The Murder of Christ....

Understanding Violence

Copyright 1992 by Cosmic Awareness Communications & the Aquarian Church of Universal Service.

Paul Shockley, Interpreter

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edger Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: for easier reading and greater understanding, Cosmic Awareness suggests that these messages be read aloud.

WHEN MURDER STRIKES A LOVED ONE

QUESTION:

This is a personal question from C.P. in Illinois, but it concerns a subject that touches many families these days,* and perhaps Awareness can make entities understand a little bit more about what's happening during these heavy times.

"Dear Cosmic Awareness: near the end of March, 1981, my oldest brother Jeff was brutally murdered by his wife and her boyfriend. They had been separated for 9 months and were in the process of getting divorced. I'm not too sure about her true motives, but I believe she was after his material possessions and also seeking revenge for his rejecting her. Could Awareness please tell me if his murder was an act of releasing or venting some karma of the earth? My brother was a gentle, loving and very kind man who didn't deserve such a brutal death. Was his departure from this plane at such an early time for some significant reason, or was it simply a mistake? At first, I was very angry with the entities who had violated my brother so ruthlessly, but I have begun sending them love and light, not hate and anger. I am confused as to why an entity would violate another in such a way as my sister-in-law did. Will she suffer much karma because of her actions? Will my brother also carry some of the weight of that karma also?"

"I have been reading the channelings from Bill and would like to know if my brother is one of the Avatars venting the earth's karma, which Bill refers to. I have experienced a significant increase in my own awareness since this event. Is this the purpose of this event, or only an effect? I would appreciate any information from Awareness to help me and my family better understand the death of my brother, so that we can grow and gain from this seemingly useless event. Humbly and lovingly, Carol P."

*In the past year, C.A.C. has heard from at least six members who have had family or loved ones murdered.

COSMIC AWARENESS:

This Awareness indicates there is seen that which is a purity, and that which is unable to accept that purity. This Awareness indicates that there is a book by Wilhelm Reich which speaks of the murder of Christ.* This Awareness suggests that you read this book for deeper understanding of this situation. This Awareness indicates that essentially, wherein an entity is pure, there are often Dark Forces which do not like the presence of such purity. This Awareness suggests that therefore, the murder of the Christ Consciousness, or purity of others is prevalent upon this plane. This Awareness suggests that it often occurs that the nicer persons are those who are victimized by the Dark Forces. This Awareness suggests there

are ways of protecting oneself when entities are more aware of the nature of such forces. This Awareness indicates that your brother was not fully aware of the energies with which he dealt. This Awareness suggests that the sister-in-law as one who, in her pain of rejection, and in her confused mind, allowed herself to be used by these Forces of Darkness.

This Awareness indicates that the purpose of this action was not that which was required by the Inner Plane: rather this was an action which occurred in part from karmic energies, but also has an effect whereby your brother may be brought into action on the Inner Plane for purposes of assisting from those levels to deal with circumstances which are to come upon this external plane. This Awareness indicates that the entity as one who had, in previous lifetimes, been involved in ancient Egyptian energies of mummification. This entity as one who was taken back to those energies at this time for purposes of assisting in the consolidation of energies on the Inner Plane for the intensities which are to come. This Awareness indicates that the combination of this action, as well as the karmic reaction which has resulted from poor communication between this entity and his wife, as that which essentially was the cause of this action. This Awareness indicates that the Dark Forces perpetrating this have unknowingly assisted this entity to become a valuable ally to forces on the Inner Plane which will, in the near future, be beneficial to changes which occur on this outer plane.

This Awareness indicates that this not one of the Avatars mentioned by Bill Sheppard in the sense of... This Awareness indicates that this entity as having been a Wanderer, and one who was a Light-bearer,--one who brought forth love and kindness upon this plane. This Awareness indicates that the terminology of Bill Sheppard as that which could be used to cover this entity's role; that there are other terms also. This Awareness indicates that the term 'Avatar' as commonly used, would not necessarily apply to this entity, although in the terms of Bill Sheppard, this could apply.

This Awareness indicates that there are a number of incidents of this nature which have occurred, and which may continue occurring. This Awareness indicates that there is a desperation by the Dark Forces to rid this planet of Light Forces, or find themselves becoming incapable of controlling the planet. This Awareness indicates that the Dark Forces, becoming more desperate, create bizarre situations, and use entities who are weakened, and work through entities of the weakest kind. This Awareness suggests that entities be aware of their situations, be aware of each others' states of mind and emotions, and to take great care in the way in which you relate to each other, particularly wherein emotions are volatile.

This Awareness indicates that the greater awareness you sensed after this event, was due in part to the sudden shock and seriousness in regard to life and death, and in part to the realization of the nature of consciousness. This Awareness suggests that your awareness increase, and the movement from anger to understanding, as that which is the appropriate growth of your soul during such experiences. This Awareness suggests that you not hesitate however, to find someone who you can confide in and trust, and feel capable and free to express verbally and emotionally the anger which you may feel; for to ignore and bury those feelings in your subconscious will not cause them to be released, but may simply create blocks in your future communication and your future states of consciousness.

This Awareness suggests it is appropriate and understandable for you to feel anger and to express that anger; and once that is expressed, then the movement into looking deeper for greater understanding as that which is appropriate. This Awareness indicates that the efforts to find greater meaning, beyond the senseless act which occurred, as that which is also the appropriate movement of consciousness.

This Awareness suggests the greater meaning not being that of sacrificing this entity; the greater meaning comes in understanding the beauty of this entity's life, and the tragedy that gentle persons often must suffer from the ignorance and brutality of others. This Awareness also wishes you to recognize the tragedy of the lives of those who violated this entity. This Awareness suggests you also acknowledge your own tragedy, and the loss to yourself and others who loved this entity. This Awareness suggests that you likewise, look around at those who are yet living and give your love to these, for each life may be brief. One never knows for certain when another will be taken; and it is imperative that entities love one another while each is present to receive that love. This Awareness indicates that belated love may have its value, but it is greater love when it can be expressed to the entity.

