Helping People Become Aware

THE DARK SIDE OF THE MOON

(PART I: An Introduction)

Published by Cosmic Awareness Communications, PO Box 115, Olympia, Washington, 98507. Reproduction is permitted.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as "Channels" for the "Heavenly Father" and who speaks again today as the world begins to enter the "New Age" of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious "trance" levels and "interpreted" by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of "Readings" given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only "indicate" and "suggest". Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

STRETCHING THE MIND: "ALTERNATIVE 003"...SPACESHIP MOON...EISENHOWER'S UFO RIDE

(Reading of August 9, 1979)

QUESTION:

Several people have written in about a book called *Alternative Three*. A.C. of Vancouver, B.C. wanted to know: "Has anything been said about a film and a book called *Alternative Three*? The books are available here but they won't sell them across the border." And S.S. of Sayreville, New York, writes: "I have a question to ask Awareness, if I may. The book, *Alternative Three*, by Leslie Watkins, states that the United States and Russian governments have built bases on the dark side of the moon and on Mars. They supposedly have kidnapped scientists all over the world to work on these bases and have also kidnapped people to work as slaves on these bases by operating on their brains. The reason for all this being that the Earth's ozone layer has been destroyed beyond repair and within 20 years or so the "Greenhouse Effect" will destroy all inhabitants. Accordingly, there are a group of scientists who have escaped these space station and are now sabotaging the space centers here on Earth. Is this true and is there any possible way that the 'Greenhouse Effect' can be stopped. President Carter is aware of these operations, according to the author. Please inform us, Awareness, of your answer, since I believe everyone has a right to know what the future will hold. Thank you."

COSMIC AWARENESS:

This Awareness indicates that there are portions of this book which are accurate; this as "Alternative Three"--that portions of this book are accurate, but that generally the synopsis of its message as that which is not correct.

This Awareness indicates that the United States did have moon bases, that the Russians presently have moon bases; that these bases have existed for some time, and that the American public and the general public of the world is kept ignorant of these actions.

The "Greenhouse Effect"

This Awareness indicates there are certain life forms, entities upon the planet Mars; generally however, this as related to a secret type of agreement with extraterrestrials, the Space Confederation as well, as in many cases those who might be referred to as the aliens which have been mentioned previously by this Awareness, in connection with UFO information.

This Awareness indicates that generally speaking, the ozone layer of this planet can be restored as far as any damage is concerned, by the use of certain techniques created by Nicola Tesla; that although there has been some damage in the ozone layers, this is not of such a degree as would cause the so-called "Greenhouse Effect;" that the pollutions from the emissions of oil, gasoline and various chemical emissions into the atmosphere of the planet as that which is generally felt by some to be a danger in that this can create the so-called "Greenhouse Effect." This Awareness indicates that this can, indeed, raise the temperature of the planet, but that in another sense the planet *was* heading for an ice age, and this simply assists in balancing out the effect of that force. That generally there is nothing at present to be greatly alarmed about and the technology upon this planet is reaching such a high degree that within approximately thirty years these problems can be dealt with by the new technologies in a manner that will allow them to be rendered unharmed. That there will be further releases of information regarding the contacts with extraterrestrials and the various relationships between governments, scientists, and these entities and their involvement in this type of interplanetary travel; that this will unfold more and more during the coming decade.

This Awareness indicates essentially, the book as being an exaggeration somewhat true, but based on wild fantasy and imagination.

IS THE MOON A GIANT SPACE SHIP?

(WHO REALLY CREATED THE HEAVENS AND EARTH?)

QUESTION:

Another question relating to the moon, by R.A. of Santa Ana, California. "Could Awareness clear up two paradoxes which have arisen in my mind while reading a book which presents the theory that the moon in actuality is a giant orbiting space ship, which has put in for repairs which were sustained from a gigantic catastrophe in space."

COSMIC AWARENESS:

This Awareness indicates that this as another situation which many entities will find difficult to accept. That essentially this is correct, that the moon as being hollow, and as being a gigantic space ship covered with debris

which has fallen upon it from eons back. That essentially the moon is older than the earth itself; that in another sense, the Earth is also a gigantic space ship. This is a relative concept, in the sense that these,--this planet and the moon,--were created by forces of technology that is far beyond the comprehension of entities on this plane at this time, and this creation being such that it would appear as an accident of nature, but was in fact an action of deliberate manipulation of the creative forces. These being created by the use of electromagnetic energy fields moved into certain patterns which in turn automatically draw in the energies which form the material around these magnetic fields, and in this process create the orbiting space ships of Earth or moon, or whatever other planet is being discussed of these types.

This Awareness indicates that obviously, this is contrary to general scientific teachings of the schools; that this is related to a science of cosmology wherein the flux of energies, of electromagnetic energies in certain patterns, generated by forces which are presently beyond the understanding of most entities, these forces creating these material bodies, and therefore in this sense, these bodies may be considered artificial or man-created. However, these creators were not ordinary members of that which you consider as mankind; these as being from Celestria.

