(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance readings and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

Lightworkers...Peacemakers....

It's time to

RECAPTURE

OUR

FLAG!

Interpreter

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

(CAC Gen. Reading No. 1)
January 20, 1984

(Opening Message)

COSMIC AWARENESS:

This Awareness indicates that since *It* previously addressed the membership in November, early November of 1983, there have been considerable changes that have occurred. This Awareness indicates that at the time there was the sharp rise of war fever which begun with the Korean airliner incident, and which was building toward a climax with the deployment of the missiles in Europe.

This Awareness indicates that since that time, the missiles have begun being deployed, but the war fever has dropped off considerably. This Awareness indicates that this in part due to the national movie phenomena, *The Day After*, which had a sobering effect on entities, to make them look at that which they preferred not to look at. This Awareness indicates this movie as likened unto a warning sign to the masses of humanity, traveling down a highway or course that would have otherwise led to great destruction.

This Awareness indicates that this movie being likened unto a sign on the side of the road warning against ice or dangerous areas, showing a picture or image of that which could occur if entities proceed without caution. This Awareness indicates that such signs or images of a negative nature often are necessary as warning signs, and can be seen as positive in nature in that they give a warning which the mind can heed and understand.

This Awareness indicates that down through the ages, wherein there is a taboo on the trail or on a path, a warning sign has been placed. This Awareness indicates in primitive countries, often this is the skull placed on a stick or drawn on some rock or some image to give the indication that one should not follow this course without expecting extreme danger. This Awareness indicates that in this manner, negative signs have been used for positive purposes; to stop the pursuit and to stop the further action of entities who are on the wrong path.

This Awareness indicates that deception often lies when entities present a sign alluring and a sign which draws in those forces into an entrapment. This Awareness indicates that in one sense, the administration was attempting to give the public the feeling that by deploying these missiles in Europe, that this was going to lead to greater benefits for everyone, greater security and a greater sense of happiness for all concerned. This Awareness indicates that this is a kind of alluring, or a kind of lure that draws entities into a position which could easily become an entrapment.

This Awareness indicates that up to this particular time, the missiles have not been stopped and have been deployed into these areas, and essentially it has been a military victory for those who were planning to create the situation in which a First Strike would be possible. This Awareness indicates however, it was not a political victory. This Awareness indicates the military victory has been extremely costly in terms of the loss of public support, not only in the United States, but particularly in some of the European countries.

This Awareness indicates that the countries and governments which have gone along with this plan for deploying these missiles have to a great extent lost the support of their people and this can in the future mean that these governments will be replaced, unless there is some kind of change whereby they again regain the support of the people.

This Awareness indicates therefore, the military victory has cost the political support and without the political support, these countries are even more vulnerable, and the military alliance, the NATO alliance is more vulnerable now that it was before the military victory was achieved. This Awareness indicates that what this means in terms of the overall balance of power between the United States and Russia, between the Communist countries and the Western countries, is seen in the attitudes associated with the various nations, the people and their attitudes toward the administration.

Russia's Paranoid Scenario

This Awareness indicates that essentially, the restraint that has been shown by the Soviets as that which has taken a slight turn from that which would have been expected. This Awareness indicates that the entity Andropov, who is by many presumed to be dead, is not dead as yet. This Entity has been ill, but essentially the entity as being in hiding in a particular area in an effort to keep secret the location of this entity so that in the event of a strike against Russia he would still be able to carry out the actions seen as necessary for them to keep their chain of command open.

This Awareness indicates the Russians are extremely paranoid at this time, (and perhaps rightly so), that there could be a nuclear strike against their country at any time. This Awareness indicates that the scenario which they fear is that of a movement of U.S. rangers and troops into the Middle East, and wherein Grenada served as a practice run for this attack in which Moscow would be attacked by neutron bombs, destroying people without destroying buildings and whereby the radiation would last for some 72 hours, during which time the rangers would enter into Moscow and upon ascension from the underground hiding places, the Russians would be captured and Moscow taken over without the public in the United States even being aware of the event because the communications satellites would have been knocked out.

This Awareness indicates that the military bases to be destroyed by convention nuclear weapons,--this as being a scenario which the Russians have concern about. This Awareness indicates however, this does not appear to be as a plan in the works by those of the Western powers, although this has been talked about and considered somewhat. This Awareness indicates that there also is the concern by these entities that another major event similar to the KAL airliner incident in its purpose may be triggered within the next few weeks, which would again whip the American people into a war fever, and that this could create a circumstance whereby an excuse for launch would occur.

This Awareness indicates that due to the many changes which have occurred in consciousness in the mass mind, it is highly unlikely that such war fever could again be whipped up this quickly over another incident. This Awareness indicates it appears rather that because of the many Democratic candidates running for office with their feelers up for anything to criticize regarding the Republican administration, and with the general attitude of the people, and the response which occurred during the fall, both in the United States and in Europe from the public, it appears that the concept of whipping up war fever and getting the support of the masses for another incident, or for support of any type of strike against Russia would not be very successful at this time.

This Awareness indicates therefore, any efforts to do this it appears would be without the full support of the people. This Awareness indicates of course there are always some who will support the administration in anything, regardless of what it advocated, or who was administering the government, for some entities are simply loyal to leaders regardless of where they are taking the entities to. This Awareness indicates that these being likened unto mindless sheep who generally call themselves patriotic and who mistake the leader for the country.

True Patriotism is Defined

This Awareness wishes entities to make this clear distinction and to have a clearer understanding of what patriotism is, This Awareness indicates that patriotism is *not* loyalty to the leaders. Unless the leaders are loyal to the *principles* of a nation, this can be treason to be loyal to the leaders. This Awareness indicates that true patriotism is loyalty to the principles on which the nation was built and on which the people have agreed to support, regardless of its various directions and paths. So long as the principles are supported and one supports those principles, one is patriotic.

This Awareness indicates that wherein one begins to support a leader that is claiming to be patriotic, waving the flag and leading the people away from the principles on which the nation was built, this type of patriotism is not toward the nation, but rather is loyalty toward the *deceiving leader*,--the one who would be treasonous toward the nation's principles. This Awareness indicates that many entities become confused about this concept of patriotism, and when they see the nation being led into wrong directions by leaders who are acting with disregard of the principles on which the nation was built, they believe themselves not to be patriotic to the nation anymore.

This Awareness indicates there are many entities who are embarrassed to salute the flag because the flag has been used for purposes that are anti-American, for purposes that are against the principles on which this country was built, namely, the freeing of humanity. This Awareness indicates that wherein the flag is carried into battle to slaughter and maim entities from another country in order to build up a greater financial economic base for some corporation in order for that corporation to take over and use the resources of that country for its own profit and gain, using the United States' flag and the concept of democracy as an excuse for such invasion and intrusion into another's affairs, entities become embarrassed to be recognized as Americans.

This Awareness indicates that this is *exactly* what these entities wish to happen, whereby the true American begins to feel himself dislocated, begins to feel himself traitorous, begins to feel himself as not having a country or not being truly patriotic to his country. This Awareness wishes entities to not fall for this confusing manipulation of the mind and

loyalties, but rather to look at this with clearer direction and understanding.

This Awareness indicates that the Constitution of this United States is perhaps the greatest document ever written for nations upon this plane, whereby these people of the nations could have a model on which to build a society. This Awareness indicates that this Constitution as that which has given entities great freedom, has given entities great opportunities, unsurpassed upon this earth plane. This Awareness indicates that the problem is not the patriotism to the Constitution, the problem is the *distortion* of what patriotism IS, and whereby entities come in charge through manipulation of the elections, through funding through vested interests, and through the controls and organized election campaign systems whereby entities can purchase their offices, and whereby entities have control of each other through their offices, whereby they can manipulate the course of government,--not by following the law, but by *bending* the law in order to make the law work for their vested interest, and then whereby these leaders who are nothing but puppets of the corporations, raise the flag, salute the flag, hold the flag and speak as though they were humanitarians representing the great freedoms which the Founding Fathers and which the ancestors of many in this nation gave their lives to support; whereby these entities claim to be the leaders and representatives of this freedom, but in fact are nothing but puppets and representatives of the corporations' vested interests in acquiring control over some little nation here, or some resource over there, and in their shouting and patriotic stance, they draw in the mindless masses to support them in these efforts: This Awareness indicates that *this* is where the treason lies, and not in the entity who is standing on the street corner, holding a placard calling for peace in South America, or calling for investigation of some violation, or calling for some type of reconciliation between forces.

