COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

## WHAT TO EXPECT FROM THE NEW INFLUX OF ANTIMATTER — (SPIRITUAL ENERGY) NOW FLOWING INTO THIS PLANE ( AN UPDATE ON THE D & S-CELL )

( Excerpt from a C.A.C. General Reading )  
Feb. 3, 1988

### QUESTION:

Joe Dun Sloan sent us a note recently, saying that the D-Cell has evolved into the S-Cell, that no matter how hard he tries, he can no longer get the D-Cell culture to work,—they all become S-Cells. He says these are much better than D-Cells, and only the markings on the cells are different. He also indicated he's working with a new technique with the cultures and that his ex-wife is also making D-Cells and he wanted us to evaluate them and if there was any problem, to let him know. This is almost an impossible thing for us to do because these cells go out to various entities, and if they don't work completely as they should, they usually won't let us know. Would Awareness take a look at Joe Sloan's newest efforts and make an evaluation?

### COSMIC AWARENESS:

This Awareness indicates that these cells are active and pure and have progressed in terms of a kind of evolution; that these have adjusted to the new levels of consciousness that are beginning to become commonplace on this plane. This Awareness indicates that in the 60's there was great polarities in consciousness. There were a few rituals which occurred that began to bring about a reconciliation of these extremes in polarity; that at this time there has been a greater reconciliation of polarities and that essentially there is more antimatter on this plane at this time. By Antimatter, this Awareness is referring to that which is the spiritual energy.

This Awareness indicates that the antimatter influx on this plane as also having the potential of creating some extremes in polarity, in isolated areas for those entities who cannot reconcile the polarized attitudes, and when this occurs, it can lead to violent reaction in consciousness, resulting in violent physical experiences. This Awareness indicates that this is a necessity of the birth of the New Being. This may be referred to as birth pains. The New Being as one whose consciousness will eventually be able to reconcile the polarities to a point of tolerance toward the extreme views of others, toward the variations of ideas and opinions, without becoming emotionally agitated from such extremes. When this occurs, entities will tolerate the beliefs and ideas of others who have totally different viewpoints without becoming emotionally threatened or agitated over such differences of opinion.

This Awareness indicates they will in fact enjoy listening to the differences of opinion and will enjoy the energy that comes from discussing these differences of opinion. That this will not be seen as argument, but as healthy debate and discussion. This Awareness indicates the New Being as that which is tolerant of differences, and the present development and evolution of the S-Cell is that which is harmonious

to the New Being. It essentially helps to raise the consciousness of entities to accept *what is*, to accept the tolerance of reconciled polarities.

#### New S-Cell Raises the Temperature of Consciousness

This Awareness indicates that what will not be tolerated by the New Being is violence of an emotional or physical nature over concepts and ideas; that the New Being will reject and refuse to accept such violence of emotional and physical nature over the difference of opinion. This Awareness indicates that the use of the S-Cell as is being developed is that which will have a slight effect on dropping the temperature of the body, while raising the temperature of consciousness slightly, by reconciling polarities in consciousness, allowing entities to perceive things from a higher consciousness or higher perception without being affected by emotional attachments.

This Awareness indicates that emotion is based on desire or fear. As entities rise above emotion, they reach a state of compassion, in which love supercedes desire and fear, and that love also is attuned to higher levels of perception, so that the concepts can be more clearly understood from the vantage of a consciousness filled with love.

#### HOW THE D & S-CELLS ARE MADE

(FOLLOW-UP QUESTION):

Joe Dun Sloan, who has just turned 80, indicated his ex-wife is taking over production of the D-Cells, or at least some of them. Are the cells she is producing as D-Cells also evolving into these new S-Cells?

#### COSMIC AWARENESS:

This Awareness indicates that this is evolving also into the S-Cell. This Awareness indicates that in the past, the D-Cell went through its changes much more slowly than at present time. It is very difficult to keep the stabilizing effect of the D-Cell, for those elements, the photon elements which are seen as the D-Cell begin to alter very quickly from one stage of development to another, and quickly transform into S-Cell formation. This Awareness indicates that the D-Cell changes into the S-Cell when large numbers of D-Cells cease in their movement as individual cells and become as one, merging together as one unit or one body which then takes on a collective mind of all of the cells and begins moving about as a single entity, composed of all the cocreative D-Cells that make up its body.

This Awareness indicates that these cells, these D-Cells and S-Cells can be seen under a microscope of polarized light, when in their original formula or matrix, and when they are ready, they are then implanted as liquid forms into the cement block which is sold as a D-Cell catalyst which then, when implanted in water, releases the D-Cells or S-Cells, out into the water.

#### WILL D & S-CELLS REMOVE OBSESSING SPIRITS AND FORCES?

(FOLLOW-UP QUESTION):

Awareness, several years ago Joe Sloan sent us a memo that D-Cell water has been used to remove demented or obsessing spirits from certain entities, and since then we've received at least one letter, possibly more, from entities who have said that they have tossed D-Cell water into the face of a person who seemed to be possessed, and an immediate transformation occurred. Does Awareness see this D-Cell water as being a form or method for this type of thing in the future on a larger scale?

#### COSMIC AWARENESS:

This Awareness indicates that this water as that which could be used in instances or in a kind of ritual symbolism, much as holy water is used in the Catholic church: to bless entities, to protect entities through sprinkling of the water on the entity, or around the entity, or in different areas of one's environment for protection, and to draw in those energies of beneficial nature.