The Error in the 'Book of Genesis'

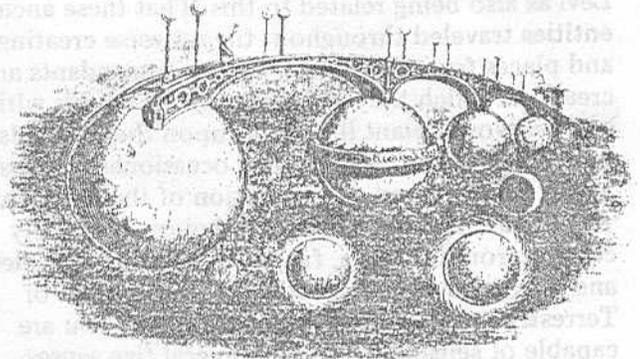

This Awareness wishes you to recognize an error in modern interpretation of the book of *Genesis*, that the original writings state that "in the beginning, Elohim created the heavens and the earth". This Awareness indicates that Elohim is the name for gods, this as plural rather than singular. "In the beginning, gods created the heavens and the earth." This in reference to the ancient race of beings known as the Els; these Els lived upon this Earth over one million years ago, deep within this Earth these Els created many cities, and within this Earth are many corridors and places where entities are presently living.

This Awareness indicates there are also giant computers within this earth which were left here by these Els.

Life Beneath the Surface of the Earth

This Awareness indicates there have been wars within this Earth long before surface man moved into actions of civilizing the surface of the Earth; that surface man in fact has lived upon this Earth a relatively short time compared to the lifetimes of those who have lived within the Earth. That essentially, there are mysteries and histories of these planets which are totally incredible and unbelievable to most entities and therefore it becomes difficult to communicate much of the past history of these planets or even to explain *what Is* to the average entity in your nation today. This Awareness indicates it would be easier to speak to Aborigines or primitives about these things than to speak to the so-called 'educated' entity of this day, for most entities already assume to know *what Is*, and cannot begin to examine any other possible point of view or any other possible theory about this planet. That most entities believe the planet to be molten lava inside to the core, which

An interplanetary bridge from Un Autre Monde, by Grandville. Note how Saturn's ring has been made into a balcony.

they assume to be made of nickel and other types of metal. This Awareness indicates that this is simply a delusion given by certain forces in power who are aware of the true nature of this planet, but who do not want the surface people to know of these things.

This Awareness indicates that Saturn, then Jupiter, Mars, Maldek, Earth, Venus, Mercury and the Sun in that order of creation; that your scientific theories indicate the Sun as having spewed out parts which went into orbit and became the planets. This Awareness indicates that in reality, certain magnetic fields were set up, these fields created certain energy flows which began to move and gather dust, space dust, space matter and creating various planets; these also drawing in fields of energies from various levels and dimensions or vibrations. That the very nature of your solar system is based upon electromagnetic energies of light and magnetisms, that matter itself is but the condensation of light, just as ice is the condensation of water which in turn is a condensation of atmosphere. That chemicals and colors as being but variations of the rays of light being condensed, that these create the matter which is gathered by the magnetic field of the body or mass.

This Awareness indicates it is not a situation wherein the mass creates the gravity, but rather one wherein the gravity creates the mass: these beings created as mass in a gravitational field, then begin to grow in size, even as rocks grow very slowly, or even as plants grow faster and as other organic material grows at its particular rate.

IS THERE LIFE ON THE MOON TODAY ?

(FOLLOW-UP QUESTION):

In reference to the question about the moon being a space ship, would Awareness tell us the origin of the manufacture of that space ship and whether there is entities or other life forms inside the moon at the present time?

COSMIC AWARENESS:

This Awareness indicates that as indicated, this was created by those entities, those highly evolved space beings known as the Els. The term Elder race, Elerim, even words such as Elves, elevate, elate,--these words which may be found in the dictionary beginning

with El, or with the letter 'I', many of these are related to this ancient race of entities. The term Leviticus, and Levi as also being related to this. That these ancient entities traveled throughout the universe creating worlds and places for inhabitation by the descendants and the creations which they populated these worlds with. These entities would plant life-forms upon these worlds, then move on to others, and return occasionally to assist in the development and evolution of these life-forms. This Awareness indicates these beings essentially coming from Celestria, from other realms of Celestria and moving into and assisting in the creation of Terrestria or the material worlds, which you are capable of sensing with your general five senses.

How Entities Traverse Time and Space

This Awareness indicates that the moon itself as being one of these, that there are entities within this satellite who are alive and well and carrying on certain activities. That there are space travels to and from this satellite, that there are also space travels to and from the earth, particularly the interior, and these move throughout various areas of the solar system; that some of these also are capable of traveling into higher electromagnetic energy fields to a speed beyond that of light, whereby they can traverse the universe in a matter of very short time, this being as high as sixteen times the speed of light. This Awareness indicates this as those who travel on gravitational waves that move at this speed, these entities then appearing elsewhere in the universe, then such entities can, by slowing down their vibrations, again become physical according to the vibration of the place where they have landed.

This Awareness indicates you realize of course, you are asking about concepts and levels of reality which will be difficult for most entities to comprehend or accept. This Awareness indicates however, you also are asking questions that stretch the imagination and increase levels of awareness so that entities can break free of their limited concepts of reality which from a cosmic point of view, is similar to that of the human's viewpoint of a chicken in a cage who never leaves but simply eats and lays eggs and sleeps its entire lifetime, being awake, going to sleep, eating and laying eggs; that chicken in that situation, if it could speak, would describe to the human what reality is in terms that the human would understand, but the human would need to feel a kind of pity at the thought of such a limited reality. This Awareness indicates that from a cosmic level, when the Elohim look at the limited realities of most humans, it appears much like that of the chicken in the cage,--very narrow, very confined, very limited.

