COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter. Paul Shockley, Interpreter

THE BICENTENNIAL ADDRESS TO HUMANITY

BY COSMIC AWARENESS

(INDEPENDENCE DAY MESSAGE)

QUESTION:

Today is the 200th birthday of the United States of America. I'm going to read an excerpt from the *Declaration of Independence*, signed on July 4, 1776:

"When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its power in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes, and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed.

But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future society."

I ask now on behalf of all of those in America and the entire world, for a message on this July 4, 1976.

COSMIC AWARENESS:

This Awareness indicates that in the continuing course of human events there comes a time and a place wherein entities begin to move beyond those levels of pre-occupation with time and space and move into the exploration of that next frontier known as consciousness and in the exploration of consciousness comes about the discovery,—that even as the world is not flat, but rounded, likewise consciousness is not separated by forms, but permeates and fills all things,—as a screen on which all forms are projected and cast. As entities begin these exploratory journeys into consciousness there comes about that discovery that all roads lead to home, to OM, that all consciousness is One, and that all entities beneath their outer garments of culture, programming, habits, language and personality masks, are in reality the same entity, the same consciousness. This Awareness indicates that in this new reality, new concepts, new modes of behavior, and a new understanding of governing must come into being.

This Awareness indicates the action that began two hundred years ago today, in bringing about the birth of this United States of America was likened unto a seed planted in the Garden of Consciousness which has brought forth much abundance and a great harvest, and this harvest has brought forth the opportunity for entities to understand the meaning of freedom, individuality, and the pursuit of happiness, even if these concepts have not yet been fully experienced by all entities of this nation, and whereby many entities of other nations do not yet experience happiness, freedom and individuality. Yet the action of forming the space where these pursuits could occur, have given entities of this nation and other nations a new sense of dignity, a sense of personal worth, a new

hope, a new understanding, and a chance to dare to dream of a New Life in a New World where God-given rights to life, liberty, happiness, and the dignity of man can be experienced as a reality.

This Awareness indicates this nation like the prodigal son, has wandered away in the pursuit of its own individuality and has fallen into a multitude of sins and errors through its association with the scum of the world,—the moneychangers,—warmongers, harlots, whoremongers, and pimps of the world who have sold their sons and daughters, their mothers and fathers, their brothers and sisters to the Beast, to the world money system, the Luciferian economic machine which pays the most for the rape and sale and slavery of the souls and lives of humankind. Yet this nation now comes home and sees the error of its ways; and this nation shall find a rebirth based not so much on the pursuit of individual pleasures, or on the concept of competition, but on the concept of the Unity of all Life and the pleasure that comes in co-creation of the highest and the best for all concerned. This nation is beginning to understand that its security cannot be built upon the destruction of others, but must be built on unity, respect, sensitivity and communication with all living beings.

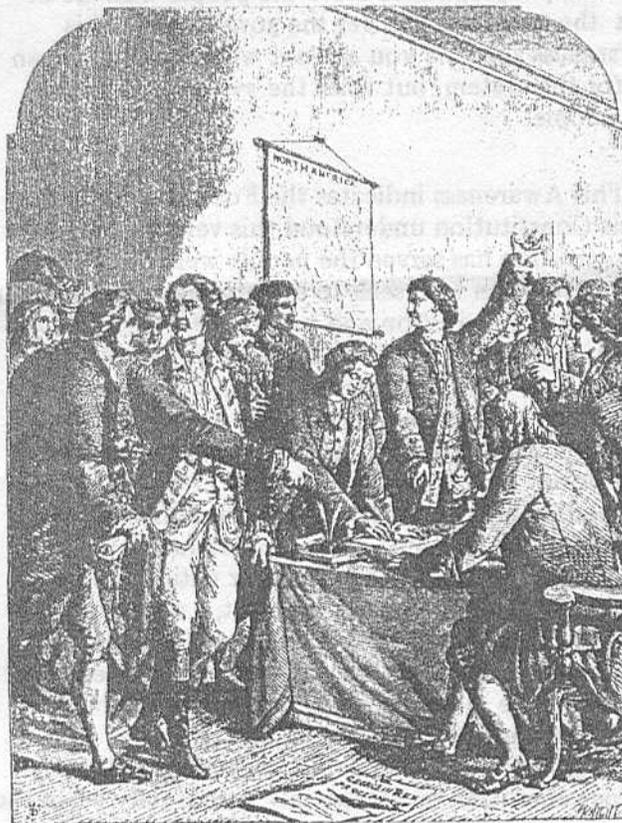

This Awareness suggests as entities begin moving more and more into levels of consciousness wherein concepts of “you” and “I” begin to fade into concepts of “we”, and wherein concepts of competition between entities, nations, and cultures begins to fall to the concept of co-creation through communication and sensitivity, wherein the old ways of power and greed through manipulation of money and mind begins to fail and is replaced by service based on comprehension, clarity and concern for each other’s rights and freedoms; there comes about a shift of attitude which becomes contagious to consciousness whereby the “win/lose” concept may be totally discarded and replaced by the “win/win” concept. This Awareness indicates this nation again can light the way with Freedom’s Torch as entities join together in co-creative action—each doing what each can do to make a better world.

