(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

THE COSMIC AWARENESS

Forecast for 1983

(Opening Message C.A.C. General Reading)

COSMIC AWARENESS:

December 2, 1982

Paul Shockley, Interpreter

This Awareness suggests that this be a brief forecast of what entities may expect during the coming year. This Awareness suggests that this as relating to the year 1983, and the energies which are in movement at present, and which will tend to flow throughout the coming year. This Awareness indicates that this information to be given shall center largely around the urgencies at hand during this time period, and also shall center around the activities of the United States in its relationship with other nations in particularly, for the majority of your membership as being within the United States. This Awareness indicates however, that *It* does not intend to limit this simply to this United States.

NO NUCLEAR WAR SEEN IN 1983

This Awareness indicates that two major areas of concern are seen as being urgencies and problems during the year 1983; this being the international political scene, and the economic scene. This Awareness indicates that in reference to the political concerns throughout the period of 1983, that it appears the greater dangers in reference to international relationships is that which occurs during the late spring and summer of this year. This Awareness indicates that there appears to be some potential for conflict during that period. This Awareness indicates however, that throughout the year of 1983, there is not seen any indication of what might be termed nuclear war. That this, particularly in reference to the concept of a large-scale nuclear war.

This Awareness indicates that this does not rule out the possibility of some nuclear mishap, although this is not seen at this time as being part of the energies of the upcoming year. This Awareness indicates rather, there are seen energies of conventional nature and of a subversive nature which occur in various countries during this period. This Awareness indicates the most dangerous period appears to be in June,--this associated with the Middle East. This Awareness indicates that also, throughout the period of 1983, there appears to be potential and continuing conflict in reference to the area of the Caribbean and South American countries.

This Awareness indicates that it appears that in the areas of the Mediterranean: this as being a somewhat volatile area. This Awareness sees Italy and Egypt in particular as having difficulties. That also those Middle East nations as continuing to be in conflict. This Awareness indicates that the Egyptians appear to have not only internal difficulties, but also problems which are brought on from neighboring nations and their relationship, and agreements with these. This Awareness indicates that Italy as seen having some turmoil, brought on by economic difficulties and internal strife which may lead to some acts of terrorism, or subversive sabotage and activities of that nature. This also may lead to political upheavals in the government.

This Awareness indicates that France as also having similar difficulties, but perhaps to a lesser degree. This Awareness indicates that this appears to be centered largely around economic strife and labor unrest. This Awareness indicates that there appears to be a relatively stable period in Britain, except for some political changes which may occur in a more peaceful manner, whereby the powers are shifted within the government levels. This Awareness indicates that those countries not mentioned are relatively stable in terms of not being particularly noticeable in terms of political unrest.

In Germany--A growing movement toward fascism

This Awareness indicates that it appears Germany will have much more of a voice in matters. That its economy will improve somewhat. That there appears however to be within Germany a growing movement toward the more conservative side in political movements; this as a trend which starting this year, may increase during the coming years toward that which is known as fascism. This Awareness indicates this as yet in its early and vulnerable stages.

This Awareness indicates that there appears to be potential for conflict in some areas within Greece, Turkey, (in particular Turkey), and continuation of the problems already besetting the other Middle East nations.

This Awareness indicates that Russia appears to be undergoing a more assertive approach. That essentially, the actions of Brezhnev during the past several years have been controlled by the forces which are still in power in Russia, yet the removal of Brezhnev as that which has allowed for a change in posture to occur without it being clear as to the direction which this force will move. This Awareness indicates that the uncertainty as to this direction as that which is now useful to the Kremlin in its plans for the near future. This Awareness indicates that essentially, however, the general approach is that which will become more assertive when the time is right, and the movements may take form in intrigues rather than open aggressive actions.

This Awareness indicates in reference to the relationship between China and Russia which is developing, that this is not seen as developing in a way which will be permanent or bring about the alliance which once existed. This Awareness indicates however, that there is a mutual relationship between these powers, which in spite of surface appearances still retains some semblance of agreement and it does not appear likely that this agreement will be broken or shattered by any activities which may be brought on from Western pressure.

For Europe--Unrest and cries of "No Missiles"

This Awareness indicates that there are areas of conflict between the Russians and Chinese which will not be resolved in spite of various meetings and efforts at negotiating these conflicts. This Awareness indicates that it does appear that Japan will experience some greater difficulty in the economic sense. The industrialization of this nation as that which has reached its peak, and will now begin to wane somewhat during the difficult economic period. This Awareness indicates that Europe will experience more unrest from its own people. The people becoming more vocal in reference to issues which threaten their own security. This Awareness indicates this in reference not only to economic security, but also in refer-

ence to the global security and threats which are brought on by policies of NATO and the military potential in reference to the placement of missiles in Europe. This Awareness indicates that this appears to be such as will create much discord among the people toward those governments which approve of this plan. This Awareness indicates that essentially, the European countries will be more unsettled during this year of 1983 than for several years past. That the energies being such as to create greater turmoil because of economic restrictions on the people, and also the feeling that the leaders, being so concerned with making war and having agreements with countries in regard to military bases and programs, that these countries are being used and the people are being threatened by these programs.

