Helping People Become Aware

**CAPITAL
PUNISHMENT**

IS IT ANY CONCERN OF OURS?

(WHO'S GOING TO MISS TED BUNDY?)

Published by Cosmic Awareness Communications and the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507, U.S.A. Reproduction of this material is permitted and encouraged.

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

SHOULD THE DEATH PENALTY BE RESTORED IN THE UNITED STATES?

WHO IS RESPONSIBLE? WHAT KARMA IS INVOLVED?

(THE LIBERAL VS. THE CONSERVATIVE ATTITUDE)

QUESTION:

Awareness has given information on capital punishment before, but in light of the information on the Ahriman Forces and so forth, I'd like to read this question from W.E., St. Paul, Minnesota, and see if Awareness has any additional comments to make. He writes:

"Recently, the entity John Lewis Evans was electrocuted by the state of Alabama for murder. The large majority of convicted killers and such on death row are never executed. Ted Bundy, for example, the serial murderer of many young women, has been on death row for years, but because of legal appeals and maneuvers he is still there. Does Awareness see the execution of John Lewis Evans as a revival for the death penalty, whereby every state will lean toward this form of punishment? It seems every incident where a convicted killer is sentenced to die is appealed countless times until it is brought before the Supreme Court. In this case, Evans' appeal was rejected. In these terms, is the Supreme Court playing God? Is there some kind of hidden truth whereby only certain entities sentenced to die are ever killed?"

"How does Awareness view this particular event and what are *Its* views on capital punishment? Do the entities involved in the mechanics of placing the entity John Lewis Evans in the position of dying by the electric chair incur karma upon themselves: the lawyers, the judges, the man who pulls the switches?"

There's a lot of questions in there, but that's the end of the statement.

COSMIC AWARENESS:

This Awareness indicates that there are a number of questions included; that *It* will begin with the earlier question. This Awareness indicates that there is a kind of cycle in the affairs of this nation. It appears that approximately every 11 years the pendulum swings, the energies move from conservative for approximately 11 years, to liberal leanings for approximately 11 years. The liberal leanings generally tend to go overboard and lead to a reaction which causes a more conservative approach which then goes overboard and reaps repercussions so that entities then move toward the more liberal approach, until it again goes overboard.

The Difference Between Liberals & Conservatives

This Awareness indicates that the liberal approach as that which peaked with the Carter administration, and that entities are now witnessing the conservative side of the cycle, whereby in this conservative side entities are much more restrictive on the rights of individuals, much more concerned about the individual rights of citizens as opposed to government, but in that concern for individual citizen's rights, they also tend to make strong distinctions as to who has rights and who shouldn't have rights, thus they are not liberal in their concern for individual rights, they are conservative towards that which is self-interest.

This Awareness indicates that conservative consciousness is that which looks out for number one. Liberal consciousness is that which looks out for the liberties of those in society. This Awareness indicates

that when the government becomes involved in libertarian type of activities, social programs are emphasized, social programs are funded, and social rights are given priority. That wherein entities move toward the conservative side, self-interest becomes more prominent, government interference is frowned upon, government controls are encouraged when they protect your personal interest, and discouraged when infringing upon your personal rights.

Thus, a conservative element tends to highly polarize criminal actions to the point of desiring to see criminal actions suffer the consequences of capital punishment, or whatever is the most severe type of punishment for the crime, whereas during liberal cycles, the tendency is to show greater mercy for the criminal, seeing that society has in part contributed to the conditions of the crime, seeing that society has in part contributed to the *causes* of the conditions of the crime.

This Awareness indicates that therefore, during the conservative cycle entities become much more willing, desirous and accepting of capital punishment, and during the liberal cycle entities become much more concerned about the excesses of criminal punishment. This Awareness indicates that you may expect this conservative cycle to continue for several more years, and during the conservative cycle you may expect the government to become much more like a dictatorial type of government as opposed to the bureaucratic type of government that interferes in your personal lives during the liberal cycle; interfering by over-taxing and by over-emphasizing social programs and by involving citizens more totally in government bureaucratic involvements.

This Awareness indicates that during phases of the liberal cycle the great danger is in the extreme of becoming a socialist type of government, in which the government is too involved in the affairs of individuals and the individual loses his or her identity or individuality in a government that is socialized to the extreme; this being in extreme, that which is associated with the concept of Communism.

This Awareness indicates that the danger in the conservative cycle is that of the government going to extreme and creating a Nazi type regime in which individuals are continually under surveillance, and scrutinized and watched by Big Brother and hauled off without recourse or trial to be sentenced by a biased judge or by a military court, without any fairness, but simply because one appeared politically dangerous to the government.

This Awareness indicates that these extremes of the conservative and of the liberal sides are the extremes which are seen and felt and feared by the members of society as the pendulum swings back and forth. That this swinging back and forth of these extreme energies of liberal and conservative consciousness are in actuality cycles associated with cosmic energies which relate to astrological and

cosmic flows and currents.

This Awareness indicates that these energies do not originate as the result of individual reactions, but rather the individual actions are allowed or encouraged or influenced by these energies; that the conservative President is the result of the cycle, and not the other way around; that the movement of the courts to be extremely conservative is likewise the far end of the cycle from that which brought about the great liberalism in the other extreme.

This Awareness indicates that there appear to be other questions in this question that were not addressed. This Awareness suggests that these be restated.

IS THE SUPREME COURT PLAYING GOD?

(FOLLOW-UP QUESTION):

In these terms, is the Supreme Court playing God? Is there some kind of hidden truth whereby only certain entities sentenced to die are ever executed?

