BRINGING IN THE NEW AGE . . .

- SWEEPING CHANGES
- ECONOMIC FORECAST
- E.T.S' GO HOME !

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

## A MAJOR CHANGE IS SWEEPING ACROSS THIS PLANE-- DEMOCRACY AND FREE ENTERPRISE IS BECOMING A REALITY

( Seeds of Peace Being Sown for the New Age now Beginning )

### ED's Note:

The following is a C.A.C. General Reading given March 19, 1989. The reading is printed in its entirety.

### QUESTION:

Awareness, we're hear for another C.A.C. General Reading. Does Awareness have an opening message?

### COSMIC AWARENESS:

This Awareness indicates those entities who have been with this organization for some time may remember a reading in 1976 in which this Awareness made reference to the action of extending the concepts of democracy throughout the world,--this being likened unto a martial arts move, in which the energies that would come toward this nation as an oppression might be transmuted from a world order that would oppress the masses into one that would grant democracy and freedoms throughout the world.

This Awareness indicates that at that time, the message would have appeared odd or strange to the thinking of the masses, for at that time the appearance of encroachment, not only from totalitarian countries, but from the government allegedly of democratic nature also appeared to be encroaching on the freedoms of individuals. This Awareness indicates that even at this time there is still much of that encroachment upon the freedoms, but there is a genuine struggle as to determine how these freedoms can be preserved without such encroachment and still maintain a society that is not chaotic in the sense of individuals misusing their freedoms.

This Awareness indicates that at this time, some fifteen years later and into the next few years, democracy will begin to take greater and greater hold on the minds of entities in various countries. Marxism is seen as having failed in its purpose. Capitalism as becoming acceptable, even in Marxist countries, because it offers incentive and motivation to individuals to be creative, to be inventive and to be productive, whereas Marxism focused on the distribution of wealth, Capitalism focused on the creation of wealth.

This Awareness indicates that the distribution of wealth offers little incentive, and therefore, though whatever wealth is available may be shared, there is little incentive to create more wealth and the effect is to gradually diminish whatever productivity might be available except wherein some authority motivates the masses through threats of punishment; that this kind of external coercion does not produce the same effects in terms of productivity as internal enthusiasm for something beneficial.

This Awareness indicates the nature of free enterprise in which an entity is given the opportunity to better his or her life and the life of associates and friends, that entity, given that opportunity, will be more creative, inventive, enthusiastic, and will work more productively, and efficiently, to bring about that success. It is apparent, even to the more rigid communistic countries, that free enterprise is a more productive form of expression than the Marxist concepts of the distribution of wealth coupled with totalitarian government to enforce labor and production.

This Awareness indicates also, that a free society works to produce that which is needed by the masses, wherein countless numbers of entities are free to look for needs in society and to fill those needs. Those countless numbers of entities are much more effective in creating the various occupations, businesses, lines of production and services, than would be some central planner of a government bureaucracy who is attempting to figure out what society needs. As has been said: Nowhere in a totalitarian country planned by a central bureaucracy could the yellow pages have been created, this in reference to your telephone book advertisements in the yellow pages, for no one could have anticipated all of the various types of services and production that might be advertised in the yellow pages.

No single individual or even group of individuals, working as a bureaucratic body could possibly anticipate the needs of everyone in society, but given the freedom to choose and to indulge in open enterprise, countless numbers of entities find niches in which they can be productive and serve others with a product or service, a service that benefits others, and in so doing, can afford to advertise in the yellow pages. That this as the major difference between the free enterprise system and the Marxist theories.

Marx may have been expert in his concepts of dispersement, but not in terms of production of goods. This Awareness indicates that because of this scenario having been played out to this stage, there is now that change that is occurring on your plane. The advent of television and paperback pocket books, the information glut, plays a major part of this change also. This Awareness indicates that the realization that free enterprise is more productive in the long run and that the information being made available to masses is more beneficial than harmful; these two realizations and expressions that have come through open societies have outraced those closed societies of the Communist nations in such a manner as to bring about a major change in the face of reality on this plane at this time.

There are still tremendous problems, particularly associated with greed factors and the willingness of some entities to do 'anything' for money, wherein principles of decency are shuttled off into a corner, while entities work their magic of making money; yet, even with this problem, such as those associated with drugs and violence and crime that accompanies drugs, even with this there has been an improvement in terms of the changes that are occurring on this plane at this time.

Some are Crying: "Give Us Back Our Chains!"

This Awareness indicates that these changes are very promising, very hopeful in the sense that many entities are becoming anxious to regain freedoms that their parents and grandparents once enjoyed in many of these countries that are, and have been totalitarian for decades. This Awareness indicates that this is a fragile state for some of these countries, for many of the entities are not aware of how to deal with freedom; they are basically dependent on authority, and many of them are frightened of giving up that kind of oppressive security, even as once the Spaniards cried out: "Give us back our chains!"

This Awareness indicates that often entities who are used to being oppressed and controlled will feel naked and vulnerable when those controls are taken from them, for they cannot trust themselves, having never been taught to do so; that many of these countries being given their freedoms are apt to overstep and overreact to the freedom, while others within those countries will be quick to close gaps and try to form a substitute oppression for those that are being removed. There will be those who seek to set up new tyrannies for those who are willing to be reenslaved, thus, do not be surprised if some of these countries go through internal strife, civil strife, possible revolutions within.

This Awareness indicates that in the early 1950's, Eric Hoffer wrote a book: *The True Believer*, in which this entity indicated that those who have strong beliefs, who are of such a nature as to rely heavily on beliefs and on repressive internal or external forces to keep them in line, such as dogma or such as external forces of government, when those beliefs or when those dogmatic forces or those political forces are removed, the entities often become highly rebellious, and look for other substitute forces to oppress them, or look for other beliefs, even opposite of those which they have held.

