Cosmic Awareness Communications

P. O. Box 118, Olympia, Washington 98507

(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

...FROM DARKNESS

TOWARD LIGHT

(Part 1)

Religion AND Mind Control

Paul Shockley
Interpreter

PLEASE NOTE: for greater understanding and easier readability,
Cosmic Awareness suggests that these messages be read aloud.

HOW THE FORCES OF DARKNESS TRIED TO SHUT DOWN PAUL SHOCKLEY'S CHANNEL

(Opening Message, CAC reading, July 8, 1982)

ED's Note: After we asked for an Opening Message, Paul started thrashing violently around while in trance, his arms waving wildly up and down, then circling, while his legs kicked and drew up, then kicked out again. This spectacle lasted for about 10 minutes.

COSMIC AWARENESS:

This Awareness indicates that the Interpreter as experiencing certain energy fields. This Awareness indicates that this as creating a disturbance to this channel. This Awareness indicates that this as affecting the opening message.... This Awareness asks that a pause be allowed while Light energies are visualized surrounding the Interpreter, to bring balance and healing energies in this area.

(Long pause of about 7 minutes)

This Awareness indicates that the energy pattern in the Interpreter's aura as that which have been moved in various ways whereby the entity as now being brought into greater balance. This Awareness indicates that this not being in ideal total balance, but as being sufficient for the present. This Awareness indicates that the Interpreter as having experienced a long, tedious and difficult battle, in the sense of conflict and confrontation with the forces sent by the alien energies, this as having been previously mentioned by this Awareness in the 'Gathering Storm' information, whereby the Aquarian Church would be attacked.*

* 'Revelations of Awareness' No. 79-1; \$4.00 from CAC.

This Awareness indicates that this as having lasted approximately three years whereby the Interpreter as having been in the center of the storm, wherein this energy being leveled at the entity, whereby the entity was put in the position of having to be a warrior in the sense of fighting certain forces in consciousness which were attacking this channel and this Awareness in *Its* expression through this channel. This Awareness indicates that the energies during this time, this three year period, particularly centering around the accusations, the law suit and charges, wherein the two men who had donated property to the church were used by these forces as unwitting agents in the attack against this Awareness and this channel.

This Awareness indicates that these entities as having been the weakest link or weakest area through which the Dark Forces could operate in their efforts to close down this channel.

This Awareness indicates that it has been a somewhat tedious event, whereby it carried reflections and overtones of the witch-hunts of the 16th and 17th centuries, wherein this entity, the Interpreter, as having experienced being such a one who was burned at the stake during that period. This Awareness indicates this in the 16th century, and that certain energies involved in the present law-suit

as having been echoes or reflective patterns from that period.

This Awareness indicates that the energies at present as culminating in a conclusion of the storm, whereby the Forces of Darkness are now departing from their attacks upon this channel. This Awareness indicates that these forces as having in some ways been successful to a degree of limiting the channel during this three year period. This Awareness indicates however, that the action of these forces in attacking this channel to hinder the channel, as also having served this Awareness in a sense of creating a diversion, whereby other activities in consciousness were expressed, explored, researched and developed, which the Forces of Darkness did not stop or hinder, as they were involved in this diversion of attacking this Interpreter, and the church, along with other activities which the Force of Darkness was focused upon.

This Awareness indicates that there are many forms of expression which the Dark Force utilizes and wherein possible, it will take the skeleton of a Force for Good, and by implanting certain subtle parasitic energies, will attempt to devour the Force of Good, and turn and use that skeleton for its own purposes. This Awareness indicates this likened unto a force which attacks the living, turns the living into zombies, and uses those zombies for its own purposes. This Awareness indicates with this image, *It* now wishes to give an example of such activity of the Forces of Darkness.

HOW THE FORCES OF DARKNESS OPERATE: ...ROME CREATES THE "OFFICIAL" JESUS

This Awareness indicates that the entity known as Jesus, the Christ, or Jesus, a Christ, or Jesus, a Christed one, the entity who, among others, was anointed with the Christ Light and who was chosen to represent the Universal Roman Catholic religion, as a figurehead, merging other religious sects together under his name; this Awareness indicates that this entity as having been one who was as a highly developed individual, becoming One with the Divine Forces, or that which is the causal energy of the universe, the father of life, or the cause of creativity, Universal Creativity, wherein this entity becoming One with the cause, or Father, expressed certain teachings which were recognized as being of great value in helping entities to better understand their own relationship with universal forces; this entity then being lifted to a place of sectarian value by the state of Rome, whereby officialdom, in the sense of the official god, was placed upon this entity, and the entity or the image and reputation of the entity, was then declared as the official religion of the Roman empire, and with that officialdom and title the entity's spiritual message became that which was anointed with approval by the political forces of the Roman empire and the anointing of approval by these political forces of the Roman empire, also created certain opportunities for rules as to how entities may or may not adhere to the teachings of the entity Jesus.

This Awareness indicates that by this time, the entity Jesus and his true spirit and message and teaching, had essentially been forgotten, and the official Jesus of the Roman empire as that which had been created to such a degree as to have a reputation and mystique that would influence the masses according to the definitions, rules, structures and regimentation which was to accompany that mystique,--these being both political, sectarian and social in their effects on the masses.

This Awareness indicates that as the officially recognized Roman version of the god Jesus was presented to the masses in its official attire and symbology, with its rules, dogmas, revelations and the various regimentations which accompanied,--the mystique and power (of the symbol), of the political symbol of the Christ then became a useful tool for managing the masses, for keeping them in their place, for leading them along the proper paths, for causing their thoughts to follow the chosen thought patterns, and for keeping their emotions confined into areas which were manageable.

HOW THE GUILT TRIP WAS CREATED

This Awareness indicates that this action as that whereby, through certain political understanding of mass control, entities were presented with concepts called spiritual, whereby they would be inclined to experience guilt for having been born of woman, for having been born out of the union of male and female parents, for not having been born from immaculate conception. Entities, simply by having been born, in that action alone, they were guilty. This Awareness indicates that this creates a presumption of guilt before any other presumption is created.

This Awareness indicates that in law, entities generally today are presumed to be innocent until proven guilty. In this religion, they were guilty until proven by themselves to be innocent. This Awareness indicates that in this manner, the entities being born in sin, guilty of having not been immaculately conceived, guilty of having been born from the coupling of human parents, then were cautioned to redeem themselves through the manner prescribed by the church, by the Holy Roman doctrine.

This Awareness indicates that as these entities swallowed the bait, and accepted the teaching, (for most entities are not, at early ages, capable of discerning complex concepts, and therefore will swallow the bait given by those who claim authority), this Awareness indicates that as these entities involved themselves in this political manipulation and game, they became aware of their own inferiority, and along with concepts of being guilty as a bottom line of their existence, they also became informed and accepted their own personal ignorance and the great wisdom of the priests, and those who represented the Holy Roman church.

This Awareness indicates that as these entities, now not only being guilty, but also too ignorant to understand or to think for themselves, now rely on the priests as intermediators to think for them, to absolve their sins, to absolve their ignorance by doing their thinking for them. These entities now experience that which is experienced by those who become subjects of hypnotists,--the passive submission to authority. This Awareness indicates that as these entities became passive and submissive to authority, further programming was presented, whereby these entities, in their sin, in their ignorance, could be given the possibility of redemption, if they paid proper penance and gave themselves according to

the doctrine of the prescribed method, whether Protestant or Catholic, or other, according to the wisdom of the priest, and if they gave themselves to the prescribed method, these entities then had the possibility of being redeemed from their sins.