THE MANY MOTIVATIONS FOR DEATH

...HOW MURDER VICTIMS BROUGHT IT ON

(Excerpt from a C.A.C. General Reading)
August 25, 1982

QUESTION:

During these violent times we occasionally get letters, --we've received 5 or 6, I believe, from members who have had violence come down on some member of their family or their loved ones, and each time we send them a copy of the reading Awareness did for Carol P., whose brother was murdered, and I'm about to publish that particular reading, and I was wondering if there's anything more that might go along with it, and so I'll read a similar letter that came from P.B. along the same line. *

* This reading just preceded this in this newsletter.

She writes: "About one and one-half months ago, the man I loved for 7 years died. I reread the reading on death and dying to help myself understand, but I'm

afraid it didn't help much. It stated that most of us choose our own death, which I believe, but he was murdered in a rather bizarre situation by his 16 year old daughter and her 17 year old boyfriend. So I guess I am really wondering if I can ask Awareness about when a person is murdered. I guess if I knew it was really his choice, instead of his going 'before his time', it might help me to make it through all this. "The man's name is Tom. He is the one I had asked about in my Life Reading."

And that's what she says, and we sent her a copy of the Carol P. reading in which Awareness talks about the book *The Murder of Christ*.

COSMIC AWARENESS:

This Awareness indicates that there are certain energies which are often contributing factors to a victim of any violent termination, whether of murder, accident, or violence during war. These are not always brought on by the entity who is the victim. Often these energies are inflicted upon the entity from other dimensions. In some cases, this as a group karma of an entire culture or group of people, or a family, a town, a city, a building and its inhabitants, or an automobile. That often the karmic energy in connection with these, as that which is not of a personal nature, and as being as kind of an oversoul type of karma. This particularly wherein there is mass violence, such as in the bombings of Beirut.

This Awareness indicates that in connection with individuals, wherein there are accidents, often these accidents come about as a kind of subconscious death wish, whereby the entity seeks to leave the plane and move onto other experiences. This Awareness indicates that in these situations often an entity is not desirous of continuing the life which appears to be somewhat meaningless, and is hopeful that there is something more valuable and meaningful in other realms. This Awareness indicates often this leads to disappointment, and the entity will need to return to finish out the purposes of the life which was evaded.

This Awareness indicates that in other instances, the entity may simply be finished, and be detached enough from this plane as to be called from other planes to move on into other actions and experiences. This Awareness indicates in the event of violence, such as being the victim of murder, this is sometimes a result, or karmic reaction to a previous lifetime, wherein the entity was either involved in a suicide of oneself, or in this or previous lifetimes had taken the life of another. This Awareness indicates there are also those cases wherein it is not karmic at all, but is the result of freak energies coming together in such a manner as to terminate an entity's life.

This Awareness indicates that this often has some energy in connection with the way the entity relates or thinks or acts and behaves, and in this sense the entity can contribute to, on a subconscious level, to his own victimization. This may even be on a conscious level, wherein an entity defies another in some way, or prods another into reacting in a violent manner. This Awareness indicates that still there are those rare instances, wherein an entity is of purity in purpose, in nature, and becomes the chosen victim of a demented soul who is obsessed with a jealousy in seeing the purity, clarity or good qualities of another entity, or in seeing this entity as representing that which deprives the murderer of some desired goal or claim, and therefore, the murderer strikes out against this entity who symbolizes that which he cannot be, or that which he cannot have, or that which is preventing him from having this desired goal.

This Awareness indicates that in this sense, an entity, as a victim, can be basically innocent of any wrongdoing, and still become a victim. The entity may be innocent of any karma from the past, and still be victimized. The entity may be, for example, martyred, even as there have been saints who were martyred just for representing some principle which an entity finds to be unpleasing or reflective in a manner that is not pleasing to the murderer.

This Awareness indicates essentially what this is, is likened unto the entity who looks into a mirror, cannot stand what is seen, and therefore breaks the mirror. The entity who cannot stand to be compared to that which is pure and clear, may seek to destroy that which is pure and clear so there can be no comparison. This Awareness indicates the story of Snow White as representing this same principle as described by Reich in *The Murder of Christ*, whereby the wicked witch cannot stand the thought of such beauty as Snow White, the purity and clarity, and therefore seeks out to destroy this entity in order to not be compared and measured and reflected off of such purity, for it increases the ugliness of that wickedness, wherein there is beauty next to it.

This Awareness indicates that in the particular instance described in this question, it appears that there was a karmic energy pattern between the daughter and her father, whereby both saw themselves as victimized, and whereby the energies of this situation and karma were not balanced according to that which would have resolved differences and brought about a resolution of the karma. This Awareness indicates it appears that this combination will again come together to find another opportunity for reconciliation. (This Awareness does not wish to comment on details of how this will occur, as this would affect the outcome of the encounter.)

A WORD OF COMFORT FOR THOSE WHO GRIEVE

....HOW THE MURDERED ENTITY IS TREATED AFTER DEATH

QUESTION:

Is there anything else that this Awareness could put out that might be of comfort or help to anyone who has somebody close in their family violently murdered, or taken from them?

COSMIC AWARENESS:

This Awareness indicates that wherein an entity is violently murdered, wherein the entity is obviously one who is good and wholesome and loving, this Awareness wishes to indicate that such entities who have not been deserving of violence, who have not brought such on themselves by suicidal thinking, actions and negligence, who have not gone out and searched for violence, or thrown out violence on their own toward others, wherein an entity simply is what is commonly considered a victim of crime, an innocent person; these entities are very carefully attended on the other side, and are assisted in their new life, and wherein they have experienced the short-cut of their program or purpose, these entities are generally given opportunities to move on into areas wherein any karma which they may have yet to work out upon this plane is dissolved, and any debts forgiven, or dismissed, as though the entity had served out the full sentence of his or her life upon this plane in a manner which was satisfactory.

This Awareness indicates that in the event an entity..... (this Awareness suggests the outside light be turned on) (5 minute pause)*

This Awareness indicates that in the event an entity who is essentially innocent of any reasonable cause for being so murdered, that these entities are very carefully attended by those Higher Forces, to be brought into a state of rest and to be given time for recuperation, and to be highly blessed in their soul and in their person, and to be given their choice of returning quickly and under the circumstances which they desire for rebirth into the physical plane, or if they so choose, to move into other directions.