This entity pointed out that many entities in Nazi Germany were vacillating between communism and Nazi ideologies, and that often their choice had nothing to do with the ideology which they embraced, but merely with the circumstances or the feeling of wanting to be on the right side, the winning side. The entity observed that many of these entities, in attempting to decide, were not deciding from the belief at all, since Nazi and Communistic views were opposed to each other, but were deciding more from who they knew, in which group, or whether they thought this group was going to win, and that the beliefs which they finally selected, were in themselves not the reason for their selection.

The Melting Pot Will Consume Moslem Fanaticism

Likewise, those who give up one religion which they have held in a fanatic stand may select a totally different religion which is just as fanatical because they are used to having fanatical beliefs, and they are not so concerned with the beliefs themselves, but with the fanaticism attached to the belief. This Awareness indicates that during the coming decades, the fanaticism associated with those involved in the Moslem countries as that which will become more and more a focus of attention. These intense beliefs as those which have not yet met with the strong influences of other cultures and beliefs as had occurred in Western philosophies and Western nations, whereby those such as in the United States, wherein entities may live next door to someone who is of a totally different belief: A Moslem, Mormon, Catholic, Jew, Protestant, Buddhist, whereby these entities can communicate with each other to some extent in regard to their philosophies, or at least wherein entities can have some brief knowledge about other philosophies without feeling it is their sacred duty to destroy the other; wherein these philosophies get blended together in a kind of melting pot, in which the entities become tolerant of each other, even if they do not like the other's belief systems, wherein they can work together in the same company, wherein they can play together at the same playgrounds or in the same clubs or on the same ball parks, wherein they can go together to the teacher's meetings or school meetings and converse with each other regarding things related to the school.

These entities may have different beliefs without needing to attack each other as being infidels. They may work together in other areas and become harmonious in their relationships with each other in certain areas, even though they do not share the same basic

beliefs. This Awareness indicates that in Moslem countries these entities are still somewhat behind in terms of being tolerant of different belief systems. However, this too shall begin to change more, to where these entities become more and more aware of the other belief systems and gradually become somewhat more tolerant.

This Awareness indicates that the changes that are occurring around the world are largely due to the mass communication through television and through the press, and through travelling. Tourists from one country moving to another carry portions of their culture and are also modified somewhat by what they see in other cultures; that this blending of ideas as that which eventually will lead to a more harmonious world for everyone.

#### Ideas of the Great Thinkers now Available to All

This Awareness indicates that the trials that have occurred during this century have led to great tragedies, great suffering. There has also been enormous realization and great understanding that has emerged from many of these trials and tribulations, wherein entities break down polarities, break down fanaticism and become more tolerant and adopt ideas and concepts that are more universal and which can be used in relationships to better those communications and relationships with one another.

This Awareness indicates that during this century, the great thinkers no longer must put their thoughts only in books and hope that someone who knows how to read will open the book and get something from it. The great thinkers now can appear on screen on a Sunday afternoon and give forth their ideas and millions will hear, and millions will then carry those ideas and evaluate and decide whether those ideas can somehow be useful or can be applied, or whether those ideas have flaws and are of little use.

The great thinkers put forth their ideas so that the masses become attuned to the concepts of great thinkers and in turn, the masses become greater thinkers. They may or may not agree with everything they hear, but they become more discerning and they have the concepts and ideas of great thinkers with which to evaluate consider and to discern for themselves.

#### A Time is Coming When War Shall be no More

This Awareness indicates it is for this reason that things on this plane are changing very rapidly; that there is becoming greater and greater opportunity for this earth plane, this earth system to rise above any level it has every before attained, and to become equal in terms of its evolution to that of many other planets of a high level of harmonious existence. This Awareness indicates there is coming a time when war shall be no more. It is not yet here, but the seeds of peace have been planted and are growing very rapidly across the face of this globe.

This Awareness indicates that as these seeds of peace spread, there will be many who attempt to stamp them out, but at this stage there have been too many seeds of peace planted, and even those wars which may flare up here and there will become more

4. and more infrequent and peace shall become more and more the call, the cry, the movement, the final frontier.

### WILL A CONSPIRACY IN RUSSIA TAKE OUT GORBACHEV & HIS POLICIES?

(Follow-Up Question):

Awareness, most people, I suspect, are rooting for Mr. Gorbachev over there in Russia, and his perestroika and glasnost policies, and so forth, but yet, one is beginning to read that there are conspirators there that would like to or are planning to eliminate him because he has too much power. Does Awareness see Mr. Gorbachev continuing as he's doing, or is there going to be a revolution or something really heavy coming down over there?

#### COSMIC AWARENESS:

This Awareness indicates that there is great danger; this in reference to this entity. However, even were this entity at this time to be removed from the scene, the changes that have already been made are enough to stir the imaginations of the masses, to cause them to demand further freedoms and to demand more free enterprise. This Awareness indicates the greatest danger lies in the potential of the masses rising to demand these freedoms faster than is possible, and in so doing, that they may move toward violence, which allows someone or some group to take control of that energy of revolution and divert it in such a way that they fail to gain the freedoms they desire by deception in thinking that they are attaining their freedoms, when in fact they are simply being led by another oppressor who will in time clamp down again on these entities.

#### The Balance Between Security and Freedom

This Awareness indicates that the French Revolution occurred at a time when the French had more freedom than they had previously been given, and it was that taste of freedom and that realization of their own power that led them into the great revolt and revolution. That likewise, this is the danger today; that as entities become more and more aware of what freedoms they could have, that they might misuse those freedoms and become themselves oppressors of others.