This Awareness indicates that these entities who march for peace should carry American flags, should carry signs of patriotism, should speak out for the Constitution. These entities should let themselves be known as true Americans, for America is not that nation which is being represented by those vested interests and those corporate powers. This Awareness indicates that the *true America* is that which is being lost in the shuffle, and if the Peace Movement, and if the masses do not recognize that *they* represent the True America, then indeed, the Constitution and all that is viable in this nation in reference to freedom, in reference to democracy, in reference to the right to speak out; these will be lost.

Attention all SPIRAL Groups

This Awareness indicates that it is important that the SPIRAL groups particularly begin to take on a nationalistic patriotism, but expressing themselves in reference to a firm foundation on the Constitutional guarantees and to emphasize the value of the Constitution. This Awareness indicates that it does little good to try to promote the *Unified States of Awareness* as an extension of the United States Constitution if the United States Constitution is lost in the shuffle.

This Awareness indicates that therefore, it is important that the United States Constitution be seen as that which is the *foundation* from which all of the other movements are made. This Awareness indicates that in keeping this Constitution strong in the minds of the masses, the freedoms which it guarantees can prevail. This Awareness indicates that *It* previously mentioned that if the war plans did not proceed on schedule for March of '84, that entities could expect sometime in May or June, the beginning of an effort to alter the Constitutional freedoms.

The Growth of Doublespeak

This Awareness indicates essentially, these efforts have already begun. The administration as having made several movements to curtail freedom of speech, to create certain types of secrecy. This Awareness indicates essentially, the era of 1984 is upon you, and the Doublespeak or Newspeak is already being used. The 'peacekeeping' missiles and the various descriptive terms used to describe the economy, whereas the terms are distorted so as to give a twisted impression.

This Awareness indicates for example, a positive deficit as a term which has the appearance of being one thing (something of a positive nature), when in actuality it is of a negative nature. This Awareness indicates this likened unto saying: "a positive minus one." This Awareness indicates a "positive minus one" in mathematics would cancel itself out, but in Doublespeak or Newspeak, it is a positive or actual minus one! This Awareness indicates that there is no need to put the positive in front of the minus one, for it is a minus one, but when one sticks the "positive-minus one" in front of the minus one, it gives the impression to the mind which is not familiar with the Doublespeak language, that there is something positive about the minus one.

This Awareness indicates therefore, a "positive deficit", for example, while still a deficit or debt, or in-the-red measurement of the economy, can be accepted by those who are not clear in their thinking as something positive. This Awareness indicates that this type of Doublespeak which is apparent in all bureaucratic languages now as that which is growing ever stronger and ever more prevalent.

This Awareness indicates that if this continues, it can be used to justify and to salve over all kinds of terms. This Awareness indicates that the slaughter of the innocents can be described as the "pacification of the negative", or could be described as the "creation of greater national security." This Awareness indicates that these terms which are being used are those which are false in the sense of descriptive terms, but are designed to manipulate the mind rather than to describe in actuality what is occurring.

This Awareness indicates that wherein a certain force wishes to murder someone, they may refer to this as "terminating the problem." This Awareness indicates that these terms are those which describe in ways which are not offensive to the mind, and therefore, whereby the mind does not recoil at the description. This Awareness indicates that this is Newspeak--that which the entity George Orwell referred to as Newspeak. This Awareness indicates that it has become much more subtle than this entity ever imagined however, and this Awareness indicates also that the figures which are presented as being likewise manipulated so as to indicate one thing when in actuality something else is fact.

This Awareness indicates that fact and fiction are quickly and easily and prevalently being altered and confused throughout the society so that there is much difficulty in sorting out truth. This Awareness indicates that in reference to the present war fever having subsided considerably, the immediate danger of a war of a nuclear type seeming to have diminished. This Awareness indicates that it is apparent to entities who have lived for anytime at all, that such ups and downs in the war fever are commonplace and that to assume that peace will prevail because there is a lull at the moment would be naive, for entities are well aware that they may wake up one morning and find a new incident in the news which will create a fiery response from the public and heat up war fever again.

This Awareness indicates that it would be interesting for entities to do a research project on how many of these major incidents occur on Sundays. This Awareness indicates that it is noticeable that whenever the manipulators wish to create an incident to affect the mass-mind, they generally pick a Sunday, wherein everyone will be at home and will be able to watch the news and get the full impact rather than being at work, concerned with their productivity.

This Awareness indicates that also, quite generally, these events occur while the President is away from the White House, and must make a hurried return to the White House. This Awareness indicates this giving the impression of spontaneity of the event. This Awareness indicates that over the years, if entities would check out these events and notice how many occur on Sundays it would be of considerable interest to notice that there is an alarming number of such events on Sunday as compared to those on other days.

Flags for Peace...(Freaking out Falwell)

This Awareness indicates that these in reference particularly to the events that are designed to whip up the consciousness of the masses toward a particular end, such as the incident at Pearl Harbor. This Awareness indicates that *It* suggests also in reference to those entities who are promoting peace, that in carrying flags, in holding America as supreme in its original meaning, political supremacy or idealistic supremacy, that it will confuse and disarm those ultraconservatives who tend to think anyone who is for peace is anti-American.

This Awareness indicates that many of the ultra-conservatives think that anyone who opposes the administration is pro-Russian, and this is that kind of thinking that is extremely hazardous and tends to push the Peace People toward pro-Russian stance because they feel alienated from the conservative flag-waving types. This Awareness indicates that this is absurd for entities to allow these conservative flag-wavers who are nothing but followers of a leader and who do not necessarily follow the Constitution; it is absurd for them to think that simply because *these* entities class them as pro-Russian that they have to be so placed in their stance as to see themselves as also being pro-Russian.

This Awareness indicates that these entities should take the flag back, and see themselves as pro-American; that America has a history of standing for freedom and peace for its people, of standing for democracy, of standing for certain ideals in ethical behavior. This Awareness indicates that this is the *true* America. The war-mongering America is that which has been displaced by those forces which see enemies everywhere and which see themselves as having some kind of superior right to run over others and destroy others in the name of democracy.

This Awareness indicates that this is much likened unto the movement of Christianity taking the gentle teachings of Christ and putting these under arms, and carrying these arms into civilizations, slaughtering the heathens for not having been born under Christianity or for not embracing some Christian religion which they have not yet heard about. This Awareness indicates that this action of taking a pure clean, clear, honest message and distorting it into some kind of weapon to attack others is that which is as old as the earth itself.

This Awareness indicates that it is for the Light Workers and the members of the nations to stand for the ideals on which the nation is built, regardless of *who* the leaders are, for the leaders come and go, and the ideals remain. This Awareness asks you not to worry about the appearance of being patriotic, for it is to the loyalty of the nation and its principles that are important when the nation's principles are clear, meaningful and honest and humanitarian in nature.

Point Out the Traitors to our Constitution

This Awareness indicates that rather, what *It* asks you to do is to point out the traitors to the ideals, and not to accept being called a traitor yourself. This Awareness indicates that *It* suggests to you that you take back the mantle of being an American, of being whatever nationality you are, whereby you stand for the ideals or principles that are of a humanitarian nature, particularly when your nation embraces those ideals and calls upon those ideals and claims that it is working for those ideals.

This Awareness indicates that when you embrace those ideals and claim yourself to be loyal to your nation in that sense, then there can be little criticism for what you do so long as you remain loyal to those ideals.

This Awareness indicates that when you don't identify yourself with the ideals of the nation, then others can class you as anything they desire to class you as. They can call you Communists, they can call you devil worshippers, they can call you traitors, they can call you extremists, they can call you terrorists, or any type of term they desire, and there is little evidence to the contrary if all you are doing is carrying a peace sign, and the public seeing you carrying a peace sign and hearing you labeled as a Communist will assume that what they hear is true.

This Awareness indicates however, if you are carrying a peace sign *and* an American flag, and a sign saying: "Take America Back to its Principles, to its True Principles of Freedom and Democracy for All," then it is going to be hard for these entities to convince others that you are a Communist. This Awareness indicates that it amazes this Awareness that entities can allow themselves to be manipulated out of their position as a citizen of the country that has given them the greatest freedoms available on this plane.

