COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

HAVE ALL THE DISCIPLES OF JESUS RETURNED TO THIS PLANE TO PREPARE FOR HIS SECOND COMING ? AND DOES ANYONE CARE ?

(The Real Meaning of the 'Book of Revelation')

QUESTION:

C.S. of Virginia Beach, Virginia, asks: "Have some of the disciples of Jesus now returned in the flesh to prepare the way for his second coming? If so, which ones are now on the earth?"

COSMIC AWARENESS:

This Awareness indicates this in the affirmative; that several of these as being present. The entity, John the Beloved, as having been here and as having gone on and now returning as a newborn child, this occurring soon.

This Awareness indicates that the entity, Simon Peter, as being present; yet this entity not being involved at present time in the activities of preparing the way; this as that which comes later in this entity's life.

This Awareness indicates the entity, Nathaniel, as being present and involved in such activity; that the entity, Phillip, as being present and so involved; that the entity, Judas, as also being present and living in the state of confusion at this time; that certain things are still being worked out and carried out whereby this entity is discovering certain activities and involvements, and is working out a kind of personal karma related to things other than the karma of that particular lifetime which have already been cleared.

This Awareness indicates that essentially, all of the disciples are living at this present time upon this plane, except the entity, John the Beloved, who shall be returning to this plane in a short time.*

This Awareness indicates that these entities are functioning, in general, in levels of Awareness whereby they are either working on personal development or are contributing to the general society.

This Awareness indicates also, that these entities need not be sought out and looked for as leaders, or given special significance. This Awareness indicates these entities understand somewhat the nature of the "Second Coming" as being that which is not so significant in the sense of personality returning, but rather of the Christ Consciousness which shall return to each entity,

This Awareness wishes also to explain to you so that you might understand more clearly: the twelve disciples are symbolic of the twelve signs of the zodiac. These twelve signs of the zodiac having their effect upon your consciousness. The twelve aspects of your own consciousness, and the Christ Consciousness being that which is within yourself. The "Second Coming" of this Christ as that which returns to you when you discover, Who, In Fact, You Really Are.

A Christmas Message from Cosmic Awareness...Page 9.

The *Book of Revelation* is an allegory whereby it describes to you the revelations that come to you as the seals, or chakras, or psychic centers of your body, of your consciousness, are opened to reveal yourself to you.

This Awareness indicates the revelations that come to you as these are opened are described in the allegory of the *Book of Revelation*. That you may, in this process of discovering Who, in Fact, You Really Are, you may discover within you the Beast, 666, the antichrist, which is the conscious, rational mind; that you may move on and discover the Second Coming of the Christ Consciousness, which moves beyond the rational into the experiential, whereby you discover the Oneness with the universe, the Oneness with the Spirit, whereby you and the Father, or the Universal Spirit, become One; and whereby you, as a Universal Spirit, as One with the Godhead, return to Yourself to set up the Kingdom of God, the Kingdom of Heaven, upon this plane within Yourself.

This Awareness indicates there are so many levels of meaning in the *Book of Revelation*, and that most entities who read this do not see beyond the most mundane and childish level.

This Awareness wishes entities to begin to understand that the Kingdom of God is *within*, that the Christ is *within*, that the Heavenly Father is *within*, that all that is seen in the universe without is also reflected *within yourself*; and that by entering *within*, you may discover the treasures which lie *within yourself*, the Kingdom of Heaven.

This Awareness indicates that so long as you look outside yourself for a deliverer, a messiah, to walk up to you, or to descend from the sky, to come into your life to deliver you, to rescue you, you shall not find your reward: for all that comes from without is energy which prods you to look *within*.

This Awareness indicates external activities are nothing but reflections of needs which are within yourself: the need to look deeply, the need to search within, the need to discover.

This Awareness suggests you begin looking *inward* for the "Second Coming".

(Closing Message)

This Awareness indicates in reference to the entity who requested information about the disciples:

This Awareness suggests that while this did occur as a symbolic experience within each entity upon this plane, whereby the twelve disciples are the twelve signs of the zodiac, and the Christ Consciousness is within each entity, that this mystical story

which was the basis of the Essene teachings at the time of Jesus, was indeed acted out and experienced on the physical plane, and entities *did* move through these activities in living bodies as a dramatization of this story.