This Awareness suggests you not follow your leaders but follow the Universal Laws that recognize the unity in all things, for there is no higher authority than these Laws which condemn no-one, excludes no-one, and serve all through creative Love. This Awareness suggests that you give your energies to those who give their energies to these Universal Laws, and that you teach those who would be leaders of the people that they must first be *followers* of the Universal Laws. For these Universal Laws do ever and always supercede all other laws, and as entities follow these Laws of Love, Mercy, Unity, and Life, and work together for the good of all, there will be no losers whatever, for *all* shall win.

This Awareness indicates that in times of stress and change, in which entities often find themselves, in these wondrous times of present Trials and Tribulations which try anew the tormented souls of men,

in these unusual times wherein appear those strange forbidden shapes and unseen images lurking from the edge of the future, wherein the Dreaded Beast struggles to raise its Hungry Head, and Crowned Horns, wherein threats and dangers and rumors of war run rampant from door to door, from day to day, from moment to moment, always perched behind the corner, beneath the bed, above one’s head, just over the horizon, ready to spring to attack and to destroy, to spread its panic and plague and fears; in these Great Times of Great Trials and Greater Opportunities, entities must become so intensely involved in life and in life’s realities that they are compelled to make the clear discernment of what really is their only course of action,—to leave behind the worship of the old Gods of Power, Lust and Greed, and to forego the worship of the Idol known as Fear, and to move instead into the New Heaven on Earth that begins as each and every entity becomes a channel of that force known as Creative Love.

This Awareness indicates that the temptation to attack that which one fears, the temptation to fear that which could perhaps attack, the temptation to set oneself apart from that which is happening, the temptation to escape to some unlikely place, some distant dream, some anxious hope, some far away concept, some future life, away from all that is present and real, with all its present dangers, and all its unseen joys and unexperienced ecstasies, its glorious sensitivities,—these temptations to escape from present time when yielded to, do not lead to clarity and relationship, but to clouds, deception, and ever Greater

Tribulations. Likewise the temptation to surrender your life into the hands and safe keeping of another, will only lead to sorrow. But the action of standing firmly while relating clearly, and the action of looking directly at what is happening, fearlessly facing the facts, sensitively observing the scenes, starrng in the actual show of present time, and from that here and now, moving slowly, surely, step by step, clearing a path for oneself and others to follow, to move step by step, and moment to moment into the new world of changing levels of Consciousness, changing activities and changing events; this path of Awareness, Attention and Action that leads to comprehension, Communication and Co-Creative service, shall bring in the New Age.

This Awareness indicates the proper purpose of any government is not to rule, but to serve the people, and the ultimate control of the power of any proper government must ever and always lie in the hands of the people. For if ever the control of that power is taken from the people, by force, manipulation, deception, or even by friendly persuasion; the potential, the threat, the danger and the opportunity will bring about the temptation and probability that the power will eventually be misused and the people will again be plunged into servitude and slavery. This Awareness indicates the people of a proper government must never put their trust in their leaders, but must have faith in themselves and in their own *vigilance* to watch the governing powers, that those powers shall be made aware that they have been given positions of responsibility and strength, not to serve as masters over the people, but to serve the people who are in fact the true masters over the government. This Awareness suggests you ask not what the people can do for the system, but what the *system* can do for the people.

This Awareness indicates the Founding Fathers of your Constitution understood this very well, and that Constitution has served the people well; yet today there are those who seek to undermine your Freedoms and your Constitution and to deceive, coerce, manipulate, trick and force the people of this nation to accept a new world order under the domination of a few ultra-wealthy and excessively powerful families who control the money system of this nation and of the world. This Awareness indicates these times of tribulation are even more crucial than those times that tried the troubled souls of men during those birth pains of this nation, for your nation has now an internal enemy, unseen by most, a cancerous condition that has spread throughout its cities and its people, a condition brought on by the Greed and Power of the Money changers and by excessive Lust and Pleasure-seeking of the masses. *Only* by the *nationalization* of the banking systems will this cancerous condition be completely cured; *only* when the

money system is placed firmly in the hands of persons who are truly responsible to the nation's people,—*only then* will this battle for this nation's life and health be won.

This Awareness indicates there have been many mistakes made during the course of this nation's growth and development, particularly those mistakes which are associated with granting or allowing power to be misused by entities who were geniuses in building and wielding power, but who were idiots in all other levels of human sensitivity. And there were those mistakes relating unto hostilities and prejudices in terms of class, cultures, economic, racial, sexual, emotional, mental, religious and age distinctions; yet the breaking down of these barriers is increasing the opportunity for entities to discover one another, to relate more closely to one another, and this leads to greater sensitivity and respect for one another's individuality and to a deeper understanding of one another.

This Awareness indicates the action of breaking down the economic barriers, which shall soon see food, shelter, clothing, medical care, and education *guaranteed* by the governmental systems shall become the cornerstone to the New Age Government. As this becomes more and more important and moves more into focus during this decade, there shall be a freeing, a breaking, a falling away of the bonds and chains of the money changers; and as these chains fall away, the nets and entrapments that have shackled the minds of humans for these many thousand years under the hypnotic powers of money and mind-manipulators, shall also be removed whereby the truths shall at last be seen and shall make you free.

