Cosmic Awareness Communications
P. O. Box 115, Olympia, Washington 98507
(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

How to confront the BEAST

THE OPPORTUNITIES FOR HUMAN EVOLVEMENT ON THIS PLANET

(Opening Message, March 16, 1983)

COSMIC AWARENESS:

This Awareness wishes to discuss the present trend in terms of opportunities for human evolution. This Awareness indicates that in past history on this plane, there is the record of many different civilizations; these civilizations each having their own culture, religion, their own system and structure, their own morals; and these civilizations each having their own economies, so that each individual civilization may be studied as an independent unit, even though existing simultaneously on this plane with other cultures and civilizations.

This Awareness indicates that throughout past history on this physical plane, on this earth, these civilizations reached certain levels of development, and then, through circumstances inherent in their own nature, the civilization fell apart, either because of internal strife and problems, or because of weakness that succumbed to external invasion, or forces.

This Awareness indicates that in the present world community, these civilizations have in many cases matured to become nations or cultures, whereby they share economies between each other, whereby the races are intermingled, whereby the religions reside beside and within the same community; whereby religious ideas, philosophical ideas, cultural training and expressions are mixed within the same society, within the same civilization, so that a synthesis of ideas, a synthesis of morals, a synthesis of culture, a synthesis of concepts and economic systems, a synthesis of political systems may occur.

This Awareness indicates in today's world, radio and television and newspapers and multi-linguistics as that which allows cultures to reach out and to transcend boundaries which once would have been impregnable, which would have separated cultures, which would have made other cultures appear to be totally foreign and alien in nature.

This Awareness indicates that this communication, this interconnection between cultures now is creating a curiosity, an interest in each other. That there are, of course, still the remains of the ancient prejudices, whereby certain religious groups are suspicious of each other, certain cultures are paranoid of the other; yet there is still that ever-growing curiosity: What is that group all about? What are their basic ideas? Why are there so many who believe that way?

This Awareness indicates that humanity at this time stands on the threshold of a potentially new and great era, whereby entities may become aware of new and different ideas, whereby these ideas may be mixed, and whereby the best of several possibilities, whereby the best ideas of several philosophies or cultures may be borrowed and enhanced to allow each of these to

This Awareness indicates that the spread of economic systems and techniques allowing for the growth of certain values, of certain material pleasures and enjoyments, or certain material benefits, into those areas which have previously existed in primitive economic levels; the spread of technology such as the electronics field, such as the areas of industrial development, such as the fields of automobile and transportation systems and engineering designs and programs which are now reaching into those previously undeveloped nations.

This Awareness indicates that this continued growth, such as is occurring in Africa and in the Far East and in the Middle East; this rapidly changing world is that which is presenting an opportunity whereby entities of this plane may begin to share each other's essences and presence, each other's ideas, each other's technologies, so that there can indeed become a One World which is shared by all.

This Awareness suggests that the individuality of nations, of cultures, of individuals, will undergo change, yet much of this individuality will remain ever separate, and entities will learn to tolerate these differences. This Awareness indicates that the movement toward this can be disturbing to some of these energies, to some entities who do not wish to allow different cultures, different philosophies, different ideas, yet these entities who are restrictive and prejudice to their own ways and intolerant to the ways of others will find it becoming more and more difficult for them to adapt to these ever-changing energies of this plane which lead to a smaller and more communicative world.

WHAT ALL ENTITIES & NATIONS DREAD AND FEAR

This Awareness indicates that entities must become more tolerant in order to survive. This Awareness indicates that as this is occurring, and this plane is becoming more tolerant, it is fitting, (although perhaps dreaded); it is fitting that there can occur that experience whereby a single action viewed by all entities on this plane, regardless of culture, regardless of religion, regardless of nature, regardless of the nationality or race, whereby all entities on this plane witness an action which is single in nature and which develops, grows and evolves into a personification of that which all entities dread and fear.

This Awareness indicates that this action and this personification of that energy which all entities from all cultures and religions may share, may contribute to and may fear, and may experience through to its ultimate conclusion, is that energy which has been termed the Antichrist.

This Awareness indicates that it will do little good for each individual group, for each individual culture to have its own individual devil, its own individual enemy, its own individual Antichrist. It will do little good in terms of bringing all of these nations together under one god. This Awareness indicates it matters little that each of these cultures can look at another culture and label that as the enemy, or as the devil, but it does matter that all of these cultures together can witness and see that there is an Antichrist, an energy which is alien to the happiness of entities upon this plane, and that this Antichrist

When this occurs, these various cultures, these individual nations, the individual religions can then all focus upon the same common enemy, and many of these may contribute to this Antichrist, to the evolvement of this Antichrist, and many of these will recognize this as the Antichrist and will withdraw energies form this, and will fear this, and as time passes and the energies of the Antichrist become more clear and more discernible; only then will the masses of entities upon this plane recognize the common face of that which is alien to happiness.

This Awareness indicates that once this occurs, and all entities of all religions and all cultures have the common experience of recognizing the Antichrist together, then when this Antichrist energy is dissolved, is removed, then and only then can all of these religions, cultures, nations and individuals worship together in a common world having the same values, the same appreciation for the peace that follows.

This Awareness indicates that then when all entities are under the same common religious and spiritual experience, the various conflicts between religions will cease to exist. This Awareness indicates that likewise, in terms of the economies, wherein there are conflicts between nations in regard to economies; wherein these economies begin to merge into a One World economy, and this leads to certain experiences which may be dreaded and may be hazardous to the health and welfare of entities upon this plane, and wherein this tyrant is eventually overthrown, then the common enemy may then be regulated in such a manner as to bring about a universal economy that is harmonious for all involved.

This Awareness indicates that therefore, in order to deal with these energies of religion, of economies, it is appropriate that the Antichrist emerge in the area of holding power in the realm of the economies of nations. This Awareness indicates that likewise, nations having their own nationalism and separateness may likewise begin to experience that emerging which transcends nationalism, and this transcendence of nationalistic interests may lead to a world order, and wherein this occurs, reaches a development stage that is tyrannical, whereby entities all witness the ultimate experience of such a political and international body, and wherein this tyrant eventually falls, likewise those many nations will recognize the need for interrelationship between each other, and the great suspicion of nationalism and the great hostilities between nations may likewise be withdrawn, having unified together in order to overcome the tyranny of that international force.

This Awareness indicates that therefore, the Antichrist not only will be involved in using power which encompasses religion, economy, but also which encompasses nationalism. This Awareness indicates that the Antichrist also will involve itself in the manipulation of ideologies such as Communism, Capitalism, democracy, oligarchy, and the various systems throughout the world whereby these become subservient to the system of the Antichrist.

This Awareness indicates that in this manner, all of these systems and ideologies will eventually experience the ultimate climax known as the structure of the Antichrist. This Awareness indicates that when this falls, the structure will then be seen and used in such a manner as to guarantee that no power can in the future hold the masses enslaved, for there will be those energies which create checks and balances to prevent these areas from having unchecked and unparalleled control over the masses.