COSMIC AWARENESS:

This Awareness indicates that it appears that there have been elements in society and in the government who have been growing in volume, in strength, whose interest is to put greater teeth into the laws and to eradicate crime, even if it requires violating individuals who may not be deserving of the extreme punishment. This Awareness indicates that the pendulum had swung too far in preserving the rights of criminals at the expense of victims, and now the pendulum swings back so that elements whose interest is to prevent the citizens from being victimized, should like to see a greater deterrent to these crimes, and the pressure of this effort is felt by the judges and throughout society, and thus mercy is relegated to a back seat while severity takes charge.

Individual Freedoms Are Eroding

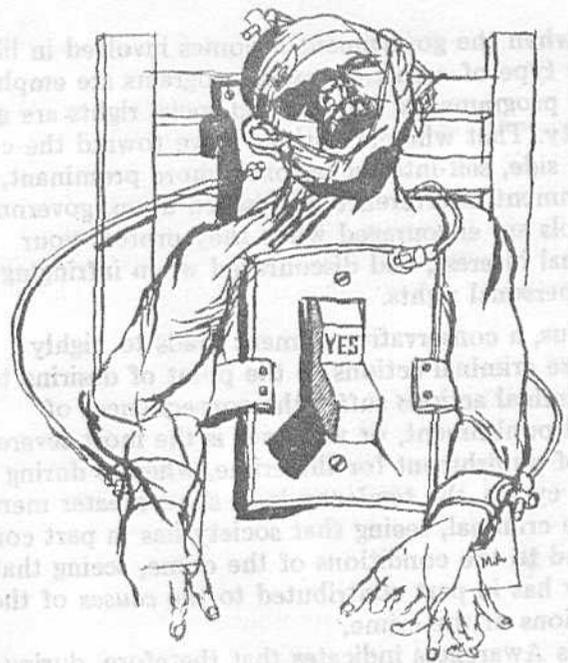

This Awareness indicates that it appears that this execution may be but a trial and a warning whereby this form of problem-solving is encouraged, and whereby a greater conservative control is placed upon society. This Awareness indicates that more and more the individual freedoms and rights guaranteed by law are being taken away under the guise of protecting the good citizens against the bad. The only danger in this is that the good citizens are also giving up their rights so that very soon they too may be classified as criminals, and may find themselves in that element that has lost its rights.

This Awareness indicates that the more rights are taken from entities, the more the line cuts into the stream of consciousness, the flow of society, and cuts out those entities on the edges, leaving only those in the mid-stream to be worthy of calling themselves responsible citizens. This Awareness indicates that the more these lines of individual rights are eroded, the more entities will need to toe the mark, accept regimentation, become structured, obey authority, follow the leader, parrot the phrases, say the proper words, and think the proper thoughts. Creativity becomes stifled and obedience becomes the rule. This Awareness indicates that the more these freedoms are eroded, the more likelihood rebellion will occur in an underground manner. This Awareness indicates that dictatorships *do* bring about subterfuge.

The Most Comfortable Time for Entities

This Awareness suggests that the pendulum still has some distance to swing during this conservative cycle before it reaches its apex and again swings back.

This Awareness indicates that the most comfortable times for entities are those times when the pendulum is closest between the extremes of conservatism and liberalism. This Awareness suggests that entities can increase their comfort in life by decreasing the extremes of the pendulum,—being neither too liberal, nor too conservative.

entity, and has given premeditated thought to such action, and has determined that the entity in forfeiting his or her life is to do so in order that the murderer may profit; this is the extreme type of karma. This Awareness indicates that wherein an entity through emotional frustration, through a kind of momentary insanity destroys another, this carries a karma that is not as extreme because the emotions have their effect on coloring the level of awareness, of hindering the entity's ability to be fully aware of what he or she is doing.

This Awareness indicates that an innocent child, or one whose mind is totally retarded, one who does not realize what he or she is doing; wherein such an entity destroys another being, not knowing it is actually harming the other being, this kind of action as that which may carry no karma at all for the entity, especially if the entity does not discover that he or she destroyed another being, but the more aware the entity is of the action, the consequence and the full meaning of that action, the more karma is involved.

This Awareness indicates that when one is destroying an entity who has previously been found guilty of destroying another entity, the one in the process of such destruction will suffer some degree of karma depending upon his or her own sense of responsibility and his or her own sense of understanding as to the full consequences of that action. This Awareness indicates that when an entity votes for capital punishment, or when an entity is a legislator who votes for capital punishment, or when an entity is a lawyer who attempts to receive capital punishment for the defendant, or when a judge sentences and gives the capital punishment, or when the warden denies the relief from capital punishment, and

HOW DOES COSMIC AWARENESS FEEL ABOUT CAPITAL PUNISHMENT?

(FOLLOW-UP QUESTION):

How does Awareness view this particular event, and what are *Its* views on capital punishment? I should qualify that statement: Has Awareness's views on capital punishment changed any since that information given years ago?

COSMIC AWARENESS:

This Awareness indicates that to destroy another being with deliberate intent carries its own particular karma. The karma as that which is determined according to the degree of intent, the maliciousness involved, and the motive for such destruction. This Awareness indicates that wherein an entity is emotionally unbalanced or psychologically unbalanced or socially unbalanced and destroys another being, that action carries with it its own karma which is not mitigated so much by the type of violence as by the awareness and understanding of the consequences of one's actions.

This Awareness indicates that wherein one understands that he is taking the life of another and understands this to be a violation to that

when the executioner pulls the switch for capital punishment, and when all of those involved in between play their part in the capital punishment, the karma of this action is spread among these entities according to the level of awareness, according to the degree of recognition of the entities' involvement in taking this life, and according to the entities' concern for the life which was taken, and according to the sense of personal involvement in the process.

This Awareness indicates that some entities of very low level of consciousness may become involved in the process without incurring any great karma. This Awareness indicates however, that because of the low level of consciousness, the entity already is burdened with great karma for this entity must live many lifetimes to overcome that low level of consciousness, that low level of awareness, and to overcome this low level of consciousness through many lifetimes, the entity must in time cease being involved in these type of actions which occur without his or her awareness of the full meaning of the action.

