Helping People Become Aware

THE
VANISHING
FARM AND THE
COMING FOOD
CRISIS

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

(MORE ON THE COMING CRISIS)...

SOMETHING IS IN THE WIND. IS AN ARTIFICIAL FOOD SHORTAGE BEING CREATED? IS A DRAUGHT-CAUSED CALAMITY JUST AROUND THE CORNER?

(REMEMBER THE SUGAR SHORTAGE AND THE JAR LID SHORTAGE?)

(Excerpt from a C.A.C. General Reading)
October 19, 1988

QUESTION:

In the October, 1988 issue of *Windwords**, a publication out of Rainier, just East of Olympia that focuses on the RAMTHA channelings, there is an article about Lindsey Williams talking about the coming economic crash. I'll read the highlights and ask Awareness to comment.

"A stockbroker in Spokane, Washington, called me two weeks ago. He had just returned from a convention in Los Angeles, where some of the world's most prestigious financial experts speak to the nation's stockbrokers. One of the speakers was Dr. John Stoessinger, who is a leading market analyst and a member of the Council on Foreign Relations.

All weekend long, without exception, every speaker said that the American economy is in great shape, industry is looking up, the stock market is the strongest it has ever been. Not one gave any mention of doom-and-gloom; every speaker said "Get your customers into stocks and bonds." Dr. Stoessinger was no exception.

Later that afternoon, Maurice got on the elevator and the only other person in it was Dr. Stoessinger, so Maurice got a chance to speak with him one-on-one as they rode down to the first floor. He asked him only one question: "What do you anticipate within the next twelve months in world-wide monetary circles?" Dr. Stoessinger never hesitated or stopped to think. He made one statement: "Within one year, the Japanese stock market will collapse, and with it the U.S. dollar, the U.S. stock market, and the Japanese yen." On the speaker's platform, Dr. Stoessinger hadn't said one negative word, but when just two men were alone in the elevator with no one else listening, he gave an honest answer from the insider's perspective.

In an earlier article in *Windwords*, I mentioned a radio talk show that I had been on in Australia--the Brian Wiltshire Show, which is a daily call-in show beamed all over the country by satellite. Brian had had in his studio the people who had come across an overturned military vehicle carrying food rationing coupons. Brian challenged the Australian government to explain why they had printed enough food rationing coupons for the entire country when Australia has no food crisis and doesn't anticipate one.

Last week I had a call from a man who sells bulk foods in Ravenna, Ohio. A friend of his is the manager of one of the largest food warehouses in the Northeast. The day before, representatives from a federal government agency had walked in and told him that they had rented a block of space in the warehouse from the food chain and they were there to look it over. *The manager called the food chain and they confirmed this.*

Now this man is a patriot--he knows the issues. He started asking the government people lots of questions. They tried to evade him, but he kept after them until finally they said, "We're renting this large block of space because we anticipate rationing of food as it was during the Depression in 1929, 1930, and 1931."

They're planning to use this warehouse as a food rationing headquarters. Who knows how many other warehouses they've already rented? But of course, most of the managers wouldn't ask the questions that this one did. So if they're printing food rationing coupons in Australia and they're renting warehouses in America, what logical conclusion should we draw? It seems that there must be something in the wind in terms of the creation of an artificial food crisis.

Last week I received a letter from Larry Beecroft, a reputable attorney who wrote a chapter in my book, *Where's the Food?* He told me about Gene Schroder of Campo, Colorado: "Gene has a friend who works for the University of Missouri and is presently employed studying present and future weather patterns. A unique combination of weather patterns and other factors have already combined to produce the present drought, and the drought has already caused immeasurable damage to agriculture. This man and all of his associates at the University of Missouri are scared to death! They envision soon a calamity so large as has never before been seen by mankind. According to this study, the drought will continue until 1990. This means we will experience food and water shortages of a kind nature has never before produced."

Whether these weather patterns are being manipulated by world governments or are the result of natural phenomenon, the point

is that our government is aware of what is coming. They understand that there is going to be a world-wide food shortage. *Why haven't they told the people?* Why don't they encourage us to raise our own food and plant gardens? Could it be that food will be used as the ultimate controlling factor?

Will Awareness please comment on Lindsey Williams' remarks?

*ED's Note: Windwords is a monthly publication, \$30 per year, PO Box 576, Rainier, Washington 98576, and has numerous articles on the Grey Men and the coming economic changes.

The book: *Where's the Food?* by Lindsey and Teri Williams, concerns the current farm crisis (the thousands of farmers who are losing their farms to the bankers every month), and the conspiracy by the Internationalists to create a crisis by withholding food from the market as a form of control of people in this country. It is about hunger in America and the truth that is being intentionally kept from people in the cities. This book is available from CAC. Price: \$5.50 plus \$1.00 postage.

COSMIC AWARENESS:

This Awareness indicates that this as sufficient evidence to confirm that which has been long long talked about by many who have followed these trends; that the activities surrounding the food shortage which is anticipated and planned as those which are not of a natural cause, but are contrived from various technologies that are capable of creating the drought. This Awareness indicates that these technologies also encompass certain activities that will enhance the problems in connection with the coming shortage of food.

This Awareness indicates that the experiments in the past 20 years relating to food shortages of particular types, such as the sugar shortage, the coffee shortage and jar lid shortage that occurred in the past decade, and other experiments to see how the shortage of certain staple commodities and necessities would effect the masses; all of this has gone into a kind of computer programming which is used by these forces to determine the manner and degree of response from the masses.

This Awareness indicates that the book which has been released under the title *Silent Weapons for Quiet Wars** touches upon this kind of experimentation and social engineering. This Awareness indicates that the coming crisis as that which will introduce and bring about the currency exchange. It is all an orchestrated movement to create a world-wide situation that will be remedied by introducing a currency that can be controlled by a central world banking system so that all money transactions can be monitored and followed electronically.

Bar Code on New Currency Will Leave Paper Trail

This Awareness indicates that the bar code on the currencies that will be issued during this crisis are those that can be read by scanners in such a way as to leave an electronic paper trail showing who spent what, where the money went to, what was purchased, and to whom it was sent, so that everyone can be monitored for tax purposes or for other business activities involving the movement of currency. That this allows the central banking systems to have total control over the knowledge of

currency movement throughout the world, in relation to those countries and entities using the currency of various nations.

This Awareness indicates that this serves as a step for creating a centralized world order wherein the monetary system first is created and then the political system is to be put into place following this monetary control and world monetary networking. This Awareness indicates that the political establishment and alteration always follows the monetary situation when being introduced in a country or in this case, in a global society.

