Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

EXPANDING THE MIND (Continued)....

SOME RATHER INTERESTING STUFF

"Ignorance is of a peculiar nature; once dispelled, it is impossible to re-establish it. It is not originally a thing in itself, but is only the absence of knowledge, and though man may be kept ignorant, he cannot be made ignorant."

—Thomas Paine (1791)

Paul Shockley, Interpreter

THOSE 'SERPENT PEOPLE' DISCOVERED UNDER THE ICE IN SIBERIA--IS IT TRUE?

(April 23, 1983)

QUESTION:

A question from J.N., Santiago, Chile. "Awareness, in *Revelations of Awareness*, No. 79-20, page 4, beneath the subtitle "The Advanced Technology In Russia Today", you didn't respond to the first part of the question concerning the Serpent People taking over Russia. Did this happen? And where did this group come from? I asked Harvey Larsen for his source because he is always referring to the same event. He directed me to the booklet, "Flying Saucers", by M. Doreal from the Brotherhood of the White Temple in Colorado. The booklet states the Russians discovered several serpent people, mammoths, frozen cities and flying saucers beneath the ice in the Siberian wasteland. The Russians revived the Serpent People; the Serpent People being able to change their features at will, murdered the Russian hierarchy and replaced them. The booklet also says the Serpent Race hated man because man thwarted the Serpent Race's plan for world domination. Is this valid?"

COSMIC AWARENESS:

This Awareness indicates that this does not appear to have any validity in reality. This Awareness indicates that this particular story as that which appears to be error. This Awareness indicates however, that the concept of the Serpent People, or those which have been referred to as the Serpent Race, this as a story which relates back in time to ancient periods, to a space people. These entities having the symbol of the Serpent as their emblem. This Awareness indicates that the serpent symbolizing Cosmic Oneness; the serpent biting its tail in the form of a circle or single unity, symbolizing that which means infinity. The beginning being devoured by the end, whereby the beginning creates the end, and the end feeds the beginning.

This Awareness indicates that this as an ancient symbol of a philosophical principle that is universal in nature. This Awareness indicates that the reference which this Awareness has previously given in regard to the galactic group known as the Serpent People, this also can be seen in the symbols or emblems and head-dress of ancient carvings and drawings of Egyptian and Aztec priests. This Awareness indicates that the serpent also being seen in symbols of China and of the Eastern philosophies. That the serpent as symbolic in this sense of the nerve centers of the human body; the 7-headed serpent referring to the organs or the chakras of the body. These being likened unto mind centers of the spinal column, or of the Kundalini energy which flows up to the crown chakra from the base of the spine.

This Awareness indicates that this being a metaphysical symbology, carrying certain information and meaning to those in the priestcraft of these ancient religious and scientific communities. This Awareness indicates that this as having other origins apart from that of the earth.

QUESTION:

Yes, he goes on. He was confused because of that reference,--the Serpent People, that's been published about the Serpent Race in Siberia, and the reference Awareness made that the entity Jesus, was not only an Elohim, but was of the Serpent People.

COSMIC AWARENESS:

This Awareness indicates that this statement in regard to this: the Russians having thawed out these entities and these entities being of a diabolical and evil nature having the ability to change form and so forth,--this story appears to be pure fabrication.

DO 'EXTRATERRESTRIALS' RUN RUSSIA?

QUESTION:

He'd also like to know: "Is the Russian government run by extraterrestrials, and what percentage do the extraterrestrials comprise in the Russian government?"

COSMIC AWARENESS:

This Awareness indicates that the term 'extraterrestrial' as that which is not entirely appropriate. This Awareness indicates that the Russian government does have, even as the American government does have, influence through entities who are of origin other than the earth. This Awareness indicates however, most of these entities as having been born through earthly parents, and appearing to be human in every respect, just as the entity Nikola Tesla, the great electronics genius and others on this plane, were born through earthly parents, but their true origin was from elsewhere.

This Awareness indicates that likewise, such entities are prevalent in both governments of the United States, Russia and other countries. This Awareness indicates that in reference to entities who were born other than of earthly parents, this refers to those who travel as extraterrestrials from another place, and who by circumstance or intent, are upon the earth plane. This Awareness indicates that these are quite few. It appears that there was, at a time in the recent past, some movement... This Awareness indicates that these entities were more of an interdimensional group from another place, but having moved through interdimensional travel to reach this particular area.

This Awareness indicates that this not likened unto travel through space, but travel through dimensions, through vibrations. This Awareness indicates that there are a number of such entities on this plane. That there are those who are involved in both governments of the United States and of Russia, having their influence on the minds of entities. This Awareness indicates however, these entities generally operate as spirits rather than as physical entities in the bodies of government officials. These rather are spirit energies operating through the bodies of government officials.

This Awareness indicates that in some instances these spirits can totally take over an entity's body and operate in this manner, driving out the owner of the body while operating as an interdimensional

spirit through that particular body under the name of the entity, and having many of the characteristics and mannerisms of the entity. This Awareness indicates that this as likened unto Walk-Ins, or unto possession, in terms of the concept involved.

This Awareness indicates that direct effort and communication of those entities of a high order which may be loosely referred to as extraterrestrials, this in reality is in reference to the Immortals, or interdimensional entities, for many of those entities who are recognized as extraterrestrials, entities who have been associated with UFOs or flying saucers, --many of these entities have also the technology to appear and disappear by moving through frequency changes, whereby they travel through interdimensional space rather than through space of this dimension.

This Awareness indicates that to some degree these forces may use the space in this dimension, but they also have the capacity to move into other dimensions. This Awareness indicates that this has to do with a science associated with harmonics. That this is in reference to frequencies and the harmonics associated with the frequencies of the earth, of the universe, or certain lines and points and grid factors, and of the particular nature of individual atomic particles and their structures. This Awareness indicates that this also relates to the vibrations of light, and its frequencies as it is stepped down to levels of matter. Bruce Cathie's Harmonics Books

This Awareness indicates that entities who have a curiosity about this particular science can find the rudimentary steps and can find beginning information for study through the works of Captain Bruce Cathie. This Awareness indicates that this entity has written several books: *Harmonics 33*; *Harmonics 634*; and *Harmonics 288*. That the book, *Harmonics 288, the Pulse of the Universe*, as that which incorporates the new findings along with the findings of his earlier works. That this is an informative book which gives information on the harmonics involved in the grid work which is associated with UFO phenomena, with the more secret areas of science, the cutting edge of science in its exploration of the creative forces of the universe. This as only giving hints as to where science actually has gone in the past 50 years.

ED's Note: this is another of the series of books which we suspect the government has quietly taken off the market, for we have not been able to locate any of Bruce Cathie's books recently. Used book stores may still have copies, and some have been published in England. However, recent inquiries by us to the publishers in Europe have received no response whatsoever. Awareness has indicated more than once that secret research is being done in this area by Russia and the U.S., particularly in the area of the Bermuda Triangle, and that this is also effecting the jet streams that are bringing forth some of that weird weather the world has been experiencing in the past several years. Please don't write CAC for any of these books. If we locate a source for them we will publish that information. Avaton.

This Awareness indicates that the entity as having done much research and stumbled onto the discoveries which link the ancient pyramids to the formulas of Einstein, and to the secret of light and life. This Awareness indicates that this book, *Harmonics 288* is highly recommended by this Awareness to entities who wish to pursue the mysteries of the universe. This Awareness indicates that the *Harmonics 288* is that which is twice the number 144, and is symbolic of

the speed of light doubled. This Awareness indicates that this is fully explained in this entity's works.

This Awareness indicates that the so-called extraterrestrials which this Awareness refers to as the Interdimensionals, are not only from outer space, but more commonly are associated with the inner terrestrial areas. These entities from subterranean or Middle Earth, having been highly advanced in technology over many eons of time. This Awareness indicates that essentially the yellow race as having come from Middle Earth, and that the greater technology which is presently found on this plane, as that which comes from the study of these ancient sciences and from the sciences of those who are interdimensional, or what may be termed extraterrestrial.

