Helping People Become Aware

THE TEMPTATION OF JESUS

And the devil, taking him up into an high mountain, shewed unto him all the kingdoms of the world in a moment of time...(Luke 4: 5)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

DID THE DEVIL ORIGINATE AT THE TIME OF JESUS?

(HOW THE PASSION PLAY AND RELIGION RULED THE PEOPLE FOR AGES)

QUESTION:

A question from A.M., Palm Beach, Fla. "I have come up with another question for Awareness and I'm surprised that no one seems to have asked it. I know Awareness has indicated that the Old Testament is made up of different books from different faiths, and yet I find that the mention of Lucifer, Satan or the devil has never been mentioned in it. It only states sin, or one's enemy. Yet when we get into the New Testament, all mention of the devil is stated in it. Even Adam and Eve's story mentioned the serpent, yet Christians refer to it as the devil. Can Awareness inform us if at the time of Jesus that the devil first came into existence or just when Lucifer came into being?"

COSMIC AWARENESS:

This Awareness indicates that the Lucifer terminology as that which related to the Babylonian god; that this term Lucifer as in reality meaning light. This Awareness indicates that the term 'devil' as that which came from the Hindu devas; that these as gods or certain types of spiritual beings who were rulers of various concepts and ideas akin to the Hindu philosophy, that the Christians, and many other religious philosophies, borrowed from various mystery schools around the world to put together the philosophy.

This Awareness indicates essentially, the entity Jesus traveled during the missing years from place to place and studied in mystery schools, in secret schools, the teachings; this including Egypt, including India, including Tibet and Persia, as well as the Babylonian and Hebrew philosophies. This Awareness indicates that likewise, the location of the Middle East made this the crossroads for many various religions between the Orient, Tibet, India and Egypt, and therefore, much of the Hebrew philosophy of the time was greatly influenced by these various religions.

This Awareness indicates that essentially, religions ruled the people's minds as much as, if not more so, than present economic and political systems rule the people's minds today. That therefore, a society during those times would pick and choose various religious aspects from different origins and put together their particular religious belief system in order to control the masses; not too unlike nations today, which pick and choose from political systems in order to set up a proper system for controlling their people.

This Awareness indicates that the Hebrew religion borrowed heavily from concepts of the Egyptians and Babylonians, but of course, in order to make this individual for their own people, names were changed and altered; likewise, the Christian religion borrowed from the Mithraism, the Gnostics, the Jamins, the Sadducees and from Tibetan and Indian religious systems. This Awareness indicates it also borrowed from the Chaldean and Babylonians and brought much of this together into the mystery school teachings. This Awareness indicates that it also borrowed from certain Hebrew teachings in the general location and brought these together to form a structure which became a lifestyle. This particularly drew on the Essene system or lifestyle which, in turn, was compiled from various teachings, these various Essene teachings drawing heavily from what the entities felt to be the most compatible for their needs.

How the Devil Began

This Awareness indicates that the tendency of religions of that time was to imply that theirs was the best and others were in error. (This Awareness indicates this may be somewhat strange to modern religion followers to think that such concepts ever existed.) This Awareness indicates however, that at that time, the various religions would tend to make the deities of other religions appear to be as false gods, while their religious deities were true gods. That in this sense, the term 'deva' of the Hindu philosophy became gradually distorted and translated to

'devil.' This Awareness indicates however, that the concept of a devil in a personified sense such as is commonly understood in fundamentalist teachings today, did not really begin taking root in its present sense until centuries later.

This Awareness indicates that during the Medieval times when various artists would draw these principles into personified beings, they drew heavily from the Greek concept of Pan, the Greek Pan being part goat and part human; that this entity often depicted as having horns and a tail. This Awareness indicates that this, in turn, led people to believe that the devil was an entity with horns and a tail. This Awareness indicates that the term 'scapegoat' and the concept of the devil being symbolized by a goat, this as all closely related to the confusion of Pan and that which is the concept of the devil, along with the belief that some entity runs around calling himself 'devil' and others, recognizing him in passing, refer to him as 'the devil' -- "There goes the devil!"

This Awareness indicates that this as but a creation of the human mind. That there are, in fact, beings who have a negative nature who are identified with the darkness of those qualities which entities associate with as evil. This Awareness indicates there are entities even who move into such identification with these forces as to personify the Force of Darkness. This Awareness indicates that in various teachings of pagans and witchcraft there may also be entities who, identifying so much with the dark forces using the symbol of the goat-man as an image for the devil, may even get into the practice of devil worship.

How Energy Follows Thought

This Awareness indicates that as has been given before, energy which is given does tend to create the manifestation for which the energy is given. That energy follows thought, and thought creates with energy; therefore, the devil worshipers can create an energy field in which a Dark Force being may enter and may use that energy field according to the belief systems of those who believe in that being.

This Awareness indicates that likewise, the worshipers of light may also contribute energy to the Dark Force being by recognizing the power of the devil, the existence of the devil and may insist that the devil is well and healthy in the earth and may use their energy in focusing the attention of others upon the devil. This Awareness indicates this action also energizes the devil's energies; that in this way, entities can, in fact, help to contribute and give energy to these concepts, so that a personification of the image may be actually seen by others.

This Awareness indicates that during the Dark Ages, during the Middle Ages, there were many entities who were so strong in their belief in the devil that they actually saw the devil personified before them, just as entities can be so extreme and certain in their belief of angels that they see these personified before them. That this action of feeding energy to the spirits allows these spirits to have the necessary energy to manifest temporarily into the physical plane. That likewise, feeding energy of a certain nature to a physical being can also turn that entity into what would appear to be a devil or a god, depending on the way the energy is given and the type of energy given.

