AN APPEAL TO THE MEMBERSHIP FROM COSMIC AWARENESS

A PETITION THAT COULD BE THE LAST CHANCE TO REDEEM OUR COUNTRY:

NO FIRST USE ! OF NUCLEAR WEAPONS

Paul Shockley, Interpreter

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1968 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

EDITOR'S Note:

Ever since Cosmic Awareness began to address entities upon this plane, it has stated one major theme, over and over, through each of its various Interpreters:

"The main reason why this Awareness has opened up that hole in space to address entities on this plane, is to help reduce the sorrow, the suffering and the tragedy on this plane."

This grave concern for entities on this plane at this time is no more evident than when Awareness discusses the growing threat of nuclear war and the unimaginable physical pain, the unspeakable sorrow and the magnitude of the tragedies such an event will play in the lives of each of us—man, woman and child—if such madness is allowed to occur. The second major theme of Awareness has always been: "Entities on this plane are asleep as to what is coming down on them. They MUST be awakened, and fast!"

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

...OUR WORLD IN CHAOS:

A FORECAST FOR THE COMING MONTHS: "POTENTIAL AND TERRIBLE CONFRONTATION"

(Opening Message, C.A.C. General Reading, October 5, 1983)

COSMIC AWARENESS:

This Awareness wishes to address the international scene at this time, so as to dispense with the energies of this situation before moving into other areas. This Awareness indicates that the energies for the fall of this year are seen as reaching that point wherein they begin to intensify. This Awareness indicates that this has begun with the shooting down of the Korean airliner double O7. This Awareness indicates that this action of this airliner in drifting over the Soviet territory whereby it was seen as a spy plane in connection with surveillance of their Tesla-type base; that the base as having much to do with the weather modification programs and with tracking of satellites.

This Awareness indicates that this working in conjunction with the monitoring of the shuttle craft and the use of this apparatus to monitor and to affect the weather, as that which was of great interest to the United States in its future plans for the Pacific. This Awareness indicates that the tension from that situation as having subsided somewhat; that new tensions are due to arise, whereby the concerns for placement of nuclear armaments into Europe, which have now been publically energized sufficiently by the incident previously mentioned, whereby the involved governments are now calling for support for such a plan; (this being aimed at the month of December), will have intense effect and repercussions around the world, calling for cooperation from many nations, while also creating alienation from many people and from those opposing nations.

This Awareness indicates that there will also be much support from many people. This action as creating a polarizing effect on the masses, whereby those opposed and those in favor will become more intensified in their expression. This Awareness indicates that entities may expect to see demonstrations, particularly in Europe, but also in the United States and Canada, but the greater demonstrations being those held in Europe and in Russia.

This Awareness indicates that the movement toward placement of these offensive weapons in Europe as that which will be accompanied by more rhetoric calling for peace and nuclear disarmament, or nuclear "build-down", whereby the various governments will each give the appearance that they are for peace and for a restriction of nuclear weapons, while at the same time building greater and greater in terms of actions toward the potentiality for war.

This Awareness indicates that this rhetoric which entities may hear from both sides as that which cannot be trusted, yet it also does have some potential for having an effect that may help lead to a disarmament or to policies of gradual reconciliation. This Awareness

As you will see in this following reading, the world is once again at a crisis point. There is going to be confrontations that could lead to lighting that fuse that could blow up our world. Awareness informs us that "The survival of the world now rests in the hands of America."

In the following reading, Cosmic Awareness presents a program which you can help to energize into consciousness, --a program which, if successful, could redeem our great country from the pitiful and grossly immoral position that we, while sleeping, have allowed our leaders to place it in. The staff of CAC respectfully requests that each and every one of you carefully read the following information, that you meditate on that information and that you respond accordingly to that somber request from Cosmic Awareness. (Avaton)

ness indicates however, the greater momentum at this time is in the use of such rhetoric for propaganda purposes to imply that in spite of all of the efforts of this or that nation to bring about peace, the other nation is so bent on having war that it impels us to build up greater armaments.

This Awareness indicates that the proposed war schedule for the Spring of '84 as not totally out of the picture, and plans are still in effect, even though the potentiality as that which is seen as being limited in its chances. This Awareness indicates that by placing these weapons in Europe, the Pershing 2 missiles, this will give an edge and a possibility of winning a First Strike battle by striking the Russians' bases. This Awareness indicates that this gives an advantage to the Western powers over that of the Soviets which may lead to the risking of such confrontation involving nuclear weapons.

This Awareness indicates that this as one of the areas which is seen as essential for the West to win in the event of nuclear confrontation. The other area is seen as that which involves the surprise attack. This Awareness indicates that this in part as associated with the activities of Mr. Weinberger in China, in Pakistan and in connection with the attempts to create a Stealth base in Sri Lanka, the area of Kashmir. This Awareness indicates that this being close to Novosibirsk, and as being an optional base to that of the Sinkiang province. This Awareness indicates the other area for the Stealth as that which is in the desert in Egypt.

This Awareness indicates that the Russians are fully aware of these activities and of these plans and seeing these activities along with the proposal of placing the Pershing 2 missiles in Europe, recognize the immense danger from such actions to the very existence of the Russian empire, and therefore are experiencing great concern regarding what is happening and what is planned.

This Awareness indicates that the activities are seen as absolute preparation for nuclear attack on Russia, and the Russians see themselves in a position whereby they are losing a propaganda war while at the same time being backed into a corner in which they must react in a manner that further damages their image of wanting peace. This Awareness indicates that as this is occurring, the nation of Europe which will be highly affected by these plans are preparing for the demonstrations which they expect to follow, passing laws and adding to their police force, getting ready for the intensities which they see as surely following these efforts to place these missiles in their own territory.

This Awareness indicates that the stage essentially is being set for potential and terrible confrontations. There is still that talk of peace, the cry for peace, the desire for peace, but the energies which hold

the power are those which see these seething masses seeking peace as only people who have personal interests at stake and therefore are not to be considered except in terms of the potential irritation effects that they may have on the global plans.

