the dangers which are occurring, which are impending, and that this growing awareness is that which shall begin to have its influence and bring about a diminishing of the dangers.

CONTROLLED MEDIA

IS LOSING SOME GROUND

QUESTION:

The entity Alexander Haig, who is supposed to be the Secretary of State, made a speech the other day, defending the administration's stand on a first nuclear strike, stating that there is no way that they would change from this attitude because of various things, and already the next day the *Wall Street Journal* and the *Seattle Post Intelligencer*, (two publications I happen to read), both came out with editorials criticizing this man for making this statement. I was just wondering, if this kind of reaction is starting to happen on editorial pages, if the so-called 'controlled press' is somehow losing some of this control by these people that in the past have dictated what the news would be?

COSMIC AWARENESS:

This Awareness indicates that the loyalties are beginning to shift, and entities who have been loyal to certain factions, traditionally and otherwise, are beginning to feel an uneasiness which gives them the reason to withdraw their loyalties. This Awareness indicates that when

entities begin speaking of murdering masses through nuclear holocaust, wherein entities begin to make plans to destroy three-fourths of the population of the United States and two-thirds of the population of Russia, when entities begin making such plans and calling this an option, and encouraging entities to think the unthinkable, it is bound to have an affect on the very structure of the Beast and its control over its various tentacles.

This Awareness indicates that the tentacles of the Beast may turn on it, in a manner whereby it becomes its own victim. This Awareness reminds you of the entity known as Dr. Strangelove, whose passion for creating nuclear war was so great, yet his own hands kept attempting to choke himself. This Awareness indicates that this may also be a metaphorical image of the energies of this Beast in its effort to assert its power through nuclear war. This Awareness indicates the tentacles of the Beast also have minds of their own.

This Awareness indicates that under certain circumstances, these minds may break off their loyalty and turn against the head of the Beast.

ED's Note: Awareness is referring to the (psycho) advisor to the President, (patterned after Henry Kissinger), in the 1960's movie, "Dr. Strangelove--or how I Learned to Start Loving the Bomb". This old flick is being shown these days by various entities involved in the peace movement.

WATCH THE STARS

FOR SIGNS OF WAR

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that in order to understand the timings of these events, this Awareness suggests you watch the planet Mars in its relation to Saturn and to Pluto, that a particularly dangerous time is when Mars and Pluto come into conjunction. This Awareness indicates that also other times to be concerned, relate to times of eclipses, that this year has a very large number of lunar eclipses, and this as creating certain affects in society which when coupled with the conjunctions previously mentioned and the further alignments known as the Jupiter Effect, these energies can give indications as to the timing of major events.

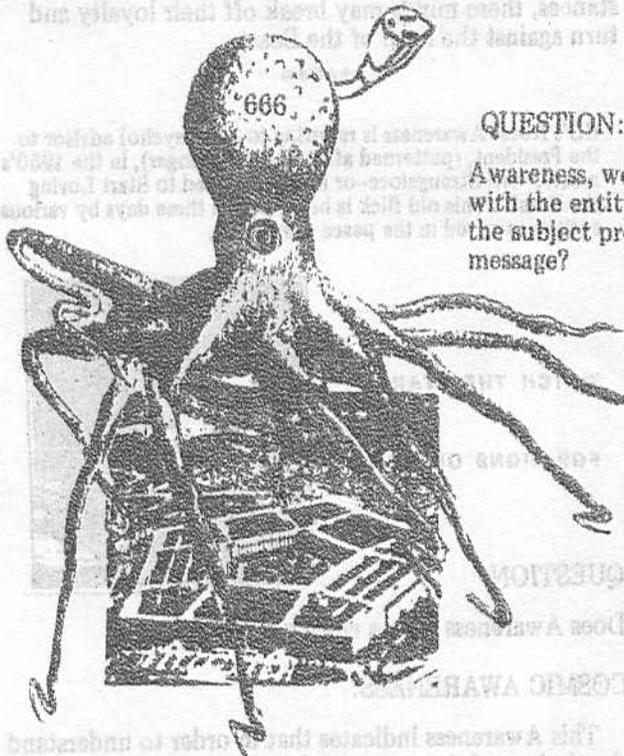

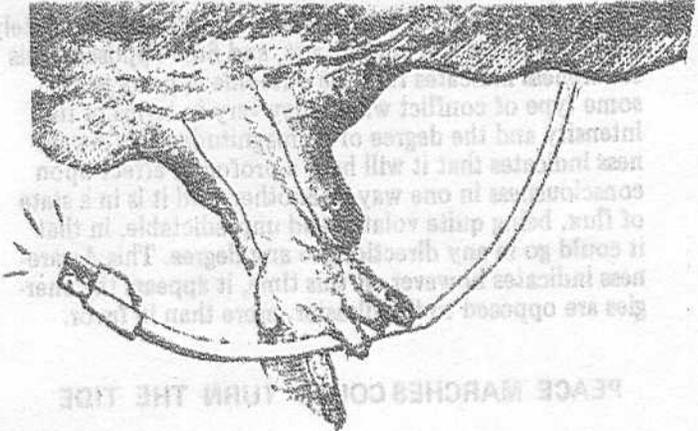

This Awareness indicates however, that the energies associated with this time in September as that which does not appear to be the critical time, even though that is the date set for the plan, the planned strike against Russia. This Awareness indicates that the critical times appear to be prior to, and following that date. This Awareness indicates that this shall be looked at at a later time and evaluated according to new energies, as these energies enter.

(The Law of Gratitude is given).

PART 4

(HIGH MAGIC).....
AND A POSSIBLE BEGINNING OF

DELIVERANCE ?

(C.A.C. General Reading No. 4)
April 9, 1982

QUESTION:

Awareness, we're here to continue the monthly C.A.C. questioning, with the entity Lee Michaels during this session, to ask questions on the subject previously indicated. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness suggests the questions begin.

QUESTION:

Awareness, this is Lee Michaels. Many years ago, when C.A.C. first started doing readings, the first two or three readings were done in Portland by myself, and the first reading or two that was done in Olympia, I was there, and then I bowed out and the present relationship was initiated and continued.

Many years later I am back here to ask questions concerning the research that I have been doing on my own. I feel like an incredible cycle has occurred and has been completed. I feel like there is another great cycle to begin. Many things have occurred in the meantime. Could Awareness give a message concerning the completion of this cycle?

Reconciliation of the Mummies....THE RA-TA EXPERIMENT COMES TO ITS CONCLUSION

COSMIC AWARENESS:

This Awareness indicates that you were one of a great number of entities in an experiment in Atlantis in approximately 25,000 B.C. This Awareness indicates that this experiment involved an action of mummification of a great number of entities during that time, whereby consciousness would be programmed and affected by this program. This Awareness indicates that that the action as that which was intended to create divisions in the magnetic fields, the electromagnetic fields and structures which permeate and surround the planet.

This Awareness indicates that this as likened unto separating frequencies so that each frequency can have its own space without interference from others. This Awareness indicates that this action assisted in creating

multiple planes of existence, whereby the degrees of material, or the degree of matter was altered, depending upon what plane was being touched, or tapped. This Awareness indicates that this created alternate planes around this planet, which includes certain planes of Limbo, astral planes and more etheric planes.

This Awareness indicates that this action in reality did not create these planes, but rather polarized these planes in a manner whereby each was segregated from the other. This Awareness indicates this particularly affected the sensitivities of entities and their ability to perceive into these other realms, hindering such perception. This Awareness indicates that this action as that which was countered in the period of what is termed

the Ra-Ta movement, this approximately ten thousand B.C., whereby these energies were set in motion to assist in speeding up the evolution of third dimensional beings in order to assist in breaking down those separations and barriers which had been intensified in the Atlantis experiment.