This Awareness indicates that security and freedom are opposing toward each other, unless there is a perfect balance. There are many who want security, and in so seeking security will oppress others to be secure themselves and they claim the freedom to do so. There are others who seek freedom from oppression of others and in so seeking, they are willing to oppress their enemies. This Awareness indicates there is that which is a delicate balance, like the one who stands on the diving board, who needs to have a diving board that is flexible, in order to perform, yet one that will not break, nor one that will not move; one that is both secure and yet gives freedom for the dive.

This Awareness indicates that if the policies move too quickly in these Soviet countries and satellites, the masses may rise up too suddenly,

# Old guard swept out in Moscow

The Associated Press

MOSCOW — The Communist Party swept out 110 senior officials — many of them inactive and conservative — and promoted 24 people yesterday in a major reshuffle that expands Mikhail Gorbachev's power base to push for reform.

The party's policy-making Central Committee retired 74 of its 301 full members, including former President Andrei Gromyko; 24 non-voting members; and 12 members of the Central Auditing Commission, which handles party finances.

Party ideology chief Vadim Medvedev told a news conference they volunteered to step down and the Central Committee unanimously approved.

At a full meeting of the committee, the officials issued a joint request that referred to Gorbachev's campaign for perestroika, or restructuring: "Now that all comrades on the Communist Party Central Committee and the Central Auditing Commission should work hard to further perestroika, it is essential for us, in the interest of the common cause, to give up (our) powers."

Medvedev remarked, "This is a serious and important milestone in our course, perestroika, which shows that our party is realistically assessing its own work and is

quite critical about its own activities."

The resignations followed the first contested, nationwide elections in 70 years of communist rule on March 26. Dozens of top party and government officials, including more than 30 regional party chairmen, were defeated.

Medvedev said the election gave the leadership a mandate to speed the pace of change.

form," he said.

The military lost a substantial voice in the Central Committee. At least nine senior officers were dropped, and just one officer was promoted from candidate status to full membership.

The changes left the Central Committee with 251 full members, party personnel chief Georgy

creating war and violence, revolution, which leads them to greater oppression in the end. This is the danger. This Awareness indicates however, even at this stage, with these dangers, the changes and seeds of freedom, of greater freedom, have been planted, and the movement cannot go back to its earlier levels of oppression. The media, the communication, the travel, the interlinking between countries in terms of economic agreements, trade, travel, cultural exchange, these are the things that will guarantee that these countries can no longer go back to the oppressive levels of the 50's, 40's and earlier times.

## AN OVERVIEW OF U.S. ECONOMY FOR 1989 AND BEYOND

(WHAT HAS GEORGE BUSH BEEN DOING?)

(Follow-Up Question):

Now that Mr. Bush has been in office for awhile, does Awareness see the energies clearing, that *It* could give sort of an overview of what to expect for probably the next year or so under his administration?

## COSMIC AWARENESS:

This Awareness indicates that this entity would like to see the economy grow and thrive, and would like to see interest rates reduced in order to achieve this purpose, for the National Debt as that which is a major concern, not only for this entity, but for all Americans. This Awareness indicates that this entity sees this Nation Debt as best being paid with inflated dollars and has suggested the reduction of the prime interest rate in order to achieve this end.

This Awareness indicates however, that the Federal Reserve board as that which does not work for the president, but works for the banks, and these are the entities who are the recipient of the National Debt, and they do not particularly wish to be paid with inflated dollars, dollars which are worth less than what they were when loaned to this nation, and therefore, it is to their interest that the money be kept at a stable level, without inflation, and so the likelihood is that the Federal Reserve board will attempt to raise interest to keep up with or surpass inflationary levels.

This Awareness indicates that the inflation is not depended entirely on the Federal Reserve interest rates, it is also dependent on the price of things, and the price of things is often determined by the availability on the market place. This Awareness indicates that as oil is increased in its source, the Arabian countries, Middle East countries, the price being charged in Western countries will also rise. That as food prices increase at their source, due to shortages caused by drought and other forces, the price of those foods in the supermarkets also will increase. Foods and oils increasing, take big bites out of entities' paychecks. The cost of shipping products that have been manufactured will increase if gasoline

prices increase. The cost of shipping foods and products of consumption will increase if gasoline prices increase. The cost of all things manufactured and grown and shipped will increase when heat prices from oil is increased, because of the increased cost in heating buildings for production, for storage; this becomes part of the increased cost of overhead, and must be passed on to the customer who buys the product, service or produce; therefore, these prices will increase regardless of whether the Federal Reserve raises the interest rates, or keeps the interest rates where they are.

### Inflation is on the Move—a Turn-Down is Coming

This Awareness indicates the increased price of produce, the increased price of the items and productivity from manufacturers and industry, and the increased price of gasoline for individual travelling to and from work,—all of these things contribute to inflation. There is no way that it can do otherwise. Inflation is on the move. The dollar's value will diminish. The cost of foods will climb. The cost of rent, the cost of hiring someone to work; all of these things will move up and require more dollars.

This Awareness indicates that as inflation and costs increase, individuals will need to ask for higher wages, in order to keep up with the spiralling costs of living. This Awareness indicates there will be opportunities in terms of occupation, in terms of jobs. Many entities are already finding jobs when they could not previously find occupations. There is a very high labor force at this time, which means that it is hard for employers to find cheap labor, because so many are

already working; this means that the employers will have to pay more to get labor. Thus, this increases also the inflationary cycle, so inflation is on the move.

