Helping People Become Aware

THE  
NEW  
THINKING

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

( THE DAWN OF THE NEW BEING )

## HOW CONSCIOUSNESS HAS CHANGED IN THE PAST THREE DECADES

(Opening Message) CAC General Reading, March 7, 1988

This Awareness indicates that many entities living in the present time reflect back on the great changes that have occurred in the past 20 years. This Awareness indicates that you are now nearing the end of the decade; that in the past three decades, great changes have occurred in terms of the values and expressions of humanity; that were you to suddenly be transported back in time, not simply to the society of the 50's but to the thinking processes involved with entities during the decade of the 50's, you would find your mind working and acting and thinking in a manner alien to your present way of thinking.

This Awareness indicates that in order to fully comprehend this, this Awareness suggests you take a moment and imagine yourself living in the era of the 50's. If you can imagine only seeing up to a period of 1955 for example, having just witnessed the Korean war and World War II and other previous historical events, with none of that which followed; if you could visualize only being able to see up to that point in time, you will understand what is meant by the evolvment and change in consciousness.

This Awareness indicates that all of the events that have occurred since that period of 1955 up to this time in 1988 have resulted in considerable changes in values in the way entities think, in the way entities perceive their world. The perception is no longer the same as that which was in the mid-50's. Entities do not perceive reality as it was once perceived. That this change in the way entities perceive as that which has been developed from the significant events that have followed.

This Awareness suggests for example, the involvement in the war in South Vietnam, in which the United States did not emerge as a victor; the witnessing of the assassination of a President, in which the apparent good-guy, did not win, the witnessing of mystery around the entity's death in which top government officials seemed to be hiding something; the witnessing of corruption that followed in government in the 70's; the further exposures of crime, corruption and violence perpetrated in high places; the experience of seeing the cold war depolarized; watching friends become enemies and enemies become friends; all of these political, national and personal events that have happened to individuals under which entities have shared their experiences while the camera and the television gave

forth images, closeups of foreign lands, foreign people, foreign cultures, bringing them into your own homes.

This Awareness indicates that all of this as being quite unique in the history of mankind, for in the great past experiences and historical events, the realities were presented only in stories, in words, in written manuscripts. That in this present time, events have been brought before your eyes.

This Awareness indicates that entities during the time of Lincoln's assassination may not have heard of this for several months, as the news travels quite slowly. In the assassination of John Kennedy, entities knew about it within minutes. This Awareness suggests this speeding up of mass communication as that which is allowing entities to have greater communion with one another's mind, with one another's experiences, and this mass-communication is creating what may be termed an involvement with mass mind. It is likened unto that which Carl Jung spoke of as the mass consciousness or mass mind, in which entities can attune themselves, can tap into, but which in present society, becomes commonplace because of the media and technology that brings the world into your own home. This Awareness indicates that even within the past few years values have undergone shocks, stress and changes; laws are passed which alter the way entities are allowed to treat each other by reason of color, by reason of belief, by reason of class.

This Awareness indicates that even in the past few months, entities who have been seen as pillars of society in promotion of certain values held sacred, are suddenly discovered to be as corrupt as any of those to whom they advise against such corruption. This Awareness indicates that struggle which is occurring within humanity, within the individual, the struggle of right and wrong, of these polarities, the claims of righteousness and the reality of those distortions within an individual who hides from the public his dark side, and is suddenly exposed before the cameras; this is that which this Awareness has long suggested would come about,—that no secrets can be maintained against the Light.

#### TV Evangelists—Why Sexual Hypocrisy Occurs

This Awareness indicates that the recent problems seen in the television evangelist programs and promoters, in which at least three have been publically recognized as being hypocritical to their beliefs, is a symptom of the polarized condition under which these entities are bound by their particular role of playing the righteous individual. This Awareness indicates that when an entity chooses to pretend or to promote oneself as being righteous and makes a life-long career of this promotion, the very action tends to create a polarity of extremism toward

that righteousness.

This Awareness indicates that when an entity is polarized toward a highly exaggerated performance level, there will be that equal and opposite reaction according to that law of physics, in which a less righteous side becomes a prominent part of the individual, thus, you hear stories about those public figures who appear to be quite righteous or quite beautiful, nice, harmonious, wonderful people; you hear stories from those who know them in their private life, seeing that they are harsh, unpleasant to be around, or have some secret and more seamy side to their lives.

This Awareness indicates it is because of the extreme polarity; when one polarizes in one direction, there is automatically created an extreme on the hidden side that begins to frustrate the entity, and eventually creates in moments of weakness, an outlet for that dark side of the individual. This Awareness has indicated the importance of reconciling the yes and no. This Awareness indicates that in past philosophies, entities have argued the importance of polarizing oneself; in the Zen teachings, the statement is: "If you're going to walk, then walk! If you're going to crawl, then crawl, but don't wobble!" This Awareness indicates that in Christian terminology, the statement was not to be lukewarm, but to be either hot or cold.

#### How to Reconcile 'Yes' and 'No'

This Awareness indicates that in recent political levels, the entry Spiro Agnew warned entities not to sit on the fence but to choose sides, to become polarized, one way or the other. This Awareness has asked entities to reconcile the yes and no. This reconciliation of yes and no as that which refers to movement toward the center, whereby entities can look clearly with attention, without judgment, without condemnation, without prejudice for or against, but with extreme objectivity, as one who stands balanced between the two ends of the teeter totter, between the two ends of polarity; for only in that delicate and absolute balance can entities see clearly, and absolutely without prejudice.

This Awareness indicates that the action of prejudging, judging before looking, as that which creates more of the problems on this plane than any other action. The action of discerning, without prejudging, as that action which creates the greatest clarity, for seeing, for perceiving reality on this plane. This Awareness suggests that entities more and more will see the benefits to their consciousness, to their lives, to the way they observe and perceive reality, if that perception is likened unto that of a child, in which no opinion is brought to the moment from past, but in which the moment is looked at afresh, with deep discernment, without polarity, observing to see *what is*, rather than bringing your judgment to bear on something you are beginning to observe.

