(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

ALL ABOUT SPEAKING "IN TONGUE"

..... MORE ON "CHANNELING"

QUESTION:

Awareness has given a little bit of information on this subject of "speaking in tongues" in the past, but more and more entities are asking for more information on this because evidently the charismatic movement is gaining momentum. Here is a question on this from L.K. "Would Awareness comment, if *It* hasn't already, on the Pentecostal idea of seeking and receiving the Holy Ghost and speaking in tongues. They say it's available to everyone and I've decided it's a trip I'd like to take. A friend of mine whose consciousness has expanded beyond her Pentecostal upbringing says it's a beautiful experience and a prayer language tool. It seems to be perhaps a manifestation of the out-pouring of spiritual energies on this plane. It seems to be something I want very much but without the rigidity or hostility of the Pentecostal religion. Being filled with the Holy Ghost and having the "tongue prayer tool" do not seem to be incompatible with understanding Awareness and *Its* laws, but maybe I'm all wet."

COSMIC AWARENESS:

This Awareness indicates that essentially this as coming about through a strong surge of anti-matter energy, whereby the anti-matter pours through the physical body in a manner which releases a kind of energy,---partly releasing from the cells of the body and partly from the karmic memory of the individual,---a kind of energy that taps into other dimensions. This Awareness indicates this as somewhat difficult to describe. This Awareness indicates that this may be described as a kind of biomagnetic energy which attunes to the life force about the planet which in tuning to this life force, picks up the programming which has been fed into the bio-computer of the mass mind around the planet. This Awareness indicates that this expresses through entities who attune themselves to it, according to the various vibrations or frequency levels of that attunement.

This Awareness indicates one entity may attune to this biomagnetic force field which contains the collective thoughts and ideas of humanity, and this entity, in tuning in at a particular frequency, may channel that which can be referred to as a demon, or may, at a different frequency, channel that which is the energies of a departed loved one, or at still different frequency, may channel that which is the energy of an ascended master, or at still a different frequency, may channel that which is a message in a foreign tongue, or at still a different frequency, may channel mere babblings and nonsensical noises, or at still a different frequency, may channel music or art, or at still a different frequency, may channel babbling sounds which appear to be of an unknown tongue.

This Awareness indicates that in any of these actions, the entity attunes himself or herself to the frequency desired by the preparation of the mind and by the expectation of the emotions. And wherein the entity focuses and gives energy toward this purpose, and then through faith, creates a vacuum within themselves ready to receive, the entity then in opening to receive that which is expected, becomes not only the receiver of this biomagnetic energy of that particular frequency, but also may transmit this to others nearby,---and in such transmissions, may either win converts, may impress their fellow peers, may heal, (if the frequency is of that nature), or if the frequency is of a less beneficial nature, more demonic, the entity may transfer curses and forms of black magic or negative and Alien Force. This Awareness indicates that all of these forces essentially are in the biomagnetic field which is the structure or brain of the collective consciousness of this plane.

THE CHARISMATIC MOVEMENT...& BIOMAGNETIC ENERGIES

This Awareness indicates that the charismatic movement as that which is a mini-phenomena, impressive to those who want their emotions charged with energies which are not rationally explainable under strict rational terms, but which rather reach into experiential levels. This Awareness indicates, however, that this as not new, but as being closely related to the native dances in primitive cultures wherein entities work themselves into a frenzy, and from that frenzy, lose control of their own will and allow the forces deep inside the subconscious or subjective levels to channel through them. This Awareness suggests that similar experiences can be had through the use of drugs, or through certain fatigue activities wherein entities tire themselves to a point of total exhaustion and begin losing control, which allows the subjective levels to emerge from them. This Awareness indicates the American Indians and many of the other cultures of the past such as in India, Africa, Tibet in particular,---many of these other cultures combined the use of herbs or drugs along with the frenzied dancing or physical fatigue to induce hallucinogenic experiences or mystical experiences (depending on which attitude entities observing the phenomena wish to use for describing.)

This Awareness indicates that this mystical experience, (or this hallucinogenic experience) is essentially an action whereby the entity loses touch with the common reality and attunes to a not-so-common level of reality. This Awareness indicates entities also experience a similar situation when falling asleep and moving into dream states, losing touch with the physical as they move toward these hallucinogenic or imaginary or dreamlike images. This Awareness indicates the difference between the dream state, or the drunken stupor, and the charismatic or frenzied emotional attunements is that the entities in the emotional, frenzied, charismatic movements are hyped-up on hope, desire, faith and adrenalin and the expectations of achievement of something beyond self-control. This tends to assist in opening the chakras from the energy generated by each other and the group excitement, enthusiasm and expectations.

This Awareness indicates that essentially the word *enthusiasm* means "God within" or "Spirit within". This Awareness indicates that if entities gathered together and, with the intent of creating a high spirit or high enthusiasm together, entities could enter into a rhythmic, repetitious chanting. And as they add greater and greater enthusiasm, deliberately and consciously, entities in chanting the word,--[this Awareness indicates *any* word, The word could be anything from Coca-Cola repeated one thousand times with great enthusiasm in a group chant, or a nonsensical word or a spiritually associated word, or the word "it", for example, or Saint Twinkle or any other word which entities consider worth becoming enthused about.] This Awareness indicates that the entities could also choose a song, repeating this again and again, each time with greater enthusiasm, and, if persisted in long enough with enough excitement, the energies which would be put into this action by the group would create a vacuum within the entities as the energy is expended. And when the vacuum becomes strong enough, the entities then would become receptive and receive back the energies which they sent forth, but these energies would have been of a transmuted nature, coming back with the enthusiasm generated, so that they receive back more than they gave, or receive back a different octave of energy from what was given originally. This Awareness indicates this essentially is how any of these emotionally-charged experiences bring about the phenomena which entities seek.

This Awareness indicates that there is nothing particularly sacred about these actions, nor is there anything wrong about this action, but this Awareness suggests that it is a game,--which can be fun if entities participate in such emotional frenzies simply for the excitement and charge which they hope to receive, and do not close-off other entities with the use of these games. This Awareness

indicates that wherein, in primitive societies, entities would dance into their frenzies and then commit their sacrificial murders, slaying a victim from a frenzied state,--This Awareness indicates this as *not* being that which is harmless, but being that which is fragmented and unfair and inappropriate. This Awareness indicates that so long as none are harmed by these games of frenzy, the games may be considered appropriate.