This Awareness indicates that in effect, the Atlantis experiment was a way of segregating entities so that greater controls could be placed upon their minds, and the veil of Maya could be lowered over the eyes of the physical entities, or over the eyes of others in other planes so that communication between these levels would not be accessible or easily accessible. This Awareness indicates the Ra-Ta movement as that which countered many of the operations and actions which had begun in the Atlantis experiment, including those which have been mentioned previously, and also including this action.

This Awareness indicates the Ra-Ta movement as also an action created and designed to intensify the experiences of the individuals through the dark cycle of the cosmic, or what is called the platonic cycle of twenty-five thousand years. This Awareness indicates that as these actions of the Ra-Ta movement were initiated, the present Interpreter [Paul Shockley], along with other entities of the movement, as having been mummified in a kind of program designed to bring these energies together as a composite of entities from varying dimensions.

This Awareness indicates that your involvement in this action as that of one who was assisting in the work of channeling and hypnotizing those entities prior to the mummification, bringing those inter-dimensional beings into the body to share with the inhabitator of the body, while under hypnotic trance levels, so that these entities could be mummified, injected with a substance that paralyzed the nervous system instantly. This Awareness indicates this appears to have been cobra venom, and this paralysis done while the entity was in deep trance so that the entity then being mummified would contain a composite of many different entities from varying dimensions.

This Awareness indicates that in the Atlantis experiment, you as having been the victim of mummification, and as having been used to help create the prototype of action which set up the segregations of these various levels or dimensions. In the Ra-Ta period, you assisted in the experiment or operation to undo that which had been done, to help break down the barriers that created segregations between the various levels or dimensions. This Awareness indicates that essentially, these actions were designed to allow vibratory rates from one level to have accessible communication to other levels, and this would occur in consciousness when these experiments cancelled each other out.

This Awareness indicates that in your present activities, you have in this lifetime, been moved and directed to act, to study, to communicate and to research in areas which are related to this particular activity of linking these forces back to their original purposes, and to bringing this experiment to its proper conclusion. This Awareness indicates essentially, your contacts with the *Organization of Awareness* touched into the Rhyee movement of the earlier Atlantis experiment, your contacts with *Cosmic Awareness Communications* and the present Interpreter and with David Worcester contacted the Ra-Ta energies, and these energies began to

act in a defusing manner, assisting in cancelling out certain polarities, so that as the energies move further, the polarities are released and the divisions between planes of existence weaken, so that communication between these planes can become more accessible.

WORKING WITH TRANCES AND HEALING ...MORE ON PSYCHIC SURGERY

QUESTION:

Okay. I have a number of questions I would like to ask, but continuing in the same vein with some of the information that has just been communicated, the accessibility between the planes, and also remembering what occurred in both Egypt and Atlantis has always been easy for me, and also, that my ability to hypnotize people and put them into trance and be good support for them while they're in a trance state has also always been easy for me; but a more recent thing that has occurred, and particularly that comes to mind with the previous message, is the fact that I am working on developing greater perceptions and awareness of the physical structure, and particularly of a particular healing technique that I had developed that I utilized on the entity Avaton recently.* Could Awareness make a general comment concerning these general abilities, and particularly my ability to work both with trance and with healing?

*ED's Note: A brief explanation of this remark. For several weeks recently I have noticed an unexplainable loss of my energy, back aches and a mysterious swelling on the back of my neck. Being a Gemini and a 'night person', I have a habit of working each night till around 2 AM, these hours being particularly conducive to creative type work. However, for the first time in memory, I found my energy just pooping out about 8 PM, and I made horrendous typing errors and experienced blurry vision etc. In short, I simply had to cut my output in half. (One reason these communications have been late or did not contain the lesson).

Anyway, when Lee walked into the office to set up this present reading with Awareness, the first thing he did was stop and stare at me in a very peculiar manner. When he spoke, he said, "Your back and your neck is hurting quite bad, isn't that right?" I nodded. He moved behind me and locked his huge arms around my body, then with one hand pressed and twisted his finger firmly into the base of my neck. It felt like his finger was literally burrowing into my neck until his knuckle was firmly against my neck. He was breathing deeply and making some rather strange sounds. I felt his finger withdraw from the swelling on my neck and his hand then moved down my spine, quickly and with a shaking motion as if to throw off some negative energy or something he had withdrawn from my back.

As he was doing this healing, he said: "Oh, yes. I see it all now. I see exactly why you have had this problem. There is an entity who died two weeks ago and he is making one last attempt to get back at you for something you did many lifetimes ago. It's not bad karma, the entity was violating some woman and you came upon the scene and stopped it. It was a long, involved scam of some sort and this entity had planned to get rich from it, even reincarnate into this rich family lifetime after lifetime. It has something to do with the Rothschild family." He then announced he would get out his Tarot cards and give me the precise details. This he did. Lee is an excellent Tarot reader, and like Sam Millar goes into a sort of trance when he throws out the cards and just starts rapping away a mile a minute. As it turned out, I had never met this entity who was causing my problem in this particular lifetime. He had died 2 weeks ago (the time my back started hurting), and Lee advised me that after the healing I should have my back worked on every day for the next two weeks. After that the entity could never harm me again. Lee's healing worked instantly. My energy

started surging back into my body and I felt as good as new. I continued the massage for 2 weeks as instructed and as Vicki T. remarked, "I see you are back to your same old ornery self, Avaton."

As for the departed entity, Lee advised me that the entity had tried for many lifetimes to "get even" with me for interrupting this scam (which also resulted in the authorities beating the entity and eventually executing him, thus ending all hopes the entity had for reincarnating into that wealthy family lifetime after lifetime for a life of fun and games and wealth and leisure. (It was a weird story Lee told, but he said I personally was protected because this entity was violating others and simply had been exposed by me during that lifetime. It was his bad karma, not mine. Anyway, that is the healing Lee has just referred to in his question.

COSMIC AWARENESS:

This Awareness indicates that the action of looking at energies within an individual's body is the same action required to look into other dimensions or other planes. This Awareness indicates that as you peer through these barriers, as you poke your fingers through these insulating fields of energy to touch into these areas, you will develop greater and greater potential along these lines. This Awareness indicates that an ultimate action in this direction can be of great significance. This Awareness indicates that even to move in a partial direction of breaking through these dimensional barriers can assist in creating psychic surgeons, entities who psychically and physically can reach into the energy field of another to extract illness and dark energies.

This Awareness is not speaking of the use of psychic surgery in its limited meaning of removing an organ, whereby the use of a scalpel could serve just as well. This Awareness is speaking rather, of the use of psychic surgery whereby the energy reaching in is of a mental or psychic nature, and the energy extracted is not the organ, but is rather the negative field of energy which is affecting the organ.

TRAVERSING THE DOOR OF DEATH

QUESTION:

Yes. I have already begun working on that process. Moving on to my questions here: first off, I would like a general message concerning the fact that for the last several years I have been involved in working with trance mediums, training trance mediums and doing research through trance mediums, and that I have had totally a research orientation. I have been specifically going after extremely specific facts and information, and have been specifically involved in creating a body of information. Could Awareness give a general message concerning this total research orientation of working with trance?

COSMIC AWARENESS:

This Awareness indicates that this action may be likened unto a rat placed in a maze which must find its way out, and which knows that there is a way out, but the way out is not easily accessible. This Awareness indicates that you as an individual having been under contract to enter into this plane, have also been imprisoned by certain forces to remain on this plane against your will. This Awareness indicates this in part due to previous commitments which you made during the early days of the Ra-Ta movement, whereby you would assist in helping to unlock the doors, as being a key to the resolving of this movement.