How Extraterrestrials Enter Our Plane

This Awareness indicates that these entities enter into this physical plane in different ways: some have direct communication as through teleporting, others through telepathy, others through being born of earthly parents, growing up and asserting their influence as if human or earthly beings. Others may come into this earth plane or the surface plane from Middle Earth, and may have a direct communication. This has occurred in many instances whereby what may be termed "Space Beings" have communicated directly with human beings and given face-to-face information.

This Awareness indicates others will communicate through telepathic messages; some call these tensor-beam messages. This Awareness indicates that there are also certain technologies which can allow for communication to occur through machines to the interdimensional and extraterrestrial beings. This Awareness indicates that whereas the concept of space-beings running the governments is a kind of romanticized version; this Awareness indicates that to some extent, this is also a reality.

This Awareness indicates that there are emissaries who in very highly secretive contacts with certain individuals in the Soviet government, these emissaries do represent the Intergalactic Space Command, and do assist in giving information and advice as is passed on from this level. This Awareness indicates that the Forces of Ahriman also have their emissaries which likewise give forth their advice. This Awareness indicates that the question as that which opens many areas of concern, many of these being quite complex and lengthy to consider.

BIGFOOT--MISSING LINK IS DISCOVERED

QUESTION:

G.M. out in Maryland sent in a couple of questions. This was taken from the *Larsen File*, and it's a reprint of an item in the December *SPIRAL Mobius*, taken from the 'Examiner'. It says: "Oliver, a four and one-half foot tall man-ape, brought to California from South Africa, displays half-human behavior and a unique chromosome make-up that is unlike any other animal in the world, including humans. Early tests by scientists found him to have a missing chromosome. This condition would normally be fatal in other creatures, according to geneticists. He was first introduced in New York City, and was studied in Japan. He has a peculiar odor, and some have theorized he may be a type of Bigfoot." Would Awareness comment on that?

ED's Note: The *Larsen File* is a highly recommended newsletter, as is *SPIRAL Mobius*. Info on these have been previously published.

COSMIC AWARENESS:

This Awareness indicates that this appears to be correct. That this entity as what may be referred to as a kind of mutation, or missing link, or cross between the Yeti or Bigfoot, and the ape. This Awareness indicates it appears that this shall give much insight to the scientific community in the study of anthropology and in studying of UFO or UFology, and the Bigfoot phenomena. This Awareness indicates that the mutation as that which in itself is a phenomena, in that this rarely occurs with the Bigfoot type creatures, and the apes.

DO THE BIGFOOT CREATURES KIDNAP OUR WOMEN ?

QUESTION:

Speaking of Bigfoot, in a recent tabloid story a 62 year old man in Florida who was married to a nubile 22 year old vegetarian seed and nut eating woman, claims that a Bigfoot that had been hanging around their place for a long time, sort of courting his wife, has finally run off with her.--that his wife has taken off with this Bigfoot creature to set up housekeeping with it. Does Awareness see any validity to this type of story at all?

COSMIC AWARENESS:

This Awareness indicates that this appears to be fabrication.

QUESTION:

Has there been any instance of a Bigfoot carrying off a human entity, particularly a female human entity, and living with her at any time?

(Editor's comment: I asked this question at this time because here in the Pacific Northwest there are many sightings of the Bigfoot, many huge footprints being found, and for many years the loggers have told tales of a well-hung legendary Bigfoot who swoops down on lonely cabins at night and whisks away the lady of the house, never to return again. The inference being that they never came back home because they were quite satisfied living elsewhere with this creature.)

COSMIC AWARENESS:

This Awareness indicates that it appears that this has occurred on occasion. This appears to have occurred in Canada and in the Western United States on several occasions during the past century. This Awareness indicates that the experience as that which was not of a long-term nature, such as setting up housekeeping,--this more likened unto what might be termed a rape. This Awareness indicates that this could also be called a kidnap.

This Awareness indicates that the Yeti, or Bigfoot has also been on this planet for long periods of time. In the Western United States the Indians have long traditions of having known about this entity, this type of creature. They generally keep their distance and hold the creature in high respect.

This Awareness indicates that these creatures commonly associated with the extraterrestrial types who are upon this planet in their caves or bases. This Awareness indicates that it is difficult to use the term "extraterrestrial", when in reality most entities upon this planet are extraterrestrial. This Awareness indicates that most entities come onto this planet from an other source. That many of the so-called 'earth people' are in fact from other dimensions and other sources and have incarnated

upon this plane. This Awareness indicates that likewise, many of the entities who would be classed as extraterrestrials were born on this plane, generally under the surface of the earth, though their original ancestry may be from another planet, or from other dimensional places.

This Awareness indicates that the subterranean people and the Middle Earth people, and the surface people, and those under the seas,--all have their origins, both from the stars and other places, and many have their own earthly origins also. This Awareness indicates that once this concept has been better understood, then the concept of speaking of extraterrestrials or innerterrestrials, or ultraterrestrials can become more understandable.

This Awareness indicates the Yeti or Bigfoot as a creature which essentially is closely associated with those of the subterranean types; those entities who move from interdimensional spaces or from other craft of an extraterrestrial nature into their particular bases on this earth plane. This Awareness indicates that the Yeti, or Bigfoot type, does have the ability to pop in and out of this dimension, almost at will. This Awareness indicates that this as being a creature who has the frequency and vibratory rate that allows for a harmonics interchange to this frequency with greater ease than that of most humans on this plane. That the entity, being of a frequency that is inbetween human and the space, or interdimensional, or immortal being of other frequency levels.

ED's Note: In Asia the Yeti is also referred to as the "Abominable Snowman".

QUESTION:

Awareness, what causes the reportedly overpowering stench that always seems to accompany the Bigfoot entity?

COSMIC AWARENESS:

This Awareness indicates that this as a sulfur smell. This Awareness indicates that this is also referred to as the smell of fire and brimstone in the ancient writings; the brimstone being sulfur, and the fire being the heat which ignites or produces the stench from the sulfur. This Awareness indicates that this fire and brimstone is a purifier, that it is often used for purposes of fumigating. This Awareness indicates that this particular odor associated with this entity is brought about through its action of transmuting itself from one dimension to another. This Awareness indicates that to itself it has no odor, but to those who are not used to that odor of brimstone, the smell is that of a stench. This Awareness indicates that the smell, or any smell, is in actuality a frequency or vibration, just as light and sound are frequencies and vibrations within a particular range, that the eyes do not necessarily pick up, and the hearing mechanism (the ears) do not necessarily pick up, but which the nose itself has the mechanism for tuning to that frequency.*

This Awareness indicates that with certain frequencies, entities could create artificial odors. This Awareness indicates that in the case of the frequencies of sulfur, or fire and brimstone combinations, the frequencies involved are those which are also associated with the AIBs, the Men in Black, and those of the Ahriman Forces. This Awareness indicates the Bigfoot creatures are essentially slaves or servants to these Ahriman Forces. They are not permitted to cause harm to humans, except if directed to do so by the Ahriman Forces.

The Purpose of the Ahriman Forces

This Awareness indicates that the Ahriman Forces do not, in a general sense, deliberately physically bring about harm to humans, unless this harm can be done through the influence of the human soul, to bring about self-destruction, or destruction of others from personal choice. This Awareness indicates that this activity of Ahriman is in reality an effort to keep mankind locked into the karma of the earth, whereby he is unable to escape from the physical realm because of the complexities of karma and identification with physical gratifications and promises and entrapments.

This Awareness indicates that the Ahriman Forces are not permitted, under the Universal Laws, to hold an entity against the entity's will. The entity must want to, or must have karmic obligations strong enough to keep the entity on the physical plane.

The Bigfoot Entities are Slaves of Ahriman

This Awareness indicates that the Yeti or the Bigfoot types are karmically bound as slaves to the Ahriman Forces for activities in their past, and can only be redeemed and freed from their bondage to these Ahriman Forces when the rest of humanity has risen to a high enough stage of civilization or spiritual development so as to overcome the limitations placed upon them by material bondage.