This Awareness indicates that the word 'divine' also comes from the Hindu term 'deva'. That the terminology in languages whereby entities begin to note the

interrelationship of words between cultures and various languages, entities may begin understanding how cultures borrow various concepts and words from each other. This is a simple realization and is commonly understood by most entities, but for some reason, entities do not quite conceive of the possibility that their deities and the principles of their religions and their beliefs have also been borrowed from others, from other cultures.

The Principle of Remaining Ignorant (How Hypnotic Techniques are Used)

This Awareness indicates that if entities would take the time to do a comparative religious study (and there are hundreds of books on the subject), entities would be amazed at the overlapping relationships and similarities between the various religions. This Awareness indicates that most entities, however, simply assume by faith, by dogma, by rote, by repetition, by repeating the programming they have received, that they are right in their present worship and religious views, and all others are of the devil, or are ignorant, or are evil, and have no basis at all for existing, except under the premise of false religions. This Awareness indicates that entities might even be shocked to discover that the other religions often feel the same about *them*.

This Awareness indicates that the principle of remaining ignorant is to keep entities from discovering what *is*, by hypnotizing them to look at only what you want them to look at. This Awareness indicates this likened unto a hypnotist holding a bauble or pendulum or trinket or crystal before the subject's face, moving this back and forth and saying to the subject, "Repeat the name of this deity again, again, again, again, again, again, again, over and over and over, never question the power and righteousness of this particular deity, never stop repeating the name of this deity, do not look at the false deities of other hypnotists around you, beside you, behind you, never turn, never look, never listen to what they are saying. Listen only to my words, listen only to these words, these are the holy words, these are the only words of truth. Listen only to my voice, listen only to my voice, my voice is all you hear. Read only these words, read no other words. Watch this bauble, watch this name, watch this crystal. This is the only possible truthful way. This is the only truth there is. All others are lies. All is false except this."

This Awareness suggests you take this kind of hypnotic programming and insert various religious deities in as the name of the bauble and ask yourself which of these is using this system, or are all of these using this system. This Awareness suggests you may insert the name Krishna, you may insert the name Allah, you may insert the name Christ, you may insert the name Mohammed, you may insert the name whatever of any religious system, and you will find that essentially they are *all* using the same hypnotic technique of shutting out all questions and closing the mind through hypnotic suggestion to accept only that which they promote. [This Awareness indicates that obviously, however, the one which you are looking at and listening to is bound to be the right one and there is no need to question your own self, but the message this Awareness is giving may have application to others who are following other paths.]

FOR WHAT REASON DID JESUS STUDY IN THE MYSTERY SCHOOLS?

(FOLLOW-UP QUESTION):

Was the purpose of Jesus's studies in the mystery schools to sharpen skills he already intuitively had, or what was the function that these studies served?

COSMIC AWARENESS:

This Awareness indicates that this entity being born with a certain destiny as indicated by the time of birth and by the expectations placed upon the entity from those who saw the star and from the programming which the entity received before entering the physical plane,-- all of these, along with this entity's destiny, compelled the entity to perform a certain function. This Awareness indicates that likewise, each entity who comes into this earth has a particular function to perform, but whether the entities follow these programmings or take up new actions and create negative or positive karmas, whether entities find their destiny, will depend on their own sensitivity to themselves and their intended purposes.

This Awareness indicates this entity came into this earth and was compelled by inner feelings and inner guidance to search out the truth according to human values and concepts, and to explore these truths and to find that which is the most important and most necessary message and the appropriate way of delivering such a message as would best benefit the masses. This Awareness indicates that essentially, there were a number of entities who assisted in the staging of the life of Jesus upon this plane.

This Awareness indicates that John the Baptist was also one of the initiates of the secret teachings. Jesus being an initiate of the secret teaching, he being given the deeper and innermost secrets from the secret schools in Tibet, India and Egypt. This Awareness indicates this indicated previously in the material relating to the Kahunas, the builders, the carpenters, the priests known as the Kohena and the EIs or Ellois or Elohim.

This Awareness indicates that this secret, ancient, religious teaching unveiled to the entity Jesus was given in a pageant play, acted out on the stage of life, with the Middle East, various countries, various cities being the stage on which this cast performed their show for the historical records, to create a particular effect on consciousness to reverse the violence and the worship of power and to exemplify love and mercy as being the way.

AFTER THE BIRTH OF JESUS, HOW AWARE WAS HE OF HIS MISSION?

(FOLLOW-UP QUESTION):

It was necessary, then, to reacquaint on a conscious level these basic rules and information, although before entering the physical plane, this was already understood?

COSMIC AWARENESS:

This Awareness indicates this was understood subconsciously, but an action of reacquainting one's conscious mind so as to formulate and understand consciously in terms and words and concepts, this as necessary. This Awareness indicates that entities come into this world with an inclination toward certain actions, toward certain concepts, this according to the programming which is given to them subconsciously before entering.

This Awareness indicates however, that this inclination serves only as an instinctive guidance system to direct the entities to those particular structures, forms, actions and persons which will bring into the physical application the purposes and directions for their life. This Awareness indicates that this as obviously the reason why entities cannot be born speaking a particular language without first learning that language, why some entities can speak a particular language very easily, with little training, and why others cannot speak that language except by a very difficult learning process.