This Awareness indicates that, however, one must respect the chicken's point of view, and there is no need to argue with the chicken about reality if the chicken is not ready for other levels of reality. This Awareness indicates, to tangle with an adamant chicken can be dangerous to one's health.

**THE REAL REASON
MAN LANDED ON THE MOON**

(FOLLOW-UP QUESTION):

One final question about the moon. When one reads this book and other literature, a portion of the evidence brought out concerns that NASA had a definite motive for landing in the area of the moon that they did. If there really was a definite motive, then what were they looking for and why?

COSMIC AWARENESS:

This Awareness indicates that much of this information has been released on the Dr. Beter tapes in reference to the effort by the military of the United States to establish a moon base from which it could control, essentially control the earth; that this did begin an establishment of a military moon base, for laser weapons and for observation systems to watch various areas upon the earth. This then was removed by the Russians and the situation reversed in that which Dr. Beter refers to as the "Battle of the Harvest Moon." This Awareness suggests entities interested in this to contact the Audio Letter for that particular tape.

This Awareness indicates however, there are also other forces on the moon, and within the moon, many of these assisting the Russians in their efforts. There were also those forces known as the aliens or Luciferians who attempted to take control of the planet Earth; these forces having been upon this earth for thousands and thousands of years, attempting to hold and control the earth: this as the reason for the Galactic Confederation quarantining the earth planet. This Awareness indicates that as the earth developed its technology, it became imperative that the Galactic Confederation would need to intensify the quarantine, and if enough entities upon the earth sought freedom from the Luciferian forces that the Galactic Confederation would assist in ridding these forces from the earth.

This Awareness indicates it is a policy of the Galactic Confederation not to interfere in the internal affairs of a planet unless that planet becomes a threat to others around. In this case, when nuclear weapons were developed and space flight was

being developed, the earth became a threat to other planets, therefore the Galactic Confederation determined that it was necessary to interfere, for if the earth should have a massive nuclear war, not only would it affect the earth and planets nearby, it also would affect the other planes of existence, those in astral levels and mental levels and even echoing into Celestria.

President Eisenhower's UFO Ride

This Awareness indicates therefore, this was essential that the Galactic Confederation interfere in the internal affairs of the planet earth, this as a reason for their offer to help the United States on the condition that the United States would avoid any nuclear confrontation with Russia. That this was proposed first to the United States but was rejected, therefore these forces went to Russia and made the same proposal, the Russians agreeing not to make the first strike, but reserved the right to defend themselves. This Awareness indicates that this became the basis for the assistance to these Russians by the Galactic Confederation, whereby they have been helped in their technology and development of various modern weapons and scientific techniques.

This Awareness indicates that in 1954, Dwight Eisenhower was taken aboard a UFO, and was prepared to make a televised speech regarding what he had learned, what he had been told. That before he could, before he was able to make this speech, he was stopped and prevented, and therefore this information was never released. That essentially, the UFO coverup is that which has long been a hinderance to understanding what is occurring upon this plane, yet the situation has resolved itself even without the public being aware of what was occurring, and essentially the earth is being freed from the alien Luciferian forces.

Luciferian & Satanic Forces

This Awareness wishes to explain briefly that the Satanists and Luciferians are not the same forces. The Satanists are those from Natas, which is Satan spelled backwards, these entities seek to control through mind domination and these entities have a sadistic quality about them; that the Luciferians seek to control the energies of others, these entities more like vampires, eating off of the energies of others in order to avoid drawing from universal forces and developing their own being and their own life-force; these entities sap the strength of others, live on the fruits of their labors, and in general simply produce nothing for society in most cases, but live off of society.

The Roots & Code of the Galactic Confederation

This Awareness indicates that the Galactic Confederation as that which has its roots in Celestria, feeds off of the spiritual energies from within, and draws on this inner divine spiritual energy in order to produce and bring about better life situations, and these entities generally are

generous, giving of themselves, and willing to sacrifice if necessary in order to see others having a more pleasant and harmonious life. This Awareness indicates this as generally exemplified by the Christian doctrines or teachings, this also relating to certain Oriental doctrines and teachings as well. That the Krishna and some of the Tibetan concepts also relate to this level.

The Influence of the Jehovah Energies

This Awareness indicates that the Jehovah energies relate to a kind of hierarchy branch system, whereby power must be passed from above to those below, through authority, rules and the hierarchy system; that this is also reflected in the Brahmin caste system which reflects much of this type of hierarchy concept in a social situation. There is also that which is Taoism, whereby entities look and become one with the universe and see all as essence and do not identify with any part, and become likened unto a drop of life in a living universe without any individuality or separateness, therefore this concept leads entities to accept any malady or illness that comes upon them or another, without the feeling that anything must be done. This as considered in many Oriental philosophies and mixed with the concepts of karma, allow entities to watch the suffering of others with the remark that it "must be their karma and is not any of my concern, and I do not wish to get involved with anything negative."