Depression will thwart U.S. war build-up

This Awareness indicates that in the United States, the economic situation will continue somewhat sluggish, leading to a political unrest in regard to the military preparations. This Awareness indicates that essentially, the economic improvement which occurs during the early part of the year in the United States will not be experienced by the European countries, and during the second half, the efforts of the United States to begin its military build-up and the hope of bringing about jobs and an improved economy will be less than promising. This Awareness indicates it appears that much opposition will occur in so many different directions to these programs that it will not have its desired effect on the economy, nor will it lead to the military build-up which the nation seeks to accomplish. This Awareness indicates essentially, both the Russian and the United States military efforts will be hindered during the year of 1983, due to economic difficulties in both nations.

This Awareness indicates that the general economy in the United States will tend to improve from Christmas time up to about May, then there appears to be a difficulty during the summer months, and some recovery in the fall. This Awareness indicates that it appears there are two major directions which can occur during these times. This Awareness indicates that this as being related to improving the economy at the expense of bringing about a future crisis, in which inflation soars, or whereby the economy continues sluggishly for a considerable time, and in so doing, a future economy may be improved.

**CONGRESS OUT OF TOUCH WITH THE PEOPLE'S NEEDS
(THE MASSES WILL BE HEARD FROM)**

This Awareness indicates that in reference to the political unrest in the United States, it appears that the representatives of the people are basically out of touch with the needs of the people. This Awareness indicates the government appears to be dealing with the issues in an abstract way, concerned with such abstract concepts as a tax cut or tax increase, the military budgets, the programs to put people back to work, and concepts of special interest groups such as the environmentalists, the anti-abortion people, and these various issues which are all-important to the masses on an abstract level, particularly in areas wherein these issues must be discussed and voted upon, yet while this occurs in the Senate and House and in the chambers of Washington, the masses in the homes are suffering from economic deprivation, a lack of heat, food shortages and business crisis, unemployment, and other immediate urgencies which are right down to the basics of life.

This Awareness indicates this as that which is not quite understood by those in the positions of power, positions representing the masses. This Awareness indicates that a kind of hopeful faith or euphoria as that which permeates the attitude and thinking of many of these entities. The slightest upturn in some poll or figure of a graph can give a euphoric feeling that things are getting better, but to the individual whose rent cannot be paid, whose heat is cut off, or whose job is terminated; to these entities these little upturns in the graph of the Gross National Product, or of the employment levels,-- these mean nothing. This Awareness indicates in this sense, those who are working in these areas, representing the people, serving as government officials, seem to be totally lacking in their ability to tune in to the masses. This Awareness indicates therefore, the masses, during this year of 1983 will make themselves heard in ways which are not usually commonplace in the political scene. This Awareness indicates there will be demonstrations and marches and various types of activities, protesting and requesting that something be done to improve conditions.

This Awareness indicates that the government spokespeople will attempt to pacify these energies by promoting their own solutions, however it appears that these solutions will be in conflict with others who also have their solutions. This Awareness indicates that it appears there will be much difficulty in entities finding clear-cut solutions for the problems, and the efforts to bring about a recovery by building up the military machine as that which appear unlikely, while the efforts to bring back a recovery by bringing about social programs is that which also appears not to be likely to gain much momentum.

This Awareness indicates however, there appears to be a kind of mutual agreement to increase the taxes, thereby stripping the masses of even more of their money. This appears to be a solution by these leaders which they can agree upon as a way of helping to improve the economy. This Awareness indicates however, the improvement of the economy as that which serves the government more than the people, for the jobs which are created by such an action tend to be meager in comparison to the cost to the masses.

Seeds Planted in '83 will eventually defeat Ahriman Forces

This Awareness indicates it appears therefore, that other than the first third of the year, and somewhat again, in the fall, it appears that the economy will remain relatively sluggish, although it does not appear to become any worse than at present, (in this fall of '82.) This Awareness indicates that there appear to be more energies because of this, to create greater political clashes, disputes and arguments, so that a clear direction is lacking throughout most of the year. This Awareness indicates that it appears also that the people will be the ones who eventually bring about the solution; this through their voice, through their demonstrations, through their voting, and efforts to make themselves heard.

This Awareness indicates that the pressure of the people will then begin to affect not only the political areas, but also many of those economic manipulators which generally escape the limelight. This Awareness indicates that while much of this will not occur in 1983, the seeds of future influence upon the economic manipulators will be planted during 1983, which will eventually lead to pressure being put upon these forces to serve the people, or cease and desist in their activities. This Awareness indicates that this includes energies which eventually will unfold that can disarm the forces of Ahriman, those forces

which would create the master/slave society through the Electronic-Funds-Transfer System and the Mark of the Beast. This Awareness indicates these pressures and influences which will come to bear later in future years, will not clearly be seen during this coming year, yet because of the circumstances occurring in 1983, the seeds will be planted which will later bring forth this power and influence from the masses, which will overturn the plans of these Ahriman forces.

