The Lazy Man's Way to Enlightenment

...AN EXPLORATION OF THE MANY PATHS UP THE MOUNTAIN

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

(Welcome to the Hotel California)...

THE MANY PATHS THAT LEAD TO SPIRITUAL ENLIGHTENMENT: THE PITFALLS, DANGERS & BENEFITS, AND THE PURPOSE OF AWARENESS GIVING INFORMATION THROUGH C.A.C.

(Opening Message, C.A.C. General Reading)
April 3, 1990

This Awareness wishes to make a brief comment in regard to *Its* general purpose in giving information through this channel and through this organization. There appear to be, on occasion, misunderstanding by some individuals as to the purpose of these messages. There are many entities who in their search for truth move from one philosophical source to another, and in finding some of these philosophical sources, are asked or directed or influenced to be loyal or devoted to that particular source and in some instances they are asked to forsake all other sources and rely solely on that one source of information for their salvation.

This Awareness indicates that this is not uncommon, even among entities who have been associates or who have received messages through this channel and through this organization for many years; it is not uncommon that occasionally someone will indicate they can no longer receive messages from this organization because they are now into something different which restricts them from receiving any information from any other organization or which has convinced them that their organization is the only truthful organization and path for them.

This Awareness indicates that this occurs on occasion and this is no great problem for *Cosmic Awareness Communications* to occasionally lose a member or reader in this fashion. It is always a feeling of sorrow that entities have not quite grasped the message this Awareness has sought to give: that truth can be found in many areas; that an entity needs not have a diet of one food only

for truth, but that there are many fruit and vegetables in the banquet of truth which entities can draw from for the sustenance they need in finding greater truth.

This Awareness has asked entities to be discerning, and to even discern and sort out for themselves what they wish to take from this Awareness's messages and that which they do not wish to accept. *It* does not wish to cause entities to feel obligated to believe or to accept or to abide by the suggestions and indications given by this Awareness, because entities should have free will to choose, to make mistakes, to discover truth at their own pace, for their own needs.

This Awareness indicates that some entities however, prefer to be told what to think, what to do, what to believe, and can only go so far with this Awareness before finding a different teacher that says: "No, no! This is the way! This is the only way. Don't look in all of those other areas. Don't search for truth in those different valleys and hills and gardens that Awareness speaks of. Don't look for truth along these different pathways. Look only on *this* path! I will show you the way, the only way up the mountain!"

This Awareness indicates there are many who want this kind of security of having the only truth, the only way, the only path, and they enjoy feeling that they are on to something that no one else, except their fellow travelers and they are aware of, but on the path, they also like the idea of telling others: "Hey, over there! We're on the right path over here! You're lost!" It makes them feel good. It makes them feel special to think that they have the only way, the only path. This Awareness indicates that this occasionally occurs in one form or another and that entities often in thinking they have the only way, point back and say that "the Awareness is misleading people, is causing them to become confused, showing them the many paths, the many truths, the ways which they can go where they can expand their awareness of the mountainside." The Awareness in letting them see all these different pathways, the truths here and the truths there, may be expanding their consciousness, but this entity thinks that the only way is to go up this particular trail, enclosed to all other and never to look back.

This Awareness indicates that it is not the purpose of this Awareness, as it is with many of the so-called masters on this earth plane, to seek followers. It is not the purpose of this Awareness to seek worship. When there is a consciousness that is everywhere present, *It* does not need to be worshipped. It is not necessary that entities are devoted to this Awareness. It is not necessary that entities obey this Awareness. It is not necessary that entities love this Awareness. It is not necessary that entities believe this Awareness. What is necessary is that entities learn from whatever source they can learn from in order to improve their own situation, and this Awareness has the intention in coming to this plane at this time through these messages, that simple mission: To indicate to entities information that can be of help to their understanding of themselves and of their world, and of their universe; *It* simply wishes to give entities enough information that they can pursue the different paths that are most suitable for themselves.

The one they choose, or the several they may choose which are suitable to their own psychological needs, are the ones this Awareness wishes them to pursue, and if they must follow a path that is exclusive, and if they must think that it is the only path, then so be it. It does not matter if they wish to point back to this Awareness, to shout to others: "Awareness is misleading you! This is the only Path! I have the path! I have the path!" It does not matter to this Awareness that they do so. It does not matter to this Awareness that some guru stands on their path beckoning and calling: "I am the master! I am the true master! Follow me! Follow me!" It only matters to this Awareness if that master misleads them and causes them greater pain and slows their development, but even that is part of the overall growth pattern of the soul.