This Awareness indicates in order for the Federal Reserve board to keep inflation down it must diminish the amount of money in society by raising the interest rate or reducing the cash flow available, or both. This means fewer dollars and higher prices. This Awareness indicates this is what entities can expect during this time period, throughout the year of 1989. Entities can expect a tug-of-war between the Federal Reserve trying to raise interest rates and create a shortage of dollars in society, and the makers of goods and services and produce trying to get a fair price for their commodities so that on the one hand the prices increase; on the other hand, the money becomes in short supply. The results will most likely be felt in the latter part of this year, wherein the economy will experience a down-turn.

This Awareness indicates that the dollar itself, on the world market, will become more valuable; that this can be beneficial in some of the trading actions. It can also create some difficulties in terms of trade. Those imports will move downward in price because of the increased value of the dollar, but this will hurt American businesses in terms of their exports. That essentially, the future suggests from these elements a sluggish economy, not a robust economy throughout this and next year.

This Awareness indicates in fact, it appears that for several years, the economy will be rather sluggish with probable improvements just prior to the next election, the next Presidential election.

### TRILATERALISTS AND HAWKS IN THE BUSH ADMINISTRATION: HAVE THEY CHANGED IN THEIR THINKING?

(COMING: THE EUROPEAN SUPERPOWER)  
AND THE CONCERN FOR UFO'S

(Follow-Up Question):

Is there any significance in the fact that Mr. Bush is surrounding himself with entities who, in the past have been hawks, interested more in the wars and that sort of thing, and Kissinger and the Trilateral people? Is there going to be anything as a result of that, or are these entities going to change their thinking?

#### COSMIC AWARENESS:

This Awareness indicates that there are changes which have already occurred because of the more openness of the Russian society; that the concerns now are more in line with economic needs than in terms of how to become one-up on the other society militarily; that the Russians, as well as the United States realize that they have reached a point in which their spending on military has reduced both to very weak nations. This Awareness indicates that it will be but a matter of two to three years that a united Europe will become the greater superpower, having greater force and influence than either the United States or Russia.

6. This Awareness indicates that these entities are concerned in part that the traditional cold war between Russia and the United States does not leave themselves vulnerable, but also are concerned even more that the United States becomes strong enough economically to match the threats that might develop down the line.

#### UFO'S--A Deeper and Secret Level of Concern

This Awareness indicates there is also a deeper more secret level of concern held by both the United States and Russian governments which does not surface in the news, except on rare occasions. This Awareness indicates that this does not get much publicity. Many entities will remember that four times during the Reagan and Gorbachev summit meetings there have been references to UFO concerns; that this has generally been taken as a joke by those who have heard or mentioned these reports. This Awareness indicates however, that these entities are well aware of the forces that are involved with the extraterrestrials and their contacts with earth, and that the Star Wars program has greater concern with this potential than with the worry of Russian attacks on the United States.

This Awareness indicates that these are concerns which in the next decade will begin to surface more and more.

#### THE SOURCE OF THE UFO THREAT

(Follow-Up Question):

Are these concerns more about UFO entities that are on the earth at present time or about entities that are in other systems who are planning mischief?

#### COSMIC AWARENESS:

This Awareness indicates that this is in reference to those who are already inhabiting places on the earth and who have contact and influence on governments, including the United States government and their potential for bringing others to this planet. This Awareness indicates that many are perceiving these entities as having shown themselves to be benign, but are now seeing these entities as preparing the earth for a future takeover, and this is where their great concern lies, that the benign appearance may harbor something more sinister in the future.

#### UFO INFO BEING SLOWLY RELEASED

(Follow-Up Question):

There certainly has been a flurry of news stories, television, movies and so forth regarding the subjects of UFOs. It seems like it's about time the governments of the world should make some kind of announcement, doesn't it?

#### COSMIC AWARENESS:

This Awareness indicates that the governments are opening and allowing the information to gradually surface among the public without officially doing so for fear of creating a panic; that when entities have been bombarded enough by information from so many sources, then it will not become such a shocking exposure, for the government to announce: "Yes, these are real, we have known about them for some

time, but have not been at liberty, or have not felt comfortable in acknowledging these things until the public was educated enough to accept, for it can have profound effect on all of the institutions, including religion, science, education and political institutions of this land."

This Awareness indicates that such profound information could disturb the balance of beliefs, create chaotic insecurity among individuals and have disastrous results, if released suddenly to the masses. This Awareness indicates however, that if entities are exposed to *these things gradually, as though it were but fiction, fantasy or illusion of some entities who have vivid imaginations and this exposure becomes more and more prevalent throughout several years and masses begin to accept and believe, then the entity who is a holdout against such a belief will be forced to become more tolerant, so that when and if the official announcement is given, the entity will not be shocked, perhaps only dismayed that he wasn't told sooner, or perhaps may even feel that embarrassment that he had been out of step with reality; but the disastrous effect of being told that the earth was being invaded by aliens would not create any chaos condition that was hinted at in the 1938 Orson Welles radio broadcast: War of the Worlds.*

This Awareness indicates that many of these movies and the television series now running: War of the Worlds is part of the effort to prepare the masses for this new reality. This Awareness indicates the government is aware that these entities, these aliens, have higher technology and abilities, and can do much that they desire. It is a kind of effort to bide for time, living in a coexistence, waiting and working to develop technology for defense, while also attempting to establish a working relationship with these entities so that they need not reach a critical status in the relationship that would result in violent war.

This Awareness indicates that more information on this is forthcoming in later readings. This Awareness indicates however, that the cattle mutilations are part of this. Abductions of individuals are part of this, and also those mind scanning devices which read the thoughts of entities at a distance are part of this.

