Cosmic Awareness Communications

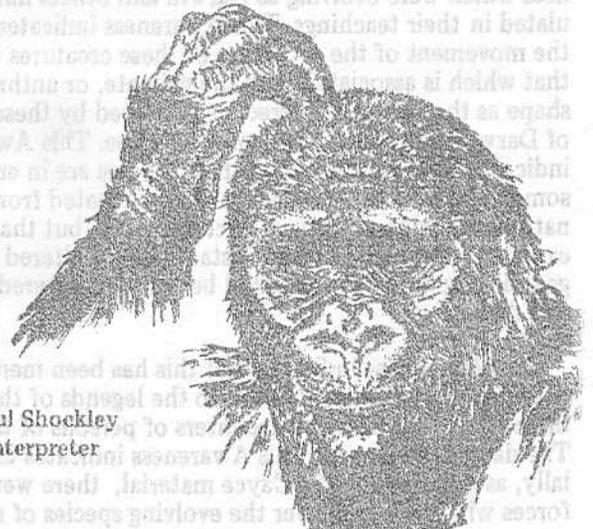

P. O. Box 113, Olympia, Washington 98507

\$3.00

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great systems who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

WHERE DID MAN COME FROM?

Paul Shockley
Interpreter

A BABY IS BORN WITH A TAIL: IS DARWIN'S THEORY CORRECT?

QUESTION:

There was an interesting article in the paper the other day. I'd like to read it and ask Awareness to comment.

"Boston (AP) The birth of a child with a tail is a rare glimpse of the relation between human beings and their primitive ancestors, a doctor says.

The 7-pound baby was born with a slender, tapered, 2-inch-long tail. The child was transferred to Children's Hospital Medical Center in Boston shortly after birth, and doctors there removed the growth.

Dr. Fred D. Ledley said the well-formed caudal appendage was located on the baby's lower back near the end of the spine. He said it was covered by skin of normal texture and had a soft, fibrous consistency. It had hair and nerves but no bone or cartilage.

In a report Ledley wrote that the tail "represents a striking clinical confrontation with the reality of evolution."

Even those familiar with evolution, he said, "are rarely confronted with the relation between human beings and their primitive ancestors on a daily basis. The caudal appendage brings this reality to the fore and makes it tangible and inescapable."

COSMIC AWARENESS:

This Awareness requests that the question associated with this information be asked.

QUESTION:

I'd like to ask: Is this proof of the theory of evolution; that man evolved through these various states, including those animal states where tails were on the entity or on the creature?

COSMIC AWARENESS:

This Awareness indicates that the evolvement of the spirit of man as that which entered from higher dimensions into that which is the materialistic bodies of creatures which were evolving as Darwin and others have formulated in their teachings. This Awareness indicates that the movement of the evolution of these creatures toward that which is associated with the primate, or anthropoid shape as that which is correct as indicated by these studies of Darwin and others, to a certain degree. This Awareness indicates however, that even these studies are in error to some degree, in that it was not always created from natural selection or natural circumstances, but that these evolving creatures, in many instances were altered through genetic engineering of celestial beings who entered into this dimension.

This Awareness indicates that this has been mentioned previously. That this relates unto the legends of the 'sons of gods' mating with the daughters of persons of the Earth. The daughters of man. This Awareness indicates that essentially, as described in the Cayce material, there were those forces which hovered over the evolving species of animals

and primates, and that after long periods of time began to create and alter the nature of these beings. This Awareness indicates that in this respect it was not only evolution in action, but involution also, as the forces from above moved down and altered the evolving creatures.*

This Awareness indicates that in this development of an entity in the embryo state, moving through as a fetus to the point of birth, this creature passes through the many stages of evolution and may develop certain mutant qualities associated with those stages. This Awareness indicates there are certain stages in development of the embryo where there are qualities associated with reptilian types, fish or having scales, or types having feathers or types having excessive hair; this Awareness indicates that these conditions being extremely rare in which the embryo would carry these conditions through to the birth stage. This Awareness indicates however, that it is possible, under certain conditions, whereby entities can and have been born having their body covered by scales, or having certain features associated with animals, or having certain features associated with birds; in some cases, entities being born with more than one head, or protrusions of limbs which are extra of the natural shape of the humanoid.

This Awareness indicates that this generally as being a kind of fluke which develops because the embryo was upset or disturbed due to chemical and hormone imbalance, often caused by, (in present times particularly caused by) use of drugs or in some cases, radiation which has altered certain genetic processes of the evolution within the womb. This Awareness indicates that in earlier times, there were mutations created of a more extreme nature, these being influenced largely through deliberate use of radiation and sound waves to retard or increase certain growth processes involved in the birth process.

This Awareness indicates the DNA code of the individuals contains the memory of past evolutionary levels, from reptilian, and up to the present condition or genetic development of the physical. This Awareness indicates that additions to this genetic code through interference such as described by the mating of the 'sons of god' with those of the daughters of man; this interference with the natural movement of the genetic code, can and did create certain mutations which allowed for a more vital altering and growth in the movement of evolution, so that mankind underwent drastic change in a short period of time.

*ED's Note: one of the best condensed version of the Edgar Cayce channeling (through Awareness, by the way,) can be found in the final chapter, "The Philosophy" of the book, "There is a River," written by Thomas Sugrue, and published by Dell Publishing Co., 750, Third Ave., N.Y., N.Y. (Also available from C.A.C. See Book Catalog.) We recommend all C.A.C. members read that particular chapter for it fills in a number of pieces of the cosmic puzzle regarding sex, the Creation, the experiments and fascination with animals etc., which Awareness has not always covered to many entities's satisfaction.

This Awareness indicates that these alterations occurred at different times, as the human species began to change shape and form and move more toward the upright manner of walking, and as these changes occurred, these were influenced either by alterations caused by changes in nature itself, which caused the fetus to mutate or were caused by alterations associated with the mating of higher celestial beings with those of the physical plane. This Awareness indicates that which is referred to as the 'sons of god', as in reality being reference to extraterrestrial beings who have had their influence on entities on this plane.

This Awareness indicates that the Earth itself represents influences from a number of space civilizations; that there are approximately 23 such space civilizations having influenced the nature of the general population of Earth.

THE 3 WAYS MAN WAS CREATED

QUESTION:

Well, then essentially then there are three basic routes that man, as we understand today, evolved or came to this plane. One: through the natural evolution, through the group soul of animals; the second through the extraterrestrials; and the third as indicated by the works of entities like Jehovah, creating clones. Is that correct?