THE FIVE LEVELS OF SEPARATENESS

This Awareness indicates that as if *this* were not enough, further motivation was to be added, whereby not only would spiritual redemption be a prize, and spiritual damnation be a deterrent, but these entities were also informed of great suffering and pain which would follow if they did not take the prescribed medicine, and great joys and pleasure which would follow if they did take the prescribed medicine.

This Awareness indicates that then the descriptions of the pain and the descriptions of the pleasures were vividly and graphically described in such a manner as to have a most profound effect upon the psyche. This effect as that which corresponds to the modern behaviorist psychology researches, particularly to the entity B.F. Skinner, whereby pleasure and pain are used as motivative forces to create avoidance or attraction, stimulus/response behavior in rats and other animals, as well as humans.

This Awareness indicates that the vivid graphic descriptions of hell, with its various ugly demons and the vivid attractive descriptions of heaven, with its music and all of the glory which was characterized in miniature in the churches which were touting the philosophy,--all of these pleasure and pain experiences and threats created another level known as fear, or reward and punishment based upon fear and pleasure, or pleasure and pain.

This Awareness indicates that the fear and the desire then, became instilled within the consciousness of the individual so that along with guilt as a basic bottom line of one's existence, the belief that one is guilty, the hope of redemption, but acceptance of the guilt, the belief that one is ignorant, and only by the grace of those who are masters, the superiors, shall the entity ever overcome the ignorance, and the belief in a pleasurable or painful future, according to one's acceptance or rejection of the prescribed method of redemption by those priests and authorities; the entity now has three levels: guilt, ignorance and fear.

This Awareness indicates that wherein the entity is properly programmed, the entity then accepts the prescribed method, and attempts to follow to the best of his or her ability the path which is prescribed by the authorities, and the entity then either succeeds or fails, according to his or her own dictates, and if the entity fails, must confess to the authority. If the entity succeeds, the entity then feels somewhat self-righteous and reassured and confident. If the entity is successful in following the prescribed methods, the entity then falls into the fourth level, that of self-righteousness. The self-righteous vanity force on the path, as that whereby the entity looks at others who stumble, who fail to follow the prescribed method, and in looking at those, spreads his or her feathers, spiritual feathers of course, and glories in his or her self-righteousness.

This Awareness indicates that this action of the self-righteousness leads automatically into the 5th level of separateness and judgment of others. The separateness then, occurring as the entity sees the failures of others in view of his or her own perspective of himself. (This Awareness indicates that thus the energies of this system move from the bottom line of guilt into...this Awareness indicates that the energies of the helicopter as having disturbed the flow)

(ED's Note: a military helicopter had just buzzed the house)

This Awareness indicates that the energies then as having established guilt, ignorance, fear, along with the hope of redemption through the prescribed method, followed by self-righteousness or vanity, or feelings of failure.

This Awareness indicates that those entities who experience and feel the failure tend to move on the path, while those who experience the vanity tend to move on the other path, and a separation is created whereby those who fail to follow the prescribed method according to the dictates of their own conscience move into states of being a failure in life, whereas those who in their own view, follow the path of the prescribed actions, or get by without being caught, and move in the path of self-righteousness and vanity; these entities then move toward that direction of being leaders, of being successes.

This Awareness indicates that there are also two types of successes: those who succeed in serving others, and those who succeed in using others. This Awareness indicates there are also the branches of failures. Those who fail because they themselves see themselves as failures, and those who fail because they are rejected from the life experience because of the separative forces involved. This Awareness indicates this, for example, being the entities who were burned at the stake for being heretics of the system. This Awareness indicates that it has been said that no one is a failure until the entity admits he or she is a failure, and that an entity is a success even when things go wrong, for having been successful in eliminating one more erroneous method on the path toward greater success.

This Awareness indicates that this system, in creating failures and successes, polarizes the classes, or polarizes the differences between entities, creating social classes and creating the greater judgment of each other, and creating greater separateness and alienation of one entity to another, so that the system also creates the feeling that one is separate from God, separate from the Divine Forces, separate from Universal Forces because one has not fully followed the prescribed order, and has not accepted and fit fully into the social norm.

This Awareness indicates thus, the spiritual path tends to be measured by the social success of an entity in his or her society. This Awareness indicates that this becomes the deeper philosophy of

the Puritans in America, whereby if one is truly with God, one is growing wealthy and the wealth indicates the wealth of spiritual abundance. This Awareness indicates that as entities begin to move more and more into competition with each other over who can be more superior, who can be more spiritual, who can be more wise, who can be more divine, entities then begin automatically tossing about concepts for each other to answer and to deal with. This Awareness indicates this creates the necessity for invention, for imagination, and leads to a form of creativity.

This Awareness indicates that this becomes the fruit of the tree of civilization that was developed from the Luciferian use of the Christian teaching, the teaching of Christ, whereby the Dark Force misused the teachings of Christ, bringing forth a structure that is most destructive to individuality and expression and freedom of thought, but whereby when taken to its extreme, this structure creates the leaves on the trees which shall heal the nation, for in these leaves of creativity, the necessity for invention that comes when entities compete with each other, from these leaves develop fruit,--the fruit of invention, the creation, a transmutation of energies, containing seeds of new life, seeds of the Christ within, seeds of a new spiritual awakening.

This Awareness indicates that many entities following the path of the tree, the structure, do not follow through at this time to the fruit of spiritual awakening, but rather they follow through into branches which echo the trunk of the tree from which they have evolved so that they move out of the confines of the Roman religion, and into the confines of a parallel, or echoing, or reflective religion of a different name. This Awareness indicates: Is it any different for an individual to be under the belief that one is guilty under the Christian dogma, or under the dogma of some Indian guru, --guilty of being inferior, and in need of a master and a prescribed method, or is a failure in the society, whether Christian or otherwise, and is it any different if the entity has left the Catholic church and has become a high priest in some other philosophical sect, or by the entity's judgment of others, creates a separateness and a vanity, whereby the entity feels the power of being greater and more important than others, and whereby his feathers are spread in glory of his spiritual accomplishments?

This Awareness indicates that these are but the same game, put out by the same toy manufacturers under different names and different characters and titles, allowing entities to win or lose, depending on how and if they wish to play the game. This Awareness wishes entities to understand that the game of life is but a game, and it is not necessary for entities in life to play the game. Entities may simply "be". Entities may simply recognize their divinity. Entities may recognize their innocence until proven guilty. Entities may recognize their intelligence until proven ignorant. Entities may recognize their Divine Right to a happiness in the future, and a Divine Right to avoid being made fearful. Entities may recognize that they are a success as long as they continue claiming to be a success, and telling themselves they are successful, as long as they continue on the path to success, and that none needs be a failure, and it is only a game when one claims to be a failure, or allows others to imply that one is a failure.

These games of rejection and acceptance, according to the rules, are but games, which may or may not be made significant. This Awareness indicates however, if entities wish to make the game significant in order to get lost in the game, to avoid realities of

life; this is your free will, and your choice, and even if this significance and the getting lost in the game becomes so intense and meaningful that you cannot find your way out, this too is your choice. This Awareness indicates that wherein entities look toward their authorities and blame the authorities for not helping them find their way out of the forest, out of the structure, out of the game; this too can be significant, but it does not resolve the situation for the individual, for the authority will simply pass the blame back to the individual and state: "Apparently you have failed."