This Awareness indicates that entities may expect to see greater confrontations occurring in relation to the Pakistani/Indian area, and that it is probable that India will move more toward an alliance, a growing alliance with the Soviet Union, while similarly, or simultaneously, the Pakistanis will begin creating greater pressure on India and whereby the various agents within India who are working with the West will begin to create a resistance to the leaning toward the Soviets, thus creating greater turmoil within India itself, as well as turmoil which may be administered or brought from Pakistan.

China Will Prove to be No Ally to U.S.

This Awareness indicates that in regard to China, wherein the United States has now offered vast amounts of extremely high technology of a military nature, with certain conditions of China beefing up its Northern forces in regard to confronting Russia on the borders and whereby the Chinese have tentatively agreed to accept such technology from the United States and to form an alliance of this military nature. This Awareness indicates it appears that Russia is being isolated, surrounded by trouble spots and forces in a manner whereby as she continues to weaken, in the sense of propaganda and public image, she also becomes more fixed and firm and desperate in the sense of a creature being backed into a corner, where life-threatening energies may force a reaction in which she becomes the aggressor.

This Awareness indicates that it would be unwise for the United States to look at China as an ally for it appears that China has other plans. Rather than activities of support for Bolshevik plans, it appears China is simply using the agreement to gain the technology for her own future plans. This Awareness indicates that the events which will be intensifying throughout the fall and winter are those which relate to the global military and international political arena; that in terms of economic energies which are also part of the total scenario, there are those energies and concerns relating to the default of nations, and in attempting to keep these default loans from upsetting the international balance, in terms of political alliances.

Confrontation Over Panama Canal

This Awareness indicates that the areas in Central America as that which continue, and that this will be seen as leading to a confrontation over the Panama Canal. This Awareness indicates that the Philippines as that which shall soon be moved into a crisis level, whereby the government will attempt martial law, and whereby the backlash from this shall be seen as potential for totally destroying that government power of Marcos. This may destabilize the Philippines for many years to come; that these energies as already being volatile and destabilized; that the new stability which comes from these crisis levels as that which may lead to a greater dependency on outside powers and military forces and bases in and around the Philippines.

North Pacific Strategy

This Awareness indicates that the area of the North Pacific as that which is a key area for naval plans for the United States in the event of confrontation with Russia; that this area is seen as a vital area in which the United States' Navy would have great superiority and advantage over the Russian navy. This Awareness indicates that thus, with the combination of naval superiority and with the Pershing 2 missiles in Europe, and with the Stealth bases, and with alliances of various nations, including China and Japan, and the NATO nations, working in conjunction with the plans to isolate and corner the Russians, the advantages appear to be shifting toward those of the Western nations, and whereby the advantages shift and the power is available, the potential for war increases.

This Awareness indicates that while there is much talk of nuclear freeze, the talk appears to get nowhere. This Awareness indicates that the economy as that which is of greater concern to the masses, and the stability of alliances is that which is of greater concern to the governments. This Awareness indicates that the prospect of nuclear freeze as that which may again be brought into some arguments in the political campaigns of entities, but as this does not appear to be of great concern to the masses, the likelihood of this being used in an argument for political office becomes greatly diminished

Peace Could be an Issue in Upcoming Elections

This Awareness indicates the issues which entities appear most concerned about are issues related to vested interests of individual groups, races, sexes and ethnic and national groups, with some interest in the concern for occupational and career related concerns. This Awareness indicates the economy as also being of great concern to the candidates for office, and the issues of Communism versus Capitalism, of religion and moral codes; these appear to be the greater issues at this time.

This Awareness indicates however, that as intensities increase relating to the deployment of the Pershing 2 missiles, entities can expect the campaigning of candidates to address the issues which are current in the news and can expect that there will be a division between those who support the extension of missiles into Europe and those who support the curtailment of weapons of war. This Awareness indicates that these two extremes may become the major issue in the coming elections.

This Awareness indicates those of the present administration will be calling for unity and support for a national bipartisan effort to bring about a solid front which the Russians must recognize as unanimous opinion of the Western people, whereas those who promote the arguments in favor of negotiation as being out of touch with the masses, out of touch with the desires of the people, and as being representative of their own limited form of insanity.

This Awareness indicates that as this occurs, whichever side appears to have the stronger position in the polls will call for the other side to modify its stance somewhat. This Awareness indicates therefore, if the peace proponents gain greater support, the administration will need to counter with its own peace programs, to take some of the support. This Awareness indicates that this appears to be in effect at present, as the proposals of the current president indicate a willingness to negotiate for peaceful solutions.

This Awareness indicates that simultaneously, the activities allow for greater expansion of weapons and military maneuvers, which of course please those on the extreme right who would be satisfied with nothing less than annihilating their enemies, assuming themselves to be invulnerable to annihilation themselves. This Awareness indicates that the polarizations which will be seen intensifying in both actions and in rhetoric shall lead to a crisis level, wherein the United States and Russia shall reach a point in which there shall either be an exchange of serious communication, or an exchange of serious military movements.

US First-Strike Still Planned for Spring of 1984

This Awareness indicates that there are certain planned talks for April of this coming year, but there are also the secret plans for the limited nuclear war in March of this coming year. This Awareness indicates that these overtures of peace talks may be used in part to help hide the secret plans for war, to imply a willingness to communicate and to serve as propaganda for both sides to indicate their desire for peace, thus these proposed peace talks are to a large degree created for public consumption.

This Awareness indicates that on the other hand, in the event that the war plans do not transpire, these peace talk negotiations and meetings may be necessary to resolve certain areas of disadvantage, whereby each can dicker to try to gain greater advantage in the aftermath of a crisis event, or bluff. This Awareness indicates that recalling that the arsenal of both the United States and Russia include other weapons besides nuclear weapons and Stealth fighters, entities may also expect these other weapons to become used in the event the intensification of conflict occurs.

Inhumanity in the state of Iran

This Awareness indicates that meanwhile, the Middle East as that which continues to thrive in its seething unrest. This Awareness indicates that Iran as that which is becoming excessively disturbing in its value system, whereby it is totally obnoxious to human rights, particularly the rights of women. This Awareness indicates that the laws in this country under the Ayatullah allow for men to marry for one night or more, and to automatically divorce their wives by simply making the statement, or giving them the right to kill their wives if they so desire.