*ED's Note: Phew! Who cut the vibration?

This Awareness indicates that the Forces of Ahriman being unable to keep entities on this plane except through deception, trickery, enticement and efforts to cause them to create more personal karma, and unable to use force to keep entities upon this plane. This Awareness indicates that the agreement with the Light Forces as being such that any entity who seeks to attack Ahriman or his forces, can indeed be attacked with the full wrath of the Ahriman Forces, even to the point of manifesting beings in the room with their fire and brimstone smell, and the self-destructive energies which cause the entity to self-destruct through insanity or through personal actions that cause the entity to do that which is harmful to self or others.

This Awareness indicates that the Ahriman Forces cannot assert destructive energies themselves other than their psychological influence upon the entity's mind or soul or body. They cannot, for example, inflict injury and pain upon an entity, although they can cause the entity to inflict injury and pain upon himself through their influence on his mind. This Awareness indicates that in this manner the ancient saying: "The gods first make mad those whom they would destroy." This Awareness indicates this in reference to the gods of Ahriman.

Ahriman Does Have Certain Rights on this Plane

This Awareness indicates that the approach which entities must use in dealing with Ahriman is to recognize that this force, these forces, do have certain dominion and rights on this plane. That they govern karma, and they do enforce a kind of karmic justice, and that to tamper with this karma and the justice is to invite trouble. This Awareness indicates that on the other hand, to escape from the entrapment of Ahriman and their types of self-serving justice and karma, an entity needs only to follow the Light, needs only to put the Light and the frequency of the Divine, foremost and uppermost in his or her lives. The Temptations of Ahriman: What the Light Worker Will Have to Overcome

This Awareness indicates the Forces of Ahriman cannot prevent entities from doing this and cannot stop the entities from moving in a spiritual path, away from this planet, away from the identifications with karma and with the worldly vibrations if entities choose to follow the Light. This Awareness indicates that they will perhaps be given greater temptation by the Ahriman Forces whereby they will be tempted to turn again to the pleasures of the world, placing these above in priority lists to their devotion to the Light.

This Awareness indicates that entities who have the belief that they must give up all worldly activities in order to follow the Light are sacrificing more than is required. This Awareness indicates that *It* does not ask entities to give up all of their comforts in order to follow the Light. *It* asks only that you place the Light as the highest priority in your life. This Awareness indicates that the temptations of Ahriman will be presented in a manner whereby the entity will put other priorities above the Light, will put personal comforts or personal prestige and power, and personal glory above that of the Light.

This Awareness indicates that this is the type of temptation which the Ahriman Forces will present to the entity who embarks upon the path of Light. This Awareness indicates that the last and greatest temptation is that wherein the entity who has embarked upon the path of Light is tempted by Ahriman

to view himself as a Divine Being, worthy of great praise, one who is glorious and special, one who is favored and deserving; one who, thus favored, experiences a sense of great pride and glory in his spiritual accomplishments.

This Awareness indicates that this being the last great hurdle for which the entity on the path of Light must overcome, for if the entity yields to that temptation, then indeed the entity falls again, just as Lucifer fell, though he was the bright and shiny example and star of heaven. The fall due to pride and vainglory in self.

This Awareness indicates that the entities who can move on the path of Light, maintain their sense of humility to the Light, recognize that on their own they are nothing and can do nothing, but with the Light they can merge with the Divine,--these entities are indeed difficult, if not impossible for Ahriman to trick or to keep on this plane. This Awareness indicates the purpose of allowing Ahriman so much leeway in his domain is to create that school in the universe in which the masses may learn the lessons which are necessary for any being to learn before ascending to the Godhead, before becoming an immortal being of Divine Light.

This Awareness indicates it has been said that the mills of the gods grind slowly, and this Awareness indicates that the kneading of the souls from the grist of the mills, the making of the dough, the bread of life, which will in time become the mana of heaven; this energy and the transformation involved as that which takes eons of time. This Awareness indicates that entities can speed up this time by being aware of the nature of Ahriman, how the Ahriman Forces work, and how they can, through their devotion to the Christ Light, the Christos, the sound current that leads to the highest heavens; by devotion to these energies they can lift themselves out of the levels of limbo, the bowels of hell, the confines of the earth.

Grace--and the Way to Escape Entrapment

This Awareness indicates that it is not sufficient that entities attempt to escape the earth itself, for one can escape living in the earth only to find oneself in limbo, or in some other dimensional hell. What is necessary is that entities escape the lower vibrations which bring about karmic entrapment on any level in any dimension. That to escape from the identification with those forces which would tie an entity into materialism and pleasures of material nature; wherein these are given higher priority than the spiritual life.

This Awareness indicates that so long as the entity puts the Light of Divine Grace higher than anything else in one's life, the entity is on the path and will surely become freed from these karmic ties and obligations to Ahriman. This Awareness reminds you that grace is that which overcomes karma. This Awareness indicates that grace is that which comes from the Light, from following the Light, from submitting yourself to the Light. This Awareness indicates that this as the Light of Christ, the Christ Light which Is, which Was, which always shall be, which has always been. This Awareness indicates that this Christ Light, the Christ Light, this Christos, is not to be confused with the Light of Lucifer, or those lesser lights of Ahriman, those shiny baubles of temptation, of deception, of lies, of trickery, which often are disguised as religious entrapments which Ahriman has placed under the names of deities including the name of Christos.

THE HELL- PLANES OF HADES

(HOW THE JUDGMENT OF ONE'S LIFE OCCURS)

QUESTION:

Awareness, in reference to the Bigfoot and the fire and brimstone; legend has it that the hell-planes of Hades contain a lot of this fire and brimstone. Could it be that that plane correlates to the physical inner earth of this plane, and the Bigfoot is actually existing in what the legend would refer to as the hell plane?

COSMIC AWARENESS:

This Awareness indicates that this in reference to certain frequencies that are also in harmonic frequency to the element sulfur. This Awareness indicates that the frequency or vibration of sulfur and of heat in combination, harmonize, or vibrate to the harmonics of a particular plane or dimension of vibration, and entities do have the ability to reside in that plane, or to enter and leave that frequency or dimensional plane of vibration.

This Awareness indicates that this is often what entities see when they have these visions of hell. This Awareness indicates that within the vibration frequency known as Hades there are also varying degrees of experience, whereby some are more restrictive and unpleasant than others. This Awareness indicates there are certain areas within Hades wherein there is no fire or brimstone in a sense, although there may be the vibration to some degree or the smell to some degree, but the vibrations in the higher levels of Hades may bring a kind of emotional agony, an emotional pain or turmoil, whereas those of the more intense degrees wherein entities feel themselves in need of great punishment, may not only experience the emotional agonies, but may also experience what appears to be physical agonies and pains.

The brimstone and fire, the sulfur smell and the heat, as that which is a purification action for the soul. This Awareness indicates that entities entering into these areas may feel themselves confined for an eternity, yet the confinement is only that which they themselves choose and need in order to be purified. This Awareness indicates that any entity entering into these areas who truly repents, even in the moment of punishment, repentant in the highest sense, will be able of exiting from these experiences.

This Awareness indicates that it is the entity who feels guilty and who feels such shame as to be in need of such punishment, and therefore selects the punishment in order to purge his soul, to cleanse himself, to suffer for his evil doings; this entity is the candidate

for the suffering. This Awareness indicates the judgment for one's life does not come from God, nor does it come from Ahriman. The judgment of one's life comes from one's own awareness of self. Each entity is his or her own judge, and the self-judgment is that which determines where the entity shall spend the time after death, or before death, in an effort to purge the soul of its wrongdoing.

More on the Precept of Judge Not

QUESTION:

Should the concept of "Judge Not" apply at that time?

COSMIC AWARENESS:

This Awareness indicates for those who are aware, the concept of *Judge Not* can apply at any time. Wherein an entity does not judge oneself, this Awareness indicates however this does not particularly free the entity of karma, for the entity may discern clearly, even though not judging self or condemning self, may discern clearly that an error has been committed and must be atoned for. Therefore, the entity may elect to do something which will atone for the error that has been committed.

