SOME POSSIBILITIES IN THE COMING MONTHS ???

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

WILL THE ECONOMY CRASH IN 1989 AS MANY SEERS ARE PREDICTING?

(MORE ON THE COMING CURRENCY EXCHANGE)

(Excerpt from a C.A.C. General Reading)
October 17, 1988

QUESTION:

Several questions, or a good question anyway, from J. W. I'll read what she asks here:

"Like most of us, I am worried about the economy after the election. For one thing, Saturn will be adversely affecting the money house of the United States' chart, but that is not the only thing that may cause an economic collapse. I am wondering if Awareness will comment on the banking situation. I mean in particular the FSLIC, the Federal Savings and Loan Insurance Corporation situation, which some say will require 80 billion dollars of our money to bail them out. I am seriously thinking of taking my CD out of the bank. It isn't much but it supplements my Social Security. I think 1989 might not cause much concern, but after that, I think the mattress would be much safer than the bank.

"I sent for the info on the special report on the bankers' plan to destroy America, and I'm busy getting them xeroxed and sent out. My son who was here from Virginia over the weekend, whose work is to check on the health of banks in the U.S., so I gave him a copy but he was noncommittal. He's a Republican. Also, from another source, I got some startling

info on the coming banking failure with dire consequences for Michael Dukakis if he should be elected, and a 1984 scenario for the United States if Bush wins. I am seriously thinking of voting Republican as I like Dukakis and don't want the Democrats to get hit with the mess that the Reagan administration is about to dump on us. Maybe we deserve another dumb president?"

Would Awareness comment on her questions, please?

COSMIC AWARENESS:

This Awareness indicates that there is indeed considerable reason for concern when the economy is based on promoting the appearance of good times through the use of debt and increased debt for the population of this country, and wherein the banks have made loans to countries which are not capable of repaying those loans, and which, if not repaid, would fall upon the American people to come to the rescue through higher taxes and shortages caused by the defaulting of payments to these banks.

This Awareness indicates it is all created in a very complex manner so as to make everything *appear* to be accidental, just as the stock market crash one year ago today appears to most entities to have just happened by accident, when in fact it was all set up beforehand, and when in fact those who perpetrated this crash were the grand winners in having pulled out their monies at just the right time, and then, after the crash occurred, began rebuying those stocks at lower prices. This Awareness indicates that this is not the last of this type of scenario.

This Awareness suggests at present time it appears that another similar situation may be planned for early in '89, approximately in the early spring. This Awareness suggests this may occur in the month of March; that this is not absolute or certain, but this does appear to be the energized time period at present. This Awareness indicates that even that will not be the final action or crisis economically that will serve as the trigger for the currency exchange that will eventually come about. This Awareness indicates that the new currency to be introduced into this country is not seen as coming in before 1990, and more likely, as late as '92.

Good or Bad—the One-World Government is Coming Soon

This Awareness indicates that 1991 at this time, appears to be the energized time in which this new currency will be introduced, although it could come either the year before, or the year after. This Awareness indicates that this introduction of the new currency is that which begins the movement more quickly

toward a One World Government. This Awareness indicates that although this has been warned against, as a time in which sovereignty of various nations will be threatened, it will not come overnight. There will be a gradual movement in which the sovereignty of nations is surrendered to a One World government.

This Awareness indicates that this, at the present, has within it the seeds of tyranny, but this Awareness suggests that as time passes, this may change and may be transmuted into something totally different, totally different from what the entities who have been working to bring this about, intend to occur. This Awareness indicates that the vibrations on this planet are moving into higher and higher frequency, and even though the motives involved in certain schemes for world domination through economic control appear to be less than the highest, as the frequencies of the planet itself move into more spiritual vibration, even those who have low motives may get caught up in those vibrations and find themselves contributing to the welfare of others rather than reaping the control, which they originally sought.

This Awareness indicates it is much like an entity who in greed attempts to build a business, but once the business is built, and the entity has what is needed for his own welfare, the entity begins wanting affection, wanting approval, wanting the community to recognize him as an individual of good standing, and then the entity begins programs of charity and so forth which put him into a different light than he himself ever intended or expected to present.

This Awareness indicates that there are many ways in which the future may turn; that the scenario is not set at this time, but that entities need not become fearful that the path, or future is fixed toward something that will be of great threat or danger to them, for there is not seen an absolute or certain danger in terms of economy; there are seen changes that will occur. The adjustments will depend much on how high the frequency in consciousness rises to meet those challenges which will follow in the coming decade.

This Awareness suggests that in reference to the insurance, the bank's offer for the savings and loan outlets; that this has at present insufficient coverage in the first case scenario, but that there are steps being taken which may alter this situation so that the danger is diminished. This Awareness indicates that this appears to be not an absolute, but a potential in the near future, whereby strengthening of this insurance can alleviate much of the threat. This Awareness suggests that you watch this as time unfolds during the coming year. This Awareness indicates that also there is seen a potential for some stability; that may continue at least throughout the next year. Even though the fluctuations of the stock market and other economic conditions do tend to create uncertainty during the coming year, it appears that the average person who is not so much involved in heavy investments will not even notice any great change in terms of their earnings and wages and the value of their money.

This Awareness indicates that this of course can be altered somewhat, but *It* does not see any major shocks in the economy in the sense of a serious and total collapse which many anticipate during the next year. This Awareness indicates however, the period of March and the early fall or late summer do appear to be times when some economic distresses may occur; that this may not be precisely in the month of March, but sometime in that early spring period; the timing on this may become clearer in the near future.

JAPANESE STOCK MARKET COULD TRIGGER THE WORLD COLLAPSE

(Follow-Up Question):

A number of economists are saying that what will probably precipitate a major world depression is when the Japanese stock market collapses; that it's oversold right now and very jittery, but there's immense money involved in the thing and it would have world-wide repercussions. Does Awareness see that scenario as possible?