This Awareness indicates that too many entities on this plane come into a circumstance or situation with their mind already made up; too many entities on this plane already know the answers before hearing the questions. This Awareness indicates too many entities on this plane already have an answer for the circumstance before even observing the circumstance in its entirety. Too many entities on this plane already know what you should do in terms of your life, without even knowing anything about your life.

This Awareness indicates the question is: How can you discern clearly if your mind is already made up? This Awareness suggests that the movement at this time is that which is and has been for the past 30 years, creating greater and greater uncertainty in the minds of humans, and the value in this, if you wish to know, is not that it creates security, but that it creates greater and greater insecurity, so that entities can no longer rely on those things which created the already made-up mind, but must learn to discern afresh, from moment to moment, the new realities that appear.

Wherein entities can no longer rely on tradition and answers from the past, hand-me-down platitudes which served in the past, lines which once were delivered without thought, words which sufficed to put an end to the discussion without the necessity for looking, observing, perceiving, thinking, questioning, or doing anything other than throwing out the quotation, or line, or word that is usually used in such circumstances.

This Awareness indicates that 100 years ago, or even sooner, and before, entities had an array of sentences, adages, words, lines which could be brought to bear on any circumstance, and if they they had sufficient phraseologies and labels or quotations or lines to present for various circumstances, they were considered intelligent. It was a matter of memorizing what to say under what circumstance, rather than actually perceiving the circumstances and letting the words follow which best described the perception.

This Awareness indicates now, entities are required to think and perceive, and then to open their mouth

and describe what they perceive, if indeed they are to be given any credit for thinking, for intelligence and for acting in a responsible manner, for the world has grown more complex. Entities are no longer satisfied with platitudes; entities want answers, reality. Entities want descriptions based on in-depth and respectful perception of a situation or problem. This Awareness indicates entities no longer accept the colloquialism, the usual response, the phrase that turns the entity away or turns the entity toward you; entities want to know *why* you say this, *why* you think this. Are these words based on clear honest perception, or are they simply canned answers such as those which would come from a computer program that had been programmed with certain phrases which are not associated at all with thinking processes but are simply: garbage in, and garbage out; phrases in and phrases which come to the surface when called upon? This Awareness indicates thinking, in the higher sense, does not repeat itself simply because that's what was put in there for this situation and that which comes out when the situation occurs. Thinking looks at a situation entirely new, and perceives the situation, even if it appears similar to other situations, perceives the situation for what it is, with its nuances, with its slight changes, with its uniqueness, and responds to that uniqueness with something totally new and appropriate to the new unique situation.

This Awareness indicates this is what is meant by discernment and perception in the new thinking that is emerging. This Awareness indicates the new thinking that is emerging tunes into the reality of *What Is*. It does not tune into labels, such as Communism, followed by the label which has been programmed for appropriate response to the word: "Hate! Hate Communism!" This Awareness indicates rather, the entity who is truly thinking, will ask: "What is it you mean when you say 'Communism,' in regard to this situation?"

This Awareness indicates there are so many ways which entities in the old thinking processes can influence, can intimidate, can twist reality, can distort reality. This Awareness indicates that there is a sign here in Centralia, Washington, a picture of Uncle Sam on a billboard asking the question, making a statement: *'The Communists endorse Jesse Jackson for President. Do you?'* This Awareness indicates that this is a sign intended to influence voters against the entity Jesse Jackson, by associating Communists, which is a word carrying certain loaded emotions, and Jesse Jackson as being hand in hand, and asking the reader if the reader is part of that team of Communists and Jesse Jackson.\*

This Awareness indicates that this manipulative type of mental wording as that which is very common in the old way of thinking. It is a childish way of thinking, in the sense that it plays with emotions, distorts reality and influences the majority of entities who are not

clear, who are not depolarized. This Awareness indicates if an entity is polarized against Communism, if an entity is then given an association that Jesse Jackson is supported by Communists, the implication is that Jesse Jackson is either a Communist, or if you supported Jesse Jackson, you would be supporting Communism.

This Awareness indicates there is no evidence offered that Communists actually support Jesse Jackson. Even if there were, so what? Perhaps there are Communists who support Jesse Jackson, perhaps there are Communists that support others, but it does not mean that Jesse Jackson is not a good candidate for the Presidency. This Awareness indicates this entity may be supported by certain religious groups, by certain sexes, by certain age groups, by certain nationalities, by certain people from different locations, by certain people from different belief segments or cultural or social strata. The entity may have the support of numerous types, which maybe includes Communists, which maybe includes Masons, which maybe includes Chinese, which maybe includes baseball players, which maybe includes actors, which maybe includes any type of person who likes Jesse Jackson.

This Awareness indicates if one begins to discern without polarity, one then perceives a clearer and cleaner reality in regard to Jesse Jackson than if one simply looks at what is said, links the two: Communism/Jesse Jackson, and comes up with the usual summation: "Hate Communism/Hate Jesse Jackson"...that this is the old way of thinking, to allow polarized emotional labeling to affect your thinking so that you can't be fair and honest in terms of that which you are perceiving.

This Awareness indicates new thinking as that which requires that entities be objective without prejudice, without extreme polarity. This Awareness indicates the mass movement of consciousness during the past 30 years toward that which is confusion, toward that wherein cultures are melting, merging, conflicting, disrupting each other's securities; this disruption creating the confusion as that which is forcing entities to think, to discern for themselves what is real, instead of simply following the statements, the platitudes, the old hand-me-down adages written by some ancient poet who wasn't thinking at the time of the writing, but simply noticed that the words sounded quite interesting and poignant.

