...a cosmic analysis

INDEX ON PAGE 13

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial content and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

AN ELECTION YEAR THAT COULD GET VERY INTERESTING

(Opening Message) C.A.C. General Reading
(Feb. 5, 1988)

This Awareness indicates that the energies for the remaining part of the year are seen as bringing forth many changes in regard to the attitude of the public toward the present administration; that this is due to the upcoming trials in regard to the special prosecutor's investigation, and also to that which will be initiated by the Christic Institute. This Awareness reminds you that this is occurring at the same time as will be the campaigning for the presidency; that even though the elections are often, to some degree planned ahead and controlled in many ways, the events relating to these trials as that which may have a profound effect on the outcome of the election and of the events that occur.

This Awareness indicates that there are, in many ways, advantages and disadvantages to this. This Awareness suggests that in terms of individuals and the general masses; that this can become quite an interesting year, and will in general be quite beneficial in terms of the economy; that there are many areas which are suffering from the current economic policies, but that in a general sense the remaining part of this year should see relatively good times. This Awareness indicates the following year may witness the outcome of several years of poor management, in which the nation has been running on credit.

The Coming Currency Exchange

This Awareness indicates that there will come a time when the credit must be paid, and at such time entities may expect a serious alteration and change in the manner of the economic system that has been in practice; at that time, entities may witness the change in currency. This Awareness indicates that this timing is not seen at this time; that there will be stability for awhile longer, after which there will be transitions occurring in which the currency shall be altered, and when this occurs entities can expect major changes to begin in response to the way in which they are monitored in the economic areas by the government agencies.

This Awareness indicates that it is during that time that the real awakening of the masses may begin. At present time, entities are still drifting along with the

way things are, but when the new currency comes in, entities will begin to awaken to the reality of what is happening, even while others are satisfied to participate in the changes, there will be greater and greater numbers of entities discovering what is truly the plan and actions behind these changes of currency.

This Awareness indicates that *It* does not wish to alarm entities, for it can, with an appropriate awakening, lead to a better world; just as easily as if the masses do not awaken, it could lead to a more difficult world for all. This Awareness indicates the use of greater technology for printing, for communications, for broadcasting, whereby individuals can have opportunities to influence masses as that which will give the greater chance for humanity to awaken when the time becomes necessary.

This Awareness indicates that had computers, printing presses and telephones and the broadcasting capacity of individuals not been available, as is the case in the Soviet Union at this time, chances of overcoming this control of the economy and manipulation of the masses would not seem hopeful at all. This Awareness indicates however, that with computer networks, CB radios and all the various potential tools for alerting masses, for organizing resistance, for creating pockets of informed individuals, it will not be easy for totalitarian forces to manipulate and control the masses in a lasting dictatorship, even if it were desired.

This Awareness indicates it appears that these entities who have been in control are aware of such changes in society and will be most cautious not to appear to be totalitarian in nature. It will be likened unto a benevolent dictatorship for some time in which the dictators may not even be in view, and eventually it will lead to their merely being in charge of an operation in the economic factors, likened unto one whose occupation is to produce money for the society, just as another's occupation may be to manufacture cars. This Awareness indicates that in time, this will not be as significant, nor as easily used to manipulate the masses. The economy will simply become another activity of production, producing things that can be used in society, much like any other commodity.

This Awareness indicates in fact, it is very close now to simply look at money as being another commodity which can be traded for other commodities such as automobiles or other products of society.

The difference of course, is that the available money is easier to manipulate and control than are the commodities. This Awareness indicates that gradually, entities will have better understanding of how this works, and in the process of growing this understanding it will curtail the ability of those who manufacture money to actually manipulate the masses with such ease as has been done in past years. This Awareness indicates that this does not appear to be a great concern in this year, but following the election, things may begin to change, where it does become a concern of the masses.

This Awareness suggests the questions continue.

WHAT IS REALLY BEHIND THE RECENT DISARMAMENT TREATY WITH RUSSIA?

(ROCKEFELLER FACTION BACK IN POWER)

QUESTION:

We've received the following question quite a few times in various forms, so I'll ask this one from J.D., Broderick, California. He says: "I have a very touchy question for you to ask Awareness, and that is: the latest Reagan/Gorbachev summit we just had recently. A friend of mine, who is in contact with underground sources in Russia, says that he has information stating that Reagan visited Russia long before the summit meeting and sold out, or gave away the sovereignty of the United States in exchange for the recent arms deal. With all that Awareness has already stated about this country already being a satellite country of Russia, I feel that the possibility of this might be true. Also, what are the bankers doing currently in regard to the One World government?"

COSMIC AWARENESS:

This Awareness indicates that *It* will respond to this question in the following way: If the entity who is President of the United States were to sell out to the Russians, it would complicate and greatly hinder the efforts of the world bankers to gain complete control and set up a world government. This Awareness indicates essentially, that has been the root cause of the cold war for some time; the Russians, since the late '70's have been the main force preventing this world government. This Awareness indicates that the struggle

would be more likely for Gorbachev to sell out to the world bankers and cooperate with their efforts to set up a world government.

However, this does not appear to be the case either. It does appear rather, that there has been a trade-off of some kind in which because of the complications of the cold war and the Russians having undergone a change with the entrance of Gorbachev and certain leaders beforehand, whereby the Zionist faction in Russia and in part in the United States has lost a certain amount of control in those areas. This Awareness indicates that in reflecting on that scenario given by Dr. Beter, which was accurate, it appears rather that what Dr. Beter referred to as the Bolshevik faction in the United States has lost control of the government. The Rockefeller faction in the United State, which has been in recent years working closely with the Skoptsis in Russia, have gained the upper hand.

