Helping People Become Aware

**Some mysteries  
of the pyramids explained**

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

## WHY WAS THE COPPER REMOVED FROM THE PYRAMIDS?

### QUESTION:

A question from D.D. "In some of my readings, I remember having read that the capstone of the Great Pyramid of Giza had been one of copper, which had at some time unknown been removed. Was the removal by men of earth, or otherwise? If so, why? Was it copper to intensify the energy field of the interior, or for the energy field it projected outwardly? Since it was obviously built by more advanced beings than man as we know them, the secret of the copper capstone necessarily had to be removed?"

### COSMIC AWARENESS:

This Awareness indicates that this was removed by those who used this as a resonator, to send forth energies into consciousness. The builders of the pyramid having created this as a scientific device to resonate and send forth energies into consciousness over hundreds of years; these entities manipulated and speeded up the evolution upon this plane. This Awareness indicates that at a particular time, the Forces of Darkness did begin to gain control of these energies, and to misuse these energies, and those Forces of Light which were responsible for the use of these energies, through grave robbers, through thieves and through kings and persons who sought the wealth of the pyramids, would dismantle these many ancient creations for whatever could be gathered: the limestone walls, pieces of copper,--these things were taken.

This Awareness indicates however, that it was taken because the forces which had originally created those monoliths had determined that these would be removed, rather than be misused; that the removal as that which occurred through the use, through the agents of those masses who were thieves or who had little understanding of the value of these creations. That in this manner, the Dark Force and its use of this creation during the Dark Cycle was denied the power, and the denial came about because the protection which the Light Forces had placed over these artifacts, these monoliths, these pyramids, was removed, so that thieves and robbers could invade and take those parts which would prevent the instruments from being misused until consciousness again reached a high level of understanding whereby this would be used properly.

This Awareness indicates that *It* sees a time, after the turn of the century, wherein the pyramids and their purposes will be rediscovered and understood, and whereby they will be recoated, or recovered with the limestone finish and the great coverings will again be placed so that the resonating energies will again manifest around the globe, enhancing the consciousness levels on this plane and allowing entities the better understanding of interdimensional travel, in and out of different frequencies.

This Awareness indicates the physics involved in this is already understood to a degree of approximately 80% of that which is necessary for this to occur. This in reference to your earth scientists who are involved in unravelling this ancient cosmic physics of harmonics and the nature of the cosmic forces.

## HOW THE GREAT PYRAMIDS HELP REGULATE CONSCIOUSNESS (WHY AND HOW THEY WERE BUILT)

### QUESTION:

Awareness, other than objects of great mystery and antiquity and a tourist attraction, do these pyramids today have any other function?

### COSMIC AWARENESS:

This Awareness indicates they are likened unto cosmic batteries that have worn down and are not in charge; that they still emit some small amount of energy, sufficient to be activated to some degree by those celestial forces. That when they are thus activated, they send forth bursts of information which is picked up by the minds of those entities who are attuned to the frequencies of which the messages are sent, and thus, those entities picking up those messages, receiving information that has been sent or stored for release at this time, will have insight, and that insight will then be expressed as invention, as concept, as motivation, or as discovery which allows for social change to occur, to have its effect on society, on nations, on the thinking of man on earth.

This Awareness indicates that essentially this is likened unto what your scientists are attempting to do with their space probes, wherein they send to some planet an instrument which is a transmitter, and if there are any beings capable of hearing the messages being transmitted, they hope to have some influence on those beings, either to get a response or to give a message to those beings.

This Awareness indicates that essentially, the great pyramid and the lesser pyramids also served a similar purpose; these likened unto a cosmic battery and transmitter. The frequencies used in the geometric design, the lines, angles, spaces; these serving as a carrier of certain frequencies, so that a resonance occurs during certain times, during certain alignments of planetary and astrological influences and which can also be triggered by those signals from other places, other dimensions, so that when these are in their proper resonance for the time, these instruments, transmitters, batteries will emit messages to those individuals who are turned to the frequency.

This Awareness indicates that in this manner, humanity has been guided through the Dark Ages, and now begins to emerge through the information which has been stored and which is sent from other sources through these instruments and others like them; that these pyramids in Egypt are not the only such devices; there are also others beneath the sea and in other places. There are also other types of instruments which do similar work.

This Awareness indicates that this is likened unto a great network of highly technological science in which programming of human consciousness occurs through the release of emanations, vibrations, messages carried over certain frequencies which were not even understood by the masses. This Awareness indicates that long before entities understood vibrations on this plane, long before the radio, television or any forms of distant communications, these pyramids were emanating messages and energies to the masses and directing them, and to some who were tuned, it directed them into discoveries in regard to electricity, magnetism, and the energies involved in opening the door for the discovery of the cosmic energies that allow for distant communication without the immediate contact.

That the discovery of vibrations and frequencies, the use of wire, and the use of waves and the use of frequencies; all of this as that which has been given to mankind through the emanations and timing of the messages released through these pyramids and other similar instruments, to allow entities to have the opportunity to grow and develop their society and civilizations.

This Awareness indicates that these instruments are essentially transmitters controlled by those beings of higher intelligence, and that these shall continue providing the programming that leads to the conclusion of this particular episode on earth whereby entities reach a stage of development that allows them to understand who, in fact, they really are.

#### FOLLOW-UP QUESTION:

Is it the Elohim that programmed the pyramids?

#### COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative; that it is through the Elohim and those who work with the Elohim, those entities who even after the Elohim had essentially departed from the physical forms, having sent their emissaries to this plane, assisted in the structuring and building of these pyramids. That it was through the use of antigravity that these instruments were built, and it was with the use of antimatter that the instruments were powered.

This Awareness indicates that the purpose of the instruments was to assure that a certain amount of antimatter would be funneled into this plane during the Dark Cycle, for in past experience, the Dark Cycle generally left the plane desolate and without any Light of Akasha. Therefore, the Akash, or antimatter, was channeled through these instruments, even during the Dark Cycle, to allow those who were specially attuned, those who were initiates of the secret schools to be brought into contact, into the ray of the Akasha energy.

This Awareness indicates the entity Apollonius of Tyana, the entity Yeshua of Nazareth, and many other initiates of the secret schools of Egypt were brought into these instruments for initiation and to experience the vibrations and light of Akasha, which would, on proper days and under certain circumstances be especially strong.