This Awareness indicates that the area of Africa appears to be much as in '82,--continued strife in certain countries, political and internal, this being somewhat of a moderate to slight degree. That this Awareness does not see any major crisis in Africa, particularly in the countries South of the Sahara. This Awareness indicates that there do appear to be continued conflicts in relation to racial disputes and differences in South Africa. This Awareness indicates that it appears the greater conflicts will occur in the areas and countries bordering the Mediterranean Sea.

This Awareness indicates that there is seen an event in New Zealand wherein the possibility of internal strife in that area cannot be discounted. This Awareness indicates that this as being of some significance in reference to energies of a more subversive level, in reference also to those energies involved in the base described by Dr. Beter, whereby the area has become a significant area in terms of international intrigue.*

*ED's Note: New Zealand and St. George Island in the Falklands are the locations of the secret Bolshevik bases which hide the 'doubles' of the U.S. fleet, such as the carrier 'Enterprise', which, according to Dr. Beter, had been previously sunk by the Skoptsis using particle beam weapons from space. (This during one of the more recent attempts by the U.S. Bolsheviks to launch a nuclear first-strike against the Soviet Union.)

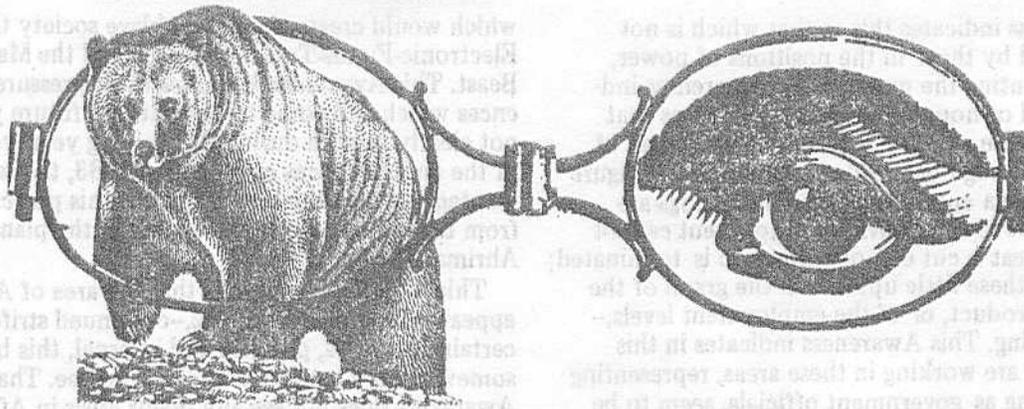

CARIBBEAN AREA COULD ERUPT IN VIOLENCE (Mexico and Cuba in particular)

This Awareness indicates that in the areas of South America, it appears that Mexico as becoming highly volatile. This due to the takeover of the banks, the nationalizing of the banks; this has created for this country the prospect of becoming a battleground for takeover by forces which are quite disturbed by the actions of tampering with the monetary controls.

This Awareness indicates that much of the turmoil to the South of Mexico as that which can be made to spill over into Mexico, and also strife may be stirred up within Mexico itself, relating to corruption of officials, monetary activities, the masses being deprived and easily stirred up, so that the area can become quite volatile during the year of 1983. This Awareness indicates that it appears also that Cuba may undergo some internal strife, this being brought on by influences from the United States in an effort to usurp the status quo in Cuba.

U.S. Troops could be involved in combat

This Awareness indicates that this area of the Caribbean as that which has potential for disruptions, wars, violence, which is equal to that of the Middle East. That both of these areas during the spring and summer months in particular, as being somewhat dangerous in reference to their volatile states. This Awareness indicates that the area around the Caribbean, those countries particularly in Central America and Cuba and Mexico, these being somewhat volatile throughout the year, whereas those countries in the Middle East as being more volatile during the spring and summer.

This Awareness indicates that it appears that American troops could be involved in both of these volatile areas, in combat during this coming year. This Awareness indicates there also are seen other forms of international intrigue associated with spying and terrorism, weather warfare and acts of sabotage. This Awareness indicates that it appears this will be a very cold winter, and many crops will fail; that it can lead to much crop loss and shortages of food in various places. This Awareness indicates that acts of terrorism, particularly in Europe, as that which may begin to threaten many of the governments and people in high places so that greater need for security in these levels will be realized, and actions to protect the leaders will be increased.