This Awareness indicates that they are being manipulated out of that position simply because they are being convinced that they do not have the right or desire to carry the flag, or to use its symbols, or to identify with the name of the nation which gives them such freedoms.

This Awareness wishes entities to look very carefully at these things, for this nation as that which *was* given by Divine Guidance, and is being lost by Light Forces which are becoming embarrassed because the Dark Forces are using the symbols of the nation and are distorting the meanings of those symbols. This Awareness indicates that it is for you to take back the symbols of the nation, take back the flag, use the flag for the promotion of freedom, democracy and humanitarian causes, for this is what made this nation strong, is what gave it the ideals which built the nation. This is what gave the nation its essence and spine from which to grow and develop for two hundred years.

This Awareness indicates that without these ideals it becomes nothing more than another tyrant nation run by dictators and Forces of Darkness. This Awareness suggests that entities become proud to be Americans, but to redefine America as what it once was and not what it has become in more recent times. This Awareness indicates that it becomes essential that entities recognize the influence of the major corporations, the multinational corporations which are in control of this nation, and that entities recognize these multinational corporations and their vested interests are those which need to be distinguished from the idealistic America, the America that has been touted and held in high esteem, and whose high esteem and high reputation has been used by these multinational corporations for their vested interest and for their personal gain, and control over others.

This Awareness indicates that it is important to distinguish between these two types of America, whereby the *true* America stands up to be counted once again. This Awareness indicates that it is extremely difficult for the less enlightened citizen to make a choice between a corporate American state or a Socialist Russian state and not see that there is something else which is missing, which is in fact the democratic American nation.

This Awareness indicates that it is for the Light Workers to redefine, reestablish, to chip off the corrosion and to clean up the *true* American nation, to bring back the ideals and principles which are being corroded, covered up and hidden by the corporate American state.

IS NUCLEAR WAR PROPHESED IN THE BIBLE? (More on the Book of Revelation)

QUESTION:

A question along this line from A.W. She write: "Many Christians find in the prophecies of the Bible, predictions of nuclear war. Many feel that these prophecies of nuclear war are inevitable, and therefore at best are ambivalent about working for *Reconciliation-YES, Annihilation--NO*. I speak to these people of these prophecies being predictions of what will or would occur if the energies in motion continue on their course, and of 'Divine Intervention.' This line does appear to make some opening, but not enough. Could you give more guidelines on dealing with this problem?"

Many articulate and educated people have turned to hard-line Christianity out of fear and desperation, and they could be a significant force for good, if their concern that nuclear war is prophesied in the Bible and is therefore inevitable could be overcome. Sometimes I wonder why the prophecies of nuclear war are in the Bible. Are they from a high source? Or perhaps planted long ago to burden people of this time with a hopeless feeling? Is there something in the Bible which says in effect: these prophecies will happen *unless* you get out there and spread the Light and the news?"

COSMIC AWARENESS:

This Awareness indicates that there are a number of topics in this question. This Awareness indicates that the prophecies were originally written in regard to the area known as Tyre. This Awareness indicates in this area there was a control over the masses by use of numbering or branding, and the numbering of the individuals as that which allowed for a tight control. This Awareness indicates that this was an action of high power, whereby the entities involved lived on a fortress, on an island which controlled the flow of shipping in the area.

This Awareness indicates that Tyre is still a city, but that its nature has changed considerably in the past 2000 years. This Awareness indicates that in writing about the prophecies, the entity John saw this as something which would spread and which could become highly dangerous to the known world of the time, and therefore wrote in warning about this. This Awareness indicates the entity also as having seen visions,--these visions essentially having been representative of the nature of the human body. The human body, having seven chakras, in his writings were referred to as the seven candlesticks, or seven churches.

This Awareness indicates that the entity labeled these things he saw with the things he knew of in his known world. This Awareness indicates that he saw these of being symbolic of those areas of his known world; that the chakras of the human body, the seven candlesticks; one can read the *Book of Revelation* from this viewpoint which has been already presented through the Edgar Cayce readings, and can see the allegory or images of the meaning of the *Book of Revelation* from the observation of these bodily organs: the chakras and the glands as being representative of those which were mentioned in the *Book of Revelation*.

This Awareness indicates that in observing this in this manner, one can read this as a mystical guidebook, wherein the Beast is seen as a portion of one's own consciousness, and wherein the Second Coming is an action of one's own consciousness, which occurs through the state of enlightenment,--the Second Coming of Christ, or of the Christ Consciousness. This Awareness indicates that this is one interpretation of the *Book of revelation*.

This Awareness indicates that in all great symbolism there are levels of meaning, and wherein the chakras of the human body are also likened unto reflections of the universal energies, they reflect likewise the planets, and reflect also the social evolution. This Awareness indicates that by *reflection*, this Awareness means that these are in a frequency harmony, or a vibratory harmony to the planets and to the events that occur in history and on the social levels.

This Awareness indicates that this likened unto the vibrations in electronics wherein there is that creation of electricity at the power plant, the dam or the generator; there are those substations along the way, and there are those devices which transform the electricity into smaller breakdown and there are those final outlets or terminals wherein the electricity is used in the various devices: the radio, television, computer, toaster or other mechanisms.

This Awareness indicates that likewise there is that Universal Vibration of the 7 chakras in the universe, and these are termed the Seven Rays. There are also 5 magnetisms, and together these create the electromagnetisms: the resonating electromagnetisms. This Awareness indicates that there are also those vibrations which create energy fields on which the planets have evolved or rolled themselves up on in these magnetic spheres or circles, the ripples or waves; the solar waves on which the planets have rolled themselves up on through the gathering of space dust.

This Awareness indicates that these are likened unto chakras. This Awareness indicates that there are also upon the earth plane, 7 major points, and these points have a certain type of resonating energy, creating a conglomeration of, or a flux of energy. This Awareness indicates that there are also the individuals who are reflections of that seven and the five; the reflection being that which is the further breakdown of these electromagnetic energies.

This Awareness indicates that in one sense, you could say that these final particles making the individual are the reflection of God in that they are the direct outgrowth of the same energy, but the energy as having

been stepped down to slower vibrations to that of the physical level. This Awareness indicates that to pursue this further, entities could also find these in the cells and in the DNA as chemicals and as patterns among the molecules and the atomic subparticles; that these energies are permeating throughout the universe; that wherein one understands these particles of oneself through seeing or attunement or feeling these energies in oneself, and reads out from the impressions a scenario fitting to the society, one can pretty well explain events that will occur.

This Awareness indicates particularly when these events are kept in riddle form, or in forms that are difficult to apply as something specific and exclusive of anything else. This Awareness indicates that wherein the form can be generalized, such as the Beast, and such as the 7 candlesticks, or the 24 elders: these being generalized symbols, and can apply to many things.

This Awareness indicates that the fact that the *Book of Revelation* says this will occur before this generation is out can be taken literally as many of the other parts are, or can be taken generally. This Awareness indicates that many entities have read this and take this literally as meaning: this generation. This Awareness indicates essentially it (the book) is talking about the evolution of any of these 7, this pattern of these 7 energies: the evolution of the flow of current from the lower chakra to the higher chakra, or from the lower chemicals to the higher chemicals, or from the lower color to the higher color.

This Awareness indicates that the generation of the energy in movement or the evolution of this energy in movement as that which occurs throughout the universe in all levels, from the most minute particle to the total functioning of the universe itself: the sound and light currents which govern the universe, the vibrations which govern the universe.

This Awareness indicates that in reference to the effect on society in your world; whereas the chakras of the masses open, entities may look back through history and see that there were times when war-making was the highest calling, and wherein gentleness and love was not even part of consciousness. This Awareness indicates the Age of David, or that of Aries as a time in which one engaged in battle and war and that was the highest spiritual calling one could imagine.

These entities had their god Mithra, and they presumed that their god Mithra blessed soldiers above all others. This Awareness indicates that following this age was the Piscean Age, the age of Christ, in which love became a new concept, mercy and tenderness became a new concept to man. While this may have been prevalent among mothers for their children, it was not prevalent among men and not emphasized as a valuable quality.

