Cosmic Awareness Communications

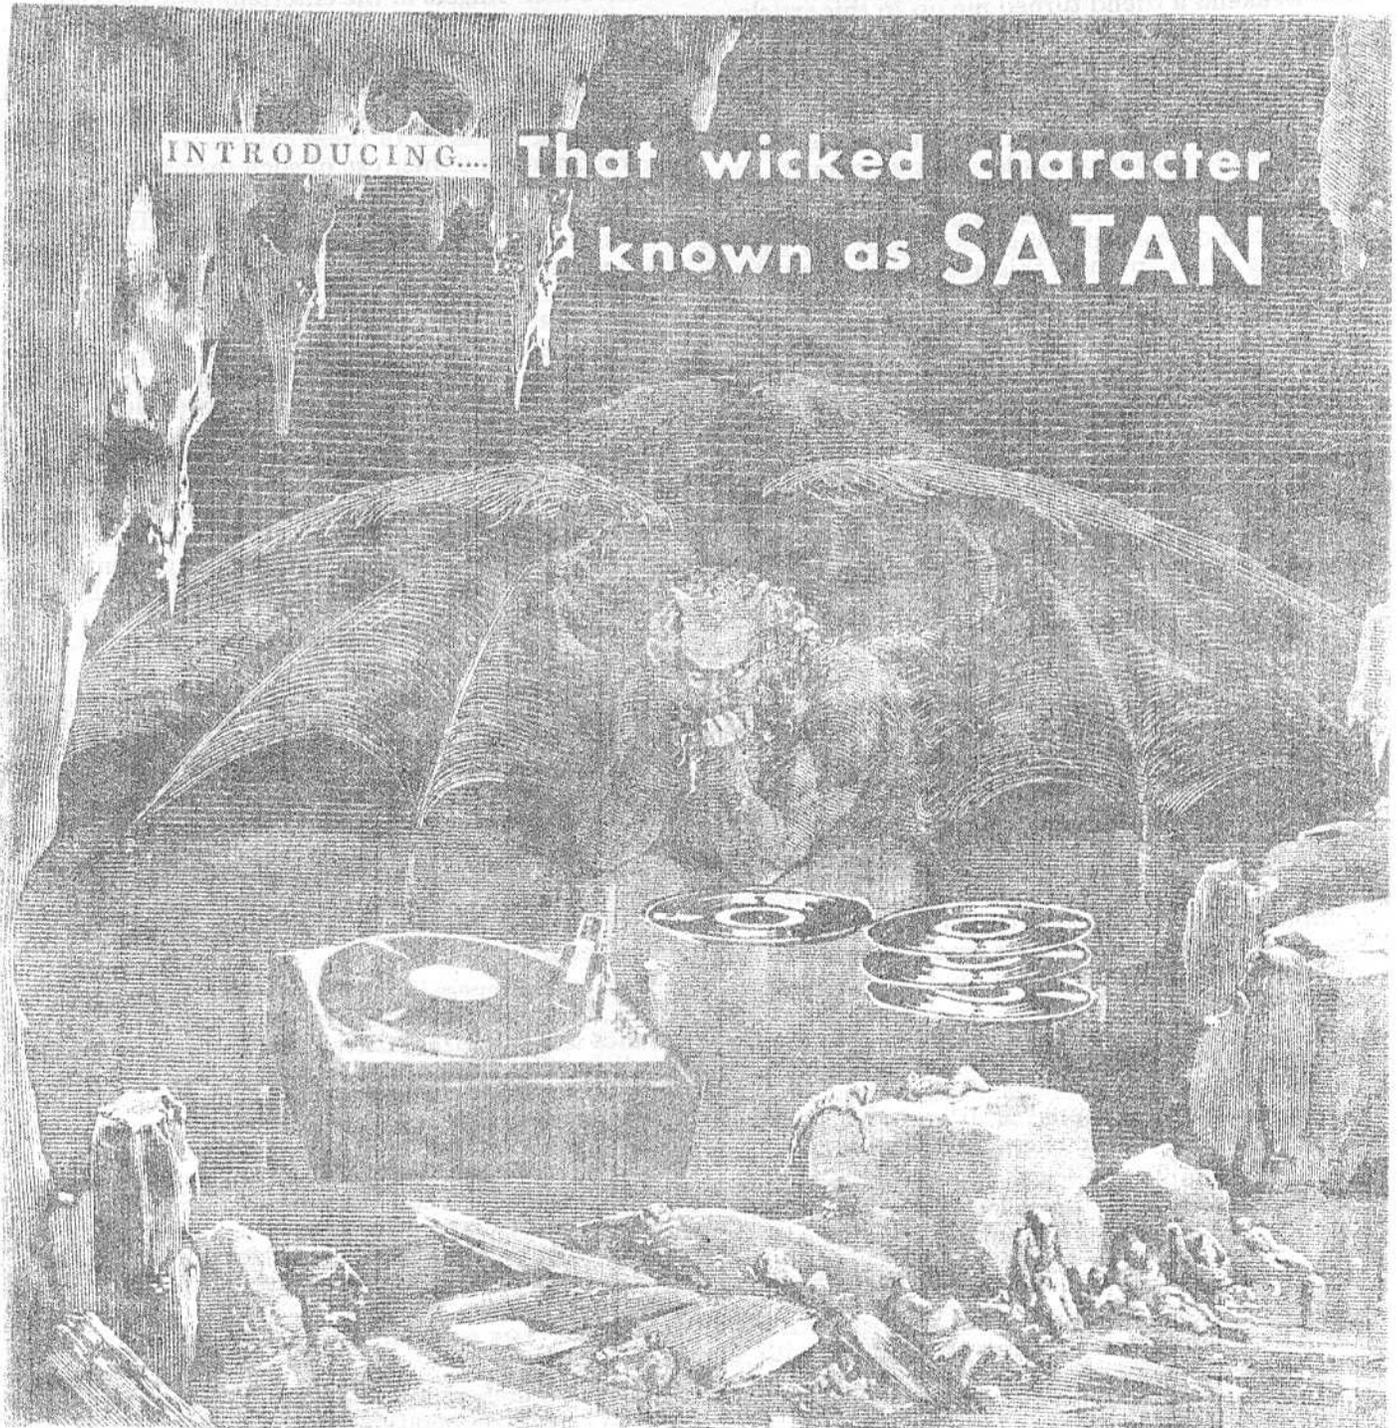

P. O. Box 115, Olympia, Washington 98507

(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

INTRODUCING...

That wicked character known as SATAN

Part I SATANISM & ITS RELATION TO CHRISTIANITY

Paul Shockley
Interpreter

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that these readings be read aloud.

.....THE PHILOSOPHY OF SATANISM

DOES SATAN PERMEATE ROCK & ROLL ?

(MORE ON SUBLIMINAL PROGRAMMING)

(From a C.A.C. General Reading, April 10, 1982)

QUESTION:

R.B., of Bakersville, N.C., sent in a question: "This past weekend a friend turned me on to this article, (a copy of which is enclosed), indicating satanic messages have been printed on recordings, but can only be heard when the record is played backwards. Well, I grew up with Led Zeppelin. I know they're into the occult and what-not. I went home and made some tapes to turn backwards, and sure enough, in *Stairway to Heaven* it's like the article says. They're not exactly garbled, but clear enough, and they're not peace and love types of groups either. It's slightly disturbing when you hear this material." And he'd like to ask Awareness if this is more than chance, if it is deliberate, is it merely hype to sell more records, or is it done to subliminally influence performers, and if it isn't only hype and is being done to influence people and strengthen satanic Dark Forces types of energy.