Russia determined to defuse Bolshevik First-Strike plans
(Next First-Strike attempt: March 1984)

This Awareness indicates much of this as stemming from influence of Russia. This Awareness indicates that this also can occur to a lesser degree in the United States. That part of this action is an effort by Russia to defuse the efforts in the United States to build up greater military powers. This Awareness indicates that the Russians realize there is a *handful* of entities in the United States who are determined to bring about global confrontation on a nuclear level, determined to have a First-Strike nuclear war advantage over the Russians, without regard for the general populace of either country. The Russians, realizing this, are determined to defuse these energies before they can be built, developed, and implemented,

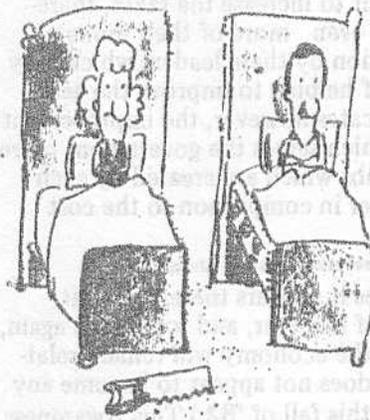

This Awareness indicates that these energies for this next effort to create nuclear war by these entities must be defused in 1983. This Awareness indicates that the current plans are for this strike to occur approximately in March of 1984, and the Russians as determined to defuse these energies through activities of covert nature, and also through propaganda and through cooperation with the Rockefeller forces in the United States and those of the peace movement in general.

1983 WILL BE A 'NEUROTIC' YEAR
(Hard times will bring new spiritual awakening)

This Awareness indicates that essentially, the year of 1983 will be one which can be classed as nervous and neurotic, and confused. This Awareness indicates that many entities, in spite of the difficulties, most entities will feel a kind of hopeful euphoria. Most entities will turn somewhat more toward spiritual values, yet lacking many of the material values. This Awareness indicates that in a general sense, the year of 1983 will be a healthy year for the masses, whereby being deprived of many of the gratifications of a material nature, and many of the pleasures which are associated with luxury, entities will turn to one another, and begin relating to each other in lieu of having sufficient funds to seek out entertainment elsewhere.

This Awareness indicates that this in a sense can be healthy for entities to be somewhat deprived for a short period of time. This Awareness indicates however, there will be many who will suffer excessively and to an extreme degree, and some will not survive the year of 1983. This Awareness indicates that it will be neither an extremely exciting year, nor will it be a dull year, but it will have many neurotic-like experiences throughout, with various types of complaints, problems, confusion and uncertainties, much talk, much shouting, much that signifies only that there is great anxiety among the people.

This Awareness indicates that this also will be a year whereby many breakthroughs will occur in reference to medical, scientific inventions, music and art; that there are seen also changes that may occur in many ways in the areas of religion, whereby the religious institutions may alter their programs, or adopt policies which have never before been accepted by them. This Awareness indicates that there also is seen a general turning toward spiritual values during this period of 1983. That this can be very healthy.

TRADITIONAL
MORALITY TO RETURN

(Sexual Revolution
on the wane)

This Awareness indicates that it will be a time wherein the banks and banking industry, insurance companies, the medical association and these large corporations may find it necessary to be much more conservative, and holding back more than in previous years. This Awareness indicates that in terms of general morals of the time, it appears that this will become a year wherein entities reflect back on the traditional morality and values, and adopt these as being important during this time. This Awareness indicates that this appears to be particularly referring to areas of sexual relationships and morality associated with sex.

This Awareness indicates that essentially, the sexual revolution may begin to backtrack somewhat, and more conservative attitudes may be enhanced and those who promote and flaunt their sexual license and activities in a manner that turns against traditional values will find it much more difficult and less acceptable during this and the following year.

This Awareness indicates it appears that there will be many changes in the court, whereby the systems of law and the legal process will be streamlined somewhat, to make greater efficiency in handling the cases. This Awareness indicates that this does not appear to be something which will be accomplished in one year, but that the seeds will be planted during this coming year whereby these things may change and the court procedures will be streamlined.

SKOPTSIS THREAT MAY DELAY E.F.T. PLAN

This Awareness indicates that in reference to the efforts to alter the monetary system; this Awareness indicates that there does appear to be continued energy in this regard, and that as previously indicated by this Awareness, there can be a significant change in the monetary policies of the United States. This Awareness indicates that it appears that there are two courses which can occur: either an increase in the deepening of the depression, this coming about in part from the collapse of the banks; the banking collapse being brought on particularly by the loans to Third World nations which have, and will default.

This Awareness indicates that when this approaches, it appears that rather than allowing this to occur, while there is still..... This Awareness indicates that essentially this as having been the plan of the past, to allow an ever-deepening depression to occur, whereby the Electronics-Funds-Transfer System would then be implemented during such depression; that this could be brought on by failures of these Third World nations to pay back their loans to the banks. This Awareness indicates that while this plan had been set in motion, and while the energies are still there, and capable of bringing about an ever-deepening recession, or depression, the desirability of this is not, at present, acceptable to those who are manipulating the energies, for the reason that the Skoptsis of Russia are basically still a threat to their very existence.

This Awareness indicates that one cannot fight a war while also bringing about a depression. This Awareness indicates therefore, the plans of these entities as being such as to attempt to reverse the depression, and to bring on a military build-up, which can confront the Skoptsis in their confrontation with the West. This Awareness indicates in order to bring up the economy to prevent these banks from total collapse and to overcome the loss caused by these defaulting nations, these forces will attempt to gain influence into these nations to reestablish a monetary control. They will also attempt to bring about a stability of the monetary controls before these fall too far toward depression, and they will also attempt to prevent these banks from collapsing. To prevent these banks from collapsing, it will require that money be printed so that these banks can be reimbursed for the money which has been lost to those nations. This Awareness indicates that if this course is chosen, the outcome will lead to unparalleled inflation throughout the Western world. This Awareness indicates this in particular in the United States. That the unparalleled inflation as that which does not appear to occur in 1983, although the seeds for this may be planted during this time.