This Awareness indicates that entities of the Christian religion would do well to study the history of Krishna, which is such that 600 years before Christ, this entity was brought into the world to save man from his "sins" and was hanged for his efforts. The entity had twelve disciples.

This Awareness indicates that the parallels and these stories are, indeed, such that they have come down and are reflections from the ancient teaching of astrology, which is a mystical teaching which gives the story of individuals, the twelve aspects of an individual, the twelve disciples and the Christ Consciousness within.

This Awareness indicates these as stories of ancient mystic schools. That indeed they did have their experience and expression. That Krishna was indeed a historical entity. That the entity, Jesus of Nazareth, as also a historical entity. That the truth of the stories does not detract from the truth of the personalities, but adds to these truths.

* ED'S NOTE:

The entity known as John the Beloved, who walked with Jesus some 2000 years ago, went by the name of John Eli Hunka in his most recent life experience. John was a Canadian, and it was this editor's honor and pleasure to have known him, even though briefly. Before there was a *Cosmic Awareness Communications*, I was deeply involved in the organization called *Servants of Awareness*, which was the organization created after Ralph Duby died and the *Organization of Awareness* fell apart. The *Servants of Awareness* organization was headquartered in my advertising office in Olympia at the time. David Worcester was the Interpreter during that period. One fall morning, as I was unlocking the door of my little office, I noticed a large man with a friendly grin emerging sleepily from a battered old pickup truck parked in my parking lot. I could tell he was a working man as he was dressed in a large pair of faded overalls, the kind men who work on railroads and other tough jobs often wear. A young boy emerged from the other side of the truck and the man introduced himself. He said he was John Hunka and this was his eldest son Eugene. He informed me that he was a member of *Servants of Awareness* and something had been prodding him for the past several weeks to drive to Olympia from his home in Canada, some 400 miles away, and talk to someone about Cosmic Awareness. Among other things, he wanted to take the Development classes we were giving in Olympia at the time, and he needed to get some advice from Awareness about certain dreams and flashes he had been having that could possibly relate to previous lifetimes. John sat in my office all day and we talked for hours; it was so interesting neither of us noticed that lunch time had come and gone. I set him up for a reading a month or so later and late that night bid him goodby as he and Eugene climbed back into their pickup for the long drive back up to Canada.

During the next three months, John drove down to Olympia several times, staying at my little cottage in the woods at least once, when he stayed over. In December he came down and had a reading from David Worcester. He stopped by the office on his way back, telling me goodbye and that he would be back down in January when the new series of Development classes started. I walked him to his truck and I hugged him goodbye. It was like hugging a big friendly bear and he returned the hug. I watched the taillight of his truck until it disappeared into the darkness. I felt a bit strange and somehow lonely and a bit apprehensive for no good reason. John had not said a word about his reading and for a moment I wondered what Awareness had told him. I never saw John again.

Two months later I received a phone call in my office. It was John's wife and she was crying and very distraught. She told me she and her four children had been skating on a frozen pond near their house, when the ice broke and they all fell into the ice cold water. John, who had been sitting in his truck watching them, leaped to their rescue. Jumping into the frigid water, he pushed his wife back on to the ice, and one by one, hauled his four drowning children out of the water and pushed them safely up to the ice above. None of them could swim and John drowned beneath the ice after saving his entire family. David Worcester happened to be in the office when this phone call came in and I handed the phone to him. In a moment I realized David was in a light state of trance and I heard his calm voice as Awareness performed a sacramental healing over the phone to John's grieving widow. There were tears in David's eyes as he said to me. "She's going to be alright. Her husband was the disciple John the Beloved, in case you didn't know." I hadn't.

Later, I read a copy of his transcribed tape reading, and included excerpts from it in a special bulletin I put together and mailed out to the membership a few weeks later. Because of the nature of this particular incident, I am reproducing that document for your edification, which was mailed in February, 1958.