Now a relative of mine told me about this several months ago, and also brought over some tapes from a lecture he attended at his church, where some of these songs mentioned in this article were played, first forward and then backward. He taped this lecture and gave us copies, and sure enough there was indeed certain lines and phrases in these songs which reflect Satanism. For example, in Led Zeppelin's famous song, *Stairway to Heaven*, wherein the lyrics say "Is there a bustle in your hedgerow, it's just a spring-clean for the May Queen" ---when this is played backwards, you can clearly hear the words "Here's to my sweet Satan; there's power in Satan."

This technique is called back-tape masking, wherein a separate track is made in reverse, with a subliminal message. This lecturer contends that although it is scrambled, the subconscious will put it into your memory banks in correct order, and this in turn will program you to stray from the Path and follow Satan's course.

Another example he showed was the *Electric Light Orchestra* in a song called *El Dorado*. Played backwards you could hear the lines: "Christ, you are the nasty one. You are infernal. It's said we are the dead men. All those who have the mark will live."

In another example given, a rock group called Black Oak Arkansas, in an album called *Raunch and Roll* used the reverse-word technique in a song called *When Electricity Comes to Arkansas*: "Natas, Natas, Natas, Satan, Satan, Satan. He is God, He is God."

Now they also claim that the groups pray over the master discs before these records are pressed, with the request that demons go into these, and that with each playing, the demons will come out in the individual records in the homes of the buyers.

Awareness has given information on rock groups in relation to sexual material and bizarre material, but it didn't go, at the time, into the subliminal information that suggests Satanism. Would it now look at this, please?

This Awareness indicates that there are a number of groups who are involved in Satanism, or whose members are sometimes involved in Satanism. This Awareness indicates that these entities tend to be influenced by certain forces in the circuit, (the musicians' and show business circuit), under contract and under control of certain forces whose influence tends to affect some entities, particularly among those Punk Rock and some of the Hard Rock groups. This Awareness indicates that the Dark Forces do have their fingers in the entertainment field and within these areas there are entities who are into the concept of Satanic worship.

This Awareness indicates that this particular concept of Satanism is that which in order to understand the behavior of these entities involved in music and drama and their use of such forms of witchcraft and demonic symbolism and ritual in their music and in their themes and performances: This Awareness indicates that to understand this, it is necessary to understand the philosophy which these entities have *bought*, and why they have become tools for these forces.

This Awareness indicates also, it is important to recognize that not only are these forces operating through the musician and record expressions, through theatre and drama and magazines, but also these forces are working through other means in a subliminal type of operation. This Awareness indicates there are still subliminal messages released in certain movies and television shows, also in advertisement, in pictures and in messages and music presented in advertisements, both over the air and in the live performances.

This Awareness indicates however, these effects are not as potent as many entities fear, and this Awareness indicates also these subliminal messages are even used in certain so-called 'Christian broadcasts.' This Awareness indicates however, that these subliminal actions are not as effective as entities are led to believe. This Awareness indicates that the greater effect is that which becomes a conscious action upon an entity's life by the manipulations which occur in a society whereby the entity is put in jeopardy, the security threatened, and the entity forced or coerced to go along, or lose his or her security.

This Awareness indicates however, these subliminal actions do have some effect. This Awareness indicates that the effect takes place more upon those entities who are especially susceptible to looking for some activity which is repugnant and revolutionary, or rebellious in nature, whereby the entity seeking to rebel against family or tradition of his past, may be inclined already to seek out some other avenue of expression and the subliminal messages may be more effective in this type of consciousness than the entity who has a strong background and is relatively satisfied with his home-life and family.

THE PHILOSOPHY OF SATANISM

This Awareness indicates that in order to understand how this operations works, entities must also recognize the philosophy which leads entities into accepting or believing in the concept of Satan. This Awareness indicates that the Satanic philosophy is that the entity claiming to be God of the Judeo-Christian philosophy, the Jewish god Jehovah, as having been a false god, and that Christ was misled,

and was a cooperative of this philosophy, and that essentially, these two being,--the god of the Jews or Hebrews, and the Son of God as Jesus the Christ, --were in reality, creations of a false God, a creation of a false God by the Hebrews and the followers of the Hebrew influence.

This Awareness indicates that these entities,--the Satanists,--teach that Satan or Natas, was the true God of the universe, and has been slandered and falsely blamed for all of the ills of the world, and that he, as the True Creator, having taken on all of the hostility and karma of the universe, awaits for these false forces to play out their roles, their games, when at that time he will again be redeemed and recognized as the true creator of the universe. This Awareness indicates this essentially is a rough concept or synthesis of the Satanic philosophy.

This Awareness indicates that this philosophy also includes the belief that those who align themselves with Natas, or Satan, will have greater power over others. This Awareness indicates that these entities often in meeting places, meditate and pray to Natas or Satan, that the energy enter into them and give them the power which they need in order to create the world powers which will redeem the forces of Satan. This Awareness indicates that this unusual philosophic belief or concept of Satanism reaches back into Greek mythology and uses the entity known as Pan, a horned mythological character, having horns and the feet of a goat, half man, half goat.

THE GREEK GOD 'PAN' CONNECTION (PANTHEISM EXPLAINED)

This Awareness indicates that essentially, in Greek mythology, Pan was a maker of music who charmed all the beasts of the field, and this entity represents in Greek mythology, a sense of harmony with the environment. This Awareness indicates the concept or term 'Pantheism', which is in essence the belief that God permeates the universe, is that which was derived from the Greek mythological character known as Pan. This Awareness indicates that Satan, or the present day Satanism, uses the half goat, half man character known as Pan as a kind of symbol for Satan. This Awareness indicates this as being somewhat unfair to the Greeks, for the original meaning of Pan and his actions is not in any way connected with the concept or philosophy of Satanism.

HOW SATAN' BEGAN--(MORE ON THE RENAISSANCE)

This Awareness indicates however, that in present time the Satanists, using this concept, have developed a great symbol which, including this horned creature as part of their imagery, does have strong connotations among the masses when thinking in terms of Satanism. This Awareness indicates also, that although many entities of present time do not fully realize the origins of the so-called Satanism, this Awareness indicates that the modern-day personification of Satan actually began to grow in its present form during the Dark Ages, (this may be termed the Middle Ages), and that period wherein entities began to attribute all sorts of superstitious concepts to different types of images and legends.

This Awareness indicates that just prior to the Renaissance, there were certain secret schools which were still somehow involved in passing down Greek and Roman philosophies, writings, manuscripts and material. These eventually assisted in creating the Renaissance, whereby the works of the Ancients

were brought to light and allowed the artistic flourishing of entities such as Moliere, Shakespeare, Johnson, Marlowe, Milton and others. This Awareness indicates however, just prior to this time there were, within monestaries and churches, priests who were studying many of these ancient manuscripts from Greece.

This Awareness indicates that the concept of Satanism as that which in the artistic drawings and writings of many of these priests, borrowed from the Greek myths, and Pan became a drawing which was used to personify the concept of Satan. This Awareness indicates that even further back, if entities wish to trace this creation, it can be seen that the Egyptian gods Horus and Set, the two twins which represent Saturn or Set, and Mercury or Horus, as the Egyptian names for planets and their influences. This Awareness indicates that the Egyptians naming their gods after the planets, wherein Ra represents the sun, and Isis the moon, Horus was Mercury, and Set was Saturn. This Awareness indicates that Anubis as having been Pluto.*

* These characters are explained in the book, 'The Egyptian Book of the Dead', by Budge, a book required for those who take the Cosmic Awareness Development Classes.

