## The Cosmic Awareness Forecast for 1984

Paul Shockley  
Interpreter

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as "Channels" for the "Heavenly Father" and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

## A MESSAGE FOR THE LIGHT WORKERS.... How to deal with the Neanderthal Consciousness

(Opening Message, C.A.C. General Reading No. 1 )  
November 10, 1983

### THE NATURE OF THE MIND

This Awareness indicates that the nature of the mind is to seek an undisturbed place, or state, a state of rest. This Awareness indicates that when a disturbance occurs, that which requires the mind to be alert, the mind then becomes active until there is no further cause for such activity and the mind then again moves into a undisturbed state. This Awareness indicates the disturbance as that which creates an anxiety, uncertainty, insecurity or pain.

This Awareness indicates that the anxiety, uncertainty, insecurity or pain being created by the disturbance, forces the mind to act in such a manner as to reach a conclusion whereby the concern is ended and the concern is resolved so that the mind can return to its undisturbed state of rest. This Awareness indicates that because of this particular phenomena of the mind and the tendency of most entities to seek resolution of disturbances quickly, there is a tendency in meeting disturbances to latch on to whatever solution appears to bring a state whereby the mind can reach a conclusion and stop being concerned.

This Awareness indicates from that point further, the mind, the conscious mind, can allow the emotions, and allow the less conscious mind (the what may be termed bicameral mind, or the more animalistic mind ) to function on automatic pilot state, whereby it acts without further conscious effort. This Awareness indicates that this is the mind that allows an entity to work at a repetitive occupation without consciously thinking about the action.

This Awareness indicates that wherein there is a disturbance and an uncertainty, this aspect of consciousness, this mind of this aspect of the mind cannot function automatically. It needs to await a command from the conscious mind which allows it then to begin its action on an automatic or ritualized approach. This Awareness indicates that all routines, daily habits, all personality habits and so forth are acquired in this manner, and once acquired, are moved into the automatic area, whereby unless there is a disturbance to upset this automatic reaction to things, to routines and so forth, this continues in its pattern.

This Awareness indicates that when there is a disturbance to this, then the conscious mind must enter in and assist in making decisions. This Awareness indicates that often the lower mind makes decisions from reaction, and the use of previously determined or set patterns so that the conscious mind has very little activity in decision making. This Awareness indicates however, wherein the mind is not so closed as to react to things without thought, such as is common among entities in their relationships to one another, whereby they react the same way each time this or that action occurs in the relationship and there is little conscious thought in regard to their own reaction; this Awareness indicates wherein this is not already programmed as an automatic reaction to a disturbance, the conscious mind must

enter in, filter out information, weigh the pros and cons and reach a conclusion as to the proper evaluation of the situation, and the stance or conclusion which should be drawn from the information available.

This Awareness indicates that in many cases, information is very sparse, and the conclusion must be drawn from little information. In other cases there is much information, and entities must study for some long period of time to absorb enough information to reach a conclusion whereby the mind can go back to its automatic reaction levels. This Awareness indicates that in the case of current events, such as occurred in Grenada, the tendency of the masses is to experience the disturbance, the feeling of shock, of excitement, the awakening of consciousness, and the curiosity and openness to discover: "What is occurring in my world today? What is occurring with my country? What is occurring that may affect my life and the lives of my friends?"

The mind becomes very alert and attentive to what is occurring. The mind is curious, is open, is very open to discovery. These are very rare moments. This Awareness indicates that the mind then, in part, draws from its background everything that it knows to be, or has accepted to be true from the past experiences and attempts to apply past answers to present circumstances in order to determine a conclusion, along with information that is being given to the mind in regard to present circumstances.

This Awareness indicates that when there is the circumstance being presented through a biased party who has particular value or interest involved in how the mind is to perceive the events, this will be presented and wherein there is a conflicting story regarding the events, and this is allowed to be presented, the mind then can have a choice, an evaluation of these two events, or of these two views of the events, so that the mind is capable of sorting out the pros and cons until the mind reaches a balance or state wherein one bit of information outweighs the other as evidence of what is occurring.

#### Korean 007 Airliner & Grenada Invasion

This Awareness indicates that also, past experience being brought in serves as further evidence of the occurrence at present, and is used by the mind to reach a conclusion. This Awareness indicates that in looking at the events of the Korean airliner incident and at the events of the Grenada invasion, the mind of the average individual received the messages which allowed it to make up its mind that these events were violations to their own personal interests,--the Korean airliner incident having been an unjustified attack upon a commercial airliner.

This information being given with heavy and continuous repetition to such a degree that once the shock and energy had subsided, the mind was already set and the mind was no longer open to discover anything further, and anything more that could be said from the other viewpoint had already been rejected for the mind was closed to hearing anything further. This Awareness indicates that in the case of the Grenada incident, the press

was not allowed in, which prevented an unbiased (or *perhaps* an unbiased viewpoint of the activity), and the reports which came back were those which were from the government viewpoint, and the information which was presented to the people in regard to the invasion was dramatized in such a manner as to create an impression that there was much greater justification for this invasion than later proved to be so.

This Awareness indicates that when the mind being open to discover what is occurring, grabs for information from the past, it grabs onto the Korean airliner incident and the hostility which it already feels in regard to that, and is ready for a victory or something that will make it feel that it has power to strike back at such forces, and therefore, when the justification is expressed that this island has been invaded and that the island invasion was justified for these various reasons, the mind is quick to latch upon this and to settle back in its automatic unconscious level and say: "Ahah! Okay, it's alright with me!"

This Awareness indicates that further corroboration of the incident being brought forth from students on the island who were concerned, from the citizens of the island who were concerned, even set the mind into a greater satisfaction that the thing is totally justified and resolved and that there is no further need for the mind to question the appropriateness of the action. This Awareness indicates that in this manner, the mind becomes self-satisfied and does not seek further answers, and the mind tends to begin to place trust in those forces which have given it satisfaction.

The mind, having very little self-esteem in the lives of most entities who feel the impotency of their own lives in society, in the affairs of the global concerns, in terms of the economic situations, in terms of their ability to be of value to others,--many entities feeling such weakness in terms of self, find a great sense of energy in being supportive of an action that goes out and does something tremendous, such as invading Grenada. And whereby this kind of mentality of rooting for the home team, even though you yourself may have done nothing to contribute to the action, the identification with the home team gives the entity a false sense of greatness and that greatness that the entity feels charges up his energy levels and makes him feel good.

This Awareness indicates that this feeling of strength, by having been identified with Goliath, as that which entities enjoy and which becomes a kind of euphoric energy or force that calls out for more. This Awareness indicates that the effort and actions of seeking more of this energy, more proof of our greatness, more proof of our strength and power over adversaries, the home team that seeks to destroy the enemy and the action of the little shriveled up soul that wants to place his bet, and gets out there and roots like crazy for the home team, thinking that this is making him part of the action, and therefore gaining a great sense of power for his shriveled up soul; this entity, giving energy to Goliath, gains a sense of self-worth.

This Awareness indicates that the entity seeking more of this in his puny life, demands more from Goliath, and therefore the demand feeds Goliath, justifies Goliath, and calls for more blood. This Awareness indicates that in this manner, these shriveled up souls, whose lives are basically meaningless, who gain power only by identification with strong forceful actions that may be justified or may not be justified, but who are never questioned in terms of justification or not, are still fed by these puny souls whether or not the action is justified, simply because these puny souls decide and desire to see more blood, more violence, more excitement, that gives them the euphoria, that makes them feel good about themselves for having rooted for the home team, and these puny souls can strut around like little chickens with their feathers cocked, barking at Communists, Catholics, Christians,

Jews, Blacks, Nicaraguans, Cambodians...anyone else who gets in their way.

This Awareness indicates that they feel strong and their mouths are forceful, and their words are forceful, and they become cocky, and they cry out for more blood, and more excitement, and they feel strong behind Goliath. This Awareness indicates that at this particular time, these actions having created this type of consciousness in the United States, are adding to the fuel which will be required when the next step is taken, that of placing the missiles into Europe, which are designed to be launched against the Soviet Union to destroy that nation at the selected time.

These puny cocky souls couldn't care less, in fact would enjoy watching the show, watching the entire nation of Russia go up in smoke and fire. This Awareness indicates that these puny strutting souls seeking to see this final scene in the drama of life, calling out for Armageddon, crying out for vengeance for having made them feel puny, seeking to feel the power of Goliath through the destruction of others, support this action 100%. This Awareness indicates the mentality of these puny souls is that which is barely above the Neanderthal state.

The technology available for this Neanderthal consciousness is that which is far above human potential and awareness at this time. The technology is that which belongs to entities highly evolved. The scientists who developed such concepts and technologies being so highly evolved consciously in mathematics, have outraced the consciousness that would use these implements and while many of these scientists still thinking in terms of the scientific value of their creation, simply want to see how well their program works, or how well their plans work, or how well the implement works; these entities are so excited about the success of the program they do not stop to think of the ramifications of their use, and therefore these scientists, while extremely advanced in the one area of consciousness, are laggards in other areas, --in the areas of humanities, in the areas of conflict resolution, in the area of looking at the history and value of human life on earth. They are totally laggards in this area.

This Awareness indicates that there are of course those scientists who have a more general view of life itself and who have the courage and integrity to speak out and to warn that these implements of war are not going to simply destroy the Soviet Union, but are going to destroy the planet earth. These scientists having thus made their statement that if even 1% of these implements are used, the earth will cease to exist as a living planet, and all life on earth will cease to be; this Awareness indicates the mind which was so excited over the incident of the team work, the home team attacking Grenada and the captain of the team giving his statements in regard to world affairs, whereby these puny souls could strut about and feel proud of themselves; these souls do not heed or hear the scientists for it is not part of the disturbance.

It is not something which they wish to hear for it disturbs their pride to hear this. It gives them the feeling of: "Oh, my gosh! I would be destroyed too! I don't like that philosophy. I don't like that concept. I like feeling big and important, therefore, I shall ignore that guy and listen to this guy." This Awareness indicates that this is the way which the Neaderthal mind of the masses tends to work, but even so, there are those who are more highly evolved in society whose consciousness is close to being that of an adept and bordering on that of being a laggard, and upon hearing the words of the scientists, these entities on the border line may be disturbed enough to look a little closer and recognize that perhaps this man, Mr. Reagan, is no more intelligent than a football captain. Perhaps this man is no more intelligent than a million other entities in this country. Perhaps this man is simply part of the general movement of these war makers who do not look at all of the facts, but who simply want to be big, strong, powerful, in front of the television cameras, knowing that everyone is looking at them and that such acceptance means votes, and such votes mean more power, and such power and approval means that they can do more of what they have been doing.