COSMIC AWARENESS:

This Awareness indicates that this as being a strong possibility as a major event that could trigger the repercussions throughout the world. That in part, this could come about through different kinds of programs that would hinder the market place of the Japanese such as those trade programs inhibiting the sale of products in the United States or in other countries. This Awareness indicates that there are certain of these so-called protection programs which have been advocated and which can have some effect on the Japanese market in terms of its economy.

This Awareness indicates of course, there can be other responses that would be of a more beneficial nature to some elements in the American economy. It is more of a question of degree, and how much reaction in terms of investment money would be felt if such programs were instituted to block the Japanese market in the United States. This Awareness indicates in other words, the concept of a protectionist program in itself would not necessarily trigger the market upset, but if it were of such an extreme nature as to suggest a serious decline in the Japanese economy then it could trigger a panic and investors could begin pulling their money out of the Japanese stock markets and this could lead to a ripple effect, causing a collapse in many of the markets around the world as investment money is pulled out.

WILL EMPEROR HIROHITO'S DEATH TRIGGER A MARKET DECLINE IN JAPAN?

(Follow-Up Question):

There are even stories coming out of Japan that it's possible this might be precipitated by the death of their emperor Hirohito, who is reported to be seriously ill for the past few weeks and the market has virtually come to a standstill or has dropped during his illness; that there somehow seems to be something in the Japanese consciousness still attuned to the emperor, who they used to

believe was a deity, although he renounced his deityship shortly after World War II...Does Awareness see this as just a passing thing, or could that seriously trigger something?

COSMIC AWARENESS:

This Awareness indicates that this could trigger a decline in terms of a momentary reaction. It is not seen in itself as being a meaningful event that would cause the economy to collapse; that coupled together with other situations, it could serve as part of a combination of events which might lead to a serious drop in the markets. This Awareness does not see this however, as that which is a likely event.

ED's Note: Congressman Ron Paul, the man who leaked the first information on the new money about to make its debut, and who recently ran for President on the Libertarian party (He got more votes, including mine, than all the other minor parties put together, although the controlled press made little about it), puts out The Ron Paul Investment Letter, which has gained much credibility in the past few years as to accuracy. In his December, 1988 issue, entitled "Life After the Crash" (which he sees as coming in late 1989) he makes the following suggestions:

Sell any stocks you now own other than gold stocks. Put half of your investment capital in short-term cash accounts. If you use Treasury Bills, use only the 30-day notes; Swiss bonds and foreign savings accounts also offer protection, but due to difficulties are not for everyone.

The other half of your assets should be in physical metals and gold shares. He is still recommending Battle Mountain, Echo Bay, Homestake Mining, American Eagle and some selected South Africans such as South Vaal, Driefontein, DeBeers and Consolidated Gold Shares.

Ron Paul also predicts that a national ID card will surface in the next few years and will be required with all passports, just another big step into the cashless society and the coming One-World government.

The Ron Paul Investment Letter is one this editor continues to recommend to the membership. Cost: \$99 a year; Address: 1120 NASA Boulevard, Suite 104, Houston, Texas 77058.

AN UPDATE ON THE CONSPIRACY

NEW TERMINOLOGY: CORPORATE FACTION VS. SOCIALIST FACTION

AND WHY WE ARE FINALLY RELATING TO THE RUSSIANS

QUESTION:

A question from J.S., San Francisco. Awareness has given in bits and pieces a lot of this information, but perhaps it's time for an update. He writes: "Since I only recently rejoined CAC, I might have missed the information answering this question. I was under the impression from reading the *Gathering Storm* material put out in 1979 that the illuminati conspiracy was monolithic; that the Rockefellers, Rothschilds, Bolsheviks, etc., were all part of one conspiracy. Recent mailings I've received since rejoining CAC speak of competing factions,--the Rockefeller/Skoptsis faction versus the Bolshevik/Zionist faction. Were there always these competing factions or was there a schism awhile back? Recent news stories tell of several of George Bush's campaign staff suddenly resigning when it became known that they were suspected of antisemitic activities or membership in Nazi-like groups. Does this mean that Bush belongs to the Rockefeller faction and has surrounded himself with anti-Zionist advisors? Are the Zionist/Bolsheviks aware of the Skoptsis' religious and magical history and activities, and do the Skoptsis use occult powers in their competition with the Zionists? Do they use Black Magic in their attempts to achieve world domination?"

There's a lot of questions in there!

COSMIC AWARENESS:

This Awareness indicates that it is suggested that this entity can gather much of this information from a review of past material. This Awareness does not wish

to engage in finger-pointing in terms of labelling entities at this time in regard to their associations and loyalties; that it does not appear to serve a meaningful purpose. This Awareness has given much information before in regard to this scenario; that it is now beginning to shift into a different pattern.

This Awareness indicates that from the Reykjavic meeting in Iceland, a change began to occur when the cabinet began to experience shifts and certain entities resigned. This Awareness suggests that this particularly at the time when Jim Baker moved into the executive cabinet. A change occurred, whereby the so-called Rockefeller faction,--this Awareness prefers at this time to call this the Corporate faction as opposed to the Socialist faction; the Socialist faction may be referred to as that which has previously been called the Zionist or Bolshevik factions, and the Corporate factions may be defined as that which was previously called the Rockefeller faction.

State Capitalists VS. State Socialists

This Awareness indicates that the reason for altering these names is because there is so much energy charge in regard to the terms 'Bolshevik' or 'Zionist', and there is so much confusion as to what the term 'Zionist' means. This Awareness indicates that as has been explained before, it does not refer to the Jewish people, it refers to a certain group of people in a political arrangement. This Awareness indicates that it is better to refer to these entities as the state socialists, and to refer to the Rockefeller faction as state capitalists or corporate entities.