COSMIC AWARENESS:

This as in the affirmative. This through natural genetic influence caused by environmental changes, or caused by the necessity of that which has been referred to as the survival of the fittest, or the *Law of Adaptation*; and that which has occurred through genetic tampering, or artificial coding of cells and the DNA genetic codes, that which may be termed genetic engineering, such as was accomplished by Jehovah and others; and that which occurred through selective breeding, such as through the 'sons of god', and the daughters of man, or of other forms of selective breeding, such as is accomplished through the creation of pedigree animals or others.

Celestial Intercourse....

THE DAUGHTERS OF MAN MEET THE EXTRA-TERRESTRIALS

(HOW HUMANS GOT NAMED)

QUESTION:

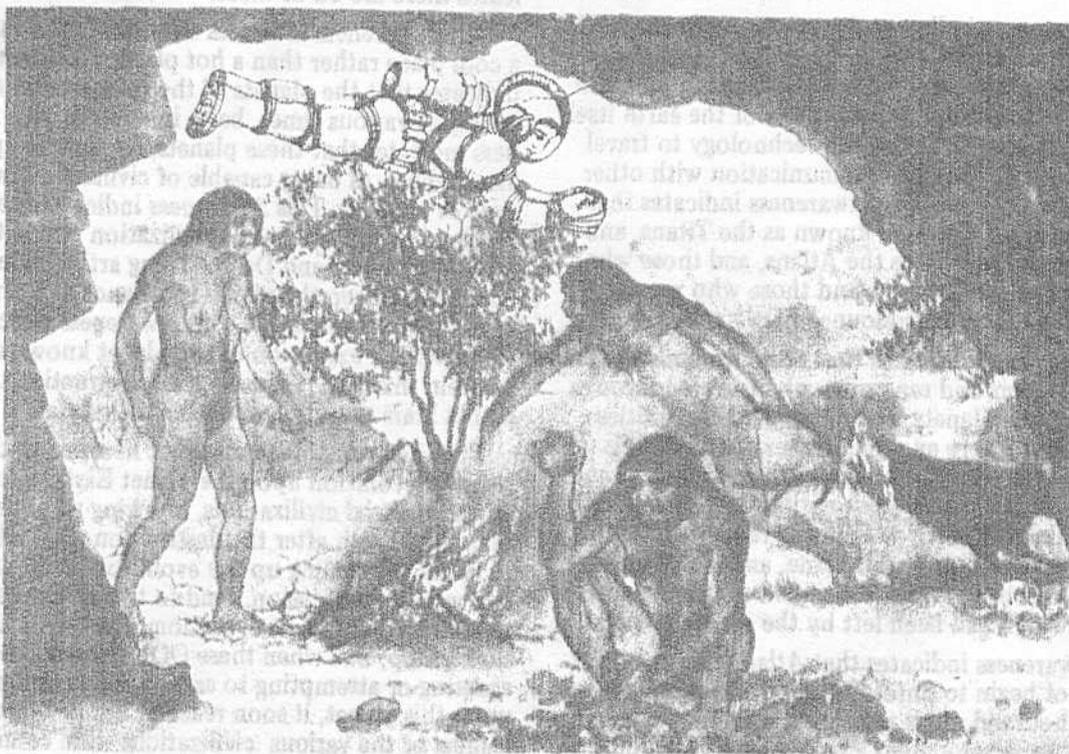

Would Awareness elucidate a little further on the "daughters of man?" I'm not quite straight in my head exactly what that alludes to.

COSMIC AWARENESS:

This Awareness indicates that essentially this as a reference to the feminine species on this plane, who were visited by extraterrestrials. This Awareness indicates that these extraterrestrials were for the most part masculine, and that these entities mated with the more advanced types of anthropoids, such as the Neanderthal women. This Awareness indicates that this led to the Cro-Magnon types.

This Awareness indicates that in this manner, It created a more evolved race of entities upon this plane which were known as Hu-man. The Hu as a term associated with color, or a variation of a ray or race movement. The Hu (pronounced Hue) as that which implies a kind of alteration of the movement of man. This Awareness indicates that prior to this action, entities were known by words which would be associated only as man, or mankind, rather than as the Hu-man.

The hu-man was essentially a departure from the natural evolving species on this earth. The hu being that which was essentially brought about by the mating of extraterrestrials with the feminine species of Earth people. This Awareness indicates that earlier language did not use these same terms. That the term Hu, H-U, as associated with the word Huna, or Hun, H-U-N, also associated with the word ONE or UNI, universe; these terms as having come from an original word or sound: oon; O-N, or O-O-N.

This Awareness indicates that the ancient influence of the OONs (pronounced Owens) or ONS (pr. oonze) or HUNs, (pr. hoonze) as being those who were the visitors from outside this plane, traveling in their spacecraft. This Awareness indicates that the word "human" could also be thought of as Uman, or O-M-M-A-N. The word also could be spelled as U-M-A-N, but for the evolvement to present time, the term has evolved to the present spelling of H-U-M-A-N; but essentially, it contains a kind of reference to the OONs, the HUNs, that which is associated with the UNI, or universe. This Awareness indicates the term 'verse' in 'universe', as that which refers to a circle, or movement, whereas UNI means total or one.

This Awareness indicates that the word "woman" as that which evolved at a later time, not associated with this kind of word. This Awareness indicates that earlier times, "woman" was not distinguished (earlier) so much by language in a name specified to make that distinction. This Awareness indicates the word "woman" as that which essentially was derived from the word "wife-man", wherein the I-F-E was dropped and an apostrophe replacing that until the sound later called for an "O" to be added, so that it could be written. The sound of 'wife-man', with the apostrophe replacing I-F-E, so that the pronunciation would be "Wha-man" as that which led to the present spelling in English.

SPEEDING UP THE EVOLUTION OF MAN

...A Cosmic History Condensed

(MORE ON THE PLANETS, HOT AND COLD)

QUESTION:

Awareness, were these space beings, these "sons of god," these celestial entities coming down and mating with the female primates on Earth, part of the evolutionary plan originally set up, or was this considered a violation and created some karma because of it?

COSMIC AWARENESS:

This Awareness indicates there was an effort some... this Awareness wishes to go back in time; that well over a million years ago there were great civilizations upon this plane, and within the inner parts of the earth itself. These civilizations as having the technology to travel through space and having communication with other planets in this system. This Awareness indicates that there were those who were known as the Titans, and those who were known as the Atlans, and those who were known as the Cyclops, and those who were known as the Ooons. (Pronounced Owe-ans).

