Helping People Become Aware

ISSUE No. 292

## How to keep

## the soul growing

Published by Cosmic Awareness Communications and the Universal Church of Awareness, PO Box 115, Olympia, Washington, 98507, U.S.A. Reproduction of this material is permitted and encouraged.

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter. Paul Shockley, Interpreter

## HOW THE SOUL EVOLVES FROM LIFETIME TO LIFETIME ( Making it on the Earth Plane )

### QUESTION:

Would Awareness please expound a little more on the subject of soul and soul growth as indicated in previous readings? I had a few questions about it that aren't quite clear. It was my understanding that on the Plane of Essence there are entities who have never had life experiences, but yet it is indicated that it's through the life experiences that entities get their soul. Is that correct?

### COSMIC AWARENESS:

This Awareness indicates that the soul itself is a kind of resonating-magnetic field force which exists independent of physical matter, but can mold physical matter according to its own nature and shape. This Awareness indicates that the strength of that vibrating force known as the soul, develops and continues in each physical incarnation as the identity of the being, gathering experiences and incorporating the vibrations and energies from those experiences into its being.

This Awareness indicates the soul, essentially, can become crystallized in certain experiences, in certain attitudes; or these crystallizations can be broken up, released and new crystallizations introduced. This Awareness indicates the crystallizing process depends largely on the will, intent, or desires of the entity, the purpose of the entity; and as the entity becomes obsessed, intent, purposeful toward a particular cause of action, the entity then crystallizes accordingly. Wherein an entity's soul crystallizes toward that which is violation of others, the entity may become an expert at such violation.

This Awareness indicates when this occurs, it may take major experiences, or many years, or many lifetimes of experiences to irradiate that crystallization toward violence. That wherein the entity does eventually eliminate or irradiate that violent crystallization within the soul the entity may then begin, or as it is being eliminated, may begin creating a new crystallization as a substitute in a different direction.

For example, an entity who becomes an expert at shooting the bow and arrow may, in a future lifetime, defuse the crystallization attributes of being a killer or hunter, but the same qualities may still be part of the entity's soul, not totally decrystallized. Therefore, the entity may find himself capable

of aiming the bow of his mind at a target and getting to the heart of the issue. Such an entity may become a profound thinker or speaker in another lifetime, after the previous energies have been somewhat decrystallized. This Awareness indicates in this example, the crystallization of the soul has not been total, but has been altered from that of the hunter of animals or other loving creatures, to that of the hunter for ideas or concepts.

This Awareness indicates this as but a kind of example hinting at the ways whereby the soul develops, crystallizes, or melts those crystallizations, and alters toward other purposes. That likewise, the mother who nurses and cares for the child, developing these strong instincts as part of her soul, may in another incarnation express those same qualities in a different form, of nurturing concepts or ideas or some artistic creation.

This Awareness indicates that there are various ways whereby entities' souls go through modifications and changes, and yet remains basically the same in their vibration and patterns, being altered slightly as they develop. It is through that vibration and the pattern where the identity of the individual is kept and where it lies.

This Awareness indicates these souls, essentially, center around the hum or sound or vibration, and the pattern which that sound creates as the core of the resonating-electromagnetic energies which form that surrounding soul. That these may be likened unto notes of a symphony.

This Awareness also reminds entities that the stars and planets, likewise, have their inner vibration or note to which they vibrate and draw energies and magnetisms in accordance to that vibration and its strength.

### IS THE "OLD SOUL"

### NECESSARILY A "WISE" SOUL?

#### (FOLLOW-UP QUESTION):

Awareness, is a so-called "old soul", as referred to, necessarily a wise soul?

### COSMIC AWARENESS:

This Awareness indicates this as negative. That it may be considered wise in the sense of much greater

experience accumulating, but not necessarily in the sense of cosmic wisdom; for the entity may have accumulated powers and experiences which has been misused and continues to be misused, even though the entity is an old soul.

This Awareness suggests, for example, witness certain of the fallen angels, who are indeed most ancient, but who still have much to learn, even though they have been learning from experiences for eons of time. This Awareness indicates witness, also, the small kitten or small bird, or other creature who barely has any echo of a soul at all and little experience as an individual, but who, by its reflective nature, still expresses the wisdom of gentleness, or of being what it is in a moment of time.

This Awareness indicates the older the soul, the more the entity can draw on for its purpose and generally the more power it has, but this does not necessarily imply that the power will be used properly or with loving wisdom.

### HOW VIOLATIONS OF THIS PLANET CAME ABOUT

(FOLLOW-UP QUESTION):

Then are most of the violations on this planet caused by the so-called younger souls as opposed to an older soul?

COSMIC AWARENESS:

This Awareness indicates this not necessarily so. This Awareness indicates that the majority of violations are brought about by the polarity which was intensified through the original act of rebelling by those known as the fallen angels. This Awareness indicates that essentially, the rhythm of these polarities in swinging to and fro, back and forth, from materialistic to antimaterialistic realms,—all of the thrashing, forgetting, misreading, misunderstanding, confusion, loss of identity, clinging and searching for meaning, desire for permanence, fear of impermanence,—these are the qualities which resulted from the chaotic imbalance that came about from the earlier manipulations of the creative forces and which still, to this day, affect life in the universe and in particular areas to greater or lesser degree.