#### FOLLOW-UP QUESTION:

Do pyramids exist on other planets for similar use?

#### COSMIC AWARENESS:

This Awareness indicates this in the affirmative; that these are devices to allow interplanetary communication.

## THE GREAT HALL OF RECORDS-- IS THERE MORE THAN ONE ?

#### QUESTION:

We've received an awfully lot of questions relative to the Great Pyramid and the Hall of Records and so forth, and we'd like to ask Awareness a few of these at this time. This particular question is from R.A., and he writes: "Recently I've been drawn to the information given by Awareness through the channel Edgar Cayce concerning the as of yet unfound Temple or Hall of Records. In one reference to these records, Awareness gave the location of the Island of Bimini, also a temple in Yucatan and also in Egypt near the Great Pyramid of Giza and the Sphinx. These Hall of Records, according to the information given, contain the records of man individually and also to his etherial and corporate body. My first question is this: Are there more of these Halls of Records located at different parts of the globe? I ask this because I once read about a cave found and explored by a group of lamas in the Himalayan peaks, and they reported to have seen artifacts and historic material relating to that."

#### COSMIC AWARENESS:

This Awareness indicates that this in the affirmative, this in that area, another in Quebec, Canada, another in South America in the Andes Mountains, and another in the Gobi Desert. This Awareness indicates there are others of similar purposes in various parts of the world, but these being the major ones. There is also seen a place of records in Southeast Asia which is of significance, this appears to be the area of Cambodia.

#### QUESTION:

D.L. had a question, wondering if the time is getting close to when the Hall of Records will be allowed to be opened and revealed?

#### COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, that this depends on events which are presently occurring at a rapid pace, that much of this may begin to unfold during the next few years.

#### WHO IS GUARDING THE HALL OF RECORDS?

#### QUESTION:

A question from R.A. "What is the nature of the guard mentioned in the readings that will not permit a person to enter these ancient museums until the time is right for man to acquire the knowledge stored in these vaults?"

#### COSMIC AWARENESS:

This Awareness indicates that these as being astral forms or forces which were placed in these areas by those who originally planted these as time capsules for this time. That these guards created through hypnosis, whereby they were hypnotized to remain at their posts, then were slain so that their astral bodies continued to obey the hypnotic command even though the physical body had long since decayed from death. This Awareness indicates that not all such guards were slain, but many were commissioned as they lay dying from other causes, so that through the hypnotic commands, they

were forced as astral energies to remain in these positions. This Awareness indicates that these are merely astral shells, and are not the soul or spirit of the entity from which they came, but rather are the emotions and astral energies of that body which once hosted them.

QUESTION:

Why couldn't they have created elementals to guard those chambers, like the Egyptians and Atlanteans did?

COSMIC AWARENESS:

This Awareness indicates that essentially that is what these are. This Awareness indicates that the astral shell is but a portion of an entity's sub-body, an energy from an entity's sub-body, that these astral shells are often seen as spirits or ghosts in so-called haunted houses. These are simply the left-over memory of the emotions of the entity, these being discarded by the entity as the entity moved on; these forces having no personal will of their own, these also can be given new suggestions, new commands by those who are aware of their presence. For example, one coming upon such a place can, through deep meditation and sensitivity, call forth the astral shell, the guard, and communicate with this entity that his duties are finished and he may now be dismissed to move on to greater purposes and a new life; this allows the astral shell to move on. This Awareness indicates these astral shells are not conscious of time, therefore ten thousand years does not mean anything to these forces; these forces being about as conscious of time as would be a rock or the sand on which they stand.

QUESTION:

While we're on this subject of Egypt and the Pyramids, I'll read this letter which was addressed to me from C.S. of Virginia Beach. In this letter there are a number of questions. I'll simply read the letter and ask Awareness to comment or respond to any of the questions, or I can reask any particular questions.

"Dear friend: I see where you have been identified by Cosmic Awareness as having been Hermes in ancient Egypt, and our Interpreter as having been Tonadoso. I have been most interested in the reading extracts sent to members in past 'Revelations' about this period, which has so much bearing on today's developments. As I was told in a life reading by Paul Shockley that I was one of the 12 principle architects in the construction of the Pyramid of Giza, responsible for designing and building the corridors or passageways, I would like to know so much more about this period. My questions are endless. Some questions which come to mind, are as follows:

(A) Was Hermes also Thoth, or are these two different entities? (B) Has Cosmic Awareness identified the other architects? (C) Are these people which were placed in a catatonic or deep hypnotic state still alive in the Hall of Records? (D) Are some of us who are still there able to find this Hall of Records and will it be done in this lifetime? (E) What is the mission of those interred inside there beside the Interpreter, Paul Shockley. Any information you can share with me about this period and my probable identity and purpose, would certainly be appreciated."

COSMIC AWARENESS:

This Awareness indicates there were too many parts of that question to be answered at one time. This Awareness suggests that these be taken individually, beginning with "A".

QUESTION:

Was Hermes also Thoth, or are these two different entities?

COSMIC AWARENESS:

This Awareness indicates that the name Hermes as being a title similar to the name 'Doctor' or 'Lord'. This Awareness indicates that the Hermes Trismegestus, or 'Thrice Blessed' as being a separate entity from Thoth. That following this entity there were many who received this title of 'Hermes'. This Awareness indicates that Thoth as one who came after Hermes.

QUESTION:

Has Cosmic Awareness identified the other architects?

COSMIC AWARENESS:

This Awareness indicates that this as negative in relation to the twelve principle architects, that there were others involved in other activities such as the Sphinx and some of the various tunnels and other parts of the construction.

QUESTION:

Are these people which were placed in a catatonic or deep hypnotic state still alive in the Hall of Records?

COSMIC AWARENESS:

This Awareness indicates that essentially this may be seen as relative to definitions. This Awareness indicates that these forces still are emanating consciousness into this dimension, these forces not being alive as you would consider yourself to be alive, for these forces as lying suspended, as in suspended animation for thousands of years, slowly, very very slowly deteriorating, and in that deterioration emitting portions of consciousness with the concepts and energies from that time, being emitted into the mass mind as programming signals which affect present events, happenings, discoveries. That these entities from their own point of view are likened unto beings who are experiencing a dream which has moved from ancient Egypt down through the ages of the ancient biblical period, through early civilizations, through the recent civilizations of this Piscean Age, and into the present time.