This Awareness indicates that these D-Cells and S-Cells essentially can be compared to living thought forms or energies of a pure nature; that essentially these are Akashic in nature, or that which is of pure spirit; that it is for this reason that the D-Cell or S-Cell is not destroyed by heat, for it is of a vibration much higher than heat. It also is capable of carrying thought-forms emanated by one who uses them, so long as the thought-form is pure.

Thus, when an entity sprinkles S or D-Cell water in a particular area for a particular purpose, the water acts to carry out that intention, so long as it is of a pure and ethical nature. For this reason it does help to dispel negative forces; that entities who have difficulty in keeping their aura pure and clean can benefit from drinking a few drops of D-Cell daily, or several glasses daily.

#### USING S-CELLS AND CRYSTALS TOGETHER

(FOLLOW-UP QUESTION):

Would it make a difference or amplify the effect of the D-Cell if a crystal was added to the water in which the D-Cell was placed?

#### COSMIC AWARENESS:

This Awareness indicates that this could be of benefit in terms of combining crystal power with D-Cell water power, depending on how the crystal was charged, or if it were not charged at all, then it would receive the charge of the S or D-Cell water, and would amplify to some extent, the power of

the water. The amplification depending largely on the size of the crystal.

### MORE VIOLENCE, MORE COMPASSION AND A NEW TOLERANCE IS ON THE WAY

(FOLLOW-UP QUESTION):(Vilki)

In relation to more antimatter being on earth now, if there's less polarity, is the apparent resurgence of racism part of this pocket of resistance Awareness just referred to?

COSMIC AWARENESS:

This in the affirmative. This Awareness indicates that the nature of antimatter is likened unto pouring a greater energy into something that needs to be released; it is likened unto an action in which a group of people are placed in a room. This group of people are somewhat intense and are at near explosive levels emotionally, because of the tension of having been locked into the room together. It is such that if an entity were to say the wrong word, the entire place could go up into a critical mass explosion of emotion.

This Awareness indicates that at the same time, the emotion could be released, so that entities then, having had their emotional explosion and release of energy could begin to reconcile, and those who reconcile create a situation in which they no longer want to fight, they simply want to work together to make things more harmonious in the room. That as this effort to harmonize in the room increases, there are those polarized factions which are still unreleased and still have their positions on which they are holding out their polarized attitudes and emotions which still cling to the old ways, and they refuse to budge, and the more entities put forth the effort to reconcile the differences, the more hostile they may become, and the more extreme and agitated is the potential for their outburst and release of the frustration they hold and the threat that they may be forced to let go of their position.

This Awareness indicates that an entity who is extremely angry does not want someone preaching love to him, and until that anger can be released in some way, or pacified in some way, the entity will resist and may in fact become more adamant in his or her extreme of expression. Essentially, this is what is occurring. There are many entities on this plane who are extremely hostile inside, who are filled with fear, and the hostility and fear and paranoia are their defenses against what they perceive to be a hostile world, and when they can't get others to join with them in their paranoia, in their hostility, they perceive those others to be their enemies, even though they are promoting peace and love, and they see those entities promoting peace and love as a part of a conspiracy against them, for their fear and paranoia is so great and they want others to join with them to fight against those things which they see as their enemies.

This Awareness indicates obviously, these entities, being highly paranoid and fearful and hostile are dangerous, and that the greater the reconciliation that occurs around them, the more threatened they feel, and the more threatened they feel, the more polarized their thinking and the emotions regarding what they perceive as their defenses, and therefore, they become highly dangerous and lead to conditions or pockets of resistance to the influx of higher perception and understanding and love.

This Awareness indicates it is seen often when a parent is trying to express love to a child after the child has been made fearful or has been denied something, and the child feels rejected, and the parent attempts to make up to the child, and the child becomes hostile to the parent: "You don't love me! You didn't give me what I wanted!". This Awareness indicates that the child does not realize that the parent refused to give the child what he wanted because the parent knew it wasn't good for the child. The child only wants what the child wants, or fears what the child fears, and the parent, loving the child, is concerned about the total welfare, but when the parent expresses that love, the child becomes violent and angry and hostile and may become dangerous in terms of expressing that violence.

It is the same thing that is happening on your plane at this time. Those who still wallow in fear, hostility and paranoia will cling to their old ways until they are either assured (whatever that may take), that they are safe, or until they see themselves that everything will be alright, and this may take some time. This Awareness indicates the alternative is that these entities may strike out, and wipe out others, or themselves before the pockets containing the paranoia, hostility and fear, are pacified.

This Awareness indicates that this can also be seen in that recent experience in Utah, where the entity locked himself and his family into their home, fearful of the outside world, expecting the outside world to come in and create violence against them, and when this did not occur, the entity went out and bombed the church to get a reaction from the outside world in order to sustain his belief and paranoia that the outside world was against him, in order to bring the outside world into a reaction, to prove what he feared.

ED's Note: Since the D-Cell is no longer available, having evolved into the higher vibrations of the S-Cell, CAC is now calling the new S-Cell, a DS-Cell, a name Joe Dun Sloan has approved. (See Price sheet catalog for current prices).

FOLLOW-UP QUESTION:

That entity, according to the paper, also believed that his action would also bring his father back to life, a man who had been killed previously in a similar confrontation, I believe.

**COSMIC AWARENESS:**

This Awareness indicates this is in the affirmative; that there are many entities who have unusual beliefs which are unique to themselves and are not accepted by society, and this helps them to become hostile to the outside world, because, when society does not accept their beliefs, society essentially is seen as rejecting them.

