The New-Age Cosmic Newsletter

Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

( Helping people become aware )

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

# Are you living as One With All?

Paul Shockley,  
Interpreter

PLEASE NOTE: for easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

## THE CONCEPT OF COLLECTIVISM VS. INDIVIDUALITY ( The One and the Many )

( Trance Lecture given by Awareness, November 12, 1983 )

### COSMIC AWARENESS:

This Awareness indicates that there is the concept of individuality and the concept of collectivism, and these concepts often appear to be at odds with each other. This Awareness indicates the one and the many. This Awareness suggests that this idea of being one among many, or one part of the whole is that which needs some clarification for greater understanding, in order that entities can begin to recognize the full force of the power which they have.

This Awareness indicates that an individual can be seen as having great power, being able to influence the course of history, influencing the behavior of millions of entities, or an individual can be seen as a small insignificant being in the mass of millions of others, whose life seems to be unnoticed by any, and who appears upon the scene, has some slight recognition of existence for a brief flicker, then passes from the scene into what appears to be oblivion, never to be remembered, and the life is unrecorded.

This Awareness indicates in both cases, this is one among many. This Awareness indicates there is seen a great difference in the two lives. There is also seen the concept of collectivism, wherein there are those who argue that the individual counts little; it is the total collective action of the masses, and the cooperation of the many which is of great significance and importance in molding history and in creating the changes necessary.

This field of argument as that which says: "Let's all work together. Let's have no leader. Let's all have free input, and let's do this together for a cause. The cause, the urgency being that which leads us." This Awareness indicates these movements invariably end up with a leader, one who speaks for the cause. This Awareness indicates that looking at this concept of the one and the many, wherein mass movements occur through collective actions, and yet which result in creation of leaders, or individuals of outstanding significance or recognition, looking at those who emerge from the crowd as spokespersons for the crowd, one may wonder if the leader is not created by the mass mind, by the willingness and the courage to speak out for the masses, or perhaps merely by the circumstances and coincidences which allow a camera to be placed in front of the entity's face, for the entity to express what he or she feels about the mass movement, and this coincidence perhaps leading to further interviews and discussions.

This Awareness indicates that it is possible that the mass movement creates spokespersons and the spokespersons grow into leaders, though they were not leaders to begin with. The responsibility of representing the group then begins to focus upon them and they are willing to take on that responsibility, therefore others allow this. This Awareness indicates that in this manner, the many support the one.

This Awareness indicates that in terms of the one who takes a cause, works for that cause, and perhaps only after much opposition gradually begins to receive support from the many; this entity is seen as an individualist being led by a concern which he or she feels, not a created leader, but a born leader,--one who acts from personal conviction, and his or her very action eventually brings about a role whereby the entity is seen as a leader of the people, even though the entity may not have ever wanted such publicity or such recognition and does not care to be a leader.

### The Difference Between a Leader and the Follower

This Awareness indicates the entity may not even want the responsibility for speaking for the group, may prefer simply to speak his or her own convictions. This Awareness indicates that the question may be asked: "What is it that distinguishes the entity who becomes a significant influence or force over the lives of others, as opposed to the entity who is ever and always dependent on others to speak for him, dependent on others to intercede for him, dependent on others to have mercy on him, dependent on others for crumbs and benefits, and dependent on others for instruction for every move?"

What is the difference between these two entities in terms of the attitudes that bring about such lives? This Awareness indicates that when you consider the one among many, that one may see himself as being only one among all of these numbers of others, and in thinking in terms of quantity, one is very small in comparison to millions or billions, and therefore one is insignificant, and therefore insignificance has nothing to say. Insignificance can only give support to the significant.

Thus, the entity who thinks in terms of numbers and considers himself a number is the entity who does not become a leader, who does not experience individuality and freedom, but who always remains a dependent of society, an appendage of the organization, a follower of the leaders. The entity, one among many, who thinks rather than in terms of numbers, who thinks in terms of quality, rather than quantity, who sees himself or herself as being one of high quality, one of high standards, one of great worth, one whose existence is of significance to self, to others, to God, or to some Divine Principle, or to some personal cause; the entity who thinks of his or her value rather than his or her place in relation to the numbers of others, the entity who thinks in terms of quality and value of his or her life, is the entity who cannot be relegated into oblivion, into dependency.