THE DIVINE RIGHT OF ENTITIES

This Awareness indicates there is no one who can awaken another, except the individual who sees through the game, and recognizes that he or she is Divine, has always been Divine, is a Divine creation of the universe, has the right to be happy, as happy as is possible, has the right to be free, as free as one can be in relation to that which is approximate to one's life, has the right to pursue knowledge and wisdom and experience, and also, along with these rights, has the responsibility to do these things without harming others, or preventing others from having the same rights.

THE CAUSE OF MENTAL ILLNESS

This Awareness indicates that 85% of all mental illness is due to direct or indirect involvement in these games of guilt, ignorance, reliance upon authority without question, self-righteousness, a sense of failure, the inability to follow someone's prescribed method, and vanity, or self-righteousness.

This Awareness indicates the other 15% may be due to chemical or biological problems.

THE MOST IMPORTANT FREEDOM--TO THINK!

This Awareness indicates that wherein an entity wishes to be free, the entity also must be willing to accept responsibilities that accompany that freedom, for freedom does not come without its cost. Freedom is not free, but has certain responsibilities which must be carried along with that freedom. This Awareness indicates the freedom to think as being the most important freedom that any entity can have, yet many entities do not realize that their freedom to think has been taken from them by past experiences, teachings, beliefs and programming, so that they are not free to think, except if their thoughts run along skinny little narrow pipes or runways, as a rat in a maze.

THE FREEDOM OF ACTION

This Awareness indicates that freedom of action is of less, much less importance than freedom of thought, yet freedom of action carries greater consequences when those actions are in error. It is of little consequence if an entity *feels* like murdering his or her father. It is of great consequence if the entity takes that action. This Awareness indicates that freedom of thought can lead to actions which follow those thoughts, but generally, those thoughts require great repetition and emotional reinforcement in order to bring them into action; therefore, ritual, emotion, sensual reinforcement of the thought are necessary before the thoughts become active realities.

This Awareness indicates that a passing thought expressed and released, is not what can be termed "significant," but if that thought becomes an obsession, is repeated, repeated, repeated, until it breaks into an action; that then is significant. This Awareness indicates that in the foundation of the religious game, entities often were cautioned to control their thoughts, to fear the devil who would put thoughts in their minds,

and these thoughts might be of lust or greed or power, or might be of vengeance or hatred, or even of fear, and therefore entities were cautioned to control their thoughts and to fear their thoughts, and to hate their thoughts, and to pray and confess their thoughts, if these thoughts were offensive.

"POSSESSION" BY THE 'DEVIL'

This Awareness indicates that therefore, the entity was told to focus on those thoughts which were negative, and to make those thoughts significant, and to feel guilty about those significant negative thoughts as they were of the devil, and as the entity focused and meditated on the devil and the obsessional thoughts of lust, in order to see the significance of how evil such thinking could be, and how terrible it is to think such thoughts, the entities become more and more obsessed with that which they were not to think of, and therefore, become possessed of the devil, and this possession or obsession with such creates a justification and a proof of the devil's existence, and the further proof of the devil's existence creates greater fear among others, that their own thoughts might also begin having some form of obsessional significance in terms of evil.

Therefore, the entity not only has his own insanity or possession by the devil to cope with; the entity also becomes a carrier of the disease which then may spread to others, and the obsession with possession by the devil then causes others who are susceptible to suggestion to question their own thoughts and ask themselves if these lustful thoughts are of the devil? And as these entities focus on these new thoughts, energizing these thoughts, fearing these thoughts, trying to avoid and escape these thoughts, while making these thoughts significant, these entities also begin to accept the insanity known as possession by the devil.

THE PERILS OF CONFESSION

This Awareness indicates the only alternative to being completely subdued and seduced by this "devil" is to confess, confess to the great listener, to the priest, to God, the psychiatrist, or anyone who will listen to your obsessive thoughts; confess to those who will hear and understand what horrible thoughts went through your mind, which became so significant to you because they were horrible, and because they were horrible and significant, they became even more significant and horrible.

This Awareness indicates that obviously, the confession is beneficial if the one you confess to is sympathetic and forgiving. This Awareness indicates that one who is not sympathetic and forgiving can

create even greater sense of guilt, so that you feel yourself to be even more unworthy. This Awareness indicates this occurs wherein entities confess to their mate of some thought or action which creates a sense of guilt, wherein the mate is not understanding or sympathetic, but rather is of a judgmental type, who condemns the entity even further for such thoughts or actions; this also leads to greater sense of insanity.

This Awareness indicates that those who confess to the priest, to the psychiatrist, or to those who are understanding mates, and in their confession feel released from the obsession, those entities face the prospective danger of becoming dependent on the confession, whereby they cannot think through their thoughts, but whereby they feel it is necessary that if they have a thought which is not of the highest, which their thinking pattern tends to make appear to be evil because their thinking pattern judges their thoughts heavily, whereby the entity in seeing the thought as evil, also sees that the evil is of great significance and should not be thought, and whereby that is made significant enough that it becomes an obsession, because the entity keeps seeing how awful it is to think such thoughts, the entity then, in confessing to the priest, or to God or to their mate, becomes dependent on the priest, God or their mate to absolve them of guilt for their thinking, to assure them that they are sane and alright.

This Awareness indicates that this is much better than condemning oneself and continuing to feel guilty and obsessed with the guilt of your thoughts, but it is still not freedom. Freedom comes when the entity recognizes the thought processes which create the guilt, which create the judgment, which create the feeling of inadequacy. This Awareness indicates that in a reading some time back, an entity asked this Awareness to help him to overcome certain lustful fantasies that the entity had experienced, and could not rid his mind of these lustful fantasies. This Awareness indicated to the entity that *It* blessed his fantasies, and suggested that he enjoy these fantasies until they lost their significance, then, that his thoughts would move to other things.

JUDGE NOT -- ENDING YOUR SELF-EXPLOITATION

This Awareness indicates that in your thinking, wherein you have been programmed to judge your thoughts, to judge your self according to your thoughts, wherein this particular aspect of your thinking can be set aside so that you do not judge yourself, so that you do not judge your thoughts, so that you do not measure yourself by the yardstick of guilt, failure, ignorance, separateness, vanity...but whereby instead you observe the process of your thinking, so that if your thinking is using the yardstick of guilt, ignorance, vanity, separateness, failure, self-righteousness; that you see how your consciousness, how your mind is using this yardstick.

This Awareness suggests you simply be an observer of yourself, not judging. This Awareness suggests you not say to yourself: "Oh, how horrible I am! I'm judging myself!", for the very fact of saying, "Oh, how horrible I am," is another judgment of yourself for being judgmental of yourself. This Awareness suggests you simply observe that you are judging yourself, and that you observe that you are being vain, that you are thinking in terms of ignorance, that you are feeling ignorant, that you are feeling separate, that you are feeling fear, and in observing those measurements, and how you react and respond to being measured, you may begin to recognize the exploitation which you have undergone, and realize that you yourself are the greater exploiter of yourself, and need not continue that form of judgment.

