The Seduction of the Light Worker

(HOW TO AVOID ENTRAPMENT BY THE ALIEN FORCE)

...MORE ON MULTIPLE PERSONALITIES

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. MULTIPLE PERSONALITIES....

HOW AND WHY THE PHENOMENA OCCURS

QUESTION:

A question from J.W., Athens, Ohio. "Would you please explain what in fact is happening in cases of multiple personalities? There has been recently considerable publicity and a book about Billy Mulligan from Ohio. He is reported to have as many as 21 personalities; some male, some female, some foreign. It is said that multiple personalities are far more common than realized, and that one of the root causes is an abusive environment, particularly in children, wherein an instance of abuse, a new personality steps in, in fact, to protect the original personality.

"Psychiatry treats these people by hypnosis and by convincing some of the personalities to leave, and by integrating others. There is often a core, or master self, a Higher Self, who is aware of everything, and is kind and benevolent. In cases of multiple personality; are these in fact different entities?, and if so, from what levels?, or are they simply different facets of the personality?"

COSMIC AWARENESS:

This Awareness indicates that these are different entities, or personalities from the Inner Plane; that these may also, in some cases, be different aspects of an individual. This Awareness reminds you of the information given in the Seth material relating to personalities which inhabit different planes at different times, yet have a strong link to each other; that in some instances, these personalities interrelate in different planes through each other's carriage or vehicle.*

Generally, however, this is an action wherein spirits or spirit guides, or other entities may enter into a physical body where the personality that inhabits the body is not strongly attached to that physical life, or physical form. That generally the personality of an entity does not enter the body at birth, but hovers nearby, and at a particular time may enter that body and entities knowing that child, will recognize a change in the child's level of awareness, alertness and personal expression. This as a time when the personality, or conscious being enters the body.

This Awareness indicates that wherein the child is strongly abused, or experiences much disorientation during childhood through the circumstances or events; this personality may not take a strong hold on the body. When this occurs, another personality may enter, and may inhabit that body, or share that body with the original personality; that this can become multiple personalities, wherein several may share the body.

This Awareness indicates that wherein heredity plays a major part in the physical formation of the body, and in the subconscious activities and genetics of the body; the personality as that which does not enter as a result so much of the genetics, and heredity, but more as a result of the astrol-ogical and environmental influences; that this as equated to the middle self, the Doer, the actor, whereas the subconscious may be equated to the lower self, or the reactionary mind.

This Awareness indicates that the Oversoul, or Higher Self, as more likened unto a general guiding spirit for this triad, or trinity, making up the individual. That wherein multiple personalities are involved, this is likened unto having many different middle selves. In Greek mythology, this was symbolized by the Gorgon Medusa, the entity with many snakes for her head; that these snakes each representing a different will, or different purpose, or different personality, and all going in their own individual direction.

Who has the Right to Inhabit the Body?

This Awareness indicates that wherein an entity has a great number of personalities, it can be difficult in distinguishing which personality should be given the right to inhabit that physical body. That essentially, psychiatrists in working with such instances, consider both the social adaptability of the personality and the personal adaptability of the personality, and wherein these personalities can be integrated, this can allow for these energies, or entities to merge, one with another in a harmonious manner. This is likened unto a marriage of aspects.

This Awareness indicates that in looking at this in another sense, a strong personality is also capable of being shattered and broken into many different aspects or different personalities. That wherein an individual experiences great trauma, and great difficulties or problems which the entity cannot cope

*[Please refer to the CAC book catalog. CAC stocks several of Jane Robert's Seth books.]

with, even a strong personality may experience that tearing or cutting apart of the personality, whereby the entity feels split and divided, and torn, and unstable and lacking in a cohesive direction.

This Awareness indicates this generally is that which is called schizophrenia, whereby the term "schizo" means scissor, or cut, or split. That wherein a personality is split, or divided, confused, or torn in different directions, this can either be mended, or these personalities may grow stronger in their own direction and purpose, creating a duality of personalities. That this can also again be split, so that three or four or more aspects of the same personality can be experienced in a continuing action whereby the splitting of a unified personal being is divided into more and more diverse types.

In this manner, an entity who was once well integrated, can become a multiple personality, or can create and have multiple personalities. These multiple personalities can also carry over into a later life, and if these personalities are developed in themselves, they can appear to be different entities. That these can also be developed in a single entity, wherein they appear to be different entities, even though they were once mere thoughts or ideas, or aspects of the original personality.

Composites & How the Lifestream Operates

This Awareness indicates that the trunk of a tree, and the branches and limbs and stems and leaves of the tree are much likened unto a map of the way personalities can be split and divided. That also the roots of a tree, coming together to form the trunk, may also be symbolic of the path by which an integrated personality is formed, and wherein energies from diverse directions and sources come together to form an integrated personality.

Also, this can serve as a symbol for the lifestream of an individual, or of individuals, whereby diverse individuals may come together in a lifestream, entering into a particular body, a physical form, having an integration of many diverse energies or personalities serving as one; a composite of energies; a composite of personalities; and this composite may have

an experience of a life, then, in moving on, the personalities of that composite may again go their diverse ways, and may end up in another life in their own individual bodies, each being separate from the other. In this way, it is possible for several entities to have been a particular entity in a past life.

This Awareness indicates it is also possible that a number of entities in physical bodies in this present life may someday enter together, merging and integrating as a single individual in a future life, the aspects of their different beings merging into one particular body or being. That when this occurs, that being may experience some disorientation as these personalities attempt to merge, or until these personalities do merge, and the entity may be said to have "multiple personalities".

However, once these personalities do merge, the entity then will have the strength or conflicts associated with all of the aspects of these personalities brought together. That each individual who has the experience of having diverse wills or ideas within oneself, whereby the entity's intentions shift and change, and cannot be integrated toward a disciplined direction; that entity, to some extent, to *that* extent, is divided, and the internal conflict reflects the degree of integration that is lacking.