**(FOLLOW-UP QUESTION):**

This Antimatter mentioned, I assume this would also explain the continuing upsurge in violence that we read and hear about every day; these people seemingly going crazy, and wiping out their family and their sweethearts and their children, innocent bystanders and every weird thing like that.

**COSMIC AWARENESS:**

This Awareness indicates this is in the affirmative. This Awareness suggests however, that there are also other stories being aired on your media networks showing compassion, showing love, showing things that are of a positive nature, and this too is very unusual in terms of news networks, for in the past these things were not news, these things of a positive nature were not considered as news; only those things of a negative and tragic nature were aired as news. This Awareness indicates the fact that there are positive stories being aired as news indicates that there is a public acceptance and an opening and perhaps a demand for uplifting information.

This Awareness indicates that as this becomes more and more acceptable, and as the airing of negative news becomes less important, entities may begin seeking attention from others for positive actions. Examples of positive behavior, making the news, can inspire others to do positive things. In the past, the only people who got attention were those who did something negative, and these entities often needing attention would perceive that negative reaction was better than no attention at all from the public.

This Awareness indicates that as more and more positive expression is aired on the news, more and more people will be inspired to emulate those news-worthy entities.

**ANY OTHER EFFECTS OF ANTIMATTER?**

**(ISRAEL'S BRUTALITY CREATING STRANGE EFFECT)**

**(FOLLOW-UP QUESTION):**(Vikki)

So, in reaction to the influx of antimatter, we now have more positive newstories, apparently more outright racism, we have people behaving in irrational escapades; are there any other expression of this we can see?

**COSMIC AWARENESS:**

This Awareness indicates there are also those polarized points of view held by cultures through

their philosophy, through their accepted program in regard to themselves, also in terms of the races, and also of nationalities. Particularly however, are those philosophies and cultures which have polarized programming related to themselves in relation to other cultures. This Awareness indicates you see things such as that which is occurring presently in Israel, in which the Israelis are treating the Palestinians in much the same kind of disrespect as they have long lamented in regard to the way others have treated them.

This Awareness indicates there is, for the first time, compassion being expressed toward the Palestinians who are being seen as the underdogs in relation to a massive military regime. This Awareness indicates that the fact that there is a great outcry in regard to this kind of brutality toward the Palestinians from the Israelis, even by the Jewish people in the United States, is a very unique situation. This Awareness indicates that were these Palestinians black, and were these troops of Israel, South African soldiers or police, the outcry would be far greater than it is now, but it is still amazing that the resistance expressed by many of the entities in the United States to the brutality of the Israelis toward the Palestinians is actually being expressed in the media, for this would have been unheard of ten years ago.

This Awareness indicates that it is an indication that compassion is for all entities who are oppressed, and that consciousness is beginning to rise above loyalties and identifications and prejudices. It is obvious that many in the United States are prejudice in favor of the Israelis and this has long been the standing policy, but there is something happening of a very unusual nature when this prejudice begins to fade in favor of concern for the underdog, as human rights issue of the people on the West Bank being oppressed by people who once themselves were highly oppressed.

This Awareness indicates it is causing a very strange shift in human consciousness, revealing things about humanity, about individuality, about the power of force to make policy, or about the power of armaments for protecting against something which had previously threatened people when they themselves were underlings, and put under the threat of the gun, now being liberated and given the gun; how they then react to others who have but stones and are without weapons. This Awareness indicates this is revealing certain information about the human condition. It is not, as many might say, revealing the Israelis, for any other nation in the same position, having had the same experiences, would in all likelihood react in the same manner.

It shows the nature of humanity; that entities who are down, when given the opportunity to take the other side and play the victimizer instead of the victim, can actually perform in such a manner. This Awareness indicates that this is a reaction to that victimization of the history and culture of the Jewish people, and when this has been played

out, the energies then will come into balance, and greater compassion and greater understanding for all people will prevail. This Awareness indicates it is likened unto a play on the stage, that things which are occurring on this plane at this time are being visualized, being broadcast, being sent by camera into all the living rooms in the United States and in many of the countries around the world. Everything that happens is part of the human drama being played on the stage of life, and nothing escapes for long; the camera and this ongoing play serves as a parabolic mirror reflecting back to the individual energies of the human condition, reflecting who you are, what you are, what you have done, what you must do to overcome what you are, to be beyond the pettiness, the methods which are used to protect yourself at the expense of others.

This Awareness indicates that entities are quickly discovering that violence is not the solution; that negotiation offers the only real solution, that communication brings about negotiation, and as entities become more and more familiar with the processes of making peace, of reaching agreements, this will become the more emphasized method of solving problems. Every entity who saw the signing of the peace accords, who witnessed the signing of the disarmament of nuclear weapons in the treaty between Russia and the United States, everyone who has seen any form of agreement being reached between corporations, between countries, between individuals, has in fact been educated in the process of negotiation, and when entities begin to realize this is a way of solving differences, because they have seen it happen on television, right in their living room, they will no longer be so dependent on the gun, on the bomb, on the military, to preserve their freedoms and their values; but if entities do not understand, and have not witnessed the results of negotiation, if they only have seen the results of victory through military action, then what can they draw on when conflicts occur?

They immediately believe that they must have a gun, they must have some kind of weapon for that is what you use to solve your conflicts. It's always been that way, it always will be that way

because that's the way everyone does it. This Awareness indicates that this is the mentality of many individuals who pay more attention to the drama which shows the gun as the solution. This Awareness indicates that as more and more dramas are presented showing negotiation and communication leading to the solution, more and more entities will draw on that procedure to resolve their differences.

