\$4.00 SPECIAL REPORT

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

THE MYSTERY OF THE

SKOPTSIS

.....DEMONS OR DELIVERERS ?

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that these readings be read aloud.

ED's Note:

Ever since the term 'Skoptsis' first cropped up in the Cosmic Awareness readings and in the Dr. Beter Audio Tapes, in which he refers to these entities as "Russian Christians", there has been much controversy and very little facts presented. This editor personally delved into esoteric literature and history books and could find only a few references to the 'Skoptsis', and these being very vague about a very secret cult which few entities were even aware existed in Russia. A few vague references in early esoteric books indicated that the Skoptsis had existed in Russia for hundreds of years, that their rituals and their work was secretly guarded and that they were persecuted and forced underground. In the past few years they have evidently surfaced in Russia and according to Dr. Beter had succeeded in overthrowing the Bolshevik-Zionist rulers in Russia and expelling these entities, most of whom were brought to the United States by the Rockefeller powers and who now, according to Dr. Beter, infest our government and are planning a first nuclear strike against Soviet Russia in a revenge action.

Bill Sheppard, whose channel has been cleared by Cosmic Awareness, has sent considerable letters and channelings about these Skoptsis entities ever since C.A.C. first started to publish this information, and from his particular frame of reference the Skoptsis have little if any redeeming value. Much of his material seemed to confirm the information in the only book I have ever seen on the subject of Skoptsis, "The Unheeded Teachings of Jesus the Christ". In March, 1981, one of the many channelings by Bill Sheppard on this subject was read to Cosmic Awareness, and the response is included in this reading. Following this material, there is additional information on the Skoptsis given by Awareness a year later, in the spring of 1982. Since these Skoptsis entities, whether 'demons' or redeemers (depending on one's frame of reference), have and are continuing to make history behind the scenes, C.A.C. has decided to publish certain information on the subject, presented from several different frames of reference, in hopes that the membership, through their own individual channels, can piece together these many fragments in order that a picture can be presented which will most accurately portray 'what is'.

.....Another Letter from Bill

(C.A.C. General Reading No. 4)
March 12, 1981

QUESTION:

Awareness, the entity Bill Sheppard continues to see the Skoptsis situation that Awareness and Dr. Beter have been informing us about, as a 'divine allegory and a cosmic metaphor'. I have sent him information, articles, even a book on the Skoptsis called *The Unheeded Teachings of Jesus*, and asked him if he could look at this again; and he has done this several times, and each of his channelings reaffirm his position. He asked me if it would be alright if I could read to the Awareness his channeling, and if he is in error, corrections be made. And I'd like to ask at this time if it is permissible to read Bill's channeling on this subject?

COSMIC AWARENESS:

This in the affirmative.

ENERGIZER: (Reads Bill's letter):

"Dear Avaton. These channelings on the Skoptsis may be considered as possible interpretations. The Skoptsis issue and also the UFO origin of the Jews are the only areas that this channel has ever differed with the Awareness channeling, but even this difference is resolved when the element of allegory and symbol meaning is considered.

When I got your note concerning the apparent discrepancy in the Skoptsis-Bolshevik matter, I searched my own heart and channel long and hard, and feel that there is no discrepancy, but rather that we were looking at the same event from different perspectives in time.

Before I ever heard the word 'Skoptsis', my own channel had talked about the "Underground Christian Church" behind the Iron Curtain playing a large part in the intercession. I'm sure this "church" is the Skoptsis Dr. Beter and Awareness speak of.

But try as I might, I can't get a positive feeling that the Skoptsis have already overthrown the Bolsheviks in Russia, in "present time", that is.

But Dr. Beter and Awareness by SAYING it as though it were in present time, have grounded the event in consciousness and ensured its happening. And even now, as the Illuminati and Bolshevik forces in both New York and Moscow lose their momentum, the overthrow is actually beginning to happen.

When I first began hearing Dr. Beter's teachings on the Skoptsis a few months ago, I was troubled about it because some of it did not seem to "feel right" or "ring true" in the light of intuition. But when this time factor is taken into account, then everything falls into place. There is really no discrepancy, for in the Eternal Now, there is no separation between what is said and what is done.

Sincerely, Bill.

CONCERNING DR. BETER AND THE SKOPTSIS

This reading is not set forth as absolute fact, but only as a possible interpretation of the Skoptsis material.

This channel has learned that the 'First hunch' or first flash of intuition is invariably correct whenever hearing new aspects of the Conspiracy. The 'first hunch' correctly identified even the Council of 13, and always a crystal-clear 'ring of truth' witnesses somehow when something is true. But this was not so with Dr. Beter's explanation of the Skoptsis.

The 'Skoptis' to Dr. Beter, has become somewhat of a catch-all term, and is more allegorical than literal. Also, some of the Skoptsis material is displaced in time, and has an element of being prophetic or conditional.

The 'rational mind' of this channel sincerely wanted to believe that the Soviet government has been overthrown by the Christian underground. But the 'Inner Voice' says, "no way. This has not literally happened yet." I sincerely believe that Dr. Beter, a son of the Light, wanted it to happen so badly that he time-traveled, energized the event in the future and came back and announced it as already having happened. It is, in fact beginning to happen now. This time-displacement, I believe, is why my own channel just about exploded trying to reconcile the event as having already happened. I knew I had been under tremendous psychotronic hammering and bombardment, and some of it was clearly Soviet in origin. And I could not fathom this as coming from a country that'd been overthrown by Christians.

Also, the 'Inner Voice' says, "no way" to the idea that the Russian Christians literally castrate themselves. The 'self-castration' is an allegory of the tremendous material privations that the Underground church must suffer under the Iron Curtain regime. As for the Russian Christians having created robotoids, the Inner Voice again says "no way".

The whole story of the Skoptsis is largely allegorical and subject to quite flexible interpretation. To take it too literally causes flare-ups and disagreements among Light Workers, as has been seen already. One should let their feeling and intuition reach out and get a general sense of what's behind the allegory, rather than taking it at absolute face value.

This is in no way meant as criticism of Dr. Beter, but as a possible suggestion. Perhaps Awareness could affirm if I'm out in the weeds on this, and if I am, I certainly want to correct it.

Dr. Beter's story of the gold robbery from Fort Knox however, does have the clear "ring of truth" to it, and feels to be literal.

This area of the Skoptsis and the UFOs are camouflaged by the most powerful psychics on this planet. And probes of these areas have to be energized from the plane of Spirit. The spiritual plane is the only vantage point from which it's possible to see into the murky depths of the conspiracy. And because these readings have to relay through the plane of Spirit, it's inevitable that they'll pick up some coloration from the mental vehicle of the channel. And this renders them as allegorical. But this is the way the scriptures themselves were written, such as the Creation story in Genesis.

To bring this information through in the literal requires the most concentrated and fine-pointed of all energies. And this channel does not claim 100% accuracy in these areas.

THE SKOPTSIS CONTROVERSY:

The Final Summation

The Skoptsis stand revealed as the ruling elite of Russia, and qualify for their position by submitting to physical castration. The Skoptsis are Bolsheviks, and have headed the rulership of the USSR in unbroken succession since 1917. They are vassal rulers, puppets of the Rothschild-Zionist power cult in London, the 'Council of 13'. They become puppets, virtual robots of the 'Council of 13' by the crowning act of sacrificing their manhood. In all the world, can there be any greater sacrifice to offer as proof of allegiance to a ruler? They are fanatic loyalists to the Rothschilds' Bolshevik faction, and prove their loyalty by submitting to emasculation. And they become the puppet rulers of the USSR in the same capacity as the androids and robotoids which are used to rule the Western nations. The Bolshevik-Skoptsis and the robotoid-Synthetics are all controlled by the "Council of 13". (This channel must say WERE controlled, because these Synthetics and Skoptsis are coming under the sway of the Light Force more and more every day.)

So now we come to the question: how did Dr. Beter and Awareness come to believe that the Skoptsis are in fact Christian Light Workers in control of Russia? Well, back in the pre-Bolshevik days, the Skoptsis sect did flourish under the title of 'Christian'. Their bizarre castration ritual was actually the "supreme sacrament" in service to God. As ludicrous as this seems to the rational mind, this was the highest way of serving God in the Skoptsis way of thinking. Monasticism and celibacy are practiced by other cultures and religions as a method of attaining 'spiritual purity'. And the Skoptsis just carried it a step further to literal castration.

When the Bolsheviks came to power in 1917, the Skoptsis castration ritual was carried to the highest office in the land, and was made mandatory for all heads of state. By the time the Skoptsis sect ascended to hold the highest offices in the Soviet government, it was in fact a Rothschild-Bolshevik cult. It was no longer Christian at all, even though the term 'Christian' may have been applied to it from time to time. And this subtle fact seems to have escaped Dr. Beter. Dr. Beter's channel has been continuing to associate the word 'Skoptsis' with the Christian, pre-Bolshevik Skoptsis.

Dr. Beter has not caught on yet to the fact that the present-day Skoptsis are Bolshevik Luciferians, and have been since 1917. Also, Dr. Beter has been picking up the existence of a REAL Christian underground in Russia, and his channel confused this real Christian underground with the Skoptsis. This was simply an error, a misconception of Dr. Beter's conscious mind.

But spiritually, Dr. Beter's channeling was NOT in error. Dr. Beter, in the deep longing of his heart, WANTED Christians to be in control of Russia. And this was the meaning and the energy, in the form of allegory, when Dr. Beter declared "the Skoptsis are in control of Russia". In his heart, 'Skoptsis' meant 'Christian Light Force'. And Dr. Beter channeled this energy as a prophecy, an actual time-warp into the very near future, energizing the fact of Christian rulership of Russia. And that fact is even now beginning to become reality. The Light Force IS beginning to influence the leadership of Russia.

The literal Skoptsis as well as the robotoids and Synthetics are beginning to come under the sway of the Light Force. The change is coming about subtly, energized from the inner plane, and is not readily discernable to the untutored eye. Just as the Skoptsis sect became Bolshevik subtly and covertly, the Bolsheviks are being transmuted into Light subtly and covertly. It's fascinating to see this thing actually working on the inner plane, and to catch the signs of it as it begins manifesting on the outer.