This Awareness indicates that in the Egyptian philosophies, the Light Gods and the Dark Gods, the Gods of Light and Dark Forces, were not at all considered as forces of good and evil, but rather as malevolent or restrictive forces, or benevolent or freeing forces. This Awareness indicates that Set was seen as a task master, one who created difficulties and made things hard, creating difficulties and restrictions that caused entities to grow and develop greater and deeper qualities within themselves in order to overcome the hardships which Set created.

This Awareness indicates that the planet Saturn as being the astrological origin, or the force which in astrological influences, creates restrictions on an entity causing the entity to be forced into dealing with certain energies which require great responsibility, and if the entity is not responsible for those energies, the entity will suffer hardships. This Awareness indicates that this entity Saturn is the entity or energy which in time became associated with the personified creation known as Satan. This Awareness indicates that this essentially, is a necessary part of the structure of a strong restrictive religious expression: that in order for a religion to be strong, it must have a force over which it must prevail.

This Awareness indicates that it is part of the formula of drama that a protagonist must have an antagonist which is almost as strong as the protagonist, otherwise, the protagonist does not grow and develop, nor is there any reasonable or worthwhile drama in the life of the protagonist. This Awareness indicates that the religions which have come down, in all instances have a protagonist or example for which entities may follow, and an antagonist,--one who is in opposition to that heroic personality.

This Awareness indicates that this also is in nearly all literature and in legends of heroics. This Awareness indicates that oftentimes the antagonist is not a persona, or personified being, but may be a mass of beings, or some natural force, or some condition which the entity must overcome. This Awareness indicates that thus the creation of that character known as Satan, as having been a force which gave strength to Christianity, allowing Christianity to become even stronger, as Satan became even stronger. That the stronger the antagonist, the stronger the protagonist must become.

This Awareness indicates that in this sense, many of the hidden forces which seek to increase the controls upon entities, find it necessary to reinforce the devil's position, or Satan's position in the Christian religion, making this entity stronger so that they themselves can have greater rallying force, in order to overcome this force of darkness. This Awareness indicates that also, the strengthening of the entity created known as Satan being strengthened by Christian publishing companies, through books such as *Satan Is Alive on Planet Earth*, and other similar works wherein the entity Satan is given great energy, this helps to create greater controls and restrictions upon the Christians. This Awareness indicates this also strengthens them in their faith and determination to overcome this powerful enemy.

This Awareness indicates it also creates paranoia and fear and self-searching and the need to bond together and reinforce each other. This Awareness indicates that apart from this aspect of the creation of Satan and the energizing and polarization of this entity by those monks and priests of the Middle Ages and thereafter, this Awareness wishes to discuss the present phenomena known as Satanism, wherein entities begin to energize the energies which are energies which are associated with this concept of Satan, and wherein entities seek to have closer ties and communication with this energy which has been created.

This Awareness indicates that essentially, the qualities of Satanism and its creation may be understood as similar to that which this Awareness suggested sometime back, whereby entities were capable of creating energy fields which took on personalities. This Awareness indicates that an experiment was held in a university by students who, using a Ouija board, contacted various personalities and allowed these personalities to express themselves, (these from the spirit world), and to describe themselves, and in this manner the students were able to determine certain personality factors of these spirits.

This Awareness indicates as part of an experiment, these students then mentally created a fictional character, just as one would create a character for a book, and gave this character a name, and began using the Ouija board in an effort to communicate with this fictional character. This Awareness indicates that the entity *did* take form as a personality and communicated with the students, using the exact personality which they had created for this entity, and over a period of time did not vary in his personality. This Awareness indicates that this example as given to indicate how entities may create energy fields from their own expectations and definitions.

This Awareness indicates that *It* once gave members of C.A.C. an experiment, suggesting that you create an entity known as Saint Twinkle. This Awareness described qualities of this entity, and suggested that the entity be energized, and this Awareness indicates that many entities did so energize this character. This Awareness indicates that there were entities who received certain responsive energies from Saint Twinkle and felt that they were blessed by this fictional character who had been created out of thin air.*

*If you would like to help energize St. Twinkle, C.A.C. will send you a life-size St. Twinkle button for a \$1.00 donation. It's just like the above, but printed in black on a bright yellow background. For more information on St. Twinkle, please refer to 'Revelations of Awareness' No. 81-18 (The birth of St. Twinkle); \$3.00; also No. 81-18; \$3.00 from C.A.C.

This Awareness indicates also, wherein entities have a preconceived notion of what Satan is, and wherein entities energize these notions, and reinforce each other's notions of Satan, and redefine, over and over, concepts associated with this entity known as Satan, the entity grows in strength. This Awareness indicates likewise, any entity who believes himself to be possessed by some force, and continue to reinforce that belief, will strengthen that possession.

This Awareness indicates the definition associated with Satan is that which reinforces concepts of material wealth and power through the worship of this entity, and power over others. This Awareness indicates it is *this* aspect which is most dangerous to entities. That the aspect of the name, the aspect of the existence of such a being, and the aspect of following such a being known as Pan or Satan, this is not nearly so dangerous as the attribution of power to this entity, whether the entity is real or imagined, because that which is imagined eventually becomes a reality to the entity so believing, and the attribution of a belief that in worshipping this entity one will gain materially, -material wealth and power over others.

This Awareness indicates that it does not matter whether an entity calls this creation Satan, and follows this creation, or whether the entity follows some creation called Gobbledegook, and believes that Gobbledegook will give them power over others, and will give them material wealth whereby they may have all that they need for this material life, to give them the pleasure they desire. Either way, if either concept is enforced enough by the individual, and enforced and added too, and energized by others, either of these characters, Gobbledegook, or Satan, would be equally dangerous.

THE MIND CONTROLLERS -- THE NATAS

This Awareness indicates that there is one other aspect of this condition which needs to be examined further. This Awareness indicates this as associated with that force known as Natas. This Awareness indicates that these entities known as Natas, are energies which have come from deep in space, a great distance from this planet, and are of the nature that desires material power and control over minds. This Awareness indicates that these energies operate from certain fields of force which are harmonic to their own energies, and therefore these entities identify with those associated with the concept of Satan, and Saturn.

This Awareness indicates the energy fields which Saturn as a planet creates, are also energy fields and effects which the Natas can best identify with, and therefore the Natas, identifying with the difficulties and hardships created by the influence of Saturn, tend to harmonize with these energies, and gravitate together with those energies of entities who seek power and control over others. This Awareness indicates there is a harmony of these forces, this as associated with the concept of : *Like forces attract*. This Awareness indicates you have heard that opposites attract. This is particularly true in areas associated with physics on the physical plane. This Awareness indicates on the psychic plane, like forces tend to attract each other.

This Awareness indicates the Natas as not actually known as Natas in other realms, but as having chosen this name in this area in order to bind or create a bond with the Saytan, or Satanic energies. This Awareness indicates there are many entities on this physical plane who have come from Natas, walking around in human bodies who are living perfectly normal, respectable lives, without having any realization of their source, nor having any desire to do anything of an evil nature. This Awareness indicates however, these entities do have inclinations to dominate others, and these entities are often somewhat restrictive of themselves and of others.

This Awareness indicates that this does not imply that entities from Natas are inherently evil, *It* rather implies that the *energies* from Natas tend to gravitate to those philosophies which adhere to, and promote

concepts associated with Satan. This Awareness indicates that wherein disembodied spirits of a nature associated with the Natas can become bound to, or gravitate to entities who are aligned with Satanic concepts, these disembodied Natas energies often will enter into an open being and the entity may believe he or she is possessed by a devil. This Awareness indicates the energy of this disincarnated being may in fact be somewhat mad, insane or demented, and this adds to the fuel, or belief of this entity as being a devil.