The New President Can't Alter the Scenario

This Awareness indicates that the preparation for this appears to be such that it matters not who becomes the next President of the United States because it is not within the power of the President to alter the events, and it is targeted for the events to begin in Japan, so it will appear to be out of the hands of those who are involved in the United States and European banking systems. This Awareness indicates that it is suggested that entities who have assets which they seek to preserve consider putting many of these assets into some kind of currency or small items of value that will retain value, even in depression times, such as art or antiques or gems, jewels and such as precious metals. This Awareness indicates the time will come when these become most valuable.

This Awareness suggests that it appears there will be certain indications coming in the next year. This Awareness sees early spring and late summer or early fall as being times of possible disturbances in the economic field. This Awareness indicates that the crisis can begin in a minor way and escalate over a period of considerable time so that it is not seen as something happening all at once. This Awareness indicates that it appears there will be a period of considerable depression or very low period for economic affairs and that following this in approximately 1991 or '92, the new currency will be issued.

This Awareness indicates that this scenario has been carefully planned so as to make the entire change toward a one-world currency system appear to be reaction to accidental or unplanned circumstances. This Awareness indicates that there is always given that appearance that things "just happen," because entities do not understand enough about the economy to truly keep things in order and secure. This Awareness indicates this is far from the truth. The things that occur and appear to be accidental or haphazard are in fact planned and everything that follows is already understood before the actions begin.

It is likened unto seeing one of those diagrams made of dominos in which one domino being pushed pushes thousands more in a design so that they all eventually end up pushing each other over. This Awareness indicates there will need to be more information on all of the upcoming changes as things begin to move more in that direction. This Awareness suggests that there is at least six months of relatively stable economy and for many entities at least one year; that for those who have money in certain forms of investment, there may be some disturbances beginning shortly after the election and following in the spring of '90.

* For more information on the book *Silent Weapons for Quiet Wars*, please refer to 'Revelations of Awareness' issue No. 88-8 (An Opportunity to Turn the Table on the Beast); \$2.00 from C.A.C. A copy of this book is also available for \$5.00 from:

Cosmic Voyage, PO Box 1116, McMinnville, Ore. 97128. (Awareness wishes that this particular book be scattered far and wide as quickly as possible. Quantity prices are available at the above address.)

Lindsey Williams is also the author of two books highly recommended by Awareness, which show the mindset of the conspirators and details in simple terms the coming scenario. These are: *Syndrome of Control*, and *To Seduce a Nation*, both of which are available from CAC for \$5.00 each plus postage. (See Price List Catalog). For more info on the scenario, please refer to 'Revelations of Awareness' issue No. 88-8 (An Opportunity to Turn the Tables on the Beast): \$3.00 from C.A.C.

...THE COMING "NEW ORDER"...

THINGS YOU SHOULD KNOW ABOUT THE COMING NEW MONEY

(THE PRINCIPLE OF COGNITIVE DISSONANCE)

(FOLLOW-UP QUESTION):

Merril Jenkins, the author of *Money: The Greatest Hoax on Earth*, invokes the principle of Cognitive Dissonance; that is, that people will not accept the truth when they are exposed to it if it conflicts with everything they have learned in the past. People believe for example, that the paper notes in their wallets and purses are actually money, but nothing could be further from the truth. Then that principle of Cognitive Dissonance must apply to things other than just money. Right?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. It is likened unto the training of a rat to go to a certain button, to push that button and to always receive food from that button. This Awareness indicates that if the rat is thoroughly trained to push that button and there is another button which has never produced any food, and the use of the buttons were to be changed, so that the second button is now the one which produces food, or brings forth the food, and the button which has always functioned before does not bring forth the food; the rat would be at a great loss and find it most difficult to give up on pushing the first button because it is the one that has always produced the food.

This Awareness indicates likewise, with entities who have always been able to count on the banks or on business to accept their Federal Reserve notes, and their Federal Reserve notes have acted, and spent just as has money before that, then these entities becoming conditioned through the belief that the Federal Reserve Notes operate in the same manner as money did before, are not likely to believe that there is any difference; because they look similar, they have similar designs and drawings and therefore, they must be the same, since they do the same thing also.

This Awareness indicates however, the money of this country having long been withdrawn from circulation and replaced by Federal Reserve I.O.U. notes is totally missing from most business transactions, and the public is satisfied to use the Federal Reserve notes, in lieu of money, to the extent that most entities don't really understand or realize there was a change in currency. This Awareness indicates that information regarding this has been given previously, but for those who are new to this understanding, they need to realize that the Federal Reserve Bank is a privately owned bank, issuing notes that are not actually United States money. They are simply bank notes based on the Federal Reserve Bank, which is privately owned, and which is totally separate from the Federal government, except in name and its influence, and contracts with the government.

This Awareness indicates that as entities begin to find changes occurring in their pocketbook, they will become panicky; there will be great social distress and confusion and in many cases, conflict. It will be a time in which certain heavy laws and actions of legal or law-enforcement will be brought to bear heavily on the masses, along with propaganda and directions herding the masses into complacency with the 'New Order' that is being set up; that the directions will be given over television, radio and through other bureaucratic outlets of information in such a manner as to herd the people, much like sheep or cattle into the structure being set up for them, that they might participate without resistance into the 'New Order' being put in motion.

This Awareness indicates that those who do resist will be handled with a kind of quietness, as much as possible, attempting to direct them, but there will be a definite firmness that may surface at times in expressions of violence or in expressions of injustice in terms of the legal system. This Awareness indicates there will of course, be those who object and organize in their voices, in their objections, and it can lead to a schism among the masses: those who comply as sheep, and those who resist or stand in conflict with the efforts to herd entities toward the 'New Order'.

This Awareness indicates that these things will need to be scrutinized carefully in the future, that entities might be better able to discern the nature of response needed. It will depend much on the degree and nature of the events promoting this change. This Awareness indicates that there may be efforts to keep any disturbance to society at a minimum, or there may be that effort to deal heavily with the disturbance, depending on how threatening any disturbance may be in terms of reaction from the masses.

The Homeless Street People are a Testing Field

This Awareness indicates that much of the ignoring of the people during the past 8 years in terms of allowing many people to lose their homes and jobs, to become street people; much of this is also part of the total scenario, whereby they have been watched to see how they behave in society when faced without job or home, for this may be more widespread in the future and it is necessary for these social engineers to understand what kind of reaction to expect from the masses.

This Awareness suggests the next question be asked.