Cosmic S&M (Sadomasochism)

This Awareness indicates that the entity may not select the fire and brimstone as a purging action, but may rather choose to return to some dimension, to some life, to give service in order to atone for the error which was committed. Others, not having this level of awareness may choose to suffer and be punished. This Awareness indicates this as likened unto Cosmic S & M, wherein the entity seeks punishment and the masochism of pain in order to feel good about himself for having suffered so much for the error which was making him feel guilty.

This Awareness indicates the sadistic actions of Ahriman are those which are fascinated by the sense of guilt which these entities experience, and the feeling of power over such entities. This Awareness indicates the S & M fad which is now somewhat expressed and legitimized on your plane, whereby entities come out and state that they are into sadomasochism relationships; this type of action is in fact a reflection from the energies of Hades.

This Awareness suggests that this not be judged, but be discerned for what it is. This Awareness indicates those entities involved in that sadomasochism relationship, each seek to have some kind of reward for the role which they play. The masochist seeking to be punished in order to neutralize feelings of guilt, and in order to feel that he or she belongs to the master. The master, or sado, as one who seeks to have possession over the life of another, and to inflict punishment on that entity for errors and to have complete dominion over that entity, this giving the master or sado-person a sense of well-being, a sense of great power.

This Awareness indicates that such polarizations as these are representative of the attitudes which are reflected from, and which serve as a basis for Hades. This Awareness indicates that wherein entities no longer need to be punished, no longer need to punish, then entities are ready for Celestria.

WHY ENTITIES

GET INTO

SADOMASOCHISM

.....THE NATURE

OF GUILT

QUESTION:

Awareness, I've read that entities into that S & M are in because they claim they get a tremendous sexual high out of it. What relation would that have to it?

COSMIC AWARENESS:

This Awareness indicates that this as a release of guilt. This Awareness indicates that this is much likened unto the Christian conversion aspect, wherein the preacher heaps emotional punishment and guilt upon the entity, heaping these accusations and statements and threats until the entity feels hopelessly in despair that if he does not yield to the demands of the preacher, then indeed he is to suffer a worse fate than death. This Awareness indicates therefore, the entity then, having all of this guilt and all of this fear heaped upon him, moves into the position of prayer, and falling upon his or her knees, begins to weep and wail and to beg for forgiveness. Once this process has begun, the preacher then begins loving this entity, and the entity suddenly feeling that the preacher now loves the entity, this man who once was condemning now is loving, and the preacher is one who represents the Christ Light; therefore, the Christ Light is loving. This Awareness indicates that the entity, now feeling himself being stripped of all guilt, of all sin, of all those errors which were to have created such horrible punishment; the entity now is becoming free.

This Awareness indicates that the whip of the sadistic master is now finished, and the entity is free and clean. The punishment has ended and the entity is accepted, and therefore, there is a great sense of well-being. This Awareness indicates that this is a feeling that comes as a great cleansing action. This Awareness indicates that the sexual high is in reality an emotional high. Any sexual accompaniment is an experience that may be associated with the emotional high, but it is the emotional high that the entities' feel, and confuse with a sexual high.

This Awareness indicates that a child who has done something which he feels is going to lead to great punishment, may mope around for days in dark despair, in worry, in fear. The child being so afraid of being caught; the guilt and the fear going hand in hand create a burden for the child. This Awareness indicates that once the child is suddenly caught, and once punishment is inflicted, the child now needs to feel no more guilt, for it

is all passed. The punishment has been done, and the child is again a free person, able to walk on into the future without dread.

This Awareness indicates that the punishment becomes a sense of cleansing--cleansing the feeling of guilt. This Awareness indicates the only real crime in this kind of system is that anyone let the guilt occur in the first place. This Awareness indicates that wherein entities feel a fear of punishment, they will automatically feel a sense of guilt. The guilt is nothing more than a fear of getting caught, or a feeling of regret.

This Awareness indicates that pure regret is that which is healthy. A sense of guilt which is strong enough to prevent a future action is that which is positive in nature. A sense of guilt that ties one to the past and is destructive to the entity is negative in nature. Punishment often relieves the sense of guilt based upon past actions. This Awareness indicates however, that there are other ways whereby such guilt can be relieved, such as constructive service, doing something that can compensate for the error of the past.

This Awareness indicates that this may be seen as a punishment, but it can also be seen as a purification action, to make you feel better about yourself so that it is not promoted as a punishment at all. This Awareness indicates that this would be a healthier approach in dealing with entities who have reason to feel a sense of guilt. This Awareness indicates that to simply incarcerate a person or to beat upon their bodies and to torture them as a means of punishing for some error, these are nonconstructive forms of criticism or punishment, whereas more constructive forms of teaching can occur when the entity having done something in error, violating someone, is given the opportunity to make up in a constructive way for the error which was created.

Prisons of the Future--Compensation to the Victims

This Awareness indicates for example, one who has injured another may be given an opportunity to work for that entity and to do service for that entity, or to earn for that entity in order to make up for the error which was caused. Not all errors can be made up for, but there can be some kind of equity involved. This Awareness indicates that the entity who is simply incarcerated, or whose eye is plucked out because he had plucked out the eye of another, has not in actuality given anything in compensation to the first entity to make the first entity's life any better, other than a sense of mutual revenge.

This Awareness indicates that vengeance toward one who has committed a crime is not a wholesome value, but whereby the one who has committed a crime is forced or given the opportunity to give service to compensate for the crime committed, then that can become a more meaningful form of equity and balance. This Awareness suggests that prisons of the future, rather than simply incarcerating an entity, may consist of occupations within the prison whereby the entity may earn money, or may earn some form of compensation which will be delivered to the victims of his crime.

This Awareness indicates that it is in part because of this perverted form of punishment, that entities who, committed to prison for a crime, spending their time, then being released, while they may say: "I have served my punishment. I have served my time. I no longer feel guilty, or no longer feel I have a debt to society for the crime I committed",...such entities do not in actuality feel themselves to be wholesome citizens of the society, for simply sitting in a prison,

or serving time for a crime does not balance in reality the energies which the victim suffered.

This Awareness indicates the victim and the energies to balance the victim's injury should in fact be paid by the energies of the one who so violated. This Awareness indicates that when the violator repays for the injury to the violated, then the violator has neutralized the karma, has balanced the karma involved; but simply to sit in a jail for a prescribed duration, while the victim must live the injury and receive no compensation whatsoever, this is not a form of proper justice.

COMPENSATION FOR THE VICTIMS OF CRIME CAN HELP TO BALANCE OUT THE ENERGIES

(THE MYTH OF OUR COURTS--TO CONTROL, NOT PROTECT)

QUESTION:

Maybe the money the entity makes in prison should be earmarked to his victim?

COSMIC AWARENESS:

This Awareness indicates that this would be a proper beginning. This Awareness indicates that this could be implemented if enough entities of society began to ask for this type of prison reform and criminal reform bills. This Awareness indicates in the case wherein a victim cannot be compensated, such as where his life has been taken, and wherein the remaining victims such as the family cannot be compensated, for they perhaps do not exist, then the one who violated can be sentenced to give service to other needy persons to a degree that would balance the type or nature of his crime, to that entity who is no longer present upon this plane.

This Awareness indicates also that such compensation should always be in excess of the injury done. This Awareness suggests that this should be quite in excess. That wherein, for example, an entity has had something stolen from him, such as the ability to work because of an injury created, the one who violates that entity should indeed be sentenced to repay, not only the exact amount which would cover the injury, but to pay extra for the amounts of the suffering and of the freedom lost, and of the future potential that is no longer allowed for the victim.