\* ED's Note: Awareness is referring to a huge billboard that can be seen from Interstate 5 when one travels between Portland and Seattle. It is on the property of a conservative John Bircher turkey farmer, who changes the message several times a week, much to the distain of many travelers and authorities. The federal government once took the entity to court on grounds that billboards were illegal along the freeway, but the court, noting the First Amendment, ruled the billboard could stay. Over the years this turkey grower has attacked hundreds of people who he deems as 'subversive', including Jane Fonda, who he refers to as a 'communist'. He implores the U.S. to get out of the United Nations, to retake the Panama Canal, "Jail homos with AIDS", Bomb Iran, Mirramar Khadafi, to name but a few of the axes he publicly grinds. Jesse Jackson is a current favorite and is getting insults of every description.

This Awareness indicates you can look through some of these old quotation books and you will find that for almost every adage or quotation given in favor of some viewpoint, there will be another which is just as poignant, stating the opposite. This Awareness indicates for example, there are those who say: "Familiarity breeds contempt," and entities will look and say: "Yes, that's true." Then someone else can say: "Absence makes the heart grow fonder," and you can say: "Yes, that's true," and so the entity leaves because he does not want to be familiar, and have contempt, but wants to have the heart grow fonder through his absence, and all seems appropriate by these quotations and platitudes which have been handed down; therefore, the entity is now gone, and someone says: "Out of sight, out of mind."

This Awareness indicates the entity is no longer fonder in the heart, for he is out of sight and out of mind. This Awareness indicates that platitudes may sound good, and that is all they are for. They are little itty-bitty propaganda statements to hook the mind to stop it from any further thinking. This Awareness indicates that many of your politicians run their campaign on one-liner platitudes and entities sit and watch for the person who can come up with the one line that puts the other down and makes them the hero of the debate. This Awareness asks if this is what you are using to select your presidents? Are you selecting your president on who can turn the clever word?, on who can put down the other parties best, in the shortest time?

This Awareness indicates it would appear that this is the contributing factor, perhaps the major factor in the selecting of a president, and as this seems to be the case in your present world, it reflects poorly on the judgment of the voters who obviously do not think, who obviously do not want to think, who are quite content in finding the entity who can best turn a phrase in order to allow them to put their brains to rest at last. This Awareness indicates that it will not end there. Society in this fast technological age is not going to allow entities to put their brains to rest by hooking to a phrase by a politician, but instead they will be stuck with that politician and all that the entity does which affects their lives, along with the others who likewise throw out their platitudes, their one-liners, and act mechanically without clear thinking, and these entities who are following the phrase and platitude droppers will find themselves opining, looking for ways to influence their friends, while the world is still becoming more and more confused, until nobody believes anybody, regardless of how clever the words, and they begin to look for facts, look for realities, because they are confused and do not fully feel comfortable with simply clever words.

This Awareness indicates that thinking indeed, is beginning to occur on this plane, very slowly, in rudimentary levels; by thinking, this Awareness does not mean parroting, repeating or phrasing clever lines, this Awareness means *perceiving reality* and following that perception with the most accurate words available to properly share what is perceived. This Awareness indicates that this is in its basic and most rudimentary levels at this time, but is beginning to emerge and this emergence of this new thinking is that which is the basis for the New Being which this Awareness has spoken of as coming upon this plane.

This Awareness indicates when the New Being is fully expressed in masses on this plane, this will be a New World, one of higher intelligence in which greater truth, beyond mere word expression is perceived by the masses. This Awareness reminds you that the words spoken are in themselves mere shells without value or meaning, except for whatever entities perceive as lying within or behind the words.

This Awareness suggests the questions may be asked.

**HOW DOES PRESIDENT REAGAN  
REMAIN SO POPULAR & AVOID CRITICISM?**

( HOW THE "TEFLON FACTOR" OPERATES )

**QUESTION:**

A question from L.P., in Seattle; he would ask if Awareness would comment on the seeming compliance of the American people toward President Reagan and the fact that he seems to deflect criticism due to the so-called 'teflon' factor.

**COSMIC AWARENESS:**

This Awareness indicates that this as an example of how entities are capable of avoiding poignant questions by turning a phrase, by pretending not to hear, by pretending to be in too big of a hurry to stop and answer, of acting interested, but, on some kind of treadmill where they simply can't stop to answer or to talk.

This Awareness indicates this entity is always answering with a question, the hand to the ear, as if saying:

"What did you say? I can't hear you! I'm on my way to my helicopter now!"

This Awareness indicates that this entity is always able to avoid clear honest discussion of those things which he does not want to respond to. This Awareness indicates that the entity also as a master of having the response to the question which he wants to hear, delivered in such a way as to show himself to be in control and to be very knowledgeable and very decided in his manner of handling the situation. This Awareness indicates this entity as also a master of using the right and proper adjective to describe those things which he does like or doesn't like: the Contras being labelled the

CONSCIENCE OF A CONSERVATIVE

"Freedom Fighters". This Awareness indicates he does not label them the 'Sandinista Fighters,' but rather the 'Freedom Fighters.' The question is: Freedom for who? The question is: What is the freedom that is being promoted?

This Awareness indicates that it would be of interest for entities to understand more than that single phrase: 'the Freedom Fighters.' It would be of interest for entities to understand more completely why these entities are in war with each other, what is behind this, where is the threat, and is there not some other means besides the violence for settling disturbances between humans. This Awareness indicates that so-called teflon effect, associated with that concept of something that does not stick, is best understood when viewing the way this entity appears to be shielded or untouched by those things that are quite sticky around the entity,-- all the various cabinet members and friends and associates and appointees who have been involved in legal difficulties, criminal investigations and other business affairs that are unorthodox or illegal, whereby this entity appears to know nothing about those things, and appears to be busy doing his job. This Awareness indicates the entity as a good and quite typical President and politician. The entity has been well trained and has developed certain techniques of his own to shield him against inquiring public questions which he does not want to deal with.