The Totally Integrated Entity

This Awareness indicates that wherein the entity is totally integrated, and has no inner division or inner conflict, the entity may be said to be totally integrated, and to be of one mind. Such an entity is not necessarily more spiritual than the one who is divided and split in his or her purposes, for the entity may have crystallized and integrated in a direction which is alien to spiritual development.

For example, an entity may be totally integrated into the art of violating others, or into the art of some particular path that is destructive to others. This entity may have no internal quarrel with his or her actions. The entity may be totally harmonious within, in regard to this direction, yet the direction itself is out of line with spiritual development, and the entity will have even greater difficulty in realigning toward the spiritual path, for this entity must first shatter those integrated aspects, and fall apart, and become schizophrenic, and reassemble those energies and personalities and purposes, toward that which is the spiritual path; then, in the reassembling of these aspects, integrate and come together in the new direction.

"I will have nothing to do with this destruction of life, I will play no part in this devastation of the land, I am determined to live and work for peaceful construction, for I am morally responsible for the world of today and the generations of tomorrow."

— Richard St. Barbe-Baker

WHY "NICE PEOPLE" COMMIT CRIMES

(MORE ON THE VIOLENT INVADERS)

(FOLLOW-UP QUESTION):

Awareness, there are many accounts in the media these days of entities who are normally very nice, easy-going people, but who suddenly, for some reason, commit a violent crime. These entities invariably claim they "don't remember" about committing any crime, and the psychiatrist will often say it was just another personality that came out and did the deed. Is this a case of spirit possession, or is this another part of the entity, another self that hasn't been integrated, as a general rule?

COSMIC AWARENESS:

This Awareness indicates this as generally, when in the extreme in this nature, as generally brought on by what may be termed an invasion force, moving in and possessing the entity. However, for such a force to enter into another, the owner of the body, the one who inhabits the body, must in some way leave the door open to allow for such an invasion; that the door may be opened through the use of drugs, alcohol, or through the excessive abuse to the body, such as overwork, overworry, or lack of care for the physical body.

Also, malnutrition can lead to schizophrenia, and that schizophrenia essentially occurs when the true owner of the body is knocked out of the body, or is asleep and allows the entry of another.

"Being Aleep"--Awareness Explains What It Means

This Awareness indicates when *It* speaks of being asleep, *It* refers to the term "inattentive", or "non-caring" about oneself. That wherein one cares about oneself, one's values, one's principles, and the responsibility that goes with one's life, it is difficult for a spirit to enter into that body, but wherein an entity is of a mind which would escape from the physical body, that entity is often easily lured from the body, and the doors are often left open, unlocked, unattended, and the spirit may enter.

This Awareness indicates generally, a spirit cannot enter without the consent of the inhabitant, and the inhabitant will consent by having a lack of real attachment to the body, and sense of responsibility for its actions, and the principles of its behavior. That so long as entities have a sense of responsibility for the body, and the subconscious, the entity is not likely to leave that body unattended. That when the entity falls asleep at night, this body will remain safe from invasion, because those spirits recognize that the owner will return, and will not allow invading and possessive spirits.

Wherein an entity has experienced such suffering, or desires to escape, and feels out of place in the physical body which he or she resides within; that entity, not having much sense of responsibility for

what the self is all about, may simply wish to be elsewhere, care little for the temple which was provided, and through drink, drugs or attitudes of escapism, the entity may simply not care whether another personality enters, and in that lack of concern, this becomes an invitation to those other personalities who would short-cut their entry onto this plane, rather than waiting in line for their own birth opportunities, and entry through the body of a newborn baby.

The Seduction of the Light Worker

This Awareness indicates that in this manner in particular, those dark forces which would do harm to others, are often looking for entities who have little regard for their body, the responsibility for their body's actions, and who are essentially willing to allow the body to run itself unattended, while they indulge in escapism activities; that there are also those dark forces which are always attempting to disrupt the entity who is new upon the path.

That wherein an entity is already wallowing in darkness, wallowing in the mistakes and errors of the physical flesh, this entity is not a threat to the dark forces; they simply allow the entity to continue entrapping himself, until thoroughly wrapped up and caught in the darkness. That it is those entities who have recently turned from the materialism and who are moving toward the Light, along the path of spiritual development, which are the threat to these forces of darkness, and therefore, the forces of darkness will often attempt to do all within their power to seduce those Light workers, those entities who are moving toward some great achievement.

This Awareness indicates that you may observe carefully and remember this well: *That the closer you come to a breakthrough in giving service to others, or in attaining a new level of spiritual development; the closer you are to this new plateau of success, the more the Dark Forces will try to block you.* This Awareness indicates you can almost measure how close you are to your goal, to your accomplishment, by how hard it becomes to proceed. That as you reach close to success in these areas, the Dark Forces, the Brothers of the Shadow, the MIBs, or that which this Awareness has in past readings referred to as the Hidden Priestcraft; these forces of the Inner Planes who do not want your success, will do all that is possible to prevent you from succeeding.

It is at that time that you must call upon the Highest and Best, the forces of Light, for protection and guidance, and you must also give your total being, and energies toward continuing on your path, toward the Light, and toward that which is the accomplishment that you seek. This Awareness indicates that many entities who are moving in those directions toward a Christ-like Light, toward an action that is serving the Light, will experience these dark forces, and blocks.

These forces often work in the entity's weakest emotional areas, areas wherein the entity has some emotional flaw, or has some secret fantasy, or has some mental aberration, or has some physical problem. These entities, working on that area which is the weakest link in the personality, or emotional levels, may find some particular weakness which can be played upon, reinforced, acted upon, to cause the entity to lose control, and to lead the entity into an action which is totally unlike anything he or she would be expected to do.