This Awareness indicates these entities watching civilizations grow and fall, but these entities are essentially dreaming this action as the energies move through their chakras in a manner which allows each of these chakras of the body of these mummies to close down very very slowly over thousands of years as the mummy deteriorates and the consciousness contained within those chakras is emitted into the mass mind of our present civilization which is experienced on this plane. That essentially, the dreams which these entities are experiencing as their chakras move, are the experiences which entities on this plane may glimpse by looking at history and the world.

This Awareness indicates this is as though you were sleeping and dreaming all that has happened over the past ten thousand years upon this earth. There are several such mummies in the process of dreaming these

dreams, and these variations create the variations which occur and appear to be spontaneous happenings on this plane; these twelve mummies each emitting an influence into the mass mind as capacitors, emitting energies into the meridians of a body. This Awareness indicates that in the nature of acupuncture, there are certain meridians flowing through the body of an entity, these moving through twelve capacitors in the back of the skull; each of these capacitors affecting a different part of the body. This Awareness indicates these twelve mummies in the Hall of Records, as also serving as capacitors in the body of civilization, influencing twelve different major meridians in consciousness.

This Awareness indicates that there it is for what it's worth to you, and to your understanding.

#### THE BIG STINK IN CONSCIOUSNESS

(Closing Message)

This Awareness indicates that the mysteries of life unravel slowly, likened unto the unwrapping of a bowl of twine, layer upon layer, layer upon layer, that at certain intervals entities can glimpse through one layer and see the next layer, and with patience can begin to understand that next layer; this as likened unto the unwrapping of the mummy layer upon layer.

This Awareness indicates that when unwrapped far enough, entities will come to the corruption, the stench, the putrefaction which is at the core and will know all mysteries; that this then will free the consciousness to move on from that which is mystery into that which is awareness. This Awareness indicates that in alchemy the putrefaction must occur before the Philosopher's Stone comes into being; that when entities reach those points of despair, there is then the opportunity for the conversion process which makes new and creates the New Being of Light, joy and peace.

This Awareness indicates that in all things, there is that which drives entities on to that which becomes the climactic condition and can do nothing but transform into something totally new, as a metamorphosis.

This Awareness indicates so much for mysteries and all that chitchat.\*\*\*\*\*

ED's Note: for more information on mummies, Egypt and the Pyramids etc., please refer to the backissues catalogs, and particularly to 'Revelations of Awareness' No. 79-12 (All About Mummies); \$2.00 from CAC.

Also, an interesting phenomena this editor has noted over the years, is the tremendous interest the majority of CAC members have in Ancient Egypt, the great pyramid, the Temple of Beauty etc. We have received literally hundreds of letters from members regarding dreams, premonitions, past life recalls, flashes of their lifetimes back in that period, so many in fact that I am personally convinced that CAC members, staff, interpreters etc. were all once working together to put those pyramids together and help shape the consciousness which was to come to this planet for many centuries (whether good or bad, depending on the frame of reference), and somehow the messages from Awareness are tying all these entities together and 'awakening' them on some level, for some mysterious reason. But why have we all gathered together at this time and what, if anything, will it mean to our lives in the futures? Could it be perhaps, that at night as we sleep, we all get together - party, perhaps have bull sessions (make love maybe) on some etheric level connected to the energies of Ancient Egypt? Or perhaps, as Awareness and Seth have suggested, our lifetimes together at that time in Egypt are still occurring in the simultaneous universe of our present moment on earth? Heady stuff, huh? Oh, well, what the hell. If that is all true, I am off on a journey tonight to check out the Temple of Beauty and all those lovely, sensual, perfumed etc. ladies hanging out there and waiting for me at the hot tub.

Ever since Awareness suggested a woman's body is her temple, I try to attend services as often as possible. (Avaton).

### MYSTERIES OF THE PYRAMID - TREASURES INSIDE THE SECRET ROOMS

(HAS THE CIA ALREADY BEEN THERE?)

(From another reading)

#### QUESTION:

There is a book out by David H. Lewis called *Mysteries of the Pyramid*, published by Science Research Publishing House of St. Petersburg, Florida. A number of people have written asking Awareness to comment on the authenticity of this book. I have read it myself, and briefly it talks about a scientific expedition which entered the Great Pyramid several years ago and what they discovered therein. According to the author, they discovered that near the top of the pyramid, if they vibrated a certain sound, a huge block would move and they could enter through a narrow passageway and a stairway, and then the block closed again. As they went down the stairway, there was a very strong stench, and then came the feeling that there was some kind of air-conditioning as they entered certain rooms. As it turns out, these rooms contain the records of civilizations, and the "Book of Knowledge."

They found a metal disc system and a library. One disc tested showed a scene on the Mount of Olives, dating back more than two thousand years to the time of Christ. There are recordings inside this chamber of Christ's sermon on the mount, voices believed to be Adam, Cain and Eve;

"Tutankhamen, I see a great past before you."

also the great historical speeches of George Washington, Lincoln, Roosevelt, Churchill, Disraeli, St. Francis and even Grootine, the Atlantean race.

It's an incredible story (I hope it's true!) There were also computers, machines, communications systems, transportation systems and a "Telebrain" communication system within this pyramid. They also found a flashlight-type device that created an antigravitational field ray capable of lifting a stone weighing tons.

In a third level antichamber, they discovered a giant metallic ring that measured about 25 feet in diameter and more than 6 feet square. On both sides of this ring there was a bank of computerized dials, buttons, lights and a large viewing screen. Strange markings were found beneath each dial. The discoverers thought it might be a time machine.

Among many other incredible claims, the author claims the great pyramids are connected to seven other pyramids in various places around the world by an underground transportation system called "Transtubes."

I'd like to ask. Awareness to comment on this book, *Mysteries of the Pyramid*, by David H. Lewis. \*

#### COSMIC AWARENESS:

This Awareness indicates that the greater part of the book appears as fantasy. This Awareness indicates however, that there is some substance in the material regarding a kind of expedition. This Awareness indicates it appears that there was an expedition which entered into certain unpublicized areas within the pyramid and through tunneled networks beneath the pyramid,—this in recent years. This Awareness indicates that this also revealed much ancient records and knowledge and equipment used by these entities and left as a reminder of the civilization. This Awareness indicates this as a time capsule.