This Awareness indicates that it is not something mysterious, it is something carefully cultivated by the entity. It is not something that is considered evil, it is simply a protective shield in which the entity has learned to present, as a kind of coping mechanism, so that he can cope with the questions without actually exposing himself. This Awareness indicates that any politician would value such skill.

## WHY PEOPLE WHO THINK REAGAN LIES WOULD STILL VOTE FOR HIM AGAIN

( THE POWER OF THE FATHER-FIGURE )

(FOLLOW-UP QUESTION):

There have been some public polls that indicate that a great percentage of the American people do not really believe what Mr. Reagan says, but yet, a lot of those same people have said they would vote for him again if it were possible for him to rerun for President. Does this have to do with the cult of the personality and the type of programming Americans have received through television and movies, that they somehow identify with this man for that reason rather than for his record of actually being truthful?

COSMIC AWARENESS:

This Awareness indicates that the general public tends to be attracted to the entity who does not appear vulnerable in the sense of any real weakness. That the entity who can say: "I have made a mistake, and I apologize, and I hope never to do it again and I would like entities to forgive me," this Awareness indicates that this entity is being quite noble and honest perhaps, but the public does not respect that entity because the entity appears weak and asking something from the public.

This Awareness indicates that a child does not want to see the father asking for the child's approval or blessings, for it makes the child feel insecure to be in control of the father; that if this occurs more than a few times, the child will begin to feel the father is quite weak. This Awareness indicates that when a politician who is caught with his hand in the cookie jar and apologizes for that action, the entity is not seen as being strong, but is seen as being weak, and is put in a position of needing the public to accept and appreciate and approve of the politician.

This Awareness indicates that the public then feels the entity is under, or subordinate to them. The public, in voting for a President, wants someone who is in charge, who appears to be strong, who doesn't necessarily hide his weakness or hide his mistakes but simply deflects them. In this case the President says: "Mistakes have been made." He did not say: "I made a mistake." This Awareness indicates that anybody can accept that mistakes have been made, and everybody can accept that the man in charge, who admits that mistakes have been made is being forthright, for who can argue that mistakes have been made?

This Awareness indicates that because he is admitting that mistakes have been made, the public is satisfied, without seeing him as weak, and asking for their approval, or forgiveness. This Awareness indicates that

7.

this President has never asked for the public to forgive, to accept him. He has always informed the public that he knew what was best for the country and that if something went wrong, he either didn't know about it, had no part in it, or there was a misunderstanding, but *it was not his fault.*

This Awareness indicates that the majority of people do not want responsibility. If a President does not accept the responsibility, then it means the people must be responsible for the government, and of course, this nation in which the people are supposed to be the government, likes to throw off their responsibility onto the shoulders of the individual who says: "I take full responsibility." [Humorously emphasized. ED.] This Awareness indicates that this President as one who portrays the traditional father figure for the masses in a world where father figures become more wimpish with every generation.

The Decline of the 'Father Figure' in the Family

This Awareness indicates that the majority of entities do not have a healthy or traditional father figure. The fathers are often lamenting, blaming others, passing off the blame for their own behavior on the children, on the wife, failing to do what they commit themselves to do, or simply hoping that the child or the wife will fetch those things which are needed for the father. This Awareness indicates there are too many men in this present society who look to the wife to provide things which he could easily provide for himself, who look for children to run errands for him, when he could just as easily do those things himself; and who, rather than being a provider, sits back and uses the family to provide his needs for himself.

This Awareness indicates there are too many such men, and therefore, the entities who see one who appears to take responsibility, who appears to be doing all that he can to make the nation run better, who thinks he is doing what others want or should have, whether they need it or not, when they see this man who believes himself to be providing, and appears to be sincere in his provisions, they are reminded of

## TV reporter says Reagan 'trick ear' filters the news

PULLMAN (AP) — President Reagan shields himself from the press through a "trick ear" that screens questions for those he wants to answer, a senior correspondent for ABC News said Monday night.

In delivering the 1988 Edward R. Murrow address at Washington State University, Bettina Gregory, a frequent critic of government information programs, said Reagan's media accessibility is the worst in modern times.

Gregory, in a speech titled "The Good, the Bad and the Ugly of

Television Network News," said, "The great communicator (Reagan) has a trick ear that seems to allow him only to hear the questions he wants to answer."

When asked questions by reporters, Reagan frequently looks at his watch, waves and walks away, playing as if he was unaware, Gregory said.

The president's staff sets up news conferences so that reporters must stand about 30 to 40 yards away, thus forcing them to shout their questions, Gregory said.

that which they lack, and they give their votes to him, even though they may not agree with his policies at all, simply because he seems to be a strong individual doing what he believes is right. Never mind that his beliefs are different from theirs.

This Awareness indicates the majority of entities reward such people not because they agree with their beliefs, but because they stand by their convictions and do not wobble. This Awareness indicates that the wobbling politician such as Gary Hart, and Eagleton; others who have vacillated or for a moment have seemed unsure, the entities who happened to shed a a tear, or seemed distraught at the wrong moment, these entities' entire career may be judged by that particular moment or expression.

This Awareness indicates that Gary Hart, for example, appeared to the masses as a boy who got caught; the same with Jimmy Swaggart. This Awareness suggests that the entity Bakker, the evangelist, as one who never really admitted publically that he had made mistakes. Jimmy Swaggart admitted, and in his honesty, he is less likely to be seen as strong as a father figure than Jim Bakker. This Awareness indicates that there is a certain element in the masses which does not truly perceive in terms of concepts, beliefs, values and rightness in behavior, according to their version of rightness, as being nearly so important as the appearance.