This Awareness indicates the earth itself being one of the planets which is presently going through a transition toward greater balance and harmony, but which also is at a most crucial point in its history, whereby it could literally be destroyed before the harmony can come about. That these are having great effects on all souls, young or old, and the souls themselves not necessarily having such effect on these forces.

This Awareness indicates that in a sense these forces are being guided largely from outside the planet by cosmic wisdom from other beings who

understand the need for adjusting the polarities toward a more harmonious balance. This Awareness indicates that wherein the entity Jesus moved into the physical earth, and wherein the Christ Consciousness spoke through this entity, and wherein certain polarities were reversed at that time, this began bringing back a harmony or a tendency toward harmony.

This Awareness indicates however, that because of the nature of polarity, which is likened unto a teeter-totter, the message of this entity and others such as this entity, was somewhat ignored as the followers fanatically attached themselves to the polarized religion or belief in the personality, and set themselves up against those who did not agree or had other beliefs or personalities; and therefore, the polarities created by these followers clashed.

And the adjustment of the teeter-totter of polarities being such that it rocks back and forth violently before possibly coming into harmony. This Awareness indicates that in all levels, the gyroscope must move toward a more harmonious movement, whereby the polarities work together, rather than in jerking fashions against each other, and whereby the heart of the situation is nonpolarized and is perfectly centered.

When this occurs, then the balance will be understood by all entities. This Awareness indicates wherein the gyroscope is rocked one way or another by various forces which are, in themselves, out of balance or opposed to something, then the gyroscope will continue to thrash and there will be the appearance of chaotic conditions.

This Awareness indicates essentially, regardless of what is occurring,—the thrashing of polarities, those things being thrown out of balance,—all of this which appears to be chaotic is, in fact, harmonious, according to the *Law of Karma*. For even likened unto sticks that float on the water, whereby an entity splashes that water making one stick rise while the other falls; that even in these rising waves and falling waves, there will eventually, when the will ceases, when the individual need for expression is no more, when the entities become attuned to the totality of the universe, when the beings in the water cease to splash around, then the water itself will always and ever come into a state of poise,—the consciousness shall have harmony.

This Awareness indicates this as the *Law of Karma*, wherein one entity strikes another, the energies of the water shall, in turn, bring back a splash upon the one who struck. This Awareness indicates that in all ways there is always the teeter, followed by the totter, according to the intensities of the teeter and totterer.

This Awareness indicates that wherein an entity can cease to continue the wheel of karma, wherein an entity willingly stops the wheel of karma, no longer seeks revenge, no longer holds frustrated and hostile feelings towards another through the *Law of Forgiveness*, through the *Law of Love*, through the *Law of Mercy*; these actions shall assist in bringing about a greater harmony and lessening the turbulence of the waters of consciousness. That this comes about largely from

understanding rather than from experience, but the experience is capable of assisting in the understanding.

### HOW THE SOUL/CYCLONE GROWS: MORE ON THE EGO DEATH

#### FOLLOW-UP QUESTION:

In the turning-inward meditation to help your soul/cyclone grow, it was indicated that the larger the soul grows, the more energy it has available to it. My question is, is there a point at which that would no longer be particularly necessary or appropriate for an entity?

#### COSMIC AWARENESS:

This Awareness indicates this in the affirmative; this at the point of the ego death, wherein the entity gives up his or her own personal will to the will of God and allows the universal force to take over and to use their being. When this occurs, the entity then becomes likened unto a being unto himself, unto herself. The cyclone then takes form, needs no longer feed on its own energy, for it IS its own energy, and it moves, and the essences of its environment continue from the energies which it creates through its own momentum. That the soul at such a point becomes indestructible and through the *Law of Inertia*, moves and sustains its growth and being.

#### The Food for the Soul's Growth

This Awareness indicates that for those souls which are developing, those entities who look inward toward their soul shall find the soul growing more rapidly. Those who seek their soul through the energies of others, by attempting to find their identification through the words, opinions or ideas of others; that this may be necessary as a reflection to assist the entity in moving in the right direction so that the entity will not become antisocial or an outcast; but that the opinions, ideas and expressions of others are not the food for the soul growth. The food for the soul growth comes from the entity looking inward at himself.

This Awareness indicates the opinions of others gives the direction for the development of that soul growth. This Awareness indicates that it is wise, therefore, for entities to choose their peers and to seek opinions of those who have developed into the kind of ideal person that the entity wishes to emulate. That wherein the entity finds a model and seeks to pattern after that model, this allows the soul to have its direction; and wherein this is in the form of either a personality or a philosophy or teaching, this allows the entity to focus forward.

This Awareness indicates that this has greater effect in keeping the entity on course as a kind of homing beacon, rather than wherein the entity constantly looks from side to side, stumbling over this or that mistake, asking friends: "Where did I go wrong? What have I done now? Why am I always making this mistake? What do you think of this? Should I do this? Should I do this? Should I do that?"

This Awareness indicates that wherein the entity looks at his immediate environs and looks to his friends for guidance, rather than seeking to find the forward course or homing beacon, the entity can very easily become confused by the details and counterstatements of each of his friends.