## THE NATURE OF ANTIMATTER AND HOW IT WILL EFFECT YOU IN THE FUTURE

(Closing Message):

This Awareness indicates that the nature of antimatter as that which has opposite polarities in the atomic level regarding the electron, proton and neutron, from that which is called matter. That the antimatter itself has long been believed to constitute a force which would destroy matter if coming into contact with matter. This Awareness indicates however, this is not exactly so. It does tend to diminish the polarity of matter as it moves closer into contact with matter, but it can be all around matter, in close proximity with the material atoms; in fact, it assists in keeping material atoms from colliding with each other. It is, what may be termed, the invisible world.

It is that which may be expressed in the term 'spirit'. This Awareness indicates it is also strong in the world of dreams. It assists in putting together the images that you see in dreams, just as the atom puts together the images you see in your daily experiences. This Awareness indicates that this antimatter also is experienced in the power of imagination; that its greatest expression is in that force of life. It is essentially, the breath of life, of consciousness, and expresses itself in the energy of love. This Awareness indicates that it creates an entire universe that resides in the same time and space as the material universe, and entities are composed of both matter and antimatter mixed together.

There are of course, those areas in the universe in which pockets of pure antimatter exist without any matter being in close proximity. That essentially, if one wants to give antimatter a specific label that closely approximates its nature, one can call antimatter 'Spirit'. This Awareness indicates it is the life force, composing the universe that is unseen to your senses, but which is experienced in the life force energies and in consciousness.

This Awareness indicates that as this increases on this plane, it will gradually help to overcome the powers and forces which are countering the life force in individuals through pollution, through radiation, through impurities in water and food; those toxins which are spreading throughout the environment, throughout the bodies of individuals.

"YOU WERE EXPECTING MANE LITTLE SHEPHERD BOYS WITH SLINGSHOTS?"

This Awareness indicates that as this antimatter increases, the physical bodies can, through absorption of antimatter, begin to emanate a higher frequency. Auras, the electrical body around the physical body, will begin to grow and expand, and as these auras begin growing and expanding further, and as consciousness rises more, entities will look at each other and see their auras more clearly, and will recognize the glowing on an individual, and the physical bodies eventually, will be hidden by the glow of the entity, whereby entities begin to see each other as lights in various colorations, because the aura will become so strong and so brilliant that the physical body cannot be perceived beyond the light.

This is essentially the manner in which the antimatter will have its effect upon the physical beings on this earth. Eventually all beings will reside in a body of light. This Awareness indicates that even as you cannot see the bones of an individual, but you see the flesh, eventually you will see only the aura of an individual, and the flesh will be hidden as the bones are now hidden. This Awareness indicates that this may take several thousand years before entities perceive the change in this manner, but gradually, even now, this Light Body begins to emerge, and entities develop greater ability to see the aura and the antimatter begins to permeate more and more the physical matter, liberating the life force that is and has been locked inside.

This Awareness indicates as entities move into that Light Body, the life extension will occur, and death eventually will be no more.

## WHY ACIDOPHILUS CULTURE SHOULD BE TAKEN AFTER HYDROGEN PEROXIDE

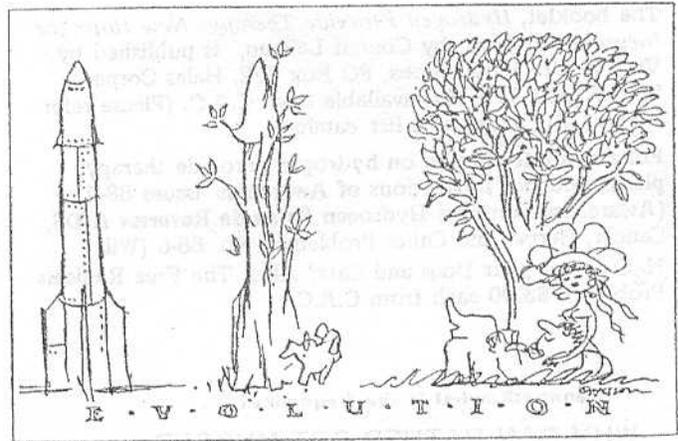

( HOW LONG SHOULD ONE TAKE PEROXIDE?)

### QUESTION:

We have a couple of questions on hydrogen peroxide therapy. I have some literature that claims there is some contraindications for people who take this orally, and this is mainly in that this one person claims that it kills off the intestinal flora, and that acidophilus therefore, should be taken after you take the hydrogen peroxide.

### COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that most literature on this recommends the use of acidophilus after using the hydrogen peroxide. This Awareness indicates however that it should be understood also that the use of hydrogen peroxide should not be used over great prolonged periods of time except in cases such as wherein the entity has a chronic disease; that generally, entities should not use this for more than approximately one month

without a break in which the acidophilus culture is used; however, in desperate cases, such as cancer cases or AIDS cases, the entity might use this substance longer before taking the acidophilus culture.

This Awareness indicates the acidophilus culture as that which can assist in restoring the natural flora in one's system; that this is also important after using penicillin or other similar substances that kill bacteria and viruses.