This Awareness indicates that there were many battles between invaders and renegades who traveled through space to various planets, and many of these entities upon this plane were engaged in these battles. This Awareness indicates that some five hundred thousand years ago, after some of these entities left this plane, that continent known as Lemuria remained as the greater civilization upon this plane, and many of those who remained in that area continued to use the great machines which had been left by the earlier visitors.

This Awareness indicates that Atlantis as a civilization did not begin to unfold until approximately two hundred thousand years ago, then, reaching its climax or peak of its development approximately 75,000 B.C.

This Awareness indicates that Lemuria began to fade around that same period of time. This Awareness indicates that there were travels at these times between Mars and Earth, and between other planets in the solar system. This Awareness indicates that the distance of planets from the sun do not greatly affect the temperature of planets, for it is such that the sun itself does not give off heat, but rather gives off rays of energy, which when striking the atmosphere of a planet, creates certain friction which creates light and heat of a unique nature, depending upon the qualities of that atmosphere.

This Awareness indicates that it is for this reason that as entities move into higher altitudes, even though approaching the sun, becoming closer to the sun, the temperatures become cooler, and when leaving the atmosphere of the Earth, entities are greeted not with sunlight, but with darkness, for the atmosphere is lacking which would turn the rays into the friction necessary to create the light. This Awareness indicates that wherein the rays strike an object in space, that object then causing a friction, creates a reflective light, but wherein there is no substance, such as atmosphere to create these rays, there is total darkness.

This Awareness indicates that a planet close to the sun is generally thought of as being incandescent and hot, yet these planets do not burn up. This Awareness indicates that there have been recorded movements of comets through the flame of the sun, presumably at millions of degrees of temperature, yet these comets have passed on through and emerged from the other side, still intact, without having burnt or melted.

This Awareness indicates that there are the beliefs that planets far from the sun are extremely cold and frigid because they do not have the heat of the sun to keep them warm. This Awareness indicates however, that this would depend more upon the atmosphere of the planet than of the distance which the planet is placed from the sun. This Awareness indicates that there are also planets which reside within the sun's flames or radiance, whatever you wish to call those rays, and these planets circle about the central part of the sun; these being small planets. This Awareness indicates there are 12 of these.

This Awareness indicates essentially, the sun as being a cool place rather than a hot place. This Awareness indicates that the planets of the solar system as also having at various times, been inhabited. This Awareness indicates that these planets, depending upon their atmosphere, as being capable of civilizations at one time or another. This Awareness indicates the planet Mars as having had a great civilization at one time. Its moons, Phoebus and Demos being artificial in nature, designed to keep the planet in balance at a time when it was in great jeopardy. This Awareness indicates that this after the explosion of the planet known as Maldek, wherein this planet caused great destruction upon the planet Mars as well as upon the planet Earth.

This Awareness indicates that in terms of the movement of evolution upon the planet Earth, many of these extraterrestrial civilizations, knowing what had occurred on planet Earth after the destruction of Maldek, sought to assist in speeding up the evolution of the planet earth, and would on occasion, send to this planet certain groups to assist in helping its evolution. The OONs as being one such group. But when these OONs arrived and began assisting or attempting to assist various civilizations upon this planet, it soon reached a state whereby the leaders of the various civilizations were coming into

conflicts with each other, and the OONs were inadvertently dragged into the conflict and found themselves warring with each other in behalf of the civilizations they were attempting to advance.

This Awareness indicates at this time, realizing what they were doing, the OONs (pro. Oh-ans) left this plane and departed. This Awareness indicates this occurred prior to the involvement of Jehovah. This Awareness indicates that the OONs as having been in part responsible for the creation of the Great Pyramid of Egypt, and many of the pyramids in South America. This Awareness indicates that the entry of Jehovah as that which occurred several thousand years later, near the decline of the Egyptian civilizations.

This Awareness suggests that wherein the question has not been fully answered that this may be reasked.

QUESTION:

I think it answers it. There was no violation by these entities, or karma created by their introduction to the Earth then?

COSMIC AWARENESS:

This Awareness indicates there were individual errors and there were certain violations which occurred by forces which entered this plane, particularly from Mercury. This Awareness indicates that the OONs as also having created mistakes and violations, but the general intention of these entities and their purpose for influencing on this plane was to assist. This Awareness indicates that there has been mismanagement, not only on the physical plane, the inner plane, but also in relation to interstellar or extraterrestrial visitations. That there are always errors and mistakes in various relationships, even those of the most highly advanced civilizations have made mistakes and errors to some degree.

This Awareness indicates that the Earth itself as being a composite or conglomerate of many various influences from different dimensions as well as from different planets; the races as having developed mostly from different planetary influences, or from genetic engineering programs.

ED's Note: Upon reviewing this last question and answer, I'm not exactly sure now whether Awareness did actually answer the question. Often Awareness will go off on a tangent, spinning an intriguing tale which begins as an aspect of the original question, but ends a long way from it. On the other hand, Awareness will quite often immediately answer the question, then go into a long, in-depth rap which appears to cover every possible aspect of the question.

An example of this occurred during a group reading for the Aquarian Church wherein each minister was to ask certain questions pertaining to the plans, their ministry etc. or other important questions. Awareness happened to ask DeDe Farrell, one of the ministers who had not asked a question, if she had a question? She didn't have one about the church evidently, but she did have just a little question about her cat, which was having a little problem with fleas at the time. When she asked this question, Awareness went into a long involved rap on fleas on animals. The rap went on and on. Every conceivable aspect of fleadom was examined, and every possible avenue of controlling the fleas was explored. Awareness explained how

HOW ARE ENTITIES REPRODUCED ON OTHER PLANETS--SAME AS ON EARTH?

QUESTION:

Although many science fiction writers have implied otherwise, the information just given suggests that the reproduction of the species on many of these other planets and civilizations is very similar to that which is carried on by Earth humans, is that correct?

COSMIC AWARENESS:

This Awareness indicates that this is not necessarily so. That in many cases, genetic engineering is used almost exclusively for purposes of reproduction. This Awareness indicates that in other cases, the reproduction system is that similar to that experienced on this plane.

QUESTION:

I think the information just given answers this question of J.N., who lives in Santiago, Chile; I'll ask it and refer to the reading.

"Referring to the question: "What happened to the lost tribes of Israel?, in No. 79-9, Awareness's third paragraph reply speaks of "different creations of humanity", which was to be released at a later date. Has it been released? The information was, stated by Awareness: "This Awareness indicates that much of this information has been given and will be released at a different time, this relating to the different creations of humanity other than that described in the Jewish history of the creation of Adam."