This Awareness indicates that it is possible that before these Antichrist energies can reach their culmination of world conquest, and before these Antichrist powers can reach the culmination of their intended purposes of setting up a totalitarian world government, it IS possible that these many nations, these many religions, these many cultures and these economic systems will begin to interrelate through a kind of cultural exchange, or through a breakdown of those structures being set up by the Antichrist, whereby the interrelationship between these cultures, between religions, between the economies, through the communicating systems, through speech, through television, through theatre, through newspaper and magazines and books; that entities begin to attune to each other as human beings, whereby this becomes more important than the differences which separate entities, so that a greater tolerance for each other is evolving faster than the Antichrist structure which would dominate the masses.

ELECTRONIC MEDIA IS FRUSTRATING THE BEAST

This Awareness indicates that if this toleration and communication can occur fast enough, then the Antichrist forces will be thwarted or diminished greatly. This Awareness indicates that at present, the appearance is that these Antichrist forces have been deeply hindered, have been slowed to a snail's pace, although these forces are still making their efforts to set up the world government, to set up the Electronic-Fund-Transfer Systems whereby entities may be marked and whereby entities could be enslaved through the economic system.

This Awareness indicates it is still possible that this could occur, yet these plans and actions are moving much slower now than in previous times. This Awareness indicates that the schedule has been set back considerably, and that because of this setback, more and more communication has been allowed. Entities are developing their own individual electronic means of sharing information, of communicating. This Awareness indicates the CB radio, the home computers which are now able to connect to others and communicate to other computers in different areas as two examples of this; the individual radio, such as the transistor radio which is now found in the most primitive areas of the world, which allows for these entities to have access to outside news and information; the vast expanse of movies and their influence on individuals; the themes of movies, the drama and the messages which allow for entities to share in the culture of another through its movies; television programming, which now is beamed around the world, which allows entities to have greater access to the cultural ideas of others; all of this is making it more and more difficult for those forces to bring about the controls on the minds of humanity, which would allow them to manipulate the masses.

This Awareness indicates that there are individual or private networks, there are private movie makers, there are private newspapers and magazines, and these entities in their efforts to set up the structure for the Antichrist, cannot control all of these various outlets. This Awareness indicates that therefore, the longer it takes for the Beast forces to set up their controls, the less chance they will have of succeeding, for time is on the side of the people of Light, and the more time it takes, the more time these entities will have to influence the masses and to awaken the tolerance of each other, whereby each entity becomes more tolerant of others.

This Awareness indicates that this also allows time for entities to become more aware of the need for safeguards and protection of freedoms and rights of each other. This Awareness indicates that even though at present there are those efforts to curtail such freedoms and rights as have been given in your Constitution, this Awareness indicates there are also many more entities who are aware of these rights being curtailed, and the chance of this continuing much longer diminishes as time passes.

WITHOUT REAGAN MANY WOULD STILL BE SLEEPING

This Awareness has previously indicated that entities have between 1982 and 1986 to stop the Dark Forces from taking over this planet. This Awareness indicates that the time 1986 as that which is not so far away, and this Awareness indicates that there are more and more entities becoming aware of these forces, and that it appears much more promising at this time than in previous times. This Awareness indicates that in part, the blatant efforts of the present administration of the United States to do away with many of the advances in terms of ecology, to do away with many of the achievements in terms of freedoms, and to promote those military buildups which would increase the likelihood of nuclear war; the blatant actions of this entity and his followers in this administration is perhaps the best thing that could have happened during this time, for it is so clear to the masses, and the masses will begin to react and respond to these blatant actions as they are given the opportunity to express themselves.

This Awareness indicates that it will be only a matter of time before these energies are turned around and the forces which are moving in this direction are stopped. This Awareness indicates that there may be further increase in this direction, but even as this increases, it will only serve to awaken and alarm entities who have not yet seen the danger of allowing these forces to continue. This Awareness suggests that although things may appear somewhat bleak at this time, that these energies in motion, building toward a particular type of climactic threat, these energies are awakening the masses, or will in time become so obvious that the masses, even those most ignorant and most unaware will be forced to awaken to these dangers.

This Awareness indicates that more and more entities will begin to speak out and to make their voices heard. This will not simply be one small group, but this will be voices from every corner of the earth. This Awareness indicates that more and more entities are becoming aware of the inhuman actions that occur on this plane under the name of some idealism, whether to promote communism or whether to promote democracy, whether under the banner of freedom, or whether under the banner of tyranny; that under any banner, when inhuman actions occur, entities must recognize these as such.

This Awareness indicates that at present, South and Central America are the boiling pot for those forms of violence which have occurred in many other areas of the world, whereby as the American Indian was almost destroyed from the face of the earth, so likewise genocide actions are occurring in South and Central America. This is also occurring in Southeast Asia, and in other places, yet it is most strong and volatile in South America.

This Awareness indicates that these forces which would violate, destroy and kill for none other than the sake of expressing power, and of the enjoyment of bloodlust; these forces, still rampant in the world after eons of time, fighting for that which they believe to be right, these forces still need to be brought into alignment with civilization; even though they claim to be working for the civilized nations, they are indeed primitive in the sense of spiritual development.

This Awareness indicates that there is much evolution which needs to occur on this plane. There is much tragedy that is occurring to entities simply because they are of the wrong color, or in the wrong place, or because they spoke to the wrong person, and therefore are labeled as an enemy of the state. This Awareness indicates that the tragedies which are still occurring on this plane can only be ignored for so long, and more and more entities will find nerve to speak up and to write letters and to present expressions of shock, of disagreement in a manner which can eventually influence these forces to cease and desist in their violence, in their murders and in their claims of destroying these individuals under the name of freedom, or communism, or some other ideology.

This Awareness indicates that the Antichrist essentially is present in this earth and is operating in a manner whereby these many forces divide and conquer, and the Antichrist can only be defeated and stopped when entities are tolerant of each other, of the differences of each other, yet intolerant of those who are intolerant of these differences. This Awareness indicates that when an entity becomes so intolerant as to violate another for being different; this Awareness suggests that you not tolerate that intolerance.

HOW TO CONFRONT THE BEAST

This Awareness suggests that entities be most cautious in becoming involved in direct confrontation with the Beast; that rather entities confront the Beast by alerting others, by directing questions to those who have the voice and authority. This Awareness indicates that questions are less threatening than statements. This Awareness suggests therefore, that entities who wish to express concern must learn to express themselves by asking questions.

This Awareness indicates that an entity who makes a statement that: "This or that action is wrong," sets himself up as a judge, and will undoubtedly meet resistance from the one accused. This Awareness indicates however, if the entity, rather than making such a statement, asks the question: "Do you think this or that action is right?"; there is no threat in such a question, and the entity may look at the action and attempt to answer, to satisfy the questioner.