The Attitude of the Highly Evolved Entity

This Awareness indicates that the entity who is more highly evolved, who does not vote for capital punishment, who sees that the criminal is one who is sick, is antisocial and should be removed from society, but does not see that he should be removed from life by society, the entity who sees that capital punishment is but another form of barbaric example-ism, whereby the society serves as an example for the individual, the society justifies its killings, its wars, but denies the individuals such rights,—such an entity is of a higher consciousness.

Society's Tragic Double Standard

This Awareness indicates that whereby the society is laden with a double-standard, giving itself the right to kill others, but denying the individuals the rights to do so, this creates the double standard which for some levels of consciousness cannot be understood, therefore encouraging these demented souls to exemplify, to model themselves after the society, and wherein a neighboring nation has something this society wants, and the society sends in its troops to get that, the individual cannot see much difference in going into his neighbor's house and getting what HE wants.

This Awareness indicates that there are entities whose minds are not socially developed, but are very conservative and self-interested, and they see through the movies and television and through the examples of leaders and of countries a world that is grabbing what it can, — the concept of winner take what you can get by with, and don't get caught...it becomes a kind of life and death game to the criminal whereby he sees what he wants and is willing to risk his meaningless life to get it.

This Awareness indicates that the use of violence to solve crimes by society, or to solve its problems, the use of violence to solve international conflicts is an example for others in a society. This Awareness asks you to imagine a family in which the father has a number of boys and girls, and whereby the father periodically beats up the mother and whereby the father periodically raids his neighbor's barn, steals his neighbor's properties, shoots and slaughters his neighbor's family, comes back as a hero, bringing goods, and then tells his children: "Don't you dare slap your sister! Don't you dare take from each other!"

This Awareness asks you: How long do you think that the children will follow the directions of the father, as opposed to following the *example* of the father? This Awareness indicates that the likelihood is that they will follow the example in a way whereby they hope not to get caught, whereby they sneak through. This Awareness indicates that examples by a government, by a society, are examples to individuals within that society, and those individuals within a society who condone the killing of others are no different from those of a town whereby an entity is to be lynched, whereby they pack up their picnic lunch, go down and watch the lynching and have no real concern for whether the lynching was deserved or not, for it is simply part of society, and society has the responsibility, not them, and therefore, with clean conscience they can enjoy the afternoon lynching.

This Awareness indicates that entities in society with clean conscience can enjoy the afternoon execution of this demented entity. This Awareness indicates that it is not necessary that the individual has an opinion as to whether the entity should have been lynched or not, whether the entity should be executed or not, for the individual has elected those in society to take the responsibility for that concern, and therefore the individual within the society need not concern himself with having any karma for this action.

This Awareness indicates that this may work for those individuals who have a low level of spiritual responsibility, but whereby an entity progresses spiritually and recognizes that in all things each and every entity is responsible, either for contributing to the act, or for not caring enough to do something to prevent such acts, —that entity is karmically responsible. This Awareness indicates that it is not possible for entities to live upon the earth, to live in a society that perpetrates and allows violence, either from the criminal section or from the society section against the criminal; it is not possible for an entity to live in a society in which violence is part of the society without incurring some degree of karma, of responsibility.

This Awareness indicates therefore, do not think that you are guiltless when your society allows crime, or punishes crime through violence against

the criminal. This Awareness indicates the ideal society is the society which creates a system that encourages its citizens to live the highest and most beneficial and self-giving life, so that all can benefit, and whereby the society finds ways of taking the undeveloped individuals, giving them a place where they can function according to their level, according to their understanding, and according to their own safety needs, and the safety needs of society.

What Contributes to the Making of a Criminal?

This Awareness indicates that society contributes greatly to the making of criminals. It is not the only contributing factor. Hereditary actions and dietary elements, environmental elements all contribute; even accidents can contribute, or circumstances can contribute to making a criminal. This Awareness indicates however, if society in dealing with criminal action wishes to be more efficient, rather than dealing only with the symptoms, the crime and the punishment, should deal also with the *cause, the reasons* that lead to crime.

Crime is Really a Disease,--and Curable

Society in general is not concerned with preventive crime, so much as with the punishment of the criminal. This Awareness indicates that security comes not so much with punishing the criminal, but with the prevention of crime. This Awareness indicates that *It* does not see capital punishment as being a solution to the problem of crime, for crime is an illness of society and of individuals in that society, and should be treated as an illness, as a disease, whereby the disease is studied, and whereby the disease is examined from all sides, researched from all levels and whereby antidotes for the disease are found, vaccine for the disease is found, whereby the crimes are prevented before the individual reaches the stage of creating or causing a crime; the society has discovered that this individual is a potential criminal and thus should be helped.

This Awareness indicates that the society is not simply responsible for punishing criminals, but it also should accept responsibility for its part in making the criminals and should deal with that element of itself which helps to make the criminal, so that when it punishes the criminal it also takes itself to task, to discover: What made this entity do this? and what did society do to contribute to this? That in so doing, it may eradicate the cause of that particular criminal action so that the next entity who comes along will not fall into the same trap.

This Awareness indicates that society can do much in policing its own activities so that crimes are not committed; that this could lead to a long series of social readings, related to ideals of a society. This Awareness indicates that this is totally impractical at this time, for society is not

likely to change for some time to come. This Awareness indicates that so far as the concept of capital punishment, this Awareness's viewpoint on this is that it is a futile action, a desperate action, an action of a society that does not know what it is doing, or how to deal with its own mistakes in raising its citizens, a society that does not understand its part in creating the atmosphere and circumstances for crime, and therefore seeks to destroy its own creation in order to make itself look good in the eyes of others in the society.

