

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

HOW PSIONICS-RADIONICS ARE USED TO HEAL AND KILL

(THE ROBOTOID-SYNTHETICS CONNECTION)

QUESTION:

I have a few question from one of the SPIRAL people. "Recently reference was made in the *Village Voice* newspaper to the subjection of Russian dissidents to E.M.R. (electro-magnetic radiation) emitted from Russian remote sensing instrumentation, which involves 'thought detection studies via scanning micowave holography. Would Awareness please explain the process and tell us if this is related to the production of synthetics and robotoids. Also, is the method now in use for thought detection of U.S. citizens; and if so, how can we protect against it?"

COSMIC AWARENESS:

This Awareness indicates that this as being an advanced form of radionics, or that which is known as psionics; that this also as related to instruments described in the Shaver mystery material, produced in the early 40's. This Awareness indicates that the present technology using these devices is that which has its basis from the radionics of vibration, or frequency, whereby the instrument tunes in to the particular frequency of the subject, and from such frequency, can detect as well as send information. That this as associated with the mind of the operator, whereby the operator can send certain frequency through the machine, while also sending

certain data from the mind of the operator to the subject, once the subject has been identified and tuned in to by the frequency on the machine.

This Awareness indicates that similarly, in the radionics machines, whereby the subject may be contacted by its frequency, either through use of a photograph, or through a part of the subect containing the vibration of the subject; (this may also include the signature of the subject); that the machine may be used to locate and identify the frequency of the subject, to send a particular energy or to send a particular message. This Awareness indicates that an example being to use a photograph of an orchard, whereby every other row is painted with pesticide to kill the pests in those rows in that orchard. This photograph then being placed in the radionics or psionics machine, then sends forth the vibration which tend to kill the pests on those rows marked on the photograph. This Awareness indicates that likewise, this may be used to heal diseased plants or subjects, by giving medicines to the photograph rather than poisons.

This Awareness indicates that the principle being that of the *Law of Correspondence*, wherein that which is a substitution for another thing carrying the vibrations of that thing, may be used for psychic attunement; this closely associated with principles used in voodoo. This Awareness indicates that what has been described is relatively well-known by entities involved in the radionics field; that the new twist which has been more recently developed by the Soviets, is that of scanning the mind of entities in order to not send, but receive information from entities whose photographs are available. This Awareness indicates that the principle works the same, except in reverse: rather than sending a thought, the operator becomes open to receive a thought by attuning to the frequency of the machine, after the machine has tuned to the frequency in the photograph.

This Awareness indicates that this is not an exclusive machine used by Soviets, that the United States has also use of this type of equipment and it has been in use for some time, - this in certain segments, particularly associated with the Rockefeller powers and the agencies under their control.

IS THIS PRINCIPLE USED IN THE CREATION OF ROBOTIDS AND SYNTHETICS ?

(FOLLOW-UP QUESTION):

This principle is also used in the creation of the robotoids and synthetics, is it not?

COSMIC AWARENESS:

This Awareness indicates that the principle as particularly developed in the Soviet Union for use in gathering information electronically, and implanting that information into the robotoid through the attunement of frequency; this as similar to a program which would combine recording techniques with broadcasting techniques. This Awareness asks you to imagine a particular machine that could not only record information, such as on a tape, but take from that recording,--read off the vibrations from the tape by erasing or drawing out that information without losing the vibrations or frequencies, and implanting that information into another tape. This Awareness indicates this may be difficult to imagine, yet it becomes simple when you consider the transplanting of information from a phonograph record to another phonograph record through the usual process of duplicating records. This Awareness indicates that essentially, these machines through attunement to vibrations, can tap the consciousness of an entity, record the frequencies, and translate and broadcast these energies to other entities through the machines involved.

How to Tell When you are Being Monitored

This Awareness indicates that you may recognize when and if you are being monitored: the feeling is definite, as though you are surrounded by an electronic field, particularly around your head. There occurs a kind of ringing in the ears, which comes on instantaneously, lasts for several seconds, perhaps 5 to 30 seconds. The ringing is that which causes one to stop giving attention to whatever was of interest and to hold steady, or to turn attention to that energy which is surrounding the head, and causes a definite feeling of being monitored, as though something had been placed over your head, having an electronic vibration. It may feel similar to having a pot or can placed around your head, cutting off some of the sounds or vibrations outside, while giving a kind of sensation or sound of being inside of some container.

This Awareness indicates that when this occurs, and you sense that you are being monitored, there is not much which you can do, but if you are at the time thinking or talking to others about such things as you would not like overheard, this Awareness suggests that you simply stop such thoughts and begin doing mathematical problems in your head,--multiplying or dividing numbers until the ringing stops. This Awareness indicates that not all ringing in the ears is of this type, but when this

type of monitoring does occur, you can definitely sense that you are being monitored. This generally occurs when entities are involved in some type of conversation or mental level of concern about conspiracies, or about the intrigues which are hidden from public view, or about UFO's and government intrigues.