THE NEW MIND-SCANNING  
TECHNOLOGY  
NOW BEING USED:  
HOW IT WORKS

(Follow-Up Question);

The time the Interpreter was scanned and monitored during a reading here one night in this room, some years back, Vikki saw a grid, a light golden colored grid over the face of the Interpreter. Is this the same type of mind-scanning Awareness just indicated?\*

\*ED's Note: Please refer to 'Revelations of Awareness' issue No. 87-11 (Radionics: The Secret New Way to Heal or to Kill), for an account of the above monitoring of the Interpreter, Paul Shockley.

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. This Awareness indicates that each individual has a particular, what Dr. Beter referred to as 'atomic number;' the vibration of the individual is unique to the individual, and all that is necessary for these entities to attune to the individual is to have the name, a picture, a drop of blood, a cell, a hair, saliva, or other body part, including handwriting, or something the entity has touched. The vibration then can be found through the device with the atomic number or frequency then recorded for that individual. If the entities wish at a later time to attune to that entity, to read the frequencies that are being emitted by the entity, they need only to attune to that frequency or atomic number of the individual, and to set the dials to that and tune in and read the frequency that comes through at that moment through the machine. This is an advanced radionics type machine; and then, from the markings on the frequencies, the nuances and slight alterations, they can tell the state of mind the entity is in, whether the entity is frustrated, agitated, harmonious or in an emotional disturbance or mentally active or other information can be assessed.

This can be shown on a graph. Likewise, an operator can tune to these frequencies and interpret the frequencies in such a manner as to be telepathic; wherein these frustrations or emotional disturbances or harmonious feelings can be filtered through the mind of the operator, so as to be read in finer detail, almost to the point of reading the thoughts of the entity. This only occurs in which these entities read others, when they have some interest or reason for attuning to the entity. This Awareness indicates that there are long lists of many many entities whom they have taken special interest in. This may vary from time to time, wherein the interest is there for a short period of time and then ceases, or wherein the interest may last for a number of years and they continue to monitor, to see where the entity is mentally, or in his or her emotional levels.

EDS  
The Awareness

This Awareness indicates that this scanning device that which has been given to the government by the aliens to assist them in keeping track of individuals, is of monitoring for various purposes. This Awareness indicates that it appears the reason for this Interpreter having been scanned at that time mentioned the question, had to do with certain information that came through the reading in regard to events that were expressed by this Awareness, in which the government felt there was some need to monitor the entity, or of understanding whether the entity had ill motives in revealing certain information.

This Awareness indicates that it was more of a routine action of keeping track of people who express certain things that may or may not be but a matter of free speech, but which may be on the one hand perceived as a potential threat to certain projects or values held by government, or to some commitment. For example, if as when this Awareness referred to certain information upcoming in regard to a visit by the Pope in which there might be an attempted assassination, the secret service made a contact with the Interpreter because of that message, questioning the Interpreter as to where the information came from, requesting that the Interpreter give a sample of handwriting and fingerprints, so that if indeed something occurred, wherein someone attempted to assassinate the Pope, that someone could not blame it on the Interpreter.

This Awareness indicates in fact this was the routine way of treating foreign dignitaries, and anything that might in some way be connected with a threat to them, having an investigation of anything that smacked of or sounded like it might in some way result in a threat. This Awareness indicates that it was for the protection of the Interpreter as well as a way of having the Interpreter on record, in case of some future event that might occur along such lines.

This Awareness indicates that the mind-scanning actions are also designed for such monitoring of individuals so as to prepare ahead of time to deal with potential problems. In some cases, the mind-scanning occurs also with government officials so that they too are monitored to determine where they are, how they are in terms of stress levels and so forth. This Awareness indicates that many individuals in every day life may be scanned, perhaps due to their spiritual development, or due to some criminal tendency. This scanning often takes place simply because of a random sampling of individuals to develop statistical information to be used in advanced data bases.

This Awareness indicates that often when they scan an individual, they will come back to the same individual some time later for continued monitoring to watch developments over a period of time. This Awareness indicates there are many entities who never are scanned, simply because in random samplings not everyone is selected. This Awareness indicates that this scanning is of observing certain aspects and

those authorities who have been used or by chance as part of random sampling for developing data base statistics in terms of society in general.

(Follow-Up Question):

This seems to me to be a violation of entities'....

COSMIC AWARENESS:

This Awareness indicates it is no worse than keeping track of social security numbers and the spending and behavioral habits of individuals through paper work or through electronic surveillance.

(Follow-Up Question):

How sophisticated exactly is this technique? Does it monitor just what the entity is thinking at the moment, or does it have the capability of getting deeper into the memory banks to understand what the mind has built up as far as philosophy and so forth over a lifetime?

COSMIC AWARENESS:

This Awareness indicates it does not exactly monitor your thoughts at the moment so much as your vibration in terms of your highest and lowest potential of spiritual or ethical development. For example, an entity who is harboring some kind of concept or idea of getting even with the world through some form of violence would emanate a different frequency from the one who is harmonious and enthusiastic about some new occupation, job or move that is occurring in his or her life. This Awareness indicates it is that the harmonious frequencies emanating from an entity produce a different frequency or vibration and when an entity is at peace with the world, even if there are personal conflicts and problems that the entity may be feeling in terms of needs and so forth, these are not registered with the same frequencies as those which would suggest devious underhanded motives of violence or deep-seated hostilities toward others. It is for distinguishing between the deep underhanded motives and those that are considered as more normal or socially acceptable, that these monitorings are effected.

This Awareness indicates for example, if one were to begin a potential for plotting a violent crime or terrorist action and these entities had this person's atomic number or frequency, and in the monitoring came across this deep change or this particular low frequency pattern in the entity's thinking, they might then consider that there is the potential for danger from this entity and might then begin watching through other forms of surveillance, the behavior of the entity.