How the Dark Force Works Through Children and Others Near the Light Worker

This Awareness indicates these forces also work through external circumstances, or external beings through acquaintances of an entity. Wherein the entity is strong enough that these forces cannot tempt, or seduce the entity into doing something which is foolish, in error, destructive or inappropriate, these Brothers of the Shadow may work through others near this entity, through those who are themselves weak, and may bring through those entities, energies which disrupt and bring difficulties for the entity.

Always, these forces work through the weakest link, and channel through those who are weak. Often through innocent beings, such as children, or through elderly persons who have not a clear mental or emotional state, or may work through any other entity who is not integrated and clear. The energies can work through animals, or through elements of nature, wherever there is a weakness.

How to Deal with the Dark Forces

This Awareness indicates that in avoiding these forces of darkness, and their efforts to block you, it is only necessary that you be aware of their interest in you. That you be aware of their intentions, and that you not fear these entities, but that you promote and send Light toward these entities and toward those areas where the energy is being channeled. For example, if you discover that these entities are channeling dark forces toward you through another being; this Awareness suggests you visualize that being wrapped in White Light, and that White Light protecting the being, and not allowing any dark energies to emerge from the being toward you.

This Awareness suggests that you visualize the dark energies going back toward those who send those energies, carrying energies of Light, so that those Brothers of the Shadow are suddenly wrapped in White Light, exposing themselves to themselves. That this mental Light which entities can send does have a force and power that *can* and *does* disrupt and neutralize forces of darkness.

Seduction into Committing Crime or Suicide (The 5 Steps Used by the Alien Force)

This Awareness indicates that the way whereby an entity is often seduced into doing something which is totally out of character, whereby these dark forces may begin operating on one's mind, is generally not through a conscious action of the

Five teen suicides shock county

WISCONSIN RAPIDS, Wis. (AP) — Five young people in a central Wisconsin county have committed suicide in three months and 10 others were hospitalized after suicide attempts, leaving counselors, educators, parents and friends working to keep other troubled youths from trying to end their lives.

"People are asking, 'Why is this happening so much?' And there's no answer," said Bob Gostler, a Wood County social worker.

From Dec. 1 to Feb. 22, five youths in Wood County, none older than 20, shot themselves to death. At least 10 others have made attempts serious enough to require hospitalization.

In Westchester County, N.Y., two teen-agers killed themselves two weeks ago, bringing to 17 the number of teen-age suicides in the suburbs north of New York City in the past 18 months, authorities said. And last fall, six teen-agers committed suicide over 2½ months in one Texas school district.

The deaths in Wisconsin have prompted radio and television programs and seminars on suicide prevention. A group of teen-agers founded Life Is for Living.

Teen-agers sentenced for massacre

ADELAIDE, Australia (AP) — Two teen-agers who disemboweled, bashed, and stabbed 64 tame animals to death at the Adelaide Zoo were sentenced today to three years in prison by a judge who said the cruelty of the act was beyond comprehension.

The defendants, both 18, appeared in court for sentencing after pleading guilty last month to maliciously killing the animals at the children's corner of the zoo on

the "horror and extreme cruelty" of the massacre, said he had to repress his feelings of repulsion to hand down a sentence without "heat or revenge."

"I doubt very much if the laws were formed with this offense in mind," he said.

Paul Anthony Jaensch and Roger Lynn Hazel were accused of entering the zoo at night with knives and an iron bar, and killing a llama, sheep, goats, an alligator, antelope, kangaroos, rabbits, guinea pigs, chickens, turkeys, rhea chicks, a duck and a pigeon.

Some animals had their throats cut, others were stabbed or disemboweled and some were bashed to death, officials said.

Zoo keepers told an earlier hearing that the animals were more like pets to the staff and the thousands who visited them.

8-year-old commits suicide

AURORA, Colo. (AP) — An 8-year-old boy who was told he would be punished for misbehaving in school died in what authorities called an "accidental suicide."

Charlie Burdick, the son of William and Jody Burdick, was found hanging from a rope in his garage Friday and died early Saturday after being hospitalized, authorities said. "He was upset,"

Mrs. Burdick, 38, had gone to Paris Elementary School on Friday afternoon for a conference with her son's teacher. The teacher said Charlie had ruined school supplies belonging to other students and asked Mrs. Burdick to talk to Charlie, the mother said.

14-year-old convicted of playmate's murder

BELOIT, Wis. (AP) — A 14-year-old boy convicted in the bludgeoning and stabbing death of a 9-year-old playmate will be called to testify at trials for two other youths, prosecutors said.

Prosecutors allege that the three, which included a 12-year-old boy and an 11-year-old girl, turned on the victim one summer night and later threatened a 5-year-old girl who said she witnessed the slaying.

The body of Anthony Darnell Wilson was found July 26 in a grandparents' home in

The 14-year-old showed no emotion when Rock County jury returned a verdict of delinquent of first-degree murder after deliberating more than five hours Thursday. The trial lasted four days.

Under state law, delinquency is the most serious crime for which a juvenile can be convicted unless jurisdiction is waived and the juvenile is tried in adult court.

A Rock County Sheriff's detective testified in August at a hearing for the 11-year-old girl that she quarreled with the victim and share his bicycle.

Son stabs preacher

THOUSAND OAKS, Calif. — Television preacher George Vandeman was stabbed in the back and face with a five-inch kitchen knife Thursday, and his son was booked for investigation of attempted murder, authorities said.

Ventura County sheriff's deputies went to the home of Vandeman, 68, who hosts the syndicated show "It Is Written," after Vandeman's wife called for an ambulance, sheriff's Sgt. Richard Purnell said.