This information just given will answer this question, will it not?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that more information along these lines may be given at later times, in order to clarify some of the mystery in regard to past history upon this plane.

fleas could be controlled by vacuuming the rug, by applying flea powder, by washing the animal--all the common methods any animal-lover already knows about (including flea bombs), plus about 40 more minutes of information about fleas which to most entities was probably rather new.

As Awareness went on and on about fleas, DeDe's face became red with embarrassment. She kept nervously glancing around the room to see if everyone was watching her. They weren't. They were mesmerized by this fascinating rap on fleas which was endlessly going on and on. DeDe said later she was so embarrassed about it all that she wished she could have just melted into the rug and disappeared. She regretted she had ever asked the question in the first place and should have just 'passed' when Awareness asked her if she had a question.

Paul explains this phenomenon as having to do with the energy behind the question. As long as there is any energy left, he says all he can do is just keep interpreting the energies until they simply stop appearing, regardless of how boring the rap may be. (Paul admits he has gotten bored on more than one occasion when in trance wherein Awareness went on and on until all aspects of a subject were seemingly exhausted). Avaton.

HOW ENTITIES EVOLVE UP THROUGH THE ANIMAL ROUTE ON OCCASION

...MORE ON NATURE SPIRITS, ASTRAL TRAVEL, EASTERN PHILOSOPHIES, TRANSMIGRATION OF THE SOUL ETC. ALSO, MUMMIFICATION, SOUL DEVELOPMENT, THE 2ND GREAT PHASE IN THE EVOLUTION OF HUMANITY, ETC. (MORE ON RA-TA).

(Excerpt from a reading the next day)

QUESTION:

I had one question in reference to the information last night about the evolution of man on this planet, and this was related to entities who seem to have a very strong identification with animals. I've had the feeling many times that these entities have come up the soul route through animal evolution. Is this true, or is there some identifying method that entities could see that would tell them which route they came?

COSMIC AWARENESS:

This Awareness indicates that there are many entities who have lived in that dimension which is the home or habitat of that which is called the Nature Spirit Realm. This Awareness indicates that these entities have, on occasion moved into the dimension of the human experience and bring with them certain energies from that nature spirit realm. This Awareness indicates those entities involved in levels associated with the nature spirits are indeed quite close to animals and plants. This Awareness indicates that this is not an exclusive realm whereby entities from such realms are excluded from having experiences in other realms besides these.

This Awareness indicates that for example, a celestial being can enter into life on the physical plane, or if desired, can enter into an experience in the Nature Spirit Realm. This Awareness indicates that many entities, having close contact with animals, also may have had a major portion of their consciousness involved in a particular animal between lifetimes. This Awareness indicates that the Hindus in particular understand this aspect of the Life Spirit moving from one type of being to another through a kind of transmigration, whereby after exiting the human body, a portion of the spirit may move into plants or animals, or even into insects.

This Awareness indicates that this as well understood by those of the Hindu and many of the oriental philosophies. This Awareness indicates in the Western world however, this as less accepted and less understood. This Awareness indicates this is because in the Western world the Spirit of life is not seen as being the ultimate, but rather, the Western world puts greater emphasis on the development of the soul. This Awareness indicates the difference between the soul and the spirit essentially, is that the spirit as being a lighter body, being that which is more of an etheric substance, whereas the soul as being likened unto an astral substance, having greater magnetic center.

This Awareness indicates the development of one's soul is associated with the emotional and magnetic qualities of the emotional body, and this has received greater emphasis in the Western societies than in the oriental societies. This Awareness indicates that this has recently been altered somewhat in that the Eastern societies are now beginning to focus more on the activities

associated with goals and desires, and these activities tend to develop the soul, whereas in the Western societies entities are beginning to focus more on consciousness itself, and these activities help to develop the etheric body, or the spirit.

This Awareness indicates that this as beginning to initiate what may be termed the second great phase in the evolution of humanity, wherein those of the Eastern philosophies begin developing the soul, whereas those of the Western philosophies begin developing the etheric body. This Awareness indicates essentially, in the Western world, the soul's development has proceeded at an extremely rapid pace during the past 12,000 years, this in part resulting from the experiments in Egypt under Ra-Ta. This Awareness indicates that this also related to experiments earlier in Atlantis.

This Awareness indicates that the actions of mummification as that which played a key part in the evolutionary process which assisted in developing the concepts of the soul and its magnetic center. This Awareness indicates that this now as beginning to have its growth in the Eastern societies and the Western influence in these societies may be seen to grow stronger, whereby in these Eastern societies greater emphasis will be placed upon the individual, the emotions and the development of, and satisfaction of desires.

This Awareness indicates also entities will note that in the Eastern philosophies, astral travel, or escape from the body is generally believed to occur from the navel, whereas in the Western philosophies, escape from the body as that which generally occurs from the crown chakra. This Awareness indicates that these two different concepts as related to the astral and etheric bodies, whereby the astral body as that which escapes through the navel, and the etheric as that which moves from the crown chakra.

This Awareness indicates that the development of the soul and its lifting or movement from the navel areas as that which has long been experienced by entities delving into psychic phenomena and astral travel. This Awareness indicates that for those entities who are chained to the etheric realms, this taking place in the crown chakra as that which is an experience of the exiting of the spirit or the etheric body.

This Awareness suggests that the initial question be repeated, that this Awareness has digressed considerably into areas, and that the energy of the initial question needs to be brought back into focus.

...BACK TO THE ORIGINAL

QUESTION....

GOING UP THROUGH

THE ANIMAL ROUTE

(More on Wanderers, Atlantis, Lemuria)

QUESTION:

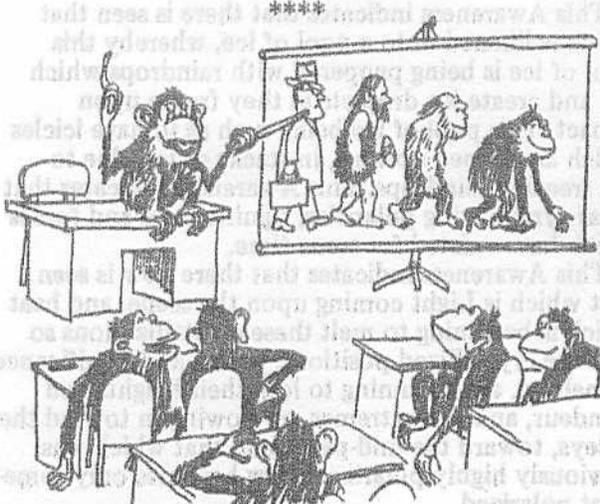

I think I was thinking specifically of certain entities that are so enamored of animals and work so well with animals, and spend their life with animals, that perhaps these entities came up through the animal type of route.

