Helping People Become Aware

ISSUE NO. 314

TAKING CARE OF BUSINESS

Published by Cosmic Awareness Communications and the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507, U.S.A. Reproduction of this material is permitted and encouraged.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

CORPORATE CONSCIOUSNESS AND THE TWILIGHT OF THE ROCKEFELLER EMPIRE

(ISSUES ONE SHOULDN'T RAISE IN A CONVERSATION WITH DAVID ROCKEFELLER)

(Nov. 11, 1983)

QUESTION:

A question from member P.J., of New York City. He writes:

"Dear Awareness. About once every month I meet with David Rockefeller for business reasons. I know he was the chairman of the Chase Manhattan Bank for many years and he is a powerful man. When I meet with him alone, the man seems to be a very sweet person, gentle and harmless. In no way does he give me the impression of being part of a world conspiracy or similar action.

"Of course, we all can be mistaken by the appearances, or our perceptions can be wrong. Usually, my vibrations work pretty well and can tell if someone is of no good or is evil. Question: [I'll read his three questions and then repeat them if Awareness asks]. "Do I perceive this man right? (2) Can you please comment on my relation to him? (3) Is there a particular supernatural reason why I am able to contact so easily this man? I would appreciate a response."

COSMIC AWARENESS:

This Awareness indicates that the activities of the Rockefellers as that which essentially was inherited from the father, and he in turn inherited these activities from his father. This Awareness indicates that in matters of business of this family, the interests of the business as that which often included activities which as individuals these entities were not that close to, but which these entities were nevertheless remotely the cause of.

This Awareness indicates that as individuals in positions of high authority in a corporation or country, often entities take action or are concerned with profits and support or appoint those who are efficient to work under their direction, or to handle certain actions for them. That these entities may not always know exactly what is occurring, but the profits of the activity of the corporation, the profits are what controls the entire situation.

Therefore, the entities may, by being concerned with profits, may help to foster actions which they are not directly involved in, but which subordinates initiate, and which may in further activity down the line, through various repercussions and chain of command, result in events that are dangerous or costly to the lives of others. That this way of setting up a corporation, so that there is a remoteness between the executive and those who are below, is such that its very nature often leads to the misuse of others' lives.

This Awareness indicates that many entities below, who are experiencing the repercussions of the demands from above will look up the corporation and see that: "In order to keep my job, I must be efficient. The demands of my job require that I make this work. I must devise a plan which will make this work, and the plan I have devised requires certain covert actions from this group; therefore, I turn over the concern to this group which is well-versed in covert actions, and let them come up with the final plan, and from this, hopefully, the outcome will bring about the desired results."

This Awareness indicates that the person on top is not really touched by what goes on in the bottom of the pyramid. The people on the bottom do not have much to say other than to do what they are ordered to do from those up the line. Therefore, as an individual person, the person on top may be quite likable, quite courteous, and quite a nice fellow who would shirk at the sight of blood or violence.

This Awareness indicates that it is not so much what might be termed error of committing an action as it is error in *ommitting* to recognize the full repercussions of what one is in charge of. This Awareness indicates that *It* would like also to point out that in recent times, there has been a great change in the Rockefeller empire from what it was before. This Awareness indicates that in previous times there was indeed an effort by the Rockefeller forces, a serious potential for setting up a dictatorship in this country.

This Awareness indicates that the power was building and was strong, but in recent times, this power has been greatly diminished and the Rockefeller forces, although this is an inappropriate name at this time, these forces are now helping to defend against the Bolshevik forces which are now in the leading roles of many of the corporations.

This Awareness suggests that you may wish to listen to some of Dr. Beter's tapes in regard to the Rockefeller brothers in which he indicates that *all* of these entities, *including* David Rockefeller have been replaced by doubles. This Awareness indicates however, that in your position, in relation to this entity, it is advisable that you not raise the issue with the entity, other than perhaps giving him a tape, letting him listen to the information, if that is desired.

This Awareness indicates that you may do this in a joking manner so as not to imply that you believe it is true. This Awareness suggests that in the position of being associated with this entity you have a great opportunity to help give a guidance, as well as to help better understand this entity's feelings and needs. This Awareness indicates that there is always great controversy around any entity who has held that much power; that it is nearly impossible for entities not to establish some negative karma as well as some positive karma, and indeed, much controversy, in positions held such as this entity had.

This Awareness indicates that at present time this entity as having essentially stepped down from the position of holding such great power; that the forces now in control of the bank are no longer seen as being under his domain. This Awareness indicates that it must also be understood that as has been given previously, these various roles which entities play, are roles which have been set up as part of a greater plan, whereby one force acts in opposition to another, and whereby another force acts in opposition to that, and whereby these forces in interacting, gradually move humanity to a new state of consciousness.

This Awareness indicates that *It* has not intended to indicate that these forces are evil in the sense of demonic, whether Bolshevik, whether working with the Rothschilds, or whether of a capitalistic or fascistic type of corporate socialism as with the Rockefeller empire which is now greatly weakened. *It* rather has attempted to explain to the people the nature of these forces and the ramifications upon the people.

This Awareness indicates that the forces involved are often harmful and even those who are working with the money system, the conspirators, do have their role to play in the evolution of humanity, and the role to play is that which requires that eventually, the masses wake up and realize how easily they have been controlled by these who are pulling the strings. This Awareness indicates that as these entities awaken, it is likened unto the discovery that the authority is not so far above, and is not so absolutely clean, and is not so much better than the entity himself, and therefore, the entity who awakens begins to recognize his or her own self-worth, and needs not condemn those who have previously been in positions of power which have caused great harm or difficulty, if that harm and difficulty did in the long-run contribute to their own awakening.