This Awareness indicates that this as a form of cover-up, whereby society destroys the individual it helped to create, or through negligence allowed to develop improperly, and by destroying such individuals, society can appear to be clean and pure and healthy so long as these elements are continually swept into the grave.

ED's Note:

Awareness, in responding to this question, did not even go into the area of what often happens to the entity who is executed when he finds himself on the astral plane, filled with anger and resentment at having had his life prematurely extinguished. As a general rule, such entities become a part of the Alien Force and use their astral energies to work through auric holes of weak, crime-oriented entities on the earth plane. Therefore, capital punishment unknowingly becomes a part of the problem, rather than the solution to criminal activity on this plane.

For more information on this subject, please refer to 'Revelations of Awareness' No. 77-4 (Restoration of the Death Penalty and how to Deal with Criminals); \$3.00; 81-17 (Karma and Grace in regard to the executioners of criminals); \$3.00; 80-34 (Resist Not Evil); \$3.00 from CAC.

For a clearer understanding of why crimes of violence are increasing almost daily on this plane, please refer to the following readings: 82-20 Understanding Violence, (The Murder of Christ); \$3.00; 82-24 (The Forces of Ahriman); \$4.00; 83-3 (The Brothers of the Shadows) \$3.00; 84-11; The Forces of Ahriman (The Mass Murderer); \$3.00; 84-12; The Forces of Ahriman. (How to Prevent Rape); \$3.00; 85-20; Seduction of the Light Workers (The Violent Invaders); \$3.00 from CAC.

For an understanding of how Awareness would deal with criminals under the New Age government, please refer to the Akashic Record, The Unified States of Awareness, Blueprint of the New Age Government; \$4.00 from CAC.

Any man's death diminishes me,
for I am part of mankind.

Therefore never send to know
for whom the bell tolls;
It tolls for thee.

John Donne

To Stop the Bloodbath

A NATIONAL COALITION CHALLENGES THE DEATH PENALTY

For ten years the guns were silent, the poison gases were not released, the lethal switches were never pulled. But that all changed on January 17, 1977, when the United States once again began to execute its own citizens.

Today the death penalty is alive and well and coming soon to a prison near you. Before the end of this year, the firing squads, gas chambers, and electric chairs of this country may be claiming a new victim every week.

One group working to stop that is the National Coalition Against the Death Penalty. The NCADP is a collection of national, regional, and local organizations that have at least one thing in common.

"We all agree that the death penalty is barbarous and should be abolished," says Tim Cain, NCADP's director.

The coalition began its work in 1976, shortly after a Supreme Court ruling opened the way for a resumption of executions. Since that beginning, over a hundred organizations have become NCADP affiliates, including many of the major religious denominations.

The NCADP helps coordinate the efforts of all these groups and provides them with a unified national voice on death-penalty issues. It also functions as a resource and information center.

"We send out enormous amounts of literature," says Cain. The coalition has put together an informational packet of pamphlets which offer moral, practical, and theological arguments against capital punishment. The NCADP's "Abolitionist Directory" provides a compre-

Visiting death-row inmates, says Tim Cain (left), can change attitudes toward the death penalty.

hensive listing of organizations involved in death-penalty work. And a national newsletter provides reports on current research, news and announcements about abolitionist activities, and analysis of recent legal developments.

The NCADP has also produced a substantial volume called *Organizing Against the Death Penalty*. This handbook gives step-by-step suggestions on how to start a local action group, how to do legislative work, how to prevent executions, and how to focus public atten-

tion on the death penalty. Included are statistics, resource lists, personal experiences, and a glossary of legal terms.

Besides providing all these materials, the coalition encourages people to establish one-to-one friendships with those

facing execution. "Go visit a prisoner sometime," says Tim Cain. "Your attitude changes right away."

The NCADP's Death Row Support Project offers a first step in that direction by linking death-row inmates with correspondents on the outside. Writing letters back and forth helps break through the isolation of the prisoner. For the non-prisoner, it can dispel misconceptions about prisons and those locked away there.

Whenever an execution is imminent anywhere in the United States, the NCADP puts into action its National Execution Alert Network. The members of this telephone tree immediately phone, wire, or write the governor and other officials in the state where the execution is to take place. The goal is to reach these officials with protests and pleas from around the country, changing their minds if possible but at least showing them that no execution will be passively accepted.

Thanks to a grant from the Episcopal Church, the NCADP has recently begun a new project called the National Clearinghouse on Death Penalty Legislation. By collecting information about the history of abolitionist legislation in each state, the clearinghouse organizers hope to provide a data bank on what's already been tried and whether or not it helped stop executions.

Despite these creative efforts, attracting support is still an uphill battle for NCADP, according to Cain.

"We're working with an issue that's not popular, even among people with a great deal of consciousness on other issues. They look at death-row inmates as deserving it."

But Cain believes NCADP is having an important impact.

"We think we've been successful in holding back what was predicted to be a bloodbath," he says, thinking back over the years since the Supreme Court cleared the way for executions to resume.

"People are starting to give the death penalty a second thought."

86% in U.S. back death penalty, survey shows

The Associated Press

NEW YORK — Ten years after Gary Gilmore was executed by firing squad, the vast majority of Americans continue to support the death penalty, and many want it used for crimes other than murder, according to a Media General-Associated Press poll.

Eighty-six percent of Americans support the death penalty, about the same percentage who supported it in a similar Media General-AP poll two years ago.

Fifty-six percent of people think the death penalty should be used only in certain cases, such as murders of children, police officers or multiple murders. Only 30 percent of the 1,251 adults surveyed nationwide thought the death penalty should be used in all murder cases.

Eleven percent said there should be no death penalty at all, and 3 percent weren't sure.