This Awareness indicates that there appears to be some second-hand information given to this entity whereby the correctness of his sources has been distorted by exaggerated and fantasied information. Though there appears to be some substance to the book, much of it is filled in with fictionalized information for the purpose of entertaining the reader.

This Awareness indicates essentially, there are tunnels beneath the pyramid, one above the other, a kind of network of tunnels, some running between the sphinx and the pyramid, and these tunnels running into other areas in different directions underground. This Awareness indicates this pyramid as having been at one time a key geographical point for the centering of maps and for surface and underground travel. This Awareness indicates that *It* will discuss these underground caverns and tunnels at a future time, when the time is appropriate.

#### (FOLLOW-UP QUESTION):

Awareness, are there secret rooms within the Great Pyramid that contain records of Atlantis and perhaps scientific devices along the nature of those this entity described, that will one day be discovered?

#### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That many of these have already been discovered as this entity described. This Awareness indicates however, that some

of this information which the entity reveals as being pure fantasy. This Awareness indicates that there appears to be certain kinds of distortion of facts in the entity's report, particularly in relation to the recordings of the great speeches of modern times. This Awareness indicates that this appears to be fantasized rather than a factual report. This Awareness suggests however, that the energy on this as something which is not completely clear at this time; that further energizing may allow clearer discernment, and the greater light on this may reveal something different. This Awareness indicates this as an area whereby entities may wish to pursue further and to look more deeply and to question this source of information in regards to this. This Awareness reminds entities that even these readings should be questioned and considered only as indications. This Awareness indicates that particularly wherein the energies are not completely clear, as in this particular case. \* \*

#### (FOLLOW-UP QUESTION):

The thought occurred to me that rather than an actual physical expedition and trip into the pyramids, the entity might have done this in some astral travel or something of that nature, and it seemed so real to him that he wrote the book thinking that it *was* an actual reality. Is this possible?

#### COSMIC AWARENESS:

This Awareness indicates this as a possibility. This Awareness indicates however, it appears that there has, in fact, been a physical exploration, either through human form or through instruments probing, revealing certain openings and caverns and tunnels within and below the pyramids. This Awareness indicates there appears to have been an actual opening of these pyramids, tunnels and networks by scientists and secret service-type agencies. This Awareness indicates it appears the CIA as one such organization involved in this action; that there also appear to have been others.

\*\* ( Quite often "When the energies are not clear", as Awareness says, it simply means that Paul Shockley is not deep enough in trance. It also often means that Paul has not read the book or seen the movie or whatever. And when Awareness picks up on this, It usually adds a signal or a disclaimer, such as more energizing might possibly shed greater light on the subject, or It reminds entities that even these readings should always be questioned etc. This editor does question quite a few of these readings, particularly those like this which are in the 'bizarre' area. There is usually more to the answer than comes forth, and in the case of Mr. Lewis' books, his credulity increases with more questions as you will see in the following questions). ED.

\*Ed's Note: "Mysteries of the Pyramid," is just one of a number of far-out books written by David H. Lewis. "The Days Before Tomorrow," is a sequel, with much more info on the pyramids. "The Universal Oneness" is another book, this one about telekinesis and how it can be accomplished by humans. He also wrote a very interesting book called "Journey to the Cities of Inner Earth"—a tale of entering an opening at the South Pole and following a long passage to the central inner city. I love reading his stuff, personally, and think his stories have that ring of truth, yet delivered in a manner that sounds much like science-fiction. Anyway, they did not stand the test on which we stock books here at CAC and make available to the membership. (I really wish they had). However, this editor recommends these books anyway, and you can get prices and more information by writing to: Science Research Publishing House, PO Box 40068, St. Petersburg, Florida, 33743. (Avaton)

## THE INCREDIBLE CITIES OF INNER EARTH --DO THEY REALLY EXIST?

### (FOLLOW-UP QUESTION):

Awareness, the same entity, David H. Lewis, wrote another book called *The Incredible Cities of Inner Earth*, and this book, briefly, is another account of an expedition adventure that a group of entities took, finding an opening in the ground somewhere in upstate New York, and journeying some 80 miles or so in a 3 or 4 day trek underground, whereby they discovered some forms of life,--entities living in these caverns, and they saw robots working huge computers that were used in agricultural projects. Also, they could see running literally for miles, certain types of plants being cultivated; and there were many other exciting tales within this story. I'd like to ask Awareness of the validity of that particular book by this same author.

### COSMIC AWARENESS:

This Awareness indicates that when the earth was formed, essentially it was hot, and as it cooled, pockets of gas were created within its subterranean crust. That down through the ages when early man came to this planet, there were those who had great machines which could enter and bore through rock and earth and create tunnels and enter those pockets for purposes of mining and for tapping the wealth of the planet.

This Awareness indicates that along with this action, communities were necessary,--these could be termed mining communities,--beneath the surface in those areas wherein these entities tapped into those gas pockets. This Awareness indicates there was, of course, the necessity for draining off those gas pockets, so that air could be brought forth and made possible for entities to breathe; that this was accomplished both through openings to the surface and also through combination of gases to transform those present into breathable oxygen by adding certain gaseous elements which would change the nature to the proper oxygen for breathing. This Awareness indicates that artificial lighting made from certain chemicals found beneath the surface as well as from the use of various gases was used; energy supplies were easily available. This Awareness indicates that many of these gaseous caverns did exist and have existed and essentially these as in areas of the earth's crust which are cooled, rather than the molten lava which is in some areas of the crust.

This Awareness indicates that this entity as giving sufficient and proper information in this book and beginning to discover some of these openings into these caverns and areas.

This Awareness indicates that there are very heavy energies in connection with this topic which your membership and potential members will react strongly to; therefore, this Awareness does not feel this as the proper time to discuss the hollow earth or the caverns beneath the earth's surface. This Awareness indicates that these concepts can be quite intriguing to entities; yet there are enough concerns on the surface of the planet whereby entities need not project their concerns to these areas of underground activities.