TRANSFERRED LEVELS OF VIOLATION

This Awareness indicates that in the event that it is a karmic repercussion from previous violence perpetrated by the entity, either in a present lifetime or in a previous lifetime, the situation is modified to the degree of karmic debt which may be involved. This Awareness indicates also that wherein an entity emotionally violates others, and is then violated physically, this has its own degree of karmic effect on the outcome and pattern to be carried with the entity. That there are often errors whereby an entity violates others verbally, or emotionally, or physically, and is violated in return not with equal type of violation, but with a different level of violation.

This Awareness indicates for example an entity may verbally shout some obscenity toward an entity, and the entity may simply pull out a knife or gun, or other weapon, and destroy the entity, violating physically in return for a verbal violation. This Awareness indicates that these types of transferred levels of violations are extremely common, that emotional violations often bring reactions of physical violations. This Awareness indicates that it is an area which is most troublesome in the human condition, and which has not been clearly understood by humans at their level of evolution.

IN HIGHER CIVILIZATIONS VIOLATIONS DO NOT OCCUR

This Awareness indicates that likewise, there are those verbal and written agreements which are often broken by physical violations, and because of these haphazard uncertainties as to how others will react, it makes written

or verbal statements to have a kind of insecure or uncertain value in your human society. This Awareness indicates that in more highly advanced planets and civilizations in the cosmos, verbal abuse can often be met with verbal reaction without it moving into emotional abuse, or physical abuse. This Awareness indicates that this as being a measure of evolution in the higher civilizations.

This Awareness indicates that in these higher civilizations, there can be heated debates of a verbal nature without the entities having emotional violations involved. That in those levels wherein the emotional energies are hurled at each other, this can occur without physical violations becoming part of the dispute. This Awareness indicates in the higher civilizations, it is generally unheard of for an entity who is innocent of any violation to be violated.

THE PURPOSE OF SORROW, SUFFERING & TRAGEDY THE TRUE DESTINY OF THE HUMAN SOUL IS REVEALED

This Awareness wishes to clarify something which may assist entities in understanding this and many other mysteries relating to the tragedy, suffering and sorrow on this plane. This Awareness indicates that the tragedy, suffering and sorrow which entities feel and experience is not simply intended as a form of punishment for entities, nor is it something which entities should see as being unjust and wrong. This Awareness indicates essentially, it is a reminder to entities that things which are material and temporal are fleeting, are not the permanent and eternal values. That the physical, material plane brings with it the strings of a thousand reminders, the pains of countless memories, the sorrow of endless hopes and broken dreams, reminding entities that mammon, the physical plane, the material wealth, the sensual pleasures are not that which is the goal of the human soul, but rather that which is the spiritual, the abstract, the heavenly, the eternal, the higher principles of love, light, mercy and hope;---these higher concepts, abstracts and ideals and movements toward the spiritual, are the purpose and destiny of the human soul.

This Awareness indicates that entities who become too attached to the physical values, securities and material pleasures will often be given reminders and will be struck with the facts of reality:--that the material, though solid in appearance, is not stable; and that the ethereal, though invisible in appearance, intangible to the senses, is eternal and will prevail.

AFTER THE LOSS---A NEW DEDICATION

This Awareness indicates for those who lose their loved ones, there is no word, there are no messages, there are no concepts that can heal the pain and sorrow, and the loneliness of the experience; only expression of one's grief, expression of one's grief, expression of one's grief, again, again, and again, until the tears no longer flow, until the pain has ebbed and been released and can no longer ebb. Only time itself, working its magic upon the emotions, memory, the cells, the nerves; the organs of one's body, erasing the shock, the pain, the sorrow, the deep hurt, the guilt, the regrets, the lamentations: "If only I could speak again to my loved one", the magic of time as that which has its effect, and when entities have fully expressed their grief, again, again and again, have looked at their guilt, have weighed their guilt: "I should have done this. If only I had known. If there was some way I could have had forewarning. I wish I had done this. I can't accept what happened. I wish I had said something different. I regret my actions"...all of these thoughts and lamentations after the fact, when these have all been processed through and through and through, and the entity begins to realize there is no undoing of that which has been done, and that the moving finger writes, and having writ, moves on, then entities may begin to reflect back on the respect they held for their loved one, and even if feeling some guilt,

or feeling somewhat to blame for what occurred, entities may look at their loved one and recognize strength from that love, and may look at their own life, and rather than falling apart and becoming weak and broken, they say to themselves: "I will do something good for my friend, in honor of my friend. I will dedicate a portion of my life to give some service, to do some good which my friend would have done for me if I were gone and my friend were here."

This Awareness indicates that wherein entities take on the attitude of doing something in dedication to the loved one who has passed over, entities then gain a strength, a power, a vitality, an inspiration from those loved ones who have passed over, and in this manner the loved ones then can serve and finish out and resolve much of their own karma for having so inspired those remaining on this plane to do something good. This Awareness indicates that it is in this manner that many great accomplishments which have brought benefits, joys and moments of peace to others have come about.

This Awareness indicates that many of your great artists, many of your great doctors, many of your great philosophers, thinkers and statespersons have experienced great sorrow and loss of a loved one, and by tapping into that energy, using the energy as a propulsion to do something in honor of their loved one, entities can often become exceedingly successful in endeavors which they might otherwise never achieve in their own name, under their own personal ambition or desire.

This Awareness indicates that love as a powerful agent, when used in this manner as inspiration. This Awareness indicates that it is very easy for an entity to set out to accomplish something, and equally easy for the entity to give up on the something which he or she set out to accomplish. The measure of desire to accomplish something will often determine whether the thing is accomplished or not. This Awareness indicates the greater the desire to accomplish, the more probable the accomplishment will be.

This Awareness indicates that the measurement of one's desire may be seen in their willingness to suffer pain, and the amount of pain they are willing to suffer in order to accomplish their desire. This Awareness is not advocating that entities haphazardly create desires and suffer for them, but suggests that entities, in choosing certain values in life, may then, once having picked their purpose and direction, set their values, may determine their desire for fulfilling these purposes and this may be measured by the willingness and degree of pain the entities are willing to suffer in order to achieve their purposes.