This Awareness indicates that the disincarnated spirits who enter into the bodies of those who are not desirous of such possession, may actually engage in battle for possession of the body. This Awareness indicates there are also those who pray for the devil to enter into them, and these entities are open to possession by such disembodied Natas-like energies, and therefore, when these energies enter and share the body with the entity, this can create a sense of power, even though it in the end, is of great damage to the entity and to others.

A TRUE CHRISTIAN MAKES LOVE, NOT WAR ("Kill another Commie for Christ")

This Awareness indicates that the desire for the power over others is the opposite of love. This Awareness indicates that entities who on the other hand visualize a force known as Christ, and visualize that force as being one based on love, promoting love, willing to sacrifice oneself in order to promote love, and that force as being Light: those entities, when praying that Christ come into their lives, those entities will experience the light and the love and the feeling of joy associated with their expectations. Those entities would not seek power over others.

This Awareness indicates however, even the entities who refer to themselves as Christians can become somewhat distorted in their roles, and believe that it is their righteous duty to persecute, to burn at the stake, to attack, to slay those who are enemies of Christ. This Awareness indicates that the Christ did not take up arms, and asked the entity Peter to lay down his sword when Peter attempted to defend the entity; therefore, the Christ does not ask that Christians take up their arms against others in order to promote love.

This Awareness indicates that the proper approach for Christians, rather than through condemnation, judgment and hostility and violence toward others, is through proper example and teaching and sharing the joy which they experience as being one with the Christ Light and the pleasure of being a loving person.

This Awareness indicates in reference to the concept of praying over records as they are pressed, praying that a demon may be placed into the record, this Awareness indicates this as a form of black magic, whereby the energy field of the record becomes charged with an energy that is supposed to have its effect upon the public. This Awareness indicates that this as the opposite, yet quite the same, as the minister who sells a prayer cloth which has been prayed over in the name of Jesus.

This Awareness indicates that entities who are susceptible to these energies *could* be somewhat influenced, either by the prayer cloth, or by the record and its energy field. This Awareness indicates however, the possibility of shielding entities from any form of Dark Force is that which is questionable. This Awareness indicates that it appears that all entities will come in contact with forces which are not of the highest, and it is this which becomes essential for entities in determining how to discern one thing from another.

LISTENING TO PROGRAMMED RECORDS WHILE UNDER INFLUENCE OF DRUGS

QUESTION:

Awareness, when a teenager, for example, who is using drugs such as marijuana or LSD and listening to these particular records with subliminal suggestions of Satanism, would they be more likely to be influenced than someone who is not on the drugs?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness indicates that such an entity, particularly if the entity is already somewhat hostile to his or her parents and to his or her traditional background. This Awareness indicates in other words, if the entity is emotionally rebellious toward that which has been the roots, background and environment under which the entity was raised, then the entity will be searching for something else, and the entity will be open to involvement in energies which satisfy and are harmonious to his sense of rebellion.

This Awareness indicates that in this manner, the entity may be more susceptible to those subliminal influences. This Awareness indicates the entity also may be more susceptible to other influences of an overt nature,--those influences of friends or street gangs or other persons who would lead the entity into anti-social behavior. This Awareness indicates that the danger of these forms of music for this entity is that the messages are hidden, and the entity may be caught into the energy-field without realizing what is occurring, and therefore, in later times may be influenced without consciously recognizing where the influence came from.

THE SUBTLE PROMOTION OF THE MARK OF THE BEAST

This Awareness indicates that these subliminal energies are not limited to music, records or to young people. This Awareness indicates that even as this is occurring, the number 666 is being promoted throughout the world. This Awareness indicates there are clothing manufacturers in China, in Hong Kong, in Europe, in Italy in various places, in Israel, who use this number as part of their labeling of clothing. There are, in Israel, efforts to condition the masses to the use of the number 666. This Awareness indicates that all Arab-owned buses in Israel as having this number on their license plates. This Awareness indicates that the U.S. Postal Service and other government agencies often use a symbol which holds certain

semi-disguised versions of the 666, so that they do not appear obvious, but nevertheless are there.

This Awareness indicates that this number as that which is slowly, insidiously being introduced. That the J.C. Penney Company as using this number on many of its credit cards. This Awareness indicates that this number being introduced also on the Universal Products Code, in its code, but not in the number system beneath. This Awareness indicates the code lines are such that although they contain the symbol for the 666, the numbers beneath are not present to indicate what the codes means.

Figure 1

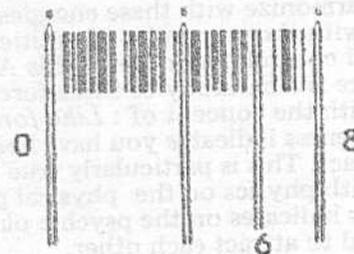

All "Marks" (Bars) in this basic UPC Symbol are identified by numbers at the bottom, except three sets of "two uniform Bars" which appear identical to 6.

Figure 2

The only "Marks" always unidentified by Numbers are shown isolated in positions 1, 2, and 3.

Figure 3

A visual inspection of the three always unidentified Bars compared to the Bar UPC identifies as "6" isolated.

WORLD ID TRANSACTION CARD

AREA CODE SOCIAL SECURITY NUMBER

Phase 3 in the development of the Universal Product Code is the addition of the letters "F" and "H"—forehead and hand?

"666" has emerged in China as evidenced by the label of this shirt sold through a jobber in Hong Kong.

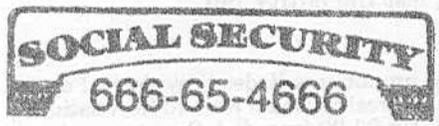

Shoes produced in Italy display this label depicting the "666" system in the Common Market Community.

A section of floor tile manufactured in America displays an identification prefix of "666."

Israel's national lottery tickets and advertisements now feature the number "666".

Is not your Social Security Number the number of your name?

Since 1973, Israel has required a "666" license plate prefix for all Arab-owned vehicles.

An increasing number of vehicle license plates in Virginia, Maryland and the District of Columbia now carry a "666" prefix.

B.F. SKINNER'S BEHAVIORISTS EXPERIMENT .MORE ON RAISING CHILDREN & SUICIDE

This Awareness indicates that even as the entity B.F. Skinner, in placing his daughter in a box to shield her from outside forces and hostile environments, believing he could raise her to be a more perfect being, even though this entity, this behaviorist scientist discovered too late his error, for his daughter eventually committed suicide, because when released from the box she was unable to cope. This Awareness indicates that even as this occurred with this entity, likewise entities who seek to shelter their children to such a degree as to totally isolate them from an influence of these outside forces, these entities will only discover that in time, the children become even more susceptible to those forces than if they had lived their lives walking through the jungle of various Dark Forces with the proper guidance and love of their parents.

This Awareness indicates that as a child learns to live and move under the guidance of their parents, learning how to avoid the scorpion, how to avoid the spider, the snake, the rusty nail, the sharp knife, the hot stove, all of these physical threats, likewise the child being given proper guidance of love and character-guidance of social responsibility and of purpose and meaning in one's life, that child can learn to walk through energy fields which have certain amounts of Dark Force. This Awareness indicates the child can develop an immunity, or strength, similar to being inoculated against disease, whereby the child is not subject to being overtaken by symbolic or subliminal suggestions from music which he or she may hear.

This Awareness indicates however, it is still a good policy for parents to be aware of these forms of music, and of these Dark Forces and their messages, so that your child does not become over-involved and wallowing in such, before the child is capable of discernment, and before the child has strengthened and developed his own inner sense of purpose and awareness.

This Awareness indicates that some degree of contamination will occur to every child, and it is important that parents minimize that contamination at least until the child is capable of knowing the dangers associated with those forces.