This Awareness suggests the *Declaration of Independence* be read anew with a rededication to freedom from tyranny; that this be read in light of what is occurring in present time in this nation and in the world today, in relation to those influences from the halls of the money powers, who in effect are the keys to the present day tyranny; and this Awareness suggests that a new dedication to the restoration of the principles *as granted* by the Constitution of these United States and the Bill of Rights is in order, and is *essential* if freedom is to be preserved for your children and your children's children.

This Awareness indicates the future freedom of this nation shall prevail through careful vigilance, through the careful groundwork placed in your documents, through the sensitivity toward one another, through dignity of the people, through the deep seated karmic memory of entities who have experienced these freedoms, and through the resurgence of appreciation which this Bicentennial Birthdate has created across this nation as a birthdate reminder of these principles.

This Awareness indicates that the consciousness of this nation during this past six months has risen to such a degree that the dangers of dictatorship which threatened heavily earlier in this year have been set back and weakened considerably, the timing of the Beast is off, and the chances of overpowering the spirit of freedom by manipulation of an economic crisis has degenerated greatly; therefore, entities in continuing to be watchful of these principles can not only continue the course, purpose and direction of this nation, but have it within their consciousness and the growing consciousness which is flooding in on this plane, the power to communicate and the chance to start anew, the ability to begin again on an even greater scale.

This Awareness indicates that the ship of state, this United States and the freedoms and rights exemplified in its documents, have become the foundation for an expansion of the principles of freedom which moves across borders, nations, seas and continents throughout the world, giving other entities the chance for freedoms which those of this nation have enjoyed. This Awareness indicates as

these concepts spread toward a new world order,--that which has been called the *Unified States of Awareness*, --which has no boundaries and is not nationalized nor confined to the third dimensional physical plane but exists in that Next Frontier of consciousness from which all forms and images come, and into which all must return,--shall open to your people that space unlimited wherein freedom's torch becomes the light that lightens the loads and lifts the burdens from the backs of Humankind.

In these spreading freedoms, in these *Unified States of Awareness*, wherein all entities are free to work together, to co-create, to allow each other space to make the space for others to have a space, to come together to co-create more space,--these actions will begin to spread the joys and benefits to all who walk the earth. This shall develop during these coming years, as the threat of the Lurking Beast are but a temporary menace to be suffered while the masses awaken to the coming of the Christ, the Crystal clear Consciousness that even now is working Its wonders upon this plane.

**DOES WEARING
BAD FITTING SHOES
CAUSE CANCER
OF THE BREAST?**

(WHY WOMEN SHOULDN'T
WEAR HIGH HEELS)

QUESTION:

Some time back, I clipped a small article in the *Journal of Natural Health and Parapsychology* magazine written by Dr. S.J. Wickler, a chiropodist (foot doctor) of Baltimore, Maryland, which I'd like to read and ask Awareness if this is valid. He claims that cancer of the breast in women is caused by wearing bad shoes. He says:

"Cancer of the breast is commonly found on the upper outer part of the breast. The female breast is normally supported by strong bands of fibrous tissue that arise from the collar bone and the breast bone. In effect, the breast is swung between these strong bands of fiber. No matter how heavy or pendulous the breasts may be, these bands seem quite equal to their task of support. In the usual posture, resulting from deformed feet, however, the front of the chest, instead of being convex and facing upward in its upper part, now becomes flattened. The shoulders and armpits become more prominent than the breast. Mechanically then, the breast must now receive its support from the tissues arising from the armpits. Unfortunately, these tissues are weak, and unable to support the breast adequately. As a result there is perpetual strain on the tissues of the upper outer side of the breast,—exactly the site where cancer is most frequency encountered.

"Cancer of the breast in women is common only where modern deforming shoes are worn. In America and Europe, wide-spread cancer of the breast was rather rare until the advent of modern deforming shoes, and is still rare in non-shoe wearing civilizations. For example, Dr. Livingstone saw many cases of cancer among English women, but in his years of practice in the jungles of Africa he saw not a single case of cancer among those habitually bare-footed natives. The injuries arising from disabled feet can be related to cancer in other parts of the body, such as the uterus, prostate, liver, stomach, brain, and various organs of the digestive canal." (The end of article).

COSMIC AWARENESS:

This Awareness indicates that there is some truth to this finding. This Awareness indicates this also is associated with the currents of energies which run through the body as associated with acupuncture and acupressure meridians. This Awareness indicates that it appears however, that this as not being the sole cause of this condition; that there also are other causes associated with diet, with the types of clothing worn, with the stress of living, with psychological pressures and personal experiences.

This Awareness indicates that cancer is to a large degree the result of an experience of rejection, the reaction to rejection or loss; that rejection and loss being a strong contributor to an attitude which allows for cancer to develop.

This Awareness indicates that the physical strains on tissues as that which also can center these energies in particular areas and make them more vulnerable. This Awareness suggests that the use of high heels as having other dangers beside this. The use of high heels affects the skeleton structure of the body in such a manner as to create difficulties of the spine and hips, so as to cause nerve stresses and strains as well as muscular problems and spinal difficulties. This Awareness indicates that it is better for entities to use lower heels as much as is possible.