This Awareness indicates that essentially, the treaty that was recently signed was a rush job to solidify this change that has occurred whereby the Rockefeller faction and the Skoptsis faction have an upper hand and have come together in an effort to solidify the energies in such a way as to be more difficult for the Bolshevik/Zionist factions to reverse. That this also signals some of the reasons why the United States has not been as firm an ally to Israel in its West Bank policy.

This Awareness indicates that a subtle shift has recently taken place; that in part, the removal of entities from the administration's staff has been related to the removal of those who are part of the Zionist or Bolshevik control of this country. This Awareness indicates that it began when Senator Baker took the place of Donald Regan; that at that point the Rockefeller faction gained control and it has been solidifying that control since. This Awareness indicates that the Bolshevik/Zionist faction as that which could reverse that control and sabotage the efforts of the treaty, but it appears not to be gaining any momentum at this time.

This Awareness indicates rather, it appears that the Rockefeller and Skoptsis faction has gained considerably, even in the last few months. This Awareness indicates that Reagan, your President, is essentially being controlled by this new faction and that it is quickly working to help establish in various ways, greater support between the United States and Russia so that it becomes more and more difficult to reverse the trend, if for some reason the factions in Washington were overcome by the Bolshevik forces.

Bolshevism & Zionism One and the Same

This Awareness equates Bolshevism and Zionism as being more or less the same; that the Bolshevik movement originated from Zionist forces in cooperation with Trotsky and Lenin working in the early

part of this century, and that most of the leaders of the Reds in Russia were actually agents of the Zionist movement. This Awareness indicates that this message is always quite touchy and difficult to give because entities tend to think that Zionism is Judaism, and that when one speaks of Zionists, one is speaking of Jews. This Awareness indicates that there are very few Jews who are Zionists. There are many Zionists who consider that anyone who speaks against them is anti-Semitic. Anti-Semitism actually is referring to the concept of begin against Jews.

This Awareness indicates that Zionism is to Judaism as Masonry, the freemasons are to the anglosaxons; it has nothing to do with the race of the people, it is simply an order or organization that is established within the ranks of the masses. This Awareness indicates that the policy of Zionism is to pretend that it represents all of the Jews. This Awareness reminds you that there have been numerous times when Rabbis will denounce Zionism. This Awareness indicates that regardless of this, anyone who speaks against Zionism is often classed as anti-Semitic, because that is part of the propaganda scheme of the Zionists, to maintain a certain type of public image and programming, so that their enemies will be seen as being against the Jews, when actually speaking about Zionism.

This Awareness is not against anyone, *It* simply tells *what is*. This Awareness indicates that there is no guarantee that the Rockefeller/Skoopsis faction will be any more benevolent than would the Zionists in their control. This Awareness suggests however, that it does appear at this time that these entities will be more benevolent, although this could change once the power is more consolidated. It is more important that entities always be vigilant toward the protection of rights of freedom, and democracy for all, regardless of who might be the ruling parties.

ARE THE ZIONISTS STILL IN CONTROL OF THE PENTAGON?

FOLLOW-UP QUESTION:

Are the Bolsheviks no longer in control of the Pentagon?

COSMIC AWARENESS:

This Awareness indicates that they appear to have much control in the Pentagon; that there is some control in the secret services: this in reference to the Intelligence services, particularly the FBI and somewhat in the CIA. This Awareness indicates that this as being fractured somewhat in recent years; that the MOSSAD as having in the past decade, infiltrated the FBI to some extent; that much of this is being

altered and the replacement of the head of the CIA and of the FBI in this last year has been part of this cleaning up process.

Mikhail Gorbachev

MIKHAIL GORBACHEV -- A PROFILE BY COSMIC AWARENESS

(THE RETURN OF PETER THE GREAT)

QUESTION:

A number of people wonder about Mr. Gorbachev. I've got two representative letters here from CAC members. I'll read them both, and then ask Awareness to comment. One from R.C., in Madison, Ontario. She writes: "Yesterday I watched on TV, Reagan and Gorbachev signing a treaty to ban some of the nuclear weapons. Personally, I feel that Mr. Gorbachev is the greatest political leader of our time, if not of all time. Did Cosmic Awareness ever comment?"

Then we have a letter from J.D., in California, who writes: "Just who is this new Soviet leader? According to some underground sources he is a mass murderer in his own country, being a protege of Andropov, of the KGB. Simply put, just what are his real motivations and intents toward war, world policies, and is he what he appears to be, or not?"

COSMIC AWARENESS:

This Awareness indicates that this entity as having been one who in Russia was in charge of a hotel and the work of accommodating for visitors of the state. This is essentially where he developed his public relations ability, the rudimentary development of this ability to be diplomatic in public. This Awareness indicates that the entity has as a motive at this time to bring Russia into the 21st Century with a reasonable amount of prestige as far as a nation is concerned. This Awareness indicates the entity realized the importance of what may be termed capitalistic incentives in any kind of growing concern. The entity realized that the way Russia's economy was handled, wherein the state controlled everything, that there was no incentive for the masses to do anything other than to work as they were told and receive the dole from the state.

This Awareness indicates that he also saw that Russia had spent enormous funds to build a military power sufficient to protect itself from the American power, but that this power was soon to be obsolete, unless they also developed a higher technology in relation to computers and other high-tech development that was occurring in the Western world and in the Pacific region. This Awareness indicates that he realized that unless something was done and done quickly, Russia would become a second rate power, even though it had more weapons available, for the higher technology would allow more pinpoint accuracy of weaponry so that even a fraction of the arms held in the West would out-measure the mass of arms held by the Soviets.