However, this Awareness often attempts to point out the pitfalls on the different paths. If entities ask: "What about that path there?", this Awareness may say: "That path has much truth on it. There is a considerable amount of learning that can occur in moving up that path, yet one must be careful not to get too far into the path and lose track of where one came from, because if one goes too far, one can easily become entrapped and lost, and in so stating, this Awareness has given fair warning to entities who want to take that path. On occasion, entities will become angry that Awareness has said such a thing about the path that they think is the *only* path.

This Awareness indicates that it is alright if the entity wishes to pursue that path and to get lost. It is alright if the entity wishes to pursue that path and spend several lifetimes in the area. It is alright if the entity wishes to pursue that path and get to the mountaintop and say: "You see, I had the only path! All of you other stupid idiots are still climbing the mountain!" and this entity in so thinking, will likely be booted back down the mountain to climb again because he has not learned an important lesson, and still has this great ego and vanity that must be shed as he climbs the mountain.

This Awareness indicates that all of this is part of the growth of the soul of entities and there are many here are many efforts by many entities to

3. take shortcuts and many alleged masters who want followers, and each will say: "I have the path, follow me!", and if you had ears to hear, you would hear multitudes saying the same thing: "I have the path. I have the path!" "I have the path!" "I have the path!" "I have the path over here!" "No! It's over here!" "Follow me!"...and all of these entities, each claiming to have the path, have the path, --for the path is wherever one goes.

It is not so much where one goes, but how one travels toward spiritual enlightenment that determines whether the path was valid or not, for if one goes in self-acclaim and glory, as one walking to victory in some conquest of the spiritual path, then one is truly not moving in an enlightened direction. One is being prompted by *ego and self-glorification*, and the path will simply lead up the mountain and down the other side. But if one climbs the mountain caring for others, sharing, listening, aware of all that is occurring, all the suffering, the sorrow that is occurring, not saying to oneself: "Oh, those poor souls are suffering so much and I am on this path, this holy sacred path that leads me out of this suffering, and I, a special person, will escape the suffering, and those poor fools will continue to suffer!", and many gurus teach this: "Get out of the path of the masses. Save yourself. Follow me!"

This Awareness indicates that there are different ways to be. There are different ways to hold one's head when walking the path. There are different attitudes to hold. There are different motives involved in climbing the mountain, and all of these things have some influence on what in fact the outcome of the climb will be. This Awareness indicates that many people are totally satisfied in climbing the mountain if they believe that their path is the best and only path. They don't even need to explore the path to feel satisfaction and smugness. They can be quite smug in their belief, and they can look at others with contempt in their ignorance for not joining them on their path. "You idiots! This is the way!" This is common also.

This Awareness indicates that there are others who stand around and hurl spiritual marshmallows, saying: "Look at this fluffy one! Come up this way, you blessed person! Follow me, you blessed person! It is with great glory that I welcome you, you blessed person! Take this spiritual marshmallow! Come this way!" And all these people are standing around beckoning the followers and the followers are standing around looking back and forth from one to the other: "Which one should I follow? How can I tell? Who has the truth? They all claim to have the truth! and half the time they keep tumbling down the mountain! That one had the truth and he fell off the mountain! Had I followed him I would have fallen too!", and entities are confused.

This Awareness indicates it is important that individuals learn discernment, and much of what this Awareness has been attempting to give over the years of messages is a certain degree of discernment that entities might learn from these messages and from their own intellect, how to discern truth from all the garbage that is passed off as truth. Just because someone says, "I am the way! I have the path! I have the power!", just because someone claims to be the master is not

proof, and entities need to be discerning, and to ask themselves: "Do I really need to follow someone else? Is it not possible for me to explore these paths to gain a little information from this wanderer, this teacher, this student, this seeker, in this direction, on this path, and then check out that other path over there, inquire, ask questions, seek information, and then again go to still another path, ask, seek, inquire and investigate, to find where these different paths are leading?"