This Awareness indicates that these monitoring actions are not only from instruments on this plane; that in some instances, entities from another dimensions listen in to the thoughts and expressions of entities on this plane when the conversations are of significance to them. This Awareness indicates that it is little understood by entities on this plane, that those in other frequencies and dimensions also have a need for information, some of which is available from entities on this plane, and which is not necessarily available to them. That this as being similar to efforts by entities on the physical plane to seek information from spirits or those of the hierarchy system who reside on the Inner Planes. This Awareness indicates that similarly, spirits and entities on the Inner Planes, (other dimensions) often enjoy gathering intelligence and information from entities upon this physical plane.

This Awareness indicates that the monitoring system, both on this physical plane and from the other dimensions, feels approximately the same; but if one is sensitive, an entity can determine whether he or she is being monitored by entities of an alien nature from other dimensions, or whether these monitorings are from entities on this particular physical plane. This Awareness indicates there are also instruments of a security nature whereby entities wishing not to be monitored, may create a field about themselves, using these instruments so that their thoughts are not monitored, cannot be tapped by these machines.

WILL THE "RADIATION DETECTOR" DEVICE PROTECT ENTITIES AGAINST SURVEILLANCE?

(FOLLOW-UP QUESTION):

There's a device called the 'radiation detector', put out by a company called Radiation Detection, Inc., out of Tulsa, Oklahoma. They sell it for \$29.95 with a money-back guarantee. Part of their literature says, "What is this radiation detector? It is a high technology instrument that could easily be one of the best investments you will ever make. It is durable and simple to use. It requires no batteries or AC power. This radiation detector is to radiation what a smoke detector is to fire. It is only 2-1/2 inches high, and easily taken along. The detector will warn you of excessive radiation from nuclear reactors, nuclear fallout, medical or dental X-rays, the color TV your children watch, microwave leakage, industrial waste, radiation transport accidents and so forth." I'd like to ask Awareness if this device would be able to detect the type of surveillance just mentioned in this reading?

COSMIC AWARENESS:

This Awareness indicates that this as possible, but questionable; that it does not appear to be sensitive enough to detect this type of frequency, as it is of a much more subtle nature than that which the instrument is designed for. This Awareness indicates that the most sensitive detector is the entity's own consciousness and the sensitivity which the individual possesses. This Awareness suggests that you cannot miss knowing when you are being monitored in this fashion.

(FOLLOW-UP QUESTION):

Is this the same type of monitoring that occurred some time ago when the Interpreter was in trance giving a CAC reading and Awareness indicated it was some friend of Dr. Beter's who was checking in on the Interpreter? *

COSMIC AWARENESS:

This Awareness indicates this in the affirmative.

* ED's Note:

Neither Vicki or myself will ever forget that night. It was about 2:AM in the morning and we were completing a series of heavy readings which concerned the Illuminati-Beast conspiracy. Everyone was paranoid enough during those days, releasing information which Awareness had indicated could be life-threatening if certain forces became aware of what we were doing. It was raining that night, we could hear it pounding on the roof above as Awareness spoke through the Interpreter, Paul Shockley, as he lay on our cottage floor deep in trance, candles at his head and feet, his body covered with a white sheet. I forget the exact rap Awareness was giving at that moment, but right in the middle of a sentence, IT paused for what seemed several long minutes. Paul's head leaned back then turned slowly side to side; he was still deeply in trance. Finally, Awareness quietly announced: "This Awareness indicates the Interpreter is being monitored." I glanced at Vicki T., whose face had suddenly paled and her large blue eyes widened, and just for a moment, I thought I detected panic about to break out in her expression. But then, the reassuring voice of Awareness resumed again and assured us it appeared to be friends of Dr. Beter who were doing the monitoring with these advanced psionic devices described by Awareness in this reading. After about three minutes, the monitoring stopped and Awareness resumed the reading, even to completing the sentence it had interrupted moments before when it detected the monitoring. Earlier that evening, Awareness revealed in one of the readings, that it was time to cool it for awhile, time to stop releasing the heavy information, as the "Beast was looking in our direction," like an animal sniffing the wind, trying to pick up a vague, uncertain scent. Because of that reading, it was a sort of relief to hear later on that night that it was only friends of Dr. Beter who were tuning in to the reading, or rather were tuning in to check on how Paul was doing. Since the information Paul was channeling and we were releasing through the CAC newsletters confirmed what Dr. Beter and his sources were gathering, they evidently felt quite protective of Paul and had respect for his source of similar information. (Avaton).

HOW ENTITIES ON EARTH ARE MONITORED BY ALIENS

(Follow-Up Question,--Vicki):

Since most of the conversations going on here on the earth plane are probably not that interesting, is there some kind of system, like on the telephone, if certain key words come up, then it comes to somebody's attention that this is working up to an area that needs to be monitored?