Vandeman was in stable condition and sleeping Thursday night, said nursing supervisor Georgia Hastings.

entity thinking: "I will go and commit a crime." This is not what occurs. The way such occurs, is that the entity's mind is given a flash, or energizing, whereby the entity imagines in a kind of story-form, imagines what it would be like to commit this crime. The entity having no intention to commit such a crime, nevertheless allows his or her thoughts to follow along, to understand out of curiosity, more than anything else, what it would be like to commit a crime.

This Awareness indicates that the entity visualizing himself or herself moving through this action of committing a crime, may suddenly become appalled at how easy it would be, and how terrible it is to realize how easy it would be to do so. That nothing stands to protect the entity from committing such a crime. This is likened unto walking across Golden Gate bridge, and suddenly realizing that the railings have all fallen off, and you could easily fall over the side. That when entities realize how easy it would be to commit a crime, and that it is only one's own mind which prevents this from occurring, and that it is also one's mind which could make this occur, the entity may become frightened at the thought of such vulnerability, and this is the first step of the Dark Force in tempting an entity to move in that direction.

This Awareness indicates that the next step of the Dark Force is to create an obsession with the fear that: "It is so easy to commit a crime! I could do it, and it would be terrible, and it frightens me to realize how easy this could be done." The fear then, is the next step; that the entity then becomes afraid of looking at that, and seeks to put away the thought, seeks to avoid thinking about that anymore. The entity wishes he had never examined that possibility, and attempts to turn the attention in a different direction.

At this point, the Alien Force begins to play upon the subconscious of the entity, creating what seems to be that lingering feeling that: "I must not look back in that direction ever again." The entity then feeling that there is something horrible following, and luring in the back of his or her mind which must not be looked at. That this being the third step of the attempt by the Alien Force to lead an entity astray.

Eventually, the entity finds that thought suddenly popping into his or her mind again, in a frightening manner; whereby the entity thought that he or she had put this outside, it now returns at a time unexpected, and the entity sees again that it could occur. The entity now is afraid of what is happening to his or her mind, but does not dare speak to anyone about this. This becomes the fourth step in seducing an entity's consciousness into taking an action which would be a crime.

This Awareness indicates that this being repeated several times, more and more frequently, because of its abhorrence to the entity, the entity abhorring the thought, abhorring what is occurring, fearful of what is occurring, finds himself more fascinated, fearfully fascinated by that thought and image, and becoming emotionally angry that the thought won't leave him alone. That as this intensifies, the entity begins to feel that he or she is being hounded by this force and energy that is demanding that they commit a crime.

This Awareness indicates that this energy, the more it is feared, the more it is repressed; the stronger it seems to become. The entity at this point needs psychiatric help. The entity at this point needs to be able to confess, to talk to someone who can help

clarify and empty the entity's mind from these obsessions. The entity, however, is also embarrassed and afraid, because such thoughts are not part of his or her character, nor his or her reputation and image, and the entity does not wish to share those ugly parts of the hidden self with those friends and trusting loved ones.

At some point, the entity may become so overly obsessed with the turmoil occurring within, that the entity indeed, under great stress and pressure from some circumstance, suddenly finds himself, finds herself in a situation of having committed the act which previously the entity had imagined again and again, in great disgust and with great fear, and in an action which the entity did not personally desire, did not personally want to see occur.

How the Mind Turns Back Upon Itself

(How to Walk on Water)

This Awareness indicates that this basically is the way whereby the Alien Force operates in seducing an entity's mind. The Alien Force may also use such method in causing another to commit suicide, or to commit murder, or to do some other infraction or action. That this is akin to the old story of the entity who wanted to walk on water, and asked the teacher: "How can I walk on water?", and the teacher stated: "You must first avoid thinking of pink monkeys for two weeks, after which the entity returned in one week, to tell his teacher: "All I can do is think of pink monkeys. I never thought of pink monkeys before in my life, until you told me I must not think of pink monkeys."

This Awareness indicates that the mind is such that when it seeks to avoid giving attention to something, it will give greater attention to that. The mind is such that when a taboo is created in thinking, the mind must focus on that taboo; that it tends to look at that which it is not supposed to look at. This likened unto Lot's wife turning back and looking at the explosion, even though told not to look back, for she would turn to a pillar of salt.

This Awareness indicates the mind by its own nature turns back upon itself when told not to. The mind by its nature turns back upon those thoughts which it is told not to think about. For example, the greater the taboos placed on sex, the more entities become fascinated by sex; the population then increases because of the intense fascination of sex, and this in part was the reason for those taboos. Likewise, wherein entities are told: "Do not steal, do not steal, do not steal," wherein this is told enough and repeatedly, the entity will accept the teaching that it is wrong to steal, but wherein the entity's mind is affected by a statement: "Do not imagine yourself stealing. Do not imagine what it is like to go in and take something"...when this kind of statement is given, the mind simply cannot resist the action of thinking and imagining the movement toward a theft.

This Awareness indicates that as thoughts appear to be private, the mind believes it can think what it wants to think and no one can perceive what it is thinking, no one can prevent it from thinking what it wants to think, and wherein there are rules set up in society that order the mind to think, or not think in certain ways, the mind by its nature, recognizing that it is unseen, tends to think those thoughts which it is not supposed to think, and therefore the movement of thought creates the path of action which can follow.

That wherein the entity then feels that it was terrible to think that thought; "I must never think that thought!", and wherein the entity feels guilty at having thought the thought, and makes judgment of the mind; this then creates still another effort of the mind to overcome that judgment, and to return and look again, this likened unto the criminal returning to the scene of the crime, to examine and to see what it was that he or she had done. Therefore, the action of extracting the mind from these entrapments of the dark forces, is best accomplished not by chastising the mind for such thoughts, not by creating guilt or fear at having had such thoughts, not by turning in great abhorrence and fear at having imagined committing a crime, but rather, in looking at this action, in looking at this *completely*, following it through to the very end.