This Awareness indicates that there are strong reasons for every action which any entity takes in terms of violating another. This Awareness indicates your own children can give you reasons why they violated each other. This Awareness indicates that you can give reasons for violating your spouse, there are always reasons for violating others. This Awareness indicates however, these reasons are not a substitute for efforts to reach reconciliation of differences. Reasons for violence are never a good replacement for efforts to find peace through negotiation.

#### Russia Will Shift to a 'Strike on Warning' Policy

This Awareness indicates that all of these efforts of building greater and greater nuclear arms to deter the enemy has never yet reached a state whereby the enemy has been deterred so that the arms race can be stopped. The continued efforts to deploy more and more missiles, greater and greater missiles only is met by equal determination on the side of the others. The fact that this nation has made it a policy that it will *not refrain from striking first* if it is in its best interest, creates a situation in which the Russians, knowing that if these missiles are placed in Europe, they can be launched and within 5 minutes will strike and destroy Russia, and therefore, with a First Strike policy of the Western NATO forces, and a No First Use policy of Russia, the Russians knowing that they could be destroyed within 5 minutes, will be forced to shift to a Strike on Warning policy. Strike On Warning means that if there is a warning that the United States or NATO forces have launched missiles toward Russia, that Russia must immediately strike and launch its missiles toward the United States and the NATO nations.

#### Last Year--Over 100 Missile Computer Errors in U.S.

This Awareness indicates that in a period of 18 months, there were over 100 false alarms in the system, in the

computer systems of the United States, whereby these false alarms indicated Russian launches toward the American continent. This Awareness indicates that had the United States been on a Launch On Warning policy the missiles would have been launched immediately on the first of those computer errors.

This Awareness indicates that it is only logical to assume that the Russian technology is such that there may also be computer errors in *their* system, for it has not been assumed that they have any better computer systems than the United States, therefore, it is almost certain that if the missiles are deployed in Europe which would destroy Russia within 5 minutes and if, as Russia has already indicated, it will be forced to move to a Strike On Warning policy, then it can be presumed that the earth is essentially in the stage of destruction, and that there is no likelihood of survival.

This Awareness indicates that surely a computer error, if nothing else, will create the doom of this planet. This Awareness indicates that the Russians already *have* acknowledged and recognized and firmly believe that the United States under Reagan and his advisors are determined to destroy Russia. The Russians, being people, just like the most hard-nosed anti-Communist in the United States is a also a people;--the Russians have their friends, their relatives, their hopes, their desires, their children, their families, their jobs, their personal problems, their personal needs, their health problems, their social problems, their concerns over the future, their concerns over "What will happen if America launches its war policies to destroy us?"

"What will our leaders do? What can we do to keep these insane Americans from destroying our people? What have we done to deserve this?" This Awareness indicates that the basic thinking in America is that the Russian people are inherently, basically unauthorized to live, have no rights to life. The unborn fetus has greater right to life than the Russian people. This Awareness indicates that there is such a strong prejudice among entities in this country in regard to the right to life of Russians; there is such prejudice that they do not want reconciliation. They do not want the Russians to have any chance of changing, of being less aggressive, less fearful. They do not recognize that the fears which the United States has directed through its military build-ups and its threats is contributing to the reactions which the Russians also are creating, such as the incident of the Korean airliner which flew over their territory in the most sensitive, one of the most sensitive military areas of their continent; they do not recognize that these Russians are also guided by fear of what the United States is doing when it sends in its agents into Poland to stir up the masses, into Afghanistan to attempt a coup, into various areas which are bordering countries to Russia.

#### For a Moment--Let's Trade Places with Russia

They see these acts as aggression. When the entity Mr. Reagan goes to Japan, to shore up relationships, to help strengthen the prestige of America and of the leaders of Japan, they see this as an effort to bring greater military force to Japan. The Russian masses see every action the United States takes in terms of an aggression as being a threat to their existence. This Awareness suggests that if you cannot understand what this would be like, let us for a moment change names. Let America be called Russia. Let Russia be called America, and let us for a moment change shapes, so that Russia looks like the United States, so that the United States looks like Russia.

Thus, when we speak of Russia in this temporary scenario, we are talking about you the American people, and when we speak of the United States we are talking about the Russian people. This Awareness indicates that now you look at these things with these new terms. The United States, being completely surrounded by countries, wherein Russia has been sending in troops, has been sending in marines into an area

nearby, wherein Russia has been sending in agents into a bordering country of yours, the agents coming into Afghanistan, which is your friend, and whereby you seek to, as loyal Americans, keep your ties with this country strong.

The Russians have sent these agents in an attempt to create a coup, and whereby your President has responded by sending American troops into Afghanistan in order to prevent this Russian takeover. This Awareness indicates that these Russians now use this as a propaganda tool to claim you as Americans, having invaded Afghanistan are diabolical and are of great evil force. This is very similar to what occurred previously on the other side wherein Russia invaded Vietnam and was bogged down in a war in Vietnam for many years, and finally was defeated and driven out.

You as Americans are now being compared to those Russians who were in Vietnam. The bombing of their friends, the North Vietnamese, all of your friends in that area have many terrible stories to tell in regard to the devastation which Russia rained upon these people. This Awareness indicated that likewise, Russia has now begun to take over many of the countries around you. The relationships that you have had with Japan as that which is deteriorating greatly as Russia has brought in more and more pressure upon Japan to be your enemy.

This Awareness indicates that there is also your Cuban friends who are close to Russia and whereby you have many of your advisors and some armaments in that area, and have been attempting to export your ideas to these countries around Russia; that wherein this has had little success, but it has had some success in those countries which were governed by Russian dictators or puppets or dictators who were supported by Russia, and you have through your friends the Cubans, have allowed ways whereby these entities through agents have moved into these countries and have started revolutions and so forth, -this has occurred for some time, but now Russia has begun to make great moves to stop your agents and to prevent your agents from further actions.

You have built up certain armaments to protect yourself from the Russians, who through their NATO forces in Europe are directed against you, and you have increased the armaments so as to satisfy what you believe will prevent a further attack. The facts that they have greater power in their submarines and could through the use of those submarines destroy your nation, you have created a few more rockets and missiles than they have on land in an effort to counter their navy. Now the Russians are shouting that you have too many missiles, and therefore, to make it even they will build more missiles, and bring them in to within 5 minutes of striking against your capitol, against your people, the United States.

Within 5 minutes of launch time they will be able to totally destroy you. They have flown a plane over your most sensitive naval and intelligence areas, a plane that was filled with commercial passengers, but which your information reveals that this was a spy mission, and you consider that their intention was to spy on your most sensitive military areas, and that this was an act of war, and that their declaration of moving these missiles into within 5 minutes striking distance of your country is also an act of war, and though you have been on a No First Strike policy for a number of years, they have shifted to a First Strike policy.

These Russians, now on a First Strike Policy, are ready to launch against America and destroy you within 5 minutes. Would you care to sit back and do nothing and allow these entities to do this? Or would you shift to a Strike on Warning posture, whereby if the Russians wish to move these missiles into Europe, to attack you, and you know that these missiles are First Strike missiles rather than defensive missiles by their very nature, and that within 5 minutes of launch they will destroy your cities and that their policy is to strike first, the willingness and reservation to strike first, and that they argue

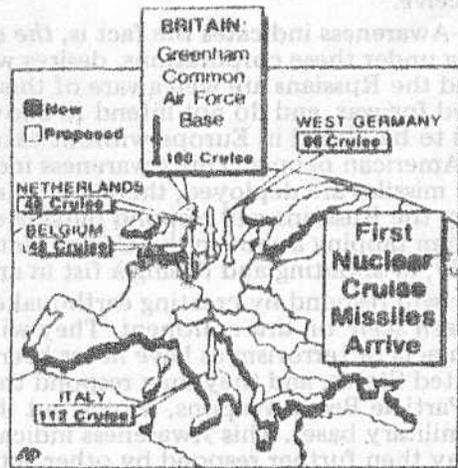

this policy by saying that it allows them the leverage of being a threat in negotiations, and your policy is "We will not strike first" ---

Would you not shift your policy to 'Strike on Warning?' The policy of: "We will launch our missiles toward Russia if there is a warning that they have launched against us, for if we wait 5 minutes to determine whether or not these launches toward us are real or are a computer error, we will be destroyed if they are not computer errors, and we will have no deterrent at all if we have a No First Strike posture; therefore, we must shift to a Strike on Warning posture.

This Awareness indicates that now in this event wherein you are facing possible annihilation, you have shifted to a 'Strike On Warning' posture, and you are going to be satisfied to sit back and wait for these cocky little souls, who strut around like roosters to perhaps push the buttons, or wait for computer errors to occur, or are you not going to do something else if possible, to disarm Goliath? This Awareness indicates that as a loyal American, loyal to your government, seeing that this country of Russia is going to destroy you and has determined to do so, and as an individual who wishes to live, you are going to become much more nationalistic, patriotic, willing to risk life and limb, willing to risk everything to survive and to destroy Russia.

This Awareness suggests at this point, let us abandon this reversal story and go back to the reality names; the names now that you have experienced the world from the other side, the reversal now whereby America is called America, the United States is called the United States, and Russia is again called Russia, reversing this to where it actually is, and you hear as Americans, looking at Russia, -Russia with its No First Strike policy, you with your "We will strike first if we want to" policy; you with your intention, declaration and determination to move destructive missiles into within 5 minutes striking distance of Russia, and you with your victory in Grenada and hostility over a passenger plane being shot down, you who see Reagan as being a rather strong leader, one who led us through the recession and out again, you who look at these actions, now see the protesters forming in Europe, in England, in the streets of the United States, in the campuses and colleges.