When asked if the death penalty was appropriate for crimes other than murder, 47 percent said yes. Slightly more than half of them said it should be imposed in rape cases, about one-third cited child molestation or abuse, 20 percent said treason and 14 percent said drug dealing.

Forty-seven percent did not think the death penalty should be imposed for crimes other than murder, and the rest were unsure.

Support for the death penalty is overwhelming, even though half the respondents thought it was wielded unfairly from case to case, according to the poll. Even among those who believe it is inequitable, 83 percent support it.

Although executions no longer generate the kind of publicity that accompanied Gilmore's execution Jan. 17, 1977, most Americans do not consider them routine. Two-thirds of the respondents said they continued to pay as much attention to executions as they had in the past.

Gilmore was the first person executed after the U.S. Supreme Court reinstated the death penalty in 1976. Since then, sixty-six people have been put to death.

Support for the death penalty reached a low in 1964, when the Gallup Organization said only 45 percent of Americans supported it. A Gallup Poll conducted last January said 70 percent supported the death penalty for murder, 22 percent opposed it and 8 percent had no opinion.

The Gallup Poll gave respondents two choices: Do you favor or oppose the death penalty for murder? The Media General-AP poll asked: "In general, do you feel the death penalty should be allowed in all murder cases, only in certain circumstances, or should there be no death penalty at all?" Question wording can account for differences in poll results.

Media General Inc. owns several newspapers and television stations.

(ALL ABOUT HOW SYMBOLS WORK)...
 AWARENESS PRESENTS A SYMBOL
 TO REPRESENT C.A.C.

QUESTION:

A question from A.U., of Winnipeg, Manitoba.

"Would Awareness please suggest a symbol appropriate to CAC which members could identify? This Symbol incorporated into a crest, medallion, ring, or even a tee shirt could then be purchased from CAC for their much needed funds. This symbol then could be "volted" or charged by the individual efforts of members, so that eventually their collective "voltage" would supercharge it, and whatever it was incorporated on, bring to its wearer protection, healing, a oneness with other members, and most of all, a direct link to Awareness, much like an unlisted private telephone number. Perhaps CAC could conduct another contest, to see what the members can come up with."

Would Awareness comment on that suggestion?

COSMIC AWARENESS:

This Awareness indicates that this as an appropriate approach. This Awareness indicates that it sees a symbol; this being the two crescents facing each other, forming the *Law of Love*, with the symbol of Cosmic Awareness in the middle of these crescents,—this being the two circles with the dot in the center, symbolizing Cosmic Awareness, surrounded by the *Law of Love*.

This Awareness indicates that this being interpreted as being Cosmic Awareness being communicated through love.

SYMBOLS IDENTIFY CONCEPTS

(Follow-Up Question):

Would wearing that symbol bring about some of the things he suggested, like perhaps an unlisted telephone number to Awareness?

COSMIC AWARENESS:

This Awareness indicates that this can be a strong reminder and bring about an identification of one's being with the essence of this Awareness, so that an entity gains a sense of belonging to this Awareness, or of having this Awareness as an attachment to the entity, whereby there is a unification between the entity and this Awareness. This Awareness indicates that this can be beneficial in this regard; the wearing of symbols can have important psychological effects in assisting entities to identify with that which they hold in esteem.

This Awareness indicates that this is seen quite commonly in street-wear of entities. There are those who wear tee shirts with pictures of their favorite beer, or favorite cigarette, or some other design which they wish to identify themselves with, or wish others to recognize that they represent and hold as a value. This Awareness indicates that entities who understand and appreciate the use of symbols and icons and trinkets of this type; that entities in understanding these values may recognize that such can be beneficial in assisting their self-image and their psychological attunement to certain values of a spiritual nature.

HOW SYMBOLS WORK

(Follow-Up Question):

Isn't there more than that to wearing symbols? Don't symbols on the body give much more energy and so forth, sort of like carrying certain rocks or stones in the pockets?

COSMIC AWARENESS:

This Awareness indicates that any symbol works almost entirely on the psychological energies of the wearer. That the psychological energies, the mind force of an entity essentially is the link between spirit and matter. This Awareness indicates that a symbol planted on a rock, buried deep beneath the sea, carries little power to do anything, unless someone is aware of that symbol being placed there, and that placement having a certain purpose according to the psychological beliefs or impressions of the entity who is aware of that symbol.

This Awareness indicates that it is the attitudes and thoughts and projections of concepts which carry the energies of symbols and uses those symbolic energies for their purposes. That to some extent, shapes have energies inherent in themselves. That generally, the energy field of a shape will follow along edges, along lines, along points, and these particularly, carry positive ions to these areas, and create negative ions in the spaces around those areas, but the symbol in itself as a carrier of a concept, works most effectively if there is a mind that recognizes the symbol as having a particular meaning.

This Awareness indicates that still in a more subtle sense, there are subconscious realities or understandings which the masses of consciousness may appreciate, wherein a circle carries certain symbolic energies to all persons, whether they have consciously been informed as to the meaning of that circle or not. That likewise, a square has its subconscious meaning to the masses of entities, a point or spear-shaped symbol carries a particular meaning. A dish-shaped symbols carries its particular meaning, and similarly, all symbols may have some inherent meaning to mass consciousness, even though each of these may also have a different meaning to each individual who looks at these symbols.

One entity may look at the pear-shaped symbol and see this as a weapon. Another may see this as a highway, leading to infinity. Another may see this as a church steeple. Another may see this as a shaft of light, or a ray of light. Another may see this as the road of life, leading to infinity. There are many individual interpretations which may be observed and recognized in that particular symbol, yet subconsciously all entities will see this as two lines coming together in a point, and will recognize the significance of this as being at the tip, as being that the point, and the point of the symbol is that which draws attention, and this represents focus; the focus on some point of significance.