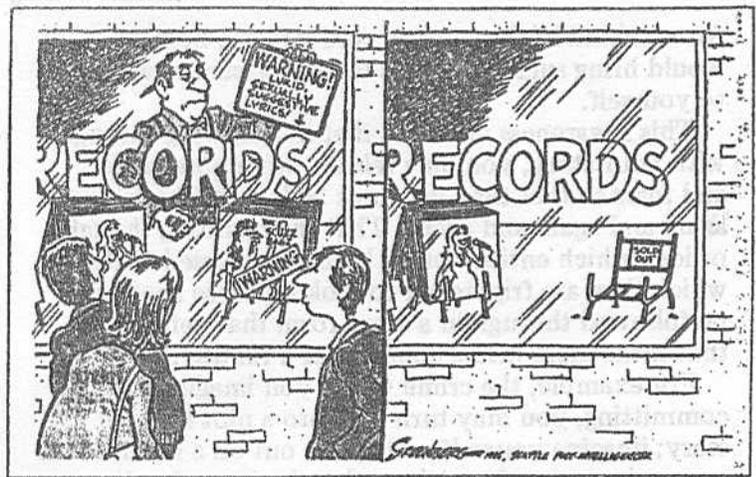

For example, you are walking across the Golden Gate bridge, and the railings fall off. You realize that there is nothing there to prevent you from falling over the edge. You no longer have the railings, and you ask yourself: "Am I going to fall over the edge?" This Awareness indicates if you are not thinking thoroughly, you probably will, simply because your own mind will become fixated, and frightened, and the terror will lead you to fall over the edge.

However, if you look thoroughly at the situation, you will realize that you never walked on those railings anyway; you always walked on the sidewalk, and the sidewalk is still intact. You never were blown off the bridge. There was never any reason for those railings to be there, other than as mental assurances in case you did become careless in your walk and stumble over in that direction, so you realize you don't actually need those railings anyway, for your purpose and direction is to cross the bridge, not to fall off the bridge, and there is no force which can force you to fall off the bridge, other than your mind, for there is no other entity on this bridge at this time.

The Crime of the Century Awaits!

(How to do it the Right Way)

Likewise, when you realize that it is possible for you to commit the crime of the century, and no one can stop you until it is too late, and the thought of such frightens you to the point where you can either become so obsessed and fearful of your own power that you become unable to extract yourself from the ideas and thoughts, you become obsessed with those ideas and thoughts, or you can look at this, recognizing that: "Yes, it is true! I could, if I chose, create a

terrible crime, harm a great number of entities, do things which are so terrible I do not wish to think of them, but, it is not my path. It is not my purpose. And even though I realize now that I could do this, I have always been able to do this, but only now have I realized I could do this; yet, I do not need to do this. Nothing forces me to do this, and the outcome of such an action is not to my liking, or suitable to my purpose."

This Awareness indicates you may wish at this time, in order to defuse the image of creating that crime of the century, you may wish at this time to follow that story-line through to the finish, finishing the story, so that you can forget it, and move on to your true purpose. You may visualize yourself committing the crime, then suddenly feeling the remorse that you would feel for having done such awful things. Realizing how impossible it is to undo what had been done. Recognizing the guilt and pain which you will suffer for so long at having done such horrible things, and realizing the probability of your being caught and punished, and all of the social attention and notoriety that you would receive; realizing all of this, and the incarceration for your crime; the fine and the punishment that would be given to you, and then looking back during this period at how you would feel, looking back upon that crime, and asking yourself: "Was this what I really wanted? Was this worthwhile? Was this something that was part of my purpose?"

Looking back, imagining yourself in the future, looking back on having created this crime, and asking yourself: "Now where do I go? Now, what do I do? What was the thrill I sought? Did I receive all of the thrills that I sought in committing that crime? Was there some real value in this action?" This Awareness indicates generally, in following through with the story-line, you can see the outcome sufficiently, so that you know it is necessary to take the entire trip. You know where the trip will lead. You know where the actions will wind up. You know the feelings you will have. You may simply write the story in your imagination, even as you started the story in your imagination, and conclude that story in such a manner as to be able to discard the story, along with the earlier beginnings, so that you, having read and written the story, need no longer be fascinated by it, and you may then move on to a more cheerful story of your liking, where by you imagine yourself creating the greatest benefit

for mankind in the century, and imagine how it would bring such happiness to others, such rewards to yourself.

This Awareness indicates that in following through with your story, you may release those obsessions and fears so that they need not be brought back again and again and again. That the haunting thought or idea which entities often become obsessed with, which they are frightened to look at; these need to be followed through in a story-form that defuses, that turns them into a comedy, or a fantasy.

For example, the crime which you imagined committing, you may turn this into a plot for a story; imagine yourself acting this out on a movie screen, in a comedy setting, whereby it reaches its climax and conclusion, and results in some satisfactory solution. You may then discard the story, or share this with others, if desired, but you need no longer be caught by an obsession of some concept relating to yourself committing a crime which you cannot rid your mind of, and which haunts you and propels you, or compels you to follow through in physical action; that criminal act.

This Awareness indicates that again, the key is that when you know where a path leads, you need not take the trip. That if you find yourself on a trip and you do not have any comprehension as to where it is taking you, then you have the right to stop the journey, to backtrack, or to ask questions to determine where you are being taken, or to run ahead physically, or mentally, or in your imagination and try to discover where the trip is leading.

In any case, looking ahead or perceiving that which is coming may relieve you of any need to follow through on that trip, even if others are coaxing you and attempting to lead you into that journey. That it is important to recognize that once you take a step, that step has been taken. Once you have entered upon a journey, you are on the path to some destiny. Once you have reached that destiny, it cannot be undone.

Therefore, entities should always be aware, not fearful, but *aware* of where they are going, so that they do not follow those paths which lead to confusion, darkness and tragedy, but follow those paths which lead toward Light and toward those destinies which bring joy and happiness for all. Even as it is true in traveling down a path, likewise it is true in reference to your thoughts, that you let your thoughts follow the Light, but if your thoughts are on the path of darkness, then be aware of where those paths may lead.