It has been my observation, having been involved in various Cosmic Awareness organizations these past 23 years, that many people tend to believe that those entities who attained significance in past lives are somehow duty bound to be equally significant in subsequent lifetimes. This seems to be particularly true for those entities involved in the Passion Play, the associates and disciples of Jesus, whom Awareness and other sources of information indicate have reincarnated and are alive on earth today.

Some may, indeed, be living today and acting out roles of great spiritual leaders, but the six entities I personally know or have met, whom Awareness had indicated were disciples of Jesus, are more or less just ordinary type people, doing ordinary type jobs, although all six are or were involved in the Awareness Movement at one time or another, and several still are.

John the Beloved was a simple working man, a plumber as far as his friends and associates were concerned, but those qualities of love, devotion and responsibility which may have been a carryover from that lifetime long ago, manifested in this present lifetime. I am sure Awareness saw the impending tragedy, and the higher reason for it, and telegraphed the message in John's reading, to prepare himself and call upon those reserves deep inside his psyche, that he "might quickly serve when need arises."

The entity known as Judas is also a longtime acquaintance of mine, and one of the original members of the *Organization of Awareness*. For many years he made his living as a barber, and today is working as a counselor for young people who are troubled and who have broken the law. He has taken the Cosmic Awareness Development classes, both the Basic and the Advanced, and is an avid reader of mystical books and other New Age information. Yet, when he wanders into my office, or I pass him on the street, he looks like any other common entity, talks like one. No big deal.

The entity whom Awareness says was the disciple Phillip, also resides here in Washington state. He has done little that is spectacular that I know of, being associated in some manner with the health food people. Back in the sixties he often stayed at my cabin in the woods and we had long philosophical raps together and certain substance-induced meditations. I remember him mainly for his sack of seeds and "health food", as he called it, which he insisted that we eat. (I called it 'rabbit food' and I hated it, particularly an ersatz chocolate he called carob or something like that). He would tell me some of the wildest stories about his 'secret life' as a double agent, but they were so incredible I simply could not take him seriously.* Paul Shockley, however, who also knows this entity, believes some of his stories. The one impressive thing I do remember about this entity whom Awareness says was the disciple Phillip, was that during the sixties he could always provide some really great LSD to his friends. It was really clean and the trip you would take was always deeply spiritual. I recall these pills were orange, with a D-Cell type light about them. He told me he gets them from a Catholic nun in Seattle who evidently makes them herself. I believe they were called "Sunshine". During those turbulent times back in the sixties, I had many sessions with this particular entity and we always ended up listening to the opera "Parsifal" for no apparent reason, except we both really love to hear it. The last I heard of the entity, which was a few months ago, he had started some kind of business and was making quite a bit of money with it, something he didn't particularly believe in back in the sixties. Again, this is yet another example of a disciple of Jesus ending up as a pretty common everyday person.

* One of his more eyebrow-raising stories concerned the journey of then president, Richard Nixon, to China many years ago. This entity, once known as the disciple Phillip, claims he somehow got to Communist China ahead of Nixon and proceeded to put together a 'Nixon welcoming committee' comprised of thousands of Chinese, many of them children, cheering madly and waving flags that spelled out in Chinese what the millions of TV watchers around the world assumed was a friendly greeting to America's president. According to 'Phillip', however, he had connived the Chinese to spell out something other than 'welcome' with their many waving flags. As Nixon stepped from the plane, smiling and waving his hands with that infamous two-fingered V, he did not realize that those thousands of yelling Chinese were waving flags that spelled out something like: "Go home, Nixon, you warmongering asshole!"

It was a great story, a nice fantasy that I hope is true, but I sincerely doubt it ever happened. As a matter of fact, I vaguely recall reading of an incident sort of like that in one of the books I read back in the sixties, something by Tom Robbins probably.

Another story put out by this entity, the former Phillip now acting as a double CIA agent or something similar, was that he was able to infiltrate the House of Rothschild and a number of the secret Bilderberger get togethers, by posing as a waiter,

in which function he occasionally breathed secret financial 'advice' into the ears of these banking moguls as he bent over their shoulders filling their wine glasses.

