

Revelations of Awareness

THE AFTER DEATH EXPERIENCE

(Part 2)

Paul Shockley
Interpreter

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests the following material be read aloud.

HOW TO MANIFEST PSYCHIC FACES

...PSYCHIC PHOTOGRAPHY & PSYCLE PHYSICS

QUESTION:

Sometime back we received some interesting information from George Robert Harrison, Researcher, 108, 3rd Ave., Arnprior, Ont., Canada, and its called *Faces*. He gives instructions here, that if you take a small cardboard, (a white piece), and a soft lead pencil, and you sharpen the pencil to a fine point, and you cover one side of the blank card with pencil lead, you then wet your finger in your mouth and smear the lead; you then study the dried card carefully for faces. He suggests you make several cards and faces will appear on one, if not all of them. He enclosed some samples of this showing very definitely, a number of human faces, and some of them with their mouth twisted sort of into a snarl, the other ones look pretty natural. You can see the curly hair, the eyes, the nose, the mouth,--all the features. He's doing research on this and asking entities to try this and send him information and the results.

I made just one, and studied it, and thought that I saw one face on it. I'd like to ask Awareness what exactly is going on in this technique?

COSMIC AWARENESS:

This Awareness indicates that this is similar to that which is known as psychic photography, wherein entities take a piece of film, and....This Awareness indicates that this may be sensitive paper, whereby the film...This Awareness indicates this as photography paper for prints, whereby through certain situations, this film or the photography paper as that which can be used to create pictures without the use of a camera or without actual photography of subjects.

This Awareness indicates that this is also linked to the entity who could stare into a camera and produce images upon the film and tell entities what the pictures would be when the film was exposed. This Awareness indicates this is associated with mental or psychic photography, whereby impressions of the mind or of psychic forces are impressed upon the film, or the sensitive photography paper, or the film of the camera. This Awareness indicates that in some instances, an entity may experience and research, working with film, placing the film close to the stomach area, next to the body, in a room with a red light; this like a dark room, whereby the film is concentrated on by the entity's consciousness, and images and faces will appear on this film.

This Awareness indicates that this does not occur in every case, but in many instances this will reveal images of faces and features from the astral plane. This Awareness indicates this not necessarily the sub-astral plane, and in some cases from higher planes than the astral. This Awareness indicates that these entities are recorded in what may be best conceived of as thought forms or magnetic energy fields. This Awareness indicates that these energies can be picked up not only in film, or in this technique described, but also are seen in minerals and rocks and in some instances entities may see faces in clouds.

This Awareness indicates these faces appear as a result of the magnetic forces associated with the thought forms of these beings. This Awareness indicates this as a very difficult concept to explain to entities in the third dimension, as it is so easily assumed that the third dimension is material. This Awareness indicates that in other dimensional levels, wherein entities recognize these dimensions as being mental, such concepts could be easier to explain. This Awareness indicates that if you could imagine being in a dream, and attempting to explain from that dream the reality world apart from that dream known as the third dimensional world, this Awareness indicates you may begin to understand the difficulty in attempting to explain the phenomena.

This Awareness indicates that in a dream you may have visions of photographs or images or entities moving about, and may have all types of experiences: a face can suddenly appear upon a wall, and this is not out of place in a dream. This Awareness indicates however, if you were to attempt within that dream to introduce a third dimensional logical principle or concept to explain the experience which is created subjectively, it would be almost impossible to do so.

This Awareness indicates that likewise, wherein entities perceive their third dimensional materialistic society to be fixed by certain laws and principles that do not allow for the unexplainable to exist, then ask for explanations of the unexplainable, it becomes somewhat difficult to do so. This Awareness indicates this effort to explain the unexplainable requires that entities accept certain principles of cycle physics which are not yet accepted within the normal framework of third dimensional materialistic reality.

WHY PAINTINGS CAN SOMETIMES BLEED

This Awareness indicates that even as pictures can appear on a card, or on a film without a camera, likewise tears can run down from the eyes of a picture or portrait or painting, or blood can ooze from the wounds of one in a painting, and these things have been reported. This Awareness indicates that these things have existed, yet it is of great difficulty to give a type of answer as to how these things occur, wherein entities cannot conceive of the principles that would allow such to occur.

This Awareness indicates before entities can understand how these things occur, they must first understand the deeper nature of the material reality as being but a state of stability in a field of consciousness, an energy field that appears to be stable, but is in actuality only mental in nature.

This Awareness indicates the mental beliefs and rules give certain stability, but wherein these rules are not total, and do not cover all avenues, the mental stability of the third dimensional reality breaks as a dike may break, allowing energies from other realms to ooze through the cracks in that third dimensional reality, and bring in the unexplainable energies from other dimensions.

This Awareness indicates that it is extremely difficult to present certain concepts. This Awareness reminds entities who may have watched the movie production of *Superman*, wherein third dimensional entities were cast into sheets of second-dimension, and were entrapped within these two-dimensional planes, or sheets of energy, so that they had no substance in the reality of a third-dimensional universe, but were rather implanted as a flat image in a screen. This Awareness indicates these concepts which entities attempt to present; concepts of second and third-dimensional experiences and fourth-dimensional experiences, become extremely difficult to present, except in images such as that.

This Awareness indicates that the fourth dimension as even more difficult to explain to the rational mind, but this Awareness wishes entities to realize that life itself is an expression of the fourth dimension; of growth, expansion and movement. This Awareness indicates that there are also other frames of reference or dimensions which superimpose themselves over each other and create greater difficulty in explaining an experience so that the mind can perceive what has been experienced by the being.

This Awareness indicates the mind is not capable of defining, describing and understanding all experiences in a logical manner, but is capable of experiencing without mental explanation. This Awareness indicates the experiences of the consciousness, particularly the right side of the brain, that which is more of a Gestalt, or holistic experiencing, this action as that which can accept and experience without an explanation of a logical, linear third-dimensional type of thinking.

This Awareness indicates that the difficulty in understanding how these pictures are made, is largely but a difficulty in how to explain this in a logical manner, particularly when the principles of physics and metaphysics and planes and dimensions of consciousness are not yet understood. This Awareness indicates however, it is mysteries such as this that keep the rational mind working and seeking, and which keep entities growing spiritually as they seek to find answers to mysteries.

ED's Note:

Entities interested in more info on this phenomenon should read "The Secret World", by Ray Palmer. This book has many photographs of these astral entities discovered by Ray Palmer when he cut into rocks. Many of these photos are in color and some of these resemble the 'faces' that come through when you blacken a white paper with pencil. This book is not listed in the CAC book catalog, but a few copies are still available at \$10.50 each.

FACES that appeared on white paper which had been covered with pencil lead

QUESTION:

Are the thought-forms or entities that appear in these experiments aware that they are appearing on these photos?

COSMIC AWARENESS:

This Awareness indicates that this as generally in the affirmative. This Awareness indicates that many of these entities are seeking to look through into this dimension

to be seen in this dimension. This Awareness indicates that this as a form of mediumship whereby images or faces can be transferred from one plane to another, even as mediumship can also transfer thoughts and ideas from one plane to another through a living medium.