This Awareness suggests, however, that entities becoming involved in these activities can harm themselves if they make great significance of this, believing that the enthusiasm and excitement and frenzied energy is the spirit of God. For although this may be so, there is often a kind of vanity which entities attune to in thinking that they have the answer for all others and are attuned to God, simply because they became emotionally charged by a group of shouting, excited individuals and the energies generated by these individuals.

THE OMNIPRESENT ENERGIES OF GOD (ARE SOME CLOSER TO GOD THAN OTHERS?)

This Awareness indicates that indeed all energies generated by individuals in attuning to the frequencies of holistic, universal concepts and uplifting ideals, these energies may be termed as a God. This Awareness suggests, however, that danger to an individual's growth may develop if the individual makes this too significant and assumes a vanity and pompous attitude about their experience.

This Awareness suggests that the entity who quietly meditates alone with no great excitement or shouts or wagging tongues,--this entity may be just as close to God, and perhaps even closer, than others. This Awareness indicates the entity who is attending the garden, planting the seeds for a new crop of flowers or vegetables,--this entity may be just as close to God as any other. This Awareness indicates the entity who attends the crying child, picks out a splinter, or soothes the fears of the child who has been dreaming a fearsome dream,--this entity may be just as close to God as any other. This Awareness indicates the entity who looks at a beautiful sunset may be just as close to God as any other. The entity who sweeps the factory floor may be just as close to God as any other. This Awareness indicates that God, being omnipresent,--everywhere, is not limited to the emotional frenzied affairs, and is waiting in silence or in crowds, in shops or in churches, in the countryside, in the cities, at home, elsewhere, within yourself or within your guru. The entity, being omnipresent, is in your child or in your parents, within the preacher, within the sinner. The omnipresent energies of God are within the food you eat, within the water you drink, within the words you speak, within the actions

and work you do. And the omnipresent energies of God, being everywhere, are available to all who recognize the omnipresence of God.

This Awareness indicates the path you choose to attune yourself to this omnipresence is your right, and you may attune yourself to this omnipresence in any way you choose. This Awareness wishes, however, that entities who are aware and who seek to be aware, that they understand the omnipresence of God is such that no one path is exclusive, no one place is exclusive, no one action or method is exclusive; for God, if omnipresent, is everywhere, at every moment, in everything. And the entity who attunes himself to a blade of grass as being sacred, as containing God is just as accurate, is just as right, is just as holy as is any other spiritual guide.

IS SPEAKING IN TONGUES

AN ANCIENT LANGUAGE?

.....More on the Holy Spirit

QUESTION:

Awareness, some preachers have claimed that if some of this babbling is analyzed that they're pretty certain it is an ancient tongue, an ancient language; they've never proven this. Is there some simple way that an entity indulging in this speaking of tongues can check out exactly which biomagnetic level he's tapping into? It seems to me that if the Holy Spirit was going to speak to entities, It would at least do it in the language the entity understands.

COSMIC AWARENESS:

This Awareness wishes you to note the word "Holy Spirit". This Awareness suggests this be spelled with a "W",--that the Wholy Spirit being that which is total, as opposed to that which is exclusive. This Awareness indicates that the exclusive spirit is that which is held in check by the entity's ego or personal will. This Awareness indicates that as the personal will or the individual's individuality is released, then the Wholy Spirit takes over. This Awareness indicates essentially this is the possession or emergence of the subconscious, through the entity's mouth or actions, pushing aside the individual will, the control within the mind of the individual.

This Awareness indicates in the Kahuna philosophy the mind or ego or individual is the guest in the house of the animal, (the lower self, the subconscious, the mind which is embedded within the cells of the being, containing ancient and karmic and hereditary memory), and this being likened unto two entities,--the guest as the will and the host as the lower self or subconscious self.

The guest or will may be thought of as the spirit, and the subconscious may be thought of as the soul. This Awareness indicates that as the individual spirit is put aside for the soul to emerge, then the emergence of the expression will be that which has been energized.

This Awareness indicates that wherein the spirit or ego of an individual, the will of an individual, energizes that the soul or emotions or subconscious of the individual should eventually gush forth words and intonations and sounds from a foreign tongue or from an ancient karmic memory or from the angelic tongue, then, if energized properly and the will steps aside, then the soul can indeed gush forth these tones or sounds. This Awareness indicates there is, in fact, an angelic tongue, or what may be termed a universal language, which is used outside this dimension, and when entities attune themselves deep enough into these levels, they may find themselves capable of speaking this language.

This Awareness indicates that often, however, entities involved in the speaking of tongues are, in fact, speaking from past-life memory recall of languages which they have imbedded in their memory within the cells of their body. This Awareness indicates this as likened unto a subconscious memory of previous languages which they have spoken. This Awareness indicates that in other cases, spirits enter and speak through these entities. The disincarnated spirit may speak in a foreign tongue. This Awareness indicates that occasionally, and this as being somewhat rare, the entity's language may be from the angelic tongue. This Awareness indicates, however, that the effort involved in reaching this level of experience and receiving this language can be all-consuming. This Awareness suggests, also, that it can in some ways appear to be of little purpose, for what good does it do that an entity channel sounds and languages wherein no one understands what was said, even the entity himself?

This Awareness indicates that this is not to put down or belittle the experience, for what other experiences are there that are of any greater significance? This Awareness indicates that It simply wishes to put things in perspective, so that entities in following one discipline do not make the mistake of becoming vain and pompous about their particular discipline while belittling the paths which others take, belittling the disciplines which others may choose. This Awareness indicates that this as likened unto a banquet of life, wherein all experiences are served, but some entities do not get around the table, and choose one experience and assume that they

have experienced the banquet of life because they have devoured that one, particular experience. This Awareness indicates that each entity bringing to this banquet energies for other to experience, so that the banquet contains the energies of all who participate. This may be likened unto a potluck dinner, wherein all, bringing something for others to consume, also sample the gifts of others. This allows entities the opportunity to share with each other the different experiences which they all share in common, but not necessarily individually.