So until I am convinced otherwise, the only attribute, if you can call it that, the former disciple Phillip is expressing in this present lifetime, is that of a great story teller and BS artist. (Some day I intend to ask him how he was able to get all those thousands of Chinese to cooperate, when he himself could not speak a single word, nor write a single word, of Chinese.)

The disciple Nathaniel is also alive today. For many years he drove a bus in Portland, Oregon, acted in Shakespearian plays, was once in the U.S. army among other things, and today is the head of a church and the present Interpreter for Cosmic Awareness.

The other entity I personally knew, was a young man with the common name of Dick Anderson. He and his wife Peggy lived in a mobile home somewhere near Seattle and would drive down to Olympia to take the Development classes. I remember Dick for a particular story he told me one day as we were killing some time waiting for the monthly Awareness ritual to begin. His wife, Peggy, who was with us at the time confirmed the story. It was a strange story about the birth of their new baby and wondered if I could some time ask Awareness about it. It seemed that during the birth of their baby, he and Peggy were aware of 12 tall, robed figures standing in a circle around the bed she was on. The baby's hand came out of the womb first, and one of the 12 robed entities put a hand over that tiny baby's hand, melting into it. Then a third hand, glowing white with a hole in it, a stigmata, came down also melting into the baby's hand. Then as the rest of the baby emerged, the 12 robed figures disappeared as mysteriously as they had manifested. The baby was a beautiful little boy. Dick and Peggy, who had never before had a mystical or psychic experience, nor knew much about such things, wondered what significance, if any, that strange phenomenon which accompanied the birth of their baby might have. Months later in a personal reading, Awareness indicated that Dick had been the disciple Luke in a previous lifetime and that the mystical experience related to energies from that lifetime which had to do with the christening of their child. Dick and Peggy eventually moved to Eastern Washington and I lost touch with them. This incident occurred around 1968 which would make their son about 20 years old today. I remember Vicki telling them that we expected to hear great things about that kid once he grew up, that anyone who entered this plane with that kind of credentials must most certainly be destined to bring something wonderful to a suffering humanity on this earth. We often discuss the incident and wonder what ever happened to Dick and Peggy and that boy of theirs. I am pretty certain that some day we will find out. Other than relating the above experience, Dick was an ordinary chap, worked in a sawmill, if I recall correctly, and liked to boom around the country, moving from job to job, hauling his little trailer home with him.

I vaguely recall Awareness revealing the names of several other disciples in various readings, but I can't put my finger on the readings and I don't believe I knew them personally, but they were at the time members of one or the other of the Awareness organizations at the time.

Although many entities hint or actually ask Awareness in personal readings to tell them of any lifetimes of significance they may have had, Awareness as a general

rule, does not reveal such information unless the entity can handle it, or unless the energies can be used by the entity to serve humanity, rather than the ego. One of the few exceptions to this policy occurred during that famous gathering of various mystics and New Age groups at York, Pennsylvania, during July of 1977, wherein Awareness presented several readings regarding the transfer of power from the so-called 'hierarchy' to those individuals who would be energizing the Unified States of Awareness, the government of the New Age which is to come. As I recall it, Awareness indicated that 12 entities were to be appointed to the first tier, and they in turn would appoint 12 to the 2nd tier (their own 12 'disciples' as Awareness called them). Nominations were very slow in coming, so during the reading someone asked Awareness to name this Council of Twelve. Awareness said it wouldn't do that, but *It* would point out certain qualities, and then proceeded to name certain entities by name and then stating who that person was in a previous lifetime.

Some of the significant names that Awareness said were together and present in that very room, were: Thomas Jefferson, Alexander the Great, Yok of Carpathia, the founder of Yoga; St. Francis of Assisi, Katherine the Great, Lao Tse, the great Chinese philosopher; Sir Lancelot, Hermes, the entity Iso, the daughter of Ra-Ta and Isris; Galileo, Guinevere, Nero, the disciple Nathaniel, the Virgin Queen of England, Julia Caesar and Sacajaweah. *It* stated that there were "also others within this room--Indian chiefs, Incan princesses and princes. This Awareness suggests that you look around and discover who you are; and from this discovery, determine who among you are the best qualified to begin this action as a group of twelve."