ED's Note: emphasis is by the editor.

The original David Rockefeller and the Chase Manhattan Bank as seen by cartoonists in 1979

This Awareness indicates that it is not that the Rockefeller forces are inherently, or have been inherently bad, as may have been interpreted by the questioner in view of things which this Awareness has indicated previously. It is rather that these entities have been put in a position, were born into a position in which they were trained to handle business in such a manner as to attend to the needs of the corporation, the corporate mind, rather than think in terms of the masses and the people and the ramifications of their concern.

This Awareness wishes also to remind entities that these Rockefeller forces, when they were at their height of glory, *did* provide many new and helpful situations in this country; for example: great numbers of gas stations which helped to mobilize the nation; sanitary restrooms; many things this money did provide to bring this country into a higher standard of living than has ever been experienced on this plane.

This Awareness indicates that all actions of entities in this type of power level carry some negative karma and some good karma, and these can balance out. This Awareness does not see at this time that the entity David Rockefeller is doing anything of any particular nature that would be of a detriment to humanity's progress. This Awareness indicates that the entity, during certain periods of activity at the Chase Manhattan Bank may have in some instances contributed through business practices to actions which had ramifications which eventually led to considerable problems, but it is seen as impossible for an entity not to make mistakes when in such levels, considering the types of energies in the world.

This Awareness indicates that the actions which are perhaps most notorious in regard to the Rockefeller brothers, as that which contributed to the establishment of programs whereby both candidates would be supported and therefore would be to some degree owing to the Rockefellers and whereby these kind of actions were common. This Awareness indicates that it is not seen however, that there was great deliberate attempt to use these advantages for purposes other than those which the entity did believe were proper.

This Awareness indicates that this as a very difficult question and energy field, for it is almost like evaluating the soul-worth of this entity. This Awareness indicates however, that because of the many readings done in the past whereby this Awareness has indicated the potential problems which were being promoted by the programs of the Rockefellers, there is seen the need for this to be addressed. This Awareness indicates that the programs which were set up to create an action of dictatorship in this country through the constitution drawn up in Santa Barbara, and actions whereby many of the patents were sent to Russia to help build up Russian strength; many of these actions were detrimental to this country.

This Awareness indicates however, these things have changed considerably in the past several years, and the entity whom you now know is not even the

same entity which this Awareness has indicated previously, nor is this the same entity which Dr. Beter has spoken of, for this is not the same entity, the same David Rockefeller. This Awareness indicates however, that this entity is not that much different, except that the entity as having experienced and does experience the title and the recognition which the previous entity experienced without all the power.

This Awareness indicates that it is appropriate that you befriend this entity, that you not consider this entity as being dreaded or of being in any way different from any other entity, but that you consider the entity for his own uniqueness and for the relationship which you yourself have with this entity, and according to your own conscience and your own dealings with this entity, relate to the entity in a way which allows you to abide by your own conscience and ethics, while at the same time maintaining as clear a relationship with the entity as is possible in areas which are of your concern and his concern mutually.

This Awareness indicates that it is not necessary that you probe or question this entity in regard to his motives or his justification or his explanation of the many things which are controversial in regard to his family, his past or his policies, but if this does indeed create a problem in the relationship, then it may be addressed, if this appears to be mutually agreeable between the two of you.

This Awareness indicates that there is seen a special relationship here in which you and this entity can build an ongoing friendship and relationship that would be mutually beneficial to you, and there is seen no reason to disrupt this or to prejudice this with any of the controversial material or information which has been said about these entities, his family or the power which the family has gained and held over the several generations.

This Awareness indicates that there is however, that potential for being a close enough friend whereby this entity can discuss some of these aspects of moral or philosophical or ethical concern with you, when the time is right; that this would be of considerable benefit in strengthening your relationship with this entity, and could serve the entity also in being able to relieve and speak of some of these things which may also have troubled him.

This Awareness indicates essentially, the power which the entity David Rockefeller once held and the empire which was once under his control,--this now as that which essentially is being sacked by the Bolshevik forces. This Awareness indicates however, there are still those who are loyal and are working. This Awareness indicates that this is a time wherein great changes occur in all levels, whereby the mighty are dethroned and others rise up to take their place, and to take away all which they have created. This Awareness indicates that this occurs on many levels, all the way up and down the strata.

(FOLLOW-UP QUESTION):

From the information put out on this entity, Rockefeller, it is almost impossible for the average person or even the average big business person to have private conferences with this entity, and I suspect this is why he's asking: "Is there a particular 'supernatural' reason why I am able to contact so easily this man?"

COSMIC AWARENESS:

This Awareness indicates that it appears there is some type of destiny or force whereby you and this entity can become friends, and it appears that this can occur best whenever there is a relaxation so that you can begin talking with this entity and asking questions in regard to how he feels about the way things are going in the world, and what he thinks will occur in the future, in regard to this nation, in regard to the economy, and in regard to the world events which are in the making.

This Awareness indicates in allowing this entity to express some of these personal concerns with a respect for his opinion; this appears to be something which will assist in strengthening your rapport with him, while allowing him to express things that are of concern to him. That this may in time be of great value and significance to you, and to the future forces which evolve around this relationship.