## Preventing Euroshima

Do you now wish to shift back to your previous prejudices, and root for the right to First Strike Russia, to launch these missiles, and set these within 5 minutes of destructive power against Russia? Do you wish to shift back to this prejudice, or did you even while seeing it from the other side, feel the same prejudice that you as a Russian would like to be destroyed by American cruise missiles within 5 minutes of your shores? Which side do you like the best? And which side has the right to survive? Which side must you choose?

#### The Choice Must Be Reconciliation

This Awareness suggests you not choose either side. This Awareness suggests you choose reconciliation; that there has not been an effort, an honest effort to finding reconciliation. This Awareness indicates can you imagine what would occur if for but one year the United States, rather than dumping billions into armaments, put millions into the study of peace, how peace could be developed through negotiations? This Awareness indicates there has been an effort to start a Peace Academy. There are nearly a dozen military academies which have existed in the United States for many many years. There has *never* been a Peace Academy.

The efforts to seek peace are not even given any money from the government. The Peace Academy has never been given sufficient assistance. This Awareness indicates that this National Peace Academy, even if it were developed, would simply be very likely under present type of consciousness of the government, would simply be used as a facade, to pretend to be seeking peace, and would be shown to be useless, for the value and significance of war is too great to be settled by peace efforts.

This Awareness indicates that however, if in an honest and sincere effort, there were monies from the budget placed aside to study ways whereby differences between nations could be resolved, either through world court systems which award entities of the nations damages, or which allow nations damages from violations of each other, either through a world court system or through negotiations between diplomats with the use of trade incentives; these countries could *easily cease warring* within a matter of 3 or 4 years and with a budget of 1/10th or 1/100th the cost of the yearly military budget, and with such a system set up, it would not require further future military budgets.

This Awareness indicates the fact of the matter is that the leaders of these countries do not want peace. The corporations that construct and build the war machinery do not want peace, and these corporations are large and have great influence in terms of helping individuals to be elected, through their donations, through their support of their favored candidate who promotes the war consciousness which creates the contracts which the American people pay for and which the workers on the street enjoy for the high wages which they receive.

This Awareness indicates the fact is, *the country*, working under these corporations, desires war, seeks war, and the Russians are well aware of this, and are prepared for war, and do not intend to allow the missiles to be placed in Europe without extreme cost to the American people. This Awareness indicates that if these missiles are deployed, there are other ways whereby the Russians will respond outside of and other than tapping a shoe in the United Nations general assembly, or shouting and raising a fist in anger.

They will respond by creating earthquakes as have *never been seen* on this continent. They will respond through acts of terrorism as have never been known in the United States, and they may respond through the use of Particle Beam weapons, wiping out the United States military bases. This Awareness indicates that they may then further respond by other actions, depending on the course of events. This Awareness indicates

that the puny strutting rooster soul that seeks to annihilate Russia, (that vague concept out there that lingers with the concept of Communism, which most entities do not even understand, but which they have grown to hate, from what little they have heard, and from what they have been told is the proper emotion toward that concept); that little strutting dried-up soul must prepare himself for great catastrophes which may surely follow, as this consciousness asserts itself in the coming months.

This Awareness indicates that even strutting roosters cry out and wiggle when having their necks wrung.

This Awareness suggests that entities who strut too much are riding on illusions of grandeur which very often precede the fall.

This Awareness suggests the Interpreter be brought from trance at this time; that the next reading as that which shall give further information in regard to the coming events for the future year.

\*\*\*

(The Law of Gratitude is given)

## Student poll brings out N-war fear

IOWA CITY, Iowa (AP) — A 13 year-old girl says she polled 370 junior high school students and 75 percent said they are afraid they will die in a nuclear war during the next 10 years.

Leigh Ann Kennedy, who conducted the survey for a project at Regina Junior High, said she didn't expect so much fear.

"Seventy-five percent of the kids think about nuclear war all the time or often. They think it'll happen in the next 10 years, and that they won't survive it," she said.

Kennedy thinks fear is so high among students because they feel helpless in preventing a nuclear war. She said nearly 57 percent of those surveyed at Regina, South East and Northwest junior high schools said there is nothing they can do to stop the arms race.

## UNDERSTANDING DUALITY THINKING

(C.A.C. Gen. Reading No. 2. Nov. 10, 1983)

## QUESTION:

We're here to resume the monthly CAC general questioning. Does Awareness have an opening message?

## COSMIC AWARENESS:

This Awareness indicates that this shall be considered as an extension of the previous reading. This Awareness indicates that before giving any of the potential events of 1984, this Awareness wishes to discuss two important factors. This Awareness indicates that one of these being the nature of duality thinking, as compared to thinking in terms of reconciliation of the dualities; the other in regard to how this applies to the general movement that will be occurring during the coming year.

This Awareness indicates that this movement relating to those forces which are neither for the United States nor against the United States; neither for Russia nor against Russia in terms of the military buildup and desires to win a war. This Awareness indicates that in looking at this first aspect in consciousness, the aspect of duality thinking, one must recognize that the great majority of entities on this plane are at a level in their development wherein they always and invariably think in terms of polarized thoughts, whereby they think in duality levels rather than in holistic levels and in fact have hostility toward the very concept of reconciliation, for they enjoy being at odds with something else.

It gives them a sense of individuality which they fear they might lose if they merged with others, or with the universe itself, or with the totality of their life. This Awareness indicates therefore, they are not only at odds in every aspect of their thinking, but are generally at odds in terms of their relationships with others, and must be in control of their childrens' lives, their spouse's life, and the life around them, and when they are in a situation wherein they are dependent on some area for their livelihood, they cannot see themselves as challenging the authority of another, but rather accept their role as an inferior position, in servitude to this authority.

This Awareness indicates that all of this is based on the duality concept of thinking. The duality thinking is that which thinks in terms of: "This is right and anything else is wrong; this is good and that is bad; I am aligned with the good, you are aligned with the bad; I am right, you are wrong; this is true, everything else is false; my position is the correct position, all else is wrong; I like warm weather, I hate cold weather; I like my country, I hate your country; I like my town, I hate your town; I like my religion, I hate your religion; I like my party, I hate your party; I like my friends, I hate your friends; I like my way of behaving, I hate your way of behaving."

All of these actions indicate an intolerance toward others: "I love my race, I hate your race." This Awareness indicates that these duality thinking processes are those which are prevalent for the vast majority of humans upon this earth, and for those who have a higher consciousness it is almost as inconceivable and difficult to understand duality thinking as it is for the duality thinkers to understand the higher consciousness, but the entities of a higher consciousness do have a tendency to be more tolerant and understanding.

This Awareness indicates that the duality thinker who says: "I love my sex, I hate your sex; I love this person, therefore I must dislike that person; this is my friend who doesn't like your friend, therefore I must not like your friend either." Always dividing, the duality concept is always dividing and rejecting one

in favor of the other. The eenie-meenie-miney-moe consciousness is that which is prevalent upon this plane. It is a low level of consciousness which has inhabited this plane for thousands of years and is barely above that consciousness of the animal, who has not fully learned to discern, but who acts out of instinct from inherited behavior, genetic qualities and from environmental influences that have affected the psyche of the animals.

## Signs Leading to the Higher Consciousness

The duality thinker has adapted to identification of himself with certain positions in consciousness, and identifying with that position, refuses to alter, to look and to allow for an objective view of the position. To be objective one must look at his or her belief from a totally different and opposite point of view. Few entities dare to question their beliefs, or doubt their beliefs, or even examine their beliefs. It is much simpler to be a prejudiced person.

This Awareness indicates that when the mind begins to turn upon itself and question everything it knows, only then is it becoming conscious. This Awareness indicates that as it questions, and as the questioning leads to deeper insight, and the mind reaches either confirmation or changes in viewpoints, it matters not whether the mind turns out to confirm the previously held opinions or whether the mind discovers the opinions were wrong. The fact that the mind was willing to question those opinions is an indication of a higher consciousness, of a mind that is becoming conscious rather than bicameral or automatic, dualistically controlled.

This Awareness indicates that this *conditioned mind*, as it is termed by Krishnamurti, wherein the mind is conditioned by past prejudisms and assumptions and teachings, wherein it automatically selects and accepts everything that supports its stand or set or placement, so that the mind reaches every situation already made up, or potentially made up, according to its own prejudism, creates a mind that cannot evaluate circumstances objectively.

This Awareness indicates that, being that this is the *nature* of most minds upon this plane, they can be easily manipulated by authorities to do anything. It is only the mind that questions not only itself, but questions everything to look for truth or for greater understanding or for more information, and never closes on an assumption to such a degree that it can never again be opened or questioned. They may temporarily make an assumption with the reservation that if further information is made available to contradict that assumption, they will be open to receive that further information.

This Awareness indicates that the mind which is willing and desirous of reconciling opposites is an enigma to the dualistic mind. The mind that sees everything as right or wrong and must make judgments of everything cannot conceive of a mind that sees this as being both right and wrong, as being both moral and immoral, as being both healthy and unhealthy at the same time. Such a mind cannot see that a lamp is a lamp and is not a lamp.

This Awareness indicates that the mind which conceives of that which goes beyond duality is a mind which is much higher on the evolutionary scale, but is high enough only that it requires a small jump in the area of realization, of conceptual thinking, to catch

on to how a Higher Mind functions, and once the entity catches on, it can begin to have an effect on the entire thinking mechanism of the entity so that the entity then begins to grasp the nature of higher thinking.

This Awareness indicates the entity who insists: "This is a lamp and you cannot tell me it is not a lamp. There is no way possible this could be anything other than a lamp," when told by the other: "I'm sorry, but this is also a mass of shimmering atoms arranged in a peculiar pattern," the entity then recognizes: "Well, yes, but it's still a lamp," and the entity responds: "Yes, it is still a lamp, but it is also other than a lamp: it is a mass of shimmering atoms arranged in a particular pattern for a short period in time and space."

This Awareness indicates the entity who says: "This is good and that is bad, and you cannot tell me that *this* is both good and bad, and *that* is both good and bad;" the entity may be answered: "This is good in the mouth and bad in the belly," and the entity says, "Well, yes, but that's not what I meant." "Yet," the entity responds, "this is the fact, and you understand that it is both good *and* bad." This Awareness indicates gradually the dualistic mind begins to recognize that there is another way of thinking about things, another way of viewing things:

"The Russians are bad, yes, but there may be some good. The Americans are good, yes, but there may be some misguided action there." This Awareness indicates that entities may begin to recognize that it is not so horrible to doubt and question the authority; that the authority is not always right. The authority may be both right *and* wrong, may be right in one sense, and wrong in a greater sense. The authority may be 'right' that this is justified, but 'wrong' in that the justification of it does not allow the practicality of it. It may be justified, but it may be totally impractical and unworkable.