"Is it not possible that if I were to do this, I would develop a certain degree of discernment and become more able to choose the directions and the manner of travel, and the attitude of travel, so that upon arrival at the mountain peak I am not booted out for vanity or for self-glorification or for being dependent on someone else's spirituality?" This Awareness indicates there are too many entities who think that: "Hey! This guy's a god! If I can just grab hold of his coattails, he can drag me into heaven, whether I like it or not, whether I deserve it or not!"

These attitudes entities have are the shortcuts which the Bible warns of, where it speaks of thieves trying to steal their way into heaven. This Awareness indicates there is no shortcut. You actually grow in an expanding consciousness through expanding awareness, through an insight that allows your awareness to expand to the point of attuning to Universal Consciousness. When you can, at will, experience yourself as attuned, or in tune, or as a reflection and part of the totality of Universal Consciousness, you are indeed in heaven. Heaven exists everywhere, as do all the realms.

How Not to Enter Into Cosmic Consciousness

Entities think that heaven, Sach Khan, hell and all these extra realms, these other realms, exist elsewhere, but they are simply in different vibratory frequencies, everywhere present, and entities can, by changing vibratory rates in their consciousness, can traverse these different realms, but one cannot hold onto self-glorification and expect to enter into Cosmic Consciousness, for the self, if it is focused on the finite individual, is not the same as the Self that is the Infinite Consciousness. You cannot be the cube of ice, while also being separated from the ocean and call yourself the ocean. As a cube of ice, you must recognize your essence as water first and foremost, and then as water you are part of the ocean. You are one with the ocean. But you cannot say: "Hey! I, this little cube of ice, am God!"

"I, this little cube of ice, am the ocean!" You cannot make that distinction of claiming that little portion is the all. You can only give up the little portion, surrender yourself to the ocean, and then say: "I am God. I am the ocean!", but in so saying, you can no longer claim yourself who speaks to be that cube of ice at that time of speaking, for it would be false. The master can say: "I and the Father are one!" and be truthful only when speaking as the Father.

How Jesus Gave Up Self

One can say: "I and the ocean are one!" only when surrendering one's cube of ice to the ocean, but one cannot say: "I, this cube of ice, am the ocean!", nor can an entity say: "I, this man, who calls himself

your master, am God!", for God is Infinite, and man is finite. This Awareness indicates that Jesus made the distinction of these two selves, at times referring to himself as the Son of Man, at other times referring to himself as the Son of God.

As the Son of God, it was the Christ speaking through Jesus. As the Son of Man, it was Jesus speaking for himself, the man. That likewise, these masters cannot, in good faith and honesty, claim they, the men or women, are masters. They can only be channels or serve as agents for the God Force, and as individuals they may be classed as God-Realized Masters, but if they make that claim themselves, there should be some questions involved.

It is better that they simply speak either for themselves as individuals, or allow themselves to serve the Universal Creator as channels, as speakers, giving information, rather than taking adoration from followers for their own personal glory. This Awareness indicates that it is important that any entity seeking to go up the mountain, recognize that the climb is a spiritual climb and not a physical climb, and that the spiritual climb requires the giving up of self.

In the giving up of self, it is a psychological surrender. You surrender your personal glorification in the glorification of the higher energies/essences that you seek to attune to, and upon arriving in those higher essences, you will find that it is not appropriate to glorify yourself for your attunement to those higher essences.

Were you to climb spiritually into the Light of Christ, the Light of Buddha, the Essence of Divinity, and then begin to shout to the masses: "Hey-hey-hey! Look at me! I'm glowing!" you would immediately lose the glow, for you would succumb to the lesser self, and rather than being attuned, you would tune off, tune out the glow.

Why We Are All 'Gods'

This Awareness indicates that a true master can't claim mastery and maintain the mastery at the same time. This Awareness indicates that it is important for entities to realize that they are, as Ramtha indicates, and as this Awareness has given, all Gods. You are all Gods, having God Seeds within you, but as Gods and God Seeds, there is the need for nourishment. To nourish that spiritual divinity within each of you requires the giving up of self.

If, as an analogy, light is the spiritual and darkness is the material self, you cannot, as a material object or being, move your dark material substance into light without losing it. It will fade. The shadow fades as it enters the light. In the same way, the material self fades as it joins the light. So you cannot say "I, the person, am God!", you can only say: "The Light that is within me, is God, and I want to brighten the Light and drive out the material self."

