COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. *The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor.* Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

BRINGING IN THE NEW AGE: (Continued)

HELPING TO UNDERSTAND WHY THINGS GO 'BUMP IN THE NIGHT'

(MORE ON THE NEW REALITY: FREQUENCIES AND VIBRATIONS)

(Opening Message, C.A.C. General Reading)
April 29, 1989

COSMIC AWARENESS:

This Awareness indicates that the energies associated with the universe, when understood through the viewpoint of that which is a living being, which is capable of creating and manifesting according to the collective consciousness of entities in any particular area or in regard to entities of a higher nature who may, for example, be involved in creating cosmologies; whatever level creation occurs through the efforts of entities who are projecting their will, things can come into existence which previously never existed before; this as relating to particular vibrations or frequencies in the universe that are more easily pliable, a more delicate fabric which is easily molded into other forms or shapes.

For example, in ancient times entities often saw what they termed as angels, being winged-type beings of light, that these winged beings of light were often seen in forms of humanoid shapes, or what you normally refer to as angelic shapes. This Awareness indicates that in this modern time, similar visions are often seen by entities, wherein there are bodies of light, but these do not have humanoid shapes. They are more the shapes of craft, such as flying craft. That many of the so-called UFOs which entities see; basically these being not of the material level, but of the etheric level UFO; many of these UFOs are the same energies as once presented themselves in the shapes of angels.

This Awareness indicates that the perceiving mind tends to have the ability to see what it wishes to see, if it is geared toward that kind of vision. For example, in the Western world, entities quite often have visions of Jesus or Mary, but this is never heard of in the Orient, or Buddhist worlds, or in areas in which entities worship Krishna. Instead, these entities will see visions of their own deities. This is because the mind projects these visions which are seen and witnesses that which they expect to see.

This Awareness indicates that in a modern technology society entities do not expect to see angels flying with wings, but are more open to seeing projections of UFOs or some kind of flying craft; that these may be seen on etheric levels, wherein one's consciousness shifts into another dimension just briefly enough to allow the entity to see that which is beyond the normal senses, the normal sense perception. This does not mean however, that there cannot be materialistic levels of UFOs or unidentified flying objects of a material nature which may in some cases be of this earth or from some other place, or from another dimension, having popped into this earth frequency and not being simply that of one's mental projection; For indeed, these UFOs do come in to the earth frequency from other dimensions, skipping from one frequency to another.

This Awareness uses the terms 'frequency' and 'dimension' interchangeably here, in that the various frequencies tend to separate different dimensions or levels of existence, wherein on other frequency levels, there are also beings and these beings are in some instances capable of shifting through and out of their frequency into the earth frequency so that they can be envisioned or seen by the sensory perceptions of entities here, in your frequency level.

This Awareness indicates however, it is also possible for entities in your frequency level to shift their perceptive abilities to peer into other frequency levels or other dimensions, and in this manner see spacecraft or UFOs or some other being from another dimension, and see them in that other dimension. In other words, consciously, you can move into another dimension and

observe inhabitants of that dimension; conversely, inhabitants of the other dimension can pop into your dimension and be observed through your sensory perception.

This Awareness indicates that this also occurs in terms of not just UFOs and spacecraft or angels, but also in terms of other creatures; these creatures created from thought-forms, either of humanity's creations such as goblins or creations that have been brought into manifestation from some other levels. There are indeed those creations of images which have their own information processing systems which may be termed as beings of a less evolved nature which inhabit certain of the astral planes or levels. There are also those of higher frequency; these may be referred to as guardian angels or guides.

This Awareness indicates you may as well understand that you are surrounded in your world by a universe that is filled with creatures, but most of these creatures unfamiliar to you, inhabit frequency levels that do not normally interfere with your frequency level, although occasionally these things do go bump in the night. There are ghosts, there are gremlins, there are these creatures, but these things can only affect you if you let them, and if you energize them through fear or through adding your energy to theirs in such a manner as to give them the energy to come in to your frequency level. If you do not give them that energy, they cannot muster the energy on their own.

It is possible, sometime that someone will give them energy which allows them to enter in to your frequency level. It is possible for entities to gather energy themselves, to move into other frequency levels, to some degree, in a kind of astral travel or out-of-body experience in which you inhabit some other plane of existence, such as moving into the land of limbo, or moving into some astral plane, or into higher levels. This Awareness indicates that these travels, even out of body, have certain dangers involved and this Awareness does not recommend that entities do this without some clear and precise understanding or guidance in these actions for it is possible for entities to project themselves into an area in which there are negative forces which would be most hazardous to one's being.

The Goblin Universe

This Awareness indicates that in regard to this which has been called a goblin universe, wherein there are beings on many different levels of existence, or what Jesus spoke of as the many mansions in his Father's house, or what John Keel spoke of as the resonating electromagnetic scale in which these frequencies all inhabit similar space, but do not interfere with each other's existences, so that there are beings inhabiting the same space without the knowledge of each other; there are spacecraft flying through the same space, but on different frequencies so that they do not interfere with each other, do not even touch each other though they pass through the same time and space simultaneously. This Awareness indicates that this kind of reality is that which would be totally inconceivable to your grandparents in the early part of this century for example, but that humanity is now reaching a time in which the mind is capable of perceiving new realities and new understanding, thus the old philo-

3. sophies which were so long useful, are becoming somewhat outmoded as the mind progresses in its understanding and in its perception of new realities.

The old physics no longer answers questions that have plagued mankind and have never properly been answered, in regard to such things as ghosts and goblins and supernatural things, for the old philosophy, the old physics was never capable of answering these questions because they were incomplete; they were based solely on the senses, the tree of knowledge, the fruit of the tree of knowledge, and these senses, the organs of perception are not satisfactory to answer the questions relating to the more subtle levels of reality.

This Awareness indicates therefore, as entities become more perceptive, looking beyond that reality presented by the senses, that facade, or illusion presented by the senses, to those new levels of reality which have been probed by new technologies, wherein, for example, the microscope points to the reality of minute and tiny beings that lie beyond the sight of humanity, or frequencies and sounds that lie beyond the hearing of humanity, wherein these technologies and new devices that extend the senses and perception and knowledge of man, allows new information to come in to the mind, which in turn requires a different way of looking at reality.

