...Flowers and Saccharine....

the Dark Hierarchy

HOW TO BE DIVERTED FROM THE SPIRITUAL PATH...

Paul Shockley, Interpreter

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

(Dec. 4, 1982)

...the web of duplicity:

THE SPURIOUS BROTHERHOOD OF ASCENDED MASTERS

QUESTION:

We received a letter from L.B. in Arizona sometime back. She isn't asking a question, but this is interesting information. I'd like to ask Awareness to comment on this. She says:

"After reading Bill Sheppard's letter several times, his dedication and genuine humility are heart-warming, and I certainly agree with Cosmic Awareness's comments, but I feel I must add some of my own.

"In defense of the Great White Brotherhood of Ascended Masters and the Solar Hierarchy, and other great beings of Light: Archangels, Elohim, etc., Bill Sheppard says: 'Surely God has no teaching, revelation rather, beyond the teachings of those great Ascended Masters, so I tried to join the Ascended Masters Teaching Center in California, but was run off. They said: 'No, you have to have money.'

"I, too, have had experience with this center, and other similar groups who claim affiliation with the Ascended Masters. Few people realize that there is a spurious Brotherhood on the astral planes. They are imposters who pose as the Ascended Masters, members of Hierarchies, or Archangels, using their names and giving just enough of the true teachings, usually mixed with some questionable material, to deceive the innocent and unwary.

"Also, the channels have studied the teachings of the True Brotherhood. One I know has a photographic memory, and they often bring information through from their own consciousness, or what they have heard from others. When a channel or leader of an organization feeds his or her ego on the praise and adoration of their followers; when they insist on large sums of money for their teachings, or demand that people sell their homes and all they have, to give to them; when they claim to have *all* the truth, or the *only* teaching, or to be the *only* messenger of the Masters, then beware! They cannot raise their consciousness high enough to reach the high Celestial Planes, where Jesus Christ and the true Masters reside. They can only reach the astral levels, the plane of glamor and unreliability, and the imposters gladly come through as Saint Germaine, or Jesus, or the Archangel Michael, etc., and oblige the gullible.

"There are few, very few, among the so-called Ascended Master groups, who are under the auspices of the True Ascended Masters and Solar Hierarchy. Too often a work was begun on a high level, only to be carried on by others who, through selfish interests, dragged it down, and the phoney imposter "Brotherhood" took over. This writer can only say she knows whereof she speaks. It is her understanding that there are no "members" of the Great White Brotherhood on the earth plane, only associates. One must have earned the right to break the Wheel of Karma, and make the ascension into Light, to become a member of the Great White Brotherhood, and the true candidate makes no personal claims, does not commercialize God's truth, but quietly endeavors to know the truth, believe it and live it."

Would Awareness please comment on that?

ED's Note: The reference to Bill Sheppard's comments on these so-called 'spiritual organizations' referred to by this lady, can be found in 'Revelations of Awareness' No. 81-2 (A Search for God--the Chronicle of a Wanderer in the New Age); \$3.00 from CAC.

COSMIC AWARENESS:

This Awareness indicates that this information as accurate. This Awareness indicates that in the Development Classes, this Awareness asks at a particular point, that all teachers, Ascended Masters and spirit guides step aside to allow the candidate to move on. This Awareness indicates the reason for this being inserted into these Development Classes, is that many entities have the feeling or being tied in with the Hierarchy, and feel that they must rely on teachers and Ascended Masters to show them how they may move on to the higher levels.

This Awareness indicates that to some extent, this is true. There is that statement however, that when the student is ready, the teacher appears. This Awareness indicates that this also as correct. That wherein an entity is ready, the teacher appears, and wherein an entity is blocked by the teacher and unable to move any further because that teacher does not want the student to surpass the teacher, then this is a time wherein this Awareness asked the teacher to step aside, that the entity may move on.

This Awareness indicates that entities should always realize that the hierarchy of teachers, whether physical teachers, whether parents, or whether spiritual teachers, are there to serve your spiritual needs. That these teachers are not there to block you from surpassing their level of development. This Awareness indicates that many of these organizations which claim to represent the spiritual hierarchy, have leaders who are so jealous of their position that they are fearful of anyone who approaches them in a spiritual sense, who reach a level of development which might threaten their position.

This Awareness indicates that it is often difficult to recognize when a teacher is assisting a student, and when the teacher is holding the student back. This Awareness indicates that there are also those students who feel themselves to be so ambitious spiritually, seeking recognition, seeking importance, that they put on the trappings of spiritual life, put on the costumes and affectations, and then proceed to proclaim themselves to be highly evolved and capable of surpassing their teacher.

This Awareness indicates there are many of these who would usurp the teacher's position in order not to serve the people, but to be served by the people. This Awareness indicates that therefore, entities involved in this kind of interchange of spiritual energies must be wary of both their own inflated egos, as a teacher or as a student, and also be wary of the inflated egos of others, yet must also be tolerant and recognize that everyone must pass this way, and wrestle with these problems of the ego.

This Awareness indicates that in recognizing this as part of the human condition, entities may be able to love each other in spite of their shortcomings, and to share their observations with each other in a manner which does not condemn, but which assists in helping each other to better understand their place on the path, and their movement to where the eternal are.

This Awareness indicates in reference to this entity's discussion of the imposters; this Awareness suggests that this as associated with that which has been referred to as the Brothers of the Shadow, the MIBs, or the hierarchy of Ahriman.

THE HIERARCHY OF AHRIMAN

This Awareness wishes to comment further on this concept of the hierarchy of Ahriman. This Awareness indicates that many entities will look at the material available through some of these organizations, and may notice that these entities who proclaim themselves to be some great master of the hierarchy, give forth information that basically carries little or no sustenance or nourishment to the listener, or to the reader. The information may simply be a series of condolences, a series of words and ideas expressing to the entity that "where you are is perfectly alright; don't try to do anything; we have everything in control; you are our lowly subjects; we are here to serve you; you simply need to continue receiving our messages, and sending in your money to these who provide these messages, and we will continue to print good material that makes you feel pacified."

This Awareness indicates that many of these messages are simply flowery words as might be used at a wedding, to make the entity feel secure. These words may be presented on a particular number of pages, repeated over and over, words such as: "Beloved," "...My children"..."My earthly friends"... This Awareness indicates that these terms are generally intended to mollify and pacify entities so that they feel that as long as they belong to this organization, they are perfectly well off spiritually. This Awareness indicates that these organizations seldom stir up the entities into changing, into examining themselves, into looking at something in depth, but simply give them the sweet sugar-coated marshmallows from the spiritual plane, in order that they remain members of the organization and support the organization.

This Awareness indicates you may wonder why this is a problem. This Awareness indicates it is not a problem in the sense of causing entities to have any particular problems in their lives; it is rather a *diversion* from the spiritual path. This Awareness suggests that wherein an entity wishes to spend his or her time watching television for entertainment, or going to movies and being entertained, or reading these messages filled with words of flattery and words which denote some vain attachment from a spiritual guide with the reader; these phrases: "My beloved children, this Great One wishes to address you and give you a most important message," and whereby this 'most important message' turns out to be nothing more than more flowery words which do not bring about any change in consciousness, or affect the entity's consciousness to be of greater service, or to become more enlightened, but merely reassures the entity that he is alright if he keeps receiving these messages.--this Awareness indicates that this kind of entertainment is a diversion from the spiritual path.