This Awareness indicates that when the Federal Reserve begins printing large amounts of money to make up for the money which is lost to these banks, then entities should expect that the interest rates will quickly begin to climb, and the inflation rate will also climb proportionately.

Mahatma Gandhi film will change attitudes about war

This Awareness indicates that it appears during this coming year that the masses will begin thinking more clearly, taking on a new sense of responsibility, and nurturing concepts of peace. This Awareness indicates that while this is in part enhanced by astrological energies associated with Uranus in Sagittarius, Jupiter in Sagittarius, and Neptune in Sagittarius, a triggering force which will appear to be a major cause for the changing attitudes will be the movie portraying the life of Mahatma Gandhi.

This Awareness indicates this being released in the early part of the year, shall have its effect on many to assist in helping them realize that peace is a possible way of life which should be considered, and that problems can be solved by peaceful means, and violence is not required to solve many of these problems which can be solved peacefully. This Awareness indicates that this can have a great effect on strengthening the basic ties behind religious philosophies, whereby a greater respect for those Eastern philosophies may be acknowledged by those in the West. This can also assist in helping entities to become more interested in learning about the Eastern philosophies.

This Awareness indicates that while there has been a great upsurge in interest in Eastern philosophies during the last decade, or two decades, there are still many who consider Eastern philosophies to be unworthy of attention. This Awareness indicates that this year, and the release of this movie, as that which will help to bring about a greater respect for concepts promoted in these Eastern philosophies.

This Awareness indicates that during the seven years of Uranus in Sagittarius, and the year of 1983 while Jupiter is in Sagittarius, the emphasis on spiritual values will be enhanced, particularly during this time of 1983; the spiritual values being enhanced in such a manner as to look beyond the external facade of religions, to their basic motives, purposes and values of a humanitarian nature. This Awareness indicates that this can bring about an acceptance of new ideas, new realizations, greater enlightenment of spiritual and philosophical value. This particularly during the year of 1983.

This Awareness indicates this is the year in which those New Age groups and those philosophical approaches of a unique and humanitarian nature should push and can grow in a significant manner.

This Awareness indicates that it appears that the President of the United States will have greater difficulty during this year, particularly in areas of his programs and purposes. Those efforts which he seeks to implement will be greatly hindered during this year.

This Awareness has previously indicated that the most important thing entities can do to combat the Ahriman forces, the forces of darkness; the most important thing entities can do is to remain alive. This Awareness indicates that this action of remaining alive as a Light Worker in itself is a threat to the Ahriman forces. This Awareness indicates so long as Light Workers continue to exist on this plane, these forces have much difficulty in implementing their programs. This Awareness indicates that apart from simply staying alive, entities may do what they can to enlighten others.

This Awareness indicates that any questions may be asked at this time.

ANY EARTH CHANGES IN U.S. FOR 1983 ?

(THE SIGNIFICANCE OF THE DEATH OF BREZHNEV)

QUESTION:

Members are always writing in about earth changes, and since it had been indicated when the planets line up there would be violent earth changes, does Awareness see any significant earth changes in 1983 for the United States?

COSMIC AWARENESS:

This Awareness indicates that there are not seen any significant earth changes during the month of December, although there appears there may be earthquake activity near the first week of December. This appears to be not of a major significance. This Awareness indicates that in terms of the year 1983, it appears the greater forces and energies will be in relation to weather problems, the West having a short summer, the entire nation having a summer shorter than usual, and the West having a shortage of rainfall.

This Awareness indicates that other than any artificial earth changes, brought on by Russia through its geophysical warfare, there is not seen any major earth changes in the United States, although earthquakes may occur. This Awareness indicates that the potential for geophysical warfare creating earth changes and earthquakes of a variable magnitude,--this being created by Russia,--this is a possibility, but is not seen at this time as being probable. This Awareness indicates this may alter during the year. Those things which are dependent on the changing of ideas are not easy to forecast, for minds can change, and entities shifting positions of power can alter plans.

This Awareness indicates that the conjunction of Jupiter and Uranus as that which may herald some earth change. This does not appear to be in the United States. This Awareness indicates it appears that this may occur in Russia, or China. This Awareness indicates however, that these energies of the planetary line-up, as described previously, do not appear to have the devastating force in a geophysical way as described in *The Jupiter Effect*. This Awareness indicates rather, these energies as being such as to create more of a devastating effect on consciousness, on the economy, the social and the interpersonal levels.

This Awareness indicates that the energies which were building toward that period in late October and November, as having been greatly discharged through meditation of the many, and through efforts of others to defuse those energies. This Awareness indicates that the passing of Brezhnev during this period as that which took with it a great portion of those forces and energies. That when an entity of great stature passes, and public attention is drawn toward the passing, these energies of Ahriman, the forces associated with Ahriman, those energies are often greatly defused by the death of one important entity, rather than requiring masses to be destroyed in order to satisfy that energy and pacify the forces involved.