This Awareness indicates that even as women are created on stands, measured with tapes, approved or disapproved by the standards of the crowd, even as this occurs with animals, and has occurred with human slaves, and still occurs in terms of occupational competition wherein entities are measured according to the standards of their superiors; even as this occurs in all of these levels, likewise it occurs within individuals, in their judgment of themselves. You put the tape measure of guilt or inferiority around the bust of your being, and either you measure up in comparison to someone else, or you fail and lose the contest.

This Awareness indicates this exploitation of yourself, by yourself, is that which must come to an end if entities are to be free from exterior exploitations. When you cease to exploit yourself, you will then begin experiencing less exploitation from outside of yourself. This Awareness indicates that also, it is important to understand that you cannot cease to judge yourself until you cease to judge others.

COSMIC AWARENESS DEFINES "JUDGMENT" AND "DISCERNMENT"

This Awareness wishes to define "judgment" as an action of discerning with the implied or explicit purpose of determining superior or inferior destiny, of acceptance or rejection according to that discernment. This Awareness indicates that discernment in itself is not the same as judgment, for to discern implies only that you see clearly what "is". To judge implies that you pronounce a sentence affecting the determination of where that concept, idea, or entity is to be placed.

This Awareness indicates that wherein a judgment rejects or accepts, or sends into damnation or salvation, that judgment carries with it a threat to the thing, to the individual, to the concept, and whereby entities practice being judgmental, rather than discerning, entities tend to create separateness. This Awareness indicates that discernment brings about a balance in the forces and energies so that reconciliation can be found as the parts are discerned clearly.

This Awareness asks entities to practice discernment, to avoid judgment.

God judging an entity (From a fundamentalist tract)

THE STRUCTURE OF SEPARATENESS

Opening Message

(CAC Reading No. 2, July 8, 1982)

(Opening Message)

COSMIC AWARENESS:

This Awareness wishes to continue the message which was given during the previous reading.

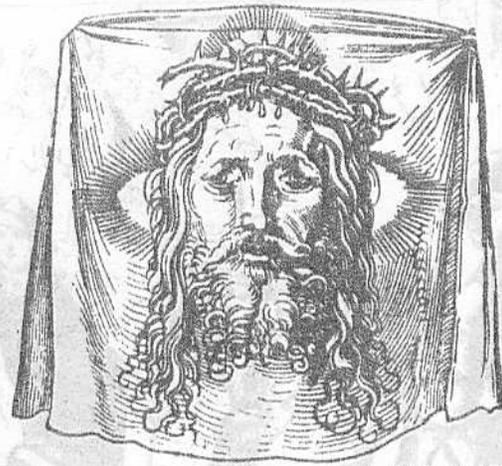

This Awareness indicates that the Interpreter's involvement during the past three years with the lawsuit aimed at inhibiting or destroying the church and the Interpreter's reputation, as the reflective energies from a previous lifetime, a lifetime prior to that of William Penn, wherein the entity as a priest was brought into court and sentenced for heresy and burned at the stake.

This Awareness indicates that this action as that which carried over into this lifetime, due to a contract by one who at that time, was determined and directed to bring the entity under control and domination of the church, under the Cardinal Richelieu. This Awareness indicates that the energies of the past three years as that which has put the Interpreter into a vibrational vortex, or a pattern of energies which allowed the Interpreter to tap into certain memories and experiences from past life, and previous energy patterns.

This Awareness indicates that this as an action which the Dark Forces, in attacking the church and the Interpreter, did not foresee, and the action of allowing the Interpreter to tap into and touch these forces of this previous lifetime, during the inquisition, also as having allowed a certain crack in consciousness, whereby this Awareness may assist in giving information through this Interpreter in regard to the pattern and programmings behind the structure of organized religion, which would have otherwise not been available through this Interpreter.

This Awareness indicates that to sum up the previous message, the three years of intense battling in the courts, which the Interpreter has experienced, has been essentially a training and initiation to allow the Interpreter to serve as a channel for the message which was previously given, and which shall be given in regard to mind control and religion.

This Awareness indicates that the structure of the religious programming or mind control, as used in the Roman empire, wherein the entity Jesus was created as a kind of political mascot for the church of Rome to use in bringing the masses under a structured control of behavior modification, known as religion; this entity Jesus himself, and his teachings being placed in a secondary significance, whereby the message of love, of personal sacrifice for others, of healing and of giving oneself to the service of others, this significant teaching being placed in an insignificant position in the church, whereby the significance is placed rather upon the carcass of the individual, the entity Jesus, the carcass upon the cross, and its resurrection from the tomb, and the miracles to awe the masses; this being given a next level of prominence as to inform the masses that this entity is far superior to any of them, and whereby this message ignores the statement of Jesus that they, the disciples and others, can do these things *and more*.

A VATICAN PLACEMAT

This Awareness indicates that this entity in teaching that others can also do miracles, can also teach and serve, this message as that which, while given by Jesus, was hidden by the church so that wherein entities attempted to do healings, or any forms of spiritual expressions, would be branded as heretics unless they gave the credit to Jesus, or to the church. This Awareness indicates that in this manner, many entities who developed great psychic or spiritual qualities were labeled as devils or workers of the devil.

This Awareness indicates that during these ages, these times wherein power of a religious order became corrupt and sought greater and greater controls over the minds and properties of people, the face of the church became that which mirrored the Alien Force, and the images of energies which were anti-Christian in their properties. This Awareness indicates that this occurred particularly during the time of the inquisitions. This Awareness suggests however, that entities in looking at these times and these energies in view of the message given previously in relation to the system which was developed to create a presumption of guilt, ignorance, fear, separateness and failure, and vanity, a system which created these qualities in its followers would naturally, at some point in its evolution, lead to that which became the inquisition period.

This Awareness indicates that even as this occurred in the Catholic church, likewise it had its reflection in the Protestant movements, particularly in Salem, Massachusetts, and the witch trials. This Awareness indicates that the question may be asked: Where did this teaching and system of religious mind control originate, for surely it began prior to the teachings of Jesus, as it also has been used in the Old Testament, and in other cultures prior to the Hebrew culture?

This Awareness indicates that the system as that which originated with the Alien Force, that which is the concept of separateness and vanity, that which, accompanied by the fear of rejection brought on by the act of judgment, this may be said to have originated with the so-called "Fall of the Angels," the first separateness, the movement of Rhyee, the Ego, or Lucifer, from the Totality, or that which is the Godhead, and the subsequent separation or fall of the angels, or angles, or aspects of consciousness.

This Awareness indicates essentially, the Cosmic Fall of the Angels is a mirror image on a macrocosmic level of the microcosmic action which occurs within an individual when the individual loses its balance, and falls too heavily into the rational mind which is essentially built out of judgment, judgmental selection and rejection processes. This Awareness indicates that this action of the rational mind as that which parallels the action of Rhyee/Lucifer structure and the religious dogma and doctrine and systems in a society.

Pope Pius and his cardinals witnessing the death of Paschal. (From an ancient engraving).

This Awareness indicates structure is structure is structure, whether in the mind, in the society or in the universe, and all structure may be recognized as mammon, as materialism, as Lucifer, or that which is reflective of spirit, but not spirit itself.

This Awareness indicates that anti-matter, or spirit, is that which resides between structure, and structure directs and contains and allows the flow or blockage of spirit. This Awareness indicates that wherein structure becomes too confining, spirit breaks the structure and flows over the structure, destroying what framework was there.