This Awareness indicates an entity may, in fact, need to consult friends and advisors in order to find the homing beacon; but once the entity finds the philosophy, the homing beacon which leads to greater and greater understanding in the general direction, then the entity can also hope to refine that direction, to move on course, without wavering back and forth so much, as the entity picks up momentum.

This Awareness indicates those entities who dabble in concerns over the past: "Who did that to me? What caused me to be this way? Don't blame me, it was my mother's fault. Don't blame me, my father did this to me and therefore, I act this way. I had a traumatic experience when I was two years old and tripped over my toys"--this Awareness indicates wherein entities look backwards at their past to explain their stumbling in the present or to excuse themselves for stumbling in the present, this does not assist the entity in moving in his or her proper direction at a rapid pace; it simply assures others around, that the entity is out of control because the entity was damaged by something of the past. Therefore, the entity has an excuse for being out of control.

This Awareness indicates this may assist the entity's self-esteem slightly, but does not assist the soul growth. That the soul growth can come about as the the entity finds the direction which best suits his or her perfect harmony and growth toward that model or ideal to which the entity seeks to attain his or her perfect being. Therefore, religions and philosophies were created as beacons to draw entities from their chaotic, confusing, stumbling, momentary, psychological blocks and environments, toward that which will allow them a straight and narrow path.

This Awareness suggests that sometimes, looking back at a particular situation can assist entities in relieving the knots, the consciousness blocks, the devils, the demons, the engrams, the traumas within themselves by understanding where these came from, how they got there, and by letting them go. The entity may then release unto himself, unto herself, greater creative energies which flow and serve the entity. Therefore, counseling and psychological studies or assistance can be beneficial for entities whose consciousness is filled with knots, devils, or engrams or traumas, whereby the entity cannot see clearly because of these warped, twisted areas of his or her consciousness.

This Awareness indicates however, that for others, the path may unfold more quickly if the entity is able to grab hold of the tail of a philosophy that

jerks him or her out of their immediate psychological, twisted concerns into a direction which pulls them toward the purpose of their being. After these entities have been pulled away from their past problems, they may look back and become their own psychologists, their own counselors, and understand what occurred, because they now can see it from a detached and more distant view, which is not so personal.

This Awareness indicates that, therefore, if an entity must choose between psychological counseling and philosophy and religion, the entity would be much better to choose the philosophy and religion that leads to the *Law of One*. This Awareness indicates however, that too often the entity who needs psychiatric, psychological counseling may choose the philosophy or religion that takes the entity deeper into strange, twisted, grotesque areas, and allows the entity to think he or she is progressing, when, in fact, they are simply dabbling into greater distorted areas of consciousness.

#### Freeing the Soul--Forgiving Others

This Awareness indicates the ideal philosophy or religion is that which can also assist the entity in forgiving others, for recognizing the error of the past without holding on to that error. That wherein the entity can forgive himself and others, the entity then is free from the past. Therefore, most of the great religions have within them the means whereby the entity can make atonement, can be forgiven, can confess, and yet remain self-respectful at having done so.

This Awareness indicates that wherein an entity can look back and recognize the errors of the past, can recognize the errors of others against the entity and still forgive those, recognizing that "they know not what they doeth"; wherein the entity can look and see the errors which he or she has created and perpetrated against others, still forgiving themselves, the entity also is capable of moving forward.

This Awareness indicates that wherein entities enter into philosophies which do not grant forgiveness, except by even greater controls and punishment and restrictions placed upon the entity,--feelings of guilt, feelings of dread, great threats, the entity then finds himself being trapped by the philosophy rather than being freed by the philosophy; and the psychological traumas will become even greater, regardless of its rewards.

This Awareness indicates that too often, certain philosophies promise materialistic rewards, while the soul is trapped by the philosophy and the entity is used by the group which promotes the philosophy. That in other instances, the entity is promised a reward in the future, of this or another life, for being servant to the group or philosophy. That in either situation, the entity may be trapped and may not be freeing the soul.

This Awareness indicates that which frees the soul, allows the entity to move from what was and into greater harmony with all things in the universe, so that the entity's actions are not a violation to any

other creatures. This Awareness indicates when entities are moving in that direction, the soul is being freed for its expressions.

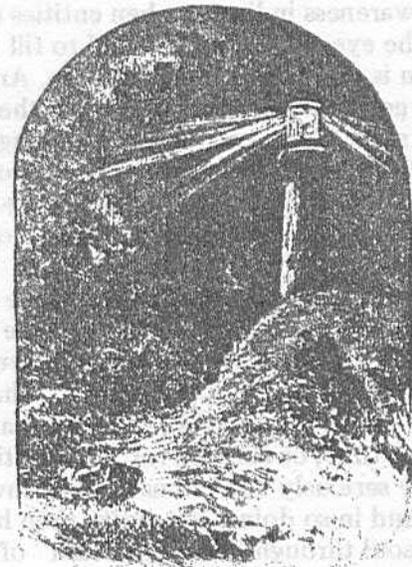

This Awareness indicates as the soul moves toward greater opening in the universe, where it can express its love, where it can express mercy, where it can express affection for all beings, regardless of nationality, shape, or nature, or religion, or philosophy,-- wherein the entity can move outward and express affection for all things in the entity's universe, that entity is totally free.