To emphasize that every person in that room had the qualifications and credentials to be on the Council of 12 and the other tiers of the Unified States of Awareness, Awareness concluded the reading with the following statement:

"This Awareness suggests that entities look deeply, for there are many roles and many faces, many times and many places that have come together in this moment. And many entities herein present are wearing masks and robes, and are difficult to see; and this is like a masquerade ball from eons of time, and entities may look deeply, carefully, and may see beyond the masks those faces which have been hiding from pain, suffering, insecurity, uncertainty, the need until the time was right to exit.

This Awareness indicates most entities in this room are likened unto double agents, hiding behind masks, waiting to exit to bring about the new world which all have been struggling for, for many eons of time.

This Awareness indicates that many entities in this room have been together in situations similar to this; that many have struggled for this kind of opportunity, but the opportunity was not right and never occurred. This Awareness indicates that now the time is ripe and the need is here, and the means is available, and the motive becomes clarified as entities partake of the gift of love."

A CALL TO THE MEMBERSHIP

As the item appeared in the Vancouver, B. C., newspapers, it was just another piece of news, another daily tragedy of life to report. A simple plumber in the small rural town of Cloverdale, B. C., had given his life to save his family. But to those who knew John Hunka personally, and particularly those Servants of Awareness who knew what true greatness the entity known as John Hunka had reached, it was quite another story. The newspaper's account of the tragedy was simply stated:

"MAN DIES FOR HIS FAMILY"

"A Cloverdale plumber drowned in an icy pond at Fry's Corner in Surrey after rescuing his wife and four children from drowning Tuesday afternoon.

Dead is 54-year-old John Eli Hunka, of 18935 - 56th Avenue, Cloverdale. It was anticipated an inquest would be held.

The tragedy occurred near Fry's Corner at a pond 25 yards off the Fraser Highway. Seconds after he handed the last child to safety, Hunka disappeared beneath the surface of the eight-foot-deep pond. Hunka and his oldest daughter, Linda, 14, were sitting in his car near the pond, watching his wife, Sarah, and the four children skating. The ice cracked and all five dropped into the water. Hunka jumped into the pond and pushed his wife onto the ice. He dragged the four drowning children -- Eugene, 11, Shirley, 9, Kathleen, 7, and Ronny, 4 -- from the pond and pushed them along the surface of the ice."

But what the newspapers didn't know was what Awareness told John Hunka in a personal reading on December 8, 1967.

" . . . This Awareness indicates that you were also one who walked with the entity known as Jesus. That your name as that of John. This Awareness indicates that this action which has carried through for so long, has been known, that the arrival in present time has been anticipated in many ways. That your knowledge and your awareness in relation to the Kahuna Ring as that which also becomes of importance. This Awareness indicates that in the coming time, that you carefully and quietly move among your own area, that you prepare for the time wherein you may serve those that relate to you in that circumstance and in that area. That you call upon the reserves that are deep within your psyche, that within these areas you may quickly serve when need arises."

Two months later the need did arise, and that entity the newspapers called John Hunka (who Cosmic Awareness has indicated was the disciple John who wrote the Book of John and the Book of Revelation) gave up his life to save his family.

A few hours after the tragedy occurred, a grieving Mrs. Hunka telephoned the news to Servants of Awareness headquarters in Olympia. The interpreter talked to her quietly and in a state of conscious mediumship brought about that calm as he performed a type of sacramental healing. Later on February 3, 1968, the following question was asked of Awareness:

Q Recently member John Hunka of Cloverdale, British Columbia, sacrificed his life to save his family from drowning when the ice -- his wife and four of his children were on -- broke with their weight. At this time of great sorrow and uncertainty, does Awareness have a message that we can convey to the Hunka family?

