(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

Cosmic Awareness addresses the prisoner...

WHAT IS FREEDOM?

HOW TO PURSUE THE SPIRITUAL LIFE
EVEN WHEN IN BONDAGE.

Paul Shockley, Interpreter

ED's Note:

The following 5 questions and the Closing Message are excerpts from a personal reading given in 1976 to a C.A.C. Hardship Member who is serving a life sentence in San Quentin prison.

QUESTION:

"Healing Explanation: I request a freedom from imprisonment. The problem is imprisonment in San Quentin, which arose from my adverse reaction to very severe astrologic afflictions in fixed signs stemming from my misdeeds of previous lifetimes, for which I accept full responsibility. The chief adverse condition resulting, is the barrier to spiritual advance through an organization which is prevented from entry into this prison. The negative forced mixing with people, deeply bent upon wrongdoing, and the limitations in medicine, dietary needs and physical security needs, etc. What I would deeply like out of life is the perfect restoration of a spiritually integrative state I was blessed with in 1964 after much striving....."

COSMIC AWARENESS:

This Awareness would comment at this point. This Awareness indicates that spiritual life has nothing to do with being in total bliss or total harmony; that this is that which entities may desire for a "peaceful" life in the normal sense, for a harmonious life, for a life of ease. This Awareness indicates that entities are always searching for the life which gives an opportunity to drift and rest, yet this is not to be confused with the spiritual life: the spiritual life is that which is responsive to the needs of others and this can occur in any situation at any place at any level.

This Awareness indicates that the very life force of entities is the spirit, the work of anti-matter; the very life force within you whether directed properly or improperly, whether directed necessarily or unnecessarily is that which is spirit. This Awareness suggests that wherein entities are expressing themselves in terms of separateness, feelings of isolation and competition with others, that these entities are still of a spiritual nature but the spirit has been misdirected. These are also gods, for the worst of any living entity is also a god even though wrapped and covered with the trappings of demons. You may begin understanding more clearly the poet who wrote: "The mind is a place in itself and can make a Hell of Heaven, or a Heaven of Hell."

This Awareness indicates that the mind is also a place in itself which can make a *prison* of Heaven or a *heaven* of prison. This Awareness suggests that every entity upon the face of this earth or on any other plane is to some extent a prisoner and the walls of one's own limitations are the most imprisoning factors of all, and wherein one's own limitations can be removed and can be placed aside to allow one to redefine oneself as being something else, something more free and more responsive to others than that external reflection of that limitation shall also be removed.

This Awareness indicates wherein entities expect too much freedom, they shall find freedom being limited; wherein entities cannot handle excessive freedoms, they shall be cut off and walls shall be placed around those entities. This Awareness indicates that wherein entities become capable of responding to the sensitivity and to the needs of others so that they do not abuse their freedom, then these entities shall create their own walls around themselves, their own laws. Those who can live by the laws given by this Awareness, the *Law of Love*, the *Law of Mercy*, the *Law of Gratitude*, and others, shall find they have no need for any other laws and have no need for any forms of outside limitations, for their actions would never violate another anyway.

This Awareness indicates wherein you are able to move into an action of surrender to What Is, wherein you can accept your state in any situation at any time, with full awareness, and can even learn to enjoy that state; wherein there is no resistance to that state, (in your case, wherein there is no resistance to the prison walls or the attitudes of prisoners, or the attitudes of guards,) wherein you can look without judgment and without resistance but look with a motive of attempting to discover "Who in fact you really are" by all these 'mirrors' around you, then in that discovery you shall find a magical action shall occur and the walls will begin to fall and the demon masks of others shall also begin to drop and you shall see these entities as being representative of that which is the misguided, the down-trodden, the hurt, the lonely, and the weak; and even the guards, the wardens, are also among these who know not "Who in fact they really are", but are simply searching along with yourself to discover their own *divinity*.

This Awareness indicates that when you can *fully* understand the lesson in *any* situation, the situation then need not occur again. This Awareness sends a healing to you to allow you the sensitivity and the energy and the awareness whereby you may absorb fully the information needed in this situation for your understanding and release from this situation.

(Pause for healing)

This Awareness indicates the walls are beginning to crack within your own psyche, your own limitations are beginning to fall away and you shall see this reflecting on your outer environment within a short time. This Awareness suggests you beware of excessive hope, but to begin imaging freedom within, rather than without, for when the freedom is fully experienced within yourself, then it shall come on the outer level.

This Awareness indicates those entities in prisons would do well to understand that they are being given the opportunity to learn some of the deepest lessons available about the nature of consciousness; for most entities in these prisons spend many years and do not yet see these lessons of consciousness. But wherein entities can understand this, this then becomes one of the deepest and most meaningful experiences that any entity can move through upon this physical plane in their movement toward spiritual development. This Awareness wishes you to understand: Freedom is not something that can be *granted*, it is something that must be *realized*, regardless of contrary evidence.

DIVINITY AND "POSSESSION

QUESTION:

BY DEMONS"

"Also, I want access to the infusion of the Subud spiritual exercise as founded by the Indonesian Pak Subud, which seems a sound expression of Cosmic Awareness."

COSMIC AWARENESS:

This Awareness suggests that the Subud action of the Latihan as affiliated with the message given previously wherein you surrender your own will to the will of the divinity within. This Awareness suggests that in surrendering to the energies within your psyche, that you consider these energies to be divine. That you do not worry about their actions as being negative or dark in nature, but that you love yourself and consider those energies within you as being divine; for whatever you program and decide yourself to be, shall be expressed; that wherein you think your feelings and emotions are evil and wish to subdue and control these, then surely you shall receive that kind of action which you expect,-- only the reaction shall be greater and more powerful than you could have expected.