This Awareness indicates that this new extension brought in through scientific and technological advances is that which is forcing humanity to go beyond the tree of knowledge, the knowledge given by the five senses to see that which is invisible to the eyes, which lies beyond the hearing range, which is beyond feeling and touch, to that which is the new reality. It is in fact the old reality, but it is new to mankind when mankind is used to looking at the illusion given by the five senses.

This Awareness indicates that in looking more towards this new reality of the Aquarian Age, in which the mind perceives things that are higher and beyond the 5 senses, those questions which have not been answerable in the past, relating to supernatural events, supernatural things, become answerable in a manner that appears logical. If one says there is *no way* that a being can appear and disappear in front of you, and it must be nothing more than your imagination, and a person believes that his senses are truthful and sees an entity appear or disappear, that entity must conclude, logically, that his mind played a trick on him, but if the entity understands that there are multileveled existences in the universe, and different frequencies produce different events for different dimensions in the same time and space, then indeed the disappearance or appearance of a being is no longer an impossibility and the mind may not be playing tricks if one sees such a thing happening.

This Awareness indicates that television is a miracle and is impossible to the mind of the 15th century. It would be impossible to project a picture of someone from thousands of miles away to appear before you with such clarity and the ability to hear that entity's voice with such perfect resonance and matching tones, and yet, 400 years of further study and technology and it becomes mundane, common. This Awareness suggests that you visualize what may occur in the next 400 years, if not sooner in regard to holograms and the use of technology.

It may very well be quite possible that in the future time, when you pick up the telephone to speak to your friend, *your friend will appear in a hologram form before you, in the room with you, may even sit on a chair in your room, though the chair would have to be matching the chair elsewhere in a similar spot.* This Awareness indicates that the entity may still be thousands of miles away, but the cameras may project this energy or image of the entity into your home through receiving cameras, so that the entity appears to be there while you speak with them.

This Awareness indicates that this is an impossibility in your time, but it is also seen as a possibility in future times, and entities can understand and perceive that possibility, knowing that technology does produce strange things. Technology is much today as magic was in older times. This Awareness indicates that the mind may not be such an outmoded form of technology. The mind may actually be far ahead of any technological device know at this time in terms of its ability to see and transmit information from a distance, but the mind, if it does not understand its ability to do so, is not likely to do it.

You cannot create a full house from a deck of cards if you do not know what a full house is, or have a deck of cards to play with; that once you know the rules and you know the definition, and you understand the game, the mind then becomes capable of doing something. It is the same with anything. If the mind does not understand it can do something, it doesn't try, and if it did accidentally do something, it wouldn't recognize the significance of its work anyway.

That Monkey Eventually Typing Hamlet?

This Awareness indicates there has been that statement that if you have enough monkeys typing on typewriters for long enough, they would eventually come up with a great novel or story or play. They would eventually come up with the story of Hamlet. Well, that may or may not be, for you may be speaking of an eternity of typing to get the monkeys to finally match that story of Hamlet. The odds are enormous that it would not happen for eons of time, however, it is possible that they would come up with the story of Hamlet eventually, and not recognize it and continue typing so that the story went right on out the window, unnoticed.

This Awareness indicates so it is if entities do not know what to look for, what they are capable of or what their potentials are, they are not going to recognize or know how to create something, or how to value something once it is created, even if it is created by accident. Therefore, it is important that entities be able to evolve mentally beyond the perception that relies solely on the five senses and look at energies in consciousness. Looking at these energies in consciousness, to perceive an energy that is behind an action, behind an event, behind a circumstance, behind a behavior; the energies that lie beyond the present instance, the energies that lead to outgrowth of events, the energies that lie behind the movement or motivation or intent of a person; in looking at these energies that are the cause of the event, entities will become more able to understand a new reality, a deeper reality. They become more

4. aware.

Likewise, as entities begin to notice patterns, patterns that create, patterns that are used for creation, patterns that are developed and reused over and over, to get a certain effect; in real estate they call this the cookie-cutter; wherein an entity uses a same system time after time to make money, repeating the same system in different real estate deals. There are patterns that entities can develop to use for creative purposes, for writing, for doing artwork or whatever; there are patterns of behavior that are used repeatedly in different scenarios, or different situations, but entities need to become aware of the patterns so they are not just haphazard events or unconscious movements.

Why Some Get so Close to Succeeding-Then Fail!

Entities also need to become aware of those patterns which block and hinder their success. Why is it that some entities get so close to succeeding, only to have it ripped from them at the last moment, and this may become a pattern that repeats itself over and over for the entity. There is something happening subconsciously, something which the entity is not aware of, does not want to look at, does not want to become aware of, a pattern that is occurring in the emotional or subconscious level, which the entity wishes to avoid looking at, but which causes the entity much loss and failure.

It is important that entities not look only at the outer and surface features of an event or circumstances, but to learn to look behind, at those patterns, whether they are patterns that benefit or patterns that hinder, to find out what is going on behind the scenes, and to use those which are beneficial, and to undo and unlock and break those patterns which are harmful and find some kind of substitute for these harmful patterns that work more favorably. That in this kind of deeper conscious looking rather than sensual looking, wherein you peer behind the energies, behind the circumstances and see the causal energies rather than just the effects, wherein you look more deeply, this kind of looking, of deeper looking, as that which multiplies your awareness levels and gives you insight that is lacking by others, gives you the ability to have the sight to see in the land of the blind.

Opening Up the Third Eye

This Awareness indicates that this deeper looking is likened unto having new vision, new insight, and it is an advantage. You are likened unto the entity who has one eye in the land of the blind, and it is alright for you to be able to see. It is not that you should feel guilty at having insight when others don't have the insight. It is not right that a person who has one eye in the land of the blind should put out that eye in order to have no advantage over others. What is right is that the entity use that advantage to help those who cannot see, and to help oneself, not to the disadvantage to the others, but to benefit all.

This Awareness indicates that as you become more aware and gain greater insight into reality, you can become an agent for the higher consciousness, the higher realities, to serve others, to serve them well, and to help them find their insight, to help them open their eye, their third eye, to see beyond the senses, to see beyond the illusion of the five senses. This Awareness indicates that there is no need to fear the goblins of the universe, for they are all just aspects of conscious-

ness; even if they are tangible, they are still just aspects of consciousness, and no aspect has any greater power than any other unless that other attributes greater power to it. There is no need to attribute greater power to any aspect of consciousness, or to fear any aspect of consciousness although it is important to have a healthy respect and know the nature of that aspect of consciousness.