ED's Note: The word Natas is the word Satan spelled backwards, and considerable information has been given by Awareness about these entities. Please refer to the reading, 'Revelations of Awareness' No. 79-18, (The Web of Conspiracy, Part 1);\$3.00; also No. 79-25, (The Web of Conspiracy, Part 2. The Secret of the UFOs);\$4.00 from C.A.C.

This Awareness indicates that this as another form of preparing the masses to accept the mark, as it is introduced by these forces. This Awareness indicates that it is important that entities become aware of the efforts of certain forces to influence through subliminal ways, the minds of people. This Awareness indicates that these subliminal attempts at gaining control of people's minds are but one method; that there are other forms of manipulation which also work toward that end. This Awareness indicates the obvious being manipulations associated with economy and threats of war.

ED's Note: For more information on the number 666, please refer to 'Revelations of Awareness', No. 79-1 (The Gathering Storm);\$4.00; 79-11 (The Mark of the Beast);\$2.00; 80-26 (The 'Hand Scan' Device);\$3.00.

HELL -- WHO'S IN CHARGE HERE? A COUNCIL, NOT THE DEVIL

QUESTION:

Awareness, if I recall correctly, in a reading regarding the Hell planes of the realm of Hades, Awareness indicated there was an entity in charge there known as the Devil. Is this entity the same as that entity referred to as Satan?

COSMIC AWARENESS:

This Awareness indicates that it is important to understand that names can be interchanged, and that energies can be reassigned to different beings for different purposes, at different times, according to the different ends which are desired by different forces. This Awareness indicates that it is also important to understand that the words which this Awareness gives to entities upon this planet are unique to this planet. That English is not spoken on other planets.

That earthian terms are seldom used in other parts of the universe. That earthian concepts are not held in the same details and likenesses as they are held here.

This Awareness indicates that when *It* attempts to explain realms such as Hades or Celestria, or the names of entities in these places, *It* uses terms and names which are close to symbolizing for the natives of the planet earth and their particular language patterns; *It* attempts to use words which best indicate the energies of that particular concept. This Awareness indicates that the entity who is essentially in charge in the realm of Hades is not by his own terminology, nor by the terms of others in that location, called the Devil. This Awareness indicates that this term as purely an earthian term. This Awareness indicates the entities in charge in the realm of Hades is in fact not even a single being, but rather a council, and the council is an energy field which this Awareness refers to as an entity.

This Awareness indicates also that the realm of Hades is not called Hades in all portions of consciousness, but is called Hades according to the language of the earthian English speaking people. This Awareness indicates that words are carriers of concepts, and wherein a concept needs to be conveyed to a person, if the person has a carrier for the concept, then that carrier, being familiar to the individual, is the carrier which should be used for carrying that concept.

This Awareness indicates that wherein there is no proper carrier for the concept, then a new word may be created. This Awareness indicates that even as the Natas are not known as Natas in other areas, they chose this name for Earthian purposes in order to allow themselves to be bonded to the energies of the Earthian myth of Satan. This Awareness indicates the word 'myth' used not to indicate that such forces associated with Satan do not exist, but rather that the force is what may be termed a force in consciousness, or a myth in human conception.

This Awareness indicates that myths are as real as toes, feet, knees, but have a different kind of influence and exist in a different manner than physical realities. This Awareness indicates that myths create influences, just as concepts hold energies, just as words convey concepts.

THE DANGERS OF STRAYING FROM THE STRAIGHT AND NARROW

(Closing Message)

This Awareness indicates that there is a danger of entities going to extremes in any direction. This Awareness indicates there is a danger in entities becoming too involved in the types of music that influence, such as through subliminal suggestions of a negative nature. There is also a danger in entities becoming so fearful and paranoid of everything, that they believe conspiracies exist in every action, or that they believe they must destroy all that is not familiar and compatible with their own philosophy. There is a danger in not allowing entities to have the freedom of thought and freedom of expression.

There is a danger of allowing oneself to have too much freedom of thought and too much freedom of expression, to the degree that one cannot restrain oneself when it becomes necessary. There is that which is the extreme, and that which is the moderate. This Awareness suggests that when walking the straight and narrow path between extremes, entities must learn their own capacity before they attempt to become reckless and before they begin exaggerating and going into extremes.

This Awareness suggests that once an entity is completely at ease on the razor's edge, on the straight and narrow, on the tightrope, or on the wire; once an entity is completely at ease, then the entity may venture slightly to the right, or slightly to the left, keeping his or her balance centered on the straight and narrow. This Awareness indicates that the entity may then explore these various areas of that which appears to be the Force of Darkness, and that which is the Force of Light, but the entity must ever and always remain perfectly balanced on the straight and narrow, never veering too far to the right, nor too far to the left, lest the entity fall.

ED's Note: Awareness pronounces Hades (Hay-dees). For more information on this realm, please refer to 'Revelations of Awareness' No. 78-19; \$2.00 from C.A.C.

For more information on rock and roll, please refer to the following issues:

EVIL AND ITS RELATION TO CHRISTIANITY

...THE PROBLEM OF THINKING IN DUALITIES

(Opening Message, the following reading)

This Awareness wishes to comment briefly on concepts associated with the previous reading. This Awareness indicates that entities in looking at the information of the previous reading, may begin to sense that in effect, the concept of evil and its energies has grown stronger because of certain actions in the Christian philosophy, which emphasized and strengthened the power of evil. This Awareness indicates that in one sense this is so, in another sense this is not so.

This Awareness indicates that even as the Christian philosophy in many levels tends to emphasize the growth and goodness of the human character, there are factions among the Christians whereby the negative aspects are emphasized more than the positive aspects. This Awareness indicates this is likened unto saying: "Christ is good, because Satan is evil." This Awareness indicates that the implications being that the more evil one can attribute to other forces than Christianity, then the better the Christianity aspects will appear.

This Awareness indicates that this is a form of dualistic thinking which is common among those entities whose evolvment has not fully developed beyond dualistic thinking, and that this particularly when applied to religious and philosophical thinking, can create many difficulties for many entities. This Awareness indicates it is not necessary that entities must have an evil in order to have a good, yet many entities believe this is an absolute necessity. This Awareness indicates that were it necessary to have opposition at all times, in all things, including the Universal Force, then there could never be any hope for peace, nor any moment of peace.

This Awareness indicates there can be differences without these differences being opposed to one another. This Awareness indicates that the sunshine does not feel good just because the rain feels bad. The sunshine feels good because the entity enjoys the

sunshine. This Awareness indicates however, many entities cannot think in terms of how good the sunshine feels without first thinking of how terrible the rain felt. This Awareness indicates that therefore, many entities' minds tend to work in duality thinking, and it is this duality which, when applied to religious philosophy, religious concepts, or even social programs, or to national philosophies, nationalistic philosophies, or to personal relationships, it is this duality which creates many problems that are completely unnecessary, and yet which seem unavoidable to the entity who thinks in dualities.

This Awareness indicates that when an entity believes that he or she can only love *this* person because he or she feels a hatred for others, or wherein the entity feels that since he now loves *this* person, he must dislike *that* person in order to be loyal, or wherein the entity feels that in order to be loyal to his mother, he must be disloyal to his father, or vice-versa; wherein the entity, in order to be loyal to one faction which is quarrelling with another faction, feels it is necessary to choose sides; this represents a kind of dualistic thinking.

THE BETTER WAY -- HOLISTIC THINKING ...WHAT IF JESUS SHOULD COME TO TOWN?

This Awareness indicates that wherein, however, on the other hand, the entity thinks in terms of seeing the totality of the experience, seeing these two entities in conflict, but not choosing sides, rather choosing to remain neutral, and assist the entities to find some form of reconciliation if possible, then this entity is thinking not in terms of dualistic terms, but in holistic terms.