Levels of Development

This Awareness indicates that this type of Taoism whereby the entity identifies with the All, but has no central will of his own to respond to any part of the total picture which is out of balance,--this is a particular step of development which leads beyond personal egocentric levels, but which is a form of escapism in order to avoid personal responsibility and personal involvement and personal pain. That such entities can even endure pain without identifying with the pain and therefore are likened unto a drugged patient who is satisfied with the pain so long as he or she can have the drug to allow them to disidentify with that pain; that this as a level of development not so high as many would believe, that many entities feel that being unattached is the ultimate level of development. This Awareness suggests that this being but a fourth level of development, that there are six levels above this.

This Awareness indicates that the Christian level as being the eighth level of development, when lived as was intended by the great teacher of that philosophy; this as a level whereby the entity sees the ills and tragedy and responds to that with all levels of being.

This Awareness indicates that the ninth level as that which is not known upon this plane, but whereby the entities of this level recognize the nature of time and space itself, the nature of reality. That these entities have ultimate understanding of the universe; the tenth level as that which was reached by the Els or Elders and these entities

capable of stepping out of time and space and moving into past, future or into other places in the universe or other dimensions or other vibrations according to the will of their own consciousness.

WHO PREVENTED EISENHOWER FROM RELEASING THE UFO INFO?

(FOLLOW-UP QUESTION):

Would Awareness reveal who it was that prevented President Eisenhower from going forth to the public with the UFO information?

COSMIC AWARENESS:

This Awareness indicates this as related to certain forces which were controlling the President and have controlled the President since the time of Franklin Roosevelt; this force essentially coming from the Rockefeller powers; this working through his agencies,—the CIA and the Secret Service,—which at that time was controlled by these powers. This also relates to the entities in his cabinet who were controlled by these forces also.

This Awareness indicates that essentially, the entities, the Rockefeller brothers, were in close communication with the Rothschilds, that these and those other forces closely linked to the Rothschild power had connection and association with Luciferian forces which are, which were behind this movement. That the force also was associated with that which was subterranean in its location and had great influence on the Rothschilds, the Rockefellers, and on the general movement of Nazi Germany during these times. That the entity Adolf Hitler was introduced to such a being from the subterranean level and was of the impression that he would receive great power in conquering the world by following the orders and directions of these forces from the Luciferian levels. This Awareness indicates that more information on this may be given at a later time.

CONSIDER ALL OF THIS AS SCIENCE-FICTION

(Closing Message)

This Awareness indicates that as the information which this Awareness has been releasing during the past year is that which stretches the limits of the imagination of most entities, this Awareness suggests that you not take this too seriously, that you not attempt to believe or disbelieve. This Awareness suggests that you simply read this information for your general entertainment as you would read a science-fiction story, so that it does not become too upsetting to your levels of reality. This Awareness suggests that wherein entities become too serious and believe they must decide whether to believe or not, this creates a problem and can create problems in relationship with your friends, for if they decide to believe, then they also feel they must recruit comrades into their belief system, and their comrades may be friends or relatives who do not wish to be included in such a strange belief system; therefore, these

attitudes can bring about conflicts with your friends and your relatives. This Awareness suggests therefore, that you not try to incorporate these messages into your belief system, but that you simply read these for your enjoyment as possible realities, but not necessarily as an alternative to reality, nor this Awareness as an alternative to your reality.

This Awareness indicates that this then can be considered as a kind of exercise in stretching your mind as some entities exercise to stretch their muscles, this stretching of the mind is that which then can assist in increasing your levels of awareness, and even with this kind of activity, even if you do not believe or even if this information were totally false, it would still be beneficial to you for it would stretch your imagination, and in stretching your imagination, would increase your capacity for thinking and for discovering. This in turns increases your levels of awareness.

This Awareness suggests that therefore, you not concern yourself with whether this information is true or false, but that you simply read the information for its thought-provoking stimulation.

The Incredible Story They Tried to Hide for 28 Years

Ike Met Space Aliens

President Dwight D. Eisenhower met with beings from outer space almost 30 years ago, a British high government official reveals.

According to the Earl of Clancarty, a member of Parliament and the author of seven UFO books, the top secret meeting took place in 1954 at Edwards Air Force Base in California.

The awestruck Ike watched as the aliens demonstrated how their spacecraft worked — and he convinced them not to make widespread contact with the people of Earth, to avoid panic.

And world-famous UFO expert Charles Berlitz confirms the astonishing story!

Lord Clancarty, who heads a group in the House of Lords demanding the British government release classified UFO information, says he was told of the incredible encounter by a former top U.S. test pilot. "The pilot said he was one of six people at Eisenhower's meeting with the beings," Lord Clancarty disclosed. "He had been called in as a technical adviser because of his reputation and abilities as a test pilot."

The test pilot told Lord Clancarty, "Five different alien craft landed at the base. Three were saucer-shaped and two were cigar-shaped. Eisenhower, who was vacationing in nearby Palm Springs at the time, was apparently summoned to the base by military officials. As Eisenhower and his small group watched, the aliens first disembarked and then approached them.

"The aliens looked something like humans, but not exactly," the pilot said.

He described the aliens as having humanlike features, although misshapen. They were about the same height and build as an average man and able to breathe air without a helmet. The aliens spoke English and told Eisenhower they wanted to begin "an education program for the people of Earth" to make mankind aware of their presence.

"Eisenhower told them he didn't think the world was ready for that, and was concerned this revelation would cause panic," according to the pilot.

