Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

( Helping people become aware )

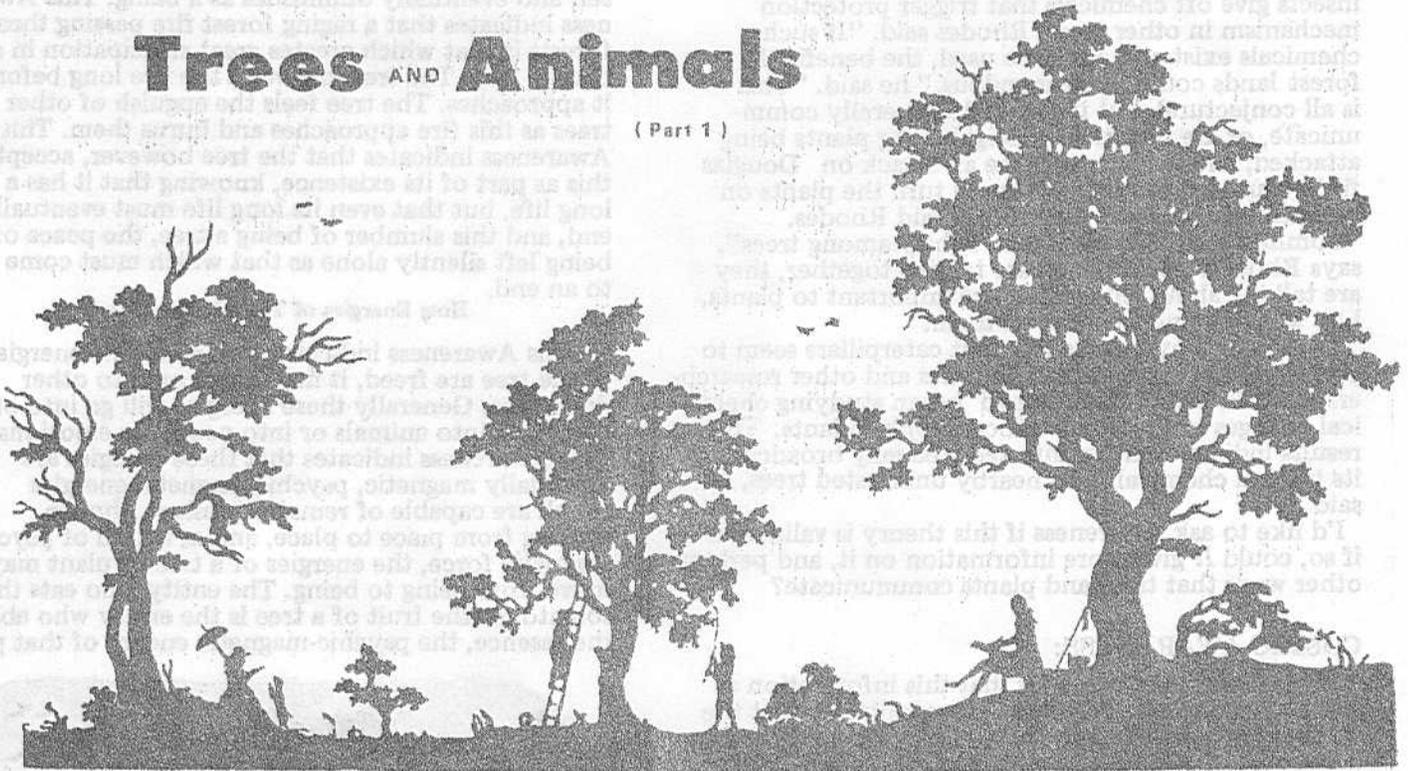

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

# Trees AND Animals

( Part 1 )

## DO TREES TALK TO EACH OTHER ?

### QUESTION:

I clipped an article the other day from the paper titled, "Do Trees Talk to Each Other?", and its in Seattle; it says:

"Trees don't exactly whistle and shout, but they may talk to each other in the woods, especially to warn of enemies, says a University of Washington scientist. The talking tree theory could explain periodic surges and crashes in populations of insects that prey on trees, Dr. David Rhodes, a UofW research associate said. "If I'm wrong, I'll never live it down," Rhodes said, who built his premise on three years of study with willow and alder trees.

Research indicates that trees being attacked by insects give off chemicals that trigger protection mechanism in other trees, Rhodes said. "If such chemicals exist and could be used, the benefits to forest lands could be tremendous," he said. "This is all conjectural, but if plants do generally communicate, or are sensitive to neighboring plants being attacked, and if you could see an attack on Douglas fir by tussock moths, you could turn the plants on prematurely to deter the moth," said Rhodes.

"Communication is not taken lightly among trees", says Rhodes. When plants are talking together, they are talking about things that are important to plants, like what's going to chew on them.

To answer why insects like tent caterpillars seem to go through boom and bust, Rhodes and other researchers in Finland and Switzerland began studying chemical changes in the insect's food supply: plants. The results indicate that an infested tree may broadcast its trauma chemically, to nearby uninfested trees, he said."

I'd like to ask Awareness if this theory is valid, and if so, could It give more information on it, and perhaps other ways that trees and plants communicate?

### COSMIC AWARENESS:

This Awareness indicates that this information as essentially correct. This Awareness indicates that the trees as having what may be termed a kind of blind awareness of each other, whereby they know of each other's presence, even without having eyes to see, or ears to hear. This Awareness indicates it is similar to entities who, in a dark room, without being able to hear, wherein each is totally quiet, entities may still perceive the presence of another being. This Awareness indicates that trees have this same extrasensory perception, whereby they are aware of each other, and also are aware of other beings in their presence, such as an intruding hunter or forester.

This Awareness indicates that trees stand for many years, sometimes for centuries in the same place. Their lives are essentially slow, quiet, peaceful and dull. This Awareness indicates that their experiences are few and far between. This Awareness indicates that the most exciting experience a tree can expect to have is a storm, wherein the winds blow the limbs violently. This Awareness indicates that trees love these storms, for it wakens them to their own living self. This Awareness indicates that another experience which trees enjoy is that of a soft breeze blowing through the branches of one tree, carrying the scent or energies, the pollen or other chemicals and substances from a nearby tree, to this tree.

### Attitude of Tree Cutter Determines Trauma

This Awareness indicates that trees also enjoy little boys and girls who climb them. This Awareness indicates that trees essentially enjoy stimulation, but they do not enjoy being cut down, although it is not a great traumatic experience to them. This Awareness indicates that the attitude of those who cut the tree as that which determines the extent of the trauma which the tree would experience. This Awareness indicates for example, a tree being cut for Christmas, wherein entities look at the tree and love the tree, and want to take the tree home; this tree actually enjoys the experience and feeling of being involved in those festive energies.

This Awareness indicates that as its energies begin to fade, the tree slowly loses its concept of self and eventually diminishes as a being. This Awareness indicates that a raging forest fire passing through forests is that which creates great anticipation in a nearby tree. The tree knows of the fire long before it approaches. The tree feels the anguish of other trees as this fire approaches and burns them. This Awareness indicates that the tree however, accepts this as part of its existence, knowing that it has a long life, but that even its long life must eventually end, and this slumber of being a tree, the peace of being left silently alone as that which must come to an end.

### How Energies of Trees Move About

This Awareness indicates that when the energies of the tree are freed, it may move on into other directions. Generally these energies will go into other plants, or into animals or into people as emotions. This Awareness indicates that these energies are essentially magnetic, psychic-magnetic energies which are capable of remaining intact, though moving from place to place, and as a kind of psychic-magnetic force, the energies of a tree or plant may move from being to being. The entity who eats the tomato, or the fruit of a tree is the entity who absorbs the essence, the psychic-magnetic energy of that plant.

This Awareness indicates that once this energy is absorbed, much of it remains with the entity for a period, and a portion will always remain, even though it diminishes as time passes. This Awareness indicates this similar to the concept of a sound which never ceases to be, even though the human ear can no longer hear it. This Awareness indicates that the chemicals which..(This Awareness prefers the word "essences"); the essences which trees give off to other trees as warnings of that which is occurring, do help to trigger protective mechanisms within the tree, so that the tree under attack can exert certain chemical reactions in its leaves and bark, whereby it serves as a protection against many of the attacking insects. This Awareness indicates that a tree is not designed, in most cases, to protect itself from extremely harsh and violent chemicals, such as herbicides, or certain types of fungus which may attack in such quantities as to destroy the tree.