As the Avatars and Light Workers begin energizing this action from the plane of Grace, we're going to see a great acceleration and a spiraling upward of national leadership. The Skoptsis and robots will find themselves answering to the Light Force, with the change having come about unnoticed and undetected. This is what the Bible means by Christ coming "as a thief in the night". One fine morning, the national leaders will find themselves serving the Light in spite of themselves, as even the Rothschilds will. For this is the Law of the One. There is no enemy. Only maya and ignorance is the enemy of man. Man's belief that he is separate from God is what gave Satan and Rothschild their power. As man's ignorance and separation ends, so ends the rule of the great elemental powers of darkness. As man learns that there is truly no enemy to "attack" or be "against", even the rulers of darkness are transformed into our brothers in Light.

The great lesson of Oneness, of non-duality, of non-attacking, has to be learned first of all by the Avatars and Light Workers. As long as the Light Workers remain in the mode of attacking and being "against", they are still in karma and duality, and their action serves only to perpetuate the darkness. Examples of this are seen in the entities Jack Katchmar and L.K. These entities must unfold to the plane of Oneness before they can serve the cause of Light. Only conditionless love can heal the antichrist and then the world. Attacking and hating cannot heal anything. Conditionless love, the Law of the One, extends the hand of mercy and forgiveness even to the antichrist, to the Rothschilds, and to all their Skoptsis and robot vassals. Conditionless love loves them not for what they've done, but in spite of what they've done, and offers to heal them and forgive them and restore them to the Light of the One God. Under the Law of the One, these entities are not our enemies, but our fallen brothers. There is no enemy but maya--the idea of separateness from God.

So Dr. Beter and Awareness, even though their outer minds were using the literal idea of 'Christian Skoptsis', they were energizing from the plane of symbol, from the plane of Spirit, where the real intent of the heart is found. The love and desire of the heart manifests itself into reality regardless of what language is used to convey it.

Furthermore, the letter-writing and prayers of the Light Workers in regard to the "cobalt bombs" was purely an allegory, and represented returning karma that was targeted for New York, this energy was transmuted to a certain degree by the Light Workers' actions. John Lennon took the full remainder of that energy, preventing any of it from actually hitting as a physical earthquake. That was the "sealing" of the final burst of Armageddon's energy, actually 'cutting the cord' at the karmic navel of the world,--New York City. If that sealing action had not occurred, that final burst of energy would have blown New York off the map. That was the 'defusing' of the symbolic cobalt bombs seen by Dr. Beter and Awareness.

Prior to the Great Intercession, New York would have been the first impact-point of Armageddon. And after the Intercession, New York was also the last, standing out like a lightning rod to draw the final bolt of energy. But with the defusing of that energy by the Light Workers and John Lennon, even the final bolt was prevented from striking.

The Skoptsis symbolism involved in the New York scenario is explained in the reading called the "8th Plane Interpretation of 'Skoptsis'." There is a great difference between the words 'Russian' and 'Soviet' which should be pointed out. Alexander Solzhenytsn explained it best. Russia is the name of the country that existed prior to Communism or Bolshevism or anything else. Mother Russia, pre-Bolshevik Russia, is the great and noble country that was ravished and pillaged by the Bolshevik forces, the 'Soviets' in other words. "Soviet Russia" means 'occupied Russia', the Union of Soviet Socialist Republics', or USSR. The word 'Soviet' refers to the Bolshevik Communist faction in control of Russia. But Russia itself is the native, free, beautiful country that is even a metaphor of the Divine Mother, just as America is a metaphor of the Great Republic of Heaven. So the free and native land of Russia, the Mother-Land, is far different in meaning than the USSR or Soviet Russia.

And as the Skoptsis rulers are gradually turned to the Light and finally replaced with Avatars, Mother Russia will grace the earth again as the symbolic Queen of Heaven.

(Feb. 15, 1981)

THE 8th PLANE INTERPRETATION OF 'SKOPTSIS'

The term 'Skoptsis' as used by certain channels is an allegory symbolizing the Avataric Company and their work of intercession. Other channels have used other allegories to symbolize the Avataric Company:

"Him on the White Horse"

"Luke Skywalker"

"2nd Son"

"Avataric Company"

"Skoptsis"

Each of these is metaphoric. It is a cabala or allegory generated by the mental vehicle of the person doing the channeling. Each of these terms represents the "rider on the white horse" who 'makes war' on an enemy. And that 'enemy' has been interpreted as Jews, blacks, Zionists, Rothschilds, Satan and Lucifer by many entities.

But what is really the 'enemy'? From the plane of Oneness, which is also the 8th plane, there is no enemy but maya--the sense of being 'against' or divided.

In the case of the Skoptsis, this allegory was derived from a literal sect of self-castrators in Russia. They were highly dedicated, radical fundamentalists who voluntarily submitted to castration in what, to them, was the highest way of serving God. In a larger sense, the Skoptsis symbolize the entire underground Christian church which operates covertly behind the Iron Curtain (in Eastern Europe and China as well as in Russia).

This Underground Church, in order to follow the teachings of Christ, became the most-hunted criminals in the Communist world. They do not belong to the mainline churches. The pastors of every public church are registered, card-carrying Communists, and their sermons are watered down and carefully screened to reflect only the Party line. SS officers are in the congregations of every public church or religious meeting to be sure nothing is said or done in sedition against the state.

So the Underground Church, in order to function, has to submit to the most terrible degradation and poverty, hunted and branded as the worst of criminals,--worse than rapists, murderers and bandits. A man, in order to belong to the Underground Church, may experience the loss of his wife and family, knowing that they are branded as criminals simply for being his kin. He knows that his wife and children are outcasts, denied schooling and employment, and forced to live as beggars. All this is the price a person must be willing to pay in order to follow Christ in the Underground Church. The suffering and privations of this church are a large force in the Intercession because these are Avatars. The castration ritual of the tiny Skoptsis sect is only a metaphor of the material privation and suffering of the entire Underground Church.

And then in a larger sense, the Underground Church symbolizes the Avataric Company on the world scale, who likewise suffer great hardships and privations, the symbolic "castration" of the Skoptsis. The whole thing, the whole cabala of the 'Skoptsis' is rooted in the lore and symbolism of Russia. Just as other cabalas, other traditions, have grown up from all the other cultures of the world, this one is uniquely Russian.

Dr. Beter happens to be familiar with the Skoptsis, and Dr. Beter channels from Celestria. So his mental vehicle simply uses "Skoptsis" to symbolize the Avataric Company itself and its various works of Intercession. It is very possible that Dr. Beter thinks the Skoptsis material is literal, just as this channel (Sheppard's) thought the "2nd Son" was literal. And John, who wrote of the 'Rider on the white horse', may have thought this to be literal. But all of these are unique picture-stories of the coming of Christ, filtered through the minds of different channels. Jesus symbolized it as the 'coming of the Son of Man'. The coming of the Avataric Company, in turn, symbolizes the coming of the Christ Consciousness to the whole human race. So 'Skoptsis' is also a type of Christed Humanity.

Paul Shockley's Awareness channel, in agreeing with Dr. Beter on the Skoptsis, is witnessing from the plane of Spirit, where all symbolism originates. Awareness is not witnessing to the literal interpretation of 'Skoptsis' even though the outer mind may assume it to be literal. The mental vehicle of the channel may even add to and embellish the allegory, actually creating certain explanations to conform to the literal interpretation. The Russian move into Afghanistan is thus interpreted to conform to the literalized idea of 'Skoptsis'.

The destruction of New York "by the Skoptsis" (and I scarcely dare channel this) was also allegorical. It symbolized the full-scale decimation of the world in Armageddon. New York was going to be destroyed by an earthquake, no doubt about that. But the 'Cobalt bombs' represented the karma, the national and world karma that was ready to unleash destruction on N.Y.C. and then the world. N.Y.C. was the first target, because it is the number one den of moral corruption and depravity on earth.

But how does this square with the 'Skoptsis' or Avataric Company having planted those 'bombs'? It simply means that the Avatars were asleep, that they were in agreement with karma, thus keeping the bombs armed and ready to explode.

This channel 6 years ago saw ICBM's and warheads falling on New York City. Dr. Beter and Awareness saw 'cobalt bombs' ready to go off. If the 'Skoptsis' had triggered those 'bombs', it simply would've meant the

Avataric Company defaulted in its job of Intercession. But there was enough awakening in the Avataric Company to energize the Great Intercession, thus defusing and venting off the karma and preventing Armageddon. In other words, "the Skoptsis defused the bombs". In the ultimate sense, the Avatars represent God, and God in the beginning authorized the Great Experiment of Luciferianism and karma. And God, in the ultimate analysis, is responsible. God 'planted the bombs'. And God, if He so desires, can defuse those 'bombs' of karma through karmic Intercession by Avatars. And this is precisely what DID occur. N.Y.C. and the world still exist because of it.

Note that the destruction of N.Y.C. was coming not primarily because it was the center of the Beast and the war machine, but because it was the Sodom of this planet. It was the karmic and moral sinkhole of the entire world. Like a lone tree in a field, it was drawing the first lightning bolts of the earth's returning karma in the full-scale Armageddon. And this should stand as a perpetual warning to entities who think that mass violation of moral and karmic law is OK without first coming under Grace.

So in a nutshell, it was God who in effect 'planted the bombs' because God in the beginning authorized karma, which was the law of the Luciferian Experiment. But eventually God, in the person of the Avatars or 'Skoptsis', also stepped in through karmic intercession to countermand the Great Experiment.

There is tremendous ebb and flux in the workings of prophecy and Intercession and between the literal and symbolic. Sometimes there is not a clear-cut line between the two.

Edgar Cayce, who also tapped into the Russian aspect of the last days, also said "Russia will be the savior of the world". This refers to the Avatars of the Underground Church, and also to the fact that "mother Russia" represents the Divine Mother or Goddess.

So like in Cayce's 'Rising of Atlantis', there is a medling and a blending in these things, constantly subject to change, between the symbolic and the literal. Only the eye of the Spirit can correctly discern and interpret.

The 'Skoptsis' allegory is a very unique and original way of telling the great story of God and karma and Intercession. Like 'Star Wars', it is a scripture drawn through the unique mental vehicle of a channel.

In literal terms, of course, the Bolshevik forces have controlled the Soviet Bloc under the same regime since it was set up in 1917. Dr. Beter, who is a prophet of God, has stated, "the Skoptsis are in control of Russia". Mother Russia is a sacred metaphor of the world, or Mother Earth. And the Avatar, the Christ, is in control of earth. This is the meaning. The healing energy of a great prophet, Dr. Beter, was transmitted into future time, strengthening and ensuring the coming of Christ to this world.