This Awareness indicates that this is not to say that there is anything evil in the material self any more than to say that daylight is good and nighttime is evil. They are a kind of yin and yang balance of polarities. If you are to inhabit physical form, you must have periods of time in which you are selfish, self-centered, egotistical, personal, concerned about your own personal needs. As this Awareness has indicated before:

empty pitcher can't pour. If you want to be able to serve others, you must yourself be served. You must take care of your personal needs.

Your body is your housing. It is your vehicle out of which you operate with your soul. Your soul is the driver of the vehicle. If your soul and spirit are to work on this plane, they must keep the vehicle in running order, thus, you must work on your vehicle. In doing so, you are being selfish, for the vehicle is the self and turning inward to work on the vehicle and its needs is called selfishness or self-centeredness, and there are times this is necessary. What this Awareness is indicating, however, is that you do not want to become entrapped in your vehicle, so that you are constantly locked in, riding around and servicing your vehicle and never able to look out the windows, expand your consciousness, get outside of your vehicle, or ride with someone else.

The Spiritual Path is a Path Away From Self

This Awareness indicates that the spiritual path is a path away from self. It does not matter whether it's going after this guru, or that guru, following this teacher or that teacher, this philosophy or that philosophy; what matters is that it is moving away from self into a higher vibration, not necessarily toward another's vehicle. You may chase another vehicle around the block endlessly and not be following a spiritual path. You may, however, by expanding out of your vehicle, while still keeping it intact, expand your consciousness as you look out across the plains, across the universe, across the concepts, across the ideas, across the fields of study, across the various teachings and philosophies into realms beyond personal, and in so doing, you are then merging with the Higher Realities.

This Awareness indicates that sometimes the most spiritual thing you can do is to take care of the mundane need: to deworm the cat, to change the baby's diaper, to clean up spilt milk, to mop the floor, to fix the broken door. Any of these things that need attending in a mundane sense may be the next step in your spiritual development. That when these things are done, there is a feeling of accomplishment, a feeling of relief. You have taken care of responsibilities. You then have the ability to respond to something greater. You have the time to respond to something more, and in that continual responding, you are moving up the path.

This Awareness indicates there are different techniques that entities often hear about: "Take this path. All you have to do is stand on your head four times a day, walk on your hands, and within six months, you'll be enlightened like I am!", or you hear someone else say: "Take this path! All it requires is that you renunciate your family, all your friends, and go on a very strict diet, avoid all contact with humans, and within six months you will be enlightened as I am!", or you may hear someone else say: "No, no! Take this path! It's really important that you breathe through the left nostril for six times a day only at sundown, while a blue candle burns behind your head!"

This Awareness indicates if someone told people that, it would be only a matter of weeks before they would have others doing it and believing it was a path to enlightenment, because there are always people

who are looking for some short-cut and formula, other than to be responsive and to take care of things and to move toward self-expansion into spiritual vibration. This Awareness indicates that indeed there are values in these tricks and techniques, and indeed if one were to breathe six times through the left nostril while a blue candle burnt behind their head and were to do this for a certain length of time every day, there would be benefits to the entity.

It is not caused by the formula, but because of the entity's belief that they are benefited, and the repetition, day in and day out of that belief based on that repeated action, and if they believe they are benefiting, what is it doing to their consciousness? It is making them think they are benefiting spiritually. It is forcing them to think spiritually. It is forcing them to want spiritual benefits. That in itself benefits their spiritual growth. Thus, the entity in taking any action, even if it is to simply jump up and down on a blue marble 144 times a day, this would cause entities to grow spiritually, because they are doing *something* for spiritual growth.

This Awareness indicates that in understanding this you can become more discerning as to what path you want to take. Do you want to take the path of punishment? Do you want to take the path of deprivation? Do you want to take the path of bizarrism?, doing something very bizarre and strange in order to progress spiritually? What do these gurus offer you? Are there any ways that are easy? There is a book out: *The Lazy Man's Way to Enlightenment*, or something like that. This Awareness indicates that this works also; that entities need not make it difficult. All that is necessary is that they put a certain amount of time out of each day or each week or out of their lives, into thinking spiritually, into focusing on things that are of a spiritual nature.

The Many Ways of Meditation

It is for this reason that daily meditation can be of such benefit to entities; but in the meditating, you want to meditate on something spiritual, something uplifting, something enlightening. There are many entities who meditate; in fact, almost everyone meditates without even knowing it, but many of them are

The Meditation of the Broom

meditating on their latest business deal, or they're meditating on some debtor that is trying to get money from them and trying to meditate on how they can get away to avoid paying that bill.