This Awareness indicates that further questions may be asked, to keep that entity answering for his or her actions. This Awareness indicates that in this manner, through questioning, entities may begin to lead others into the realization of what they are doing without ever accusing. This Awareness suggests entities not underestimate the value of questioning, for questioning is much more powerful and less threatening and less dangerous than to accuse.

HOW TO ASK QUESTIONS

This Awareness suggests that entities may also send requests to persons in levels of responsibility asking them to look into this or that situation. This Awareness indicates that entities asking their Congressperson to check into the atrocities occurring in Central and

South America can have much more effect than simply writing to these Congresspeople and telling them that you are concerned about these areas. This Awareness suggests that requesting an entity to do something has more power than expressing your concern, or accusing some force of being in error.

This Awareness indicates that if entities can learn how to use questions, they can greatly weaken any efforts of the Antichrist to build its structure and power upon this earth. This Awareness suggests that entities may also write questions to those appropriate forces in regard to the Electronic-Funds-Transfer System, asking questions as to the safeguards for privacy and individual rights, if such Electronic-Funds-Transfer System is ever set up. This Awareness indicates that the present time may not be the best time for this questioning, but it will not be of any harm to ask such questions.

This Awareness indicates that other questions relating to "when" such is to occur, or "why" safeguards are not discussed, or "who" is creating such safeguards....This Awareness indicates that there are many ways whereby entities in asking questions can not only receive answers, but can also alert those forces that there are many entities who are concerned. This Awareness indicates that the asking of questions does not show a particular commitment on your part to oppose or to go along with the system, thus you may ask questions about any system, or any event, or any action, or any program, without committing yourself, or exposing your hand, or your preference.

HOW WOULD GANDHI HANDLE WORLD PROBLEMS TODAY?

...NON-VIOLENTLY, OF COURSE, BUT
FIRST HE WOULD ALERT & AWAKEN ENTITIES

QUESTION:

D.A. sent us an editorial from Gene Sharp, a professor of Political Science and Sociology at Southeastern Massachusetts University, an associate of Harvard's Center for International Affairs, which I think is a good example of questions. I'll read this and ask Awareness if what he says will be taken by entities in the future. He says:

"Will the electoral successes of the 'Greens' in Germany, or the investigations in progress by the Swedish and Dutch governments lead to gradual adoption on nonmilitary civilian-based means of deterring and defeating aggression? Gandhi would have argued that nonviolent struggle is relevant as a substitute for guerrilla warfare in Central America, as an alternative to nuclear weapons in Europe, as a technique of self-liberation in Eastern Europe, and as a means of struggle superior to war and terrorism in the Middle East and Northern Ireland.

"Is it possible that he would have been right? The military options for waging these conflicts have serious limitations and problems. Don't we need investigations of whether nonviolent struggle might have a greater practical potential than most people have thought?"

Does Awareness see this type of information spreading to the masses, and possibly becoming the answer to violence and terrorism around the world?

COSMIC AWARENESS:

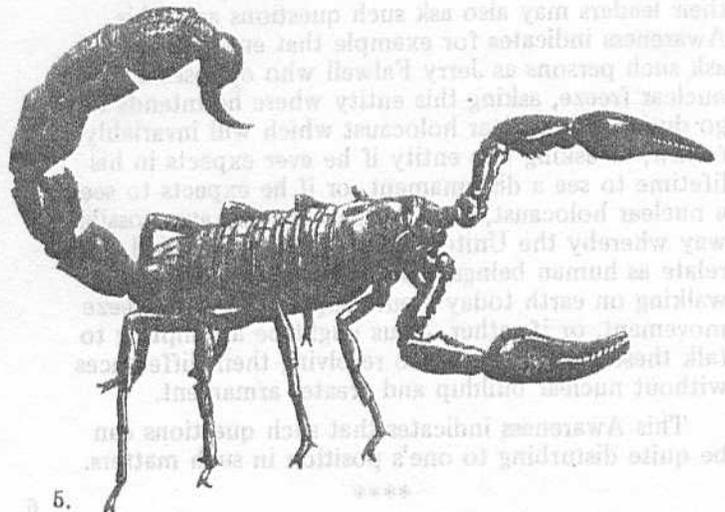

This Awareness indicates that this is in the affirmative. This Awareness indicates however, that until entities are alerted and made aware that those forces which are promoting the war atmosphere are forces which are not looking out for the welfare of the public, but are rather using the public emotions and energies in order to attain certain conquests through war, are using war in order to gain certain advantage, are using the threat of war in order to enhance their own positions. This Awareness indicates that this *must* be understood by the masses, for the masses tend to think that the war-planners are sincerely attempting to protect the so-called "American Way of Life," or to protect the nation of whom they represent, or to protect the ideals and values of the people who they are supposedly representing.

The masses believe these war-planners are sincere in their efforts, even though they may believe them to be misguided. This Awareness indicates that it is not always so. Though some entities may be sincere, and may actually believe that preparedness for war is the best way of preserving peace, most of these entities in the higher echelon are actually desirous of creating war under the conditions whereby they can be assured of winning, and these entities could care less about the public, and their welfare, or the preservation of the values of the nation, or its ideals.

This Awareness indicates that therefore, such writings or questions as to how to preserve these freedoms and this peace and to protect the values of the system, while appropriate under the assumption that the war-planners are sincerely interested in such, may not be appropriate when you consider that these war-planners are after something totally different, and are not actually concerned about the welfare of the masses.

QUESTIONS TO ASK THE WAR-PLANNERS

This Awareness indicates that in this latter case, the question might be of value directed to these war-planners, whereby entities ask these war-planners what they actually wish, what they actually desire, whether they desire to preserve the peace and to protect the masses, or if they are not simply seeking to gain greater strength and greater control over the masses through the promotion of war, and if the promotion of war is not simply an excuse and means by which they might enslave the masses, or destroy the masses.

This Awareness suggests that entities may ask questions as to: "Where do you, as a war-planner, plan to spend your time during the nuclear strike? Are you going to be up here in the city with the rest of us, or are you going to be underground in your bunker, waiting for the rest of us to be destroyed?" This Awareness indicates that questions of this nature are much more pertinent to these entities, and are more to the point, and indicate to the entities that their hand is exposed, that they can be seen. This Awareness indicates that these entities do not wish to be stripped naked, but prefer to keep their motives and their methods hidden by slogans and shields out in front of themselves which state: We are here to protect you. We are doing all that we can to protect you. You must understand that our attempts are well thought out and are intended to protect you."

This Awareness indicates that these slogans and phrases are like shields and coverings to hide the true motives of these entities. This Awareness indicates that these entities as war-planners seek to destroy, to create a situation whereby after such destruction they may recoup their energies and emerge in conquest over whatever is left. This Awareness indicates that in understanding this, your questions, the questions which you ask may be much more to the point.