This Awareness indicates that they do not, with these devices, read whether or not you have been arguing with your wife, whether your argument was correct or incorrect, whether you have pilfered money from the till which you feel guilty about, or whether you have behaved immorally by some sexual act;

it could not even be determined. The guilt, the emotional disturbance might show in a vibration anomaly, but the cause or the reason for that guilt and emotional disturbance does not show in these monitorings.

(Follow-Up Question):

One question about these vibrations. As I understand it, when an entity passes over, he goes to the vibratory level that equates with his own general vibration. Is this the same vibration they're tapping in to, or is this more of an outer type of temporary or momentary vibration the entity is in at the time of being monitored?

#### COSMIC AWARENESS:

This Awareness indicates that this atomic number, although this term is not correct, but for want of a better term.....This Awareness indicates a better term would be the individualized vibration, the personal frequency. This personal frequency of an individual is that which is likened unto the skeleton frequency that is always present. It is likened unto the DNA of an entity that is a perfect identifier of the entity, but the DNA can be affected, the DNA can be disturbed by outside forces. The DNA, if cut, is not the same as it was before being cut or compressed, and therefore, it is affected. Likewise, the atomic frequency or personal frequency can be altered by events. It will in time return to its original form and shape, but it may be affected by events or new attitudes or changes that occur to it from outside forces.

*This Awareness indicates however, these will show as being of a more temporary nature, when several monitorings take place, because the more permanent frequency pattern will always be close to a certain norm and alterations will be variances or deviations from that norm, thus, those who are monitored at one time and at several times thereafter, in having their frequencies compared, it will reveal a norm and the deviations from that norm.*

#### Some Government Agencies Recruit Violent People

This Awareness indicates likewise, those who do the monitoring can observe certain patterns between individuals, and those who are of the more unevolved low base type, who would indulge in violence or unethical actions will have a totally different set of frequency vibrations, particularly during those times surrounding the violent acts. This Awareness indicates that those whose frequencies do not reach into such patterns are not seen as being the violent types, therefore, distinctions can be made as to whether this person needs to continually be watched, or, in some cases, used, for in some cases, these entities having violent qualities are seen as useful for certain things, and those violent qualities may be stimulated further in order to cause this person to act in a more violent way.

**Alien Computers Hold Info on all People on Earth!**

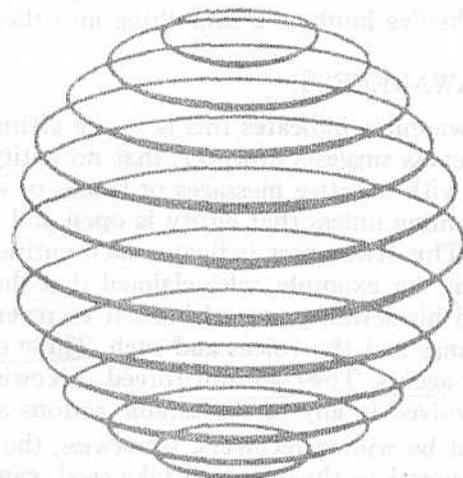

This Awareness Awareness indicates that there are certain so-called benefits by certain government agencies to use violent people. This Awareness indicates that this monitoring can be used for protecting values or

can be used to find certain types of entities who can be used for competitive purposes against others, or for certain reasons that would be considered unethical. This Awareness indicates the aliens have long had these monitoring devices and have used them, even in earlier times to read the minds of entities. This Awareness indicates it may be somewhat of a shock to entities (and this Awareness did not intend to give this information, but sees that it is not harmful), for entities to realize that these aliens have on their home planet, computers which hold information on almost all entities on earth; that this information essentially is derived from these scanners reading the frequencies of individuals. It is all done automatically, rather than manually, in which as entities are born on this plane, the computer reads the personal frequency and then records the information and these entities may be then monitored throughout their lifetime, wherein there is any potential or need for such monitoring.

#### Aliens Move Across Time Interdimensionally

This Awareness indicates that this type of computer is that which eventually may be built upon this plane, for similar monitoring of individuals. This Awareness indicates that these aliens are many light years away, so they are capable of traversing time by moving interdimensionally from one frequency to another across the lines rather than through space. This Awareness indicates that in order to understand this message, you must visualize dimensions or frequencies not moving in terms of ripples such as a stone being dropped in the water, but in terms of spirals in which moving through space would be likened unto going around and around and around the spiral to reach a distant place, wherein moving interdimensionally allows one to cut across all the spirals, to reach a point much closer, because one did not need to follow the spiral.

This Awareness indicates that this is how one may perceive the interdimensional travel of going from one frequency to another rather than of going from one place to another. This Awareness indicates that one could theoretically reach the planet of these entities by travelling through space, but it would take enormous time, greater than one lifetime to do so, whereas travelling from frequency to frequency allows the movement to occur within moments.

(Follow-Up Question):

Do these entities come from Orion?

COSMIC AWARENESS:

This in the negative. This Awareness indicates that these entities come from a place, the name being unfamiliar to earth; that this may be given at a later time.

(Follow-Up Question):

One final question on this mind-scanning device. Is it possible that those who are monitoring an entity's brain, while he is open like that, is it possible that they could, if they chose, put a program back into the entity in some manner, program some thought or attitude back in to the entity's mind?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that these entities have the ability to do such. It is not necessary however, that the entities had the ability to overpower one's thinking. The entity may still have free will to remove that program. This Awareness indicates however, it is much like a hypnotist, in which an hypnotic message can be implanted in the mind of an entity and the entity may be subject to that message. This Awareness indicates the entity may also overcome that message. It will depend on the awareness level, the strength of will, and the character of the entity, whether or not he or she is stronger than the implanted concept.