A This Awareness indicates in that attention given by all minds in relation to Awareness shall bring about those actions and fruitions for those who were brought through this experience by one of such proportions and significance in the cosmos. This Awareness indicates in this action, which was located physically in an area of Canada, which was located in terms of time seemingly in present time, that there was also an action that is on other levels. That these changes within the inner plane are known and understood by this Awareness. That these actions and alterations wherein this entity does function well within Essence in present time as that which be understood by all who relate. This Awareness indicates that within the structure of all entities who have related and do relate with that knowingness to the entity John Hunka as an aspect which now is assumed within themselves as a level of responsibility now taken upon themselves, for in this moving in and taking up the slack, all consciousness in attention is lifted. That those references to the nature of this entity be revealed.

And, later in the reading:

Q Would Awareness please give us a closing message?

A This Awareness indicates in that understanding of relationship, in that assuming response for that which is within, that there also be that free-flowing response involved in the seemingness of things in relation to the Laws and Precepts. That in relation to the family of John, there be that appropriate action and response taken; that there be a delving into the nature and circumstance of these entities, and let the call go out.

The circumstances and problems that face a mother and five children in a small rural town in British Columbia after such a tragedy are many. John had previously indicated that his small savings had been tied up in a real-estate venture that had gone bad. He had planned that his five children should go to college. He was to have been a key man in the Agricultural Project in his area.

In this call to all Servants of Awareness, the Fellowship asks that all who understand the magnitude of this action do what they can to help the Hunka family, keeping in mind such items as possible scholarships for the children. Those who wish to donate are requested to direct their donation to:

Mrs. John Hunka

Canada

The Fellowship blesses you for your donations in the loving spirit in which it was given.

THE COSMIC LAW OF RESPONSIBILITY

(THE CORPORATE SOUL AND SPIRIT)

MORE ON HOLDING THE FORM SO SPIRIT CAN ENTER...

(Excerpt from a Personal Reading, given Feb. 12, 1976)

QUESTION:

Is there an opening message for Cosmic Awareness Communications?

COSMIC AWARENESS:

This Awareness indicates this as related unto the nature of the message given in the 6th class of development as used in the Aquarian Church. This Awareness indicates the action of creating a form which does hold, channel, and allow the expression of Spirit to move into communication upon this plane as that which is the linkage and is necessary in order to have such communication. This Awareness indicates that *Cosmic Awareness Communications* and other such organizations are allowing that form which may be likened unto a cup holding the water, a vessel which allows the Spirit to enter and be utilized. This Awareness indicates that it is the responsibility of ministers of Awareness to assist in creating and holding that form whereby this Awareness may communicate through entities upon this plane.

This Awareness indicates that this does relate also unto the *Law of Responsibility*, which states that one entity or more, working in a manner that

is responsive to the needs of others, allows that responsive entity energy from all those who await that response. This relates to the *Law of Co-Creation*, yet is somewhat different: for one entity who is greatly responsive can have the power of 144 whose energies are simply utilized for their own interest.

(Closing Message)

This Awareness suggests that wherein form is held for this Awareness to express *Itself*, and this form is held long enough it become a light that begins moving through that form, and it then takes on its own energy. This as likened unto a child in the womb being nourished by its mother until the life force, the spirit is strong enough so that the child can be moved on its own with its strength and its own inner spirit. This Awareness suggests that in actions of *Cosmic Awareness Communications*, in the actions of the Aquarian Church and other such organizations, wherein the form and the outlet for expression of the spiritual teachings and spiritual energies is allowed, this eventually shall,--when held long enough,--begin moving on its own inner energies and shall take on that which may be likened unto the concept not of a corporate mind, but of a corporate soul. This Awareness suggests you might begin looking at organizations as entities with corporate mind, corporate soul and corporate spirit for their integrated being.

ED's Note: This may be the first time CAC has printed the *Law of Responsibility*, and you should make a copy of it and place it in your booklet, "The Cosmic Laws of Cosmic Awareness" until we can get all these Laws together and get them all published in a nice little booklet for you. Your editor happened to be leafing through a file and found this old reading wherein we asked Awareness how the CAC organization had been doing up to that point 10 years ago. Your editor was astounded to see that this *Law of Responsibility* had been given in the opening message and had been overlooked all these years. We have no idea how many of these Cosmic Laws Awareness has given, as many of these were given in Personal Readings, and CAC does not have copies of most of these. If you happened to have a Personal Reading and Awareness presented a Cosmic Law that has not been published, we would certainly appreciate it if you would send us a copy. Thank you. (Avaton)