This Awareness indicates that while not allowing adultery or sex outside of marriage, they allow the men to marry and any woman who refuses marriage to the man may be arrested and tortured, or beaten by the man himself, without fear of legal harassment. This Awareness indicates that this even when the woman is only 7 years of age. This Awareness indicates that similarly, a conflicting law allows for the father of the child to slay his daughter if caught having sex with a man whom she is not married to.

This Awareness indicates that many women have been maimed and tortured by men and the action of complaining is merit for having a leg, foot or arm taken off. This Awareness indicates that this inhumane society as that which cannot survive in such conditions, and as that which brings forth a terrible karma on those who have supported such actions. This Awareness indicates that there are many tortures throughout the world in various countries; that the American people can hardly conceive the suffering that occurs on this plane; that the American people are indeed a privileged society and should in all ways seek to support and keep the Constitutional system alive and active which grants these freedoms, for the Constitution which grants such freedoms as that which by administrative rules, by equity rulings in courts, is being violated and gradually slowly eroded, so that the Constitution has little power remaining unless entities are aware of the power that it gives, and are willing to go as far as it is required for supporting this document.

How the Courts Are Eroding Our Constitution

This Awareness indicates the Supreme Court as that which is dedicated by law to support the Constitution, but that there are also legislators who can pass laws, who can make Constitutional amendments, and there are judges throughout the nation who can make rulings which do not adhere to Constitutional guarantees, and whereby entities accept such rulings, there is violation to the Constitutional rights, but even so there may be little that can be done.

This Awareness indicates that it should be understood that the courts in the local jurisdiction are not necessarily concerned with Constitutional rights; the lawyers and the judges have a kind of comradeship, a buddy-buddy system in which they play their game,--giving here, taking there, allowing this lawyer to win this time, denying the winning the next time, bending the law under the name of 'equity.' This Awareness indicates that these courts know that a case under equity may be appealed to a higher court or to the Supreme Court, and that under Constitutional Law the ruling would not stand, yet the courts bluff and hope that the rulings are not appealed to such higher courts, for the expense would be so great that most entities would rather forget the entire affair than to prolong the struggle for several years at great expense to win some little victory which would guarantee their Constitutional Right which should have been given in the first place.

Posse Comitatus Could Restore Our Constitution

This Awareness indicates that the Posse Comitatus which this Awareness mentioned previously is an organization that has taken great note of the corruption in the courts and the disparity between Constitutional Law and the common law and equity laws, and has been

moving to bring about a resurgence of the Constitutional Law in various counties. This Awareness indicates in many instances the Posse Comitatus has formed to hold court in Constitutional Law whereby judges and bureaucrats of the county have been sued and whereby if they do not show up for their trial, the Posse then puts claim to their personal properties through liens.

This Awareness indicates that there is seen as this Awareness indicated previously, a potential for the return to Constitutional Law through this organization and through other concerned citizens who have taken the time to investigate and to discover not only what is happening in their society, but also what they can do to reverse the trend of erosion of the Constitutional Rights.

This Awareness indicates that the future of the world rests heavily on the citizens of the United States, because the system of the United States allows the citizens to vote, to have some voice, to speak out, to demonstrate and to show or deny support, whereas many of the other countries and systems neither have the prestige of the United States, the strength to back up the words, nor the voice of the people to express outrage or support for the actions of the government.

ED's Note: for more information on how women are treated in Iran, please refer to 'Revelations of Awareness' No. 83-20, page 11 (An Example of Islamic Justice); \$3.00 from CAC. Also, in reference to Iran, Dr. Beter stated in the Sept. 22, 1983, edition of Wisconsin Report, that a broad and general war will soon break out in the whole of the Persian gulf, that these waters could well be blocked by Iran, and that severe gasoline rationing in the United States is just around the corner.

In reference to the Posse Comitatus, Awareness has indicated in an unpublished reading, that the entity Gordon Kahl who was involved in that famous shootout in North Dakota and was later burned to death in Pennsylvania during another shootout, was not really killed in that battle, but has survived. The burned body found in the ruins had been taken from a nearby graveyard.

More information on the Posse Comitatus can be found in the Liberty Lobby publication, 'The Spotlight,' 300 Independence Ave., SE, Washington DC, 20003. (52 weeks for \$22.)

THE 'NO FIRST USE' MOVEMENT

This Awareness indicates that It wishes to call attention at this time to a movement which was started in recent times, and which a *Cosmic Awareness Communications* member, Sandy Champion* is serving to help advance; this entity being one of the coordinators for this movement, whereby this movement as the "No First Use" Movement. The purpose is to convince or to petition the government of the United States to join China and the Soviet Union who have already given such a pledge that the United States will not be the first nation to use nuclear weapons in the event of war; that they will pledge not to use nuclear weapons first.

This Awareness indicates that both China and Russia have already made this as part of their policy, and this is publicly acclaimed, but the United States refuses, up to present, to state publicly that it will not strike first. This Awareness indicates that the No First Use policy as that which can go far in lessening the tensions between the superpowers, for as long as one nation has offered to not fire first, and the other nation refuses to likewise make such an offer, the first nation must remain on the defensive, expecting First Strike against them by the other nation who refuses to make such a commitment.

*CAC member Sandy Champion is an actor in Hollywood who has been featured in numerous movies and TV dramas, including "Battlestar Galactica" and "McCloud" and is currently working with several other members to try to get a movie going about the gold mysteriously missing from Ft. Knox.

This Awareness indicates therefore, the Russians having pledged they will not use nuclear weapons first, are faced by the United States which is demanding nuclear build-up and promotion of arms, and who refuses to say they will not strike first. This Awareness indicates that the implication of not responding in like manner, is that the United States *intends* to strike first. This Awareness indicates there may be various rational arguments to justify not making such a commitment; the argument generally used by the representatives of the First Strike option is that it gives the advantage of being a threat such as that of one who bluffs in poker.

U.S. First-Strike Could Annihilate Russia

This Awareness indicates that assuming two entities are playing poker, and they each pledge that they will not play their highest card, both then would feel that the intensity of the game was greatly diminished. This Awareness indicates wherein one side pledges not to play his highest card, if the other side does not counter with a similar pledge, the first side must assume that the side which holds out is definitely intending to play the highest card. This Awareness indicates that when these are the death cards, the game can become extremely serious, and even though the one side has held this option of not playing *his* death card, he will never-the-less be extremely cautious in playing all of his other cards with the greatest of skill.