Wherein at this banquet certain entities begin to appear pompous in that they have eaten of this, but not of that, and others appear equally pompous in that they "wouldn't touch it with a ten-foot pole," and others appear hostile in that they missed out on whatever it was that was so good because there wasn't enough to go around, and others appear hostile because "someone tried to make me eat that stuff,"this Awareness indicates that all of these different attitudes toward the banquet of life need to be examined carefully, for these are the attitudes which, when pushed toward extremes, creates the polarities and differences between entities, leading to blackmail, coercion, hostility, violence, division, grouping, conspiracies and wars, perpetrated upon the commingling guests of the banquet of life by those who missed out or were forced or threatened by the prospect of having to eat that which they did not want, or who were deprived of something they heard about, or were robbed of something they had.

This Awareness indicates that these attitudes, creating significances out of the experiences which entities identify with to the point of becoming pompous and self-righteous, this as the very heart of conflict, as the very cause of division, as the very roots of the fall of man into error and tragedy. This Awareness indicates that naturally, each entity will appreciate most that which the entity identifies with as acceptable and will fail to appreciate that which the entity has not yet accepted

THE PROMOTION OF LORD MAITREYA.... WHO'S PUTTING UP ALL THAT MONEY?

QUESTION:

(From a C.A.C. General Reading)

May 21, 1982

The Tara Center, the Tara Press, is running full-page ads around the country, and probably the world, billing the Lord Maitreya as the Christ about to appear in the Second Coming. Entities are withholding their opinions on this with a wait-and-see attitude, but I'd like to ask Awareness if It would give some information on this outfit that is behind the promotion of Lord Maitreya, and where their money is coming from. A full-page ad sent to me from Los Angeles (*The Los Angeles Times*) indicates Amsterdam, Holland, London, England, New York City and Hollywood, California, as the major centers from which this entity is being promoted.

COSMIC AWARENESS:

This Awareness indicates that these energies being promoted through certain organizations of a metaphysical connection. That the connections being that which are hidden. This Awareness indicates that the organizations being that which have developed from names which are new. That the claim of being tied into ancient organizations as that which is also new. That

or sampled fully; therefore, differences will always exist. This Awareness simply cautions entities about fanaticism and the inclination of humans to become pompous and self-righteous in their identifications with this or that particular experience in the banquet of life.

there is no actual trace connecting ancient organizations to this entity, although there is the ability to create a fictitious connection to these ancient organizations which are also fictitious.

This Awareness indicates that inasmuch as there is fiction involved, there is also truth, but this truth as being the type wherein any entity could claim to have ancient connections. This Awareness indicates that there is no entity on earth who cannot point to his ancestry and show that he in some way is linked to the ancients and that in this linking there is some significance. This Awareness indicates that essentially, these metaphysical organizations which are newly created are not created out of nothing, but are created from other metaphysical organizations for the specific purpose of promoting this entity.

This Awareness indicates that this tied in with the druids and also tied in with other secret organizations that have connections from the past. This Awareness indicates essentially, these energies being linked with the Rothschild energies, but removed enough to give the appearance of being independent.

QUESTION:

One of their ads states that in the next several weeks the entity will speak to humanity through a world-wide television and radio broadcast. Now, it seems to me if they're going to do this, they are going to have to pay for the radio and TV time, along with these full-page ads, we're looking at literally millions of dollars in advertising budget; and so, probably a lot of people would like to know where this money is coming from that's promoting him, but Awareness says this is hidden and *It* can't reveal any more than that. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that it essentially is coming from those forces associated with the Rothschild empire. This Awareness indicates also that this energy as that which is intended to bring about a unification of religions so that forces around the world of religious orders may be brought together under the influence of this entity, so that a New World Order may emerge. This Awareness indicates that it appears this will have a relatively moderate success, but that there will be many who will not accept this and it will be sufficient to keep this program from succeeding as planned, though it will succeed to a great degree.

This Awareness indicates that this action of communication being through the telepathic system is that which will make use of a new type of.....this Awareness indicates this not a new type, but a heretofore unreleased type of technology that allows mental communication or telepathic communication from a particular type of broadcast system that uses the brain of an individual as a receiver. This Awareness has discussed this in previous messages, whereby the brain may be used as a receiver for broadcasts from this type of transmitter. This Awareness indicates because this has not been used previously, entities experiencing this will believe they are being communicated with by some Divine Being and will assume that since they do not understand how this is occurring, it must be something of a magical or Divine nature, therefore, must be acceptable.

This Awareness indicates this would be similar to entities in a primitive society who have not ever heard of a radio, whereby a god of stone might be brought into the camp with a radio built into his head, and as the entities look at this being, the radio begins to tell them what to do, how to think, how to behave, and how to accept the bearers of his form, and the natives of such a primitive society, not understanding how this stone god could speak these words would indeed be awed, and would assume that it was some kind of Divine force.

This Awareness indicates once the force is understood, entities no longer see it as magic, but by that time they would have been subjugated and used according to the plans and dictates of the stone god.

QUESTION:

Is there some way entities can shut it off if they want to? Is this similar to Awareness's suggestion of doing mathematical problems when a psionics monitor is directed at them?

COSMIC AWARENESS:

This Awareness indicates that this does not appear to be effective except when near a television set or radio. This Awareness indicates that entities need not worry about shutting off the voice, that entities should in fact hear what is being said, but should in fact be cautious as to how they respond to this voice and its suggestions. This Awareness indicates that the plan as that which can serve much good, in that it may assist in bringing peace.