This Awareness indicates the great corporations around the world have more to do with the concept of capitalism, whereas the state socialists have more to do with Communism and the control of the state over the economy. This Awareness indicates that there is some difficulty in finding the appropriate labels that do not have energy charges to make the associations more palatable for entities who are ready to leap on any label with both feet and claws.

This Awareness indicates that essentially, the movement, the time when Jim Baker moved in to association with the executive branch, working with Ronald Reagan, and when Oliver North and certain others were moved out, this was the time when there was a shift in influence on this present administration; that the entity George Bush as one in this new influence. This entity as what might be referred to as a Rockefeller ally.*

** It is interesting to note that since that time, Pres. Elect Bush has appointed Jim Baker his next Secretary of State!*

This Awareness indicates that this led to the quick responses from Russia,--offers of agreement in certain areas which eventually led to further agreements that were signed by the two leaders. This Awareness indicates that this movement has now continued and is growing stronger. This Awareness suggests that this is what might be termed the culmination of the Skoptsis/Rockefeller alliance whereby the forces from these two factions have strengthened their holds on the respective nations so that the nations can begin to further align themselves.

This Awareness indicates that even as this is occurring, entities will note that there has been some confusion in the relationship between the United States and Israel, which has in the past always been absolute in terms of loyalties, and in the past there has never been any meaningful competition or disagreement of any considerable level which has disturbed the relationship, although presently this alliance of Israel and the United States is coming into a more serious and rocky relationship than at any time in the history of their alliance, since the Israeli nation was born.*

This Awareness indicates that there was a time in the early '60s when entities could not even use the word 'Palestinian' on television or radio. The entity Dr. Beter having had at that time a radio program giving financial advice, an audience of 8 million people; the entity was put off the air, his program cancelled, because he spoke of the Palestinians. This Awareness indicates that now in the present environment entities see interviews with Palestinians and discuss the oppression of Palestinians and a more open and balanced newscasting of this troubled area is being allowed through the media.

**Ed's Note: Exactly two months after this reading was given, the United States, with the blessing of Ronald Reagan, accepted PLO Chairman Yasser Arafat's renouncing of terrorism and recognition of Israel, and began direct dealings with the PLO and Palestine, much to the surprise, distress, outrage, indignation, whining and yelping of the powerful, fabulously wealthy Zionist lobby here in the U.S. In another disquieting incident, the U.S. declared more than 200 Soviet Jews as unqualified for admission to the United States as refugees because they were unable to demonstrate "a well-founded fear of persecution." Until*

this time, all Soviet Jews were welcome (including the thousands of 'Bolsheviks' the Skoptsis drove out of Russia 10 years ago, who, according to Dr. Beter, took over our government and tried unsuccessfully three times to make a secret nuclear strike against the USSR. (Please refer to the "Gathering Storm" and subsequent readings for more details if interested). The fact Mr. Bush is making appointments with names I can pronounce, this editor is beginning to believe maybe the Bolsheviks in the government really may have less control and less power, which is certainly a step in the right direction for world peace.

This Awareness indicates that this is also part of the scenario as to what is happening. There is a kind of competition that is occurring. This Awareness indicates that it is not something that is of major proportion other than in the sense of a political maneuvering. It is not as though there are now those dangers of wars, or plots of wars, but there are indeed still political maneuverings going on in efforts to disrupt or gain influence and there is a kind of competition for that influence.

This Awareness indicates that either the entity Bush or Dukakis will not effect this balance in any significant manner; both having the realization that they must cater to all factions within a certain degree of behavior, without showing any great loyalty to one side or the other. This Awareness indicates however, events may occur by which certain forces can be brought to a level where communication will help to resolve many of the conflicts between the Zionists and the Corporate powers.

This Awareness indicates that essentially, the competition that was so fierce three or four years back is now slowly losing its polarity as a more cooperative mood begins to affect each side in the competition. This Awareness indicates the areas which are still highly competitive and charged are those which relate to the Jews and the Arabs in their conflict, and this is still highly charged and not yet being resolved. This Awareness indicates that the next two years will either see a resolving of these tensions, or a strengthening; that the tensions will not remain stagnant as they presently are.

WILL ISRAEL TRY TO NUKE SAUDI ARABIA?

(Follow-Up Question):

I read a report, not too long ago that said that one of the secret plans of Israel is to nuke Saudi Arabia. Does Awareness see anything of that terrible a proportion actually being planned?

COSMIC AWARENESS:

This Awareness indicates that rumors of this type have been surfacing for several years; that these plans, as they are called, are likened unto football plans in a football game. They are devised ahead of time as potential plans in the event of certain scenarios. It is likened unto hypothetical planning in the event something happens and there are hundreds of such plans that countries develop prior to potential events so that if such an event as X, Y, or Z were to occur, the plan X, Y, or Z, to accompany or respond to that event could be brought out, and used. (This Awareness suggests the next question be asked).

AN UPDATE ON THE UFO PHENOMENA

QUESTION:

A question from D.C. He asks: "Awareness has mentioned that space aliens from other planets or galaxies have fed technical information to our Beast controlled governments. Why don't these beneficent aliens, if they are beneficent, feed information to the common decent masses, someone who would publish their information in book form, freely available to the masses, like Bruce Cathie, rather than our Beast controlled governments who are only using technology to enslave the masses? This has always puzzled me as I read various flying saucer or UFO books. The aliens in these books always state that any information on how the universe is put together, just like Einstein, is not good for us, and yet Awareness has stated that these aliens fed information to our Beast controlled governments. It looks hypocritical."

COSMIC AWARENESS:

This Awareness indicates that there are various statements within the question which in themselves could be questioned, in terms of where the information came from. This Awareness indicates however, *It* wishes to respond to the general tone and curiosity expressed in the question.

This Awareness indicates that the government of the United States *did* capture and has held certain entities from other than this earth plane, and has questioned over several years these entities, one in particular, and has received much information; not necessarily because this entity wanted to be captured and to tell what he knew, but more because the entity had little other choice, and thus the entity has given information that has been of great value to this government.