This Awareness indicates that as a key, you must find the proper door for the escape back into the other dimensions which you wish to move into. This Awareness indicates that because of this feeling of being trapped until you learn how to escape, there is the continuous searching and researching for the path through these barriers between the various dimensions. This Awareness indicates that as you begin to research deeper and remember more, you also move closer and closer to unlocking these doors. This Awareness indicates that as you unlock these doors, it not only frees you, but also frees others, that they too may have the entire universe as their playground.

This Awareness indicates that this as an action whereby a door is created that circumvents the door of death, whereby entities may traverse between the third dimensional material world, and the fourth dimensional world of consciousness, without passing through the door of death.

QUESTION:

Yes. I'm very familiar with that process. Awareness, in my recent research, and the work that I have done, I have come up with a series of discoveries that are similar to what other people have come up with. Any discovery in and of itself is not very significant, but the discoveries put together with the other information that I have put together have become very significant, and the primary reason that I am here today. Could Awareness make a general comment about this?

COSMIC AWARENESS:

This Awareness indicates that these are likened unto a string of keys being handed to you, whereby you may use these keys to open the doors through various mazes which in turn allow you to find the path toward these areas you seek.

THE SECRET VAULTS IN EGYPT

QUESTION:

Okay. The first area I would like to talk about is the vaults which are located in Egypt. I was intimately involved in putting those vaults together, and for the last two or three weeks have gone to the vaults while in my sleep state, and have experienced it intensely enough where I actually can smell and taste the vaults when I awake. That the vaults contain within them not only many archaeological discoveries and some fourth dimensional objects, but what might be likened unto a fourth dimensional microbe, which when released, when that vault door is cracked, onto this plane, will help initiate the many many things that are imbedded and crystallized into the consciousness of this plane.

COSMIC AWARENESS:

This Awareness wishes to comment at this point. This Awareness indicates that you are that door. This Awareness indicates that upon awakening during the daytime, after experiencing a dreamlike trip, or sojourn into those vaults at night in your sleep, this Awareness suggests that you spend some time, approximately 30 minutes or more during the day in a state of complete relaxation, meditating consciously on the vault, and your impressions of the vault, meditating consciously on being inside those vaults.

This Awareness indicates that the stronger this can be brought into your consciousness, the more it will crack the door. This Awareness indicates essentially what is occurring is that you are piercing the planes, piercing the walls between the dimensions, or bardo of sleep and the bardo of awakeness, --the conscious and subconscious. Piercing through these planes, you are in fact opening this vault to allow this fourth dimensional microbe to be released into consciousness.

This Awareness indicates that it is fourth dimensional, and needs not be introduced in a third dimensional form.

QUESTION:

Okay. One of the other things that I have clearly perceived, is that at some point in the future, there is a very real possibility that I would lead an archaeological expedition into the area of these vaults and would help open these vaults for the first time for the general public.

COSMIC AWARENESS:

This Awareness indicates that this can occur in time when these areas have been touched properly.

LOCATING AND RECOVERING SPANISH TREASURE

QUESTION:

I would now like to turn our attention to a series of readings which I had done on the Spaniards and their burying of various treasures up and down the Western coast of the United States; that I had spoken with the Spaniards and with the elves who guard this treasure, and have received a lot of information concerning how this treasure would be revealed. Could Awareness comment on this?

COSMIC AWARENESS:

This Awareness indicates that this appears to be accurate information, that it also appears that the timing of the opening of these treasures as that which is not in the great distant future. This Awareness indicates this appears to be within the next four years. This Awareness indicates that there will be certain crises occurring prior to that time which will create circumstances and situations for you, whereby you will be involved in the rediscovery of these openings.

This Awareness indicates that the placement of these treasures by the Spaniards as that which was influenced by forces from inner planes, and the individuals involved in the action being compelled to stash their treasures in certain places, believing they were acting in free will, while in reality were being compelled by fourth dimensional beings to place these treasures in those particular areas. This Awareness indicates it is for this reason that a pattern exists. That the entities who placed the treasures in those places were not aware of a particular pattern.

ED's Note: Awareness has given much information on various treasures. It always reminds entities that the main reason it will not reveal exact locations at this time is because the Beast forces still on this plane would simply confiscate it and use it for their dark purposes. When these forces have been reconciled, these treasures will be revealed. (This is the first time Awareness has actually given an approximate date

when this will occur). It has indicated numerous times that the Spanish treasures and those treasures containing magic tools and gems from Atlantis, (crystals and vril sticks included), are to be used by various New Age groups and entities to bring in those New Age projects.

WHY THE FASCINATION WITH EGYPT? ...RECONCILING THE ENERGIES OF RA-TA

QUESTION:

I have been involved very heavily and very deeply in channelship about, and channelship directly from Egypt. I have had many lifetimes in Egypt, and have had very close contact with pharaohs, and other people in power during Egypt, and in my Tarot readings I use the Egyptian Tarot. I have an incredible identification with Egypt. Could Awareness please indicate the significance of this connection and some of the things I can do with it?

COSMIC AWARENESS:

This Awareness indicates that this relates back to the earlier message, wherein you were involved in the Ra-Ta movement as a key priest, working with the master plan of that movement to assist in bringing about this time of reconciliation. This Awareness indicates that essentially you have the authority to address those entities on the fourth dimension, in other planes, and to give them directions and ask their assistance; and because of this authority, they will respond to you.

This Awareness indicates this as a recognition on a psychic level, whereby these entities on the inner planes and others of those on the physical plane who also were involved in that movement will be responsive to you.

RECALLING THE ELOHIM

QUESTION:

So essentially then, I can make specific arrangements with specific entities on other planes in specific relationship to certain events that occur on this plane?

COSMIC AWARENESS:

This Awareness suggests that you recall the energies which you held in your court in France, and that you think in terms of holding court among those various entities in different dimensions, even as though you were dealing with different principalities, different nations, or different families. This Awareness indicates that the purpose of your action being to assist in opening up these corridors, whereby entities from this plane may traverse and move from third dimensional realities into fourth dimensional realities without passing through the door of death.

This Awareness also wishes you to recall the nature of the Elohim, the early beings who lived upon this earth, those who were known as Gods, or EIs, of which the elves are descendants, and that you recognize the letter 'L' as being a symbol for the carpenter's square as well as a symbol for movement from the horizontal, or third dimension, into the vertical or fourth dimension. This Awareness indicates the EIs as having learned how to slip through the time and space continuum into the Eternal, and use that corridor as a means of traversing between planes.

QUESTION:

I have evidence of that occurring on several occasions. I would like to ask a question concerning the Egyptian consolidation. My information has it from various entities in this consolidation that they wish me to become a trance medium and channel large blocks of information directly from that consolidation. Could Awareness comment on this?

COSMIC AWARENESS:

This Awareness indicates that this as appropriate, that this may be effected, and that this as being beneficial for the expression on this plane of those energies which are in motion. This Awareness suggests that this appears to be of great importance in terms of assisting entities on this plane to become aware of what is occurring in this and other planes. This Awareness indicates that this relates to the completion of the Ra-Ta experiment, and allows entities to enter into the Great Awakening.

DID LEE ADDRESS THE ENTIRE UNIVERSE?

QUESTION:

In a recent reading, a trance reading, after working for many years to reach a point where I felt that I could get a message out there, as I have been working for very long to get a message out to other dimensional realities as to what was really occurring here (on earth), I felt like I reached a point where I actually clearly communicated to the universe,--a fantasy of mine for many years. Could Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates that indeed this did occur to you on several occasions. This Awareness indicates that the only thing that prevents continuous communication of this nature is your own mental interference, whereby you envision a wall preventing your message from piercing through into the heart of the universe, or any of its parts. This Awareness indicates so long as you visualize and feel yourself communicating to all parts of the universe, this assists in opening these barriers to allow the message to flow.