This Awareness indicates this entity shall rise and shall have influence. This Awareness indicates that when an entity rightly or wrongly sees a value in some position, in some cause, and sees himself or herself as qualified, (note the word *qualified* and *quality* are associated) qualified to carry out the effort to bring about recognition

of this cause; that entity then begins to take on the responsibility of a leader for the cause, and other entities, agreeing with the cause, will tend to step back and give energy to that entity so long as he exhibits the qualifications and so long as he or she continues to feel qualified; that when there is brought into play a quality factor, a number factor, whereby another enters and says: "You are not qualified for this," the quality is then distributed between the two, and the support of the other is then divided, and thus, quantity can take away the energy and quality of a leader, yet it is through this type of competition between quantity and quality which determines the essence or purity and refinement of the quality of character and purpose.

#### Ralph Nader--Leader of Consciousness

This Awareness indicates that thus the struggle, whereby the one, whether this one struggles from being totally alone, working for a cause, such as the entity Ralph Nader, who started out with nothing but a strong conviction and who began within a short period of time of shaking the corporate structures of the United States by their roots, causing laws to be passed, causing agencies of the country to investigate, to search this man Nader's behavior, to find something wrong with the entity, seeking to tap his phone, only to discover that he did not have a phone to tap, seeking to find something which could be used to discredit his character only to discover that he had nothing and did nothing except carry out the work he was doing; this entity working as an individual with conviction, became a leader of consciousness.\*

This Awareness indicates that others emerge from circumstances, wherein the responsibility is thrown upon them by the masses, the circumstances, and the cameras, or focus of attention. The situation may be that the entity, thrust into positions of great responsibility, rises and grows to meet that responsibility; many entities unqualified for a job or duty grow and develop and become qualified for that which they could not have ever imagined themselves capable of doing. They do this because they must, because they have the conviction or concern enough to respond to the urgencies that are before them.

#### How to Escape Responsibility

Other entities, thrust into areas of responsibility, even the simplest responsibility such as getting up on time to go to work on your third day of this new job, such entities are incapable of meeting those heavy responsibilities, and therefore sleep in on the third day and lose their new jobs. This Awareness indicates that the question is: "Why does one entity accept responsibility for millions while another entity cannot even accept the responsibility for his own needs?"

This Awareness indicates that the reason is because the one entity is thinking in terms of quantity, seeing himself as only one, and therefore not counting. Generally such an entity creates an illusion about himself.

\*Members wishing to keep on top of the shenanigans of the multinational corporations, nuclear power promoters, chemical polluters and other defilers of our environment and public health and welfare, are urged to support this entity, Ralph Nader, and his organization, "Public Citizen". A \$20 donation will bring you their magazine, "Public Citizen" which will keep you informed. (CAC has supported this organization for 12 years). Address: Public Citizen, 2000 P St., NW., Washington, DC 20036.

The illusion is that which excuses his withdrawal from human problems and responsibilities, with the excuse that it is a mad race, a rat race, it is of such intensity that: "I have no desire to become involved, and anyway, I am only one person, and what can I do?"

The entity as one individual, looking at the rat race, withdraws from the experience, but in order to keep some type of self-image rather than totally succumbing in complete retreat and suicide, the entity will create a defense against suicide by attaching his or her consciousness to the concept that: "I am a superior being, superior to those fools who enter the rat-race and who run around attempting to work, attempting to earn their living through those various demeaning occupations which make them slaves to the establishment and system. I understand all this too well to get involved; brother, could you spare a dime?"

This Awareness indicates the entity becomes dependent on the society which he rejects because he or she is too superior to get involved in that society and the rat race and the entity may steal from those in the society out of necessity, or may manipulate, deceive or trick others out of their earnings; the entity feeling himself or herself superior, yet also experiences great fear--fear of getting involved in occupations wherein they may be rejected by the boss for inadequate work, so that even after the entity seeks and wants to get a job, the entity may have much difficulty and the entity goes to sleep at night or has some time off from work, the entity gets drunk, escapes through some form of self-indulgence: drugs, drink or wandering out into the forest for a vacation, or just kicking back for the night, or taking off for a wild weekend; and the entity, falling back into the old thought pattern of avoiding, and of being dependent, the entity dreads to go back to work on Monday morning, and therefore the entity forgets to push the alarm on the clock, or hears the alarm go off but decides not to move yet, or pretends to himself that: "I just didn't hear the alarm," or says to himself: "I don't want to spend the rest of my eternity working in the furniture factory."

Thus the entity finds an excuse to avoid that responsibility.