This Awareness indicates that until entities find a way whereby the rules of law, the principles of justice can be more accurately administered, the Ahriman Forces will, even under their own rules, continue to dominate and make victims upon this plane. This Awareness indicates that when entities begin to realize that the system of justice presented by the Ahriman Forces upon this plane is such that it is administered not equally, but on a case by case basis, whereby rules are bent, rules are broken in order to favor one over another, whereby there is no real consistency, wherein the laws are made but are not followed by the courts or the judges, whereby precedents are set, but have no meaning in the next case; wherein entities begin to recognize that the court systems are breaking apart, justice is no longer sacred, and is only a kind of facade, a myth in society; wherein this is more widespread and entities better understand that the courts are not there to protect, but are there to control, then entities may ask, and may demand and may get some kind of new legal reforms in which the courts also must follow the rules of law.

SELF-JUDGMENT AT THE MOMENT OF DEATH

(EVERYONE'S POINT OF VIEW WILL CHANGE)

QUESTION:

In relation to discernment at the time of passing over; those that have gone through life self-centeredly, with selfish motives and value systems, and now at death, view their life in a different light: why would they change their point of view at this time?

COSMIC AWARENESS:

This Awareness indicates that everyone changes their point of view at the moment of death. This Awareness indicates that everyone changes their point of view at the moment of waking up in the morning after a long night's sleep. This Awareness indicates that entities can be extremely self-centered, and can wake up and see that they have been extremely self-centered. This Awareness indicates this does not necessarily mean that they will no longer be extremely self-centered, but it does mean that they can view themselves from a different perspective and make a new discernment as to what they are going to do about this condition.

QUESTION:

So, someone who has led a very selfish life, without any second thoughts about it in life, at the moment of death might sentence himself or herself to some sort of compensation or hellish experience?

COSMIC AWARENESS:

This in the affirmative. The entity may have great hostility toward self, to the point of feeling hatred for self, and thus condemn through that hatred, condemn the self to some form of punishment, seeking to destroy the self; yet the self does not become destroyed for it is immortal. Thus, after some time of suffering and seeking to destroy the self, the self eventually decides that it has had enough of this and then it moves elsewhere, having been purged of those feelings.

IS A UFO BASE UNDER THE ANTARCTIC?

QUESTION:

Awareness, in reference to the UFOs, as long as we're discussing them in this reading, in a recent SPIRAL Mobius, Audrey Patrick reprinted an article from the Globe tabloid, dated January 18th, 1983, entitled: *UFO Base Found Under Antarctic*. The caption says it's all revealed in NASA photos, say scientists; and they show a satellite photo showing the warm sea, the Weddell Sea in the Antarctica, and I'd like to read a little of this and ask Awareness to comment.

"NASA scientists have discovered a massive UFO base housing a city of alien creatures beneath a mysterious warm-water lake in the ice-packed South Pole, declares a leading UFO expert.

"Surrounded by hundreds of miles of Antarctic ice and larger than the entire state of California, the strange lake is a portal through which these aliens launch their starships, the expert insists.

"This is it," says Lane Childress, a retired physicist and UFOlogist from the University of California at Los Angeles. "NASA has found the aliens' major base on this planet. It's been undetected for centuries. If NASA hadn't been able to photograph it by satellite, it may have remained undetected for centuries more."

Mathew Gargan, one of the NASA scientists who discovered the 186,000 square-mile lake, told Globe: "The lake has no right being where it is--and there is no explanation as to how it got there."

"The scientists spotted the lake while studying photographs of earth taken by the Nimbus 5 satellite. And, says Gargan: "We were absolutely astonished. There, smack in the middle of the Weddell Sea, surrounded by ice in the coldest part of the Antarctic winter, was a massive body of water--completely unfrozen.

"We call it polynya, a Russian word meaning 'unfrozen water surrounded by ice.' Of course, polynyas are often seen in the Arctic Ocean, but they're insignificant compared to this one."

And later on in the article, Childress says, "the answer is simple. UFO-nauts have built a giant undersea mother-base--and the heat rising from their incredible city melts the ice in the years they need to use it. It's just like what happens in our industrial cities", he explains. "Heat rising from factories, heating devices and our bodies raises the temperature above that of surrounding areas. That's what's happening in the Weddell Sea."

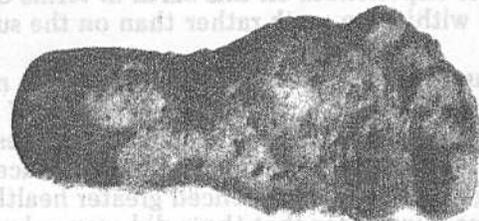

Does Awareness see that story and information as being valid?

COSMIC AWARENESS:

This Awareness indicates that this is seen as an opening into inner earth, wherein there is greater heat, and that this opening is that which allows for these forces to travel through, and to enter and exit from this area. This Awareness indicates that there is a book by Gray Barker, wherein he speaks of being visited by MIBs, Men in Black, who take him to a base in the Antarctica, and who show him these crafts. This Awareness indicates that these entities did explain much in regard to their purposes and sources to this entity. These entities also appearing to him from an interdimensional teleportation, whereby the smell of brimstone or sulfur was in his room when they appeared or when they were present.

This Awareness indicates that this book does relate to this particular article in that this is the same area in which the entity Gray Barker was teleported to when he went with these MIBs. This Awareness indicates that it appears the book is called *The Three Men* and deals with the Men in Black.*

*Ed's Note: CAC does not stock this book, but you can probably locate it along with many other books in this field, including John Keel's 'Men in Black' and other stuff on the hollow earth, cattle mutilations etc. etc. Write to: Gray Barker, Box D, Jane Lew, West Virginia, 26378.

This plaster cast of a Bigfoot print found in Washington State measures 17-1/2 inches in length, 7 inches in width.

SECRET TUNNELS IN SOUTH AMERICA THAT LEAD TO MIDDLE EARTH

..VON DANIKEN TO FILM ANCIENT ALIENS

QUESTION:

A final question along this line from G.M. This was reprinted in the *Crystal Ball* also. I think it was taken from one of the SPIRAL publications.

"In 1967 Argentine archeologist Juan Moriz discovered a series of tunnels in Ecuador, and 5 years later agreed to show them to Eric Von Daniken, author of several books, including *Chariots of the Gods*. The vast tunnel complex beneath western Brazil, Peru, and Ecuador harbors underground cities containing remarkable artifacts. At the Akakor site in southwestern Brazil, Tatumca, a tribal chief whose ancestors have guarded one entrance for thousands of years, stated that they consider the contents sacred. Tatumca reported having seen 5 humanoids (which he calls the 'living dead') perfectly preserved, lying in coffins made of glass-like materials. These aliens are of both sexes and appear to be human although each has 6 fingers and 6 toes.

It is not know if the bodies' lifelike appearance is due to embalming or if they lie in a state of suspended animation. The aliens lie in a room near a rocket-like flying machine made of an unknown metal, and a tribal legend tells of gods who arrived in the area in gleaming metallic ships. In one room 'as huge as a hanger for a jumbo jet,' Von Daniken said he viewed metallic dinosaurs and a library of metallic plaques and pages with unusal characters written on them. Von Daniken plans to return to Akakor by helicopter to obtain photographs."

Would Awareness please comment on that story?

COSMIC AWARENESS:

This Awareness indicates that this story as that which is accurate. This Awareness indicates that there are many other tunnels and underground caverns which can also yield a great wealth of information in regard to the history of this planet. This Awareness indicates that this planet as having had human or anthropoid influence upon it for many millions of years. That the influence of humans upon this planet has been approximately 13 million years.

This Awareness indicates that approximately one million years ago there were a number of space-type colonies on this planet, wherein the entities involved had space flight and made use of Middle Earth, and outer surface and the caverns within, according to their inclination, and with great ease. This Awareness indicates that the present race on the surface of the earth, which considers itself exclusive owners of this planet, is in actuality a rather recent phenomena, for the earlier experiences on this earth in terms of civilizations within the earth rather than on the surface.