This Awareness indicates those entities who have a sense of personal identity are very difficult to be influenced by such suggestions, but wherein an entity does not seem to have any sense of importance or personal destiny or purpose, or any sense of individuality, such entities are easily influenced.

IS THIS THE WAY THE ALIENS  
IMPLANT EARTH BEINGS?

(Follow-Up Question):

There's been so many stories and books written about entities who feel they have been implanted with something, it just occurred to me that this might be one of the ways they've implanted something into them.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness suggests however, that no entity will be implanted with negative messages or forces or energies or programming unless that entity is open and willing to accept. This Awareness indicates such entities as the Son of Sam, for example, who claimed that the devil was behind his actions, opened himself to receive these programmings and the voices and such. These entities are willing agents. They are not forced. Likewise, those entities involved in any of the satanic actions and movements must be willing receivers, otherwise, the forces expressed to them cannot take seed, cannot take hold, cannot grow, cannot develop.

## A DEATH BLOW TO THE CHRISTIC INSTITUTE'S CONTRA LAWSUIT?

(WILL THE VILLAINS EVER GET EXPOSED?)

QUESTION:

In relation to current events, there was an article published some time back I'd like to read. It said:

"In Miami, a federal judge today awarded one million dollars in attorney fees to a Contra leader, a former CIA official and others who had been accused in a civil lawsuit of mounting a guns and drugs scheme to aid the Nicaraguan rebels. Chief U.S. District Judge James Lawrence King, in June, threw out the 24 million dollar lawsuit filed by the Christic Institute on behalf of journalists Tony Avirgan and Martha Honey. The judge said the plaintiffs failed to prove their case, and defense attorneys immediately filed a motion seeking to recover damages caused by the lawsuit. Today, the judge ruled again in their favor, saying the Christic Institute and the plaintiffs would have to pay the defendants \$955,000 in attorney fees and \$79,500 dollars in court costs."

Does Awareness see this as being the end of the Christic Institute's possible exposure of the Contra-gate scam, or is there more to come?

COSMIC AWARENESS:

This Awareness indicates that this as seen as having been a very heavy and near death blow to the Christic Institute in its efforts to expose this. This Awareness indicates that it appears that the information available to the Christic Institute as that which will surface. This Awareness indicates that this information as that which can, in time, begin to have a greater impact than even the trial itself would have had. This Awareness indicates that there is still some possibility that in the courts something may be effected to bring more of this information out, however the chances have diminished greatly as a result of this ruling which appears to have been motivated by other than the serving of justice.

This Awareness indicates that it does not, in a total sense, mean the end of the Christic Institute nor the end of the matter. Rather it means there will be major changes occurring; that the name of the organization might even change. The organization, even if going through bankruptcy proceedings might still resurface at a later time to continue its action. That this is not to say that bankruptcy will be necessary. Fund-raising is necessary and much can be done to help preserve this organization.

This Awareness indicates however, that the information as that which has not been destroyed. It has only been blocked, and too many entities are aware of this information to let it die at this stage without being exposed. This Awareness indicates that books, and speeches and other exposure at that which, in the future, can still bring justice.

## ED's Note:

Awareness was correct about the fund-raising. We have heard the Institute has just about raised the funds to pay off the court costs and are re-filing. One reason, is the recent arrest in Costa Rica of John Hull, a U.S. citizen who allowed the Contras to build an airstrip on his property, and who was accused by the Christic Institute of being a CIA contract operative who used the base as a transfer point for weapons and cocaine smuggled between the U.S. and Central America. Hull was recently busted and jailed by the Costa Rica police for allegedly smuggling cocaine and flying it back into the U.S. Because of this incident, the Christic Institute hopes the judge will reconsider and another trial would thus begin. (Cocaine smuggling by John Hull was one of the charges the judge had dismissed as 'frivolous and unsubstantiated' during the trial.)

Contributions can be sent to: The Christic Institute, 1324 North Capitol St., NW, Washington, DC 20002. (Call (202)-797-8106 for more information and an updated report on the progress of the Institute).

Note: this is the one Cosmic Awareness had us all rooting for, so let's continue our support. One way or another the worms are bound to be coming out of the wood-work and another impeachment could be the eventual result. (Wouldn't it be nice to see Ronald Reagan sit out his sunsets behind prison bars!)

CAC still has 3 copies of the video: "The Shadow Government--The Men Behind the Iran/Contra Scandal" which is available on loan to the membership.

This tells the actual sordid story of the entire rotten affair that has been kept hidden from the public by those treasonous people in power in Washington. If you want to borrow a copy to show to people, just drop a line to Vicki T. requesting same.

### THE END OF EVIL? SEPARATENESS BEING RECOGNIZED AS AN ILLUSION

## QUESTION:

Does Awareness have a closing message?

## COSMIC AWARENESS:

This Awareness indicates that those forces of darkness which entities see here and there are in fact but forces whose ideologies are based on separateness; that sin, error, demonic concepts, satanic energies, all of this is based on the concept of separateness: "This entity is separate from that. This entity is in competition with that entity; this group, this nation, this ideology." The concept of separateness is in fact that which fosters and creates concepts of evil and destruction, but as separateness is being more and more recognized as an illusion, seeing that no one is really totally separate from the other, seeing that no nation, no thing is without connection to something else, which in turn connects it to everything, as separateness is being recognized as but illusion, more and more entities become expressions of each other, expressions in reflection to each other, and this realization as that which diminishes the power of separateness, and in so doing, diminishes the illusion, the power known as evil.