## HYDROGEN PEROXIDE GEL -- HOW EFFECTIVE IS IT?

(MORE ON ARTHRITIS RELIEF)

### (FOLLOW-UP QUESTION):

In a booklet called *Hydrogen Peroxide Therapy: New Hope for Incurable Diseases*, by Conrad LeBeau, it states another effective way to take hydrogen peroxide is externally, using a special formulated gel consisting of aloe vera, glycerin, and 35% foodgrade hydrogen peroxide. The gel prevents the solution from evaporating, which might happen when hydrogen peroxide is sprayed on the body. The author says the glycerin combines with  $H_2O_2$  to transport healing oxygen to remote areas of the body. "I know one man who is 80 years old, who had both his hands swollen from arthritis and who applied this gel to it regularly for one month. He told me the swelling went down and the pain was gone after applying it for only 30 days," and he goes on with other testimonials. He also says that using it this way eliminates the nausea that some people experience from taking the hydrogen peroxide drops in liquid form, diluted with water per the instructions; the problem is also eliminated with acidophilus.

Does Awareness see this placing of the  $H_2O_2$  gel on the skin as an effective way of using this?

### COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that this can be also placed on moles and other skin impediments; that this as an external application and can be quite beneficial.

"Kenneth..what is the frequency?"...

WHY DAN RATHER GOT MUGGED

QUESTION:

A few month back, the papers were full of a story that occurred to Dan Rather, who's the anchorman for the CBS evening news. It seems that Rather was walking in the streets of New York City one night and was accosted by a couple of very strange looking thugs, with pock-marked faces, I believe, and then attacked. And then these entities demanded to know: "Kenneth, what is the frequency?"--that's what they asked Dan Rather: "Kenneth, what is the frequency?" Nobody seemed to know what that meant, and poor old Dan got beaten up because he couldn't answer the question. Could Awareness perhaps give us an insight into that incident?

COSMIC AWARENESS:

This Awareness indicates that these entities were involved in an espionage type of activity, whereby they were seeking to....This Awareness indicates that this appears to be related to the development of some device; these entities were searching for information relating to the device, and mistook Dan Rather for another person. This Awareness indicates that it does not appear to be an espionage activity relating to the government concern, but relating to some research and development activity between corporations in which an entity who had been working with one organization switched loyalties and went elsewhere, leaving the first organization without information necessary to complete the project. This Awareness indicates it appears these entities saw this entity Dan Rather as being that person who switched and went elsewhere with his knowledge.

This Awareness indicates there appears to be some connection with these entities working in relation to or with some of the organized crime elements; that it was involved with organized crime in the development of some particular device.

(FOLLOW-UP QUESTION):

The question: "What is the frequency?" was a question they expected Dan Rather to understand, is that correct?

COSMIC AWARENESS:

This in the affirmative. These entities apparently thought this was someone else who knew the frequency but who was refusing to cooperate with them and they threatened him in order to get the information. This Awareness indicates that once they realized it was the wrong individual, they fled the scene and left the entity alone.

ANY RELIEF COMING FROM INCOME TAXES?

QUESTION:

A question from R.M., who is living in Honolulu at the present time. She writes: "Someone involved with tax shelters told me that in 1984, 35 million people did not file income taxes that year. Is that so, and will that ultimately have a part in bringing the money powers to the people?"

COSMIC AWARENESS:

This Awareness indicates that this does appear to be relatively accurate; that the tax laws have been altered so that tax shelters do not provide much benefit. These are areas that have been most hard hit in regard to the new tax laws. However, there are other areas that have been left open, whereby some can still avoid being taxed. This Awareness indicates it does not appear that this action is going to bring down any of the tax powers. It has been an action that has now been closed to many, so that more taxes are likely to be collected.

This Awareness indicates that there does not appear to be any great relief in taxes for some time to come; that the means of relieving taxes appears to come about at a later time, when those forces of greed that are willing to destroy others in order to make weapons and sell weapons and trade weapons for the money involved and for the power that comes with making war on people; when this power of approximately 55% of all taxes being used for military purposes, when this is reduced, then there can be a major reduction in the taxes that are imposed on the masses.

## WHY CAN'T EVERYONE PASS OVER PAINLESSLY AND PEACEFULLY ?

(WHY SOME ARE MORE ACCIDENT-PRONE)

### QUESTION:

A question from Sam R. I think he's in New York somewhere. He would like to ask Awareness: "Why do some people at the time of death, as known in the earthly form, have such a great difficulty? For example, why does anyone have to get hurt in an accident to die? People are in hospitals for weeks, -kidney problems, cancer, excessive bleeding and so forth. Why can't they just pass away happily without any problem?"

### COSMIC AWARENESS:

This Awareness indicates that there is a tendency for entities who are highly critical of others, who are highly judgmental of others, to be accident prone. This tendency of being highly judgmental of others creates a similar reflection on the individual of being highly critical of self, which in turn leads to feelings of guilt and a need for punishment. If others do not punish the entity, the entity may select subconsciously to punish self, and in such punishments, this may lead to accidents that hurt the entity.

This Awareness indicates that most things that happen to entities happen because the entity has some kind of mental aberration relating to opinion of self or others. This may also be an emotional aberration, such as the carrying of resentment, anger, hostility or hatred for someone, and these emotional aberrations often reflect not so much in terms of external accidents, but may reflect more in terms of internal health problems that develop. In some cases however, even the emotional hostilities, if strong enough, can trigger accidents, these especially in terms of accidents brought on by emotional outbursts which may lead to violence or self injury.