The Bolshevik forces are even now beginning to crumble and lose their hold on Russia and the world. In other words, the literal event is now beginning to occur. It also pictures the antichrist or maya losing its hold on human consciousness (for that's what the antichrist really is--nothing by maya, or separation from God.)

Dr. Beter's prophecy using the Skoptsis allegory is an echo of another prophecy written 2000 years ago by the Apostle John: "And I saw heaven opened, and behold a white horse; and he that sat upon him was called faithful and true, and in righteousness he doth judge and make war (on ignorance or maya)."

Dr. Beter, like John, transmitted and anchored healing energy into future time, reinforcing and shoring the way into the New Age. Their energy, both on the outer and inner planes, helped spark the awakening of the Avatars and helped trigger the Great Intercession. These great prophets of God helped illumine the path into that hole in space, the cap of the pyramid, which is the

Clear Light of God. Their consciousness was part of the collective Hand of God that steered the clipper ship of humanity through the straits and into the Golden Sea. This is the 8th plane interpretation of 'Skoptsis'.

And that ends Bill's channeling from his particular plane of reference on this subject and we'd like Awareness to comment.

DR. BETER'S SOURCES OF INFORMATION

COSMIC AWARENESS:

This Awareness indicates there as being an overwhelming amount of information requiring clarification from other potential frames of reference. This Awareness indicates that there are many aspects of this channeling which cannot be clarified from these various other frames of reference at this time. This Awareness indicates that the more important or significant areas may be looked at and commented upon from *this* channel's level of reference.

This Awareness indicates that the entity Dr. Beter as not to be confused with a psychic channel, or a channel giving forth information from Divine or Spiritual sources exclusively. This Awareness indicates that this entity as receiving his information from intelligence sources of various nations, particularly from the British Intelligence, from the Intelligence Agencies of the United States, and from some KGB and Russian sources. This Awareness indicates this entity receives information also from other sources; that many messages come through indirectly to this entity, rather than directly from these sources.

This Awareness indicates that in presenting the monthly message, this entity collects the information, and compiles this information according to his own sense of urgency and importance in terms of the information. This Awareness indicates that in this sense, the entity is guided by higher forces in determining what approach to use in presenting the information, what information to relay to the masses, and how to interpret certain energies related to this information. This Awareness indicates that the entity is very careful not to relay information which has not been confirmed from more than one source.

THE COBALT BOMBS AROUND NEW YORK

This Awareness indicates that in the messages relating to the cobalt bombs placed around New York, and other information given in previous material which this entity released regarding similar actions some years back, this Awareness indicates this as more than mere allegory, or more than a mere play on consciousness to play out a scenario for working off religious images and concepts.

The Skoptsis 'Taking over Russia'

This Awareness indicates that in reference to the Skoptsis taking control of Russia, that this might have been worded in a somewhat oversimplified manner, rather than expressing in detail the struggle which went on for some 60 years and the inner actions between these beings, which are even at present still occurring in that nation. This Awareness indicates that it is a simplification to simply see Russia suddenly as being guided by Christian Skoptsis, and the United States as having

absorbed the Russian Bolsheviks, who are now in power here. This Awareness indicates that these simplifications are the issue, for this has created a kind of black-and-white polarity, which is either appealing or repulsive to those who have had previous attitudes and conditionings relating to the roles of the two major super-powers.

This Awareness indicates that essentially, there has been a continuous action in the country of Russia by the Skoptsis sect, which derived its fanaticism from earlier teachings related to interpretations of the Christian religions. This Awareness indicates that this has been growing for some time in that country, in such a manner that even before the Bolshevik Revolution in 1917, many of the leaders and influential people in Russia were also members of the Skoptsis sect. This Awareness indicates these entities literally castrated themselves in order to belong, and to reap the alleged benefits which they expected from such involvement. This Awareness indicates that these entities, over the period from 1917 to 1975, increased their influence in the Soviet Union, moving into greater positions of power.

This Awareness indicates that a secret struggle went on among entities within this government, and what occurred thereafter was a changing which was very subtle in some ways,--similar or not unlike the change of balance in your Congressional Houses wherein, for example, the Republicans gain extra seats and have greater control than the Democrats. This Awareness indicates likewise, the struggle which occurred in Russia was such that it was not so much a kind of secret military coup as it was a gradual shift of positions of entities in such a subtle move that certain realizations occurred whereby it was discovered that those entities having greater positions of power were in more and more numbers identified with the Skoptsis sect.

This Awareness indicates that then, there followed that which was the expulsion from Russia of many Russian Jews. This Awareness indicates that this was the beginning of that breakdown in detente between the United States and Russia, which Mr. Kissinger and Mr. Rockefeller had so carefully cultivated. This Awareness indicates that as this broke down, it was approximately at this time when the so-called "Battle of the Harvest Moon" occurred and the Russians implemented their direct counter-actions to the Rockefeller power.

This Awareness indicates that the assumption that the Rothschilds were associated with these Skoptsis and the Bolsheviks involved in this action is correct to some degree. This Awareness indicates that these forces of the Rothschild empire do have certain diplomatic relations with the Skoptsis. This Awareness indicates however, these entities would switch allegiance and move toward that of the Rockefeller powers if it were to their advantage. This Awareness indicates these Rothschild energies will go wherever the greatest advantage lies.

This Awareness indicates that the Skoptsis are not to be considered as being some type of super-righteous Christian avengers. This Awareness indicates these entities are no different from most entities, except in that they have different ideas and fanaticisms. This Awareness indicates that these entities have different allegiances; and this Awareness indicates that wherein these entities have an allegiance to their occupations, to their leaders, to their government; these entities are not any more likely to move around the planet doling out Christian goodness than is any other entity in any other nation which calls itself Christian, or any other entity of a Christian church which finds itself in a state of turmoil or war.

This Awareness reminds you that there were many American Christian men involved in World War Two who were devoting their lives not to doling out Christian goodness, but to firing flame throwers, shooting bullets, dropping bombs, and other mischief.

This Awareness indicates that the line is not as simply divided as some entities might like. The entity, Jack Katchmar, has much difficulty in his thinking, of seeing shades of grey, of shadows, or of obscured areas. The entity wishes everything to be likened unto a checkerboard where each square has its proper color and everything is divided in extremes of definition, so that no mistake can be made. This Awareness indicates it is not like that in any levels of reality. This Awareness indicates it is more like looking into a pool of water and seeing the images of the checkerboard and seeing images of the energies, and attempting to understand what those energies are, where they are moving, and defining the movement of energies. This Awareness indicates this is that which the entity, Dr. Beter, has attempted to share with others.

This Awareness indicates that the entity, Dr. Beter, is aware that there is still much struggling occurring in Russia between the Skoptsis and the Bolsheviks. This struggle does not mean that there is civil war occurring, any more than to state that there is a struggle between the Democrats and Republicans in the United States. This Awareness indicates that these struggles are not necessarily in the sense of out-and-out violence, for these entities are also under their own laws, and changes take place according to the rules by which entities play the game. This Awareness indicates that the entity, Dr. Beter, has given certain information regarding the breakdown of detente and the change in the shift of power, and it would be difficult for the entity to keep a running dialogue of all the continuous changes which are occurring in that nation.

This Awareness indicates there are also similar changes occurring in the country of China, that there is a struggle in this nation also. This Awareness indicates that likewise, in the United States there is a similar struggle occurring between the Bolsheviks expelled from Russia and those associated with them and using them; and the opposing force which is the remnant of the Rockefeller empire. This Awareness indicates even though there is a struggle occurring between these forces in the United States, there also is a certain amount of cooperation. This may be likened unto business competition, or competitors who do business together, yet who try to outdo the other. This Awareness indicates these as being power-based forces in competition with each other, but not in out-and-out bloody violence toward each other. This Awareness indicates these entities as shifting and making maneuvers to gain greater power, according to their goals.

This Awareness indicates that the actions of these powers in the United States and those of the Russian nation and of the Rothschilds, may all be seen as interlocked in a kind of tug-of-war between these entities, while even as this occurs, there is the agreement by these forces to tug in this pulling fashion and competition, so that whoever gains power, the others will support in the end. This Awareness indicates that these entities are not necessarily seeking to destroy each other; they are simply fighting over the robe of Christ,--trying to get the biggest piece of humanity and control the masses in a manner which gives them power and glory. This Awareness indicates that these entities risk war up to a point, and in absolute desperation, could trigger war with one another, but prefer not to

do so unless they are confident of winning. This Awareness indicates that in this way, these forces are dangerous.

This Awareness indicates in another sense, these forces are playing out the illusion of maya, and when this is played out long enough, all entities will recognize the futility of the illusion and will turn to the Christ-light, or Spirit of the Divine, and forget about these childish illusions.

This Awareness indicates however, that for the child in the street, for the mother in her kitchen, for the man driving home from his efforts to secure unemployment, from the lady who has just completed her application for a professional position in a company, for the minister who speaks to his flock, who has a certain mentality and programming and whose flock demands that of him; for the lady who needs to sell the product, from the eyes of the sailor on a ship, from the concerns of the schoolgirl in her affairs; from all of these levels of individuality, all of this cosmic play, international intrigue, the high economics, the spiritual magic of intercession,--all of this is "out there" doing its thing, and these entities are faced with *their* frame of reference and that which must be done before going to bed.

This Awareness indicates that all these different frames of reference, the allegories which are realities, the realities which may be allegories, the movements and prophesies which may change, the powers which demand allegiance, which must be obeyed until informed that they are in error, the shifting of loyalties, allegiance, of concepts, the changing of the guard; all of these activities have their place and can be seen as proper or improper, and can be interpreted as being slightly off base, or can be interpreted as being "right on", depending on where each entity observes, and which frame of reference is used.

This Awareness indicates that in the interpretation of the entity Bill Sheppard, this Awareness saw no real discrepancy in what he was saying and what this Awareness and that entity, Dr. Beter, had said, except that there appeared to be some slight misunderstanding of what this Awareness had intended in *Its* words, and what Dr. Beter had stated in his sharp way of speaking. This Awareness indicates that had the entity, Dr. Beter, explained all the less sharp areas of the shifting in power, there would be very little distinction made between the message of these two entities.