This Awareness indicates that holistic thinking is that which is frightening to many Christians and to many entities in religions which are based on dualistic thinking. This Awareness indicates the Christian religion as based on dualistic thinking, as a battle between good and evil. This Awareness indicates that it is easier to manipulate entities into thinking and working with dualistic energies than to have entities move in a kind of holistic movement of consciousness which recognizes the differences and oppositions, but does not identify with these, but rather moves toward development of a unified field of energy, unified in the sense of oneness, wherein love can be shared and given toward all, regardless of their differences.

This Awareness indicates that Christians would do well to ask themselves: If Jesus were to appear upon earth at this time as a human being rather than as a Divine Force, having power to dispense with enemies of the Christians, but if Jesus were to appear as a being of love; would the Christian expect this entity to enter into a kind of battle between Good and Evil, thinking in terms of Christians versus pagans, Christians versus non-Christians, or would not the entity continue being an example of love, and being willing to communicate, even with those who are not necessarily of the highest development, but rather serving as an example, rather than as an accusing finger?

This Awareness indicates that obviously, the entity Jesus would retain his holistic approach to life, for it is that holiness that is the essence of the Christ, and it is the love which is included in that holiness that makes this entity the example for others. This Awareness indicates that therefore, wherein entities of the Christian faith degrade themselves by entering into those competitive and negative dualities of condemnation and of pointing the finger of accusation at others for not being good, but rather accusing these entities of being agents of the devil; this Awareness indicates that this extremism is that which is less than the highest ideal for the Christian philosophy and behavior.

This Awareness indicates that even so, those entities of the Christian philosophy who are not evolved above this level, still should be tolerated and understood by those who are more holistic in their understanding, so that the holistic entity does not also lower himself or herself to become similar in nature, pointing to the Christian as an example of one who is so fanatical that he is somewhat perverted and demented as a human being.

REGARDLESS OF RELIGIOUS PHILOSOPHY MANY ARE ON HIGH SPIRITUAL LEVELS ...(Some Christians are Demonic)

This Awareness wishes entities to recognize that regardless of what philosophy an entity may have, the entity *still* can be on any level of the spiritual evolutionary scale. Even with *that* philosophy, there can be those entities who are highly evolved spiritually, yet who live in foreign lands, who have not been acquainted or initiated into the Christian philosophy, yet these entities may be just as spiritual and just as loving, and just as tied in with the Christ-like forces as are those in the Western world who are associated with the High Divine Forces of Christianity.

This Awareness indicates there are also entities in the Christian world, and other parts of the world unassociated with Christianity, who can equally be just as demented and bestial, while still claiming their religion, and this is not an indication of the faulty religion, so much as an indication of the level of evolution which these entities may have reached. This Awareness indicates the efficiency of a religion is that which can measure how well the religion works in terms of its ability to speed up evolution of entities.

This Awareness indicates that in many ways the Christian religion is extremely effective in this action of speeding up spiritual evolution of entities. This Awareness indicates in other ways, certain aspects of the Christian religion can take an entity who is already somewhat spiritually evolved, and through its influence, can cause that entity to become less evolved, and to involve himself in actions in the name of Christ, which are in fact demonic in nature.

This Awareness indicates that wars fought in the name of Christ by certain forces which manipulate Christian concepts in order to gain power over individuals, then move those individuals into activities which Christ would not have approved of; this kind of manipulation is that which this Awareness indicates is contrary to the highest motives and purposes of a philosophy. This Awareness indicates that the problem being addressed in this dissertation is not whether one religion is better than another, but rather the problem is the evolutionary level, the spiritual evolution and its level of expression in individuals who may be in dualistic thinking patterns or may be in holistic thinking patterns, and the degree of that expression.

This Awareness indicates obviously, the more the entity assigns every incident to a dualistic evaluation, whether putting one spoon *this* way or *that* way is good or bad, is right or wrong, whether the entity has this or that action as right or wrong, where the entity is in continuous judgment of activities, behavior and movements, as being either right or wrong, and where this entity also drags in the Christian religion to document or to justify such judgment, which is somewhat common to many entities, this is an indication of an entity whose mind is in an extreme of dualistic thinking. This Awareness indicates that this may also be termed schizophrenia in one sense. This Awareness indicates that this extreme is not necessarily common to all Christians, for many Christians can become quite tolerant and loving and understanding, and forgiving, and can move into the state of consciousness which

recognizes and discerns differences without necessarily condemning the individuals involved in creating those differences, or the differences in opinion or behavior.

**"GOOD" AND "EVIL" ARE REPLACED BY
"APPROPRIATE" OR "INAPPROPRIATE"
WHEN ENTITIES EVOLVE SPIRITUALLY**

This Awareness indicates there can be holistic individuals, holistic thinkers and individuals within the Christian philosophy, but essentially the organized Christian religions have not in the past encouraged the holistic way of thinking, and rather encourage the dualistic way of thinking by setting the Christian follower in opposition to the world in a manner whereby the individual sees evil lurking behind every bush.

This Awareness indicates that as entities evolve, they will eventually reach that state of consciousness which recognizes that which is appropriate and harmonious, and that which is inappropriate and disharmonious, and this distinction will replace concepts of good and evil. This Awareness indicates that when entities begin to recognize that an action which is harmonious to all involved is *appropriate*, then it is no longer necessary to attempt to evaluate by some rule, whether it is good or whether it is evil; for so long as all entities involved receive harmony from the action, it is obviously good.

This Awareness indicates likewise, wherein an action harms one or more entities, it is obviously bad for that one or more entity. This Awareness indicates however, when an entity is thinking in terms of holistic viewing, or viewing the experience from a holistic viewpoint, the entity needs not assign words such as "good" or "bad". The entity rather feels that it is appropriate, or it is inappropriate. This Awareness also indicates that entities may continue using words such as "good" or "bad" if desired, but the true feeling is that an action is appropriate, or inappropriate, depending on whether all benefit, or whether some do not benefit.

This Awareness indicates on the lower level of the thinking pattern, wherein there is dualistic thinking, the concern about whether all benefit or whether some suffer is not so significant. The concern here is whether the action is good or bad, and if an entity must suffer in order that others may have the good, then it is justified, and the suffering entity may be classed as bad, or evil. This Awareness indicates this is associated with what may be termed "Holy Wars", wherein the "good" attempt to destroy the "bad" in the name of their "holy" cause.

This Awareness indicates that holy wars, self-righteousness and such actions leading to conflicts and to destruction or injury to others in the name of some self-righteous cause are always associated with dualistic thinking. This Awareness indicates that any entity who is thinking in terms of holistic concepts, cannot find within that holistic expression, the enjoyment of seeing any suffer in a situation, nor can such entity justify causing another to suffer.

HOW DID THE CHRISTIAN CHURCH GET SO NARROW-MINDED?

A LOOK AT CHRISTIANS FROM THE COSMIC VIEW

QUESTION:

Awareness, yesterday the Interpreter and I were discussing this very thing,—about where this narrow-mindedness actually originated in the Christian religion. I believe he indicated that in

the trance level he sees a very narrow-like tunnel which appears to represent the Christian church; and he was asking Lee Michaels if he could explain how this originally started. (He couldn't). Is this information just given on the dualistic thinking, the answer to that question?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative. This Awareness indicates that essentially, the movement of the Christian philosophy may be symbolized by the hoods or habits, the caps which were worn by the nuns in the earlier days of the Christian church, wherein the peripheral vision at the sides of the face was blocked off, so that the entities could only see directly in front of themselves.* This Awareness indicates that this is symbolic of the action of seeing the straight and narrow. This Awareness indicates however, this also symbolized the straight and narrow-minded person, the entity who could not look to the right or left, or was made to feel guilty if his or her mind was to wander off of the straight and narrow teachings of the Christian sect.