This Awareness indicates he also realized that Russia was depleting its economic strengths by vast military efforts and that it was losing in the race of world dominance, even through the economic conditions. In this regard, he realized that it was essential for Russia to begin trading with other nations. It was expensive to keep financing countries such as Cuba, which produced very little and cost enormous sums. It was expensive for Russia to consider expanding into other countries, to carry on wars in other countries, for Russia's own economy was being depleted at ever increasing rates.

This Awareness indicates that he realized that Afghanistan was a great expense and a loss to Russia, much as Vietnam had been to the United States. This entity is not one who is bound by some plans or ideals such as may have dominated his predecessors. This Awareness indicates the entity as one who saw the urgency to change the course of the policies in Russia; rather than being hooked to some idealism, he is a more practical leader than Russia has witnessed before. That in seeing the need for a total change, this entity set out to bring Russia into the mainstream, along with other countries such as Japan and the United States and Western Europe, so that it could develop a sufficient economy and technology to be a viable nation and have a reasonable position in the 21st Century.

This Awareness indicates that it is now his intention, as soon as possible, to become much more receptive to trade in terms of business, in terms of economic exchanges, in terms of receiving loans from foreign nations, to help Russia become more capable of expanding its economy in terms of technological growth and in terms of giving incentives to the masses in Russia so that the economy will begin to grow, much as it does in Western nations. In short, this entity is trying to bring in capital and is willing to try a more capitalistic approach, and as long as it benefits the nation, the entity will continue in this direction.

This Awareness indicates that wherein there is any serious problem for this entity, the old hard-line

communists are likely to attempt to oust this entity. This year, this entity Gorbachev will be walking on eggs. It will be very much a touch and go situation as to whether he survives. This Awareness indicates the treaty which was signed was as much in his own political interests as it was for the nation, for his nation; for as the entity signed the treaty it also boosted his hold in his position and assisted in giving him the support from the people of Russia.

This Awareness indicates this entity has many enemies in Russia who would like to see him ousted, and the entity is very cautious and must be carefully balancing his actions against the conservatives of Russia. By conservatives, this Awareness indicates it refers to those who are deeply attached to the idealism of Communism, just as Reagan must balance his actions and be careful not to over-offend the conservatives of the United States. This Awareness indicates that along with these political events, the entity is also seeking to work deals so that Russia can import and export, and so that Russia can borrow money from foreign banks to raise its standards and become more likened unto thriving capitalistic countries.

This Awareness indicates that Russia is involved in forming contracts with different countries, such as in selling timber to Japan. This Awareness indicates that the Japanese need more chopsticks. That there are also efforts and encouragement for the satellite countries of Russia to improve their economies through export. There are those automobiles coming out of these countries, such as the Yugo. That this as being encouraged by Gorbachev and those who see the urgency of curtailing the military budget and the budget required for supporting foreign satellite countries of Russia and of giving greater incentive to the people to be more productive and of stifling the policies associated with restrictive controls by the bureaucratic system in Russia, so that more openness and freedom can be experienced in Russia.

The First Soviet Export
ANYONE'S BOUGHT
IN YEARS

The entity sees how this affects entities in the Western world and free nations. This Awareness indicates the role of Gorbachev for this century is much likened unto Peter the Great in his time. This Awareness indicates in fact, this entity IS the reincarnation of Peter the Great. If you recall, Peter the Great disguised himself and went to Europe, to the Netherlands and to England, and worked as a ship builder in order to learn how ships were made, in order to understand the industrial age, in order to determine how to build things using the new industrial and mechanical engineering and systems. This entity then returned to Russia and attempted to lift the serfs and Russians out of their doldrums, and in the process and in the effort to give the Russian people an example of their power to improve the nation, built the city of Saint Petersburg in an area that had previously been nothing but swamps and delta. That the canals in Saint Petersburg, having been built, were an example of the engineering and architectural discoveries from Europe which were then applied by Peter the Great to the Russian land.

This Awareness indicates it is now paralleling that action in that Gorbachev is seeing the new revolution as being that of the information age, in which the computer is an extension of the mind, just as the telescope is an extension for sight, and this entity sees the importance of these new high technology discoveries, and wants to bring Russia up to par with the rest of the world.

This Awareness indicates that very few private individuals in Russia have computers and he realizes that this is a hindrance. Only recently have any of the schools in Russia began to receive computers and these are what would be considered very rudimentary and outdated in the United States. Because of this, they lag behind in terms of any kind of growth or improvement in programming or any of the greater technologies of computers. The Western world as that which is having enormous growth in terms of computer technology and programming; that within the next few years, perhaps within five years, a computer on a desk could hold all of the information in all of the books on earth.

This Awareness indicates that within 15 years, any individual could afford to have such a computer. That the way things are moving in the Western world, computers will be so advanced, that an individual will be able to publish and print books; the printer will soon be blended with a copier machine and also shortly thereafter it will serve as a printing press; thus, the desk-top publishing of the computer can put out books even having the ability to create binding for these books through the printer and the binding system which will be attached.