This Awareness indicates this entity is thinking in terms of comfort zones for self, whereas the entity who becomes a leader thinks in terms of comfort zones for others, is concerned with the comfort zones of others. The entity in becoming concerned for the comfort zones of others may or may not be a leader. The entity who is not a leader, but who is concerned for the comfort zones of others is generally a sympathetic worrier, one who worries and sympathizes and says: "My, my, it is such a tragedy."

#### The Attitude of One With All

This Awareness indicates that this entity carries also an identification of: "I am unable to help. I am only one person. I have such little strength and power. I am powerless against all that, therefore all I can do is say: "My, my, such a tragedy." This Awareness indicates the entity who is the leader-type, who has a concern for the comfort zones of others is the entity who sees himself/herself as having *unlimited* potential to draw on. The entity who is one among all, and as all; the entity who is one with all, one with God, one with all that is providable to the entity; when the entity is One with All, what more does one need? for one has all at his or her disposal.

Thus, the entity who sees himself/herself as one with all can provide, can be concerned for the welfare of others and their comfort zones, and can indeed serve others, for the entity has the wherewithal from the one-with-all attitude. This Awareness indicates that the entity knows that even though he or she has never faced this problem before, the unification with the all, the attitude of being one with all, will provide that which is necessary for the entity to rise to the occasion and do that which is necessary.

This Awareness indicates that this is what creates a leader. This is what creates a wholesome, unified, integrated entity in a society, and as such, the entity becomes a catalyst to unify society, to unify entities around a cause, a concern. This Awareness indicates that there are many entities who are in between the one-with-all; these entities are those who one-with-more, or one-with-much, or one-with-a-tremendous-amount.

This Awareness indicates that these entities are demi-gods, or are less capable in comparison to the entity who is identified as being one with all. These entities may have more than you, they may have more prestige, more clout, more friends, more money, more weapons, more political influence, more publicity, more extortion ability, more trickery, more cunning; but these entities are *not* one with all, and the entity who is unknown in society, but who practices and makes an effort to move his or her life to be integrated as one with all, that entity has much greater power than those who are one-with-more, one-with-much-more, and the eternal escalation of power, for they are *not* one with all.

#### Living in the Tao

This Awareness indicates the entity who is One With All does not mean that the entity is seeking to possess all, for if you possess all under your control, you are not one with it, for it is separate, as a possession. If you seek to be One with All, it requires that you merge with all, and integrate with all, and all means everything—the entire universe. You must merge with the entire universe and recognize yourself as being One with Cosmic Consciousness, the Divine Essence of the universe, and wherein you are one with this, there is no separation and the personal needs are supplied, the direction is given, the destiny for your life is created and guided by the circumstances and energies which occur from being One With All. The All moves you. This is called living in the Tao.

Living in the Tao, or living in the energy of the universal Consciousness is that wherein you are moved by the Universal Energies from moment to moment, from thought to thought, integrated with the highest, and never separated from the Tao into states whereby you number yourself as “number two” with All. You cannot be separate and still be “number one” with All.

This Awareness indicates that being One with All, or One with God means that you as an individual must give up your indulgence in concepts of separateness; the indulgence of thinking about “my accomplishments,” for if you think of “my accomplishments as an individual person compared to that entity over there, and that one over there, and those written about in history and this other one over here,” you are comparing yourself with numbers, quantities, and these comparisons separate you from the oneness, and that breaks you away from being One with All.

This Awareness indicates that there are many entities who have had glimpses of being One with All, and after such experience they wander off and say to their friends: “I was One with God! I had such a tremendous experience! You should have been there! I’ll tell you, it was *something* else! It was...well, there’s no way I can describe it, but let me tell you, it was impressive! Have you any other friends who would like to hear about this?”

This Awareness indicates this entity, glorying in his enlightenment, must separate himself from the One With All in order to brag about, or gloat over the experience, and therefore, the entity stepping aside from the experience, is no longer in the experience. This Awareness indicates that the entity Jesus spoke as One With All. He did not say: “I had such an experience! I was One With the Light, I was One with the True! I saw the way!” He spoke as one who was with the All, and said: “I AM the Way! I AM the Truth! I AM the Light!”

This Awareness indicates that obviously, any entity who speaks to others in these terms is risking the contempt of others who would like to separate that entity from the claims he or she is making, and get them back on the level in which they can communicate as two separate entities with equal number and discuss the situation so that the entity who does not feel One with the Light can better understand what is occurring.