THAT "SOVIET NOOSE" (Again)

This Awareness indicates that essentially, all entities are correct. The message Bill Sheppard gave referring to throwing off the Soviet noose, which started the reaction from L.K., who is Russian born and who has experienced certain circumstances and has some inside information of her own in regards to what has occurred, and the entity Jack Katchmar who likes to see everything in black and white in order to play the game assuredly; this statement of the entity Bill Sheppard, that of throwing off the Russian noose, this also, while capable of being misinterpreted, and perhaps needing clarification, this also was correct from the frame of reference which this entity was using, for there were still, and at this time, Bolshevik forces in Russia and elsewhere which are part of that 'Soviet noose'. This Awareness reminds you that the Soviet noose is now, in part, brought to this United States through the Bolsheviks who have immigrated here.

This Awareness indicates that likewise, the entities who objected to Bill Sheppard's statement were also correct from their frame of reference; for in looking at it in one way, the Soviet noose was no longer the threat which it had been some 15 or 20 years ago, when the

Soviet Union was bound and determined to "bury" the United States.

CHRISTIAN COMMUNISM

This Awareness indicates however, that still in another sense, the Skoptsis truly believe that Communism is that which is Christ's way, and that Christian Communism will be the wave of the future. This Awareness indicates these entities believe that the action of sharing, wherein the State owns the properties, this Awareness indicates that these entities believe this to be Christian in nature, and are therefore continuing the process which was started by the early Communist teachings of Karl Marx and others, and these entities see no conflict between Christianity and Communism. This Awareness indicates that because of this, you will continue to see a kind of struggle between those entities who promote Communism and those who promote Capitalism; the one wherein the State rules all and owns all, and the other wherein the corporation, or banks own all and rule all. This Awareness indicates that these two systems are still in conflict with one another, but as the entity Bill Sheppard indicated in his channeling, there are changes which are occurring, and there is Light which is coming in to light these darkened ways, and there will be that which comes into Light, in spite of itself and its intentions.

This Awareness indicates that the channeling from the 8th level by Bill Sheppard is that which is accurate in its frame of reference, yet while there is accuracy in that these messages of Dr. Beter and through this channel have been allegorical in one level, this Awareness indicates this does not deny that these messages have also been actual in another level. This Awareness indicates the actual bomb placement around Manhattan Island, and the actual Skoptsis takeover as indicated, and the fact of organic replicas of human beings; these are not mere allegories, although they may also have allegorical value in cosmic play of things, and may be symbolic in the cosmic view of things: these things also may have physical reality for those who like to touch and feel their allegories.

QUESTION:

Would Awareness have any objection if this channeling by Bill is published, followed by the response by Awareness?

COSMIC AWARENESS:

This Awareness indicates this as being appropriate.

(Closing Message)

This Awareness indicates that this entity, Bill Sheppard, as being uniquely gifted with both willingness to surrender personal concerns with humility, and the grace to learn with courage, and honor enough to share, and with humanness enough to have needs. This Awareness asks that entities who appreciate the channelings from this entity, to, on occasion, share gifts with this entity to make this channeling more rewarding and easier for the entity. This Awareness indicates this entity as having few personal needs, but having certain obligations to others which require some attention. This Awareness indicates that modest contributions to this entity on occasion, when truly felt, would be appreciated.

THE CASTRATION PHILOSOPHY

OF THE SKOPTSIS

(Wanted....144,000 Virgin Males)

(Excerpt from C.A.C. General Reading No. 3)

February 13, 1982

ED's Note: after not hearing from Bill for quite some time, nor receiving a return address from him when we did hear from him, a letter from Bill was received a few weeks ago (April, 1982). Bill is in San Francisco, recovering from a heart attack that nearly killed him during one of his out-of-body journeys into the inner planes. This editor personally knows this entity is penniless and at the mercy of the powers that be. Any contributions the membership feels like sending this entity may be sent to C.A.C. and forwarded to the entity. In the past when C.A.C. sent Bill a donation by check, he sent it back stating that he carried no identification with him while on the road, nor did he care to do business with any bank. (Therefore, please make your checks out to C.A.C., but indicate the amount you wish to donate to Bill. We can then write a check on our bank, cash it, and send Bill cash money as requested.

For more information on the cobalt bombs around Manhattan, please refer to 'Revelations of Awareness' No. 80-33 A (Hotline); \$3.00 from C.A.C. For more information on the channelings of Bill Sheppard, please refer to No. 81-2 (A Search for God); \$3.00. Also in the following 10 or so 'Revelations', you will find "Letters from Bill" as a regular feature.

QUESTION:

In light of the verification of the channel of member Jorge Resines, in Argentina, I would like to ask Awareness about the following information this entity sent recently. He states:

"Before my illumination, and this is related to my mistakes, I also believed the Skoptsis were benevolent world saviors; but since then, and especially after Oct., 15th, I really saw what they are; and man, you wouldn't like it if they took over the USA. Their plan is to obtain 144,000 young men that "have never known any women" in the sexual way, and to castrate them. In this fashion, they would perform, by wholesale castration, a magic act that would oblige the Christ to come down from heaven, and to castrate all the rest of the inhabitants of the world. They believe that the Old Testament patriarchs and prophets were eunuchs, and that sex is the result of the original sin, and not the other, as Christians usually believe. How Christ will castrate everybody else in the world by himself alone, this they did not explain, even to themselves, so you can see what kind of people they are,—mentally unbalanced."

Would Awareness please comment on that?

COSMIC AWARENESS:

This Awareness indicates that this as being somewhat inaccurate in terms of channeling. This Awareness indicates that in one sense however, the information as that which does need to be released in terms of allowing entities to understand about the philosophy of the Skoptsis. This Awareness indicates that the Skoptsis do require that those who work closely with them in the higher echelons, go through the castration experience. This Awareness indicates there are those levels of hierarchy within the ranks of the Skoptsis which make certain requirements as part of the initiation into these hierarchy systems.

This Awareness indicates that insofar as the concept of universal castration is concerned, these entities recognize the futility of such a concept, in that it would lead to the complete depopulation of the earth. This Awareness indicates however, they do have a modified version, whereby they visualize allowing certain entities to have children or for entities to have a particular number of children before sterilization.

This Awareness indicates that essentially, there are many conflicts, even among the Skoptsis themselves in terms of their philosophy in regard to this question. This Awareness indicates this as likened unto the many conflicts among Protestants or Catholics, in regard to dogma of their religion. This Awareness indicates the Skoptsis have various sects among their own general order which are also in conflict with one another. This Awareness indicates that in some areas these entities accept sex up to a particular age, and children of a number such as two or three, or in some instances one

child. This Awareness indicates that the quantities of children varies according to the place and according to the needs of the particular sect or group.

This Awareness indicates obviously, wherein sex is forbidden, and entities are castrated at younger ages, and do not have children, the sect will soon die out. This Awareness indicates that in the last century, there were many instances where these entities found themselves losing population at such a rapid pace that their sect was simply dying off. This Awareness indicates in other areas, by modifying the rules, the sect was allowed to grow at a slow pace. This Awareness indicates that the concept as that which is somewhat self-defeating as opposed to the Catholic concept whereby birth-control is forbidden and large families are encouraged. This concept as that which allows the Catholic church to grow in population at a rapid pace.*

THE ELITE ORDER OF SKOPTSIS: DOVES, LAMBS AND GOATS(OUT WITH THE CLITORIS !)

This Awareness indicates the Skoptsis, on the other hand, are guided by a concept which, if followed totally, would annihilate their entire sect. This Awareness indicates essentially, the action of castration has become a requirement for initiation into this very elite club; that those who wish to belong to the elite order of Skoptsis must sacrifice that which is their sex organs. This Awareness indicates that there are two levels: the doves and the lambs. The doves being those who have had the entire organs removed, the lambs being those who have been castrated. This Awareness indicates this also as that which relates to a hierarchy among these entities.

This Awareness indicates that the Skoptsis consider entities who have not yet been castrated as goats. This Awareness indicates that in terms of the female, the castration as being that which is less frequent, and modified for the feminine genitals. This Awareness indicates that the pleasure centers being removed. This Awareness indicates that the impetus of the movement is in the belief that the foregoing of sex will lead to everlasting life. This Awareness indicates that this concept as that which sprung up in part from a mixture of the Hammurabi code, which stated: "if thine eye offend thee, pluck it out", and from certain early Hebrew sects which believed that indulgence in sex caused a loss of vitality.

This Awareness indicates that this as being in opposition to the concept of Tantric Yoga. This Awareness indicates that sex has always been a mystery to humanity; that the efforts to control or to use in excess these energies, as that which has often been capitalized on by those who wish to control the minds of entities. This Awareness indicates that by forbidding sex, entities were able to create taboos, which served as ways of regimenting masses. This Awareness indicates also, by indulging sex, entities were able to capture the fantasies and imaginations and minds of others, to become involved in orgies and activities which were without restraint.

EXPLAINING THE 'CONSERVATIVES'---RESTRAINING THE SEXUAL ENERGIES (More on right and left side of brain)

This Awareness indicates that essentially, restraint of the sexual energies leads a culture to become more rational, more regimented and more conservative and restrained. This Awareness indicates extreme examples of this being seen in those militaristic societies such as Rome, Germany, and present Western societies of the 19th Century. This Awareness indicates that the societies which did not create such taboos in regard to sex, such as those which allowed greater freedom in this respect; this led to development of less regimented societies, societies which were not well organized, which did not have controls other than perdition. This Awareness indicates examples of this being India, China, and some of the oriental societies.

This Awareness indicates those societies wherein a balance between the sexual energies, that of the restraint mixed with the expression of sex, are those which have flourished best. This Awareness indicates that these allowing for creative expression as well as organizational structure, whereby a balance occurred in the culture. This Awareness indicates that essentially, this as associated with the right side of the brain and the left side of the brain.

The left side being that which is the restraining side, the judgmental side, the side which deals in logic and rational thinking. The right side being that which deals in creative, artistic and pleasure expressions such as music, dance and the sensual enjoyment of life. This Awareness indicates that wherein the left side of the brain is in greater control of the sexual energies, it creates judgment of these energies, and attempts to control the energies in one way or another.