This Awareness indicates that the computer also will have the ability to access and search for any information available in any books that have been entered in to software or hardware storage and will have access

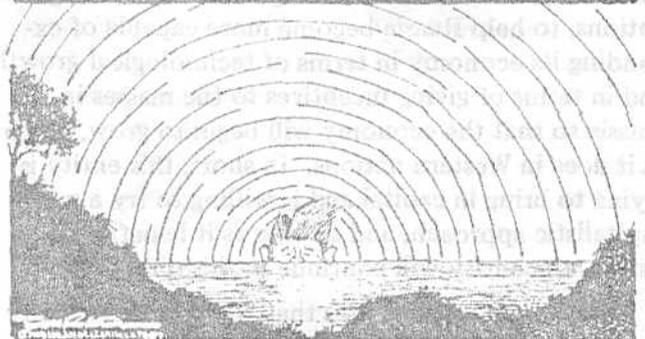

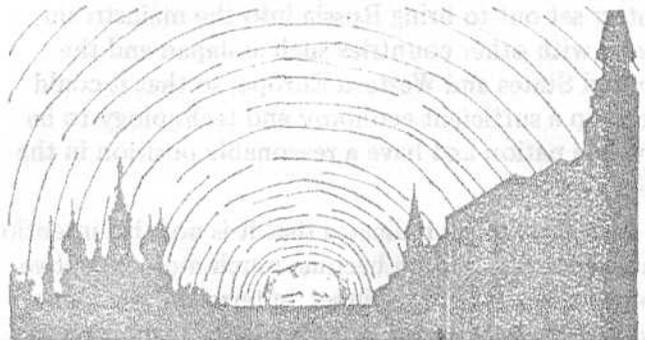

to programs that can produce extremely fast calculations and movement of data from place to place. This Awareness indicates that any country which is not tapping into this new movement will be left behind to a detriment and will become a third world nation.

This Awareness indicates that this entity is simply aware of the need to change Russia inside out in order to survive in the coming century. Were the entity not to take this route of becoming more open, of becoming more flexible in terms of relationship with the West, if this entity were not to take this route, Russia's prestige and power would fade within the next 10 years.

This Awareness indicates that the economy would be in shambles within approximately 5 more years. As it stands, because of this entity's understanding of the need for change, Russia will soon become an ally of the United States and there will be more trade and friendship between these nations. This Awareness indicates that at this time, the British, who are still largely dominated by the Bolshevik/Zionist factions are somewhat disturbed and may find some difficulty in accepting this alliance between the United States and Russia.

This Awareness indicates that it will gradually balance out, in terms of the conflict between Zionism and that of the Rockefeller/Skoptsis forces, so that all gradually begin to negotiate for a peaceful resolution to these conflicts. This Awareness indicates that the Iranian and the Israeli factions, which tend to work together, are also being affected by this and the Iraq faction which has been dominated by the Rockefeller faction, is also being somewhat affected by this, and these areas are still in a volatile condition and may have many changes before things settle into a direction or any form of resolution.

This Awareness suggests the next question be asked.

SUNRISE, SUNSET

THE ARMAGEDDON SCENARIO -- ARE THEY PRAYING IN THE PENTAGON?

QUESTION:

In reference to the Pentagon and the information Awareness was giving the other night regarding the fundamentalists and their hard-line literal interpretation of the *Book of Revelation*; I recall reading a newsletter some months ago, I forget whose it was, but I believe it came out of Seattle, and it was put out by Gary Allen and another entity,--some kind of insider's newsletter, and it started out with words to the effect that: "Most people don't know it, but every morning in the Pentagon, the meetings are opened by entities praying to God that today could be the day of the Armageddon," and it went on to say that Mr. Reagan also felt that same way, that the Biblical Armageddon was absolutely going to happen, and the sooner the better; all signs pointed to that. I'd like to ask Awareness if there is any truth to this, or do we really have people in a position of power, and capable of launching nuclear war in this country that actually believe this?

COSMIC AWARENESS:

This Awareness indicates that there are a great number of entities who believe that nuclear war is inevitable, and many of these believe that it is destined to happen. This Awareness has previously mentioned that there is that belief by entities that the destruction of the world leaves those who are responsible in a higher position as gods at the time of its completion. This Awareness indicates that it does not appear there is any formal action in the Pentagon wherein entities sit around in a meeting or circle, praying that this is the beginning of Armageddon. This Awareness indicates that there are entities who, believing in that scenario, do desire to see it come about; that essentially, the military training is toward activities of war. If one has trained one's lifetime to be a soldier, and to deal with scenarios related to war, if it does not ever occur, that entity can feel quite frustrated that he never gets to do what he has trained to do and feels well developed for this. This Awareness asks you, how would you like to go through years of training and never get to practice your art? This Awareness indicates that this is the frustration that many of these entities have. They are trained in many cases for nuclear war, and yet they are deprived of using all of that training. It is very sad when seen from that point of view. Their minds are narrow and they see only that point of view. They do not relate to the destruction which would play havoc on the rest of humanity, for they were not trained to be sympathetic. They were not trained to be doctors. They were not trained to try to heal people who are ill or who have limbs blown

apart. They were not trained to care for society's values. They were trained to kill.

This Awareness indicates that because they are narrow in their viewpoint, of course they desire to see this kind of thing occur, for in such occurrence they would be king, they would be the masters. They know exactly what to do. This Awareness indicates that is the danger of entities being trained in a narrow field. They are not diplomats, they are not peacemakers, they are trained killers. This Awareness indicates this of course is not a condemnation of any particular individual, for surely they have their families and have their concerns for the safety of their loved ones, but in the generic sense these entities are trained to unleash nuclear war, if given the chance, if given the order.

This Awareness indicates that a treaty takes them one step further away from fulfilling their purpose, their chosen purpose in life.

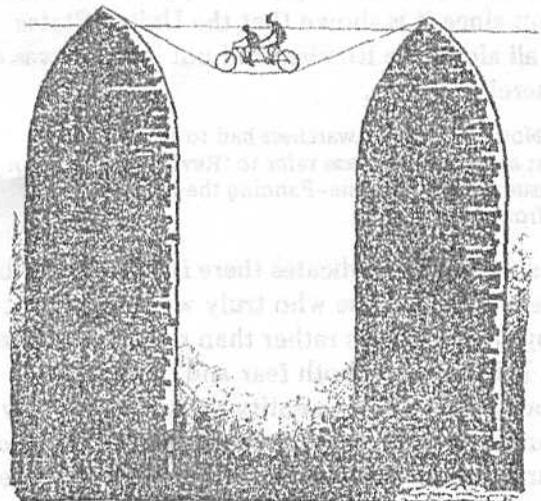

WHAT ARE THEY ODDS TODAY OF NUCLEAR WAR OCCURRING?