COSMIC AWARENESS:

This Awareness indicates that these instruments are not used haphazardly on the average citizen, unless there is a particular reason to tune in to that entity for purposes of surveillance or for purposes of gathering information. This Awareness indicates that the instruments are not so available as to be used for the masses. This Awareness indicates that this may be used for purposes designed by governments for surveillance of individuals who need, according to their standards, to be better understood, to be monitored for some reason, and that this is rather infrequent in terms of the masses.

This Awareness indicates however, that from the other dimensions, those entities from the Inner Planes, not using instruments of this type of a physical nature, can conduct similar monitoring actions as previously described, from other dimensions, whereby they attune themselves to entities on this plane simply from the vibration of the entities's thoughts. That wherein an entity enters into a certain frequency, such as the alpha wavelength, and another entity on another dimension is also on that frequency, there may be a rapport occurring whereby this entity communicates through these vibrations with the mind of the physical entity, and the physical entity may feel himself being monitored.

From the viewpoint of the entity on the Inner Plane, or other dimension, that entity may feel as though he has received a message from some spokesperson from another dimension; and the information received from the physical entity may appear to the entity on the Inner Plane to be of significance because it was conveyed in this manner. It is very similar to the entity on the physical plane hearing voices in his head and believing that he has been spoken to by a spiritual being.

This Awareness indicates that as it is above, so it is below. This Awareness suggests that these communications which transcend dimensions, or frequency levels, are those which allow information to flow, or leak between these barriers of consciousness; and the leaking which occurs is that which allows for awakening of new concepts and ideas to those areas wherein the leak occurs. This likened unto entities living within the layers of an onion, who somehow manage to communicate with others inside the next layer, and who somehow manage to receive information about that next

(THE "WHITE LIGHT" APPROACH)

layer which can be valuable to them in their own layer.

This Awareness indicates the universe is composed of layers of consciousness, likened unto the thousand-petaled lotus. That this is divided by frequencies, or octaves of vibrations; that these octaves may be transcended through frequency similarities; wherein an entity attunes to a certain frequency that has sympathetic vibrations to the same frequency on a higher octave, or has harmonious chords linking to a similar harmonious frequency.

IS THERE ANY WAY TO PROTECT ONESELF AGAINST PSIONIC DEVICES?

(Follow-Up Question--Vicki):

In relation to this protective screening machine that physical entities might want to use, is there information available to someone like us on how to get one, and is there anyone in our circle that would be advised to use one?

COSMIC AWARENESS:

This Awareness suggests that this not being necessary to entities involved in the Awareness movement. This Awareness indicates that it is advisable that entities involved in the Awareness movement have an openness whereby there is *nothing of significance which needs to be hidden*. This Awareness indicates that this as used more for entities involved in secrecy, in conspiracy programs or activities, or in spy systems, or in activities which involve the secret plans of governments. This Awareness indicates that these entities may have certain protective devices to keep away psionic influences.

This Awareness indicates that wherein an entity is concerned about psionic influences being used against one, this can be countered by use of psionic machines, whereby the photograph is given its particular dose of positive energy to counter any negative energy which has been given. That this, of course, requires one who is familiar with the proper use of such machines. This Awareness indicates that a more appropriate device has been developed in the Portland, Oregon, area, whereby a vibratory rate of 7.8 hertz is available in a kind of device that can be worn on the body to strengthen the aura and to ward off microwave type energies. That this can have certain benefits.

This Awareness indicates that the action of wrapping oneself in White Light, in keeping one's thoughts and motives pure, so that hostilities are not being emanated; this is the best protection which entities can have.

This Awareness wishes to comment at this time on a particular approach to dealing with one's real or imagined enemies. This Awareness suggests that wherein you assume that you have enemies, regardless of who these might be, or of how despicable these enemies may appear to you, or whether these enemies are physical or of a spirit nature, whether of the Alien Force or of a physical nature, whether demonic or simply troublesome friends, or associates, --that whatever form your enemy may have, whatever tactics your enemy may use, that the most difficult way of dealing with your enemy is to use force, carry a big stick, become a threat to your enemy. For it will only become more powerful, will gain power one way or another, or the events which ensue will grow in magnitude so that you become overwhelmed. The larger your club, the more power will come to your enemy, or the situation, so that you are eventually overwhelmed by the force which you generate from your big club.

This Awareness indicates that the appropriate way of dealing with your enemy, and that which may appear somewhat shocking to many, is not to psychically send daggers of hostility and hatred to your enemy, but rather to wrap your enemy in White Light. This Awareness indicates wrap yourself also in White Light. Visualize yourself being surrounded by the White Light, the clear Christ Consciousness. Visualize your enemy being surrounded by the protective clear White Consciousness, the clear Christ Consciousness. That this action is that

which disarms the enemy, even if this enemy is Satan himself, or of some other demonic nature. The enemy then, being surrounded by White Light: if this entity attempts to attack or send forth hostilities to you, the White Light of the Divine will simply bounce back the energies which that entity has sent forth.