This Awareness indicates that whereas the Catholic church of Rome, and those forces which were working through the priests, understood the level of development of human consciousness to such a degree as to recognize that human consciousness is not yet ready to exist without structure, and therefore, while entities yet do not know the spirit of Christ, the church will create the structure which will program and hold the entities into the confinement of the Christian doctrine, and Christian lifestyle.

This Awareness indicates that essentially, the Catholic church was creating a maintaining action, a structuring program to hold consciousness long enough for the spirit to have its effect in creating the fruit of the flower of the religion. This Awareness indicates that in one sense, the religion as that which was a reflection of previous religions of ancient Egypt and Osiris, of Indra, of Zarathustra and other messiahs whose lives paralleled that of Jesus. In another sense, this was new and unique in that it was more zealous and its people were more dedicated and motivated with a kind of fanaticism that was lacking in earlier religious systems and dogmas, and that zealousness which carried over into the Protestant religious fevers also had its effect of creating in consciousness a kind of exploitation of the will, built upon a sense of self-righteousness that reached into, and brought about, a probing of the unseen and unknown.

This Awareness indicates that had it not been for the narrow focus of Christian zealotry, the narrow, rigid thought patterns created by the self-righteous priest or parishioner in his spiritual pursuits and personal vanities and experiences of separateness and self-judgment,—had it not been for this dogmatic pattern placed upon the Christian mind, these energies would not have molded consciousness to such a degree as to probe into the present day scientific and technological developments.

This Awareness indicates that the combination of energies from Egypt through the Hebrews and through the Christian dogmas created a pattern in consciousness, a way of thinking and probing, an ambition which in turn brought about the present day science, physics and technologies. This Awareness indicates every dark or negative action has a corresponding light and positive reflection. The actions whereby the inquisition punished many innocents, also had an alternative effect of creating an awakening in consciousness which allowed for positive growth.

This Awareness indicates that in many respects, had it not been for this powerful mind control system created by religion, the Western world would still be in tribes, many scattered philosophies and cultures, and would be, by today's standards, considered barbaric. This Awareness indicates that however, having developed along this path of evolution, the Western world has raised consciousness through technology and scientific developments to a high civilized position, whereby it is capable of destroying itself and the planet, and all of the works thereon.

This Awareness indicates that this development may be seen as an aberration, or may be seen as an opportunity whereby consciousness has reached a level of being one with God, at least to some degree, capable of destroying, or preserving and maintaining life in a large scale. This Awareness indicates that humanity, having reached such a degree of development, did not reach this development simultaneously, for some entities hold the power, hold the knowledge, hold the wisdom or hold the ignorance, while others are relegated to the level of followers, or ne'er-do-wells, as the mere masses, having no particular voice in the affairs of the world.

This Awareness indicates that this development in evolution whereby the masses are still in levels of inferiority, still feeling themselves to be judged, still finding themselves judging themselves or others, or judged by others, feeling themselves to be separate and inferior; this programming which came from the religious doctrine which still controls many in the mass-consciousness which for some, propelled them to great heights of discovery, or power, of civilization, but for others, programmed them to be failures, —in many cases, insane, or mentally lacking or deranged,—this programming as that which must be understood in terms of what it has given to society in a valuable and worthy sense, but also what it has done to injure society, so that where it cuts one way to harm individuals or a society, it may be curtailed, and where it cuts the other way to give incentive, ambition, drive and the ability to explore and probe the depths of mysteries,—then it should be encouraged.

This Awareness indicates that the tendency is for this programming of the religious dogmas to be beneficial to those who overcome positions of being controlled by these forces, so that they feel themselves to be superior, and to be one with God in their efforts and very self-righteous in their expression. These are the entities who become the movers of society, while those who feel themselves as subjects of a religious philosophy or dogma, generally remain the victims of society, the failures in a society, the masses, whose voice is seldom heard in a meaningful way.

HOW THE SINS OF THE FATHER
ARE VISITED UPON THE CHILDREN

This Awareness indicates that as entities seek to raise themselves in a society, it can be beneficial for them to understand the religious dogma and programming which has made them what they are, either directly or through past-life involvements and associations with religions, or indirectly through the programming or thought processes of their parents and peers. This Awareness indicates that just because an entity did not have direct religious programming does not mean that the entity did not receive some kind of indirect programming, for the parents or grandparents may throw off the programming, but still carry the pattern,--the emotional, mental and thought patterns in their consciousness, and may still pass these on to their children.

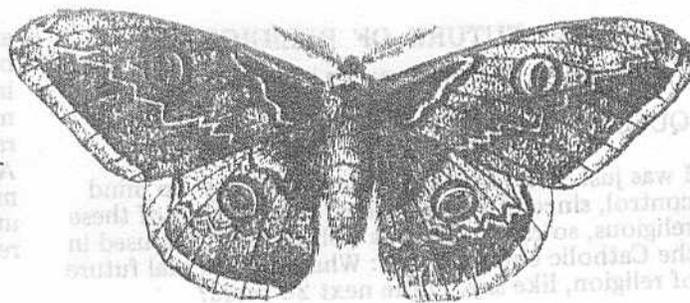

This Awareness indicates that *It* does not wish to imply that the programming was wrong, but rather wishes to indicate to entities the nature of the programming as it affected consciousness, and that it can have certain positive values, but also can have certain negative effects on an individual. It is necessary for an individual to recognize the effects of these programs on his or her consciousness in order to discern how much these programs are benefiting or harming the individual.

This Awareness indicates there are many individuals who have not experienced the religious programming who would be greatly benefited by becoming involved in these energies. That in one sense, these entities may be almost savage in nature and involvement with the religious energies, the structure and dogma of a strict religion could help to bring these savage energies into a kind of civilized behavioral pattern which would be of great benefit, not only to the individual, but to the society, which must have room for the individual's expression. This Awareness indicates that for many, religion is absolutely the salvation and the answer to their problems and to the problems of society, particularly on certain levels. For others, religion becomes a kind of entrapment that does not allow the entity's soul to develop beyond the dogma and confines of that religious program in which the entity finds himself.

BREAKING FREE OF STRUCTURE
..The nature of the Alien Force

This Awareness indicates that what *It* wishes to express in this message is not that religious mind control is in itself good or bad for the entity, for the individual, but rather that it is a structure which was presented to hold energies through which the Spirit could have its effect, and once the effect has been allowed, the structure no longer is necessary as a confinement for those who have outgrown that structure.

This Awareness indicates this likened unto the cocoon, the caterpillar which needs its structure, but at some point outgrows the structure and becomes the butterfly. This Awareness indicates that there are entities who need laws, rules, regulations, structures of a political, of a social, of a religious nature, to keep them from being outlandish in their expression, to keep them from being violative in their actions toward others, to keep them from being insane with power, and those rules, regulations, structures, dogmas, beliefs, fences and walls are necessary for those individuals, so long as their energies are not self-contained can only be contained by those rules and regulations and confinements.

This Awareness indicates however, once the individual becomes self-aware, and no longer needs the rules to keep from being violent, to keep from doing harm,--then the entity becomes free from those structures. This Awareness indicates that in this manner, the Alien Force and the Force of Light work hand in hand for the evolution and development of individuals as they progress through the experiences of life. This Awareness wishes entities to understand the Alien Force needs not be feared, but does need to be understood for what it is. Essentially it is a *structure*, a structuring energy that inhibits and controls and directs entities, and can direct them in ways which are harmful to themselves or others, but can only do so if the entity willingly follows in those directions.