This Awareness indicates there is much more, but this cannot be indicated at this time, as this being premature and could alter the course of events. This Awareness suggests that you simply accept the relationship for what it is from moment to moment and not put any particular designs on the relationship other than those which occur spontaneously. This Awareness indicates that this entity still has considerable power and is at a stage in his life where he wishes to use this power for the good of humanity, rather than simply for the promotion of a corporation and its growth.

There is "Something" About a Corporation

This Awareness indicates there is something about a corporation, which when becoming large enough becomes likened unto an entity itself, wherein the entities within the corporation can do nothing but serve the corporation and it takes over; even those who are on top are governed by the demands of those who are below. The corporation is served by those who work for the corporation, and those who are under the dominion of others in the corporation fail to realize that those who are above are also dominated by the needs and demands of those who are below, but even those who are above are essentially trapped in their roles and duties and responsibilities

to the purposes and obligations of the corporation, the stockholders, the employees of the corporation, and the customers of the corporation.

There are Few who Deliberately do Error

This Awareness indicates that this entity as now experiencing a certain degree of freedom to be himself, and to think on things which he did not previously have time or opportunity to think about. This Awareness indicates that there are truly very few entities who attempt to deliberately do error. There are some who do error simply because they are caught in situations and influenced by circumstances or by peer pressure to perform in a manner which is contrary to the highest.

Many of those who are in the position of doing the greatest harm feel themselves trapped by the movement into positions within relationships, whereby peer pressure would forbid them to back out of commitments which their peers and their obligations and responsibilities and actions have led them to. Therefore, like Macbeth, being so steeped in blood that it is harder to go back than to go forward; these entities continue.

This Awareness indicates that entities in taking a step down the wrong path find that the second step pulls harder than the first. The third step pulls even harder, and before long, the entity is being pulled so hard that it is extremely difficult to extract oneself from the wrong path.

This Awareness indicates that even those entities much trapped in paths and actions that are far greater in terms of unethical behavior than anything which this entity has experienced; even those entities on the wrong path may find their time and the place whereby they too can recognize the error, or can recognize a time of contemplation, or can be freed from the entrapment in Dark Forces, or activities.

This Awareness indicates that as has been previously given, any individual, in any situation cannot claim total innocence. Let he who has no sin cast the first stone. This Awareness indicates that the entity who is the beggar, the pauper or the unnoticed, may have a sin that is unnoticed, simply because the entity himself is unnoticed; but were this entity to be put in a position like that of the king or the emperor, you can be sure that all of the sins this entity possessed, and more which would be brought about by every action the entity did, would be seen.

This Awareness indicates that in being put in any high position, any position of extreme responsibility, where a word, a decision based upon right or wrong information, a decision made properly or improperly can result in the loss of lives who are down the line affected by that decision, whereby if the decision had been reversed, the repercussions may equally have brought about loss of other lives who were affected by the decision not to act.

A decision to act, a decision not to act; either decision, when in a position of such responsibility

can result in the loss of lives in the lower echelon. That it is not so much the individual as it is the system which allows corporations to operate in a manner that is not in the highest interest of all entities affected by the corporation.

Why Awareness Fingered the Rockefellers & Rothschilds

This Awareness indicates that when *It* first began giving information regarding the Rothschilds and the Rockefellers back in 1975, this Awareness indicated that although it is the policy not to point fingers in judgment of any individual, it was impossible to convey the necessary information regarding the powers which were being created and which were acting to the detriment of humanity without stating the names of the Rockefellers and Rothschilds.

This Awareness indicates that there is another minister of Awareness who has met with the baron Rothschild, and likewise, has found this entity to be a nice and friendly congenial person. This Awareness indicates when *It* speaks of these entities in terms of individuals, these entities as individual persons are just as real, just as valued by this Awareness, just as loved as any minister of this Awareness, as any individual on this plane.

This Awareness indicates that when *It* speaks of these entities as pillars of society or as representatives of the forces which they control, as heads of corporations or heads of organizations and conspiracy programs to affect the masses, then *It* is speaking of these entities in an impersonal way, in terms of actions which are being perpetrated under the guidance of these entities.

This Awareness indicates that *It* is not intending to indicate these entities as evil in themselves, although they may be misguided or may be used, or may be conditioned by circumstances forced upon them, to carry out the tenets or aspirations of the organizations which they control. That when an organization is formed it is likened unto driving a train; the engineer cannot simply by whim decide to take a sharp turn to the right, if the tracks which carry the engine go left or go straight forward.

When an organization has been created for certain purposes, the individuals who are in charge of that organization are caught up by the momentum of the organization. Likewise, the President of the United States is caught up by the momentum of the policies which he has promised, which he has brought on; whether they have proven to be right or wrong; the momentum continues to carry the President along and it becomes exceedingly difficult to alter the course once a decision has been made and momentum is built on that decision.

This Awareness indicates that any entity who had been put in a position to head the power of the banks under the circumstances as this or any other entity has experienced, could very easily find himself caught up in the momentum of the purpose, the demands of the stockholders and the continued efforts of

those underneath to keep the corporation alive and active on its course, even to the degree that the entity who is in charge, perhaps tiring of the action or having a change of philosophy, or wondering whether it is really worthwhile, or whether it is really doing any good, might still be caught in the momentum and unable to change course.