Wherein the reverse is true, that the entity is moving inward toward a select group, toward a select position, toward a place where the entity must be cut off from all others because those might be violent, because those might be dangerous, because the entity has something which they want or which they don't want, because the entity is exclusive or very, very significant,-- when this occurs, the entity shall find little freedom in the universe, for there is no place the entity can go with such significance and be able to express.

#### Freeing the Soul--Choosing a Philosophy

This Awareness suggests, therefore, that in choosing your philosophies, that you choose those philosophies which embrace everyone, which embrace all things, which are harmonious to all beings, and which do not set one against the other or exclude each other. This Awareness indicates that, obviously, a philosophy cannot include those who would exclude themselves from it; but the philosophy can include those who exclude themselves only on their own will and not because of the philosophy.

This Awareness indicates that wherein one religion or philosophy does not allow others in, that is one thing; but wherein the philosophy allows all in but entities do not wish to enter, that is another thing all together. This Awareness suggests that entities, in seeking the philosophy to free the soul, may find that the most appropriate philosophy makes room for everyone.

## EGO DEATHS OCCUR MANY TIMES

(EGO DEATH THROUGH PSYCHEDELICS)

### FOLLOW-UP QUESTION:

Awareness, during the sixties there was a lot of talk about entities undergoing the "ego death", usually through the use of certain psychedelics. My question is: Is it important that entities go through this "ego death" while still embodied? Isn't this something that happens to everybody during the passing over?

### COSMIC AWARENESS:

This Awareness indicates entities may move through various degrees of "ego death" time and again, time and again. Entities may move through various degrees of "ego death" time and again each day, each week, each month, each year, each lifetime, or over many lifetimes.

This Awareness indicates that these experiences are those which may be compared to the baker who kneads the bread,—pushing, pulling, pushing, pulling until the dough is right and will rise properly. This Awareness indicates that these various "ego deaths"—some greater, some smaller,—are all part of the kneading of the soul to allow it to rise properly.

### (FOLLOW-UP QUESTION):

In that case, in reference to the soul no longer looking inward for its feeding and that being at the point of "ego death", is that a particular "ego death" or does that switch back and forth?

### COSMIC AWARENESS:

This Awareness indicates that essentially, when entities give attention to their own inner being, not giving attention by looking outward for someone else to give attention to their being, but when they give attention to their own inner being directly, not through the reflection of the eyes of others but directly to their own being,—this is the food which feeds the soul.

This Awareness indicates when entities search through the eyes of others for food to fill their soul, this action is that which builds the ego. And the entity, in getting back feedback from others, whereby the other says: "Yes, you are a great being. You are a wonderful being. You are fine in my book,"—this Awareness indicates this as feeding the ego of the entity, the self, the self-image, but does not feed the soul.

This Awareness indicates that when the entity experiences enough food for the ego to where the ego is developed, to where the self is fully developed and the entity feels, "I have at last arrived. What next?"—at such a point, the entity may turn inward,—perhaps for the first time; or perhaps for the first time the entity may seriously and intensely look inward at his soul. And in so doing, the entity then begins to feed that soul through that "ego death" of recognizing how puny, how little his accomplishments were in relation to the need of the soul growth.

Therefore, all of those energies may then be turned inward to feed the soul its share, its meal of humility.

### The Various Foods for the Soul

This Awareness indicates humility as being the protein of the soul; recognition may be considered as the fat or carbohydrates for the soul. This Awareness indicates that gratification may be considered as the "sweets" food for the soul; that frustration and irritations may be the sour or acidic foods for the soul. The spices being those pepperings and salty experiences which entities have from day to day.

### The Make-Up of the Soul's Body

#### (Closing Message)

This Awareness indicates in considering the soul, recognize that essentially the emotions are the arms and legs of the soul. In considering the soul, recognize also that the desires are the eyes of the soul. This Awareness indicates in considering the soul, recognize also that the apprehensions are the ears of the soul. In considering the soul, recognize also that unity, rapport, communication, contact is the mouth of the soul, which allows the exchange whereby souls may serve each other.

Trivia of the week department...

DID

JESUS

EVER

MARRY ?

DID HE GET CLOSE  
TO THE LADIES?

#### QUESTION:

I'd like to ask Awareness to comment on a book written by Dr. William E. Flippis, entitled *Was Jesus Married? - The Distortion of Sexuality in the Christian Tradition*. In this book the author maintains, through certain research and logic, that Jesus probably was a married man because for him to have remained single would have been completely foreign to the Biblical outlook, both in theory and practice. He complains that scholars have avoided the question for two thousand years because of cultural taboos, and the absence is especially enigmatic since marriage was the one social institution that Jesus blessed and used in his parables to illustrate the gospel. And he goes on in his logic that Jewish culture and teachings demanded that every righteous man marry, and so he surmises that Jesus was married before he was twenty, during the period of his life often referred to as 'the lost years'. He may have been a widower or his wife may have been a member of his groups.

I'd like to ask Awareness to comment on this book and the theories that this author has put forth.

#### CLLOUD-BUSTERS AND ORGONE ENERGY ( BENEFITS AND DANGERS )

##### QUESTION:

A question from P.S., Brooklyn, New York, "I am writing concerning the information on Reich Cloud-busters you put out several years back. I have read the *Cosmic Pulse of Life*, and it can be found in the better metaphysical bookstores. I and friends worked extensively with Cloudbusters in 1975, '76, and '77. We were taught by a man who had worked with Ina Reich. We had many different and strange experiences.