This Awareness indicates that this is likened unto creating a psychic or psionic screen around yourself to protect you from outside attacks; it also protects your enemy from attacks which you might send to your enemy. That surrounding your enemy with White Light protects you from any energies of an Alien Force which might come from that entity and causes the entity who would send such energies to be bombarded with his own hostilities. The shield of White Light reflects back upon the entity, so that anything emanated returns quickly to the sender. In both yourself and your enemy, a protection, a shield occurs. This may be done with the visualization, with consciousness, with the mind, with one's imagination. The most efficient psionics device is the human consciousness, when it is aware of its own capabilities,—(this in reference to these devices on this plane). This Awareness indicates that when one is walking in the Light of Christ, the Christ Consciousness, the Crystal Clear Consciousness of love, peace, harmony to all; this consciousness is that which serves as the highest frequency and wards off other frequencies of a lower vibration.

This Awareness indicates that in wrapping your enemy with White Light, you not have as a motive simply to trap the enemy with the White Light so that the enemy's hostilities return to himself; but that your motive be to encase your enemy in White Light so that his vibrations are altered and changed, so that benefits of the Christ Consciousness can penetrate the entity and transform the entity into a loving being. This Awareness indicates that this as the appropriate motive; that a secondary or side-effect is that if the entity does not respond to the energies of the White Light, then the energies which he emanates will reflect back and do more harm to himself than to those who he sends his hostilities toward.

This as associated with the commandment that you love your enemies. This Awareness indicates that you need not love their actions in order to love their essences, their being. That you concern yourself not with destroying your enemy, but rather with transforming your enemy into a friend. This Awareness indicates that this may sound easier than it is; for some entities will resist to their death, rather than become your friend. This Awareness does not ask you to become foolish in your efforts to make friends with a madman, with a serpent, or with the tiger; but rather, asks you to use the White Light rather than the Dark Forces in dealing with your enemies; this being much more effective with less repercussion involved.

This Awareness suggests that entities wishing to carry this concept into more general areas, should consider wrapping those forces of the Illuminati, those forces which are creating and moving the world toward the brink of war,—wrapping these entities in White Light with the thought being that these entities not only need to transform, to become transformed, into more wholesome beings, but also that the White Light affect these entities in such a manner that their hostilities cannot prevail against others, because the White Light shall reflect themselves back upon themselves, so that they are forced to see themselves, their actions, their hostilities, their motives, their purposes and their manipulations, and that they simply cannot project these actions outside of their own sphere, outside of the White Light which surrounds them.

WHY ARE ALL THE GIANT CORPORATIONS SUDDENLY MERGING ?

(WHERE HAVE ALL THE ROBOTIDS GONE ?)

QUESTION:

Another question from the entity in SPIRAL. "Is the Eastern establishment encouraging and permitting an increasing number of large corporate mergers to occur at this time in a frantic attempt to implement a corporate world-wide dictatorship? And are the Bolsheviks in control in the United States lending to this plan so that their plan of taking over the United States will then be made easier? Large power blocks might be easier to nationalize than many smaller ones.

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative, particularly in the first part. This Awareness indicates that in reference to the Bolsheviks allowing this to occur, that this as being allowed with reservation. That wherein the Bolsheviks find an opportunity to move in and establish control of these corporations, this would be acceptable to these Bolsheviks, even though the total dictatorship had not yet been established.

This Awareness indicates that essentially, the Bolsheviks have much control of these corporations already, in that many of the heads of corporations are in fact synthetics,—this having been accomplished during the past two years. This Awareness wishes to clarify also to entities that there are very few robotoids in the United States; that these entities have been essentially removed and replaced by synthetics. This Awareness indicates that this appears to have been a source of misunderstanding by many entities who still speak of robotoids in the United States. This Awareness indicates there are a few, but the majority have been replaced by synthetics of the Bolshevik system.

HOW MANY SYNTHETICS ARE THERE IN GOVERNMENT AND IN CORPORATIONS?

(FOLLOW-UP QUESTION):

Would Awareness give an approximate figure of the number of synthetics there are now in the United States in the government and corporations and other places? Just a ballpark figure...?

COSMIC AWARENESS:

This Awareness indicates that it appears approximately one-third of the entities in the higher level of government agencies and also in corporations,—approximately 20% in the corporation levels,—this in terms of the larger corporations. That this 20% being in terms of the higher echelons of the corporations, not referring to the lower management levels. This Awareness indicates this including the banking system to some degree also. That this also includes the security agencies of the government, wherein many of these entities are synthetic in nature. This Awareness indicates that this information as that which can become somewhat troublesome in terms of questions from your membership, and may cause you to lose some of your membership. This Awareness suggests that you consider whether you wish to print this or withhold this information.

HOW TO DETECT THE NEW SYNTHETICS

(FOLLOW-UP QUESTION):

Is there any foolproof method that an entity who is non-synthetic can detect the new, improved synthetic? For example, legend has it that vampires cast no reflection, no shadow, or ...