**IF YOU DON'T PLAN TO HAVE A GARDEN
THIS YEAR, IT MAY BE TIME TO CONSIDER ONE
(IS THERE AN ALTERNATIVE TO HYBRID SEEDS?)**

(FOLLOW-UP QUESTION):

I was going to ask if that food shortage, whether real or imagined that Lindsey Williams talked about is planned, would it be wise for people in this country to go back to planting victory gardens and canning foods like they used to do, or would this be where the government would even confiscate vegetable seeds as indicated once by Awareness as a possibility?

COSMIC AWARENESS:

This Awareness indicates that already many of the seeds that are presented on the market are hybrid seeds which will not yield further seeds of significance or capable of growing a second crop. This Awareness indicates however, that the value in planting your own garden cannot be overemphasized, for wherein you can have food available from your own garden without having to depend on the markets, this is a very valuable resource for any individual, and a kind of security against the storm.

That likewise, the storing of grain can be valuable. This Awareness suggests of course, there will always be those other sources through regular channels, including the food stamps or ration coupons which can have much influence and become available for many entities during part of the crisis, to rely on these things. This Awareness suggests that it is best however, not to be totally reliant or to put yourself in a position where you must rely on handouts or rationing coupons. It is better that you have some other source also as a backup.

This Awareness indicates there can, of course, in the worst scenario, be laws passed which would make the hoarding of grain or food illegal, or which might even make the ownership of....This Awareness indicates it does not appear there would ever be any hindrance to the ownership of tools and the growing of goods in gardens, unless some city ordinance prevents the planting of gardens in certain sections of a city that would perhaps hinder some entities in some areas if their neighborhood was such as to refuse entities the right to tear up lawns or put in gardens in particular areas, but for the greater number of entities it does not appear likely that any action of their planting of victory gardens would be made illegal, because it is such an inherent right of entities to use the soil for growing.

This Awareness indicates *It* sees this alteration, if it occurs, in this manner or even in a sudden and very serious and heavy manner, *It* sees this as that which would bring hardships, but that people are capable of adjusting and getting through these difficulties. This Awareness suggests some of the greatest crises would be in regard to the emotional reactions of some entities to having their comfort zones sabotaged, and these many

entities might react in imbalanced ways so as to create civil disorder and difficulties for one another; and because of this, there will be much effort by those who are in position to help talk, guide, and direct the masses, so that they quietly follow directions with minimum disturbance.

ED's Note: When Awareness gave the 'Gathering Storm' readings 10 years ago, one of the scariest possibilities indicated was that garden seeds would be taken off the market. At that time CAC did much research to see if alternatives did exist, and at the time about 6 small companies, or gardeners were found who offered non-hybrid seeds to those seeking same. Of course, if things should get as heavy as indicated it might, these outfits selling non-hybridized seeds would be quickly put out of business by the powers that be, for they are certainly aware these people exist. At the moment, there is still one company still advertising (there are probably more) that I know of, and it may be to your advantage to write to them and get their catalog in case things start coming down on us, economically speaking, in the future. This company is: Abundant Life Seed Foundation, PO Box 772, Port Townsend, Washington, 98368.

Most CAC people who have been with us through the last 'crisis', have made a vegetable garden a part of their way of life, if for no other reason than vegetables that have good natural flavor are simply not available in the supermarkets. Staying healthy is another good reason. If you check with your local farm and garden store, you will be amazed at the number of books available on how to start a simple garden, even in portable pots and trays, window flower beds etc. Vegetables can be planted among your flowers and shrubs. I have seen a tomato plant in a window box that climbed several stories high, providing enough tomatoes for several families. It is amazing what can be raised in the smallest spaces. If you don't have space for a garden, consider going in with a neighbor or two, or getting permission to use a vacant lot. In Seattle, so many wanted to garden but had no room to do so, that they petitioned the city of Seattle to provide a community 'Garden Patch', which it did, and for a small fee of about \$5 you can rent a portion of the patch and grow anything you desire, weeding it and watering it and tending it like you would a garden in your own back yard. It might be a good idea for people in cities to get a program like Seattle's going. For even if things don't get as heavy as indicated, gardening is just plain fun and a nice outdoor activity for people of all ages. For many years the Garden Patch in Seattle has produced so much produce that a huge surplus resulted, which was annually given to the Food Bank to help feed Seattle's homeless. There are many good reasons to garden these days.

Nation's farmers worried as drought threat remains

The Associated Press

Farmers shellshocked by the 1988 drought are worrying anew whether the unusually warm winter will break, sending them the precipitation they need for next season's crops.

"There's a pervading omen, a feeling of ominous concern. I sense it with other farmers. I sense it with the salesmen of agricultural products," said Joe Summer, a corn and soybean farmer in McLean County in central Illinois.

Parts of the county have received 25 inches less rain than average in 22 months. For the first time in 45 years of farming, Summer is taking out multiperil insurance on next season's crop.

The warm, dry winter had something to do with that decision, he said, but so did bad crops in six of the last eight years in what used to be the nation's top corn-producing county.

"We're all beginning to get a lit-

tle paranoid about it," the 62-year-old farmer said. "There is no frost in the ground. This unusually warm weather is strange. It is a harbinger of some sort, I think."

According to the National Weather Service, severe to extreme drought conditions continue in much of the northern Great Plains, northern Rockies and parts of the Midwest.

The weather service's most recent precipitation map shows extreme drought in Montana, the Dakotas, central Minnesota, eastern Iowa, northwestern Illinois and much of Wyoming, eastern Idaho, central Washington and eastern Oregon, said meteorologist Dave Miskus of the Climate Analysis Center in Washington, D.C.

However, the most recent 30-day forecast calls for above-normal precipitation, said meteorologist Edward O'Lenic, also of the Climate Analysis Center.

Daily Olympian, Jan. 28, 1989

WHY IS THERE
SUDDENLY
SO MUCH
CHILD ABUSE?

QUESTION:

A question from E.O. in Canada. "Loving Cosmic Awareness, it seems that on all the TV talk shows, --Donahue, Opra, Sally, and so forth, that even on the news periods, children are being shown to be abused mentally, physically and spiritually. They are raped and killed by their own parents, priests, relatives and of course, strangers. Seeing that there is an influx of "New Age souls:" Are they suffering these experiences to bring about a change so that society will be more aware of this cancer and send light in this area?, or are they incarnating in these situations because of personal karma, or perhaps because they have no better channel to enter this world; and finally, all of the above?"

COSMIC AWARENESS:

This Awareness indicates there is a phenomena occurring here that occurred mostly because of the mass communication available through television. This Awareness indicates that children have *always* suffered at the hands of such beings; that there has been in fact, even greater suffering in the past than in present time; that the abuse in the past has been more from parents and guardians; that there are now more abuse factors beings exposed in regard to strangers,

6. but it is historically more common for children to have been abused by parents and those under whom they have been entrusted.