This Awareness indicates that during this age, love become more meaningful, at which time the heart Chakra opened up, and during the growth of this heart chakra masses have become more aware of the meaning of love. This Awareness indicates that now, in order to get entities into battle, into war, which is an adrenaline level, the manipulators must first tune in to love and then bring the entity down to the adrenaline level. This Awareness indicates they do this by promoting love of family, love of country, love of your ideals and exporting this love in war against others in order to protect your loved ones.

This Awareness indicates that in the Age of Aquarius, the movement being that which relates to the throat chakra and to the age of communication. This Awareness indicates that in communicating, entities find it even more difficult to manipulate masses into war activities for they must first communicate the ideals and concepts, then appeal to the love of country, love of family, and then talk the entity into fighting.

This Awareness indicates that as consciousness evolves still higher, the pineal, wherein entities see themselves as leaders, as the wise, the governors; these entities will be even more difficult to persuade to move toward war unless they have a vested interest and can see more power for themselves in the process. This Awareness indicates that wherein the pituitary becomes involved and opens up, this pituitary opening as that which may be likened unto opening into a new dimension: the heavens open, the clouds open.

This Awareness indicates the Beast or that which is the pineal which focuses on power for self, which focuses on concentrated power; the pineal which sees itself as God, essentially being likened unto the Antichrist, but does not yet realize this. The pineal, seeing its own power, the use of occult and powerful tricks of mind and manipulation over others; this, when confronted with the rolling back of heaven, of the pituitary opening up, must then yield, and the Light comes down and enlightens the pineal, whereby a bond is formed between the pituitary and the pineal.

As this prevails over a period of time, the species evolves and becomes likened unto those of the higher realms in which pineal/pituitary are linked together in a bond that forms a Light which also creates the linking of consciousness to the Divine. This Awareness indicates that space beings, those who are of a higher order than those on earth; these entities generally, if they are highly evolved, have this quality of the pineal and pituitary linked together. A strong membrane of energy and Light link these together.

This Awareness indicates that most entities on this earth plane do not have this linking of the pineal and pituitary. These link through certain experiences whereby they secrete energies which move from one to another, and the entity feels a moment of enlightenment, gains understanding. This Awareness indicates in the *Book of Revelation* this enlightenment was referred to as a gigantic earthquake. This Awareness indicates that the earthquake being the physical, or physical quake.

This Awareness indicates that the Beast described essentially is the pineal. This Awareness suggests that the Second Coming is that enlightenment which occurs when the pineal and pituitary come together after the pituitary opens; the chakra of the pituitary opens, described as the heavens rolling back and the scrolls revealing. This Awareness indicates the trumpet blasts are essentially the opening up of these chakras; the 7 seals as the chakras: that the chakras essentially are in 4 layers relating to the physical, astral, mental and etheric layers.

This Awareness indicates that each of these described somewhat differently, and the opening of these resulting in various experiences symbolically described in the *Book of Revelation*. This Awareness indicates that as this is for an individual, it also may be experienced symbolically for the masses, however the details on the mass-level may not be exactly as entities expect. This Awareness indicates that while there are those who are using the *Book of Revelation* with the full knowledge that the masses will generally tend to accept that which they have been programmed by their religious beliefs to accept, therefore, with the full knowledge that many Christian groups will not oppose their efforts to control them through the mark of the Beast and the whole scenario.

You Already Have the Mark of the Beast

This Awareness indicates that there are also those who have a clearer understanding of the *Book of Revelation* and who see that the number already exists in the forehead and on the hand. The number is the vibration of the individual. The number is that which already marks the individual as being with the Light or with the Dark Forces, and sees that all of these things described in the *Book of Revelation* has

always already occurred in each generation from the time this book was written, and it is not something off in the future, but is something which is already upon you, and the tribulations which one experiences wherein the Beast controls the individuals, wherein the individual experiencing the oppression of the Beast within himself can only find freedom by turning toward the Second Coming, the Redemption, the Redeemer, the Christ Consciousness which returns to the entity in his darkest hour, when the entity opens up and prays in great despair to be relieved from the great torment

This Awareness indicates that essentially the *Book of Revelation* occurs with each individual during his or her lifetime on this plane and is not something that is only a future scenario for a society or world. This Awareness indicates however, there is also that strong possibility that entities seeing this as an action which is a pattern, can take this pattern and use this pattern for personal gain, and therefore, create 7 levels in a hierarchy, or can create 10 horns or nations forming a Beast, or can create 10 horns or regions forming a Second Beast, whereby the Second Beast can force the masses to worship the First Beast; these being countries or nations or militarily controlled dictatorships.

The Psychology of Fear (More on Positive Thinking)

This Awareness indicates that all of these things can occur. This Awareness indicates that it will depend on the masses whether they allow this to occur. This Awareness indicates that there are some entities who say that you should never think about negative things, for it creates fear, and fear brings about the negative. This Awareness indicates this goes back to that phrase: "The thing I have feared has come upon me!" This Awareness indicates that this is an excellent phrase for entities who are inclined to be paranoid in the first place, for entities who are inclined to be paranoid, tend to fear everything anyway, and eventually that which they fear will come upon them.

This Awareness indicates that by being afraid of fear, entities can find excuses not to look at anything which would be fearful, and thus hide in illusions of positive concepts presenting around them and in their world those things which are utterly beautiful and harmonious and gratifying, whereby they do not allow intrusions into their thinking, into their world, of any kind of principle, idea, concept or image that is of a disruptive and inharmonious nature, and these entities may say that they are creating for themselves heaven on earth by their own thinking.

This Awareness indicates that such entities consider this to be the true spiritual path. This Awareness indicates that it has not been explained by such entities how they would, or where they would class the entity Jesus in his lifestyle, for this entity did look at the tragedy, did look at the suffering, did endure pain and suffering and crucifixion on the cross, and these entities by their particular standard, would appear to look at this type of suffering as being the result of negative thinking.

This Awareness indicates therefore, it is an enigma to understand how these entities view this entity Jesus in his life and the outcome of his life. This Awareness indicates that it is also an enigma to understand how the entities can cope with the harsh realities of life except through avoidance techniques, avoiding looking at the dangers, avoiding looking at the signs that point to dangers. This Awareness indicates that regardless of how entities may have felt in regard to such experiences as the Second World War, whether they ignored the war and refused to allow it into their consciousness, or whether they saw it for what it was; regardless of their attitude toward it, it still existed, it still created sorrow, suffering and tragedy on this plane.

This Awareness indicates that all of the positive thinking in the world did not prevent it from occurring. This Awareness indicates that it was perhaps brought about by fear, and the positive thinkers would say it was brought on by fear, which is proof that entities should think positively to avoid such things. This Awareness indicates nevertheless, the fear existed, and therefore it came about. One entity being afraid creates as a defense that which would frighten another entity, who in turn must create a defense, who in turn frightens still another. This Awareness indicates that when the chain of fear is established whereby one entity fears another, who in turn attempts to frighten back the first, who in turn gathers others and frightens them into joining him to go back at the second, who in turn gathers friends, frightening them about the imminent attack of the other and therefore presents a new alliance whereby they stand group against group, nation against nation, fear against fear, each growing larger in order to frighten the other more. This Awareness indicates that this indeed is a condition upon this plane.

This Awareness indicates that the entity who walks between these forces carrying a sign: *Reconciliation: YES; Annihilation: NO!*; this Awareness indicates this entity must be looked at and that some entities in looking at this entity ask: "Is this entity contributing to the potential destruction, the potential battle by carrying such a sign into the midst of this standoff?" The sign itself stating: *Reconciliation, YES, Annihilation, NO.*

This Awareness indicates that one entity looks at the sign and states: "This is terrible! This entity carrying a sign which says "Reconciliation, YES, Annihilation, NO," this could very easily be turned around by the subconscious to read: "Reconciliation, NO, Annihilation, YES" ...this entity knows not what he is doing! He is carrying a sign which could be confused by the subconscious!, and therefore, this entity is contributing to the war!"

This Awareness indicates that another entity looks at this sign and sees: "Reconciliation, YES, Annihilation, NO"....what does 'Reconciliation' mean? The entity does not know the meaning of the word. The entity sees this word in several places, and soon looks to find the meaning of the word: 'Reconciliation: to dissolve differences, to find areas of agreement.' This may be a new concept for this entity.