This Awareness indicates that entities driven by inspiration from loved ones, or from some ideal which is held most dear; these entities generally are able to suffer greater pain before giving up on their pursuit. This Awareness indicates that it is in this way that entities can conquer and achieve the impossible dream. This Awareness indicates that wherein entities hang their life on the energy of another being, and wherein that entity passes over, and wherein the first entity cannot let go and use the love which is felt for the entity who has passed over, use that love as inspiration to do something in honor of that person, but wherein the entity, rather than moving forward in a positive and constructive and inspirational manner, feels sympathy, loneliness and self-pity for having lost the security of the loved one, the presence of the loved one; that entity, in taking that path shall surely move toward death in one manner or another, unless the attitude is reversed.

This Awareness indicates rather than moving in this direction, entities are asked to take that energy of your loved one, and use it for inspiration in your own life, and tell yourself: "I am doing this in honor of the one I love." This Awareness also suggests this not necessarily to be

used after an entity has passed over, but may also be used in honor of the one you love who is still with you.

* The 5 minute interruption indicated earlier in this reading happened because Seigfried, the faithful hound who guards our shop and who sits outside the cottage of Vicki T. where the trance sessions are held, suddenly let out a hellacious series of loud, ferocious barking which started at the door of the cottage and continued as he raced up the long winding driveway to the road above. Seigfried has a number of very distinguishable barks, --from the hysterical yelps when he has the tomcat treed, to the authoritative warning he hurls at the neighbor's dog down the road who happens to sidle by. But this particular outcry (and we have heard it numerous times when trance sessions are occurring) was a bellowing hue and cry signifying that the hound was on the attack. When he reached the top of the driveway, we could hear his frenzied barking as he turned back toward the cottage, but going into the forest which surrounds it. When the circle had been completed, the barking stopped and Seigfried returned to his post at the front door. After the trance I asked Paul what he saw from the trance level and why Awareness had interrupted the reading with the request that we turn on the outside lights. He said that from the trance level he suddenly felt a huge energy, a negative force approaching the cottage. He had felt this several times before when in trance, he revealed. The light, he explained, helped to drive the force away; an alien force cannot stand a light of any kind. And Seigfried (an animal Awareness has indicated drives alien forces away) had immediately picked up on this particular one and was simply doing his job, for which he was later rewarded with a piece of candy (which he loves). I find it particularly interesting when these events occur, that Seigfried almost always makes an entire circle which includes the cottage, --a clockwise circle. In the Awareness Development Classes, entities always form a circle the first thing, circle the room in clockwise fashion, which protects those therein from an outside or alien force from interfering. Avaton.

THE NATURE OF KARMA AND GRACE

...HOW TO BYPASS THE DIVINE JUSTICE OF THE UNIVERSE

QUESTION:

Awareness, in reference to the karma involved between two entities where violence has occurred; if for example, Joe kills Bill in one lifetime, and Bill, in the next lifetime, kills Joe...does this generally resolve the situation once and for all, or does Joe feel resentment for being the last one killed, and carry this over into another lifetime to revenge himself on Bill again?

COSMIC AWARENESS:

This Awareness indicates that this cause and effect, this wheel of karma, is that which is not arbitrarily administered by Higher Forces, but which is a kind of natural law, which, when understood, can be broken. This Awareness indicates that this likened unto breaking the laws of nature by understanding what makes these laws. This Awareness indicates the entity who understands how weather is made, may then understand how to make weather. The entity who understands that wherein Bill has for example, killed or wounded Bob the entity, and Bob has the opportunity or right, in a karmic sense, to do likewise to Bill, this may occur by natural law, whereby these entities go around and around, back and forth, lifetime after lifetime, coming back and dueling with each other again and again. This as following the *Law of Nature*, or the *Law of Karma*.

This Awareness indicates that essentially, this is that which is the Divine Justice of the universe, but is not the highest value, for above justice there is mercy, and wherein the entity who is caught on the wheel of

karma, following the Divine Justice of the universe, killing Bob and being killed by Bob, again and again, wherein this entity suddenly realizes the higher law of mercy, the entity decides "I shall cease killing Bob and being killed by Bob. It is my turn to kill Bob. This time I shall cease doing so."

The entity, in ceasing to follow the natural *Law of Karma*, then is freed from that wheel of karma, from that pattern of karma, and the entity is under grace, and so is Bob, and the two entities then are free from the Divine Justice of the universe and under grace, are allied as friends and no longer needing to be enemies in a karmic struggle.

This Awareness indicates that entities in studying the above allegory can apply the same principles to any actions other than killing and being killed, and will better understand the nature of karma and of grace. This Awareness suggests that entities for example who are involved in theft, stealing from another, will be stolen from, will have their items stolen. Entities who give generously to others will have things given generously to them. This Awareness indicates that this as the Divine Principle of Justice in the Universe, or that which is karma.

This Awareness indicates however, above the *Law of Karma* is the *Law of Grace*, whereby when entities are merciful, grace does appear. This Awareness suggests this not only in terms of mercy to others, but also in terms of mercy to yourself, wherein you do not judge yourself or others with the *Law of Karma*, but rather that you discern the truth and have mercy on yourself and others. This Awareness indicates this essentially is the heart of the Christian concept of seeing yourself as a sinner, that being the judgment of self, and seeing mercy dispensed from the Christ, whereby the self, who is a sinner, is mercifully forgiven, therefore grace can reign over the *Law of Karma*, and the Divine Principle of Justice is set aside by grace and mercy, and the entity on the wheel of karma is redeemed and taken off, and free from that wheel.

This Awareness indicates this of course applies to every action and is not simply a one-time event, but wherein entities are merciful to themselves and others, then entities are eternally free from the wheel of karma. This Awareness indicates this as a matter of degree, discernment and refinement.

For a complete version of these various Laws, please refer to the booklet, "The Cosmic Laws of Cosmic Awareness," (\$3.00 from C.A.C.)

THE DANCE OF CONSCIOUSNESS

(Closing Message)

This Awareness indicates that the movement of energies in one direction will always imply movement in the other direction, and the positive or negative approach or the creation and manifestation followed by the absence and vacuum, or the absence and vacuum followed by the manifestation, the appearance and disappearance of the thing, the person, the idea, the concept, the event, the situation...all of these emergencies, emergences, and their dissolution, dissipation; all of these movements of energies in time and space, in life, in death,--all of this is the dance of consciousness, which is eternal, everlasting, and is the realm of permanence; and in this dance of consciousness, entities may find themselves and lose themselves, and find each other and lose each other, and find divinity and lose divinity, may find joy and lose joy, may find sorrow and lose sorrow, may experience pain, may experience pleasure, and in this dance of consciousness, entities will

prevail everlasting, and that which holds sorrow for a moment shall pass with time, and that which holds pleasure for the moment will pass with time, for time is the partner who dances with the consciousness.