Interpreting the Symbol of Cosmic Awareness

This Awareness indicates that this is the collective unconscious symbology of that symbol, while it still may also have the individual meaning to different persons seeing this symbol. That likewise, the dot with the two circles around it may be seen as different meanings to different individuals. Some may see this as a target for a dart board. Others may see this as an individual encircled with two round fences. Another may see this as a rock dropped in the water, forming rings which flow outward in a pond. Another may see this as some kind of eye, looking outward.

This Awareness indicates that these may be individual interpretations, but the collective interpretation is that there is something which is small and individual surrounded by forces that are likewise surrounded by still other forces. That this

symbol,--the dot with the two circles around it,--as symbolic of the individual surrounded by Universal Forces, surrounded by energies of consciousness. This Awareness indicates that this also may be seen as symbolic of the numer 100. The dot in the middle being the one, surrounded by two zeros. This Awareness indicates that this as symbolic of Cosmic Consciousness, wherein the cosmos is represented by the first, or inner circle, and the second circle surrounding that, represents consciousness,--permeating and encompassing, and going beyond the cosmos.

The Law of Love Symbol is Explained

This Awareness indicates that the *Law of Love* symbol: two concentric circles, or two half-moons or crescents, facing each other, forming a kind of circular shape; this being the symbol for the *Law of Love*, represents the coming together of energies so that an overlapping of these energies occurs between two forces. This Awareness indicates the subconscious can read and understand from the mere shape, a certain interpretation of meaning, although this may not ever be put into words, or understood as the *Law of Love*, unless the entity is told this is what it means.

This Awareness indicates that in this sense, these symbols carry some inherent or essential meaning. That the meaning however, is best conveyed when entities already understand what the symbolism means, and can consciously accept and explain or convey, either verbally or telepathically, what these symbols mean.

This Awareness suggests that it would be appropriate if any enterprising person in the membership should decide to make tee shirts or other clothing, or even decals using this symbol, making this available to other members of the organization.

ED's Note:

When Ralph DUBY founded the original *Organization of Awareness*, It suggested a symbolic language project for the membership, to discover within their meditation enough symbols to understand how non-verbal communication works and to use these symbols for internal dialogue with Awareness. These were also used in the Awareness development classes as well as in the various meditations given by Awareness. CAC hopes in the future to reprint the *Book of Symbols* (there are two volumes) but at the moment the only place you will find these is in the back of issues 75-76 (\$3.00 from CAC).

There are approximately 144 various symbols to date. These were the results of the combined meditative efforts of the O of A members some years back. CAC members who see various symbols in their meditations which are not illustrated in the Symbol manual or the symbol sheet referred to above, are requested to send copies of these symbols in to CAC for possible inclusion in the Symbolic Language manual when we do reprint it. Many thanks. (All symbols must be presented to Cosmic Awareness for approval before included in the Symbolic Language manuals).

Often, Awareness Itself will describe a symbol in a reading, like the example just given for a symbol to describe *Cosmic Awareness Communications*.

HARM

THE UNBORN FETUS?

COSMIC AWARENESS OUTLINES
A FUTURE MEDICINE SYSTEM

QUESTION:

J.W. of Athens, Ohio, heard a television interview program one time, and she wrote the network and asked for a transcript. It was a special report on ultrasound, which was telecast by the cable news network. She sent us a copy, and I'd like to read a little bit of it, and ask Awareness to comment. It is an interview by reporter, Jean Karper, with a Dr. Fox.

JEAN KARPER: "Few pregnant women think twice today about getting an ultrasound scan. Even Lady Diana had one, and found she's going to have a boy. It's an instant moving picture of the fetus made by high frequency sound waves. You can see the baby's heart beat, spinal column, skull, even the tiny valves of the heart. Doctors call ultrasound a new medical wonder, a way to spot birth defects, improper growths and problems that may interfere with birth.

"Ultrasound is a type of radiation, but unlike X-rays, ultrasound is called nonionizing. That's what makes doctors almost universally believe it's absolutely safe. That unlike X-rays, it causes no damage to the fetus."

DR. FOX: "I do not tell my patients that there is a potential harm, because I do not feel there is evidence that there is a potential harm."

JEAN KARPER: "But a CNN investigation reveals growing evidence that ultrasound is not entirely harmless. Some scientists and government officials are concerned that it may be dangerous over the long-term. They fear ultrasound is grossly overused on pregnant women, that it may harm the fetus, and should be limited until they find out whether their suspicions are true.

"Here's what they say may be the problem: Genetic damage to the fetus could persist for generations, possible cancer and subtle birth defects that might not show up for years. Potentially it can produce damage to the genetic material and some of these early studies are suggesting that there

is in fact damage induced by diagnostic levels of ultrasound in human and little rodent cells, so our concern is growing. If it becomes established that ultrasound is in fact a mutagen, it would also and most importantly, or perhaps equally as important, raise the question as to whether or not it is a cancer causing agent, because a very high percentage of agents that are mutagenic are also carcinogenic."

And this dialogue goes on at great length, building up an argument that ultrasound is in fact doing damages to the unborn fetuses. I would like to ask Awareness if this is exaggerated, or if in fact there is danger to these ladies and their fetuses?

COSMIC AWARENESS:

This Awareness indicates that the use of ultrasound as that which can be misused and create damage; this also can be a vital healing system. This Awareness has given information on ultrasound healing through the previous Interpreters. * This Awareness indicates that the use of ultrasound as that which may best be understood in relation to what is called sympathetic vibration; that in sympathetic vibration, material which vibrates to the same frequency on a different octave, to a sound emitted, as that which is in sympathy to that sound.