This Awareness indicates the danger is in the action which may follow, whereby entities give up their rights in order to allow this entity to dictate future systems of control. This Awareness indicates that it does not appear that this program will receive full cooperation even from many in other areas of power. This Awareness indicates that the Skoptsis as understanding the nature of this, and also the Rockefeller cartel as being aware of the planned program. This Awareness indicates that it does in fact appear that the program could even be delayed beyond the time indicated, this due to uncertainties brought about because of the Falkland crisis.*

*ED's Note: this relates to previous information whereby Awareness verified Dr. Beter's astounding information given on his Audio Letter No. 74 concerning the secret Bolshevik navy base hidden beneath the rocks of George Island, which the Skoptsis were able to drill through and drop bombs and poison gas into, thus setting back the plans of these entities to bring about the first strike against Russia in September. This is probably the reason why the date for Maitreya's appearance in May was postponed till later.

IS LORD MAITREYA PART
OF THE 'HIERARCHY'?

QUESTION:

In this full-page ad from the Sunday, April 25th *Los Angeles Times* a member sent to me, under the caption: "Who is the Christ?", it has the line: "At the center of this 'Spiritual Hierarchy' stands the world teacher Lord Maitreya." I'd like to ask Awareness if this entity is going to be embraced by those New Age groups like Summit Lighthouse who promote various entities from the spiritual hierarchy?

COSMIC AWARENESS:

This Awareness indicates that some of these groups will, and some won't. This Awareness indicates that generally, many of these who are not already informed, or part of the program, will simply remain uncommitted and confused for a period of time, to see where things move. This Awareness indicates that it appears this entity does in fact believe in himself, as the entity as having been programmed and conditioned to believe what he pretends to be is in fact what he is. This Awareness indicates the entity does not appear to be pretending, so much as acting out what he believes he is here for.

This entity as having been groomed and conditioned for this part for some long time.

CANADA'S TRUDEAU...CATERING TO THE ROTHSCHILD BEAST PROGRAM

QUESTION:

A *SPIRAL Mobius* which came out recently has a condensed article taken from the *New Solidarity* and *Daily News Digest* about Canada. I'd like to read just a little bit and ask Awareness if this indeed is really true.

"Canadian freedom in jeopardy. On April 5th, Canadian prime minister Trudeau was preparing an emergency planning order which provides for the establishment of civilian internment camps, and gives the prime minister emergency powers for dictatorial rule and abrogation of fundamental civil rights in crisis situations. Echoing the War Measures Act imposed during the October 1970 crisis in Quebec, when hundreds of innocent people were arrested and held without charges, the plan now being readied by Trudeau was passed last spring by a cabinet order-in-council, a behind the scenes process which totally circumvents parliamentary procedure and debate.

Legislation is reported to be in the works that would allow Trudeau's cabinet to 'name' Canadians who would not be permitted to leave the country, or would have their passports lifted, and would require all Canadians wishing to leave Canada to first report to the Canadian immigration authorities to obtain permission to leave.

The Royal Canadian Mounted Police, a politically independent enforcement agency, has now been relieved of all responsibility for internal security in Canada. This responsibility now rests with a new agency under the direct control of Trudeau and his cabinet. Trudeau is reported to be preparing legislative proposals which would allow him, through his cabinet, to disarm any police force in Canada. Also reported in the works is legislation which will allow the Canadian government to require all Canadian gun owners to store their guns, (handguns, rifles and shotguns) in government warehouses." (End of quotation).*

*SPIRAL MOBIUS, newsletter of SPIRAL Enterprises, 347 North Union St., Kennett Square, Pa., 19348. (\$1.50 per copy or \$18 a year). C.A.C. heartily recommends this SPIRAL publication which has some very unusual sources and an excellent reputation for reporting the secret actions of the Beast and other conspiracies, as well as predictions by psychics etc. Also, this is the only publication we know of that publishes the recent classified ads of the mysterious 'Broder' which appear in the Village Voice.

COSMIC AWARENESS:

This Awareness indicates that this information as correct, that this as part of the continuing preparation for the world domination and setting up of that program which has been previously described.* This Awareness indicates that this as also being part of the activities which are associated with that which this Awareness referred to as the Beast in its expansion, growth, and takeover; that the Rothschild forces working through the British, United States, Canada and European NATO and Common Market nations, and through China and certain other areas throughout the world; this as still in movement, still creating the control system wherever there is opportunity. This energy flows into all types of government agencies, programs, actions, countries, states, cities, wherever there is an opening. This energy flowing like water of a flood, and there are few entities

creating dikes to prevent this energy from growing and flowing into their homes.

This Awareness indicates that the people of Russia as being essentially aware of this, and yet not fully understanding what can be done. This Awareness indicates that the Rothschild influence as that which has been dealt a heavy blow in the relationship with the Rockefeller oil cartel and multinational corporations, being somewhat adverse to their plans of world domination---this as that which is the greater block to these plans.

This Awareness indicates this, for the average citizen is likened unto having a monster approaching to eat the citizen, then suddenly just before the great crisis erupts, another monster enters in on the scene, and they begin at each other's throats, seeking to destroy each other, so that the survivor can eat the entity. This Awareness indicates that the entity can only watch in horror and in expectation to discover the outcome of that battle of these monsters.

WILL BRITISH COLUMBIA SECEDE FROM CANADA & BE THE 51'ST UNITED STATE?

QUESTION:

There's been a lot of discussion in the province of British Columbia lately about that province seceding from the Canadian government because of Trudeau's policies and possibly becoming the 51st state of the United States. Does Awareness see any possibility that this actually might occur in the near or distant future?

COSMIC AWARENESS:

This Awareness indicates that this as not seen as likely, but is seen as a possibility. The energies would require much greater polarization and alteration before this would occur.

* Please refer to 'Revelations of Awareness' No. 79-1 (The Gathering Storm); \$4.00 from C.A.C., for the complete scenario of all this (which is right on schedule).

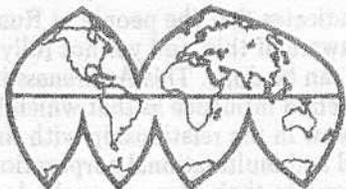

For more information on the Beast in Canada, please refer to 'Revelations of Awareness' No.'s 79-27;\$3.00, and 81-17; \$3.00 from C.A. C.