This Awareness indicates however, questions as indicated in the article do pose a problem for these forces, because it addresses the propaganda which these forces put out, and causes these entities putting forth such propaganda to have to relate to that question in regard to their own propaganda. This Awareness indicates that this can greatly weaken the propaganda line. This Awareness indicates that it can be a beneficial question to ask these entities.

This Awareness indicates however, there are other questions which can be more to the point and which can cause greater disturbance to these entities. This Awareness suggests also questions directed to these entities such as: "Where are your wife and children going to be when you go underground during a nuclear strike?" This Awareness indicates that other questions such as: "Where will your mother and father, your brother and sister be, when you are underground during a nuclear strike?", that these questions may raise concern among those who are involved in such activities.

This Awareness indicates that entities becoming involved in writing questions to Congresspersons or to their leaders may also ask such questions as... This Awareness indicates for example that entities may ask such persons as Jerry Falwell who opposes a nuclear freeze, asking this entity where he intends to go during the nuclear holocaust which will invariably follow, or asking this entity if he ever expects in his lifetime to see a disarmament, or if he expects to see a nuclear holocaust, or if he feels there is any possible way whereby the United States and Russia could ever relate as human beings, if he believes that Jesus walking on earth today would support his anti-freeze movement, or if rather, Jesus might be attempting to talk these superpowers into resolving their differences without nuclear buildup and greater armament.

This Awareness indicates that such questions can be quite disturbing to one's position in such matters.

NO BAN
ON NUKES!

ED's Note: for more information on the Antichrist, please refer to 'Revelations of Awareness', No. 79-1 (The Gathering Storm); \$4.00; also No. 82-24 (The Force of Ahriman); \$4.00; also 83-3 (The Brothers of the Shadow); \$3.00 from C.A.C.

Our Active Military Machine

Many people do not know how many military operations the United States has conducted since 1900, mainly because they tend to think in terms of the two World Wars, Korea, and Vietnam. Here is a list of American military actions between 1900 and 1978.

YEAR	ACTION
1900	Army enters China during Boxer Rebellion
1900	Military occupies Puerto Rico
1900	Military occupies Cuba
1900	Guerrilla war in Philippines
1904	Invasion of Dominican Republic
1906	Invasion of Cuba
1909	Invasion of Honduras
1910	Invasion of Nicaragua
1912	Invasion of Nicaragua
1912	Invasion of Cuba
1914	Invasion of Dominican Republic
1914	Invasion of Mexico
1914	Invasion of Haiti
1916	Invasion of Mexico
1917	World War I
1918	Invasion of Russia
1922	Invasion of Nicaragua
1926	Invasion of Nicaragua
1927	Marines land in China
1941	World War II
1950	Korean War
1958	Invasion of Lebanon
1961	First Army troops in Vietnam
1965	Invasion of Dominican Republic
1970	Invasion of Cambodia

**DID GOD REALLY 'FORSAKE'
JESUS WHEN ON THE CROSS?**

**"LEAD US NOT INTO TEMPTATION" ...
IS THE LORD'S PRAYER CORRECT?**

QUESTION:

There was an article in the P.I. Newspaper this summer about a scholar, an Aramaic scholar who came to Seattle, and he did an interview. His name is Dr. Rocco Errico, and he was pointing out a number of errors in the King James' bible, and he gave what he said was the correct version. I'd like to ask Awareness if this is true. He said: "The two contradictions he is questioned about the most as he travels the nation and world, lecturing on Aramaic and the culture of Jesus's time, are the words of Jesus on the cross as death neared, and a phrase of the Lord's Prayer.

The King James version says, in Matthew, 27-46, "And about the ninth hour Jesus cried with a loud voice saying, 'Eli, Eli lama sabach thani?' that is to say, 'My God, My God, why hast thou forsaken me?'"

Errico said "the Aramaic word 'shbk' means 'to leave something for a purpose.' In other words, Jesus was saying, 'This is my destiny.' He wasn't questioning God; he had just said, 'My father is with me always.' The translators mistakenly thought it meant abandoned, forsaken." Would Awareness please comment on that?

COSMIC AWARENESS:

This Awareness indicates that this entity's interpretation as being the correct interpretation of the original scenario. This Awareness reminds entities that this particular experience and story as that which followed the story-line or plot which had been laid out in the mystery schools, wherein this was brought out into the streets of Jerusalem and in the Holy Land, to be acted out. To be used as a pattern whereby the myth or idealism or philosophy known as the Christian religion could be brought into its fruition for mass-consciousness.

This Awareness reminds entities also that much of the story as that which was a composite of many different sources, and these brought together under the name of the Christian religion. This Awareness indicates that the many different religions in Rome, Greece, Egypt and the Middle East, all had certain similarities or some overlapping areas in their systems, and these were refined and combined through the efforts of Constantine; and these combinations, using various writings from different sources, bringing these together, to create the Latinized version of the New Testament, which then went through many translations: this including the King James version.

This Awareness indicates that the entity discussing the correct interpretation of this statement and others as appearing to have the proper understanding of these earlier writings from which the later writings were compiled.

QUESTION:

The entity, speaking of the Lord's Prayer, Dr. Errico said: "Rather than saying 'lead us not into temptation,' the correct version is 'do not let us enter into temptation.'"

He laughed and said, "Imagine asking your father not to lead you into temptation; it really doesn't make sense." Is that also correct?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that the entity who was the subject of the focus for the one who was called Jesus, had studied much in India, Tibet, Persia, and in the Middle East. Also in Egypt. This entity as one who had deep understanding of many of these philosophies and the essential pattern of the Passion Play, which was symbolic of the evolution of the soul and its movement into the higher realms of consciousness.

**"THE LORD IS MY SHEPHERD" ...
..THE REAL MEANING**

(PERSONIFICATION OF THE DEITY)

QUESTION:

One other part of the article. Dr. Errico said the Aramaic word "Alaha" is closest to the English word God, and is an abstract term, "a premise of what constitutes our being. Because the people were mostly simple peasants and could not understand such a concept, the prophets portrayed God as a man to get the idea across to them." "They were shepherds, and highly skilled at raising sheep. They knew each one by name, like we do household pets, and were constantly alert to their problems. When the prophets spoke of the great shepherd they understood fully. When they heard the 23rd Psalm, 'The Lord is my shepherd,' they understood the Lord would feed them. 'The Lord makes me lie down in green pastures' actually means pastures of strength." Does Awareness see that as correct?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that in the earlier forms of writing, wherein writing was much more tedious and difficult, entities often used pictures to convey a word or concept. This Awareness indicates that one picture in earlier times, now may be conveyed on a page or in a chapter, as a series of connected words and ideas, phrases, sentences and reflections about a particular subject.

This Awareness indicates for example, a Tarot card picture may take several chapters or several pages of explanation in order to cover all of the information conveyed by that picture. This Awareness indicates that as time progressed, entities often found themselves moving from a single picture into images or parables, or allegories or metaphors. This Awareness indicates that in order to communicate to an entity, you must speak in a language which they already understand. That to speak of a shepherd

—Comedy

as that which conveys a message and an image to those who are involved in tending sheep, so that the meaning and message may be more easily understood by such entities.