This Awareness indicates in extreme, this can be seen in the fanatic Skoptsis; it also can be found in the extreme psychotic who believes that sex is inherently evil, but who becomes so obsessed with it that he becomes insane and does things which are totally opposed to his conviction.

This Awareness indicates the entity who looks at sex from the right side of the brain, in full indulgence, without any left-side restraint, this entity is one who is completely open, and ready for sex at any time, any place, or with any one wherein they can get by with it. This Awareness indicates that such openness obviously leads the entity into total degradation and loss of direction for one's life.

This Awareness indicates that these being the two extremes; the left side and the right side being the extremes in terms of viewing the sexual energies. This Awareness indicates the middle road, which was highly prized by the Greeks as the Golden Mean in all things, this is the straight and narrow path which has been spoken of by the mystics, as that which is neither to the left nor to the right, but as that which is the tight-rope, the razor's edge, the straight and narrow path.*

This path in consciousness between the right and left sides of the brain as that which yields the highest return in terms of successful living. This Awareness indicates not too much restraint and not too much indulgence, but full attention in what you do.

* Suggestion to the Skoptsis: Hey, did it ever occur to you to just castrate the Catholics instead? In this way, you could still get your kicks and possibly prevent the Global 2000 scenario from occurring. (Just kidding. Heh, heh.)

* The Greeks are also notorious for pederasty.

This Awareness indicates in terms of the Skoptsis, this action as that which would totally deny sex by cutting it off, such as prescribed by the ancient code of Hammurabi: "If thine eye afflict thee, pluck it out". This Awareness indicates that the alternative being that of the Western military strategist as that which would promote conquest and control over masses in similar ways, whereby the masculinity or femininity and individuality is removed psychologically. This Awareness indicates that either of these extremes, the Skoptsis or the Bolsheviks,-- either of these extremes as that which is not to the benefit of humanity.

This Awareness indicates that *It* has not indicated that the Skoptsis were the saviors of humanity, although these entities in presenting a reflective force against the Bolsheviks are serving as a mirror, or counter-force, which will in time bring forth a balance of energies, a reconciliation, whereby the extremes are modified and come together. This Awareness indicates that in one sense, in this sense, the Skoptsis may be capable of helping to save humanity. This Awareness indicates likewise, the Bolsheviks may be capable of helping to save humanity from the Skoptsis.

This Awareness indicates these are energies of extreme nature being played out, one against the other, with humanity caught inbetween. These are energies built on concepts, ancient concepts which have grown and developed over centuries, which must be defused. The one concept being that which believes itself to be the chosen force to rule the world, the other concept being that which believes it is its divine duty to prepare the world for the coming of Christ. This Awareness indicates these concepts, being at odds with each other, not seeing how they can be reconciled, because the entities themselves do not seek reconciliation, but rather seek to use their concepts as energies, hypnotic forces to give them strength to fight against each other.

This Awareness indicates that in time, with good fortune, these energies can be reconciled, but it requires great levels of attention and understanding. This Awareness indicates that the more entities who understand this message, the more these energies in consciousness will be touched so that reconciliation can occur. This Awareness indicates that consciousness is likened unto a great ocean of chemicals, and wherein a concept is thrown into this ocean, it mixes with the other concepts and a chemical reaction occurs, an alchemical reaction.

RECONCILING CONCEPTS--HOW ALCHEMY WORKS

This Awareness indicates that wherein there are concepts which are in opposition to one another, and entities can isolate these concepts, even as a chemist isolates chemicals, and as these isolations are looked at in their most pure nature, wherein the concepts are examined clearly by the alchemist, (which is any entity who is capable of seeing these concepts); as this alchemist looks at these concepts and sees them in their purest sense, and finds the way whereby they can be bonded together to create a reconciliation, a new molecule, something that does not explode or become volatile toward each other; as the alchemist blends these concepts together in the sea of consciousness, this allows this to occur in the world of reality.

This Awareness indicates any entity who is capable of blending concepts together which appear to be in opposition to each other, which appear to be in conflict with each other; any entity who can find the reconciliation of conflicting concepts is an alchemist and

is functioning to bring about reconciliation of all concepts of that nature. This Awareness indicates therefore, the entities who read these materials, who read these messages, are in fact serving as alchemists for this Awareness in helping to bring about changes in the sea of consciousness so that concepts can be blended together, can be reconciled and altered to levels of harmony and compatibility.

This Awareness indicates as this occurs, it affects energies in the political, national, social and personal levels, and as it continues to grow in the consciousness of the alchemist, so also it occurs in all other levels of consciousness.

This Awareness suggests that entities understand the Bolsheviks, understand the Skoptsis, and that you not choose one over the other, but rather that you find the reconciliation between these extremes.

IS JESUS LOOKING FOR THE 144,000 ?

(More on the Jehovah's Witness Cult)

...The real meaning of the 144,000

QUESTION:

Is the figure "144,000 young men that have never known women" correct? That these entities are trying to obtain that number, and when they do this, a magic will occur that will bring the Christ to earth?

COSMIC AWARENESS:

This Awareness indicates it appears that there are certain factions among this movement which interpret the writings of *Revelations* to indicate that this is the manner. This Awareness indicates however, that it appears this faction as not being the majority of opinion among these entities. This Awareness indicates that the concept of 144,000 as that which is commonly utilized in religions. This Awareness indicates for example the Jehovah's Witnesses originally stated that they were the 144,000. This Awareness indicates this was an effective claim for recruiting more members, and led to an increasing number in their ranks until they reached 144,000 and continued growing. This Awareness indicates at that point it became necessary to cease making that particular claim.

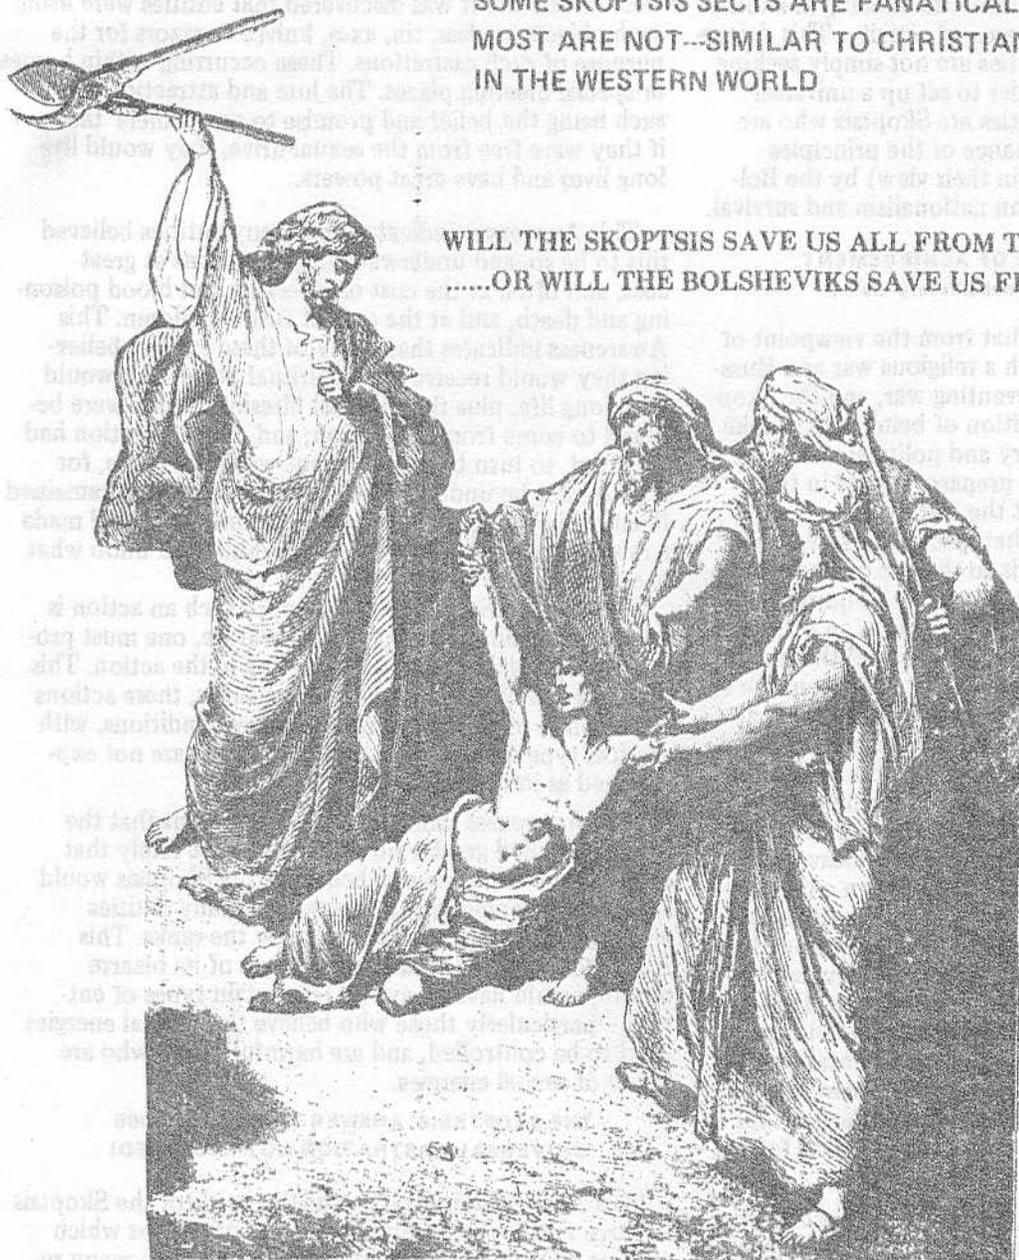

This Awareness indicates that essentially the 144,000 is a Cabalistic code number of the Hebrew code used by the cabalists in writing scripture and teachings in coded ways. This Awareness indicates the 144,000 as actually being symbolic of the pituitary, the lotus of consciousness, the opening of the higher chakra. This Awareness indicates this as the thousand petalled lotus described in Indian teachings of the Yogas. This Awareness indicates that the hundred and forty-four thousand as a vibration or number used in cabalah teaching and that this can only be understood in relation to cabalistic philosophy.

This Awareness suggests that entities who wish to better understand this meaning should investigate the cabalah of the Hebrews.