COSMIC AWARENESS:

This Awareness indicates that this as a reference to the aura; that these entities who have no aura of magnitude. That the aura as that which is limited in size to a very small close thin aura, or only that which surrounds the heart. This Awareness indicates that with certain machines using processes similar to Kirlian photography, or with psionic machines, entities can distinguish the synthetic from the real entity or from the robotoid. That without such, the

entities cannot, except through sensitivity or ability to see auras, make such distinctions.

This Awareness suggests that entities not become overly curious about things which they can do nothing with or about; or about things which, if they become too involved in, would simply cost them their lives. This Awareness reminds you of the saying that "curiosity killed the cat." This Awareness indicates that it is one thing to become aware, it is another thing to know *too much* for your own good; for there are those who take great pains at preventing entities from finding out what is happening. This Awareness indicates that in order to continue to function upon this plane, entities must grow in wisdom and knowledge at a pace which is not too rapid, so as to draw too much attention; at a pace whereby entities can not be too outstanding, but whereby they can be on the cutting-edge of consciousness without protruding out beyond that edge. This Awareness indicates that *It* must withhold some information for the right time; that when *It* gives too much, trouble follows.

This Awareness indicates that it is healthy to be curious, but it is also healthy to be patient and to be able to accept that which has been given, knowing that there is more which may come later. This Awareness does not intend to chastise anyone for questioning, but rather wishes to explain why certain information often must not yet be released. That in retrospect, looking back at the information on the UFOs, wherein for approximately ten years entities were asking questions regarding the UFO's; if entities will recall the information released in that message regarding the UFOs and synthetics, they will now understand why this Awareness did not release this information ten years earlier. This Awareness indicates that even when it *was* released, it lead to the loss of approximately one-third of the CAC membership, and to many questions, hostilities and other expressions of disbelief.

This Awareness indicates that there are many areas which the human mind cannot conceive, refuses to examine, and would not believe, yet wants to know. This Awareness indicates that the area of robotoids, synthetics, and the intrigues of the government are very touchy areas which can cause problems, even though entities may, out of curiosity, wish to find out what they can. This Awareness indicates that curiosity is that which sets the thinking mind apart from the dull and thoughtless mind; yet curiosity, if not checked, can also be fatal.

ED's Note' this particular reading was given in October, 1981, and today huge corporate mergers are still making news almost daily. One can only imagine how far this global plot, instigated by the Bolsheviks (Zionists) to set up their long-planned one-world government, will go. The plan is to have two basic classes: the super-rich and the slaves to do all the work. Here in the U.S. it is becoming more obvious every day that the middle class is rapidly disappearing, millions of jobs are being eliminated, the unions are being broken and those in the working class who are lucky enough to have a job, often must take large wage reductions in order to keep it. Those in the upper, rich class are getting richer every year, according to the IRS statistics, richer mainly because of corporate greed, stomping out the competition and buying up its competitors so it can then charge the public the maximum for the goods it produces with cheap labor, robots and synthetic humans.

There are many things such as this that are taking place before our very eyes. One can only wonder what is taking place behind the scenes these days. The scenario which Awareness gave seven years ago appears to be still in motion, -- a credit to those conspirators like Rockefeller and Rothschild and their gangs who set the whole thing into motion many years ago. But if we are to believe Awareness, not to worry! For the head of the Beast has been severed, and what we see and read about daily is merely the wild thrashing of the various tentacles, mindlessly following orders from former leaders whose heads can no longer give them.

For more information on robotoids and synthetics etc. please refer to the various back-issues catalogs published by CAC, starting with 79-1 (The Gathering Storm); \$4.00; 79-18 (The Secret History of the Illuminati); \$3.00.

Note: the staff of CAC and in particular, this editor, have never relished releasing information in regard to these synthetic humans,--the robotoids and the synthetics. One big reason is that it is dangerous to put out such information; those who really hold the power in this nation do not want the public informed of what is going on. Secondly, as Awareness has just mentioned, CAC always loses some members each time we release a little bit more on this subject, and if CAC is to remain in the publishing business, particularly at this present time, we simply cannot afford to lose anymore members. However, those of you who have been with us through those heavy years of 1979-1982 and who understand the Illuminati scheme and long for more information as to what is going on behind the scenes, --this is understandable, and we feel compelled at various times to release a little bit more. At this time

we feel that much of the 'heat' has lessened on this subject, for like UFOs it is often dismissed as simply fantasy or indulged in by a small cult of followers. This is okay with us. I hope that you new members who have not bothered to read the "Gathering Storm" and subsequent follow-up material on UFOs and the robotoids and synthetics, will accept the above reading and similar information as fantasy, science-fiction or simply 'stretching the mind'. Like Awareness has indicated, there is nothing we can do about the situation (if indeed it is really true at all), but to you many 'Synthetic Watchers' out there, we hope this type of information will help you to understand a bit more of what is really happening in this nation today, and hopefully help you to read between the daily headlines of your newspapers or between the scenes on the 6:0'clock TV news.

In regard to psionic devices, please refer to the CAC back issues catalogs for more information. More on this subject will be published later also. We also recommend the new book "Psionics 101" by Charles Cosimano, published by Llewellyn Publishing Co., St. Paul, Minn. which is also available from CAC (current price \$7.95 plus postage). This is a "how to" book on basic psionics that can be of much help in grasping and understanding this incredible subject.