This Awareness indicates that it appears there will be some geophysical changes during the year of '83. There does not appear to be any particularly powerful or threatening alterations of a geophysical nature to the United States, although there do seem to be energies toward an earthquake. This Awareness indicates that this is not seen clearly. This Awareness indicates that

this also can be altered according to changes in consciousness, and also wherein some artificial activity is created to cause or bring about these earth changes. This Awareness indicates that this depends largely on the activities of Russia and its efforts to defuse the energies toward war. If this country chooses to implement its geophysical warfare during this year, there may be serious earth changes. This Awareness indicates however, at this time, this is not seen.

IS A WAR BREWING BETWEEN ARGENTINA AND CHILE ?

QUESTION:

Member J.R. in Argentina wrote yesterday that, either through a channeling or through information he has, that Argentina is quietly preparing to make war with Chile, and there's going to be all kinds of violence between those countries. Does Awareness see that as being valid?

COSMIC AWARENESS:

This Awareness indicates that this appears to be in part a diversion to avert attention from internal problems in Argentina, so that the leaders are vindicated from their loss, in reference to the Falklands. This Awareness indicates that it appears also that this has some bearing on agreements made with certain entities of the Rockefeller faction in an effort to balance out a compensation for that agreement. This Awareness indicates it does not appear clear however, that this violence will erupt. It appears that this is a potential, without a definite policy having been made.

This Awareness indicates there are seen energies within Chile also, entities who are preparing for this conflict. This Awareness indicates that this does appear to be something which is brewing, but it does not appear to be near the surface, and it appears it can easily be defused by circumstances and changes in the plans of those who are manipulating these actions. This Awareness indicates that this as being approximately a 40% chance of this war erupting,--this more closely to 35% chance.

THE REARMING OF JAPAN BY THE U.S.

QUESTION:

The *Wall Street Journal* recently ran a story that the United States, without much fanfare, has been rearming Japan at an alarming rate, and that the Japanese, being very industrious and having all types of new technology, are building a new defense and weapons system that is scaring an awful lot of Americans and Japanese (this contrary to the surrender terms accepted in 1945 at the end of the war.) Does Awareness see this build-up of Japan becoming an aggressive action in the near future?

COSMIC AWARENESS:

This Awareness indicates that this as having been part of the policy from approximately 1978, wherein the arc of crisis would be created, so that around Russia, from Korea, around China, and also within China through the areas of the Southeast, Asia, India, the Middle East, up through Europe and Poland; that the entire area would be destabilized and those allies would be heavily armed, so that Russia would feel great threat, and her energies would be spent focusing

on these threats and turmoil. While this occurs, the United States could build its forces, and work toward a First Strike.

This Awareness indicates that the activities of rebuilding Japan's military might is that which went against the World War Two peace treaty, and also against the public interest, the desires of the people of Japan, yet the present Prime Minister of Japan as having been put into office especially for this effort to implement the plans and military energies so that Japan could be re-armed, and gain great military power.

This Awareness indicates that this as part of the general and overall plan to intimidate Russia. This Awareness indicates that there is however, what appears to be a growing discontent between Japan and the United States over various policies, and what appears to be trade and business differences, and also feelings in Japan of being coerced and intimidated by the United States. This as appearing to increase during 1983, and the economic problems which many suffer in Japan, may increase the general discontent during this year.

This Awareness indicates that there is seen a desire by the United States to use Japan as a possible base for launching strikes against Russia in the event of a future war.

HAVE WE HEARD THE LAST

HAVE WE HEARD THE LAST OF DR. BETER?

QUESTION:

Dr. Beter, whom Awareness has referred to as the "alarm of consciousness", has informed his listeners that he has terminated his Audio Letter with tape number 80. I'd like to ask Awareness, what effect, if any, in consciousness in the coming years, will this have?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a great loss to many. That this entity as having presented much information which could not be received from any other source. This Awareness indicates that it will however, tend to lead entities to think more deeply in light of what has already been given by this entity, and this can be healthy. This Awareness indicates that essentially, the entity has presented the general scenario of events, the movement and the ways in which energies have altered during the last decade.

This Awareness indicates that from this perception, entities may then be able to better read between the lines, read behind the signs, understand beyond the appearances, what is occurring. This Awareness indicates that they may not have exact information, as was available when this entity released his audio letters, but still they will have the general understanding of what is occurring.

This Awareness indicates that the entity will continue to be of service in other ways, and that this entity's general health as that which during the coming two years will require some personal attention on his part, whereby without taking off from this activity, the entity could suffer greatly. This Awareness indicates that having removed himself from further areas of intensity during this coming period, the entity can work on improving his health, and can find other activities whereby he will be of service.

This Awareness indicates this entity is not simply stopping his life, or retiring as an influence, but is simply changing course and direction, due to necessity. That were the entity to have continued this action, he would not have survived much longer. This Awareness indicates that this entity was aware that he had overstepped his luck, and that to go further would bring about his end. This Awareness indicates that the entity as having had the good insight to quit while it was possible to quit.