This Awareness indicates that in the past however, no one bothered to object to the way others might raise their children. In the past no one interfered with another's family or their behavior, unless it spread out into society outside the family. It is only recently that the abused child has become a subject of discussion in society; that incest has gone on for centuries but has been the unspeakable sin, whereby families never discussed these things openly in society.*

This Awareness indicates that what is happening in terms of abuse is not new; what is new is that it is being discussed openly, and this is a great benefit to society; that it is now being looked at and talked about, and people are becoming concerned enough to take some kind of action, to demand laws, to demand stricter sentencing and greater enforcement of the laws against such abuse; that as this become more and more prevalent in terms of the exposure of these errors, there will be a diminishing of the causes for child abuse.

This Awareness indicates that you will remember that every age is ruled by the sign opposite, and in the Aquarian Age, the sign opposite is Leo, and that Leo rules children. This Awareness indicates the Interpreter ten years ago predicted in his booklet *Predictions For The Aquarian Age*, that there would be child-worshipping cults that sprung up. This Awareness indicates that these may not be typed cults in the normal sense, but there will be that concern by most entities that children be given greater opportunity to grow in a protected environment.

This Awareness indicates that the protection of children as they grow up in this society will become a key concern of entities during this age. This Awareness indicates that in this sense, the children who are coming into this sojourn at this time, are experiencing the kind of violation that all children have suffered throughout time, but are becoming the focus of attention during this New Age sojourn, and these shall be held as martyrs for the purpose of changing the social attitude toward child abuse so that it can no longer function.

Parents Will be Held Liable their Child's Behavior

This Awareness indicates that more and more parents will be held liable for the way they raised their children. That in another aspect, more and more parents will be held liable for the behavior of their children; when children behave in such a manner as to violate others during the future years, this will come down on the parents of the children so that they need to be more attentive to their children's behavior as it affects others in society.

This Awareness indicates that in order for this to be properly balanced, in terms of a just society, there will be established children counsellors, or what may be termed overseers or agents of the community whose sole purpose is to look after the children so that if the parent cannot properly handle the child's behavior, the parent can call on the counsellor or

the agent to assist in counselling the child, in helping the child. This Awareness indicates that this appears to be something which will come out of government programs, such as a Child Services Division of Child Services Programs, whereby agents of the government or the state can be asked by parents to help them with their child-raising efforts and if the parent does not seek such, and the child gets into serious trouble repeatedly, then the parents can be held responsible. This Awareness sees this coming around the turn of the century as a new policy to curb juvenile delinquency. That these agencies would also be available when there is any inclination, indication or rumor that parents are abusing their children, parents or guardians, that is.

*ED's Note: For an indepth report on incest, how it is caused and how to deal with it on all levels, please refer to 'Revelations of Awareness' Issue No. 81-25 (Cosmic Awareness Speaks on the Unspeakable Crime: Incest); \$4.00 from CAC.

The booklet, *Predictions of the Aquarian Age*, is out of print and is no longer available.

**SOME CHILDREN ONCE GROWN
ARE SUING THEIR FATHER FOR ABUSE
(IT IS INNOCENCE THAT ATTRACTS THE ABUSER)**

(Follow-up Question):

There's so many stories in the media now of these children who were abused by parents or guardians, and they were so guilt-ridden and traumatized, that when they grew up, some of them are actually suing their own father for doing this, and to get the courts to keep him forever away from them, and so forth. I'd like to ask: Is this yet another version of what Awareness previously referred to as the murder of Christ, in some of these actions?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. It is the innocence of children that often attracts these abusers to them. They feel that because the children are so innocent or because the children are so unable to protect themselves, are so vulnerable, that there is nothing that can be done to them, regardless of whether they abuse the child or not. That this gives them a sense of power over the child, and they can express themselves with that power. If they happen to have sadistic tendencies that they cannot express against anyone else, they feel they can express this against the child and there is no recourse for the child to respond.

This Awareness indicates that of course, things are changing so that the child does have the beginnings of recourse. This Awareness indicates that in the past, it was not simply or only the parents who might abuse the child, but even school teachers could abuse children and it was not always sexual abuse. There have

been many other forms of abuse. Most entities nowadays think of child abuse as involving sexual activities, but there have been other kinds of abuse which were also highly damaging to the child.

**WHERE IS "JUSTICE" WHEN YOU
MARCH FOR PEACE?**

(MANY VERSIONS OF WHAT IS 'JUST')

QUESTION:

A question (not really a question), from Mrs. J.R., it's just a statement, but I'd like to ask Awareness whether *It* agrees with this. She writes: "Dear Avaton. I certainly have no objection to holding an attitude of love or good will, but it seems to me that all those who join in peace marches and similar demonstrations never consider the most important thing: there can be no peace without justice. Our Pledge of Allegiance ends with 'liberty and justice for all.'" When all men deal justly with one another, peace will automatically be established. For that reason, our greater effort should be to correct all injustices, wherever we find it."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; the difficulty however, is in the manner by which entities seek to correct and to justify. This Awareness indicates that so long as they are relying on military weapons or weapons of force to enforce justice, in the sense of ridding the planet of all those who do not agree to their version of justice, it cannot likely be beneficial in terms of bringing about a lasting peace, for there will always be those who are ready to bring out the whips to enforce justice, according to their version of what is just.

This Awareness indicates that when *It* advocates the peace movement or option of working toward peace, *It* refers to actions of negotiating; that many of the problems which have been dealt with by using the whip and gun could have been resolved just as easily if a smaller amount of money had been put into training negotiators. This Awareness indicates that entities can sit and talk and reach some kind of balanced and equitable solution so that neither party feels they have been violated, so that each party feels there is justice in the solution, and thus, peace can come through negotiating for something which is just.

This Awareness indicates that too many entities prefer the more direct action of military might or weapons to enforce what they consider to be just, in spite of the violation the other side might feel. This Awareness indicates that justice essentially requires that a balance occur between two opposing or conflicting sides; where there is balance there is justice, but when there is a violation implemented against one side, victimizing that side in order for the other side to feel harmony, that is not what this Awareness calls justice.

SHOULDERING RESPONSIBILITY

(TWO KINDS OF PEOPLE IN THE WORLD)

(Opening Message)

This Awareness indicates there are two different types of people in the world. There are those who seek to make others responsible for their needs, and there are those who are willing to take responsibility for their own needs. This Awareness indicates that in the case of the entity who looks to make others responsible, this entity will put forth in some form of expression, the need which he or she feels is urgent in his or her life, will present this to others, perhaps to a close friend, one or two persons in their life, continually expressing what they need, and extending the intent or hope that this person will do something about this.