NEW PSIONICS HEALING PROJECT

CAC is starting a special Psionics Healing Project, by the way, and requests that those of you who are active in research and use of this method, to try to use your device to heal those afflicted with AIDS and other terminal illness. If you know of someone suffering from AIDS, for example, get a photograph of the entity, or use one of the many photos in the newspapers which are running stories and interviews on these unfortunate people, and place the photo in your psionic device, then amplify your thought of the AIDS virus suddenly leaving the entity's body, and glowing robust health returning to him. (It would help if you used one of those illustrations of the AIDS virus, which are published so often, and placing this over the picture of the entity and then whitening out every last one of the viruses in the illustration. This could help to amplify the healing effect.)

Results on these experiments should be sent in to CAC which will periodically update the situation and pass any information gathered on to those who are interested in using this new method. Personally, we feel this could be the answer to cancer and AIDS and other terminal type illnesses which allopathic medicine claims there is no cure.

Of course, if karma is running and the entity is not supposed to be healed of his affliction, even this psionics method, I suspect, will not work. However, this should not be the case with all patients by any means, so let's give it a good try. We know many of you out there have these psionic machines and we hope you will cooperate in this new healing project and keep in touch.

For more information on psionic devices, we recommend you contact the following people and firms:

CAC member Gary Zuckett, C/O of the Lotus Shoppe, Pullman, West Va. 26421. Phone (304-659-2301). Gary is well-schooled in psionics and has used this method in farming and in healing. At one time he was selling a unit called the Biotron which is used on humans and on animals for healing.

Psionic devices can be purchased from: Interdimensional Sciences, PO Box 167, Lakemont, Ga. 30552. Write for information.

Advanced Sciences Research and Development Corp. PO Box 109, Lakemont, Ga., 30552. Phone: (404) 782-5347. This is the organization of Dr. T. Galen Hieronymus, who started it all with his famous Hieronymus black box, and the only place to get the "genuine" Hieronymus device. (There are numerous copies on the market, which also probably work).

Roth Agency, 8753 Windom Ave., St. Louis, Mo. 63114 offers a catalogue of hard to find books and unusual items, which includes black boxes and plans on how to build them. They also sell a book called "Black Box and Other Psychic Generators". Their catalogs will cost you so write first and ask for prices and information.

T & A Publications, Box 195, Hancock, Wisconsin, 54943, used to put out a catalog of books and devices available on psionics. Write them, they may still be in business. If not, let us know as we get new info from time to time from these outfits that sell this kind of information. The U.S. government, however, or an agent of the government, has in the past put these companies out of business on various charges. For obvious reasons there are some in positions of power in this country who do not wish this type of information be distributed to the masses. For one thing, if the method actually works as Awareness claims, it could actually be the long-awaited 'cure' for cancer and other heavy diseases, which of course would panic the entire medical profession and all those many drug and related industries that stay fat and rich on those thousands of unfortunate victims who die of these diseases every year. Also, the military, the CIA etc. are well aware of psionics and have been using these devices for years in a negative manner, utilizing the 'black magic' aspect of the Law of Correspondence to eliminate their enemies and to create various diseases and other problems for various entities, cultures and nations.

CAC member Jack Katchmar, has in fact uncovered a type of conspiracy in this field (not surprising). Jack purchased several psionic devices (Black Boxes) several years ago, sending one to the Interpreter Paul Shockley. Later, when Jack tried to contact the entities manufacturing and selling the devices, they had vanished without a trace. He did an impressive Sherlock Holmes, writing agencies, police departments etc., but all traces of the people involved, including the factory where these were built, had vanished without a trace. Jack is convinced the CIA had them all murdered, which could very well be the case. However, like the Beast conspiracy, it is too late: too many people are aware of what is going on and too many people know about psionics and how to use the Black boxes. Such information can no longer be suppressed and it is just a matter of time before this new technology will be applied to serving humanity, not wasting it in murder and other violations.

Please note: Gary Zuckett and other sources have told us that the best way to learn how to operate a black box in a safe and sane manner is to take the course available from those who sell the machines. This particularly from the two outfits in Lakemont, Ga., listed above. When you contact these people, ask about the course and anything else they recommend for the successful use of a psionic device.

According to Awareness, it is not even necessary for some entities to obtain a Black Box, but can take a printed diagram of one and obtain the same results, placing the photograph of the subject to be healed on the printed diagram and then concentrating and visualizing and amplifying the healing thought, which will then bring about the healing action according to the Law of Correspondence. For CAC members wishing to experiment with the Hieronymus Black Box for healing, we will reproduce the actual patent Dr. Hieronymus was granted on his invention back in 1949. This reprint should act as a miniature 'Black Box' and could result in successful

healings of entities afflicted with terminal illnesses such as AIDS. (We hope that lots of you CAC members will participate in this new healing project and keep us informed of the results of your experiments. Many thanks and best of luck to you all).