HOW TO TELL IF YOU ARE ON THE TRUE SPIRITUAL PATH

This Awareness indicates that the true spiritual path requires that entities put forth effort, that entities do move into an expanding consciousness, that entities explore ideas, that entities look at those concepts and ideas and principles and teachings which require that they make deep and significant changes in their own lives in order to become of more service, to become

more humble, to become more giving, to become more loving, to become more aware, to respect each other more, to express that respect, to involve yourself in relationships in a manner that shows respect, shows your love for each other, extends a helping hand to another.

This Awareness indicates that the dedication of one's life to the highest and most spiritual imaginable, the most spiritual conceivable, the dedication to move toward that which is the Highest and Best, allows the entity to avoid becoming entrapped by some strange force or creation, or entity who claims to be the Lord of Mabakaba, who is the Grand High Ruler of Kapa-goopie, or any of these other planes, and allows the entity to move on beyond these lesser gods, beyond these lesser lights, into that which is the great pure Light of the Void, the resonating electromagnetic energy associated with the planes of Celestria.

This Awareness indicates that if you find yourself becoming enraptured by your own spirituality, becoming fascinated by your level of development; if you find your teachers are pacifying you into presuming you are one of the elect, and that you have some special place simply because you are subscribing to this or that particular material, or because you meditate and say these particular words as are given by your teachers; if you find yourself becoming smug in your spiritual development, you may wish to question: "What am I actually getting from this effort, and am I putting my energies in the right place?"

The 3 Paths of Spiritual Development

This Awareness indicates that It has previously given that there are three paths of spiritual development: the path of alchemy, which is the fastest and most powerful; the path of service; and the path of suffering. The path of suffering is that which most entities choose. This is the path wherein entities attempt to achieve on their own, only to discover that they are suffering more than they are gaining from their personal efforts. The path of suffering is that wherein the entity says: "I do not need help from anyone. In fact, I despise others. I myself can acquire and achieve my ends through whatever means I choose!" And the entity sets forth upon this path to discover that all of the actions, all of the efforts lead to futile suffering, and it is in that suffering that the entity begins to grow spiritually. This as a very slow and tedious and difficult path.

This Awareness indicates the second path which is much faster, is that which is involved in giving service, wherein an entity looks about and realizes that there are people to serve, people who need, and that these needy people are there and that: "I, as an individual, have the ability to give some service in this manner," and the entity then begins giving such service to others. This Awareness indicates that in the passing over, the question is asked, "How many have you served, and how well?" This Awareness indicates that this question may be used as a measurement by any individual as to their accomplishment, or spiritual movement on the path of service.

Acts of Alchemy-Zen and the Christian Conversion

This Awareness indicates that in relation to the path of alchemy, this as relating to the changing of consciousness. That wherein an entity experiences an action whereby the consciousness is altered; this is an action on the path of alchemy. The entity Paul, on his trip to Damascus, who was struck and made blinded by the Light of Christ,--this was an act of alchemy. This Awareness indicates entities who in their embracing of the Christian doctrine experience that which is called the 'conversion', or the salvation; this as an experience in alchemy. That this has been discussed previously, as to how it is brought about, and this Awareness indicates that likewise, the activities used in Zen, and certain of the Oriental philosophies also alter consciousness and bring about the changes. These are acts of alchemy.

This Awareness indicates that the entity who in meditation begins to change, begins to alter, begins to become more aware, more self-disciplined, more at peace with self; this action bringing about the change in consciousness is an act of alchemy. This Awareness indicates that the Development Classes which this Awareness has given are acts of alchemy, and this Awareness suggests that entities who follow either of these three paths, may find themselves moving toward the Light at whatever pace is available, according to their choice and the opportunities.

This Awareness indicates that those who simply wallow in the spiritual marshmallows, may assume that they are spiritual because they are being thrown these spiritual marshmallows, yet these spiritual marshmallows may actually be forms of entrapment, whereby the entity does not progress. The entity simply belongs to this organization which says sweet words about them, and has them saying sweet words about each other, or back to those of the organization.

What to Look for in a Good Spiritual Organization

This Awareness indicates that this becomes more of a social security association than a spiritual association. This Awareness suggests that spiritual associations should stimulate entities to examine their basic beliefs, to become disturbed at certain ideas, yet to be willing to look at this disturbance, at these ideas, and to continue exploring and searching for truth, and to move ever higher without fear of being stopped by some entity whose ego proclaims that he or she is the Grand Master, and that no one shall pass beyond this point.

This Awareness indicates that each entity is capable of having a personal contact with the Divine Forces of the Universe, and while each entity may choose to move through the hierarchy system, and while this is generally the more appropriate path for most entities, it is still possible and likely that an entity who has already evolved highly, shall find it a hindrance to move through these hierarchy positions, and shall find that it is much more rapid and complete to move into a personal relationship with the Divine Forces.

This Awareness indicates that such requires that the entity live up to a standard that does not degrade or create some detrimental circumstance to prevent the entity from being identified with that Higher Spiritual Energy. This Awareness indicates the entity who claims to be identified with the Divine, yet behaves like an overgrown egotistical being who seeks praise and glory and favors for being such a fantastic spiritual leader; such entities are only fooling themselves, and do not even fool the masses for any length of time, and do not in any way fool the spiritual beings who are observing this game.

This Awareness indicates that nothing is so important on the path of the spiritual candidate as honest and true humility, not the pretended humility that is often seen, but true humility which is felt within the heart of the candidate.

This Awareness indicates that these spiritual hierarchy entities who are the imposters, generally can be revealed as imposters when questioned or observed carefully by their pretensions and their vanity, and their proclamations which intimidate the candidate, the entity who is on the path, so that the candidate does not pass beyond or go around the teacher.

This Awareness indicates that the teacher who is a true Master, may set up rules, may set up conditions, may make demands, but will always allow that candidate, that student, to have the free will and choice to proceed as directed, or to go another way if desired, and will always continue to care for that candidate, even if the candidate rejects the true Master.

This Awareness indicates that wherein entities desire to move into higher spiritual settings, it is a common practice for those involved in those settings to create situations whereby an entity must rise to equal the energies of that setting, and whereby the entity cannot bring low and hostile or demeaning energies into that setting.

This Awareness indicates this as similar to the statement of Harry S. Truman, wherein he said: "If you cannot stand the heat, stay out of the kitchen". This Awareness indicates likewise, wherein an entity has a particular level of vibration for a purpose, and others attempt to disrupt that vibration, or bring in energies that are disruptive to that vibration, it is the responsibility of the entities in charge of keeping that situation clear, not to reject those entities who bring in the low vibration, but to demand that if they remain, they come up to the level required.