This Awareness indicates that there is also information that has been given to the Russian government through its contacts and moles, or what may be termed spies, regarding some of the information that has come from these interrogations in the United States of this entity, and of the findings of investigation in the UFO phenomena. This Awareness indicates that in addition, the Russians have also certain information that they have gotten from their own contacts and experiences with the UFO phenomena. This Awareness indicates that there are entities who have had their experiences with these UFO contacts and generally, when they have made an effort to give what they knew, were either ridiculed, or the media blanked out their information or the information was skimpy and unreliable or of little significance.

This Awareness indicates that much of this is because the entities themselves were not particularly special or qualified as experts or were unable to explain things they saw, or the information they had to give was from their own perception as ordinary people in which they could not fully explain what they were seeing. If you were taken aboard a UFO, what technical information would you be able to report, when perhaps all you see are buttons and lights, and strange beings? This Awareness indicates that even were they

6. to explain their ship to you, would you be able to explain how it works?

This Awareness suggests that the UFO type entities in contacting ordinary people are also of a variety and in some cases behave benevolently toward them, but in other cases are cold, even cruel to some degree toward humans. There are different types. This Awareness indicates that there are many who like to think that *any* UFO invader is a space brother who is of angelic nature and has nothing more to do than to help rescue entities from their drab and daily existence, but this is not always so. Many of these are from worlds quite different from your own, and their interest is purely out of curiosity or to gather data, for their own gratification.

This Awareness indicates that there is in the question, a feeling that some kind of unjustified injustice is occurring that should be corrected by some higher being. This Awareness indicates that What Is IS. Entities are what they are, whether they be benevolent or malevolent invaders from another dimension or whether they, as visitors to this plane, communicate with the common man or with the leader. They do what they do, for reasons that impel them. This Awareness indicates it is not that they particularly chose to give information to the government, but that they were compelled to do so.

This Awareness indicates there are also efforts by some of these entities to give information to the common man, but the common man has no means or way of sharing such information except through publications, speeches, writings, which are all generally ignored by the masses as being hogwash. This Awareness asks: What is an alien to do? How can an alien get his message through when the media is off looking for news elsewhere?

HOW DISINFORMATION ON UFOS CREATED PUBLIC APATHY

WHY DON'T ALIENS COMMUNICATE THROUGH BOOKS OR THROUGH PSYCHIC CHANNELS?

(Follow-Up Question):

I think, maybe the entity asking the question meant, maybe the information could be presented in some manner other than through an alien that's captured and compelled to, like perhaps channeling it through somebody, or dropping a book down that's already put together?

COSMIC AWARENESS:

This Awareness indicates there are such books, there are such channelings, there are many of these placed in bookstores. This Awareness indicates the problem with most of these is that they come through interpreters or channels who do not present a meaningful message or whose message is not seen as meaningful, or is not believed by the masses, or the message gets little publicity even if books are written, because the majority of entities are not interested in purchasing and reading what someone has channeled.

This Awareness indicates that books that actually might be written by an entity from a UFO, if presented

on the earth to someone, would more than likely be snatched up as quickly as possible by some agent tracking this kind of thing so that any copies printed *would be removed and taken to some secret place.* This Awareness indicates that those few publications that are close in terms of explaining the UFO phenomena are often put out of print or snatched up from the stands so that they are not reprinted. This Awareness indicates there are many books from the past that would be very informative, but which entities can no longer find.

This Awareness indicates that even those which are available do not have much marketability because there is not that much demand since most entities have been brainwashed to assume that it is all some kind of fictional material. This Awareness indicates that one of the greatest damages done to the serious UFO researcher is having the market swamped with channeled information from so-called 'space brothers,' UFO masters and so forth, of such trite material and information that does not come true, or information purported to be about UFOs, when it becomes so absurd that the masses who attempt to make a serious study are simply turned off by those things which they read and refuse to look further into the field.

This Awareness reminds you of a time ten years ago, when there were at least five or six major magazines on UFOs; these were of good information in general, but then a magazine on UFOs was introduced, was bought up by a new owner and began printing stories about UFOs and scenarios related to UFOs that were so absurd, *no one could any longer take them seriously.* This Awareness indicates it was as though these official UFO stories were being made up and presented in such a manner that they would have the ring of absurdity and indeed, that was the purpose.

This Awareness indicates for example, in one issue, the staff of the magazine claimed that a UFOs' occupants came into the office and kidnapped members of the staff working on the magazine and they were ushered off into a major well-known hospital, where operations were done on their brains and where they were then put in situations in which they had to escape, and their proof of these stories was nothing more than pictures of the people to whom such things were alleged to have happened. This Awareness indicates that anyone reading the information could not take the information seriously. It became even more absurd than most stories in tabloids.

This Awareness indicates that this repeated publication over several months began to have the effect of ruining the credibility of all UFO magazine reports, so that gradually they began, one by one, disappearing from the stands for lack of sales. This Awareness indicates that in other words, the information from UFOs presented to the public would have to find its way through contrived messages, amounting to garbage about UFO material, so that entities would not care to sort through the garbage to determine what is true and what is but some fantasy designed to sell a channeled information of insignificance or of fictional origin, or something that had meaning.

This Awareness indicates that 90% of the information regarding UFOs has little or no real basis; that there is,

however, some information that is of significance. This Awareness indicates that too much of the information is but fictional in nature; that most of the channels of the UFO-nauts, or entities purporting to be commanders of spaceships; most of these entities doing such channeling are not actually channeling space beings, but are channeling that energy from their own creation in which they partition off a chunk of Universal Consciousness and then fill that with attributes and then read information out of it.