One does not walk up to a rattlesnake, knowing the rattlesnake can bite and kill, just because one has no fear of the rattlesnake. One instead, respects the rattlesnake at a distance and therefore, has no need to fear the rattlesnake. Why be afraid of the rattlesnake if it is at its proper distance? This Awareness indicates that knowing the nature of the rattlesnake helps you to avoid becoming its victim; knowing the nature of the universe, knowing the nature of the goblins within the universe, knowing the nature of all the good things in the universe, adds to your ability to function more effectively as a being of the universe.

This Awareness indicates that as your awareness increases, so does your effectiveness as a Universal Being.

THE LEGEND OF THE GOLEM: CAN WE ACTUALLY CONJURE UP A LIVING BEING?

QUESTION:

Speaking of strange beings, I ran across a reference I'd like to read to Awareness on the Golem and then comment.

A golem is a creature, especially a human being, created artificially by magic. In the late Jewish form of the legend, as told by Jakob Grimm in his *Journal of Hermits* (1908), the golem is the figure of a man, made of clay or mud, and brought to life when the miraculous name of God is pronounced over it. The golem is dumb (though other versions of the legend do credit it with the power of speech) but it can understand orders and is used as a servant to do the housework. It must never be allowed to leave the house. On its forehead is written the word *emeth* (truth). With every day that goes by, the golem gains weight and it gradually becomes bigger and stronger than anyone in the house, until they become afraid of it. They then rub out the first letter of the word on its forehead, altering it to *meth* (he is dead). The golem immediately collapses and turns back into its earlier clay form once again.

One man's golem, according to Grimm, grew so tall that its forehead was too high to reach. Its owner ordered the golem to take off its boots, so that when it bent down he would be able to reach its forehead. The golem did as it was told, and the owner succeeded in erasing the first letter but the mass of dead clay fell on top of him and crushed him.

The Hebrew word *golem* occurs once in the Old Testament (Psalm 139. 16), where it means a human being which is not yet fully formed, an embryo. In the Talmud (the oldest extant code of Jewish law) the word is used once for Adam's body during the first hours of its existence but before it was fully endowed with life and consciousness. Elsewhere in the Talmud the word is used to denote an uncultured, boorish man. In medieval Hebrew the word was used as a technical philosophical term equivalent to the Greek *hyle*, that is, hylie matter, matter without form. Only at a much later stage was the word *golem* associated with magical traditions about the possibility of creating human and other beings by means of formulae, divine names, and permutations and combinations of Hebrew letters.

The reference to the *Sefer Yetsirah* (the Book of Creation) indicates the range of ideas and concepts underlying the theory of the magical creation of living beings. These ideas go back in part to Talmudic notions concerning the creative power of the letters of the name of God or of the Hebrew letters in general.

In the circle of Jewish mystics of the 12th-13th centuries known as the 'Hasidim of Germany' these concepts gave rise to a mystical rite of creating a golem. There is little doubt that this ritual, in spite of its magical character, did not serve any materialist purpose (such as creating a robot servant) but was essentially a spiritual experience fraught with symbolic meaning.

What was essentially a mystic-symbolic ritual in the circles of the German Hasidim soon became a subject for popular folklore and legend. Concurrently the golem too became an actual creature serving his master and fulfilling menial and other tasks laid upon him. Legends of this kind were fairly widespread among German Jews after the 15th century and came also to be known among non-Jews; Goethe's *Sorcerer's Apprentice* is indebted to the golem legend.

I'd like to ask Awareness if *It* would dissertate or expand on this information on the Golem, and if this information is valid?

COSMIC AWARENESS:

This Awareness indicates that the information in general as that which has certain levels of validity; that the Golem was not that which was told in the first part of the story, being made of clay that comes to life. It is more that of the earlier description of the Hebrew, whereby it symbolizes the unformed being, the fetus, not fully formed into human shape. This Awareness indicates however, it also has another meaning that lies beyond that which was of the Hebrew understanding of the time. You will recall that in earlier readings this Awareness spoke of Jehovah as having been a space renegade.

This Awareness indicates that Jehovah as having been a kind of space renegade traveler or wanderer travelling around the universe, not being allied with the Elohim or Gods, but one who was what may be termed an immortal in a sense because the entity did live an extremely long life in comparison to human lives; this being approximately 6000 years. This entity as having come from the Orion area, and the entity as having set up a kind of experimental station on Mars in which he cloned or created humanoids for replanting on the earth. In other words, that which is told of the Garden of Eden as that which took place on Mars and the transplant of Adam and Eve, his clones, on the earth along with other clones as that which is the basis for the story of Genesis.

This Awareness indicates this in reference to the latter part of the *Book of Genesis*. The first few verses in the first chapter of Genesis refers to the Elohim, but the latter sections of that chapter and further chapters relates to Jehovah as one who was involved in genetics and experimentation, and the cloning operation. This Awareness indicates that the unformed clone as that which was not yet completed as a human being or the appearance of a human being, was called by that name. The name then later, in Hebrew was applied to the unfinished or incomplete formation of the fetus.

This Awareness indicates that this in the later period, prior to and around the time of the Renaissance, became a term which took on new meaning, because there was much focus and belief in the power of words for creating and using magic. This Awareness indicates that the magicians and alchemists of the time believed in the use of magical words for conducting spells or for manifesting or for bringing good luck, etcetera. This Awareness indicates that indeed this did have its proper effect according to their beliefs, as does most anything work in terms of effectiveness if it is believed strongly enough.

One person could use such terms and get nothing, whereas a strong believer, using such terms could actually produce some kind of result because the subconscious would have the firm strong belief that the words were powerful. This Awareness indicates that these entities at that time in experimenting with the power of words for manifesting and conjuring, reached further than they were capable of reaching in terms of such power. Of course this belief was not strong enough to actually conjure up a real being, but it was sufficient to create the legend and the stories of conjuring-up beings by the use of certain names and these stories, just as do many legends today, were repeated by others as fact.

This Awareness indicates that it is simply the nature of the mind, that when some new technology comes along, whether it be magical words or computers, that entities extend their imagination as far as possible in that technological field in the belief that someday, if they work in this direction far enough, they will be able to do certain things that are beyond normalcy. This Awareness indicates that there has always been the question of how things came into existence, and therefore, the belief from Biblical teaching that God took and molded man from clay, along with the belief that certain words were powerful and could accomplish magical feats, combined to give this story its existence and foundation.