MORE ON THE "LAW OF CORRESPONDENCE"

This Awareness indicates that an ancient axiom of Hermetics states: "As above, so below."

This Awareness indicates that in ancient times this Law of Correspondence was clearly understood by entities because entities were not bombarded by thought, words and ideas to the extent that they are today in this present plane. This Awareness indicates "As above, so below," to the ancient was a clear and meaningful experience. For prior to the multiplication of words, where few words were used and the words were simple, entities knew how to look beyond the words at the meanings, whereby the words stood halfway between the seeker and the sought, and the words themselves were like signposts pointing toward a city, rather than the final destination for the questioner as in present time, whereby the question is asked and the words are answered, and the answer is the final movement of the mind which perceives no further than the word which was given as an answer.

This Awareness indicates that for the present mind, this Awareness shall elaborate on the true meaning of the Law of Correspondence: 'As above, so below.' As it is above, so likewise there is a corresponding action below. As it is within, so likewise there is a corresponding action without. As it is in the past, so likewise there shall be a corresponding action in the future and in the present. Yet these correspondences are not exact; are distorted, likened unto a reflective mirror which does not have a perfectly flat surface. This Awareness indicates that as the cycle of one level is in correspondence to the cycle of another level, so likewise the souls of one entity have a correspondence to the souls of humanity which make up the cells of the body of this Awareness.

Note: for an extended rap on this Law of Correspondence, please refer to the Cosmic Awareness Spiritual Development Course, GEMINI, Vol. 3, Lesson No. 1.

PLEASE NOTE:

The above diagram is the official drawing submitted in 1940 to the United States Patent Office by Dr. Thomas G. Hieronymus, which supposedly explains his famous "black box". According to Awareness, it is possible to place photographs on this diagram and amplify your healing thoughts being directed toward the entity in the photograph and effect a healing, without actually using a black box or other psionic type device. You will, however, have to meditate and 'tune in' to the vibration of the entity in the photo. Awareness has given me the formula to do this ("Grooking" objects and people).

IS BODY DISFIGUREMENT IN ONE LIFE A KARMIC RESULT OF A PAST LIFE ?

(HOW TO LOSE YOUR TALENTS)

QUESTION:

There is a book out called *New Age Bible Interpretation*, one of a series by Corinne Heline, and in this book she covers what she claims are the various physical results of karma created in a previous lifetime. I'd like Awareness to comment on some of these. She claims that the impediment of speech is the misuse of the sacred life force; an injury or loss of tongue is blasphemy, gossip, or betrayal of a sacred trust. The loss of a finger is the result of unfair and dishonest practices. The loss of hands is committing wanton destruction, as in wars. The loss of feet, walking in paths of wrong doing and leading others therein. Bodily deformity is the perpetration of cruelties, such as hideous punishments in the horror chambers or being one who tortured others during the inquisition and similar situations. Spinal trouble is using spiritual forces for purposes of black magic and so forth. Stomach and digestive troubles stem from gluttonous and debauched appetites. Heart trouble from intense selfish and personal love which failed to regard the welfare of others. Tuberculosis is caused by materialistic thinking and living; loss of sight is not seeing and accepting divine spiritual truths; loss of hearing stems from not hearing and accepting divine spiritual truths; arthritis or rheumatism from continued resentment, anger, and/or hate. That is the major list. Would Awareness please comment on this, and give some information on the karmic repercussions of past lives and the results in physical deformities or problems in another physical life experience that follows?

COSMIC AWARENESS:

This Awareness indicates that these descriptions and definitions are correct in a limited sense; that not in every case however, can these afflictions be used for judging the karmic past of an entity. This Awareness indicates that this can often be associated with such past experience, but there are also other factors involved. This Awareness indicates that obviously, an entity who works in certain environmental areas which are dangerous will be, by statistical probabilities, more inclined to have an accident of one type or another than one who works in a totally different and more safe environment. That many of those entities in the safety of large offices, in the safety of their homes, who have directed wars and economic collapses, and whose activities have brought about pain and suffering to many,—these entities have neither missing limbs, nor the other problems which might be associated with violence toward others.

This Awareness indicates that this appears to be much more complex than the book allows; that wherein an entity has an injury, the injury may occur due to the entity's own personal symbolic substitution for a karmic debt. The entity may, for example, feel a need to be more humble, and in so feeling may associate humility with kneeling and injure one's knee; or the entity may feel a need to be more humble, and in so feeling may sprain an ankle, so that the entity is laid up, unable to run around or move around with ease for a period.

This Awareness indicates that an entity may also lose certain abilities by having not used those abilities in previous times when they should have been used. For example, an entity witnessing a fire to one's home, realizing that someone is trapped in one of the bedrooms, may wish to run in and rescue that entity, but may be so paralyzed with fear upon seeing the flames at the door, that they cannot bring themselves to run into that room through those flaming sheets and find the entity and rescue the entity; therefore, the entity may stand paralyzed, unable to move. Years later, or in another lifetime, the entity may find the legs becoming paralyzed and unable to walk, and may not know why, or it may be attributed to some paralysis-type of disease.