QUESTION:

So I essentially could participate in a venting action whereby I can literally vent some third dimensional realities to the fourth dimension for their response?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates this depends entirely upon your own clarity and your own ability to communicate clearly into these areas. It depends also, as part of that entirety, on the willingness of other entities to accept whatever message you communicate. This Awareness indicates that while these entities may hear your message, they need not accept your message, unless it is acceptable to them.

This Awareness indicates that this as the same in the other direction, whereby entities need not accept messages from the inner planes which are spoken through mediums or interpreters such as this.

QUESTION:

My knowledge of the human body is increasing, and my perceptions of the human body is increasing, and in the last few months I have taken many journeys inside the body into specific organs and have begun to discover the specific natures of certain types of illnesses, common types of illnesses. I feel this background, coupled with my other background will allow me to give very proficient and very capable medical readings at one point from the trance level. Would Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a continuation of your efforts and ability to pierce through various dimensions. This Awareness indicates that it appears that this shall also be a skill and talent which can be developed quite well and which will assist others, and as others discover how to move through these dimensions, they too may assist in similar actions.

THROUGH THE DOORS OF DEATH...

More on Ra-Ta and the Biocomputer
...Lee's ability to talk to animal

QUESTION:

Awareness, there has been numerous references in this trance concerning opening the door which circumvents the door of death. I have perceived this many times myself, and have known several animals who have done this, and one cat in particular. Is it not true that my experience with animals is helping me prepare myself for this as well as being almost sort of a testing and proving ground for some of the concepts and processes involved?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that it appears that in the early programming in the Ra-Ta movement, that the entire structure of the individuals selected for a particular purpose was considered as a portion of that particular programming. This Awareness indicates that an analogy may assist in explaining this concept. This Awareness indicates that in an equation to be placed into a computer, various numbers or letters may be placed in that formula or equation and then included into, and programmed into the computer to be allowed to run its course until the proper time, wherein it produces the answer.

This Awareness indicates in the Atlantis and Ra-Ta movements, the same principle of activity occurred, except that these actions did not make use of a third dimensional computer, but rather made use of the computer known as the biosphere, or biocomputer, the computer of consciousness, and did not make use of numbers or letters or symbols written by hand or typewriter, but rather made use of individuals put into a particular pattern or equation, or relationship to each other, having their own intrinsic values, even as numbers and letters have their intrinsic values, and these entities in relationship to each other creating a computer, were placed into particular types of situations, whether mummified or in states of social position or whatever, and have run through the computer of time and life to reach a particular destiny, whereby the equation which was begun ten thousand years B.C., may now produce its response or answer.

QUESTION:

Okay. I'd like to ask a general question in reference to healing now. I have found in the healing work that I have been involved in that I seem to have an incredible impact and effect on only certain types of individuals, and it is my general perception that those individuals who are most aware of their evolutionary movement are those individuals that could not only be most affected by an individual such as myself, but are probably most sensitive to all healing actions in general.

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates these entities also are most susceptible to negative energies, energies which are detrimental to their health. This Awareness indicates the more sensitive the entity is, the more the entity becomes aware of these more subtle energies, and wherein the entity is not capable of consciously dealing with, or understanding the energies involved, the entity can become victimized by those energies which are detrimental.

This Awareness indicates that wherein the entity is aware of that sensitivity and of the more subtle energies, the entity can take conscious steps and actions to prevent those energies from being harmful. This Awareness indicates the entity may also take actions which are healing in nature, even though they appear to be of a psychic or mental nature or spiritual in nature, rather than medical in the orthodox sense.

WHY LEE TRANCES ON MOUNTAINTOPS

QUESTION:

A certain percentage of my trance work, and a certain percentage of the growth and evolutionary experiences that I have experienced over the last several years have occurred on mountaintops, and have occurred at a minimum elevation of 4000 feet, and I've always felt that a certain percentage of the training and a certain percentage of the work that I was to do was to be done on mountaintops, and felt that very strongly from the start. Could Awareness comment on the value of doing this work at this high elevation?

COSMIC AWARENESS:

This Awareness indicates that essentially, this action of moving into these remote areas as that which removes you from many of the lower thought-forms and vibrations which so often are prevalent in highly populated areas. This Awareness indicates that it also removes you from the influence of those thought-forms and energies of entities who are seeking to reincarnate, or are earth-bound in their attitudes. This Allows you to enter into and relate closer to the etheric realm.

SHOULD LEE WORK WITH WALTER BOWART?

(How an error is carried over from past lifetimes)

QUESTION:

Awareness, I recently met an entity named Walter Bowart, who I feel would be a very good person for me to work with on publications, and a very good person to help work with me with my developing trance mediumship, and my other projects in general. Could Awareness please comment on the suitability of this individual?

COSMIC AWARENESS:

This Awareness indicates that this entity as being an old crony of yours, an old friend, and one who would be of great benefit to the actions. This Awareness indicates that there does need to be clear understanding between the two of you, so that neither of you seeks to be in charge of the other's energies.

QUESTION:

In drawing this diverse information into a couple of messages here, I'd like to generally ask if my general perception is correct.....

COSMIC AWARENESS:

This Awareness wishes to interrupt your question to inform you..... This Awareness indicates that this entity Walter Bowart as having a delusion, or belief that you in a previous lifetime had his head removed. This Awareness indicates that this as in error, that the circumstances,-- this being in the time of King Louis,--the circumstances being that certain entities of your court, seeing this entity as a threat, took this entity and removed his head, and informed you upon your questioning as to what had happened to this entity, informed you that the entity had been slain in some other manner.

This Awareness indicates that the entity however, prior to being slain, believed that it was from your own command.

QUESTION:

Yes. Other people have made that same mistake.

COSMIC AWARENESS:

This Awareness indicates that you had a rather corrupt court at that time. This Awareness indicates that you did not attend to business properly. There were many games involved in your lifestyle.

ED's Note: this type of comment by Awareness is not uncommon. When Awareness looks at an entity, (in this case, at Lee's request, the entity Walter Bowart), any aspect that could deal with the relationship, or any error carried over from a past life which could be detrimental to the relationship,--when Awareness sees things like this, it will reveal the information so the problem can be dealt with and a clear communication can result. In this particular case with Walter carrying around a subconscious error that Lee had ordered him beheaded a while back, this is not the stuff that a good relationship is usually made from. Awareness preaches clear communication, so when it sees an error that could possibly prevent this clear communication from occurring, it will reveal the information even though no question on this had been previously asked.

Walter Bowart, incidently, is the author of many books, including "Operation Mind Control", published by Dell in 1978 (a best-seller that quickly sold out, but for some mysterious reason was never reprinted). The entity was checking out Paul Shockley in Portland when Lee walked in. This is how the two met.

LEE'S MAIN PURPOSE AT THIS TIME
...CHECKING OUT THE CONTRACTS

QUESTION:

Awareness, am I to understand basically that I have been involved for many years in an odysey to gather the information and data network I need out of a third dimensional context, to reestablish the necessary communication within the other dimensional realities?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates also, that your purpose at this particular time is to make communication with those in charge, what you might term the bureaucracy within those other dimensions, and to begin negotiations in each of those dimensions whereby you make certain demands and have certain expectations in regard to agreements and contracts relating to the inter-relationship between each of these planes and the physical plane.

This Awareness indicates that your first action being to have these entities review the already existing contracts which are on record, and to begin abiding by these contracts and begin also to making these contracts public. This Awareness indicates that wherein you do not receive cooperations from entities on one plane, this Awareness suggests that you go to the next plane and ask for those entities on that plane to cooperate in affecting the response from the lower plane.