This Awareness indicates actually, it has no foundation in fact. This Awareness suggests however, that it is possible for entities to conjure up beings, just as was proven in the light-energized effort of the group who conjured up Phillip as has been mentioned in previous discussions by this Awareness. It is possible, that in conjuring up Phillip, had these entities put more energy and sustained the energy over periods of time, such as perhaps years, that Phillip would actually be able to materialize before them, for psychic energy creates thought-forms and those thought-forms create magnetic

6. centers, and those magnetic centers draw energy, and if there is descriptive energy given in the thought-forms, that descriptive energy begins to form shapes and apparitions which can be eventually seen by those who, strongly enough, will their vision into existence.

This Awareness indicates that in earlier times, there was much more of this than now. It was not uncommon for entities to see spirits and ghosts and apparitions, because entities in earlier times had greater psychic energy and had more time and had more simplicity in their lives to devote more time and more energy to these things, and wherein there was great emotional focus, such as the emotional love for a person or the great guilt one might have in having harmed or killed another; such entities might very easily see the loved one or the violated one and see them clearly as apparitions.

This Awareness indicates that these things can take form. It is possible for entities to conjure up beings. It is rare and it is not advised. This Awareness indicates that in these more modern times this has become less common, because entities have been taught that it is all superstition, that it is unreal; that there are no ghosts. If your mind does not believe these things, it will not put forth the effort to bring these things about. That in many ways, this has been a blessing; that entities whose minds are blocked in terms of creating supernatural essences, are more fortunate than those whose minds are involved in such action but act without full understanding of the dangers and obligations involved in such conjuring.

This Awareness indicates that wherein an entity conjures something into existence in his or her life, he or she had better know what they are doing and have enough personal discipline and not conjure up something that would be harmful to themselves, that could turn on them or on their loved ones. This Awareness indicates today there are many who conjure up images of Satan and they think that this is fun. They think that they have some kind of control over this image of Satan which they conjure up, but too often, that which entities conjure up, as in the story of Frankenstein, turns on them and they become victims of their own conjuring.

If You Must Conjure, Conjure the Highest & Best

This Awareness suggests that if you are going to conjure something, it had better be that of the highest and best. This Awareness has indicated to people there are those who come to this Awareness with the belief that they can somehow devour this Awareness, but even as they seek to devour this Awareness, they find themselves being devoured by levels of Awareness. It is in this manner, if entities seek to devour Awareness that they themselves can grow into higher levels of awareness, but this Awareness warns entities to be most cautious about trying to devour those lower beings, those lower essences; that the entities who tamper with and seek to devour energies of the so-called myth of Satan will find themselves being devoured by those energies.

This Awareness indicates that Satan does not exist as reality, but as myth, but entities can use those mythical energies and can be caught by the mythical energies, even as much as an entity can imagine a ghost and be

terrified by the ghost imagined and in that terrifying experience may suffer real consequences. This Awareness indicates that the mind needs much understanding. It is a tool of much greater versatility than anyone has yet imagined, and it has been limited by the influence and structure of the teachers in philosophy, religion, political and educative fields, for thousands of years, to be held in a kind of mold, so that it does not expose its full potential, because it is so far undisciplined and its full potential is capable of creating monsters or creating gods.

The mind needs to have direction, needs to have discipline before it gets involved in creating in its full potential.

WILL AWARENESS TELL US HOW TO DO IT?

(FOLLOW-UP QUESTION):

Is Awareness going to suggest some simple beginning training exercises along this line at some point?

COSMIC AWARENESS:

This Awareness is not at this time planning to give this kind of information, because entities are not yet ready to understand and express the creative energies capable of the mind. Entities need first to discipline themselves in such a manner as to be able to discern what is Highest and Best in their lives and in that discernment, to relate the Highest and Best to the needs of others as well as to themselves.

This Awareness wishes at this time simply to allow entities to understand that there is a great potential out there, when they are disciplined, mentally, spirit-

ually, emotionally. This Awareness can work with individuals who are ready. This Awareness indicates that too many entities are looking for the results and are not ready to put forth the discipline that is necessary to properly reach those results. This Awareness indicates that this discipline, the self-discipline, wherein one surrenders self to that which is Highest and Best without expectation; this prepares the entity for that future use of the mind.

This Awareness reminds you of the entity who wrote, asking that this Awareness give them the great psychic powers to read, to understand, to know everything, and to have healing powers and to become a spiritual master, and the entity indicated: "I have sent in my money for this reading, and I want this, and I want it NOW!" This Awareness indicates there are too many entities who have this kind of attitude. It does not come in this manner. You cannot pay for this kind of understanding. It is not something this Awareness can give you. It is something that develops, as you give yourself to this Awareness.

ED's Note: In reference to 'the new reality' in physics; for a more practical exploration into this subject, we recommend the book, "The Goblin Universe," by Ted Holiday, with introduction by Colin Wilson, published by Llewellyn Publications, St. Paul, Mn. 55164. (Also available from CAC for \$9.95 plus postage). This book gets into such phenomenon as the UFOs, Loch Ness Monster, Men in Black, Yetis and other creatures that operate interdimensionally and whose manifestations upon this plane create much mystery and controversy.

...More on the Alien Presence:

THE HIDDEN CRISIS: THE QUANDARY OF THE SECRET GOVERNMENT: HOW TO HANDLE 3 MILLION MORE ALIENS HEADING TOWARD EARTH?

(C.A.C. General Reading)
December 9, 1989

Question:

Awareness, we're here for a general CAC reading.
Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness indicates that reflecting back on information given previously during this group of readings, reflecting on the information relating to the passing of the large body during the spring of 1989, that which was said to be an asteroid; this Awareness indicates this being a space ship of enormous size and that which is expected to return if it continues on its present course within approximately 30 years, presuming, that is, it does not deviate or change its speed from that which it has been holding steady to.

There are many who are expecting and concerned about the potential for an alien invasion of considerable magnitude to occur at that time, with preparations having taken place prior to that occurrence. This Awareness indicates that the activities expressed on the news just prior to this reading, relating to the reestablishment of ties with the Chinese, between the Americans and the Chinese, as but another part of the

general scenario of this nation and others in preparation to band the human race together as quickly as possible in order to be prepared in the event of such an alien attempt to gain control of the planet.

This is based largely on suspicion. The suspicion of your leaders in regard to these aliens as that which has developed over a period of years, even in spite of certain agreements which have been held between the aliens and the inner agencies of the government, for there have been violations to these agreements and indications that deception is afoot, and this is of such nature as to cause the leaders of not only the United States but also European and Russian leadership to have considerable concern in regard to the future of the planet and who in fact will be in charge.