"VITA FLORUM" — IS THIS REALLY A UNIVERSAL REMEDY AND CURE-ALL ?

(MORE ON LOURDES WATER)

QUESTION:

A question from J.K. in Detroit. He writes:
"Cosmic Awareness, I just received the *New Atlantean Journal*, and it has a very interesting article on VITA FLORUM. I will quote the key parts here... "VITA FLORUM is a unique healing agent derived from flowers, which has been quoted by a British doctor as having the potential to heal everything, and everybody.

"Unlike the Bach Flower remedies, it requires no diagnosis, since it consists of one single preparation. Unlike homeopathy which works on the vaccination principle, VITA FLORUM provides the vitality needed to overcome the pathogenic condition, whether it be in the body or the more subtle bodies, says Elizabeth Bellhouse, discoverer of VITA FLORUM, who was divinely guided to its method of preparation, 13 years ago.

"A student of flower remedies since 1945, Mrs. Bellhouse was at one point the foremost practitioner of the Bach remedies in Britain. Dr. Alex Forbes, Britain's foremost authority on fringe medicine, and a consultant to the World Health Organization says: "VITA FLORUM might really prove at last to be the magic bullet, the therapeutic cure-all that Erlich sought in the chemical field and that everybody has failed to find.

"It should not be regarded as a medicine, but as a harmonizing agent, that opens the way for psychological and spiritual growth, and subsequently heals." VITA FLORUM works on every thing and every body as a general tonic, and in more frequent doses as a therapeutic agent. Mrs. Bellhouse says: "With VITA FLORUM you are not treating the body at all. You are helping the spirit to come through the personality.

"VITA FLORUM is essentially a spiritual conductor which makes it possible for the inner perfection, spark of divinity, to bypass the inbuilt trauma-inducing conditions locked into the body's fabric. I have claimed there is one basic defect in creation: Distrust of God, which causes a flaw in the fabric of the great Love that should knit all things into oneness. Theoretically, for one defect to manifest throughout creation, only one remedy should be necessary for all created things. I am convinced that this universal remedy is part of the Creator's plan. It is truly blessed."

J.K.'s question boils down to: "Cosmic Awareness, does VITA FLORUM really work? Is it a universal remedy that makes it possible for the inner perfection to bypass the inbuilt trauma-inducing conditions locked into the body's fabric by the distrust of God?"

COSMIC AWARENESS:

This Awareness indicates that this substance does appear to have much healing effect; that it does not appear that it will be effective on every individual, the same; that it does appear, however, that this will have a beneficial effect on most entities who partake of the substance. That in some cases it can be quite miraculous in its effect. This Awareness indicates there is no way of giving it a blanket approval in the sense of being the cure-all for everyone and every disease, although it can have profound effects on entities, depending on their particular condition and attitude toward the substance.

This Awareness indicates that the attitude does play a minor part in the effectiveness of this, and can enhance or deny its effectiveness, depending on whether an entity firmly believes in the substance or is skeptical in its use. This Awareness indicates however, that in general, it can be of great benefit to entities.

(FOLLOW-UP QUESTION):

It just happens that I have a copy of the original article that prompted this question, and there is some further interesting information that should be checked out. It says, "VITA FLORUM comes in the form of water, ointment, lotion, massage oil, talcum powder, animal preparation, soil conditioner and foliage spray for plants." It doesn't say it comes as something you can eat, but it might. Would Awareness suggest any of these uses, or all of these for entities to use, or a particular one?

COSMIC AWARENESS:

This Awareness indicates that these all appear to have their own particular uses and applications. It appears that the substance as being harmless in terms of any side-effects, although it is possible that in some rare situations, entities may be somewhat allergic to the substance. That this would occur only in isolated cases among certain individuals.

(FOLLOW-UP QUESTION):

I'll read a couple of the testimonials in the article:

"VITA FLORUM saved Jean St. John from certain disfigurement after a gas stove blew up in her face. VITA FLORUM was immediately applied to the burns, which healed in a remarkably short space of time, leaving no scars. Out of gratitude, Mrs. St. John, a member of the Rockefeller family, donated her fashionably located mews flat to the Elizabeth Bellhouse Foundation.

"Frank Rowe, a leading British chrysanthemum breeder, who numbers the Queen among his clients, wrote: "Since we have used VITA FLORUM, several customers have commented on the improved vigour of all our stock. It gives the plants the will to live."

And the final testimonial: "A hopelessly retarded 22 year old man at a west of England Mental Hospital, who had never learned to walk or talk, who took no interest in his surroundings and was so hyper-active he was confined to a strait-jacket to prevent him from injury, was given VITA FLORUM in the usual way, that is, externally and internally, with the grudging approval of his doctor. So, instead of getting the frequent number of doses that such a serious condition called for, treatment was only sporadic. Yet, within days, he had recovered so dramatically that for the first time in his life he was on his feet, learning to talk, taking an interest in his surroundings and no longer is in a straight-jacket."

My question is: Is this VITA FLORUM more of a placebo type of substance, or does it work on the mind, like Lourdes Water, or has it definitely got something more going for it, as these testimonials imply?