This Awareness indicates that however, it is capable of protecting itself to some degree against natural forces such as the attacks by insects, particularly those trees which have developed certain types of immunity systems whereby they may insert energies into their leaves or branches that will serve as a poisoning mechanism to those insects. This Awareness indicates that this depends on the species of tree and the species of insects involved, as to the effectiveness of their defense mechanism.

## HOW THE GROUPS SOUL OPERATES

(Most Trees Living in Limbo)

### QUESTION:

Awareness, are the energies that leave the tree when it's cut down; do they go to like a similar pool...like the group soul that animals reputedly go to?

### COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, that many of the legends and stories associated with limbo as that which is describing certain energies that are locked up in trees and allowed not to move. This Awareness indicates that in many instances, trees fearful of moving, attached to their foundations, do not want to let go of their existence, yet are also waiting. This Awareness indicates that you will notice the description of limbo as a place wherein there is no pain, no fear, but there is eternal waiting and waiting. This Awareness indicates essentially this as a description of plant life, particularly those trees which live long and almost meaningless lives.

This Awareness indicates that this experience of limbo also may be extended into a description of certain animal experiences wherein entities, or portions of entities are locked into animals, and may be shut in for long periods of time. This Awareness indicates that in many cases, animals look forward to liberation from the body and this allows some entities to move on into higher life forms. This Awareness indicates that in other cases, these forms may move back toward more primitive life forms, that the energy of life moves from form to form, depending on its own particular essence. One part of an entity may move on into a higher life form, while another part moves back into a lower life form. This Awareness indicates that others may move to the side and experience similar life forms.

This Awareness reminds entities of the works of Percival; *Thinking and Destiny* in particular,\* wherein he discusses the occurrence of energies after death,

\*Thinking & Destiny by Percival is permanently stocked by CAC. Please refer to Book Catalog.

wherein some of the energies will move into more etheric realms, while other's emotions move into plant life, and the feelings into animal life. This Awareness indicates that much of the mental energy will move into mineral life. This Awareness indicates that this occurs not only after death, but also occurs during life. This Awareness indicates that an entity, for example, having great emotions, will expel many of those emotions into surrounding plants. Entities having strong feelings and activity-prone behavior will expel much of his energy into animals. This is why animals sometimes react so excitedly and violently around entities who are active.

### While Animals Often Sit on Entities

This Awareness indicates that the animals are essentially picking up much of the activity energy that is being thrown off by the entity. This Awareness indicates also you may notice that animals tend to be drawn to entities, particularly wherein there is an aura leak in the entity; an animal will climb up on the entity and sit on that leaking place, drawing the energy off from the leak in the aura. This Awareness indicates the animal also is assisting to heal that leak; that this aura leak as that which is a warm spot for the animal and by sitting over that warm spot it helps to close the leak.

This Awareness indicates that the energy leak experienced by the entity may be noticed as a pain, and entities may notice that animals sometimes, or quite often enjoy sitting on those places which are painful to the master. This Awareness indicates that the expression of mind is that which throws off certain energies, and these energies may enter into inanimate objects such as stones, wood, or non-living mineral-types of substances. This Awareness indicates for example, mental energies are easily stored in crystal or in metals; that mental energies can also be stored in stones.

### How to Remove Mental Energies (thought-forms)

This Awareness suggests that a room can contain the mental energies of all of the inhabitants who have inhabited that room at one time or another. This Awareness indicates these mental images may also be removed from those mineral storage places and freed to move, even as emotions may be removed from plants, and feelings and activity-energy removed from animals. This especially as time passes. This Awareness indicates likewise that a flame in a room filled with thought-forms draws those thought-forms into the flame. This Awareness indicates that any time there has been a highly charged unpleasant type of exchange in an area, that if entities were to build a fire in the fireplace, to light candles, to build a fire in the stove, or to burn trash nearby outside, this fire as that which will draw from the immediate surrounding area all thought-forms which have been floating in that area.

### Why Using a Candle Helps in Studying

This Awareness indicates that these thought-forms then are burnt up and liberated from their magnetic centers. This Awareness indicates that this action of a fire then leaves the area feeling more clean, with less tendency of the inhabitants to experience memories and moods resulting or left over from the previous exchange. This Awareness indicates also wherein entities are involved in intensive study, and the mind is very active in studies or in writing, that a candle or flame nearby is that which will draw off the thought-forms and allow the entity to study longer without feeling encompassed by all of the thoughts and ideas and stickiness of the energy that accompanies studying.

This Awareness indicates that essentially, when entities are studying and concentrating heavily, the mind is throwing off magnetic energies which collect thought-forms as they are experienced by the entity, and these tend to stick to the body. This Awareness indicates that when entities experience this stickiness or this feeling of "I have just got to get away from this. I can't stand sitting here any longer,"--this Awareness indicates that wherein entities feel this feeling, they may understand this to be their aura collecting the thought-forms which have been associated with all of the studying. This Awareness indicates it is for this reason that candles are placed at the head and feet of the Interpreter. It is also for this reason that entities involved in studies may wish to take breaks, take a shower, go out into the realm of nature, cast off those energies into plants, allow the wind to blow against their aura, cleansing the aura, or to have a candle lit which will burn up the thought-forms. This Awareness indicates also a fan blowing as that which can be helpful in keeping these thought-forms from sticking to one's aura.

#### MORE ON THE 144 ASPECTS OF AN ENTITY

##### QUESTION:

Are the energies Awareness referred to which go sometimes to higher levels and some to lower levels when an entity passes over, are these also referred to as part of the 144 aspects of an entity, or are these something else,--these energies?

##### COSMIC AWARENESS:

This Awareness indicates that essentially this is something else; that the 144 aspects may be seen as a kind of psychic arrangement that categorizes the various experiences for an entity; that it may be thought of similar to a processing system that puts the energies of the experiences into different categories. This Awareness indicates that the energies in these categories are then sent into higher levels or lower levels, depending on their nature. The aspects, however, are those divisions that create a system whereby these energies may be classified and processed.

#### DO ANIMALS COMMUNICATE WITH TREES?

##### QUESTION:

In reference to trees again; do animals such as squirrels, and various birds that live in trees, nest in trees, communicate with these trees; and if so, do they carry messages from one tree to another?

##### COSMIC AWARENESS:

This Awareness indicates that this to some degree. This Awareness indicates this communication between animals and trees may be considered as about as efficient as the communication between humans and animals. This Awareness indicates that there is a definite division between the communication of animals to plants, just as there is a division between the communication of animals and people. This Awareness indicates that some animals being more sensitive to plants than others, that some people being more sensitive to animals than others, allow for closer or greater degree of communication.

This Awareness indicates that these communications between animals and plants essentially are on the level of psychic communication; the recognition in essence of each other's being and nature.

##### QUESTION:

Some years ago, during an LSD experiment, I walked up the stairs out here. It was wintertime and there was a pretty good breeze blowing, and I stood and I noticed the trees. There seemed to be an aura around the tops of the trees, of very beautiful colors as I recall, sort of red. But the interesting thing that was so spell-binding, that the limbs of these trees, various alders and firs and cedars very close together, were almost doing a ballet. The limbs were moving through the air, so beautifully, and intertwining among one another without violating one another, or scraping; it looked like it was an incredibly beautiful thing to behold.