Entities tend to vote on appearance rather than properness of an idea, purpose, life, behavior or other value. This appearance as that which makes them feel secure. If entities such as Jim Bakker can appear to be relentless in his confidence in himself, regardless of what has happened, a certain segment of society will continue to follow him because they are insecure, and do not have that particular relentless drive, and he exemplifies something which is lacking in their lives, which they need.

This Awareness indicates that there will always be other needs; perhaps an entity has the need to be able to be honest and to express failures in his or her behavior. Such entities may hold Jimmy Swaggart in high esteem for his ability to stand before thousands and admit he made a mistake and no one is to blame but himself. This Awareness indicates these entities will continue to hold this entity in high esteem. There will always be those who pity the underdog, who identify with the one who shed a tear, who appeared weak for a moment, but there are also those who will laugh at such entities and these are in the greater majority in this country, in this age.

This Awareness indicates that the majority of entities are weak themselves and want the appearance of someone who is either infallible or pretends really well to be infallible. The majority of entities would like a Pope for the Presidency or someone who is just as sure, just as certain of self as the Pope. This Awareness indicates that all that is required for the majority

to be satisfied is that the leader never wobbles, and always comes up with a response that indicates criticism doesn't bother me, for I know what I am doing, even if it's wrong, it's right for me.

This Awareness indicates entities like that kind of attitude, for it makes them feel that there is nothing they can do with the country or for the country because this entity has control and there is nothing needed by them; they may not like the program or the control the President has, but there is nothing they can do, and therefore, they are relieved of all responsibility, which is what they wanted in the first place. This Awareness indicates that unless someone comes along who has equal certainty, and who better satisfies their wishes in terms of what they need, they will again vote for the same individual if possible, even though they may disagree totally with his program or approach to governing.

This Awareness indicates it is not the politicians of this world that are so much to blame for the troubles, it is the voters who do not want to take responsibility and who become quite complacent and satisfied to let someone else who appears sure of himself to be in charge. This Awareness indicates that many entities want those who are sure they are right, even if they do not agree that they are indeed right. This Awareness indicates that quality of someone taking charge alleviates the necessity of an individual to take charge, and therefore, they can say: "It is out of my hands. I can do nothing but follow this individual who has taken charge." This Awareness indicates that this is the pleasure, the solution that entities crave. They wish to have others take charge. It is the same in a physical sense, as was previously discussed in terms of the brain, which does not want to think, but which is satisfied if someone else does the thinking and puts the thought into a platitude.

This Awareness indicates that essentially, entities vote for those ideas, platitudes or individuals which best allow them to be lazy in their own lives.

THE UPCOMING ELECTION: A CASE  
OF HOW MUCH IS EXPOSED AND HOW SOON  
( THE 'AWAKENING MAJORITY' SITS UP )

QUESTION:

Another question from L.P., of Seattle: "How do you see the American Presidential election of 1988 and beyond? Will the serious candidates continue to be hand-picked front men for the establishment or will this pattern be broken?"

COSMIC AWARENESS:

This Awareness indicates that there is much which will begin to emerge during the spring and especially in the summer, the early summer and late spring, and throughout the following months in which greater exposes regarding certain individuals in high places will be in the news; this as greater than that which occurred last summer in regard to the Iran/Contra affair; that this will create serious disturbances and upsets in regard to the front runners, in regard to the way in which candidates are viewed.

This Awareness indicates the extreme right and the majority, (what may be termed the awakening majority, rather than the silent majority); the awakening majority will begin to be heard and will have a profound effect on the balance and shift that may occur in time for the election. This Awareness indicates there is, there appears to be the building momentum behind George Bush for election, and this energy as that which could indicate a successful candidacy.

This Awareness indicates however, that because of things which will come up in the summer, regarding his further involvement in ways not touched upon, ways not yet exposed, the awakening majority will begin to cut down his apparent lead; whether it will occur soon enough before the election is a question that is still to be decided. This Awareness indicates that it is a matter of how much is exposed and how soon.

This Awareness indicates however, whether it occurs before or after the Presidency, before or after the election, this entity will be caught up in those exposes, along with others, and this can have damaging effect. This Awareness indicates that there is seen a greater awareness and honesty and demand for proper behavior coming from leadership; by proper behavior, this Awareness refers especially to dealings with other countries, dealings with the right use of law and system behind the governments, wherein the system is not misused for the sake of power or clandestine operations. It is not simply referring to individual misdeeds, with private behavioral patterns such as the Gary Hart escapade. These things are meaningful for certain levels, but the greater public behavior, in terms of public office, and responsibilities that go with

Arcadio/La Nación/San José

public office, rather than private life concerns, is that which will begin to take on greater meaning to the masses.

This Awareness indicates the private life of individuals is only important to the masses in that it may reflect a character flaw which could in some way be loosed upon the world in the public office; a character flaw which is present in private life may also present itself in public life in a public incident. If one is deceptive in private life, they may also be deceptive in public life. This Awareness indicates that this does not always follow, for one can be quite honest in private life and still be dishonest in public life, or vice versa. It is a question of which they value most and whether the honesty is part of the image they are promoting for themselves or for the public.

This Awareness indicates that in future times, the private life will be less significant than the public approach to one's responsibilities and office, but this is not yet the case. This Awareness suggests that as the next expose is played out on the television and stage of life, values will again undergo changes and misdeeds such as that of Gary Hart will seem quite minor, when the greater misdeeds are seen.

WHAT GIVES WITH LYNDON LAROUCHE'S  
TV SPEECH ABOUT COLONIZING MARS?

( MORE ON "ALTERNATIVE 003" )

(FOLLOW-UP QUESTION):

Awareness, in relation to political candidates, Lyndon Larouche, who's a perennial candidate on one party or another, bought prime time last week for half an hour, the newspaper reported it cost him about \$200,000, and he spent the entire 30 minutes telling the American People that when he becomes President, he's going to start a massive program to colonize Mars.