This Awareness indicates a higher mind must cease in its duality thinking, and must begin to recognize there is a way of looking at things and seek as a challenge: "How can I reconcile opposites? How can I bring good and bad together in my mind, so as to see how good can alter the bad, or how bad can affect the good, and how these things can be made to alter their places or may be perverted or distorted by each other's energies, so that I may be able to discern more clearly where the good is in the bad, and where the bad is that have been affecting and hindering the good, so that I may find not only the disease, but the attitude which led to the disease, and the appropriate attitude which should be held in order to get rid of the disease?"

This Awareness indicates that so long as entities are focusing strictly on the symptom and fail to see the cause, they are victims of the duality approach. This Awareness indicates even as in medicine or in personal health or in personal relationships in which you are angry at your spouse or your friend for hurting your pride in front of your other friends; all of this concern may simply be a symptom of your relationship with your spouse rather than a cause, and the cause may be ignored by you and you focus on the symptom.

#### Cruise Missiles Are Symptoms of the Disease

This Awareness indicates that likewise, the cruise missiles being introduced into Europe are a symptom of the increased disease upon this earth. This Awareness wishes entities to understand very *clearly*, that neither this Awareness nor this Interpreter, nor entities from *Cosmic Awareness Communications* or any of its members are necessarily to be classed as anti-Americans simply because they question authority, nor is it appropriate to imply that these entities are pro-Russian simply because they have, through this Awareness, allowed this Awareness to address entities with the *other* side, or the *other* viewpoint which is not strictly supportive of the party-line in America.

#### Light-Workers Have Only Themselves to Blame

This Awareness indicates that likewise, the peace protesters out in the streets are not out there because they are being paid by some Russian KGB agent, they are out there because they are concerned about their lives and about the lives of their children, and in most cases they are out there because they see a better way of life upon this earth, and see the need to stop being so intolerant of the Neanderthal thinking, and to get out there and assert *their* voices for a change. This Awareness indicates it is too easy for the entities of higher consciousness to sit back and feel smug about having a greater understanding of life and to let the Neanderthals run the earth with their dualistic thinking, their robot minds.

It is too easy for these spiritually adept, artistically inclined fun-loving entities who seek positive feedback in their lives through happy thoughts and reconciliation of the Higher Consciousness to sit back and say to themselves: "My, the world is certainly a mess out there. I am certainly glad I am not involved in all of that. It is so much easier to sit and watch my television set. I hate to watch this stuff, but it's just too intriguing to see how stupid people can be getting involved in all that violence,--blowing each other apart, and I just can't understand the stupidity of these Neanderthal minds."

The tragedy of this type of thinking is that which has led to the present situation, whereby power has been handed over to the Neanderthal minds by those who know better, whereby those who have the understanding have kept their mouths shut, simply because they enjoyed the peace and harmony in life, which they seek through their higher spiritual understanding and higher consciousness, and they even espouse philosophies whereby they say to themselves and their friends: "Spiritual people don't get involved in such dirty things, therefore, IGNORE all of that karma, ignore all of that maya; it is simply the result of Kali, it is simply the result of Satan, and cling to the Light and grow in your spiritual development, and forget about the outside world."

These entities have long held this position, and have turned over the controls of governments, of bureaucracies, to the entities whose minds, and to the masses whose minds are based on duality thinking and who can be manipulated very easily by the black magicians of consciousness who promote wars between nations for economic advantages, and who watch the sons and daughters of individuals go off to be slaughtered for the sake of economics, and who promote through their efforts and controls, propaganda through the media and through philosophies and through educational systems, concepts and ideas which indicate that these slaughters, these wars, are all over some ideal: the ideal of freedom.

"We are fighting for freedom," says one side. On the other side they are saying, "We want our freedom! The Americans have attempted to invade our country and suppress us." The North Vietnamese, during the Vietnamese war, were fighting for their freedom, their independence, against the invaders. The Americans were fighting the North Vietnamese for *their* freedom, for *their* independence.

This Awareness indicates that always the side fights for its rights, whether it is between individuals or between nations. Always each side sees itself as being justified. This has *always* been, and always *will* be when duality thinking is the way of approaching situations. This Awareness indicates that reconciliation requires an entirely different approach.

#### The Psychology of Reconciliation

Reconciliation does not work with concepts of who was justified, who was to blame, who did what first to whom, who has the right to do this, who is going to allow this to happen, who is most powerful...these concepts are part of the dualistic thinking. Reconciliation requires totally different types of thought: "How can

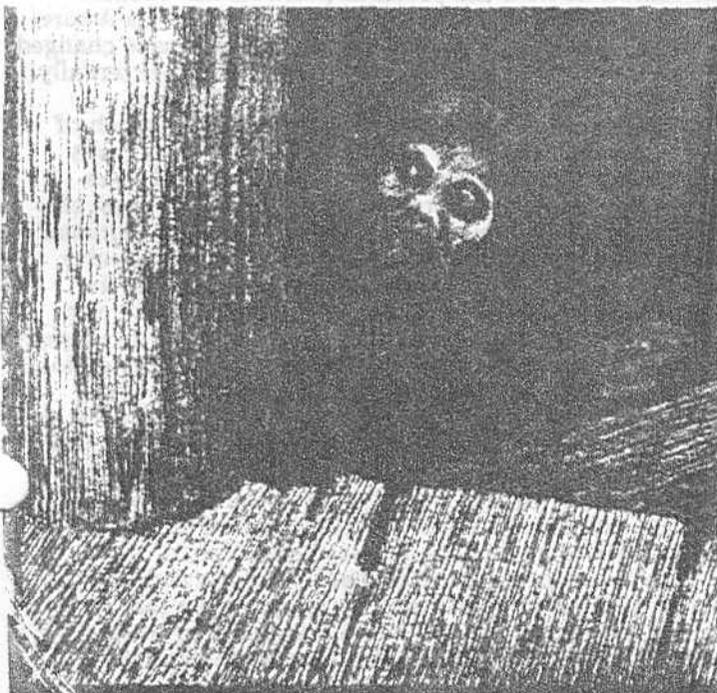

our positions survive together? How can we each compromise in order to allow each other independence and personal destinies? How can we, without annihilating each other, find ways whereby each of us can have our freedoms without denying the other of his or her freedom?"

This Awareness indicates that these questions are never asked when entities or nations are preparing for battle, but because of the stakes involved at this time, these questions *must* be asked, for this may be the last battle, the Armageddon that ends all. This Awareness indicates that unless entities ask these questions, they may never again be able to ask anything or to state anything, or to act in opposition to anything, or to defend freedom. They may simply cease to exist, or more *probably*, exist in a world which is filled from all sides with antihuman forces, antilife forces: boils upon the skin, flesh dripping, eyes missing from sockets, hairless heads, sickness, the inability to walk 30 steps, watching neighbors fall, seeing death, smelling death, smelling the bloated corpses, being forced to go out and dig holes to bury your neighbors.

This Awareness indicates that this duality thinking must be looked at carefully, must be looked at carefully while there is still time, for once the bombs have been exploded, there will no longer be any time for entities to think about higher consciousness. This Awareness indicates that entities must learn to promote concepts of reconciliation.

A New Slogan: 'Reconciliation-Yes! Annihilation-No!'

This Awareness suggests a bumper-sticker, a button, a slogan to be espoused all over this land for those duality thinkers, -- the slogan to be: "Reconciliation-YES! Annihilation-NO!" This Awareness indicates that this is something which the duality thinkers may accept; whereas they cannot accept the concept of reconciliation because it has nothing of a negative nature to bounce off from, and their dualistic minds must always work in dualism, therefore, they must have an opposite. Therefore, by creating a slogan: "Reconciliation--YES! Annihilation--NO!", these dualistic thinkers may then begin to see an alternative, and a higher understanding of what is the real choice here, for the choice is not whether to win against Russia through nuclear war, or to sit back and allow Russia to intimidate the United States,--that is not the choice.

The choice is whether to reconcile, or to be annihilated. This Awareness indicates that when placing the concept of reconciliation next to the concept of annihilation, then dualistic thinkers can understand what you are trying to say when you march in the streets, when you present your newsletter, when you speak in terms of not wanting the Pershing missiles in Europe, when you speak of "No First Use" policies. The dualistic thinkers then can understand that there is an action, and a thought here that is not simply opposing them in their effort to beat the Russians, but is offering an alternative to that entire scenario.

This Awareness indicates most entities seeing these peace protesters simply classify this as part of the Russian propaganda system, and see themselves in oppositions to these peace protesters. This Awareness indicates they do not recognize or understand that the peace protesters are not arguing against their hostility toward Russia, nor are they arguing in favor of Russia over the United States. They are not taking sides in the battle. They are rather concerned about the *nature* of the battle and where it is going, and are concerned to find a way of resolving the battle.

This Awareness indicates it is likened unto two gangs on the street who are coming together with clubs, guns, bombs, weapons sufficient to destroy an entire town, and the townspeople, the mothers and children, running out and trying to stop these gangs from fighting each other, and each gang looking at the peace protesters and saying: "You are a Communist! You are on *their* side!"-- and the other saying, "You are a Fascist! You are on *their* side!" This Awareness indicates each accusing the peacemaker of being part of the opposite side, ignoring the efforts of the peacemaker, except in labeling their *weapons* as peacemakers, and spouting peace as they march off to war.

This Awareness indicates that these war-like double-speak efforts of creating peace, wherein entities pick up their weapons, fire their guns, kill their enemies in the name of peace; these are the kind of double-speak reconciliation of yes and no in which higher magicians are using language to control the duality mind, whereby the duality mind thinks that killing brings peace, war brings peace, love for country means hate, love for Christ means hate your enemy, and anyone who does not go along (whether it is your next-door neighbor, your children or your spouse), becomes a Communist if they do not want you to march off to war.