Lourdes Water Not Just a Placebo

COSMIC AWARENESS:

This Awareness indicates that this as negative; that this is not a placebo, although as indicated previously, the attitude plays a minor effect on the efficiency of the substance. This Awareness indicates that it definitely does have a healing effect and in general, can be quite beneficial for most entities. This Awareness indicates also, that the Lourdes Water as not simply a placebo; that this water as that which does have certain properties of a healing nature, containing elements both known and unknown, which are beneficial to the human health.

ED's Note: Since this reading was given, the *New Atlantean Journal* has suspended publication, (at least we have not been getting any copies, and we have been subscribing for years). According to this article, VITA FLORUM can be obtained from VITA FLORUM Products, Box 85, Station A, Toronto, Ontario, Canada. (Telephone 964-1126). They also distribute Mrs. Bellhouse's recently published book: *Measureless Healing*.

Please Note: The CAC staff has not tried VITA FLORUM and will not accept any responsibility for any one buying this product. Our job is to publish information we feel would be helpful to the membership, and it is up to you if you wish to pursue any further stuff like this which we mention in our publication. We would like to hear from those of you who have used this product or any of you who plan to. It is one of those things that sounds almost too good to be true. (But maybe it isn't!).

CAN YOU MAKE YOUR BODY AVAILABLE FOR A WALK-IN?

QUESTION:

H.P. has written in several times with a question she wanted us to ask Awareness. Essentially, she wishes to make her body available for a Wanderer or a walk-in, to make use of her. Such action would necessitate her leaving her body, wouldn't it? What does Awareness say about that suggestion?

COSMIC AWARENESS:

This Awareness indicates that the willingness of the entity to release the physical body to another is, in part, a type of death wish, wherein the entity is seeking to escape from physical confinement. That this also in part is an action, an offer to allow the body to be used by another for the purposes of benefit to humanity. This Awareness indicates that it appears that this is not likely to occur as a complete transition; rather, that the indications are that this entity herself will continue to use this body and to be of service to others, in part on this plane, and in part on other planes, as she gradually loosens herself from the confines of the physical form.

This Awareness indicates that it appears this entity as being capable and desirous of letting go of attachments of a physical nature, gradually experiencing out-of-body journeys, whereby she travels to other planes. This Awareness indicates it is not inconceivable that another entity might enter her body while she is of-body experience, yet it is not likely that this will occur. This Awareness indicates that there are not a great number of entities seeking to enter into this plane at this time, except through the bodies of children, through the normal process of birth.

This Awareness indicates there are of course those forces which may seek to communicate through the bodies of others, but the types of higher beings which this entity is desirous of are not at this time attempting to inhabit the bodies of those who are presently on this plane in adult bodies. There are some astral types of a lower nature who occasionally seek to possess the body of others; however, this is not what this entity is desirous of.

TRIVIA OF THE WEEK DEPT.

HOW "PSYCHIC" IS PAT ROBERTSON?

QUESTION:

a question from L.Q., Athens, Indiana. She says: "I would like for you to ask Awareness to comment on Pat Robertson and the 700 Club. He is as psychic as anyone I've ever seen on TV, and yet he says psychics are the work of the devil." Would Awareness comment on that statement?

COSMIC AWARENESS:

This Awareness indicates that *It* can find little to comment on of any significance. This Awareness indicates this entity as parroting favorite slogans of many who fear that which they do not understand, and who claim to be righteous and all-knowing in their righteousness.

ED's Note: The lady who asked this question has probably observed Robertson during one of his TV 'healing' sessions whereby, without ever having met any of the faithful out there, make statements like: "Someone out there has a cataract. This person appears to be a male, wearing a yellow tie. In the name of JEE-SUS, I declare you healed!" This is of course accomplished with appropriate facial expressions, closed eyes, hands gripping a sweating forehead, as these amazing celestial insights are delivered to his wide-eyed audience, leaning forward in their seats, straining to see the miracle that is forthcoming. Phone calls and videos are then shown which prove the miracle occurred.

If Robertson tries the same stunt in front of a live audience or in his church, and if he is using the same techniques that some of his contemporary evangelists (like faith healer, Peter Popoff, who claims millions watch his TV shows), are doing, what the audience doesn't know is that the healer's wife or associate has mingled with the audience before the show and talked to certain ones about their problems. And from behind the stage, this entity is talking to the evangelist through a short-wave radio, the receiver of which is concealed in his ear, and it is this information he broadcasts out to his astounded audience. (This could be the type of thing that created the impression that the entity was 'psychic' if indeed, he uses the same tactics of his fellow evangelist, Rev. Peter Popoff). Recently, James Randi, who bills himself as the 'Amazing Randi', appeared on the Johnny Carson show and revealed on video tape how Popoff and other 'faith healers' use these shabby techniques to fool their public. (You could actually hear the words of Popoff's wife coaching him on exactly what to say during his healing act). Randi has also written a book which exposes quackery and frauds in other fields, including some of the psychic surgeons of the Philippines. On one particular show, Randi revealed how these TV evangelists travel around with all sorts of electronic gear designed to defraud the audience, as well as about 30 wheelchairs which they fill with certain paid associates who, when miraculously 'healed' leap out of the wheelchair, hollaring, "Hallelujah! Praise Jesus" etc. etc.