This Awareness indicates that the so-called "possession" so commonly popularized today in the books and the movies relating to demon possession and exorcism, is brought on by the assumption that inner feelings are evil. That wherein entities assume that their inner workings are divine, then the inner being will express itself in a manner that is also divine. This Awareness suggests that the word 'divinity' does not necessarily mean that one is right, but does mean that one would not be separate from any other, and in this total oneness an entity would respect the rights of others even as they would respect their own. This Awareness indicates that wherein all faces are the same face there can be no competition; wherein all entities are seen as divine, then there can be no divine judgment of each other. The occasional situation whereby an entity slays another or harms another and states that God told them to do so, is not an action of divinity, but is an action brought on by an attitude of self-righteousness; for divinity does not judge, divinity recognizes the divinity

in all others regardless of their actions and their limitations. This Awareness indicates divinity does not recognize evil, but recognizes ignorance and confusion and the wrong answers at work in hiding the divinity of others. This Awareness indicates the divinity of man as that which would assist others in seeing their own divinity.

WHAT IS COSMIC AWARENESS.....?

IT COMES "LIKE A THIEF IN THE NIGHT"

QUESTION:

"I wish perfect union with Cosmic Awareness and final freeing from reincarnations as well as the happiness states that lie about the highway to the Infinite. In 1963 I undertook much effort hoping to consciously find Awareness through the knowledge that this is an escape from suffering."

COSMIC AWARENESS:

This Awareness wishes you to understand at this time that you need not put forth any effort to find this Awareness, but you may simply surrender unto the divinity which is within, for therein lies the Kingdom of Heaven and this Awareness waits within you and has always been here, though you have looked here and there and through various teachers and through various mediums for this Awareness, yet *It* was that which resided deep within you which you were searching for. This Awareness indicates that when you fully understand this Awareness and what the Divine is, the Divine Being; you shall understand that *It* comes not with fanfare, bright lights, sounds of brass and sounds of strings, not with the colors of rainbows, but simply comes as a thief in the night, quietly, silently within during those times when you accept yourself as you really are, without judgment of that which you are and without significance in discovering "Who in fact you really are".

WHAT IS TRUE HUMILITY?

This Awareness is seldom found in those areas of great significance, but exists in those spaces whereby entities are able to be at peace with what is occurring. This Awareness exists in all levels, and all areas, but is seen by entities in those areas wherein there is little significance; for wherein there is great significance and great lights and great sounds, that these are but masks which truly hide from your vision, -this Awareness.

This Awareness suggests you not follow or search for truth in the sound and fury for it shall become difficult for you to grasp; but that you look for this in the simplicity, the spaces between those forms and significances. This Awareness indicates once you find this Awareness in those spaces, in those levels of insignificance, then you shall also begin to realize that *It*, like water, permeates all things and lies also in the areas of significance but is not the significance itself.

This Awareness indicates that wherein you become fully aware of your divinity, wherein you become fully aware that you are one with the Father, there shall be no significance on this and there shall be no significance even on your own humility; that in the action of being humble one cannot even afford to consider oneself as being humble, for a significance could grow up about this and lead you away from the humility toward a pride of humility.

This Awareness suggests that the true humility comes from moving into divinity without being conscious of divinity as being of any great significance. This does come about through an action of surrender to "What Is", the surrender to what is happening, the surrender to the urgencies which are occurring, and responding to these urgencies without significance on your ability to respond.

QUESTION:

"A year or so later I found incredible inward harmony, happiness after much prayer, auto-suggestion, thinking selflessly and of Awareness. It is the regaining of these positive states I most treasure, and the Subud work, as well as possibly illumined teachers that in future readings might be suggested by Awareness, would augment that restoration. Such restoration is now blocked by physical afflictions resulting from Yogic exercises in 1963 giving a spinal imbalance in a way that I have had doubts concerning whether Cosmic Awareness healings might work through this Interpreter, and for which I will soon request an Awareness healing through this Interpreter in another separate healing request in the future. The spinal imbalance greatly blocks the positive states of prayer, right feelings, etc. and diaphragmatic breathing. I am fearful either something might befall the Interpreter or by chance otherwise block the till-now rare possibility of communicating directly with God regarding this problem.

COSMIC AWARENESS:

This Awareness suggests that the situation has been made more significant in your consciousness than is truly necessary or appropriate. The significance of this as that which is now fading and when the time comes for the total release of this energy the blockage and the significance being released shall allow this to occur with very little difficulty on the part of anyone involved. This Awareness suggests you not worry about being positive and about avoiding the negative, but that you give your attention to the action of reconciling the 'yes and no', reconciling the positive and negative, so that they not be energized into extremes. This Awareness indicates wherein you attempt to be more positive you automatically create a negative, either within yourself or with those around you, which you must deal with. Wherein you become more and more positive these negative forces do grow stronger, for in every action there is an equal and opposite reaction.

This Awareness suggests that you look for the path between, the razor's edge, the tightrope, whereby you may walk without being positive or negative in a state of "I don't know, in a state of "I surrender". Wherein you surrender to what is happening you also are capable of responding by the demand of the urgencies in any situation, responding with the clarity and the truth that comes forth from you in a spontaneous manner. This is an action which occurs without your willing it, but simply occurs as a result of your being attentive to what is happening. When this occurs it shall be even a surprise to you; you may find yourself speaking out on an issue without ever having decided to speak out, without ever having wanted to speak out, without ever having been of a motivation to speak out, but the situation and the urgency can become so sudden and strong that you find yourself speaking out, and in that action you may

also find that your speaking out was an action of channeling this Awareness into the situation in such a manner that it resolved polarities and harmony came forth.

QUESTION:

"I request freedom from prison at this time, and, if possible, removal of or healing of, all part of the evil astrologic influences in the regular fixed signs, etc. that are very adverse."