This Awareness indicates that this duality thinking, manipulated by these double-speak standards of the black magicians in your society, through the use of terms which imply violence brings peace,-- peace is going to war; *destruction is creative and wonderful*,--these entities manipulating the dualistic mind at this time in history, have control.

This Awareness indicates that a slogan: "Reconciliation-YES!, Annihilation-NO!" brings home the point which the higher consciousness is trying to make, in a language which the lower consciousness can understand. This Awareness implores entities to use this slogan, to use this on bumper-stickers, to print up signs, to print up buttons, and to spread this concept. This Awareness *implores* you to create a means whereby this concept can be passed on and spread, whereby this slogan can become a movement that can convey a message to the dualistic thinkers, the Neanderthal types.

The New Hand-Signal for Reconciliation

This Awareness suggests that a particular hand-gesture, whereby two entities raise hands together, be symbolic of "Reconciliation--YES!,--Annihilation-NO!" This Awareness indicates that in your gatherings, in your meetings, before cameras, wherever possible, that you use this symbol of taking hands with another, raising your hands together in a statement: "Reconciliation--YES!--Annihilation-NO!"

This Awareness indicates that in understanding the dualistic mind, and understanding the concept which the peace forces seek to espouse, and creating that distinction, it is possible to turn the tide from destructive and suicidal obsession, to that which brings about reconciliation and programs that lead to lasting and meaningful peace.

The Hand Gesture

**The Statements of Doctors & Scientists on Nuclear War**

This Awareness indicates that at this stage, this Awareness wishes to discuss the potential future for the year of 1984. This Awareness indicates these are not considered as predictions, for there are too many variables at this time to make any predictions of a meaningful nature. This Awareness indicates that there is however, a potential, and it is strong, and there are events which will occur in terms of massive forces which are in movement during this period.

This Awareness indicates that beginning with the statement of the concerned scientists, actually beginning before that with the role of the doctors in opposing nuclear war, and the concerned scientists reaching the conclusion that if even 1% of the weapons were fired in a war, the earth would be totally destroyed and no life would exist within 50 years, (it is not clear that they put a time limit as to when all life would cease, but this Awareness indicates that it appears some life would exist in some areas for approximately 50 years) that thereafter this would become a dead planet in terms of human life or animal life as it is known. Some microbes and some insects would survive. This Awareness indicates that mutations in the sea would allow some survival of grotesque monsters and creatures.

This Awareness indicates that the statement of these scientists that nuclear war would lead to annihilation of the planet will have effect on certain entities of a relatively high consciousness level, although it will have little effect on the masses in general, for these masses are more excited over the thought of blood and combat than over concepts that scientists speak of in terms of global events, for most entities cannot even conceive of global events.

**Impact of Anti-Nuclear War Movies**

This Awareness indicates that the movie which will be playing within 10 days of this reading and which will have played by the time this reading is printed and mailed out, the movie *The Day After*--the day after the nuclear attack--this movie as that which will have an impact on mass mind. This Awareness indicates this movie, followed by another,--*Testament*--as that which will also, together, cause some deep thinking, perhaps not affecting the hard-nosed Neanderthal, but the more evolved and sensitive spouse of the Neanderthal, and

the children of the Neanderthal may have a glimmer of understanding as to the madness that is facing the human condition upon this plane if these Neanderthal types continue any further with these sophisticated weapons.

This Awareness indicates that following this, and during this time, the protests shall become louder, larger and stronger. The colleges which have been socially and politically quiet since the Vietnam war will erupt as has not been seen since the Vietnam war with students in great masses in the streets. There can be the possibility of violence. This Awareness indicates there will no doubt be acts of terrorism fostered by outside forces; these may be fostered by Communist countries and their agents within the Western countries, may in fact be more damaging to the movement than if they simply stayed out of it and allowed the citizens, the American citizens as students, as housewives, as workers, to speak out in the name of their family, in the name of their country, in the name of their god, to stop all of the madness and insanity of pushing toward nuclear war.

This Awareness indicates that the likelihood however, is that there will be increased terrorism, bombings, and there will be government backlash and threats and controls against citizens, but it will not stop the protests, either in the United States or in Europe. This Awareness indicates that it sees that in approximately the month of February the political standing of the President falls drastically, and the entity begins to lose the favor of the nation.

This Awareness indicates that the protests by that time will have increased so much and the recognition will have increased so much in relation to the potential danger that even those who 6 months before would not dare to speak out for peace may find themselves wondering: "Am I in the minority here? I want to be on the winning side! What is happening here? It was more fun when I was in the majority and there were only a few of those peaceniks around." This Awareness indicates the entity may then begin to wonder what is going to happen to him if these Peaceniks continue, and may become very frustrated and insecure, and the entity by becoming frustrated and insecure in his position is very likely to switch and say: "I want peace too!"

This Awareness indicates this entity is not necessarily one who has changed his consciousness or his mind. The entity has simply altered his position because he thinks it brings him greater security. This Awareness indicates the reason he held the previous position was because he thought it brought him greater security. This Awareness indicates the entity therefore, may not have changed internally, even though he may have changed externally, to look different. The entity is but a chameleon.

This Awareness indicates that there will be much of this occurring, whereby entities who were once ready for the battle, seeing that it is a lost cause, and loses popularity, may begin to shift their stand, for most of the entities in this nation, most of the duality thinkers prefer to side with the winners, or what they perceive will be winners. This Awareness indicates that as the actions in the streets, as the protests grow, as the publicity and television coverage of these events is increased, more and more entities will want to get in on the action.

The younger people who were once saying: "Take me! Send me to war! I want to go! I don't even want to wait for training!"--these entities may be out there just as vigorously marching for peace. This Awareness indicates that during this period, during the spring of '84, entities can expect to see many politicians exiting from back doors to avoid the protesters out front.

This Awareness indicates that in Europe and in America, these protests shall be like nothing that have been experienced before. The Vietnamese protests may seem small in comparison, although they may not be as violent as some of the Vietnamese protests. This

Awareness indicates that politicians, recognizing the trend and change in the fickle populace will want to jump out in front of the crowd and say: "Follow me! I will lead you to peace!" These politicians who have been taking their strong stance in the other direction, their war-like stance, will find themselves having to modify considerably in order to meet the growing demand that some kind of reconciliation occur.

**How to Counter the Black Magicians**

This Awareness indicates that *It* sees this as a possibility, a strong possibility, whereby the tide turns in the spring of '84. This depends largely on whether or not entities can get that concept out to consciousness: "Reconciliation--YES!--Annihilation, NO!" This Awareness indicates that in the event this does not occur to a strong enough degree, this Awareness sees a growing intensity, a growing toward greater military might, whereby the few brave ones who protest for peace are either ignored, or resisted, and whereby the nation builds toward war in a manner that becomes unstoppable; that if this continues between now and the summer of '84, this Awareness indicates it appears the great war will be inevitable.

If entities do not stop this madness within the winter and spring of '84, it does not appear that it will be stopped, and buildup of such powers can erupt in many ways. This Awareness indicates that there is also seen a great potential that this will be stopped and that the masses of *enlightened* people, putting forth their time and energy to promote this slogan, putting forth their time and energy to spread the word, supporting groups, passing out literature, printing literature, mailing literature, writing letters, doing *anything possible* during this period of time; it appears that when the *enlightened* people of this country get off their duff and do something for a change rather than smugly saying: "I understand what's going on;" when they get off their duff and DO something, these entities can have a powerful effect in countering the actions of the black magicians.

This Awareness indicates that entities may not fully understand, but the government and those people who are behind all of this activity, have a vast and deep and profound understanding of metaphysics, far more than most of you, and these entities use metaphysics for their power over the lives of others, and have little concern or interest in the Neanderthal level, other than to use these entities as cannon fodder for their aims and purposes.

This Awareness indicates that these entities understanding the use of these metaphysical forces, can only be countered, not by puny helpless mothers and children marching in the streets with tears, praying that the forces will not unleash nuclear war, but can only be countered by Light Workers who put into action their beliefs, who put their pocketbook on the line, and print material, copying literature, mailing literature, passing literature, writing letters, going to individuals, editors, writing editors, writing newspapers, making their voices known, calling people, telegraphing, sending cassette tapes to the President.-- All of these actions have an impact and effect.

Whereby Light Workers communicate with civic leaders in the city, insisting, demanding that something be said by these leaders in regard to the insanity that is prevalent among the masses, in regard to the need for common sense and reconciliation as opposed to annihilation. This Awareness indicates that when the Light Workers, simply by giving their energy in action, begin to function other than sitting back and enjoying their own wisdom, essentially masturbating in spirituality; wherein the Light Workers actually DO something, then it becomes an alchemical energy operating upon the mass-mind, for the vibrations of the Light Workers begin to permeate the mass-mind,

awaken the mass-mind, and counter the darkness of the black magicians.

**The Black Magicians Care Not if World is Destroyed  
Light-Workers Must Act or Ragnarok Will Occur**

This Awareness indicates that the black magicians, having such high understanding of metaphysics, do not care if the world is destroyed through nuclear war, for they will, on the 'other side', according to their understanding of metaphysics, be left in control of all that they have destroyed, and all souls that have followed them will be theirs to possess and control. This Awareness indicates therefore, they do not care whether this action leads to the annihilation of this planet. They see this as their destiny and purpose.

*Ragnarok* is the term used: The end of the world, whereby the few who led and created, and brought it about becomes gods over the souls of all those whom they have captured. This Awareness indicates that Ragnarok is that of the Nordic myth, and as that which is totally accepted by these entities, these black magicians who are influencing those who speak as leaders in your country.

This Awareness indicates the Light Workers *must* act, or Ragnarok will occur. This Awareness indicates that *It does not, It does not, It does not* advocate that any Light Worker act in violence. *It* advocates only that Light Workers act in concepts, putting concepts out to the mass-mind. This Awareness suggests the concept: "Reconciliation--YES!--Annihilation--NO!" This Awareness suggests that there is more, however this Awareness indicates it appears to be contingent on whether this occurs or not.

This Awareness indicates that in the event the actions are successful in preventing nuclear war, the next concern will be in terms of preventing government totalitarianism on the people of your nation, for there is seen the great potential for the Constitution to be set aside in actions that begin in the spring of '84, in late spring. This Awareness indicates that *It* sees also a great potential for monetary alteration of some type to be initiated in January.