Many entities are meditating constantly on how to get next to this person whom they admire, or how to get away from this person whom they fear, or how to get back at this person that slighted them. All these focuses are meditations, but the meditations are not of a spiritual nature. They are of a mundane, personal or emotional nature. This Awareness suggests that entities wishing to develop spiritually, need to meditate on things that are of a spiritual nature, thus, many of these systems of spiritual development develop formulas that can be beneficial.

They can benefit by encouraging or regimenting certain formulas or methods of salvation, and they create these methods by which the entity is to follow the formula for the salvation the entity seeks, and most of them work to some degree or another. Some are more effective than others. This Awareness has suggested that entities can benefit greatly from meditation on vibration, or as some call it, the sound current. You can also benefit greatly by moving that vibration up from sound into light.

This Awareness indicates that in the Yogananda meditations, this entity has given certain meditations that incorporate all of these, wherein you listen to sounds in certain meditations, hearing these different sounds and then you also look for and see different lights and different colors and different shapes, and you can also move beyond that into Hong Sau meditation, wherein after supercharging the body with oxygen so that you need not breathe further, the heart slows, the breathing slows, you move toward suspended animation, and in absolute quietness, Consciousness becomes still and clear and you can see as though through a lake of pure clear water, without the interference of breath,—the wind on the water.

This Awareness indicates there is much to say for these forms of spiritual growth and meditations of Yogananda's teachings. There is also benefits in the Sant Mot path, wherein entities meditate on the sound current and move up the spheres, following the sound day in and day out with their mantras, every day meditating for a certain length of time. It can and it does raise the vibration of an entity. It does make the entity more spiritual and it is a path up the mountain, but it takes more than just that.

If the entity has contempt for others who are not taking that path, then the entity has polluted himself with vanity and with judgment, and that will need to be purified. This Awareness indicates that there are also the whirling dirvishes, and there are those ways of meditating through dance. There is the Subud. All of these things have their benefits. The Christian approach in which an entity is heaped with guilt, hypnotized with guilt, screamed at, shouted at that he is guilty, to where the entity feels: "Oh my God! I would like to crawl under a rock and hide!", and once this entity feels this way, then the screamer, the shouter says: "But wait! We have the answer! Do you feel guilty? Do you feel worthless? Our sponsor

brings you our solution to your problems, and therefore, we present you with salvation!"

[Transcriber's Note: the inflections in the Interpreter's voice are absolutely hilarious at this point.]

This Awareness indicates that it is another method, another formula. Even if it is a placebo, and the entity takes it to feel better, the entity will feel better. If the entity can be hypnotized into accepting that he is guilty of all the sins that ever were, guilty enough to be burned forever in hell, then surely the entity is susceptible to the hypnosis of the salvation, the placebo. This Awareness indicates that it is more than a placebo; it is a cure. The guilt is put on, the guilt is taken off and the entity is clear again, clearer than before, purer than before, and the entity feels great.

It is a psychological formula and it works, but it is not the *only* path. It is not the *only* way to salvation, though its adherents would have you believe so. There are many who promote and claim to have the only way, and this Awareness wishes entities to understand that *It* is not promoting a way, an *only* way to salvation. *It* is not telling you that you must worship this Awareness, that you must find your faith, your hope, your future, your afterlife, through this organization, or through these messages. You select your own path.

What this Awareness is giving you is understanding of these many ways, these many paths that you may discern as you walk along these paths. This Awareness is giving you insight; *It* is giving you the eye to see the spiritual path, that you become likened unto the one-eyed man in the land of the blind. You can see what others cannot see, who are simply following by blind belief. Then you have a greater opportunity, a greater chance, a greater ability to choose the path that is best for you, or you have the ability, if you so choose, to run all over the mountain and let it be your playground.

There is no reason that entities have to be on top, for the higher realms are everywhere, and it is only a matter of your own attunement. You do not need to watch spiritual programs on television all the time in order to be a spiritual person. You do not need to be all the time involved in the higher more spiritual pursuits. You can crawl under the car, change the oil, muddy your hands in planting seeds, you can help the drunk out of the gutter,...there are many things you can do, that are not what others might call spiritual pursuit that is still a viable occupation of time and space. You can even attend a movie and enjoy yourself.