BEST SELLING BOOKS ON ENTITIES

WHO ARE ABDUCTED BY ALIENS

(THE IMPORTANCE OF DISCERNING)

(Follow-Up Question):

Awareness, would that type of disinformation being put out by certain agencies or forces, could this be challenged or contradicted, or what would be the impact on the public now that books like we discussed last night, of Whitley Strieber who wrote a book called *Communion*, which was on the best-seller list for many months, and has now just come with a sequel called *Transformation: The Breakthrough?* This entity claims he was taken up by aliens, in the usual well-publicized manner, and examined and possibly even implanted with something, and he's now appearing on TV shows plugging his books, etc. He seems honest enough, his story sounds believable, and a lot of people seem to pay attention and even change their minds about this entire UFO area. Is this countering that disinformation being put out?

COSMIC AWARENESS:

This Awareness indicates that there will always be what you term disinformation, which, in many cases is simply misinformation, wherein an entity misrepresents facts for some personal gain, or perhaps misunderstands or misinterprets something and presents it as fact, when it really isn't so. This Awareness indicates that there are also those reports which are generally or basically accurate and entities may believe or disbelieve anything ranging from fiction to fact.

This Awareness indicates that as an entity becomes more discerning, they will be more likely to weed out the fiction from the fact. This Awareness wishes entities to understand that much of life is a training ground for lessons in which an entity must learn to discern, to discern in order to know the truth, to find the truth, and when finding, to recognize. This Awareness indicates that there are many things which entities can believe to be truth, and this can range from Santa Claus, or some other fictional myth to the belief in some entity's story that he is some unusual or wonderful being from outer space.

This Awareness indicates that there is no way to be certain that an entity is not what he says he is by the mere words the entity gives, or by the telling of a lie; that an entity can only become sure or more sure by discerning other things surrounding that story or claim, and the entity who is discerning begins to develop ways of reasoning: 'If this is so, why did you get here? Why did you come? What is the purpose?' By asking questions

of this type, the entity may become more able to discern better through the asking of questions and analyzing of the evidence gained by the questions.

There are unfortunately, many entities who do not even bother to ask questions. They simply open their eyes and mouth and stand agape at the entity who claims to be God. This Awareness indicates that it is interesting that entities can be so naive. It is better that they be somewhat skeptical, enough to investigate as much as possible before they give themselves totally to a belief. This Awareness indicates that those who write serious and long books in general can often convey much meaningful information that helps entities to discern more clearly or have more evidence to search through, and in examining the evidence, entities have more opportunity to weigh and balance this or that factor against something else that was said elsewhere, so that they can perhaps reach a conclusion, or better yet, remain unsure.

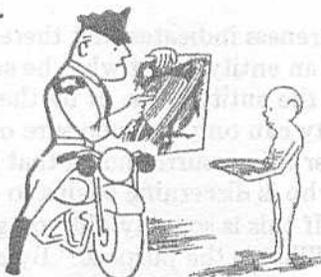

This Awareness indicates you do not have to believe everything you read in order to benefit from the information. You do not have to reject something in order to rid yourself of the information if there is something worthwhile in the information. You may reject certain portions and accept other portions, according to the value the information has for you. You also fail to reject or accept certain parts and simply wonder at them, and remain uncertain.

This Awareness indicates that these books have value to many entities, the information has much value, and there are indeed entities who experience abductions, and there are entities who report these abductions. There are also entities who voluntarily enter into these spacecraft. Generally, these are far and few between and that most entities will never experience such activity, but may read about such from those who experience these things. It is for individuals to learn how to discern what is true from what is false.

The Real Purpose of Awareness

Much of the reason for this Awareness giving so many messages in response to questions is not to discern in behalf of individuals, but to assist individuals that they might learn to discern for themselves. If in the process, this Awareness ends up discerning some things for individuals, this is only to make it easier for you so that you do not become discouraged; however, it is not the purpose of these messages to answer all of your questions to alleviate your need to learn to discern. It is the purpose of this Awareness to enhance your ability to discern.

This Awareness indicates that by giving a certain amount of information for you to store in your data banks, it becomes easier for you to have the proper tools to discern.

THE RECENT TV DOCUMENTARY: "THE UFO COVERUP". WHAT GIVES?

Why Russia and the U.S. are Friendlier

(Follow-Up Question):

Awareness, the other night there was a two hour documentary on the Fox network entitled *The UFO Coverup*, and in this program, believe it or not, there was actually some new information; it covered things like *Project Bluebook*, and aliens that had crashed in the desert that the army had captured and so forth. Was it a fluke that this program got through, or is the government allowing this to prepare people for a possible announcement that alien craft of some sort have been here or possibly are going to land here?

COSMIC AWARENESS:

This Awareness indicates that the government is ready to release this information if it can be released in a manner that does not create panic among the masses, or create great disturbances with the institutions such as religion and science or business. This Awareness indicates that the government has long withheld information for fear that the great institutions which are the maintaining forces for society, which help to keep society on an even keel in terms of emotional stability, whereby these institutions and the belief structures held by those institutions could be fragmented overnight by such information. This Awareness indicates that the gradual changes that have occurred in consciousness during the past two decades have reached such a stage that there are many entities who believe in UFOs and other phenomenon and these are becoming so vast that approximately 40% of the people in the United States believe in UFOs, this being reflected in other countries also, to some lesser or greater degree.

This Awareness indicates that because of this increase in people who can accept the possibility of UFOs, it is now a different environment than it was twenty years ago; that much credit for this change in consciousness must be given to Hollywood, with its various space movies and UFO movies. This Awareness indicates that because of this change in consciousness and the openness of society to UFOs, the government is now becoming more willing to leak information without quenching it, to see information being released, to examine what effect it has, whether it disrupts society, or whether society can accept the information without great disturbance.