#### How to Check Out the New ‘Messiahs’

This Awareness indicates that today, you have in your world a number of entities who are brazen enough to go about saying: “I am the new messiah!” This Awareness indicates that often these entities, in making such claims, can make the claims without blinking an eye, and may truly believe they are the new messiah. The question is: Are they truly One With All?, or are they simply attempting to manipulate the masses, gain support from the masses? Are they simply making these claims in order to further a cause of which they are dependent on the masses?

This Awareness indicates that any time an entity states: “I am the new messiah! I am special!”, be very wary. Any time an entity seeks to gather support, the entity is dependent upon you. This Awareness indicates that you must look to see what kind of dependency this entity has. Is the entity taking from you? Is the entity drawing energies from you through your devotion, through the attention, or through your services?, and if so, is that entity doing this simply because of his claims of being the messiah?, or is the entity actually giving a service in return?

#### Should You Have to Pay for Spiritual Services?

This Awareness indicates there are many entities in the spiritual field who think that all spiritual teachers or servants should give of themselves and give their services for free, charging nothing. This Awareness indicates that indeed, if an entity is giving nothing, but is simply making claims, then the entity deserves nothing for those services. This Awareness indicates however, if the entity is giving a service, is giving guidance, is giving assistance in spiritual development, training or otherwise which is valued by the recipient, then indeed, the recipient should return something, or give something to that servant of the spiritual truth.

This Awareness indicates that there are those who give service, who assist others, who give guidance, but who do not make the claims that they are One With

God, or that they are the new messiah, or that they are special, and many of these entities are indeed One With God. This Awareness indicates there are others who claim to be One With God and publically proclaim themselves as the great teacher, as the great messiah, or as some great medium from the Divine, and offer little other than those claims which allow the entities who are dependent in nature to flock to them and do their bidding, giving service, showering gifts, because these flocks of entities want a leader. They do not want guidance. They want to hook their belts to the hem of the messiah and let the messiah pull them along.

This Awareness indicates that: Why should these entities attempt to develop their own Cosmic Consciousness, their own spiritual enlightenment, when they can simply sell all they have and give everything they have to this spokesman who says that *he* is the new messiah? This Awareness indicates that this is but an arrangement created by deception, whereby the gullible become dependent on the deceiver.

This Awareness indicates that wherein there is something other than the mere personal claims of an entity to be a messiah, wherein the entity does give some kind of personal guidance, or gives some kind of personal help to the entities who come to him or her; wherein a service is rendered by the entity, then indeed it is appropriate that something is given in return for those services.

#### How Edgar Cayce was Paid for his Services

This Awareness indicates that this Interpreter was recently handed a letter from an entity who was extremely hostile that the Interpreter charged money for trances, claiming the Interpreter charged \$200 to \$500 for trance readings, and in comparison Edgar Cayce had never charged anything. This Awareness indicates that in actuality, the figures are totally wrong. Edgar Cayce was *given* vast amounts in donations, properties, and in gifts and in payments for the energies which he gave. There is no possible way that an entity can devote the energies of his or her life toward helping others and not receive something which sustains the life of the entity.

This Awareness indicates the Interpreter has in fact, *never* asked or charged for readings; the charges are those which were given by the suggestion of the editor of C.A.C., for this entity saw full well that the action of the Interpreter giving free readings would quickly burn out his ability to be of any service to anyone, and therefore, this editor set a fee which was designed to regulate the flow of readings so as not to overwhelm and burn out the Interpreter's ability to serve.

This Awareness indicates that this is an example of service being given in response for energies received. This Awareness indicates that likewise, when you who are giving service to others, whether this is spiritual, mental, physical, social...you who are giving service to others, you have a responsibility to keep your lines of service open, and if you cannot continue to keep your lines of service open with the amount of energy that is being returned to you, then you are in the process of self-sacrifice.

This Awareness asks you: Do not martyr yourself, do not sacrifice yourself in the service to others, except as may be of your own personal choice in emergency situations. This Awareness indicates that to make this sacrifice of self a way of life is to cut off your effectiveness as one who gives service. This Awareness indicates that wherein you, in giving service, can charge a fee which is acceptable to others, to allow your service to flow at its optimum,--this is appropriate.

This Awareness indicates that wherein you yourself do not feel inclined to accept pay for some service, that is your option, for all of the entities on this plane at one time or another and to some degree or another must enjoy the benefits of being generous, for it gives an entity a feeling of worth to give of himself to others. This Awareness indicates that if you see your friend or associate in an action which would sacrifice them, whereby you see them being used up by the demands of others, whereby you see them as having a service which is being given, but which is so costly that you know they cannot endure this pace much longer, then it is your responsibility to assist, if possible, in helping those entities to receive the rewards which are due to them.