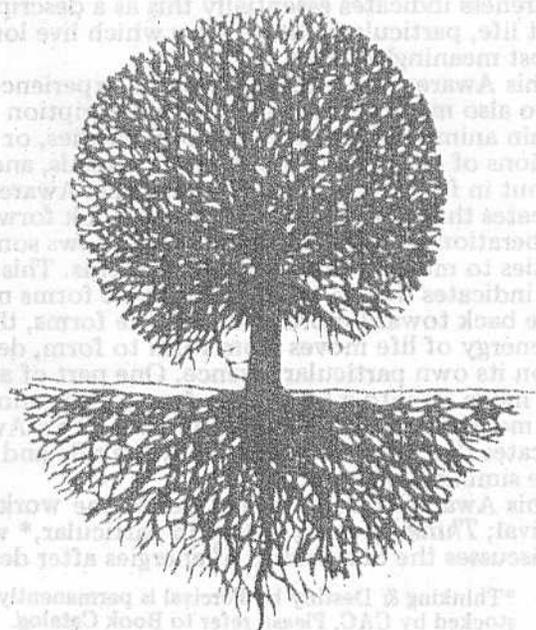

I'd like to ask Awareness, was I imagining all this, or is there something going on between trees in storms like that, that they don't violate each other, but is almost like a dance, a ballet. Actually, making love is more like what it seemed like?

##### COSMIC AWARENESS:

This Awareness indicates that essentially trees are paralyzed. They have no will of their own other than to grow and respond to the seasons and to the environment. This Awareness indicates that trees being totally passive in nature, are extremely excited when something moves them and creates some kind of life experience for them. This Awareness indicates that what you were sensing essentially was the unity of the trees, the wind, and the trees to each other; the sense of their essence or their recognition of their essences in life and in relation to the moving wind.

This Awareness indicates that you may better understand a tree by imagining yourself as being one who cannot see, cannot taste, cannot hear, and who experiences a wind as that which is a Divine Force coming to call. This Awareness indicates that trees simply wait and wait and wait, and when a wind approaches, it startles them into being somewhat more alive and awake, and wherein they touch other trees it gives them a sense of being, a sense of their own existence. It assists them in recognizing portions of themselves, for they cannot see the limbs, their leaves, and can only feel from inside, and when something touches them on the outside, this helps to define to them their nature.

This Awareness indicates that the part of a tree that is most aware and alive is the aura which surrounds the branch, the leaf, the limb and the tree. This Awareness

ness indicates this may be thought of as its most conscious mind, and the sap rising inside may be thought of as its subconscious mind. This Awareness indicates that the roots below as also that which is the deeper subconscious mind, whereby it seeks to hold on to its foundation of its being. This Awareness indicates the roots below, essentially, are to the tree the mouth that seeks the nipple, and the nourishment which gives it sustenance.

#### MEMORY AND EMOTIONS IN TREES

##### QUESTION:

Awareness once indicated there's a kind of built-in recording system in certain rocks. Is this true of trees,—that they record?

##### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that trees do have certain conscious memory; they do know when violations occur in their presence, near their being. Trees know when entities have been hanged from their limbs. Trees understand the joy of a picnic nearby. This Awareness indicates however, trees do not judge these actions. They do experience the joy or the frustrations which are felt by those in the area. This Awareness indicates that you may recall the experiments associated with plants whereby one plant witnesses the murder of another plant and registers on a particular type of meter whenever the murderer walks into the room. This Awareness indicates that the plant does not judge the murderer, but does react in fear to that entity who murdered a fellow plant.

This Awareness indicates that likewise, the plant would react similarly if the murder were that of an animal or a human, for the plant is aware of feelings of terror, fear, or joy and harmony. This Awareness indicates plants also are aware of impending storms and earthquakes, and other forces of nature, and can register responses before these occur.

#### RECORDING STORIES A TREE COULD TELL

##### QUESTION:

Will there ever be any kind of device invented that could be hooked up to some of these ancient trees, like the Redwoods, or the cedars of Lebanon which might reveal some of the history that happened around these trees during the thousands of years that they stood in that area?

##### COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This as that which would require that the nature of events be coded according to certain patterns, magnetic and electrical impulses, and that these be connected to magnetic and electrical impulses of trees in such a manner that would allow a communication to flow from the tree into the machine. This Awareness indicates that in order for this to be accurate however, it would first be necessary that the tree experience, that the tree's expression be discovered, that it be monitored to determine how the tree reacts to different things, so that the language of the tree could be deciphered.

This Awareness indicates that as a tree has certain responses to certain circumstances and these are extremely subtle in nature, relating to electrical magnetic changes or alterations in the aura and chemical makeup, this could be deciphered as a language whereby the tree's response to a certain type of action would be recorded, to another type of action recorded, to another type of action recorded, and so forth, until a full array of recordings is obtained to determine the reaction of the tree to various events.

This Awareness indicates that then it would be necessary to test these reactions, to make sure that they are consistent. It would then be necessary to have a form of communication developed whereby these activities could be triggered so that the tree could feel the impulses, and could respond accordingly, the impulses being likened unto a question, and the response being the answer. This Awareness indicates that it would be more difficult to obtain a kind of running history in terms of dates and other forms of information such as the names of individuals involved on particular dates, or how they were dressed. This Awareness indicates that essentially, this would be of great difficulty by using this type of message retrieval.

This Awareness indicates that the use of psychics through ESP or through the use of psychic equipment as that which could be more suitable for reading these energies. This Awareness suggests that the use of techniques which read through the human mind while linked to an object such as radionic-type machines as that which would be more suitable, letting the tree be the object, or a stone or other object could also be used.

\*\*\*

ED's Note: for more information on trees, please refer to 'Revelations of Awareness' No. 70-44 (How living trees feel the pain of the chain saw); \$2.00; also No. 80-27 (Hugging a tree for healing purposes); \$3.00 from CAC.

★ ★ ★  
Dr. Benjamin Spock, pediatrician and peace activist, believes that many children are insecure because they fear they will lose their parents in a nuclear war.

And that fear, in his view, is an excellent reason to work for a nuclear freeze.

Speaking at Oregon State University Sunday night, Spock called on parents to write members of Congress to encourage a nuclear freeze. But don't expect any help from President Reagan, Spock said, because Reagan believes that increasing American nuclear strength can force the Russians to abandon communism. That attitude, the doctor argued, is "stupid, insensitive and fantastically ignorant."

## HOW LASSIE COMES HOME

### QUESTION:

A question from D.A. in Minneapolis: "I saw a news story about a family who moved from somewhere in the South west United States to San Diego, California. Before they moved, they sold their dog Sam through a newspaper ad. Two and a half months later, Sam showed up at their back door. He looked a little tired, but overall he was in good condition. If he ran the entire 850 miles from his new home to San Diego, he should have looked more ragged, and also it would have been pretty hard for the animal to zero in on his owners, by following the highway. I have heard of several of these incidents in the past. Do these dogs really run all those miles, or do they somehow hitch a ride with someone they intuitively know is going in the right direction? How do the dogs get there? And what process do they use to find their owners?"

### COSMIC AWARENESS:

This Awareness indicates that animals, and particularly dogs and cats, have a kind of vibrational rapport with their owners. This Awareness indicates that cows and horses also have this kind of rapport.--this depending on the individual animal. This Awareness indicates that just as a person may have a psychic impression or understanding of where another entity is, likewise, animals may have these same impressions, but animals may have these even stronger for they do not have the rational words and rational thoughts interfering with their psychic abilities.

This Awareness indicates the animals simply "knew" where the owner's vibrations were coming from, and thus knew the direction to go, and the animal, knowing that he can depend on some entities, trust some entities to take him, did rely on his intuitive or psychic abilities to tune in and home-in on those entities who were traveling in that direction. The entity appears to have gotten a ride with some children who were going in that direction in their parent's car. This Awareness indicates that this appears to have led him close to the area, within approximately 50 miles.

This Awareness indicates the animal then appears to have used his attunement or psychic qualities to feel the vibrations of his master, and then followed his own instincts to arrive at the exact place. This Awareness indicates that similar actions occur on occasion with cattle who are, for example, taken away from a farmer, and who may walk some 20 miles to get back to their home. This Awareness indicates that this can occur even though the cattle may have been unable to see out of the truck which took them away.

This Awareness indicates that animals have a greater sense of tuning into the vibrations and following those instincts than do humans; the reason being that the rational mind tends to serve as interference with the intuitive mind.

## ALL ABOUT PUSSY CATS....

### Do They Transmit Disease?

### Why Some Hate Cats.

### QUESTION:

Another question about animals from J.W., concerning cats. "Many people are allergic to cats, actually the dander the cats have on their hair, and nothing else. Also, as Awareness has mentioned, cats tend to attract evil spirits, while dogs tend to repel them. There is some medical evidence...."