This Awareness indicates that in regard to the cells of an entity, wherein the ultrasound is on a frequency of a different octave, but of the same note or vibratory rate as a particular cell, it is then in sympathy with that cell, and can at that point be attuned to the cell, and slight movement of tone as that which can raise the vibrations of the cell, speeding up its tonality, or may slow down the vibrations of the cell, depending on whether the tone is raised or lowered after it has been attuned to the cell.

This Awareness indicates that the danger occurs from the lack of understanding of how these tones may affect the cells, and prolonged exposure to the tones and their vibration of the cells. This Awareness indicates however, that it appears that short durations, such as for photography, as that which is not of great serious and lasting effects upon the cells of entities. That this as marginal, and in some instances can be a contributing factor to future problems, whereby the sound effects the nervous system of the embryo, and can contribute to attitude changes and physiological nerve conditions at a later time, being contributive to detrimental experiences under certain conditions,--this not always.

This Awareness indicates that also, just as likely, the ultrasound may alter the vibrational and nervous conditions of an embryo for beneficial experiences at a future time. This Awareness indicates that more needs to be understood in regard to the use of the application of varying frequencies to the cell structure, to the genetic structure of entities so that the

sounds may be used beneficially and that haphazard use is eliminated. This Awareness indicates that in future medicine, ultrasound, which makes use of dissonance, tones that are disharmonious, to break up unwanted patterns within cells, and ultrasonic tones which, blended together are homonious, to reestablish the beneficial patterns of a cell, this is that which shall become a future science.

The Outline of a Future Healing Technique

This Awareness wishes at this time, to give the patterns whereby these sounds may be used in future healing techniques. This Awareness suggests that this sound may be placed upon a zodiac pattern, using Aries with the note C, and the color red; using Taurus as the note C sharp, and the color orange; Gemini as D, and the color yellow; the Cancer sign as D sharp or E flat, and the color lemon; Leo as E and the color green; Virgo as F, and the color turquoise; Libra as F sharp, and the color blue; Scorpio as G, and the color indigo; Sagittarius as G sharp, and the color violet; Capricorn as A, and the color purple; Aquarius as A sharp, and the color magenta; Pisces as B, and the color as scarlet.

This Awareness indicates the use of these vibrations of color or sound may be applied to healing in terms of musical tones, or in terms of colors, using the aspects of astrology, whereby those notes or colors which are trine are expressing harmonious or healing energies, reinforcing that which is already present in a cell, or in an organism, whereby those notes which are dissonant, such as squares or oppositions, serve to disrupt the patterns in a cell or organism so that if the cell needs to be, if the patterns needs to be destroyed or disrupted because of its wrong action, dissonant sounds or colors would be combined to bombard that organism or cell, and disrupt the energies or vibrations; and if after the disruption has occurred and the pattern is broken, a desire to reestablish an harmonious energy for the cell or organism to grow and to develop vitality, then the trines, -- or in music that which would be called the major chords, or thirds (triads), these would be played together.

This Awareness indicates that the harmonious chords or colors being played together on the cell or on the organism, may occur in terms of sound within the range of hearing, or in color, or in ultrasonic levels, or in the extra-low frequency levels wherein this is necessary or desired. This Awareness indicates the extra-low frequency levels can be used to affect the deeper structures, such as the bones and the organs, that these particularly on the lower chakras; that the higher frequencies affect the higher chakras. That the endocrine system may be seen as an octave which is touched by different frequencies or octaves of sound and color.

This Awareness indicates that the lower tones, working on the lower chakras and moving up octaves to affect the higher chakras in a manner whereby these sounds affecting the endocrine system to release certain hormones, to release certain enzymes within the system for purposes of healing, or for purposes of countering forces in the system that have gone awry. This Awareness indicates that this essentially, though not sufficient information, is the basis for a future medicine system which will be used for healing entities during the next century.

This Awareness indicates these sound vibration systems of medicine shall be developed within the next century sufficiently to bring entities back from the dead, so long as these cells have not deteriorated too far. This as contingent on whether the earth itself is still alive and active with human evolution occurring at a pace that allows for the advancement of medicine to occur.

*ED's Note:

When Ralph Duby began channeling Cosmic Awareness in 1963, Awareness announced that over the next few years It would present no less than 17 completely new healing methods to humanity, these to be released when timely by the Organization of Awareness. These 17 types of new healing techniques were as follows:

- Type 1: Charismatic Healing
- Type 2. Sacramental Healing
- Type 3. Magnetic Healing
- Type 4. Autosuggestion
- Type 5. Hypnosis
- Type 6. Carbon Dioxide Therapy and other Consciousness expanding materials
- Type 7. Chromo Therapy (Color healing)
- Type 8. Cosmic Elements - the Tridocia
- Type 9. Sleep Teaching
- Type 10. Ultra sonics
- Type 11. Amulets and Talismans Healing
- Type 12. Hydrotherapy
- Type 13 Genetics
- Type 14 Alchemical Healing
- Type 15 Eugenics
- Type 16 Psychic Surgery
- Type 17 Deradiating Devices