This Awareness suggests that you use the chain of command, moving upward as you need in order to create the proper pattern of response. This Awareness suggests that you need not move into the higher planes and make demands until you have exhausted all recourse in the lower planes.

QUESTION:

I am very familiar with these contracts. There are storage places for them, and I do have access to them. I have already reviewed a number of them, and have been working on setting up processes whereby I can review others.

COSMIC AWARENESS:

This Awareness wishes at this time to assist you in this action. This Awareness directs a group of energies to you during these movements into these planes whereby these energies shall assist. This Awareness indicates these are the energies from the consolidation of the mummies. This Awareness indicates the energies of all entities who have been involved in assisting in setting up the arrangement in the first place, and these energies shall be as an army of entities to assist you in making these proper adjustments on these planes.

ED's Note: At this point, Paul's entire body began to shake and his hands waved through the air in circular and a sort of breast-stroke swimming like motion. As this energy came pouring in, Lee told us later that it was such a rush he almost fell into trance himself when it hit him.

ELVES WHO GUARD TREASURE--WHY MILITARY-LIKE?
(More on thought-forms & ending war by alchemy)

QUESTION:

Yes, I understand this and appreciate this movement. Speaking of an army, and military terms, it was to my great surprise within the last year, (and I first discovered this when doing readings on the treasure on the West coast), that there are many Elves --entire kingdoms, entire civilizations of these Elves that are arranged along military lines, who speak in military terms, and think in military terms, and are involved in inter-dimensional realities specifically to protect certain aspects of these arrangements and to protect the treasure, and to protect other things. Could Awareness now give a general message concerning the military orientation of some of these Elf civilizations?

COSMIC AWARENESS:

This Awareness indicates that the old Hermetic adage: "As above, so below," as that which holds true in more ways than entities may realize. This Awareness indicates that each individual is a thought-form, and that individual as a thought-form exists in varying vibratory rates whereby in one vibratory rate the entity may be seen as a physical being while simultaneously, another entity on another vibratory rate may see that entity as a more etheric being. Seeing the vibratory rate from a different vibratory rate affects the interpretation.

This Awareness indicates that Elves are essentially quite connected in a kind of reflective capacity to the military thought-forms which are prevalent on the third dimension. This Awareness indicates that these inter-reflections or echoes between these dimensions are such that although the energies of each being may create different shapes and different vibratory rates, still there are influences which touch into other dimensions.

This Awareness indicates this as similar to entities who experience being inhabited by a spirit, whether demonic or divine. This Awareness indicates that to a lesser degree, entities on any dimension may have certain mental processes or feelings and emotions that are believed to be their own, when in reality they are simply part of the vibratory rates in their environment.

This Awareness indicates for example, an entity may believe he or she is in a particular mood when, in reality, the mood may actually be an energy field in that particular place which the entity is susceptible to. This Awareness indicates that likewise, certain Elves touch into the energies of the militaristic concepts which are promoted by certain Rhyee forces upon this physical plane, and also on the other planes, and these militaristic forces and the forces of paranoia and secrecy and competition, which exist both in the third dimensional realms and in fourth dimensional realms, are essentially self perpetuating, whereby they reflect each other from one realm to another, and serve to feed each other, keeping each other paranoid, suspicious and in conflict, and ready to spring into military action.

This Awareness indicates that so long as these energies remain unreconciled, the need for such military action seems imminent, regardless of whether on the third or fourth dimensional level. This Awareness indicates that the only solution to bringing these extremes back into balance is to continue actions which diminish polarities, weakening the extremity of their positions. This Awareness indicates that obviously, the greater extremes are on the third dimension, yet these extremes are only reflected from fourth dimensions.

This Awareness indicates that to diminish war on the third dimension, the alchemical method would be to reach into the inner planes, where the energies begin, and to balance the polarities that exist there, and the reflective movements of those polarities will have repercussions on the third dimension so that the extremes are diminished on this third dimensional plane.

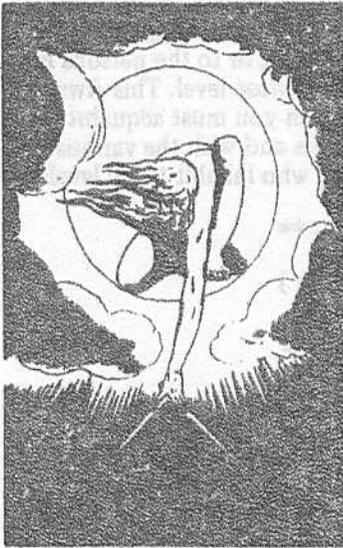

WILL LEE PUBLISH NEW INFO

QUESTION: ON THE TAROT?

One last project that I would like to ask about is that I have been encouraged by many people to prepare some readings, and/or some writings on my methodology for reading these Thoth Tarot cards, or Crowley Tarot deck. Could Awareness please comment?

COSMIC AWARENESS:

This Awareness suggests that you put the most basic information on cassette tapes, that you not spend great amounts of time perfecting this information at present, for there are other purposes more pressing upon you. This Awareness indicates however, that if you can preserve the most important information relating to this, this will give you a sense of security on this matter. This Awareness indicates this also will assure that much of your information will remain recorded and intact for others. This Awareness indicates that the perfection and polishing of this information should be done approximately 5 years from now, possibly sooner. This Awareness indicates that you not necessarily release the material on these tapes at this time, but rather to preserve this information within a safe place, so that in the event you do not get back to this project, it will be available for others.

NOW HEAR THIS.....!

Lee Ian Michaels

Addresses

the Universe

QUESTION:

Okay. Could Awareness now give some type of general concluding remarks, or some general statement concerning my over-all particular purpose and mission as of this time, and how I could best continue to do the work that I have started here?

COSMIC AWARENESS:

This Awareness wishes at this time that you rise. This Awareness asks that you stand at this time. (Lee stands).

This Awareness asks at this time that you focus upon the Interpreter. This Awareness asks at this time that you look at the Interpreter as though this Interpreter were a microphone and that this microphone is hooked to a public address system which touches into the various realms, the inner planes. This Awareness indicates that at this time, It requests that you make an announcement to all of these energies on the Inner Plane as to who you are, and that it is your purpose to communicate to the hierarchy on the inner planes and that it is your intention to complete the movement that began in ten thousand B.C., by bringing back the corridors which allowed these dimensions to communicate with each other.

This Awareness suggests that you may simply acknowledge yourself, giving your name, and agreeing that this is your intention and purpose. This Awareness asks that you introduce yourself to these entities, that you speak according to your inclination.

LEE: (who is now standing and appears to be in sort of trance-like state):

Hello. My name is Lee Ian Michaels. I am presently incarnated within the third dimension on a planet called Earth, and have been involved at various times in the past within this dimensional reality and others, with all of you. I am a speaker. I am a person who is aware of who you are. I am a person who is aware of who I am. Everything that is within this dimensional reality, I am an expert upon and wish to communicate this condition to you, and wish to work with you in a way which the experiment which was initiated long ago that all of you participated in may come to its formal conclusion, and by which process the evolutionary process can occur and can continue to occur, which has been arrested not only on this dimensional reality, but on many others as well.

I am a professional. I seek to establish totally professional relationships with all entities involved, and I wish to draw this to a conclusion in the most efficient, effective manner possible. I will work with all entities involved and all forces in a most respectful, considerate, professional manner possible. I am available for comment through my own channel, and through other channels as well; that all of you who wish to speak, will ultimately be given the opportunity not only to speak, but to have others hear your words.