This Awareness indicates that the entity may continually complain about things that are troublesome to him or to her, and expect that others will do something to improve the situation; that if things go wrong, this entity will blame others, will lament that others have failed in their duty. This is especially so when the entity does get some kind of response from the friend who says: "I'll see what I can do. I'll do the best I can. I'll try to help." When the entity does not help sufficiently, this entity who expects others to fulfill their needs will blame that other entity for having failed.

In this manner, the entity does not need to acknowledge failure on his or her own part to fulfill the requests or needs which he or she has. This Awareness indicates that these entities in general will always remain in that position of being the victim of circumstances. They will always see themselves as having, been victimized by others, or by circumstances in their life.

This Awareness indicates the other type of person as that entity who takes responsibility for fulfilling his or her own needs. This entity may ask for assistance from another. If that other fails to provide the assistance, the entity doesn't blame the other, the entity may blame himself for having expected so much from the other entity. The entity may also seek ways whereby he can find the solution to his problem through his own efforts. The entity, in seeking to find a solution to the problem through his own efforts, will hold himself to the task, and blame only himself if he does not achieve his goal.

This Awareness indicates that when things do go wrong for this entity, and the entity does not acquire or achieve that which he set out to do, this entity does not lament or blame others, nor does the entity blame life itself. He simply looks at the situation and asks: "What could I have done that would have made this work out better?" The entity will then seek to find some kind of solution to the need at hand and will continually work toward improving his own performance level in order to meet that need which he has.

This Awareness indicates that such entities indeed are taking responsibility for their own lives and will find themselves gradually improving their situations as they learn more and more how to achieve that which they set out to do. Such an entity will be much more inclined to reach his or her goals than the one who expects others to fulfill the goals for them.

(Closing Message)

This Awareness is beginning to suspect that there are more than two types of people in the world, and will go into this further at time progresses. This Awareness suggests the Interpreter be brought from trance.

IS THERE ANY SUBSTITUTE FOR VALIUM?

(SHORTCUTS TO NIRVANA?)

QUESTION:

B.H. of Mexico, Missouri, has a question about Valium. Evidently he is addicted to the stuff. He says: "One day I would like to look at one of those little blue pills and say to myself: 'I don't need this.'" And he says that this Valium supposedly works on the limbic system, but scientists do not know exactly how, and he'd like to know what is the mechanism of the action of this Valium, and what steps could one take to experience the effects of this drug without becoming dependent upon it? Evidently doctors are prescribing Valium to a lot of people.

COSMIC AWARENESS:

This Awareness indicates that much of this information is available on the drug. This Awareness suggests that there is not seen clearly any steps to stimulate the same effect without using the drug; that the entity can develop calmness and relaxation by attempting to normalize his system; that to attempt to get a drug reaction, which is an extreme demand on the body chemistry through some natural means, is not easily found. There are of course, those ways whereby entities can reach nirvana and find peace and harmony in life through the more conventional methods such as meditation and character growth and the normal efforts which entities have been taught through activities of developing clear and proper attitudes towards life and toward events, but when an entity wants a quick solution, some kind of immediate results, this Awareness does not see a substitute. You cannot simply take your finger and poke yourself or push a button in order to have the effects of Valium.

This Awareness suggests that you may substitute other substances such as the use of the homeopathic product called Calms, which is composed of herbs that help you to relax, but it is not quite as strong and forceful as Valium. This Awareness asks the question: Why do you need that kind of artificial experience? What is wrong with normalcy? What is wrong with the life as it has been given to you? Is there a way in which you can deal with reality?

DOES A SOUL HAVE THE RIGHT TO SELF-DESTRUCT, OR DOES GRACE SAVE IT?

(MORE ON CIMMERIA, HADES & CELESTRIA)

QUESTION:

A question from E.O., in Canada. "This is a question on an old mental/intellectual debate or discussion. Since we have "free will", many believe that we can eventually choose as a soul to dissipate its energies to a point that it is nonexistent or dead. But on the other hand, some believe because of "grace" we are eternally saved from our self-will destruction. As for myself, I believe this is duality-thinking, right or wrong, good or bad, life or death. I know for myself, that as we are a soul, an atom in the body of a Cosmic Being, we are made of the same core essence, an identical microcosm of the Source, therefore, all that it is, or awareness simply is, so the I Am that I Am that I Am, will eternally be. Does Cosmic Awareness see this as a truth or as being valid?"

COSMIC AWARENESS:

This Awareness indicates that this as being correct in the sense of needing to be clarified somewhat. This Awareness indicates that the soul itself is something which exists as a kind of essence, but there is that which can be considered an accumulation to the soul, and the accumulation can include many aspects; the aspects may be brought in from experiences, and from evolution or growth to the soul; the acceptance of certain attitudes or beliefs, the manner by which the soul organizes its attributes; the relationships which the soul establishes; the changes which the soul undergoes, the refinement and values which the soul develops; the nourishment to the soul, the expression of the soul, the manner by which the soul expresses itself; the way by which the soul distributes its energy and service to others, the way by which the soul relates to others; all of these things are addendums to the essence of the soul itself, and in this manner these things can be dissipated to some degree if the soul does so choose, or the soul may become somewhat lazy or retarded to the point where it doesn't really build up these aspects sufficiently.

Souls Grow and Develop or Decay and Dissolve

You must understand the soul is in the process of growing and developing or may be in the process of decay and dissolution. In understanding this, the seed which is the soul, the essence which is the soul, may remain intact itself while failing to develop other qualities. This Awareness indicates that if you will recall the information given on Celestria, Terrestria and Hades, that there is also an area called Cimmeria, and in Cimmeria there is that seething unconscious in which the souls of those who were totally unredeemable may be placed, whereby they do not have much individuality, but whereby they exist in a kind of unconscious existence.

This Awareness indicates there are very few who ever get to this state of existing. Most souls are eventually redeemed and continue to develop, so that they have an individuality and identity that follows them from place to place in Celestria, Terrestria, or into Hades, and that these souls can move about, moving out of Hades, for example, into Terrestria, and from Terrestria, into Celestria; that souls can even move from Celestria back into Terrestria, in order to accomplish certain things or assist in certain projects that may need to be done in Terrestria.

This Awareness indicates that the soul is more or less understandable as a kind of immortal entity in a realm that itself is immortal, but metaphorically parallels the life in Terrestrial levels or physical levels, wherein an individual can go from very restrictive and unpleasant states of existence into higher and more joyful states of existence. You do not need to dwell forever in unpleasant states, nor are you guaranteed that you will forever dwell in pleasant states while in physical form, or even in spirit form.