This Awareness indicates that there are a number of writers who have written of this: the entity Jules Verne, that this entity as having more information regarding this than entities realize,--the entity as putting this in

fiction, but as sincerely believing in what he wrote. This Awareness indicates there are also evidences from more recent times, particularly the North Pole journey, and there are present scientific expeditions whereby entities have moved into these areas and are fully aware of these openings and caverns, but whereby this information is intended to be withheld from the public.

This Awareness indicates that those entities who believe in this, shall, for some time, be classed as lunatic fringe entities or nuts. This Awareness indicates that those who wish to pursue this line of questioning further shall simply be whetting their appetite for more mystery. This Awareness indicates that *It* prefers not to move into discussions of this type of concept at this time until entities have clearly become aware of and are aware of dealing with the situations on the surface of their life, in their homes, in their neighborhoods, in their nations. This Awareness indicates that to open these doors is to bring about such energies that your membership will be considered too far out to be taken seriously in any level of rational communication.

### (QUESTIONER):

Okay, we will refrain from questioning in that area.

### COSMIC AWARENESS:

This Awareness indicates that the time will come. This Awareness indicates that *It* is not obliged to answer every question which entities desire information on; that *Its* purpose is to assist entities in raising the vibrations of this planet, informing entities, helping entities to become aware. This Awareness indicates that this intention of helping entities to become aware is not to be confused with assisting entities in becoming alienated from their fellow peers that they can no longer communicate, or from escaping from present reality into far out or far off concepts which do not, in fact, give any personal benefit to their lives or assist them in helping others to live more fruitful lives.

This Awareness can suggest that entities who wish to know more about the hollow earth theory to read those books which are available in regard to this, and to read the works of Shaver, which are in some part fictionalized, and to study certain of the NASA photographs of the earth, and to study the reports of the North Pole expeditions of Admiral Byrd and those who went with this entity.

## THE BOOK "ETIDORPHA"--IS IT TRUE?

(MORE ON ANTIGRAVITY ENERGY)

### QUESTION:

In light of what Awareness just said, this question from V.K. of Lincoln, Nebraska, may not be one Awareness wants to answer. He says, "I recently finished the book *Etidorpha*, by John Uri Lloyd, and am wondering if the story is a factual one. I'm particularly interested in the old man's journey across the underground lake in the boat made of metal. I am curious as to the power source used to operate the boat at such high speeds, since the mysterious being said that one day humans above the earth would be able to use a similar power in abundance. Was this mental, psychic power, spirit power, and can this be duplicated on the surface of the earth seas? Would Awareness please explain this phenomena and perhaps give the other sources of free energy?"

## COSMIC AWARENESS:

This Awareness indicates that this essentially as reference to an antigravity-type of energy; this as having been created and used by certain forces present on this plane at this time and as also having been in existence for some time past in the universe and also on and within this planet. This Awareness indicates that *It* will not, in this reading, attempt to explain the antigravity energy, as this information is available to those who are ready for this and there appears to be a Top Secret classification relating to this information, and this release of such information would jeopardize the organization. This Awareness has already given general information regarding anti-gravity.

ED's Note: In reference to the book, "Etidorpha" (Aphrodite spelled backwards), Awareness has in numerous times past indicated that this book was indeed true. (CAC permanently stocks this book for the membership, as well as several other books about the inner earth. We also have a very limited supply of some of the original copies of Richard Shavers "The Hidden World" series. These are not listed in the regular CAC book catalog because there are so few left. Those interested should write to CAC for prices and a list of the available Shaver books. His hardcover, full color book, "The Secret World" is, however, listed in the CAC book catalog and is available still.) Please send stamped, addressed envelope when writing for the Shaver book list. Thanks.

## ROBOTOIDS AND SYNTHETICS,--

### DO THEY EAT, DO THEY AGE, ETC.?

#### QUESTION:

One final question, (as long as we're on bizarre information), from S. C. "As I understand it, robotoids do not age, and it will not be long before some reporter notices Amy Carter is not growing. How is this going to be handled, and is knowledge of robotoids to the masses coming about soon?"

#### COSMIC AWARENESS:

This Awareness indicates this questioner as not having kept up with the recent information released by Dr. Beter. This Awareness indicates this entity has indicated previously that the synthetic Carter family has replaced the robotoid Carter family. This Awareness indicates this appears to have been in November,--October or November of last year.

(ED's Note: this reading was given August 4, 1980)

This Awareness indicates that synthetics essentially live much longer than the early robotoids and that the aging of these beings does occur. This Awareness indicates that the newer synthetics are also capable of turning their heads further, do have the appearance of the Adam's apple, and the previously described pocked skin is no longer present on these beings. This Awareness indicates that the progress in terms of this kind of genetic engineering goes on, and certain factors regarding the beings at one time may be changed at another time.

This Awareness indicates the synthetics still do not eat the way most humans eat. These can eat small amounts, and this as a condition which is also being

worked on for improvement in these beings. This Awareness indicates that essentially, all of those who had been robotoids and listed as such in the Beter tapes, have been switched to the Bolshevik synthetics, --this including

This Awareness indicates the entity Anderson as still human, Gerald Ford as still human, the entity Lyndon LaRouche as human, the entity.... This Awareness indicates that this as more than should have been stated.

This Awareness suggests these particular references to the synthetics as the Presidential candidates should not be released to your membership, as this information, while interesting, can also be somewhat dangerous to you, to your membership. This Awareness suggests this type of information as best released by Dr. Beter, as this entity as having the sufficient proof to back-up the statements if necessary. This Awareness indicates that statements such as has just been given regarding the Presidential candidates as being synthetics, as that which could be used as a basis for some political group to file suit against your organization for releasing information such as this without proper substance to back up the statements. This Awareness indicates that this as a temporary situation.

This Awareness suggests that the energies of the Interpreter as running low, and the reliability of the channel which is faltering, and this as likened unto a faulty computer or weakening calculator. This Awareness suggests that the Interpreter be brought from trance.