This Awareness indicates that also, many entities from other planes communicate through mediums in expressing through art, through music or through dance or other systems of expression, these entities often finding channels of this dimension open enough that they may express themselves into the materialistic universe. This Awareness indicates that this as no more strange than for an entity of the materialistic universe to pray to saints or others from some other dimension or other plane, or to call out and ask for help from those in other planes.

This Awareness indicates that even as entities from this plane seek communication with those of the next plane, likewise, those of other planes often seek to communicate through the barriers to those of this plane. This Awareness indicates that the barriers in consciousness created by octaves of energies and walls of vibrations, are those which entities may in time learn to traverse without the need for passing over, or for giving up the body, but whereby entities may travel mentally, astrally, or through transmuted energies of the Light Body.

This Awareness indicates that many entities from other planes can and do on occasion appear in the form of the physical third-dimensional realm, a being from another dimension appearing as one of this dimension; these entities, depending on their particular purpose, type and origin, may appear either as they are, as angelic, as another being, as an entity from an historic past or future, or one recognizable to earth entities, may appear as an alien, or may appear as very strange, grotesque, or fearsome images. This Awareness indicates generally these entities do not appear in solid form, for it takes great energy to do so.

This Awareness indicates that generally, such entities are confined in very subtle bodies, which can be seen by those who are psychic, or in a state of high agitation of psychic energies, such as in a state of shock, or in a very subjective state such as near trance or dream-state. This Awareness indicates that likewise, entities from this plane often move over into other planes without taking their entire body, but taking only the subtle bodies, such as the mental or astral body to these other planes, and entities in those planes may see these visitations or may not see the visitations, depending on their own ability to make out the subtle energies involved.

SHOULD ENTITIES DO THESE EXPERIMENTS? ...CHARLES FORT'S "DAMNED QUESTIONS"

QUESTION:

Other than curiosity, is there any reason why entities should do these experiments?

COSMIC AWARENESS:

This Awareness indicates that other than curiosity and the action of becoming aware of this principle which can be added to the general mysteries or to that which may be the "damned" questions which need answering. This Awareness indicates this in reference to Charles Fort's challenge in regards to those things which he referred to as the *Book of the Damned*, those things which cannot be explained by the established scientific systems of explanation, the traditions of the society, and therefore require going outside traditional thought in order to find solutions.

This Awareness indicates that this entity in recognizing this particular aspect of experience, whereby the traditional thinkers, the traditional science sought to ignore or explain away those things which could not be ignored or explained away, which sought to push these things out of existence rather than challenge the presently accepted traditional rules of science. This Awareness indicates that these things are those which will not go away, and will not let tradition and the rules of science rest without further exploration and research, and without modifying the principles so as to allow such things as this to be included in the explanations of reality.

This Awareness indicates that the easiest route is for entities to simply state that this is a hoax, and those who attempt to create such, and who fail, will assume that all others have failed and that this is a hoax. This Awareness indicates however, that the reality of this situation will not simply go away because some have failed and denounced the situation as a hoax, for the fact that others have succeeded and that the event of these "damned things" continue to plague humanity and the rational mind, is that which does not let the rational mind rest.

HOW AN ENTITY DIES AND MOVES INTO ANOTHER DIMENSIONAL REALITY

...HOW A BABY IS BORN INTO THIS PLANE

QUESTION:

In reference to the fourth dimension, Awareness has indicated previously that the transition from one plane to another is simply a form of rebirth into a new dimension, from a death experience in another dimension. My question: When one dies from the physical plane, and goes into another plane such as Celestria, is the entity then "born" into Celestria as a baby as it was born as a baby when it entered the earth plane, or does the entity arrive in Celestria as an adult, with full faculties and awareness, thus bypassing being born as a baby?

COSMIC AWARENESS:

This Awareness wishes first to make certain clarifications. This Awareness indicates that Celestria as being a realm, that there are also planes within realms. This Awareness indicates that wherein an entity passes over, even as the entity in moving into birth upon this plane, enters in small increments, from the subtle etheric energies into the more dense psychical energies; and as the child grows and develops larger and larger, and as the personality forms and becomes more and more crystallized, and self-identified, likewise, when an entity passes over, particularly wherein this does not occur in a sudden experience, often the entity's consciousness is already in part on the other side, and portions are being drawn over,—increment after increment small portions following the other,—until the entity is consciously more on the other side than on the physical side; then the body, having lost all of its driving vitality, simply becomes discarded and useless.

This Awareness indicates the soul-stuff, having moved to the other side, does not arrive complete, for part of it is still on the physical plane, in the dying body of the entity there. This Awareness indicates that when it eventually does arrive, and the physical body is discarded the soul-stuff then may be disoriented for a period, having many attachments to earth, or to the physical

plane. These attachments must also eventually be dropped before the entity becomes total and complete and integrated on the other level. This Awareness indicates that for entities who pass over suddenly, such as in an accident or violent transition, these entities also tend to go through a disorientation, wherein portions of their identifications are still attached to the physical plane, even though they are totally on the other side, having been ripped from their body.

HOW LONG IS A 'TYPICAL'
SOJOURN IN HADES?

CELESTRIA, HEAVEN, HADES & HELL PLANES ...More on Summeria--the place of no return

This Awareness indicate that therefore, these entities while perhaps suddenly appearing totally on the other side, may still appear to those on that side as children, or as somewhat retarded souls, souls which cannot understand what has occurred, and have not yet integrated their full faculties of awareness as to their environment and their new experience. This Awareness indicates that as this is on *this* particular plane, so it is on all other planes, depending on the nature of those planes involved. That there are some planes which require greater orientation and adjustment, some which do not allow orientation and adjustment, and entities enter in feeling totally incomplete; these in the more difficult planes such as in the realm of Hades, or in some of the sub-astral planes, or planes of limbo.

This Awareness indicates those who enter into Celestria, generally arrive with the full capacity and ability to adjust. Wherein the adjustment is needed, they are guided by those who are helpful and concerned and appointed to assist these entities.

This Awareness wishes also to comment that the plane often referred to as 'Heaven', as being a plane in the realm of Celestria; the plane oftener referred to as 'Hell', as being a plane in the realm of Hades. This Awareness indicates this particularly associated with the lower planes of Hades, wherein this is associated with work in the pits. This Awareness indicates the general activities in these pits are usually limited to those entities who are natives of Hades, that is, entities who do not choose to leave Hades, but who have chosen this as their home.

This Awareness indicates the majority of entities who enter into Hades, enter with the experience being that more of a cleansing process, paying dues for errors created, with the intention of, and the opportunity to move back into another life-experience elsewhere, when these dues have been paid. This Awareness indicates those entities of the most gross nature, who are unredeemable in all levels, in extreme cases, wherein Hades and all of its turmoils will not bring about an alteration of the entity's actions, which are totally alien to all that is good, and wherein the forces of Celestria cannot instill in that entity any hope, or any potential redemption, and the entity absolutely totally chooses to follow the path of darkness, to follow that which is most evil; this Awareness indicates that such entities then are often given that final death, wherein they are sent to the realm known as Summeria. This Awareness indicates this as a seething mass of unconscious energy that allows no escape.