### COSMIC AWARENESS: (Interrupting)

This Awareness wishes to comment on this remark. This Awareness indicates that *It* did not say that cats attract evil spirits. *It did* say that cats tend to attract spirits, and dogs tend to repel spirits. This Awareness indicates that in many cases the cats are attracting good favorable spirits, not always attracting evil spirits. This depending on how the master of the animal is operating. This Awareness indicates likewise, a dog may repel good spirits for an evil master, and a cat may draw in good spirits for a good master. This Awareness indicates that these are but general terms, particularly in reference to terms such as "good", or "evil". This for the purpose of clarifying this information. This Awareness suggests that entities not make too much of this particular concept. This Awareness suggests the question continue.

### QUESTION (Continued)

There is some medical evidence that cats can be a transmitter of leukemia to humans. Cats have a high rate of leukemia, as well as other diseases. Cats do evoke strong feelings in many people, either positive or negative. Would it be best if entities ceased keeping cats as house pets? And is there any difference in the nature of people that lead some to strongly like cats, and others to strongly dislike them? I have heard that in Atlantis there were experiments involving transposing parts of humans to animals, and vice versa. Perhaps some who strongly dislike cats have this in their memories?

### COSMIC AWARENESS:

This Awareness indicates that this is correct; that cats do often carry leukemia. That they transmit leukemia is less likely. This Awareness indicates that it does not appear to be the same type of leukemia as is transmittable to humans. This Awareness indicates however, that entities do need to be quite cautious of diseased cats, for they can transmit those diseases such as leukemia to other animals. This Awareness indicates that also children playing with such diseased animals can become susceptible to various types of diseases.

This Awareness indicates that under some circumstances wherein a child's immunity system is quite weak, and wherein certain other factors might be present, it could occur that a disease such as leukemia could be transmitted. This Awareness indicates however, that this is not seen as ever having happened in the transmission of leukemia from cat to child, although there is conceivably the possibility under certain rare circumstances, particularly if a common carrier were present within the child, and this were to somehow become coexistent as a carrier of leukemia.

This Awareness indicates that in terms of cats and entities who like or dislike cats, there is also the same kind of attitude among entities who like and dislike dogs. Some entities love dogs, others despise dogs. Some entities love dogs and hate cats, and others love cats and hate dogs. This Awareness indicates that much of this is associated with an entity's own psychological needs. Some entities need the fondling and apparent love of a dog; the feeling that one who has a loyal dog is important to that dog. This Awareness indicates that the same entity may not feel the same sense of affection toward a cat, for the cat is not known as a loyal obedient servant, but rather is independent and seeks affection from its master, giving affection as it chooses, but not at all times.

This Awareness indicates that the cat is one which determines when affection is to be given or when it is desired, and when the cat does not feel like having or giving affection, it simply does not do so. This Awareness indicates however, dogs are *always* ready to give their affection. Thus, the entity who seeks to be master of his animal,--the entity who wants to feel in control,--is more inclined to favor the dog; whereas, the entity who seeks to be of service, or to allow more freedom of individuality, may favor the cat.

The affection of the cat being that which is given when the cat feels like giving, and whereby the entity can, on occasion, pick up a cat when the entity needs affection and the cat may or may not want the affection, and if the cat refuses affection and wants down, the entity, if being a cat lover, will tend to put the cat down and respect its wishes. This Awareness indicates that such an entity's basic quality which allows him or her to accept the cat in its erratic behavior, is the quality of respecting the feelings of others, and establishing a kind of relationship that is not based on the need to control.

This Awareness indicates that this is but a general evaluation of cat and dog personality types, and is not intended to cover every individual case. This Awareness indicates that if this question has not been fully covered that other aspects be asked at this time.

#### HOW THE CAT WAS TAMED IN ATLANTIS

##### QUESTION:

That part of the question where she suggested in Atlantis there were experiments involving the transposing of parts of humans to animals, and vice versa, and perhaps some who strongly dislike cats have this in their memories?

##### COSMIC AWARENESS:

This Awareness indicates that the Atlantis experiments with cats as that which was not related to transposing parts from human to animals. This experiment had more to do with bringing in from another dimension, this creature. This Awareness indicates that the experiments involved domesticating the cat through the use of attunement to spirits from another dimension. That these spirits were brought into the cat, and the cat thus modified until it became domesticated.

This Awareness indicates this would be likened unto calling forth a spirit to enter into this wild cat, and to tame this cat, and to make this cat domesticated. This Awareness indicates that this then brought about the tamed cat which could be communicated with, whereby a spirit could be used by those wishing to do so; the spirit being used from its abode within the body of the cat. This Awareness indicates in this manner, these

entities were able to tame lions and tigers, and also at other times in other experiments these entities used genetic and hereditary programs for breeding the cats smaller, as a household pet.

#### "CAT FEVER" AND OTHER DISEASES

##### CATS ARE RUMORED TO CARRY

##### QUESTION:

Sometime last year there were several articles in the paper that cats in the Northwest were carrying some kind of disease in their claws, and that at least one baby, and maybe more (I don't recall correctly), were scratched slightly by a cat, and the baby died. Doctors issued a warning to people that had babies in their house, not to let their cats in the house. Is there any truth to this, that cats carry some kind of germs on their claws or their feet that when they scratch a baby that the baby could get sick and die?

##### COSMIC AWARENESS:

This Awareness indicates that this can occur. That in this particular case, this appears that salmonella was involved in at least one of these instances. This Awareness indicates that this can be a concern; that it is of course extremely rare that a child's immunity system would not throw off the infection from a cat, except wherein the cat's claws had been contaminated with some extremely toxic or detrimental type of contamination.

This Awareness indicates that *It* does not wish to create paranoia among cat lovers and that these isolated cases are few in comparison to the number of entities who have cats and who have no such problems occurring.

##### QUESTION:

What about that disease they call 'cat fever', that allegedly is spread by cats? Does such a thing exist?

##### COSMIC AWARENESS:

This Awareness indicates that it appears there is such a disease that can be spread. This Awareness indicates that this does not appear however to be a significant problem. This Awareness indicates that the custom of keeping cats and dogs in one's home as that which is somewhat dangerous if entities wish to have a more sterile atmosphere preventing disease, for these animals do not have the understanding or ability to avoid contamination.

This Awareness indicates that likewise, dogs can be carriers of disease, rats can be carriers of disease, and birds can be carriers of disease. Also, food which is purchased may carry disease, disease can be carried by individuals....this Awareness indicates however, it is a question of whether or not to become overly concerned about disease and germs or whether to risk some things. This Awareness reminds entities of Howard Hughes in his latter days, wherein he would not touch a doorknob without first taking a kleenex to go between his hand and the doorknob; this entity being so frightened of germs that he literally shut himself off from life.

This Awareness indicates there is always some risk in every type of activity in which others are involved, whether these are people, or animals. That it is important not to minimize dangers of disease; it is also important not to become overly concerned to the point of paranoia, unnecessarily worried. It is important to wash your hands before eating, or putting them in your mouth, particularly if you have a weak immunity system.

This Awareness indicates if you contact disease easily, if you catch colds easily, then likely your immunity system is weakened and it would be important to protect yourself from these contaminants. This Awareness indicates that some entities have such strong immunity systems that they could literally eat germs from a mold, or from contaminated food and it would hardly phase them. Another, eating the same thing, even a small amount, could become deathly ill.

This Awareness indicates that entities should consider all these things, and keep things in perspective. That it is advised that wherein possible, entities should keep animals out of their homes, or if allowed in the home, should be cautious and keep the home clean.

#### ARE CATS A THREAT TO YOUR BABY ?

##### QUESTION:

Awareness, when I was a little kid, there was a story I was brought up with, as well as others in the area, that one should never have a cat in the house if they had a baby in the crib. That the story went that there were incidents of the cat climbing in with the baby to sleep with it, and heading for a chakra or something near its throat and face, would put its nose into the baby's nose, and smother the baby. That story was really rampant, but I've never heard of such a thing actually happening. Is this a threat to babies, or was that just an isolated story?