This Awareness indicates that in terms of the Russian policy of no First Strike in relation to the Pershing 2 missiles which are First Strike weapons, it would totally prevent Russia from having any ability to retaliate, for if they do not strike first, the Pershing 2 missiles which they target in a matter of 8 to 12 minutes would totally prevent Russia from having any option of retaliation if it did not strike first.

This Awareness indicates that along with the superiority of the United States' submarines and the nuclear weapons of the Navy, Russia would, in all probability suffer sufficient annihilation as to never again exist as a nation in its own right. This Awareness indicates that the Russians are well aware of this and it is for this reason that they are so strongly opposed to the Pershing missiles, and because the United States continues to cling to the First Strike option, the Russians are unable to feel comfortable with negotiations that do not address such issues as the disarming of both countries in a manner that is verifiable and wherein all of the weapons are considered, for though the Russians have many weapons on land they do not have the armaments available to the United States in terms of its Navy, and the arguments which are often given by the United States's spokesman relate to the superiority of the Russian arms, based on land missiles and numbers and ignoring other armaments available in regard to naval powers.

This Awareness indicates these arguments of course do not address the secret weapons which are available to both superpowers and which are not disclosed openly to the public. This Awareness indicates that the most logical and reasonable and least offensive place for individuals to start in any effort to bring about peace in the world is through the No First Use petition; that if one superpower has pledged No First Use, it is evident in a logical and ethical sense that if the other side wishes any form of reconciliation or compromise, that it would also be willing to pledge No First Use.

It is extremely courageous for one party in a showdown to tell the other, "I won't shoot first; but if you shoot I'll shoot back." This Awareness indicates that if the other then were to say: "Well, that goes for me also. I won't shoot first, but if you shoot, I'll shoot back." This Awareness indicates that if both parties make such a commitment, there can be no shooting, for if neither shoots first, then neither will need to shoot back.

What CAC Members and SPIRALS Can Do

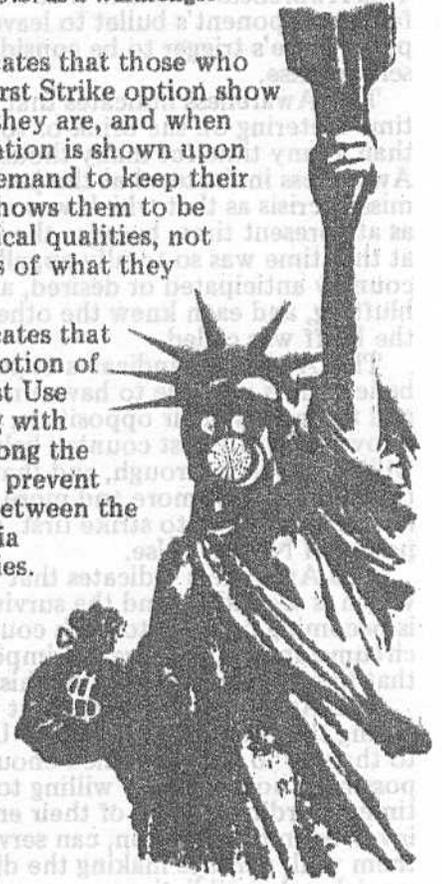

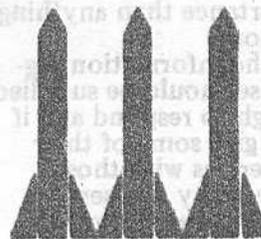

This Awareness indicates that those SPIRAL organizations and the members of *Cosmic Awareness Communications*, in writing letters to their Congressmen and to newspapers and various public organizations and political organizations can do much at this time to help bring this new No First Use petition into consciousness, to become part of the platforms of many officials or candidates. This Awareness indicates that it is the time that is important, the entire scenario, those things which are soon to follow, and the fact that it is a time of campaigning, and the fact that public opinion will be generated around this problem of potential war, --it is time for a concerted action of many individuals to make their voices known, to use their Constitutional Rights and to assert themselves in such a manner as to help speak for all entities on earth, to bring about the potential and promise, the conditions and setting for negotiations of a meaningful nature.

This Awareness indicates that the time is now, and throughout this coming winter, for the crisis nears, and the intensity increases, and the masses are confused. The leaders are confused, and this First Strike option is the key, and when defused can serve to begin unlocking and freeing for negotiation talks, breaking down the intense distress between nations so that potential reconciliation and harmony may follow.

World Now Views U.S. as a Warmonger

This Awareness indicates that those who insist on keeping the First Strike option show themselves to be what they are, and when the light of public attention is shown upon these entities in their demand to keep their First Strike option, it shows them to be warmongers of low ethical qualities, not seeking peace regardless of what they may otherwise state.

This Awareness indicates that this issue and the promotion of the petition for No First Use is that which can, along with its own actions and among the actions of other forces, prevent the nuclear holocaust between the United States and Russia and those allied countries.

PERSHING 2 MISSILES PLACED IN EUROPE WOULD FORCE RUSSIA TO CHANGE ITS OPTION ...(Anyone could then fire at will)

QUESTION:

Awareness, Mr. Andropov recently made the statement that if Mr. Reagan puts the missiles into Europe this winter, Russia could drop its promise of no first-strike. How would that fit in?

COSMIC AWARENESS:

This Awareness indicates that if these Pershing weapons are placed in Europe, Russia would have no choice but to cease in her commitment to No First Use. It would be an action of setting the stage where either country could fire at will. This Awareness indicates that Russia would feel it was certain death to her country to allow these Pershing 2 missiles and therefore, would be highly tempted to option for a First-Strike against the United States, to prevent it from getting these missiles in place and set up to strike Russia.

Russia at Bay Could Bring on the Holocaust

This Awareness indicates these missiles as being extremely accurate, capable of striking Russia's most sensitive areas and totally disarming Russia so that it could not retaliate if once hit by these Pershing 2 missiles. This Awareness indicates that these missiles taking 8 minutes to strike would be almost impossible for Russia to stop, thus the placement of the missiles by a country which indicates it has the option, holds the option of shooting first, is a threat which in itself would be grounds for retaliation of self-defense.