<p><b>5,000 Megaton Detonation</b> sprays 225 million tons of dust into atmosphere</p>  <p>Temperatures drop below 0° Fahrenheit for up to 3 months</p>	<p><b>Blocking 90% of sunlight</b></p>  <p>Cold and lack of sunlight destroys plant life</p>
<p><b>Breakdown of food chain kills animal life</b></p> 	<p><b>Ozone layer damaged, ultraviolet rays damage surviving animal life</b></p> 
	

How scientists say the world would end if even 1% of nuclear warheads are launched.

This Awareness indicates that this approximately midway in the month of January, and this *may* be associated with that currency exchange which has been mentioned previously. This Awareness indicates however, it is not seen as certain. This Awareness indicates that the economy of this country is seen as that which develops slowly through 1984, growing gradually, having certain spurts and certain downturns, but growing very slowly and gradually, until 1985, when it begins to grow more rapidly.

This Awareness indicates that all of the frustrations which entities experience from the crisis that faces this nation, along with the fact that it is an election year, all of this will lead politicians to be speaking as hard and fast as they possibly can, wherever possible, to gain as much of the support from concerned entities, making promises, attacking opponents with such fervor as has not been witnessed in campaigns for many years past, if ever.

#### Possible Russian Reaction of Pershing Missiles

This Awareness indicates that there is seen also great potential for some of these political figures to be the victims of terrorism, or assassination, or to be victimized by secret intelligence sources who do not wish them to proceed any further. This Awareness indicates there is also seen an increase in the number of earthquakes experienced around the globe. There is also seen the potential for devastating earthquakes in the United States, depending largely on how the political interaction between the United States and Russia proceeds, for the Russians do have the means of destroying completely the island of Manhattan, and the prediction of Edgar Cayce that "New York would disappear in the blink of an eye," is not too unfounded.

This Awareness indicates that Manhattan Island sits over a great cavern under the earth. This cavern beneath the bay was discovered in 1943 by Con. Edison\*, and has had little publicity, for it is not in good public relations to indicate that New York City is sitting over a great cavern which is large enough to hold it if the roof collapsed. This Awareness indicates that with the Russian technology, whereby cobalt bombs the size of light-bulbs have been dropped in rivers, lakes, and around seashores, including Manhattan Island, including Portland, Seattle, San Francisco, Los Angeles, and all of the major cities, whereby these cobalt bombs have been planted and placed and are ready to be ignited electronically, by radio-control or by radionics, the continued movement of these weapons of First Strike into Europe by the United States, whereby Russia could be annihilated within 5 minutes, may well prompt the Russians to use these weapons which would not be easily detected by the public, for indeed, would your government tell the public that the cities and lakes are planted with cobalt bombs?; and if the government would not tell the public this, how then can they rile up the public to attack the Russians over an earthquake that occurred in a particular area?

This Awareness indicates the earthquake which occurred in Idaho, the city which had a small river, wherein the valley sunk and a mountain rose; this city close to a missile base, a factory producing missile parts; this was but a test of the equipment. The Coalinga earthquake was but a test of the equipment. The earthquake in up-state New York was but a test of the equipment. The earthquake which occurred in Connecticut was but a test; this in which the bridge was moved by four feet. This Awareness indicates the recent earthquake in China and Turkey were also tests of this equipment. This Awareness indicates these have been tested and have proven themselves workable; that areas which have never before had earthquakes, within the past few years have experienced earthquakes of considerable magnitude; that these generally are in the range between 6 and 7 on the Richter scale; the average being approximately 6.5.

\*Consolidated Edison--an electrical utility serving that area.

This Awareness indicates that by igniting earthquakes, the masses can be disarmed, busied, excited, so that they do not have time to think about promoting war against Russia. During such times the Russians can also make other moves to prevent these missiles from being installed. This Awareness indicates that the masses of America would never suppose or imagine that the Russians could create such devastation as these earthquakes might bring about, and therefore, would not react to the Russians with hostility that would occur if the Russians simply flew one of their Cosmospheres over the ship or airplane which was carrying the missiles to Europe and shot down the ship or airplane, or blasted some of the silos which hold the American missiles. These actions would rile up the American people to an indignation and pride, setting off their dualistic Neanderthal mind, and would be hazardous and dangerous to the Russians, therefore, entities can expect rather, increased geophysical warfare, possibly biological warfare, increased radionics warfare, which entities at this time know little about.

#### Radionics-Weapons That Scramble the Brain

This Awareness indicates that the use of radionics on cities, the use of radionics on schools of fish, the use of radionics on masses, as that which has already been tested somewhat, and as that which may be used during this period of time. This Awareness indicates that if this next war of nuclear holocaust is continued to be pushed by the United States, entities can expect the Russians to react with whatever weapons they have that they feel would best suit their purposes, and these include weapons of a radionic type which can scramble the brains of entities.

This Awareness indicates that these weapons can indeed create great pain, essentially frying the entity from inside-out. This Awareness indicates that these are things which the average Neanderthal could not understand, and therefore, would not know who to strike or where to strike, who to blame or who to hate. These King Kong-type creatures, these Neanderthals whose consciousness is barely above that of an ape, or perhaps would be insulting to an ape,--these entities cannot conceive of how truly impotent they are in terms of the vast weapons which have been given by science to the Russians and to the United States for the use of military operations for defense of their claims, and the Neanderthal types, thinking they have some kind of power simply because they puff their chests and speak with conviction, and patriotism... let's not forget that....these Neanderthal types, presuming to have such potency may find they are nothing but bubbles which pop and burst under the influences of the storm that is on the horizon.

This Awareness indicates that there are seen further actions of war in the Caribbean/Central American areas, and in South America. This Awareness indicates there are seen activities of increasing violence in the Middle

East. There is also seen the potential for double-cross from the Chinese. This Awareness indicates that the entity Reagan, in the action of moving into China with increased wealth and promises and technologies, in return for moral support of American policies and economic markets for trade, through an agreement that allows the slave labor of China to sell cheap products through the American corporations to the American people; this trade agreement that has been recently worked out, along with secret agreements allowing the United States to have influence in the military buildup and technological bases in China, can be expected to be very fragile indeed, for there is great potential that this may be what is termed a doublecross.

This Awareness indicates that wherein the President goes to China soon, (at present the entity is in Japan), and it appears that there is an offer of large amounts of gold being offered to Japan if Japan will build up and support operations and allow greater American influence in this area, for it is the nature of Japan to seek satisfaction in the economic area which is its prime goal, and the offer of gold as that which would bring about in Japan a change of attitude in regard to the military posture it has held for 40 years.

This Awareness indicates that the President next going to South Korea, whereby this country is ready, willing and wanting war; this as intended in both cases to build-up the image of the President for the voters back home as a negotiator with friends, and when the entity goes to China, it will show him to be one who can negotiate friendly terms with previous enemies, showing him to be a real peacemaker.

This Awareness indicates that this image is that which the entity seeks to promote while the war is also being promoted. This Awareness indicates that these political maneuverings of mixing politics and running for office with global maneuvers, and the pressing for superior position in terms of war and power and strength, creates a future in the year of 1984 which is extremely volatile, extremely uncertain. It is like trying to predict where a tornado will go as it approaches your town.

This Awareness indicates that it is difficult to know where to run when that cyclone or tornado is moving erratically according to the changing currents and energies around it. This Awareness indicates that one thing is seen as quite strongly evident. There will be an effort, particularly in the beginning of late spring, to curtail more and more American freedoms as given in the Constitution, and if the erosion of the Constitution is *not stopped*, it shall become a dead instrument and entities will revert back to the Dark Ages, wherein totalitarianism removes all potential for liberty as it has been known in this nation, and the Electronic Funds Transfer System,--the Mark of the Beast,--and all of these dire predictions which this Awareness has given previously, shall follow.

#### World's Future is in the Hands of the Light Workers

This Awareness indicates that *It* asks *Its* listeners, those who read this information, to be very watchful of the erosion of rights as associated with the Constitutional guarantees, for there will be strong moves to erode these further and much quicker during the year of 1984. This Awareness indicates there is the possibility of preventing all of this if Light Workers truly awaken and put their energy into action, alchemically countering the black magicians.

The simple act of writing letters to the editor, of writing your Congresspersons, of posting articles on bulletin boards at work for others to read, of presenting information to others which they may not have access to from other sources, whereby Light Workers become active in communicating the concept: "Reconciliation--YES!--Annihilation--NO!", this can bring about a total change, resulting in future peace, while still preserving human dignity and liberties.

This is what may be termed the 'Battle of Midway' in the war of Armageddon. The outcome is in the hands of the Light Workers: those whose mentality requires that they be active and face the responsibility that they have to educate the Neanderthal beings, who are incapable of anything other than reactionary dualistic polarized thoughts.

This Awareness indicates: "Reconciliation--YES!, Annihilation--NO!" and God Bless America, and God Bless Russia, and God Bless Everyone.

This Awareness suggests the Interpreter be brought from trance.

THE PREDICTION OF SANT THAKAR SINGH JI...

WILL THE RUSSIANS BOMB CALIFORNIA ?

Excerpt from Gen. Reading No.4.Nov.11, 1982

QUESTION:

It's been a CAC practice for some time not to ask questions about predictions, but there's a question sent in by T.M. of San Juan, California, that might have a bearing on information given previously. He also sent a printed sheet on an entity called Sant Thakar Singh Ji, and this entity it says "will be visiting the Bay Area from Delhi, India, and will be discoursing on Surat, Shabda Yoga. This is the yoga of the Inner Light and sound principle word or logos through which all creation came into being and is sustained.

"Through a living master or adept of this spiritual science, also known as Sant Mat, the sincere seeker may have a first-hand experience of the Divine Light and Sound and will thereby be put on a path to self-knowledge and God Realization during this lifetime. The attendance at all discourses, satsangs and meditations during this visit will be free with no donations or gifts being accepted." So it sounds like his credentials are alright.

This entity, T.M. writes: "I've just received my first mailing as a new member of CAC, and I thank you. Reasons for contacting you at this particular time is in regard to some information just recently received, leaving me and a lot of other people here feeling very uneasy. Explanations are as follows: There are several people here as well as myself who are members of a path called Surat Shabda Yoga. Having been initiated through the master Sant Thakar Singh Ji from Delhi, India, who has just revealed a message to all members in California about some events which are to take place in December.