ED's Note: there are fundamentalist tracts circulating around which show Jesus descending from the clouds with a sword (and sometimes a sickle) in his hand; evidently to slay the unrighteous and ungodly. Depending on one's frame of reference, it all boils down to the notion that entities are going to be beheaded or denuded by the gentle carpenter from Nazareth, cometh the Rapture,--neither of which sounds particularly inviting.

General

Reading No. 4

February, 14,

1952

COSMIC AWARENESS:

This Awareness wishes to comment further in respect to questions asked in the reading of yesterday in regard to the Skoptsis, to clarify certain points which may need deeper discernment. This Awareness indicates the questions asked in yesterday's session related to certain factions of the Skoptsis who were advocating the use of castration for some 144,000 young men, who had been without women.

This Awareness indicates that this faction as being more of a fanatical or zealous type of Skoptsis, even as in Christianity of the Western varieties, there are certain factions which are extremely zealous or fanatical, and there are others which are more moderate. This Awareness indicates that the more moderate Skoptsis which has the greater command of power, as not advocating this type of action, but rather as being concerned more with the general development of humanity upon this plane in terms of the growth, morality

and movement toward more spiritual and wholesome endeavors. This Awareness indicates that this does not particularly imply that these entities are always concerned with spirituality over mundane concerns, for this is not the case,--any more than than is found in Christians of the Western World who are involved in armaments and missiles and weaponry for potential warfare.

This Awareness indicates that entities on this plane have a way whereby they can compartmentalize their spiritual beliefs and segregate them from their actions, so that they can continue pursuing activities which are contrary to their basic spiritual beliefs without the spiritual beliefs interfering. This Awareness indicates in this manner, entities who profess to be Christians and followers of Christ, can still indulge in activities which Christ would not condone. This Awareness indicates this compartmentalizing or segregating of aspects of consciousness is that which is a double standard, yet is quite prevalent upon this plane in both the Western Christian versions and in the Skoptsis.

This Awareness indicates that the more moderate Skoptsis considers the action of being a Christian Skoptsis as one thing, and the action involved in the protection of political and national interests as being in another compartment, or in another area of activity. This Awareness indicates that these entities are not simply seeking to dominate the world in order to set up a universal Skoptsis; rather, these entities are Skoptsis who are concerned about the continuance of the principles which are being threatened (in their view) by the Bolsheviks, which include Russian nationalism and survival.

CASTRATION A BADGE OF ACHIEVEMENT
(Most Skoptsis not out to deball every male)

This Awareness indicates that from the viewpoint of the Skoptsis, it is not so much a religious war as a Russian war or as an action of preventing war, and the Skoptsis happens to be in the position of being able to take control of the Russian military and political affairs to have the power to prevent or prepare, and (if in their viewpoint), necessary to fight the war.

This Awareness indicates that insofar as the concept of castration is concerned, this to them is not necessarily a major action, (though it appears to be quite shocking to the Western mind), but rather this as an action of initiation into the inner circle of power; and these entities feeling that once an entity accepts that initiation, the entity is dedicated and has shown certain commitment to the force and to the actions which he enters. This Awareness indicates the greater reason behind this castration initiation is felt to be that the entity in losing the sex drive and impetus, can devote his attention solely and totally to those urgencies relating to the endeavors of the group, party, or purposes of the position which he holds. This Awareness indicates that these entities have no problem with their members* becoming wrapped up in scandals, or in diverting their energies at crucial times because of love-making or romantic ties. This Awareness indicates rather, these entities are without those energies, and therefore are strictly mental in their approach; and the compassions are of the heart, rather than of the sexual type. This Awareness indicates that in the viewpoint of the Skoptsis, this simply makes for better leaders.

This Awareness reminds you of Plato's *Republic*, in which the leaders of the society were deprived of many privileges which those in lower levels could indulge themselves in. This Awareness indicates that this concept of Plato has a reflection in the Skoptsis ideal, and these entities are not in general interested in foisting their own religious dogma of castration upon everyone in general. This Awareness indicates this particular action being more of a badge of attainment which is not necessarily beneficial in their viewpoint to share with everyone else, for it would diminish their unique and special role. This Awareness indicates however, in the view of the Skoptsis, if an entity wishes to rise in power, in political power, they must be willing to pass through the initiation required.

*Is this another of Awareness' famous puns?

STRANGE TOOLS OFTEN USED FOR CASTRATING
(ONCE LOPPED OFF, THERE'S NO GOING BACK)

This Awareness indicates in the past century these castrations occurred in various places, in different cities in Russia, often using crude tools, often occurring in

secret meetings in homes, with much secrecy involved. This Awareness indicates there are records relating to the early discoveries of these meetings, whereby places were raided and it was discovered that entities were using such objects as glass, tin, axes, knives or razors for the purpose of such castrations. These occurring within homes, or special meeting places. The lure and attraction for such being the belief and promise to newcomers that if they were free from the sexual drive, they would live long lives and have great powers.

This Awareness indicates that many entities believed this to be so, and underwent the operations at great cost, and often at the cost of infection and blood poisoning and death, and at the cost of future children. This Awareness indicates that many of these entities believing they would receive great spiritual power and would have long life, plus the spiritual blessings which were believed to come from this action; and once the action had occurred, to turn back and recant would be futile, for it could not be undone. Therefore, these entities remained fanatical in the sense of refusing to admit they had made a mistake, even if they would have desired to undo what had been done.

This Awareness indicates that once such an action is taken, one cannot go back; and therefore, one must proceed forward and continue believing in the action. This Awareness indicates that in modern times, these actions are taken in hospitals, in very sanitary conditions, with surgical type of operation, so that dangers are not experienced as in the earlier days.

This Awareness indicates that in the event that the Skoptsis gained greater power, it would be likely that many of the concepts and beliefs of the Skoptsis would spread widely among the masses, and many entities would respond with a desire to enter the ranks. This Awareness indicates that this, because of its bizarre nature, would have an appeal for certain types of entities,--particularly those who believe that sexual energies need to be controlled, and are harmful; those who are afraid of sexual energies.

THE SKOPTSIS' ANSWER TO GLOBAL 2000
(UNIVERSAL CASTRATION NOT REQUIRED)

This Awareness indicates that the need for the Skoptsis to force entities into universal castration as that which appears to be quite unlikely, as there would be many recruits or volunteers joining the ranks, seeking the elite prestige which they believe would come from such involvement. This Awareness indicates that in the view of the Skoptsis, this as being necessary to help reduce the ever-growing population of the earth, and as being an alternative to the Global 2000 programs which would annihilate entities after their birth, reducing the population by destroying the present, living populations.

This Awareness indicates that the Bolshevik concept of Global 2000, of reducing population through famine, warfare, through plagues and through biological warfare, as that which would serve the purpose of ridding the planet of excess humanity (in their viewpoint), and leaving the treasures built by that great population of the working class, for those who remain to enjoy. This Awareness indicates that the Skoptsis solution would be more in terms of reducing population by encouraging to undergo sterilization or castration or use of birth control. This Awareness indicates in some instances, this might lead to forced birth control from state levels if the response to sterilization and castration were not sufficient.

This Awareness indicates that in terms of entities looking at the Skoptsis or looking at the Bolsheviks and attempting to discern which one is the most evil force; this Awareness indicates this as a futile action which does not represent the 8th plane of consciousness. For the 8th plane of consciousness does not judge, but merely discerns; does not condemn or consider these actions as evil, but merely looks at What Is, and what results would follow from the implication of What Is.

This Awareness indicates that these energies of the Skoptsis and the energies of the Bolsheviks are not in either case what this Awareness would term evil, but rather are in reaction to each other and to concepts which are in part incomplete, or in error. This Awareness indicates that these concepts of these factions are moving toward greater development, so that a new understanding, a new concept can, in time, come from the reconciliation which eventually must follow as this confrontation between these forces develops and grows toward its climax.

This Awareness indicates that the degree of climax, in terms of this confrontation, as that which is the unknown issue,--whether this will occur in terms of a devastating violent war, or whether this will occur in terms of a sudden realization that war is futile, and that a negotiated peace which is lasting in its nature must come through concerted efforts of these factions,--this is the issue.

This Awareness indicates it is not so much a question of who is right or who is wrong, who to side with or who to side against; it is more of a question: 'What can be done to bring about a solution that will satisfy everyone's needs?'

RAMIFICATIONS OF CASTRATION

...(Lethargic porkers in the Kremlin?)

AFTER THE INITIATION:

"NOT TONIGHT" MARTHA, I'VE GOT MORE THAN A HEADACHE"

QUESTION:

Awareness, is it not true, as many claim, that the sexual energies,--the Kundalini energies, are essentially the Life Force, and when these are "cut off" from the normal channels, that it defeats the purpose? In the case of the Skoptsis, it would seem like instead of giving them more focus and more energy, it would turn them more likely into capon-type of entities, where they would get lethargic and porcine, and that type of thing. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that it inhibits the unconscious driving energies, while allowing the conscious mind to have greater control. This Awareness indicates that the inhibition of the unconscious drives as that which limits the will, the drive, the fortitude of an entity. This Awareness indicates however, that this depends on the individual's relationship with the unconscious drives. That some entities who have developed in their spiritual and psychological levels, have satisfactory control over these drives and can use these drives to guide them, to direct them, to give them the sustenance and staying power to accomplish great artistic or ambitious accomplishments and goals.

This Awareness indicates that others would be swayed from their purposes by these subconscious drives, because they have not gained control over these energies and cannot use them for their benefit, but rather are victims of unconscious drives which are misdirected in their nature. This Awareness indicates therefore, it is an artificial effort to eliminate these drives and not use these drives, but rather to use the upper chakras for the prescribed purposes without any deeper, unconscious driving forces. This Awareness indicates that it has certain advantages with some entities, particularly those who are not highly evolved enough to handle these lower, driving energies. This Awareness reminds entities that the gonads are essentially necessary as a chakra to bring in vital force and energies which can be transmuted into higher psychic energies as it moves up the various chakras.

This Awareness indicates that the gonads serve as a kind of transformer, drawing in electro-magnetic energy into the body; this as what may be termed a lower vibration of electro-magnetic energy, which when transmuted through the chakras, becomes a resonating electro-magnetic energy of a much higher vibration.

This Awareness indicates that entities can survive without these organs, yet it will alter their energy level, and indeed does tend to create more of a lethargic personality. This Awareness indicates that it does not appear to hinder the thinking process, but *does* take away many of the drives, and allows the entity to be more easily controlled by external influences rather than internal drives.