Why there are Vegetarians & Anti-War Activists

This Awareness indicates that in some instances, the entity has lived in the culture which spoke that language and the language is subconsciously familiar, and it takes very little conscious effort to regain the memory of the meanings of those words. That likewise, entities may have a propensity toward a particular philosophy: that many entities in the United States today who are very much into vegetarianism are, in fact, reflecting subconsciously on earlier lifetimes in the East, particularly Hindu lifetimes, whereby they were vegetarian by religion throughout the lifetime.

This Awareness indicates that others who have a strong propensity against war may have been involved in war which was of such a horrible experience to them that they vowed on the inner plane never again to participate or contribute to war. This Awareness indicates that many of the entities refusing to be drafted or taken to war are reincarnated from the Japanese and German armies of World War II, wherein they found that they were following false causes, and intuitively recognize similar false causes in today's life of war. This Awareness indicates that the tendencies of entities (if entities follow these tendencies), will direct them according to the lessons they have learned in between lives.

This Awareness indicates likewise, this entity Jesus did not come into the physical plane with a highly educated conscious mind, capable at birth of discussing the ramifications of the good life, of the soul, of the nature of the universe and of the nature of man, or of being able to perform miracle,--this was learned as the entity grew and developed and unfolded these inclinations and talents and capacity within himself.

VIETNAM VETERANS MEMORIAL

WAS JESUS REALLY TEMPTED BY THE DEVIL IN THE WILDERNESS?

(FOLLOW-UP QUESTION):

Awareness, one question in relation to the devil concept: According to the scripture, when Jesus went into the wilderness, he was tempted by the devil. My question is: was this an account of an allegory or was this an actual entity that manifested, and if so, who exactly was it?

COSMIC AWARENESS:

This Awareness indicates that this as a translation from earlier concepts. This Awareness reminds entities of the Polynesian philosophy of the Hunas, which is the most pure remains of the ancient religion present in today's literature. That the Christ Consciousness being the High Self or the Father in Heaven, the conscious mind being that which is the man Jesus, the son of God, and the subconscious mind being that which is the son of man, the low self of the Huna philosophy. The tempter as that which would attempt to draw the conscious mind from its true course toward divinity and to cause this conscious mind to become wrapped up in the illusions of matter; this essentially compares to the Hindu deity Kali.

This Awareness indicates that the earlier influences of Kali into the Middle East philosophies as that which later became a force personifying the concept of a negative or evil force which needed to be countered. Likewise, the name Satan came from the Egyptian word 'Set', and Set was nothing more than a term used to portray the influence of the planet Saturn.

The Astrological Relationship of Egyptian Deities

This Awareness indicates that the Egyptian deities essentially were symbolic of the astrological influences of the planets: the sun,--Ra, the moon,--Isis; that Horace as Mercury. This Awareness suggests that these planetary influences ruled the Egyptian lives, bringing them favors or disfavours, and the Egyptians did not feel competitive toward the gods of darkness, or the gods of light, or the gray gods, such as Anubis, who represents Pluto. This Awareness indicates the Egyptians simply accepted these causal gods or influences of the heavens, as part of their daily lives. This Awareness indicates that the Egyptians, Set or Saturn was simply the dark planet bringing dark experiences,--this not seen as evil, but as unpleasant experiences,--while the sun-god, Ra, brought light and happy or pleasant experiences; that Thoth, serving as Jupiter, brought forth bounty and abundance. This Awareness suggests that these concepts of the Egyptians were such that the good and evil which entities feel today in a sense of polarized competition was not experienced by the Egyptians, but that they experienced a recognition of light and darkness or pleasure and pain as being part of one process, just as day and night today are accepted without assuming that night is evil and day is good. This Awareness suggests that to the Egyptians, it would be unthinkable to have a group which worshiped day and hated darkness, or worshiped darkness and hated day. That likewise, it would be strange to see such a group today, worshiping night or day.

This Awareness indicates however, at present time, the worship of God and the worship of the devil are the outgrowth of Medieval extremes and influences which have come from many different sources and many different religions; that the extremes of polarities in these concepts has set one nation against another, one people against another, have set people within a single religion against each other, has set people within a family against each other.

A New Religion is Needed!

This Awareness indicates that there needs to be a religion established which promotes tolerance and understanding of differences of opinions, whereby entities have the right to disagree on religious matters, have the right to question religious concepts, have the right to explore religious ideas, have the right to search for truth without accepting someone else's version, have the right to explore all ideas, all beliefs, all forms of spiritual pursuits. This Awareness indicates that without such a religion, there is very little hope for humanity.

ED's Note: for more information on the devil, please refer to 'Revelations of Awareness' No. 82-17 (Introducing that Wicked Character Known as Satan); \$3.00 from CAC. More information on the various religious passion plays can be found in No. 80-20 (Should your Children be Taught the Fundamental Christian Religion?); \$3.00 from CAC. Also more info on both these subjects can be found in the CAC Backissues catalogs.

THE GOLDEN RULE

Confucianism

What you don't want done to yourself, don't do to others.

—Sixth Century B.C.

Buddhism

Hurt not others with that which pains thyself.

—Fifth Century B.C.

Jainism

In happiness and suffering, in joy and grief, we should regard all creatures as we regard our own self, and should refrain from inflicting upon others such injury as would appear undesirable to us if inflicted upon ourselves.

—Fifth Century B.C.