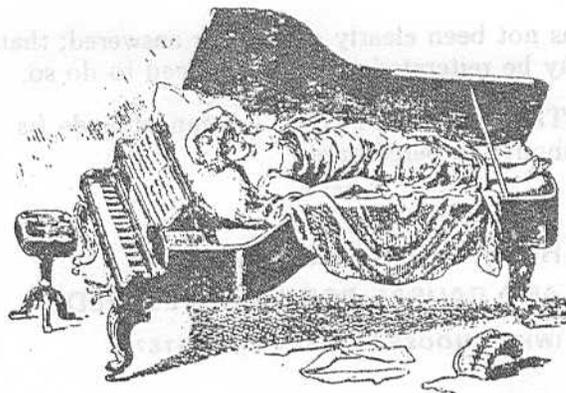

#### No Cosmic Law Says Entities Must be Punished

This Awareness indicates it is not as many might think, some kind of cosmic law or universal decree that entities should be punished through accident and suffer in comas. It is more that these entities subconsciously bring these accidents to themselves because of certain aberrations in their own psyche, such as guilt, hostility, resentment or anxiety of some type.

### WHAT PERCENTAGE OF PEOPLE DO PASS OVER PEACEFULLY ?

#### (FOLLOW-UP QUESTION):

I imagine it would be the wish of most entities, when it reaches that time to pass over, that they do it in such a manner that is quiet and not messy, and so forth, probably simply going to bed and pulling

the covers up over them, and passing over during their sleep. Could Awareness give us a rough idea of what percentage of entities actually pass over in a manner that's as easy as that?

### COSMIC AWARENESS:

This Awareness indicates that everything is matters of degree. There can be considerable number of entities whose actual passing over may be quite simple and easy, such as when one is asleep, but this does not indicate how much they may have suffered prior to going to sleep that night. There also may be entities whose lives have been relatively easy, yet they fall or are somehow injured and experience considerable pain just prior to passing over. Is that life any worse or is it better than the one who suffers long years of pain and frustration but who passes over in sleep?

#### Most Entities Choose their Own Fate

This Awareness indicates that entities generally choose their fate by the aberrations they develop in their psyche or by their chosen karma which is basically their pattern of reaction to events, the chosen karma which they bring into life. One entity may bring into life a particular pattern of behavior which brings many benefits. Another entity may bring a pattern of behavior which causes much trouble and results in much trouble being returned to the entity. This essentially is karma carried over from previous experiences. Also, an entity may create karma along the way during a lifetime, so that there are heavy repercussions and hazards or injuries or negative forces working against the entity.

This Awareness indicates that the entity's reactions to things may lead to considerable suffering, even though the entity's final days may be quite peaceful. Another may find great peace throughout life and still have a very disturbing final battle with death so that the entity's death is viewed as a tragic way to go. This Awareness indicates it is very difficult to speak in terms of percentages; that entities have much to do with their own destiny by the patterns they create in life and by their attitude toward the experiences they are involved in.

This Awareness indicates an entity can have great resistance to a situation to where their attitude makes the situation much more painful and much more difficult to endure than is necessary. This Awareness indicates that there appears to be more in the question

that has not been clearly defined or answered; that this may be reiterated if there is a need to do so.

(QUESTIONER): No. I think Awareness made *Its* point about the percentages.

## HOW ARE THE MENTAL AND CAUSAL BODIES DEVELOPED? (WHY CHOOSE HOMELY PARENTS?)

QUESTION:

A question from J.W., of Los Angeles. "In CAC publication 84-19, Awareness states that if an entity concerns himself with causal and mental body development, that the astral would be taken care of. How does one develop the mental and causal bodies?"

COSMIC AWARENESS:

This Awareness indicates that this has to do with keeping a pure mind, pure in the sense of clarity, devoid of self-deception, and clarity in regard to seeking truth in all one's thinking, rather than trying to alter truth to fit some goal. In other words, if an entity is more concerned with truth in one's thinking than about trying to get something by altering or avoiding or ignoring truth, the mental body will be strong. The causal body develops largely out of intent and purpose and attitude. If an entity's attitude toward life, toward others, is clear and pure and wholesome with respect to self and others, their physical form is likely to reflect that clarity.

This Awareness indicates there will always be some genetic influence from the parental stock of the individual, yet even within that range, the entity's form can be an improvement if the causal body and mental body is kept pure and clear. This Awareness indicates that entities prior to entering into this plane often will choose healthy and handsome parents if that is important to them. Other entities are not so concerned about appearance and may prefer to simply have certain lessons in life or opportunities in life and may select their parents accordingly.

Why Some Choose Poverty or to be Handicapped

In many cases an entity will choose an unhappy, disturbing and unpleasant childhood in order to get certain hardship and discipline or frustration that will later serve to catapult the entity into an ambitious effort to overcome the feelings of inferiority or limitation. It is quite possible that the entity will need that kind of harsh background in order to become ambitious enough to succeed in some project or purpose that the entity has chosen, and without a harsh background, the entity might know himself or herself well enough to realize that the entity would be lazy or lack initiative to do what he or she wishes to do in that lifetime, thus, some entities elect to be born in poverty or in disadvantaged social conditions or in a disadvantaged body such as one who is handicapped or one who is of a particular race in a society that does not allow for such a race to succeed easily.

This Awareness indicates that everyone envies the beautiful person who is born in wealth, but these entities often are not in a position to grow and develop their higher qualities, for they may find themselves indulging more than producing. This is not always the case. In some instances, the entity has suffered great hardships in the past and has evolved and learned and is now being given an opportunity to have blessings to begin life, and the entity may use those blessings to further evolve and to further conduct activities that benefit others.

This Awareness indicates that every entity has his or her own particular reasons for their chosen path in each chosen life experience.

## DOES LOVE AND PASSION FOR ANOTHER CARRY OVER INTO THE SPIRIT WORLD?

HOW OFTEN DOES ONE  
SWITCH GENDERS?