This Awareness indicates that wherein an entity seeks to move ever toward Universal Harmony, love for others and for oneself, love for the Divine, --that entity cannot be moved by the Alien Force into areas whereby the entity must suffer from errors of behavior. The entity cannot be forced into actions which are alien to the Light, if the entity truly walks and moves toward the Light.

This Awareness indicates that essentially, the concepts of demons, devils and dark forces are created out of the sense of fear, guilt and belief in such demons and dark forces, and these demons and dark forces are created either for the purpose of controlling entities, to frighten them toward the Light, or are created for entities to seek power through the use and control of such dark forces, using fear, power and belief in such in order to gain control and power over others, but any pursuit of power through the use of Dark Forces can only come about as a result of a feeling of separateness, and a feeling that one *wants* power over another.

This Awareness indicates entities who truly overcome these conditions and seek to be one with the universe, in harmony with all, cannot pursue power or personal significance, but can only pursue harmony and happiness for all.

This Awareness indicates that the energies which have accompanied these changes over these times, associated with the many religions, whether Eastern or Western, as that which are part of the scheme or plan for the evolution of humanity upon this planet, and the probability that these energies will bring man to a point of what is called 'the moment of truth', a point wherein he must face the prospect of total annihilation, --then at that time, becoming aware of his full potential as a destroyer of self, or a creator of future life--the entity then becomes One with God.

This Awareness indicates that as this occurs, in the general development of consciousness, it also may be experienced by individuals in different times, according to their individual evolvement.

(This Awareness indicates that if there are questions relating to any of the concepts involved, that these may be asked).

THE FUTURE OF RELIGION

...How the programming is breaking down

QUESTION:

I was just wondering one thing in relation to mind control, since this is also being used in a lot of these religious, so-called cults, as well as still being used in the Catholic church today: What is the actual future of religion, like say, in the next 20 years?

COSMIC AWARENESS:

This Awareness indicates that this will depend largely on entities' ability to have the freedom of communication, whereby they are allowed to speak out and to explore concepts and to think freely. This Awareness indicates that so long as this is allowed, entities shall find in time, the freedom of thought which allows them to understand the nature of these techniques used by these groups, cults, or religious and political mind control systems.

This Awareness indicates that as entities are given that freedom, a gradual evolution will occur, whereby entities free themselves of those controls, of those restrictions on their thinking. This Awareness indicates that the current trend, whereby many different religious groups, different ideas heretical in nature at present time, these different so-called new religions and cults, which for those religions which have been established for 50 years or more, are seen as frightening and threatening to those established religions... This Awareness indicates that these new spiritual groups are assisting, (even though they may be patterned after the old mind control systems), are assisting in breaking down some of the earlier programmings and systems, simply by being so blatant in their manner, and expression of these controls.

This Awareness indicates it is for this reason that many of the orthodox churches do not want to see these modern cults or religious groups or spiritual groups curtailed by law, for laws impressed upon them for their mind control techniques would also reveal the mind control techniques of the orthodox religious systems. This Awareness indicates that they could not stand the publicity and the backlash from such actions. This Awareness indicates that essentially, what this means is that even though there are many of these so-called 'moral majority' who speak out in frustration and hostility toward the new spiritual communities and groups, the greater number of entities involved in the churches do not want to have these new groups tried for heresy, or brought into court for their religious principles, teachings or beliefs, because it could threaten the established religions, since the patterns are similar.

This Awareness indicates therefore, attacks on the new religious groups must be through some form of action other than through their beliefs, and these attacks may be more for creating a bad image than for legal purposes. This Awareness indicates however, that essentially, what is occurring, and what appears to be the outcome of the changes which are occurring, is that many more groups will appear, many more individuals will proclaim themselves to be master teachers, gurus or messiahs, and in time these many masses will tend to defuse and decentralize the power of the churches, and individuals will pick and choose from many different types of philosophical concepts and thoughts, and thinking itself shall be free so that individuals may share, question, explain, explore and formulate concepts and ideas relating to what is, what may be, what could be, in this world and in others.

This Awareness indicates that as these levels of thought are freed to explore, then also the consciousness may begin to probe open-mindedly with a scientific inquiry into life after death in such a manner as to discover more and more truth, with more and more evidence, rather than mere dogma, threats and belief. This Awareness indicates essentially, what will occur is the merging of science and religion into one central basic understanding of the universal forces of life in this realm, and others.

THE INQUISITION OF PAUL SHOCKLEY

...MORE ON CONTRACTS

QUESTION:

The Interpreter has had flashes that the lawyer who is persecuting him today was the same entity that was witch-hunting and was persecuting him and had him burned at the stake in a previous lifetime. I'd like to ask Awareness: Is it coincidence that this entity pursued the Interpreter through lifetimes to get his revenge at this particular time, or is there a more significant motive which would appear more important to the Alien Force, in that it would attempt to shut down the Interpreter's channel due to the nature of the work he is doing?

COSMIC AWARENESS:

This Awareness indicates that there is a movie circulating in some areas, released several years ago. This movie as based upon the true account of an inquisition. This Awareness indicates that this movie as titled, *The Devils**. This Awareness indicates the story as that which graphically depicts essentially the energies which were prevalent during that time of the inquisition, and the manner in which the witch-hunters or priests sought to control those who at the time as Protestants, or protest-ants, who were heretics to the dogma of the church, which, if entities may draw a parallel, may also be seen as occurring today, wherein the many new spiritual groups which are springing up are now seen by the Protestants as heretic types of organizations.

This Awareness indicates that during this period of the inquisition, the lawyer who has presently been the driving force against the Interpreter, as one who at that time was the driving force to have the Interpreter burned at the stake, and did succeed in that action, but did not succeed in getting the Interpreter, who was at that time a priest, to admit to him that he was possessed by the devil. This Awareness indicates this entity as having sought not only to destroy the priest, but also to destroy the reputation and character of the priest. In having failed to destroy the character of the priest, essentially, the victory was denied the inquisitor.

This Awareness indicates that as the inquisitor could not get the priest to admit that he was possessed by the devil, essentially, the inquisitor did not gain the victory which would have supported his self-righteous position. This Awareness indicates therefore, the entity still had further work to do, and pursued this entity into their future lifetime. This Awareness indicates that the lawyer as having been under contract, both as an inquisitor and still as an

attorney, under contract from a time five lifetimes back to annihilate the Interpreter and his reputation.**

This Awareness indicates that the inquisitor annihilated the priest in that previous lifetime but could not annihilate the reputation without the confession of the priest, that he was possessed by the devil. This Awareness indicates that therefore, it continued on as a contract into this present lifetime. This Awareness indicates that apart from this personal vendetta of the inquisitor, there also was the greater, or higher level purpose, whereby the Interpreter would gain greater insight into certain areas of consciousness which would otherwise not have been revealed to him, and in that insight and experience the Interpreter would become a better channel for this Awareness.

*'The Devils', made by Ken Russel; adapted from an Aldous Huxley novel: 'The Devils of Loudon'-a real shocker!