ED's Note: Awareness pronounces Hades as 'Hay-dees',

QUESTION:

Could Awareness give an estimate in earth time, of how long a typical sojourn in Hades is?

COSMIC AWARENESS:

This Awareness indicates that this depends largely on the entity and the extent of his violations to the concept of good. This Awareness indicates that this depends in part on the entity's own capacity for being redeemed, or being remorseful for actions which have caused harm to others. This Awareness indicates that to give an average is that which would be meaningless. This Awareness indicates however that many entities may pass into realms of Hades for brief periods between lifetimes. This Awareness indicates that many entities appearing from one life to another with a period of but a few decades between, may have spent some of those years of earth-time in experiences associated with the realm of Hades.

This Awareness indicates that likewise, those entities may also have moved into realms of Celestria inbetween that period of two lifetimes on Terrestria. This Awareness indicates that entities shuttle back and forth between these three realms quite frequently, depending on their needs and the rewards, and their karma. This Awareness indicates that the principles, the Divine principles which guide these forces are such that the actions are not created as a kind of effort by those of the realms of Celestria and Hades to trap souls, to seek to grab souls, to possess these souls, but rather the action is one wherein the realm of Hades has a particular type of purpose in the scheme of things, and those of Celestria have their own particular type of purpose, and wherein an entity is best benefitted in his growth by being taken into Hades, or wherein an entity experiences and desires those realms as being more fulfilling to his or her needs, this entity will move into those realms of Hades which satisfy those needs.

This Awareness indicates that likewise, the entity who benefits most by a sojourn in Celestria will move there. This Awareness indicates of course there are also the planes within these realms which are similar in allegory, or in allegorical form, to the different grade levels, wherein an entity must learn lessons from this plane or that plane, before moving into other planes or other realms.

This Awareness wishes also to indicate these realms are superimposed over each other in time and space, and that entities may also experience moments in Hades, in various levels of Hades, even while still being in the physical form on Terrestria, the physical universe. This Awareness indicates likewise entities may find themselves in Celestria, experiencing mystical moments of ecstasy, even while in the physical realm of Terrestria. Such entities may experience energies from Celestria or some level of that realm.

QUESTION:

Could Awareness give an example of a Hades experience in Terrestria?

COSMIC AWARENESS:

This Awareness indicates that Hades is an experience wherein the mind is torn, the emotions are torn, and the entity feels totally at odds and incomplete, and working fruitlessly to create or to escape from some endeavor which seems quite difficult and fruitless and meaningless, when the entity simply wishes to find some other form of activity. This Awareness indicates that all entities who struggle for anything at all are reflecting energies from Hades.

This Awareness indicates that all entities who enjoy that which IS, who can accept that which IS are reflecting energies from the realm of Celestria. This Awareness indicates that obviously, entities can experience both acceptance, and can experience the struggle to overcome within the same lifetime, within the same situation, within the same hour; but entities cannot experience Hades, the struggle to overcome something, at the same moment they are experiencing the acceptance of what IS. This Awareness indicates that *It* is not indicating to entities that you should accept what IS at all times, and therefore be in Celestria at all times, for it may be your purpose and may be for your growth to experience the struggle, the energies reflected from Hades, so that you may grow stronger and know who you are.

This Awareness indicates that the Divine Principle did not simply allow the Luciferian experiment to occur without *His* blessing, but actually set up this action so that it would occur whereby entities who moved out from the absolute and perfect peace, could experience those energies which would lead to the development of their own individuality, which would in turn, eventually lead them back to the completion and evolution of being one of equal capacity when returned to the Godhead.

This Awareness indicates that all entities in time, given enough time through eternity, have the opportunity and potential for evolving into deities. This Awareness indicates that this could never occur without first having fallen from grace; for those who are angels, created in Celestria, never having left Celestria, can never know the full scope and potential of being less than an angel, or of being more than an angel. This Awareness indicates that in time, mankind and those who have moved into the physical experiences shall rise to a height which is more developed in spiritual growth and greater wisdom and understanding than those of the angels.

This Awareness indicates however, some may take longer than others, and some may not reach these levels, but few shall fail if given enough time.

HADES AND CELESTRIA--DO THESE REALMS SERVE ONLY EARTH ENTITIES?

QUESTION:

Awareness, is the realm of Hades and Celestria designed to service all creation, or does it service those entities in a particular part of the universe, or universes? In other words, is there anywhere else in creation similar realms, where entities go?

COSMIC AWARENESS:

This Awareness indicates its purpose is to serve as an archetype to which entities may arrive. This Awareness indicates that an allegory or metaphor which may help to explain this somewhat, is seen within the cell of the human wherein this cell, this human cell could be anywhere in the human body. This Awareness indicates that the cell or the individual we are speaking of, may be in the big toe, or may be in the stomach, or may be in the nose, or may be in the head of this human; this cell, this particular individual cell we are speaking of, could be located at any point within the body.

This Awareness indicates likewise, an individual soul may be located at any point within the universe, and if that soul is located in a realm which is incomplete, which is suffering or which is in great struggle, that cell may experience some feelings of discomfort and may not live out the experience. This Awareness indicates likewise, that cell may reside in a particular state of limbo for a period of time, never moving, never changing from its location, stuck there in the knee of this human, waiting and waiting and waiting for something to bend, for some current of energy to come along and move this cell elsewhere.

This Awareness indicates that the cell may also find itself moving through the bloodstream of this entity, moving into those areas up the neck toward the higher and higher realms, reaching up into that area of the Godhead, into that which is the experience of Celestria, wherein there is the Great White Light of consciousness, and the cell has its moment of fulfillment. This Awareness indicates that in time, all cells though they live and die many times, the energies or souls or auras, the energy-fields surrounding those cells continues to live on, and that energy field creates a new body, a new cell, and in time these cells eventually move into the higher and higher dimensions, whereby they experience the greater light of higher consciousness.

This Awareness indicates these cells may not remain there indefinitely, and may leave those areas to sojourn back into Terrestria, into Hades, or into any of the lesser planes of Celestria. This Awareness indicates that it is not simply that entities live on the earth, and then, if living righteously are suddenly given their diploma, or their sentence, and sent to one place or another for all time, for all eternity. This Awareness indicates the entities who conceived of such ideas, have no concept of what eternity might be and therefore, found themselves attempting to explain eternity of hell as year after year, eon after eon, fires of hell burning an entity. This Awareness indicates such concepts as being not only absurd, in terms of any form of understanding, but as being so remote from any form of rationality that it is a

wonder that anyone could have accepted such concepts except from emotional levels based on fear.