This Awareness indicates that this Awareness does not condone any form of personal mutilation, or mutilation of others; It simply wishes to explain the thinking processes, the concept, and the actions associated with this particular group of entities and their philosophy because of their rising importance in the world scene at present.

ARE THE SKOPTSIS THE GREAT SAVIORS OF HUMANITY AS SOME ENTITIES CLAIM?

....More on the weather war and the First Strike

QUESTION:

Awareness, there are some entities, (Jack Katchmar for example), and some of these publications circulating around, hailing the Skoptsis as the great liberators and saviors of mankind, and good honest hard-working Christians and so forth. Now, in Dr. Beter's latest tape he indicated that the Skoptsis, in their weather war, tried to wipe out San Francisco, to use that city as an example of the most perverse city in the world, (I assume because it's supposed to be the homosexual capitol of the world).

Now in this action, if this is true, if Dr. Beter's observations are correct, it seems to me that the Skoptsis are doing more in the area of judgmental action,--that they're becoming more of a religious fanatic and imposing their particular point of view on entities; and if this is true, what assurance have people got if they actually take over this country, that they won't herd certain entities into concentration camps, or decide to castrate them or dispose of them and so forth, because of this?

COSMIC AWARENESS:

This Awareness indicates that there is no assurance that the Skoptsis in given full control would not pursue such action, any more than there is any assurance that the fundamentalist Christians, in given full control in this nation, would not also pursue such action. This Awareness indicates that in terms of the weather war which was described by Dr. Beter in his latest tape, this Awareness indicates that while this information is in part accurate, this Awareness indicates that there also are other influences which are similarly bringing about intense weather conditions besides those actions of the Skoptsis.

This Awareness refers entities to the book of *Astrology; the Space Age Science*, by Goodabidge*, written in the early sixties, in which he refers to predictions from the Kali Yuga for the years following, whereby this entity speaks of the year 1982 as being the worst winter in weather-recorded history, being worse only by the years which follow. This Awareness indicates that these energies being largely astrological. That the energies of the Skoptsis in their weather warfare as making use of this condition to their advantage, centering much of the cold into certain areas as they choose. This Awareness indicates that these entities' actions may not be excusable in the higher sense as far as ethics and morality of a spiritual level might be construed. This Awareness indicates however, that in view of the intense war preparations and efforts for a First Strike against Russia, entities must also recognize that these Skoptsis are being quite patient and careful in avoiding a confrontation and action of initial strike against the United States.

This Awareness indicates that these entities at this time, could totally devastate the United States with nuclear weapons. Destruction would be complete. This Awareness indicates that these entities are making an effort to use as little force as is necessary to prevent the efforts of those Bolsheviks in creating and causing nuclear war. This Awareness indicates that the warnings through weather manipulation, through earthquakes, and through other types of activities of military nature, whereby the message is being given to those in power, ---is that which is the *least* offensive action which can be taken at this time to dissuade those who would attempt nuclear strikes against Russia.

This Awareness indicates that the only reason these Skoptsis can afford to be patient and to use this type of procedure is because at present they feel themselves strong enough to ward off an initial strike by the United States, and to retaliate if necessary. This Awareness indicates that this as similar to a small, huffy entity attempting to fight with a large, strong entity who simply 'does not wish to hurt the little fellow', but who wishes to give the fellow enough warning to cool him down, to dissuade his efforts, so that he backs off. This Awareness indicates that obviously, if the fellow grows in strength and power, comes on with bigger weapons, then the larger fellow finding himself becoming equally matched, will be more inclined to take this more seriously and retaliate before being destroyed.

This Awareness indicates the efforts to build up armaments as that which will tend to cause a greater reaction from the Russian forces, and therefore the tendency to move toward war becomes greater. This

*Phonetic spelling. We could not locate this particular book.

Awareness indicates that negotiation and efforts to resolve conflicting interests as that which remains the only alternative to continued confrontation or eventual holocaust as unknown before.

This Awareness indicates that *It* is not attempting to lead entities into believing that *It* favors the Russian position over that of the United States. *It* does not favor either position wherein those positions threaten the peace of nations or individuals. This Awareness favors only positions which enhance or help to bring about peace, or positions which show restraint from violence. This Awareness is more inclined to recognize the value of such positions in terms of their peaceful intent rather than in terms of their claim to righteous action,--whether it is one side or the other, and whether that side claims to be right, and the other said to be wrong, is of little interest to this Awareness. What *IS* of interest to this Awareness is that the position taken by any entity or any group of entities, any nation or any groups of nations, that they be concerned with finding peaceful resolution to the potential conflict areas.

ARE THE SKOPTSIS BUYING UP THE U.S. NATIONAL DEBT IN ORDER TO PREVENT A 'FIRST STRIKE' BY U.S.?

(A LITTLE RAP ON ECONOMICS BY C.A.)

QUESTION:

Awareness, Dr. Beter mentioned an interesting ploy the Russians are doing now in an effort to bring the United States to its knees without actual warfare, and that is that they have recently started a massive buying program with their gold of purchasing through international means the indebtedness of the United States,--the National Debt and those obligations which the bankers previously have held and which they always roll over and re-negotiate with interest. Dr. Beter said that this massive buying eventually will probably end up with them controlling all this, and they just might not roll these over, which would start a run on the banks and so forth, and a total economic wipe-out of the United States. Does Awareness see this scenario as actually coming to pass?

COSMIC AWARENESS:

This Awareness indicates that this as being another weapon in the arsenal of the Skoptsis in their efforts to prevent the possibility of nuclear war, whereby if this nation began to move into a war footage, these economic manipulations could indeed become very powerful leverage for negotiation. This Awareness indicates that it could affect the economic status of the United States with its allies and banking establishments throughout the world.

This Awareness wishes to give an example, so that entities who do not fully understand economics of this type may better realize the significance. This Awareness indicates that supposing you have a particular group of banks which you have dealt with for some time, and these banks have given you much credit for your projects and have been very lenient with you, allowing your debt to them through mortgages and notes to rise to a very high and considerable amount, and these banks have consistently refused to foreclose on you when the notes came due.

This Awareness indicates that even though you have been unable to pay your debts, these banks have been patient with you because you have special privilege with them, and because there are ties of mutual interests between yourself and those who manage the banks. This Awareness indicates that such a romance as that which is ideal for you and seems to work quite well. This Awareness indicates that essentially, this parallels the National Debt of the United States, which grows and grows year after year, and is never paid, and the banks never foreclose.

This Awareness indicates the cost for financing World War II, the Korean war, the Vietnam war, and other projects as that which increased the National Debt to such astounding levels that it could not possibly be paid without complete bankruptcy of the nation. This Awareness indicates that your bank accounts with these banks as that which is safe enough as long as they do not foreclose upon you, and as long as your relationship with them is such that they are not inclined to do so. This Awareness indicates that if they were to call on you to make your payments, this would be devastating to you and you would simply have to declare bankruptcy. This Awareness indicates however, this has not happened and is not foreseen.

This Awareness indicates however, along comes a big bear who offers to negotiate an interesting deal with the banks which you have been dealing with, and purchases a large number of the mortgages which the banks have held, purchasing your debts from these banks, so that the banks are paid off, and you now owe your National Debt to this bear and its banks. This Awareness indicates now the situation has altered considerably, and you do not know whether these mortgages will be called, and you will be forced to pay your National Debt, or whether the bear will be patient, as have been the other banks.

This Awareness indicates that from this analogy, you will see that the bear has gained a great leverage for negotiating with you in very many ways, particularly if you become inclined to seek credit in order to make war against the bear.

QUESTION:

If the Russians should call up these debts, wouldn't this wipe out the Illuminati, the International Bankers... wouldn't this create a chain reaction that would just about wipe them all out also?

COSMIC AWARENESS:

This Awareness indicates that you are so right. That this could have a very profound effect on the international banking system in all levels. This Awareness indicates that this also as associated with the Middle Eastern nations whereby the Russians are closely aligned with these nations which have long had difficulties with the Rothschild banks.

ED's Note: It is no secret that for the past year or so the Russians have been selling gold on the open world markets--massive amounts. This is the main reason why gold has been depressed in price lately. The controlled press tells us all this gold is going to buy grain because the Russians had a bad grain crop. What is more likely, as Dr. Beter and Awareness have indicated, is that our National Debt is indeed being quietly bought up and shifting into the hands of the Skoptsis. (There's a pretty good movie out called "Roll Over" with Jane Fonda which shows how easily the financial house of cards could come tumbling down in this country. Chris Kristofferson is badly miscast in this flick, but the scenario is interesting.

EDITOR'S NOTE:

Since this special report is concerned with the subject of Skoptsis, the following information is now added. This information was channeled by C.A.C. member Jorge Resines, of Argentina, who like Bill Sheppard taps into the 8th plane energies. This particular channeling is part of a long 12 page report sent to us by Jorge which covered many subjects, including Soviet weaponry, particle beams etc., as well as some UFO information. Space does not permit all this to be included in this particular report. Perhaps, later when these other subjects are covered in depth, we shall add these sections of Jorge's channelings.

This information concerns some of the history of the Skoptsis movement in Russia, bringing this all up to the present time.

For more information on the Skoptsis, the book "The Unheeded Teachings of Jesus or Christ Rejected," by Emanuel M. Josephson is suggested. This book also traces the history of the Skoptsis, even to a small cult of them which came to the U.S. years ago. It goes into lurid and steamy description of the actual castration methods used on both males and females. It also explains the Rockefeller connection and the Beast scheme from another frame of reference. This book was published in 1959. It is available from:

The nature of the Skopzyiis and their Position in the Soviet State

By Jorge Resines

Much has been said of this Russian sect, now in control of Russia, through the channelings of Paul Shockley and the releases of Dr. Beter, but most of this information has, in the opinion of this channel, been tampered with by Russian psychics working at the service of the Soviet State.

First, we will outline how the Skopzyiis began, their development, their part in Russian history, how they helped Lenin to overthrow the Czarist state and, finally how they got in charge of the Kremlin and why they saved the planet from atomic war.