BRINGING THE DARKNESS INTO LIGHT....

AN EXERCISE C.A.C. MEMBERS CAN DO
TO HELP TRANSMUTE THE ALIEN FORCE

QUESTION:

R.B., of Phoenix, Arizona, wrote us an interesting letter recently. I'll read his statement and ask Awareness to comment:

"On a recent round-trip flight back East, I boarded the jet, blessing and surrounding everybody and everything involved with White Light, ostensibly to balance out the striking air-traffic controllers. However, once safely aloft it seemed to me the most natural thing to do was to continue blessing. A window seat helped. The immediate return, of course, was immensely enjoyed as I channeled blessings and light out over wide spreads of land and sky, as far as I could see. And while changing planes, I continued sending all passengers seen a little extra love and Light for their lives and journeys, wherever they might go.

"Afterward, it seemed that this channeling is just the thing the New Age life is/will be made of: blessings all and everywhere, each of us finds ourselves. Not for personal safety concerns, but as recognition of what 'is'. And it would also seem that present-day travels by Awareness Movement personnel of all degrees, when accompanied by this blessing-channeling, would create and/or strengthen a network grid of Light and love across the country and around our world.

I simply would like to share this influential little personal insight with others, and if possible, have Cosmic Awareness comment further upon how this channeling method may be most beneficially used by and for all."

And he signs it:

"Blessed, sacred, whole.
Changing, sacred, whole.
Ever-present, sacred, whole."

COSMIC AWARENESS:

This Awareness indicates that this as an action which exemplifies the *Law of Love*. This Awareness indicates that essentially the action of blessing others is an action of giving love to others. This Awareness suggests that wherein all members of your organization, and others who wish to participate in this action, wherein all entities make this an action of their lives, wherein each person they see, they emit a beam of love-energy or what may be termed a blessing, wishing a blessing to that entity, wherein this occurs moment to moment with each individual, expressing a feeling of love toward whomever is before you; this Awareness indicates that wherein you express this energy, blessing each individual and also sending and wishing for healing energies to enter that individual, this can have a profound effect upon the mass consciousness within a short time.

**WHERE DOES THE ALIEN FORCE
GET ITS POWER? FROM YOUR ANGER.**

This Awareness indicates that the Alien Force gets its power from having entities angry at each other. This Awareness indicates that each time you send a beam of blessing toward another, that entity feels better, and will pass that beam toward others, through better behavior toward those others. This Awareness indicates that in this manner, entities can do their part to bring in the New Age, and to heal one another, and to love even those who are strangers.

This Awareness indicates that the action of looking at an ill person, or one who is down-trodden, one who is weak; looking at such an entity and sending a beam of healing energy, a blessing, wishing a blessing or visualizing energy going to that entity; this action is that which not only assists the entity, but also will assist yourself in making yourself feel better about yourself, and about having done some little thing for that entity.

This Awareness indicates that often entities subconsciously feel guilty when looking at one who is suffering because they cannot, or do not do something about the suffering, or because they are healthier than the one who suffers. This Awareness indicates by sending a beam of blessing toward that entity, you not only assist that entity, but prevent yourself from feeling that you have done nothing, and therefore, are somehow guilty.

This Awareness indicates that entities tend to have a great concern for survival. This Awareness indicates that survival essentially, means to live longer than someone else. This Awareness indicates that entities do not generally think of survival in those terms, but basically, to survive simply means to live longer than something else. This Awareness indicates it is because of this concept of survival that entities sometimes enter into that competitive state, wherein they seek to endure, in some activity or in life itself, longer than another and, become so concerned with such survival that they wish to put the other out of commission before they themselves are put out of commission. This Awareness indicates that this leads to the concept of enjoying, not necessarily consciously, but somehow, unconsciously or consciously, enjoying the fact that you have survived longer than someone else. This Awareness indicates that this requires only a slight shift in consciousness to create a feeling of pleasure at the death, or end of another's action.

This Awareness indicates that it is only a slight shift of consciousness to enjoy seeing the illness or weakness or possible termination of another, for the joy is not necessarily in seeing the other end, but rather in knowing that you have survived. This Awareness indicates that it is this particular concept which is the key to the bloodlust of the Luciferian consciousness, and it is this particular concept of survival and the joy of being able to outlast something else which becomes perverted into a concept of enjoyment at the observation of death and destruction of others.

This Awareness indicates it is for this reason that certain entities enjoy watching movies or actual scenarios, accidents or war, wherein great violence occurs. This Awareness indicates at the heart of this bloodlust is in actuality the pleasure of having survived that experience. This Awareness indicates that wherein entities think along these lines of survival, and make this significant in their lives, it can lead to these energies of the bloodlust. This Awareness indicates however, wherein entities think along the lines of giving blessing to those who are met, to those who are seen, blessing each person with Light, regardless of their condition, regardless of their demented or troubled or distorted value systems, or their crippled bodies or emotions, or their perverted souls, it is appropriate that an entity in giving Light and blessings, not simply give Light and blessings to those who are *already* highly evolved and near perfection, but also to those who are down-trodden, weak, in error, on the wrong path, perverted, tortured by guilt, by the energies not of a beneficial quality.

This Awareness indicates also, that wherein entities see those who are emitting hostile and dark energies, rather than looking at such entities with hostile and dark anger, this Awareness suggests that you wrap that entity in an energy ball of Light and visualize all of those dark forces trying to escape through that ball of Light without getting any enlightenment. This Awareness indicates that as you make this image, you will be protecting others from the Dark Forces surrounding that entity, and you will also be creating a Light Force around the entity so that the Dark Forces cannot escape without becoming enlightened, and the entity will need to deal with the Dark Forces within himself or let them flee and become enlightened.

This Awareness indicates that this action of sending blessings to others and of wrapping others in Light, even when they are of a negative nature, is that which is of great benefit to yourself, to others, and to others around them.

(Closing Message)

This Awareness indicates that the weakness which is always at the heart of compromise in terms of one's ethics and principles and ideals, the weakness is that which relates to the desire for security, and that of survival, and the security which entities seek in reference to the material security and the survival of the material body and its wealth, is that which betrays the entity's soul when it is given greater significance than the security of eternal life.