This Awareness indicates that what *It* hopes to do in these messages is to inform entities of enough truth in a general sense that they can roam as they choose in the realm of reality and know where they are at any time in relation to truth, or if not, at least be able to come back to truth by their own discernment. What *It* hopes to avoid is seeing these entities caught in illusions such as occurred with those who followed Jim Jones, caught in illusions that say: "This is the way! Follow me! I am taking you to your destiny! You're going to love this!", when in reality you are being led to the Kool-Aid cure.

This Awareness indicates that these paths must be traversed with open eyes and enough experience in discerning, that entities become able to extract themselves, to step off the path, when they sense there is something ill, there is something afoul in the way the guru is walking. This Awareness indicates that if you have not that discernment, if you have not had the training, the ability to look at the different paths to discern truth from fiction, then when you are on the path following a guru, you follow blindly.

This Awareness indicates also, those gurus are not always what they are dressed up to be. The turban may be there, the robes may be there, the suit, the tie, the academic papers, but what's inside the guru? How many of you are aware, can be sure, that had you been invited and agreed to attend some of the Jim Bakker talks and had you been present at these talks repeatedly and come to like the fellow, how many of you can really say for sure that you might not have mortgaged your home to get money to put into the Heritage Club?

This Awareness indicates many of you may look at this and say: "Those poor saps! They lost all their money to that fellow," but perhaps it was only a matter of circumstances that you were not one of those poor saps. It is very easy for entities to be influenced, especially if entities do not learn to discern and to think for themselves and few people think for themselves, because *it is difficult!* That most people are quite content to let others do the thinking for them, and if they present a reasonable argument, and if others agree, and are going along with that entity's thinking, then it must be alright, and if masses are going along with that other's thinking, then it must be for sure certainty, correct.

This Awareness indicates that is the way people like it to be and thus the blind are led to the slaughter, each thinking the others wouldn't be following if it wasn't okay. This Awareness indicates that *Its* intention and purpose in giving this type of information over the years is not to satisfy people's curiosity for the bizarre or simply to open up secrets, although sometimes it is necessary to open up information in order that entities have enough of a glimpse to become clear, so that they can begin discerning. If something is so well hidden they cannot even glimpse it, then it is impossible to discern. You cannot discern a closed trunk and its contents unless you are a psychic, but if someone shows you the contents within the trunk, even for a moment, a glimpse in the trunk, then you have some idea of where to look in order to pursue greater detail as to what is in the trunk, and if you go away and someone asks you about something, then you can say: "Oh yes, it's in that trunk! I'll check that out for you!", and you can go and find that which you seek because you have had some experience and exposure, thus this Awareness has been answering questions for many years on all topics, all subjects.

Cosmic Awareness Never Has Claimed to be God

It has never claimed to be your God. You can have whatever God you want. *It* simply states that *It* is the consciousness of the universe, and that the Interpreter who speaks for this Awareness has his

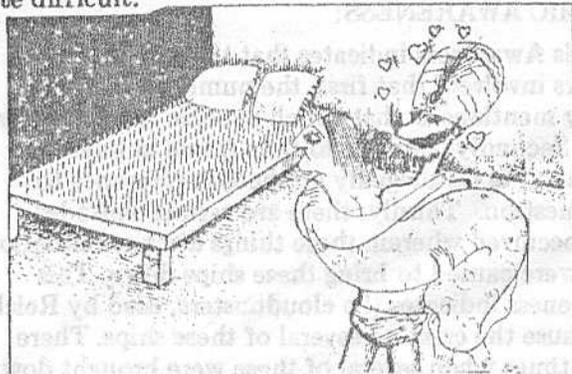

own interpretation which is unique to him and is not absolutely reflective of the Universal Consciousness, and therefore, these messages also are distorted by the interpretation of the channels or Interpreters, so even in that, you need to be discerning; you need to think for yourself.

This Awareness indicates that *It* hopes that this message will bring clarity to those entities who have become too dependent on these messages to do their thinking for them, and also hopes that this message will help those who misunderstand and think that they have to be loyal to this Awareness, to this organization or to this Interpreter, for these things are not necessary. Loyalty is akin to bondage. When you are loyal to something, you are bonded to it. There is nothing wrong with being loyal, and it helps the bonding, but if the bonding becomes twisted, you can easily be caught and bound. Therefore, be willing, be ready, be capable of extracting yourself, detaching from anything that would prevent your freedom to seek truth wherever you desire, and be cautious of those who claim to have the truth, but who claim or state: "We will only give you the truth if you renounce all other paths, all other areas of pursuit and follow only ours!"