He believes that by launching this program, it will create lots of jobs and reactivate the dormant space program, and take a lot of the money that has been formerly going to armaments, putting them into this project and getting people up there on Mars and colonizing it and living in geodesic type homes, which he illustrated, along with his campaign talk and a little music by Mozart and so forth; would Awareness look at that and explain what exactly Mr. Larouche is up to these days with a presentation like that at this particular time?

#### COSMIC AWARENESS:

This Awareness indicates that this relates to that which has been termed *Alternative 003*. This Awareness indicates that Mars has already been touched; that there have already been landings on Mars, the earliest being in 1962. This Awareness indicates that there are already establishments on the planet Mars. This Awareness suggests also that there is an effort and a desire to create a greater atmosphere on Mars for eventual colonizing of the planet, because there are many scientists who do not see this planet Earth as surviving into the next millennium.

#### Our Planet Being Depleted of Oxygen & Ozone

This Awareness indicates the imbalances that are occurring through the continued pillage of the vegetation on this planet as well as the destruction of the oceanic vegetation as that which is depleting the oxygen on this planet; that the ozone layer as that which is quickly fading. Oxygen is being reduced and there is serious concern and likelihood that a point of no return will occur, whereby these things will continue to decline at ever-increasing speeds and that in the point of no return, it will be too late to undo the depletion of oxygen on this planet.

This Awareness indicates that there are many who already believe it is too late, have felt this for quite some time, and who believe that the only alternative yet left available is *Alternative 003*, which would allow the movers and the shakers to leave this planet and create a new world, out there, to let the batch components or the masses remain on this planet Earth, while the more superior or selected group is shuttled off to other places. This Awareness indicates the idea being to create places whereby several generations can sit out and wait while the masses die off on the earth plane, and whereby actions are taken to depopulate the Earth, and hopefully to restore life in its more natural sense on the Earth, whereby in time, the voyagers could return, and again control and experience life on Earth.

This Awareness indicates that this is seen as one alternative of several; other alternatives being to attempt to slow down the depleting oxygen, to wipe out many of the entities living on this plane whose presence contributes to the decline of oxygen through

the use of so much, through the pollution of so much. This Awareness indicates that the concept of that which is known as *Alternative 003* has been well thought out in higher echelons of the scientific community and government agencies. Work has already been done in regard to this. It is essentially the basis for much that has occurred in regard to moon programs.

This Awareness indicates that there is however, a great handicap in regard to the development of more civilization on Mars. This Awareness indicates that much of the money which has been allegedly going to defense and cold war expenses has actually gone into *Alternative 003* projects. This includes money from both the Western nations and also, that of Russia; that these higher echelons of both societies have both contributed to this project of *Alternative 003*.

This Awareness indicates the entity Lyndon Larouche as one who sees this as a means of creating jobs, of promises which he believes would satisfy voters into voting for him. This Awareness indicates that in a sense, the entity has a relatively good idea, but the entity seems not to understand that the masses are not cognizant of the importance of colonizing Mars for they are still geared into the programming of the past years, and would much prefer continuing the cold war and the defense programs which they are familiar with and are comfortable with.

This Awareness indicates that most entities could not conceive of colonizing Mars or being worthy of the expense which they would have to pay through taxes to promote such a project, and the idea to the majority of entities is ludicrous. This Awareness indicates he does not stand much chance of being taken seriously, until such ideas are so widely discussed that they become popular with the masses; at which time, the entity might then have a greater chance of being elected. This Awareness indicates this appears quite unlikely, even in the future, for the entity is quickly aging and unless changes in consciousness occur very soon, it is unlikely the entity's concepts will be acceptable in the next Presidential election of '92, or in the one following, and beyond that; the entity is getting into an age level where that could interfere seriously with his ambition.

#### (FOLLOW-UP QUESTION):

The entity had a superior intelligence-gathering network. By any chance did he learn through this network of the *Alternative 003* program?

#### COSMIC AWARENESS:

This Awareness indicates it appears this entity has had this information for some time; that the entity previously had a program for raising the standard of third world nations, that the entity is continually promoting ideas for helping the masses earn better wages for work being done. The ideas are designed in

such a manner as to appeal to masses who believe that works projects are the answer to the ills of the world. The entity also believes that these massive projects would be a good substitute for arms build-up; this of course is correct; that when these great armament programs come to an end, they will only end when there is something else for the industrial complexes to turn to, for what armament company wants to quit because peace breaks out? They will only quit promoting war and their armaments if there is something else they can do that will make an equal income for them.

This Awareness suggests therefore, this entity as one who is thinking of ways to rechannel that greed of the arms mongers into something that could be more challenging and more constructive.

### CONFUSION HAS A VALUE

( Closing Message )

This Awareness indicates that in understanding that confusion as a mass experience on this plane has a value, the value being to help entities learn to discern for themselves, learn to look into the confusion for nuggets of truth, for nuggets of reality; this discernment factor, when understood, will allow

the entity to move more quickly, will allow the entity to perceive with discernment and thereby develop these higher faculties of mind, and thereby develop that thinking quality associated with the New Being.

Without understanding the importance of this confusion that is rampant on your plane, entities might not understand the importance of looking with discernment, and may waste many hours, many years, looking for the right platitude, the right phrase, the right answer out there in the realm of the old thinking patterns. This Awareness suggests you not seek new thinking through old ways, but look clearly without prejudice into that which is reality, not bringing words into reality in order to describe what is seen, but looking at reality for what is there, and then sharing what you see, by carefully selecting the right words that portray what you have perceived.

This Awareness indicates this is the conclusion of this reading.