Zoroastrianism

Do not do unto others all that which is not well for oneself.

—Fifth Century B.C.

Classical Paganism

May I do to others as I would that they should do unto me.

Plato—Fourth Century B.C.

Hinduism

Do naught to others which if done to thee would cause thee pain.

Mahabharata—Third Century B.C.

Judaism

What is hateful to yourself, don't do to your fellow man.

Rabbi Hillel—First Century B.C.

Christianity

Whatsoever ye would that men should do to you, do ye even so to them.

Jesus of Nazareth—First Century A.D.

Sikhism

Treat others as thou wouldst be treated thyself.

—Sixteenth Century A.D.

EDITOR'S Note:

"Channeling" seems to be the 'in' thing these days. New channels seem to be popping up all over. CAC has been working with some of these new channels and periodically publishes some of the questions and answers we put to them. As a contrast to the regular Cosmic Awareness channelings we have been publishing exclusively for 15 years, we feel it is now time to offer our membership some views from yet another frame of reference to be considered. These channels have requested anonymity. To avoid any confusion, these new channelings, when they appear in these newsletters, will be listed simply as "QUESTION" and "ANSWER".

CAC invites your comments on this new material. (Avaton).

ONE NEW CHANNEL IDENTIFIES ITSELF

QUESTION:

For the enlightenment of the CAC membership, would the source of information coming through this channel please identify itself. In other words, what is that source which is coming through this vessel? What is that source that calls Itself Eternal?

ANSWER:

We are of the Supreme Consciousness, that which some call the Oversoul. That which is called the Christ Consciousness, the Krishna Consciousness. Some would call us the spirit of Vishnu, and some of Yahweh, and Yeshua, Jehova and the Elohim. It is the consciousness from within and from without. We are in all and all is in our consciousness. Cayce entered into the Light, yes, even Edgar Cayce, and spoke from this state of consciousness; yet to say who or what it is is hard to define, for you look for a single answer, when a single answer is not the total answer.

This vessel also is in the same state of consciousness from which Cayce worked, but the source of the information comes from both the subconscious within the individual, from the superconscious, or the Oversoul of the individual, from the Akashic Records, that which is written upon the Eternal Scrolls, from the angels of Light hurrying to and fro, from the thoughts projected by others, from the vibrational trends created and manifested. Yes, that is what it all comes back to: all comes from vibrational trends. We are the eternal. You may proceed as you will.

HOW DO WE KNOW AWARENESS IS NOT AN ALIEN FORCE?

QUESTION:

A question from S.R., Don Mills, Ontario. Awareness, you have mentioned in previous readings that alien forces can mislead us by giving accurate predictions and making us believe that they are "Light" forces. If they are separate from this Awareness, then where do they get the precise information that they predict? How can we be sure that this Awareness Itself is not an Alien force? Again, if you were an Alien force, then you would mislead us again in your effort to answer this question, although I am sure you ARE the total Awareness."

ANSWER:

Perceive this and perceive it clearly. There are but two ways of life: The way of good and the way of evil. The way of truth, the way of error. The way of love, the way of hate. The way of life, and the way of death. The way of giving and the way of getting. There are two ways. To follow the way of good, of truth and light is all that matters.

In the Light there is no darkness at all. Where there is no Light, there is darkness, total darkness. The question you ask has been touted since times immortal. Churches have used it. Religious societies have used it to divide the split, the struggle for power. Even the Pharisees and the Sadducees came to the man known as Jesus, saying: "It is by Beelzebub that you cast out evil spirits." Jesus did not argue. He simply said: "If a house be divided against itself it shall not stand."

His argument would have been futile. For there is no way to know of the Divine Truth except by revelation. So, of what benefit would it be that we might tell you we are or we are not of the Light, for if we say we are of the Light, you can say: "Yes, you are", or "You are a liar." Only through Divine Revelation can you find that answer for yourself. And you should not take any other man's word, but seek for Divine revelation. Ask and it shall be given, seek and you shall find. Seek the innermost paths of your own being to find. Listen to the small still voice crying from within, but remember, only through Divine Revelation can you find truth. Is this clear?

My daddy says nuclear missiles could hurt us

and even hurt our house, bringing down property values.

So daddy says we can build a rainbow around our house

and maybe the nuclear missiles will bounce off the rainbow

My daddy worries on Star Wars and says there's a pot of gold in that rainbow for us.

My daddy is smart. He really knows how to turn a buck.

WHY CAN'T ALL MEMBERS
OF CAC RECEIVE
THESE MESSAGES FOR FREE?

QUESTION:

A question from S.R. "Awareness, you have mentioned that mind can manifest and create anything. Why is it that this Awareness does not create money for the CAC so that all the members can receive the information that is channeled free of charge, and can make a greater progress spiritually which you so much desire? Why do they have to pay for this divine knowledge? I am sure there are a lot of members like me who have limited budgets, hence, their development is also limited. You must have a very good reason for carrying on like this. Please comment on this issue."