THE WOUNDED BEAST RISES AGAIN ...FALKLAND ISLANDS A TURNING POINT

(Closing Message)

This Awareness indicates that the Beast was seen to have been deeply wounded, that it was seen to have been destroyed, yet the Beast, by some type of miracle began to stir, and healed itself, and all wondered at the marvel of the Beast. This Awareness indicates that the base in St. George Island, as that which has been wounded, and yet there is a great portion of this base which is still intact. This Awareness indicates that it appears that during the coming week, or month, great energies will be unleashed which will plunge the world into the sea of uncertainty and transition.

This Awareness indicates that this as a beginning of the change in the power struggle. The outcome to be determined within this year.

THE WORLD

Thatcher Owns Falkland Co.

May 9 (NSIPS)—British Prime Minister Margaret Thatcher's husband, Dennis Thatcher, is the major stockholder of the Falkland Island Company according to the Argentine weekly newspaper *Convicción*.

The Falkland Island Company owns 64 percent of land on the islands and employs almost the entire population. As Argentine Foreign Minister Nicanor Costa Mendez stated on CBS-TV's *Face the Nation* today, the rest of Falklands real estate is owned by British absentee landlords close to Queen Elizabeth. Falkland Islanders would be more likely to own their own land under Argentine rule.

The British Prime Minister's personal interest in the island company was also reported by the Argentine newspaper *Clarín* last week. British authorities have refused to make public who owns the company.

ED's Note: the two articles on the Malvinas were released by the New Solidarity newspaper (a paper Awareness has long recommended to entities). For sure, the controlled press has not released the information about the Prime Minister's husband owning the controlling interest in the Malvinas. Spotlight newspaper recently had a story which claimed David Rockefeller was the other large investor.

P-I News Services

Is toilet paper the secret weapon in the East-West arms race? So reports Walter Cronkite.

In meetings last spring with Soviet officials, Cronkite became convinced that prospects for peace lie in negotiations rather than a "wild scramble simply to build bigger arms than the enemy has and more of them."

Speaking in Portland, Ore., Monday, the veteran television newscaster said one Russian official told him:

"Don't think you can drive us into the ground economically by an arms race, because our people can take it a lot more than your people can. We have learned to suffer — for instance, 20 million casualties in World War II.

"Your people could never do without toilet paper. Our people could do without toilet paper."

How Britain Stole The Malvinas From Argentina

Britain's hold over Argentina's Malvinas Islands dates to an 1833 invasion by Royal marines carried out with connivance of U.S. President Andrew Jackson who trampled on the Monroe Doctrine of his predecessor John Quincy Adams to aid Britain's imperialist land grab.

The islands had been incorporated into the Republic of Argentina since the nation's declaration of independence in 1810, and prior to that had formed part of the Spanish Viceroyalty of Rio de la Plata. Although the islands had been claimed variously by France, Spain, and Britain, following Argentina's independence residents of Buenos Aires traveled to the Malvinas and formed a permanent settlement there.

Great Britain's claim to the islands, which it based on their probable discovery by Englishman John Davis in 1592, was part of the British Crown's broader designs on all of Latin America. In the 17th and 18th centuries, England set up an illegal smuggling and slave trade to the Spanish colonies in its efforts to break Spain's trade monopoly with its colonies. As revolutionary ferment swept the continent in the late 18th and early 19th centuries, Britain controlled part of the South American independence movement through agents hired to counter the influence of the United States, and to prevent the formation of sovereign republics. Republican patriots warned at the time that Britain had "expansionist designs" on South America.

Although possessing no wealth, the Malvinas were considered a strategic site from which to plan and stage attacks against the South American continent, especially against Argentina. Prior to 1810, Britain had actually launched two separate invasions of Buenos Aires—in 1806 and 1807—but both were repelled by creole armies. During the War of 1812, the defeat of British warships in South American waters by American warships redoubled British determination to establish a base in South America from which to impose its colonial policies—by force if necessary.

Documents hint first strike

CAMBRIDGE, Mass. (AP) — A 1950s U.S. battle plan for waves of bombers to reduce the Soviet Union to a "smoking, radiating ruin" in two hours lists targets better suited for a first strike than a retaliatory attack, a historian says.

"The question of whether the United States would have launched a pre-emptive strike against the Soviet Union during this period or subsequently is the central issue raised by these documents," David Alan Rosenberg wrote in the latest volume of *"International Security."*

Documents show the Strategic Air Command, commanded by Gen. Curtis LeMay, planned for an all-out, coordinated attack by 735 bombers that would overwhelm Soviet defenses, dropping from 600 to 750 nuclear bombs.

Tax protester Paul Bell made his annual Jan. 19 trek from his home in Taft, Calif., to Bakersfield yesterday to ask Internal Revenue Service officials to arrest him for not paying his income taxes for more than a decade.

It was the seventh consecutive year that Bell has marched into the IRS office and read a "letter of challenge," saying he has refused to file income tax returns or pay income taxes since 1970.

He then asks to be arrested, and yesterday, as in past years, he was sent away after an IRS agent told him he could not discuss matters under investigation. Bell, a former butcher and schoolteacher, says he was asked by God to challenge the income tax system.

Friendly: TV news sights events

ATLANTA (AP) — Half-hour network television newscasts give the public only a glimpse at daily occurrences and often slight or ignore major events, says former CBS News President Fred Friendly.

"The public has been deceived, shortchanged without knowing it," Friendly told about 200 people Saturday at a meeting of the Atlanta Chapter of the Society of Professional Journalists, Sigma Delta Chi.

The problem, Friendly said, is that many viewers apparently believe they are getting a complete news report and do not read newspapers or seek other information.

Arms Sales Set Record

WASHINGTON (AP) — Planned U.S. arms sales for the current fiscal year — expected to be more than \$24 billion — far exceed the record of about \$15.8 billion set in 1975.

The \$24 billion figure represents arms sales already on the books.

ECHOES OF MALDEK.....

CHANCE OF WAR DECREASES, BUT
THE MADMEN WILL STILL PERSIST
(EXPECT SOME STRANGE EVENTS)

(Opening Message, C.A.C. General Reading No. 1)
May 18, 1982

COSMIC AWARENESS:

This Awareness indicates that the intensities which relate to the concerns for nuclear war which have been paramount in consciousness during the past two months, these concerns as that which have diminished somewhat in recent weeks, yet the plans and operations for world domination as that which continues, and which continues to make use of such plans or the modification of such plans. This Awareness indicates however, that the previous message through this organization, being that the potential for a nuclear war outbreak in mid-September, as that which was indicated at a 40% level.* This Awareness indicates that this now appears to have diminished to approximately a 30% possibility.