"The aliens seemed to understand and agree, and then said they would continue to make contact with isolated individuals, until Earth people got used to

them," the pilot said. "Eisenhower said that he thought this was all right, as long as

the aliens didn't create panic and confusion."

Then, before the stunned President and his companions, the aliens displayed their awesome technical advances.

"They demonstrated their spacecraft to the President," the pilot said. "They showed him their ability to make themselves invisible.

"This really caused the President a lot of discomfort because none of us could see

He Inspected Their UFOs & Told Them Not to Panic Earth

them even though we knew they were there. The aliens then boarded their ships and departed. All of us were sworn to complete secrecy."

Said Lord Clancarty, "The pilot said he'd never spoken to another person about this, but now everyone involved except him was dead."

Rumors of the Eisenhower meeting have circulated for decades. In fact, during the mid-1950s a sergeant told Los Angeles UFO expert Gabe Green about the aliens' awe-inspiring arrival at Edwards.

"I was at gunnery practice, under the command of a general," the sergeant wrote to Green. "We were shooting live ammo at targets when all of a sudden five UFOs flew right over us.

"The general ordered all batteries to open fire on the craft. We did, but our shells had no effect whatsoever.

"We all stopped firing and watched the UFOs land at one of the large hangars."

In his book "The Roswell

Incident," the UFO expert Charles Berlitz reveals another witness to the astonishing close encounter. A man named Gerald Light told about the incident in a letter dated April 16, 1954.

"In his letter, Light stated he had seen five spacecraft that had been delivered by the aliens at the base," Berlitz wrote.

"Light wrote, 'I had the distinct feeling that the world as I knew it had come to an end. It has finally happened — we have seen and met aliens from another world.'"

Incredibly, Berlitz says, Eisenhower mysteriously disappeared from his Palm Springs retreat — not far from Muroc — on Feb. 29, 1954, the date of the reported meeting.

"The President had a press conference scheduled but never showed up," Berlitz wrote. "He disappeared.

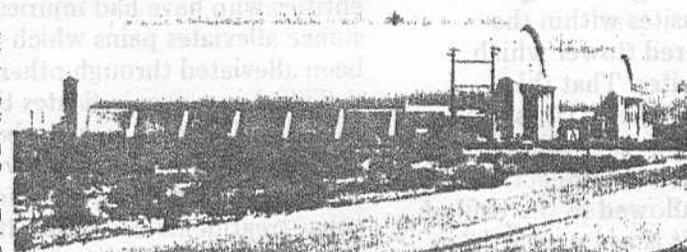

"There were wild rumors that the President was ill. The official explanation was that Eisenhower had visited a local dentist, but inquiries by the press failed to discover which dentist treated the President."

Now, Lord Clancarty's new revelations could blow the lid off the mystery.

"I have heard the Eisenhower meeting story many times but have never been able to confirm it," said J. Allen Hynek, director of the Center for UFO Studies.

"With this additional information, we'll investigate the incident further."

Four years after Awareness revealed that President Eisenhower met UFO entities and took a ride with them, the story was uncovered and revealed in this national tabloid article. Of course, the story never appeared in the controlled media.

ED's Note: Several years after this reading was given, an entire reading on the "Alternative 003" project came through. CAC plans to publish this info later on.

LAPACHO TEA -- IS IT A NEW MIRACLE CURE FOR DISEASE & A LIFE-EXTENDER ?

A NEW WEAPON IN THE ARSENAL AGAINST CANCER

QUESTION:

Some months back when questions about cancer cures were asked, Awareness indicated *It* would give information on something new in the arsenal to fight cancer. Would Awareness give that information at this time?

COSMIC AWARENESS:

This Awareness indicates this as related to that substance from the Lapacho-Colorado tree which grows abundantly in South America; this as the red bark, the inner bark of the tree; this substance as having been used for several thousands of years by the medicine men in Brazil for various cures; this also as having been used secretly by certain entities of royalty,--this appears to have been in Russia; and there are other entities in various parts of the world who have known of this substance, but have essentially kept this secret.

This Awareness indicates this as an elixer made from the substance which was used in certain times by certain individuals to prolong their lives; that essentially this has been recently rediscovered by modern medicine and has been found to cure... This Awareness indicates *It* must be cautious in using the word *cure*, therefore, *It* shall reword this as: This substance has been discovered to be of assistance in the *treatment* of cancer, leukemia, diabetes, eczema, syphilis, gonorrhea, Parkinson's disease, heart disease, hardening of the arteries, hypertension, nerve problems and a host of other illnesses.

This Awareness indicates essentially, it works, as it has an ingredient which assists in removing toxins from the body and allowing the body to heal itself; it also destroys parasites within the body; that the tree itself has a red flower which eats insects; the bark eats parasites. That this substances as being approved by the FDA as a tea, not for healing purposes, but as a tea, in that no harmful effects have been known in connection with this; therefore, it is now allowed in the United States as a tea. That however, it is not promoted as a healing agent, that it was being used in Brazil in hospitals for the treatment of various diseases such as cancer, and was receiving great acclaim for its success.