This Awareness indicates however, that eternity *does* exist, and yet within that eternity there are a myriad of experiences for entities to move through, and as entities move through these experiences as immortals, they often grow tired of immortality. The ages in Celestria, the ages in Hades, wherein these ages occur in lots of hundreds and thousands of years, or millions of years in earth time, these ages of eternities being so great and so long, entities often grow tired of experiencing the continuous life-time, and continuous memory, and therefore seek to have rest, seek to sleep in death, therefore enter into physical bodies in order for a time to forget their immortal self, and therefore during these moments wherein life seems quite short, entities find themselves able to become excited and thrilled, concerned and energized over issues of life and death, over issues which seem so great and so timely, considering the short span allotted.

This Awareness indicates that life and death in terms of Celestria have little meaning, except that there are great concerns when entities suffer unnecessarily, and cannot find their way out of the suffering, for it is not the intention that any should be ignorant or lost, or caught in the violations of others through ignorance or through confusion or from being lost, and it is the intention that entities should experience all these many things which can be of benefit in helping entities to grow and develop greater levels of awareness through the myriad of experiences in the various realms and planes of experience.

"You know, we're just not reaching that guy."

(THE FAR SIDE By Gary Larson)

THE ASTRAL BODY IS DESCRIBED

QUESTION:

A.F. of Issaquah, Washington, had a couple of questions regarding the astral body. She'd like to know, "Is the astral body identical to the physical body?"

COSMIC AWARENESS:

This Awareness indicates that this apparently is in reference to "identical in terms of appearance". This Awareness indicates that this as negative. This Awareness indicates however, that this astral body often helps to shape the physical body, the physical body being more detailed, the astral body being somewhat of a shadow or silhouette of the physical body. This Awareness indicates that it serves as a relatively accurate silhouette of energy paralleling the physical body, but this Awareness indicates however, that it retains its own memory of its ideal self, and at passing over it can rearrange itself to that which is its image of itself.

This Awareness indicates that it responds more quickly to emotional and mental imagery than does the physical body. This Awareness indicates that the physical body tends to reinforce the image of the astral body to follow its own image. This Awareness indicates that the etheric body as that body which is at its peak of perfection in terms of shape, and never is too old or too young, but is always timeless and ageless as an immortal being; this etheric body as that which is at the peak of development, even as a peach reaches its peak of ripeness.

This Awareness indicates however, the etheric body never passes that peak nor begins to decay or rot.

THE POWER OF THE EARTH BABY'S ASTRAL BODY & PSYCHIC FORCE ...WHEN PSYCHIC BODIES ENTER THE FETUS

QUESTION:

Is the astral body of a baby or a child a full-grown body, or a baby astral body?

COSMIC AWARENESS:

This Awareness indicates that it arranges itself to fit the image which the entity holds or requires in order to be what it seeks to be, in a physical form. This Awareness indicates therefore, the astral body can assume the small energy field of a baby; it also can assume a larger field which is why in some instances, a baby has a very large aura, and also has a large effect and impact on the inhabitants of a room. This Awareness indicates that babies are extremely powerful in terms of their psychic force, and ability to control a room full of people. This Awareness indicates that this in part is due to the strength of the astral energies surrounding the child.

This Awareness indicates that wherein an astral energy enters into the midst of a couple who are in the process of copulation, and this astral energy seeking to become earthborn, attaches to the mother through the egg and sperm attachment, this astral energy does not necessarily at this time become extremely small, as the size of the egg and sperm, but may remain attached to the mother, wherein the mother takes on an extra energy, a kind of glow which occurs when her aura and the aura of the potential child merge together. This Awareness indicates that this glowing energy of the astral fields, (this Awareness indicates this along also with the mental and etheric energies of this being); these energies attached to the mother may remain at normal adult size, identifying with the mother's body while still giving energies to the fetus that grows within.

This Awareness indicates that wherein the fetus has grown to a particular stage of development, the astral bodies begin to take over and possess the fetus. This Awareness indicates this in terms of both astral, mental and etheric bodies. This Awareness indicates essentially, the greater part of the mental and etheric body wait for some time after birth before completely entering the child. This Awareness indicates that the mental body in particular is slow to enter. The mental body often enters as late as three years after birth, this appearing suddenly, wherein the child suddenly takes on a personality. This Awareness indicates that in some instances this occurs sooner, and in some cases quite shortly after birth. This Awareness indicates that this depends largely on the type of birth experience and situation the child finds itself in, that wherein the situation appears hostile or frightening, the mental body may be slow to enter, the personality not emerging until sometime later.

This Awareness indicates that the etheric body may remain hovering close by throughout all these experiences, inhabiting, and also capable of withdrawing from the child when it chooses, for brief duration. The etheric body as being closely associated with that known as the Higher Self. The astral body as being closely associated with that known as the subconscious, or lower self, the mental body as being closely associated with that known as the middle self, these being terms which can be alternately used for various frames of reference.

The Causal and Etheric Bodies

QUESTION:

And the Causal body, is that identified.....

COSMIC AWARENESS:

This Awareness indicates that the causal body as that which is essentially the higher Over-soul of the entity, above that of the etheric body, but the direct cause and guiding force of the etheric body. This Awareness indicates that this likened unto the Oversoul of the Higher Selves of a group of entities and their Higher Selves.

This Awareness indicates for example, the concept of Christ as a guiding force, directing the Higher Selves of a multitudes of entities. This Awareness indicates likewise the causal body and the etheric body being essentially bound together as one, are equated in part similarly to the concept of Christ and the Father in Heaven as One.

(Closing Message)

This Awareness indicates that these various energies and dimensions, the planes of Essence, the planes of Limbo, those planes within Hades and those planes within Celestria, the planes of Essence being within Celestria, the planes of Limbo being within Hades; these various barriers may also be understood in another frame of reference,--this in terms of that which John Keel referred to in the book *The Eighth Tower*: this in reference to the electro-magnetic spectrum, whereby vibrations are in octaves and are set apart from each other, the octaves being set apart from each other by these various vibrations and these vibrations permeating and surrounding the planet earth, creating a biosphere computer, filled with energies, magnetisms, vibrations, thought-forms, concepts, ideas, experiences floating in space in the biosphere, a living sphere of energy surrounding this planet.

This Awareness indicates that this frame of reference as that which can also give some hints as to these energies which Awareness describes in terms of the "levels" and "planes" and "realms" of Terrestria, the material vibration; Hades, the vibrations which are incomplete, unfulfilled and in disharmony; and Celestria, wherein the vibrations are in perfect harmony and in completion, wherein chords are harmonious to one another and do not create friction.

This Awareness indicates that Hades is that realm of building and construction; Celestria is that realm of completion, rest and comfort; Terrestria is that realm of discovery and experience.

EDITOR'S NOTE:

This reading is a continuation of the life-after-death readings, which began with 'Revelations of Awareness' No. 81-27 (On Death & Dying); \$3.00 from C.A.C. More on this series will be forthcoming.