This Awareness indicates that in looking at these events whereby paranoia has brought entities to the brink of destruction and whereby entities argue that to present an image of destruction is to condone and to influence and to encourage the subconscious to accept destruction....This Awareness indicates that this argument is not valid in that only a subconscious that is already seeking destruction, desirous of destruction, would desire to accept the annihilation which is warned of.

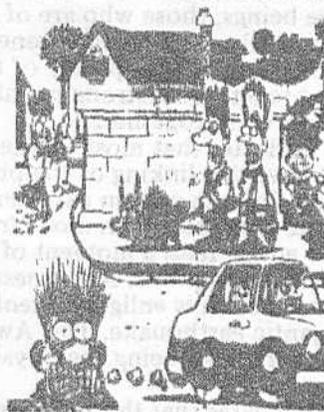

This Awareness indicates that when an entity is driving down the road of life and sees a sign that says: "Dangerous Curves Ahead," and shows a car skidding... that entity doesn't, even if sleepy, want to skid off the road simply because there was a sign with that image there! This Awareness indicates that these images are not suggestions, they are warnings. The subconscious is capable not only of accepting suggestion, it is also capable of accepting warnings.

To warn means to reject a suggestion. The subconscious can either accept or reject, and it is not necessary for the conscious mind to be the only element involved in such acceptance. This Awareness indicates that in order to get around the subconscious filtering device, the conscious mind must be set aside, but also the values of the subconscious mind must also be distorted, so that the subconscious does not know what it is doing when it acts.

This Awareness indicates that regardless of whether it is the conscious mind or the subconscious; neither the individual as a conscious being nor the soul desires destruction of itself and others. This Awareness indicates that the only time such destruction is desired is when they are conditioned through manipulation of ideals and concepts to believe that this will be for the good and for the benefit of themselves or others, or when they feel there is a total hopelessness in the sense of the power against them, and see themselves as being martyrs for a cause.

This Awareness indicates that to present a warning is not to encourage an entity to become a martyr. To present a warning such as *The Day After* does not encourage entities toward nuclear war. The masses, at least 99% would be repulsed by those images. This Awareness indicates the very action that they were repulsed, the very fact that they were repulsed is an indication of rejection of nuclear war. This Awareness indicates that many entities, believing that the negative images are programming the subconscious to accept negative things...this is not so.

THE DAY AFTER THEY SHOWED THE DAY AFTER:

This Awareness indicates that in some instances, wherein an entity is subjected to continuous repetition of negative images, then indeed the entity can gradually become reduced to accepting the negativity and the images as part of his or her life. This Awareness indicates that were the pictures and images of nuclear weapons to be broadcast day in and day out over long periods of time, repetitive over the years; then indeed entities would become more and more conditioned to accepting nuclear war.

This Awareness indicates that so long as the shock of the pictures is effective, so long as the pictures are shocking, the subconscious is not accepting of these. This Awareness indicates when the pictures become acceptable, that may be an indication of the subconscious accepting these images as part of reality. This Awareness indicates that would be likened unto a highway in which every curve had a picture of the car skidding off the road, whereby the entity being bombarded by that image over and over and over again eventually began to accept the suggestion, accept the picture as a suggestion rather than as a warning.

This Awareness indicates that it is important in presenting the images and concepts of this Awareness that these images be balanced with the images that lead also toward the more desirable states and experiences. This Awareness indicates that negative warning images can be helpful in shocking entities and assisting them in realizing the dangers. This Awareness indicates that these are images to allow the entity to know where things are headed on a particular course and are valuable only as warnings, and can be used to the benefit of mankind by serving as warnings to turn entities around so that they go another direction.

This Awareness indicates that if you were driving down a road and came to a multitude of forks in the road, all of them indicating disaster ahead, the entity would never have to move in any direction to meet disaster. The entity could simply find disaster by sitting there doing nothing. This Awareness indicates that there must be the alternative, the image that shows benefits ahead so that the entity can make a clear choice.

This Awareness indicates therefore, when *It* conducts *Its* healing in describing a negative state or condition of an individual, *It* must also describe the positive actions and directions and images which can be produced, which can occur. This Awareness indicates that in the presentation of pictures accompanying these messages, this Awareness indicates that negative images designed to shock individuals; these are not of such great consequence if followed by a positive picture showing where entities can go and where certain actions will lead.

This Awareness suggests however, that in considering these pictures which are presented to the masses, this Awareness suggests that you realize that many entities never get beyond the pictures, and that in looking at a picture, they may decide whether or not to read the material. This Awareness indicates that such decisions may determine whether the entity ever comes close to this Awareness or is turned around because of a picture which stood between it and the words of this Awareness.

This Awareness indicates therefore, it is a great responsibility which is given to the editor to present these pictures along with these messages. This Awareness indicates that it is a responsibility that requires careful and very discerning attention and consideration. This Awareness indicates the entity cannot be harassed and intimidated into being in tune with the responsibility, but must see this responsibility for himself and thus must work from his own understanding of the principles involved.

This Awareness indicates that in reference to the use of the concepts: 'Reconciliation, YES, Annihilation, No,' and the explosion of the nuclear weapon, with the symbol of the skull being superimposed over this, this Awareness wishes entities to understand that this image, this explosion was a photograph in which the skull actually appeared in this manner. This Awareness indicates that this was not the work of an earth artist, it was the work of those forces that used this explosion to warn humanity of the imminent danger of nuclear weapons, and this image of this skull as a warning, this has been used down through the thousands of years in all primitive and civilized countries as a symbol for poison.

This Awareness indicates that it has been used as a warning, and in this image it *was seen as a warning*. This Awareness indicates that it was a presentation from the Higher Forces to warn entities that there is no friend in nuclear weapons, that this is your enemy. This Awareness indicates that there have been some objections from some entities in the organization regarding the image of this skull and the nuclear explosion whereby the image was said to be that of the Ahriman or negative forces, and was being promoted subconsciously, and that it was an offense and that it was obscene to have this shown or placed upon their mail, delivered by postmen.

This Awareness indicates that this is appropriate for the entity to feel this way if this is the interpretation which the entity feels toward this image. This Awareness indicates that each individual interprets things differently. Some entities are repulsed by the image of the nuclear skull as being that which is an affront to them personally. Others are repulsed by the image of the nuclear skull as an affront to the human condition, to humanity in general, and this repulsion as

that which this Awareness sees as being appropriate as an attitude that can have powerful effect in changing the course of events.

This Awareness indicates that the entity who is self-centered and sees this skull as being directed to him or her personally, taking this as a personal affront; this entity may indeed be not observing or looking at the total scenario, but may be fixating on how it affects him, how it affects her, and may be affronted that anyone would introduce such an image into their home, into their life, into their line of vision.

This Awareness indicates that many entities cannot tolerate anything that would present such an image, for it is an image of fear. This Awareness indicates that these entities are afraid of facing fears, afraid of looking at fears, and therefore cannot tolerate such. This Awareness indicates that other entities are not afraid to turn and look at images that frighten, images of monsters, images of beasts, for they are courageous and can see that behind these beasts there is always the Divine Light which can change and alter those images, those faces.

This Awareness indicates that these entities likened unto the witch doctor who wears the terrible mask to heal the sick, to frighten away the germs, to frighten away the demons,—this witch doctor wearing this terrible mask, the patient seeing this mask, knows that behind this appearance there is the intention to drive away the illness. This Awareness indicates that entities looking at the symbol of the nuclear skull, seeing this as a symbol to drive away the illness, can indeed use this for this purpose.

This Awareness indicates that entities looking at this, seeing this as a threat to themselves and to their world may recoil in fear and not use this, may object to its presence in their life, may vehemently scream and yell that this is an affront to decency. This Awareness indicates that such arguments are valid for those who are afraid to look at that which is threatening or which is a warning sign.

This Awareness indicates the entity who hacks away at a warning sign on the highway because the sign is a threat to his feeling of security, the entity who hacks away at this warning sign may destroy the sign, but the dangers may still remain. This Awareness indicates that others who may need the warning may not receive the warning because the warning sign was not present.