\*\*\*

ED's Note: since this information was given back in 1980, Awareness has mentioned the subject several times since, and this editor feels this reading can be now released, since names have been removed so we can't be sued. However, no one today that I know of believes the robotoid or synthetic theory. It is just so far-out that should anyone start discussing the theory, anyone listening would assume you were either joking or were a lunatic. All one has to do, the listener would say, is to just look at the 6 O'clock TV news. "Are you trying to make me believe that those guys aren't humans!" Anyhow, Dr. Beter isn't putting out his audio letters any longer. He said it was because of his health. He is probably telling the truth; I have heard through the grapevine that not only his health was in jeopardy, but so was his wife's and his children's health in jeopardy. Those Zionist Bolsheviks in control simply do not want their secrets of genetic engineering made public, nor do they want anyone to even suspect that they have full control of the government of the United States and that they are dedicated to nuke their native homeland Russia, which mercifully expelled them to the United States instead of executing them as they deserved. Anyway, since Awareness is no longer giving information on this or other urgent-type info at this time, and since we keep getting letters from members accusing us of 'holding out' on certain information, and that we are insulting their intelligence by assuming that they 'can't handle' such information, we are releasing this stuff for whatever it may be worth. Personally, I say treat it as science-fiction and keep your mouth shut. (Avaton).

## Ancient Writings Reveal Egyptian Pharaoh Flew On An Alien Spaceship

By FRANKLIN R. RUEHL

An Egyptian pharaoh witnessed a huge fleet of UFOs hovering above the desert sands more than 3,400 years ago — and he even boarded one of the alien spacecraft and visited the stars, say experts.

Incredibly, translations of hieroglyphic records of ancient Egypt reveal that Thutmose III, who reigned 15 centuries before the birth of Christ, first saw a UFO one winter morning around the year 1482 B.C.

Brad Steiger, renowned UFO expert and author, told **THE ENQUIRER**:

"The intriguing details from the hieroglyphics describe the UFO as 'a circle of fire.' Moreover, the object emitted no sound, as indicated by the inscription 'it had no voice.'

"The hieroglyphic records go on to say, 'After some

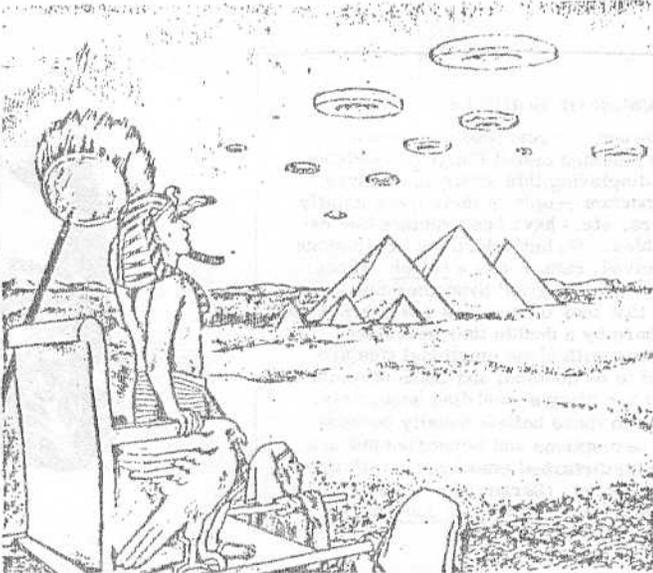

days had passed, these things became more numerous in the skies than ever," Steiger explained.

"The UFOs in this fleet were extremely bright, or more . . . than the brightness of the sun,' and were relatively small, about 18 feet in diameter," he said.

"The UFOs were probably spacecraft from a larger mother ship."

Incredibly, Thutmose III was taken aboard one of the alien spacecraft, said UFO expert and biblical scholar Zecharia Sitchin, author of the book "The Stairway to Heaven."

The ancient records re-

veal that Thutmose "flew up to the sky" and learned the "mysterious ways in heaven."

"Without a doubt, that

passage describes a trip into space.

"Thutmose III was transported by space shuttle to a space station in orbit above

the Earth," said Sitchin.

"There he met with advanced aliens he described as gods. After conferring with them and viewing space, Thutmose III was returned to the Earth via the shuttle."

Said Steiger: "This encounter, which took place over 3,400 years ago, shows that aliens did not just recently start exploring our planet."

"The report of Thutmose proves that ancient astronauts visited Earth long ago."

## Scientists on Verge of Creating Plant People

By RICHARD BAKER and CHERIE MART

In a world-shaking breakthrough that will forever change life as we know it, scientists reveal they're on the verge of creating an astonishing race of plant people.

These bizarre creatures, a cross between humans and plants, will become our pets and slaves, doing anything we want — including think!

And as incredible as it sounds, one scientist in the U.S. has already made it a partial reality — by successfully fusing the cells from a woman with those of a tobacco plant.

The image of a breed of plant people is really quite awesome, but it is within our grasp already and might be a reality within 5 to 10 years," declared Charles Farnol, an eminent researcher, physicist and author of a new book on cutting breakthroughs in science.

Excited researchers say the plant people will:

- Work in factories and on farms, where they'll pick their own fruit and walk for miles to find the best soil and climate.

- Serve as soldiers — capable of firing bullet-like seeds with deadly force.

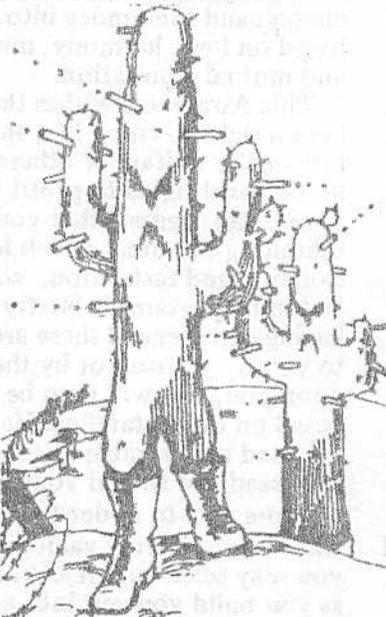

- Operate as human spare part kits — sprouting arms and legs for use in transplant operations.

- Produce their own gasoline-like fuel, then fill up our vehicles at service stations run by plant people.

As mind-boggling as the plant people sound, scientists say the groundwork has been laid for their creation.