This Awareness indicates that there is considerable preparation regarding these concerns and the entire Star Wars program is actually linked to and associated with this concern, as well as much of the other activities which are occurring in your news. This Awareness indicates that much of the cold war in fact was designed partly to raise money from the nations for certain secret projects relating to the alien factor, and this alien factor

being of considerable expense in the preparation of differing scenarios or options, required planning in the event the relationship between the aliens and those on earth was smooth and healthy and grew toward more harmonious directions or whether the relationship should turn hostile and become difficult; the governments needed to be prepared for either case.

This Awareness indicate that much of the preparation involved working with the aliens on the one hand, and being careful to prepare a defense or aggressive strategy on the other hand in the event the agreements were broken or came unworkable with the aliens. This Awareness indicates that the aliens have made greater and greater demands over the years and much of the money from different projects of a secret nature has been given to the aliens for their own projects; that even a considerable amount of the drug money and money which was raised through clandestine means by that which has been termed the Shadow Government, was used to support the aliens and their projects. There is essentially, a considerable number of underground bases, a network of tunnels; there are also underseas bases belonging to the aliens, some of these having both human and alien personnel involved.

This Awareness has given some of this information previously during the late 70's; that you may wish to refer back to some of those earlier readings. This Awareness suggests that in recapping and refocusing on this information regarding the aliens, entities can gain a clearer understanding of what in fact is occurring in the world today that is causing this great change to occur around the globe, leading to an almost immediate global community of democratic reforms throughout those countries of the Eastern nations and leading to a greater unification of all countries. It is of such magnitude that entities are in awe. All of this having occurred in but a few short weeks of time.

This Awareness indicates that it is due to a crisis that has been hidden from the masses which calls for extreme concern by your leaders, the concern being realized when those new aliens traversed from the passing craft to the earth during the summer of '89, and the realization that the asteroid was not an asteroid in fact, but a small planetoid housing individuals from another culture. This Awareness indicates these entities being from the area of Orion; that details relating to these entities and their particular planet as being discussed in earlier readings of this Awareness, approximately 10 years ago; that also the work of Cooper recently released, gives further reference to their origin.

This Awareness indicates that because of this, you are likely to see a greater and greater prosperity and harmony on this plane among humans, earthlings, as the governments become more mobilized and prepared for the potential of conflict with the aliens if this should erupt. This Awareness wishes to comment on the suggestion of a possible reconciliation, but this Awareness does not see this as being without considerable difficulty because of the extremes in the differences between these cultures and also because the cultures are inherently reliant on forces for solving conflicts; however, this Awareness suggests also that there are seen other factors that

8. should be considered and noted in regard to this scenario.

Entities who are assuming that the Space Confederation will step in and interfere are in error in that assumption unless the Space Confederation is specially asked for their assistance. These entities have already made overtures of assistance and were rebuffed by those who were working hand in hand with the aliens, and now have taken a kind of 'hands-off' policy, and have more or less written off the earth as becoming a base for the aliens; however, this could, under certain circumstances, change, in the future.

This Awareness indicates another factor which may be of significance in the future has to do with the aliens having the ability to create underground cities with their devices and technology so that they could move large populations under the earth's crust and hardly be noticed by those of the surface level, which could be another way of avoiding conflict with humans on the surface. The problems with this have to do with the concerns that aliens have a certain reliance on the use of substances available only from humans and animals and preferably humans, as the food supply; this in reference to blood.

Certain of these entities, particularly the insect-based types which rely largely on the use of blood for their energies, along with the intake of light in forming chlorophyll, these entities have a specific and absolute need for some blood for their health and vitality levels. This Awareness indicates that the entities do not need to extract, nor are they of such bestial levels as to extract all of the blood from an individual, except in rare cases, therefore, they often perform certain medical examinations and also extract small amounts of blood for their own purposes, then returning the abductee after erasing the memory of the event. The entity, having lost a small amount of blood would not even be aware of the loss of blood.

This Awareness indicates that there are also those cattle mutilations in which all of the blood is drained from the animal and the animal left dead. The use of cattle blood as that which has to do with certain emergency supplies these entities require and use. This Awareness indicates that all of this is understood by entities within your government, certain agencies and individuals. It is information that your government has prevented the masses from knowing, and there have been entities who have been killed for disclosing portions or threatening to disclose even portions of such information.

This Awareness indicates that the fear is that the people would panic and the government could not respond to the fears of the people having no weapons of effectiveness to counter the alien threat, particularly at the time when this all began. This Awareness indicates however, that there has, in recent times, been a realization by those within these agencies that they cannot handle the problem themselves and some of them believe it is time the public understood. Some believe it is time the masses were told. Others feel the masses would be hostile and furious with the government agencies for not revealing the information sooner, and therefore, they still think perhaps they could keep the information secret awhile longer and deal with the aliens undercover without the masses knowing anything was happening.

Some even believe that they could have a secret war with the aliens without the masses ever even knowing of it, if it became necessary. This Awareness indicates that during the next few months, after February, more information will be allowed to be released to the public and the danger of having such information or disclosing such information will be much less risky and dangerous.

This Awareness suggests therefore, that this particular message and reading should be held until after February of '90, before being released to your membership. There is no great urgency that your members know this now. The release of the Cooper material can be sufficient, and giving them time to digest that information prior to the release of this material will be helpful for their own digestion of the information.

HOW MANY ALIENS LIVE ON THE SPACE SHIP?

(FOLLOW-UP QUESTION):

Awareness indicated the size of this space ship is the size almost of Pennsylvania, I believe. Does this mean that there could be literally millions of alien entities living on that craft?

COSMIC AWARENESS:

This Awareness indicates that it appears to be more than 2 million entities. It appears to be as many as 6 million. This Awareness suggests it appears to be closer to 3 or 4 million entities.

(Follow-Up Question):

Then that space craft essentially is their home. Do they have a home planet anymore that's habitable?

COSMIC AWARENESS:

This Awareness indicates their home planet as that which began deteriorating and losing its vitality and ability to support life some time ago, and this was built to serve as an escape mechanism. This Awareness indicates that there were many who were left behind on the home planet, to remain there to finish out their lives, these particularly the older and weaker individuals; that the ones who were brought were those who were more rigorous and strong physically and mentally.