COSMIC AWARENESS:

This Awareness indicates that this depends in some degree on many different factors. This Awareness indicates that there are many routes of different races or ...this Awareness indicates this not in reference simply to the races that are commonly recognized on this plane; this in reference to cultural races from various past-life experiences and origins. This Awareness indicates that essentially, many of those who were involved in Atlantis did have strong associations with animals, particularly those known as the Semites.

This Awareness indicates that also, many from Lemuria as having had strong associations with sea-creatures, and with birds of the air. This Awareness indicates that many of these Lemurians also as having had strong association with reptilian energies. This Awareness indicates that many of those entities known as Star People, or Wanderers; those who are essentially relatively new on this plane, have had little contact with earthian type animals, and yet may experience great fascination with them, a kind of kinship to them, therefore leading to a feeling of unity with these animals because of their sensitivity and innocence; the type of animal being considered in this attitude by these entities is that which is part of the attraction. This Awareness indicates that it does not appear to be so much a background identification with animals as a sensitivity to the beings, their needs and their behavior, for some entities are quite gregarious in terms of people, others more so in terms of animals, and still others in both sense, while yet another may shun both people and animals. This Awareness indicates much of this as being strictly personal, environmental and psychological development in an individual's life.

This Awareness indicates that wherein a child is given stuffed animals as toys, the entity may grow up liking animals of a similar nature, having a kind of affinity toward these animals; this being a purely environmental and psychological conditioning, rather than a conditioning based on genetic roots. This Awareness indicates that on the other hand, entities who have had bad experiences in past-life circumstances with certain types of animals, such as snakes or wild beasts, may have a great aversion to those animals in this present lifetime. This Awareness indicates that these environmental and experiential influences as having greater effect on how entities respond emotionally to animals in any genetic root type of influence.

WHAT ABOUT DARWIN'S "MISSING LINK" THEORY? DOES IT REALLY EXIST?

July 10, 1982

QUESTION:

Sometime back Awareness gave considerable information about the origins of entities, and genetic engineering, and some of the ways man has evolved on this planet. There's one area that I wasn't clear on, and that was this area of what Darwin referred to as the "missing link" between man and ape. The classic gradualist view of evolution theorizes that man's development followed an unbroken chain from early primates to today's human beings, and there's fossil evidence of all of this up to a certain point, which disappears. Now, was it my understanding that the missing link that Darwin discovered is connected with those entities in the Middle Earth, or is it something else?

COSMIC AWARENESS:

This Awareness indicates that the problem with the theory is that whereas there was life on this planet, and growth and movement occurred in a kind of evolutionary manner, according to the seeds of consciousness which were planted here, the evolutionary pattern was disturbed, or was disrupted by an influx of entities from outside this planet who merged with those evolving souls, or entities, the earth inhabitants. This Awareness indicates that this influx of more highly evolved entities upon this plane as that which created a leap in the evolutionary chain, so that a new being appeared quite suddenly, and the link as being not clear.

This Awareness indicates that essentially, the primates, in their evolution would still be working toward present human development, except for the influx of more highly evolved beings, which created that leap in evolution. This Awareness indicates that these entities as being not of a single origin or a single time, but as being from different cultures and different places in different times of the human evolution. This Awareness indicates there are those who were known as the OONs, (pronounced Owans), the fish people, or those people having scales; and there were those known as the Cyclops and the Atlans and the Titans and the Els, these being prehistoric in their nature, prior to your recorded history, and as having greatly affected the evolutionary chain.

This Awareness indicates there are certain references to these ancient civilizations on this plane, in biblical reference to giants which were on the earth. In certain other religious records there can be found information relating to the OONs, particularly in Babylonian records, and there can also be found references to the Titans and Atlans in Greek and in certain references of oriental sources. This Awareness indicates that the references to the Els, these being the more highly evolved of entities upon this plane; these having had great influence quite early in the life cycle of this planet.

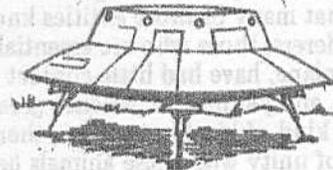

QUESTION:

Well, the classic gradualist view of evolution theorized that the development of man followed an unbroken chain from early primates to today's human beings, and it went through three classes, the last being the Homo Erectus, which lived about 1.8 million years ago. His brain was approximately three fourths the size of the Homo Sapien, and he used fire. He disappeared about one-half million years ago, and so far, there is no fossil evidence of any other primate ancestor of man. So in other words, what Awareness is saying, is they will never find any other fossil evidence, that there is indeed a missing link, and these extraterrestrials are what it is. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that it is difficult to say there is no missing link, for wherein a highly evolved species mixes with a lesser evolved species, the offspring becomes the missing link. This Awareness indicates however, this is not a missing link in terms of a gradual evolution in the sense of the traditional evolutionary theory as put forth by Darwin. This Awareness indicates the offspring of two entities, one highly evolved, and one of low evolution will reflect qualities from each, and therefore may appear to be a step inbetween, whereas, in reality it follows the two, as their offspring.

"I'm getting you the hell out of here. Those horny extra-terrestrials are here again for another wild week-end."

A message to the Light Workers:

JUDGE NOT, CONDEMN NOT.

Don't Use the Tactics of the Dark Forces

(Opening Message, C.A.C. General Reading)
January 28, 1983

COSMIC AWARENESS:

This Awareness indicates that the forces of Light and the forces of Darkness have moved into a state of being approximately equal in strength upon this plane. This appears to be in movement whereby throughout this year there will be a chance of altering this pattern considerably. This Awareness indicates that entities who represent the forces of Light, who concern themselves with promoting life, and life-energies for themselves and others; these are the forces which overcome the force of Darkness.

This Awareness indicates that these forces of Life, as they increase, will have the effect of changing the balance so that the Light forces begin to dominate upon this plane. This Awareness indicates that forces of Light, forces of Life cannot operate in an action of condemnation and judgment, for that takes away the light and expression of life. The action of condemning and judging another, as that which denies life to that other.