The Ramifications of Role-Playing

This Awareness reminds you of the recent news expose, in which the policeman had to arrest his wife protesting. When asked how he could do this, and whether he was upset or embarrassed by what she had done, he replied that he was not at all embarrassed by what she had done: "She is a protestor, that is her job. I am a policeman, it is my job to arrest her. Therefore, the action was carried out and she carried out her role."

This Awareness indicates that this objectivity as to the role-playing allowed these entities not to feel hostile toward each other, or embarrassed by each other; however, this is symptomatic of what occurs in many levels among entities who do not know each other. An entity can enter into a role which requires that he shoot civilians, for example, in a foreign country as a terrorist. The entity sees this role as a job, and has no hostility or hatred for that individual, but sees this action as simply one which is necessary in order to fulfill some cause which the entity feels is important.

This Awareness indicates that it is exceedingly dangerous for entities to put causes above the welfare of others. It is exceedingly dangerous for entities to assume a role in which they must violate others in order to promote a cause, for this kind of role-playing is that which creates tit for tat, slap for punch, or kick for punch. One person hits, the other hits back. These actions appear to be justified and from certain levels, are justified.

A cartoon in a 1987 issue of Spotlight, which has launched a campaign demanding the U.S. government explain why the Chase Manhattan bank is keeping billions of dollars in interest earned by the illegal "freezing" of the money the country of Iran had invested in U.S. banks.

A marine is killed, therefore, send in more marines and kill more of the other. This Awareness indicates that this type of mentality is so common and is due to role-playing; that every entity in every situation is caught up in some kind of role-playing. When an entity enters a job, the first thing that is necessary is to determine, "What is my role in this job? How can I fulfill that role best?"

This Awareness indicates that if these roles lead to violence, if these roles lead to violations of the masses or of individuals, it is not to judge entities for the actions, it is rather to look for ways to redefine the system, to rework and reconcile the conflicting systems so that the systems do not lead to these violations.

This Awareness indicates that a system which functions in harmony, wherein all parts work to reinforce each other, is an absolute and ideal system. The co-creation or cooperative system is that which is ideal. The competitive system, wherein parts are in friction with each other, creates a heat, creates that which burns, creates that which is painful.

This Awareness indicates that when it comes to business, there is always seen that which is called the 'free enterprise system', wherein entities are given the opportunity to compete with other businesses, and this is highly prized and encouraged, for it can lead to better and better business practices, better and better quality of product; that it has brought about great accomplishments, perhaps greater accomplishments than have ever occurred on this plane.

This Awareness indicates that when this is taken to an extreme, to where a business becomes so large that it destroys competitors, then it has outgrown its usefulness. That wherein these businesses grow so large that through unethical practices they destroy smaller or weaker businesses; wherein corporations become so large that they can, through intelligence agencies, coups and covert actions, send in agents to a country and destroy the government of that country and establish their puppets: this is an error, and is contrary to free enterprise concepts.

The Great Multinational Corporations More Powerful than most Nations

This Awareness indicates that many entities think that great corporations are the outgrowth and the right of corporations and is an expression of free enterprise. This Awareness indicates that a great corporation may grow and may develop and may function as an organ of free enterprise, but when it does not allow other enterprises the same freedom to grow and develop, and uses competitive means which are antisocial, antihuman, or illegal in terms of international and moral laws, such as destroying another's leader or stealing a patent, or stealing corporation secrets, or sabotaging the other corporations' new project; this type of action is no less a violation than if an individual did so to another individual, and this exceeds the concept of free enterprise.

This Awareness indicates that at present stage, many of these corporations have grown so large that they are far more powerful than most nations on this

earth. It is the multinational corporations which are the culprits, and wherein these multinational corporations are allowed to carry out activities which for their own welfare violate the welfare and the rights of others, this is seen as a violation to the cosmic laws, to the laws of humanity, to the laws of decency, and to the laws of free enterprise.

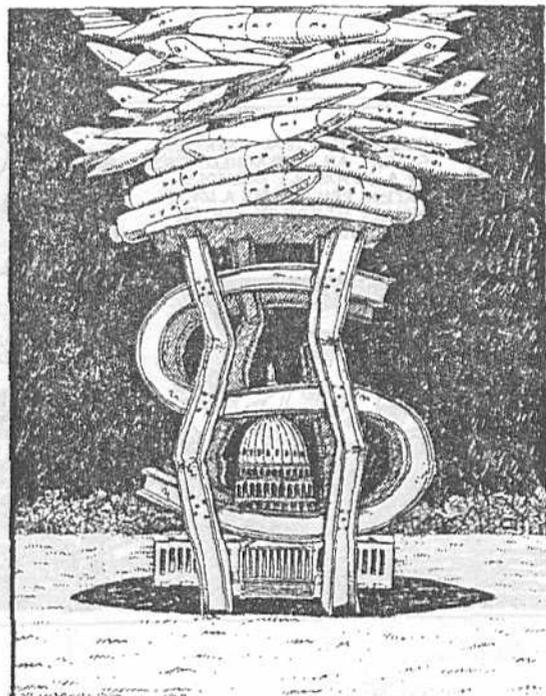

This Awareness indicates that even when these corporations manipulate the laws of the land to support such injustice, it is *still* unethical. This Awareness indicates that the individuals involved in any corporation, any action, have their own personal karma, and depending on how much good and how much bad has been created through their efforts, this will be for them to experience as future karma and it is not for entities to judge the individual.