This Awareness indicates that in the process of this movement there have been many births aboard the craft. There have also been deaths, even as one might expect from a craft or planetoid-like craft of this size. This Awareness indicates that these entities had established contact with the United States government since the early 30's; that one of the references in Cooper's information referred to the time of conflict between American forces in an attempt to raid such a base; that this was alleged to have occurred in 1968 or '69. This Awareness indicates that this was a typographical error; that this as having been in 1978.

This Awareness indicates that these efforts of certain scientists and what may be referred to as SWAT teams or commando teams to wipe out these bases have been successful in some degree in certain areas, on minor levels, but not in the sense of having an impact on the majority of these bases. This Awareness reminds you of information given approximately 10 years ago relating to certain actions of teams entering into caves to deal with these aliens in which computers were present, tunnels

were present, and entire networks of underground systems were present.

This Awareness indicates that there also were underground highways and networks linking continents together; that these subterranean civilizations in some areas even have exits and accesses into the bottoms or lower floors of some of the tall buildings in some of the major cities, so that entities can go down into these subterranean areas through secret passageways. These are not as recent in terms of development as entities may presume; that many of the ancient legends of trolls, gnomes and little people, are actually referring to some of these subterranean types.

The Origin of the Deros

This Awareness indicates that the works of the entity Richard Shaver, in referring to the Deros and those living underground are also referencing some of the ancestors to these recent invaders. The Deros being from an ancestral stock that goes back several thousands of years to a time prior to Atlantis, wherein Orion, having had its great computer in the area known as the Unholy Six, also had created on earth a computer in the subterranean levels, which served to link the civilization counterparts together.

Those entities in the subterranean levels on earth became more and more demented and resulted in what were later termed the Dero types. This Awareness indicates the present invaders as those who appear more refined, more reasonable, if not compassionate, for the quality of compassion is not the same as that which humans feel. It is more of a principle to them, that you logically approach situations rather than compassionately approach situations.

This Awareness indicates that if one of these entities chooses to treat you with what appears to be compassion in an attempt to do something without causing pain, it is not because of compassion, but because it is the logical thing to do; this being in keeping with their purpose. If, on the other hand, their purpose requires that one be drained of all blood or killed for some reason, there would be no hesitation to do so, nor would there be any emotion in the action.

U.S. Government Had Little Choice but to Agree

This Awareness indicates that in general however, these entities have a certain type of highly developed sense of communication and respect for negotiating agreements, even if not for keeping the agreements. If they can negotiate an agreement, it is more logical for them to do so than to engage in physical conflict which might result in someone being hurt and they will opt for the negotiated agreement to get their way, rather than the conflict, particularly if they see benefits down the road from the negotiated agreement.

This Awareness indicates that it is this realization that a spacecraft flew by that finally awoke the government scientists to the likely intentions of the aliens. Prior to this, it was presumed that these entities were simply making contact, making a study, and had been doing so for hundreds of thousands of years, and that there was little reason to object to them continuing, nor was there anything that could be done to force them to leave the planet anyway.

These entities claim to have been here for thousands of years, and to have such a claim as being provable by certain technologies and knowledge and evidence that makes it more prudent to form agreements than to create dispute and since they had bigger weaponry and ability, the government had little choice but to make agreements with them.

Robotoid Technology Came from Aliens

This Awareness indicates that much of the information given thus far in this reading will make little sense to readers unless they also read the information from William Cooper. This then will add greater clarification to the William Cooper material and vice versa. For even more understanding, *It* suggests entities read the previous material given regarding the Unholy Six and the underground subterranean information which this Awareness gave in the late 70's and early 80's.

This Awareness indicates that this may also include those readings relating to the robotoids and synthetics; that these were the product of genetic engineering, which was a technology available through the aliens, given to humans; that even the robotoids and synthetics and that information, will now have some better foundation when recognized its origin as that of a technology from these entities.

This Awareness indicates that it should also be noted that much of the high technology of the computerized systems received some assistance from the technology of these aliens, and that there are also certain other technologies received from aliens which have not been brought out publicly as yet. Also, entities who have a copy of the Stan Deyo book, *Cosmic Conspiracy*, as those entities who will gain a new understanding of that information in light of this alien factor.

This Awareness indicates the book *Cosmic Conspiracy* of Stan Deyo as that which has been most difficult to find, and may yet be unavailable except through sheer luck.

ED's Note:

Information on the Unholy Six and robotoids and synthetics can be found in the following 'Revelation of Awareness' newsletters: 79-18 (*Cosmic History of the Illuminati*); 79-25 (*Secret of the UFOs*); \$4.00; 80-14; 81-9; 85-1; each \$3.00 from C.A.C. (Stan Deyo's book is printed in Australia and must still be smuggled into the U.S. Ten years ago CAC ordered several hundred copies of this book, had them flown in by airmail. These were quickly bought up by the membership at that time. After that it was not possible to import this particular book.)

Note to members who have copies: Maybe you would like to donate your copy or loan it to CAC, and we in turn would loan it out to members who have not had a chance to read it. (We have done this in the past with some of the Wilhelm Reich books when these became unavailable). Anyone interested, please contact Vikki T. or send in your copy. Many thanks.

This illustration depicts a skeletal hand structure of an alien hand, which allegedly was verified by a former CIA agent in 1978, who claimed to have seen deceased aliens during a recovery in New Mexico. This drawing has circulated for years in underground circles.

THE ROBOTOID OBSESSION: DO YOU WANT MORE?

(FOLLOW-UP QUESTION):

I have a small file of previously unreleased information on robotoids and synthetics. Would it be appropriate to put that together sometime and publish it?

COSMIC AWARENESS:

This Awareness indicates that this could be published, presented more for those who wish to pursue this further. This Awareness indicates that there is very little value in that information except as satisfying those who are obsessed and curious about the entities; that essentially, the general information regarding robotoids as that which has already been released, except in regard to the link between the aliens and the robotoid factor.

This Awareness indicates that many entities who have not been with your organization for a long period of time will find this to be quite unusual and disturbing perhaps. These entities could be referred to the Dr. Beter information for further information on robotoids. There is very little real value in pursuing this, and this Awareness does not encourage entities to pursue research that only satisfies curiosity in regard to its having to do with bizarrism.

However, because these things have some effect on the potential future of individuals, this Awareness brings out the information in a general sense.