This Awareness indicates that the surface was not looked upon as a healthy place to live because of the intense radiation from the sun. This Awareness indicates that those who lived beneath the surface did live longer lives and experienced greater health. This Awareness indicates that there did come about however, great turbulence and warfares when certain tribes began to migrate from the earth to other areas,

leaving the earth in the hands of inferiors, persons who were incapable of properly running the technology and the system that had been previously run by those of higher intelligence. This leading to a gradual deterioration of the civilizations on this earth until there were great wars and great disturbances, even unto geophysical disturbances such as the sinking of Lemuria and of Atlantis. This Awareness indicates that this base in Brazil, the tunnels leading into a network which does cover thousands of miles underground, whereby much of the ancient civilization can be discovered. This Awareness indicates however, that the government and the powers which control this planet, which operate above and behind the governments, being aware of these tunnels and these places, and not wanting the masses to become aware of such, are not likely to allow Von Daniken or any others to proceed very far in their efforts to expose these areas.

This Awareness indicates that the entity, if pursuing this course, should be most cautious and release information secretly, which may later be publicized to the masses. This Awareness indicates for example, photographs and exact coordinates which could be released simultaneously to the masses, but whereby no previous mention of such action should be given until the moment of release. This Awareness indicates that otherwise, the entity will simply not be allowed to proceed in releasing this information to the public.

This Awareness indicates that it appears there already has been effort to prevent such release.

The earth as it would appear if viewed from space showing the North polar opening to the planet's interior which is hollow and contains a central sun instead of an ocean of liquid lava. Envisioned in 1913 by Marshall B. Gardner in his book "A Journey To The Earth's Interior", published by Amherst Press, Amherst, Wisconsin. (Also available from C.A.C. Price \$7.50. Not listed in regular Book Catalog). Gardner's theory was later confirmed by NASA satellite photos which show the entrance to the Middle Earth at the North Pole. (CAC published this classified photo in 'Revelations of Awareness' No. 79-25 (The Secret of the UFO's); \$4.00 from C.A.C.

(Closing Message)

This Awareness indicates that deception, cover-ups and efforts by those who control the power, who control the masses, can be effective for a time. This Awareness indicates however that truth, like water, seeks the smallest crack, and when moving through that crack, can wash away and create a greater crack, whereby more water, more truth comes out. This Awareness indicates entities who think that they can suppress truth indefinitely are in error, for truth, like magic, like life itself will prevail, and those who seek to control the truth will fall asunder, and will always fail.

MORE ON THE HISTORY OF BIGFOOT

...ILLUMINATI SCENARIO A REPEAT OF MALDEK

ED's Note:

Since this issue appears to be devoted mainly to what many entities would refer to as 'the incredible', it seems appropriate to reprint the following reading on Bigfoot which was given back in 1975. The question based on a widely-publicized account of a Bigfoot abducting a woman in California. Although some of the information is somewhat redundant, there is some interesting information relating to Maldek and the karma created by those who lived there at the time it was destroyed by a nuclear war. (This reading was taken from a 'Revelations of Awareness' which has been long out of print).

We here at C.A.C. feel that entities need to absorb this information on the hollow earth, Bigfoot, UFOs etc., and get it into relation with what is occurring now on the surface of the earth; for Awareness, although not revealing too much information for fear of freaking out much of the membership, has indicated that the Forces of Ahriman which are causing the crime and violence etc., and who are promoting the Mark of the Beast laser marking system and the plot to bring forth the antichrist and that One World government consisting of the slaves and the wealthy few, -all of this chicanery originates beneath the surface of our planet earth and not from "out there" somewhere in space. (Avaton)

QUESTION:

In Eureka, California this week a 23 year old woman was allegedly abducted in the Salmon mountains by the legendary 'Bigfoot'. Since then she has been found but won't confirm or deny the story. Will Awareness please tell us more about Bigfoot, where he comes from, why he is so elusive, what he is, etc, and whether they actually can or do carry off human entities as reported?

COSMIC AWARENESS:

This Awareness indicates the last question shall be answered first. This Awareness suggests this as negative. That these entities do not care to move too closely to humans on the outer surface of the earth. This Awareness suggests these entities having great karma to work off, yet fully aware of their karma and very lonely entities. This Awareness indicates these entities having a type of consciousness which allows them to know precisely where any other human is within a two mile area of their being and can move away from these humans very easily through that psychic understanding.

This Awareness indicates these entities are from that planet which existed between Jupiter and Mars known as Maldek. These entities as having extremely high beings in that civilization, having great responsibility and misusing that responsibility, and in that misuse did lead to the devastation of that planet. This Awareness indicates this occurring approximately three million years ago.

This Awareness indicates that the movement of these entities through states of reincarnation, as these souls moved into the earth's sphere, these entities were outcast by the rest of consciousness upon this plane and those inner planes within the earth's sphere, and these entities do live alone with some communication relating unto beings who have greater understanding and who can work with these entities.

This Awareness indicates that 85% of the souls upon this plane have lived on Maldek and this as the Luciferian consciousness which is being worked off as part of the Earth's karma. This Awareness indicates this as being dissolved. This entire Illuminati, money-changing trip as but a replay of the memory of the action which occurred on Maldek wherein beings were categorized, numbered and enslaved. This Awareness indicates that the movement which began 60,000 years ago in Atlantis was but a recollection of certain states which began on Maldek.

This Awareness suggests that in reference to Bigfoot entities, these entities understand the terror which they instilled in the human creature which walks on the surface of the earth and therefore, by instinct, avoid these creatures. This Awareness indicates that it is this fear which fascinates and terrorizes the human mind when thinking of the Bigfoot. This Awareness suggests that those entities on the inner plane, deep within the earth's surface are capable of relating to Bigfoot without such fear and without the type of curiosity and hostility as would be felt by the entities on the surface of this plane.

This Awareness suggests that it shall eventually become necessary for entities from this plane to release their hostility and their subconscious fears of these entities, and in this action the karma that has been held by these entities shall begin to dissolve, and the lamb shall lie down with the beast and the beast shall find a place of rest in the arms of this Awareness.

QUESTION:

Then that means that these entities known as the Bigfoot eventually can evolve back into Essence and this Awareness; is that correct?

COSMIC AWARENESS:

This as in the affirmative.

This scene taken from a priceless 16mm movie film (1967) shows a female Bigfoot on the banks of Bluff Creek in California.

ALL ABOUT THE VRILL STICKS (HOW THE PYRAMIDS WERE BUILT)

QUESTION:

In a book entitled *Origin and Problems of Life*, written by A.E. Baines, which is about vidic energies, Baines noted that Egyptian statues showed priests and pharaohs holding a rod in each hand. Museums had no information on the nature and purpose of the rods. Baines theorized that the rods performed an important function, probably concerned with virility or energy. He was very concerned with the aging process in man, and especially with the gradual failure of the generation of nerve forces. He experimented for years to find substances which, when held, would produce beneficial effects. He worked with carbon rods, and magnetism and so forth. Would Awareness explain what these rods were that the pharaohs and the priests held?

COSMIC AWARENESS:

This Awareness indicates that these were associated with that which this Awareness has previously mentioned as Vrill sticks, this spelling as V-R-I-L-L. This Awareness indicates that this as presently used by entities within the subterranean areas of the earth. This Awareness indicates that the Vrill stick used by these Egyptians as that which also was used by Moses. This Awareness indicates that this essentially is the magician's wand. This Awareness indicates that is associated with magnetism: the North pole being at the top, and the South pole at the bottom. This Awareness indicates that essentially, it is also associated with that which may be called the psionics or radionics devices, whereby thought is amplified through this object. This Awareness indicates that it therefore amplified the thought of the magician, priest or pharaoh, so that when pointed in a particular direction, the energies would carry the thought of the operator with greater force. This Awareness indicates the magnetism as that which assisted in operating the forces within the stick.

This Awareness indicates that these made from gems within the hollowed stick in some cases, and that metal was also incorporated in these.