Wanderers Have Option to Return or Split to Higher Realms

This Awareness indicates the difference however, is that when the soul is in its spiritual level, especially when it is in Celestria, it has the choice of whether to move back into a Terrestrial experience. Some souls choose that action because they are concerned about helping to raise the vibrations and bring others from Terrestrial experiences into higher frequency experiences. This Awareness indicates that these entities have been termed Wanderers; that they select the option of going back into physical being in order to help bring a more quick growth to those civilizations in the Terrestrial realm, that they might more quickly extract themselves from the pain and suffering of the Terrestrial experience, and go into higher more Celestial experiences.

This Awareness wishes you to understand: Terrestria, Celestria and Hades are not necessarily different places, they are simply different degrees of vibration and different states of being. One can be miserable, and feel themselves in Hades, even while in the most beautiful cathedral, wherein others may experience heavenly bliss. This Awareness indicates it is the frequency and vibration that determine whether one is in Hades, Terrestria or Celestria, although there are also different frequencies affecting the way in which a mind perceives itself.

For example, the entity who is in a physical body may not be able to perceive Celestria with his or her physical senses, because the senses do not extend or function in such a manner as to see those higher frequencies of Celestria, but even so, the feelings an entity has may to some degree experience the bliss of Celestria, even while in physical form.

DORE'S VERSION OF HADES

--IS IT IMAGINATION OR FACT?

(Celestria Encompasses Other Levels)

(Follow-Up Question):

That seething pit of energy of the really decayed and dissolving souls reminds me of some of the illustrations the entity Dore, pronounced Door-ay, did for the work of Dante's *Divine Comedy*, where Virgil was being escorted through the infernal regions.

By any chance, were those illustrations inspired or were they more or less fantasy and the imagination of the illustrator, or do such places as he depicted actually exist in the Hades area?

COSMIC AWARENESS:

This Awareness indicates that these were essentially inspired through the art of this entity. This Awareness wishes to clarify also that Celestria is not simply a place, nor does it necessarily exist only on one frequency. It is a term that encompasses several levels; that the level known as heaven is on the 4th plane; that there is that which has been referred to as Sach Khan, which is the area of frequency in which souls are created, that being in a higher level of Celestria; that Celestria as being considered as encompassing all of these levels; essentially, Celestria as that which includes all of the levels above the physical and astral planes; that the astral plane as that which is a kind of bridge between Celestria and the physical.

THE HEAVEN PLANE

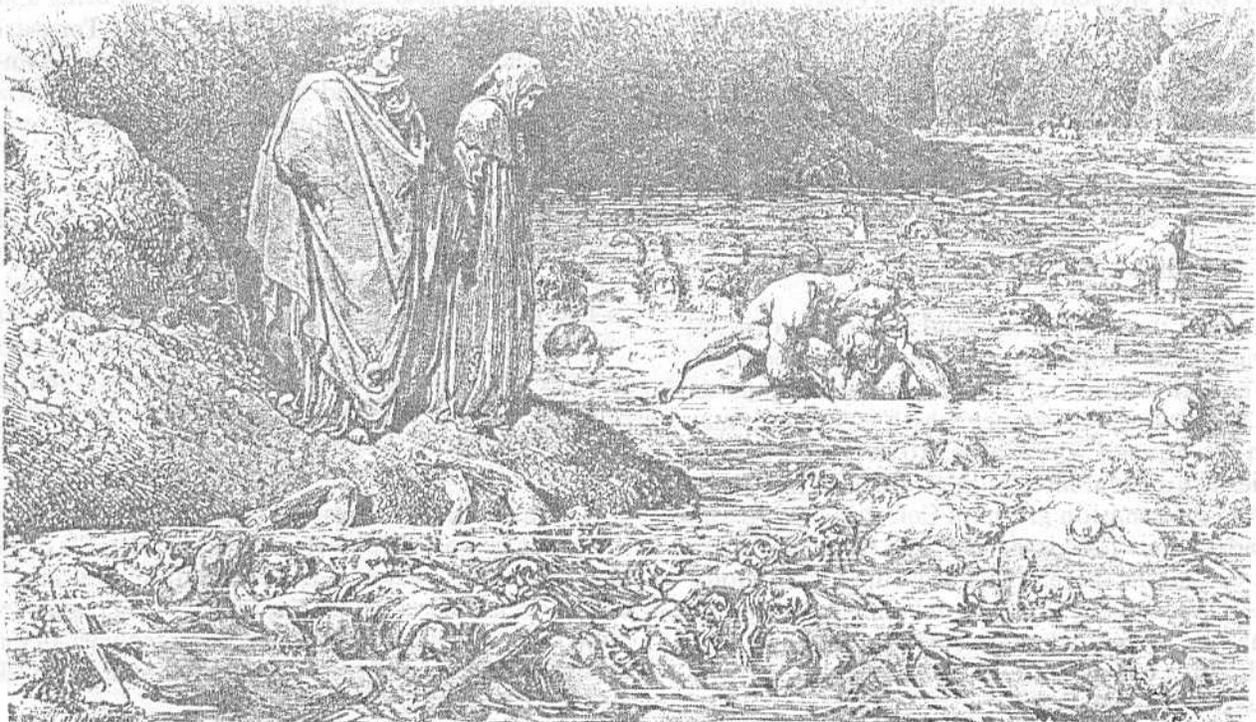

(Follow-up Question):

Awareness just indicated that so-called heaven is on the 4th plane. Which plane exactly? Is this a mental plane?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that this is a plane that is still within this general realm of the area which might be considered as under the rule of beings who dominate the Terrestrial realm. There are many entities who can in fact move into that which is termed heaven, but these entities are not necessarily finished with their sojourn. They can be returned to physical incarnation from that level. In the teaching of Sant Mot, they are still under the rulership of Kaal, who rules the physical realm, and Kaal can still bring them back into physical from, but when entities move beyond that 4th realm or level of heaven into the higher realms, especially that known as Sach Khan, there is no way in which Kaal can bring them back. They then are in the realm of the Higher Creator, the origin of the souls, and have essentially returned home.

This Awareness indicates there is always that choice from those levels whereby the soul could, by its own choice move out again; that once an entity has moved into such higher levels and returned again, it is not ever again subject to the control of Kaal, it is ever free to return to Sach Khan. This Awareness indicates that this as the path of the soul in its evolution and development. This Awareness indicates that it can however, move around in different directions, depending on whether it chooses to follow the correct path, or chooses to follow other paths based on other enticements and diversions. There are always those lures that call for the soul to follow.