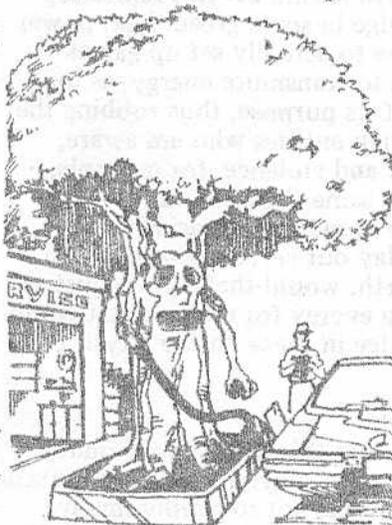

Researchers have already been able to program plants to produce human hormones such as insulin. And using the same technology, experts will not only be able to create plant people but will also be able to determine exactly what characteristics they will have.

This will be done by us-

years contemplating the universe. It could fill us in on wisdom and philosophy.

"And by breeding human intelligence into plants, you could also create ideal pets."

Dr. Charles Linnik, a biological anthropologist at the W. Alton Jones Cell Science Center, a government-funded research institute in Lake Placid, N.Y., enthused:

"You could have a plant available with human organs for transplant. We can do it."

What's more, scientists are already using bacteria — which are actually microscopic plants — to produce hormones, normally produced by the human body.

For instance, they have injected human DNA into bacteria — triggering the bacteria to produce human insulin. They have even suc-

## A DELUSION OF DOUBLES

R. J. Berson has reviewed 33 cases of a curious delusion called Capgras' Syndrome. People displaying this syndrome believe that important people in their lives (family members, etc.) have been replaced by exact doubles. No hallucinations or illusions are involved; rather it is a belief. Those afflicted with Capgras' Syndrome may even believe that they themselves are represented somewhere by a double they never see. Not all persons with close emotional ties are believed to be doubled; and these unreplaced persons are always identified accurately. People with these beliefs usually possess normal perceptions and memories but are (obviously) disturbed emotionally with paranoid tendencies. ## TRANSMUTING NEGATIVE ENERGIES THROUGH FANTASY AND GAMES

## QUESTION:

A question from P.D.R. of Danamora, New York. "Awareness some years back suggested that entities take on some of the earth karma by not repressing themselves, but to indulge in some greed, lust, power and so forth; for entities to actually set up games and dramas to play out to transmute energy, as long as they remain aware of its purpose, thus robbing the Beast of its energies. Then entities who are aware, seeing motives with sex and violence, for example, will in fact be doing the same thing in one level. If entities were to indulge in mental fantasies where they would mentally play out certain games of lust, greed, power and so forth, would that not be just as effective in transmuting energy for entities that could or would not dare indulge in these on the physical level?"

## COSMIC AWARENESS:

This Awareness indicates this as in the affirmative; that essentially the action of playing out these fantasies or playing out these games is not to simply involve yourself in negativity, in lust, power or greed, but to move through those areas which have been blocks and restrictions to you, so that you can have a real understanding and so that the lessons can be learned from these, rather than having pent-up feelings, crystallized desires which cannot be expressed, or hostile feelings toward others which are not being expressed properly. This Awareness suggests that *It* prefers entities not to move into areas of lust, power and greed as a personal expression, other than to move into these levels wherein you come in contact with this; rather than running from this, hiding from this, ignoring this, this Awareness asks that you look at this, face this, deal with this, resolve this and transmute this energy.

This Awareness indicates if in your relationship with others, an entity is promoting energies of lust, power and greed, and you yourself have been inhibited or are inhibited by actions of this entity, it can be beneficial for you to indulge in a complete relationship with such an entity,--communicating, discussing, relating and experiencing whatever is necessary in order to transmute that energy, get beyond that energy, learn from that energy, and then move into clear, honest relationship based on love, harmony, mutual benefits, mutual service and mutual admiration.

This Awareness wishes that entities not feeling they have a right to enjoy life, speak out for their own welfare or the welfare of others; entities feeling they have no personal rights to profit or benefit of pleasure, this Awareness suggests that you throw aside some of the inhibiting teachings which have caused you to feel such isolation and restriction, so that you can experience and indulge yourself briefly in these areas, and then having experienced these areas which have been denied to you by yourself or by the values of others placed upon you, you will then be more able to create values based on understanding. Having experienced the favorable and unfavorable effects of those actions, and having discussed and shared your feelings with others, you will be more able to understand from a level of experience what it is you truly value, why you value this, and how you may select and reject certain activities in your life as you build yourself into a more understanding person.

This Awareness indicates experience being the best teacher, it is important to experience that which you teach as a value or which you reject from the teachings of others. This Awareness asks that you not violate others, that you learn from your relationships and experiences, but that you carefully avoid any action which would create greater karma for you. This Awareness suggests that indulgence only to the degree that you

can handle this type of energy without violating yourself or others, without creating feelings of guilt, hostility or feeling a low self-esteem or feeling alienation from those you love or who love you.

## HOW TO TRANSMUTE WITHOUT PHYSICAL INVOLVEMENT

### (FOLLOW-UP QUESTION):

At the end of his question, he adds: "I am incarcerated, and while I am working in clarifying my relationships with others, I would like to help on the mental level through fantasies or whatever, if it is valid in transmuting energy."

### COSMIC AWARENESS:

This Awareness indicates that in imaging you can assist by bringing about transmutations through those images. This Awareness suggests that for example, wherein there are negative images or expressions in the mass consciousness, that you begin on the level of that which is the negative energy which you wish to transmute. This may require that you think or visualize moving into levels of consciousness in the Bardo states, in Limbo planes, or in grotesque areas of consciousness, whereby you visualize yourself moving into that low vibratory plane, and from there, tuning in to 'what is', you begin to glow brighter, brighter, and brighter and change the scene, the image, the area and the beings within that area into shining, glowing, beautiful creatures. This Awareness suggests that if it becomes necessary in tuning in to these lower vibratory levels, that you take on their behavior patterns in your fantasy or meditation, and then you begin to glow and move on into higher levels of vibration, moving toward angelic beings; this can be of great benefit.

This Awareness indicates that those who see themselves as divine and holy beings, but cannot imagine themselves mingling with thieves, robbers, or prostitutes or others of a degraded lifestyle, those entities are unable to assist those of the degraded lifestyle, because they have a gulf or chasm between them. This Awareness reminds you that the entity Jesus mingled with thieves, robbers, prostitutes and other down-trodden and degraded persons; this was one of the criticisms leveled at him.