This Awareness indicates that in this manner, entities can give of themselves, and on occasion can have a surprise whereby others give to them and help them out. This Awareness indicates that this is what brings happiness and joy to entities' lives. This Awareness indicates that wherein you are living with the Tao\*, living as One With All, the forces of the All tend to bring about an energy flow which does not allow a vacuum to go unnoticed, and does not allow a vacuum to exist without being filled with the appropriate rewards for the energy that has been given which has created the vacuum.

#### Asking the Divine for the Winning Lottery Number

This Awareness indicates therefore, when you are living as One With All, the Law of Gratitude is that which functions at its highest level and brings back the rewards which are appropriate for the energy which has been given. This Awareness indicates that the entity who sees himself as separate from the All, the entity who seeks self-gratification, self-worth by praying or pleading for the All, the Universal Divine, to recognize his needs as a separate being, a puny little number, one among billions; the entity who sees this and is seeking special attention through the contest, the raffle, the game, the gamble or the effort to achieve some particular financial benefits; the entity who seeks special attention from the Divine for simply being one of the multitudes of gamblers, contest enterers, this entity is not experiencing through these actions the concept of being One With All.

This Awareness indicates that *It* gets a number of questions from entities wanting to know how they may win raffles. This Awareness indicates that the lotteries and raffles and contests; these are not ways whereby entities can hope to enhance their lives in a meaningful way. These are but illusions created by the forces of maya to give entities false hopes, to hook them into games presented by controllers of consciousness to give them actions which they can occupy their mind and money with so that they can live in fantasies.

This Awareness indicates there are occasionally those who win, and all of the attention is focused upon the winner, and the millions who lost look at the winner and identify and say: "There is a winner; next time it may be me!" This Awareness indicates these entities never stop and look at all of the losers. They only look at the winners. This Awareness indicates that many entities ask this Awareness to intercede for them in these contests so that they can win one over the other, and are disappointed that this Awareness does not provide for them the manner by which they may live the rest of their life in ultimate comfort.

This Awareness indicates that these entities feel deserving of ultimate comfort for the rest of their lives and cannot possibly comprehend why it is not provided. This Awareness indicates these entities as ultimately dependent in their attitude. They do not wish to become One With All and accept What Is. In becoming One With All, these entities might end up on the cross of crucifixion as occurred with another, therefore, they prefer not to become One With All, and would rather grovel and pray and beg for Divine Intervention into their unhappy insignificant lives, and ask for treasures to be bestowed upon them so that they can live from then on in ultimate comfort, in ultimate health, in ultimate wealth.

This Awareness asks entities who have this attitude: Who do you think you are kidding? This Awareness indicates that this is not simply a mind game, in the sense of conning this Awareness by heaping guilt on this Awareness for not bestowing you with what you want, simply because this worked on your mother or on your father; this Awareness indicates that this is reality that you are experiencing in this life, and asks you to look at things in a realistic way, integrating yourself with the universe, becoming One With All, dealing with urgencies that pop up in front of you, not seeking to escape the wrathful deities and circumstances that encroach upon your life through the use of the bottle or the drug, or the escapism of the illusions that you can find some shortcut through theft, deception, dishonesty or manipulation, or coercion, or playing upon the emotions and the guilt of others.

This Awareness indicates there are *no shortcuts* to becoming One With All, and all of these actions are taking the long way around, and only extend your suffering that much longer. This Awareness suggests that the entity who begins to integrate and become One With All, indeed soon finds himself/herself as one who has *all* that is necessary and desirable in his or her life.

This Awareness suggests the Interpreter be brought from trance.

\*\*\*

(The Law of Gratitude is given)

(Emphasis is by the editor)

ED's Note: In reference to those who ask Awareness in their Personal Readings on how to win the lottery etc., the usual ploy is to state that they intend to give a certain percentage of the winnings to C.A.C. and the Aquarian Church. To see how Awareness responded to such a ploy put forth some years ago by a member whose first name was Gustavo, please refer to 'Revelations of Awareness' No. 2. (Winning At Gambling with the Help of Awareness); \$2 from CAC.

For the complete 'Law of Gratitude', please refer to the booklet, 'The Cosmic Laws of Cosmic Awareness' (\$3 from CAC).

\*Awareness pronounces 'Tao' as 'Dow'  
(as in Dow Chemical).