Ulysses an Allegory of the Soul's Travels

This Awareness indicates that entities may wish to attach their soul only to that which is the highest, in order not to be pulled off course by these lures. This is essentially the story of Ulysses, tying himself to the mast of the ship while allowing himself to hear the call, the lure of the Siren,--the entity wanting to hear these things, yet not wanting to be entrapped by them, thus tying himself to the mast of the ship, while the crew plugged their ears and sailed on beyond the island of the Sirens. The entity was able to experience and satisfy his curiosity as to what their sound was, while remaining on course.

This Awareness indicates this story of Ulysses in the classic Greek version is that which may be seen as an allegory or metaphor of the soul in its travels and evolution.

DO RETURNING WANDERERS RETAIN THE MEMORY OF THE LAST INCARNATION?

(Follow-Up Question):

Those entities Awareness referred to as always being able to return to Sach Khan if they want to; if they do go out on other experiences, do they retain that memory, or do they sort of lose it, like entities coming into this plane, and they're taking a calculated risk that they can get enmeshed in more karmic situations that might get them entrapped again?

COSMIC AWARENESS:

This Awareness indicates they retain the subconscious memory of who they are, and they generally would enter into circumstances which would allow them to perform as they had intended upon return to this plane. These entities may not have the absolute clear memory as would one who returns from a vacation, showing slides and telling about the place where he or she had been, but the entity will have the knowledge within the feeling level. They will know that they have a particular purpose in being on this plane, and they will have that unconscious feeling that they really don't need to be here, but they are here by choice for this purpose they have chosen.

The Higher Frequencies are Explained

This Awareness indicates they also have the comfort of knowing that when they are ready to leave they will be alright, they will be delivered safely to a better place. They may not know or understand exactly the appearance of that place, or where its location is; that is because the location is not subject to third dimensional understanding. It is not located in 3rd dimensional status, it is a vibratory place, a place of frequency and lies far beyond physical existence. This Awareness indicates if this is not clear, consider what would happen if one went from a physical being into a frequency of a radio beam and became part of that realm of radio beams, or if one went from physical being into a higher frequency to become a beam of light. How can you remember when in physical form what it was like to be a vibration in a beam of light?

How a Black Hole Works

This Awareness indicates that these higher frequencies are physical realms to those who inhabit those frequencies. A beam of light is absolutely solid to one who is a similar vibration to that beam of light. This Awareness indicates that even what you consider to be physical earth and rock is vibrating at a particular rate, and if you were of a heavier nature, if your vibration was much heavier than that of the rock, the rock would seem to you to be more of a gas, more nebulous than real, thus the black hole can absorb rocks and matter just as easily as you can breathe air, for to the black hole, with its extremely heavy density and gravity, that which you consider to be physical, physical earth and rock is nothing more nor less than light matter. It is in fact frequencies of light in condensed form, with enough gravity to cause the light to curl back on itself in spirals, creating atoms, which when linked together create molecules, which in turn create objects and things which are tangible to beings who are capable of sensing in a tangible way, but all is light, until it enters the black hole, which is extreme darkness and gravity. This Awareness indicates that it then resurfaces from the black hole as a star on the other side emanating energy out into another light realm or dimension.

Every Entity has a Personal Black Hole

This Awareness has indicated previously that every entity has within the center of their being that which may be termed a black hole. If one enters into that black hole, the entity comes out in a different dimension, and this occurs whenever the entity goes to sleep and dreams, for example, or when the entity goes into a deep meditation and exits into another dimension, it is passing through that personal black hole. Every living thing that has life, every seed has that quality of the black hole. Every time one dies and passes out of one's body, or whenever one is born and comes into this dimension, they have passed through a black hole, and the same occurs in universal space.

The sun is an outlet from a black hole. Energies rushing from another dimension toward this which is the sun and we see the outgrowth from those energies that have been drawn in, the rays that come out of the sun are the other side of a black hole which lies at the center of the heart of the sun. All is polarized with two universes, one of darkness and one of light, superimposed upon each other in which the positive and negative exchange energies through holes in the grid, and these holes in the grid are starry objects. This Awareness indicates that this grid may be thought of as threads or as bubbles which come together and touch each other at those critical places which are considered or thought of as threads; that there are now certain sciences that are beginning to emerge with an understanding or new theory of the universe, one theory being that it is created from cosmic or space bubbles and that the clusters of stars come into existence when the bubbles merge together and create points of juncture and there are also others with a theory that threads, which are sent out in space from the Big Bang, millions, billions of years ago, still remain in space and are of such heavy

gravity that these threads, some being light years long, are as thin as would be a virus, or more than that, so that they would be invisible to the naked eye, yet would have the gravity greater than that of the earth and extend through space as a remainder of the Big Bang and the movement of energies from that.

This Awareness indicates that this is as difficult to understand; that the easier way to understand this is to visualize a grid in the universe where things come together, the energies from darkness and light merge and create starry light and matter transfers from the connection of positive and negative atoms, so that there are creations occurring on both sides of the grid so that there are parallel universes inhabiting the same time and space, whereby the one cannot see the other.

ED's Note: for more info on black holes, please refer to 'Revelations of Awareness' issue numbers 81-18 and 82-23; for more on Hades and Celestria, refer to, 81-27, 78-19, 83-13; Cimmericia, 78-35, available from CAC.

IS IT TIME FOR A NEW BOOK ABOUT CHRISTIANITY IN THE NEW AGE?

(INTERPRETER'S BOOK WILL CONFOUND FUNDAMENTALISTS!)

QUESTION:

The Interpreter was discussing with us last night over dinner that he had an idea for a book tentatively called *Christianity In The New Age*, and he was wondering whether such a book would sell nowadays, or would it be profitable enough to put that much energy into it. I told him I thought it was appropriate at this time and it could become a best-seller. Could Awareness comment a little bit on whether such a book would be timely, and would it pay the Interpreter to put energy into such a project?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative, that *It* has been impressing on the Interpreter's consciousness to move in this direction. This Awareness indicates that by the time the book is completed, the consciousness would be ready for such information. This needs to be done in a balanced way so that the concepts of Christianity as held by the masses in that sense of exoteric Christianity are matched against or in comparison to the concepts of esoteric Christianity as has been given by this Awareness, so that entities can begin to see where there is the misunderstanding, the two versions: the simplified literal version for those simple minds and the more sophisticated and clear version of esoteric Christianity, which exposes that which Jesus was actually intending to teach.