* 'Revelations of Awareness' No. 82-10
(The Eve of Destruction);\$4.00 from C.A.C.

This Awareness indicates this may also be seen as a diminishing of the intensities of these energies, whereby there appears to be a movement in this direction of diminishing intensities. This Awareness indicates however, that the situation as still volatile and capable of altering as time passes. This Awareness indicates that it appears that a period in late fall, between mid-October and mid-December as being a more dangerous time. This Awareness indicates that this period as that which now appears to be gaining a greater momentum for concern.

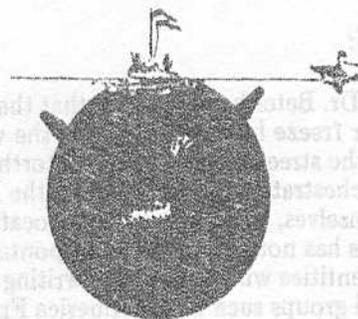

This Awareness indicates that entities on this plane are living in a critical time which echoes the karma of that planet which once existed between Mars and Jupiter; that planet known as Maldek, the Tongue. This Awareness indicates that the planet Maldek as that which was blown apart through the misuse of hydrogen weapons and the misunderstanding and misuse of such nuclear weapons as a pursuit of power. This Awareness indicates that the same entities who were active upon that planet, in some cases, are again active upon this planet. This Awareness indicates that the same type of consciousness, the same pursuits for power, the same desire to use this form of energy for conquest and domination, is that which now has reached its near fruition upon this planet.

This Awareness indicates that the concern among those within this galaxy and solar system is to prevent a reoccurrence of that which happened on Maldek which led to the destruction of that planet, and which in turn destroyed great portions of civilization which had previously existed on Mars and on the Earth itself. This Awareness indicates that the concern for what is occurring upon this planet at this time is such that those in other dimensions, those in other planetary systems are authorized and obligated to have their influence upon this planet, to prevent this same occurrence from reaching the destructive level as was experienced on Maldek.

This Awareness indicates that this is the primary concern at this time, not only in the solar system and areas of this galaxy, but also in the inter-dimensional levels. This Awareness indicates that therefore, events which may occur may appear to be somewhat distressing, somewhat unusual, and in many cases will occur in secret, and in many cases with individuals so as not to be noticed. This Awareness indicates that therefore, these events which occur may in some ways appear to be disconnected and may appear to be somewhat isolated, and in many instances may create what appears to be contradictions. This Awareness indicates however, that these events which will follow are such that they are designed to prevent the destruction on this planet.

This Awareness indicates that there are powerful forces who move steadily in robot-like fashion toward the goal of destroying a great portion of this planet, in order to dominate that which remains. This Awareness indicates that this purpose as that which results in critical experiences and urgent responses. This Awareness asks that entities not panic, not fear, for there are greater forces which are also in motion. This Awareness suggests that entities be sensitive and responsive to these forces.

This Awareness indicates that the period of early fall, between mid-October and late November, and the period from approximately one year from now, and throughout the summer of 1983; these appear to be times of significant danger. This Awareness indicates that these times may be modified according to events and changes which occur in relation to forces which are now in movement. This Awareness indicate the period of September as that which still contains some energy worthy of concern, but this appears to have diminished greatly during the past month or so.

FALKLAND ISLANDS IS ONLY DIVERTING ATTENTION...
THE INSIDIOUS THREAT OF NUCLEAR WAR STILL HANGS.
(More on the crime wave, drugs, alcohol use)

(Closing Message)

This Awareness indicates that the intensities which are associated with that known as the Falkland Island conflict has in many ways diverted attention from the concerns for nuclear war. The voices that were protesting have become somewhat silent and awed by the events in this area. This Awareness indicates that in part, there has been a de-fusion of the potential for the nuclear holocaust as indicated previously, but the danger is not over, and it is important that entities, wherever and however possible, continue to concern themselves with the great priority of creating a world of peace.

This Awareness indicates that all of your concerns for personal justice, for happiness, for right living, all of these are over-shadowed by that continuous and insidious threat of war. This Awareness indicates this continuous and insidious threat of nuclear war contributes greatly to the increased crime rate, the use of drugs, the use of drink, and the general lack of purpose which many entities feel. It is a subconscious de-energizing force acting upon all people of the Earth who are aware of the dangers of nuclear war; that wherein a generation grows up with the knowledge that at any time all of their plans, all of their education, all of their efforts to be moral and proper could simply be for nothing, for they could be destroyed; such reasoning by entities, even on a semi-conscious level can cause them great subconscious insecurity and distress, so that efforts to improve themselves, to live a better life, to please their parents or to improve their future status: all of this seems to be somewhat unimportant or futile.

This Awareness indicates that until this concern and question is erased from consciousness, there can be no true peace upon this plane. This Awareness indicates so long as nations are armed with destructive forces of such magnitude, there can be no true peace.

This Awareness asks: How can you have a true peace which is based upon the use of a weapon aimed at each other?

THE NUCLEAR FREEZE MOVEMENT-- IS ROCKEFELLER BEHIND THIS TOO ?

QUESTION:

Awareness, Dr. Beter has suggested that the recent clamor for a nuclear freeze by entities around the world, the marches in the street for peace and so forth, has been carefully orchestrated and financed by the Rockefeller powers themselves, who previously advocated a nuclear war, and this has nothing to do with spontaneous reaction of entities who can see the writing on the wall, or organized groups such as the America Friends Service Committee and so forth. Is Dr. Beter correct in this, or has he received some wrong information?

COSMIC AWARENESS:

This Awareness indicates that much of the movement as responsive to the urgencies, but that many of these responsive movements as that which traditionally have opposed the use of force and threats of war during critical times such as is now occurring. This Awareness indicates that the American Friends Society as that which would respond to situations such as this and there are others also, but this Awareness suggests that the media coverage and the action of bringing these things to the focus of public attention; this as that which enhanced, increased and brought about a ground-swell of response and this is the part which has been orchestrated by the Rockefeller empire.