This Awareness indicates that for those who do understand the danger of presenting a warning sign too often, too long, to where entities begin to see this and not think about this, but simply accept this subconsciously, wherein these warning signs are placed there and entities subconsciously traveling along the road catch the image of the car skidding, or society plummeting toward nuclear war, but do not consciously deal with this and say: "I must be cautious, I do not want this to happen!"; these entities in having such a image repeated over and over to the point whereby it no longer is shocking...these images then, at *that* stage can become hazardous to the welfare of others.

This Awareness indicates that you may consider any image as that which can grow stale and rancid when repeated and repeated and repeated, so that the shock wears off and the mind does not recoil and the image remains in front of the entity incessantly reminding the entity without the entity having any further energy or interest in rejecting the image. This Awareness indicates that as long as the entity seeks to reject the image, a negative image, then the image is meaningful and has power to alter the course of events, but when the entity no longer has interest in altering the image, then the image becomes a suggestion and can influence the coming of events.

This Awareness indicates that therefore, entities in understanding this symbol: *Reconciliation, YES, Annihilation, No*, and the symbol of the nuclear skull must realize that it is a temporary symbol and can only be used for a brief period of time; that as these pictures fade and are removed, the symbol should be allowed to fade also. This Awareness indicates that those entities who have these symbols within their home, wherein the shock has worn off, may find it valuable to create a circle and a cross to "X" out the symbol, making a symbol as used in traffic, or meaning "No Smoking!", "No Nuclear Skull!"

RECONCILIATION--YES!

ANNIHILATION--NO!

This Awareness indicates that this marking off or X-ing out the symbol as that which allows the subconscious to continue using this as a subconscious suggestion; that it is being marked out and will not occur. This Awareness indicates that in this manner it may stay as a reminder, but not have an influence as a suggestion. This Awareness indicates that those of you who have this symbol on your bumpers, on your cars, these will wear off in weather and in time will fade, and the time will be appropriate.

This Awareness indicates that those buttons can be beneficial in that they are shocking, and the shock is that which recoils the senses, repulses the mind, --the mind does not like the concept of nuclear war and therefore it is a powerful anti-suggestion. This Awareness indicates that if the entity wore this button day-in and day-out over long periods of time and if others all over the country wore these buttons continually, it could very easily get to the point where the mind no longer is recoiled, and they simply saw nuclear weapons everywhere, nuclear skulls everywhere, and when there was the threat of nuclear skulls, they would simply accept because they have accepted the image so long.

This Awareness indicates that this indeed would be a dangerous scenario. This Awareness indicates however, that it is a highly unlikely scenario and that the greater good from these buttons as that which occurs during the initial wearing wherein entities are shocked at seeing and being confronted with the concept of nuclear war. This Awareness indicates that as it is with this image, so it is with any other image; that as long as it is shocking and is an affront to consciousness, it has an impact that can serve as a warning.

The Most Negative Thing in Many Homes

This Awareness indicates that when the mind becomes conditioned to accept, and when the entity no longer is affronted by the image, then it is a suggestive image. This Awareness indicates that entities should look about their home and ask themselves: "How many things do I have in my home that are suggestive images and which have lost their shocking ability?" This Awareness indicates that the most common image in homes of a negative nature is the cross of crucifixion, wherein the entity Jesus is seen hanging crucified on the cross.

This Awareness indicates this is a symbol of martyrism, the giving of oneself for others. This Awareness indicates that this has been long promoted and has an emotional impact and power and is held sacred. This Awareness indicates it also, when not thought about or not clearly defined by the mind can have an effect on entities who are not fully conditioned in the Christian philosophy, can have an effect on the subconscious to lead the entity into self-sacrifice.

This Awareness has indicated previously that there has been enough sacrifice on this plane; that there needs be no more; that entities put the welfare and concern for others above self, but not to the point of martyring or sacrificing themselves so that others can continue to gain. This Awareness indicates that in giving yourself to others, the purpose is to keep selfishness from gaining greater influence in your affairs so that there is closer to a 50/50 balance in your relationships and so that in giving to others you do so not to emulate or imitate, but because you love those others.

This Awareness indicates that placing the welfare and concern for others above self indeed may lead to that which is martyrism, but this Awareness does not promote or ask that entities promote martyrism. This Awareness suggests rather that instead of hunting to be a martyr, instead of seeking to be a martyr, that you concern yourself with the welfare of others, and if martyrism must follow from this concern, then it is appropriate; but to seek to be a martyr simply because the entity Jesus martyred himself: this is not required of entities nor is it desired.

This Awareness indicates that too often the entity who seeks to martyr himself creates guilt in the hearts of others for the gift of martyrism which was given, and thus the gift gains little for the benefit of others.

This Awareness indicates that other symbols in the home may be seen in pictures hanging on the wall, pictures in your room which remind you of experiences of the past which may or may not have pleasant or unpleasant connotations. This Awareness indicates that entities should look at these things periodically and ask themselves: "Is this still consciously important to me, or is it affecting me subconsciously because I have lost interest, even though it has some emotional charge which I know must affect my subconscious in some way?"

This Awareness indicates that wherein you feel these images are affecting your subconscious and you are not filtering them out, then indeed these images should be removed. This Awareness indicates that the effects of this symbol which has been presented as that which has had some strong reaction of a positive and negative nature, some objecting to the symbol itself, and others objecting to the nuclear threat which the symbol stands for. This Awareness indicates that many entities, feeling inadequate and unable to cope with the nuclear threat, attack the symbol, and if having put as much energy into combatting the nuclear threat instead of the symbol, much more would have occurred during this period.*

*ED's Note:

One paranoid new member in Toledo, Ohio, sends Vicki T. crude, abusive, vindictive letters about the use of the skull head, ranting that the 'skull head will destroy C.A.C.!' among other things. The entity has printed up a libelous and misleading 'petition', designed to defame and discredit the editor, and is mailing this around to various CAC members and groups,--the evident purpose to pressure CAC into dismissing yours truly as editor. (Okay with me, if it can find a replacement at my wages). The entity has decided that most of the images used in our newsletter are subconsciously designed to lead entities away from the Light, and implies that I am trying to keep entities from reading the messages of Awareness which accompany these illustrations. He demands that I apologize to the membership for these crimes, and particularly for designing that nuclear skull for the 'Reconciliation-YES, Annihilation, NO' campaign: he finds all of this insulting and demands an apology. I apologize, not only to this rude, insensitive entity, but to all other members who may feel the same way. I shall try to be nicer, if I get to remain as editor, and try to find some way to lead you all back to the Light. (Since I have now been exposed, there is no recourse but to change my evil ways). (Avaton)

This Awareness indicates however, the symbol *was* used, *was* seen, and has been expressed throughout this nation, and has been witnessed on television, in Germany, and in various places, and the image and the concept has passed around and will continue being passed around and has added to the voice of the masses in protest against the threat of war. The symbol's purpose was to present the concept of reconciliation without desiring to present the concept of annihilation, but who is interested in reconciliation unless confronted by annihilation?

Therefore, the concept was coupled with the concept of annihilation and was presented in this manner. This Awareness indicates that it *HAS* had an effect. Reconciliation *is* being talked about. The President is discussing desires for a reconciliation with the Soviet Union. This Awareness indicates that there *HAS* been a breakthrough in the one area. This Awareness indicates the strength of the breakthrough may not be as dramatic, as strong as would be desired. This Awareness indicates however, the movie *The Day After*, and the movie *Testament* and the protests in the United States and Europe and the symbols and the slogans and the letters...all of these things *HAVE* had an effect on changing the mood and direction of this nation, and even of the administration in its march toward war, so that there is a hesitation, a reflection on: "Where are we going, anyway?"

New From Russia: "No First Use of Force"

This Awareness indicates that it is during this time of hesitation that the 'No First Use' project can be the answer in bringing about the stalemate of the nuclear arms race, for Russia and China have pledged publicly in the United Nations: No First Use of nuclear weapons. This Awareness indicates that Russia, on December 28th, made a resolution: 'No First Use of Force.' This Awareness indicates that this is quite an extension of the concept of 'No First Use of nuclear weapons, for now they have stated: 'No First Use of Force.'

This Awareness indicates the United States as yet has not stated that it will not use nuclear weapons first. It has *not* renounced its policy of First Use. This creates an extreme threat to the Russians when coupled with the missiles on their border, able to destroy the Soviet Union, its bases, within 5 to 12 minutes, when a nation having such capabilities refuses to renounce a policy of First Use option.