#### COSMIC AWARENESS:

This Awareness indicates that the historical entity known as Jesus, as having traveled extensively into various cultures and different countries. This Awareness indicates during the lost years the entity travelled into India, Tibet, and other countries of the Middle East.

This Awareness indicates this entity as having been involved in many teachings and secret schools. This Awareness suggest the entity also as having been involved in various social situations.

This Awareness indicates that the present-day term for marriage as being somewhat a misnomer in comparison to what entities considered as marriage in the culture in which this entity moved. This Awareness indicates the Essenes had their own particular way of choosing mates and this had an influence on this entity and his way of relating to others. This Awareness indicates however, that this entity was not strictly an Essene, for the entity also had certain involvements and influences from Tibetan and Indian sources; that these also had their affects on this entity.

This Awareness indicates that the entity could basically be said to have remained single by certain definitions; or by other definitions, the entity could be said to have been married; that it is a matter of terminology. For the entity was close to Mary Magdalene and one other not named in the Biblical stories, yet this entity did not move through any socially recorded ceremony which is commonly associated with marriage. Therefore, the modern concept of marriage might not be applicable, whereas earlier concepts of marriage could well apply.

This Awareness indicates that the entity did not make a social statement, other than by actions and from personal dedication and personal attitudes. This Awareness indicates that this entire question as having greater significance in the minds of entities than it actually merits.

#### (FOLLOW-UP QUESTION):

Did the entity Jesus, in any of his relationships, father any children?

#### COSMIC AWARENESS:

This as negative.

"I would like to caution about the power of these devices, as one can radically affect the weather with these. I believe a drought was broken in Southern California in 1977 by devastating rains. This possibly induces by Trevor James in Los Angeles, and others from San Diego who were working with large Cloud-busters. I have a question for Awareness, I am a member of a Light group called Future Foundation

in the Wyoming/Colorado/Nebraska area. An entity we are in contact with called "Brother", warned that our work with the orgone energies was having a far-reaching and not completely seeable consequences. Due to these and other reasons I felt it best to stop manipulating these energies. Does Awareness feel the warning by "Brother" are valid, and would Awareness comment on this and shed any light if possible?"

#### COSMIC AWARENESS:

This Awareness indicates that the work with the orgone energies as that which used in limited scale can be beneficial for individuals. This Awareness indicates that the threat and danger of this is that this type of energy and the research which follows, if entities pursue this far enough, leads automatically into energy explorations which deal with those forces that penetrate dimensions. This Awareness indicates that the interdimensional energies or interdimensional states are affected by the orgone energy and can be influenced to the detriment of the beings in those other dimensions.

This Awareness indicates it is this which the entity referring to himself as Brother is concerned about. This Awareness indicates that the unfortunate fact is that there are already entities who have altered these dimensions to such a degree as to have allowed for a greater breakdown in the barriers separating the dimensions. This Awareness indicates that this in reference to allowing the Forces of Ahriman to have greater entrance into this plane; that this as being seen as unfortunate in the sense of how it has an effect upon the status quo of the earth plane.

This Awareness indicates that in a more cosmic sense however, it is all part of the plan, the Cosmic Destiny. This Awareness indicates that the entities being able to enter into this dimension from the inner planes or other dimensions also are creating doorways whereby from this dimension may likewise learn how to exit from this dimension and enter into others. This Awareness indicates that the technologies of interdimensional traversing or interdimensional communication, the technology is that which will come, and the orgone energy as that which plays a part in this.

#### IS THE CLOUD-BUSTER A PLACEBO ?

(DEALING WITH ANTI-FAITH & DOUBT)

—MORE ON PSIONICS

#### FOLLOW-UP QUESTION:

He had a "PS" comment which wasn't a question, but I have one based on it. He writes: "We eventually found that no Cloudbuster is necessary. You seem to affect the energies by projecting your own consciousness."

Is the Cloudbuster, like the psionic machine, more of a placebo, Awareness?

#### COSMIC AWARENESS:

This Awareness indicates that this machine, like the psionics device, allows the subconscious of the individual to have greater faith and to have less doubt, and therefore, greater effect in creating whatever the thought dictates. This Awareness indicates that when an entity thinks: "I am going to burst that balloon with my mind", and then sets forth to do so, part of the entity's mind, one could say, in the back of your mind, you know it isn't true, and no matter how hard you try, there is always that equal part in the back of your mind that says: "This won't work! Even though you are trying as hard as possible, you simply can't break that balloon with your mind!"

This Awareness indicates it is this part that resists the suggestion that serves to block the power of the mind to prevent it from doing that which it says it will do. This Awareness indicates this aspect of consciousness that is in the back of your mind, resisting the suggestion is that which is anti-faith, the doubter. This Awareness indicates that wherein you are given a machine and told that this is capable of bursting the balloon, responding to your thought and bursting the balloon, and you have faith in the machine, it removes the doubt, and resistance to your energies, and thus greater amplification of thought results.

This Awareness indicates that likewise, the Cloudbuster or the radionics device operate to remove the doubt in one's mind. This Awareness indicates that entities wishing to dissolve clouds can do so by simply staring at the clouds for a period of time. Information has been given on this previously. This Awareness suggests that entities in doing so, pick clouds that are solid enough to last if you were not in the process of dissolving them. This Awareness suggests picking a cloud among others, to use the others for standards or control group while selecting the particular cloud to dissolve that cloud.