WHAT ARE THE LIGHT FORCES

DOING THESE DAYS?

QUESTION:

This question by M.M. of Canton, Ohio, is probably more for perhaps future essays by Awareness than a specific question at this time, but I'll read it:

"Could we have a few questions about what the Light Forces are doing for awhile instead of the Dark Forces and their antics? We all know there are always both of these forces working within the scheme of things. Let's get as specific about the Light Forces as we have about the Dark Forces, and what the movement of these Light Forces are resolving, and how we can help with that focus, and what the Light Illuminati is doing."

COSMIC AWARENESS:

This Awareness indicates that essentially this is what the messages have been referring to today. This Awareness indicates that the Light Forces as having had to move in relative silence, and without great attention, or the Dark Forces would have moved in to prevent actions by these Forces of Light. This Awareness indicates that by focusing on the Dark Forces, their plans and actions, this Awareness indicates *It* has allowed the Light Forces to move in certain areas, to make certain adjustments which will have their profound and certain effects.

This Awareness indicates that the spotlight of attention, if shone upon these Forces of Light, as occurred in the York convention of 1977, would have simply brought down greater Dark Force to hinder and disrupt those energies. This Awareness indicates therefore, the spotlight of attention being put upon the plans and

actions of the Dark Force, as that which allowed greater freedom for the Light Forces to have their effects on the inner planes, and to have their repercussions on this physical plane.

WHEN WATCHING THE SORROW AND TRAGEDY...

HOW TO KEEP FROM GOING MAD

(OVERCOMING INTOLERANCE)

(Excerpt from a Personal Life-Reading)

QUESTION:

The great G.I. Gurdjieff said that learning to tolerate the manifestations of others is the most difficult thing to accomplish. How can I find the strength to accomplish this, so that I do not go entirely mad from the anguish of witnessing such tragedy and stupidity upon this plane? Help me to align myself with the Higher Forces, as I am entirely too vulnerable to the lower forces.

COSMIC AWARENESS:

This Awareness indicates that in order to properly deal with these lower vibrations, so that you yourself do not go mad, this Awareness suggests that you recognize that in one sense, those energies of the lower vibration may be classed as already having gone mad. This Awareness suggests that in this type of reference, it becomes more of a meaningful action for you to avoid joining in with those forces and to keep your own sanity, and not to be intolerant of those who have already gone mad, but rather to be understanding and recognize how any one living on this plane could easily slip into being as mad as any of those others.

This Awareness indicates that essentially, wherein an entity violates another, wherein an entity violates oneself, wherein an entity violates the earth itself, wherein an entity violates plants, trees, animals and other creatures, it may be considered that the entity, in those respects, has a certain tinge of madness in his or her own makeup. This Awareness indicates that wherein this madness is prevalent among many, it may be seen that the masses, in some degree are mad, or less than wholly (holy) and sane.

This Awareness indicates that wherein one is capable of seeing this madness in others, one must also watch that one does not become intolerant of others to such a degree as to also become mad in certain areas of one's consciousness. This Awareness indicates that it is a remarkable person who can remain sane on all levels, and that in one sense the entity who can tolerate and allow, and witness life as it is, without judging, without condemning, that entity is

sane on all levels. This Awareness indicates that the entity who is intolerant, is judgmental, is hostile towards others on certain levels, that entity on those levels may be considered as having a tinge of insanity. This Awareness indicates that it is possible for an entity to be sane on certain levels at certain times, and be insane on those levels at other times. This Awareness suggests that therefore, entities may in fact be both sane and insane at different times, sane or insane on different levels or different delusionary areas, or in certain aspects they may be sane, while being insane on other aspects.

This Awareness suggests therefore, that in recognizing this, it is much easier to tolerate others for their ineptness, by recognizing the problems associated with the different types of insanity, for each entity, to some degree may experience this. This Awareness indicates that wherein an entity sees the other person as evil, or wrong, or out of line with proper behavior, this can create intolerance, but wherein an entity sees another as being uninformed, lacking in understanding, having an area of insanity, you can tolerate the person, even though you need not tolerate their action, and may take action to correct or to alter the effects of their insanity.

This Awareness indicates that when doing so, it is not necessary for you yourself to become emotionally charged over their emotional imbalance or their social imbalance or their form of insanity. This Awareness indicates that the only reason an entity ever becomes totally intolerant of another is when that entity somehow feels threatened by the other, or when the entity feels he is incapable of coping with the results of the other's behavior.

This Awareness indicates that when you have the understanding of your own life, what you wish to do with your own life, where you wish to take your own life, and when this is strong enough with you, that you do not feel others can threaten your purpose and direction, or lead you astray from your direction, then you will not feel so intolerant of others, although you may find it necessary to work with, to help and to alter the paths of others, so that they might find expression that is more conducive to harmonious lifestyles and to contributions to society and to life, which are beneficial. This Awareness indicates that wherein an entity is living a lifestyle which creates certain hardships for others, it is difficult to approve of that lifestyle, but it is not difficult to recognize that there is a need for some form of education or program or activity that will change this entity's understanding so that he or she creates a lifestyle that is more beneficial for others and for themselves.

This Awareness indicates when this kind of realization occurs, you may find yourself moving into actions whereby you share and teach others, rather than being content to criticize or judge or condemn others for their inept behavior. This Awareness indicates that this then becomes an action whereby intolerance is not an issue, but rather assistance for those who are in paths of error, assistance to help teach and educate others is that which becomes your purpose.

This Awareness indicates that the tendency and desire to see a perfect world is that which creates the attitude of intolerance, and when you recognize there is no such thing on this plane as a 'perfect world', then you may cease being intolerant, and recognize "this place needs to be cleaned up, improved," and that you may also discover that you have certain abilities and energies which can be used to help clean up and improve this place.

A STATEMENT TO THE C.A.C. MEMBERSHIP REGARDING LEE IAN MICHAELS

From a C.A.C. General Reading,
Aug. 11, 1982

QUESTION:

Awareness, since we sort of launched Lee Michaels with that "address to the Universe" reading, he now has probably many hundreds of our members who have written in to the address we published to get on his mailing list, and to get various types of readings from him. I'd like to ask at this time, if it will be necessary to make some kind of statement from headquarters to the members to sort of be on guard about this situation, or should we hold this in abeyance?