This Awareness indicates that therefore, in looking at this sect from the cosmic view, from the eyes of others who see these entities, this Awareness wishes to present this in a manner of an image which allows this to be clearly seen in a different frame of reference. This Awareness indicates that you visualize a great opening which is a world which is partially filled with darkness, and there are myriads of entities of all types, of all origins, which inhabit this world. This Awareness indicates that within these myriads of entities there are those who are the Luciferians, who move around attempting to sap energies from others, these likened unto psychic/emotional/financial/physical vampires.

There are those, who as Luciferian forces, manipulate, push, shove, move others into various positions through trickery, through deception, through confusion, working together in order to gain energy from others without tapping the source, and gaining energy from the Universal Source Itself. These entities feeding off of the energies of other beings, rather than using their ability to be productive themselves.

*This also is done with horses.

This Awareness indicates there are also those which may be called the Natas, or Satanists, who seek to control the minds of other entities, who seek to use those entities in order to grow in terms of personal power, and to hold influence over others. This Awareness indicates that these entities are cold and calculating, and have little need for others, but have a great need for personal power.

This Awareness indicates that there are the many other entities who are half asleep, and half awake, who are victimized by these two strong forces. These entities grovelling, crawling, digging, working, to pick a piece of food from the earth, or from the ground, from the table, or from some market-place. These entities having no particular allegiance to any particular philosophy.

There are others who are associated with Buddha, Confucius, Krishna, or Mohammed, or other leaders or models. These entities also as being somewhat directed by their ideals and philosophies, and can be very rigid and narrow, or very relaxed and earthy. This Awareness indicates that the Christians, in this scenario, the "True" Christians, as they appear from the cosmic view, are likened unto entities walking around with hoods and capes, whose ability to see what is occurring is limited to the narrow opening in the front of their cap, their bonnet, and these entities are seen as having a light shining from their forehead, directly before them, emanating this light so that they are seen by all, but do not seem to see others, and do not seem to be aware of others, except by the threat or by knowledge of others' presence.

This Awareness indicates that in this scenario, or Cosmic View, the Christians do not know their enemies, yet they recognize their enemies, they label their enemies, they confront their enemies, but still they do not understand their enemies at all, for they are locked into their narrow viewpoint, with their own inner light, and do not look deeply into the energies or lives of others around them.

HOW THE TRULY AWARE DEAL WITH PHILOSOPHIES, LUCIFERIANS AND SATANISTS

This Awareness indicates that those entities who are truly aware can look at all of the entities, all of the forces involved, recognize who is asleep, recognize who is the vampire, the parasite, who is inhabited by forces which seek to hold power over others, recognize the narrow-minded and rigid entity whose mind cannot think outside of certain restricted levels. These entities can wander around freely among all of these forces without being caught by the Satanists nor the Luciferians, nor the various other philosophies, nor the grovelling of those who are earthbound and materialistic, nor need they be caught by the straight and narrow vision, or tunnel vision of those of the fanatic and rigid Christian sect.

This Awareness indicates those who are truly aware can embrace the highest and best of the Christian philosophy, while still looking at the Buddhist philosophy, and drawing what can be drawn from that, communicating to the Buddhist about his or her beliefs without feeling them to be a threat, without feeling a need to alter the entity's beliefs, but being able to share and even to share Christian beliefs with the Buddhist, without necessarily feeling it is important to convert this entity.

This Awareness indicates that the entity who is truly aware can recognize the energy of the Satanists, the desire for power, and the coldness and the aloneness which this entity, or this energy feels, and can communicate to that energy in a manner whereby the communication is not of threat, nor of hostility, nor of rejection, but rather is one wherein the truly aware

being sees the agony of the Satanist, and sees the separateness of the Satanist, and sees the outcome of the desire for power, and recognizes the tragedy of the path on which this entity (the Satanist) is moving; and can, if possible, communicate to the Satanist to assist the Satanist to see himself in new light, and perhaps change course before it is too late.

This Awareness indicates that there are not many of the narrow-thinking Christians who could communicate to a Satanist in this manner, for they would be too frightened and too opposed to such thinking, and too rejecting of the entity. This Awareness indicates however, there are some of the Christians who could and who do work carefully to assist entities of the Satanist philosophy to move back from the path which they are taking. This Awareness indicates that some of these have been effective.

This Awareness indicates that the truly aware entity can also communicate and can observe and understand the vampire, or the Luciferian: the entity who siphons and feeds off of the energies of others. The truly aware person recognizes that all of these entities are human beings, living forces, created by the Universal Deity, and each of these patterns of behavior are in themselves separate from the essence of the individual which exhibits these patterns of behavior.

The truly aware entity recognizes that these patterns of behavior are simply garments, attitudes which the entity puts on for a particular time, to experience certain circumstances, and may forget to take off, and may become trapped in his or her role, and the truly aware person, knowing that these may be removed from the entity, and that the entity inside, behind the behavior, can be freed and can be extracted, and liberated from that behavior, and the truly aware person can assist in helping the Luciferian to give up the vampire activities, can help the Satanist to give up the efforts to hold power over others, can assist the Christian in becoming more open and tolerant, and less afraid of looking around, and less rigid in his or her thinking, can help the Buddhist and the Krishna, and all of these others, the Mohammed follower, and those of the many different philosophies, to see a common bond between entities and between religious philosophies, so that closer communication can occur, and that differences need not separate that harmony which can exist between entities.

This Awareness indicates it matters not whether the truly aware person labels himself or herself as a truly aware person, or as a Christian or as a Buddhist, as a guru teacher, or as a child, or as a student of life. It matters not what the entity calls himself or herself. It only matters that the entity is truly aware, and capable of communicating without fear to any entity with any philosophy, so long as that entity is open to such communication.

This Awareness indicates the truly aware entity also knows when *not* to communicate, when communication with an entity could trigger off violent reaction, or other behavior which would be harmful to one or the other. This Awareness indicates there are, among Christians, many who are truly aware. There are also many who are narrow and rigid and very much asleep, and hypnotized by their own self-righteous attitudes. This Awareness indicates this also is true among other philosophies.

THE AWARE ENTITY KNOWS WHEN TO COMMUNICATE AND WHEN NOT TO

This Awareness indicates the concern here is that entities be truly aware, rather than partially aware of some small portion of consciousness. This Awareness indicates that wherein an entity is growing in

awareness, the best approach for communicating with others is to ask questions, to learn, but not necessarily to take the trip, or take the journey with the other entity. This Awareness suggests that entities wishing to discover more about other philosophies may read books, which is a simple way to absorb information without being influenced by personalities involved, or if the entity has a strong enough personality to meet with others and not be influenced unduly by the other, then the entity may learn much by asking questions of that other entity.

This Awareness indicates however, if you are of a relatively weak personality and easily influenced by others, it may be much to your advantage not to communicate to those who are involved in philosophies which would entrap you. This Awareness indicates also, in order to expand your consciousness, it is best to determine at the beginning that you will always be a student of life, and that you will never be trapped simply by one philosophy that excludes all others. This Awareness indicates that you need not agree with everything you read, with everything you study, or with every philosophy you become involved in, but you do need to expand your awareness, and become aware of many different concepts and ideas which make up the hodge-podge of human existence, so that you may better understand the world in which

ED's Note: in their frantic search for Satan, the fundamentalists are buying LPs in droves to prove their point, this giving the sagging record business a boost it badly needs. Now many records include cryptic messages such as, "Congratulations, you have just discovered the secret message. Thanks!"