##### COSMIC AWARENESS:

This Awareness indicates that it does appear that the story had some substance in an actual event, whereby a child was smothered, and it was determined that the cat was the culprit. This Awareness indicates that this appears to have been a story circulated in the news during that time. This Awareness indicates that it appears however, that this cat was not in actuality the cause of this. That this appears to be an early case of that which is known as the sudden infant death... the child having died from other causes.

This Awareness indicates however, that the story as that which was circulated widely, and one which was of such significance that entities believed it to be true. This Awareness indicates that it also served a good purpose in keeping cats away from children. This Awareness indicates that this is strongly advised for the reason that cats often carry worms, and the worm eggs often are near their noses, and can be transmitted easily to a child, who then can contract the worms in his or her system.

##### Worms in Children--How to Prevent

This Awareness indicates that this as particularly a problem in earlier days wherein the cats ran around in barnyards, where the worms were prevalent in the various secretions of the animals. This Awareness indicates that even today, there are many occasions wherein cats carry parasites. This also is true with dogs. That children often tend to let animals lick their faces, their lips, their hands. This Awareness indicates that this is inviting problems in regard to pinworms, tapeworms and other types of parasites.\*

Although entities may experience animals in this manner for long periods of time without ever having such problems, this depending on whether the animal does in fact have worms, and whether the individual has the digestive tract which is conducive to the growth of worms. This Awareness indicates that wherein a child or individual eats a large amount of sugar, or sugar products, this is a

great breeding place for worms. That many adults do not catch worms, although the children do. This Awareness indicates that this is largely because of the diet, wherein the children are more drawn to sugars and sweets, whereas the parents may avoid such.

This Awareness indicates that any entities who do have worms, and these are many, should not only avoid sweets and white flower products, carbohydrates in general, but particularly sugar products, but should also consult their doctor or druggist for worm medicine. This Awareness indicates there is quite a procedure involved in this action, whereby all clothing should be washed, all bedding must be cleansed, and the house completely vacuumed and decontaminated. This Awareness indicates that this may need to be repeated also.

This Awareness indicates that parasites can be a very serious side-effect of having animals in one's home, or of having close contact with animals.

\*\*\*

\* ED's note: this rap reminds me of the joke that one of the local comedians tells late at night in the bistros around Olympia. During a routine about dogs he says (in much more earthy language), something like:

"I'm not so sure that dogs are really man's best friend. Just stop and think about it. Your dog lays around all day licking his genitals and rectum, and the first thing he does when you get home is to jump up and lick your face."

#### PARASITES IN HUMANS--HOW TO PREVENT

##### QUESTION:

While we're on this subject, J.W. has a question: "Awareness has mentioned pumpkin seed oil as excellent for parasites. Does pumpkin seed oil act only on the intestinal tract, or is its antiparasitic action effective throughout the body?"

##### COSMIC AWARENESS:

This Awareness indicates this throughout the entire system, including the brain. This Awareness indicates that entities who have eaten large amounts of pork during their lifetime; entities who have problems with thinking, problems with memory, headaches, eyestrain, pains in their joints, may actually be experiencing the symptoms of parasites. This Awareness indicates that particularly trichinosis from pigs as that which creates a parasite that forms pains in the muscles, and this parasite will grow and multiply in that area.

This Awareness indicates that trichinosis as that which comes from eating raw pork, or uncooked pork, pork which has not been fully cooked. This Awareness indicates that other parasites may enter and lodge in the brain and begin to eat away at one's brain, causing loss of memory, causing anxieties, causing hostilities, causing angers, causing poor vision, causing headaches and other symptoms. That these parasites can slow the brain, and can lead to various types of brain problems whereby the entity loses control of his ability to think or to properly activate and motivate the body mechanisms.

This Awareness indicates that any entity who has similar symptoms to any of these should consider the possibility that he or she may have parasites in the body. This Awareness indicates to be on the safe side, it is advisable for all entities, regardless of whether they believe they have parasites or not, to use approximately one bottle of pumpkin-seed oil per year. This Awareness indicates that this may be taken directly, or may be used as an oil in salads, or in other foods.

QUESTION:

How about capsules?

COSMIC AWARENESS:

This as appropriate also.

QUESTION:

I wonder if this would be effective for this lady in this next question from J.N., Santiago, Chile. He writes: "I have a friend, Nancy G., who has had severe migraine headaches for 15 years. She is constantly (every day) taking a Sandoz drug called Cafergot to control her migraines. The drug contains a large quantity of caffeine and small amounts of ergotary tartrate and belladonna alkaloids. Fifteen years of the above would seem to me to be seriously damaging her health, and is damaging her economically. Could Awareness give her a better solution to remove these migraine headaches?"

COSMIC AWARENESS:

This Awareness suggests that the pumpkin-seed oil as that which can be beneficial. This Awareness indicates also that the entity should drink a considerable amount of water before going to bed. This Awareness suggests at least 6 to 8 ounces of water before going to bed. This entity appears to dehydrate somewhat during her sleep. This Awareness indicates also that it appears the entity does need a neck adjustment. The atlas does appear to be in need of alignment. That a chiropractic doctor could be very helpful in this regard.

This Awareness indicates that the entity also is in need of cleansing; that a good laxative, or preferably the use of psyllium seed, such as is found in Metamucil or the pure psyllium seed itself should be used for two days straight, followed then by acidophilus culture; approximately one bottle taken within a week period. This Awareness indicates that this cleansing of the intestinal tract as that which will help to remove many poisons.

This Awareness indicates that the entity also does need more calcium and magnesium in her system.

\*\*\*\*\*

ED's Note: this question is a good example of how Awareness, when asked a question about a specific entity (in this case a solution to migraine headaches), instantly tunes into that entity, even though as in this case the entity was thousands of miles away, living in another country. I have asked Paul about that, what it is like in trance when a question like that is asked. He said it's like any personal reading or trance healing, he feels Awareness simply tuning into the energies of that particular entity and instantly that entity's entire physical, etheric, causal, and astral bodies are seen and it is no problem to see what is causing the problems. Even though there may be many 'Tom Jones's' in Philadelphia, when a question is read about a specific Tom Jones, Awareness unerringly tunes into that specific entity. I have read questions from unsigned letters, from "Betty" who forgot to write down her last name or city, and still Awareness tunes in to the correct entity. This has always sort of amazed me until recently, having witnessed this phenomena so many times now it is just taken for granted. (Avaton)

For more information on parasites and how they exist in alcohol and eat the brain matter of entities who ingest this substance; and also information on pumpkin seed oil, please refer to 'Revelations of Awareness' No. 81-22 (The Problems with Alcohol); \$3.00 from CAC.

(Closing Message)

This Awareness indicates that there is seen another serious problem in relation to parasites: this being that which is the fungus--there being seven types of fungi which entities may experience within their system. There also being a kind of yeast which grows within the human system and which can, along with the fungi, become most damaging to an individual. This Awareness indicates that many of the experiences which are diagnosed as cancer are in actuality caused by fungus infections.

This Awareness indicates that the yeast infections which are commonplace among many now, and which are easily transmitted, are also a serious problem. This Awareness suggests that entities having symptoms of nervousness, of itching, of rash, of headaches, of gastric problems, of flatulence, and of digestion problems should consider the possibility that they are experiencing a reaction from yeast infection. This Awareness indicates that usually this is easily detected by any doctor. This Awareness indicates that this also can be helped by almost any doctor.

This Awareness indicates that the fungus is often more difficult to determine. That this can lead to a breakdown in the immunity system. That it can in fact, weaken the immunity system so seriously as to allow the system to contract other diseases such as cancer or leukemia. This Awareness indicates that if you are suffering from irritability, headaches, gastric and stomach problems, and a feeling of being hungry, but unable to eat without adverse effects, moles and skin bumps appearing on your body, a craving for foods that carry mold, or form mold quickly and easily such as fruits, nuts, breads, grains...it may be that you have some fungus in your system which is causing problems.