This Awareness indicates that the entity as being directed by strong spiritual energies, so that he will be able to continue being of influence, and can have his personal life with his family and children without sudden interruption.

SUMMING IT UP.....

(Closing Message)

This Awareness indicates that on the individual level, during the year of 1983, this Awareness suggests that individuals go about their own personal affairs, without becoming overly concerned about the movement of energies during the year, for your personal affairs will be taxing, and it will require that you put much energy into those areas of your life which need attention.

This Awareness indicates that many of you can benefit greatly during this time, whereby rather than lamenting that things are difficult, that things are tough, this Awareness suggests that you put your nose to the grindstone and begin churning out your efforts and energies to do what you can to improve your life and to be of service to others, wherein that is possible. This Awareness indicates that those who can buckle down to the task at hand during this period, are those who will begin to benefit rapidly, as the energies alter.

This Awareness indicates that those who are able to watch the trends and see when the interest rates are about to rise, those who are able to observe the beginnings of inflation, and who have money to invest, may find it an excellent opportunity, an excellent time to purchase real estate, even if using the creative financing techniques of nothing down, or purchasing on lease option, for as the economy agains begin to surge, and inflation begins to increase, as the interest rates increase, those pieces of property which were purchased while interest rates were low and prices were low, may double and triple, quadruple, during the next three or four years.

This Awareness indicates that it is best however, to wait until it is clear that the Federal Reserve is actually preparing to print up more money to bail out banks, to raise the interest rates, and to start up the inflation presses. This Awareness indicates that to purchase while the depression deepens can be hazardous to the financial health of many entities. That timing is of great importance.

This Awareness indicates that likewise, precious metals such as gold and silver may be expected to rise as the economy speeds up. This Awareness indicates as the interest rates decline, as the economy speeds up as the inflation rate increases, you may expect the precious metals to begin to rise significantly. This Awareness indicates likewise, with the stock market and bond markets. This Awareness indicates that it appears this is most favored during the first four months of the year, and again in the fall and during the following years.

A PROFILE
OF MR. ANDROPOV

From C.A.C. Gen. Reading No. 2,
December 2, 1982)

QUESTION:

Would Awareness discuss a little bit about Mr. Andropov, who has just inherited the Premiership of Russia? Jack Katchmar sent a question in about him, saying that he read in a recent *Spotlight* an article called "Andropov Wears Uneasy Crown", and his question: "This *Spotlight* article contained shocking information that indicates that Andropov is not a Russian, but another Zionist, whose parents are Jews, and he's wondering if this is a Zionist pretending to be Russian Christian, or Skoptsis, or is he really on the level?"

Now I personally have read that Mr. Andropov is a very highly educated man. He speaks English practically flawlessly, and that he has great charisma and the potential for great leadership. Could Awareness give us a little information about this entity?

COSMIC AWARENESS:

This Awareness indicates that the entity as having been the guiding force for the past two years, allowing the entity Brezhnev to appear to be the leader. This Awareness indicates that there were some differences in their ideas, yet this entity as being a major force in allowing the entity Brezhnev to continue. This Awareness indicates the entity as working closely with others who determined that it was finally time for the entity Brezhnev to be removed, and a change to occur. That basically, the real Brezhnev as having died approximately three years previously, and this entity being a replacement, was directed and guided by these forces which work with the new leader.

This Awareness indicates that the entity as being quite capable of strong leadership. The entity as having much knowledge of the inner workings of government, relationships between members of the government, and as having broad understanding of the Zionists and Bolsheviks and their plans and methods. The entity also as having a good relationship with the military of Russia, as well as the Communist Party in general.

This Awareness indicates this entity is not seen as being a Zionist, nor a Bolshevik. The entity is seen rather, as being one who has a more international flair, one who sees the potential for great accomplishments by nations who can respect each other, and who can work through cooperative negotiation toward peace, yet this entity also sees the inherent potential of great war and violence in the future dealings with the United States and its present administration. The entity as being quite ready to move in either direction: toward peaceful settlement of differences, or toward massive build-up of armaments in the event that war appears to be inevitable. This Awareness indicates that the entity is not one who is trusting of others. He is inclined to appear trusting, while keeping his skepticism to himself and to those who he is closely allied to. That the entity prefers working in covert and hidden ways, rather than the outspoken and external method which is characteristic of many.

This Awareness indicates this entity would not have become involved in Afghanistan by bringing in troops to that area, but would have rather infiltrated through covert methods to accomplish the takeover or to prop up the Communist purposes in that area. This Awareness indicates that likewise, this entity is more inclined toward activities of a covert or hidden nature in dealing with the Western superpower, and threats of war. The entity does however, recognize the importance of appearing to be mysterious, unpredictable, and half mad if necessary.