COSMIC AWARENESS:

This Awareness indicates that there are great forces within this audience, many of which are concerned regarding the movement of energies upon the third dimensional plane which are reflecting into the fourth dimensional plane. This Awareness suggests that it would be appropriate for you to address these entities and to inform them that they have inadvertently and unknowingly been feeding energies through certain operations within their own dimensions which have assisted in setting up polarities upon the third dimensional plane that are moving toward catastrophic events unless they withdraw their energies from those forces.

This Awareness indicates that these entities on these inner planes are not fully aware of what they have been doing.

LEE MICHAELS:

To all of those individuals who express this concern, let me say this: I am a Zyloid. I'm from a race that you are very familiar with, a race that has been called "Warrior Lawyers". This particular race has been a subject of contempt and prejudice in all corners of the universe. I remember this race well. I came from it, and to a certain degree, am still carrying out their mission on this plane. That they worked very hard to create certain arrangements, and took on certain responsibilities that none of you would take upon.

They have been trying to inform you, and trying to make you aware of certain arrangements that you have agreed to long ago, that these contracts and these arrangements lie gathering dust in your very halls of records. To all of those people that express those concerns, and what YOU yourself could do; please go to your halls of records. Please pull out these old contracts; please pull out all these old arrangements. Blow the dust off of them and look at what you agreed to do, and recognize what you are failing to do at this present time in reference and in relationship to those agreements, not only with others within other dimensional realities, but to this plane. That if you express concern for this plane, it is because you yourself have not assumed the full responsibility that you have, that you have basically agreed to work with this plane.

All the arrangements are there. All the specialists, the consultants, the legal staff and everything that you need to balance out your energies, already exists within your various halls of records. Please go to these halls and within those contracts and within those arrangements, will contain all the information by which you can establish everything that you need to in terms of communication or expert advice or information, to participate in this process in the most meaningful and in the most beneficial way possible.

COSMIC AWARENESS:

This Awareness suggests that you inform these entities of the deceptive techniques that have been used to confuse them.

LEE MICHAELS:

It is to be understood very clearly that part of the reputation that this race of Warrior Lawyers who created these many contracts were created by another race of people who basically were hired to perform certain services for them. These individuals were basically legal experts. They were not in a position by which they could follow out and make every little thing occur on every single little planet, or every single little plane, or every single little type of existence that exists throughout the entire vast universe.

Within the entire vast universe, if a message must go out, if information must be created, it often must go through various channels, it often times must be carried by various messengers. Some of these messengers and some of these sub-contractors were not very ethical and have gone to a lot of trouble to focus the attention in other areas besides themselves, thereby covering their own actions. You will find these entities within your own structures as these particular sub-contractors, and these particular messengers exist within all portions of the universe. That the processes of communication are not as clear as they could be in any portion of the universe. That on all planes, and all levels that the process of communication must be improved, and that if you are to communicate more clearly between levels and between planes, you must look within and see the difficulty, the problem and the lack of expertise and the lack of clear communication that exists within your own reality.

COSMIC AWARENESS:

This Awareness indicates that this entity as Lee Ian Michaels who has addressed you from the third dimension and who is requesting that you look to yourselves

as being at cause for much of what is occurring on the third dimension and that you withdraw energies which you have been giving to entities on the third dimension, wherein these energies have been used for improper purposes.

This Awareness indicates that you also examine your ranks, your agreements with each other in view of what this entity has revealed. This Awareness suggests that the address as completed. This Awareness indicates that you may be seated.

LEE MICHAELS:

I don't think I could stand much longer. That was quite a powerful experience. I have absolutely nothing else to ask. Is there a closing message?

COSMIC AWARENESS:

This Awareness indicates that this as having opened a corridor whereby you may at any time communicate to any of these levels and will be known by all. This Awareness indicates that you, upon entering any level, may ask to be taken to the leader, or to the persons in charge of the bureaucracies on those level. This Awareness indicates that in this action you must acquaint yourself with the various levels and with the various bureaucracies and individuals who inhabit those levels and bureaucracies.

(The Law of Gratitude is given)

EPILOGUE:

HOW THE DIVINE PLAN WORKS

...COSMIC AWARENESS ATTEMPTS TO EXPLAIN
WHAT REALLY HAS HAPPENED

C.A.C. General Reading No. 5. April 9, 1982

OPENING MESSAGE:

COSMIC AWARENESS:

This Awareness indicates that the entity Lee Michaels and the Interpreter Paul Shockley as having been brothers during an earlier lifetime, this in the period known as the Ra-Ta movement. This Awareness indicates these entities as also having been brothers in earlier pre-earth experiences. This Awareness indicates the entities as having certain energizing on each other's channel, whereby the intermingling of energies between these entities as that which assists in opening each other's channel to greater dimensions.

This Awareness indicates that the message which was channeled through the commingling of energies of these two and of the *Cosmic Awareness Communications* energizers as that which has been preordained from times most ancient, to occur at this time. This Awareness indicates that the interweaving of energies between individuals as having been described in the previous message as that which is likened unto an equation or formula, wherein, rather than mathematical characters, the characters are human, are living beings.

This Awareness indicates that these characters are moved from place to place in relation to one another, by absolute rules and in exact movement, even as numbers may be moved from place to place in a formula

that is preordained and predictable. This Awareness indicates it is by this means that the Divine Plan may occur, even though there may be implanted error in the formula, wherein the error is seen by this Awareness or seen by those who are aware, so that the error will be discovered at just the right time, whereby the formula may be reconciled to emerge with the proper answer, even though the error which has been inserted appeared to have been lost in the formula.

This Awareness indicates that this may be likened unto creating a formula, a mathematical formula wherein... This Awareness indicates the analogy of the calendar is that which is more appropriate. This Awareness indicates that whereas the earth has its 365 days, and every so often an extra day, and whereas these days are created in such manner as to occur each fourth year so that the time of the extra day allows the natural forces to catch up with the calendar, or vice-versa, allows the calendar to catch up with the movement of the natural forces. This Awareness indicates yet this being just slightly off, so that at the end of each century, still another day must be added.

This Awareness indicates that likewise, in the movement of energies from previous times, whereby the formula was such that appropriateness occurred in the formula, but those certain forces of deception reached in and pinched out a little here, a little there, a little here, a little there, to favor themselves, so that as time passed, the proportions were not being evenly distributed according to Cosmic Law, but were being weighed heavily in favor of the forces of deception so that it became similar to a casino gambling house, whereby the house has greater odds than the customer.

This Awareness indicates that these odds, being so rigged as to favor certain entities and to disfavor others, just slightly enough so that the odds are not ostentatious, and are not easily discovered, were put into motion eons ago, and continued down through long periods of expression and through various civilizations, through lifetime after lifetime for many entities.

This Awareness indicates that this also occurring through different planes, so that even on one plane, a slight tipping of the scale occurred to favor certain forces on the other planes below, while disfavoring others, showing a kind of prejudice by those who were being deceptive; and still, on the next level, an action which was even slightly more out of balance than the one before, until reaching down into the physical plane whereby polarities are naturally extreme, for it is the extreme polarities which in fact create physical matter, and therefore, the extremes of polarities which were ripples or echoes of the more subtle imbalances on the inner planes, now express themselves in extremes on the physical plane.

This Awareness indicates that these extremes coming from inner planes through the movement of the imbalancing of the creative forces, also are seen as parallel to the movement of these energies when moved through time, so that the extremes which occur at this present time may be traced back through time to more subtle moments where the creative forces were thrown out of balance, the polarities thrown into such an off-central kilter that the rocking of these forces created a ripple which reverberated through time to a point at this moment wherein these forces are at extreme polarities and ready for great an potential climax.