This Awareness indicates that another entity may experience paralysis from simply not having walked enough or used the legs because the entity wanted others to do the work for him, and became lazy. That in such an instance, the entity may begin to feel guilty at not doing his own walking and may begin to state that "I am getting too weak to walk around," for this as a better excuse than to get up, walk around, or to have to admit that one is lazy, and also the entity may not wish to admit that he feels guilty; therefore, the entity covers over the guilt by saying, "I am too weak." That as time passes, the entity may begin to believe that his legs are too weak and this becomes a covering for the laziness, and the entity actually becomes paralyzed and weak from the programming.

This Awareness indicates that there are different ways whereby entities manage to create limitations for themselves. That an entity may, for example, have a foot or hand cut off, not because of past liabilities or karma, but because the entity does not want to be thought of as a capable, and wishes to be afflicted in some way, (subconsciously of course), so that people won't expect too much from him, or from her; therefore, the entity creates an affliction of some type to prevent future expectations which would require performance from the entity when the entity does not wish to give. In such a case, the entity would not be suffering from past karma, but would rather be attempting to avoid future karma of work or performance by creating a present karma of losing an arm, leg, hand, or having some other affliction.

(FOLLOW-UP QUESTION):

In that case just given by Awareness as an example, supposing an entity on a subconscious level lost a hand or a foot; would there be any karma for this action in the following lifetime for this entity?

COSMIC AWARENESS:

This Awareness indicates that as the entity begins to wish to have that perfect health again in order to use that afflicted part in a wholesome way, the attitude of the entity is that which would begin to build and allow the opportunity for regaining that limb, part, or talent. This Awareness wishes entities to understand also this not only relates to physical limbs and parts of the body, or general health, but also relates to talents, such as thinking, and to artistic, musical, and physical movement abilities.

This Awareness indicates that for example, an entity who does not wish to be held responsible for any action, may simply begin "playing" dumb, or pretending ignorance, so that all he or she needs to do is follow orders, and pass the buck of responsibility to whoever gave the orders. That in continuing this action over long periods of time, the entity not only appears to be ignorant, but will in fact create ignorance in his or her own thinking mechanisms.

That likewise, an entity who has a gift, such as the ability to sing, or speak before crowds, the ability to dance or to perform gymnastics or other sports, and the entity does not develop these talents or use these talents; then in time, the ability begins to wane, and the entity over a period of time, may lose that ability, --this likened unto having the ability amputated from their consciousness and their expression. That in order to regain that ability, the entity must begin by re-exercising and working those muscles, those parts, those energies and attitudes which would again allow the entity to have strength to perform the talent which was once present, but which had atrophied from non-use.

(FOLLOW-UP QUESTION):

One other question in reference to the atrophy of talents: Is there any distinction made for the reason why they are not used for some time?

For example, if somebody is not making use of some talent because they are otherwise occupied in work that seems more important at the time, as opposed to someone who is just simply lazy and not doing it?

COSMIC AWARENESS:

This Awareness indicates that it takes a great deal of time to develop a talent. It takes a greater deal of time to lose that talent; that talents are not lost easily. They need to be neglected for some time, and may in fact need to be violated in order to rid oneself of a particular talent. This Awareness indicates that an entity may be able to sing well while young. At the age of 50, if the entity has not

sung between childhood and that time, the entity's singing voice will still be there, but may not be nearly as good as before. That with practice, however, the entity may again find himself, or herself capable of developing a reasonably good singing voice.

This Awareness indicates however, that wherein an entity goes for an entire lifetime avoiding singing out of fear or some other reason, the entity may carry over into the next lifetime a feeling of avoidance toward singing, and if in middle life someone asked the entity to "get up and sing with us", and the entity is forced by circumstances to attempt to sing, the entity may simply be so blocked from so many years of not singing, that the entity becomes terrified and fearful, and the event itself can make the future singing activity even *more* traumatic than it would have been if the event had not occurred.

Therefore, talents may be lost by misuse or may be blocked by circumstances which cause the entity to fear the expression of a particular talent. This fear need not be based on justified reasons. This Awareness indicates that particularly a talent which is available to an entity, and wherein the use of that talent can be beneficial to others but it is not used for selfish purposes, or to deny others, in such a manner as to create a subconscious guilt within the entity for not having used that talent: this is the type of action which is most conducive to causing a loss of the ability to perform.

For example, an entity who can hear the needs of another, but wants to avoid hearing such, and while remaining with the other may refuse to listen, but feels guilty at not listening, or maybe doesn't feel guilty until something happens to that entity and the happening causes the entity then to feel guilty for not having listened, --this kind of action may lead the entity to subconsciously program himself or herself not to be able to hear, and the talent or ability to hear may be lost in this, or a future lifetime because of the guilt involved.

This Awareness indicates that guilt and fear are the two greatest enemies of entities' expression.