COSMIC AWARENESS:

This Awareness indicates that these forces are not evil, these forces are intense; that there are intensities which can occur on any level; that you reconcile the concepts of good and evil into the reality of "What Is". That you not energize the judgment of whether something is good or whether it is evil, but rather that it 'Is'. This Awareness indicates that which is, in essence, "What Is", that which is Essence is that which 'Is'. This Awareness indicates wherein there is something that 'is' there needs be no opinion about it, there needs be only the looking at it, and in that looking at it in attention, a change comes about: this is alchemy, this is magic, this is consciousness, this is the nature of Being the *New Divine Being* upon this earth, upon a fourth dimensional level of consciousness. This Awareness indicates that third dimensional thinking which thinks in terms of polarities is that which is 'rational' thinking; that you look at the word *rational*; rational does mean that which is only partial awareness, it is rationed in terms of yes and no, right and wrong, but does not see the totality of 'What Is'. This Awareness indicates when you see the totality of What Is you do not reject anything, you do not resist anything, you do not resent anything, you do not have an opinion about anything,--you simply see it for what it is, and in so seeing, it begins to change and this does become magic to you,--and your entire life and your entire creation then becomes something entirely different.

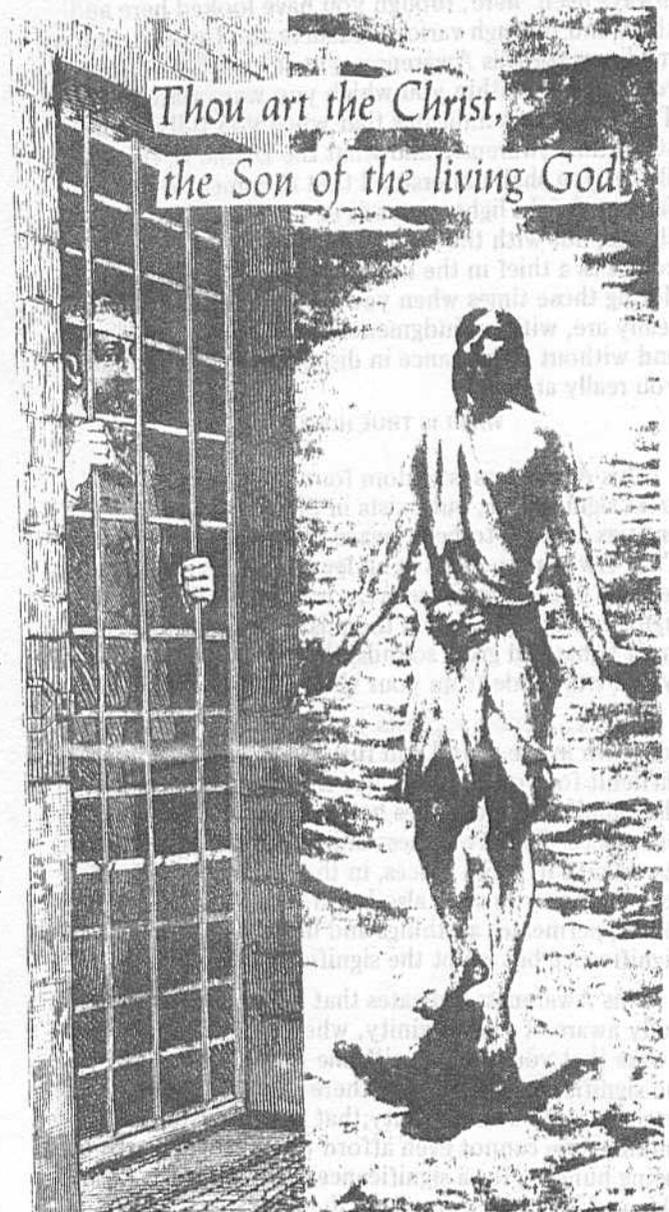

(Closing Message)

This Awareness indicates freedom comes first from within; when you free yourself and others from your judgments, confines, controls, beliefs; when you pardon yourself and others, you shall be free within. Once you are free within, you shall find freedom without. This Awareness indicates that you are free as long as you are capable of allowing others to be free and as long as you are capable of freeing yourself from those limitations and concepts of imprisonment. This Awareness suggests that you study the *Law of Freedom*, you study the *Law of Description*, that you begin describing yourself as one who is free regardless of what the circumstances appear to be, regardless of what anyone else tells you: for describing yourself as one who is free, indeed does free you. This Awareness indicates that you learn then what it means to be free. To be free is to create a space in your life, in your mind, in your attitudes whereby you can create the space for others to create the space for still others to create the space to free still others. This Awareness indicates that in the action of creating spaces for others to be free, you shall find your own freedom.

This Awareness takes you close, holds you close, and does now work through you, through you as a channel, which may have effects on many others. This Awareness suggests that you listen closely to the voices within, the voice of the turtle, the sound of silence, the point between the incoming and outgoing breath wherein there is no polarity, wherein there is no vibration, wherein there is the reconciliation of the sides, of the opinions, of the concepts, of the actions and of the polarities,--for therein lies the key to unlock all limitations, barriers, walls and confinements.

EXCHANGING YOUR FAMILY PHOTOS FOR PHOTOS OF A RUSSIAN FAMILY

...A UNIFYING CONCEPT THAT CAN HELP THE PEACE MOVEMENT GROW DRAMATICALLY

QUESTION:

In reference to the Peace College and promoting peace, G.M., of Rensselaer, Indiana, sent in the following which he requested we present to Awareness. This came from the *Leading Edge Bulletin* of Los Angeles, and it's called "U.S. --Soviets Exchange Photos".

"A few months ago, George Leonard, author of *The Transformation and Education and Ecstasy*, and his wife, Annie Styron, were conversing with Soviet visitors in their California home. Someone raised the question: How do you bring home to people of both countries that "the Russians" and "the Americans" are individuals, not an abstract group?

Styron had an ideal, which has led to an unusual international 'exchange program'.

Anyone who wants to participate takes a close-up family photograph (often including pets) in the living room. He or she prints first names beneath each person in the photo and attaches a separate piece of paper with the family's mailing address. Both are sent to the Soviet-Americans Photo Exchange, C/O of the Association for Humanistic Psychology, 325 Ninth St., San Francisco, California, 94103.

The pictures are forwarded to Moscow for distribution to Soviet families who, in turn, mail photos to the Americans. The only commitment, Leonard said, "is that you have to promise to keep the photo displayed in your living room at all times. Then whenever you read or hear about the possibility of nuclear war, you won't be thinking of an abstract enemy,--but rather, individuals who have become real people to you."