ED's Note: I asked this question in the reading following the previous reading, whereby in the Opening Message, Awareness informed us that the plug was being pulled on Lee Ian Michaels because the entity allegedly was using his psychic abilities in a self-serving action. This reading was published in 'Revelations of Awareness' No. 82-18 (How you can help prevent nuclear holocaust); \$3.00 from C.A.C.

COSMIC AWARENESS:

This Awareness suggests that it appears appropriate at this time that a brief statement or warning be issued. This may be set off in a box-like area, or on a separate colored page, indicating to entities that Lee Ian Michaels has moved into an action of communicating to many entities that he intends to take over the membership of Cosmic Awareness Communications, and that he simply used the reading for publicity in order to promote himself. This Awareness suggests a pause.

This Awareness wishes at this time to relay a brief message to the membership regarding this, which can be presented in your publication. This Awareness indicates that in the month of April, an opportunity was given whereby Lee Ian Michaels was permitted to address the universe, and was offered the chance to make certain communications and connections in those inner planes which would be of benefit to this outer plane. That the entity, rather than following through on this action, chose to promote himself and to raid the membership of C.A.C., claiming to be an Awareness channel, though he had never previously channeled this Awareness, nor did he, in his trances, actually channel this Awareness.

The entity did move into various places on the East coast, claiming and promising to do great works, and this entity did leave many others disillusioned, and did much damage to the Cosmic Awareness Communications organization, disrupting relationships, agreements, and creating concern among individuals in regard to messages which he delivered in the name of this Awareness. This Awareness indicates that the entity as having misused the energies which were given to him to do service, and used these energies for purposes which were designed to serve himself.

This Awareness indicates the entity openly bragged to various members of Cosmic Awareness Communications as to his intentions, and as to his use of these energies for self promotion. This Awareness indicates that therefore, it suggests that though the entity has had ample opportunity to be of service, even though the entity does have certain psychic abilities and can be of great service to entities if he so chooses, this Awareness suggests that entities be wary, be careful in regards to involvement, investment, or in taking advice from this entity.

This Awareness is especially concerned that those entities who have been told by this entity that they would die or would be killed if this or that event occurred, or as in one instance, that the entity would die in three years. This Awareness indicates that this kind of message as that which is appalling to this Awareness, and the entity Lee Ian Michaels, having a background in hypnosis, fully understands the power of suggestion, and its effect on entities, and that this action as that which must not be allowed.

This Awareness indicates the entity essentially has blown his opportunity to be of service at this time. That the entity still may, within two years, advance sufficiently to again have an opportunity to be of service. This Awareness suggests however, that this time, the members of C.A.C. be especially cautious in dealing with this entity.

QUESTION:

Awareness, when listening to Lee, and how he sees the scenario and what not, it really sounds and feels like he's really believing what he's saying. Has he succeeded in fooling himself too?

COSMIC AWARENESS:

This Awareness indicates this to a degree. This being the basic flaw which this Awareness mentioned previously in regard to his lack of ability to question himself. This Awareness indicates this as a karmic flaw which has come through from his life as King Louis the 14th. This Awareness indicates that King Louis the 14th became a king at the age of 3 or 4, was taught from childhood that he was of divine nature, divine substance, and that the noble people of France were dirt beneath his feet, and that he was to disregard anything they said as being foolish and of little significance, and the more they sought to please him, the more aloof he was to treat them.

This Awareness indicates the entity was taught to promise everything and deliver nothing, and to look at the peasants as though they were his friends, but remember that they were nothing, and in speaking to peasants, to tell them how much they meant to him, but in fact to keep them in their place, and use them as he desired. This Awareness indicates that this basic belief that he was Divine and unquestionably accurate in everything that he said or did, as that which affects the basic thinking of this entity, so that he has difficulty in seeing the flaws in his assumptions and the conclusions he may reach from little or no substance.

This Awareness indicates this also is in some levels contributing to his psychic abilities and to those qualities which the entity can develop, whereby he has faith in those intuitive aspects of his consciousness, and the mind does not check itself at every move. This contributes to greater psychic abilities. This Awareness indicates however, it also allows for delusions and assumptions and deceptions which may crop into his thinking and not be looked at or explored with substance or reality.

This Awareness indicates the entity takes the slightest hint of information, builds this into a great presumption, as though it indicated something of great significance other than what it actually indicated, and from this, the entity begins to build more and more structures, concepts and ideas upon these presumptions, likened unto one who builds castles on sand. This Awareness indicates the entity half believes everything he states, and so long as others do not confront him or deny his statements, he believes them to be factual.

This Awareness indicates that it is necessary for this entity to become more grounded in reality by having others recognize that much of what he says is pure baloney.

ED's Note: We have heard from some CAC members that they had Tarot readings by mail from the entity (he charged them \$75) and received certain past-life information that hadn't been revealed in readings given by Awareness. Usually this information reveals that the entity was some great person in previous lifetimes, such as a King or great god. You don't get this info in his \$25 'quicky' reading, but for \$75 he will tell you what you want to hear. For you entities out there who may feel left out because in your Awareness reading you were not told you were one of the disciples of Jesus or something similar, you might, for the right price, be able to squeeze this information out of Lee Michaels. Since there are many entities on the inner planes who can read the Akashic Record and pass this information along to the medium requesting it, the information could very well be correct. (Cosmic Awareness is not the only force which can correctly read these Akashic Records). However, when forces of motivation which are other than the highest are involved, the possibilities are that the information is not 100% clear and could be tampered with by the lower astral forces in order to fool, confuse or appeal to the egos of entities who desire to have a past life of some significance. However, if you can afford this type of reading and you find the information pleasing and it contains no threats or conditions or intimidations of any kind, then in the opinion of this editor, you can consider the information as valid.