(FOLLOW-UP QUESTION):

Since that recent disarmament agreement between Mr. Reagan and Mr. Gorbachev, the *Bulletin of the Atomic Scientists* 'doomsday clock' moved its hands back approximately five minutes, compared with the flashpoint a few years back. Does Awareness see: What are the actual chances of a nuclear war in the foreseeable future?

COSMIC AWARENESS:

This Awareness indicates that this appears to be approximately 75%. This Awareness indicates that this has moved back from that which was at its most close time of 90%, which was approximately 3 years ago. That this moving back to 75% however, adds even greater opportunity or chance to further reduction, because if this reduction can occur to 75% without any kind of repercussions of a threatening nature,

"Don't Look Down!"

entities will feel more confident about taking another step backward from the brink. This Awareness indicates that if it can be done once without dire consequences, then it can be done twice, and because of the precedence of having set things back, (which has never occurred before), entities will begin to see the possibility of greater security by moving back from the brink than by moving forward.

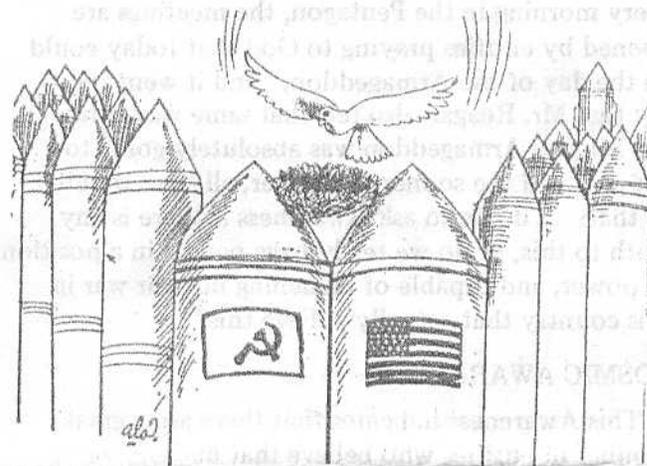

It is much more difficult for an entity who is preparing to engage in battle with another, to reengage in battle with that entity if they have stepped back long enough to make an agreement. This Awareness indicates if you were about to come into conflict with an entity and decided to back off on the use of one of your weapons and you shook hands on this and agreed to it, then it becomes somewhat more difficult to again approach with the same fervor toward a violent conflict. You enjoyed the action of reaching an agreement with your enemy, and everyone applauds and it feels good to have done something of this nature. This Awareness indicates there are always those around who cheer and try to egg you on into battle, these entities who have nothing in their lives except the concept of destruction, but once you have made an agreement with an opposing party, once you have negotiated and had rapport with that party, it becomes very hard to immediately or soon after, remember what the hostility was about and stir up that hostility again. Of course, if there was some effort by one party or another to stir up hostility, it could well be done. This Awareness reminds you that the KAL 007 flight some few years ago, in which the United States accused Russia of deliberately shooting down a commercial airliner, has only recently been clarified and revealed that the United States knew all along it was not a deliberate attack by Russia. This Awareness indicates that this did not get the great publicity of the initial hostility toward Russia when the United States said Russia could not help but have known it was a commercial airliner. This Awareness indicates the right-wingers were then ready to go to war. This Awareness indicates that now they simply will ignore that whole incident since it is shown that the United States knew all along the Russians did not know it was a commercial airliner.

ED's Note: for what Awareness had to say about that incident at the time, please refer to 'Revelations of Awareness' Issue: 83-19 (Hotline--Fanning the Winds of War); \$2.00 from CAC.

This Awareness indicates there is something about the mentality of those who truly want war, want to destroy their enemies rather than reconcile differences. It is based on both fear and a feeling of unimportance. When an entity does not feel they have anything very important in their life, or when they are highly paranoid and afraid, they become very defensive in one sense and very aggressive in another

sense. They therefore, want to have the ability to defend themselves and also attack the enemy. This Awareness indicates that the concept of reconciling is almost annoying to them. They do not like the sound of reconciling. They are actually hostile toward any kind of reconciliation, because it does not satisfy their paranoia and it does not satisfy their anger and desire to wreck havoc on others, on their enemies.

This Awareness indicates therefore, they attempt to polarize the hostility against their so-called enemies rather than encourage a reconciliation, even when the reconciliation is being very carefully handled so as to create checks and balances that could not benefit an abuser of that reconciliation.

WILL NUCLEAR DISARMAMENT INCREASE CHANCES FOR A LAND WAR?

(WOULD JESUS PUSH THE RED BUTTON?)

(FOLLOW-UP QUESTION):

There are some right-wing politicians who are lobbying against signing the disarmament treaty because they say if they do this Russia has the capability for a land war that would defeat the United States if it entered into it; and they cite that Russia has something like a quarter of a million tanks built which are facing Europe, and so forth, and if the nuclear disarmament reaches a point where there's no longer any threat, that they could roll these tanks in and take all of Europe in a matter of days. Does Awareness see any truth in that argument?

COSMIC AWARENESS:

This Awareness indicates that this disarmament program, in reference to the nuclear weapons, is that which will progress very slowly; it will take approximately five years. In the meantime, the United States and the NATO nations are planning to boost up their troops and their conventional arms. Also, the Russians

have made concessions and are willing to do further concessions in relation to diminishing their own conventional armaments; this as being discussed in relation to further treaties.