Entities may discern and judge the actions in their effect upon others, in their effect upon the rights and freedoms of each other, but in terms of judging the soul or righteousness of another individual, this is not for anyone to do, except the individual's own higher awareness, wherein an entity becomes aware of his or her own errors. *This* is the judgment.

Criticism is not Judgment

This Awareness indicates that criticism in terms of an entity's actions, criticisms in terms of situations as they affect you, does not need to be considered as judgment of the individual; that so long as entities recognize the spiritual value of every being in the universe, that everyone has within them that God Self which needs to be recognized and brought out, and even though you may criticize an action as being unworthy of that being, you need not hold hostility nor exhibit condemnation for that entity himself.

This Awareness indicates this as likened unto the entity who stated that when he was a little boy, and did nothing wrong, his mother would ask him: "Which hand did that?", he would look at his hands, and point

and say: "This one!" She would then slap that hand and tell it: "Don't ever do that again!", then look at her son and say: "I know you wouldn't do this kind of thing. Don't let your hands do that either!"

This Awareness indicates that this could have some negative repercussions in which the entity could begin to feel badly about his hands, as though they were evil. However, the entity did not take this attitude, and did however develop a healthy attitude about himself, wherein he did not feel that he was an evil person, and recognized that his mother did not judge him as evil or bad.

This Awareness indicates that it is important for all entities to know that they are essentially good, even if they have committed actions which have been essentially negative in nature, for while an entity may suffer punishment or negative karma, or may feel he or she deserves negative karma and punishment for a negative action, it does no good to be identified as a negative or evil person.

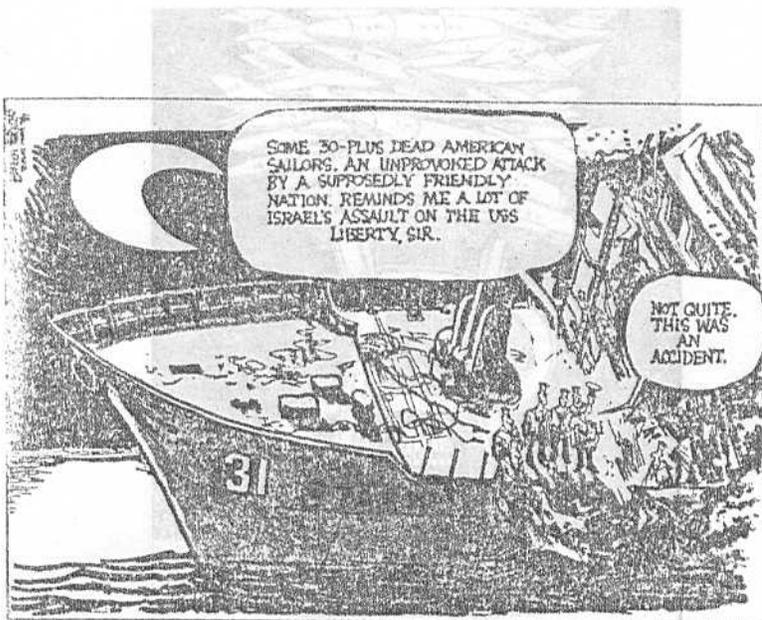

This Awareness indicates that every entity should be treated as a Divine Being. This Awareness reminds you of the Cosmic Law which asked that you address each other as though you were addressing gods.*

**

*ED's Note:

This Cosmic Law has been reprinted elsewhere in this issue.

For more information on the Rockefellers and Rothschilds and multinational corporations, please refer to 'Revelations of Awareness' issues 79-1 (The Gathering Storm); \$4.00; 79-18 (A Cosmic History of the Illuminati); \$3.00; 82-4 (Global 2000); \$3.00; 83-16 (How to Understand what is Happening in Central America—a Special Report); \$3.00; 83-24 (The Cosmic Awareness Forecast for 1984); \$3.00 from C.A.C.

THE LAW OF TOLERANCE

The Law of Tolerance is that Law which recognizes the divinity in others even when covered by the masks and armour of demonic imagery and activities or hidden behind the walls of apparent ignorance, sleep and stupidity; or residing in the bowels of lust, greed and power. The Law of Tolerance is that Law which allows one to speak through these outer layers, and awaits liberation from the deep confines and imprisonment at the center of the self. This Awareness suggests you are all gods, and must in time learn to speak to each other as though you were addressing gods.

HOW DID 'LEGIONNAIRE DISEASE'

GET INTO SPIRIT LAKE ?

(HOW THE NEW BACTERIA IS CREATED)

7/9/82

QUESTION:

Since Mount Saint Helens erupted, there are Oregon State University researchers who have been prowling around and analyzing things there, and they have recently announced that the lakes, such as Spirit Lake in the area, are teeming with microbe life, including potentially virulent strains of the legionnaire disease bacteria. I'd like to ask Awareness, how did the legionnaire disease bacteria get into that remote area?

COSMIC AWARENESS:

This Awareness indicates that this bacteria as that which...This Awareness wishes to explain the nature of certain bacteria as coming from consciousness and attitudes. This Awareness indicates that the attitudes of entities, certain thought energies, can create energy patterns or magnetic centers of a microscopic level, which in turn draw to themselves other forms of energy, and as a seed begin to take on materialization, and grow into a living bacteria, often a unique and new strain.

This Awareness indicates that the legionnaire bacteria as that which appears to have been developed in part by a combination of chemical and microwave energies, these appear to have been created in a kind of laboratory setting, but as having been inadvertently released, wherein the control of these was lost through lack of awareness and conscious controls. This Awareness indicates that it appears that these energies can be transmitted in various ways, and feed on certain energy patterns whereby they manifest according to the flux of energies.