This Awareness indicates that those organizations which reject others, saying that they are not worthy, are not truly spiritual in their approach. Rather, they should allow *anyone* the opportunity to enter the organization, but may require that if they become involved, they must maintain a certain level of behavior, they must maintain a certain vibration and recognize the rights of others in those levels.

This Awareness indicates that for example, an organization may have a particular setting in which someone seeks to bring in alcohol, or drugs or cigarettes, or other behavior, and that intrusion would affect and disrupt the energies which the organization seeks to establish and create for that particular ritual or setting. This Awareness indicates rather than informing the entities that they are not welcome, the proper approach would be to inform the entities that if they wish to stay, they must put away those things, and join with the others in the level of attentiveness that is required.

Loyalty & Bondage are Defined

This Awareness indicates that there are indeed some organizations who demand all of an entity's possessions, in exchange offering to take care of the entity. This Awareness warns those who would become involved in such that once you have given up all of your possessions and have become a dependent of an organization, you are in bondage to that organization, and may find it very difficult to extract yourself, for becoming dependent and becoming loyal is also akin to bondage, for loyalty and bondage are just two sides of the same coin.

This Awareness indicates that loyalty as that which is a willing bondage, and bondage as that which is an entrapment, or a somewhat unwilling form of bondage wherein the loyalty is often due to bondage and dependency, rather than to personal choice. This Awareness indicates that therefore, entities in becoming involved in organizations must be aware of these different aspects and dangers, and also aware of their own motives and intentions. This Awareness suggests that there are always needs by an organization whereby money is needed, otherwise the organization cannot continue to exist, for the system on this earth plane is that money is used as an exchange of energy, and as forms of agreements, and the energy exchanges are required by organizations if they are to function, and the members and supporters of the organization must have some degree of contribution if they are to receive anything from the organization.

This Awareness indicates that it is a question of: "How much should an entity give, in order to receive the benefits of the organization?", and wherein an organization asks you for total surrender of all of your life's energies, including yourself, you have, if you agree to this, sold your soul, sold your life to that organization on the hopes that the organization will deliver you, and provide you with some future security of a social and/or spiritual nature. This Awareness suggests that this is very foolish, and does not countenance the organizations who demand entire devotion.

This Awareness suggests that your devotion to the Divine Light is all that is required. That donations and gifts to teachers and organizations is a separate matter of personal choice, having to do with fair exchange of your gifts, in return for energies received. This Awareness indicates it costs nothing for an entity to devote himself, to devote herself to the Highest Divine Forces, except their attachment to that which is not of the Highest and Best.

LOYALTY OR DEPENDENCY ON AN ORGANIZATION

(If you want to eat...do hard work first)...

QUESTION:

A reference was made in passing to 'loyalties being akin, or, related to bondage' and I just wanted to clarify that it's not necessarily a bad thing to feel loyal at all, is it, in that we have a lot of members that write letters that say they feel loyal to CAC for instance...?

COSMIC AWARENESS:

This Awareness indicates that loyalty as an action of bonding yourself to someone, or to some cause, or to some purpose, or to some action. This Awareness indicates that if this is a willing bondage, or contract, or agreement; this then is that which both parties accept out of mutual willingness, and therefore can also break that bondage, divorce themselves; then the loyalty as that which is not a kind of coerced or enforced bondage, but rather is that which is a bondage made from mutual agreement. This Awareness indicates that this kind of loyalty as that which allows freedom, and which is healthy; the loyalty being perhaps created, because both parties realizes a mutual respect and willingness to cooperate.

The other type of loyalty, on the other side of the coin, is that which is brought on by dependency, whereby one depends on another, either to oversee, or to serve, and that dependency is strengthened and enhanced so that anyone breaking the dependency will suffer. This Awareness indicates that such a dependency may be caused by the threat of physical suffering, mental suffering, emotional suffering, or financial suffering.

Whereby an entity gives to an organization so much of his or her property as to become dependent on that organization, so that to extract oneself would lead to great financial suffering; this is a form of bondage, and the loyalty that exists may not be willing, but may rather be brought on because of that bondage. This Awareness indicates that these entities may be quite loyal and obedient in serving that organization. They may stand on the street corners gathering donations, passing out flowers or other objects, in return for money to be given to the organization; and one could say: "My these entities are certainly loyal to their teachers, to their organization", but it may not be so much loyalty as dependency.

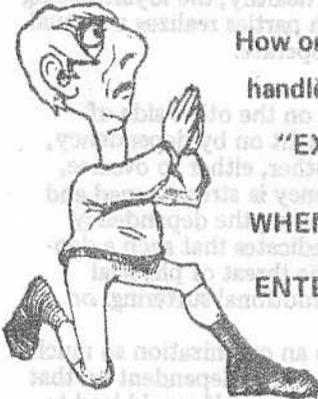

If they do not receive a certain amount of donations, these entities may fall in disgrace, or fail to receive their meals, or may not be given a good status in the organization. This Awareness indicates therefore, the loyalty and the bondage become confused, because of the dependency factor. This Awareness indicates that likewise, an entity in an organization, whereby there is the physical threat, may be very loyal, for fear of being beaten, or otherwise physically harmed, and the entity who is loyal because of some emotional need,--a need to belong,--and the failure to be loyal and obedient might result in a form of chastisement or excommunication. This form of emotional dependency, or the dependency of mental and spiritual nature, wherein the entity believes that, "Only through this group, only through this spiritual organization can I find salvation, therefore I must obey, for if I fail, I will surely rot in the hot flames of hell!"; this kind of mental and spiritual bondage and dependency on the organization; these are all coercive techniques, and any loyalty developed by the followers for that organization is a loyalty based entirely on coercion and bondage.

This Awareness indicates that It does not countenance this type of organization, or the result of that type of bondage, nor does It approve of such methods of achieving loyalty. This Awareness indicates that wherein there is no coercion,--mentally, spiritually, emotionally, financially, or socially,--then, and the willingness of an entity to become involved in an organization and its program; this is acceptable to this Awareness. This Awareness indicates that entities should have the right to choice in religion, just as entities have the right to choose which type of breakfast cereal they wish to eat.

This Awareness indicates that any entity who was to find that in eating a particular brand of breakfast cereal led to a dependency on that cereal, whereby, if the entity were to desire to change, he or she would be beaten physically, ostracized emotionally, outcast spiritually, threatened mentally, or socially ignored; that entity would be a victim of coercion, and any loyalty to that particular breakfast cereal would not be countenanced by this Awareness.

This Awareness indicates as it is in breakfast cereals, so it is in religious organizations, so far as this Awareness is concerned.

"No! No! Anything but that!".....

How one Ascended Master group handled it:

**"EXCOMMUNICATION"
WHEN COSMIC AWARENESS
ENTERED THE PICTURE**

QUESTION:

Awareness, we have learned, heard indirectly, that three of our members in Detroit, prior to becoming members of CAC, belonged to one of the Ascended Master organizations*, and they did something, I'm not exactly sure what, that evidently angered the head of this organization, for she personally "excommunicated" these entities. Now, as far as my understanding of the word "excommunication", this means you are being kicked out, you are now a spiritual outcast, and your spiritual growth will be impaired. Now, my question is: When an action such as this occurs, through one of these Ascended Master groups; is this an action of these deceptive dark forces posing as masters, to block the spiritual progress of these entities, or, is this, in a case like this, an action for their own good,--to get them out of that particular group?