This Awareness suggests in which case, It suggests you consider discussing this with your doctor. This Awareness indicates that also, you should avoid those foods associated with mold and fungus such as the grains, nuts, breads and fruits and to determine when avoiding these foods if you are beginning to feel better. This Awareness indicates that this is not proof that there is a fungus problem, but this Awareness indicates that the avoidance of such foods may be one indication. It may be also that if you feel better when avoiding such foods that you simply have an allergy to these foods, even though you may not have a fungus problem.

\*\*\*

## THE DILEMMA OF THE CATHOLICS WORKING FOR THE WAR MACHINE

(Nov. 12, 1982)

QUESTION:

Awareness, there's been numerous interviews on the television media lately, of entities who were working for the war machine in factories, such as those that make missiles and warheads; entities who quit their jobs because of this moral conflict, and were being interviewed because of this, even in the middle of a depression. Now recently, 300 Catholic Bishops met in Washington D.C. over this very issue, and they decided they've sided with the Seattle Archbishop Huntshousen, who almost alone, had been espousing this same philosophy. That they said essentially that: "The destructive power of nuclear weapons has raised new moral issues", and they declared, "The moral issue at stake in nuclear war

involves the meaning of sin in its most graphic dimensions. Every sinful act is a confrontation of the creature and the creator. Today, the destructive potential of the nuclear powers threaten the sovereignty of God over the world He has brought into being. We *could* destroy his work." The committee supports an immediate verifiable agreement to halt the testing, production and deployment of new nuclear weapons, as well as deep cuts in the nuclear arsenals of both the United States and the Soviet Union.

And they went even further, as I understood, to state that: any entity, any Catholic entities involved in working for the war machine in the production of these destructive weapons, that this was now to be considered as a sin. And my question is: if this is true, they make this a sin, and there's 500 million Catholics (supposedly) in the United States, and many many more around the world...what significance is this going to be to those who would create and plan for a nuclear war?

#### COSMIC AWARENESS:

This Awareness indicates that this can have a profound effect upon the attitudes of the members and followers of the Catholic faith, and can in time have its coloration and effect on those of other religious organizations. This Awareness indicates that this can in time begin having its effect on the Protestant churches as well. This Awareness indicates that it is properly assessed that such action as supporting the war machine through occupations, or through other means, is in fact as sinful as many of the other activities which the church classes as sinful.

This Awareness indicates that this war machine as being created for one purpose. That purpose being to be able to destroy life. This Awareness indicates that whereas the argument for the war machine is that it can serve as a deterrent, the only way it can serve as a deterrent is in its capacity to destroy life. This Awareness indicates that the major purpose being to destroy life, and the use of such war machine as being to deter; this as an argument which is used by these forces that support the war machine. This Awareness indicates however, that any entity looking at the facts can see that the war machine as being so over-built, so over-complex, so completely out of proportion with any efforts toward peace, that entities who put their entire hopes of peace in a greater and greater weaponry system; this as likened unto the Hatfields and McCoys feuding in their valley, whereby the Hatfields and the McCoys each build up greater and greater arsenals until they are capable of destroying the entire valley one hundred times over, and still feel they do not have enough deterrent against the other, and rather than putting the masses of their energies into finding some way to reconcile their differences, instead cry out for greater and greater deterrent, through greater destructive potential, each building up the ability to destroy the valley one more time,

This Awareness indicates it is utter insanity by anyone's level of consciousness, and those who pursue this course are indeed, less than sane. This Awareness indicates it is appropriate, even if late, that the church should indeed begin to recognize the error in supporting the war machine. This Awareness indicates it is pathetic that other churches have not yet awakened to this reality.

\*\*\*

ED's Note: since this reading was given, President Reagan and others put much pressure on these Catholic bishops. When they met again, their decision was so watered down that even Reagan stated it met with his approval. Actually more and more Protestant churches are joining the movement on this moral issue, even though certain forces have spread rumors that the Communists are behind the peace movement. (Strange, isn't it. You have to be a Communist these days to want a peaceful world). All of this is very ironic indeed, because for centuries the Catholic church has been the biggest seller of war materials (to all sides) than any other country in the world.

... GETTING HISTORY STRAIGHT:

## HOW U.S. PLANNED SNEAK ATTACK ON PEARL HARBOR

QUESTION: ( August 4, 1980 )

In this month's *Revelationary News* put out by the SPIRAL organization in North Carolina, the entire issue is devoted to a book called *The Controversy of Zion*, by Douglas Reed, \* which spells out part of the conspiracy that happened just prior to World War II, and I'll read just a little bit of this. It's to prove that a situation was contrived so that the Japanese were actually induced to fire the first shot. He says: "In the first war President Wilson, re-elected on the promise to keep his country out of war, immediately after his reinauguration declared that 'a state of war exists'. In the second war, President Roosevelt was re-elected in 1940 on the repeated promise that 'your boys are not going to be sent into any foreign wars.' His electoral program, however, included the five word provisional, 'we will not send our armies, navies or air forces to fight in foreign lands outside the Americas except in case of attack'. The importance of this provisional was shown on December 7, 1941, when the Japanese attacked Pearl Harbor.

Twelve days earlier, Mr. Henry Stimson, the Secretary of War, after a cabinet meeting on November 25, 1941, had noted in his diary: 'The question was how we should maneuver them, the Japanese, into the position of firing the first shot without allowing too much danger to ourselves. It was a difficult proposition.'

Now, one of our members, Dr. L.F., in North Carolina, has sent a photo copy of a story that appeared in the *Philadelphia Enquirer*, Sunday morning, Jan. 18th, 1942. The caption is *Japanese Planes at Hawaii Piloted by White Men, Ex-Philadelphia Girl Writes*.

In the first paragraph of the story: "The red rising sun was on the wingtips of the planes that blasted Pearl Harbor last December 7th, but in many of the ships *white hands* were at the controls and *white faces* peered from the cockpits as death and destruction were visited upon the American outpost. The revealing fact that white pilots flew Japanese planes in the treacherous attack was brought to light a few days ago in a letter received in Bayonne, New Jersey, by a 23 year old former Philadelphia girl who witnessed it first hand, 'the slaughter and horror of the terrific bombardment.'

I'd like to ask Awareness to comment on that story.

\* 'The Revelationary News' is put out by SPIRAL News Network, PO Box 139, Balsam Grove, N.C. 28708. (Sample copy \$4.00). 'The Controversy of Zion', by Douglas Reed, is available from Omni Publications, Box 216, Hawthorne, California, 90250. Price \$15 plus \$1 postage.

## COSMIC AWARENESS:

This Awareness indicates that this as essentially correct. This Awareness indicates that the attack on Pearl Harbor and bringing the Japanese into the war was planned in part by certain factions of the American government. This Awareness indicates this particularly working through that which was known as the Pacific Institute (or some similar name), in Japan. This Awareness indicates this as an organization set up in Japan by the Rockefeller powers working in that area to create economic and political situations and agreements which could be enhanced or broken, according to the design, to bring friction between the two nations. This Awareness indicates that this included the appearance of diplomatic efforts between these nations whereby exchanges of communication, travels between the nations, were presented for public viewing to imply that efforts were being made to create workable relationships when, in fact, these actions were but for show and to focus attention and to create greater excuses and reasons for the appearance of hostilities between the nations.

This Awareness indicates that along with the attack on Pearl Harbor, there were certain entities who knew well ahead of the imminent attack and informed those in power, including the President, that the attack was coming. This Awareness indicates these entities were isolated, held in seclusion, so that the message could not be released. This Awareness indicates that this message having reached the White House approximately five days before the attack. This Awareness indicates that the telegram from the President being wired to the military leaders in Hawaii warning of the attack was sent by commercial wire, which took three days to arrive, whereas the emergency message system could have delivered the message in a matter of minutes. This Awareness indicates this as part of the delaying action of warning the military leaders in Hawaii, but warning them too late to be able to counter the attack. This Awareness indicates all of this as having been set up deliberately by entities working behind the scenes wherein the President was used for this purpose, partly with his understanding, partly without his full understanding. This Awareness indicates that in the meeting with Sir Winston Churchill, the President Roosevelt was informed by the entity Sir Winston Churchill that the United States would need to become involved in the European war. The President reminded Winston Churchill that he could not declare war on his own, but would need the support of the people and Congress. This Awareness indicates that it was decided at this meeting that the best way for the United States to become involved was if it were attacked first, and the plan then became revealed that the attack from Japan would be sufficient to allow the United States to enter into the European war as well. This Awareness indicates that the then Secretary of Navy, Forrester, as also being one who was aware of this information. This Awareness indicates that the entity later as having committed suicide as a result of discovering what had occurred.