This Awareness prefers that entities have the general overview and not become obsessed with details regarding robotoids or synthetics or any of this bizarre information just because it is bizarre and may have some curiosity to know all the details, such as: "What do robotoids eat for breakfast?" and so forth. That these things are of little significance. What *is* of significance is that there is an influence acting upon the affairs of humans which entities know little or nothing about which have many ramifications and is behind much of what you see in the news which is never mentioned, and it is this factor of this unseen hand or unseen influence that this Awareness wishes entities to become aware of.

It does not wish to engage in disputes, arguments or questions dealing with the miniscule details of some bizarre aspect here or there, just to satisfy some mental curiosity, or obsession that an entity might develop. There are certain mentalities that tend to focus not on the overview or on the significance of something but on some miniscule detail and they become obsessed with knowing everything about that particular detail, in order to become some kind of expert or something, and this is not the purpose this Awareness has for giving this information.

This Awareness does not particularly wish to deny information, but *It* does not wish to focus on information that is irrelevant to the main purpose of *Its* communication on this plane.

SOME
PHYSICAL DETAILS
ON THE ALIENS

(FOLLOW-UP QUESTION):

In relation to these aliens, some of these have been described as having no mouth or a very small one, and I was wondering, do they communicate vocally like humans or is it more on a thought level?

COSMIC AWARENESS:

Telepathically, silently through the mind. The words are heard in the mind, even as one who reads subvocally hears the words of the page.*

*ED's Note: for more info on how these voices work, please refer to 'Revelations of Awareness' No. 82-7 (The Dark Messiah...That Voice you Hear May not Always be Jesus);\$3.00 from C.A.C.

(FOLLOW-UP QUESTION):

What is the average lifespan of these particular entities?

COSMIC AWARENESS:

These entities live quite long and tend more to die from accidents than from the aging process, but this depends also on where they are, the kind of environment in which they are, for various environments have different effects on them.

ARE THE ALIENS VULNERABLE TO ANYTHING?

(FOLLOW-UP QUESTION):

In H.G. Wells' book *War of the Worlds*, nothing could defeat these aliens until they succumbed to, I believe it was, certain germs here in the earth's atmosphere. Is there a similar vulnerability with these present aliens, or is there any vulnerability in some other area?

COSMIC AWARENESS:

This Awareness indicates that this as not related to the germs or anything of this nature; that there are however, certain values that they receive from the use of human blood; that this has in some regard a benefit in strengthening their immunity system against certain things, by relying in part on the immunity that has developed in human blood. This Awareness indicates that they do have a very strong constitution and are capable of warding off most diseases that humans are subject to.

They do, also, however, have considerable problems in regard to certain surface energies such as light and radiation from the sun and prefer to be in areas that are dark and shadowy. This Awareness indicates that they do not digest or excrete food as humans do, but emit it from pores in their skin. It becomes likened unto a film that comes out on the skin to be washed

11. away. This Awareness indicates that they eat very little; that robotoids and synthetics are also, as previously suggested, not into eating as humans do in the same way.

This Awareness indicates of course there are different types of these space beings. It is referring to those which are of the insect-based type individuals; those who were portrayed as having features of the slanting eyes, long thin arms and legs, pale faces and bodies, as indicated in the movie *Close Encounters of the Third Kind*; that this type is essentially what this Awareness refers to as the insect-based alien, for they have certain genetic qualities akin to insects; that these as having evolved partially from the use of molecules taken from insects through genetic engineering; this being their natural form in Orion, in their home planet.

ARE HUMAN FEMALES
HAVING ALIEN BABIES?

(FOLLOW-UP QUESTION):

In the current issue of *Weekly World News*, a tabloid, it has a photograph, allegedly of a baby alien, born through a human female. Is there any truth to that story and to that photograph, and does it relate to these aliens that Awareness has been discussing, if it's true?

COSMIC AWARENESS:

This Awareness indicates this appears to be an alien from a different type of entity; this being a kind of mutation that did not develop normally, the hard shell as that which relates in part to the genetic engineering that was involved in implanting this woman with the child. It was not representative of the usual alien child, but the kind of mutation that developed from a genetically implanted effort.

This Awareness indicates that these entities have conducted various types of experiments, the results often being different from that which they intended. Essentially, part of their experimentation is to determine what will occur to their race of people if they should mix with humans. It is in part this concern that has prompted them to examine various people through the abductions. They also use some of these people and parts for their genetic experiments.

Baby in
'Weekly
World News'

WOULD THE AIDS DISEASE BE A SOLUTION TO THE ALIEN PROBLEM?

FOLLOW-UP QUESTION:

In reference to the Aliens, which are basically being discussed tonight, Awareness indicated they do use human blood, and they can have problems with their immune systems, which brings forth the idea that perhaps AIDS was designed to counteract these entities. Is there any truth to that? And would they be vulnerable to AIDS?

COSMIC AWARENESS:

This Awareness indicates that it appears that it was rather the reverse; that these entities encouraged the genetic engineering technology that would help lead to depopulating the earth. They also have encouraged at one time or another, nuclear war in the assumption that by depopulating the earth it would be fair game for them to repopulate it. They have the technology for reducing radiation, for eliminating the radiation from nuclear waste, and could therefore repopulate the earth after a nuclear war or after devastation of a biological war such as the plague of AIDS or similar types of diseases, and it would essentially give them a new planet with a few humans remaining as servants.*

* ED's Note: For more on this, please refer to 'Revelations of Awareness' No. 82-4 (Global 2000):The Evil Plan to Kill 3 Billion Entities in the Next 18 Years); \$3.00 from C.A.C.

Because this has not been acceptable and the government has caught on before the events occurred, humans are rallying to pull together in order to avoid this potential annihilation of the human race. This Awareness indicates that there will always be some humans who will continue to work with these aliens, even as there are many humans who have in the past worked with the aliens, but who now realize the error in having done so; that these entities now working in different directions for the preservation of the human race, have realized that further cooperation with the aliens along these lines of the past are indeed threatening the human race and its very existence.

Two Scenarios: Coexistence or War

This Awareness indicates that as *It* previously suggested, there may be ways of coexisting with the aliens, as entities become more aware of each other's culture and needs so that the aliens contribute to the welfare of humans and humans contribute to the welfare of aliens. Whether this can occur or not will depend largely on flexibility. This Awareness indicates that many of the movies on television today are playing out different potential scenarios for the future. For example, the *Alien Nation* series as that which is playing out the potential for a coexistence of aliens and humans working together.