This Awareness indicates that the release of the information recently is being monitored to see if there are repercussions, if entities write in objecting to the movie, or if entities are accepting of the information. You will recall that there was a poll being conducted during the release of this film, asking entities whether they thought an investigation of UFO phenomena should be conducted by Congress, or if it should not be conducted, and the greater number, over 60%, felt it should be conducted. There are also questionnaires in regard to whether entities believe in UFOs, or don't believe in UFOs. That this questionnaire is available through a UFO hotline, giving information on UFOs, whereby the caller is directed

to two different telephone numbers which he or she may contact to voice his or her opinion if desired, and this is another way of monitoring to determine entities' openness to receive information regarding UFOs. This Awareness indicates that the society is now open and willing in the majority to hear the truth, and the government is preparing to let this information be released in bits and pieces, such as the recent television show, in spoonfeeding to the public so that it can be given at a rate which does not create great shock and disturbance to society.

Another Reason Why Relations with Russia are Occurring

This Awareness indicates that much of the need for unifying the Russian and American countries is based on the potential threat from these UFO forces. There is seen the potential for good relationships, but there is also seen the need for even better relationships with other earth countries, just in case the UFOs turn out to be not so friendly. In other words, when there is the potential of an extraterrestrial invader, it is good to patch up your quarrels with your neighbor.

THE MYSTERIOUS DEATH OF RUDOLF HESS

QUESTION:

There's a little article I caught in the *Nexus New Times* out of Australia, and I'd like to read this and ask Awareness to comment.

"A British historian alleges that Hitler's deputy Rudolf Hess, who flew to Britain during World War II on a mystery peace mission, was murdered in Berlin's Spandau war crimes prison after 47 years in captivity.

Historian Hugh Thomas claims to have strong evidence that 93 year-old Hess was killed to prevent his imminent release. His jailers claim he hanged himself with an electric cord in August 1987. Says Thomas:

"There is no substance in the allegation that prisoner number 7, Rudolf Hess, committed suicide. On the contrary, there is overwhelming evidence that murder was committed."

In Thomas' book *Hess: A Tale of Two Murders*, Hess' family is said to have evidence that a suicide note found on his body was a fake and that British officials had destroyed crucial evidence. Hess was the only prisoner at Spandau since 1963.

Reuter

Would Awareness please comment on that?

COSMIC AWARENESS:

This Awareness indicates that this is seen as being an accurate finding, in reference to the book.

ED'S Note: For more information on Rudolph Hess and the real reason he has been kept the only prisoner in a huge closely-guarded prison (Spandau) for 40 years, please refer to "Revelations of Awareness" issue No. 86-17 (Rudolph Hess and the 'Secret of Secrets'; \$3.00 from C.A.C.

THE EMERGENCE OF THE NEW GAS-PASSER... IS A NEW GENETIC-ENGINEERED VIRUS MAKING GAS-FILLED ENTITIES EXPLODE? (IS THIS THE ULTIMATE IN FLATULENCE?)

QUESTION:

There's an article in the *Weekly World News*, May 31 of this year, 1988, which I'd better check out and ask Awareness whether this information is valid or not. It says:

"Horror Disease Spreads Rapidly Through South America. New Virus Makes People Explode Like a Bomb. Gases Explode in the Body Until the Patient Simply Blows Apart, Doctor Says." (That's the headline).

"A horrifying new virus causes a rapid buildup of gases in the body and makes people explode!

The world's foremost expert on the virus, Dr. Maximo de Gonta, says 700 cases have been reported in South America alone.

It is not yet known how the virus is transmitted. But it appears to be uniformly lethal--and usually kills within 48 hours after infection.

"I saw a patient blow apart right before my eyes," the virologist told reporters in Buenos Aires, Argentina. "I've never heard of anything like it. It might well be the most virulent infectious agent in the world today."

Nobody knows when the virus began to infect humans but a similar virus has been found in farm animals for years, said the expert.

Curiously, animals rarely if ever suffer more than short-lived nausea and diarrhea from the virus and develop total immunity within days. "In humans the virus runs a different course," said Dr. de Gonta. "Instead of focusing on the digestive tract it attacks muscle tissue throughout the body.

"It invades individual cells and generates gases so rapidly that the body cannot absorb them. Victims swell to the bursting point and explode."

Death is agonizing, said Dr. de Gonta, because patients are usually conscious when they blow up. The expert has called on health officials throughout the world to study the virus, find out its mode of transmission and a cure.

"We've seen 700 cases in Argentina, Brazil, Bolivia and Peru since the beginning of the year and 25 to 50 new cases crop up every week," said Dr. de Gonta.

"There's no doubt that the virus will become an international problem if we don't soon find a cure. It is the new AIDS," he added.

"I don't want to cause a panic, but that's exactly what it is."

End of article. Does Awareness see this information as being valid?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness suggests that this as being a virus that has come into being through transmutation, and that it can become extremely dangerous in terms of epidemic proportions unless something is done within a reasonable time. This Awareness indicates that it does appear there will be much attention on this in the future and that there will be considerable effort expended to finding a way to stop this virus.

This Awareness indicates there will be considerable more viruses introduced on this plane due to the nature of so many mutations and chemical reactions or introduction of chemicals to the food chain and through medical formulas and techniques, as well as the genetic engineering programs in which science and industry are participating.*****

THE NEW IRRADIATION OF FOOD PRODUCTS —DOES THIS POSE A HEALTH HAZARD?

(BEWARE OF "ULTRA-PASTEURIZED" MILK)

QUESTION:

A question from E.O., Saskatoon, Canada. He sent in this question several years back, but since then we've received many just like it, so I'll read his question.

"The Atomic Energy Commission of Canada is losing money. It was given permission to use irradiation on wheat flour, potatoes, onions and spices. They also want to use it on tropical fruit and meats. I hear the United States is also planning to do the same. Would this food, thus atomically irradiated affect our health, our genetics, our being able to reproduce healthy offspring? Could we get rid of the radiation in our body quickly enough, and what kind of action can people take to stop such madness?"