This Awareness indicates by putting this into a book at this time titled *Christianity In The New Age*, it can become quite a controversial title which draws in from both types of thinking so that even those fundamentalist Christians might be attracted to find out what is being said along with the entities who consider themselves as New Age or metaphysical types, so that they

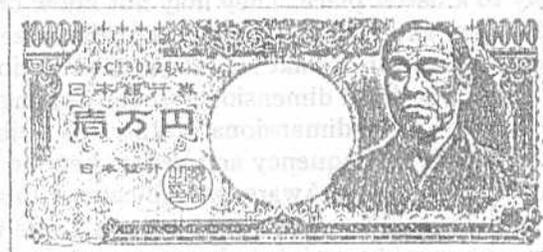

can see the merging of their earlier Christian background with the new metaphysical or esoteric meanings of biblical scripture. This Awareness indicates that this can be a powerful book in helping to merge these two philosophies so that a new interpretation and understanding can be brought forth; that it is time for humanity to reassess religion, which is in an almost archaic state by the interpretation many hold.

This Awareness indicates that for example, when entities begin to realize that there is life on other planets in this galaxy of billions of systems, that there are other beings out there in space, the question might come up: Did Jesus go to every one of those planets and get crucified so that they could all have the same religion, or is this just unique religion for this earth, for this certain short time, or is this the only religion and the only interpretation for this earth, and are all entities on other planets, in other civilizations condemned to eternal damnation forever because they didn't happen to be born in a Christian family on this earth at the right time?

This Awareness indicates there are very many questions that never occurred to entities 2000 years ago; there are questions that never occurred in relation to the new discoveries that are common knowledge to modern civilization. This Awareness indicates that it is important that entities be able to bring what is discovered by science and that which has been promoted by religion into a harmonious system which makes sense, so that the religious person does not have to remain ignorant of scientific discoveries in order to maintain spiritual understanding, and so that science doesn't have to see itself as looking at religion with contempt for being superstition, for there are certain aspects and interpretations in the religious system that can contribute greatly to science, if properly understood.

This Awareness indicates that *It* does wish the Interpreter to begin working on this as soon as is convenient.

Some of the new Japanese currency recently issued.

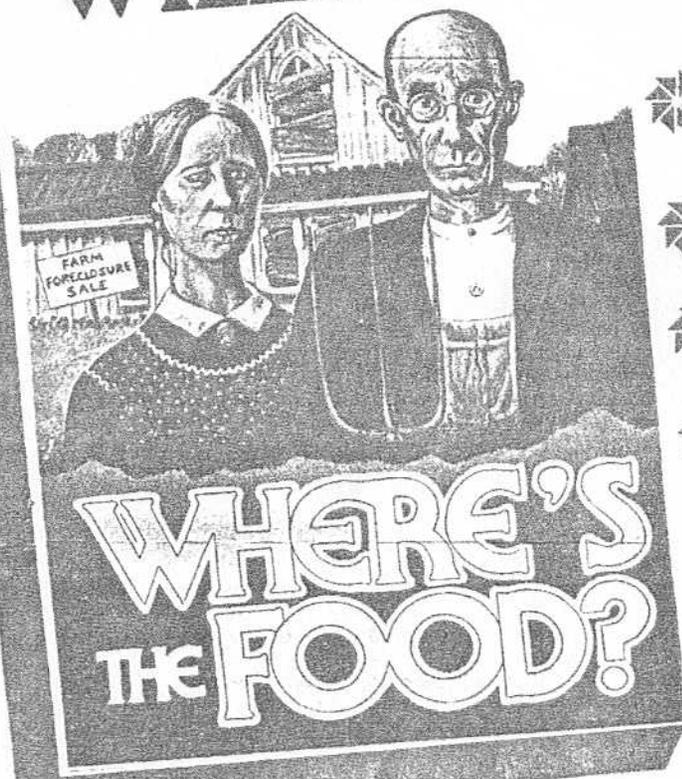

REVELATIONS OF AWARENESS is a cosmic newsletter, published for the membership of Cosmic Awareness Communications, & the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507. Membership fees and donations are deductible from your federal income taxes.

INDIVIDUAL & FAMILY MEMBERSHIP: \$30 per year. CONTRIBUTING MEMBER: \$52. SPONSORING MEMBER: \$144. PATRON MEMBER: \$1000. ENDOWING MEMBER: \$4000. TITLING MEMBER: One who observes the Universal Law of Prosperity by honoring the Source of their spiritual inspiration by giving the first tenth of their income.

NEW! NEW! NEW!

LINDSEY & TERI WILLIAMS

WHERE'S THE FOOD?

\$5.50
PAPERBACK

✦ The most startling book that has ever been written on this issue.

✦ Horror stories from across America personally documented with names and addresses.

✦ Truth that is being intentionally kept from people in the cities.

✦ Hunger in America?

✦ Moscow on the prairie?

✦ SOLUTIONS!
How YOU can help the farm crisis.

LINDSEY & TERI WILLIAMS
THE AUTHORS

Lindsey and Teri Williams are a husband and wife team, dedicated to the preservation of liberty in America. Both are the product of a rural upbringing and are greatly concerned about the current state of "family farms," resulting in this well-researched, up-to-the-minute book. Lindsey Williams, 30 years an ordained minister and internationally renowned author and lecturer, is widely known for his bestseller, THE ENERGY NON-CRISIS, an exposé of the energy crisis that never existed, followed by TO SEDUCE A NATION and SYNDROME OF CONTROL. Teri Williams is the author of a personal enhancement program for ladies, AMERICAN ELEGANCE, and co-editor of a French cookbook, THE MOUSSE AND ME.

PLEASE NOTE: Lindsey Williams is, among other things, an ordained minister, so his books often reflect that frame of reference. However, he has done his research well and has uncovered many facets of the conspiracy, which he outlines clearly and succinctly. Cosmic Awareness recommends the works of Lindsey Williams for this reason.

EVERY SIX MINUTES A FAMILY FARM DECLARES BANKRUPTCY!

- Does it matter if our food comes from family farms or corporate farms?
- Did the farmers bring about their own financial problems by "poor management"... or is there a worldwide plan to control our farmland?
- With all the productive land in America, could there STILL be a food shortage?
- Are we headed for "Moscow on the Prairie"?

SAVE OUR FARMS!
We all need to eat.

Whoever controls the food... controls us!!!

There are a few "elite" individuals in this world who believe it is their destiny to control our land and its people. Find out about their game plan from an international financial consultant who "spills the beans" for the first time ever! Read firsthand testimonies from farmers all across America who have had their farms confiscated by terrorist tactics. Learn from farmers what dangerous chemicals have done to their soil. Hear solid solutions for both farmers and city folks—from lawyers who are making progress in the courts.
It reads like "KGB" methods, instead of "Justice For All."