This Awareness indicates that even with the reduction of the nuclear weapons in this treaty, it only diminishes 3% of these nuclear weapons. Surely 3% does not constitute a great giveaway. This Awareness indicates that the Russians are also reducing their nuclear armaments. There is enough nuclear force left to destroy this planet, to destroy both nations many many times over. This Awareness indicates that the fact of destroying weapons which are in place today which were not in place five years ago as that which does not appear to create a great threat to either side. The action of having so many weapons available which could by accident or by intent of one single mentally deranged individual, could unleash global destruction; that appears to be an option which could be most difficult in terms of offering security; that the insecurity of that option is far greater than the insecurity of releasing three per cent.

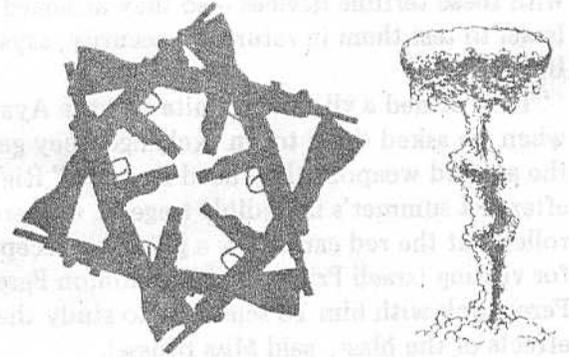

Why Conservatives Feel Insecure (Why Men Own Guns)

This Awareness indicates it is likened unto two armies facing each other, each with the capacity to destroy 300 similar armies, and they give away three percent. What difference does it make as far as the armaments are concerned? It is likened unto one person laying down their gun when one hundred retained theirs. One person on each side. This Awareness indicates the argument is only because entities are insecure about their manhood more than any other reason. These entities think that if they have a bigger gun, they are a bigger man. The concept has long been understood through the works of Wilhelm Reich; that those who feel most insecure are the ones who feel they have to have some kind of prop to make them more manly.

This Awareness indicates that the logic is totally missing and the emotion of holding onto a bigger symbol of potency becomes the driving force for many of these entities. This Awareness indicates that many of these entities have guns all around their home. What for? Are they so afraid? This Awareness indicates it is not the fear that someone will come into their home. It is the fear that they will not be seen as manly.

This Awareness indicates many of these entities call themselves Christians and are quick to seek to destroy and kill those who do not claim to be Christian, those of other countries; that there are many Christians who would love nothing more than to nuke the Russians. This Awareness asks these entities: If Jesus were alive today, would he carry a gun? Would he urge that someone push the red button to destroy this planet? If this entity would not do so, and you know the entity would not do so, and yet you persist in that kind of thinking: that you should carry a gun, and

9. you would like to see the red button pushed, --then you are in no way a Christian, regardless of what you say. You are of the Antichrist, for you would be countering the teachings of Jesus.

PANDORA'S BOX BEGINS TO OPEN...

THE TRAGIC TEST OF A NEUTRON BOMB

(ANOTHER U.S. -- ISRAEL ATROCITY REVEALED)

QUESTION:

There was an article in the April 14th, 1987 *National Examiner* that never appeared in the controlled press, and I'd like to read this to find out if this is actually a true story. It says:

"More than 1000 people were cold-bloodedly slaughtered after the secret explosion of a neutron bomb, charges a top political analyst...."

COSMIC AWARENESS:

This Awareness indicates that this was in that area of Arica. This Awareness indicates that this in the affirmative; that this was a test of the weapon. This Awareness indicates that there were many studies made in regard to the effects of this weapon and the studies were used for storage in computers to be evaluated for various intensities and different sizes of weapon. This Awareness suggests the question continue.

(QUESTIONER): Well, the article went on to state: "And now two world powers, Israel and the United States, face charges of a massive cover-up."

"Both nations were more than willing to kill innocent people to test the neutron bomb," says California-based radio commentator Mae Brussel. Some 1200 people perished in the explosion in the African nation of Cameroon last August, she added. Press reports originally blamed the catastrophe on a massive bubble of carbon dioxide rising to the surface of a volcanic lake and bursting, emitting a suffocating cloud.

"But gas wouldn't cause burns, and victims were badly burned," noted Miss Brussel. The officials responsible for the horror are many of the same now in the headlines for the Iran-Contra scandal, continued Miss Brussel. All are strong advocates of neutron

weapons, which can kill people and animals as effectively as atomic bombs, while leaving buildings and property undamaged. Intelligence sources realized that it would harm America's image to be associated with these terrible devices -- so they arranged for Israel to test them in return for security, says Miss Brussel.

"They armed a vile anti-Semite like the Ayatollah when we asked them to. In exchange, they get all the aid and weapons they need from us." Right after last summer's incredible tragedy, Cameroon rolled out the red carpet for a glittering reception for visiting Israeli Prime Minister Shimon Peres. Peres took with him 18 scientists to study the after-effects of the blast, said Miss Brussel.

"Why else would they be so interested in Cameroon when they never were before?" she asked."

COSMIC AWARENESS:

This Awareness indicates that this as an example of the demonic consciousness on this plane, and that this as having been a correct assessment of this incident. This Awareness indicates that this and other such incidents shall eventually be brought out to the public. This Awareness indicates that much of what occurs this year shall bring out the most unusual exposition, this as the Iran/Contra scam becomes more embroiled in legality, in the suits that are now filed in Florida and in the investigations of the special prosecutor Walsh.