This Awareness indicates that now is the time for this No First Use effort and concept to be promoted. This Awareness indicates that the entity Sandy Champion, working as Vice Chairman of the 'No First Use' Committee in California, --this as a C.A.C. member,-- has, during the past year received endorsement from many well-known persons: Linus Pauling, and others are now behind this movement, a long list of concerned scientists, and also the entity Jesse Jackson, a Presidential candidate is seeing this entity this week in regard to this 'No First Use' concept, and this will become an issue brought up during the year of campaigns; therefore, the concepts are being brought out and are being presented publicly.

This Awareness indicates two months ago, even one month ago, entities who thought they were well-up on the news, when told that Russia and China had pledged 'No First Use' but that America had not, these entities would have laughed at you, thinking that you were totally wrong and knew not what you spoke of. This Awareness indicates that now it is being brought out publicly. That which this administration did not want entities to know is being openly discussed.

This Awareness indicates that it will become more of an issue and in the process of being more openly discussed, the chances for lasting peace through a pledge by this government of 'No First Use', along

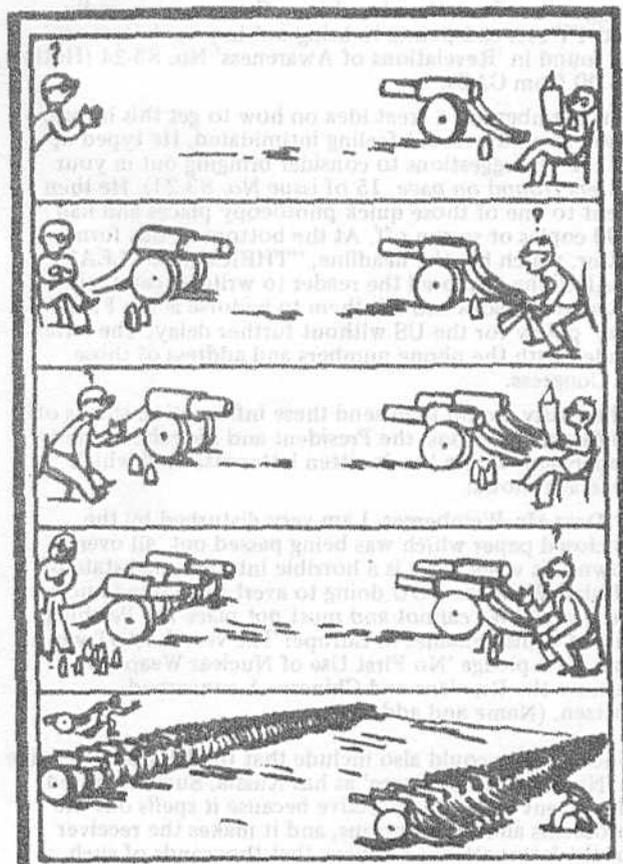

with the pledge of the Russians and Chinese,--this can bring about the stalemate whereby the nuclear arms race may cease and whereby new ways of relating can begin to formulate policies leading to greater peace.

This Awareness indicates that to help promote the concept of 'No First Use', this Awareness suggests that entities do the same thing as has occurred in regard to the efforts to prevent the missiles being placed in Europe, for although this was a failure on the military level (meaning that the people failed to remove the missiles) it was a political success in that the gains were not without great cost,--the military gains of the government were not without great cost.

This Awareness indicates that the No First Use principle, if accepted by this country, can then allow dialogues between the Russians and the United States which will be much more meaningful and less threatening to both sides. This Awareness indicates that as long as Russia feels threatened by the United States' pledge, or lack of pledge of No First Use, then Russia will also be pressured to respond accordingly.

This Awareness indicates that the argument the United States has used in regard to its reason for not having a No First Use policy is that the Soviets are stronger in conventional war mechanics, machinery, weaponry and that the United States might need to rely on nuclear war to prevent this. This Awareness indicates that on December 28th, the Russians announced: "No First Use of Force." This needs to be recognized; this as a resolution which was accepted by the Central Committee in Russia and as a guideline to influence foreign policy.

This Awareness indicates that if this 'No First Use of Force' is meaningful and is matched equally by the United States, then indeed peace can follow. This Awareness indicates that entities have a great opportunity to jump on the bandwagon to promote peace during a time when the candidates for Presidency will be most vulnerable to public influence.

Weapons do not make us secure.
Нам мир оружие не обеспечит

MUST YOU PAY INCOME TAX?

FOR INDIVIDUALS, INCOME TAX IS A VOLUNTARY TAX

The above statement makes many people skeptical when they read it. However, the basic reason for the truth of the statement is really very simple.

THE U.S. CONSTITUTION FORBIDS THE FEDERAL GOVERNMENT TO IMPOSE ANY TAX DIRECTLY UPON INDIVIDUALS.

INDIVIDUALS VOLUNTARILY IMPOSE AN INCOME TAX UPON THEMSELVES WHEN THEY FILE AN INCOME TAX RETURN.

Read on and learn why. You will be glad you spent a few minutes to learn about these important facts.

AMERICANS ARE CONFUSED AND DECEIVED

Before World War II, individuals' wages were not considered to be subject to income taxes. During the war a "Victory Tax" was imposed on wages as an emergency measure to help pay for the war. The people did not realize that government could not constitutionally impose any tax directly on them, so they assumed that individuals and their earnings could be taxed directly.

The Internal Revenue Service intentionally promoted this misunderstanding of taxing power through clever wording of its statements, publications and propaganda news releases. Consequently, Americans have been deceived into believing that they are required to pay an income tax which is laid on them directly by government. However, when the IRS's publications, U.S. Supreme Court decisions and the Internal Revenue Code (income tax law) are studied carefully, they show that for individuals, paying income tax is voluntary and that the filing of tax forms is also a voluntary action that is not required by law.

CONSTITUTIONAL LIMITATIONS ON TAXING POWER

In order to understand why paying income tax and filing tax forms are voluntary actions for individuals, it is essential to understand the limitations on federal taxation embodied in the United States Constitution. The statesmen who wrote the Constitution were fully aware of the dangers to liberty in allowing a central government to impose taxes directly upon individuals or upon property.

Tyranny resulting from direct taxation of individuals had led to the American Revolution only 12 years earlier when all the taxes collected amounted to less than 5% of the colonists' earnings. This tyranny was referred to in the Declaration of Independence where in describing the reasons for the revolution, the founding fathers stated: "He (King George III) has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance."

Because of the knowledge of these facts, the framers of the Constitution included not one, but two limitations in the Constitution that absolutely forbid the federal government to impose any direct taxes upon individuals or upon property. All direct taxes are required to be "apportioned", which means that they must be laid upon the state governments in proportion to each state's population.

The limitations forbidding direct taxation of individuals are found first in Article I, Section 2, Clause 3, which states: "Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers..." and again in Article I, Section 9, Clause 4, which states: "No Capitation, or other direct, Tax shall be laid, unless in Proportion to the Census or Enumeration hereinbefore directed to be taken." These basic sections of the Constitution have never been repealed or amended. The Constitution still forbids direct taxation of individuals and property.

16th AMENDMENT MISINTERPRETED (DELIBERATELY)

Deceptive statements by IRS spokesmen and other propagandists have intentionally created great confusion as to whether these limitations on direct taxes are still in effect. They incorrectly claim that the 16th Amendment (the income tax amendment) changed the constitutional limitations on direct taxes and authorized an income tax as a direct tax without apportionment. The U.S. Supreme Court rejected these claims in the case of *Brushaber v. Union Pacific R. R. Co.*, 240 US 1, (1916), when they ruled that the 16th Amendment created no new power of taxation and that it did not change the constitutional limitations which forbid any direct taxation of individuals.

The Court stated that the nature of income tax is identified by the wording of the Amendment itself, which says: "The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration." The Court explained that since it is a tax "without apportionment", the income tax cannot be a direct tax (a tax on individuals or on property), because the Constitution still requires that all direct taxes must be "apportioned".