COSMIC AWARENESS:

This Awareness indicates that these entities were indeed fortunate. This Awareness indicates that to be excommunicated from this organization in this manner, for this purpose, as that which was to their benefit. This Awareness indicates that it also reflected greatly on the organization itself. This Awareness indicates that it also was brought on by a combination of the energies associated with this Awareness, in conjunction with the energies that were being channeled through that hierarchy organization. That these energies, basically, were incompatible in the way in which they occurred.

This Awareness indicates that the hierarchy organization as being pure in its own creation, set up in its own manner, and wherein energies from this Awareness were commingled with this organization, it was seen by this organization as a threat to the purity of its own hierarchy and form. This Awareness indicates that this because the Awareness information, and the energies from this Awareness did not move through the hierarchy. This Awareness indicates that this organization saw itself, saw its hierarchy, as the beginning

*Church Universal Triumphant: Eliz. Clare Prophet, owner.

and the end of everything, and could not, and would not be bothered by any outside force that did not come through the hierarchy, and therefore this organization saw this Awareness as a competitor, and as one who should be pushed aside.

This Awareness indicates that this organization did not want its ministers and its followers to be in contact with this Awareness, and the organization saw that it was to their benefit to excommunicate these entities rather than to allow them to bring this Awareness into the hierarchy system.

This Awareness indicates however, it was too late, for this Awareness had already permeated and has infiltrated that hierarchy system through the head, through the channel, and this channel as being gradually turned through circumstances, and through time, toward this Awareness.

**HOW LEE MICHAELS TAPPED
INTO THE DARK HIERARCHY**

QUESTION:

When Lee Michaels made his address to the universe, and contacted some of these Ascended Masters in the hierarchy system, were those entities contacted the genuine spiritual hierarchy, or those dark forces that masquerade as the hierarchy?

COSMIC AWARENESS:

This Awareness indicates that this entity as having had contact with several different interdimensional cultures. That many of these were of the lower hierarchies of the Dark Hierarchy, or imposter hierarchy levels. This Awareness indicates that essentially, even as there are hierarchies on this physical plane, likewise there are hierarchies on the Inner Planes, and these entities on the Inner Planes often are no more spiritually evolved than those on the physical plane.

This Awareness indicates that the effort to communicate between these planes sometimes creates a circumstance whereby any communication at all is seen as something fantastic, and wherein Lee Michaels broke through and communicated with certain entities on that plane, he himself was seen as an extremely important person from this plane, and those whom he contacted were seen as extremely important persons on those planes.

This Awareness indicates that even as entities in the hierarchy on the earth plane are largely imposters, in terms of the positions they hold, and the seats of power which they manipulate; likewise, there are imposters on the other planes, although they may not be any worse or any better than those on the earth plane. This Awareness indicates that entities on the earth plane generally presume that those on the other planes are obviously more evolved. This is not necessarily so. This Awareness indicates likewise, that many of the Inner Planes presume that those on the earth plane have it all figured out, and are very pleased when they can receive information from this plane.

This Awareness indicates that as there are those imposters of the hierarchy which are egotistical, and claim to be of some significance, and enjoy the game of playing spiritual leader, likewise, there are others in all levels, in many dimensions who play these games also. This Awareness indicates that it does not mean that these entities are evil, or dark in the sense of evil, but rather that they are just not highly evolved.

This Awareness indicates the entity Lee Michaels as one who had the ability to contact entities from different levels of evolution. The entity could move into very high contact, contacting entities of a very high nature, and it was for this reason that this Awareness opened the gates to allow this entity into these higher realms, and suggested the entity move toward those higher levels. This Awareness indicates that the problem occurred when the entity became so fascinated with the phenomena of the attention given to his role, that he forgot why the hole was open, and basked in the grandeur of being the one who had opened the hole.

This Awareness indicates that this allowed these entities from the Inner Planes, many not being of a high quality, to follow this entity around, into this third dimensional plane. This Awareness indicates that these who followed this entity often brought about great mischief, and it was for this reason that this Awareness closed the door, or pulled the plug on this action, for it was not being properly attended. This Awareness indicates that it was risky, and dangerous to have allowed this to occur in the first place, but it was also a time of great danger to humanity in general, and the opening was necessary in order to allow certain energies to be altered on the Inner Planes, and for this reason, for this action, this Awareness opened this hole to bring about that alteration of energies.

C.A.C. Members' Role in Preventing the Nuclear Strike

This Awareness indicates that this did have its effect in helping to defuse that which would have been the nuclear strike of September 17th, 1982. This Awareness indicates that the meditations of the members of this organization, having also been moved through this opening into the Inner Planes, contributed further to the realigning of energies on those planes. This Awareness indicates that this action being of great significance, although hardly noticed by anyone, and that the changes of energies which have occurred between mid-October, and which will continue through December; these energy changes which may seem somewhat insignificant in some levels, will be recognized later as that likend unto turning a sharp curve, turning a corner in the road of history.

For more information on Lee Michaels and the opening in space Awareness made for him, please refer to 'Revelations of Awareness' No. 82-10 (The Eve of Destruction) \$4.00 from CAC. Also, 82-18 and No. 82-20 and 83-8; each \$3.00 from CAC. These readings follow the adventures of Lee Michaels from the height of his power to his fall from grace.

MORE ABOUT THAT CHARACTER KNOWN AS "SATAN"

(GETTING RALPH DUBY'S ROLE STRAIGHT)

(From a CAC Gen. Reading)
May 5, 1981

QUESTION:

L.B. has a question. I'm pretty sure Awareness has answered these questions at various times, but perhaps if I ask it in this way, that the information being together will make more sense to entities. He asked, "Is there an answer to this? If Ralph Duby was a personification of Lucifer, who has now returned, and Ahriman is off the planet, where is Satan? And is it possible that Rothschild is a personification of Satan?"

COSMIC AWARENESS:

This Awareness indicates that there must be a careful discernment here in terms of the concept of

personification as compared to symbolizing. This Awareness indicates that an entity who is a personification of something or someone or an entity who symbolizes something or someone must not be confused with that something or that someone. This Awareness indicates that the entity Ralph Duby was not Lucifer in the reality sense; the entity Ralph Duby as having absorbed the energies of the Rhyee, or first separateness, and as having moved into that first-separateness role in previous incarnations, and as having moved with that energy back into Essence. This Awareness indicates that having entered into that action of personifying or identifying with those energies, this in turn affected all of the energies of the Luciferian phenomena.