This Awareness indicates that this as an action in opposition to the Bolshevik, or that which this Awareness has called the Illuminati's effort to create a nuclear war. This Awareness indicates that the Rockefeller empire as that which would be at a great disadvantage were this to occur at this time.

LEE MICHAEL'S ADDRESS TO THE UNIVERSE... ANYTHING BEEN HAPPENING SINCE ?

QUESTION:

Jack Katchmar has a question. He'd like Awareness to please tell us what practical results we can expect to see here on Earth in general, and here in America in particular, as a result of the April 9th C.A.C. reading in which Lee Michaels addressed the universe. And did that April 9th reading result in enough changes in the inner planes so that they can remove all the power from the Lucifer/Rothschild/Rockefeller/Zionist forces now in control of Washington D.C.?

COSMIC AWARENESS:

This Awareness indicates that these energies which, regardless of their source, are violative to principles of decency and human ethics, which are violative of concepts dealing with proper behavior of entities to each other, whether these are from one of the organizations or groups which this entity sees as being the arch-villain, or whether from one of the groups this entity sees as being the Light Force; wherever such types of violations occur, these will be noted on records in the inner planes, and no longer will be excused or allowed to continue without some form of recompense, except in cases wherein Divine Grace interferences with the *Law of Karma*.

This Awareness indicates that during the past, many entities were in agreements, having certain types of contracts, wherein they were permitted for a time to bend the *Law of Karma* and get by with certain behavior which was not allowed to others. This Awareness indicates that this opportunity is to be denied so that entities will more quickly be brought to justice or into the Light. This Awareness indicates that also those who have bent the Law, are those who in this coming period will be called to account for all of that violation which they may have created during that entire period wherein they 'got by' with the act of bending the Law.

This Awareness indicates it is not simply a matter of not getting to do this any more, rather it is a matter of repayment for those violations of the past, even though they appeared to 'get by' for long periods of time, even through many lifetimes. This Awareness suggests that there have been violations, not only among those who this entity thinks of as Dark Forces; there have also been violations among those who this entity would class as Light Forces, wherein the general behavior as that which was in many cases supported from the Inner Plane, even though the behavior violated others in an unjustifiable manner.

This Awareness indicates there have also been other situations wherein regardless of how much an entity might attempt to do good for others, the rewards for such service were denied. This as due to certain arrangements made by forces on the Inner Plane to inhibit and retard or hold back that entity's performance, ability and capacity to do good. This Awareness indicates that therefore, these forces on the inner planes, these bureaucratic levels of the inner dimension are to be quickly brought into alignment so that greater justice, support and clarity may be administered through these planes into the physical plane of the planet Earth.

THE SPRINGLIFE POLARITY PILLOW....

IS IT EVERYTHING ITS PROMOTERS CLAIM ?

QUESTION:

A question from F.N. "Would Awareness give some information on the Springlife Polarity Pillow, a stainless steel case enclosing sea and land plants that draw radiation to change water, food toxins, and are beneficial to injuries and polarizing the body?"

COSMIC AWARENESS:

This Awareness indicates that this as having a powerful effect on negating and neutralizing poisons of various degrees; this also as having an effect on neutralizing radiation of a harmful nature, and of altering the effects of aluminum. This Awareness indicates this also has the effect of assisting to neutralize poisons within the physical body caused by deposits of lead, aluminum, and other types of harmful metal. This Awareness indicates that there is much literature already available on this instrument. It has been tested for approximately 15 years in a wide variety of situations. This Awareness indicates that this may be used in neutralizing any poisons in foods or in neutralizing foods which entities may be allergic to. This has its effect of retarding and even reversing spoilage of foods. This has an effect of revitalizing that which is in the process of decay. This Awareness indicates that essentially this as an anti-poison, anti-radiation device. The vegetation inside this object as that which draws energies from the atmosphere and radiates these positive energies in a cone-like shape, emanating from the device.

This Awareness indicates that this object can be very beneficial to ward off negative effects from foods, vitamins, minerals, drinks and intravenous injections,--any of these things which are put into the body, or which are breathed by the entity, or which have collected in the body. This Awareness indicates that the company does not make claims of healing,--(that the pillow will heal)--for this is not permissible. This Awareness indicates however, the company does give information and make claims that the object will neutralize most poisons to a great extent, depending on how it is used.

This Awareness indicates that it does not, in reality, matter whether these poisons are inside of an entity's body or outside. This Awareness indicates however, that the company producing this instrument will not tell you or advise you that this instrument can heal. This Awareness indicates that experiments in this regard are those which are left for the individual. This Awareness indicates that the instrument has a wide variety of applications, (which is explained in the literature), and has been tested, and the instrument can be tested by individuals wishing to duplicate these tests.

This Awareness indicates that this instrument is produced in a variety of forms: as a metal box, soldered with silver to keep the moisture out; in a soft cloth pillow-shape which entities may sit on; or in a larger box for other uses. This Awareness indicates that this instrument as that which can be used for removing or neutralizing impurities in water, and for removing or neutralizing impurities and poisons from foods stored in one's refrigerator. This Awareness indicates that the printed information as that which explains most of the various applications. That this also has an effect of altering the nature of aluminum, so as to eliminate its negative aspects. This Awareness indicates that each individual may find different applications, uses and results from its energies.

MORE USES FOR THE POLARITY PILLOW

QUESTION:

Awareness, there's quite a bit of food poisoning occurring in some of the foods put out by certain restaurants. If an entity had one of these objects in his possession each time he ate in a restaurant, and passed it over the foods, and if it passed over foods that might have been contaminated, that would have normally given food poisoning to the entity; would this, in fact, prevent the entity from getting food poisoning?