"In a flat statement, his words recently given to all members was this: 'Some time in the month of December of this year, California will be bombed by Russia. There is no place to hide or run to, therefore, we are to meditate 8 to 10 hours per day, in preparation for all members to transcend to the 5th plane, after this occurs.' And he adds that he's writing this so he can get a broader picture on what is going on, as some members in this path have already been directed in moving to the states of Oregon and Washington, hoping to survive the occurrence just ahead, and he'd like to ask Awareness if that prediction is valid, or any more information on it?

COSMIC AWARENESS:

This Awareness indicates that this is seen as a very strong possibility if the Pershing missiles are placed in Europe during the month of December. The Russians have stated that not one missile will be allowed to be placed. This Awareness indicates these entities have essentially considered, as a result of the Korean airliner episode, the Russians essentially consider that this was an act of war, and that they are now at war with the United States.

This Awareness indicates that there is the possibility of this not occurring, depending largely on what happens and the tone which the Americans take during the coming weeks in regard to this, to the deployment of these weapons. This Awareness indicates that it appears though that rather than bombing California in the sense of this being overhead, or land explosions, that this will be more in the area of earthquakes through cobalt bombs, if this does indeed occur.

### Someone Is Holding the Key to the End of the World (And It's Time We Took It Back)

(Closing Message) There Is Absolutely No Place to Hide

This Awareness indicates that there is considerable concern relating to the potential earthquake in California, and those which may be triggered elsewhere. This Awareness indicates that the only way *It* sees these can be avoided is if sufficient numbers of Americans put sufficient pressure and concern so that American policies change.

This Awareness indicates that it appears there has been a major change in Russia since the Korean airliner incident, whereby massive preparations for war has occurred, whereby plans have been put into action, and the chances for reversing this decrease with each passing week in which the United States continues to press its force and its war-like policy.

This Awareness indicates it may be too late to prevent some repercussion from the Russians for what has occurred in recent months. This Awareness indicates that if the missiles are placed in Europe, surely there will be repercussions. This Awareness indicates that those entities who are living in California are not in much greater jeopardy than entities living in other states. This Awareness indicates that the states which seem most safe in terms of avoiding the initial strike, if war erupts, would be Wisconsin, Minnesota and North Dakota (except for certain areas where missiles are already established and which would be targets.)

Kansas is seen as not too great a target but that the hazards of war would eventually reach there also. This Awareness indicates there is not actually seen *any* place that is safe; that the Oregon coast would be safe from nuclear weapons or strikes as it has no military bases, but it is vulnerable to massive earthquakes if such were set off.

This Awareness indicates that essentially, *It* does not see any place in the United States that is a safe place to go; that temporary safety appears to be found in Minnesota more than in any other place, and to a lesser degree in Wisconsin. This Awareness indicates that *It* does not wish to dwell on this, for there would not be any great benefits for entities to rush to Minnesota, as the fallout and freezing, the fire, the fallout, the aftermath or the weather disruptions, or ozone destruction would eventually lead these entities to suffer and experience a slower demise than those who were at Ground Zero.

This Awareness indicates that the unthinkable must be thought about. There does not appear to be a safe place left; that those of the government, who think they can hide in underground bunkers and wait out the war, are kidding themselves, for those bunkers underground, the 90 some odd underground cities or hideaways in the United States,--those underground bunkers with food stashed for several months,--will simply become the mass-graves for those who hide therein, for the Particle Beam weaponry can reach as far as two miles into the earth itself and can explode within these bunkers, collapsing them on those who hide therein.

NOTE: permission is granted to reprint this reading in full or in part, or quote any or all of the information.

This Awareness indicates that all of these bunkers are known to the Russians. Their locations are known. This Awareness indicates that those who think they can escape by creating a nuclear war in the Northern hemisphere and hiding in the Southern hemisphere until all the pollution and dust has cleared, (some several hundred years from now); those entities also are kidding themselves, for the Russians know the locations of their hideaways in Antarctica, New Zealand, in Argentina, in Australia, in the Falkland Islands, in South Africa, and in the other areas of the Southern hemisphere, and therefore, these areas too, would be blasted.

This Awareness indicates that there is a great flirtation by the Reagan administration, flirting with disaster, with annihilation. This Awareness indicates the speech today by the entity Ronald Reagan in Japan in which he indicated that "we must never fight a nuclear war, for there could be no winners"... this Awareness indicates that this as a statement intended to indicate that he is a peacemaker; that he does not wish to press for nuclear war. This Awareness indicates that this in part is due to him having been informed of the intensive buildup of the Russian forces; the activities which have just occurred in Russia whereby this entity is no longer so sure of who he is dealing with in Russia.

This Awareness indicates that wherein they assumed that Andropov was one who could be pushed to a position of weakness, they do not know now who is in power, or what those in power might do. This Awareness indicates the bear has ceased its hibernation, has been taunted, and is awake and stirring, and is destined to make a move. It is a grave time.

This Awareness indicates that only a rapid change in the posture of the United States can prevent catastrophes from occurring.

\*\*\*\*

(The Law of Gratitude is given)

ED's note: for more information on those 'dire predictions' Awareness mentioned (the Mark of the Beast and the suspension of the Constitution, etc.), please refer to 'Revelations of Awareness No. 79-1 (The Gathering Storm); \$4 from CAC. Entities living in California, should refer to the Hotline, No. 79-7 (The Eve of World War 3) as a similar situation existed at that time and Awareness gave some specific info for those living in California. Additional information on this current nuclear threat can be found in No. 83-19 (hotline) "The 007 Incident", also No. 83-21 Hotline (No First Use of Nuclear Weapons); both \$3.00 from CAC.

For more info on how Manhattan was mined with cobalt bombs 3 years ago, and the advice Cosmic Awareness has for those living in that area, please refer to No. 80-33 (hotline) (Help Save Manhattan); \$3.00 from CAC.

In reference to earthquakes, a recent tabloid ("The Sun") ran a story that Bhagwan Shree Rajneesh, the Guru in Oregon who purchased an entire town, has issued a bulletin to all of his members in California, to evacuate that state before the end of December of this year. This now makes it Edgar Cayce, Guru Sant Thakar Singh Ji, and Cosmic Awareness and the Rajneesh--4 respectable psychic illuminates--who have picked up on the heavy energies aimed at California. This is mentioned not to frighten our California members, but to confirm the seriousness of the situation which Cosmic Awareness has outlined in this reading. Since there is no safe place to go, we suggest that all the members read up on earthquake information and what you will need to do to survive along with your family. This information is available at Civil Defense agencies. (Avaton)

REVELATIONS OF AWARENESS is a cosmic newsletter, published for the membership of Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507. U.S.A.

## SOME SAMPLE 'LETTER'S TO THE EDITOR' IDEAS...

Dear Editor:

I love America. I want it to BE here for my children to grow and thrive in. I want it to have a viable future and to see its worldwide reputation REAFFIRMED as an example for other countries to follow. The first step for both, is for the United States to commit itself to a "No-First Use" policy for its missiles. For years, Russia has been committed to their promise of No-First Use, and this has been workable because both powers remained somewhat balanced in weaponry. But with the introduction of the Cruise and Pershing 2 missiles into Europe, the stability is lost.

These new missiles have the First-Strike capability to reach and destroy their targets in Russia within 10 minutes of launch and to fly below radar detection. We have not promised NOT to use them first. Under these circumstances, Russia has said it would have to abandon its No-First-Use pledge and go to a 'Launch-On-Warning' status. This means if their computers report what appears to be an attack coming in, launch would be immediate. There would be no time to double-check to verify the correctness of the information. Our U.S. Early Warning Systems during 1979 and '80 had 147 malfunctions and false alarms. Can we expect Soviet computers to be any more foolproof?

Carl Sagan, speaking for the scientific community which developed our nuclear capabilities, has reported that if only 1% of the nuclear arsenal was used, ALL life as we know it would cease,--withing a few years, this would be a dead planet. With stakes this high, we have GOT to find new ways to co-exist on this planet, so we can ALL have a future.

Our choice is not to win over Russia, or to be defeated by Russia; our choice is whether to begin reconciliation or face annihilation. Signing petitions for a U.S. pledge of No-First Use is a starting place. Considering the possibility that the Russian people are probably just as afraid of 'Us' and no more fond of losing their friends and family and burying the dead than we are, may allow a chance to think maybe we can, as fellow humans on earth, find a better way of dealing with our differences.

I for one say: "Reconciliation--YES! Annihilation--NO!" and God Bless America.

Sincerely, V. Valley, Box 1, Olympia, Wa. 98507.

Dear Editor:

Why is it that Russia and China have pledged a 'No First-Strike' and the U.S. has not? For whatever reason we hesitate, in the eyes of many in the world, the U.S. appears to be a war monger and without morals or the consideration of others on our planet. The Russians have announced that if the Pershing missiles are deployed into Europe, they will be forced to abandon their 'No First Nuclear Strike' stance and move into a 'Launch On Warning' stance. This could well prove fatal to our planet, for the Pershings will only be 10 minutes away from Russian cities, for there would not be time to double check in case it was just computer error and not the real thing. In 1979 and '80 our own early warning system computers logged 147 malfunctions and false alarms. Can we expect the Soviet computers to be any more foolproof? Certainly not, for they get most of their computers from the U.S. anyway. What we all must realize is that we have a nuclear stalemate, and if any missiles are ever launched, it would be by computer error. Our choice therefore is not to try to win over Russia, or to be defeated by Russia: our choice is to either begin negotiations or face annihilation. Signing petitions for a U.S. pledge of 'No-First-Use' is a starting point. This alone will help put a jittery world somewhat at ease. I for one say: "Reconciliation--Yes! Annihilation--NO! And God Bless America.

Sincerely, John Doe.

Dear Editor:

It will be a great day when our schools get all the money they need and the Pentagon has to hold a bake sale to buy a missile.

It will also be a great day when we can start negotiating to dismantle all the nuclear weapons--enough to blow up our planet over 200 times, some say. We simply do not need anymore weapons; we need not buy anymore weapons; the time has come for the reconciliation of our differences between nations and cultures and economic philosophies.