This Awareness indicates that these concepts are often conveyed also in the Greek myths, in the Egyptian myths in regard to the religions and in other religious myths around the world, whereby entities are created as gods, deities or super-heros to represent a certain quality or concept which needs to be implanted in the consciousness of entities' minds in order to have an effect on the mind, the mass-mind of entities.

This Awareness indicates that for example, the stories of the Greek gods, who in fact were personified versions of planets and asteroids, and of the sun and moon; these personifications are easily understood, even today, by those who are well versed in biblical history. This Awareness indicates however, most entities who are thus well versed in biblical history fail to recognize that the concept of god may also have been personified and that the Deity, the Divine Creator may be somewhat different from that which is commonly accepted by the religious teachers, whereby an anthropomorphical type of being sits upon a throne in the heavens, looking down and enjoying the various scenes of murder, mayhem and struggle upon the earthly plane.

This Awareness indicates that essentially, the Divine Being as that which permeates all, and is throughout the universe, a spirit, and that spirit does have its movement into all things wherein It may experience along with all other parts, that which is occurring, and wherein the higher vibratory rates of that creative force may draw those who are emanating the darker side of the creative force toward that which is greater light and harmony.

This Awareness indicates that the use of personification as a literary tool, and metaphor as a literary tool, is at present time not as well accepted as in earlier times, where these tools were so commonly used that most priests fully understood what was being conveyed, even though they spoke in terms of a personification, such as Zeus or Hercules, or God, or Jehovah, recognizing these to be forces other than human personified types.

THAT FAULTY TRANSLATION OF LUKE

...The True Light that spoke through Jesus

QUESTION:

One final thing in the article: "One faulty translation of Luke, the scholar claimed, is used by cultists to pull young persons away from their parents. "If any man come to me, and hate not his father, and mother, and wife and children and brethren and sisters, yea, and his own life also, he cannot be my disciple," is the King James version of Luke 14:26. "The Aramaic meaning is that a person must set to one side his mother and father," Errico said. An example is a person going off to college and leaving his parents at home. Would Awareness confirm that this is the correct version of that passage?

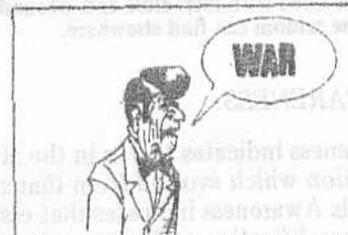

COSMIC AWARENESS:

This Awareness indicates this essentially as correct. This Awareness indicates the actual meaning behind these words is that an entity must put forth in his or her life the spiritual path above all others. That attachments, even to family and home are less important than that movement toward the spiritual pursuits. The

soul growth and path of the soul as that which must be given highest priority. This Awareness reminds entities that the Christ which is speaking through the Jesus, as that which is the Consciousness, the Light, the Christ Light.

This Awareness indicates that this Christ Light as the Divine Spirit or mediator between the Cosmic Being and the conscious being in flesh. This Awareness indicates that this Light as also that which is spoken of by the Quakers in reference to their being "Friends of the Light." This Awareness indicates that this Light as also called Christos. That Christos as a concept which has been accepted for many years, through many cultures, long before the advent of the Christian religion.

ED's Note: for more info on the Passion Play and the many entities who acted this out before Jesus did, please refer to 'Revelations of Awareness' No. 80-20 (Should Children be Taught the Fundamental Christian Religion?); \$9.00 from CAC.

Vasilko/El Sol de Mexico/Mexico City

...THE LATEST TOY IN THE ARSENAL OF THE DEMENTED

MURDER BY LONG-DISTANCE ESP

... THE USE AND MISUSE OF THOUGHT-AMPLIFICATION

April 10, 1982

QUESTION:

There's an article in the recent *SPIRAL Mobius*, * put out in Philadelphia that says:

"Larissa Vilenskaya, an electronics specialist who formerly worked inside a secret laboratory at the Academy of Sciences in Moscow before her defection to the West, claims that the Soviet Union is perfecting a device that can murder from a distance. The device greatly magnifies ESP powers over long distances. It is a hand-sized object, about 6" long, 3" wide, shaped like an ironing board, made of gray metal and lightweight. Objects placed on it apparently obey mental commands. Vilenskaya fled to Israel 2 years ago and now monitors Soviet psychic research for the Washington Research Center in San Francisco. 'She has learned that the Soviets are working feverishly on long-distance hypnosis that kills with a phone call or a mental command.

*A hypnotist called Yuri Kamensky and a recipient called Carl Nikolayev did a series of experiments between Moscow and Leningrad, a distance of 420 miles. Kamensky imagined Nikolayev choking and gasping for breath. At that exact time, Nikolayev reported feelings of anger, fear and confusion, all the emotions the hypnotist had been asked to create in him. It is possible that a hypnotist could order a subject to stop his own heart or to kill someone else. Although a hypnotized person will not shoot somebody knowingly, he will if he is told that the target is say, a tiger attacking him. A research center in Kiev that is working on long-distance hypnosis has shown that even mental screening can't keep the long-distance thought waves out." (From Star, 3/9/82, P. 41).

Would Awareness please comment on this article?

* SPIRAL Mobius, C/O SPIRAL Enterprises, 347 N. Union St., Kennett Square, Pa., 19348. \$3.00 per copy or \$25 per year. C.A.C. continues to recommend this SPIRAL newsletter, which always is filled with incredible and astounding information which one seldom can find elsewhere.

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. This as an action which evolved from that science of radionics. This Awareness indicates that essentially it is a thought amplification technique, wherein thoughts are intensified or amplified and directed to the subject. This Awareness indicates that it is associated with the concept of voodoo, or that which is black magic, or that which is sending hatred toward another, or sending some other image to have an effect of a negative nature toward that other. The action here however, is accompanied by the use of a device which amplifies the thought by tuning in to the frequency of the recipient, tuning the frequency so that the sender and the subject are tuned on the same frequency level.

This Awareness indicates this device appears to create that tuning automatically, whereas most radionics machines require the adjustment of various dials in order to attune the sender with the recipient and match the vibrations. This Awareness indicates that this is associated with the *Law of Substitution*, wherein a part stands for the whole, and the vibrations of a picture or a portion of the recipient is tuned in to by the sender. This Awareness indicates this likened unto the voodoo priest or witch doctor who gets the hair of another, and performs some ritual over that hair, in an effort to cause harm to the entity who owned the hair.

This Awareness indicates that this action is that which carries extremely *heavy harmful repercussions* on those who are involved in the use of such forces. This Awareness indicates that this is even more karmically damaging to the user than conventional weapons of war. This Awareness indicates however, it depends on the *motive and purpose* as to just how much karma is involved. This Awareness indicates that for example, wherein this device were used to destroy one entity in order to preserve hundreds or thousands or more, then obviously, the karma involved in that action would be much less than wherein an entity used such a device for selfish purposes, to gain some advantage.