COSMIC AWARENESS:

This Awareness indicates that in an earlier reading in the '60s, by Dr. Ralph DUBY, this Awareness indicated that there could be some benefits from irradiated food. This Awareness indicates that since this reading was given, the manner by which the irradiated food program has changed, is altering that message. This Awareness indicates that previously the intent was to use cobalt for irradiating food. Presently, it is plutonium that is being used and considered for further use, and this radiation as being much greater in its emissions and affects on the food.

Ultra-Pasteurized Milk a New Health Hazard

This Awareness indicates that this is far more hazardous than is being indicated to the public. This Awareness indicates there is also another hazard that is coming in at this time; this related to that which is called ultra-pasteurized milk. This Awareness indicates that pasteurized milk does kill certain enzymes and affects the body in a manner that is not always the most beneficial, but the value of pasteurized milk is that it can assure the purity of the milk in terms of any contamination of virus or organisms that might be of danger to the system. This Awareness indicates that homogenized milk also carries considerable hazards in that it tends to collect on the walls of the arteries, building up plaque and calcium deposits. This Awareness indicates that raw milk does not have this quality.

This Awareness indicates however, raw milk has its hazards, as you well know. This Awareness suggests that non-fat milk is never homogenized, because there is no reason to homogenize non-fat milk, and this can be beneficial. This Awareness indicates that the ultra-pasteurizing of milk is that which allows the milk to withstand souring for as much as 6 months, sitting on a shelf, and this is being favored by many of the dairies and many of the stores, and therefore, it is beginning to crop up on shelves, especially on the East coast.

This Awareness indicates that this milk as having many hazards to the human system. It is much like fried protein; it would be like frying cheese as a large part of one's diet. This Awareness indicates occasionally

10.

entities do fry cheese, and occasionally a small amount of fried milk or ultra-pasteurized milk might not be so hazardous, but either of these used over a period of time, regularly, can present great hazard to the system and will lead to many more problems of a circulatory nature, building up greater blockage in the arteries.

Brown Spots on Potatoes & Fruits Indicate Irradiation

This Awareness suggests that entities avoid the ultra-pasteurized milk. This Awareness suggests also, that entities can begin protesting the irradiation of food. This Awareness indicates often the irradiation of food can be spotted; this not intended as a pun, by little dots on the food. That the little pock-marks on potatoes, little brown spots on potatoes are often a result of irradiation; that this also may appear on apples and other fruits.

TASTELESS FRUITS THAT DON'T RIPEN INDICATE ATOMIC IRRADIATION

(Follow-Up Question):

A related question on this subject, from D.S., Middle Village, New York. "Perhaps you would like to ask Awareness about fruit and vegetable irradiation, which I understand puts nuclear waste products to profitable use. At any rate, several times I have purchased peaches, pears, plums, tomatoes, etc., which had a peculiar texture, being hard and never becoming normally ripe,—in short, inedible. The wholistic health people warn against consumption of the thus treated produce, claiming that during the process of irradiation, the molecular structure of treated produce is being changed, which they believe may in turn produce free radicals in the body. The process is said to prolong the shelf-life of food, but what about the unwary consumer?"

COSMIC AWARENESS:

This Awareness indicates that is a good point and is accurate. That while the food may last longer, the same cannot be said for the consumer of that food.

BEANS AND CANNED GOODS IN STORES— ARE THESE ALSO BEING IRRADIATED?

(Follow-Up Question):

I have read that in the supermarkets there are beans and other products that are irradiated and now even canned stuff that isn't even marked on the cans that it has been irradiated. Is that true?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that generally the requirement for irradiation being marked is very loose or totally lacking. There are efforts now by various consumer organizations seeking to have these foods clearly marked as irradiated foods.

(Follow-Up Question):

Is there any way a person could tell when going through the supermarket if a can of something is irradiated or not, perhaps using a pendulum, if one could use a pendulum effectively?

COSMIC AWARENESS:

This Awareness indicates that there is very little reason for canned foods to be irradiated. It is generally the fresh foods which receive the radiation. However, in some instances, and this appears to be growing, those who can foods in a desire to assure that the foods do not spoil or contain botulism, may choose to do the irradiating prior to the canning, or after the canning. That because of this, some of these foods are presently irradiated, even while canned. This Awareness indicates that at present, there is no way to be absolutely sure in regard to canned foods. There is, however, that movement which entities should support, in which all irradiated foods would be marked. This Awareness suggests you check with health food outlets and co-ops and consumer organizations to find out how you can help to get the passage of a bill requiring irradiated foods to be clearly defined.

ED's Note: I have noticed that in almost all the restaurants these days, those little packs of Half & Half for use in coffee all say "ultra pasteurized"—this in addition to the chemicals they add to extend the shelf-life. Looks like we get it both ways if we drink the stuff.

In reference to food irradiation, CAC is beginning to get letters about this from around the country, Here is one from J.Y., Brooklyn, New York:

"Dear Vikki. Has Awareness given any information on how to avoid foods that have been radiated? I avoid any pork products because I get an immediate and violent reaction from pork since they began the irradiation of that product. Yesterday, I discovered that some fruits are also dangerously treated. I was violently ill with nausea and diarrhea and pain after ingesting a blend of plums, grapes, pears and watermelon. I was wondering if any of the membership has similar complaints and if it is possible to ask Awareness how the foods can be cleaned, thereby neutralizing their disabling effects."

We have asked, but there is nothing that will neutralize the effects of the radiation, which, among other things, alters the enzymes of the products which creates even more hazards once ingested. DS-Cell water helps some when you wash the foods, but not enough. The only solution is total avoidance until enough entities can get the laws changed to outlaw the entire process.

Keep in mind you will be dealing with big business, whose vested interest is to make huge profits. Historically such greed-oriented corporations have demonstrated very little compassion for the consumer, so any changes will probably be very slow in coming.