This Awareness indicates that when this has been done, you may consider it a coincidence, but when you have done this 20 or 30 times without fail, you begin to realize the power of the mind. This Awareness indicates that you do not then need the machine. This Awareness indicates that those who have the power of the mind may find that in using a machine, the power is enhanced because the doubt is further removed and the faith in the machine is that which allows an even greater amplification of thought.

This Awareness indicates that the amplification of thought is the object of the Cloudbuster and of the radionics machine, and the amplification of thought is in proportion to the ability to concentrate and focus on an action of thought while simultaneously removing doubt as to the ability to do so.

\*\*\*

ED's Note: For more information on how to dissolve clouds, please refer to 'Revelations of Awareness' No. 78-30 (How to Dissolve a Cloud); \$1.50. For more info on the Reich Cloud-Buster, please refer to No. 82-18 (How to Build a Reich Cloud-Buster); \$3.00 from CAC. For info on how to build an orgone energy accumulator, please refer to the CAC book catalog and the book "The Orgone Accumulator" by Reich.

### THE TELEVISION SET-- IS IT A HEAVEN OR A HELL ?

#### QUESTION:

A question from N.M., Douglasville, Georgia.  
"Does Awareness feel that modern society makes the rearing of children more difficult,--the prevalence of TV watching, the separateness of the extended family, the general desire for privacy,--or are we just softer and lazier with a romanticized image of what family life should be like since previous generations?"

#### COSMIC AWARENESS:

This Awareness indicates this depends on the individual families, that there are a multitude of circumstances to consider in this question.

This Awareness indicates that this brings about a much closer family, much better relationships than those families which existed some several hundred years ago wherein they lived in isolation, barely sustaining themselves on the barren lands, fighting enemies to stay alive or fighting with each other to avoid being devoured as in some cultures. This Awareness indicates that the question being, essentially, compared to what?

This Awareness indicates that modern families with their television sets, compared to the majority of families upon this plane, are in seventh heaven even though they may not comprehend this at all. This Awareness indicates modern families with their television sets can also be in the depths of hell whether they realize this or not, this depending on that which they compare themselves to and depending on what they wish from life. That essentially, modern families with their television sets are what they are, are as close as they are, or as far apart as they are; the television set can be blamed as the cause, or the television set can be called a symptom of a troublesome family, or the television set can be called the unifying force in an otherwise troubled family. This Awareness indicates this depends entirely on how entities view the television set and whether they prefer to give the television set greater significance than they give each other.

'So, Mrs. Caldermott--what's the problem?'

## ALIENS WHO WALK AMONG US

( More about Walk-Ins )

#### QUESTION:

Another question about walk-ins, this one from R.B., Albuquerque, New Mexico. He asks: "Are there really a large number of "walk-ins" already on the earth, with more to come to help humanity evolve through the next 25 years? What, exactly, are these "walk ins"?"

#### COSMIC AWARENESS:

This Awareness indicates this essentially referring to entities from other levels beyond Terrestria who enter into the mundane life of Terrestrians, or earth people, to walk among them, to assist in creating changes in attitudes, in technology, in social conditions, in political areas, in economic conditions, in order to change the general course of direction so that the planet might move through crucial times without destruction.

#### (FOLLOW-UP QUESTION):

Would these entities be classed under the classification that Awareness indicates earlier of Wanderers and Voyagers?

#### COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, with certain modifications. That generally the Wanderers and Voyagers enter into this plane through the normal channels of birth, whereas certain walk-ins enter through methods of being deposited by the so-called UFOs or by moving into physical condition through materialization processes associated with the so-called UFOs.

This Awareness indicates that essentially, the walk-in may be referred to, in certain circles, as aliens,--though these should not be confused with that which this Awareness calls the Alien Force. This Awareness indicates that these entities essentially are alien to this planet but not necessarily alien to humanitarian principles; whereas the Alien Force which this Awareness refers to is related to those forces from outside the Terrestrial or earthian dimension,-- the physical dimension,--who are alien to humanitarian purposes.

\*\*\*

ED's Note: For more information on Walk-Ins, please refer to 'Revelations of Awareness' No. 80-27 (\$3.00 from CAC). For more information on Wanderers and Voyagers, refer to Issues No. 80-09; 82-22; 83-05 (\$3.00 each from CAC).

#### Aliens Among Us

Weekly World News, a supermarket checkout-counter newspaper, headlines YOUR CO-WORKER COULD BE A SPACE ALIEN, SAY EXPERTS. One way to tell: "Bizarre sense of humor. Space aliens who don't understand earthly humor may laugh during a serious company training film or tell jokes that no one understands."