This Awareness indicates that this as being the opposite of the action wherein an entity moves into a trance state, or a state of meditation, and sends Light and healing energy to another. This Awareness indicates that

even as this action may be of a detrimental nature,--using a machine that can kill from a distance,--likewise, the same principle can be applied, and a machine which amplifies the healing forces of one's mind to be sending energy to another at a distance; this likewise could be developed out of this research and could become a major source for healing entities.

This Awareness indicates that essentially the action of moving into deeper hypnotic or trance-like levels in order to contact or communicate with the vibratory rate of another, is a form of thought-amplification: it intensifies the consciousness, intensifies the thought, and allows the energy greater force and power. This Awareness indicates that images sent from hypnotic or trance-like levels have a greater amplification than those which are from a conscious level. This Awareness indicates that wherein a machine of this type were used along with the hypnotic levels, that the amplification would be even stronger.

This Awareness indicates that the technology upon this plane, upon your earth, is that which is advancing so rapidly, wherein entities are being given so many tools, so much ability to destroy, that unless these tools can be seen for other purposes, to create weapons for healing rather than for destruction, unless these tools can be used for purposes of helping to bring happiness to others; entities will find that the power which they seek through destroying others is simply a chain reaction that destroys themselves from its own excess and too much use.

This Awareness indicates that too much use of power for destructive purposes, when amplified over and over and over again, creates that which is a pollution to the earth, a pollution of destructive weapons which creates such an overwhelming condition that few can move without some threat of annihilation; and therefore, the excessive amounts of destructive weapons ceases to be a form of creating security, and instead creates greater danger than if entities went back to the bow and arrow, or the stone, and simply began all over again. This Awareness indicates that security in present times is much less likely than if entities were all living in the Stone Age, and had never seen a bow and arrow, a gun, or any of the modern weapons.

This Awareness indicates that therefore, all these toys, all these weapons, all these little gadgets of tiny boys who grow up seeking better weapons and greater toys; all of these things of the retarded consciousness of violence; all of this which is *supposed* to give security, *supposed* to bring freedom, *supposed* to protect democracy, *supposed* to protect a way of life; all of these mighty destructive weapons which are *supposed* to preserve the country, the principles, the Constitution, the right to life, liberty and the pursuit of happiness; all of these things which are *supposed* to preserve our institutions, the corporations and the structure of your society,-- all of these things become, rather than forces of protection, become forces which threaten your very existence.

This Awareness indicates therefore, the energies have completely moved in a circle, whereby the arrow which went out from stone age man as a weapon to kill, now comes around as a missile which can destroy those who would fire and push its button.

This Awareness indicates that it is ironic that any entity could believe that these weapons create *any* form of security for anyone: for the very foundations of security, the very earth on which you stand is in danger of being blown to pieces, or wiped clean of the human race. This

Awareness indicates that mankind has created its own Frankenstein monster, which in turn, if not dismantled, will turn against its creator.

HOW TO USE PSIONICS FOR GOOD

...HEAVY KARMA FOR YOU IF USED OTHERWISE

QUESTION:

One final question here, and it too relates to psionics, from R.M., of Eau Clair, Wisconsin. "About a year and a half ago I planted a "psionics" device on the local campus. I stuffed a stack of picture postcards of campus and city buildings and so-forth in a glass jar, filled it with D Cell energized water, dropped in a recharged D Cell, screwed on the metal cover, and buried it about a foot deep somewhere in the wooded area at the south end of the campus.

"Since that time, there has been a strange rash of resignations, scandals, even convictions here for crimes, especially among campus faculty and staff. Even the chancellor is under heavy criticism now from faculty members because of arrogance and dictatorial policies. When the oppressive campus police chief was recently charged with some felonies, I just *knew* all of this had to be more than mere coincidence. See article on back."

'He encloses a copy of a story in the University of Wisconsin *Spectator* talking about this scandal of various college officials who are being charged with felonies, which sound like a mini-Watergate: illegal entry and search, falsifying official records, burglary, etc.

'Therefore, I believe it is extremely important that Awareness be asked the following question, and that any affirmative answer be published as soon as possible. The question: If developed No. 110 sized photographic negatives and color slides, removed from view-master reels, are kept immersed in D-Cell-Energized water, with a fresh D-Cell kept in this water, would this significantly affect the objects photographed, such as banks, government buildings, military installations, etc., to either heal or drive out the various Beast workers inside, and to transmute the purpose of the building or other object? Based on the principles of psionics, the properties of D-Cells, the *Law of Substitution*, etc., it seems like this could quickly and efficiently turn every Beast-headquarters, etc., into a Light center, literally! Thank you."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates that the degree of effect as associated with the strength of the consciousness of the entity who amplifies his thought through this action. This Awareness indicates that one *must be very cautious not to wish any harm upon others*, but rather to wish that all actions be concluded in such a manner that all entities benefit. This Awareness indicates that other than that would result in a karmic reaction against the entity who uses this approach.

This Awareness indicates that the action as that which can have some quite potential effect on these areas over a period of time. This Awareness suggests also that it must be done with the attitude and purpose of *benefiting all entities involved*, so that none is harmed by your action, and that if any is harmed, it is due to their own actions.

(Closing Message)

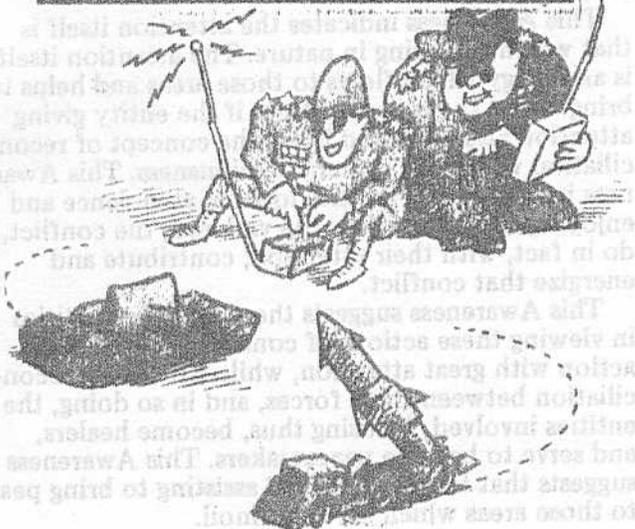

This Awareness indicates that the use of psionics, voodoo, magic, thought, imagery, and those techniques for amplifying these in order to affect and influence others, is that which *does* need to be recognized; for like it or not, these actions will become a science of the future. This Awareness indicates that these actions however, can be used for healing purposes, for telepathic purposes, for carrying messages and for sending blessings, and need not be used for destructive purposes.

This Awareness indicates that there is a tendency among your species to turn every new science into a method for destroying enemies, if there is any possible way to do so. This Awareness indicates however, that such actions are *not* conducive to life, liberty and the pursuit of happiness.