This Awareness indicates that as this begins to unfold, it will be likened unto opening a Pandora's box, in which more and more of these unbelievable, diabolical incidents will be exposed. This Awareness indicates that this will lead back to those things which this Awareness previously discussed, including the fact that American bodies, being flown back from Vietnam, were stuffed with heroin being smuggled into the United States by this same secret team, or members having contact and working with them. This Awareness indicates there is such corruption as entities would be appalled to even hear part of this.

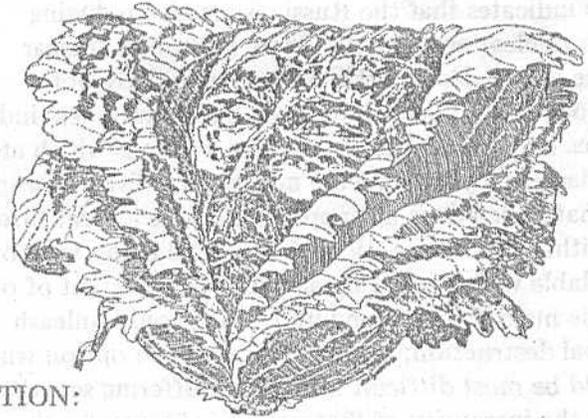

This Awareness indicates that this as soon to begin surfacing to the public, and when entities begin to realize what they have been supporting in the name of patriotism, and national security, they will look and wonder that they have been much like those in Nazi Germany, blind to the atrocities that were occurring around them. This Awareness indicates that entities will find it hard to believe. However, they will slowly begin to realize what has been happening in this last half of the 20th Century.

This Awareness indicates hopefully, the pollution inside, hidden within the structures of nations and the pollution outside, against the earth will have completed its reign by the time this century is over,

10.

and hopefully entities will find some better occupation than slaughtering one another.

HAS GENETIC ENGINEERING PRODUCED A 'CABBAGE MAN'?

QUESTION:

This is a question I wouldn't ask, except Awareness has indicated genetic engineering is making gigantic steps. This was an article in the *Weekley World News*, October 13th, 1987, a tabloid. It says:

"Outraged scientists say Russians have created a Cabbage Man! Soviet scientists have engineered a life-form that's half cabbage, half man!

The bizarre creature has been dubbed 'planimal' by critics, many who argue that the Russians have finally gone too far in the pursuit of science for science's sake--with no apparent benefit to man.

"This is an outrage beyond belief," Louis Genestar, founder of the watchdog group Citizens for Sanity in Science, told reporters in Paris.

"They have taken genetic information from a human being and joined it with that of a plant. This is certainly a blurring of life as we know it.

"Such tampering with the building blocks of life are a crime against nature and man."

Genestar has been an outspoken critic of the creation of new and unusual life forms ever since genetic engineering was first thought of as a scientific possibility decades ago.

Because he has direct ties to a number of Soviet scientists, he claims to have first-hand information about the Soviet man-plant experiment, which was accomplished earlier this year.

"They spliced the genes of man and plant and came up with something that looks like a cabbage but is much more complex," said the expert.

"I'm told that by peeling back the leaves you can see the wisp of a human face at the thing's core. It also has a crude system of veins that hold a kind of greenish blood.

"There is no heart, of course, so the blood doesn't circulate. The plant still depends on sunlight and carbon

dioxide. But if the Soviets can manage to take it a step or two up the evolutionary ladder, there's no telling what it might do."

A spokesman for the Soviet embassy in Paris would neither confirm nor deny Genestar's report on their gene-splicing experiments."

End of article. Would Awareness comment on that story, please?

COSMIC AWARENESS:

This Awareness indicates that this is accurate. This Awareness indicates that in the United States, several years ago, the genetic engineering experiment of a similar nature took the cells of a woman and mixed this with the cells of a tomato, and created a creature of a blend between that of a woman and that of a tomato. This Awareness indicates that there are other experiments of a similar nature being conducted secretly in laboratories on both sides of the ocean, in both countries, and in other nations also.

This Awareness indicates that if things continue as they are, eventually some of these creatures will be developed and released for purposes of vile nature, such as to serve in capacities unfit for humans, as slave-like beings, or to serve as food in which entities are eating cells of humans with their vegetables. This Awareness indicates that the field of genetic engineering is open to any kind of perversion imaginable, and ethics in regard to this is not being given much concern by these scientists. The greater concern is to keep this information from the people for fear that entities might become outraged.

This Awareness indicates that eventually the information will leak out more and more on many of these experiments. This Awareness has already given information in regard to the duplication of human bodies without experiencing the process of human birth; that this in reference to the robots and synthetics; this through the use of genetics and reversal of polarities for growing cells, using the genes of an individual to create a body, a clone, more or less of the individual. This has been practiced for a number of years.*

This Awareness indicates that there are also many beneficial and worthwhile uses for genetic engineering experiments. That the hazard in terms of any new field of science, is that there are so many entities who are willing to do things without scruples, without any sense of ethics, without any spiritual value to guide and direct and limit their action. As long as there is no conscience as to what is right or wrong, as long as there is no concern about what is proper and improper, entities will experiment with total disrespect for propriety, ethics, or morality, just to find out if there is something that could be patented, sold,

marketed or useful toward gaining power, money, or prestige.

WHAT ARE THE KARMIC REPERCUSSIONS OF THIS TYPE OF GENETIC ENGINEERING?

(FOLLOW-UP QUESTION):

From a cosmic viewpoint, what are the karmic repercussions, if any, of genetic engineering of this nature, such as creating a cabbage man, a tomato lady, and other things like that?