The *War of the Worlds* series is playing out the potential for conflict with the aliens, and represents a rather valid approach in describing the nature of the aliens, referring not only to their strange appearances, their living underground, but also to their use of creating replicas of humans. That this is something which they do through their genetic engineering technology.

Lauren Woodland as Emily in the TV series 'Alien Nation'. In this scenario, the aliens and the humans breed and live together in peace.

This Awareness indicates that there are other movies and films related to aliens which are less precise in terms of application to the potential of actual outcomes. Many of these being pure imagination, having nothing to do with the reality of the situation. This Awareness indicates those two series as being both realistic in their playing out two different scenarios. If you will recall, the Rand Corporation used to play war-game scenarios or hypothetical wars based on 'What If?', and in so doing, they would create solutions to problems that might occur under certain circumstances, and then file away these war-game type scenarios, this being done through think-tanks and through computers and other approaches at different times, from the 50's to later in the 60's and 70's.

That Skeleton Photographed on the Moon?

The two movies running as series on television are much like that in their presentation, giving a kind of alternative scenario based on 'What if Aliens and Humans Can't Get Along?', or 'What if Aliens and Humans Can Get Along?' and each of these premises serves as the basis for the ongoing series for those two movies or television series. This Awareness reminds you of a recent tabloid that suggested a human was found on the moon that had been present at the time the astronauts landed and that this information was known to top scientists but has been kept from the public; that this entity as having been mutilated elsewhere and dumped there.

Astonishing photo blows lid off government cover-up!

This Awareness indicates that this as that which occurred from the presence of aliens in that spot. This Awareness reminds you that *It* previously suggested that humans had been on the moon prior to the 1969 landing; this prior contact of humans on the moon as that which came about through work with and agreements with the aliens; that essentially the moon program, the space program was put on for show rather than just to reach the moon, for man had already been there via the spacecraft of the aliens. In fact, there were colonies on the moon prior to 1969; that the book *Alternative 003* as that which touches upon these colonies.*

*ED's Note: This book has been banned for years in the United States and the 'fictionalized' version published in England can not be imported for sale in the U.S. Guess why?

HOW DID THAT SKELETON ON THE MOON GET THERE?

(FOLLOW-UP QUESTION):

That tabloid photo of the skeleton on the moon Awareness just referred to, it appears to have certain military garb, and the first question that came to mind when that photo was published was that this was a photo that seemed to substantiate Dr. Beter's claim of a supersecret battle which he called the 'Battle of the Harvest Moon.' Awareness just indicated this body was deposited by aliens, and therefore it must have no relation to that battle. Is that correct?

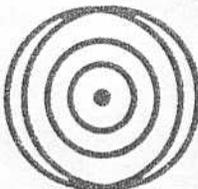

COSMIC AWARENESS:

This as in the affirmative; that the Battle of the Harvest Moon as that which took place approximately 8 to 9 years later. This Awareness indicates however, that there were colonies on the moon prior to 1969 and that this entity was a member of one of those colonies. The entity also having been in military garb; that the entity was an engineer. This Awareness indicates it appears the entity as having been one who, as an engineer, was not a willing participant, saw himself as a prisoner and was uncooperative in many ways, and because of this, was seen as a trouble-maker and removed and slain and his body taken elsewhere.

This Awareness indicates that during that first flight, the flight which landed on the moon, there was some accompaniment by a UFO spacecraft of these aliens, accompanying the craft, part of the way. It was instructed to watch the craft and if necessary to assist, to make sure the mission was successful.

ED's Note: Those interested in actual photos showing various constructions on the moon, are referred to the book, "We Discovered Alien Bases on the Moon," by Fred Steckling, an astronomer who studied and blew up photos (non-classified) provided by NASA's Science Data Center. This book is available from C.A.C. Please refer to Price List Catalog.

(Current price: \$12.95 plus postage)

REVELATIONS OF AWARENESS is a cosmic newsletter, published every three weeks for members of Cosmic Awareness Communications. However, you do not need to be a member to subscribe; anyone is welcome to subscribe. Members are encouraged to study the Awareness philosophy as well as other philosophic and secular material in their search for truth and Who in Fact they Really Are, and to integrate those 'Gems and Nuggets' they discover into their daily lifestyle and basic premise of life, and to act as role models to others. C.A.C. is a not-for-profit, tax exempt organization as authorized by the U.S. Internal Revenue Service. Dues and donations are exempt from Federal Income Tax. All revenues are used to spread the Cosmic Awareness philosophy to others. Cosmic Awareness has indicated that by the year 1995, the masses will be ready for the Cosmic Awareness material, on which the New Age is being founded. But can C.A.C. hold on for that period of time? We believe we can, with your help. Thus donations are encouraged! We desperately need them at this time! Also, please consider the concept of including C.A.C. in your will, along with other charitable organizations you support and hope will continue in their work. (Write C.A.C. for a brochure about making up a will, if you should seriously consider this option.) Current rates: INDIVIDUAL & FAMILY MEMBERSHIP: \$30 per year. CONTRIBUTING MEMBER: \$52; SPONSORING MEMBERSHIP: \$144; PATRON MEMBER: \$1000; ENDOWING MEMBER: \$5000.

THAT DEFENSE AGAINST AN 'ASTEROID'?

(FOLLOW-UP QUESTION):

There was a story in the paper today about a group of scientists: world scientists who are meeting to make plans to figure out some kind of plans for defense, in case an asteroid hits the earth, which they say is inevitable, that this will occur, it occurs every so many thousand years, and it could kill millions of entities. In light of the information just given, is this another screen put out by those who knew of this alien threat, and the real reason, what they're really discussing is this huge spaceship filled with millions of aliens?

COSMIC AWARENESS:

This is in the affirmative. This Awareness suggests the Interpreter be brought from trance.

(The Law of Gratitude is given)

THE LAW OF EXAMPLE

THE LAW OF EXAMPLE states that any person, concept or thing which is placed in a position of significance, may serve as an example for others to follow.

Those who have served as examples of power, lust and greed, have helped to create the tragedies which they and their followers have spawned.

Those who have served as examples of love, service, and the sharing of their better parts, have helped to bring about freedom, joy, beauty and peace that has been allowed upon this plane.

Entities who wish a better world are cautioned to exemplify and portray only those better qualities of love, joy, peace and service to others, particularly to the children who are searching for examples in their world.

Cosmic Awareness