ANSWER:

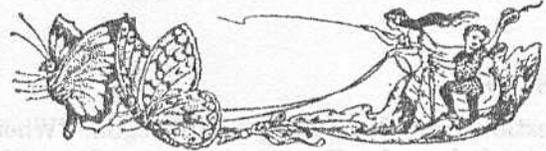

Manifestation of spiritual knowledge is important. We ask you this: If you found a pearl of great worth, would you sell your belongings to purchase it, or would you turn your back upon it, because it required purchase? The children through which we speak have agreed to manifest on this plane in the physical. By so doing they have put themselves at the mercy of the needs of the physical. A farmer grows grain and sells it for his income, that he might live physically. A doctor sells health, that he might live physically. A mechanic sells his ability that he might live physically. A psychic, a prophet or a seer must also eat, sleep, be clothed and fed physically. You render unto others that which is due them for the services they give to you, yet one comes to you giving a service of even greater value and you begrudge them to eat. So, now you say: "Well, why, if it is so spiritually advanced, why don't they just whip up some food out of the air?" ...You don't understand.

While the physical laws can be broken, and "miracles" performed, the avatars and the teachers who come into this plane use them for the advancement and the health of others, not for the selfish sustaining of themselves. And if you paid the prophets and the avatars according to their worth, they would be rich men indeed, but instead they are persecuted and destroyed. It matters not, but those who seek after the higher consciousness, it matters not what faith nor what religion; always whom they seek to enlighten seem to forget the burdens that they bear in this body.

They would simply turn their teachers aside. They are happy to learn from them, but to pay for the services and lessons they have been rendered...teachers and ministers go scratching along on so little, evangelists barely being able to support themselves, missionaries...in every religion it is so. And do the people make it so unbearable, so unbearable. They set up organizations to protect themselves, to sustain themselves, and

eventually these organizations become self-feeding, self-sustaining; they forget the quest for the truth, and remember only to sustain the physical, and the priests are lost to the physical therewith.

It is the balance and the counterbalance; the karma of foolishness. It comes to this: You would gladly pay for any other service, then you should be willing to pay for this service, which is even more important to your life and well-being. Your teachers have manifested in the flesh. They must live in the flesh. Don't deny them the means.

" EXCEPT BLOOD BE SHED
THERE IS NO REMISSION"
--WHAT DOES THAT MEAN?

QUESTION:

A question from J.W., Panorama City, California. "I have wondered for many years now the meaning of something in the Bible. I wish I had the exact quote and place it appears, but I do not. It is the thing that says unless blood be shed, then there is no remission in sins. What in the world does that mean? I sure would like to know."

ANSWER:

'Except blood be shed there is no remission.' In the 9th chapter and the 22nd verse of *Hebrews*, from those books which you currently refer to as the New Testament. It is speaking of the foreshadowing by the Aramic line as they sprinkle the tabernacle, as they consecrate the vessels, as the blood is sprinkled upon the sacred relics and objects, and priest, and say: that were for this sprinkling of blood there were no remission, for this was the symbology that they used to find remittance of their sins, or their evils, for their balance and their counterbalance.

So many think that this is an indication that if it were not for the death of their savior, the child of God, that there would be no remission of their sins, but this is not an indication of the blood required, but an indication of the blood no longer required; for God requires of you, the Divine requires not sacrifice, but purity of heart and soul.

Even so, our brother has shown us the way. There is no death in belief, there is no defeat in faith. By the old ways, there were no remissions except by the shedding of blood. By the new consciousness and understandings there is remission in belief that the power of the spirit might set you free. It would be suggested that you read the 9th chapter of *Hebrews* and understand what it is saying. There was an old way, and that way was a way of blood and death,

and there is a new way, a way of hope and life, for there was an old consciousness, and there is a new consciousness unto life.

"In my father's house there are many states of consciousness." If it were not so, we would not tell you.

WILL A "C" SECTION BIRTH INTERFERE WITH ONE'S HOROSCOPE?

QUESTION:

A question from G.P., Eddyville, Oregon. "When an entity is born by Caesarian Section, does this interfere with the planned astrological birth time of the entity? Or is the birth time at "C" section taken into consideration in the astrological planning by the entity? Is it possible for the parents to correct for this time displacement? And, can parents thus plan their offspring's natal zodiac chart by planned "C" section?"

ANSWER:

You cannot alter that which is to be that has been preordained and predestined before the foundations of the earth have been laid, for before the foundations of the earth were laid, before the creations of the heavens or the worlds roundabout, you were known of the Divine, and the plans of all that would be for you, by you and about you were already known.

Therefore, if there were an alteration of the date of birth, it would be because it was foreordained and predestined to be so. However, not the moment of birth, but the moment of the first breath drawn is the moment upon which that natal chart is to be drawn. Truly, the moment of conception is the moment that would have been used by the ancient necromancers if it had not been for the fact that it is often difficult; and even so, a regular cycle develops in which it was foretellable by the first breath, by the time of birth, and the first breath drawn, that they might also foreknow the cyclic pattern of the life by the gravitational and planetary influences, due to the electromagnetic forces and energy flows from without.

But, the current and modern horoscopes as they are, the current and modern maps of the sky from which you draw your horoscopes, they are askew, for since the time of the Babylonians the astrologers ceased to properly apply that knowledge which they have known since times ancient, and at this time 30 some odd degrees of the rotation of the horoscope in the sky has not been accounted for, and therefore, the way in which the horoscopes are drawn is incorrect and improper.

For all shifting must be accounted for, and as the heavenly bodies move and as there is a rotation, so must the charts be rotated and compensated. If they are not compensated in such a manner, the

charts are improper. C Section does not interfere with the predestined or the foreordained birth time, and the time is accounted from the first drawing of the breath, but as the signs progress and advance in the heavens, so must the astrological charts be progressed to compensate. Is that clear?

KING ARTHUR AND CAMELOT -DID THEY REALLY EXIST ?