QUESTION:

A question from M.H., Greenville, North Carolina. "Assuming that human entities don't continue their male or female characteristics upon entering the spiritual plane, do two people who were deeply in love with each other in the physical world carry on their passionate feelings and/or strong affection for each other into the spiritual?"

COSMIC AWARENESS:

This Awareness indicates that most entities in fact do continue their particular gender on the spiritual plane, and that they tend to continue their gender for numerous lifetimes, only gradually altering their gender after numerous lifetimes; that there can become a time after perhaps five, ten or more lifetimes, in which the entity has experienced that sojourn in one gender long enough to have a desire to cross over, and in so doing the entity may begin a switch into another gender in a different lifetime.

This Awareness indicates that often, in switching genders, an entity will be of one sex but have strong characteristics leaning toward the other sex, such as an effeminate man or a masculine woman. This Awareness indicates that in reference to the passing over of entities of opposite sex; yes, indeed, they can remain friends, can remain close, and they may reincarnate and come together again. They may also go separate ways and never see each other again if they do not have great need for working out karmic attachments.

This Awareness indicates that it can also happen that entities of the same sex in passing over remain friends. Attachment is attachment, regardless of sex, regardless of other attributes of individuals: Age, nationality, characteristics,—these are but attributes. Friendship can endure, regardless of attributes.

CAN ANYTHING BE DONE  
ABOUT DIOXIN POISONING?

....All About Magozone

QUESTION:

We've got a question from Mrs. F.R. in Missouri, who writes: "Recently I returned from McDough Medical Center, in Kansas City, Missouri, where I had chelation therapy, recommended by Awareness. It was so helpful and I am very grateful to Awareness.

"While there, I met a number of Vietnam veterans who are dioxin contaminated. About 22 men are being given chelation therapy to detoxify their systems by Dr. McDough. Before this, they suffered unbelievable pain. Many had not been able to work for years, and after about 20 treatments are able to work again. Some of the men had over a hundred of these extra intravenous injections and are not cured, and aren't assured they will be. Dr. McDough feels they will. He receives no financial help.

"Would you please ask Awareness if these men can look forward to a permanent cure? Also, is there any other effective treatment to rid a person of Dioxin contamination? And now, here in the Saint Louis area there is great concern as dioxin has been found in several places. I promised a few of the men I would write. Thank you so much. Sincerely, F.R."

COSMIC AWARENESS:

More on Chelation Therapy

This Awareness indicates that the chelation therapy as that which is highly beneficial in removing toxins from the system; that entities who have had over forty treatments should take some time out from these treatments for a short period to allow the body to restabilize somewhat. That wherein the doctor is monitoring the kidneys and giving the entities proper vitamins and minerals, that this can be continued under watchful care.

This Awareness indicates the great danger of chelation is that it not only takes toxins from the system, it also takes ketones; that this as some substance from the kidneys which can be damaging unless proper vitamins and minerals are given to replace those which are depleted. Wherein the doctor knows what he is doing, he will keep close check on the kidneys of these entities.

This Awareness indicates that 100 or more treatments should indeed include careful monitoring of the kidneys; that so long as the kidneys are still alright, and so long as proper vitamins and minerals are being given to the entities, it appears that the chelation, in time, will be successful in helping to remove the contaminants. This Awareness indicates that there appears to be some benefit for many entities to have a break between treatments,--between treatments of sets of twenty. That a break of several weeks can allow for the body to balance itself out somewhat, and to gain a vitality which appears to be related to the rapid changes which the body is undergoing during chelation treatments; that even when being given vitamins and minerals during such time, the metabolism, over a

period of twenty treatments, tends to adjust to these vitamins and minerals in such a manner as to cease absorbing some of these, and thus a pause between such treatments for some entities, allows the body to again have a rest whereby it then begins to absorb the vitamins and minerals more completely after such a break. That this likened unto becoming immune to the vitamins and minerals because of overuse. It appears in general however, that this doctor does know what he is doing, and that these treatments are likely to be beneficial to those entities. This Awareness indicates the only concern *It* sees is that these hundred treatments should not be given all in one regular row, one following the other, without some breaks inbetween.

How to Use Magozone

This Awareness indicates that in regard to the question of what else can be done to help alleviate dioxin in the system, that there is seen that which is known as Magozone, which when taken daily for a period of approximately ten days, that this can have a profound effect, particularly wherein a small amount of food is eaten during the first four days of such. This Awareness suggests that the use of fruits and juices and fibrous foods may be used during this time, along with the Magozone; that this Magozone as that which is capable of affecting the toxins, breaking these toxins up, turning them into gas, and eliminating them from the system; that this can be very beneficial.

This Awareness indicates also, that other vitamins and minerals can be beneficial; that Selenium, Lecithin, ascorbic acid, or Vitamin C, Vitamin E, nucleic acid, Superoxide Dismutase, garlic, ginseng, also pectin; that all of these can be helpful and beneficial in helping to remove these toxins. This Awareness suggests also the use of psyllium seed can be beneficial; that this may be used with the Magozone; that both serve as laxative types. Although the psyllium seed is not actually a laxative in nature, it does serve to remove toxins through the bowels.