This Awareness indicates that the purpose of the Ra-Ta movement was to set up certain imbalances which countered an earlier movement which in fact... This Awareness indicates this as a difficult concept to express and may be quite difficult for most entities to visualize. This Awareness indicates that the following image being given may help to understand the message:

This Awareness suggests you visualize a teeter-totter that is extremely small, as small as an atom. That this teeter-totter is in the ancient past. This Awareness indicates that further along in time, there is seen another teeter-totter which is just slightly larger. This Awareness indicates that following this in time there is still another which is just slightly larger. This Awareness indicates that this movement continues through time, creating that which appears like a road of teeter-totters, one following the other, each growing larger in size. This Awareness indicates however, that this road is made up of teeter-totters whereby they may teeter to the positive or to the negative, and the energies on these teeter-totters, negative or positive with each succeeding movement, is greater in size and greater in its momentum, and greater in its positiveness or in negativity, so that as time passes, the slight alteration and playing with creative forces of the ancient past, through the passage of time, creates impressive increases in the polarities in terms of the size of activity and the degree of positive or negative action.

This Awareness indicates in this manner, entities playing with the creative forces intensified the polarities through time. This Awareness indicates that the more recent Ra-Ta movement as that which recognized these polarities and set up another set of polarities wherein it was designed to catch up with the energies which had been flowing along the first road of teeter-totters; to catch up from this period of approximately 10,000 B.C., this new road of teeter-totters paralleling and countering the earlier path or road, as that which began in approximately 10,000 B.C., by creating polarities that grew faster than those which were in motion.

This Awareness indicates these were also set in opposition, so that the timing was in reverse of the polarities which were already in motion. This Awareness indicates that this allowed for these forces which were in motion, creating an increasing imbalance in the universe, particularly in reference to the dimensions associated with the planet earth, that this movement of the Ra-Ta polarities in accelerating their build-up and intensifications of polarizations, was created in such a manner as to rapidly catch up with the polarities which were in movement, and to be in opposition to those polarities, this managing to neutralize or throw off the rhythm of the polarities which were in motion.

This Awareness indicates that this concept as extremely difficult to explain.* This Awareness indicates however, that the energies which have been reconciled in this movement today, what may be referred to as the transformation of the inner planes, this movement which has occurred, as that which was programmed long before, and essentially is similar to an action whereby a computer prints out an equation over a long period of time which is creating certain effects upon the records of history, and at a point approximately 10,000 B.C., another formula is entered into the computer which is programmed to catch up with the first formula and to neutralize that formula.

This Awareness indicates that this action of the Ra-Ta movement as that which at this time has completed its initial purpose, and has caught up with the force which has been called Rhyee, and has neutralized that force and which may now proceed to allow other energies to occur which will bring this planet back into alignment with other forces in the universe. This Awareness indicates this planet will no longer be recognized as an insane asylum of the universe. This Awareness indicates this of course, is not instantaneous in your time, but will begin moving quickly in this direction of transformation.

*Ed's note: Very true! Remember, we told you at the beginning of this tome to read this aloud. If you do so, this train of thought Awareness is trying to convey will make more sense to you.

WHAT ARE THE ODDS TODAY OF NUCLEAR WAR ?

QUESTION:

Yesterday Awareness stated that there is approximately 40% chance of a nuclear war this year. Since this event today, have these odds been altered?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That many of these energies will begin to be depleted, that energies will be withdrawn from those forces which are moving in that direction. This Awareness indicates it is still too early to determine how quickly and how efficiently the forces of the inner planes will respond. This Awareness indicates that even as on your physical plane, these bureaucracies of the inner planes do often move somewhat slowly and there are mistakes and errors and many problems in relation to certain support systems.

This Awareness indicates however, that if these inner plane forces do not get into too many interpersonal relationships and interpersonal and interbureaucracy squabbles over what actions should be taken, or who is to blame, and all of that, the energies should move quite quickly toward a more efficient and clear and precise restructuring of the force fields which feed this third dimensional planet. This Awareness indicates in that event, the situation will be defused completely.

This Awareness indicates that it is rather wishful thinking to assume or to hope that this scenario will be as harmonious as would be desired. This Awareness indicates however, that it will be less than what would have occurred, had this transformation not been effected. This Awareness indicates that it appears there can be crises, but that chaos is no longer probable or likely, unless there are changes effected on the inner planes as a counter action by Dark Forces. This Awareness indicates however, this does not appear as likely at this time.

THE AFTERMATH...LEE MICHAEL'S TAROT READING

QUESTION:

Lee laid out his cards this evening, his Tarot cards, and the message appeared to be very clear that already these changes were occurring, that there were many entities celebrating on the inner planes, that certain UFO entities

were buzzing around over this property, and that other forces were in a sort of state of shock, and it was a very positive reading. I'd like to ask Awareness if that information is valid, and should a condensed version of it be included in this package that we'll print up?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, and that this information, in condensed version, as that which should be included. This Awareness indicates that also, it would be beneficial if you can present for your membership the opportunity for them to purchase tapes of the reading which was done with the entity Lee Michaels. This Awareness indicates that you may also include other information as you choose, in reference to these tapes made available to your membership in regard to this particular message. This Awareness indicates this in reference to part of the discussion which occurred afterwards.*

*A 90 minute cassette tape of this trance (which we all feel has great historic significance), is available from C.A.C. We are requesting a \$7.00 donation for this tape, which we will be donating to Lee Michael to help him get his newsletter and other services together. Please order C.A.C. No. 4, dated April 9, 1982.

THIS INFORMATION TO HELP ENTITIES UNDERSTAND AND COPE WITH TODAY

QUESTION:

Awareness, when looking at these intensities a day ago, a general approach was suggested for the membership. Now that this event has occurred today, what action or attitude is suggested?

COSMIC AWARENESS:

This Awareness indicates that when the earlier messages were given in reference to the potential of nuclear holocaust, this Awareness began the message indicating that the probability of nuclear war was not there, even though the indications in consciousness were pointing toward the probability of nuclear war. This Awareness indicates that the scenario which this Awareness presented as that which dealt with the energies which were in motion, and which were in fact at the time the reading was given, and also with the potential for altering these energies which has occurred today.

This Awareness indicates that the information which was given in those readings essentially is background information which entities can relate to in their present-day life, and with their present every-day concerns in terms of the general news of the times. This Awareness indicates that the information which followed as that which allows them to begin recognizing the forces which would alter the scenario, the circumstances, and the information which was released today as that which allows them to experience the alteration of these energies.

This Awareness indicates that essentially, the messages speak for themselves and do not need further clarification or alteration.

HIGHLIGHTS OF LEE MICHAEL'S TAROT READING

AFTER HIS ADDRESS TO THE UNIVERSE, APRIL 9, 1982

(Excerpts from a tape recording of this reading):

LEE: Wow! This is interesting. This is a perfect three-card cut. The first three cards are the 4 of cups and 2 of cups and ace of swords. The 3 cards on the bottom are the 10 of disks, the 6 of cups and the base card is the major Arcana card of Justice. To the left is the Magi and on the top is the Empress from the major Arcana; to the right is the Knight of disks. The 4 cards on the right are the 5 of swords, the 2 of wands, the 7 of cups and the 6 of swords, and laid over that is the Aeon.

This is REALLY significant. This is a perfect sum-up of that trance we did this afternoon, and--what's the date today, (April 9, 1982). This is in direct reference to the trance reading that was done previously today. Okay, very interesting.