## THE CAT THAT TRIES TO SPEAK

( MORE ON WHERE PORTIONS OF SOULS GO )

### QUESTION:

D.P. of Santa Fe, New Mexico writes: "A puzzle-ment about a wondrous cat with whom I live. Her breed has been emerging for a long time, although unrecognized out of the Abyssinian breed. They are very different from the Abyssinians and breed true. They have recently been given the name of Somali. She is unlike cats that I know of, in that she has a passion for certain fruits,—grapes, cantelopes, pears, apricots and persimmons; but also, when she was young, she would walk up to me decisively, look at me with great intensity, and then make very exaggerated movements of her mouth and lips in an attempt to communicate, but she could make no sound. Later she gave up trying. Could it be that her ancestors, not only ate fruit, but could speak man's language to some degree, and maybe they were much larger cats and were bred down to fit better into houses, and in the process lost their ability to speak? Could Awareness comment on this please?"

### COSMIC AWARENESS:

This Awareness indicates that as has been given previously in several readings, portions of individuals are often cast off at the time of death and enter into animals, to serve as what may be termed, the essence or soul of the animal. This Awareness indicates portions also are cast off and go into plants, while the main soul energy goes on toward the Clear Light and through the bardos, before returning to reincarnate, or before going on to other realms.

This Awareness indicates that these portions which go into animals have memory which is likened unto a subconscious level, but whereby there are qualities of a human nature, whereby they have, in some instances, intelligence akin to human intelligence, and in some instances, recall words and speech, but the physical vehicle in which they find themselves is not capable of responding to their efforts to speak. It is not built with the proper tongue, proper lips, and vocal cords to make speech, as a human might speak. Thus, they simply attempt a rudimentary movement or sound, and some entities are capable of hearing, when sensitive to these sounds, are capable of hearing what the animal means, and some entities, even not hearing the sounds, are capable of feeling, or hearing the thought projection from the animal.

Thus, they say: "The animal spoke to me", or they heard the words the animal sent. "The animal wants this...the animal is concerned about this or that." This Awareness indicates that some animals are much more capable of this than others. The particular type of animal or its breeding may have developed an animal that has greater evolvment in terms of sensitivity to the subtle energies than another animal, which

may be quite crude and gross in its mannerisms.

This Awareness indicates that this particular animal which you are speaking of is one of the highly evolved types and is capable of housing an energy from an entity who is seen as female, a female woman; this entity does not appear to have been of royalty, but does appear to have been of high refinement; the entity seen as having dark hair, blonde skin, of pleasant appearance, and being dressed in white; this appears to be in the area of the New England states. This entity as having passed on and a certain energy as having been discarded and having entered into this cat.

This Awareness indicates that this cat does not contain the soul of the entity, but does contain a portion of her astral energies. This Awareness indicates that when this entity is ready to reincarnate, she will require energies which the cat now holds, and at that time, the cat will pass over and release these energies to her. This Awareness indicates this does not appear to be in the immediate or near future.

This Awareness indicates the entity's name is seen as Elisa (pronounced Eleesa).

### (FOLLOW-UP QUESTION):

Do animals that are housing portions of persons that are ready to reincarnate always die when they come back?

### COSMIC AWARENESS:

This in the affirmative.

### (FOLLOW-UP QUESTION):

Awareness, in a case like this where portions of an entity come into an animal, is this a random thing, or in this case because of a particular breed; or maybe a general attachment or some kind of karmic attachment perhaps, to the entity,—in this case, the owner of the cat?

### COSMIC AWARENESS:

This Awareness indicates that on occasion, there will be an association or an attachment to the owner of the cat; that this does not always occur however. This Awareness indicates that for example, in a reading for entities in Canada, the entity Jay Sheely and his wife; these entities having had a dog named Petrone, asked: "Who is my dog Petrone?" and the face of a Ukranian man appeared, and the name George Dominique appeared.

This Awareness indicates that upon questioning these entities, after this reading, it turned out that the wife of Jay Sheely had know this entity; the entity has having been an attorney friend of her father's, and as having died from a heart attack several years prior. That thus, in this particular case, they knew the entity, but this is not always the case; that often the entity, the portions of the entity will simply go toward that area, toward that creature that appeals to the urges of the energy.

This Awareness indicates however, there is not simply a random chance factor, for wherein the opportunities are there, these energies often gravitate toward entities whom they have already met and recognized to be friendly and whom they would be comfortable with.

(FOLLOW-UP QUESTION):

Would that be the case of D.P., who asked this question originally?

COSMIC AWARENESS:

This Awareness indicates that it appears that this entity has had some contact with D.P., but that this contact is not seen from this present life as having been significant. It appears rather, that the contact was from previous lifetimes. This Awareness indicates that you may check with the entity D. P. to ask whether she recalls ever having met an entity named Elisa... the last name not seen clearly. It appears there is V-A-N-D-O-O-N, but this does not appear clear and may be in error, or may be one of a number of last names.

\*\*\*\*

ED's Note:

There are probably a lot of entities who would feel it rather fitting that their lawyer returned to this plane in the form of a cat (or other animal--maybe a rat?)

For more information on this interesting subject of animals, please refer to 'Revelations of Awareness' No. 85-17 (Chatting with Animals); \$3.00; also No. 83-22 (Understanding Trees and Animals); \$3.00; also no. 85-1 (A Telephone Message from Sour Puss); \$3.00 from CAC.