This Awareness indicates therefore, while entities representing the Light may seek to spread the Light, they must be aware that it is not spread through condemnation of the Darkness, but rather through promotion of the Light. This Awareness indicates therefore, entities who campaign for causes, should be

campaigning for that particular cause, rather than against its opposite; campaign FOR peace, rather than against war, campaign FOR life rather than against death.

This Awareness indicates that in this manner, the energies of the life forces become positive in nature, are more acceptable, and do not become involved in the same tactics as the energies of the Dark forces, which are preoccupied with judgment and rejection concepts. This Awareness indicates that during this particular year, this realization of these energies can help in discerning your movement and attitudes towards your experiences and the circumstances in which you find yourself.

The Thaw is Beginning

(Closing Message)

This Awareness indicates that there is seen that which is likened unto a pool of ice, whereby this pool of ice is being peppered with raindrops which fall and create ice droplets as they freeze upon impact. This pool of ice being such as to have icicles which are turned upward, in stacks of ice, due to the freezing raindrops. This Awareness indicates that these symbolizing polarities, significances and forces which have existed for some time.

This Awareness indicates that there now is seen that which is Light coming upon the scene, and heat which is beginning to melt these crystallizations so that the crystallized positions, points and significances, in melting, are beginning to lose their heights and grandeur, and the extremes are flowing in toward the valleys, toward the mid-parts, and that which was previously highly polarized, now becomes only somewhat polarized.

This Awareness indicates that it sees a melting of the extremes which is occurring at this time at a very rapid and increasing pace, particularly beginning after the mid-part of this spring of 1983, and that this appears to gain momentum in the fall of '83, whereby the Light becomes ever stronger, even as those who cling to the frozen darkness find themselves melting under the Light.

HOW MUCH LONGER WILL SOCIAL SECURITY CHECKS BE MAILED OUT?

...Some suggested alternatives for income

QUESTION: (Jan. 28, 1983)

Several of our elderly members have written in that they're worried about these rumors that the Social Security system will be bankrupt by the end of this year, and even though the President is making speeches and using band-aids to patch it up to assure them that they'll always be receiving social security checks, many entities feel very insecure with this type of information. Does Awareness have any suggestions these elderly people might have, or might be starting to do as an alternative to this system, should their Social Security checks be shut off for good?

COSMIC AWARENESS:

This Awareness indicates that it does not appear that this will occur, whereby the Social Security checks will be ended through any action of a political nature. This Awareness indicates that this system appears to be strong for at least three to five years, before another critical reevaluation must occur. This Awareness indicates that meanwhile, if entities wish to become involved in supplementing their Social Security checks with other activities, that this would be beneficial for some.

This Awareness indicates that activities such as what may be termed 'cottage industries', wherein one works from one's home, either making toys, sewing, making alterations to clothing, creating something that can be sold in a local market, advertising some service from your home so that entities may stop by and receive your service, such as massage, hair-cutting or other similar types of services, or whereby you go out and give services, outside of your home, but whereby you are self-employed, operating essentially from your home; (this may be a kind of mail-order activity or business); these are various ways whereby you can supplement your income.

This Awareness indicates that in looking in any magazine you will find information relating to these and other types of opportunities. This Awareness suggests that you be cautious in so doing, for many of these will require investments, and this Awareness indicates particularly the stuffing envelope schemes, whereby you are offered a certain amount of money for each envelope that you stuff, this ranging from fifty cents to one dollar for any envelope which you stuff, and you are to send \$25 or some amount to receive the information. This Awareness indicates that upon receipt of the information you will discover that in order to stuff the envelope you must first put an ad in the paper and request that anyone interested in some particular issue write to you for information; then, upon receipt of their name, and request for information, you then stuff the envelope and send it off and receive your fifty cents or one dollar, or whatever.

This Awareness indicates that in stuffing one-thousand envelopes per week as has been described, to bring in one thousand dollars per week, you can see that this method would be very tedious and unlikely. This Awareness cautions entities to be careful about that envelope-stuffing program. That there are other programs in the various magazines whereby entities may find opportunities such as selling jewelry, or selling shoes, or other objects or products.

This Awareness indicates there are also services which can be taught through the mails, whereby you, in learning the service, then are able to go out and find persons who want your services. This Awareness indicates that you be cautious about these various programs to determine how much it will cost you to get involved, and how much work you will need to put into the action in order to reap your rewards.

This Awareness suggests however, that you not become so discouraged that you not do anything, for it would be better to join a non-profit organization and volunteer your time for no wages whatever, than to simply sit around and cease to be active and live off of your Social Security without having any sense of purpose in your life. This Awareness indicates that entities on Social Security should see this as a blessing and an opportunity to give them the chance to give service to others.

Remember the 'Blizzard of '83?

WHAT HAPPENED TO OUR WEATHER SATELLITE ?

QUESTION:

Sue and Dan F. would like to ask: "Why is the Pacific coast weather satellite out of commission?"

COSMIC AWARENESS:

This Awareness indicates that the activities of the Russians at this time as that which is such as to give a clear message to the present administration, the Bolshevik forces, that they are in control of forces which can be devastating to this nation, and that they are not afraid or too timid to use these forces if it becomes necessary.

This Awareness indicates that these storms as being artificially created by those Russian Cosmospheres, and the use of weather modification techniques utilizing the physics promoted by Tesla. This Awareness indicates that the satellite as having been seen as a nuisance, and also used as a way of communicating the message, the message being that: "We can knock out your satellite and we can affect your weather and wreak havoc on your coast lines without any apparent attack upon you to rile your people into aggressive action against us."

This Awareness indicates that the hidden war as that which still continues on a kind of give and take basis, whereby in one area a stalemate or block is created, and in another area pressure is created so that the opposing force recognizes that he or it is not going to get away with that previous action without some kind of retaliation. This give and take, this wrestling and struggling of the superpowers as that which continues, and which often takes the appearance of natural forces, when, in many cases it is the result of man-made operations that affect the forces of nature.

THE U.S. ECONOMY--ANY CHANGES ?

(Jan. 29, 1983)

QUESTION:

Probably the most requests we get for information from Awareness these days is to be sure to keep the members updated on the economy. Does Awareness have anything new to report about what *It* sees in the economy?

COSMIC AWARENESS:

This Awareness indicates that the recent OPEC meeting regarding the stabilizing of the oil crisis as that which has led to what appears to be the breakdown of such stability, which in turn will mean that several of these countries will receive less money for their oil than had previously been anticipated, and this can be very harmful to these countries. This Awareness indicates that in turn, this can affect their ability to repay loans to the larger banks such as those of the United States and of Europe.