This Awareness indicates that the Luciferian phenomena is nothing other than that which may be called separateness intensified into rationality and structure. This Awareness indicates this is not to be confused with evil; rather it is an incomplete state of being which derives its completeness by feeding off of the energies of others until it is capable of returning to the whole, or totality, and aligning itself with the Divine aspects of the universe. This Awareness indicates the rational mind is incomplete and is essentially a vampire feeding off of energies of others until it discovers that by aligning itself with the intuitive or holistic mind, it can become One with the Divine. This Awareness indicates this being the mystical marriage, and this allowing the completeness to occur, whereby the rational mind then is absorbed and made servant to the Divine Mind.

This Awareness indicates that in terms of the concept of Satan; this as a concept which only in the last several thousand years has become significant. This Awareness indicates that essentially, the development of Satan as a concept is that which evolved from the planetary aspects of Saturn in its astrological influence on human affairs; Saturn being a restrictive influence in astrology, creating hardships and difficulties for entities. During Egyptian times, this as represented by the deity or god known as Set; and this entity being considered a dark force, was not considered evil, but was considered as one which brought difficulties. This Awareness indicates that in the Egyptian teachings, the gods of light and gods of darkness were not considered as in opposition to each other, but were considered as a team of energies which created the influences that affected human affairs.

This Awareness indicates the best present understanding or symbol for this kind of thinking is the Yin-Yang symbol. Entities presently would not say the Yin is evil and the Yang is good, even though these are in opposition to each other. Entities simply recognize that these are positive and negative. This Awareness indicates that entities cannot, in electronics, state that the positive is good, and the negative is evil; entities rather must recognize that one is opposed to the other, and together these energies create a team that can affect and influence certain affairs in electronics; that these energies can clash or can be properly utilized.

This Awareness indicates that this polarity of the Egyptians was not intensified by avoidance of one, by hatred of one and by love of the other, but it was recognized that certain of the Light gods, (RA for example, HORUS and others), did in fact bring benefits while the others brought difficulties. This Awareness indicates that the Egyptians also were wise enough to recognize that difficulties were needed in the human experience for greater soul growth.

This Awareness indicates that the Hebrews, having been deeply involved with the Egyptians from the latter dynasties of the Egyptian culture, adopted much of their concept of deities from the Egyptians, but gave them different names and created a similar but

different kind of attitude toward these. This Awareness indicates that Cain and Abel are reflections of HORUS and SET of the Egyptians. This Awareness indicates that Jehovah as that which was a new creation for the Hebrews, as has been explained in previous discussions. This Awareness indicates that Satan is none other than astrology's Saturn, or SET after it has been tampered with by several thousand years of theological dogma which polarized concepts of good and evil by creating personification of deities to represent or symbolize these concepts.

This Awareness indicates that the Greek god of pantheism or universality was symbolized with horns and hooves, and this, during the Middle Ages was dragged up in art works to be attached as a symbol for Satan. This Awareness indicates that the image then of Satan having horns and hooves was highly advanced and publicized through art and through church dogma, until entities often in fact would see visions of this entity having horns and hooves. Here again, these were projections of their own consciousness according to the concepts held in their minds.

This Awareness indicates that *It* must explain also that entities *do* in fact have the power and ability to create energy fields out of the concepts which they energize. This Awareness indicates therefore, Satan *can* be created,--if energized strongly enough, can be treated with enough energy that others may experience the presence of that entity. This Awareness indicates however, that it still is as a projection of consciousness created by those who energize and image the being.

How Spirits were Created with a Ouija Board

This Awareness reminds you of a recent case of some college students playing with a Ouija board who, in an experiment, decided to see if it was possible to create spirits having certain personalities,--these not being *contacted*, but *created* by the students. This Awareness indicates that in the process, each student added a particular quality that he or she wanted the spirit to have. This Awareness indicates that after these various qualities had been brought together, the entities then named the spirit, and began to energize communication with the spirit through the Ouija board. This Awareness indicates that within a few hours, a spirit began responding to the name,--the spirit having all of the qualities which were given by the students.

This Awareness indicates that likewise, if entities wish to energize a demon, having various qualities, this can be done, and in time the demon will appear. This Awareness indicates that likewise, if entities wish to visualize a guardian angel, or a presence of a Divine Being; within time and with enough energy, these beings can make themselves present and visible to you.

This Awareness reminds entities also of experiences and experiments described by Aleister Crowley, whereby he first spent many hours of meditation seeking to see certain Divine Beings of one culture, then after this had been completed, began visualizing Divine Beings of another culture. This Awareness indicates the first being of Christian origin; the second being of the origin of Indian deities. This Awareness indicates in both cases, and in subsequent cases, after so many hours of meditation on a particular deity, the entity would in fact begin to have visions and see apparitions of these various deities.

This Awareness indicates that in terms of the question regarding Satan; this Awareness indicates that this character as having been invented in early cultures, but as having few defined qualities until the more recent Medieval times. This Awareness indicates that the greater definitions of the entity, or this character, as that which were more highly energized from approximately the 12th Century to the present in terms of a personality deity, or demon.

This Awareness indicates that essentially, the energies accompanying this new creation were those which tend to include concepts of mind control in the sense of controlling others' minds, (not in reference to controlling one's own mind), through various deceptions, force coercion, or through mental control of others for one's own amusement, gratification, power and domination over others. This Awareness indicates that this also is accompanied by the concept of an entity who simply loves to indulge in anything which is other than good. This Awareness indicates that essentially, this character has no being other than that which is given to this entity by continued energizing of those who could not continue without having Satan alive and well on the planet earth.

This Awareness indicates that the fundamental Christian religions, based on the duality concepts, are in as much need of Satan as they are of God, and cannot function without a good devil to drive their followers toward their God. This Awareness indicates that in higher dimensions of consciousness, evil is not recognized as such; it is rather recognized that there is ignorance on the lower dimensions,--confusion, misunderstanding, ignorance and separation from the Divine. These are not considered as evil in the usual sense, but rather are considered as error caused by duality-thinking processes.

DOES SATAN REALLY OVERSEE HADES?

...HOW LONG WILL THE DARK HIERARCHY EXIST?

QUESTION:

Awareness, with all the energy for so long given to this 'character' as you call it, Satan and his relationship and the images that have been put forth in his relationship to that area known as hell, which Awareness refers to as the Immortal Realm of Hades,--is it possible that entities in that Immortal Realm of Hades are aware, or see, or feel the force of this elemental in Hades, or is he in fact and overseer of that realm?

COSMIC AWARENESS:

This Awareness indicates that even as there is that which is called the Spiritual Hierarchy of entities caught in the karmic web, evolving upward through the various realms or levels of consciousness; there are also the Dark Hierarchy of what may be termed demonic imageries or energies; demonic deities, whose energies are leading toward greater and greater separateness and toward that which has been described as Hades. This Awareness indicates however, that it must be understood that these concepts and these levels of consciousness are all based on illusionary concepts,--even those of the Spiritual Hierarchy moving upward in the web of overcoming karmic laws, and those of the Demonic Hierarchy moving deeper into separateness. This Awareness indicates that Hades itself is nothing but an incomplete realm of consciousness; incomplete because it cannot and has not allowed itself to be united with the total oneness of the universe. It cannot allow itself to do so without losing its significance as a separate realm. This Awareness indicates that the incompleteness is the only thing that allows Hades to continue as itself, being a place of torment; and yet it maintains that incompleteness by its own intention and insistence on being separate and living in a state of duality rather than oneness.