Target Seattle To Send Delegates To Soviet City

On March 20, a delegation from Target Seattle, a coalition of 50 antinuclear organizations, will leave for the Soviet Union with a letter calling for a U.S.-Soviet effort to prevent nuclear war. The delegation will present the letter to officials of the city of Tashkent, the Soviet sister city of Seattle. The letter, signed by over 40,000 residents of the Seattle metropolitan area, asks both superpowers to "create peaceful means of resolving conflicts and to take steps to reduce the danger of nuclear war." The 30-member delegation will meet with officials in Moscow and Samarkand before traveling to Tashkent.

"The basic purpose of this undertaking," says Jarlath Hume, an organizer for Target Seattle, "is to establish a direct line of communication between the people of Tashkent and Seattle." Residents have been communicating with each other since the sister city project was begun in 1973. Last year Seattle Mayor Charles Royer proclaimed February 14 "Tashkent Day," when an eight-member

LINKING HANDS COAST-TO-COAST...

"HANDS IN PEACE" SET FOR JUNE 12th

...NUCLEAR FIRST-STRIKE AGAINST RUSSIA
MOVED UP TO JUNE 18th OF THIS YEAR

QUESTION:

B.M. of Moab, Utah, sent us a letter, mentioning an interesting event that's going to occur, and I'd like to ask Awareness if this will have any impact at all, or any alchemical impact. He writes:

"Something that might be of interest to the membership is an event called 'Hands in Peace'. It's sponsored by the Academy For Peace Research, Center Hill Road, Plymouth, Massachusetts, 02360, telephone number:(617)-224-3696. They are coordinating an effort to link hands from the Atlantic to the Pacific on June 12th, 1983, at 1:00 PM Eastern Standard Time, for peace. Five and one-half million people will be required. It sent chills through my spine when I heard about it."

I'd like to ask Awareness, does *It* see this actually happening? And if so, will it do anything of a positive nature?"

COSMIC AWARENESS:

This Awareness indicates that it appears that this as being very difficult to coordinate; that there are many obstacles involved in such coordination. This Awareness indicates that however, were this to occur, it could have a profound effect in that it would call world attention to this action, and the symbolism involved. This Awareness indicates that it is possible for this to occur, yet it does appear that in order for it to occur, it will take much effort and coordination and that there will need to be great assistance given to this action.

This Awareness indicates that this can be of great significance if it is enacted.

This Awareness wishes to comment at this time that June 18th as seen as a time in question. That energies at present are not fully formed as to this time, yet there is now a movement of energy which tends to indicate that this date has been selected as a potential date for another attempt to create a nuclear strike against Russia. This Awareness indicates that the energies have not yet finalized or become solidified on this date. That there can be changes occurring to deny this action. This Awareness will give further information as the energies become more defined.

BREAKTHROUGH IN NEUTRON BOMB:

THE W PARTICLE MEANS BAD NEWS

(Some signals to watch for)

QUESTION:

The last time Awareness mentioned this situation, the date of the first-strike was to be the spring of '84. This is something that has come up since that last information Awareness gave on this subject. Is that correct?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This as due to new developments relating to that which is known as the W Particle, a breakthrough in the neutron bomb development, wherein by using the W Particle, the radiation involved in a bombing can be controlled and limited to a certain area, this allowing for greater use of these weapons in a controlled manner. This Awareness indicates that the use of this W Particle also as making it possible to circumvent certain grid requirements and energy alignments which would have been necessary for a nuclear strike in previous times.

This Awareness indicates that this as giving encouragement that these forces can be speeded up and used with greater control, for those who would use this type of weapon to gain their ends. This Awareness indicates that one circumstance or condition which can be seen as giving a hint to the development of this date and plan is that of the space shuttle; that if this is again put off until shortly prior to that date, entities can assume that the flight is intended as a spy mission to coordinate actions around that date of June 18th.

This Awareness indicates also the activities in the Middle East can give some indication, particularly if seen flaring up and involving American troops just prior to that time, whereby the excuse for greater involvement in that area could be created.

....A NEW TWIST ON THE "RAPTURE"....

THE COMING OF WORMWOOD

--THE DARK STAR OF 'REVELATIONS'

QUESTION:

A question from L.A., Tucson, Arizona. "I have a question you can ask Awareness. In Reading No.82-22 ('What is the New Being?'), on page 10, Awareness refers to rejuvenation of the earth and the removal of "competitive" entities from this planet. Again, on page 12 of No. 82-24 ('The Forces of Ahriman'), Awareness states that the spiritually evolved will be lifted from this experience, the test of mankind.

From these two statements, it appears as though the earth is to receive a cleansing, perhaps polar and orbit shifts. Entities will be separated according to their evolution, and "moved" to two different places. Conjecturally, the lesser evolved, for want of a better term, might be moved to a denser planet to continue the struggle. Others might be returned to earth after a brief cleansing period, to move into New Being, a New Age, and become part of the Space Confederation.

There is a recent book in circulation called, *Project: World Evacuation**compiled by Tuella. This book details this removal and cleansing process in general detail. As for a timetable, it states that this will occur in this decade. Awareness has indicated "very soon". Would Awareness comment on the accuracy of this book, and of the timing, and, if possible, provide an update and more details? Any information on the role of C.A.C. members and ministers in this plan would be appreciated. Thank you."

* "Project: World Evacuation", by the Ashtar Command, Compiled by Tuella, is published by Guardian Action Publications, P.O. Box 469, Deming, N.M., 88031. Price, \$10 postpaid. Note: CAC does not stock this book.

COSMIC AWARENESS:

This Awareness indicates that this book in general, though not in detail, as being accurate in terms of the general scenario. This Awareness indicates that essentially, this Awareness will give a very brief, or limited amount of information at this time in regard to this coming scenario. This Awareness indicates that this will no doubt raise many questions which entities will wish to know more about. *This Awareness does not intend to answer any further questions other than as It chooses to give at this time.* This Awareness indicates that in a later time, this Awareness may volunteer further information in regard to this. This Awareness indicates that It makes this pre-statement in order to head off a flood of questions which entities may otherwise send in to you.

This Awareness indicates that there IS a body, this as a planet, which is moving toward the solar system. This Awareness indicates that many of your scientists are aware of this. This body, or planet, is known as Hercules, although this name is not used by all who are aware of this planet. This planet, moving in the general direction of the solar system, as that which can bring about considerable disturbance to the solar system. Scientists of the world and governments, are aware of this body, and of the potential danger, but do not wish the public to become aware of this body, as it would create great havoc and concern, and complicate efforts to deal with the situation.

This Awareness indicates that this is the body referred to in the *Book of Revelation* called Wormwood.* This Awareness indicates that its movement in this direction as that which troubles the authorities on your plane, and many of the countries who are raising large sums of money for weapons of war are, in fact, raising this money for weapons to deal with this planet, in an attempt to divert its direction if it appears to move in a threatening path.

This Awareness indicates that the excuse that these weapons are needed for warfare is intended to avoid the exposure of their true purpose, with the belief that the public would not be able to accept this type of event without panic. This Awareness indicates that this can have a profound effect upon the future of this planet. Entities whose souls are not properly developed, who have been deeply involved in actions of a non-loving manner, who appear to be almost unredeemable, are candidates for transfer onto that planet. This to occur as the planet passes.