This Awareness indicates that time is in flux in which concepts are changing, understanding is changing, information is changing, and as information influences and controls concepts, the concept of evil as that which will diminish in its power, and as it diminishes, the fruits, the results, the outcome of evil will also diminish, and that which is harmony, peace and goodness will grow to fill in the vacuum that evil as an illusion, as concept, leaves behind as it diminishes. This Awareness indicates that you are on the brink of the New Age. The New Age as having started, but yet, there is so much more to come in which entities become one with each other and one with all that is.

The movement of consciousness from matter into that which is a universe of information in which all entities are part of the information that is being processed throughout the universe; as this becomes the New Reality, entities then gain control of universal forces and again work with God, the creator, to present that information that alters the reality according to the wishes of those who reside within that reality.

### "THE SATANIC VERSES" BOOK... WHAT GIVES? ( IF ANYTHING )

## QUESTION:

There's a current controversy over an author, who wrote a book called *The Satanic Verses*, and the Ayatullah Khomeini got so mad, saying this was an attack on Islam, that he has put out a contract, a 2 million dollar reward to anybody that will assassinate the author. Is there anything behind this book *The Satanic Verses*, and the fact that it's now a world bestseller, other than the author just wrote a book on it, or is there something of real significance behind this whole spectacle that the public doesn't know?

## COSMIC AWARENESS:

This Awareness indicates that this as that which has been presented in a mere effort by this entity to write a book which would sell; the entity as one who has often looked for controversial topics to write about which would strike the emotions and feelings which entities have in regard to things held in terms of values, pro or con. The entity as basically a person who is good at finding topics for marketing based on controversial information; the entity as also one who has an interest in philosophy and religion and things that affect mass consciousness.

The entity as having some personal feelings in regard to the material which he has written; in fact, the personal feelings are those which have motivated the entity to write on the topic. This Awareness indicates it is no different than for entities to write books or stories or information on Christianity that might be controversial. The work of Kazantzakis, *The Last Temptation of Christ*, for example, as that which

could have under certain conditions, been viewed in a similar manner, wherein a fanatical pope might ask for this entity's execution.

This Awareness indicates however, the Christian religion as being more tolerant, and as being that founded on a more gentle type of philosophy. This Awareness indicates that in the Moslem philosophy and religion, they are encouraged to destroy the enemies of the Moslem faith, therefore it is considered an honor to be involved in slaying others outside the faith, and these entities see this as a means of attaining a place in paradise in the afterlife if they in fact, can destroy the enemies of the Moslem faith.

This Awareness indicates that it is because of this that such an intensity has arisen over this book. These entities do not like criticism, do not tolerate criticism of their faith on such a wide scale in terms of publications. The publicity surrounding this sentence by the Ayatullah as that which has caused the book sales to soar, therefore, it has had the opposite effect, and if the entity is in fact slain, the book sales will even soar more than at present time.

This Awareness indicates it is in fact, very likely to be a force that helps to diminish the power of the Moslem faith in the long-run, for the reading of the book by so many will cause entities to feel a greater threat and disrespect for the Moslem faith, particularly if this reaction to the book is seen as an indication of their inability to endure criticism. This Awareness indicates it would have been a more acceptable action for the Ayatullah to have commissioned one or more writers to write a book responding to the criticism by this entity, and to publish that book throughout the world. It would have been less expensive and more acceptable.

This Awareness indicates essentially, it was a blunder by the Ayatullah and can have a considerable effect on the Moslem religion in terms of creating greater disrespect for the religion than the book alone could have done.

\*\*\*

ED's Note: at this time, the book *Satanic Verses* by Salman Rushdie is on the top of the bestseller lists in almost every country in the world. The entity is still in hiding, along with his bodyguards. (This editor tried to read some of this book but found it so boring he went out and downed two vodka martinis to try to forget it).

## WHO BOMBED THAT PAN AM JET?

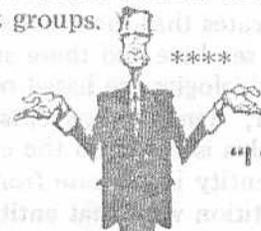

### QUESTION:

A month or so ago, a Boeing 747 Pan Am jet exploded over Scotland, killing an awful lot of people on board and below on the ground, and Israel put out some information that the PLO was responsible for this, and later, a couple of other conflicting articles came out that said, for one: Syria's Defense Minister alleged that Israel duped an American soldier into carrying the bomb that blew up a Pan Am jet over Scotland last month, and Israel called the charge 'ridiculous'. An agent of Israeli intelligence, MOSSAD, handed him the bomb (according to this article), the bomb-laden bag in return for \$300,000, claiming it was diamonds worth \$500,000 needed to be smuggled into the United States.

In another article, a senior aid to PLO chairman Yashar Arafat today accused the MOSSAD, Israel's secret service, of bombing the plane to counter growing international sympathy for the Palestinian cause; however, he couldn't produce any proof. Awareness, what is the truth about the bombing of that airplane?

### COSMIC AWARENESS:

This Awareness indicates that this as that which will be unveiled; that much of the information regarding this will be forthcoming through your regular news from researchers. This Awareness indicates that *It* does not wish at this time to give credit to either of these stories. This Awareness suggests that it appears rather that this was an act of terrorism, designed to balance out the earlier destruction of the Iranian passenger plane. This Awareness indicates that this appears to have been an action by a small group of individuals, not representing any intelligence groups or factions of a particular nation in the sense of working for that nation's benefits or gains in terms of propaganda. It is seen as being more the work of terrorist groups.