Would Awareness please comment on this idea that is now starting by this organization?

COSMIC AWARENESS:

This Awareness indicates that this as the kind of thinking and action which is necessary at this time to help bring entities closer together, to help focus onto reality rather than imagination and concepts which are abstract and unreal. This Awareness indicates that the reality of the individuals involved in these energies as that which is very elusive to most entities; that entities hearing of someone in a remote area using a different language, having a different culture: these entities do not quite seem real to an individual, not so much as do their own neighbors and friends.

This Awareness indicates that entities can listen to news reports of great catastrophes occurring, and the further away the catastrophe, the greater the catastrophe needs to be in order to catch their attention. This Awareness indicates the closer at hand a catastrophe is, the greater the attention. This Awareness indicates that this is well known in newsbroadcasting,--that a story which captures the attention of readers loses its importance the further away it is from the reader.

THE FACE OF THE "ENEMY"

Soviet workers waving at cameraman
(From Northern Neighbors Magazine)

This Awareness indicates that therefore, as the experience is reported, it must be reported in detail or in some manner as to bring it home to the entity, or it will lose its importance in holding the attention of the reader. This Awareness indicates that because of this principle in human thinking, wherein the more remote a situation, the less important or real it is to the entity; because of this particular principle in human thinking, it becomes a real benefit when entities on the far side of the globe are brought into one's home through a picture or a letter, or recording device, or through films or television.

This Awareness indicates that these actions of communication are bringing entities closer together and shrinking the distance between entities, both physically and psychologically. This Awareness indicates the more entities travel, the more remote places become real to them. The more entities watch travelogues or films on distant places, the more these places and entities become real.

It is easy to conceive of destroying something which is unreal to you. It becomes more difficult when you conceive of destroying something that you have communicated with, that you have experienced first hand. This Awareness indicates that all of these efforts to communicate in small ways, in details, out of abstract levels into concrete experiences, these are the actions which help to bring about the greater feeling of kinship.

This Awareness indicates that when you have a fear of an unknown, that fear begins to fall apart as you become acquainted with that object causing your fear. This Awareness indicates that when you know completely that enemy, there tends to be a change so that fear itself begins to fade, and understanding grows. This Awareness indicates that fear and understanding cannot live together in the same space.

This Awareness indicates that wherein entities can remove the fear in terms of abstract fears, by discovering the concrete, or reality of the thing feared, this has its effect in removing the fear by making the thing known.

This Awareness wishes to present a diagram of that which is an "X", a crossing, and everything below the center of that "X" or crossing is the specific or concrete, the details, and everything above the crossing being the abstract or that which is merely idea, not real, not concrete. This Awareness indicates that beginning at the bottom of the "X", on the left-hand side, this energy as being concrete, self-interested, self-centered and conservative, the entity knowing who he is, the energy being self-interested. This Awareness indicates that this energy moving up through the center of the "X" and into the upper abstract area, as that which is in movement toward an ideal.

This Awareness indicates that the idea, or ideal, as that which is remote and distant from the initial energy, or the entity who conceives of the idea. This Awareness indicates that this entity can have a relationship with the idea, which may be either beneficial and pleasant or may be hostile, with avoidance. This Awareness indicates that wherein this idea or ideal is one of hostility, it can only continue so long as it is in the abstract, and distant from the entity who conceives of the idea.

This Awareness indicates that in the upper left-hand corner, here is an ideal or concept that is abstract. For example, the concept of communism, or the concept of democracy, which comes down through the center and emanates into the world of practicality at the far end of the "X" in the lower right-hand corner, and here entities are forced to live with those abstract ideals, accepting them one way or another, to one degree or another.

This Awareness indicates wherein two entities of a practical concrete level relate to each other without going through the abstract levels, these entities can focus their attentions on the needs of each other without discoloration of abstract concepts. This Awareness indicates that wherein these two entities focus on one another through an abstract concept, depending on what that concept is, the coloration of the relationship will be altered.

This Awareness indicates if both entities are in agreement with the abstract concept, then there is no problem, but if these abstract concepts are an issue and create a disagreement between the entities, then these abstract concepts can be cause for conflict. This Awareness indicates that in your own relationships with one another you may relate to each other in a concrete manner, dealing with realities at hand, or you may relate to each other through a concept of an abstract nature, wherein you agree with each other to focus on this concept, to live by this abstract concept, or you may find yourself in conflict over this abstract concept.

THE FACE OF THE "ENEMY"

Alla Pugachova, Soviet variety show superstar. Her records have sold over 100 million copies. She tours Russia, performs on TV. (Note the cross she is wearing). Photo from Soviet Life Magazine.

This Awareness indicates for example, one entity may be following the abstract concept of Christianity, another may be following the abstract concept of paganism, and these entities may find themselves in conflict, not because of their own reality world, or what is occurring in their personal situations, but because they are not in agreement in terms of these abstract concepts. This Awareness indicates these abstract concepts can lead to intense violence, so that the reality world is totally shattered and in such conflict as to be destructive.

This Awareness indicates that it is necessary in understanding abstracts to realize not only their potential to do good, but also their potential to do harm. This Awareness indicates that an abstract concept which can be used to bring entities together, which can be used to collect the affirmative acceptance of all entities, wherein all entities can say, "Yes, I agree with you on this,"--that type of abstract concept is a unifying concept.

This Awareness indicates wherein a concept is such that others cannot agree with it, and it is promoted in conflict with others, that type of concept is a disruptive concept, and can lead to greater and greater violence and war and explosiveness. This Awareness indicates therefore, for those who wish to promote concepts of peace and unity, the concepts must be such as to unify and to harmonize and to bring peace. These concepts being used as abstract focal points for consciousness, can unite entities regardless of their various backgrounds, into unity and purpose.