This Awareness indicates the Magozone serves as a kind of laxative, but it also does more, in that it produces, it turns, it mixes with the stomach acids. This Awareness suggests it should be taken with ascorbic acid, or Vitamin C, mixing with Vitamin C or ascorbic acid, and the stomach acids; the Magozone then turns into a kind of gaseous liquid that enters into the cells and walls of the stomach and intestines, dissolving toxins and poisons and eliminating these from the system. This Awareness indicates that it creates very strong bowel movements of elimination. That once the intestines are cleansed, further use of Magozone and ascorbic acid taken together allows the juices to move through the lining of the stomach and intestines and into the bloodstream, and into the tissues, and there, also to dissolve toxins within these areas and to eliminate these toxins, turning these toxins into gas, which then is brought back into the intestines for elimination.\*

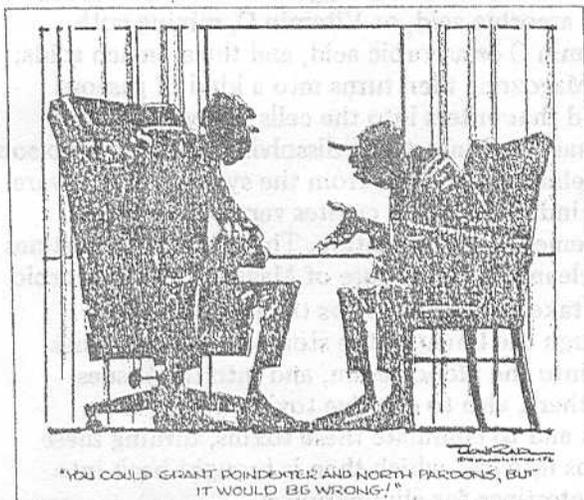

This Awareness indicates that the Magozone as a powerful healing tool. That psyllium seed, or that which is known as Metamusil, or other brand names using psyllium seed, serves as a good eliminator for the toxins within the bowels and lower intestines. This can also be powerful in helping to prevent cancer and to reduce cholesterol in the system. \*\*

\* ED's Note: What Awareness was so delicately trying to say is that Magozone makes one pass intestinal wind, --a lot of it. It's a white powder that evidently 'cooks' away inside the intestines, and when it finally is expelled, often hours later, it often is released with tremendous force, (you have absolutely no control over it), and more often than not, accompanied by a tremendous and overwhelming, extremely vile stench. Let's face it, gang, this stuff creates flatulence,--detonations, often for hours and seldom subtly, but thunderously and shamelessly. (Intestinal gas can care less for propriety.) This editor feels you should be duly warned lest you try this substance in innocence and not plan your day accordingly. (Do not plan a party nor invite friends to dinner or go to the theatre or the opera, or you may have some disgruntled neighbors sitting nearby, suddenly leaping up, gasping for air and dashing for the door, possibly to call the police. I would also avoid a hot tub, if I were you, particularly if shared with others, unless you wish to give a demonstration of submarine warfare.

This editor knows firsthand about Magazone and the noxious fumes it can produce. Several years ago I had a lower back pain that was driving me crazy for a few days. I thought it was from sitting so long and typing up these newsletters. The Interpreter was in the office at the time and produced a can of Magazone from his pocket, suggested I try it. I did, and the incredible amounts of noxious gas it produced literally drove the CAC staff out into the streets for the next several days, every hour or so. Seigfried, the massive hound who guards the shop and a legendary gas-passer in his own right, twitched his sensitive nose and evacuated with the rest of the staff, choking and gasping for air with a little too much enthusiasm. The back pain, however, did stop (it may have been coincidental), and I was given a directive that under no circumstances was I to ever again take Magazone. I never did.

Magazone was formerly available at the Goodship in Portland, Oregon, but a recent check disclosed that it was in short supply. Later, I wrote Mary Farrell where she used to get the stuff, and she gave me the following address, which may or may not be able to supply it:

## THE MELLOWING OUT OF HUMANITY

( NEW SPIRITUAL ENERGIES NOW FLOWING IN )

(Opening Message, C.A.C. Gen. Reading, May 28, 1968)

This Awareness indicates that entities will notice that at this time there is what may be discerned to be a period of a more mellow nature in terms of political military global events; that this not referring to this immediate week necessarily, nor this immediate time of year, but in the general sense that there is a kind of subdued reaction in regard to events that in the past would have resulted in greater conflict as a reaction of events. For example, the activities in the Middle East, the activities in the Central American regions, and the other global areas; certain events that have happened in these areas in the past would have normally resulted in greater reaction of a military nature.

This Awareness indicates there is a kind of mellowing approach to the activities; that the actions are not as forceful as might have been expected in previous years,--this as a reflection of the general attitude of entities during this latter part of this decade, whereby people are becoming more inclined and desirous of peaceful solutions, an awareness of the importance and value of negotiating for peaceful solutions rather than using military might as the only way to solve conflict. That this kind of approach as that which has now begun to be felt in governments and among the people of different nations who are normally in charge or in positions of influence.

This Awareness indicates that it is an indication of the changes that are coming to this plane. This Awareness suggests that there are still considerable risks involved whereby conflicts could erupt in various regions, but the tendency at this time is that in which entities may witness a kind of mellowing out of humanity, whereby the nature of the mass consciousness is to be less volatile and more willing to communicate and seek peaceful resolution. That this reflects energies that may be termed spiritual, that are now permeating this plane. By the word *now* this Awareness refers to this and the coming decades.

This Awareness indicates that the permeating of this plane with these new spiritual energies as that which assists entities in becoming more tolerant, more open, more willing to listen and to receive and hear the other side, rather than simply attempting to force one's own values on others without listening to their side of the issues. This Awareness indicates that more and more this need to hear both sides becomes part of the awakening of consciousness on this plane.