This Awareness indicates that entities who insist on separateness and the significance of individual separateness and who refuse to surrender to the universal wholly, or totality system, are naturally caught in that incompleteness; and if separate enough, will find themselves moving

toward the Dark Hierarchy further and further; or if overcoming that concept of separateness, may find themselves moving up the ladder of the Spiritual Hierarchy. This Awareness indicates that those who surrender totally to the Universal Divinity are automatically catapulted into the realm of Celestria, regardless of where they may be, whether in heaven, earth, or in Hades. This Awareness indicates that Celestria penetrates and encompasses all other realms within the universe and recognizes no separateness of any part. Therefore, entities can be on the earth, and with absolute surrender to the Divine Forces of the Universe, will automatically be in Celestria.

This Awareness indicates that entities who insist on being separate from the Divine Forces and maintaining their own ways apart from such Divine Force, will automatically be in one of the other levels of experience, depending on how much separation the entity seeks. This Awareness indicates wherein an entity not only separates from the Divine Forces of the Universe, but also separates from the Divine Forces of his or her fellow creatures and becomes a social misfit, a social outcast himself or herself out of society in a feeling of rejecting society in order to become more significant as a self, this entity is well on the way to entering the separateness realm known as Hades. Whether the entity is in heaven, on earth, or already in Hades, it doesn't matter: it is the *attitude* which determines which realm the entity is moving toward.

This Awareness indicates that yes, indeed there are entities who personify the qualities which have been energized to represent concepts of separateness known as and labeled as Satan or demonic, and some may be disincarnated spirits; but so long as entities wish to identify with these energies of separateness, and to form such energies of separateness and energize such energies of separateness, there will always be a Dark Hierarchy force. This Awareness indicates that wherein entities begin moving away from concepts of separateness and recognize their alignment with the Universal Forces, with society, with the families, with other entities, with entities in higher realms, with entities on lower realms, with entities in all levels of the universal experience; then these entities in aligning themselves with all that is, will find that they are moving more and more into the realm of Celestria and of unity.

This Awareness indicates that it would be slanderous of this Awareness to state that 'The entities of the Rothschild family are personifications of Satan'. This Awareness indicates that to some degree, *every* entity has that portion within his or her consciousness which, presently or in the past, has experienced the separateness which is personification of the concept of Satan. This Awareness indicates however, this can be diminished as entities align themselves more and more by surrendering to the Divine Forces of the Universe.

ED's Note:

For more information on Aleister Crowley, please refer to 'Revelations of Awareness' No. 78-40 (Aleister Crowley, the Devil's Apostle); \$2.00 from CAC. For more information on Satan, please refer to 'Revelations of Awareness' No. 82-17 (Introducing that wicked character known as Satan); \$3.00 from CAC. Information on Hades and Celestria can be found in No. 78-19 (The Imortal Realm of Hades); \$2.00, and in numerous subsequent readings including the Life After Death readings series.

For more information on Ascended Masters, please refer to No. 78-35 (More About Ascended Masters and Groups representing the Spiritual Hierarchy); \$2.00. Also please refer to those readings in 1982 and 1983 which relate to Ahriman Forces and the Brothers of the Shadow.

THE MARK OF THE BEAST: DID IT APPEAR ON SOME SOCIAL SECURITY CHECKS?

QUESTION: (From a CAC reading, Nov. 5, 1980)

One day last week we received two letters in the mail: one from W.B., of Kalamazoo, Mich., and another from a member in Roseville, Calif., and I'd like to read excerpts from these two letters, and ask Awareness to comment on the validity of this information. I quote:

"Here is some information you may not have received as yet, at least on the physical: a group of senior citizens were discussing their social security checks when one said that she had received her last one with a notation on top to the effect that the check was not to be cashed until the person's number on their forehead corresponded with the Social Security number, at least this was the gist of the conversation. To top it all off, when the Social Security office was called up on this, the answer was, "This is a mistake. These were not to be issued until 1983." And in the letter from this member in Roseville, "From a friend, and I quote from his letter: 'the owner of a store told me that a customer of his showed him a Social Security check that his mother received. Across the bottom of the check it said, "This check cannot be cashed without your 666 number." The check was returned, and a new one issued, along with a letter stating that the information was in their computer, but was printed on a batch of checks in error, since that requirement would not be in effect until 1985.'"

Would Awareness please comment on the validity of these incidences? Both of these are hearsay passed on to various members who heard the information. Is there any truth to the Social Security checks having been in error with that information?

COSMIC AWARENESS:

This Awareness indicates this as an action which was initiated by an entity seeking to tip off the public as to what was planned. This entity working within the system in a capacity which allowed him to affect the computer to give forth this information ahead of schedule. This Awareness indicates that this also has occurred in regards to certain credit cards which were issued ahead of schedule. That there are entities who have received these credit cards which also are prefixed by the number 666.

This Awareness indicates that there are members within your organization who have knowledge of these and have witnessed seeing these pieces of evidence. This Awareness indicates that more will be available in terms of such information. This Awareness indicates that there are entities copying these to make this public, and this can be used to tip off the masses as to the reality of these concerns which have long been voiced by this Awareness and by other entities in regards to the computer manipulations and the efforts to implement the Mark of the Beast.

This Awareness indicates that entities must remain alert and watchful, for the plans are still in the works for this to occur. This Awareness indicates that the new President (Reagan) as still under the control of those who have long been pulling the strings in this regard. This Awareness indicates that there are other forces which may prevent this occurrence.

For more information on the Mark of the Beast system, please refer to 'Revelations of Awareness' No. 79-1 (The Gathering Storm); \$4.00; 79-11 (The Mark of the Beast, part 1); \$2.00; 80-26 (Part 2, The Hand Scan Device); \$3.00; and 82-17 (The subtle promotion of the Mark); \$3.00 from C.A.C.

WHERE ARE CHRISTIAN CHURCHES HEADING IN THE NEXT 20 YEARS?

QUESTION:

A question from R.C., of Schenectady, N.Y.....
"Awareness says *It* interprets energies which give indications of future events. I'd like to ask: Where are Christian churches headed? Into oblivion, into unity with each other, or will they remain at odds with each other within the next 20 years?"

COSMIC AWARENESS:

This Awareness indicates that the entry of Uranus into Sagittarius is that which is to bring about great changes in the fields of religion. This Awareness indicates Sagittarius as that sign which rules religion and philosophical thought, and abstract concepts. This Awareness indicates that Uranus is that planet which is essentially the ruler of the new, the unusual, and the eccentric or rebellious qualities. This Awareness indicates that Uranus entering into Sagittarius is that which enhances new ideas in philosophy, unique and unusual concepts, and in a general sense applying this to religion itself, will enhance the new and unusual ideas of an abstract and religious nature, as opposed to the old and conservative ideas.