This Awareness indicates that when an entity is attacked by another, whereby the entity declares the intention of shooting, and declares by words or action the ability to shoot and to destroy, that entity indeed feels a threat, and based upon that feeling of threat, if retaliating before the other actually shoots, that retaliation would be considered as self-defense. This Awareness indicates that one does not need to wait for the opponent's bullet to leave the gun before pulling one's trigger to be considered as an action of self-defense.

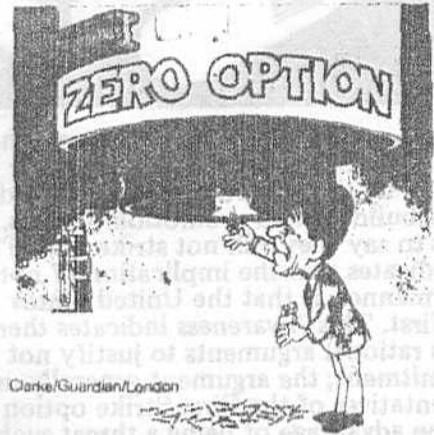

This Awareness indicates that this earth is at this time teetering on the brink of total annihilation, moreso than at any time for many thousands of years. This Awareness indicates that the period of the Cuban missile crisis as that which was not nearly so serious as at present time, because the threat of nuclear war at that time was so totally appalling that neither country anticipated or desired, and each was simply bluffing, and each knew the other was bluffing, and the bluff was called.

This Awareness indicates at present, one country believes it is possible to have a nuclear war, to survive and to destroy their opposition, and the other country knows that this first country believes that and is willing to carry through, and that country knowing this, is being put more and more into a position of having to prepare to strike first, even though it has a policy of No First Use.

This Awareness indicates that the bluff factor as that which is secondary and the survival factor as that which is becoming primary to both countries, thus, the present circumstances are of greater importance than anything that has occurred in recorded history.

This Awareness indicates that the information regarding the petition for No First Use should be supplied to those who are concerned enough to respond and if possible, those who are willing to give some of their time, coordinate some of their energies with those involved in this petition, can serve many and serve them well, perhaps making the difference between survival and annihilation.

This Awareness indicates the information necessary shall be included with this mailing.

HOW TO COUNTER THE OPPOSITION & CAPTURE THAT 60% VIRGIN TERRITORY OF CONSCIOUSNESS

QUESTION:

Awareness, what could the people who are for this No First Use petition do to counteract what definitely will be put out by those who wish to keep America on a First Strike option? They're doing the same thing right now for example, saying the same thing about those who are pushing for a nuclear freeze; that you cannot trust the Russians; that, "Look what they've done! They shoot down unarmed civilian airliners and they march into countries like Afghanistan, so what guarantee would we have that if we went and signed this No First Use petition that the Russians wouldn't double-cross us?" I mean this type of consciousness is very rampant right now. How can this be countered?

COSMIC AWARENESS:

This Awareness suggests that you also remind them of the activities of the United States marching into various countries, creating wars. This Awareness indicates also that you point out to entities that Russia can also have the First Strike option and that this is very likely if the trend continues in its present course, and then ask them which of their family, which of their friends do they most want to see blown apart by nuclear war, and what they think such would solve in terms of their ideologies, and whether they believe that their venting of their hostility is the solution to all problems, and if so, why don't they simply take a gun to solve other problems as well?

This Awareness suggests also that you not spend a great deal of time bickering with those who have their minds closed; that you spend more of your time presenting your message in ways that reach more people, for 90% of the people are not sure what to think and if you spend your time trying to convince those whose minds are already made up (that 5% which disagrees with your 5%), you are simply wasting time which may well be spent on the other 90% who are more flexible.

This Awareness indicates that on a graph, the percentage of entities who are totally open and those who are totally closed-minded, this would look much like a mountain or hill that started on one side of the paper, moving up quickly, lingering in a broad area of approximately 60% wherein entities do not have any particularly firm opinion and are simply waiting for others to tell them what to think; then this would drop down to reach a level in which 5% on the opposite side had a firm opinion opposed to the 5% on the first side.

This Awareness indicates that it is that 60% in the middle which may be tapped as virgin territory in consciousness, which may receive information and express themselves with the information that has been received. This Awareness indicates this information, if coming from those who are promoting war will capture that 60%, then you will have a nation hell-bent on war. If this 60% is captured by those who are seeking peaceful solutions, then you will have a nation that is demanding, demonstrating and seeking peace and survival.

Airliner Tragedy Soon Forgotten

This Awareness indicates that for entities who see this Korean airliner incident as having fixed the consciousness of the masses into a war-like state; this is an error, for while this is a manipulation that forces consciousness to assert anger, it is error to assume that anger will persist indefinitely against new information that may be added. This Awareness indicates that entities can easily vent anger without remaining permanently polarized and may very easily just as quickly revert to an opposite concern in which they do not want their anger to lead to war and violence, but simply wanted to express their indignation and now want to find some way of reaching peace and reconciliation so that these events won't occur further.

This Awareness indicates it's all in how you look at the public, and in how you communicate and it's most important not to waste your time, your energies on those whose minds are simply locked and closed, for the more you pry, the harder they clamp down on their opinions. This Awareness indicates it is much like attempting to open an oyster shell, and that if you simply go elsewhere, and put your attention and energies elsewhere, the oyster shell may open on its own and peek out and learn something.

This Awareness indicates that you work with those 60% to 90%, the 60% whose minds are still open, and the others whose minds are partially open, and that you ignore that 5% whose minds are totally closed, considering these entities to be a minority.

HOW TO GET THE KIDS INVOLVED IN THE 'NO FIRST USE' MOVEMENT

(BUT FIRST, THOROUGHLY UNDERSTAND)
THE 'NO FIRST USE' ARGUMENT

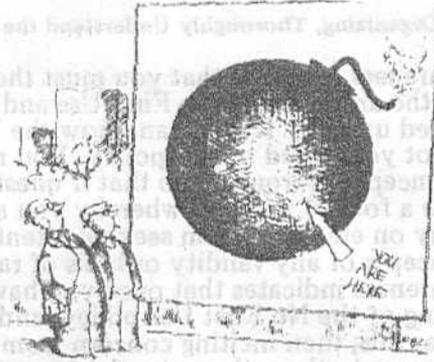

QUESTION:

Awareness, in relation to the undecided portions of consciousness, how much positive effect could be expected if we focused at least some campaign toward the school children, --high school, junior high, maybe college age?