This Awareness indicates that if this entity having been brought to this earth from higher spiritual levels for the purpose of transmuting lower energies could mingle with such beings, then also wherein in your fantasies you allow yourself to imagine being with such lowly creatures, without forgetting that you can also be a divine creature, that this will allow you to transmute those energies.

This Awareness asks you not to dwell in the lower regions, but to enter the lower regions only long enough to identify yourself with these creatures, these beings, these energies, and lead them upward as you yourself move back toward the Light, toward higher vibrations, toward the spiritual realms. This Awareness reminds entities that when an entity moves through Limbo, through the dark regions, beyond the doors into those Bardos of darkness, that as such entities move toward the higher vibratory planes, that they create a vacuum behind themselves which draws in, which sucks in those entities nearby and moves them also into those higher

planes and higher energies. This Awareness indicates this as how entities may transmute lower energies.

That wherein entities take on the lust, greed and power, this Awareness suggests you not dwell therein, you not take this on to hurt others who are already spiritually developed, that you simply experience these levels which come into your sphere, tune in to those levels, communicate with those levels, then once an identification, once a rapport has occurred and the entity or energies communicating with you are on a level of rapport with you, then gradually, carefully begin to move into higher levels of expression toward the spiritual energies.

## WILL CALCIUM PREVENT MENOPAUSE ?

### QUESTION:

A question from V.K. of San Francisco: "Dr. Kerry Reams states that both men and women experience middle-age change in their own ways, and that it can commence at any age when the calcium level falls too low. If it is that simple, calcium supplements could be taken to maintain a balanced level for life; and in the case of women, they could become mothers indefinitely. Dr. Reams cites Sarah in the Old Testament, who was 90 years old, (but her experience had nothing to do with a high calcium level.) Could Awareness comment on this?"

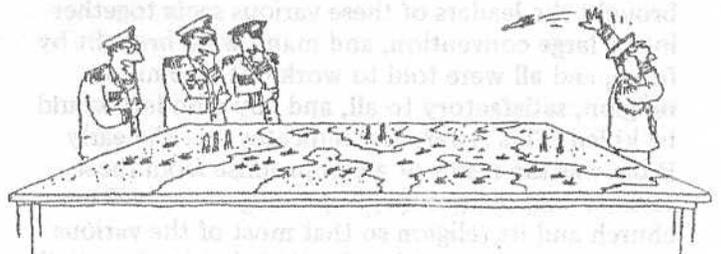

### COSMIC AWARENESS:

This Awareness indicates that the calcium as being a major value in general toning of the body, in terms of muscles, and in particular in terms of nerves; that calcium especially is valuable in strengthening the nerve centers and the nerve flow of energy; that alone however, it is not sufficient to ward off the change-of-life experience, that other vitamins and minerals are also needed for healthy progress.

This Awareness indicates that the calcium should be combined with magnesium and Vitamin D, Vitamin A, E, and the B vitamins; also, other supplements that have been previously mentioned in regard to good health and anti-aging substances.

This Awareness indicates that the entity Sarah, as referred to in biblical legend, as that which as being allegorical in its story form, being of a frame of reference which cannot be used in relation to this particular question.

## HOW THE BIBLE WAS CREATED

(HOW CHRISTIANITY WAS STRONGARMED INTO BEING)

### QUESTION:

A question from W.L., Sterling Heights, Mich., who asks: "It has been reported that all or most of the scribes who wrote the King James version of the Bible were murdered when the project was completed. Would Awareness please confirm and elaborate on the motive and goals for this action, if this indeed was true?"

### COSMIC AWARENESS:

This Awareness indicates that these entities were set up by King James to retranslate the Bible from the ancient text; that these entities took certain liberties in the translation but that many of these Biblical scriptures were more closely aligned to the original Greek Bible, the Greek translation than were those of the Catholic Church; that in some cases, these entities translated verses in order to satisfy the King James and the messages which he wished to promote. Of the interpretations given, much of this as having been of a poetic nature.

This Awareness suggests also that much of this as having been hidden and deleted certain information which would have clarified the real meanings of the ancient scriptures. This Awareness indicates that generally the modern bibles do not clearly reflect the intended meanings of the original scriptures, but create an interesting interweaving of story and a morality and a kind of fabric which is satisfactory to most readers of the various Bibles.

This Awareness indicates that many of these Bibles make subtle changes so that certain areas are emphasized or changed slightly from earlier writings. This Awareness suggests that the Emperor Constantine as having taken many liberties with the various books and writings in bringing these together in order to start the Christian religion as a conglomeration of many of the various sects, religious sects in Rome, this including the Helios sect and the Christian sect, which were both strong in Rome, this also including texts from India, from the Hebrews, from Chaldea and from Egyptian origins.

This Awareness indicates this occurring in approximately the second or third century, whereby the various sects of Rome began to compete with each other causing disturbances among the population which threatened to bring Rome into a kind of religious turmoil; therefore the Emperor Constantine brought the leaders of these various sects together into a large convention, and many were brought by force, and all were told to work out a common religion, satisfactory to all, and any who left would be killed. This Awareness indicates that the early Bible was the result of a compromise from these various religious groups, to put together the Roman church and its religion so that most of the various sects were represented and satisfied at least partially

by the new religion.

This Awareness indicates the Helios religion was one whereby the sun was the god, and the twelve signs were given the names of various entities, and were called the disciples. This Awareness indicates the Christos religion was very similar except that the Christos was the Light and the twelve disciples were the followers of the Light, and these were emphasized as rays. This Awareness indicates the followers of Jesus were also represented and were brought into a kind of merging so that the twelve disciples were also represented, and his name was included.

This Awareness indicates that essentially, all of these three major religions at that time also included certain influences from the Hebrew, Greek, and from Indian sources; all of these along with the influences from Egypt had roots in earlier religions, and therefore were compatible enough that they could be brought together in one religion. Also, there were many of the writings of these other religions which were not included, these being in the Apocrypha and the lost Books of Eden and other ancient texts.

ED's Note: William Tyndale, who spent almost his entire life translating these texts into the poetic Bible we know as the King James version, was rewarded by King James by having him burned at the stake.