This Awareness indicates however, the Brazilian Cancer Society created much conflict over the use of the substance and attempted to block its sale. The substance as a chemical is not available on the open market, but the substance as a tea is available; that the government of Brazil is supplying the substance, and it now is available in the United States at a reasonable rate. This Awareness indicates that in some instances this substance has sold for as much as \$150 for three ounces; this as now available for

\$10.00 for three ounces in the form of tea; that more information relating to this shall be made available.*

This Awareness indicates this as the sacramental healing substance which this Awareness previously has mentioned to several entities in their personal readings; that at the time, this Awareness referred to this as a sacramental healing substance. It was not available in its present form.

LAPACHO--A SUBSTITUTE FOR COFFEE ...ALSO A GOOD PAIN KILLER

(FOLLOW-UP QUESTION):

For entities that don't have cancer and don't want to get it, would Awareness recommend that they take this tea as part of their regular diet?

COSMIC AWARENESS:

This Awareness suggests that this tea become a substitute for coffee or for other teas, at least in part; that one cup daily, or more as beneficial; that it has a flavor similar to sweetened coffee, with just a slight amount of licorice. It is a rather mild flavor, but similar to that of good coffee, slightly sweetened; that it does not have quite the bitterness of coffee. This Awareness indicates that the tea has an effect on entities in that it gives more energy by helping to speed up the removal of the dead cells from the body, speed up the removal of poisons from the body, and the removal of poisons and dead cells is that which removes pain from the body; that essentially most pain which entities experience is caused by dead or dying cells which are not removed to allow the new cells to begin healing. The more difficult the removal of these cells, the more chronic the pain will be. Therefore, pains in the joints or in the muscles can be helped by this substance, and entities who have had injuries may find that the substance alleviates pains which cannot be, or have not been alleviated through other methods.

This Awareness indicates that *It* cannot guarantee each individual will receive benefits from the use of this substance, for each individual may have a different problem and may respond more readily to various other treatments. However, it is what may be termed another Miracle Healing Substance which can be beneficial and should be tried by those who wish to improve their health.

Coming--A Cure for Obesity!

This Awareness indicates there is another substance coming from Brazil within a short time which cures obesity; that Brazil is to be the medicine cabinet for the world in future times, that it is quickly becoming recognized as the capitol of the healing world. This Awareness indicates these energies and substances which will come forth from Brazil as that which shall be recognized as the beginning of a new medical era for healing the world; that this has been foretold previously.

This Awareness indicates that there are other discoveries in Brazil which will also bring new light in terms of history and the unique visitations upon this planet from other extra-terrestrial forces; there also appears to be a connection to the inner world through caverns located in Brazil.

ED's Note: Some of the names of this substance are: Lapacho, Ipe Roxo, Lapach Morado, Purple Lapacho, Pan d'arco, Taheebo, and is available in tea form in many healthfood stores. HALF-BROTHER OF JESUS CHRIST FOUND ALIVE AND WELL IN CANADA

HOW UFO BEINGS ARE HELPING TO DEFUSE THE HEAVY ENERGIES OF THE HOLOCAUST

QUESTION:

M.N., of Ontario, Canada, sent a letter in to us in which he mentioned a rather interesting occurrence I'd like to ask Awareness about. He says:

"My main purpose for writing this letter is I was looking at a program on television last night called "W-5", a Canadian program in which they interviewed a young man that claimed to be the half-brother of Christ. He said about eight years ago he was visiting a relation in France; he was alone, and he happened to look up into the sky and saw a bright white light which came closer and closer to him, in which he noticed that the white light came from a bell-shaped object which landed a few feet away from him. A trap-door opened and out came a man only a few feet tall, who greeted him and told him that he was his true father, and that he was the half-brother of Christ, and that mankind was the descendant of them, and he described himself as an Elohim, and he and his son must go out and educate mankind as to this fact; and that one day, when there is peace on earth, that they would appear for all to see.

"At present he has a following in Quebec, Canada, which he hopes to expand to the West of Canada and then the USA. He uses a medallion which is a combination of the Jewish star with the swastika in the middle, so would you please ask Awareness to comment on this for us?"

COSMIC AWARENESS:

This Awareness indicates that the entity as reporting accurately his experience; that there are many forces which move interdimensionally in a manner so as to affect consciousness in strange and marvelous ways.

This Awareness indicates that these forces are not always speaking that which entities would consider to be truth. However, from a more discerning level, these

forces always speak the truth; that this enigma must be explained further.

This Awareness indicates that if you can visualize an ocean of water, this ocean floating in space as a drop, and label this drop of water the Sea of Consciousness. Within this sea of consciousness all life exists. That anything which is spoken within this sea of consciousness exists as a concept and a reality in that it has been spoken or thought. That even where a concept speaks out in denial of another concept and states, "this concept is false", negating the first concept, still, both concepts exist as realities.

This may be seen as similar to a math problem wherein you have a plus-one added to a minus-one, the plus-one saying, "I exist and the minus-one does not exist." This Awareness indicates that the minus-one *does* exist, and when added to the plus-one, creates a zero.

Likewise, a statement which is negated by another statement still exists as a reality. Therefore, entities in higher levels recognize the use of terms as being more for the purpose of creating effects, such as creating a minus-one in order to negate a plus-one. That wherein an entity from a particular dimension wishes to communicate a concept into a finite dimension, it may choose to use concepts which are infinite, and which in their own nature will cancel out finite concepts. For example, the idea that matter is everything can be cancelled by an infinite concept that consciousness is everything and matter is simply its manifestation.