INCOME TAX IS AN EXCISE TAX

If the income tax is not a direct tax, what kind

of tax is it? The *Brushaber* decision, which has never been overruled, cleared up the misunderstanding by stating "... taxation on income was in its nature an excise..." and it further stated "... that taxes on such income had been sustained as excises in the past." The ruling established that income tax is constitutional as an excise tax, but not as a direct tax. According to the Court, the income tax is still an excise tax (primarily a tax on corporations). The IRS relies on the *Brushaber* decision to prove the constitutionality of the income tax, but ignores the Court's ruling that income tax is an excise tax.

Now the question arises: Can an excise tax be laid on individuals by government? The answer is definitely NO! Remember, as discussed earlier, the Constitution absolutely forbids any federal taxes to be laid directly on individuals. Then who or what is subject to an excise tax? The U.S. Supreme Court in *Filitt v. Stone Tracy Co.*, 220 US 107, defined excises as "... taxes laid upon the manufacture, sale, or consumption of commodities within the country, upon licenses to pursue certain occupations, and upon corporate privileges."

Individuals are not commodities or corporations, so the only way an individual could be even indirectly subject to an excise tax is if he were granted a license to engage in an occupation of special privilege, such as a lawyer. The Court has ruled that a lawyer is granted a license of special privilege by government to act as an officer of the court and that money earned in the exercise of that privilege is subject to an income (excise) tax. All occupations that one could lawfully pursue without the existence of government, are occupations of common right and are not subject to an income (excise) tax. For example: laborer, factory worker, salesman, plumber, electrician, doctor, merchant, nurse, secretary, truck driver, waitress, etc.

INDIVIDUALS ARE NOT "REQUIRED"

Section 6012 of the Internal Revenue Code tells who "shall" file income tax returns. Without

Careful analysis, the wording of the section appears to require all individuals earning \$1,000 or more to file returns. The section states: "Returns with respect to income taxes under subtitle A shall be made by the following: (1) (A) Every individual having for the taxable year a gross income of \$1,000 or more, except..." Everything that comes in to an individual is not legally defined as "income". To be "income", money must be a gain or profit made in the exercise of a government granted privilege, such as lawyers' fees. The IRS Code, if carefully analyzed, clearly shows that wages, salaries and tips are not "income".

The section states that returns "shall" be made by every individual having a certain amount of "income". It does not say that returns are "required" to be made by them. Courts have repeatedly ruled that "shall" means "may" when used in statutes (laws).

In the decision on **Cairo & Fulton R. R. Co. v. Hecht**, 95 US 170, the U.S. Supreme Court stated: "As against the government, the word 'shall' when used in statutes, is to be construed as 'may', unless contrary intention is manifest."

In the decision of **Gov. v. Consolidated Coppermines Corp.**, 165 Atlantic 136, the court stated: "If necessary, to avoid unconstitutionality of a statute, 'shall' will be deemed equivalent to 'may'."

If you, as an individual, were required to file a return and supply information under oath, all of which could be used as evidence against you in any criminal case, the requirement would be unconstitutional because it would violate your 5th Amendment right not to be compelled to be a witness against yourself. It is clear that individuals are not required to file returns, even if they have "income" of \$1,000 or more.

IT'S VOLUNTARY, SAYS IRS

Here are a few examples of the tricky and deceptive wording used by the IRS in their own publications that confirm the voluntary nature of income (excise) tax. IRS publication #21 that is widely distributed to high schools acknowledges that compliance with the law requiring the filing of a return is voluntary and at the same time suggests that the filing of a return is mandatory when it states: "Two aspects of the Federal income tax system - voluntary compliance with the law and self-assessment of tax - make it important for you to understand your rights and responsibilities as a taxpayer. Voluntary compliance places on the taxpayer the responsibility for filing an income tax return. You must decide whether the law requires you to file a return. If it does, you must file your return by the date it is due."

A former IRS commissioner stated in a 1040 instruction booklet: "Each year American taxpayers voluntarily file their tax returns..." The U.S. Supreme Court also confirmed the voluntary nature of income tax in the case of **U.S. v. Flora**, 362 US 145, when it stated: "Our system of taxation is based upon voluntary assessment and payment, not upon distraint." (force).

The term "voluntary compliance" appears to be contradictory, but careful analysis shows the words to be accurate and appropriate. An act is voluntary when one does it of his own free will, not because he is forced by law to do it. If a law applies to an individual, his compliance with the law is mandatory, not voluntary. However, individuals engaged in occupations of common right are not subject to the income (excise) tax.

For them, compliance with the law is voluntary not mandatory, because the law does not apply to them.

NO CRIMES FOR INDIVIDUALS

Since individuals are not subject to an income (excise) tax, they cannot be subject to tax related criminal penalties. All the criminal penalties in the Internal Revenue Code are contained in Chapter 75, Section # 7343 of that chapter, defines a "person" who is subject to criminal penalties. An individual is not listed as being a "person" subject to criminal penalties for failure to file a return, failure to pay income tax, or any other tax law violation.

Section #7343 states: "The term 'person' as used in this chapter includes an officer or employee of a corporation, or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs." Only those people who are required to act on behalf of a corporation or partnership, are listed as being a "person" subject to criminal penalties. If an individual is not in that capacity, he is not required to act and is not subject to any criminal penalties under the Code.

HOW CITIZENS ARE TRAPPED

Now you might ask, if these statements are true, how are individuals sent to jail for Internal Revenue Code violations? Judges, all of whom are government employees, are dependent upon preservation of the "system" for their power and benefits. In order to uphold the "system", they frequently twist the law against citizens in tax cases. Since jurors do not generally understand the law and are misguided by those corrupt judges' instructions on the law, they frequently vote "guilty" in tax cases when no crime has actually been committed. If one is not subject to the income (excise) tax, he or she is not committing a crime by not filing a return or by not paying the tax.

People should remember the following important facts. **When an individual files an income tax return, he is considered to have subjected himself to the tax by his own action of filing a return** (the legal principle of implied assumpsit). The voluntary action of filing is considered to be acknowledgement that he is required to file as a "taxpayer" and is therefore subject to the tax. Anyone who admits to being a "taxpayer" is caught in the trap-like definition of the word in Code Section #7701 (a)(14) that states: "The term 'taxpayer' means any person subject to any internal revenue tax."

DAMAGING EFFECTS OF INCOME TAX

In the past, America prospered and became the greatest and richest country in the world when individuals paid no income tax and government's revenues were raised by constitutionally authorized taxes on certain goods and services and on corporations. But now, money is taken from productive sector of society by the income tax scam to support the non-productive sector, foreign aid, give-aways and a bloated, needless bureaucracy. The income tax paid by citizens sharply reduces their earnings; they then buy less, causing business to decline, leading to unemployment and depression, thus lowering the standard of living for all Americans. The income tax has created havoc in America's

economy, in addition to the loss of liberty and the harassment of our people by the IRS's oppressive collection tactics.

The collection of the income tax by extortion-like methods based on deception and enforced by fear and intimidation is as un-American as the origin of the income tax itself, which is the second plank of Karl Marx's Communist Manifesto.

Abuses of the rights of American citizens by judges and bureaucrats administering the income tax law is a disgrace to our country. History has proven that governmental abuses of citizens' rights, if unchecked, always lead to tyranny. Deceiving citizens into voluntarily subjecting themselves to a tax they do not owe is a fraud. When individuals who do not voluntarily subject themselves to the income (excise) tax by filing returns, have assessments of tax laid on them directly, it is a blatant violation of the constitutional limitations forbidding the direct taxation of individuals. If the IRS then confiscates the individuals' wages or property by levy and seizure to settle the unconstitutionally laid tax claims, the action is pure theft under color of law.

WHAT YOU CAN DO

The U.S. Constitution is the supreme law of the land. It was written to create a government of limited powers for the primary purpose of securing citizens' rights to life, liberty and property. The Declaration of Independence states that it is the duty of citizens to oppose and resist abuses of their rights. These violations of citizens' rights can be stopped if enough people become informed of these facts. **SHOW THIS INFORMATION TO YOUR FRIENDS!** Copy this article. Show it to citizens' groups and organizations. Inform the news media. Call radio talk shows. The American people must be informed of these facts so they can take action to preserve their rights.

The Constitution is a precious document of our heritage of freedom. Its guarantees of liberty are only as effective as the will of the people to enforce them.

Wages are not taxable income - your wage is your property - keep ALL of it!