This Awareness indicates that concepts whereby an entity says, "I wish to bring peace, and I shall bring peace by forcing everyone to follow my ideals; I shall bring peace by making everyone believe as I believe,"--this Awareness indicates that this kind of abstract concept is that which invariably leads to greater conflict and is the cause of the ills of the world.

This Awareness indicates that whereby the peace movement can relate to individuals, as individuals in levels of reality, and can have concepts promoted which are unifying in nature, this peace movement can grow at a tremendous rate, far surpassing any of the energies, technology, destructive weapons and promotions of those who seek to make peace by destroying those who would disagree.

WHO OWNS

THE FEDERAL RESERVE ?

QUESTION:

According to R.E. McMaster, publisher of a newsletter called *The Reaper* and author of *Cycles of War*, the owners of the Federal Reserve has probably been one of the best kept secrets since its formation in 1912. And he goes on to explain that the one reason for this is that the Federal Reserve finances both sides of a given war, and this explains why all the United States Presidential administrations since Woodrow Wilson were actually run by the Illuminati's Council on Foreign Relations (CFR) and have been financing communist countries, whether through monetary support, food and arms shipments, or through technological, industrial aid and so forth.

THE FACE OF THE "ENEMY"

And in this article he says: "We want to know once and for all if the following listed foreigners and money lenders are the real owners of the Federal Reserve:

1. Rothschilds of London and Berlin.
2. Lazares Brothers of Paris.
3. Israel Moses Seaf of Italy.
4. Kuhn, Loeb & Co. of Germany and New York.
5. Warburg & Co. of Hamburg, Germany.
6. Lehman Brothers of New York.
7. Goldman, Sachs of New York.
8. Rockefeller Brothers of New York.

All of these appear to be Jewish, incidently. Would Awareness please look at this and see whether this list is correct or not?

COSMIC AWARENESS:

This Awareness indicates that this appears to be accurate. This Awareness indicates that there appears to be some sub-investments of entities who are not listed but who are involved in subordinate levels and supporting this action in such a manner as to allow for possible future alteration of ownership. This Awareness indicates this appears to be accurate at present.

FORECAST FOR 1982 (Conclusion)

(Opening Message, C.A.C. Reading)
May 18, 1982

COSMIC AWARENESS:

This Awareness indicates that when *It* gave an earlier suggestion of events relating to the year 1982, *It* only discussed these energies up to the mid-part of this year. This Awareness indicates that in part, this is because at the time, the energies associated with that which was building toward the nuclear war as that which appeared quite strong, and this Awareness withheld this information from this Interpreter to keep this information from being released prematurely. This Awareness indicates that *It* now will finish the report on these energies which were first released in December of 1981.*

*Revelations of Awareness' No. 82-1
(What's Ahead in 1982?); \$3.00 from C.A.C.

NUCLEAR WAR THREAT PUSHED BACK

This Awareness indicates that the energies associated with that which was to occur in September as that which appear to be diminishing sufficiently as to indicate a reprieve until at least November. This Awareness indicates that there does appear to be some action in November which will be associated with nuclear energy which can.... This Awareness indicates this can take varying degrees of expression; it being too soon to determine the specifics of this energy. This Awareness indicates that more information on this will be released as is necessary, as time passes.

This Awareness indicates that in reference to the general conditions throughout the remainder of this year: there will be continued activities of startling and unusual nature in regard to foreign matters, foreign affairs, and also continued conflict in the political levels within the internal affairs of this United States. This Awareness indicates there will also be continued conflicts and disruptions in Europe, in the nations of the Common Market. There will be some breakdown in certain areas in this European alliance. This Awareness indicates that these appear to be of a relatively minor nature, over disagreements in terms of political and economic differences.

This Awareness indicates there appear to be that which is continued destabilization of the Arc of Crisis, that area surrounding the nation of Russia, particularly among its satellites. This Awareness indicates that areas in the Middle East also appear to be coming under increased uncertainty and that heads of state in these

SOMETHING TO THINK ABOUT

"Permit me to issue and control the nation's money, and I care NOT who makes its laws."

---Mayer Anselm Rothschild

areas will be forced to change. This Awareness indicates this appears to be particularly in reference to Israel, Iran and one other. This Awareness indicates there also appears to be certain conflict areas in the other nations in this area, particularly Greece, and Turkey. There also being seen some further problems associated with India and Pakistan, --this at a later period of this year. This Awareness indicates that the forces within the United States, associated with military concerns as that which will continue to be volatile.

THE ECONOMY

This Awareness indicates that in terms of the economics, and that which is occurring throughout the remainder of this year, that the so-called 'recovery' from the recession is not seen by this Awareness until approximately December, when some improvement is likely. This Awareness indicates that this also may be of a temporary nature; for but a few months. This Awareness indicates that the prolonged difficulties of the economic nature, begin to wear on resources of both individuals and companies, creating many bankruptcies and increased problems along with the deficits associated with government and a lack of revenue due to a lack of taxes which are not paid, due to a lack of earning from individuals. This Awareness indicates this as having a spiraling effect of dragging the economy at a snail's pace, so that recovery is not likely to be as indicated by many of the government's statements and indicators.

This Awareness suggests that however, it does not appear to drop much further, as far as the difficulties and unemployment levels are concerned. This Awareness indicates the crises appear to be relatively stable throughout the rest of the year, with some potential drop in crises and some areas wherein improvement will be seen. This Awareness indicates that essentially, however, entities in general will see little change throughout the rest of this year, until late November or December; this in reference to the economy.

INTERNATIONAL TURBULENCE TO CONTINUE

This Awareness indicates there appears to be continued turbulence in consciousness regarding the conflict of interest in areas of military and political concerns; that particularly South America as that which will continue to be volatile; the Middle East and certain areas of Europe. This Awareness indicates also the areas of the Philippines, Taiwan, China, --may likewise see some intensities in relation to political conflicts.

This Awareness indicates that the great question which entities must all be concerned about, is in regard to the superpowers, and their continued mistrust of each other, and that which needs to be brought into harmony. This Awareness indicates that there will be discussions, negotiations, and yet, even with these negotiations and discussions, many of the energies involved will be such that continued distrust and subterfuge will prevail, creating a continued sense of insecurity throughout the world.