Knowing what can be ahead, you can imagine sufficiently what is there, so that it is not necessary to continue exploring that path, and you may simply return to the path of Light, and continue your journey. This Awareness indicates this in reference to the thought; the mind being focused on the path of Light, so that you waste not your mental energy in imagining those actions which are futile, tragic, meaningless or wasteful to yourself or others.

This Awareness indicates that the entity who wastes his or her energies thinking about pink

monkeys is simply off the path, and such realization, wherein the entity has become fixated and obsessed with that deviating energy, that energy that is of no value, the wasteful mental pursuits; that entity, in realizing the pink monkeys are but a trap, may then return to the path and follow toward the Light.

That likewise, the entity who seeks to walk upon the water, is similarly following a path of thought which is wasteful of one's energy and time, and brings no great value to others. This as simply seeking some form of glory through a difficult accomplishment. The entity at best would perhaps find himself, if accomplishing such a feat, being given a spot on one of the television shows, such as *Real People*, or *Bizarre Happenings*.

This Awareness indicates that the miracle of Jesus walking on water is not so much the phenomena, and entities accomplishing the same would not receive the acclaim and glory that has been given to this entity, for it is not the phenomena of walking on water which would bring one glory or recognition of spiritual development; it is rather the essence and influence that one's life may have on others, through the service or the inspiration that the life offers.

This Awareness suggests you spend your energies seeking to serve and inspire others to live their lives for the Highest and Best purposes, and this will be your greatest accomplishments.

Spiritual Vanity...the Fatal Flaw...

THE PERILS OF ENTRAPMENT

WHEN YOU PURSUE SIGNIFICANCE

(Closing Message)

This Awareness indicates that there are many nooks and crannies, many diverse pathways, many little entrapments to lure the developing soul, the Light Worker from the path, to lure and seduce the entity into those areas wherein there are entanglements. That as entities pursue the path of spiritual development, often that which appears to be the goal will in fact become an entrapment. Entities seeking to accomplish some great thing which will bring them recognition for their superior spiritual accomplishment may find that the accomplishment entraps them through their vanity, and their pursuit of significance.

This Awareness indicates that this as one of the most common entrapments for entities on the spiritual path. The greatest and last entrapment, prior to reaching the Light is that which is known as vanity, and the spiritual vanity is that which is the most significant of this type of entrapment. This Awareness warns *Its* ministers, warns those who follow the path of Light, to be most cautious in their actions of seeking significance and recognition for their spiritual accomplishments, for that desire to be recognized for spiritual accomplishments is no greater than the desire to be recognized for material accomplishments.

This Awareness indicates that entities, regardless of their own values, regardless of their devotion to

the spiritual, must recognize that vanity, in any form, even that which might be associated with the experience of being the *most* highly developed, *most* spiritual being ever imaginable in this or any other universe; that desire to equal such a being is vanity.

This Awareness indicates that vanity would become the fatal flaw which would lead that entity to fall and fail in his or her pursuit of the Light. This Awareness indicates that it is not that entities should not pursue Light, but rather that they should not pursue significance in having reached some spiritual attainment. This Awareness suggests that you may continue moving toward the Light, recognizing that where you are, is where you are, and this is sufficient for now.

This Awareness indicates you need not prove anything to anyone, or receive recognition for any accomplishment from anyone. You simply need to persistently follow the Light, and move toward that which is this Awareness, and to be open to serving others along the way.

THE "RA" MATERIAL:

ARE THE CHANNELINGS VALID ?

QUESTION:

A half dozen or so members have sent in information, an advertisement put out by a group called *The Law of One*,-- a division of Rock Creek Research and Development Laboratories of Louisville, Kentucky, and this question from V.K., is typical:

"I received a copy of the enclosed ad for the *Law of One* books yesterday. You may wish to ask Awareness if the books and source of info,-- "Ra"--are legitimate. Awareness once said Paul Shockley is the present incarnation of Ra. Is the Ra personality of the social memory complex mentioned in the ad an aspect of Paul's incarnation? As you can see from the ad, it looks as if the books cover the exact same info Awareness has said about Atlantis, Maldek, confederation of planets and so forth, not to mention the titles of the books themselves."

And he included the advertisement. I will read a brief paragraph. It says: "In January of 1981 our research group was unexpectedly contacted by a source calling itself the 'social memory complex: Ra.' The accuracy and precision of this contact far surpassed any previous experiment, and resulted in communication that is continuing at present.

Many sessions of this communication have been transcribed from tape recordings and now are available, in several volumes, entitled, *The Law of One*; books 1, 2, and 3.'

And evidently, they sent Bill Shepherd a copy because there is a plug by him and he states: "The Ra channelings are unique in that Ra seems to represent the entire collective consciousness of the seven planes or seven densities, rather than individuated ascended masters being channeled. Ra appears to be an archetype, or collective complex of the spiritual hierarchy, up to, and including the seventh plane of the hierarchy. The channelings feel to be highly accurate and reliable, with a minimum of coloration and bias interjected by the channeler."

Would Awareness please comment on this entity or force calling itself the social memory complex: Ra?

COSMIC AWARENESS:

This Awareness indicates that elements of the question as being that which this Awareness wishes to first comment on. This Awareness indicates that It has not given information that the entity Paul Shockley was the same entity as Ra. This Awareness indicates that the entity Paul Shockley as having in a previous lifetime been associated with that energy, and with the energies of Ra-Ta, through certain Egyptian incarnations.

This Awareness indicates however, that the complex energy of Ra as that which symbolizes a composite of many energies; that the channel for this energy as being one who is closely associated and linked with the present Interpreter in certain previous incarnations. That these entities working in this channeling process as having association in this present incarnation with the *Cosmic Awareness Communications*, Aquarian Church, and individuals associated in these actions.