This Awareness indicates those who appear to be redeemable, whether in the body, or out of the body, will remain on the planet earth. Those who follow that planet will be set back into the primitive stages of civilizations on that planet to begin again, at the early stages of evolution. These entities may evolve in other directions other than as human beings.

This Awareness indicates that more will be given on this at a future time. That this is not seen as an immediate event. The time of this event as in the future. This Awareness does not wish to give further comment on this at this time, as it can lead to much disturbance.

*Book of Revelation: Chapter 8 (The opening of the 7th Seal); Verses 10 & 11.

DON'T THE WAR MONGERS KNOW THE SPACE CONFEDERATION CAN PREVENT THE HOLOCAUST? (WHY REAGAN & THE PENTAGON ACT CRAZY)

QUESTION:

There was a question by W.E., a number of questions on this same book, which I won't ask, relating to that concept, but there is one question....

COSMIC AWARENESS:

This Awareness suggests that entities may, if wishing further information, may order the book and receive some information through that source, but this Awareness cautions entities not to assume that the book is accurate in detail. This Awareness suggests your question continue.

QUESTION:

Well, W.E. wanted to know: "Could Awareness comment on how aware the United States and the Soviet Union are to the fact that the Space Confederation would intervene and prevent a nuclear war, if they thought it was necessary. If those in power were aware of the fact that they could be prevented from starting a nuclear war by space beings capable of disarming any form of hostility, why would these power-hungry factions continue on with their mad schemes of world domination?"

COSMIC AWARENESS:

This Awareness indicates there are certain forces on this physical plane who not only are at war with other factions on this physical plane, but are programmed on subconscious levels to be at war with the Space Confederation. These forces, over many lifetimes, have been under the control of those Dark Forces, and as such, are nothing more than biological robots, acting out their roles and programming, regardless of what the cost might be, regardless of any rational thinking, and are simply carrying out orders given to them prior to entering on this plane as physical beings.

This Awareness indicates that such entities are essentially being controlled by those Dark Forces and do not ask questions or think for themselves about the consequences of such actions. They simply know that they must do what they are doing. This Awareness indicates many others who go along with these entities simply accept the premise in their life that they must obey their authorities in order to do what is right, and therefore, they feel right in what they are doing, and they receive their rewards from these authorities, and these entities do not question the wisdom of their leaders.

...WHERE HAVE ALL OUR CRAB BOATS GONE?
THE BRISTOL HUM & BERMUDA TRIANGLE

QUESTION:

A.P. would like to ask Awareness: What is causing the deep-sounding rumbings and hums, such as the Bristol Hum, in England?

COSMIC AWARENESS:

This Awareness indicates that this relates to certain experiments regarding those....This Awareness indicates this associated with the energies of the Bermuda Triangle. This relating to energies associated with the use of sound waves in water, and in earth, whereby ultra-low frequency sound waves that are used for destructive purposes; these being tested. This Awareness indicates that it appears that these having their effect on water, can be used to make substances appear or disappear.

This Awareness indicates this particularly used for causing substances to disappear. This Awareness indicates that the disappearance of ships and planes are connected with this ultra-low frequency system of sound vibrations. This Awareness indicates that there appears to be more involved in this than the mere ultra-low frequency. It appears also to have some connection with the use of reverse polarity concepts.

This Awareness indicates this appears also to be related to the disappearance of the fishing boats off of the North-western coast.* This Awareness indicates that this as a research experiment which is still in the process of being developed, and that the Russians as having the greater amount of information in regard to this source of energy. This Awareness indicates that it appears there are also experiments which the American and British are involved in, but these are not as advanced as those of the Russians.

This Awareness indicates that this energy in the area of Britain appears to be that which has been implemented by Russian sources.

*ED's Note: Awareness is referring to 4 large crab boats based at Anacortes, Washington, which have mysteriously sank in the past month. On Feb. 14th, two 125-foot sister ships mysteriously sank off the coast of Alaska in the Bering Sea without a trace, 14 crewmen losing their lives. Two weeks later 2 more crab boats sank (all 4 were new boats), but these crewmembers were rescued. No one had any idea why the boats just suddenly sank. Seattle newspapers have asked: "Is there a Bermuda Triangle in our Area?"

WHAT HAPPENED TO 17 MILLION BIRDS?
...More on the Bermuda Triangle

QUESTION:

The other day the media announced that virtually the entire adult population of seabirds on Christmas Island in the Pacific mysteriously disappeared last year, leaving millions of chicks behind to starve to death. Dr. Ralph Schrieber, curator of ornithology at the Natural History Museum of Los Angeles County in California, said about 17 million birds representing 18 species either abandoned the island, or perished.

Some bird species will lose at least an entire generation because of the disruption, he said. "What has happened there was a real shock and a catastrophe when put in the context of the breeding biology of these species," he said.

Would Awareness explain what happened to these birds, why they would leave 17 million babes on Christmas Island atoll to die?

COSMIC AWARENESS:

This Awareness indicates that this as also related to that ultra-low frequency vibration which is being tested and placed in various areas for....This Awareness indicates that this as part of a military operation as well as a scientific operation, in order to test the effects of these rays, or vibratory rates. This Awareness indicates that the United States, Russia and Great Britain had become involved in a scientific study of the Bermuda Triangle and the energies involved.

This Awareness indicates that the Russians continued in that research, while the other countries dropped out; the Russians having unlocked the key, or having discovered the nature of the forces involved, and are now in the process of studying these forces in various ways, in various places, to see how they react and how other energies respond to these forces. This Awareness indicates that it appears there will be other mysterious events occurring in connection with these forces.

This Awareness indicates that this as also in part responsible for the storms in California. That this, in conjunction with other energy forces which the Russians have been using in an effect to control nature and natural forces.

QUESTION:

These scientists think the only thing that could have caused this wierd thing with the birds is the unusual weather phenomenon known as 'El Nino' which results in a change in Pacific wind patterns, ocean currents and water temperatures. Is there any truth to that?

COSMIC AWARENESS:

This Awareness indicates that these as being secondary, or as being spinoff energies from the vibrations. This Awareness indicates that the vibrations as being in part responsible for these changed currents and energies and wind patterns.

WHY SO MANY COVER-UPS?

(THE PBS EXPLAINS BERMUDA TRIANGLE?)

QUESTION:

In relation to the Bermuda Triangle, there was a show on public television just the other day that apparently provided very rational and documented evidence that the so-called mysterious disappearances, (of most of the key cases referred to in many books on this subject), had been explained in very scientific terms, and that there really wasn't that kind of phenomena going on there, plus, a sailor that we know said that while there are areas in the seas that the navy people know about, the navy men don't worry about the Bermuda Triangle as one of them. How much of this is really true?

COSMIC AWARENESS:

This Awareness indicates that this as being an effort to keep entities from believing there is anything peculiar about this area. This Awareness indicates that this as much like a cover-up by those who deal with mysteries such as the UFOs, Bermuda Triangle, the sightings of Big Foot, the sightings of sea creatures of an unusual nature; these generally do not fit in the scenario of the world as the authorities like to present to the masses.