At the moment, 'ol Pat is waiting for Jesus to inform him whether he should run for President of the United States. If he's wired like some of those TV buddies of his being exposed by the 'Amazing Randi', maybe one of these nights his TV audience will hear: "This is JE-SUS speaking. I say, go for it, Pat!" (For more on Popoff's fraud, and more on Robertson, get the Summer 1986 issue of *Free Inquiry* magazine. \$3.75, Box 5, Buffalo, N.Y. 14215 (\$18 for one year. It's worth it!).

IS IT POSSIBLE TO HAVE CHILDREN AND NOT REGISTER THEM WITH THE AUTHORITIES ?

QUESTION:

A question from S.M. in Florida. He writes: "It has been suggested through the information relating to the *Universal Life Players Guild* that we do not have to have a name or number and can change our name if we choose, implying that our names and numbers can be used as a control mechanism by the Beast computer forces. What we are thinking is that we should perhaps *not* register our child with the state when it is born. It would be born at home so there would be no difficulty in not registering the birth. The child would not be able to get a driver's license or a passport, but he or she would also be able to function undetected by the Beast. This would be an act of faith in the Unified States of Awareness, but is it a wise thing to do?"

COSMIC AWARENESS:

This Awareness indicates this as a rather difficult thing to do; that there are entities who do this. This Awareness suggests however, that shortly after the child is born, there will likely be a visitor from the health department who will wish to register the child. This Awareness suggests that if you decide to avoid such registration, you may need to move quickly to another place.

This Awareness suggests that many areas, many hospitals are now tattooing numbers upon the feet of children at birth. This Awareness suggests that the likelihood of the number system being completed and brought to bear upon entities is, at this time, somewhat questionable. That the information which has been sent out, which is being sent out, which will circulate in the coming month, is growing increasingly strong, and more and more entities are becoming aware of the dangers of the computer misuse and are being alerted, not only from this Interpreter, but from many other Interpreters of different religions, whereby this information is beginning to circulate more and more through the mails and through the churches, warning entities of the dangers.

This Awareness indicates that there are also great awakenings in other nations as to what has been brewing, and many of these nations are throwing off the yoke of the Beast. That now more than ever before there is a greater hope that the Beast shall not be able to fulfill its intentions,—this partly because many entities are awakening and refusing to cooperate with the Beast, that this is also because there are certain interferences with the Beast from other nations, and many of these being influenced by forces outside this plane.

THE OHM MEDITATION FOR VISUALIZING

(WHAT CAUSES RINGING IN THE EARS?)

(Excerpt from a Personal Reading)

QUESTION:

I'd like to ask for specific assistance in meditation. I can't visualize anything. I've had a ringing in my ears since 1962 (diagnosed as hereditary neurosensory deafness) which roars in a quiet room so I couldn't hear any kind of voice. I fall asleep sometimes, I usually get a severe shooting pain in the vertebrae in my neck. I need direction.

COSMIC AWARENESS:

This Awareness indicates that in terms of meditation, that in order for you to visualize images, light must spill over from the optic nerve; that as excess light enters into the optic nerve areas and spills over, there often becomes a ringing in the ears. That in your case there has been an excessive spilling of this energy; that this contains an emission from the pituitary. This Awareness indicates that a secretion of certain hormones from the pituitary as spilling into the area of the ears as that which does create the ringing sensation; that this as a certain level of meditation achieved during that which is spoken of in Yogananda's works as OHM meditation.

This Awareness indicates that in terms of visualizing, that you are capable of seeing images by pressing just slightly on the outside corners of your eyes, while holding a finger over the third eye between the eyebrows; that you practice this briefly a few days along with deep breathing exercises

This Awareness suggests that the inbreath of 12 counts, held for 12, and exhaled for 12 as that which constitutes one meditation breath for this action. That you do 12 of these breaths. That in the same time of the breathing action you place your elbows upon a table and your forefingers on the third eye area, placing the ring finger slightly touching the eyes on the outside corners. Thumbs may close the ears. This Awareness indicates that in holding the breath during the breathing exercise, that you not lock the throat but simply hold the breath in with the diaphragm out. That in this action, one who taps upon your diaphragm would cause an exhalation of air; that this as the correct action.

This Awareness suggests that in visualizing these images, you will first see patterns and showers of light as you touch the sides of the eyes; that the oxygen entering into the brain does carry with it that which is light; that the light itself is included as that which has been termed prana. That this light of prana within the oxygen does permeate the brain and particularly the pituitary and pineal. That in this penetration of these two psychic centers that the spilling out into the optic nerve does allow that image to be seen. These images shall shift and change. That you not try to see anything in particular, but that you simply look to see what is happening. This may be likened unto a movie wherein

This Awareness indicates that if the Beast does manage to create the numbering system upon the hands of entities, the earth itself is not likely to survive. Therefore, the Intergalactic Command is assisting as much as is possible, according to their own treaties, to inform entities, to awaken entities, to assist entities upon this plane to avoid the marking system. This Awareness indicates that there also is a grand likelihood that more and more entities will awaken and thereby avoid the Mark of the Beast.