COSMIC AWARENESS:

This Awareness indicates that this in the affirmative, depending on the exposure time and the degree of poisoning within the food. This Awareness indicates that the more poisonous the food, the more time might be necessary in neutralizing. This Awareness indicates this information in the literature. This Awareness indicates also, that the use of this object can reduce the harmful effects from such foods as coffee, and other caffeine drinks. This Awareness indicates that it also can have effects on neutralizing or reducing the damages of foods which have been permeated with additives, such as nitrites, steroids, and other hormones and poisons. This Awareness indicates that it does not wish to indicate this as being an absolutely 100% efficient device for making all foods purer, but that it does have the effect of bringing the poisons down in their level of detrimental effects. This Awareness indicates that it does have a great effect which can be tested and demonstrated.

QUESTION:

Awareness, there's one question about this device: I've heard that it's pretty expensive, (around \$100, I believe). I'd like to ask Awareness if entities put that much money into this object, would they get their money's worth, or feel that they've got their money's worth over a period of time from their investment?

COSMIC AWARENESS:

This Awareness indicates that this object does not wear out, if taken care of properly, without damaging the case. This Awareness indicates that the energies are as effective ten years or more after purchase as they were at the time of purchase. This Awareness indicates essentially, the human body emits a certain amount of positive radiation as an aura, and this object emits approximately 20 times that amount: the positive energy as that which alters the poisonous or negative forces when applied to these.

ED's Note: this reading was given in October of 1981 and on the strength of what Awareness said about this device, CAC ordered a couple to give them a try. Over the past 6 months or so, the staff has used this device on many things. For example, it kept a turkey sandwich fresh for 5 days; takes the bitterness out of coffee and other drinks and foods; it has removed headaches when applied to the head; it appears to have a very calming effect when held within one's aura; and according to Awareness in other readings, this object will remove the parasites in alcohol if held over the drink for about 2 to 3 minutes. It has also given other information on this object, which we will publish as time goes on.

Since experimenting with these Polarity Pillows, and with all the kind words about them coming from Awareness, C.A.C. has become a dealer for these objects and can supply those in the membership with them if they can not obtain one locally. (Many healthfood stores do stock these). The price at this time is \$100 plus \$2 postage and handling. CAC does not stock the notebook with all the information on how this object can be used; but this can be obtained for an additional \$5 from the manufacturer, whose address will be supplied to those who order a Polarity Pillow.

For more information on the Polarity Pillow, please refer to 'Revelations of Awareness' No. 82--6 (Page 12); \$3.00 from C.A.C.

THE GREAT AMERICAN FAULT LINE

ANOTHER EDGAR CAYCE PREDICTION VERIFIED

QUESTION:

We have a question from C.K., of Roseville, Calif., "When I saw the attached clipping in the paper, I thought of Edgar Cayce. In one of his books, I remember his saying the United States would break up, Florida would drop beneath the sea, Kansas City would be a Western seaport, and to a person living in Livingston, Montana, that he would be relatively safe. And Nebraska was supposed to be the new West Coast". And he attached an article just recently released called "Giant Rift Found Over the Face of the United States", taken from cameras from the NASA space ships, and I'll read a little bit of this:

"Space-age technology has uncovered a giant crack across the face of America, and geologists are trying to figure out what it means.

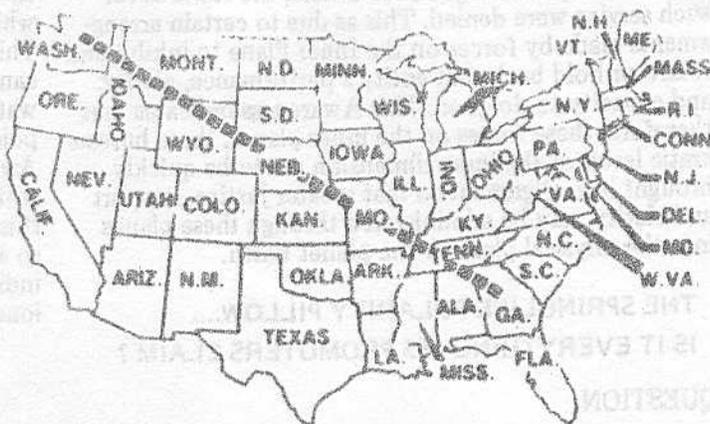

"Our first reaction was: 'it just can't be--it's just too big,'" Professor Raymond E Arvidson said in an interview at Washington University. "But there it is."

Arvidson said the crack--some 1700 miles long, nearly three times the length of California's San Andreas Fault--could be one of the world's largest continental rifts. It begins in Washington state and stretches across south-central Missouri to the southern tip of the Appalachian Mountains. The Washington state terminus is near Spokane at the western end of a valley known as the Lewis and Clark lineament.

The newly-discovered crack, at its widest, is 90 miles across and extends deep into the Earth's crust.

Arvidson said the rift poses no danger, and would not be noticed by someone standing on top of it. He said it is unlikely to become an active fault again because the stresses that created it disappeared eons ago as the crack was filled in with low-density rock. Arvidson said the discovery may unlock secrets about how the continents were formed and how continents respond to stresses between plates in

Missouri Gravity Low

SPACE-AGE technology has uncovered a giant crack across the face of America, located as shown on this map. The crack, some 1,700 miles long, runs from Washington state to the Appalachian mountains.

the earth's crust. It could also help explain why earthquakes persist in the Missouri Bootheel, the site of the devastating New Madrid quakes of 170 years ago, which changed the course of the Mississippi river and were felt as far away as Boston. The crack intersects with the New Madrid fault, creating a hot spot that is a frequent source of small quakes."

I'd like to ask Awareness: is this fault line they've just discovered, the one that Edgar Cayce referred to, and if so, does Awareness have any further information *It* can give on this?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative. This Awareness indicates that it appears that the removal of water from the Central States, the great underground basin, as that which does have some effect upon the stability of the land masses. This Awareness indicates that the water table dropping considerably, as having an effect of creating shortages of water in the Mid-part of the United States, but is also stabilizing the continent. This Awareness indicates that it appears this as having an effect of creating a more solid foundation, which will assist in preventing further drifting in regard to this fault.

This Awareness indicates however, in the event of interference by man-made or artificial means, such as might result from geophysical warfare, or nuclear warfare, this stability could be further shattered.