COSMIC AWARENESS:

This Awareness indicates that these children, high school and in the general age group between 12 and 25, these entities are relatively in a state of transcending the bondage of family life, and not yet in bondage to the establishment. This Awareness indicates particularly those in areas between 15 and 22; these entities are always ready and ripe for protest and for action of an exciting type. This Awareness indicates that it is not advocating that Cosmic Awareness Communications become involved in inciting demonstrations by youth, for the purpose of this organization is to spread information and enlightenment.

This Awareness indicates however, that the information and enlightenment may be used as a basis for entities who wish to organize and demonstrate their concern, for this Awareness does not restrict entities, does not wish through this organization to restrict entities from their expression either. This Awareness indicates that it is at this time simply delivering information in regard to a concept

This Awareness indicates that wherein an entity creates a concern for dramatization, the entity must first feel pain, or feel the threat of pain. This Awareness indicates that wherein one feels fear of pain or feels pain, one becomes motivated and that motivation carries with it its own destiny, and if not diverted will follow through until it has completed its expression and can again return to a sense of rest in which no pain is felt.

This Awareness indicates that in motivating others, they must feel the pain, the fear, the threat. By feeling this fear of pain, by being disturbed, they must come out of their sense of rest and deal with the disturbance in a manner which allows them to then satisfy the motivation by reaching a particular goal. Once the goal is reached, the entity should then expect to find a state of undisturbed rest.

This Awareness indicates that therefore, an action of organizing protests or of organizing promotion groups, this Awareness indicates that it would be better to call these "promotion organizations," but also the term "protest" can draw in more entities who seek excitement. This Awareness indicates that young people are always drawn to wild and exciting energies, therefore the term "protest" can have a very dramatic effect, but that in reporting the activity which you are promoting, it would be appropriate to call this a Promotion Demonstration, whereby you are promoting the concept of No First Use.

This Awareness indicates that to begin such activities one would need to first alert entities through meetings and have sufficient publicity in regard to the particular meeting so that others become aware that you are holding a meeting regarding No First Use weapons and a petition which you wish to send to Congress, to your own state and the Federal Government, requesting that they endorse a No First Use policy.

This Awareness indicates that you must thoroughly understand the argument of No First Use and how this is already agreed upon by Russia and how the United States has not yet agreed to this policy. You must understand the concepts thoroughly so that if questioned you do not make a fool of yourself whereby you are seen as acting simply on emotion, or in seeking attention and have no concepts of any validity or basis of rationality.

This Awareness indicates that once you have a thorough understanding of the No First Use policy, and call a meeting to discuss this, then inciting concern from your listeners, you may express to them the potential for pain, for the possible annihilation or extreme suffering that would result from nuclear war, how those precious little things which they have in their room, in their home, their keepsakes, their friends, their high school diploma; all of these things which are held dear: their automobile, their clothing, their makeup; all of these things and all of their friends might simply cease to be or become insignificant in relation to the pain which they are suffering and which others suffer; that this kind of adventure is that which brings thrills to no one when it is suffered, and that the option and the future of the earth may be in their own hands, in the hands of those who are willing to speak out, willing to talk to others, willing to shout for peace.

This Awareness indicates that there is no need to promote violence through young people or to have them act in a manner that is threatening. It is sufficient that they simply present themselves in expressing in large numbers so that news media take note, recognize their message. It will be small to begin, requiring a small goal, but that small goal of so many people carrying signs and protesting the First Use Option will allow the spokesperson to get a message to the media whereby the message reaches the ears of thousands or hundreds, and whereby then the announcement may also be given that you are going to have a larger demonstration on a certain date in the future, and whereby this larger demonstration has been announced on the media, those who missed out on the first demonstration will come and look you up so that they can become involved in the second demonstration; that after the first publicity the actions will begin to grow and the goals may increase so that each goal to satisfy the motive created by the pain; the goal of setting one demonstration after another, or one action after another; each one being promoted for larger numbers, leading to that large-scale activity in which many many entities merge their voices, --this is that which allows for this goal to be reached.

This Awareness indicates that it may begin with just a few entities at a table in a home. They in turn coordinate an action which raises some publicity, which brings in others who also feel similar concerns, which allows for another action, perhaps writing letters to editors as well as planning public marches or demonstrations, and these in turn link with others in other communities who are similarly active so that as these actions grow and the attention and media coverage increases it allows those entities who have been sitting silently wondering: "Will this world survive another year?", it allows entities to find a place whereby they can join with others and say: "Enough! We want peace on earth!"

85% of all People Want Peace

This Awareness indicates that approximately 85% of the people on earth want peace, 60% are absolutely dedicated to peace in their own personal lives although this is not always attainable to them. They do not want their own lives to be torn apart by war though they have their personal wars with their friends and family and personal enemies, but they do wish that the world in general would just leave them alone and if a war exists, they want it to be elsewhere.

This Awareness indicates that approximately 15% like some excitement of watching people fighting each other and enjoy being in the vicinity of excitement of such type, therefore, they are not what one could actually call promoters of peace, for if a fight were occurring they would go to it and attempt to increase the conflict rather than decrease the conflict. This Awareness indicates that the remainder enjoys the battle and the competition and the violence and the blood-letting.

10% Can Alter the Course of History

This Awareness indicates that if entities can touch those of the silent majority to give them the chance to speak out, even if only 10% of these entities give their energies toward this action, it would be sufficient to change the course of history. This Awareness indicates that even if 5% became vocal enough to bring about press coverage of the concept of the issues, it would awaken enough entities so that the candidates could see that this was a valuable issue of argument and incorporate the argument into their campaign and thus alert millions and millions of others to the issue.

Send Your Proposal to All the Candidates

This Awareness suggests that you in preparing your programs, consider seriously writing your proposals to the candidates who are running for President in either party, for these entities are seeking to please the masses, to know where the minds of the masses are, for they want your votes, and these entities are looking for issues which they can use to give them the advantage over the next candidate or over the incumbent candidate.