As for the C.A.C. staff, and also for the Interpreter Paul Shockley, there is but one entity in whom we can always rely on for a clear, succinct, right-on and honest Tarot interpretation without bias or bull, and that is from the entity Sam Millar, the official C.A.C. Tarot Interpreter, whose channel HAS been cleared AND recommended by Cosmic Awareness. (Sam still only charges \$30 for his readings which come on a one-hour tape cassette). Those of you contemplating sending Lee Michaels \$75 for his Tarot reading, can do so; but for us here at the C.A.C. office, we are sticking with Sam Millar and still recommending his services. Incidentally, Sam does your reading the same day he receives your questions and fires the tape back via First Class Mail within 24 hours. Anyone wishing a reading from Sam can obtain the proper form and other information by simply writing to Vicki T. in care of C.A.C., or refer to the booklet, "Personal Services to the membership".

STARCH BLOCKS ---

DO THEY REALLY WORK?

QUESTION:

Everybody seems to be writing in asking about 'starch blocks'. I'd like to ask Awareness if these things actually work, and are they safe?

COSMIC AWARENESS:

This Awareness indicates these do work, but there is risk involved. This Awareness indicates that some of the particular amino acids and enzymes which are blocked by this are necessary for entities to maintain good health. This Awareness indicates that in many instances, entities who block certain of these enzymes and the amino acids involved in absorbing starch also are disrupting their immunity system and can create other side effects. This Awareness suggests that these be used with caution. This Awareness indicates that these not be used as..... This Awareness suggests that it essentially is better to avoid the use of the starch blockers, that there are other ways which are more beneficial, with less

ED's Note: the following letter was sent in to CAC headquarters by a CAC member after reading in 'Revelations of Awareness' No. 82-18 that Awareness had pulled the chain on old Lee. This letter expresses some of the feelings the CAC staff has had ever since this unfortunate matter occurred. Maybe it was supposed to have happened this way. What do you think?

Dear C.A.C.

In reading C.A.C. newsletter No. 82-18 re: Lee Michaels' having "fallen by the wayside"--or at least letting go of more important things for lesser interests, --It came to me that we are fortunate in his lessening at this point in time. Why? Because I found myself so 'overwhelmed' by his powers and abilities that I found myself with the attitude of 'let George do it' (in this case, 'Let Lee do it', let Lee carry the load) which is not fair. So after reading about all this, the idea came that I--WE--are able and SHOULD do our own share of communicating with the astral and etheric realms. It is not a 'privilege' for us to all help our planet earth and all living creatures that experience this earth life,--it is our DUTY as aware entities, as spiritual beings.

I guess I just want to say, "Thanks, Lee,--we needed that"--and we bless Lee Michaels for showing us the way, and will hold out our hand, mentally, to keep him close in love. Sincerely, Elsie L.

hazard involved.

This Awareness indicates that for entities who are not suffering from hypertension, phenylalanine is beneficial in curbing the appetite, and this can be helpful in weight reduction. This Awareness suggests that those experiencing hypertension should avoid use of this without consulting their doctor. This Awareness suggests that any weight loss program should be under supervision of a doctor, particularly wherein a weight loss program involves more than ten pounds as a goal.

This Awareness indicates that entities, in seeking to lose weight, can often affect their metabolism so that the vitamins and mineral balance of the system is thrown off. This Awareness indicates that many entities have experienced years of perfect health, wherein no problems have ever occurred in their health, but because they desire to tamper with their system, go on a diet, or take vitamins that they feel might be beneficial, something occurs, and they throw-out the metabolism so that their health begins to collapse.

This Awareness indicates that this is relatively rare today more than in the past, for there are so many other reasons why entities' health collapses today than in the past. This Awareness indicates that the pollution factors, the air pollution, job pollution, the intake of lead, mercury and other metals into the system can throw an entity's health out of balance on many levels so that the entity who once was in excellent health, can, within a very short time, suddenly find himself or herself deteriorating greatly.

This Awareness indicates that in terms of losing weight, this Awareness suggests a complete program whereby the entity relies not exclusively on diet, but also on mental and social tools for weight loss. This Awareness will, at a later time, present a complete reading on approaches for losing weight.

WHO KILLED NORMA JEAN?

QUESTION:

They have just reopened this whole thing about the death of Marilyn Monroe, and a lot of information is going out in the newspapers, so I'm going to read this and ask Awareness to comment, in the hopes that it will save an onslaught of questions coming in on this subject:

"A private Los Angeles investigator has offered a \$10,000 reward for Marilyn Monroe's diary. He says it will prove that the death of the sex goddess 20 years ago this week was a murder ordered to stop her from exposing a CIA plot to kill Fidel Castro. Milo Spilileo, director of the Nick Harris Detective Agency said yesterday, that after spending more than a decade investigating Monroe's death, "I can say with one thousand percent accuracy that she was murdered."

Spilileo insists the 36 year old blonde was injected with drugs by a dissident faction of the CIA to keep her from holding a news conference she had planned for the next day to disclose the plot to kill Castro."

Would Awareness give any more information on this subject of Marilyn Monroe, or whether this information just read is true?

COSMIC AWARENESS:

This Awareness indicates that this information as being approximately 95% accurate. That the entity has essentially unravelled the essence of the mystery behind this entity's death. This Awareness indicates that more will be brought to light in regard to this, as the diary is found, and information is released. This Awareness indicates that it appears there are still certain forces seeking to prevent the release of this diary, and also there is the realization of the danger involved in possessing or releasing this diary, therefore, these energies are not clear at this time as to the proper timing and events which will lead to this release.

REVELATIONS OF AWARENESS is a cosmic newsletter published every two weeks by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507.U.S.A.

This Awareness indicates that in terms of the entity Marilyn Monroe and her association with the President John Kennedy and Robert Kennedy, that these relationships with these entities were watched from the beginning, and that the CIA was highly concerned about information which passed between these entities. This Awareness indicates that it appears this also reached into areas associated with Onassis and the mafia, and their intrigues, both in Hollywood and in government levels.

This Awareness indicates that the entity Marilyn Monroe as having reincarnated, and is now a young girl of approximately ten or eleven years of age. This Awareness indicates that the entity Robert Kennedy as also having reincarnated. This entity as approximately 9 or 10 years of age. The entity Jack Kennedy as appearing to be approximately 13 to 15 years of age. This Awareness does not wish at this time to reveal locations of these entities.

ED'S Note: for more information on conspiracies, please refer to 'Revelations of Awareness' No. 80-29 (Beyond the Gemstone File);\$3.00 from C.A.C.

"In the long run, the people are going to do more to promote peace than our governments. Indeed, I think that people want peace so much that one of these days governments better get out of their way and let them have it."