There is no way we can stop the Russians from being socialists, and there is no way the Russians can stop us from being Capitalists. The Russians say they are moving from a 'No First Strike' posture if we deploy any more missiles into Europe. The U.S. has never promised a 'No First-Strike' and is beginning to send First-strike missiles into Europe. Scientists tell us that even 1% of the world's missiles would destroy the planet within 50 years if launched--destroy all life. With over 100 missile computer errors in the US alone in the past several years, can we expect the Russian computers to be any better? Our new Pershing missiles are only 10 minutes away from Russian cities which means no chance of double-checking by the Russians to see if an error had occurred. So if Armageddon starts, it will probably be by computer error.

As I see it, there is only one option: reconcile our differences and dismantle the missiles, or annihilation. Signing petitions for a 'No First Use' of nuclear weapons by the U.S. would be a good starting place. This stance is more in line with our American morals and heritage and would help the world breathe a bit easier.

I for one say: "Reconciliation--YES! Annihilation--NO!" And God Bless America.

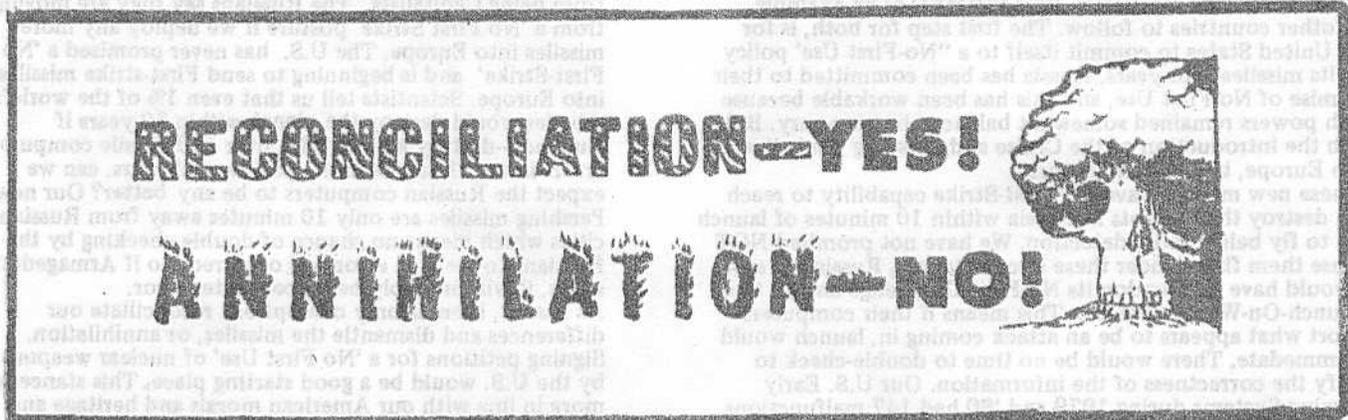

Sincerely, John Doe

### SOME SUGGESTIONS ABOUT BASIC POINTS TO CONSIDER COVERING IN YOUR LETTERS'

Note: you can write many different letters, each one covering one or two of these points if you wish.

1. There can be no winners in a nuclear war.
2. All life on the planet will be destroyed within 50 years or less if even 1% of missiles are used.
3. Russia and China have pledged a 'No-First-Strike' policy.
4. The United States has not pledged a 'No-First-Strike policy.
5. The Pershing and Cruise Missiles are designed only for a nuclear First-Strike.
6. Russia says that if the Pershing and Cruise missiles are introduced into Europe, Russia will be forced to switch to a 'Launch-On-Warning' posture.
7. These missiles will take only 10 minutes to reach Russia. (There will be no time to double-check for computer error)
8. There have been over 147 nuclear computer errors in the U.S. alone in the past 2 years. Are Russia's computers any safer?
9. According to the CIA, Russia's computer technology is far behind that of the US. In fact, their best computers were bought from the U.S.
10. If a nuclear Armageddon occurs, it will probably be triggered by a computer error. (There are 18,000 nuclear warheads in the world right now, and Reagan is proposing even more sophisticated missiles.
11. Our government's present 'First-Strike' policy goes against the deeply-ingrained moral principles that we were brought up to live by and which our Constitution and our forefathers promulgated. In the eyes of the world, our First-Strike policy is immoral and we are war-mongers in the eyes of the world.
12. It is foolish to think we can intimidate Russia into changing it's socialistic or communistic philosophy to that of ours.  
It is foolish to think the Russians can intimidate us into
13. changing our Capitalistic system into one like theirs.  
Therefore, we are faced with annihilation if we can not
14. reconcile our differences and allow both nations to live in peace.  
A good place to start is to get initiatives going in your state
15. legislature endorsing a 'No-First-Use' policy for the U.S. This is the only honorable thing to do at this time, since Russia and China already have pledged this.
16. End with the slogan: "Reconciliation--YES! Annihilation, NO!"

PLEASE NOTE: Please copy this slogan to make up your own bumper stickers, buttons etc. (Or we can send you a sharp proof of these suitable for offset reproduction which can be used in your ads etc. If not, you can order these direct from CAC. Prices are lower in quantity. Please add an extra dollar for postage, packaging and handling. Thanks!

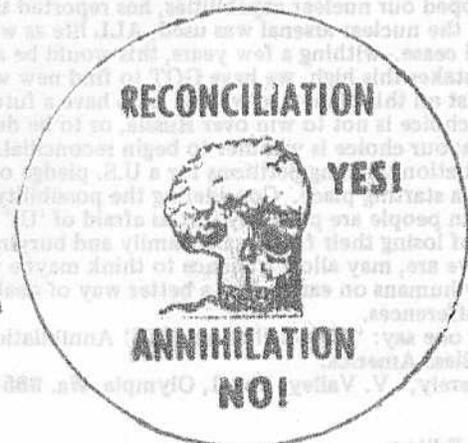

BUMPER STICKER: 14x4 inches. Printed in American Blue are the stars and stripes word: 'Reconciliation'. The words 'Yes' and 'Annihilation' and atomic cloud are in red. The word 'No' is also in blue. Price: \$2.00 each or \$1.00 for 5 or more.

Rubber stamp (for use on all your letters etc. \$10 each. (Stamp pad not included)

Colorful metal button with safety spring lock: \$1.50 each or \$1.00 for 5 or more.

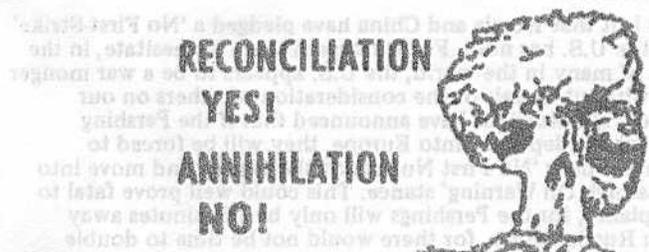

THINGS YOU CAN DO:

1. Write letters to your editor, to magazines, to your Congresspeople, to your state legislators, governor, the President, to TV stations and newspapers etc.
2. Let your voice be heard: Call the White House opinion line: (202) 456-7639 (only .29 cents per minute before 8AM. )
3. Call your Congressman and Senators: (202) 224-3121.

Address: US Senate, Capitol Bldg., Washington DC 20510  
US House of Representatives, Capitol Bldg., Washington DC 20515.

4. Participate in peace rallies, distribute leaflets, organize drives.
5. Join with others. Get a 'Silent Vigil for Peace' going in front of Federal buildings, military recruiting places, the IRS etc.
6. Assume responsibility. Make a real commitment to do something--anything! You will have to change your priorities.
7. Thoroughly understand how the Neanderthal mind operates, and use the suggestions of Awareness in this reading in dealing with them.
8. Give financial support to groups and movements working for peace.
9. Run some ads using some of the points needed to be brought out. Sign your ad: "Paid for by SPIRAL ( The Society for the Protection of Individual Rights and Liberties)." Give a PO Box or number to write to for more info. Ask for donations and support for your movement.
10. Get a rubber stamp with the slogan: "Reconciliation-YES! Annihilation-NO!" See Yellow Pages of phone book under 'Rubber or Plastic Stamps'. Get bumper stickers made and distribute these at peace meetings, schools, etc. Get buttons and press-ons made up using this slogan. (Note: CAC can furnish some of this stuff if you can't get it locally. See info above.
11. Get the kids at school involved. Get them to write letters too.

12. Send cassette tapes to the President. (Make no threats).
13. Participate in radio and TV talk shows, bring up the issues and give your slogan some publicity. (One good TV show is 'Latenight America' with Dennis Wholey on PBS (this comes on at midnight Olympia time). There are numerous radio and TV talkshows that reach millions and they invite your calls.

Press-On sticker (Like one included with this mailing). Can be used on clothing instead of button. Price: 15 cents each or 10 cents each if 10 or more are purchased.

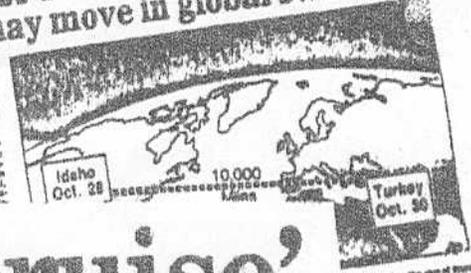

14. Get posters or notices printed up using the slogan and post on bulletin boards all over town, in schools, college, malls etc.
15. Run a classified ad in your local paper (as a starter) to get a discussion group going and to meet like-minded entities.
16. Let all the politicians know you want to know why they are not pushing for a 'No First Use' initiative and nuclear freeze.
17. Send telegrams and night letters to congresspeople etc.
18. Contact religious and local civic leaders. Get them involved.
19. Make up signs to put on lawns, in windows etc.
20. Copy and print up literature for passing out on streets, at rallies etc. (Copy centers are everywhere and printing is not too expensive).
21. Wait outside theaters where anti-nuclear war movies, such as "Testament" are being shown, and pass out literature.
22. Make up an ad or use the one we made up (included in this mailing), showing warlike newspaper headlines and in the middle a wide space with the words: "Reconciliation-Yes! Annihilation-NO!". Note: CAC can furnish you with a good sharp copy of this ad and other items shown, suitable for offset printing. (Please include a dollar for postage etc.)

# U.S.-trained troops kill 100