This Awareness indicates the basic rule of science and of the authorities is to avoid giving any information that might shock the masses. Let everything appear to be in order, in a logical and simple manner. This Awareness indicates that this is the general rule whereby these authorities and scientists operate, to avoid any action which would arouse the public, for such arousal also creates disturbances which they themselves must answer, or must respond to in order to calm the public.

This Awareness indicates therefore, it is in their personal interest for the masses to think that: "None of this actually exists; the scientists, the authorities are in control, and all is but superstition." This Awareness indicates that this not only occurs on levels of bizarre, unusual or intriguing international affairs, but also can be seen in your local community, wherein those in charge will play down any occurrence that might arouse the public if it were expressed in a manner that conveyed all of the details. This Awareness indicates this is because an aroused public is hard to manage.

SOME ENLIGHTENING INFO ABOUT YOUR COLON AND YOUR LIFE SPAN

...More on colloidal bentonite

QUESTION:

A question from G.K. in Pennsylvania. "My wife and I both have been taking a product called Vit-Ra-Tox. Technical name: colloidal bentonite. It has helped us both with eczema type rashes and hay fever. It seems to be much more effective at cleansing the intestines than colonics were. Could Awareness comment on the benefits of taking colloidal bentonite for cleansing the intestinal system? I'm sure the answer to this question would be very enlightening* and reveal a solution or relief of other physical problems.

*Ed's note: Is this an intentional pun?

COSMIC AWARENESS:

This Awareness indicates that essentially, it has been said that death begins in the colon. This Awareness indicates this to a large degree is correct, depending on where the death begins; but that in terms of general debilitating diseases, this is correct. This Awareness indicates as the colon serves to process the food which has entered the system and to eliminate wastes, it must remain somewhat clean as a canal for that food to pass through.

This Awareness indicates that this may be compared to plumbing in a house, whereby if the plumbing does not work properly, and the system backs up and is not repaired or cleansed, the system then becomes almost useless and sanitation problems will be experienced within the house. If within that house, the sanitation problems are not dealt with properly, the house soon becomes infected with various types of disease as a result.

Nuclear 'Revenge Squad' to lie low in the desert

THEIR GROUESOME job: to hide deep beneath the barren Nevada desert following a nuclear holocaust — and then devastate the country that launched it.

A bizarre new "Revenge Squad" is being formed in the U.S. to operate after a nuclear war, says the London *Daily Mirror*.

Made up of scientists and servicemen, the squad would be in charge of nuclear missiles deep in the desert mountains and canyons. After a holocaust, their orders are to lie low for a year in radiation-proof bunkers.

They would then launch

retaliatory nuclear strike against the enemy, using the latest MX missiles.

Work has already begun on the survival chambers. A whopping \$40 million will be spent on experimental drilling projects alone.

The MX missiles will be buried up to one and a half miles underground in special reinforced shafts that can withstand a nuclear blast of up to 100 megatons.

Elaborate precautions, and expensive ones. But having the last word in the nuclear age was not expected to be cheap.

Sample copy: \$8.00.

'EXAMINER'—PAGE 41.

Jan. 4, 1987

This Awareness indicates that bentonite, as a type of clay-like material, tends to draw poisons to itself, and as it is taken into the system through a drink, whereby this is mixed with water or liquid, as it is taken into the system and flows through, it tends to draw poisons from the system toward itself. This Awareness indicates that it then is flushed out. This Awareness indicates that this as a beneficial product in helping to cleanse the colon. That this is available on the market under various names. That most health food stores will have some form of bentonite in use for this purpose.

This Awareness indicates there are also certain cosmetic clay-type mud packs which are made from bentonite which may be used on the exterior of the skin to help draw poisons from the skin, removing rashes and healing difficulties in relation to the skin. This Awareness indicates that it appears this product brand name mentioned as that which is of high quality and of good value.

QUESTION:

It sounds similar to magazone. Does magozone have this bentonite in it also?

COSMIC AWARENESS:

This Awareness indicates that these products work in a similar manner, but that the magozone also contains magnesium and ozone, and other substances; that bentonite is not seen as one of these.

Ed's Note: In the Issue No. 1, (July, 1982) of the New Healthview Newsletter, which specializes in showing entities how to reverse the aging process, Mr. V.E. Irons, colon specialist explains how bentonite and his product Vit-Ra-Tox can clean the colon of literally pounds of compact fecal matter that has built up over the years in the average entity's colon, and which prevents vitamins and minerals etc. from being assimilated into the body, which is the main cause of the aging process. In this and other readings, Awareness has confirmed the information given by Mr. Irons. C.A.C. heartily recommends the membership to either subscribe to Healthview Newsletter, or order this particular copy. Write: Healthview Newsletter, 612 Rio Road West, Box 6670, Charlottesville, Va. 22906. (3 month trial subscription is \$16.00); or send \$8.00 for this special issue No. 1 devoted to info on cleaning out the colon and adding 30 more years to your lifespan (at least). Also, you can order Bentonite (Vit-Ra-Tox) direct for \$9.00 plus \$2.00 postage from: V.E. Irons Co., PO Box 296, Natick, Mass., 01760.

KEEPING YOUR BODY IN SHAPE....

HOW TO KEEP THE MOUTH
FREE OF DISEASE

QUESTION:

M.S. has a question. "There are reports of an increase in paradontal disease. Does it have to do with fluoride in toothpaste? And if so, will brushing with baking soda and rinsing with peroxide help?"

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative in answer to all levels of the question. This Awareness suggests that the use of peroxide, baking soda, and also salt or salt water as being beneficial in eliminating the bacteria involved in this disease. This Awareness indicates that using dental floss is beneficial. That also the use of the toothbrush in those areas whereby the gum and teeth come together using peroxide or saline or salt solution, or baking soda; these as all being beneficial in helping to rid the gums of the bacteria in these areas. This Awareness indicates that rinsing the mouth with saltwater as a daily practice is also of great benefit in keeping the mouth, gums and teeth free from these bacteria.

This Awareness indicates that besides the danger of losing one's teeth from these particular bacteria, it is also important to recognize that the bacteria in the mouth affect one's immunity system and can lead to many other health problems besides the teeth,--problems associated with the body itself, within the organs, within the bloodstream, and within the digestive tract. This Awareness indicates that wherein an entity's teeth and mouth are cleansed from these bacteria, the general health of an entity will also improve.

This Awareness indicates that the use of baking soda, saltwater and also hydrogen peroxide, these are all beneficial. That the use of toothpaste, particularly those having sweet sugary flavors, those having fluoride and sugar content,--these help to produce the food which feeds the bacteria, which leads to these diseases.

SODIUM FLUORIDE

(BLUE)

DANGER POISON

Keep Out of the Reach of Children. See back panel for antidote and additional Warnings.