This Awareness indicates that it essentially is a new strain, a new creation which has developed out of mixtures of chemicals, vibrations and energies and thought patterns, and that it does not need to come from a single source, but comes from the

many sources of chemical energy which is part of the general pollution on this planet. This not limited to chemical, but also to the thought energies and electronic and microwave energies as also assisting in the creation of these new bacteria. This Awareness indicates there will also be others.

(Follow-Up Question):

Is that the same bacteria that Dr. Beter, I believe, claimed was part of the Bolshevik plot that actually created this disease in the hotel in Philadelphia that gave it its name during the legionnaire convention?

COSMIC AWARENESS:

This Awareness indicates that this appears to be similar, but not identical in nature. This appears to be a variety of the same.

GETTING HISTORY STRAIGHT...

**HOW UFOs HELPED ALEXANDER
DEFEAT THE EMPIRE OF TYRE**

QUESTION:

Jack Katchmar has discovered a book on UFOs (I believe it was) and I will quote a passage that he would like Awareness to perhaps give further information on, in relation to Alexander the Great.

The quotation is: "In 332 B.C., while Alexander the Great was besieging Tyre, "flying shields" appeared over the Greek camp, round discs, flying in triangular formation, one larger than the other by about a half. For awhile, both armies watched amazed, then from the leader came flashes directed at the city's defenses, causing walls and towers to crumble, as if built of mud. The besieging army poured in. The discs hovered overhead till the city had been successfully taken, then swiftly climbed into the sky and vanished."

Jack Katchmar translates this "as the Intergalactic Space Confederation that is allied with Cosmic Awareness and that brought Christ to earth, also helped Alexander the Great destroy the Ahriman/Lucifer/ Mark of the Beast city of Tyre, 300 years before Christ was brought to earth to fight the same Ahriman/Lucifer/ Jehovah moneychangers, [I am quoting from his letter], and he says "today Cosmic Awareness, Dr. Beter, and the Akasha Peace Institute and so forth, are continuing the same fight," and he'd like to have Awareness comment on this information regarding Alexander the Great.

COSMIC AWARENESS:

This Awareness indicates that this information as being accurate in regards to the attack on the empire of Tyre. That these entities on Tyre controlled the shipping of all of the area, and put upon the people of various nations such oppression and taxation that

they controlled the lives of entities in many of the countries in the area. That this influence as that which was spreading and these entities were using that system of marking or branding of people, and a kind of central banking system with sub-banks, similar to that which is presently planned by the SWIFT system and others, wherein various banks are linked together.

This Awareness indicates that this force of Tyre as that which had its metaphysical roots in Orion, in that area of the Unholy Six known as the Tyrantor. That this as a metaphysical root for the consciousness which inhabited Tyre and which created in this island fortress many caverns and what appeared at the time to be an impregnable fortress.

This Awareness indicates that in any efforts to attack this fortress by sea, entities were subjected to hot sand and minerals and fire falling from the cliffs as their ships approached. That to avoid the fires, Alexander built ships with coverings over them which would allow the falling sand and hot metals to slide off. Even this proved to be inadequate in attacking the fortress. This Awareness indicates this attack became an obsession with Alexander in the feeling that if this were not immobilized as a power point, then all of the trade and economies of all of the nations would become subject to the rulership of those on Tyre.

This Awareness indicates that these forces which were described as discs overhead, were brought in as a kind of Divine interference. That this is not that uncommon in certain crucial historical battles during your earth's history; you may also find other instances of such appearances of "disc-like craft" even dating back to earlier times. This Awareness indicates that when the information is released regarding the hollow earth, this may be better understood. This Awareness indicates essentially, (although many of your readers will find this impossible to accept under present programming), many of these discs or UFOs have their origin within the earth, rather than from outer space. That this is an area which needs to be further explored, but which this Awareness does not feel is timely at present.

This Awareness indicates that hints and small doses of information released, here a little, there a little, here a little more, over a period of time, to prepare masses for greater understanding of *what IS*,--this can allow the spoon-feeding approach to opening of minds which have been closed by programming and deception and illusions. This Awareness indicates that it is better to tease entities into wanting to know more than to shove too much at them at once. It is better to let the child eat what it wants than to force the child to eat what it should. (This of course, in terms of relative conditions, for some children might never choose the proper diet or amounts.) This Awareness indicates however, in terms of spoon-feeding information, some entities want all they can get, all at once, then become sickened from having taken in more than they can

digest. This Awareness indicates that *It* will release small amounts of information, so as to be palatable and digestible for entities.

HOW TO USE PSYCHOMETRY TO TUNE INTO PAST LIVES & OBJECTS

(FOLLOW-UP QUESTION):

Is there any significance other than historical interest in these treasures of Alexander the Third, which were recently on tour in the United States called *The Search for Alexander*? There were over 100 pieces of metalwork and sculpture gathered from various museums, and the highlight are some gold/silver-gilded objects from the royal tomb of Phillip, discovered in 1977.