IRS NOT LEGAL BRANCH OF GOVERNMENT

(GOVERNMENT HIT MAN LIKE FEDERAL RESERVE)

QUESTION:

In the book, *The Compleat Patriot*, by Phillip Marsh*, which is a practical How To guide that will allow anyone to escape from the federal government system, there's a statement that: *the IRS is exposed by the patriot movement as being a private corporation chartered in New Jersey, on July 12th, 1933. It is merely the tax collection agency used by the federal government, not being actually part of the government. This is exactly the same status as the Federal Reserve.*

Does Awareness see that as being true?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative.

(Follow-Up Question):

I don't think many people realize that in this country. They think the Internal Revenue Service is an actual part of the federal government.

COSMIC AWARENESS:

This Awareness indicates there is the connection in regard to what may be termed 'contract' that has been made by agencies in the federal government in their relationship with the IRS, and this gives the appearance of connectivity as well as the authorization. It is much likened unto contracting an organization to perform a function for the government which then serves as an agent of the government; even though it may not have a constitutional place within the government, it may have government authorization as a corporation acting under government authority.

This Awareness indicates that challenging such under the Constitution would require a congressional hearing and determination that it is improperly acting, but it is unlikely that this would occur. This Awareness indicates that the Congress would more likely support the role of the IRS or refuse to even consider such a hearing. This Awareness indicates that there have been certain alterations recently in terms of individual or taxpayer's rights, which is a step toward giving greater individual rights in dealing with the IRS; that this has been beneficial and will be helpful to many entities.

This Awareness indicates it is still not necessarily sufficient, but it is a step in the direction toward assisting taxpayers in terms of their Constitutional rights, providing it manages to get through, becoming law without alterations diffusing its purposes.

TRY DRINKING THYME TEA FOR THOSE HEAVY HEALTH PROBLEMS

(MORE ON AIDS & HYDROGEN PEROXIDE)

QUESTION:

L.B., who lives in the woods in Maine, has this theory that is probably worth checking out with Awareness. The entity is well-versed on herbal medicines. He says that he believes the entire AIDS syndrome evolves from a malfunctioning thymus gland, found directly behind the heart and he says the herb Thyme, garden Thyme tea has a direct effect upon virus infection. He says: "I don't know what it will do for AIDS. Thyme tea can do nothing but good, AIDS or not: recommended for lung problems, bronchitis, chlorosis, gonorrhea, leucorrhea, scabies, gangrene, neuralgia, and many others usually associated with virus infection. He says, "I know of no one in our relationships who has AIDS, so I have nothing to go by, but if you have a personal friend or know a person who has this problem, Thyme tea can do nothing but good."

COSMIC AWARENESS:

This Awareness indicates that this does have a value in healing as in those areas suggested; it can be beneficial in helping to strengthen the immunity system. This Awareness suggests however, that as a recommended cure for AIDS, this would not pass the qualification, though in its assisting of the immune system, it could have some slight benefit for AIDS patients in helping them to ward off problems to some extent.

This Awareness indicates the use of hydrogen peroxide as that which is the least expensive and most successful in terms of actually curing AIDS; that there have been dozens of cases of AIDS cured through the use of hydrogen peroxide; that this *does* need to be better recognized, but that the controlled press will not spread this information to the masses. This Awareness indicates that information on this is available from that organization named ECHO; the information available includes the names of doctors and the sources for the type of hydrogen peroxide necessary and the instructions for using this substance.

This Awareness indicates however, that entities in general can benefit from the use of Thyme tea; that it can be used as a daily drink or tea for special occasions and have beneficial results. This Awareness would recommend that entities who have not tried this, to do so, and to experiment. This can also be helpful in regard to colds and other types of virus problems.

AIDS VIRUS MUTATING--STRONGER VERSION COMING

(Follow-Up Question):

There are stories now that the AIDS virus is mutating into many other viruses, and that there's a threat that these types of viruses can eventually get into the average entity through fluid, and through the air and through other methods other than that which they know the present AIDS virus enters the system. Does Awareness see that as being true?

12.

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness has also suggested that there will be a new stronger version of the AIDS virus emerging within the next several years; that this can become a major problem. This Awareness suggests however, that in all cases of AIDS virus, the use of hydrogen peroxide appears at this time to be the best common cure, in that it emits oxygen into the system, into the cells and the AIDS virus cannot survive in a high oxygen environment.

ED's Note: for more information on Hydrogen Peroxide, please refer to the following 'Revelation of Awareness' Newsletters: 88-4 (AIDS and Cancer, Herpes, ECHO address and info); 88-6 (Age Reversal, Epstein-Barr, Free Radicals, Booklet available: Hydrogen Peroxide Therapy--New Hope for Incurable Disease); 88-10; Hydrogen Peroxide and Arthritis; Hydrogen Peroxide and AIDS; Address for literature and book on subject; 88-13 (Hydrogen Peroxide and Ovarian Cysts); 88-15 (Hydrogen Peroxide and Candida; also hip replacement); each \$3.00 from CAC.

WHY ALL OF A SUDDEN ARE PIT BULLS ATTACKING PEOPLE ?

A question from Bill S., Santa Cruz, California. He'd like us to ask Awareness why all of a sudden pit bulls are attacking so much, when 15 years ago you never heard of this happening?

COSMIC AWARENESS:

This Awareness indicates this is largely due to the way people have been raising, training and breeding this type of animal; that there has, of recent times been an influence among entities who choose this type of animal as a pet, to train them to be vicious. This Awareness indicates that in earlier days, these dogs had their own level of viciousness, but they were not cultivated to be even more vicious than natural.

This Awareness indicates that for some entities it is enjoyable to know that your dog loves you and will not turn on you, but is vicious toward others. It gives one a sense of power and many entities need this feeling, or think they need this kind of protection. It is a way of showing disrespect for others; not caring about their welfare, and using a dog as an extension of their own hostility.