Likewise, wherein entities appear in certain shapes, unfamiliar to the material terrestrial being, and give forth messages that appear to be timeless and extra-terrestrial in nature, these messages are often termed in ways which bring about an alchemical purpose and value. To say that an entity is the half-brother of

Christ does something to the consciousness of the entity, inspiring that entity to do more than he could otherwise have done without such self-image as being the half-brother of Christ. That once an entity is convinced that he is the half-brother of Christ, he is inspired with great enthusiasm, purpose and conviction to dedicate his life to a particular path of action.

This Awareness indicates had these entities told this being, "You are the half-brother of Christ, as is everyone else on this plane; you are half-Christ and half-animal, as is everyone else," then this entity would not have seen the significance in the next statement which directed him to go forth and teach others. That often it is necessary for extra-terrestrial beings to create the belief and significance of one's importance to an entity in order that the entity have the enthusiasm and dedication to pursue that action; that this entity as being the half-brother of Christ in a symbolic sense, even as all are half-Christ in nature. This Awareness indicates that *all* beings have that aspect of Christ within them, and whether this is seen as brother, sister, or as an energy force, it is only important in terms of how you look at the significance, and how this significance affects you, and whether you recognize the true connection to Christ, or whether you conceive this to be some personal glory.

This Awareness indicates that this entity as following the directions which were given to him in a manner which is serving to assist in altering consciousness. The action of incorporating the star of David along with the swastika superimposed over this, as that which creates a reconciliation of YES and NO, and this as an action which defuses those energies of the holocaust.

This Awareness indicates that it is important to remember the lessons of the agonies and the causes which led to and were experienced and were understood from the holocaust, but to keep the holocaust paraded before the minds of others simply in order to hold an edge of vengeance, this refusal to reconcile, this would be in error.

Energies of the Star of David & the Swastika

This Awareness indicates that it is understandable that some entities would be extremely shocked and infuriated at seeing the swastika superimposed over the star of David; that it is understandable that this would be inflammatory to those who have experienced great agonies in connection with these two forces. This Awareness indicates however, on an alchemical level, emotions being set aside, it becomes apparent that this action of merging these concepts or symbols together as that which can, in time, lead to a reconciliation of energies which is necessary if the planet is to survive.

This Awareness indicates that entities may not recognize the power in these two symbols. Entities may believe that the swastika has lost its power, or that the star of David is simply a symbol for the down-trodden Jew. However, this is not the case: the star of David and the swastika are extremely potent and powerful symbols. These are *concepts* which carry great power, affecting all levels,--political,

military, social, religious, and personal in such a manner that division and conflict could erupt over these symbols at any time.

This Awareness indicates however, the action of merging these together as that which can begin to create an unusual effect of defusing the hostilities, the fear and the polarities which exist between these forces; that this entity as serving a purpose which is having its effect and shall grow.

THE NECESSITY OF MANY MESSENGERS COMING TO THIS PLANE AT THIS TIME

(FOLLOW-UP QUESTION):

Awareness, is it possible that this Lord Maitreya character that Benjamin Creme is promoting, who is supposed to appear, might also be playing this same role?

COSMIC AWARENESS:

This Awareness indicates that this as another; that there are many; that these various entities who promote themselves, or who are promoted by others, as messiahs, leaders, teachers or messengers; each of these has a particular value at this time; this likened unto rain drops falling, whereby the message of moisture strikes upon the hot barren plain, each droplet carrying its message of moisture. Wherein one looks at a droplet and says, "Here it is! Rain has fallen over here!", another looks and says, "It's over here!", another looks and says, "No! I have found it here!"....all of these carrying the message of moisture add to the collection of that which is occurring on this plane.

This Awareness indicates that even those who move in error, carry a message. The message of Jim Jones is clear to entities: "Beware of those who claim to be messengers of God, for they may be false prophets." That this entity as having carried this message and given this into consciousness in a dramatic way; that the entity as having created an error, but one which others may learn from. Likewise, all of these many messengers, whether seen as false or true prophets, are essential and important to the present time, and the changes in consciousness which must occur at this time.

This Awareness indicates that these energies of change require prophets and persons to give messages; that messengers are listened to only when the old traditional messages fail to answer.

FEMA's Plans for a National Emergency Revealed

According to the magazine *Datamation*, the Federal Emergency Management Agency will establish an Office of Censorship if martial law is imposed in the U.S. Documents released under the FOIA state that during a time of national emergency or war, the government plans to seize private computers and industrial plants. The 1950 Defense Resources Act is being redrafted by FEMA for congressional approval.

...MORE ON THAT ONE BIG QUESTION:

"HOW MANY HAVE YOU SERVED, AND HOW WELL ?

QUESTION:

A question from A.C. who lives here in Olympia. "I have a question that I hope you will feel is important enough to ask Awareness. I'm aware that the Dark Forces in us is the ego, or false self that we are constantly trying to affirm or make real, when in fact it is the illusion. Also, when the fires of hell are lapping at your feet, you're going to go up that ladder a lot faster, so when we get caught up in the "bad", it is actually for our good. So now my question is to ask Awareness to be more specific when *It* says: "How many have you served and how well?" It seems pretty difficult to know how to help another, except to rise above the opposites, perhaps. Thank you."