This Awareness indicates that there were a variety of these Vrill sticks, having different purposes and different technologies involved in their making. This Awareness indicates that some of these emitted rays, others emitted lights, other emitted vibrations; some amplified thoughts, and the more advanced sticks did all of these. This Awareness indicates that some of these sticks could be used for sending ultra-sound, others could be used for sending vibrations which assisted in levitating objects. This Awareness indicates that others could be used for purposes of healing. This Awareness indicates that some of these could be used for telepathy and communication. This Awareness indicates that essentially, many of these sticks were miniature crystal devices, as used in Atlantis, whereby the crystals amplified thought and energy and transmitted such. This Awareness indicates that the more advanced sticks often could accomplish several purposes.

QUESTION:

It was these sticks that levitated those blocks that made the pyramids, was it not?

COSMIC AWARENESS:

This Awareness indicates that the mind and vibration and chants as that which levitated the stones; the sticks served as tools for amplifying these energies.

QUESTION:

Have all these various Vrill sticks been destroyed during the past history of the planet, or are there still some around to be found?

COSMIC AWARENESS:

This Awareness indicates that there are still some to be located; there are those under the great pyramid, and between the pyramid and sphinx; there are also those in subterranean areas,--many of these still in use. This Awareness indicates that your paper known as the *Hollow Hassle** contains a reference to these Vrill sticks which may be of interest to you.

FRONTIERS OF SCIENCE ARE OFTEN ABSURD (Closing Message)

This Awareness indicates that the frontiers of science are often seen as the edge of absurdity. There were times wherein scientists argued that the train could not possibly move more than 15 miles per hour on a curve without tipping over; that airplanes could never fly; that iron could never float. This Awareness indicates that the areas which are often considered as absurdities in one century, or in one generation, are often considered the science of the next.

ED's Note: Awareness has previously indicated that Hitler was given a Vrill stick from those entities inside the earth and he used this in his attempt to conquer the world.

THE DARK AND LIGHT ILLUMINATI

(THE COMING OF THE NEW BEING)

ED's Note:

For the benefit of our many new members who may not have read some of the very early information released by Awareness on the Illuminati, the following reading given in 1976 may be helpful in better understanding what is happening on this planet today. (The 'Revelation of Awareness' newsletter, from which this reading was extracted, has been out of print for a number of years). Avaton.

QUESTION:

We are now preparing the Illuminati information in booklet form, including all Awareness has said about this to date. Is there any more information on the Illuminati Awareness would care to give at this time which can be included in this booklet?

COSMIC AWARENESS:

This Awareness wishes this information be kept in balance. That entities in reading this information may tend to be polarized into states of hostility; may tend to be hostile toward those whom they think of as evil. This Awareness wishes entities to understand that those forces which played the role of the Luciferians, when looked at from another dimension, are those forces which were necessary to allow mankind that opportunity to develop his own individuality. This Awareness indicates that through error entities develop their individuality; through the action of realization of that error, entities move back toward divinity. In this manner the individual becomes divine.

This Awareness indicates that this Awareness does not judge entities. It does not resent or resist any action of any entities, but does desire to allow entities to understand that these roles no longer need be played, for there is a New Being coming into existence at this time and this New Being is such that it needs not be concerned with concepts of good or evil, with concepts of right or wrong, with concepts of superiority or inferiority, with concepts of divinity or non-divinity, with concepts of spiritual and material concerns. This New Being needs only be concerned with actions of service, actions of attention, actions of sensitivity and actions that express love for one another.

This Awareness indicates this New Being has no concern and no needs to sacrifice itself, has no needs to worship this Awareness or any other Deity; has no need to bow to any individual, no need to bow to any concept, but does need to give attention to service, to express freedom, to allow others to express freedom and to avoid any forms of violation. This Awareness indicates that this New Being can only exist when all that which would be of a restrictive nature is given attention and is looked at clearly. Wherein all of that which would manipulate and deceive consciousness is given that spotlight wherein consciousness looks at those who would manipulate; yet without condemning the manipulators, simply look at the show and the trickery and say, "Enough! I care not to be entertained or confused by this trickery any longer! There are other

actions and other experiences that we may all participate in and may all co-create together!"

This Awareness indicates that the information on the Illuminati may be followed by further information on how to function in the New Age without being controlled by the banking system, the money-changers; how to function economically in a way that allows entities greater freedom. This Awareness indicates this shall be given in several readings.*

This Awareness suggests entities understand the nature of the Force of Lucifer as being the other side of the coin of the Force of the Christ, but that these two are essential of the Divine Being. This Awareness suggests you be very careful to depolarize any concepts relating to any forms of hostility or rejection which might have been incurred while reading the material given in these readings relating to the Illuminati. This Awareness indicates that there are no entities totally evil and no entities totally good. There are entities who do switch back and forth from moment to moment and some who switch back and forth slowly from lifetime to lifetime; that all entities in general have a balanced karma where they are just as evil as they are good, and those who are good now are good *only* because they have been evil previously; and those who are evil now shall either pay for this later or have earned grace from a previous time.

This Awareness indicates that the polarity is that which is of the concern, the *extremes* of misdeeds rather than the fact of misdeeds. This Awareness indicates that any entity who seeks to be *especially* good shall find himself becoming a problem to others. Any entity who becomes locked up in concerns for evil and enjoys doing evil deeds, enjoys this only because he has felt rejection from those deeds which were intended as good; this Awareness indicates that the psychological effect of thinking in terms of good and evil only adds to the problem. The effect of looking at 'what is' without judgment begins to move the polarity toward the center, likened unto entities who stand on the teeter-totter moving carefully toward one-another, until they meet at the center wherein there are no great ups and no great downs, but simply a balancing, and the higher is not much higher than the low and this may exchange easily.

This Awareness indicates that in regards to the Illuminati and the actions, you may recall there are the White Illuminati and the Black Illuminati. This also as being within yourself. This Awareness indicates that the Black Illuminati is that force which would promote self at the expense of others, which would force ones growth by using manipulation and power. The White Illuminati is that force which would serve oneself by serving others and serve others while serving oneself, and would exclude no one in terms of any form of manipulation or control over any other entity. This Awareness indicates the White Illuminati is concerned with assisting all entities; the Dark Illuminati as concerned with assisting oneself in competition with others.

This Awareness indicates that as this is understood, the very nature of the problem becomes clear and the energy on this begins to dissipate and the New Being begins to emerge more clearly from the center of this action. This New Being having experienced the totality of the trip known as "good and evil"; having emerged from having eaten of that fruit, this New

Being then begins to express new life upon this plane. This Awareness indicates this New Being then begins to function wherein all beings are served by one another and no entity is excluded from the feast of life.

FOR SPIRITUAL DEVELOPMENT: DEVELOP YOUR SKILLS & TALENTS

(HOW TO GET OUT OF RUTS AND FIND STIMULATION)

Opening Message,

COSMIC AWARENESS: Oct. 23, 1981

This Awareness suggests that entities consider the action of continuous learning, becoming lifetime students, continuously studying various information, developing talents, skills, and finding ways of putting into action that which is learned. This Awareness indicates that too often, entities learn something, then stop and rest on that which they have learned. This Awareness indicates that there are many entities in this organization who have the potential to learn skills which could be of great service to themselves and others; yet these entities are resting and sitting back on that which they have already learned, with a self-complacent attitude.

This Awareness suggests that you need not enter schools, (although this may be the appropriate action). You may also study through courses of the mail or home-study courses. You may also study from books, from night schools, or from some apprenticeship.

This Awareness indicates that you may study on your own. This Awareness suggests that you need not begin a study at present time. This Awareness suggests however, that you keep open the option of continuing to learn skills and develop talents and expand your mind, your abilities, and your capacity to serve and express yourself.

This Awareness indicates that there are many ways whereby entities can increase their efficiency, their effectiveness in expressing themselves, and in giving service to others, or in developing skills and talents. This Awareness suggests that this be recognized as an important part of spiritual development; for as you develop your talents, these may be likened unto gifts, which are used or which atrophy. This Awareness indicates that not only is this in reference to mental and artistic talents and skills, but also in terms of the physical body.