1 Lb. MO-507

INSECTICIDE

ACTIVE INGREDIENT:
SODIUM FLUORIDE 95%

Courtesy of CAC member Allan Pucell of Cleveland, who prints this on the front of his envelopes.

IS FLUORIDE MAKING DENTISTS

QUESTION:

GO BROKE?

Awareness has given information previously on the evils of fluoride, yet there are continued reports put out in the media, that so many children nowadays have so few or no cavities that the whole dental profession is in danger of going broke in many areas, and they accredit all this to the fluoride. Now, if this is so, does this mean that as these children grow older that their teeth will probably start rotting out from the inside, or has something new been introduced into this whole thing to reverse this?

COSMIC AWARENESS:

This Awareness indicates that it appears that much of this as having been promoted by certain forces with vested interest in this program; that this Awareness does not see the dental profession as lacking in patients. This Awareness indicates that this does not appear to be accurate reporting. This Awareness suggests that this may be re-examined at a later time. The energies on this at present are not seen clearly.

ED's Note: for some really scary information on fluoride, please refer to 'Revelations of Awareness' No. 89-11, (Fluoridation--for stupification and population control); \$1.00 from C.A.C.

REVELATIONS OF AWARENESS is a cosmic newsletter published for the membership of Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington 98507, USA.

ED's Note: the other day the Armageddon Express passed through our area. It sneaked in 10 miles south of Olympia and went through the town of Shelton (the birthplace of Vicki T. and Ralph DUBY) on its way to Bangor in the Hood Canal 40 miles from here. John Marshall of the Seattle P.I. says it all. We share this with you. Later the Pentagon said the train was carrying empty boxes. If you believe that one, there is a bridge in town I will sell you for \$75.00. (Avaton)

Seattle Post-Intelligencer, Wednesday, March 23, 1983 A7

This train bound for Armageddon

This train is bound for Armageddon, this train . . . Around the bend, it comes, its bright searchlight beaming down the track in the noontime sunshine. First two green Burlington Northern engines come into view, then the bright-white freight cars — the bearers, it is said, of more than 100 nuclear warheads.

Along the track, 200 protesters stand in single file, holding hands. Among them are several Buddhist monks in saffron-colored robes who are chanting and banging on drums. Circling overhead are helicopters whose blades pound out their own malevolent beat. Together, the monks and the choppers provide an eerie reprise from the soundtrack of the Vietnam War, played at ear-splitting level this Tuesday morning just outside the Trident submarine base at Bangor.

The train grinds on, nearing the last mile of a 1,700-mile journey from the Pantex Corp. H-bomb plant in Amarillo, Texas. It has run right through the gut of the country, sparking prayers and protest all along the way, killing forever the image of the friendly freight train long immortalized in folksongs. This train, make no mistake, is not bound for glory.

Its whistle is blaring now, a short angry blast. And the whole train is looming into view, at a speed of perhaps 10 miles per hour that somehow seems much faster. A woman strides purposefully out of the crowd and sits down on the railroad roadbed; a Kitsap County deputy quickly descends upon her and tries to lift her up, a task that he is finally able to accomplish with the assistance of another officer.

A few others protesters follow her non-violent example, one at a time, making their way toward the train. Some carry signs, some carry flowers and they manage only a few steps toward the oncoming train before the deputies subdue them.

It is a protest carefully scripted, a play that has been seen many times before in many other places, places like India, Selma and Seabrook. And all the actors — the protesters, deputies, press and even the train — are playing their designated roles.

Yet watching the undeniable drama unfold still wrenches the gut, tortures the heart. The train is not going to stop, not even going to slow. It keeps on coming, closer and closer, but here are people who willingly step from the crowd and use their bodies to set an example that they can only hope others will follow.

Then the train is suddenly upon them and passing them by. It grinds right over the bouquets of forest greens they have placed between the rails, over the elaborately folded little paper stars they have placed there too.

John Marshall

Overcome after the long wait

After waiting hours and, in some cases, days for this moment, many who watch the train pass are overcome by their emotions. Tears well up in many eyes, stomachs catapult into throats.

For after the pair of everyday green engines come the bright-white freight cars, a scary vision from some science fiction movie suddenly made all too real. First among the white cars is a security car, topped by slim windows from which guns can be fired. A set of eyes peers out, watching to see if the train is about to become the object of something other than non-violent protest.

Then comes the first freight car believed to be carrying the nuclear warheads, then the second, then the third, then the fourth, then the fifth, then the sixth, then the seventh, then the eighth, then the ninth, then the tenth, then the eleventh, then the twelfth.

The freight cars flash by like some arctic blizzard, ice-cold to the soul, imposing and impervious. The cars cast a blank white wall to the outside world, without windows, without even any doors that are visible. And they carry only a few small black markings — the initials MTMX (reportedly the code for a train carrying nuclear weapons), plus the prosaic words: "Brake shoes. Replace when worn to 1/2-inch thickness."

The most deadly, thus far

To the protesters, who stand just 30 feet away, it is like seeing the seeds of man's destruction pass by in ghostly, ghastly review. Inside the cars is the ultimate enemy they are fighting, the most technologically advanced, most deadly method of mass killing that man's creativity has been able to devise. Thus far.

So once the train is past, once the deputy releases his grip holding her to the ground, Kim Wahl struggles to her feet and is raked by tears and sobbing. She and a friend embrace, hugging each other hard.

Wahl herself is a symbol of just how widespread the protest against nuclear weapons has become. The 45-year-old Clyde Hill woman is an unlikely protester, a nurse and wife of a Bellevue internist, a mother of three. Yet after years of study and agonizing, she and her husband, Bill, began withholding a portion of their income taxes last year as a war protest. She carried nuclear freeze petitions to often unfriendly doorsteps on the Eastside. She participated in the water-borne protest against the USS Ohio, the first Trident submarine to arrive at Bangor.

It has cost her some friends and her anonymity, but Wahl is willing to pay that price when human survival seems to be at stake. It seems the least she can do for her children.

Just one word: evil

The tears are still streaming from Wahl's kind eyes and her chin is quivering when she is asked her reaction to the train and what she felt when it passed. She can sputter out just one word, "Evil."

Later, she composes herself and adds, "I think we know what's been passing through our towns and cities on this train. We simply cannot be like the Germans in World War II who claimed they didn't know that the trains passing through their towns and cities were carrying Jews to the Holocaust."

Watching the train pass is an even more unlikely protester than Wahl. He is Randy Collins, a 44-year-old retired Marine Corps major who is building a log home on two acres near the Trident base. Collins served two tours in Vietnam, including a stint at beleaguered Khe Sanh garrison where every month, half the members of his infantry company went down wounded or dead.

Collins is "not a pacifist by any means" and remains skeptical about protesting the train's arrival; he thinks pressure on politicians is more effective.

Collins also believes, "We should leave the killing up to the infantry men, those whose job it is to fight and die. But this damn thing — this train and its warheads — can incinerate the Earth and people who have nothing to do with the fighting. I believe there will always be war, but there are so many of these warheads around; they're a scenario just waiting to be played out."