The origin of the Skopzyiis (Russian word meaning "Castrated Ones" or "Eunuchs by their own hand"), plural of the work 'Skopez' (Castrated One or Self-Made Eunuch) is uncertain, the first ones were located at the province of Tambov in 1771, because of the disclosure of a worker that was castrated without his consent when invited to a celebration of the creed. This worker met, by coincidence, one member of the sect at a public park, as the worker was jobless and greatly indebted he accepted the invitation of the Skopez to participate in a religious ceremony. Once there, the worker suffered a fainting that was induced through narcotics; after eight hours he awoke and found out that his testicles were missing. He denounced this fact, though the Skopzyiis promised him monetary help now that he was one of them, and the police thus found out about the first group.

The founder of this sect, was one Andrei Ivanov who also used to call himself Blochin. Blochin was a serf in one great Russian farm owned by a member of the Czarist nobility, who was used to seducing the women on the farm; and because he had no worldly possessions, Blochin conceived the idea,--by interpreting literally that part of the Gospel according to Matthew that says, more or less, "If your hand sins, it is better to cut it off"--that the greatest sin of all was sex and its related usages. So, interpreting the Bible in this fashion, he castrated himself and escaped from the farm. He, in his way, sought out others--equally unbalanced as he was,--who agreed with his ideas and allowed themselves to be castrated. Blochin wrote a "creed" and prescribed to his followers special ceremonies that involved, in most cases castration and mutilations of several parts of the body. The sect called itself "White Doves", and there were two main divisions in it: 'The Doves',--those entities that were members but who had not been castrated, and the 'White Doves', the castrated ones. They used the symbolism of the white dove to mean that they were clean of sin and members on Earth of the Kingdom of Heaven. In order not to bore the reader, let it suffice to mention that the Skopzyiis also mutilate the nipples and the outer and inner labia of the vagina of the women of the sect.

Also, they advocate something that can be considered as a "mass orgy" among the "Doves", though it is one of their ceremonies, where women are,--or tried to be--impregnated by men, and the children resulting from those unions are considered as "Christ Incarnated" and their mothers are the "Mother of Christ". These children are, in most cases, put to death, bled and their blood swallowed by those present at the ceremony. The surviving children are educated in the precepts of the sect

and castrated before reaching puberty; this causes the appearance, in the males, of regressive sexual secondary traits because at the time they were castrated the sexual energy had not been disseminated throughout the body. One example of this is Georgyi Mellenkov, former USSR's Premier; and also, Stanislav Kania, former Secretary of the Polish Communist Party.

Blochin continued preaching among the people, and that action brought him plenty of followers. In order to make a more effective preaching, he called himself "Christ Peter 111", because the death of the Czar Peter 111 by his wife Czarina Katherine 11 was never cleared before the public eye and this fact provoked many hoaxers to call themselves by the name of the late Czar. One of these hoaxers was the cossack Fugatchev, who provoked a mass rebellion at that time and finally was captured and executed and many of his followers died with him.

Blochin also got one of his female followers to call herself the "Mother of Christ". Her name was Alulina Ivanovna, and she played the role of the Virgin Mary. All of the ceremonies of this sect are based upon literal and distorted interpretations of what happened to Christ and his followers and how it was written in the Bible. They sincerely believed, for example, that Christ and the Hebrew patriarchs were eunuchs, voluntary eunuchs, and that if the sect obtains 144,000 men "who have never known women" and castrate them all, they will provoke by this 'magic act' the Second Coming, the descent of Christ from Heaven, and Christ himself will castrate everybody,--literally everybody,--and establish the Kingdom of Heaven on earth; thus time will stop and we shall all be immortal and in the Grace of God. Well, Blochin was imprisoned in 1784 by the police but was freed in 1796 by the new Czar, Paul 1, son of Katherine 11.

As Paul was not on very good terms with his mother, he questioned Blochin to ascertain if he was really the late Peter 111. Blochin answered affirmatively and Paul was almost ready to give him the throne, but as Blochin requested him to undergo castration, Paul understood that the man was not mentally sane and ordered him to be speedily sent to Siberia. By this time Blochin had changed his name to Kondrati Selivanov, and is recorded in the history books as such.

In spite of this persecution, Paul helped the Skopzyiis and placed many of them in positions of power, including the army, strange as it may seem. His successor, Alexander 1, also had mystical tendencies and aspirations and took Selivanov back from the exile and placed him in a monastery at Moscow where he could receive his followers and practise the usual ceremonies unhindered by anyone. At that time, two members of the sect, Labzin and Elensky, who were in influential positions in the government, submitted a project to Alexander 1; this project was to use the resources of Mother Russia to enforce the special kind of Christianity practiced by the Skopzyiis upon the rest of the world. They also proposed a league of "Christian" nations to watch over the purity of religion all over the world. Alexander considered it a bit too much and shelved the idea. The wars against Napoleon greatly depressed this Czar, and when he returned from the last war against the Corsican in 1814, he was reinforced in his idea that only Christ and his creed would save the future of the planet. He dusted off the

idea of the Skopzyiis and introduced the project at the Congress of Vienna in 1814.

Strangely, this weird project caught fire and the whole of the ministers at the Congress approved of it, but the project was twisted by the Metternichs and the 'Holy Alliance' was no more than a political instrument that allowed the powers of the time to send troops and ships wherever their power was threatened. This was seen specifically in the case of the Greek's rebellion against the Empire of the Great Turk, which was mercilessly crushed by "Christian" troops. The Greeks themselves were of Christian creed, but the Holy Alliance (that alliance of Christian nations that was to watch over 'Christianity' and its purity), helped, instead the policy of the "heathen" Turkish Empire.

Specially protected since the rise of Alexander 1 to power, the Skopzyiis and their 'churches' (called radenias), had spread throughout all of Russia. Though the police had evidence of ovens where the bodies of the children were burned after they had been bled, together with the bodies of those adults that had been castrated and died during the operation; because of the Czarist support, they had their hands tied. After the results of the Congress of Vienna, Alexander 1 had become increasingly paranoid and erratic in his behavior. He became persuaded, by his own logic, that all of the sects were in league against him and in a decree published in 1820 he himself called the 'White Doves' the "enemies of mankind, and destroyers of the Christian and human morals". We must take into consideration, to understand this evolution of history, that the Skopzyiis are as zealous and intolerant of other religions as the Zionists are their creed. What is non-Skopez is HEATHEN, with full capital letters.

The most intolerant Fundamentalist of the West is just a harmful dove in comparison; they are truly "Crusaders for Castration", 12th century mentalities in the 20th century, if this serves as an analogy. As those who went to the Crusades they are "armed and dangerous".

Because of the Czar's decree, the Skopzyiis were persecuted and Selivanov sent to Siberia where he died in 1832. This persecution drove the sect underground and, because of the wealth it had accumulated during the "good years", into the banking system. It can be said that about 30% of the members of the sect were in the banking system or related to it. In order to prevent, through sheer mutilation of the reproduction system, the non-reproduction and eventual extinction of the sect, its members decided to have two children and to castrate afterwards, but also to keep the practice of "purchasing" children under the age of puberty and to castrate them.

Many of the Skopzyiis eventually found their way to Romania and to the zone of Russia known as the country of the Yakuts, where they could practise their religion relatively free of persecution. The coup initiated by Lenin when in exile gave a great opportunity to this sect to remove the Czar from power and to initiate their freakish "salvation" plan for all the world. They dealt with Lenin and allied with him, helped him as either financial sources or spies and contributed by their preaching to undermine the weak foundations of the rule of Nicholas 11's government. To this must be added that the Czarist rule was corrupted to the core, a condition that was also helpful, and that it had been eroded by the nobility and the clergy. The Skopzyiis

are not "unknown Christians that infiltrated the Communist regime", they are recognized as co-founders of the actual Soviet state. After the November Revolution they had positions in the highest ranks of the Soviet government, and in 1921 four members of the sect were in the Politburo.

During the Stalin-Trotsky quarrel, these members of the sect kept apart from it until they saw that Stalin was to be the victor. By that time, they had infiltrated one of their members, Georgyi Malenkov, as Secretary to Stalin, and when Uncle Joe took over the seat of power, Malenkov was appointed as the real head of the Skopzy-dominated KGB. Malenkov was responsible for the bloody purges of the '30s at the USSR, but eventually even the Politburo itself became nauseated by so much bloodshed and Malenkov found a scapegoat in the figure of Nikolai Yezhov, who was executed as the one responsible for the purges. The Skopzyiis are responsible for 60% of the executions and tortures that happened in the USSR; the rest is of Bolshevik responsibility.

Malenkov began to place members of the sect in positions of power; and when Stalin himself noticed what the real game was, it was too late for him. Eventually the Skopzyiis poisoned Stalin, and after the 'Father of the People' was done away with, another member of the sect, Nikita Sergeyevich Krushchev, captured Laventia Beria, who had threatened to disclose all of the show to the world, and had him quietly executed after a mock trial. After Beria's death, the sect decided that a campaign of "de-Stalinization" was in order, but not for the benefit of the Soviet people: it was to place the Skopzyiis in positions of more power and to get rid of the Bolsheviks who were in power.

We must understand that the whole of this story of the Skopzyiis is to carry on their "salvation" plan, and all of their drive is dedicated to this end. If they have to annihilate half of the world's population to "save" the rest, they will do it. In the long run, Bolshevik and Rothschild/Rockefeller dictatorship is far more merciful than this 'salvation' scheme. It must be remembered too that Krushchev was the one that mercilessly crushed the Hungarian rebellion, and that at that time even Mao Tse Tung (who certainly was no angel), had advised against such repression.

But the Bolsheviks had not been vanquished yet, they provoked a coup that ousted Krushchev and replaced him by the troika composed of Brezhnev, Kosigyn and Podgorny. Of this group, Leonid Brezhnev was a member of the sect, a high ranking one. Eventually, and due to a Uranus-Saturn Quadrature in 1977, the Skopzyiis began to overthrow the Bolsheviks and to expel them from Russia. Their plan also called for a fake "spiritual revival" to call the people back to the churches and, eventually, to turn the usual Christianity into their own kind of "Christianism". The energies of the quadrature obliged them to fight against the Beast conspiracy and because of this effect of cosmic energies, they went so far into attacking the Bolsheviks and the Rockefellers to the extent they did. They were used by the Light in order to prevent the destruction of the earth.

These entities, the Skopzyiis, are mentally ill and they are greatly in need of healing. In a reasonable world they would be imprisoned in an asylum until they are properly healed and balanced. For example, the extreme puritanism that has been characteristic of the Soviet regime and