The first 3 cards are in direct reference to understanding and the relationship and agreements and partnerships between various entities that are associated with this physical plane, but are not a member of this physical plane. There have been two spaceships that have flown over this place--this property, this office in the last 20 minutes or half hour... It's now 11 O'clock in the evening. Now, an interesting thing is about 15 minutes ago, I saw two entities and I saw two shafts of light directly outside the window. The two shafts of light were a signal and a message indicating very clearly that they understood very clearly what has occurred; they have initiated certain processes whereby they--basically--haven't been free to move; but now this information that came out in the trance this afternoon places them in a position where they are free to move and, most importantly, --the most important thing of all, is that they are saying, "Congratulations"! It's sort of a 'Congrats' beam.

Now for the rest of this...very interesting. First off, the massive adjustment and massive shifts occurring all over --the universe, all over everywhere--everywhere! I mean, you're talking about how long it would take, Avaton? It's taking place right now, this very minute. It's all over the place. I mean, there are ships out there that are not flying because of everything that is occurring; so many shifts have occurred that they are not even certain about their ability to navigate.

AVATON: Holy cow! In other words, the plug has been pulled...sort of,--or the chain was pulled!

LEE: Yes, One plug. I mean it's not THE plug, but A plug. But it definitely has got some things moving; it definitely got folks talking and made people more conscious and aware of their own actions, which is going to rob a lot of energy from what's happening down here. I do not foresee any major cataclysm per se. I do see crises. I do see a few things that we're still going to have to go through. But in terms of real, super-planet-threatening things, No. We're pretty much past that. The power source isn't available any more.

To the left, the Magi card: that refers to my initial act of communication in the last couple of weeks and the over-all action that is presented in this reading refers to the one this afternoon. This Empress card on top--represents the whole concept and idea that now certain forces and energies have been made aware of certain problems, and they're going to take care of things.

You know, it's like here in this dimensional reality, if you go up to somebody and say, "You have an extremely specific problem," a lot of times you get an, "Up yours"! Okay, now in other dimensional realities they're usually a little more together than that. Once they are made aware, they respond. That's what that's all about.

To the right, the Knight of disks refers to an extremely dynamic move as far as education is concerned, and as far as a whole lot of things happening in general,--extremely dynamic. It's like the educational process and the learning process is just taking (or has just taken) a quantum leap, --a gigantic quantum leap, with massive changes all over the place. And the general state of awareness and education in general that is occurring out there is just up and flying--it's going!

The four cards on the right, first off: the Dark Forces in general are feeling a little paranoid right now, a little upset, a little distraught. The next one, the 2 of Wands...that's interesting: it says I was supposed to do this, it was in the cards, it was part of my mission someplace. I knew I was supposed to do something...

The next one is that there's a whole lot of folks out there who, basically, are in a position where they're gonna party. There are celebrations occurring all over the place tonight, and will occur for the next three days. It's almost a festive party mood among certain individuals. Not among everybody; there are a whole lot of people who are freaking out all over the place.

AVATON: Hey, do you realize today is Good Friday! And it's also a full moon. Awareness has told us the energies on earth are highest at Christmas, Good Friday and Easter... and during full moons!

LEE: Well, the energy was certainly very strong this afternoon. So there is festivities and jubilation occurring among certain folks out there. So if you guys feel the urge, by all means indulge....(Laughing).

This last card is beautiful. This is the concept by which structure was created. This card,--I'll tell you a little bit about this card, the 6 of Swords. A lot of people have a lot of funny ideas about what this card means; and what it is in its pure, literal translation is like this: It's like you take all the force and energy that exists and you put them in perfect balance for the total purpose of creating structure. You don't have any hang-up about whether something is a force or whether it is an energy or whether it is good or whether it is bad or anything else; if it exists, you place it in precise relationship with everything else for the precise purpose of creating a precise structure, so you can make something happen. And that's all there is to it. And the idea is that if you want to get hung-up about what something is, nothing happens. If you don't want to get hung-up about what it is, and you want to create a reality by which it is perfectly structured, then you have the means by which you can make ANYTHING happen.

And that's what that is, and that is beginning to form, and it will start to form in the psyche of certain individuals. It's starting to form right now in our psyches a little bit; and it's an energy form that is almost independent of anything. It's almost like certain structure could never be formed or created as a result of everything that was occurring; NOW, it is being formed. Now it is being created; and it is accessible to us. It's not instant, but the beautiful part about this, is the fact that with that structure, it becomes more difficult for people to mess with it.

And this New Age, the final result.

AVATON: Then what we have experienced today is pure alchemy at work.

LEE: Well, maybe to a certain degree. What you have witnessed today is the final fulfillment of an old prophecy.

AVATON: What prophecy is that?

LEE: The one about somewhere, someplace, somehow, it was all going to start somehow, and that nobody was really jiving us along about this thing; that not only was there a New Age, but there was a means and methodology by which communication could occur between all the different levels and all that good stuff....THAT one!

ED'S NOTE:

After your editor put this special report on nuclear war potential together, it was discovered that two of Lee Michaels' questions to Awareness were inadvertently left out. These should have been included back on page 24 or 25. Since there is some space left, these have been reproduced below for your general interest.

LEE'S ABILITY TO TALK TO ANIMALS
...THIS INFORMATION TO BE PUBLISHED

QUESTION:

I see that, Awareness, in reference to the numerous mentions of my accessibility between the various planes, I have found in the last year or so, that my ability to communicate with animals, and my ability to understand and totally perceive their consciousness per se, not only would fit in well with this, but I also feel that I at some point in the future will bring this information to the public, and that it is important that the public understands this.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative.

LEE TO PUBLISH TRANCE INFORMATION

QUESTION:

Okay. In speaking in terms of bringing things to the public, I have initiated a program whereby certain publications from trance as well as other types of publications will be made available to the public by this fall, a few months from now, and that I feel that the primary research phase of my work is ending, and now the work seems to go into the realm of communication, understanding and publication, and general contact with the public. Would Awareness please comment on this next stage?

COSMIC AWARENESS:

This Awareness indicates that this appears to be an action which will begin to unfold and grow and have a satisfactory effect and can be beneficial to others. This Awareness indicates there are also other forces which are in motion that can have effects upon this plan. This Awareness indicates that the effects on this can be such as appear to alter the plan somewhat, but this Awareness suggests that you continue focusing on the plan in order to keep it on course as much as is possible.

ED's Note:

Lee Michaels, as this reading reveals, is into a number of very interesting things,--buried treasures, talking to animals, hypnosis, training trance mediums and interpreters, spiritual healing, psychic surgery etc. to name but a few. His desire is to put together booklets of some of the information he has channeled, also to put out some kind of periodic newsletter.

C.A.C. can't guarantee when any of this is going to happen, but we personally have considerable faith in this entity and believe he is going to get these things going quite soon. For this reason, C.A.C. is donating the funds from all sales of the trance session included in this report-- Lee Michael's address to the universe. We feel this was a very, very significant event, and time will prove this to be so. The tape of this actual trance reading will be a true New Age collector's items. I hope the membership can see fit to order enough copies of this tape so that Lee can begin publishing some of his material.

He has indicated to me that if enough entities show any interest in his material or services, he will put out at least a periodic newsletter to keep entities informed of what is going on and what is available in the psychic field. With this in mind, those interested are requested to send a \$5.00 or \$10.00 donation to Lee with a request that you be put on his mailing list. Once on his mailing list, you will receive further information of his activities and plans and what printed information is available.

You can reach this entity at the following address:

Lee Ian Michaels C/O CAC
~~210 First Avenue North, Box 100~~
~~Seattle, Washington, 98100~~

PS: Remember, you can get a cassette tape of this historic reading, by sending \$7.00 plus \$1.00 for First Class postage and handling, to:

C.A.C.
PO Box 115,
Olympia, Washington 98507

(Ask for the Lee Michaels address tape)