This Awareness indicates the linking energies in this manner and the activities through which the information is channeled through this source, as that which assists in bringing forth information which is not available through the present channel of *Cosmic Awareness Communications*, but through these entities who work with this complex energy known as Ra. This

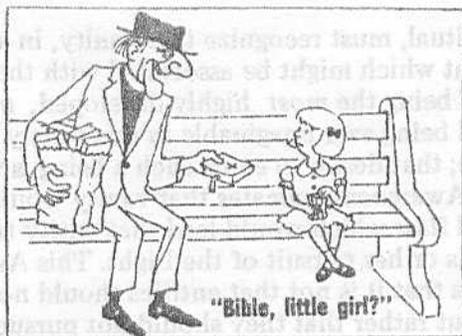

Awareness indicates that this as being relatively clear channeling and as being that which this Awareness sees as being worthy of further investigation and reading by those who are interested in these energies.

This Awareness indicates that it appears there shall be more information through these channels of this group which also can be of much value in bringing new material and new insight in regard to the ancient Egyptian and prehistorical energies. This Awareness indicates that much of the material through this channel as being somewhat repetitious in regard to messages given previously by this Awareness, yet there is also much new information wherein details and other material is added which can be enlightening to those who are interested in these channelings, in these ancient energies.

**

ED's Note: this editor has read some of the Ra material. The manner in which Ra speaks is a bit distracting, having worked with the Awareness syntax for so many years, but there is much interesting material channeled there and the particular frame of reference helps make some of the material given by Awareness more clear, I would suspect, for many entities. The Ra people are currently running an ad that promises you can read and return their book at no cost, or make a donation of any amount if you wish to keep it. You can't very well lose on that one. for much of the power and the expression of the Illuminati. This Awareness indicates that basically this entity as simply being a person who has been put into a role, yet that role calls forth that she represent power over masses, and the power which she is associated with is involved in all kinds of intrigue, --economic, military, political, religious, and involves the underground criminal elements as well as the controlling strata between those levels and the highest echelon.

This Awareness indicates that you may find more about this in the book by the U.S. Labor Party called *Dope, Incorporated*, which explains the links, the ties, the relationships between various levels of the London-based economic controlling Illuminati and the lower levels of the drug culture and street criminal elements. There also are other books which fill in further information, such as the book, *Pawns in the Game*, and *Red Fog Over America*, by Commander Carr: these books explaining various intrigues from the past and the relationship of bureaucratic branches of government in the present. There are also books relating unto the Federal Reserve and how it has been used by these entities to manipulate the money system of the United States so that the masses have lost control of the economic reins of this nation. That there are also many concepts and clarifications in the U.S. Labor Party magazines known as the *Campaigners*.

This Awareness recommends the one referred to as the *Black Internationalists*, and their attempt to murder Lyndon LaRouche; that this Awareness also recommends the *Campaigners* which discusses the European Monetary System and its formation.

This Awareness indicates that there is also information within *Spotlight* newspapers that explain some of the structure of the connections, this particularly centering around the Rockefeller interests.

This Awareness indicates that further information on this may be obtained through book references; there is a large underground complex of books relating to this type of information; these books being available through various types of book shops; that this can be given in connection with this message by the editor.

ED's Note: The books, "Pawns in the Game," and "Red Fog Over America," are available from CAC. Please refer to the CAC book catalog. The book, "Dope, Inc." and the Campaigner publications mentioned by Awareness, as well as "New Solidarity" weekly newspaper, is available

THE ILLUMINATI...(Continued):

WHO IS THE 'EVIL WOMAN' SPOKEN OF IN "REVELATION"?

(MORE ON THE WHORE OF BABYLON)

QUESTION:

A question from V.C., San Francisco, California, relating to the Bible. "The Book of Revelation speaks of an evil woman, who will make much trouble. Would Awareness explain who or what she is or represents, and anything further of interest concerning her?"

COSMIC AWARENESS:

This Awareness indicates that this as symbolic; this representing the churches in symbolic sense, the churches which have sold out the soul or the purpose for which they were formed, which is to convey spiritual teachings and assistance to the masses, and which have instead become involved in the prostitution of the spiritual teachings for the sake of receiving wealth, fancy silks, garments, goods and selling these products of wealth in the world of business. This Awareness indicates that the description of the harlot, the whore of Babylon, whereby she sold her goods to the nations, this as symbolic of the churches who have prostituted the teachings of Christ in order to become wealthy themselves.

This Awareness indicates that in another sense, there are some who accuse the Queen of England of being the entity spoken of in the *Book of Revelation*, as this entity as being one of the top persons in the St. John of the Cross of Jerusalem organization, the Illuminati, being such that she is a figurehead

from Campaigner Publications, PO Box 17726, Washington, DC, 20041. (\$25 for one year, 100 issues). Spotlight newspapers can be obtained from Spotlight, 300 Independence Ave., SE, Washington, DC 20003. (\$12 for 20 weeks).

HOW TO DEAL WITH MALE INFERTILITY (GH3 for Low Sperm Counts)

QUESTION:

A question from Mrs. C.D., of New York, which is personal, but has broad applications. "If possible, could you ask of the Cosmic Awareness, how my husband's infertility can be cured?"

COSMIC AWARENESS:

This Awareness indicates that the use of GH3 as that which can be of much benefit to this entity; also that chelation therapy, properly used, can be beneficial in helping the entity's circulatory system and giving the entity greater strength; that this as a form of cleansing the circulatory system through certain types of treatment; this being a rather complex treatment system. This Awareness indicates that it appears also that much of the difficulty as being psychological; that there is some psychological effect that has an influence, or has influenced the hormonal system to cause certain functions to shut down, This Awareness indicates that through hypnosis and deep therapy of a psychological nature, much could be accomplished to assist this entity. This, however, would require professional assistance and personal attention from professional persons.