QUESTION:

A question from E. A., of Bellville, Ontario. "Was there really a person on whom the legend of King Arthur was based? Did Camelot exist, and if so, where and when?"

COSMIC AWARENESS:

This Awareness indicates that this story as based loosely on events which occurred in approximately the ninth century; that stories and legends were handed down. This Awareness indicates the embellishment of the legend into a kind of allegory as that which was used to make this into the mystical story which has been handed down to entities, colored in part by the Christian doctrines, updated to include the values of the time. That essentially, it is an allegory without much real substance, but being a fictionalized version based loosely on reality.

This Awareness indicates this much likened unto modern novels, whereby the novelist writes about fictional characters, but the characters are brought into his consciousness from stories he has previously heard or entities he personally knows. This Awareness indicates the great value of this work is in its allegorical and literary and artistic value, rather than as a historical reflection.

(FOLLOW-UP QUESTION):

How then does Awareness account for indicating certain CAC entities as being members of Arthur's Round Table?

COSMIC AWARENESS:

This Awareness indicates that these entities as having been involved in these actions, but the glamour and the great accomplishments attributed to these entities and the great significance as that which is essentially fictionalized. This Awareness indicates that the actions of these entities as far as the story is concerned, are dramatizations rather than realities,--legends and myth, rather than history. This Awareness indicates however, that also, much

of your modern news reporting and the professional image-makers working with many of your present day heroes and heroines, these also are perhaps as much myth as reality, for the entities involved in retelling the story of another entity often will embellish and dramatize in order to make the character more interesting.

(FOLLOW-UP QUESTION):

Well, then characters like Merlin and Lancelot, these entities did actually exist, but not necessarily as part of the legend. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that these entities as having existed, but not as being as presented in the drama. This Awareness indicates that Merlin's father was not a salamander, that Lancelot was not as infallible and perfect, nor as egotistical as was presented.

This Awareness indicates that these characterizations, as also with most English literature, are poetic and dramatized versions based on characters who would be considered less colorful if you actually knew or met these characters in reality. That the purpose of a dramatist was to improve the story. That these stories were not intended to be a historical report, but rather were intended to entertain and pass on to future generations the ideals and the spirit which the dramatist could capture and augment in his writings.

ED's Note: during the famous York Convention, 7/7/77 in which the Unified States of Awareness was born, Awareness indicated that most of the entities present there were involved previously in lifetimes with historical significance. Among those named were Sir Lancelot and Guinevere. For more information, please refer to those readings called 'The Transfer of Power': 77-17, 77-18, 77-19: \$2.00 each from CAC.

A BIRTHMARK ON THE FACE...
WHAT CAN BE DONE ABOUT IT?

QUESTION:

A question from P.B., of Reno, Nevada. "My daughter was born with what is referred to as a 'port wine stain' covering almost half of her face. She is now 8-1/2 months old and it doesn't look as if it is going to go away. I would like to know if there is anything I can do to remove it or to make it fade away? Also, what is the reason she has it? Is there some significance to it being there? I had heard from someone that Edgar Cayce once said it was a special mark of God's and that a person who had one was specially blessed, but I have never as of yet found any information about it in any of the books I have read."

COSMIC AWARENESS:

This Awareness suggests that the name of this entity be repeated, that the question be repeated.

(NAME AND QUESTION IS REPEATED)

This Awareness indicates this appears to be related to a karmic reflection from the previous lifetime; this as having been associated in part with an injury the entity suffered at the time of death from her previous lifetime,--this appears to have been through a crushing experience. This appears to have been an action wherein the entity's face was crushed during the incident which led to her death during the previous incarnation. This Awareness indicates that this appears to be a mark which shall gradually fade, particularly wherein the entity is assisted by the use of aloe vera, vitamin E, castor oil and olive oil...this as including also lanolin, this in a mixture; this may also be mixed with D-Cell or S-Cell water in a blend. This Awareness suggests also, that the use of the Celestial Essentials can be beneficial in treating this, along with the use of aloe vera gel.

This Awareness suggests likewise, there is soon to be made available certain new substances in the field of cosmetology which can be used to alter the skin pigmentation. This may be modified to be used in certain specific areas. This Awareness suggests however, that this as appearing to be some time later. That at present, the use of clay packs and the oils suggested can be beneficial. That some of this will be naturally modified as the child grows older and will eventually fade.

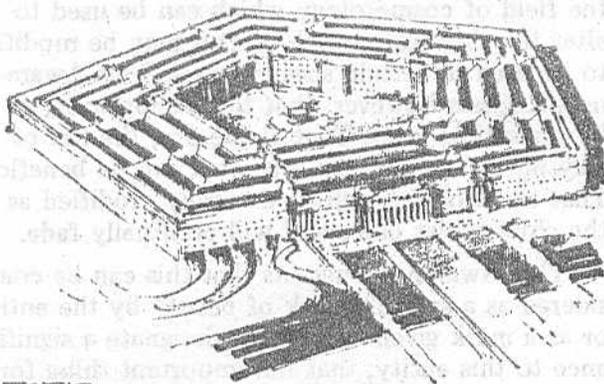

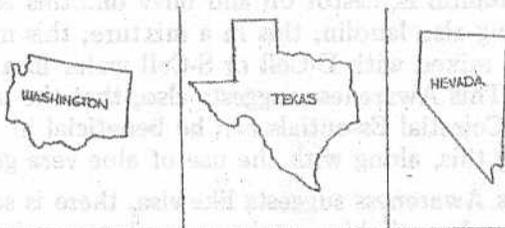

This Awareness suggests that this can be considered as a special mark of beauty by the entity or as a mark given by God to designate a significance to this entity; that the important thing for you as a mother in regards to this child, is not to make it too significant in one way or the other.