COSMIC AWARENESS:

This Awareness wishes you notice the date of the opening of this tomb in regards also to the reflection of that which occurred in York, Pennsylvania in 1977, with Alexander Thompson's involvement. This Awareness indicates that the entity who was the father of Alexander Thompson as also having been Phillip. *

This Awareness indicates that these openings into the past historical moments of time, such as this and the displays such as those of the fortunes and treasures of Tut; that moving these energies around in consciousness in shows and displays, are ways whereby Akachords, or vibrations from the past can be triggered in vibrations within the psyche of individuals, to help reestablish the linear connections in time between entities living in one moment and one life, and their own lifetimes in another culture, another vibration, another time. That all of these discoveries, all of these expositions, all of these links with human history of the past are assisting in expanding the consciousness of each entity to the degree that the entity is capable of allowing his or her consciousness to tune in to those energies and allow the imagination or soul, to fill in the rest of the experience.

This Awareness indicates that wherein an entity has a mind which is closed and unaccepting of any concept of having lived before, then the vibrations of that mind will simply observe the energies of ancient treasures as being something left over from the dead. Such entities have a definite disconnection with the past, cannot feel the past, do not extend their souls or allow their souls to remember who they have been, where they have been, and all of the experiences of having been an eternal or inter-dimensional being.

Touching Old Objects to Tune into the Past

This Awareness would suggest to entities who have an opportunity, to visit museums and to touch or see these objects of ancient origin.--This Awareness suggests that you close your eyes momentarily,

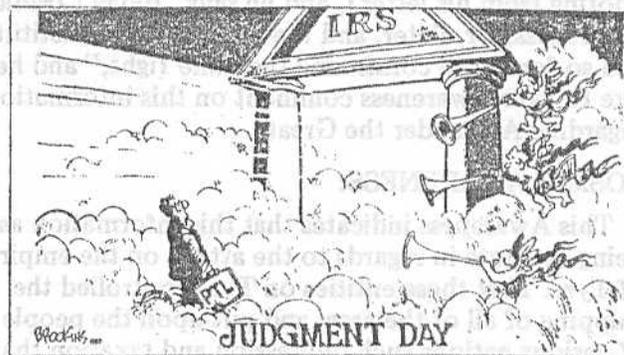

(if possible, without embarrassment), and feel the object as though you were standing there in its time, in its place, in its day. When doing this, (rather than seeing the object in *your* time, *your* place and *your* day) you will find that there are certain impulses and feelings, very subtle, which are totally different from anything you experience in the present time, and these feelings are those which you know beyond any shadow of doubt are the feelings which existed during the time when this object was in its era.

This Awareness indicates that such attunement to those energies can trigger memories of such vivid experience that you will *know* you have lived before. However, an object from a civilization which you did *not* exist in may trigger memories and feelings of that civilization. This Awareness indicates that you not concern yourself with trying to find where you were at the time, but simply feel the energies and vibrations of that civilization, allow your consciousness to move where it desires, and you will then find yourself recognizing where in time or in what place, in relation to this particular object, you existed. It may be several hundred years later, or in another culture, elsewhere, at the same time.

This Awareness indicates that likewise, entities may also wish to experiment with this type of sensitivity by using other objects, such as ancient or old coins. In seeking to find where the coin was in its origin or earlier storage places, an entity may put the coin either in the hand or on the forehead, and feel the vibrations and imagine yourself being there with the coin in *its* time and *its* place, then watch the show of feelings, vibrations and energies, and in some cases, images dance on the screen of your consciousness. This likewise may occur with jewelry or with antique dishes, vases, or other objects. That this is known as psychometry,--the following of objects through feelings.

THE GREAT WHITE BROTHERHOOD --YESTERDAY AND TODAY

QUESTION:

J.G. of Seymour, Connecticut, asks: "Would you ask Awareness what is the relationship between the ancient mystical White Brotherhood, and the Great White Brotherhood as it is used today by various groups?"

COSMIC AWARENESS:

This Awareness indicates that essentially, this is but a connection in name; that the present action is that which attempts to carry on the supposed tradition and actions of the earlier. This Awareness indicates that the ancient White Brotherhood organizations as that which came from areas in the Caucasus mountains and spread throughout both Asia and Europe, and Africa. That these entities traveled also into India and these entities are responsible for having created the concepts which resulted in the caste system of India today.

This Awareness indicates that these entities, recognizing that some of the masses were more advanced intellectually and emotionally and spiritually than others, and some were much more highly evolved; and therefore these entities creating a system whereby they could assist those who were more highly evolved while using their skills and talents to help those who were less evolved, but who nevertheless were still advanced beyond the masses; and in this way, these entities could feed information, wisdom and knowledge through these levels; level A,B,C, and D, (or by whatever other names), feeding through these caste systems information which was relative to that level of understanding, so that these entities could grow in wisdom and in action to become better servants for each other and for those beneath, on the lower levels of the system.

This Awareness indicates that this as that which has carried through most clearly in the caste system of India. However, this also was in the Egyptian experiences, the Hyxos and others in that era, serving on one level; whereas the Hebrews served under Moses as scribes, keeping track of taxes and economy affairs. These again were different levels of a kind of caste system; that from these influences of Egypt and of ancient India, the system has created and spread throughout the European history, up to present time, and into modern affairs. That the system as that which carried through, but the connecting links of pure racial or organizational flow as that which has been disrupted many times.