GREATER RESPONSIBILITY IS NEEDED IN TURBULENT DAYS AHEAD

(Excerpt from a C.A.C. General Reading)
July 9, 1982

(Opening Message)

This Awareness indicates that there are seen many turbulent energies during the coming months. This Awareness indicates that during these times, certain adjustments are occurring which were set in motion during the past several weeks, in part this is reaction to or adjustment with the previous readings given in connection with Lee Michael's visit and address to the universe.* This Awareness indicates that the energies moving as such as will cause certain confusion and uncertainties on many levels. This Awareness suggests however, that the general trend is that which moves toward greater alignment and harmony on this plane.

This Awareness indicates that again, even while this is the general movement, there can be those moments which are unsettled, unclear, uncertain and chaotic. This Awareness indicates that during any types of uncertainty, entities as individuals must always remember that the important thing is to remain aware, alert, flexible and caring for one another. This Awareness indicates that the caring for each other during stressful times is that which often is neglected, wherein entities fear for themselves, whether from an economic standpoint or for other reasons, and entities need to be more tolerant with each other in some ways during these times, but also may feel it is necessary and appropriate to be more demanding of each other; for during difficult times, all entities must express greater sense of responsibility for their behavior and activities.

This Awareness suggests that the general questions may begin.

you live, the people with which you associate, and the source and reason for their beliefs and behavior. This helps to communicate, and to feel less afraid of ideas which are in some ways threatening because you do not understand.

This Awareness indicates that entities, once understanding a philosophy, can often relieve much paranoia about that philosophy. This Awareness indicates that it is for this reason that this Awareness explained the philosophy associated with the Satanists. This Awareness does not advocate that any entities become involved in Satanism, because it is a philosophy based on power, separateness, and at the expense of others, promises that which it does not in the end, deliver.

This Awareness suggests that entities who cannot quite determine where they wish to be in terms of a philosophy, entities who do not even concern themselves with a philosophy, who are basically materialistic, such entities would be wise to choose the religion which is most acceptable in their society; those in the Western world to accept the Christian philosophy, those in the Eastern world to accept that which is most prevalent. This Awareness indicates such entities generally will accept the trappings of the religion, the rituals, the gathering places, the social life and the basic philosophy of being a good person, and this is sufficient for entities who have little desire to probe deeply into the essence of the universe.

ALEXANDER HAIG'S "RESIGNATION"

...ARE WE CLOSER TO WAR, OR PEACE?

QUESTION:

Was the recent so-called 'resignation' of Secretary of State Alexander Haig, and his replacement with the entity George Shultz,--is this going to help the causes of peace, or is this going to bring us closer to a nuclear war?

COSMIC AWARENESS:

This Awareness indicates this as being but one of the adjustments of energies which is occurring whereby there is a greater propping up of the forces of the Bolshevik energies. This Awareness indicates however, that even as this action occurs, there are other energy movements which are in process that will continue creating shifts in the pattern of energy and this Awareness indicates that even the energies building toward the war preparations are losing some of their motivation, and it appears to be depleting the drive toward that war.

This Awareness indicates however, there still appears to be some danger in this regard, particularly in the fall, late October and early November being seen as especially crucial. This Awareness indicates however, that this also appears to be a very brief period, which entities need not at present express great anxiety or concern, for the changes which are occurring between now and then can alter these patterns. This Awareness indicates that the patterns which are indicated for mid-September and patterns as indicated in November, are those which are not fixed, or certain, and this Awareness indicates that the greater certainty is continued alteration of patterns.

*Please refer to 'Revelations of Awareness' No. 82-10 (Eve of Destruction); \$4.00 from C.A.C. Also No. 82-13, \$3.00 from C.A.C.

ISRAEL'S OUTRAGE.....
WILL U.S. TROOPS GET
INVOLVED ?

QUESTION:

The so-called civilized countries (the majority of them), are outraged and sickened at the recent onslaught of Israel into Lebanon, where a very senseless slaughter of civilians, children and so forth has taken place. The world in the United Nations has called for a censure, at least, of this country and most of the countries have, except the United States and possibly one or two others. Now the United States is talking about sending U.S. marines into Lebanon to prevent a bloodbath, and to escort some 30,000 PLO soldiers out of there. Does Awareness see this as something other than a humanitarian effort by the United States? Or is there something more than meets the eye in this whole barbarous thing happening there in the Middle East?

COSMIC AWARENESS:

This Awareness indicates that this appears to be, while under the guise and action of being a humanitarian service, there appears to be a desire to have a military presence in the area for other reasons, as both uncertainty exists in the area, and as certain energies and forces may be used as catalysts in the area to bring greater influence to bear. This Awareness indicates that this as part of a larger plan in respect to those energies in that area.

This Awareness indicates the design of this plan as having the effect to give countries in that area the general impression that the United States is strong, is daring and venturesome, and can be counted on to bring energies to bear where necessary. This Awareness indicates the intention being to impress upon the Middle East nations the strength of determination of the United States in its purposes in the area.

THE BECHTEL CORPORATION:
WHAT'S GOING ON?
 (Maybe Dr. Beter will tell us)

QUESTION:

George Shultz, the new Secretary of State, served under the Nixon administration and is currently president of the Bechtel Group, Inc., an international engineering and construction firm (so they claim), headquartered in San Francisco. Curiously enough, Defense Secretary Caspar Weinberger also is a former Bechtel official, as well as a number of others that have been high in government. Could Awareness look at this Bechtel corporation and tell us a little bit about which this link is?

COSMIC AWARENESS:

This Awareness indicates that this as having connections with various forces associated with economic ties and powers in the Middle East, in Europe and in the United States, and that these being tied together in a kind of network of energies and purposes that are linked in part to certain political actions

and policies regarding the Middle East and the policies of the corporations which are connected with certain powers of the administration and its supporters.

This Awareness indicates that details are not seen in regard to this.

ED's Note: That's too bad, because stories which keep appearing in the media suggest this company is closely tied in with the Bolsheviks and the Beast conspiracy. Here are two items which appeared August 2nd, 1982.

Bechtel Unit Receives
\$19.3 Million Contract
For MX Missile Project

By a WALL STREET JOURNAL Staff Reporter
 WASHINGTON—A unit of Bechtel Group Inc., the company that formerly employed Defense Secretary Caspar Weinberger, got a Pentagon contract for development work on the deep-basing system being considered for the MX missile.

The Air Force awarded Bechtel National Inc. a \$19.3 million contract to develop and build a demonstration model of a system that would transport MX intercontinental nuclear missiles from basps deep in the earth to the surface.

Mr Weinberger, a former Bechtel general counsel, signed a memorandum a day before the Friday announcement disqualifying himself "from any official acts involving the interests" of Bechtel and its associated and subsidiary companies. Defense Department officials said the memorandum was a blanket statement applying to all work Bechtel might do, and wasn't made specifically for the MX contract.

Another company, R.A. Hanson Co., got a \$17.7 million Air Force contract to build a similar demonstration system. The two companies were among 19 concerns asked by the Pentagon to consider submitting bids; nine Pentagon officials said

Spokane
lands MX
contract

WASHINGTON (AP) — A Spokane pac firm has been awarded a \$17.7 million Air Force contract to help design a key element of the federal government's proposed MX missile system. The R.A. Hanson Co. of Spokane received the contract to work on a concept in which the MX missile would be buried 2,000 to 3,000 feet under the earth and would burrow its way to the surface to fire at Soviet targets sometime after a Soviet nuclear attack on the United States.

Thus, it's Bechtel National Inc. of San Francisco, a subsidiary of Bechtel Corp., the demon where Defense Secretary Caspar Weinberger was general counsel before joining the Cabinet, was awarded a \$19.3 million Air Force contract to work on a possible basing mode for the new MX missile.