This Awareness indicates that this entity allowed the warning to be sent forth in regard to the arming of Europe with the NATO and United States missiles, that if this occurred, the major cities and military bases of Europe and the United States would be hit. This Awareness indicates that this message not being broadcast into the major newsmidia of the United States, but that this message did reach Europe and the NATO leaders, and they are aware of his willingness to use threats to prevent such build-up and for propaganda purposes, to intimidate the masses of Europe to rally against the movement of these missiles into Europe.

This Awareness indicates that this statement was intended as much for the general population of Europe as for the military commanders, for if the general population fears the Russian reaction, the Peace Movement will gain greater strength in Europe. This Awareness indicates that this entity is fully aware of the intentions of certain forces within the United States to initiate a First Strike against Russia, and this entity is determined to prevent this from occurring, even at the expense of initiating a first-strike against the United States.

This Awareness indicates however, that this does not appear to be the plan which this entity and others are pursuing. It appears rather, that their plan involves covert operations to defuse the energies in the United States to prevent the ability of creating a First-Strike against Russia.

This Awareness indicates that this entity appears to keep an air of mystery. This will continue for some time, so that the Reagan administration and NATO alliance is uncertain as to who they are dealing with, and how this entity may respond to their actions. This Awareness indicates the entity appears to be promoting a kind of temporary low-profile. That this will last only for a short time. That the entity will soon be seen to be one who has strong personal purposes and plans and as willing to back up his statements with action.

This Awareness indicates that it appears there will be a potential for negotiation of peaceful solutions with this entity, if those in the Western society choose to do so. That the forces in the Western military circles are aware of the entity's ability and willingness to act in a firm and decisive manner, and there is a certain amount of respect for this entity which was not given to Brezhnev by those of the Western circles.

Avaton!

I want to thank you, Paul, Vicki & all our friends for the support given me all these years. You've let me lay down to rest for awhile. Audio letter to SO is my last tape. I've had no interest whatsoever in Audio Books, Inc. which owns Audio letter. Audio Books only paid me now & then for my efforts. If our friends want to contact me personally they can do so by writing to me at P.O. Box 73, GREEN ECHO, Maryland 20812.

Again, many blessings!
Pete

Hi VICKI!!! will WRITE LONG LETTER SOON,
THE ONE I'VE TRIED TO WRITE BUT JUST CAN'T
FIND THE RIGHT WORDS TO PROPERLY THANK YOU
FOR ALL YOU'VE DONE TO GET ME BACK IN
"BUSINESS"! I'VE NEVER HAD ANYTHING LIKE THIS
HAPPEN FOR ME BEFORE AND I'M STILL IN A DAZE
OVER IT! IT WOULD HAVE TAKEN MONTHS FOR ME
TO HAVE RECOVERED ALONE.

IT'S SO COMFORTING TO KNOW MY PUNY EFFORTS
HAVE MADE SO MANY FRIENDS WHO REALLY CARE.

I'M FINE AND DANDY NOW THAT I'VE
REPLACED THE MOST IMPORTANT ITEMS
THAT WERE STOLEN. STILL HAVE TO FIX
THE DAMAGE, ESPECIALLY BROKEN WINDOWS
BUT ALL ELSE IS OKAY, CONSIDERING.

MY MAIN PROBLEM WITH THE CELLS
WAS TRAUMATIC. YOU SEE, IN ABLE TO
CREATE THE CELLS I MUST BE COMPLETELY
FREE OF ANY EMOTIONAL PROBLEMS SO I CAN
CONCENTRATE TOTALLY ON THE CELLS. I WAS
SO UPSET I COULD NOT DO THIS, SO COULD
NOT GET THE CULTURES WORKING.

IN FACT I STRONGLY CONSIDERED
GIVING UP COMPLETELY, REALIZING IT
WOULD TAKE ME MONTHS OF PENNY
PINCHING TO GET EVEN A MICROSCOPE,
LET ALONGE THE OTHER ITEMS I NEED.

THEN YOU AND YOUR FRIENDS GOT
INTO THE ACT AND CHECKS CAME IN

THAT SIMPLY STUNNED ME. I NEVER
IMAGINED I HAD SO MANY FRIENDS OUT
THERE! I ALSO REALIZED THAT I COULD NOT
LET THEM DOWN BY THROWING IN THE TOWEL.

THIS CHANGED MY NEGATIVE ATTITUDE
TO STRONG POSITIVE. HELL, I'M NOT ALONE
IN THIS FIGHT— I'VE GOT A BIG ARMY
ON MY SIDE. WITH NO MORE SERIOUS
PROBLEMS TO WORRY OVER, I BECAME
MORE RELAXED AND SECURE— WAS ABLE
TO CONCENTRATE ON THE CELLS MORE AND
MORE. AND THEY, ESPECIALLY THE S-CELL,
RESPONDED BEAUTIFULLY! BUT IT WOULD NOT
HAVE HAPPENED WITHOUT THE UNEXPECTED
SUPPORT OF SUCH CONSIDERATE AND
CARING FRIENDS. I SHALL BE ETERNALLY
GRATEFUL TO THEM. I CHERISH THE LOVE AND
AFFECTION YOU ALL GIVE SO SELFLESSLY.

Bless you all!

Love
Joe