(FOLLOW-UP QUESTION):

Awareness, I've read that a low sperm count is usually what creates infertility. Are there any herbs or any other substance than GH3 that might help infertile men, or men with low sperm counts become more fertile?

COSMIC AWARENESS:

This Awareness indicates that much of this has a relationship with the hormonal system; the hormones as that which are in part dependent upon the circulatory system and the nutrition within the blood stream to help feed the hormonal system; that the GH3

"Beware the march of AIDS."

as that which does have certain benefits in this direction. Also, SuperOxide Dismutase as that which has similar benefits; that the use of Ginseng on a regular basis can be beneficial. This Awareness suggests also that the psychological condition as that which is important,--whereby the entity can be given greater freedom to express himself, and greater sense of self-importance; this can be of much benefit. This Awareness indicates that there is much which could be accomplished through proper counseling and also through hypnosis.

ED's Note: considerable information has been published by CAC in relation to GH3 and to chelation treatments, both the oral and the conventional methods. Sources of GH3 and names and addresses of entities who perform chelation have also been published. Please refer to the backissues catalogs for this information.

A CAMERA THAT PHOTOGRAPHS PAST EVENTS,--DOES IT REALLY EXIST?

QUESTION:

R.E. in Los Angeles, asks: "A camera of past events was invented by the later engineer turned occultist, --Baird T. Spalding, which he indicated could photograph Christ and any scene in antiquity. Did this invention actually do what it is purported to do, and will such an invention become public in time; and if so, when, approximately?"

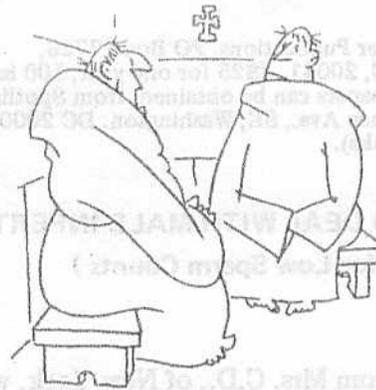

COSMIC AWARENESS:

This Awareness indicates that this rather appears to be that which photographs thought-forms; that wherein an entity using such a camera, perceives an image; this camera as that which appears to be capable of photographing that image. This Awareness reminds entities of those who are capable of projecting thought-form pictures onto film inside a camera, --this as having been documented many times during the past ten or twenty years. There are various articles in regard to this. This Awareness indicates that this action comes about as a result of the astral and etherical energies following the mental image in such a manner that with certain sensitive devices, these subtle substances of matter, of etherical and astral energy, can be recorded through the filming process; this filming very subtle bodies of light which are not normally seen by the naked eye; that this may be referred to as a 'psychic camera'; that this likened

unto an individual who is psychic, who can see thought-forms emanating from another's consciousness. This Awareness indicates that this is available, having been created; this available in certain secret organizations or departments of the inner circles of science and technology; that this not being available to the masses or public for approximately 20 years. This time of 20 years as being capable of increase or decrease, that this is flexible and uncertain.

ED's Note: Baird T. Spalding is the author of the 5 volume book set, "Life and Teachings of the Masters of the Far East," published by DeVorss and Company. This set of books is permanently stocked and available from CAC. Please refer to the CAC Book Catalog.

IS THERE AN EDGE OF THE UNIVERSE ?

(What is a Quasar ?)

QUESTION:

I clipped an article that appeared in the paper recently, entitled: "Quasar Discovered!" I'd like to read a little bit of this and ask Awareness a question about this:

"Astronomers reported Friday the discovery of the most distant object ever seen in the heavens: a quasar, perhaps 12 billion light years from earth. The American, Australian and British team said the celestial object must be very near the edge of the universe. It was seen as little more than a faint speck of light on a photograph taken through a telescope.

"Quasars, discovered in 1963, are mysterious objects that appear in the sky as star-like objects, but seem to be located incredibly far away, and to generate more light than one hundred billion stars."

First, I'd like to ask: What exactly is a quasar?

COSMIC AWARENESS:

This Awareness indicates that this may be equated to the pineal of a Universal Being.

(FOLLOW-UP QUESTION):

Okay..My second question is: They refer to these being near 'the edge of the universe.' Is there, in fact, an end of the universe, or an edge of the universe?

COSMIC AWARENESS:

This Awareness indicates that the energies of the universe do have curves, whereby these energies fold back, even as the energies within oneself tend to fold back; that one who could theoretically move toward the edge of the universe would find it possible to reach a place whereby the energies tended to bring the entity back into the universe through a kind of curving of light and energy forces. This Awareness

indicates that theoretically, if however, an energy field moving in determined motion, which could escape from those curvature forces, were to continue onward, it would find itself outside of the universe, in a space which was more etheric and less dense than the universe in which you reside.

Theoretically, this force if moving further, and having the ability to observe, could look back on that universe which it departed from, it would see that universe as being an entity, self-containing of its own energy field, and having within it a great conglomeration of nerves and molecules and organs which are called stars, nebulae, galaxies and so forth. This Awareness indicates that the entity, the force moving out of the universe and looking back, may also choose at that point to look around, and would discover that there are still other universes; that these many universes are beings of Celestria.

The Law of Respect

The Law of Respect is that principle of looking twice, or, more precisely, looking twice as deeply; for respect goes beyond the surface appearances and superficial glances to discover a deeper meaning, purpose or basis for discovery.

Without the principle of respect, the *Book of Love* will never be read, the *Tree of Life* will never be seen in full bloom, and the thousands of rainbows of the Land of Essence will never be viewed.

But with the *Law of Respect* in action, the mysteries of the universe, or any part, will open layer after layer, like the unfolding of a thousand-petaled lotus.