This Awareness indicates that by a large number of letters being sent to the candidates requesting the No First Use policy, this action in itself can bring about the potential of millions of entities becoming aware of this concept and policy, for only one of these presidential candidates needs to mention this on nation-wide television and masses of entities will have heard about the No First Use policy.

YOU Are the Hands, Feet and Mouth of Cosmic Awareness

This Awareness indicates that it is in the hands of the people; that as has been given previously: You are the hands and feet and mouth of this Awareness, and the actions which are manifest upon the physical plane must manifest through those who are in physical embodiment. This Awareness indicates there are those who call upon the gods to deliver them from their incompetence, from their laziness, from their refusal to act, from their oppressors, from those who take action against them. This Awareness indicates that the gods are powerless without the energies of those who would serve the principles given by the gods.

This Awareness indicates that gods do not intervene directly in physical matter, but only through spirit, through motivation, through information, and it is required that entities take charge of the affairs, particularly when they have been provided with the necessary information.

Give Us a Chance

"You, our parents, must seize the opportunity now to keep Earth from blowing apart. All we ask is that you work to keep the peace as we finish the process of growing up. Support of a nuclear freeze is a very small investment in the future but it can make all the difference in the world. Each one of you, by stating your piece, can fuel the fires of life that much more and help us to keep the deepest darkness from us.

"For our sake, give us a chance."

—Open letter to parents by
Kenneth L. Howard Jr., in the *Arkansas Gazette*

This Awareness indicates that any such actions by the membership should be carried out in a dignified manner and in good taste, whereby letters that are written are written in a manner that is respectful. This Awareness indicates that wherein meetings are held or demonstrations are expressed in areas; that these may be expressed in ways that draw attention, particularly these may be held in small towns where news is hard to find, for the newspapers will then give great attention to any little demonstration that might occur, whereas in a larger city the actions would be overshadowed by murders and rapes and other daily activities.

This Awareness indicates that it is not appropriate that such demonstrations be destructive or antagonize the citizens of a city, but rather that they be expressive of the concerns which are felt and that they receive publicity. Preferably choose cities who have a newspaper with considerable readership, or widespread readership, and preferably coordinate your demonstrations and protests on similar days so that throughout the country these demonstrations begin on similar days and begin to grow on a kind of rhythmic or regular schedule such as with each full moon and a new moon, or on certain days such as Saturdays, so that throughout the society these demonstrations are occurring in various states, in various cities.

This Awareness indicates that this may be coordinated with the headquarters for the No First Use policy or through communication with Sandy Champion, or that this entity may assist in referring others to those who can coordinate such actions. This Awareness indicates that it is not being coordinated from *Cosmic Awareness Communications*, and entities should not write in to *Cosmic Awareness Communications* in an effort to find coordinators in their area or elsewhere, except that if there are a number of *Cosmic Awareness Communications* members who seek to become coordinators of such actions and seek to locate others in their area. This may be accomplished through communication with the organization.

This Awareness indicates however, that the actual coordination other than locating each other, the actual coordination would be in regard to the No First Use committee,--this located in California,--and the address may be included with this reading.

OUR WORLD CAN YET BE REDEEMED, IF...

This Awareness indicates there is no room on this planet at this time for making light of the circumstances and the concerns in regard to the events that are impending during this coming year. This Awareness indicates that so far as the Galactic Command, or outside extraterrestrial forces are concerned, this planet earth would be written off and simply allowed to destroy itself for it is deemed unworthy and almost unredeemable in terms of the corruption of consciousness which seeks power and control over the lives of others at the expense of slaughtering and torturing millions.

The Galactic Command and extraterrestrial and interdimensional beings however, cannot ignore this planet for its very demise and destruction would have ramifications on those other areas in the solar system, those other areas in the interdimensional levels, which would create great disturbance for other beings not associated with the planet earth. Therefore, these entities are extremely concerned about the planet earth, its present course, and there are many from interdimensional levels who have entered through the natural birth principle of earthlings and who also have entered as extraterrestrials to live among you in an effort to prevent the annihilation, chaos, destruction which nuclear war on this planet could bring about.

This Awareness indicates that the policy is to allow entities self-government. This requires that individuals on the planet earth not only learn to govern themselves in their personal affairs, but learn also to govern their society and their leaders in a manner that brings harmony to the

entire society. Self-government is in reference to each individual and to the entire self of the government wherein the individual and the total government are working in absolute communication and response to one another.

This Awareness indicates that wherein the individual is silent and waits for the government to indicate the next experience, this is not self-government, this is not democracy,--this is slavery and totalitarianism of mind or of body. This Awareness indicates that as entities in the only true democracy on the planet earth, entities must learn to act as free and democratic citizens expressing what they want from their government, and responding to the needs of their world.

This Awareness suggests the Interpreter be brought from trance.

(The Law of Gratitude is given)

ED's Note: during the Vietnam war, this editor helped to put together a 'Highschool Bill of Rights', a document printed and promoted in highschools, the object being to inform students that they had certain rights which the establishment was neglecting to give them. Something along this line could possibly work today--the emphasis being that students have a right to live in peace on this planet, to be allowed to grow up and have families, to pursue happiness etc.

Although at the time, the Highschool Bill of Rights was designed primarily to inform the student that he had the right to end high school complicity in the war machine, an end to military programs like the ROTC, and an end to military recruiting in the highschools, it also had the following rights thrown in to get the students active:

Students have the right to form political organizations, including those which champion unpopular causes.

Students have the right to full use of school facilities--bulletin boards, auditoriums, PA systems, mimeos etc. to advertise and promote their activities.

The right to plan and carry out forums, assemblies, workshops in order to expand their educational program.

The right to distribute any leaflets, pamphlets and political material freely inside and outside of the school, without authorization of the principal or anyone else.

The right to wear any symbol of their political beliefs, such as buttons, armbands, and styles of dress which express their opinions. (Buttons stating 'NO FIRST USE' would be appropriate in today's activities).

Students have the right to choose their own method of expressing their beliefs and to refrain from saluting the flag or from attending any assembly which they so desire.

Students have the right to strike.