This Awareness indicates that this as available in various history sources. This Awareness refers entities to the Memoires of Sir Winston Churchill and also to references in Forrester's diary. This Awareness indicates also that a book by Hartford Van Dyke recounting his uncle's experiences as an intelligence agent in Hawaii during that time, whereby he informed of the newly discovered attack which was imminent and was himself held by gunpoint until the attack had occurred. This Awareness indicates this book by Hartford Van Dyke is known as *The Skeleton in Uncle Sam's Closet*. \* This Awareness indicates there are also other sources of information relating to this. This Awareness suggests also that some underground books on economics as

containing information relating to this, one called the *Second Rebellion*. This Awareness indicates that this appears to be written by an entity named Mary Hall. This Awareness indicates that name as not certain, this as questionable, that the title *The Second Rebellion* appears to be correct. This Awareness indicates this *Second Rebellion* as dealing with the Pacific Institute and the Rockefeller powers on their involvement in the manipulations to bring Japan into the war.

\*ED's Note: We could find no record of these 2 books.

## WHO WERE THE WHITE PILOTS WHO BOMBED PEARL HARBOR?

### QUESTION:

Some of these bomber pilots who were identified as white men, they also found white bodies in some of the planes that were shot down at Pearl Harbor. This information evidently did not make the controlled press at the time. Would Awareness identify who these white men were?

### COSMIC AWARENESS:

This Awareness indicates that these entities as having been, as indicated by the author, Zionists. This Awareness indicates it appears that there were involved with these, certain Americans and some who might be termed Jewish-Germans, who had fled the European scene, having moved to America to escape the Nazi movement. This Awareness indicates there also were British pilots involved and these entities being used to assist in bringing America into the war for the purpose of involving the United States in the European theater of war as well as the involvement with the Pacific. This Awareness indicates that this as having been arranged in part, to a large part, through that Pacific Institute in Japan.

### QUESTION:

Awareness, did those Japanese leaders actually believe that they could win a war with the United States, or was it more sort of a kamikaze suicidal-type of action that they were programmed into doing?

### COSMIC AWARENESS:

This Awareness indicates that these entities as having been given certain assurances in terms of their capabilities. That these entities also as having been given information in terms of the power available to the United States which, in fact, was accurate at the time. This Awareness indicates that essentially, the majority, the main force of the United States naval power was harbored at Pearl Harbor, and they believed, and were influenced to so believe, that if they destroyed that fleet they would have the control of the Pacific. This Awareness indicates that this was the influence and the reasoning whereby they felt it was possible to win against the United States.

This Awareness indicates they did not fully understand the capability or potential in terms of munitions-building potential, the capability of the United States to mobilize quickly and so efficiently for war. This Awareness indicates that this kind of rapid mobilization was beyond their comprehension; therefore, they felt relatively safe in believing that by destroying the major part of the fleet, they would have supreme power in the Pacific.

## KISSINGER'S PLAN TO REARM JAPAN

### QUESTION:

When the Japanese surrendered, one of the terms was that they would never again arm themselves. There have been stories in the paper lately that entities in Washington D.C. are now claiming that it is necessary that Japan start mobilizing and arming itself. Would Awareness comment on that possibility?

### COSMIC AWARENESS:

This Awareness indicates that essentially, this as the continuation of the program of Kissinger's 'Arc of Crisis' which was discussed earlier. This Awareness indicates that this 'Arc of Crisis' as having been intended as a program whereby all the nations from the Middle East down around through India, the Southeast, the areas of Korea and Japan and the European nations near that which is Eastern Europe,--that this entire arc surrounding the lower half of Russia, and also including China, was to have been either used for Allied Forces to threaten Russia, or to be destabilized so that the instability would become a threat to Russia. This Awareness indicates this 'Arc of Crisis' as essentially intended to create such instability in those areas that Russia would be involved throughout the areas and would not have time to deal with the United States;--this giving the United States a potential opportunity for a surprise attack on Russia.

This Awareness indicates this as having been a plan to be used after the Rockefeller powers and Kissinger and the Bolsheviks discovered that the Russian Skoptsis had taken control and had driven out the Bolsheviks and that the Russians were no longer working with the Bolsheviks and Zionists in the plan for world conquest. This Awareness indicates that the action of attempting to rearm Japan as that which was being pressed greatly by the United States as part of this total scenario. This Awareness indicates that much of the efforts along these lines has been thwarted by events which have taken place during the past fifteen months.

## HOW WORLD WAR 2 COULD HAVE ENDED TWO YEARS EARLIER

( July 2, 1980 )

### QUESTION:

The *Spotlight* newspaper of June 2, 1980, ran an incredible story by Douglas Basota that he had interviewed all the German generals, including Von Ronstad, and they all said that Germany had lost World War II in 1943 or earlier and they had approached the Allies many times trying to effect surrender terms, even promising to jail Hitler and to use their armies against the Russians now invading Europe. They claimed that after D-Day in France the Allies deliberately left a hole open so that the German armies could escape. The British held General Patton back to allow this escape. The Germans could not believe their eyes and at first thought it was a trap. The war could have ended then instead of two years later and millions killed or wounded and most of Europe left in ruins. The author concluded that greed for profits to be made in the rebuilding of Europe was at the bottom, plus the fact that Britain and the Internationalists wanted to erase Germany from the map, so Britain would reign supreme in Europe. Would Awareness comment on the authenticity of this article?

### COSMIC AWARENESS:

This Awareness indicates that this appears to be approximately 60% or 70% accurate. This Awareness indicates that the article, however, as implying a greater opportunity for Germany's surrender at that time than was actually the case. This Awareness indicates the number of officers involved in this and the rank and their influence on the total affair as not being so impressive as the article might imply. This Awareness indicates there were still strong forces in Germany which were not inclined toward this action at that time. This Awareness indicates that this as also related in part to the attempted assassination of Adolph Hitler and was also linked to Rommel and other officers who were seeking to end the war.

### QUESTION:

Is his contention true that certain Allied commanders deliberately allowed a hole to be left open after D-Day and held back Patton and allowed his tanks to run out of Gasoline and so forth to allow the German armies to get through that hole?

### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That the General Patton was not one of those who was informed of this action, nor did he have any intentions of doing this. This Awareness indicates that this as intended to allow those officers who were ready to surrender to have the opportunities to move out of the danger areas and to defect and give information to Allies and also to deplete the German forces of some of the leadership. This Awareness indicates that this also was set so that it could be used as a trap if necessary.

\*\*\*\*

## WHEN WE ARE REUNITED WITH GOD, WILL WE CEASE TO EXIST ?

( The Soul is Defined )

### QUESTION:

C.W. of Canton, Ohio, asks: "When we become spiritually perfect and unite with God, will we become extinct? Do we cease to exist as what persons we were?"

### COSMIC AWARENESS:

This Awareness indicates that you become a New Being; you retain the memory of all that has been part of you in your deeper regions of yourself, yet these memories may fade except when you seek to recall these experiences. This Awareness indicates that as you become more attuned to the immediate present and your awareness is focused more on *now*, that which is passed,--the "me", the self,--loses its significance; and therefore, you may think in one sense that you are no longer the person you once were, because you are no longer thinking of the events of the past and are more in the present.

This Awareness indicates that spirit is present, soul is past. The soul is the record of all events of your past; and the accumulation of these events, experiences, and activities create that which is the soul. This Awareness indicates the totality of all of your past experiences is the soul, yet your present experiences and present attention and activities is that which is with the spirit, or presence of God, the immediate "now"; that which is the past is no longer of great significance.

The soul is always present, and you may draw upon the soul for energies to deal with the present. This Awareness indicates however, you will not be inclined to dwell on the past, to dwell on the soul's energies when living in the present.