(EXPRESSING LOVE ANONYMOUSLY)

THE GIVING CHAIN: A CHAIN LETTER THAT FOR ONCE CAN HELP OTHERS

QUESTION:

A question from J.B. of Samuels, Idaho. He writes: "I am enclosing a chain letter that I recently wrote called "The Giving Chain". I am enclosing it for your participation, if you are interested. I would also appreciate Awareness's comment on it and its potential effects on both a personal and public level." Now I will read what he has printed here, called The Giving Chain, to which he has affixed a crisp one dollar bill.

"This is a new kind of chain letter: The Giving Chain. Its purpose is to spread positive giving energy through the world. As you pass along and add to this giving moment, it will increase exponentially. Your energy will thus also increase and return to you unexpectedly. Take this letter and add your initials to the bottom. Make ten copies, place them each in an envelope, along with a dollar. Send them anonymously to people you know who need money. Send them to people you know who don't need money. Send them to people you don't even know.

"You may then send out more than ten. You may also enclose more than one dollar. It all adds to the momentum of the energy. When you do this, a curious thing happens. The *Law of Gratitude* comes into operation. The *Law of Gratitude* is that sense of satisfaction where energy which has been given receives a certain reward. That all energy goes out on that curved unequal line, and can only return to its sender bearing gifts."

"The money that you send out is seed money that you sow givingly on your fellow man. You must understand that you will not gain directly from this action. Do not place limits in your mind on where or how the energy will return to you. Just know that somehow it will return to you greatly multiplied. You have received this dollar unlooked for. Can you send a giving dollar to ten more people? If you do, it will spread ripples of giving energy through the world. This action creates a vacuum in your being which will attract like action from the energy of the universe around you.

"Sow positive seeds, and you will reap a positive harvest. If every person that receives this Giving Chain participates, then by the 6th round there will be a million, and by the 9th round, a billion of us, spreading positive giving energy through mankind and the world, which will only increase the positive nature of our reality. Do this today! By giving to the world, you give to yourself. Thank you for giving and caring for the world we share."

Will Awareness please comment on this idea of the Giving Chain?

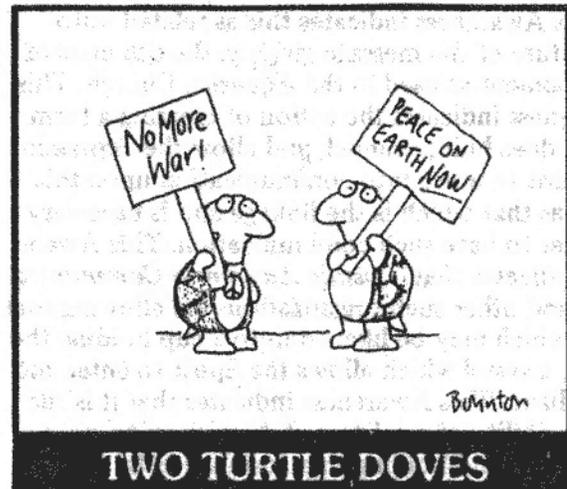

COSMIC AWARENESS:

This Awareness indicates that this does have a validity in terms of its potential for assisting in creating a sense of sharing or giving. This Awareness indicates that it can create a twist in the minds of entities who read this, to get them outside of their own needs and to think of others. It also creates a feeling of well-being for the one who receives this unsolicited gift. This Awareness indicates that the more powerful effect, however, is that of creating the vacuum of having given something and being thus deserving to receive.

This Awareness indicates this is likened unto the action of tithing, wherein an entity in giving a tithe, then becomes more subconsciously willing and deserving of receiving. This Awareness indicates that this feeling of deserving to receive is that which allows the inflow of energies to the giver.

This Awareness suggests that it does appear that this would be a beneficial action to be shared with others, particularly for its effect on the consciousness of entities.

This Awareness indicates however, that entities who give with the greed motive, are not as likely to receive as those who give with the intention of expressing love or affection or generosity to another.