**Paul's Inquisitor manifested in this present lifetime as a lawyer named Aho. (Although it shocks Paul, I have referred to the entity as 'the A-hole' ever since he tried, unsuccessfully, to drag C.A.C. into his attacks upon the Aquarian church). Brandishing copies of 'Revelations of Awareness' in his slimy fingers, he croaked to the judge: "Here, your honor, is the beginnings of a cult. And this man, Paul Shockley, does 'trances' and is paid for these by an outfit called Cosmic Awareness Communications; and I have here in my hands copies which say Jehovah was a space man, etc. etc. etc." The judge (correctly) ruled his evidence was inadmissible and to confine the argument to the allegation that the old man who had donated certain land to the Aquarian church had "been insane" at the time and thus the contract was invalid. Eventually, the judge did rule in the A-hole's favor, declaring the old man was 'insane' and Paul and his family had to vacate the property. Paul immediately filed an appeal to a higher court, which is now deciding whether the judge's decision was a fair one.

The rap just given by Awareness is very interesting and revealing. The one thing I had observed during the three years of this trial was that the A-hole consistently diverted from the original charge (that the old man was insane and thus the contract was invalid), but instead tried many many times and in many various ways to defame the Interpreter Paul Shockley, to discredit the entity and to make him appear like another Jim Jones. Although the judge would rule such information was irrelevant, it was this type of slander by this viper that most certainly must have prejudiced the judge in ruling against Paul in the lower court. Since Awareness just revealed this is a karmic carryover when the entity tried to discredit Paul in a previous lifetime, the actions of the A-hole in this present lifetime makes more sense. Avaton.

WILL THE INQUISITOR PURSUE PAUL THROUGH FUTURE LIFETIMES?

QUESTION:

Is it possible this entity, this inquisitor could still pursue the Interpreter into other lifetimes to attempt to get his revenge, and if so, is there anything the Interpreter could do during this lifetime to prevent this from happening?

COSMIC AWARENESS:

This Awareness indicates that this energy as that which is being, and has been to a great extent defused by the present experience in this lawsuit. This Awareness indicates the inquisitor, as an attorney, having had such personal vendetta against the Interpreter, as experiencing certain

repercussions from the energies involved, and the entity is experiencing regret on a subconscious level, for having ever gotten involved in this action. This Awareness indicates that this appears to be that which shall increase, until the energies have been defused.

This Awareness indicates it does not appear likely that this entity will again wish to create such a vendetta against the Interpreter. This Awareness indicates the entity does not, in this present lifetime, consciously recall, remember or understand the reasons behind his present vendetta against the Interpreter.

QUESTION:

With whom were the original contract made?

COSMIC AWARENESS:

This Awareness indicates that this with those whom Lee Michaels refers to as the Kolocks. This Awareness indicates these as certain subcontractors to the Zyloids. This Awareness indicates essentially, these as what this Awareness would refer to as agents of the Alien Force, those forces which would seek to prevent enlightenment and harmony upon the earth plane. This Awareness indicates these essentially may be considered as forces working for Kali, or the force of Maya, the destructive energies of the physical world, to keep entities entrapped upon this plane.

THE NIGHT OF THE HUNTER

(Closing Message)

This Awareness indicates that the energies associated with this lawsuit as that which is being moved to a culmination whereby the Interpreter no longer shall need to devote time in legal research and concerns relating to this lawsuit. These energies coming to a close, it now appears that the likelihood being approximately 90% in favor of the Interpreter's case, the likelihood now is that the Aquarian church shall have greater freedom to express its purposes and to grow without such hindrance during the coming years.

This Awareness indicates that this may not be an immediate movement, but during the next few months it appears that it will begin to become more organized toward its true purpose, and that the energies associated with this attack shall be dispersed. This Awareness indicates there is of course that 10% chance that the ruling would go against the church; this would create other situations. This Awareness indicates that it does not appear that this shall be.

ED's Note: Awareness goofed on this one. On the night of August 24th as I was setting this particular reading up in type, the phone rang: It was Paul, calling from Portland. His voice quivered and shook; he was almost sobbing. He told me his lawyer had just phoned and that the decision was in from the court of appeal. Paul had lost again. He came to Olympia the next day to do readings. He was in such a state of shock we sent him home after he did a couple. We had talked long into the night planning future strategy. If justice was to be served, the case must now go to a higher court. Paul is taking it to the Oregon State Supreme Court. Avaton

...THE JUPITER EFFECT BEGINS:
GREAT TRANSITIONS JUST AHEAD

(Opening Message, C.A.C. Gen. Reading No. 5)
August 25, 1982

This Awareness indicates that the recent energies which have been experienced by many during this month of August as that which is associated with the so-called Jupiter Effect. This Awareness indicates essentially this as being reflective of certain astrological energies which are in effect at this time, and which shall begin to alter in pattern to form that which has previously been described as the 'Jupiter Effect'. This Awareness indicates this to occur in the months of November and December of this year.

This Awareness indicates that Pluto and Saturn being both in the sign of Libra, with Jupiter, Mars, in the sign of Scorpio, and Uranus in the early degrees of Sagittarius; this puts these planets very closely together in a very short arc. This Awareness indicates that the sun and Venus and Mercury will be moving along each month into this general vicinity also, this creating the so-called Jupiter Effect.

This Awareness indicates that during the month of August there have been certain aspects of a negative nature in reference particularly to the sun being squared to Jupiter and Mars. This Awareness indicates that during July, the sun as squared to Pluto and Saturn. This Awareness indicates this has had different effects on different individuals. This Awareness indicates that as these energies move along, these forces shall play a more significant part in the general social trends as well as in individual expressions and experiences. This Awareness indicates this depending on the individual's horoscopes, their particular chart, and also on that of the nation's or businesses' involved.

This Awareness indicates that the greater danger in terms of mass concern lies in the closing conjunction of Saturn and Pluto, as Pluto does affect that which is the hidden, the underground or the outlaw, and also affects that related to nuclear fission, or atomic energy. This Awareness indicates that with the planet Saturn moving into conjunction with Pluto, (the planet Saturn being a kind of ominous and oppressive energy), this can bring about a crisis in connection with these areas of mass interest and concern, associated with that which occurs behind the scenes, among the outlaws, among the mafia, among the secret agencies of governments, and the secret powers behind governments, and also the concerns for nuclear energies.

This Awareness indicates the oppressive power of Saturn in this area, as that which can work in two ways: one being to assist in unleashing this power over the masses, the other being to repress the power and hold it in check. This Awareness indicates that it appears that in reference to the United States, that this represents some form of conflict during that period, while simultaneously indicating a repression, holding things in check.

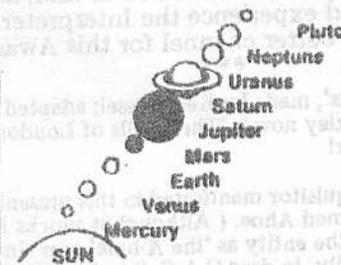

This Awareness indicates that it appears that during a time of intense critical concerns there will be a conservative element which prevents to some degree, the complete unleashing of these energies. This Awareness indicates this appears to be during the period between November and the early half of December. This Awareness indicates that it appears that the other planets of Jupiter, Mars, Sun, Mercury and Venus and the moon, during the months of November and December, can have many beneficial effects, but that

**A NEW

IN CONJUNCTION WITH
THE PLANET EARTH...**

**THE GREAT CONJUNCTION
The Alignment of the Planets
Coming December 1982**

Copy from an advertisement for a book

generally, this will be a time of great transition, and many old values will fall away, and new beginnings and new things will be brought out into the open which can be both beneficial and hazardous to entities.