This Awareness indicates that *It* is telling you this, not so that you can become complacent and fall back asleep, ignoring the concerns, but to allow you to know that by being awake and by awakening others, the likelihood of the Beast using the marking system is that which is diminishing more and more. And as time passes, the more time available, the less chance of it occurring.

This Awareness indicates that increased awareness and increased time for that awareness to expand, is that which prevents the Beast from running its trip upon humanity and marking their hands. This Awareness indicates in your particular case, if you have a safe birth at home, without the child being marked, this as appropriate. But wherein there is any danger of the child being delivered whereby a problem might occur, this Awareness suggests that you have this birth at a place which would be safe. This Awareness indicates there are certain Birth Centers which are being created and are in action at this time whereby the child may be born safely and still not marked.

ED's Note: This question was asked at a CAC general reading back in January, 1979, when the Beast energies held the upper hand. It was during this time that CAC released the "Gathering Storm" material, which started to reverse these energies of the Beast as more and more entities became aware of its savage plan. This is one of the many readings which did not get published during those heavy times, which CAC is now releasing so that one day historians might put all the pieces of this picture together and perceive what a heavy trip the Beast had planned for humanity, and how close, how terribly close, this incredible scheme of the Beast actually came to being implemented.

"I know it is a freer press than any prevailing in communist or fascist countries; but that is nothing to be complacent about. It is a press that has generally grown comfortable, fat and self-righteous; and which with some noteworthy exceptions voices the prejudices and preconceptions of entrenched wealth rather than those qualities of critical inquiry and rebellious spirit we associate with our noblest journalistic traditions."
— James Wechler
former editor, *New York Post*

you do not try to write the plot or create the scenes as you visualize this movie upon the screen, but rather sit and watch receptively to see what happens.

A PERSONAL EXAMPLE OF THE MULTIDIMENSIONAL REALITY AT WORK

QUESTION:

We have a question from Miss C.F., of Little Rock, Arkansas. This entity has been rather persistent in sending in letters about her problem, so we thought we would ask Awareness. I'll read part of her statement:

"I'd awoken at three thirty in the morning and a man had either breathed on me or blown on me. He jumped back very quickly, raised his hands up and a little behind him, as he was saying: 'Look, here are your people.' There were two men behind him--one a little behind on the left, another a little behind the second man to the left. And some distance behind them, about ten feet approximately, were a line of men and women.

"It only lasted a few seconds, then I fell back down through my mind. About two weeks before it happened I was watching something on TV one night and the word 'Love', as though written in light appeared up and to the right corner of the TV screen and a star was beneath it. I seemed to know intuitively that I was the star and that the 'Love' was my egoic family loving me. And, they were miles above me--a star. When I fell back down through my mind that morning it was as though I fell miles down into this world we live in, all in a matter of a few seconds. I thought they would come back and rescue me but I have not seen them again. The question is: Is there a way I can get up to my egoic family and become a permanent resident of their world? I have seen these people. They are waiting for me to come up there, but I do not know how to get up there. And probably there is nothing I can do about getting up there under any circumstances."

COSMIC AWARENESS:

This Awareness suggests that this universe is multi-dimensional; that within this plane there are the vibrations which make matter appear to be solid. This Awareness indicates that in reality the material world which entities see is only a slight shift away, and this shift comes about through a slight shift in the consciousness of entities; this relating unto changing the channel within yourself to a different wavelength, to a different vibration. The channel is changed through imagination, through imaging. There is a nation of images available for every entity to channel into, and these channels can create even more nations and more images. This Awareness indicates that these images known as 'imagination' are not just fantasy, but are realities, and anything any entity imagines exists to some degree; and

the more energies sent toward that image, the more solid that image becomes and the more lasting and durable that image becomes. This Awareness indicates that fixing an image wherein many entities take turns in keeping that image alive, in keeping that form manifest,--this has a way of producing that which appears to be solid and lasting.

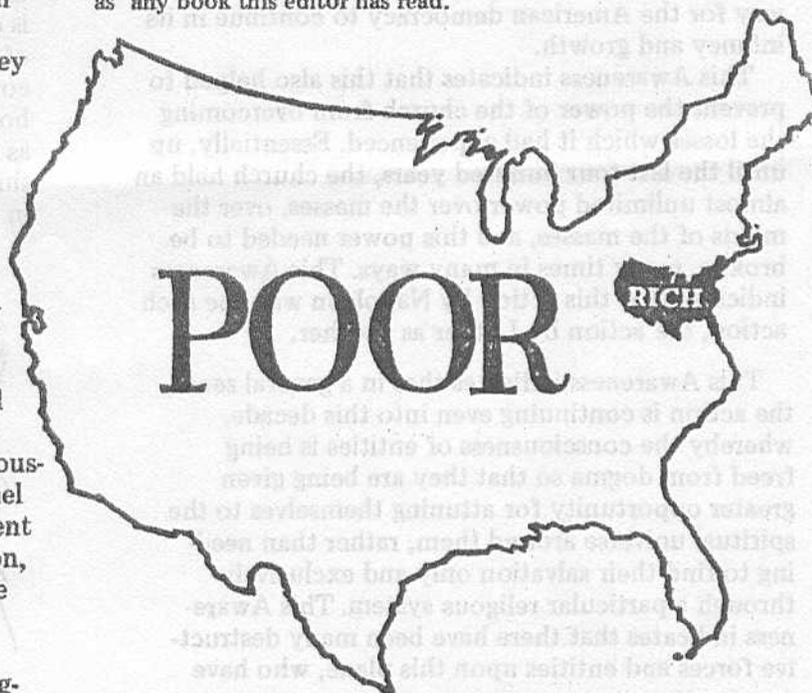

This Awareness suggests that in your particular case, you, your consciousness, looked into another dimension. There is an aspect of yourself which resides in that dimension at this time, and you can tune into that dimension during certain states of sleep and rejoin that aspect of yourself.