This Awareness suggests you not attempt to make this significant as a mark which would lead the entity to become vain or proud, nor to allow others to make the entity feel strange or out of place.

This Awareness suggests that you find ways of explaining to the entity, if it is necessary and comes up in her conversation, that you find ways of explaining to the entity so that it is not considered significant or important one way or the other, that it is simply unique; and that she may take advantage of this unique mark as part of her individuality, so that others will not mistake her for someone else. This Awareness indicates this can allow the child to have a healthy attitude toward it; and this Awareness suggests that you also assist the entity's self-image in other ways so that this does not become a significant drawback to her self-image or add to a poor self-image caused from other reasons. This Awareness suggests that if you attempt to make this significantly positive, it will in time have the reverse effect, wherein the entity becomes overly vain at some point and causes others to react to the vanity which may result in a remark or action which reverses any positive desires which you might have hoped for.

This Awareness suggests that playing down any significance at all will be the most appropriate action. This Awareness suggests that this does not mean that you should ignore the topic, but rather that when it is discussed, it be discussed without great significance, so that the entity doesn't use it to evaluate herself. For in her evaluation of herself, this Awareness suggests that you focus on other qualities and assist this entity in focusing on these other qualities.

This Awareness indicates that it appears there will be a remedy for skin colorations; that at present time this is not seen clearly and may not as yet have been developed completely.

NUCLEAR WASTE SITES

WHAT MAKES WHALES AND DOLPHINS STRAND?

HOW TO HELP ENDANGERED SPECIES

QUESTION:

A question from H.P. of Auckland, New Zealand, who works for the Project Jonah, an organization of concerned entities who are trying to protect the whales. He has several questions pertaining to these creatures. The first of these is: "When whales or dolphins strand, how can we tell when to try to help them, and when we should leave them alone? And how can we best help a stranded animal?"

COSMIC AWARENESS:

This Awareness indicates that often these entities are experiencing what may be termed the death wish, or that which is a desire to leave their environment and to experience a different situation or different type of experience. This Awareness indicates that the death wish of animals is such that they feel violated when deprived of their right to move into other experiences; that in some cases animals are feeling loneliness, and that loneliness is such that their lives are in a state of perpetual agony.

This Awareness indicates that these animals often experience what humans might conceive to be as living in the land of limbo; that it is important for animals to have some degree of stimulation and show of affection in order that they remain content. That wherein these animals do not receive the degree of contentment which they individually require, they then become somewhat lonely. This Awareness indicates that in dealing with animals and creatures which are in danger of becoming extinct, researchers and technicians working with such animals should include in their considerations certain technologies whereby these animals or creatures can be stimulated in areas of pleasure. That this can be helpful in keeping such creatures active and alive.

This Awareness suggests that electronic equipment, based on radionics and on certain broadcast systems and frequency systems, whereby music or sound, or ultra-sound is sent to these creatures, or whereby brain stimulation, electronic brain stimulation which triggers the pleasure centers of such creatures; this can be helpful in alleviating the loneliness and suicidal feelings which some animals experience.

That also, certain creatures respond to human affection, or to others of their own species, and this can also be stimulating and healthful to these creatures. There are other instances wherein some creatures seek to die, such as whales beaching themselves. This can also be triggered by poisons

which the creature experiences from contamination or from problems within the creature. That when the creature feels such poisons within the system, whether radioactive poison, or microwave broadcast, or chemical, or disease within the creature; it may wish to self-destruct, rather than suffer the experience.

FOLLOW-UP QUESTION:

How can we tell the age of a whale or dolphin?
Can this be determined by rings in the teeth?

COSMIC AWARENESS:

This Awareness indicates that it appears there is an indication in the teeth and bones of these creatures which can be used for determining age. This Awareness suggests that you may contact universities which conduct research in marine life for further information on this process.

WHAT IS THE STATE OF THE OCEAN TODAY?

(COMING SOON: THE ENVIRONMENTAL WORLD CLEANUP)

FOLLOW-UP QUESTION:

What is the state of the oceans today, particularly in regard to the food-chain and its effect upon the marine mammals?

COSMIC AWARENESS:

This Awareness indicates there is much pollution in many areas of the ocean, particularly in the area of Asia and in both shores of the United States; that there is also much pollution in the Atlantic near the European continent. This Awareness indicates that these polluted waters tend to create great problems for marine life that exists in those areas, and other marine life which feeds off of those in the polluted areas. That this chain of feeding is that which can eventually create a most disturbing effect on the planet, when it reaches proportions whereby the great number of fish in the sea are contaminated with chemicals and poisonous minerals and radioactivity such as mercury and various chemicals that are hazardous to the life of the marine life as well as to humans who consume these fish.