This Awareness indicates that the possibility of forestalling bank foreclosures in the event this happens, as that which may occur through certain types of manipulation whereby these loans are reinstated, so that they are not demanded at a due time. This Awareness indicates that eventually, there will however, be a need to recall these payments. It appears the solution for this will lie in allowing inflation again to rise, or in making payments through heavy taxation so that the governments can assist in bailing out these banks.

This Awareness indicates that the third alternative, wherein the banks are allowed to collapse as that which is more remote and unlikely, yet is still a possibility. That this does not appear to be likely in the foreseeable future, up to the end of this year. This Awareness indicates however, these energies can be altered, depending on other situations. This Awareness indicates that still another alternative is that which could be brought about through a military conflict in the Middle East which would again create the oil shortage and therefore, stabilize the prices of oil throughout the world; this keeping some of those smaller nations from defaulting in their payments.

This Awareness indicates that this as an alternative which is being considered. It appears this will not receive much support, yet is something which needs to be watched. This Awareness indicates that if entities see these smaller nations such as Poland, Mexico, Brazil, some of the Latin American countries, having extreme economic difficulties and if the banks are seen to be attempting to collect on these debts, then it could be an indication of financial crisis with the banks. This Awareness indicates however, that it appears there will be action taken by the nations and international banking establishments to attempt to avoid such foreclosures and bankruptcy of these small nations.

This Awareness indicates that the more likely scenario is that inflation will again be allowed to rise, bringing what appears to be good times and an increase in business activities, the prices of precious commodities and metals will again soar. This appears to be the more likely direction.

That this could however, be altered, depending upon political and international intrigue situations.

HAS THE ECONOMY REALLY TURNED AROUND ?

...Preparing for the next election

QUESTION:

In his State of the Union message the other day, the President announced that the recession had bottomed out, and the country was turning around, inflation had been checked at 3-1/2%, and he cited the return of 30 or 40,000 workers to the auto industry and the forest industry, I believe, as examples of the country turning around. Does Awareness see this as optimistic as the President?

COSMIC AWARENESS:

This Awareness indicates that this appears to have been the result of the lowering of interest rates last summer and early fall. This Awareness indicates that this as being appropriate in terms of the response from such manipulation by the Federal Reserve, and that it can increase the capital flow into business, stimulating activities of building, mortgaging and home buying and selling and furnishing. That the automobile industry should benefit from this, and also, within a short time the furnishings for homes and those businesses associated with this should begin to pick up.

This Awareness indicates that the apparent direction at this time is to use the coming period before the next election to give the people a sense of a booming and growing economy, while also attempting to keep the inflation rate down as much as is possible. This Awareness indicates that however, as this is attempted, the likelihood of inflation rate again soaring becomes increased as the economy also picks up. This Awareness indicates that particularly after the next election, the inflation rate will in all probability, soar again to great heights.

This Awareness indicates that as this occurs, providing the banking collapse does not occur, the tendency is seen whereby (depending on who enters the White House and directs these affairs), it appears that a change of course may occur at that time, to either allow the inflation rate to continue, or to raise the interest rates and bring inflation down toward a more slow growth and more controlled economy.

This Awareness suggests that 1983 *does* appear to be a year of transition, whereby many factors are in conflict in terms of the economic directions, and there are seen at this time conflicting energies and signals whereby even those who are attempting to direct these energies are finding certain areas unpredictable, depending so much on other factors such as the activities of the OPEC nations and also of the European relationships with Russia, and the political alignments of these countries in terms of economic and political interests which are becoming untied in some areas and rearranged in other directions so that the alignment is at this time in flux.

This Awareness indicates that it appears that within approximately 3 months, the clarity and direction of the course of events will be more easily discerned.

Treating madmen like madmen...
**REAGAN'S NUCLEAR MISSILES
AND FIRST-STRIKE SCHEMES**
...The Skoptsis take him seriously

QUESTION:

Mr. Reagan is persisting in the insanity of placing more and bigger missiles in Europe, in Italy and so forth, aimed at the Soviet Union, and the Soviet Union has recently announced that if Japan succumbs to the whims of the United States and installs missiles in its country, that Japan is likely to experience the Nagasaki/Hiroshima syndrome again, on a much grander scale, and the Soviet Union also announced that if this goes much further, it will bring in a lot more missiles much closer to the United States, implying that it would put them in Cuba, and I'd like to ask Awareness: is all of this by Reagan just a bluff, or will this insanity reach an end?

COSMIC AWARENESS:

This Awareness indicates that this appears to be an effort by the Reagan administration, and those who are advising him to appear to be extremely dogmatic and tough in their approach in dealing with the Skoptsis. This is similar to the approach of the Russians in dealing with the United States during the '50s and early '60s. This Awareness indicates that in appearing to be out of control in terms of having any rational sensibilities as to the ramifications of nuclear war, an entity can cause fear in an enemy, thinking that the entity must be insane to carry on this way.

This Awareness indicates that such approach leads the other to seek compromise and be willing to negotiate rather than incur the wrath of a mad-man. This Awareness indicates this as an effective bluff, such as in playing cards or in playing war games, whereby an entity appears to be so ferocious and insane as to be unpredictable or to be willing to do that which is the unthinkable, and it can have its effect on the opposing party by making them decide that: "Rather than risk such, we had better find ways to negotiate."

This Awareness indicates that the difficulty here lies in determining whether it is in fact a bluff, or whether the entity is actually hell-bent for war. This Awareness indicates the indications which have been given to the Skoptsis from the past activities are that the present administration is actually seeking to position itself in such a manner as to win a limited nuclear strike against the Russians. This Awareness indicates that therefore, the Russians do not see this as a bluff, and in response, are beginning to play the same game of hardening their position and giving the signals that they are ready when you are, and will, if not intimidate the United States administration, will at least attempt to intimidate those who are siding with the United States as allies.

This Awareness indicates that this becomes a very successful maneuver, as these smaller nations will recognize the geographical location to this super-power is such that they could in fact, suffer severely from such conflict, and that the United States would not in fact be aligned in such a position as to protect them from such attacks. This Awareness indicates that the Russians are simply positioning themselves in military maneuvers to have a greater influence in

political areas over these smaller countries, and in turn, to break down the agreements between these countries and the United States, so that the United States must stand more alone if it is to pursue a policy of First-Strike.