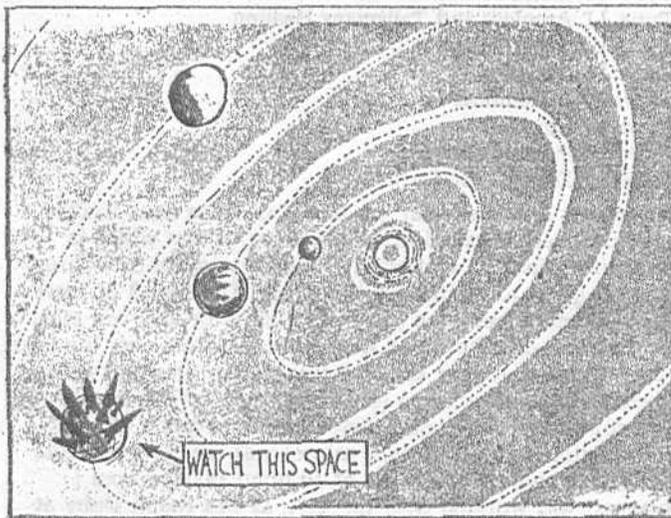

Awareness indicated that the first 6 of these new healing methods were mechanical, in reference to that which is an active principle; that steps 7 and beyond are of a nature not yet given to entities on this plane. The first 8 of these healing techniques were completed, more or less, and most printed and distributed to Awareness members over the years. (CAC plans to reprint some of these when time and funds permit). The information given on Type 10 (Ultrasonics) was top secret, Awareness announced, and much of the information tranced on that subject was sent to a scientist in Philadelphia by the name of Armond Bikel, whom I suspect was working with the CIA, as was Ralph Duby at that time. Awareness desired that ultrasonics be used for healing, that the information not fall into the wrong hands and be used for destructive purposes. I met Mr. Bickle a couple of times in Seattle when some of the readings on Type 10 were being given, I sat in on a few of the readings but the information was all Greek to me, dealing with concepts and devices such as CAL generators, and pulse-impulse relay systems etc. Awareness had indicated

that Mr. Bickle was one of the few scientists in the world who could understand this Type 10 material and for this reason the organization made contact with him. What ever happened to his research and the information given to him by Awareness is unknown. Efforts to track him down met in failure years later. To my knowledge Paul Shockley and other Interpreters who followed Ralph, did not channel any information on Type 10 or any other of the 'top secret' new methods for healings. CAC has in its files most of the material which was released and some of the material that was classified on these projects, but the "keys" necessary to put all of it together were never given, but I have a feeling certain of these keys were given to Dr. Bickle and a couple of other entities like Marvin Muhler, a former president of the organization, in private project readings whose confidence and ability to do the right thing with the information was justified by Awareness. In any event, Awareness has indicated through later Interpreters that both Russia and the United States have all kinds of super-secret weapons in their storehouse, including ultrasonic type weapons and death rays. If these weapons have been used in warfare, the public has not been told about it, to my knowledge. But there has been great advances in ultrasound technology in recent years, much of this resulting in certain devices used in the healing arts. It is my hope that all that early information on this subject given by Awareness has helped to produce the latter.

Even more positive is the outline just given by Awareness in the above reading, that in the next century a complete new system of healing will result from the outline given, a system sufficient 'to bring entities back from the dead' yet!, providing, of course, there is any humanity left on this plane by then. (I have a strong feeling that there will be plenty of entities left).

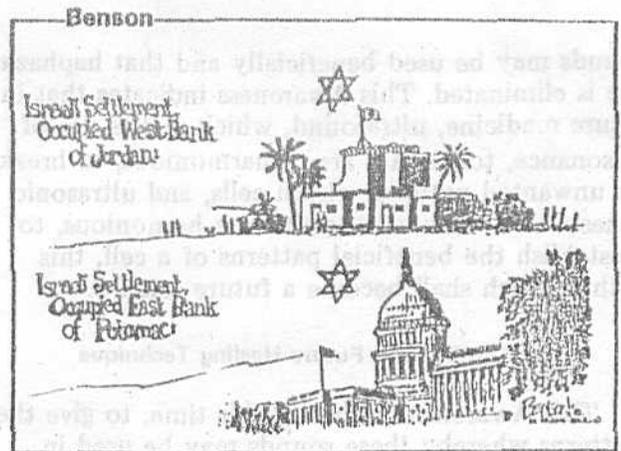

I also have a strong feeling that Awareness released at least two very important 'keys' on ultrasonic healing in the reading just presented,--the zodiac connection and its relation to tones and colors. Now that this information is in consciousness, how long will it be before scientists struggling with ultrasonics today will begin having insights and "inspirations"?

(Avaton).

REVELATIONS OF AWARENESS is a cosmic newsletter, published for the membership of Cosmic Awareness Communications, & the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507. Membership fees and donations are deductible from your federal income taxes.

INDIVIDUAL & FAMILY MEMBERSHIP: \$30 per year. CONTRIBUTING MEMBER: \$52; SPONSORING MEMBER: \$144; PATRON MEMBER: \$1000; ENDOWING MEMBER: \$5000. TITHING MEMBER: One who observes the Universal Law of Prosperity by honoring the Source of their spiritual inspiration by giving the first tenth of their income.

WHY SHOULD AWARENESS GIVE US 17 NEW TYPES OF HEALING?

(Excerpt from a reading given in 1963)
Ralph Duby, Interpreter

QUESTION:

Being that man creates his own problems and diseases and cures himself, then why are we developing the 17 forms of healing?

COSMIC AWARENESS:

This Awareness suggests that simple Awareness has within it that which often changes itself,--that self awareness has more of these structures that heal themselves, and entities ever and always but do heal themselves: --But entities sleep. There is that lack of awareness in those who are *even* expanding awareness. The knowledge that awareness is within men is that which they are told and accept intellectually, but cannot use for their own benefit.

This Awareness has provided these steps of healing to deal with the symptoms, to allow entities again to retain and regain balance and harmony and therefore, out of the balance and harmony to push aside the veil which inhibits enlightenment. It is suggested that healing procedures and techniques deal with symptoms; that greater awareness and expanding of awareness move entities towards cause.

This Awareness suggests that the greatest cause of illness, in most entities, is that of the basic fears associated with insecurity. If entities would repeat those correct answers that this Awareness has given, and develop faith in their awareness, to believe and to understand that they are forever loved, eternally needed, always wanted, illness would reduce itself by those numbers that would astound all within the medical arts and in the medical sciences. For entities feeling insecure, not understanding these patterns of insecurity, develop within the minds the seeds of illness and thus move towards age, disease and decay.