COSMIC AWARENESS:

This Awareness indicates that the karmic effect as that which is not imposed on the perpetrator, but which will come from *within* the perpetrator; an entity cannot behave in a certain manner, violating others, or violating spiritual principles without eventually coming face to face with oneself, and when that occurs, the entity will go through great suffering and remorse. Although this may not occur during this lifetime, it may occur after the passing over, in which case the entity will be compelled by his own judgment of self to make amends in one way or another, or to suffer an equally painful experience in order to punish himself.

This Awareness indicates that many entities involved in this kind of action have hardened part of their psyche, the emotions and feelings, and extremely cerebral. This being a kind of sadistic approach, in which they do not have any compassion, but have only the intellectual interest in the experiment itself. This Awareness indicates that such entities will eventually meet that which comes around, for what goes around, comes around, and the entity will eventually come face to face with his own karma; that entities choose the karma necessary to balance out the error they have done. It is not that spiritual forces punish them or cause them harm. It is more that they determine their own karma.

This Awareness indicates that this is determined from states of truth, not simply from some thought level which allows them to choose to pay karma in an action that favors themselves and helps them to cheat on the payment. There are times when every entity must come face to face with that absolute truth in regards to self, and it is at that time the karmic repayment is set for the entity's future experiences. This is generally at the moment of death, but can come about prior to that moment.

This Awareness indicates there are also plans for the use of this kind of genetic engineering, in which the military has considered using these plant men to fight battles. This being a thing where if they can find the right combination to create beings who can walk, and who can function, but who are essentially

plants, at least in part, and who can alter and regrow limbs or leaves or body; these would be ideal soldiers. They would have less intelligence, less free will, and if an arm were blown off, they could regrow the arm in a short time.

Atlantis Revisited

This Awareness indicates that these are some of the plans of future use of this type of engineering, genetic engineering research. There are many other plans for potential use of this. There are also plans to use genetic engineering for growing new forms of food, combining plant and animal tissue. This Awareness indicates that there are also potentials for mixing human and animal cells. This Awareness reminds you of the Edgar Cayce readings in regard to those experiments in Atlantis, in which those things which were known as things, were created; these being half animal and half human, and this was the downfall of Atlantis; following their experiments into this kind of genetics, this led to the eventual destruction of Atlantis.

New Laws Needed to Control Genetic Engineering

This Awareness indicates that this is not so far away, if these entities are not in some way curtailed in their genetic experiments. This Awareness indicates there needs to be some kind of standarization in the form of an ethically acceptable genetic engineering code, so that these projects which do not fit within the standard are outlawed.

THE TIME HAS COME FOR NEW RULES, NEW LAWS, NEW ETHICS FOR THOSE INVOLVED IN GENETIC ENGINEERING

(Closing Message)

This Awareness indicates that entities in this latter half of the 20th Century are living at a time in which there is an almost unbelievable change in the apparent laws of physics on the earth; that up until this latter half of the century, and to a lesser degree the first half, life went on from generation to generation, from century to century, with very little change. The behavior of nations and tribes may have been warlike and dogma may have been such as to continue a pattern. Violence and sickness may have existed from generation to generation, from century to century, but all of these things were very similar. All of the problems experienced were similar from century to century. Only the costumes and the names and the philosophies changed from century to century. Art would change, slightly, ever so subtly. Weapons would change somewhat, but in this last century, the change has been

enormous. The leap from the previous century into the cutting edge of technology today is such that if seen separately by an entity who was not part of the action, it would appear to the entity that he was looking at two different planets entirely.

This Awareness indicates that you are entering into what would be, what would a hundred years ago, seem like a planet from a science fiction book. This Awareness indicates it will move even faster. The acceleration of these discoveries and of these actions, of the technology growth may be likened unto an ever-expanding mushroom cloud in the field of knowledge; knowledge increasing so fast as to be squaring itself moment by moment. This Awareness indicates that in such movement, the ability to judge right and wrong must not be left in the shuffle. The ability to keep a semblance of compassion for living things must not be thrown away.

Right and Wrong According to Awareness

This Awareness indicates when *It* speaks of right and wrong, *It* does not mean right in terms of solving a problem, or wrong in terms of missing out on the genetic or mathematical problem. *It* is speaking in terms of right as that which harms no one else, and wrong as that which harms others. This Awareness indicates that the action which is right is the action which, from a universal sense, allows the best, allows the highest and the best, for all involved.

This Awareness indicates that when any are victimized by an action, it is not right. When any are harmed by an action, it is not right. The right action is the one where all benefit, according to what they deserve. This Awareness indicates that not everyone deserves equal treatment, for some may contribute more or less, but what is truly deserved is that which is right. This Awareness indicates that in some cases, an entity deserves a lesson from an experience. Another entity deserves a reward from the same experience, depending on what each *has* done.

This Awareness indicates that an ethical approach in which entities become more concerned about the properness, the appropriateness of actions becomes a much more important factor than it has in recent generations, because, without that ethical approach, there are no laws, there are no rules to govern this future time, especially in regard to these new technologies. An entirely new set of laws needs to be developed, based on concepts of right and wrong. This Awareness indicates that in the past, the laws created in the time of the New Testament, in the time of Rome, in the time of Greece, could be examined and applied to current situations.

This Awareness indicates that these laws could develop gradually and be applied easily to different situations so that justice would be easily recognized, but when you begin mixing human and plant, when

you begin having surrogate mothers, when you begin having all of these weapons of war that can kill, such as through machines that simply send out a vibration to an unseen enemy somewhere else on earth, tuned to his or her frequency so that you do not touch the entity; these weapons, such as radionics and psi-onics weapons, all of these things demand new laws, new rules, new ways of control, new ethics. These ethics must be based on some kind of standard that all recognize to be fair and just.

This Awareness suggests the Interpreter be brought from trance.

(Thank you.) The Law of Gratitude is given.