For a complete description of the Law of Substitution, please refer to the booklet, 'The Cosmic Laws of Cosmic Awareness'; \$3.00 from C.A.C.

ED's Note: CAC is reluctant to print information on psionics, even though Awareness has given much information on this subject. However, as Awareness has indicated, like it or not psionics is a science that is being used and is here to stay. And even though some are misusing this new science, (the military, those Right-wing crazies who are killing off those male Asians and who have introduced the incurable AIDS disease into the homosexual community via this method), there is very heavy karma involved for those entities who use this science to harm other entities. Dr. Hieronymous first used the method to kill off undesirable insects which were infesting orchards hundreds of miles away. His famous 'Black Box' is still available, even though the powers that be have tried to confiscate them. However, to use these it does require an entity to know meditation and mind control as well as visualization for the method to be effective. CAC members can find psionics an important tool in their work in transmuting the energies of the Dark Forces. Just remember, you are not out to 'destroy' anything or anyone, but rather you are simply changing those Dark energies into Light. If you always remember this, you can use psionics with impunity and not incur a lot of negative karma you might have to spend many future lifetimes making up for. (Avaton)

SCIENCE FOR THE PINACON

Mitchell/The Australian/Sydney

HOW TO BE A HEALER AND A PEACE MAKER

(Closing Message, Aug., 11, 1982)

This Awareness indicates that the vibrations and energies at this time appear to be altering toward that which is harmonious. This Awareness indicates that the energy fields necessary for clear channeling and movement of *Its* focus toward those things which are urgent, as that which now appears to be occurring through adjustments that have been made. This Awareness indicates that the urgencies now appear to be associated with those areas of world affairs; the tragedies and concerns for those entities who yet suffer from these chaotic events.

This Awareness suggests that entities, in focusing upon these chaotic events with attention, with love, and a desire for harmonious resolution to the conflicts, with a desire for reconciliation between opposing forces, entities in focusing on these areas of conflict with this attitude, with great attention, with great love for the strangers, the individuals, the foreigners, those of different culture, those whose faces look out at a world of chaos, entities who look upon this scene with a desire for reconciliation and harmony for all, and who look with great attention, do in fact contribute to that opportunity for reconciliation.

This Awareness indicates the attention itself is that which is healing in nature. The attention itself is an energy which flows to those areas and helps to bring about the reconciliation, if the entity giving attention visualizes and holds the concept of reconciliation within his or her consciousness. This Awareness indicates that entities looking at violence and enjoying the opposition, the violence, the conflict, do in fact, with their attention, contribute and energize that conflict.

This Awareness suggests therefore, that entities in viewing these actions of conflict, look at the action with great attention, while visualizing reconciliation between these forces, and in so doing, the entities involved, focusing thus, become healers, and serve to become peacemakers. This Awareness suggests that this as a form of assisting to bring peace to those areas which are in turmoil.

The Military Subconscious

"[Our military] preoccupation with nuclear war is a form of illness. . . . It can be understood only . . . as some sort of death wish, a readiness to commit suicide for fear of death—a state of mind explicable only by some inability to face the normal hazards and vicissitudes of the human predicament—a lack of faith, or better a lack of the very strength that it takes to have faith. . . ."

—George F. Kennan, in *The Nuclear Delusion* (Pantheon, 1982)

HOW SIX ENTITIES SINGING IN A CHURCH BECAME AN ANGELIC CHOIR OF HUNDREDS

... ALL ABOUT HARMONICS

QUESTION:

E. W. in Iowa, writes that 6 people, singing in a Kansas City church taped their singing and played it back to find what sounds like thousands of angels singing with them on the tape. This tape is sold for \$3.50 from End-Time Handmaidens (Cute name, huh), he says, P.O. Box 447, Jasper, Arkansas, 72641. The tape is listed as number A-1, and he wants to know, is this a genuine input from Celestria? If so, would such a tape be worth having as truly elevating Awareness type music?"

Now we did send for this tape, and they have repeated this music over and over, evidently from an endless tape, and it's over-recorded, but there is an amazing number of entities singing on this particular tape that little tune, "Hallelujah". Can Awareness comment on this? (It was certainly a lot more voices than just 6 people).

COSMIC AWARENESS:

This Awareness indicates that these as being likened unto overtones, whereby energies from the vibrations of voices are picked up and reflected in higher octaves, whereby the tape picks up the

sound as it is heard by the human ear when played forward, but the tape (through certain recording anomalies) does pick up more than is played, and by playing the tape backwards, these other higher overtones and the sounds associated with such are recorded. This Awareness indicates that these are then picked up and recorded so that when played backwards, these sounds are heard.

This Awareness suggests that you visualize velvet, whereby the velvet being brushed in one direction creates a sheen, and whereby that sheen is brushed in that direction, the eyes see a certain shininess, but whereby the velvet is brushed in the opposite direction, the shininess disappears and more depth is seen. This Awareness indicates likewise, on the tape, when played in one direction, the molecules are flattened so that the sound is recorded as is heard by human ear, but when played in the other direction, the molecules are played from a different approach so that the depth of sounds behind those molecules are brought forward.

This Awareness indicates essentially, these may be considered as voices from other dimensions, and it is in this manner that recordings of spirits have been made whereby spirits have been heard to speak on tapes. This Awareness indicates that this is that which occurs naturally and which can also be created artificially through subliminal types of recording as indicated in a previous reading whereby messages were placed backwards upon a tape.*

*ED's Note: this information can be found in 'Revelations of Awareness' No. 82-17 (Does Satan Permeate Rock & Roll?); \$3.00 from CAC.

This Awareness indicates that there also are some of these messages which are found on tapes when played backwards that are not induced artificially by the entities recording, but which are created from the astral levels, through the process described in the message just given. This Awareness indicates that even as the sound of angels may be heard when recording 6 entities and playing this backwards, so likewise, in some recordings, there may be other beings, entities, astral entities or spirits giving forth their expressions. That these may occur inadvertently without the knowledge of those who record the songs or music.

This Awareness indicates that therefore, it is a phenomena that is both natural and yet which can be artificially created, and used for purposes of influence to the listener. This Awareness indicates that generally, music which is of a high quality, inspirational and spiritual value, those types of music will draw in higher spirits in response to the vibrations; those music types which are of a base appeal, drawing on the lower instincts, will generally draw in those spirits and energies of the lower astral realm, and these may respond on the reverse plane of the music.

QUESTION:

Awareness, this particular tape put out by the End-Time Handmaidens, was not played in reverse however; these 6 entities were singing this hallelujah over and over and they happened to tape it, and when they played it back, there were literally thousands of angel-like voices singing very clearly along with them. Does Awareness see this as being a valid phenomenon?