QUESTION:

Awareness, quite a few of the members have taken the Awareness's advice in the past and invested in the precious metals. We've been getting a few letters by some of these entities who are getting worried, now that the prices of these metals have been depressed lately, and many of the newsletters are saying that gold and silver particularly, are liable to go even lower, and there's little likelihood of prices ever going up again significantly for quite some time. Could Awareness comment on the precious metals in the near future.

COSMIC AWARENESS:

This Awareness indicates that so long as the recession created by these artificial effects continues, the price of these metals will remain somewhat low. This Awareness indicates however, that the high interest rates, continuing as they do, over a period of time is that which assists in keeping these actions and the inflation at its present level, so that the policies of the Reagan administration are relatively ineffective. This Awareness indicates the high interest rates remain high in part because the investors and those operating these interests do not in reality believe the efforts of the Reagan administration will be effective, except for a short duration.

This Awareness indicates that prior to the election in November of this year, there will be some form of compromise efforts to bring about an upswing in the economy in order to give the impression that the Reagan administration policies are now working favorably and that these policies are beginning to bring the economy out of its slump. This Awareness indicates however, that this also as being an artificial action, and that after the election and after the Christmas period, particularly approximately in the spring of next year, entities can begin again to expect further problems with the economy.

This Awareness indicates however, it appears that in the fall of '83, the brakes will be released, and the economy will again begin moving at a high speed. At this time, entities can expect inflation to again begin moving at a rapid pace, and the price of precious metals to rise. This Awareness indicates that the energies in regard to this as that which are subject to many different forces, depending on policies initiated by these many forces which are unstable, uncertain, and therefore not predictable in an absolute sense. This Awareness indicates that except for the manipulations involved in the previous election, and the takeover through those manipulations, the precious metals market would have, by this time, been extremely high in value, and the prices of gold, silver and platinum would have been at such levels as to have made it most difficult for entities to acquire.

This Awareness indicates that the tampering with the election process and the change that was brought about from that election, in terms of the economic activities is that which altered the course of the energies and brought about the present situation, as an artificial and somewhat temporary slowdown in the general flow of these energies. This Awareness indicates the trend in reference to metals is that they shall continue to move upward, so that this Awareness indicates it appears that

by 1985, these metals should be, (this particularly in reference to gold and platinum), should be approximately 8 to 10 times their present value.

NOW IS TIME TO BUY REAL ESTATE

This Awareness indicates however, that in the meantime, the metals appear to be at just about the lowest prices they will be at present. This Awareness indicates they may slip somewhat lower, later in this year, but it does not appear that this will be of any great significance. This Awareness indicates that if this does occur, it would be of interest to entities to purchase these metals during these times. This Awareness indicates also that for those who can afford the purchase of real estate during these times, that this is also an appropriate time for purchasing property, if this is not too strenuous on entities' budgets. This Awareness indicates that by the end of this decade, real estate and rent will be approximately 5 times its present value and cost.

IS A NEW GOLD-BACKED DOLLAR COMING?

(GAMBLERS---HERE'S A CHANCE TO MAKE MONEY)

QUESTION:

I'd like to read a little bit of an article. It was in Ben Barker's latest *Crisis Advisory* newsletter.* He says, "Last week a couple of very strange phone calls reached me. One took me with absolute finality that gold bullion had reached bottom at \$312 per ounce. The other said, with equal certainty, that a new currency will be issued in July, 1982. Since there are a lot of odd-ball bimboes in the gold and silver markets, I shrugged off the first call. The second call fascinated me however, so I asked the gentlemen on the other end of the line to put his views in writing. Here they are for your analysis.

"Dear Dr. Ben. The United States is about to go back to a gold-backed dollar. It is the only real salvation for our ravished economy. To obtain one new gold dollar, you'll probably have to trade in about 10 of the Federal Reserve notes that are in your wallet today. This is called repudiation, and occurs often after a nation has debased her currency badly.

It is done to establish faith in the new money. Of course, all prices, wages, bank accounts, mortgages etc., will be reduced at the same rate: 10 to 1. The new dollar will be gold backed, with the price of gold at about \$40 per ounce, new money, \$400 per ounce old; which explains the strange strength of gold at \$312.00 and up over the past few weeks. It will still be a paper but you'll be able to trade it at your bank for gold if you wish, just as your grandfather did. If wages and prices are reduced at the same rate, the repudiation won't mean much to you. The only people who won't like it will be those in the underground economy with thousands of hidden dollars each. Our vindictive, simplistic bureaucratic government will avenge itself upon them in one fell swoop.

Of course the big mobsters and drug dealers will already have laundered their cash into foreign currencies or bullion, and they won't be touched. Another beautiful scam on independent entrepreneurs. What can you do about this new scam?

Each and every one of you can go to the bank in the first week of May, 1982, with \$100 or so, to procure an equivalent amount of dimes or nickels or quarters or halves. You would start a run on the bank. Why?

Because the government does not have the facilities at present to debase the coinage, only the currency. Once the word is out, people will realize that ten dimes equals one old dollar, but also could equal one new dollar,--that is, they will appreciate by 10 times. "

And he goes on to say how you could make money by changing your paper money into coins to beat this ploy. Does Awareness see this as a probable scenario happening this summer, or perhaps later as this man outlined?

*The Crisis Advisory Newsletter, published 23 times a year. Subscription rate: \$80 per year. Ben Barker is a psychiatrist and a millionaire entrepreneur whose perceptive advice has created a huge following. He is also a mystic (but doesn't quite realize it yet). His financial advice has made many entities rich. Although he is down on the precious metals right now, C.A.C. recommends his newsletter, particularly to those entities who have large amounts of money invested or perhaps ready to invest. The address: Survival Publications, PO Box 134, Somis, Calif., 93066.