### FREEZE-DRIED CATS/DOGS, ETC...

THE TAXIDERMY INDUSTRY IS NOW utilizing FREEZE-DRIED techniques in the commercialization of their trade. Describing the process, the LOS ANGELES TIMES writes: "The animal is shampooed, disemboweled, dipped in insect repellent, and injected with preservatives." The dead animal is "Given artificial eyes, then posed with internal wires. A few days in a commercial freezer, it is transferred to freeze-drying chamber to be dehydrated. This takes a few weeks to six months. Cost varies from \$400 to \$1,000, depending upon size of the animal." -AWAKE

## PSYCHOTRONIC WARFARE-- CAN THIS BE NEUTRALIZED?

QUESTION:

A question from EK, Mingo Junction, Ohio. "Please ask Awareness to describe the Beast psychotronic warfare activities and plans, and how these can be neutralized?"

COSMIC AWARENESS:

This Awareness indicates that this as being of a highly sophisticated and technically secret activity; that essentially the Beast, as may be termed, as that which has not fully developed these potentials to the same degree as have been developed by the Soviet Union. This Awareness indicates that this as still in the development stage, although there have been some major successes. This Awareness does not wish to explain the workings and development of these energies, nor how to neutralize such energies, as this would become a political problem for the Interpreter and those associated with this organization, in that they would essentially be asking this Awareness to spy upon the secret developments, military or strategic developments in this area. This Awareness indicates that It is not attempting or serving as a psychic spy to discover what the Americans or other nations have in terms of psionic and psychotronic warfare, nor in exposing this development.

This Awareness is concerned with the welfare of masses, and wherein this kind of activity were to threaten the masses, this Awareness would then comment on this. However, generally speaking, this at present is not the great threat, so much as the pure blundering of matoid idiots in charge of your national directions, military, foreign policies and energy programs.

\*\*\*

ED's Note: This reading was given on April 14, 1979, during that time, under President Carter, when the Bolsheviks were about to launch a nuclear attack against the Soviet Union. Do to the rapid changes in consciousness then and since, many questions about this secret war were asked, which never got published. This editor, for historical interest, will try to publish this material when time and space permits and eventually the entire story shall be brought into the light.

## WERE WOMEN EVER SUPERIOR OVER MEN IN SIZE AND STRENGTH?

### QUESTION:

A question from D.P. of Santa Fe, New Mexico: "I have heard that there are some Swedish women whose strength and size are approximately that of the male, and most of us have heard at some time of the Amazonian women who were said to have prodigious physical prowess, and who were, according to some records, systematically eliminated. Also, after World War 2, there have been a few beneficial changes in the life of Japanese women, and their bodies seem to be slightly changing. Small evidence indeed, but still I ask the question: Was there a time eons ago when men and women were approximately of the same size and strength? If this is so, would Awareness tell us how and why and when the great difference came about?"

### COSMIC AWARENESS:

This Awareness indicates that it does not appear that these sizes, as a general rule, other than exceptional cases, has ever favored equality in terms of the sexes. However, there are exceptions, such as the Amazon women; that these women grew particularly large and strong due to certain substances which were used in their diet; that these substances strengthened and developed, these altering certain hormones and encouraging others, while inhibiting some, much likened unto the use of steroids to develop muscle power.

This Awareness indicates that in terms of the Japanese women, the changes appear to be more from altered diets, resulting after World War 2, whereby more protein is being used in their diets. This Awareness indicates the use of protein is that which strengthens muscles and this can alter body shapes; that without sufficient protein, the muscles cannot develop and grow properly.

This Awareness indicates that there are today, in the United States, as a result of the recession, a number of children who have been tested and measured statistically whereby it has been shown that these children's growth has been stunted somewhat by poor diet, and that they are not growing as tall, nor will they be as strong as they would have been had it not been for the poor diet; thus, diet is of great importance in regard to size and growth development, particularly wherein this diet has nutrients that effect or inhibit the pituitary, which regulates height and growth factors.

### Coming Soon--Choose your Own Height!

This Awareness indicates that it appears within approximately five to ten years there will be sufficient discoveries made regarding the pituitary and its effects over the growth factor, to allow entities to begin a science that will let entities choose the height and size they desire. Even though they may be dwarves, they may take substances which will allow them to grow taller. However, it does not appear that they

will be able to shrink or reduce the heights of entities through this manner once the height has been attained, but those who expected to grow especially tall may find substance in this process that will prevent such growth and limit the height of the entity, if desired.

### (Closing Message)

This Awareness indicates that when giving predictions in terms of energies relating to the future, future events, it is always necessary to qualify those predictions in recognition that all things can be altered in the event of war or devastation through natural or man-made chaos. This Awareness indicates however, it appears likely that the future will continue developing without excessive chaos, so that such can occur, as indicated in the previous question.

This Awareness indicates that there is seen no further energy on this or any other concern; that the Interpreter may be brought from trance.

## WILL PAPAYA JUICE DARKEN THE SKIN?

### QUESTION:

A question from E.A. in Los Angeles: "Does drinking large amounts of papaya juice for a considerable amount of time cause dark skin to lighten, and if not, what will?"

### COSMIC AWARENESS:

This Awareness indicates that the use of papaya juice as that which can affect the color tone of the skin if used in large quantities, but that this shall be minimal, of little consequence. This Awareness indicates that there is seen that there will be, within 5 years, a substance on the market commercially presented, which will lighten skin tone. That this will be commercially sold; this appears within the next 5 years. That it will be presented in advertisements through mail order, within this period; that thereafter it may be seen in pharmacies.