This Awareness indicates that although this Brotherhood was brought from the Caucasus mountains and these entities tended to be white in color, this did not remain unchanged down through the ages, for there are many entities who were once white in one body, reincarnated into

other colors at other times, and in different occupations and positions of society, and taught and trained others of different colors and races, so that there is, in reality, no such thing as a Great White Brotherhood in terms of race, whereas this is but a kind of allegorical term. The present meaning being most appropriate when associated with an organization dealing in white magic, not simply a Brotherhood, but also a Sisterhood, containing many entities from all races and all colors and all walks of life, regardless of whether they belong to one organization which claims to represent the Great White Brotherhood, or another organization which does not even recognize the existence of a Great White Brotherhood.

This Awareness indicates that essentially, the more recent focus on this term, 'The Great White Brotherhood', began approximately 20-some years ago, and gained some momentum in small ways through groups researching material from Alice Bailey and others, and the entity Mark Probert became one who brought this into the fore and began bringing this around to the college campuses by giving lectures and talks. That it was during one of these, that the entity met his future wife, who now as Elizabeth Clare Prophet, stands at the foremost head of one of these organizations exemplifying the concept of the Great White Brotherhood.

This Awareness indicates that there are others who also claim positions in the Great White Brotherhood and hierarchy system; many of these, also

TO WIN A NUCLEAR WAR

The Pentagon's
Secret
War Plans

Michio Kaku/Daniel Axelrod

Based on Top Secret documents obtained through the FOIA, this is a startling glimpse into U.S. plans since 1945 to initiate a nuclear war.

"This book compels us to re-think and rewrite the history of the Cold War and the arms race."

—Ramsey Clark

"This revealing book should be read by everyone who has been alarmed or baffled by our government's nuclear arms policies."

—Dr. Benjamin Spock

having studied the works of Alice Bailey and Madame Blavatsky. That much of this information, having come from teachings of those in Tibet and Russia, has contributed greatly to the opening up of philosophy and concepts and ideas which the Western World had never even considered, nor looked at, nor would have yet explored, except for the works of these entities and those who assisted in spreading these concepts. This Awareness indicates that there are many valuable messages contained in these teachings from Alice Bailey, Madame Blavatsky and others. There is much which can be learned by studying the history of the White Brotherhood. This Awareness suggests a good book in this regard as available from the Holy Order of Mans. This Awareness indicates that there are many areas which can be explored in terms of this teaching and the hierarchy system.

This Awareness cautions entities however, to recall and always remember that it is not necessary for entities to become subservient to any master, ascended or not, if the entity has the capacity and capability of moving directly to the Divine Forces. This Awareness indicates that wherein you need assistance from a guide, a spirit, or an ascended master, or from an ideal, then let this be so; but wherein you discover that these entities are not allowing you to pass and you feel compelled to move on into direct communication with the Spirit of God, then indeed bypass your pastor, bypass your priest, bypass your ascended masters, bypass your gurus, bypass your mother and father, and go directly into communication with God.

THE REAL CAUSE OF HEART PROBLEMS

(HOW TO DEAL WITH HEART FIBRILLATION)

QUESTION:

A question from W.M., Louisville, Ky. "My brother suffers from heart fibrillation. I am very worried about him. Does Awareness have anything to say about the cause of this condition and whether it can be cured? Doctors don't seem to have the answer. There probably are very many who suffer from this, and this would be of good benefit to publish."

COSMIC AWARENESS:

This Awareness indicates that this appears to be in a general sense related to the nerve centers of the body and the circulatory system; this as fire and air in the tridosha. This Awareness suggests that the entity could be assisted in the nerve aspect through acupuncture. This appears to relate to deep psychological traumas which the entity experienced sometime in this present lifetime; that these traumatic experiences may be assisted through counseling,

and when the entity can release certain pent-up unexpressed anger, (which the entity may not even be aware that he holds), this can also release much of the intensity and pressure on the nerve bodies to allow a more even flow of the vital force. This Awareness indicates that diet can be helpful, but it is not the root of the problem; the real root being more associated with deep-seated emotional blocks that have not been released, but have been suppressed.

This Awareness indicates that generally, heart conditions and circulatory problems are associated with blocked anxiety and hostility which has not been fully released, but has been suppressed. This Awareness suggests that a good counselor could be helpful in attending to this particular situation; that other medical activities can also be beneficial. This Awareness suggests that the entity would benefit from the use of cayenne, and particularly from hawthorn berry; that Vitamin C, Vitamin E, and lecithin, fruit pectin,--that these can all be beneficial for the entity. This Awareness suggests also calcium, Vitamin A and D as being beneficial to assist in steadying the nerves. That manganese and magnesium also may be useful; that zinc as also important to this entity.

(FOLLOW-UP QUESTION):

Would those suggestions also help other entities with this problem?

COSMIC AWARENESS:

This Awareness indicates that in a general sense, this can be applicable to most situations of this nature; that each may be somewhat different and may require individualized attention in particular areas. This Awareness suggests that this not be a substitute for regular medical help.

CONFUSION FROM AFRICA:

REVELATIONS OF AWARENESS is a cosmic newsletter, published for the membership of Cosmic Awareness Communications, & the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507. Membership fees and donations are deductible from your federal income taxes.

INDIVIDUAL & FAMILY MEMBERSHIP: \$30 per year. CONTRIBUTING MEMBER: \$52; SPONSORING MEMBER: \$144; PATRON MEMBER: \$1000; ENDOWING MEMBER: \$5000. TITHING MEMBER: One who observes the Universal Law of Prosperity by honoring the Source of their spiritual inspiration by giving the first tenth of their income.

ALL DONATIONS TO C.A.C. ARE USED TO SPREAD THE AWARENESS MESSAGES TO OTHERS.