This Awareness indicates that essentially this will bring about a kind of rebellion or revolution in religious concepts and thinking. This Awareness suggests that when Uranus entered into Scorpio, it brought about many changes behind the scenes, this in terms of genetic engineering, in terms of the exposure and opening up of banking practices and hidden manipulations, in terms of surgery, which is ruled by Scorpio, banking also ruled by Scorpio, engineering also ruled by Scorpio; Uranus bringing about revolution in those areas. Also occultism which is ruled by Scorpio, and secrecy and sex.

This Awareness indicates that during this period of Uranus in Scorpio, the eccentric, unusual, rebellious and new and revolutionary qualities of Uranus were expressed. Entities witnessed the Gay Rights movement, the revolution in banking, the exposure of banking practices and manipulations, the development of the Third World banking system in opposition to the International Monetary Fund, the secret war between the secret agencies of the various super powers, the genetic engineering and the open-heart surgery and similar types of transplants.

This Awareness indicates that as Uranus has now moved from Scorpio, these areas shall settle down, and as Saturn moves into Scorpio a more conservative approach toward these areas is that which will occur. These areas will demand greater responsibility of a social nature and karma may be experienced in those areas, or extreme conservatism will be demanded. This Awareness indicates this will begin the latter part of this year, as Saturn enters into Scorpio.

This Awareness indicates that meanwhile, Uranus in Sagittarius as that which brings about opportunities for new religious concepts and ideas, unusual and eccentric perhaps, but it will require tolerance, rebellion and inventiveness, whereby these qualities shall begin to shake the religious world, and demand that changes occur. This Awareness indicates that there is a growing realization on the part of investigators of hypnotists, psychiatrists and even physicists in relation to the possibility of reincarnation. There is a growing realization through such studies as associated with Kirlian photography that a soul or aura does exist within life forms, can be photographed, and can be measured, that healing forces can be emanated from the hands of entities, and because of these discoveries, many of the religious and metaphysical principles of the past which were previously seen as superstition and scoffed at, are now becoming accepted as part of a new field of parapsychology, which is gaining more prominence as time passes.

This Awareness indicates that likewise, concepts of reincarnation, wherein entities have recollection of past life experiences and can verify many of their memories, wherein these have been tested and verified by entities who in fact did recall similar relationships and experiences that were related by others who witnessed. These memories, being verified, are giving reincarnation its place in the new field of religion that is emerging in the Western world. This Awareness indicates that as this develops, more and more, the old religions will need to modify.

Billy Graham Verifies Christians in Russia

This Awareness indicates that recently the entity Billy Graham as having verified much of what Dr. Beter stated in reference to the Russians having churches which allow religious worship. This Awareness indicates that this as having a shocking effect upon the ministers in the United States who hold to their prejudisms and beliefs that Russia is a complete Godless country, and that communism is of the devil, and therefore that the Russians could not possibly have had these services except as some form of staged activity to fool the entity Billy Graham.

This Awareness indicates that the changes are occurring, and the movement into spiritual awakening will continue in spite of the dogmatism which has crystallized over countless hundreds of years, and which uses fear and threats to hold and intimidate the masses. This Awareness indicates that there also are entities who are individually becoming aware of their spiritual heritage, and that awareness cannot be denied by dogma and programming, regardless of where it may come from.

This Awareness indicates that likewise, many of the so-called New Age groups, churches and religions will undergo changes and the philosophical, religious and abstract worlds of ideas will, for approximately seven years, continue to be upset periodically and to undergo extreme chaos and change while a new religion of unity and harmony and universal spirit begins to surface.

This Awareness indicates that entities may also expect religious wars in other countries during this period. This Awareness indicates this particularly in the Middle East, whereby religion may be a major force in the wars which develop in these areas. This Awareness indicates this especially associated with the Middle East due to the sign of Gemini as being a ruler of this area, with Sagittarius its opposite, or seventh House, containing Uranus which is the rebellion, upset and revolution planet affecting religion in that sign of Sagittarius.

THE ASTROLOGY OF SEXUALITY

(HOW SEXY IS YOUR SUN SIGN ?)

QUESTION:

Speaking of Astrology, there's a book being released this month by Samuel Weiser Publishing Company, called *The Astrology of Sexuality*, by Martin Schulman. I'd like to read the blurb on this and ask Awareness if this is a book that we might possibly stock for the members.

"Astrologers have traditionally considered sex to be the function of the 8th House of the horoscope, and a product of the planetary energies of Mars, Venus and Pluto. Martin Schulman's *Astrology of Sexuality* explores the hypothesis that the entire horoscope symbolizes sexuality. Many books have been written about the value of living the impersonal existence, but no one is capable of doing this until they have developed a centered understanding of what sexuality is all about. The right path in life is not a question of whether a person abstains from sex, or over-indulges in it. Instead, it is a question of whether or not he understands himself through his own sexuality in terms of it being one of the most direct paths toward the great mystery in life. The book provides a description of the sexual polarities developed through the houses."

COSMIC AWARENESS:

This Awareness indicates that this appears to be a well-rounded and well defined and well thought out book. This Awareness indicates that essentially, all activity is capable of being symbolized by the sexual energy. This Awareness indicates that put another way, sex may be seen as the core of the hurricane known as life. This Awareness indicates that it is an expression of intensity which is the culmination of certain forces: mental, emotional, spiritual and physical, and therefore no one particular sign of the zodiac can be totally used to symbolized sex, even though the Scorpio sign as that which symbolizes the alchemy or transmutation of energy, or transference of energy, which in a sense may be equated to the climax of energy.

This Awareness indicates that essentially, Aries may be thought of as energy in movement; this energy may be applied to sexual connotations, but not necessarily. Taurus may be thought of as energy moving towards stability. This stability needs not be associated with sexual energy, but it may be. The stability of Taurus as also that which is of a sensual nature, in that it has a sense of attachment and feeling of desire to refine and explore. This Awareness indicates that the Taurus energy associated with the bull as that which symbolizes fertility, the bursting forth of spring, and this may also in the minds of some entities, call up images of sex.

This Awareness indicates that the Gemini sign as that which symbolizes interrelationship between two different types, personality types or individuals, and that interrelationship can, in some entities' minds, call up images of sex. This Awareness indicates that the Cancer sign as that which symbolizes nutrition and nourishment, and that can, in some entities' minds call up symbols of sex,--the breast, the mother, and nourishment, or the father as a provider. This Awareness indicates that the Leo sign as that which is associated with energy known as romance and adventure and ego expression, the expression of self, and games, and interrelationship between entities in a playful manner, or with sports, and such energies can call up in some entities' minds, images of sex.

This Awareness indicates that the Virgo sign as that which symbolizes the fruition of the grain, the plant in full bloom, whereby the pollen is ripe and ready, the fruit is ready to pluck, and the grain as having ripened and the seed as ready to fall into the fertile ground, the virgin standing, holding the grain,--and that, in some entities' minds can call up images of sex. This Awareness indicates that Libra as the sign of partnership, as that which can imply balance and harmony and relationship, whereby marriage or agreements are made, and that, in some entities' minds can call up images of sex.