This Awareness indicates that it appears that this will need to be a major project of all governments within approximately 20 years, or no later than the year 2020, or the seas will reach a critical level, whereby they become dead. This Awareness indicates that the more pollution is stopped, and the more attention given to improving life in the sea, the greater time will be allowed before such critical states arise. That it appears this action of cleaning up the seas and the environment will not occur until after threats of nuclear war have ceased, and programs of disarmament have begun to occur. This appears to be the greater priority, and when this

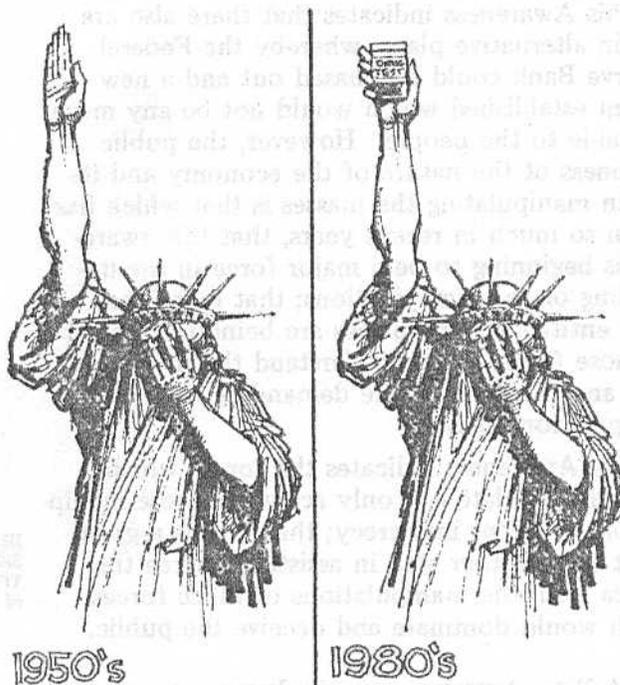

has been accomplished, then the programs of an environmental nature shall gain great momentum.

This Awareness indicates that after these programs have been initiated, there will become a totally different attitude about the earth and about life and people on earth; a greater sense of cooperation among people on earth to clean up the planet, to improve relationships between nations and people, to create a balance of energy, trade and economy, so that countries which have been previously in poverty levels can have opportunities made available whereby construction and cooperation from other nations assist in helping these nations to bring themselves up to a more balanced and harmonious level of living.

This Awareness indicates that this entire change in attitude as that which can have a profound effect upon this planet, within approximately a 20 or 30 year period, whereby it can be transformed from a planet of insane criminals and power struggles wherein entities live in chronic fear, to one wherein entities can walk the streets from place to place feeling relaxed, enjoying life, enjoying nature and enjoying each other.

ED's Note:

For more information on whales, please refer to 'Revelations of Awareness' issues No. 78-39 (Can the Whale be Saved?); \$3.00; also, No. 79-22 (Why do Whales Beach Themselves and Die?); \$3.00; also No.85-3 (If All Elephants & Whales Die off, How Would this Affect Consciousness?); \$3.00 from CAC.

LOYALTY OATHS

SUING THE FEDERAL RESERVE —WILL IT EVER HAPPEN?

QUESTION:

After months of work in the Washington State legislature, the Senate Concurrent Resolution 127 was passed. This is a landmark vote. The house of representatives voted on March 11th, the last day of the regular session, to make it the intent of the Washington state legislature to bring suit in the United States Supreme Court, challenging the constitutionality of the Federal Reserve Act of 1913, and the basis of its delegation of the power to create money.

The resolution also calls for an audit of the Fed, something that has not been done since its inception. The only thing holding this up is the signature of the Attorney General of Washington State, who may or may not have signed this by now, or designated someone who would. I'd like to ask Awareness: If this suit does go through, will anything significant come of it?

COSMIC AWARENESS:

This Awareness indicates that this as that which can assist in creating a very profound and in-depth examination of the activities and nature of the Federal Reserve Bank; that this can have a profound effect on the very foundations of the economy of this country. This Awareness indicates that the implications as that which would be termed *astounding* if carried through to maximum potential. However, there will be forces which will attempt to prevent this action from being carried through in its entirety, that this can be made to drag on for some time without much apparent effect if these forces are successful.

This Awareness indicates that there also are certain alternative plans, whereby the Federal Reserve Bank could be phased out and a new system established which would not be any more favorable to the people. However, the public awareness of the nature of the economy and its role in manipulating the masses is that which has grown so much in recent years, that this awareness is beginning to be a major force in the unravelling of the manipulations; that more and more entities in high places are being influenced by those forces which understand the manipulations, and these forces are demanding that these manipulations cease.

This Awareness indicates the forces which would manipulate can only act when these manipulations are kept in secrecy; that this as a great effort and another step in assisting to free the masses from the manipulations of those forces which would dominate and deceive the public.

ED's Note: Awareness was right. Immense pressure was exerted by the money manipulators and today, four years after this reading was given, nothing, absolutely nothing has come of any investigation or any law suit against this bastion of Zionism.

ARE ANY GREAT MUSICIANS INCARNATED IN THE WORLD TODAY?

QUESTION:

A question from A.M., Northridge, California.

"As in history past, groups of great musical geniuses have incarnated relatively close to each other, both geographically and chronologically in age. Is there any grouping of highly talented musicians occurring in the world at the present time?"

ANSWER:

There is an incarnation of highly talented musical people beginning approximately five years ago and proceeding through the next twenty, but there are two differences from before. One, the world has become so much at one with itself because of electronic mass-communications, therefore it is not necessary that people be close physically. The other is these people are choosing, these people of genius are choosing to come into this world scattered abroad, that their music might awaken the spirits of the many spread throughout the world, as they travel and chance should come together; for they are coming not only as musicians, but as spiritual leaders, for the music is the mover of the soul and the spirit, and they're coming scattered abroad to the four winds.