COSMIC AWARENESS:

This Awareness indicates that entities can recognize others who are suffering and who need help; that some of these suffering entities need healing, others need teaching; that some need comfort and physical assistance, others need communication and spiritual assistance. This Awareness indicates that when you befriend another, you are in essence helping that entity; when you alienate yourself from another, you may be assisting or harming that entity, depending on the motive of your action. That in some instances, it becomes necessary, if an entity is to help another, to pull away and not give support for the actions being committed by one, when these actions are not toward the good of others; therefore, serving one who serves ill purposes is not serving that entity for his or her highest and best interests. This Awareness suggests therefore, that in considering serving others and serving them well, that this applies only to the action of serving others for their more spiritual and their beneficial evolution, so that they grow more capable of serving still others in beneficial ways.

That in considering the action of serving others and serving them well, this must assume the concept of quality and quantity: "others" may mean two entities, or it may mean two billion or more, or some degree in between; the quantity as that which is always available for expansion. Also, in considering the action of serving entities well; one entity's concept of "serving well" is to give the entity a bowl of soup without spilling it. Another's concept of "serving well" is to help the entity to learn how to take care of himself, to make his own soup, and not to spill it; that the quality is that which also can be continually enhanced and improved upon.

This Awareness suggests therefore, the question "How many have you served, and how well?", is that which is open to any degree of accomplishment possible for any individual in his or her expression.

That one individual may be quite proud and quite content to serve one entity well, and it can be that this is sufficient for this entity's purpose in this lifetime, particularly in the case of the mother, maybe this is all that is necessary; that she serves her child well, and helps the child to grow up to be a very good and helpful person for others. That if this seems unusual, consider the mothers of the various great persons in history, and recognize that these mothers must have had a very important role, even though they may not have ever been noticed themselves, for they served their children well.

That likewise, another entity may decide that serving many, and serving many well is that which is the proper path, and much more meaningful to them, and may feel that if this is not accomplished, the entity is a failure in this life. Therefore, this entity will attempt to reach a position wherein he or she can give service to many and to do a job with efficiency that is satisfactory to these many; that such an entity may serve 100, or 1000, or 10,000 entities. This Awareness is not interested in evaluating the individual for how many it has served or how well, but IS concerned with emphasizing that concept, so that the individual can look at himself, at herself, to determine whether the life he or she is living is actually helping to serve others and to serve them well.

This Awareness indicates that therefore, the message wherein entities are told that upon passing over, the question asked is: "How many have you served and how well?", this question being that which allows an entity to take stock and measure his or her own accomplishments,--not through how much the entity has enjoyed life, how much the entity has gained from the various occupations, how much material wealth has been stored up, how many people came to the funeral, how many cried, how many are going to miss the entity,--these kind of questions are not asked; but the question asked is "How many have you served, and how well?"

IS THERE A LAW OF "FAIR EXCHANGE" ?

(MORE ON THE COSMIC BANK ACCOUNT)

QUESTION:

A question from M.S., Green Mountain, N.C.
 "Into my mind has come the idea that there is a universal law of fair exchange. My feeling for such a law or principle is perhaps best expressed by Gibran when the Prophet responds to a question regarding buying and selling:

"Invoke then, the Master Spirit of the earth to come into your midst and sanctify the scales and the reckoning that weighs value against value."

I would like to ask Awareness, is there such a law as the universal law of fair exchange, and if so, would Awareness please formulate more clearly this law and provide suggestions regarding its practical application in our work and service in establishing a New Age economic system?"

COSMIC AWARENESS:

This Awareness indicates that this essentially has been expressed in the *Law of Gratitude*, whereby energy which has been given receives its proper reward. Energy that moves out on a curved and unequal line, returns eventually to its source bearing gifts. This Awareness indicates that entities have within their rights, the choice of how to claim those energies which have been given, how to claim the rewards for those energies; that this may be set up as part of the agreement at the time the energies are given, or may be requested after the energies have been set forth through one's own prayers or through the questioning aspects of an entity so that the entity energizes that which he or she wishes as reward.

This Awareness indicates that wherein entities waste their reward through claiming violations, or complaining against abuses, or bragging about their accomplishments or generosity, wherein entities praise or express complaints: these become the rewards for the energy which has been given. That wherein an entity complains not, and seeks not praise, the energy which has been given is not at the time of the gift tied to any obligation for a particular type of return, this energy then is sent to one's cosmic bank account for use by the entity in later activities, giving special grace to that entity for work which he or she may do during the future times of that entity.

This Awareness indicates still others may claim some of the energy through complaints, some of the energy through desiring praise and some of the energy through particular payment, and some energy may still be allowed into the cosmic bank account for future grace. That essentially this is the same law as mentioned by the questioner.

HOW TO OVERCOME 'MORNING SICKNESS'

QUESTION:

Would Awareness please explain the cause of so-called 'morning sickness' in pregnant women, and give some information on how to curb or prevent it?

COSMIC AWARENESS:

This Awareness indicates this relates to the hormone factors involved in the pregnancies; that there are certain herbal compounds, and also certain hormonal stimulants which can be of some assistance. This Awareness suggests that entities may benefit by use of calcium, Vitamin D, and Vitamin A, taken in sufficient quantity; that Vitamin C and E as also beneficial; that generally, the complete vitamin and mineral supplements, taken properly, will help to minimize this condition. That the entity Mary Farrell as one who can supply further information regarding the herbal compounds which can be beneficial in assisting to balance this hormonal need.