This Awareness indicates that there is not seen at this time an immediate danger of a breakout of nuclear war. There is seen possibilities of more conventional wars, and continued behind-the-scenes intrigues and conflicts between these superpowers, and there is seen potential for a greater war in approximately one year, or thereafter. This Awareness indicates that at present, it is more likened unto entities positioning themselves to scare off the other, in order to strengthen their own position and territorial claims.

This Awareness indicates that there is that which in earthly plans includes nuclear war upon this plane. There is also that which is extraterrestrial, a force from the galaxy that observes and watches this maneuvering and assists in directing energies so that this nuclear threat never materializes in actuality. This Awareness indicates that these forces are quite efficient in allowing the superpowers the sense of being in control of their own actions, yet these forces maintain a certain control and influence which gently and carefully guides these superpowers through critical maneuvers to avoid that holocaust of nuclear war.

This Awareness indicates this does not mean that nuclear war will not under any circumstances occur, but rather that it is unlikely, even though there may be those attempts and plans by certain strategists on this physical plane to bring about a nuclear war advantage of their own forces, and even though such efforts may be implemented and partially attempted, the likelihood is that these will not be effective. If intervention is necessary from the galactic forces, then it will indeed be allowed, and though some potential room is left whereby a limited nuclear strike might occur, the confrontation of this nature would not be allowed.

The ministry of fear....

**INTIMIDATION WON'T STOP
ALL INCOME TAX PROTESTORS**

Snowball effect could hurt the crazies
in government who are hell-bent on war

QUESTION:

There's various anti-nuclear groups that are planning campaigns around income-tax day to inform the people if they want to prevent war, to stop paying for the playthings of war. I'd like to ask Awareness if It sees this campaign to influence people to withhold some of their income taxes as being of any benefit? Usually in the past these haven't worked. The people are scared of the IRS and its Gestapo tactics.

COSMIC AWARENESS:

This Awareness indicates that this is generally unworkable in that the IRS has the intimidating power over people's minds and pocketbooks, and has sufficient clout with the courts to cause extreme trouble for individuals. This Awareness indicates however, in this particular time, there are many entities who are looking for an excuse to withhold their tax money, and feel justified in withholding their taxes, and this action gives them the excuse

and the moral justification, whereby many will indeed respond to this suggestion.

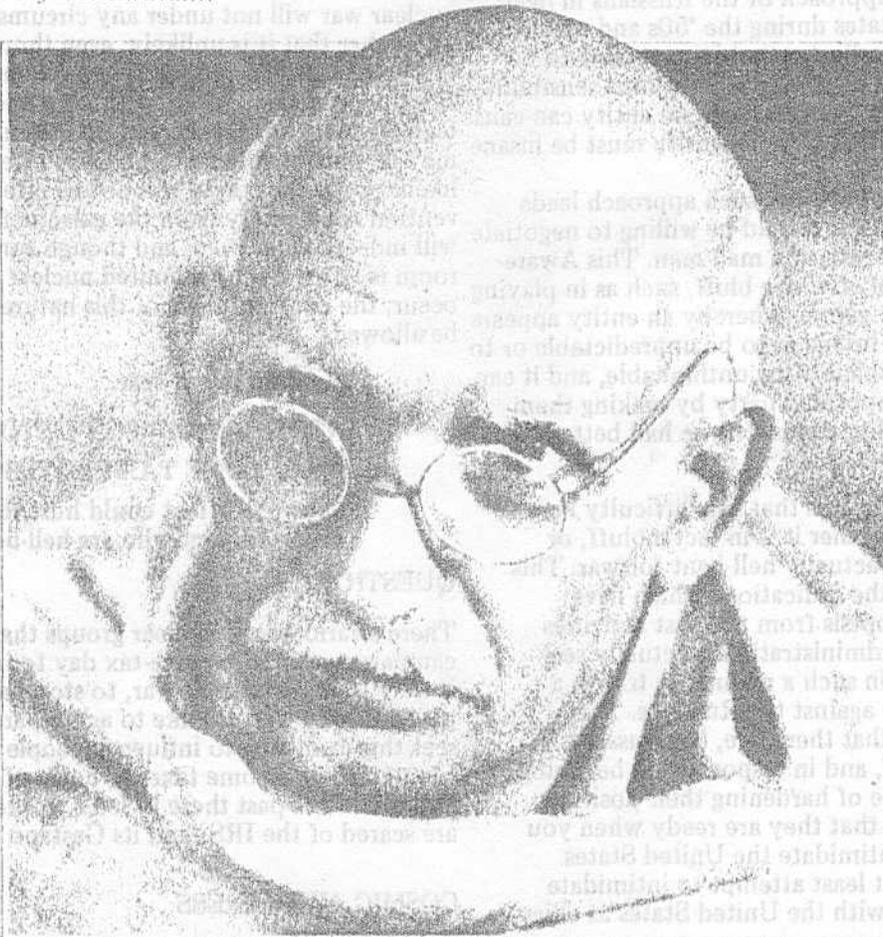

This Awareness indicates that it appears it will create much turbulence with the IRS, much difficulty, and also that it will create much difficulty for some of the entities who participate in this action, yet it can also have its effect in dramatizing and pointing out the feelings of people, that they are tired of paying for these destructive toys of these overgrown mad children who have not apparently had enough tender loving care in their childhood, and are simply mad at the world and wish to blow up everyone who is not going to be their friend and side-kick in their destruction.

This Awareness indicates that these gangs under the names of nations, with their war machines and weaponry and their greedy requests for even greater amounts of destructive power; these gangs as those who through their own bullying techniques and demands, intimidate the bureaucrats, intimidate the governments and through intimidation of concepts of fear, promoting fearful images, promoting demands

for greater security and protection, appearing to be the great protectors of mankind; these entities bringing mankind to the brink of annihilation and demanding more and more power to create even greater annihilation; these entities, these gangs do indeed need to have their budgets cut off, so that they may begin to look at other alternative ways of relating, rather than through threats, weaponry and destruction as a cure-all for all relationship problems that they have.

This Awareness is not indicating that the proposed suggestion of withholding taxes is the appropriate way for dealing with this situation. It is however, an attempt, and is one method which, while perhaps not very efficient and perhaps damaging also to those who withhold their taxes, still dramatizes the situation in such a manner as to focus attention, and this focusing of attention could bring about a snowballing effect, whereby more and more begin to object to their money being used by these overgrown hoods and their weapons of destruction.

The Passion Play continues....

If you wish to fully understand the Cosmic Awareness Precept of

RESIST NOT EVIL
this 20th century Avatar will show you.

Now showing in a theatre near you. DON'T MISS IT!