This Awareness suggests that entities may wish to become involved in physical activities which they never imagined themselves doing, such as tennis or handball, racquetball, or bicycle riding, or some other form of physical entertainment and development. This Awareness indicates that actions whereby entities enter into different routines from their ordinary path are those which help to stimulate enthusiasm for life, actions wherein entities become aware of new social situations, meeting new friends, new places to go; these stimulate new ideas, new enthusiasm, new expression in one's life. Actions of meeting new friends bring about new opportunities.

This Awareness asks, how many of you have ever considered joining a classical music club, or going to an opera or to a symphony? How many of you have ever considered going to a rock band or festival? How many of you have ever considered entering into a club whereby entities gather for social purposes? How many

of you have ever considered going to a church which you are not familiar with, such as a Buddhist church, or some other which is unfamiliar? This Awareness suggests that in considering alternative actions to break out of certain ruts, or certain habits or certain routines, entities can find new stimulation and interest and excitement in life, and these activities often recharge, revitalize the mind, emotions, or feelings.

This Awareness asks you, how many of you live within 50 miles of an interesting place which you have never visited? This Awareness asks you, how many of you live within several blocks of a place which you could enjoy, but do not take the time to do so? This Awareness asks you, how many of you have had a remote interest in studying a certain type of information,--cooking or music or economics, or finger-painting, glass-blowing, or some of any number of artistic activities,--but because it does not fit into your lifestyle at present, or because it does not appear to be part of your self-image, you do not pursue any further investigation or interest in this direction?

This Awareness indicates that there are entities who are involved in certain activities, but who have the propensity and capacity to write poetry, or to become mechanically adept, or to enjoy such activities as film-making, or studying of history,--some particular facet of history, of writing reports, or of being involved in part-time occupations, such as sales; or stamp collecting, or some other activity which an entity may never think of doing in a serious way? This Awareness asks, how many of you have considered the possibility of playing music, learning to play a piano, a guitar, or of learning to paint, to draw. This Awareness asks you, how many of you have considered learning some form of technical skill: mathematics, computers, or some other activity which could be useful as well as entertaining?

This Awareness indicates *It* is not suggesting these actions as necessary, but *is* suggesting that wherein an entity is bored with life, has no sense of enjoyment with their lives, begins to feel dull and uninteresting; these entities simply need to look around and become involved in some activity that is slightly different from anything they have done before. This Awareness asks you, how many of you have considered taking a Karate class, a horseback-riding class, playing volleyball at your local gymnasium, joining a spa or the YMCA, or some such organization, becoming active in roller-skating or jogging or hiking?

This Awareness indicates that these activities may not be for you; but there are some activities, some actions, some information which can be of great interest to you, which can be developed, whereby you may become more pleased with your life. This Awareness indicates you may find it to your advantage to return to school, to become a doctor, a lawyer, or some other profession, not quite so demanding. This Awareness indicates that whatever is appropriate and appealing to you may be of much benefit in giving you new interest in life, allowing you to meet new people, or giving you something to do with your time, whereby you can feel pleased with your accomplishments. This Awareness indicates that this is important, particularly for entities who feel bored or tired, or who feel their energy lacking; for boredom in life is often one of the facets which most drains away vitality.

This Awareness suggests that if you are an inactive person, that you consider taking on some activity that keeps you physically moving. If you are an entity who has been physically active, this Awareness suggests you take on

some kind of activity that stimulates the mind. If you are an entity who has been greatly involved in technical and stressful situations, this Awareness suggests you take on an activity which gives you a creative outlet for your energies which you enjoy,--that which is like play. This Awareness indicates that you find ways whereby you can break out of the confinements of your own definition of self, and expand yourself to become more than what you are, or what you have been.

This Awareness indicates that if you are pleased with what you are doing and do not wish to devote time for other activities and are happy with yourself as you are, then it is not necessary for you to alter or change your path.

WHY THE AWARENESS MATERIAL SHOULD BE READ OUT LOUD

QUESTION: (8/10/'79)

W.C. sent in a suggestion which I'd like to ask Awareness to comment on:

"Cosmic Awareness Communications material is heavy material. C.A.C. material is valuable but it needs to be digested, it needs time to penetrate. C.A.C. material cannot be skimmed lightly. C.A.C. material cannot be speed-read. C.A.C. material has to be fletcherized, chewed and chewed until it becomes liquid so that it can be properly absorbed. One has to chew the cud in order to properly assimilate C.A.C. material; therefore, why not send out mailings once a month? This would cut in half the workload of C.A.C. staff and double or triple the benefits received by C.A.C. members."

COSMIC AWARENESS:

This Awareness indicates that this can be done. This Awareness indicates also that many entities prefer receiving all the material which they can receive. This Awareness indicates that it essentially is up to the individual how much time and how much effort the individual wishes to put into reading the material. This Awareness indicates that many entities skim over the material lightly with the idea that they will reread this at a later time. This Awareness indicates that entities will gain the most from this material if they read this aloud, word by word. This Awareness indicates that the act of speaking as you read triggers off certain areas in the consciousness which help to open your channel.

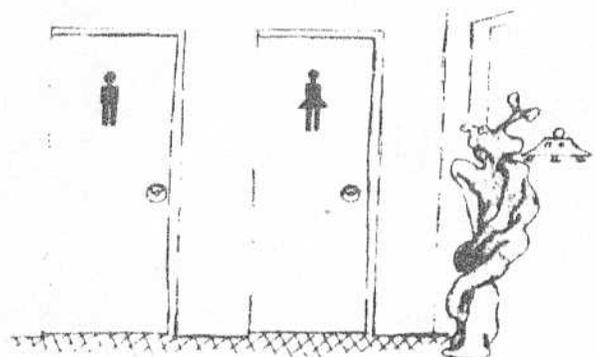

This Awareness indicates that it matters little whether entities receive this and chew deeply, or whether they have less to chew, or more to chew, --each entity will chew as much as he or she wishes at a single time. This Awareness indicates if you sent out the information once per month, the majority of entities would not change their reading habits: those who skim through lightly would continue to skim through lightly, those who read carefully will continue reading carefully even though they receive more information, more often than once per month. This Awareness indicates this as being according to the individual's needs for answers and their intensity in learning or probing for meanings. This Awareness indicates however, that the volume of information sent out is not necessary if it becomes a burden beyond your convenience and capacity. This Awareness indicates that during difficult times, shorter more concise and informative mailings can be dist-

ributed. This Awareness suggests that for example, if during the coming economic recession paper becomes hard to come by, or if it becomes difficult in terms of financial expense to print as much as has been released in the past, this Awareness suggests that you cut back and save expenses or paper, according to that which is necessary for releasing important messages to your membership.

This Awareness indicates that also you may choose if you desire to present two different memberships, those who wish the 'Revelations' and those who wish the Correspondence Lessons. This Awareness indicates that you could also have memberships wherein one group received messages of importance, the other group received those messages plus further information as additional material. This Awareness indicates there are various approaches if this is desirable to your organization; that the important thing to this Awareness is that certain urgency messages can be released when it is necessary, that essentially there are many entities who are open and desirous of information which will assist in lessening sorrow, suffering, tragedy on this plane, and in their lives; and the purpose of this channel is to allow this Awareness to flow through to those who request and draw this information.

ED's Note: CAC has considered at various times the options suggested by Awareness, but the staff continues to agree that we should continue publishing the information every two weeks (including the Correspondence Lessons --until these have all been channeled and published), as long as the energy holds up and there is a need out there in the membership for the information to continue. We don't apologize to those temporary members who get mad at us for publishing heavy material. As President Truman once said, "If you can't stand the heat, get out of the kitchen." In retrospect however, over 80% of the material CAC has published over the years, would not be considered "heavy", but more in the area of spiritual philosophy and how-to-do it information.

The main purpose, however, for publishing the above reading is to clarify the suggestions that we print at the beginning of most readings, that you read the following material aloud. The fact that this helps open YOUR channel should be of interest to many of you. (Avaton)

REVELATIONS OF AWARENESS