(The Law of Gratitude is given)

ED's Note: For more information on "Alternative 003", please refer to "Revelations of Awareness" issues No. 85-15 (The Dark Side of the Moon); and 86-13 (Those Missing Children--Where are they?) \$3.00 each from CAC. Also in those readings where Awareness mentions the "Batch components". (Check Backissues Catalogs for this information).

( WILL H<sub>2</sub>O<sub>2</sub> HEAL YOUR DOGS AND CATS? )

### HYDROGEN PEROXIDE AND THE "FREE RADICALS" PROBLEM: ENTER THE NEW SUPER S.O.D. THE ANTI-AGING MIRACLE

( " A QUANTUM LEAP IN AGE REVERSAL " )

#### QUESTION:

J.G., Seville, Ohio, would like to know if you can use hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) on animals, such as dogs and cats. She says, "My cat has leukemia, and my dog doesn't walk well, since having back surgery."

#### COSMIC AWARENESS:

This Awareness indicates that this can be used, and in fact is being used by some veterinarians; that this does have certain beneficial effects. This Awareness wishes at this time to mention that the H<sub>2</sub>O<sub>2</sub> as that which can be beneficial in dealing with many of the chronic diseases; the area of concern is in that it is a substance that releases free radicals in the system, and that for some entities who do not have good immune systems, the introduction of more free radicals in the system could have some hazards, although this is not seen as a strong concern.

It is beneficial for all entities to accompany or to follow the use of H<sub>2</sub>O<sub>2</sub> with anti-oxydants; that the use of anti-oxydants as that which will assist in relieving and removing the free radicals from the system. This Awareness indicates that the Interpreter as having at this time contacted an

entity in regard to a highly developed product that is outstanding on this plane at this time for its potency as an anti-oxydant. This Awareness suggests that the substance as that which can have a powerful effect in helping not only to supplement entities in their use of H<sub>2</sub>O<sub>2</sub>, but also to rid the body of toxins. \*

This Awareness indicates that this is that super oxide dismutase, from that which is called the Food Doctor; this being approximately 700 times more potent than the average super oxide dismutase found in health food stores or dispensed by doctors. This Awareness indicates that these two substances: the H<sub>2</sub>O<sub>2</sub>, along with this higher super-oxide dismutase can become a powerful team in reversing aging, in reversing and diminishing and totally irradiating diseases, and in strengthening the immunity system.

( FOLLOW-UP QUESTION ):

Is there any danger that this super SOD could be taken off the market by certain forces because it is so effective?

**COSMIC AWARENESS:**

This Awareness indicates this is highly unlikely in that it is not a drug or subject to FDA approval. It has already been classed by the FDA as being a food substance, for it is made strictly from a highly engineered form of, (this as a genetically engineered form) of wheat that was developed approximately 10 years ago in India; that this highly developed wheat as being made to produce extremely high potency quantities of SOD.

This Awareness indicates that essentially, each tablet as that which contains the SOD equivalent of wheat grass grown 12 inches by 12 inches, one square foot of wheat grass, one to two inches high, and each capsule or tablet of this substance is equivalent to approximately 8 bottles of normal SOD found in health food stores and supermarkets or from regular doctors; that it is such as to give the older adult the amount of antioxydants which young children have in their productivity of antioxydants.

This Awareness indicates that it creates between one and a half million units to one point seven units per tablet, which is equivalent to about 700 to 800 tablets of the SOD which entities usually get from healthfood stores or doctors. This amount is the difference between that amount which the body creates normally, in terms of antioxydants, between that of the child and the older person. The older person creating approximately 3.4 million units of SOD, while the child creates approximately 5.1 million units of SOD daily. By taking one tablet of this substance, the older person will then have the approximate same amount as the child in terms of daily creation of antioxydants.

This Awareness wishes entities to understand that free radicals are a major, or perhaps *the* major cause of aging, and that antioxydants rid the body of these free radicals; that is why this is of such significance.

**ANY PROBLEM IN TAKING SUPER S.O.D.?****( THE REAL CAUSE OF AGING )****(THE CAUSE OF CANCER: AN INTERNAL OLIVER NORTH)****(FOLLOW-UP QUESTION):**

Are there any contraindications at all when taking this super SOD?

**COSMIC AWARENESS:**

This Awareness indicates this is negative, unless the entity has some kind of allergy toward wheat, in which case the entity would need to be cautious in first trying the substance. It appears however, that even when entities have an allergy toward wheat in very few cases would this particular form be a problem. This Awareness indicates that entities need to understand that the free radicals in one's system, which are basically atoms which have no attachment to other atoms, forming molecules; these

loose atoms which may be likened unto Oliver North, the loose cannon, running around ready to do something which no one quite knows how to monitor; these free radicals in the body are likened unto those free radicals in society, radical entities who are out of control, whereby they attach themselves to a cause, or in the body they attach themselves to some molecules, and thus create an alternate molecule, which does something different. It is a kind of new creation from the addition of another atom to a molecule which often leads to cancer or to some other kind of chronic disease. It is well established that cancer is often created by free radicals in the system. This Awareness indicates however, it needs to be understood that free radicals are constantly bombarding and coming into the human body through food, through toxins, through air, through water, and through substances such as  $H_2O_2$ , hydrogen peroxide.

The extra atom in hydrogen peroxide, the extra oxygen atom is released in the body when hydrogen peroxide turns to water, and that extra oxygen atom then may attach itself and may oxydize, after attaching to some other element in the body, to some other molecule, and this oxydization as that which causes aging, and when you add to the body antioxydants in sufficient amount to counter all of the oxydation that has been going on in the body, you are in fact reversing the aging process. You are, in fact, cleansing the toxins from the body.