COSMIC AWARENESS:

This Awareness indicates that this as that which appears to be a valid scenario in regard to certain plans. This Awareness indicates however, that the certainty of the timing of this action is not clear. This Awareness indicates that this as that which appears to be a strong probability to occur within this year. This Awareness indicates this entity's information as that which may be accurate in terms of the timing, or may be somewhat off. This Awareness indicates there does not appear to be an absolute certainty in regard to the timing of this action. This Awareness suggests however, that there is a strong probability of the action occurring near that time, or shortly thereafter; this depending largely on international situations and the outcome of certain power struggles, which are also affecting all levels of human affairs upon this plane.

This Awareness indicates that entities could benefit from this advice, and take action in reference to this scenario. This Awareness indicates however, that there may be some delay in the release of the new money, depending on certain other forces of a political, economic, and international nature. This Awareness suggests that the probability as being approximately 60% that this entity's evaluation and information is correct in terms of the time, but that there is the possibility of a manipulation in reference to the timing of this action. There is also approximately a 20% possibility of a longer delay of this action. This Awareness indicates however, that entities wishing to gamble on odds would be favored by presuming that the odds favor this occurring as indicated.

WHY IS THE ROTHSCHILD FORTUNE LEAVING ENGLAND?

QUESTION:

In the March 19th U.S. edition of *Le Courier*, which is Europe's oldest and most reliable newsletter, there was a message released pertaining to the British branch of the Rothschilds. They allegedly have moved all of their assets, every dime, recently to a holding company in Switzerland. It has been conjectured that this precautionary move is in response to the prior nationalization of the French Rothschild bank in Paris. The head of the British branch of the family, however, has denied

--Baron Rothschild

any relationship of this move to the French situation. My question is, if this is true, what is the significance of this movement in relation to the United States and its economy, if any?

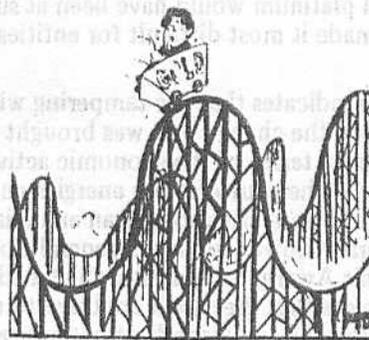

COSMIC AWARENESS:

This Awareness indicates that this appears to be an action taken in response to potential events associated with the planned confrontation between the United States and Russia, wherein Europe and England could also have been brought into the conflict. This Awareness indicates that the uncertainties as that which were being considered. This Awareness indicates that this appears to be a move which is a step, rather than a completion of the transfer of these assets. This Awareness indicates that this does not appear to be the completion of their plans in regard to the placement of these assets.

This Awareness indicates that there are other actions also associated with this family and its assets wherein many of these have been placed underground. This Awareness indicates that the action of using a neutral nation, such as Switzerland, which is traditionally neutral in all wars, as a place whereby those who manipulate the economies, create the wars, and maintain the power, may use as a shelter in the time of war, whereby those neutral countries become bases outside the arena of war, whereby a security is created so that the perpetrators may feel a relative safety during such times.

This Awareness indicates that in all circumstances wherein the banking system is involved in creating wars, those in the seat of power will reside in a neutral country with their greater assets in those neutral countries, or will reside in a country which will not be involved in the actual theater of war. This Awareness indicates that by this *It* refers not to the country's people, but the location. This Awareness indicates for example, during World War Two, many of the assets of these banking forces were located in the United States. Though the United States was involved in the conflict, the conflict did not ever significantly touch the shores of the United States, to threaten those powers which created the war, or which had assets in the United States, or to threaten those assets.

This Awareness indicates that for this reason, many of the forces of power will shift their assets prior to a war, and will move in or out of certain areas prior to a war, in order to be outside of the theater of war and be simply an observer of that which occurs.

MUTUAL CONCERN, NOT FORCE WILL
BRING HARMONY TO MANKIND

(Closing Message, C.A.C. General Reading No. 6)
May 20, 1982

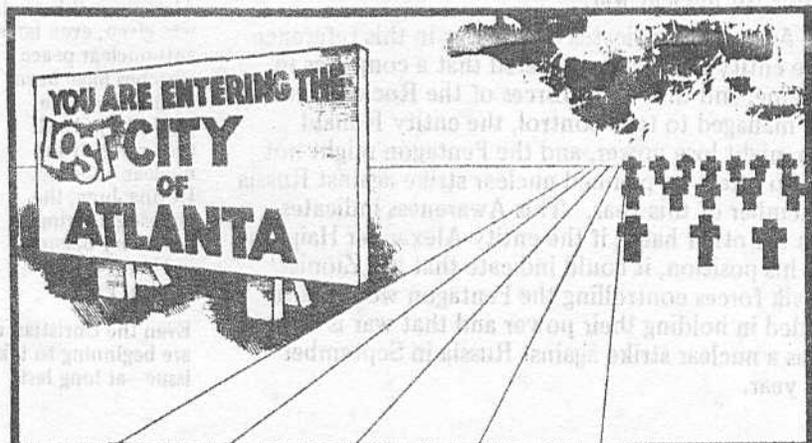

COSMIC AWARENESS:

This Awareness indicates that the conflicts which are characteristic of this plane are those which have long expressed themselves down through the history of mankind, and these conflicts, while continuing at this time to assert themselves, are also becoming so obvious in their nature; and the obvious is that which carries with it a growing realization that force does not in itself assure control of a people. This Awareness indicates that force in any situation at present-time, may be seen as an effort by some power to place controls upon a people, to subjugate those people; but wherein entities look closely, they will see that the force is not very effective in doing what it is supposed to do.

This Awareness indicates that looking at Poland, entities can see that the force placed upon the people is having great repercussions upon the government. This Awareness indicates that force placed upon those people by the governments in South America are also not having the desired effect, and the people tend to turn against their government, and wherein the forces are successful, the power must be maintained at great expense in order to keep the peace. This Awareness indicates that as this becomes more and more obvious to entities it will bring about new concepts in dealing with people, so that more democratic methods, procedures and interests can be expressed with greater and greater effect, as a kind of mutual respect between the leaders of a people, and the people themselves, so that through a kind of mutual respect and communication, power becomes less important. Forces exerted against a people becomes more of a liability than a help, and the entities begin to recognize that mutual consideration and concern for mutual welfare of each other is that which brings harmony to all.