Student publications must be controlled by the students and may in no way be censored by the faculty. Also, any student organization has the right of access to the school newspaper to advertise its ideas and activities.

Student publications which are not "official" school publications are to be treated with the same rights as the regular publications.

Students have the right to Due Process. They have the right to see their personal files. They have the right to their lockers, which are not to be opened by school faculty without express permission. Students have the right to appeal any disciplinary action.

Students have the right to free elections. Any can run for office and all have the right to vote. All candidates have the right to wage a real campaign.

The Highs School Bill of Rights was divided into five basic sections: Freedom of Political Activity; Freedom of Speech and Press; Due Process; Free Elections; No War Machine. Into these various sections the above rights, as well as others were listed, including the right of students to help determine their curriculum and evaluate their teachers. This same approach could be used today, with the accent still on keeping the military out of the schools, and the greater emphasis being the 'Right to Live in Peace'.

INITIATIVE MEASURE

TO BE SUBMITTED DIRECTLY TO THE VOTERS

The Attorney General of California has prepared the following title and summary of the chief purpose and points of the proposed measure:

(Here set forth the title and summary prepared by the Attorney General. This title and summary must also be printed across the top of each page of the petition whereon signatures are to appear.)

TO THE HONORABLE SECRETARY OF STATE OF CALIFORNIA

We, the undersigned, registered, qualified voters of California, residents of _____ County (or city and County), hereby propose amendments to the general laws, relating to a no-first-use of nuclear weapons initiative, and petition the Secretary of State to submit the same to the voters of California for their adoption or rejection at the next succeeding General Election or at any special statewide election held prior to that General Election or otherwise provided by law. The proposed statutory amendments add provisions to read as follows:

PROPOSED LAW

A NO-FIRST-USE OF NUCLEAR WEAPONS INITIATIVE

Section 1. Findings and Declarations. We, the people of the State of California, do hereby find and declare:

- (a) Responsible scientists testify that the present stockpiles of nuclear weapons, if used, could put an end to all human life as we know it.
- (b) It is, therefore, not in the interest of our people that our national government should be first to use nuclear weapons in any foreseeable conflict.
- (c) Since the Soviet Union and the People's Republic of China have pledged not to be first to use these weapons, our continued refusal to make a like pledge would increase international tensions and make nuclear war more likely.

Section 2. Text of Transmittal. The Governor shall prepare and transmit on or before December 31, 1984, the following written communication to the President of the United States, the Secretary of Defense, the Secretary of State and all members of the United States Congress:

"The people of the State of California, recognizing that a conflict fought out with present nuclear weapons could put an end to all human life as we know it, do hereby urge that the President of the United States publicly declare that the United States will not be the first to use nuclear weapons."

Ed's Note: members who wish to get No-First-Use initiatives on the ballot in your state can use the above California initiative and ad as guides. More info can be obtained by writing the address on the right.

the Right to Life, the Right to Grow Up in One Piece, etc. It seems to me that the 'No First Use' concept, promoted with some sort of Highschool Bill of Rights, could create protests and demonstrations over the No First Use issue in a hurry. Those who intend working with the young people may wish to consider this option. Remember what Awareness indicated: "those entities are ripe for protest and action."

It should be relatively easy today to promote the High-school Bill of Rights concept, but during the Vietnam war I had to go underground when printing that material and getting one or two radicals in each school to start the thing going. All over the county the 'authorities' were trying to locate the source of all that printed info that was being distributed. The FBI was even checking out every print shop in the area known to have an offset press. (My 1250 offset press was hidden in the basement of my shop and had never been registered, so they never did locate the culprit that was trying to keep their children out of that slaughterhouse which was Vietnam. (Avaton)

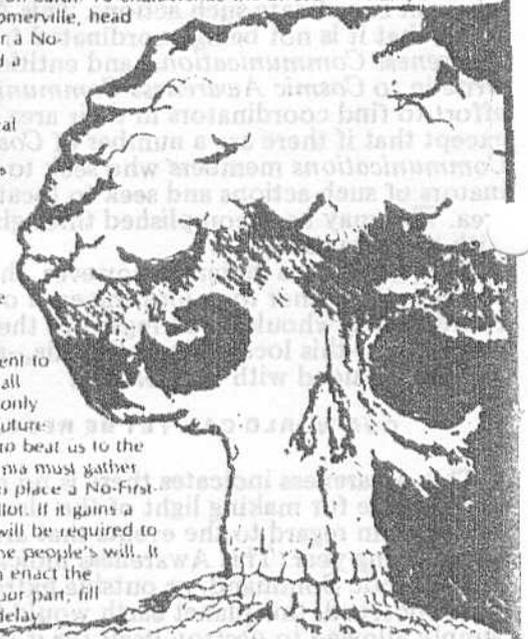

We're Scared... How About You?

First use of nuclear weapons by either side means second use by both sides — and a holocaust that ends life on earth. To characterize the awesome totality of nuclear slaughter, Dr. John Somerville, head of the California Campaign for a No-First-Use initiative, has coined a new word — Omnicide.

Although eight states have passed initiatives for a bi-lateral nuclear freeze, this alone cannot prevent omnicide. It is imperative that both sides pledge no-first-use.

At the U.N. Special Session on Disarmament, the Soviet government pledged never to be first to use nuclear weapons, and China made a like commitment.

The failure of our government to pledge no-first-use heightens all international tensions. It can only impel the other side, in any future military confrontation, to try to beat us to the nuclear punch. We in California must gather 500,000 signatures in order to place a No-First-Use initiative on the state ballot. If it gains a majority vote, our governor will be required to urge the president to enact the people's will. If Reagan refuses, Congress can enact the necessary measures. To do your part, fill out the form below without delay.

Name: _____

Address: _____

- I am in favor of the California Campaign for No-First-Use of Nuclear Weapons.
- I enclose a donation to spread its message and receive its bulletins.

Make checks payable to NO-First-Use Campaign, and mail to 1426 Merritt Dr., El Cajon, Ca. 92020.

Officers: Dr. John Somerville, El Cajon; Santord H. Champion Jr., Los Angeles; Simon Casady, San Diego; Tina Trevor, Solana Beach.

Use 12 Pt. Boldface type on initiative Petition; 18 Pt. Roman Bold or larger on body.