This Awareness indicates that free radicals in the system can cause many types of disease, ranging from cancer, leukemia; can weaken the system so that AIDS is easily accommodated. Free radicals in the system can make one more susceptible to viruses and contagious diseases. It can also create circulatory problems. It can create nerve diseases and such things as those diseases affecting the mind and the nervous system, such as Parkinson's disease, Epstein-Barr's, and can also affect the organs adversely so that the general metabolism of the entity is weakened, so that tiredness sets in, so that the skin becomes more wrinkled and leathery, so that vision is impaired. This Awareness indicates that by removing this kind of toxin from the system, the entity's tendency to restore, whereby the cells become cleansed and the energy level increases within the cell, and the immune system strengthens, and the toxins are pulled from those areas, from those vital areas, and the organs; all of this action of removing these toxins does indeed in fact rejuvenate the body.

This Awareness indicates that entities in the experiencing of fasting, such as has been advocated by this Awareness in fasting and nature cures, are indeed increasing the antioxydants in their system, increasing SOD and other enzymes. This Awareness indicates that in the past, this was the main way to help rejuvenate, although it was not as efficient as will be this new system. This Awareness

indicates SOD was first discovered in 1978, or first isolated to the point where it was made available to the public, but it has been in such small quantity that it has not had great effect, for 2000 units is quite small in comparison to 1.7 million units in a tablet, and yet, even with the 2000 units, entities were experiencing considerable benefits and doctors began raving about the benefits of SOD.

#### A Quantum Leap in Age Reversal

This Awareness indicates that now, it is a totally new situation in which entities can have what may be considered a quantum leap in health benefits, and age regression, or reversal. It is not the years one lives that counts, it is the biophysical and metabolism of the body that is important, for an entity can reverse the aging process to appear much younger than the chronological age, to extend life and energy for long periods of time so that entities in their later years can still have the vitality and energy to fulfill their life dreams.

\*\*\*

#### HOW YOU CAN OBTAIN THIS SUPER S.O.D.

##### \* ED's Note:

As readers well know, Cosmic Awareness has been touting SOD for many years, this substance to be used for building up the immune system and to help retard the aging process. The price, however, on SOD at the friendly health food store was often prohibitive for many people, particularly those who needed it the most, the elderly. Everyone got real excited around here when we heard Awareness give this rap on this new super SOD made out of wheat grass, not only because such mega doses appear to be one of the major keys in stopping the aging process, but we know from other sources, including Awareness, that wheat grass has been reversing cancer in many people for years, (namely the research of Dr. Ann Wigmore).

The Aquarian Church got so excited about this new super SOD that they made arrangements with the manufacturer, Food Doctor, to become a distributor and make this substance available through the U.S.S. Goodship. In the process they also get to handle the other products of the Food Doctor. In the April, 1988 issue of *The Cosmic Voyage*, the official newsletter of the Aquarian Church, additional information from Awareness was given on super SOD, as well as hydrogen peroxide. It appears that these two substances, if taken daily by entities, actually will slow down the aging process dramatically, while building up the immune system to the point that even the flu or common cold won't be able to find its way into one's system.

Many years ago, Awareness, through the Interpreter Ralph Duby, began presenting information in what it then called "The Aging Project". Much information was given, but certain 'keys' were withheld by Awareness, because it did not want to give false hopes to entities until certain research could bring forth certain products at a later date,--these products not available at that time.

It now appears that super SOD is one of those products. Later, through the Interpreter David Worcester, Awareness changed the name of the Aging Project to "The Rejuvenation Project", because technology was making leaps in solving the problems involved in the aging process. Today, Awareness indicates that a "quantum leap" has just occurred in age reversal by the development of this new substance. We suggest you contact the Goodship and ask them to send you their 6 page brochure on this new Super SOD and other products they are now making available. If you want to place an order, you can get 1 to 2 bottles (190 tablets each, 1.5 million units each, for \$35. You can get 3 to 5 bottles for \$30 each, 6 to 11 for \$25 each, and 12-23 bottles for \$23.35 (these are all wholesale prices). Shipping costs in U.S. are free, but for those outside the U.S. (Canada included) add 5% to cover. (Make check out to U.S.S. Goodship).

The address: U.S.S. Goodship  
P.O. Box 1116  
McMinnville, Oregon 97128

While you're at it, include an extra \$4.00 and request the April, 1988 issue of the *Cosmic Voyage* newsletter, which has additional information on these products as well, incidentally, some new information from Awareness on the Hollow Earth and how it was formed.

#### NEW INFO ON HYDROGEN PEROXIDE AVAILABLE

There is a bewildering amount of information available on Hydrogen Peroxide and how it is reversing cancer and AIDS, arthritis, candida albican etc. But CAC has found a readable little booklet called *Hydrogen Peroxide Therapy -New Hope for Incurable Diseases*, Revised 3rd edition by Conrad LeBeau, that sums it all up, tells you how to use the stuff yourself, on your pets, and ways to take it without having to drink it. The price: \$3.00 plus \$1.00 postage and handling. If you want a copy, just write to CAC or to Vicki T. and she will see that you get one.

REVELATIONS OF AWARENESS is a cosmic newsletter, published every three weeks for members of Cosmic Awareness Communications and the Universal Church of Awareness. However, you do not need to be member to subscribe. Members are encouraged to study the Awareness philosophy as well as other philosophic and secular material in their search for truth and Who in Fact they Really Are, and to integrate those "Gems and Nuggets" they discover into their daily lifestyle and basic premise of life, and to act as role models to others. C.A.C. is a not-for-profit, tax exempt organization. Dues and donations are exempt from Federal Income Tax. All revenues are used to spread the Cosmic Awareness philosophy to others. Donations are encouraged! We desperately need them at this time! INDIVIDUAL & FAMILY MEMBERSHIP: \$30 per year. CONTRIBUTING MEMBER: \$52; SPONSORING MEMBERSHIP: \$144; PATRON MEMBER: \$1000; ENDOWING MEMBER: \$5000.