This Awareness suggests that you read the works of Jane Roberts in relation to multiple personalities. This Awareness suggests that the multidimensional personalities, wherein entities live in different dimensions simultaneously, as that which relates unto you and unto this situation.

This Awareness suggests that for you on this plane however, you need not concern yourself with escaping or being rescued, but, suggests that you concern yourself with integrating into what you are here for and in doing that action which is required of you in this particular plane. This Awareness suggests that there is a purpose for you in being here where you are. This purpose comes about when you accept yourself as you are, where you are, doing what it is that is urgent this moment, and this, and this, and this.

This Awareness suggests you read the book: *Be Here Now*, by Baba Ram Dass.

ED's Note: The books by Jane Roberts that Awareness is referring to are: *Seth Speaks*, and *The Nature of Personal Reality*. CAC permanently stocks these Seth books. (Please refer to the CAC book catalog). These books, by the way, come as close to the Awareness information as any book this editor has read.

THE STATES OF THE UNION

THE ACCOMPLISHMENTS OF NAPOLEON--A BLOOD-SOAKED WANDERER

QUESTION:

Awareness has indicated that the Wanderers and Voyagers come to this plane to uplift consciousness. In a previous reading given today, Awareness mentioned Napoleon was such an entity. Ever since that statement was uttered, I have been wondering *how* consciousness was lifted by him in that lifetime of slaughter, sorrow and suffering which he and his armies created for millions, or did he just simply blow his mission?

COSMIC AWARENESS:

This Awareness indicates this entity essentially lost sight of his purpose, and the entity allowed other forces to manipulate and control him; this entity was rebelling against the hierarchy formed by the church, and by the powers of various nations. This Awareness indicates it was with Napoleon that the church and state were first separated. The church prepared to crown Napoleon as Emperor, but Napoleon had the audacity to take the crown and to place this upon his own head, this symbolic of Napoleon crowning himself rather than accepting the crown from the church. This Awareness indicates that in this action, it brought a change in consciousness that has shaken the world in ways not fully recognized. This took power away from the church and created a new kind of power, for the political or governments of the future world, so that temporal and spiritual powers would be separated, and mundane affairs would be carried on for the nations without the interference of the religious controls and dogmas. That this paved the way for the American democracy to continue in its infancy and growth.

This Awareness indicates that this also helped to prevent the power of the church from overcoming the losses which it had experienced. Essentially, up until the last four hundred years, the church held an almost unlimited power over the masses, over the minds of the masses, and this power needed to be broken, many times in many ways. This Awareness indicates that this action by Napoleon was one such action, the action by Luther as another.

This Awareness indicates that in a general sense, the action is continuing even into this decade, whereby the consciousness of entities is being freed from dogma so that they are being given greater opportunity for attuning themselves to the spiritual universe around them, rather than needing to find their salvation only and exclusively through a particular religious system. This Awareness indicates that there have been many destructive forces and entities upon this plane, who have

been used by forces which appear negative on one level, but which on another level have resulted in positive means or positive ends; that the negative on one level may be positive on another and vice versa.

This Awareness suggests the entity Napoleon as not having graced this planet with great accomplishments, but as having accomplished some good and having caused great tragedy to many. This Awareness indicates the entity was playing out a karmic game with the energies which had been set in motion by the Illuminati and its forces, and this game as that which brought back its own karma according to the Law of Gratitude.

This Awareness indicates this as having a parallel in the actions of Adolf Hitler, that this information has been touched upon elsewhere.

IN THE BODY DURING MEDITATION IS THERE ANY CHEMICAL CHANGES?

QUESTION:

A question from N.B. in Alaska: "During meditation as well as other states of spiritual harmony, does a person's body chemistry go through any special changes? If so, could Awareness please elaborate?"

COSMIC AWARENESS:

This Awareness indicates that this is in relation to different mental wavelengths, as may be studied through Alpha, Beta, Delta and Theta type waves; that this also having an effect on the aura; that in reference to this, this can also affect the vital energies of the body, even to the cellular levels. This Awareness indicates that in this sense, there can be that which might be termed a chemical change, but the measurement of chemicals in the body would be most difficult. This Awareness indicates in certain of these meditative states, the use of certain energies is consumed more greatly than during other states of consciousness. For example, in high levels of concentration, in high levels of meditation, the body uses more potassium, more niacin, as well as other chemicals, vitamins and minerals. That in this sense, the answer to your question would be in the affirmative.