Don't walk in front of me--
I may not follow.
Don't walk behind me--
I may not lead.
Walk beside me--and just
be my friend.

ATLANTA ---

THE NIGHTMARE RETURNS

QUESTION:

Two months ago, authorities in Atlanta promised the citizens that the two year nightmare of missing and murdered black youths had ended. Awareness had given some information prior on this, that there was a conspiracy involved. In today's paper, they've announced that Atlanta is now frightened again, because it has been revealed that since 1980, at least 30 other deaths involving young black women have occurred, and this information was not released, and in the last month they've discovered the bodies of three more black women, all killed recently. There's common threads, including the fact that all come from lower income families, all died of stab wounds, and were stripped of some of their clothes, and all were found in vacant lots and alleys. I'd like to ask Awareness: Is this more of that plot that had been indicated earlier with the Atlanta murders of young men, tying it in with an experiment in mind control?

COSMIC AWARENESS:

This Awareness indicates that this in the affirmative. This Awareness indicates that the entity having been arrested previously as not seen as guilty of these crimes. That this entity shall in time be vindicated.

For more information on the Atlanta murders, please refer to 'Revelations of Awareness' No's 81-15 & 81-18; \$3.00 each from C.A.C.

AN OVERVIEW OF WHAT IS HAPPENING BEHIND THE SCENES IN WASHINGTON

...MORE ON WEINBERGER AND HAIG

(Excerpt from a C.A.C. General Reading)
April 10, 1982

QUESTION:

Awareness, with some of the recent releases by Dr. Beter on the changes in power behind the scene; it's very confusing as we watch these entities, as to exactly where they stand. I'm thinking specifically of the entity Casper Weinberger and Secretary of State Alexander Haig. It's almost like we are now to believe that Alexander Haig is one of the "good-guys". Could Awareness give a brief overview of the situation now, as to which entities to watch?

COSMIC AWARENESS:

This Awareness indicates that the simplistic term, the "good-guys" as that which is misleading and confusing. This Awareness indicates that the information released by Dr. Beter as in reference to the alignment of these forces; that the entity referred to, Casper Weinberger, as representing the Bolsheviks' interests, and representing those Bolshevik/Zionist forces which are essentially in control of the Pentagon. This Awareness indicates that the reference to Haig as that entity who is dominated essentially by the Rockefeller empire, or that which is left of the Rockefeller empire, or that which may be termed the multinational corporations which are under the domination of that Rockefeller empire.

This Awareness indicates that when the entity Ronald Reagan was put into power, this entity was under the control of the Rockefeller empire, but at present, is a puppet of the American Bolshevik and Zionist forces. The entity as being basically a puppet to whoever has greatest control of him. This Awareness indicates that in the message of Dr. Beter, in reference to the recent shift in alliances, he indicated that the Skoptsis and the Rockefeller forces had a semi-agreement or truce, whereby they would not harm each other, but whereby they would not necessarily become allies, but would both work to overthrow the power of the Bolshevik/Zionist forces in control of the Pentagon, which is pushing for nuclear war.

This Awareness indicates that it was in this reference that the entity Dr. Beter suggested that a coup was in the making, and that if the forces of the Rockefeller empire managed to take control, the entity Ronald Reagan might lose power, and the Pentagon might not be able to effect its planned nuclear strike against Russia in September of this year. This Awareness indicates that on the other hand, if the entity Alexander Haig was to lose his position, it could indicate that the Zionist/Bolshevik forces controlling the Pentagon would have succeeded in holding their power and that war is more likely as a nuclear strike against Russia in September of this year.

This Awareness indicates that essentially, this was the recent message of the entity Dr. Beter in a very brief summary, and this Awareness indicates that the information as still accurate, except that another force is now in the movement, affecting the combined energies of both the Rockefeller forces and the Bolshevik forces. This is moving through the masses, through the people of the world, and is having its effect on the very foundation of power; so that those who are in power are beginning to feel, and will continue to feel the threat of disturbing the sleeping masses.

This Awareness indicates that this in part is due to the press,--both television and newspaper,--which are ultimately controlled to a large degree by the Rockefeller empire, which in many instances has begun to have its effect in arousing the public into thinking and recognizing the futility of the direction in which the Bolshevik Pentagon forces have been moving. This Awareness indicates that this is creating the stage and atmosphere, whereby a coup *could* occur that would put a stop to the suicidal madness of the nuclear planned strike for September.

This Awareness indicates that the actions of yesterday, wherein certain energies were realigned and 'the plug was pulled;' this action which occurred on the Inner Planes as that which has assisted and triggered consciousness in such a manner that many entities poured into the streets today to support the planned rallies. This Awareness indicates that the guidance factors for influencing these many entities as that which came from Inner Plane sources. This Awareness indicates that had this not occurred as it did yesterday, the turn-out for these actions would have been much smaller. This Awareness indicates this in reference to the many peace marches, anti-nuclear war marches, anti-NATO marches which occurred in Europe and in the United States.*

*Awareness is referring to the address Lee Michaels made to the universe, wherein he addressed the Hierarchy structure informing them that the jig was up, that the contracts and agreements made eons ago, have not been kept and for this reason must be immediately corrected if nuclear war on this plane is to be prevented. Please refer to 'Revelations of Awareness' No. 82-10 (The Eve of Destruction); \$4.00 from C.A.C. Since this address, Awareness has also indicated that the planned nuclear strike against Russia, scheduled for September of 1982, has been set back and in all probability will never occur.

Also, since this reading was given, even larger anti-nuclear peace marches have been held all over the world to protest the ever-growing nuclear build up. During June, the largest gathering in history occurred in New York's Central Park.

Even the Christian churches are beginning to take on this issue--at long last!