This Awareness indicates that the details of this are not visible in this reading, as this is being looked at from a broad general frame of reference, rather than in levels of specifics. This Awareness indicates that essentially, the months of November and December will be experienced by entities as a time which will not easily be forgotten; a time of change, a time of transition between the old and the new. This Awareness indicates this appears to be in part associated with monetary and economic concerns. This Awareness is not particularly considering the election which may occur at that time, but recognizes this may have its effect on these energies and the energies may have their effect on the election.

This Awareness indicates however, the energies being seen are those which affect the economies, the use of valuables such as oil and banking, gold and currencies, and their application and the method whereby they are used and dispersed among the masses. This Awareness indicates it appears there will be a significant transition during this time which will create a difference in these areas, whereby this will be looked back upon as a focal point for a period of great transition in terms of banking and in terms of valuables.

This Awareness indicates this not exclusive to physical values, but also including other values, such as abstract concepts and ideas of a moral and religious and social and philosophical nature also. This Awareness suggests that entities not look forward to this time with apprehension, but rather to be capable of moving with the change. This Awareness indicates this likened unto sailing down a river in a canoe, and recognizing that rapids are on the horizon, and preparing yourself to go through the rapids and to emerge on the downstream side, intact.

THE ECONOMY--WHAT'S AHEAD NOW?

.....DECEMBER HOLDS KEY TO THE OPTIONS

QUESTION:

Awareness, the Federal Reserve, in the last week, has loosened the prime rate, and other banks are dropping the interest rates, and the stock market is doing a number,--breaking all kinds of records. Many economists are saying that Reagan is going to keep his word, and that this is the beginning of the new economic burst that has long been predicted by the supply-side economists. Awareness has previously said to watch just before the election, that an attempt would be made to make the economy look like it was getting back on its feet. Is this a manifestation of what Awareness meant, or has something occurred since then that makes this new surge of interest in the stock market and in the development of projects etc. in business, more of a long-term reality?

COSMIC AWARENESS:

This Awareness indicates that essentially this as an action to assist in the carrying out of certain promises by this administration in power, and also to assist in reinforcing the administration during election period. This Awareness indicates that the long-range plans are at this time in a state of option, whereby, depending upon the outcome of international intrigue associated with potential conflict through war, there are several options which are open to be applied, depending on which path is chosen, when it comes down to the final decision making time.

This Awareness indicates that there can be great prosperity in the future. This as possible from the present movement through the period of the election, through the Christmas holidays which boost economy, and through further action which could be applied in the early months of 1983. This Awareness indicates however, the other option is that this may be used as a temporary shot in the arm to assist the administration so that it remains in power, but to allow it to use the time from early 1983 onward for other purposes of an extreme conservative and austerity nature, creating great inward turning and a kind of depressive atmosphere over the country, and in the general economy of the world.

This Awareness indicates there are certain benefits from a deep depression in terms of long-range policies and control which some policy makers see as assisting in establishment of greater power and control over the masses. This Awareness indicates that there are also benefits in avoiding this whereby the world in general continues to prosper, freedom of some degree is given expression, and free enterprise is promoted. This Awareness indicates that in such an event that this path is followed, there are seen difficulties for those who would seek to gain control, for control must be shared and dispersed among others and among the masses.

This Awareness indicates that it is in this direction that this Awareness is suggesting entities move. This Awareness indicates that still another approach is to see the complete breakdown of restraint, leading to potential disasters, famine, war, pestilence, and this approach is that which certain forces are energizing in the belief that they will emerge as conquerors of what is left. This Awareness indicates that this force is that which this Awareness wishes entities to be aware of, but to not give energy to. This Awareness indicates that the options which are open in

terms of the future will be brought to a point of discernment and judgment during the month of December. This as part of the Jupiter Effect; wherein these planets are in conjunction during that period, the greater decision as to the future direction of humanity will be discerned.

This Awareness indicates that in a previous reading, this Awareness gave information associated with the movement of energy through a Passage Perilous, through a point wherein entities could not see what would occur.* A passage wherein there was great peril. This Awareness indicates this as associated with a technique in writing, whereby the protagonist must move with a kind of uncertainty into a time of uncertainty, and by holding only to principles of abstract and nonmaterial, or nonreasonable and nonrational methods may enter into that uncertain period with faith, hope and principles, and during the movement into that period, (depending on the entity's integrity), the outcome is determined.

This Awareness indicates that wherein the entity crumbles and loses integrity, the outcome rules against the entity. Wherein the entity maintains integrity, the outcome favors the entity. This Awareness indicates in the movement toward the Jupiterian Effect in Sagittarius, a similar experience will be felt by humanity, whereby during this time of approach, toward this Passage Perilous, there are great opportunities for the breakdown of integrity, the pursuit of greed and personal gain, but it is determined that as the entities pass through this point of no return, at the time indicated, whereby these planets move into conjunction in Sagittarius, in December, wherein this movement is experienced, entities who have maintained their integrity of the higher principles, those principles which denote love and unity for all, these entities shall emerge victorious.

This Awareness indicates those principles which are based upon that type of concept which benefits everyone, these principles also will be those which will be of greater and more lasting value, as the forces which are present during this time emerge into the post-Jupiterian Effect. This Awareness indicates that this does not mean that those forces of negativity are going to be destroyed during that time, but that the pattern which is selected will either be a destructive pattern that follows, or a constructive pattern that follows the Jupiterian Effect, and that which is constructive will be lasting, whereas that which is of a destructive nature shall not endure for any great length of time, and shall turn against those forces which perpetrate through the lack of integrity, their own greed, lust and desire for power.

This Awareness indicates the hungry gods emerging on the far side of the Jupiterian Effect shall not find satisfaction, even though they may set up for themselves the opportunity to feast upon humanity. This Awareness indicates rather, these hungry gods shall find themselves devouring each other. This Awareness indicates the only forces that shall endure on the far side of the Jupiterian Effect, are those which are moving in service to benefit all.

BIG CHANGES COMING IN LIFE EXPERIENCES--
QUALITY, NOT QUANTITY EMPHASIZED

(Closing Message)

This Awareness indicates that for the past twenty years there has been an increased emphasis on the quantity of life experiences, the number of life experiences. This has been increasing during the time. This Awareness indicates that prior to this time, there

was a concern about the quality of life experiences. This Awareness indicates that at present time, the transition again moves from the quantity of experiences in life to that whereby *quality* becomes a consideration, a focal point, and that which gathers greater momentum. This Awareness indicates that this as culminating with the Jupiter Effect, and shall thereafter gain greater attention and concern from the masses.

Ancient murder scene unearthed

ATHENS (AP) — An ancient amphitheater where Alexander the Great's father was murdered has been unearthed in the northern Greek village of Vergina, archaeologist Manolis Andronikos said yesterday.

Andronikos, who five years ago discovered the nearby tomb of Philip II of Macedonia, Alexander's father, said he is "convinced" the theater was the setting for the murder, said to have occurred in 336 B.C. The murder cleared the way for Alexander's rise to power, and according to some historians, may have been ordered by Alexander.

It was brisk in Buffalo, cool in Cleveland and chilly in Chicago as a mass of Canadian air gripped the northern United States early Saturday, setting record low temperatures in more than a half dozen cities. Record lows were reported from Buffalo...

REVELATIONS OF AWARENESS is a cosmic newsletter, published every 2 weeks by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington 98507.

The Soviets do have more missiles, but so what? It's the warheads that ruin your day.