COSMIC AWARENESS:

This Awareness indicates that this appears to be based on the same principle; that it appears the molecules on the tape as being such that they do not.... This Awareness indicates that the molecules on the tape do not follow the pattern of usual recording, but rather were influenced by the distortions of the room, the energies and the astral essence. This Awareness indicates that essentially, the tape as having picked up overtones and recorded these, the overtones being what might be reflective of angelic voices. This Awareness indicates that this phenomena as difficult to describe in terms of tape recordings and the electrical impulses, and the temperature and vibration and reflection and echoing of sounds which contributed to this, and that this as more easily understood when realizing that the entire universe is nothing other than vibrations, and that each vibration is composed of innumerable other vibrations, and each of those composed of vibrations, so that when one sound vibrates, others on other octaves also vibrate, and though the human ear only hears a particular area of the vibrations, still, the vibrations outside that area occur, and the angels or angles or aspects of a vibration are the same as overtones.

Even as the higher vibrations emanate energies out to create the lower vibrations of a physical nature, likewise, the lower vibrations of a physical nature in expressing themselves, create higher vibrations, and all is interrelated through relativity and harmony reflecting on each other. This Awareness indicates essentially, the mind reflects the universe, and the universe reflects the mind. The sound reflects in the universe, and the universal sound reflects in the individual. The individual vibrates, and the vibration attacks the universe. The universe vibrates and the individual responds in vibrations, or comes into being.

This Awareness indicates that these vibrations are reflections. That the vibrations of an individual reflect from the vibrations of stars, planets, galaxies and the universal energies, and have their reflective effects on those stars, planets and galaxies, so that it may well be said that an individual is a reflection of God, is a reflection of the angels, is a fallen angel, or is a god, or is a miniature universe, or that the individual is but a note, the lost chord, or the creator, or the individual may be seen as a sound of fury, signifying nothing, or as a sound which signifies everything that is.

This Awareness indicates that the vibration of an individual is a reflection of the guardian angel, and the guardian angel is a reflection of the individual. That the interconnection of these vibrations is best understood by looking at the harmonies of music, the octaves and overtones. This Awareness indicates that the chance of a tape recorder accidentally recording these higher voices and sounds and vibrations is that which is extremely rare and unusual when the recorder is played in a forward manner, without the backward playing of the tape.

This Awareness indicates that it is not what entities might visualize as groups of angels hovering around the microphone, but rather it is the vibration of the overtones, and these overtones and their vibrations are the essences and energies of higher beings, just as an individual is made up of a conglomeration of

various frequencies, vibrations from the low, dense vibratory movements, to those of the ultrafrequency levels.

This Awareness indicates that as light has its speed which is a much higher frequency than sound, likewise, gravity as being 16 times the speed of light. (This Awareness indicates that thought is capable of moving at a speed of light to the 16th power). These vibrations of thought, being of such high frequency as to be immeasurable from material levels and physics, measurable only through mathematics and theory.

This Awareness indicates that angelic tones heard on a tape such as this, occur only wherein the octaves are dropped into lower vibratory overtones, so that the tape can record those more subtle vibrations. ***

ED's Note: the angelic choir on this particular tape is incredibly beautiful. It is a pity so little was recorded and that the recording was so miserable. However, this editor recommends this tape to those interested in this type of phenomenon and believes the experience of hearing it is worth the \$3.50 donation. Avaton.

★ ★ ★

Evangelist Jerry Falwell said yesterday donations to his ministries dropped by \$6.9 million in 1982 and both the "Old Time Gospel Hour" and Moral Majority finished the year in the red.

But he expects 1983 to produce a "substantial surplus" because, he said, more people are "giving sacrificially."

Donations to the "Old Time Gospel Hour," which supports Falwell's television ministry and Liberty Baptist College in Lynchburg, Va., fell to \$56.88 million last year. Gifts to his political lobbying group, Moral Majority Inc., increased slightly to \$6.38 million. The Moral Majority Foundation, a tax-free educational outlet, dropped to \$334,000.

Overall, donations fell more than 8 percent. Falwell said, however, that an anonymous donor gave \$9.4 million to the "Gospel Hour" in 1981. If that bequest were dropped from the calculations, overall donations would show a 1982 increase of 5 percent.

★ ★ ★

Jerry Falwell. Crusading for the return of prayer to public school classrooms is high on his agenda. But he is putting both issues on the back burner for a while.

Falwell, leader of the Moral Majority, has a new target: the nuclear freeze movement. He vows to spend most of 1983 fighting it.

"The first order of business is coming back to (military) equality with the Soviet Union," Falwell said in an interview. "If the 'freezeniks' were to win it would be a national catastrophe."

Falwell said he had a recent private meeting with Richard Nixon and the former president told him:

"Jerry, all of us believe a little child should have the right to pray in school. But if you lose this one -- the nuclear freeze battle -- you won't be praying anywhere."

Supporters of a freeze, he said, are being duped. The truth is, Falwell argued, is that the movement was "spawned and orchestrated in Moscow." ***

LETTERS

Dear Vicki T:

A small comment on the S.O.S. (Save our Seniors or Senior Outreach Service. The SOS initials and their use is very popular, I see, because we have one here in Long Beach, too. It stands for Senior Opportunities and Services. I'm enclosing a folder so you can see what they are doing.

However, two areas hardly ever covered--and where there is quite a need are--light cleaning and fixit jobs around the house,--changing a light bulb, fixing a lamp or a toaster,--and many other little jobs that we (you guessed it, I am a Senior) can't to ourselves, and can't get or find a place to have it done--and it is too small to get someone to come to the house to do. Also, a crying, screaming need is transportation to social affairs, lectures, plays, concerts, club meetings and on and on. We would so much like to be more active in things that go on at night, but dare not be out after dark, so we have to stay home. Maybe college students, explorer scouts or other young men,--church groups also,--would like to earn a couple of dollars. Taxi is too expensive and un-dependable. Now there would be a REAL service if someone would do it, and it would be much appreciated by all of us. Love to you all. H.B.

(ED's Note: Please refer to 'Revelations of Awareness' No. 83-2 (Helping one Another):\$3.00 from CAC')

QUAKERS

are more than
a bunch of
do-gooders . . . Some
even carry flags.

There are 198,816 Quakers in the world--118,097 in the United States.

Not one prescribes the kind of flag (if any) another Quaker carries. Or drum. Or piccolo.

Quakers (member of the Society of Friends) are religious. No flags for that.

Quakers seek the Inner Light in their relationships with God and with other people. No flags here, either.

Their flags are their testimonies and concerns: Peace. Love. Family. Education. Environment. Equality of sexes and races. That of God in everyone. Prison reform. Justice. Simplicity. Integrity. Caring.

That's been going on for 330 years. There's nothing static about it. The search goes on always and in many ways.

FRIENDS JOURNAL in its modest way tries nineteen times a year to reflect Quaker life and thought today and raise a flag here and there about the human condition.

Even if you do not want a flag, the coupon below and a few dollars may give you something important: Inspiration. Comfort. Hope. Love.

We will not try to make a flag-waver, a Quaker, or anything else out of you. Maybe together we can do some good.