This Awareness indicates that the entity who looks back, (as Lot's wife looked back), and seeks to hold onto past self; the frustrations of the childhood of one's soul many lifetimes back, or in early parts of the present lifetime: the frustrations which made you what you are--the joys of the past, the joys of the sorrows, the friends and loved ones...all of these which make you what you are today,--this moment, --may be absolutely necessary in creating you as you are. But if you dwell on the past and forget the present, you lose the spirit; and though you are locked within the soul, you may find yourself crystallizing as a pillar of salt, in material realms.

The matter is of the past, the reality of the present. The spirit is present, the soul is past. The soul brings you as a vehicle to the present, and it allows you to look to the past. This Awareness suggests that it is a servant to your spirit. This Awareness suggests however, that you not allow yourself to become locked up, imprisoned by things of the past; that you use the soul and its memories, its experiences, its accumulation, for your present realities and abilities, for it gives you great wisdom from all of the experiences of the past. This Awareness suggests that to live in the past is an error, but to draw from the past is divine.

(Closing Message) The Law of the Vacuum

This Awareness indicates that energies create a vacuum behind them, the vacuum draws forth other energies. That wherein entities move toward the Light, wherein entities move toward higher spiritual dimensions, wherein entities move toward higher levels of consciousness; these entities create a vacuum which draws in others to fill that void which the entity left behind, and in this manner when one entity progresses toward higher levels of awareness, others are drawn toward higher levels of awareness.

\*\*\*

For a complete definition of this Law, please refer to the booklet, "The Cosmic Laws of Cosmic Awareness." (\$3.00 from CAC)

... A COSMIC AWARENESS BOOK REVIEW:

THE SPEAR OF DESTINY

(How Focused Energy Can Become Significant)

QUESTION:

J.N.H. in Kentucky writes: "The membership may be interested in knowing that One Books Pub. Co., of Bradenton, Florida, has back in print the paperback, *The Spear of Destiny*, by Trevan Ravenscroft which involves the use of the spear of Longinus to invert the force in a bid to conquer the world. I've never heard Awareness comment on the spear and its occult properties, previous and present owners. A new book just published called *The Cup of Destiny*, by Ravenscroft, focuses on the life-giving qualities of the cup, whereas the previous book dealt with the death-dealing properties of the spear." Would Awareness care to give a book review?

COSMIC AWARENESS:

This Awareness indicates that these representing in an allegorical sense, the mind and the heart. That the cup symbolizing the heart, the spear representing the mind. This Awareness indicates that these as being allegorical in their meanings, yet also having certain power in consciousness, in part due to the energies attributed to them as allegories and symbols. This Awareness indicates that these books appear to be valuable reading for entities inclined in this direction, as having much insight and information which can be enlightening in regard to these energies which often operate to inspire movements of a social, political, national and historical type.

This Awareness indicates that there are many ways whereby suggestion can create significance, and significance can create power. This Awareness indicates it is not always necessary that the suggestion be based on some absolute reality. It is only necessary that the suggestion be based upon something which is believed. This Awareness indicates that if, for example, an entity provided someone with a fingernail, and claimed that this was the fingernail of the great god Bobo, who was the originator of the first force of the Universe, and if enough people believed that this fingernail had the power and vibration of the great god Bobo, and if entities, in relying on the power of this fingernail, determined that they would in fact make use of the power of Bobo to conquer and accomplish great things; these entities could very easily, based upon their belief, (even though false as false can be), these entities could very easily gain great strength by carrying about in their coffers that fingernail of such mystique.

This Awareness indicates that they could in fact, by the faith in that fingernail, conquer and do all sorts of wonder, based upon the faith they may have developed in that fingernail. This Awareness indicates that symbolically speaking, energy which is focused on anything, creates significance. If you place the fingernail on a bedsheet, place the bedsheet on the desert, have signs pointing from all directions toward that bedsheet, have arrows on the bedsheet pointing toward the fingernail; that fingernail will take on a power and significance simply because of the focus which is directed toward it.

This Awareness indicates that likewise, if the arrows are all going in other directions and entities have not heard of the significance of the fingernails, entities stumbling through the desert, seeing the arrows, would walk over the fingernail without notice, in order to follow the arrows, to see where they lead. This Awareness indicates that the significance is not so much the target, the significance is that the energies which can focus, are capable of creating energy points.

\*\*\*

ED's Note: the so-called 'Spear of Destiny' is allegedly the spear used by a Roman soldier to pierce the body of Christ on the cross. The Vatican of Rome gets a kick out of squirreling away stuff like this, claiming years later that they are 'sacred relics'. Would you believe the foreskin of Jesus is still intact in one of the jars there? Like the Shroud of Turin, most of that stuff is fake, and even if it weren't, would be of little significance. Why this is so can be found in 'Revelations of Awareness' No. 77-25 (The Shroud of Turin); 50 cents from CAC.

Question Authority

# Moscow Threatens Nuclear Soviets First Strike on U.S.A. propose N-freeze

## Soviet peace march decidedly anti-U.S.

MOSCOW (AP) — Hundreds of thousands of Soviets, police and organizers with megaphones, marched past Embassy and down a dozen windswept Moscow streets in a massive demonstration for peace and against "American aggressors."

## \$4.2 billion: Pentagon in spending spree

WASHINGTON (AP) — The Defense Department went on a \$4.2 billion spending spree Friday, the first day of the 1983 fiscal year. Yesterday, it spent \$1.2 billion.

## Andropov threatens missile retaliation

MOSCOW (AP) — President Yuri V. Andropov, reported suffering from a painful kidney ailment, met with West German Chancellor Helmut Kohl today and warned there would be a "prompt" nuclear response if new American missiles were deployed in Germany.

## Nuclear war would be hell, Andropov warns Germans

MOSCOW (AP) — Warning that nuclear war "would be a hell for the whole of mankind," President Yuri Andropov yesterday urged West German legislators not to deploy new U.S. missiles this winter.

## Brandt warns of missile race

WASHINGTON — The Soviet Union will deploy new ballistic missiles in Czechoslovakia and East Germany if the United States goes ahead with placing missiles in West Germany in December, says former West German Chancellor Willy Brandt.

The Soviets will also likely break off intermediate nuclear forces (INF) negotiations with the United States, Brandt said. "If we do not run into a catastrophe, some day they (the negotiations) would start again," he told a breakfast meeting of reporters Thursday at Foreign Policy magazine headquarters.

Brandt's view conflicts with that of the Reagan administration, which argues that deployment of Pershing II ballistic missiles in Germany and ground launched cruise missiles in Western Europe will force the Soviets to make concessions at the bargaining table.

## Moderate quake hits Northeast

By The Associated Press  
A moderate earthquake centered in New York State was felt in parts of New Hampshire, Massachusetts, Rhode Island, New Jersey, New York and Ontario in Canada north to Montreal.

## Kremlin threatens to target U.S.

MOSCOW (AP) — The Soviet military chief of staff, in a highly unusual article for the Tass news agency today, reiterated the Kremlin threat to target new missiles on the United States if NATO begins deploying new American rockets in Europe this December.

Marshal Nikolai V. Ogarkov, who is also first deputy defense minister, quoted Defense Minister Dmitri F. Ustinov as saying in an August 1982 interview: "We shall adopt such response measures that would make the military threat to the territory of the U.S.A. and the contiguous territory U.S. missiles will be deployed, equal to that which the U.S. is trying to create for the Soviet Union and not saying that such possibilities will be."

was felt in parts of New Hampshire, Massachusetts, Rhode Island, New Jersey, New York and Ontario in Canada north to Montreal.

In Washington, State Department spokesman John Hughes characterized the Andropov statement as "nothing new."

# Extinction

IS NOT SOMETHING  
TO CONTEMPLATE;  
IT IS SOMETHING  
TO REBEL AGAINST.

Do Something For Peace Today!

# NO FIRST USE ! OF NUCLEAR WEAPONS

HELP GET THIS INITIATIVE ON YOUR STATE'S BALLOT SO IN 1984 THE PRESIDENT KNOWS HOW YOU FEEL!