This Awareness indicates that Scorpio as a sign symbolizing the movement of energy from one form into another, or from one place into another, or from one type being transferred or transmuted into another type, (the cocoon becomes the butterfly, the metal dissolves as rust, the food is eaten and digested, the atom is split and explodes, the entity is transmuted into a changed person, the entity dies and becomes a spirit, the entity's energies are expressed through intercourse, the entity's goods are exchanged at the market). All of these exchanges of energies associated with Scorpio can, in the minds of some, be associated with images of sex.

This Awareness indicates that Sagittarius being a sign of the hunter, wherein a pursuit to discover, to find a truth, to find a meaning, to find an experience, to find something of value,--this pursuit of the hunter with the bow and arrow poised, looking for the target, this effort to discover some truth, can in the minds of some entities, be associated with sex, in that entities may tend to pursue sex as a target. This Awareness indicates that the sign of Capricorn, being such that it is symbolized as the goat climbing the mountain; the heights of glory on a material level, the goat symbolized as a powerful and compact being, as that which is often associated with fertility and accomplishment and achievement and the conquest of heights or goals. This Awareness indicates that the conquest of goals can, in the minds of some entities, be associated with the concepts of sex.

This Awareness indicates that Aquarius being that sign wherein the water-bearer gives away that which it carries, this, in the mind of some entities can be associated with images of sex. This Awareness indicates the Pisces sign as that wherein two fishes swim in opposite directions, passing close to each other, and the symbolism being that of the sign of love and emotion and the interplay of forces and varying dimensions, and that movement of the two fishes swimming in opposite directions, close to each other, can, in the minds of some entities, be seen as a symbol of sex.

This Awareness indicates that the signs may also be seen as symbols of life, or may be seen as symbols of activities, but for some entities who have a tendency to

view life through the symbol of sex, as Wilhelm Reich and others have done, the zodiac provides an excellent map and can give great insight into this mystery known as sex.

This Awareness indicates that entities who have a problem with the concept of sex, or who suspect they may have a problem, would benefit by reading this book. This Awareness indicates entities who have a fascination with the concept of sex may also benefit by reading this book. This Awareness indicates that entities who have a fascination for life may also benefit by reading this book, in that the word sex may be used interchangeably with the word 'life' and entities may find that by applying the same principles which this book applies to sex, applying these same principles to life itself, the book can also reveal much insight into life energies, vital energies and expression of these energies in one's life.

This Awareness suggests that it would indeed be a beneficial book for entities of your organization to read.

ED's Note: This editor had to take two cold showers while in the process of typing up this particular reading. Evidently he is one of those entities whose mind conjures up those associations as indicated by Awareness. (My particular fantasy at the moment is to sport around with a female Gemini with a rising sign of Scorpio. A roue acquaintance of mine, well-schooled in debauchery, says entities born under these signs are 'insatiable'. However, I've heard the same thing about Taurus and Scorpios). Just kidding, Ma! (Heh, heh).

C.A.C. has in stock 12 copies of this book, "The Astrology of Sexuality", which is priced at \$7.95. (Not listed in our regular book catalog as yet).

THE CONCEPT OF QUALITY

(QUESTIONS YOU NEED TO ASK YOURSELF)

(Opening Message, June 9, 1983)

This Awareness wishes to focus on the concept of quality. This Awareness indicates there is that which is of adequate value; that which is of inadequate value, and that which is of superb value,—that which is the highest and the best. This Awareness indicates that wherein entities demand of themselves that which is the highest and best, and entities demand of their leaders that which is the highest and best, and entities demand of their peers that which is the highest and the best; then, quality shall begin to again become uppermost in life.

This Awareness indicates that wherein entities do not demand of themselves the highest and best, are not willing to give their highest and best, do not expect the highest and best from their peers or from their leaders; entities cannot expect a life of high and wholesome quality. This Awareness indicates that therefore, in looking at yourself, you must first ask yourself: "What is the highest and best that I can give?" This Awareness suggests this be done each moment, each day, each week, each year, and that in giving and planning your life, you consider that which is highest and best for yourself and for others.

This Awareness indicates that in each situation in which you find yourself, in each relationship in which you find yourself, ask yourself: "What is the highest and best for this situation, for this relationship, and how can I assist in bringing about the highest and best?" This Awareness indicates that in your affairs

in your society, look and ask yourself: "What is the highest and best available for this society, and what can I do to assist in bringing about the highest and best?" This Awareness indicates that you may also write to your leaders, and speak to your leaders, and ask your leaders: "Are you doing what is highest and best for those whom you are responsible to? Are you doing what is highest and best for the people?"

This Awareness suggests that in promoting quality in all levels, the quality of life then begins to assert itself, and become part of the great experience of the human condition.

(Closing Message)

This Awareness indicates that entities who seek the highest and best quality in their lives must be willing to give the highest and best of themselves, but must also be willing to demand that the environment for their life, including the society, including the nation, the leaders, and the people about them, and including the natural landscape, is also of high quality, offering the highest and best.

This Awareness indicates that in the coming months, entities will have greater chance to make a determination in regard to the lifestyle which they will accept, and in making such determination, entities will be required to put forth the highest and best of themselves into life, and demand the highest and best from life.

A Jewish Group Denounces Israel

UNITED NATIONS (API) — A sect of Orthodox Jews opposed to Zionism has sent a letter through an Arab ambassador asking the United Nations to take control of the Holy City of Jerusalem.

The letter from Rabbi Moshe Hirsch of Jerusalem's Neturei Karta sect was made public by U.N. officials yesterday. It denounces Israel as a "sacrilegious state" and claims the Israeli government oppresses religious Jews.

The letter was forwarded to U.N. Secretary-General Kurt Waldheim by Jordanian Ambassador Hazem Nuseibeh, who originally hails from Jerusalem.

Israel has declared all of Jerusalem, including the old Arab quarter, to be the permanent and undivided capital of the Jewish state — an action declared null and void by the U.N. Security Council.

Neturei Karta is an Aramaic term from the Talmud, meaning "Guardians of the City." Its headquarters are in Jerusalem and the sect also has a strong following in the New York area. Its adherents believe a

modern state of Israel can only be realized in a supernatural way with the arrival of the Messiah predicted in the Old Testament.

Zionism is a movement for a Jewish national state. The modern state of Israel was established in 1948.

Hirsch's appeal was dated March 8, a day after Israeli police raided the Orthodox Toldos A'Haran Synagogue in Jerusalem to arrest alleged vandals.

Neturei Karta claims 42 Orthodox Jews were arrested at the synagogue in Jerusalem in an unprovoked attack. Shmuel Moyal, the Israeli consul in New York, said that 22 persons were arrested after police were provoked by persons hurling benches from the synagogue roof.

REVELATIONS OF AWARENESS is a cosmic newsletter published for the membership of Cosmic Awareness Communications, P.O. Box 115, Olympia, Wash. 98507