Be cautious, for these generally are traps. This Awareness indicates that any area of pursuit, especially that requires you physically to move into a location for pursuit of truth is in itself the first step to vulnerability and dependency, for while it may be necessary to go into a particular area in order to study, to learn, because the teachers are there, or the messages cannot be sent out from there, because the way of teaching requires your presence in that area; whereas that may be the case, you must be aware also that you are more vulnerable to control when you go there, and you must check out carefully to be sure that it is not Hotel California, where you can check in but you never can check out.*

*The name of a long, mystical song and album by the Eagles.

This Awareness indicates there are such organizations. They go by many names. Some of them you have heard of, and they are not all spiritual organizations, nor are they all New Age organizations. Some of them are social organizations and political and secret organizations and there are some of them that are religious organizations and also so-called New Age organizations, and there are different degrees of entrapment whereby you can check in but you have to go through enormous effort to check out. It is not impossible for some to get out, but it may become quite difficult.

This Awareness indicates it is important, if you must leave and go to a place, to be involved with others, that you make sure ahead of time that it is an organization reputable enough that you can leave at will. Also, you must be most cautious about organizations in which laws are broken, or activities are conducted that involve you in something which would cause you to be an accessory to something illegal, for then you can be blackmailed, you can be coerced into loyalty with the organization.

You must also be most careful not to involve yourself in an organization that gives you something with the understanding that some day they'll get something back, unless you know exactly what it is they will get back from you, and when and whether it is something you wish to return at that later time, for there are some organizations that give you favors and then later extract greater than what you ever received, and you will find yourself threatened if you are not willing to give to them that which they seek.

This Awareness indicates that these have been discussed over the years in many forms; that there are pitfalls and dangers on many of the paths; that there are benefits on many of the paths; that you must learn to discern where you walk; that you not move blindly and ignorantly, naively, simply because someone tells you: "Believe me! This is the way!" This Awareness indicates that when it comes down to it, the bottom line is that you are your own master. You are responsible for your own self. Giving your life to another, placing your life in the hands of another, placing your

money in the hands of another, placing your assets in the hands of another is a most dangerous and risky venture, and when it comes to placing your soul in the hands of another, do not think that you can escape the responsibility if that other misuses or misleads you, simply by saying: "Well, I trusted him! I gave him my soul, and he short-changed me!" That will be no excuse.

This Awareness indicates that the reality of it all comes down to the fact that you are in charge of your life. You were given dominion over your body and your soul. You were given free will to choose. If through ignorance and lack of discernment, or through negligence, and your turning it over to someone else, you lose your money, your soul, your life, you have no one to blame but yourself. That is the bottom line.

That is why this Awareness has sought to give information over the years, so that entities might pursue different paths with greater perception and discernment, so that they might make the right choices. (This Awareness suggests that the Interpreter be brought from trance).

The Law of Gratitude is given.

(Emphasis is by the editor)

THE WEB OF CONSPIRACY: (THE ALIEN PRESENCE)...Continued.

MORE FLESH FOR THE SKELETON

(C.A.C. General Reading, April 5, 1990)

HOW COME SO MANY TECHNICALLY ADVANCED UFO'S CRASH TO EARTH?

QUESTION:

There's a couple of areas that have not been covered so far in the alien information that people are writing letters about. One is: "Why did all of these supposed crafts that were technically advanced keep crashing on earth, especially in the United States? One or two I might maybe understand, but 60 of them!" writes member J.D.

COSMIC AWARENESS:

This Awareness indicates that there are several factors involved; that first, the number which this entity mentions as that which appears to be exaggerated. Secondly, there is no time frame in reference to when the 60 allegedly crashed, in reference to the question. Thirdly, there are various episodes that occurred wherein these things did have situations that were caused to bring these ships down. This Awareness indicates the cloudbusters, used by Reich did cause the crash of several of these ships. There were times when several of these were brought down

by efforts of the military and what may be termed commando-like tactics. There were also times wherein the craft crashed simply by accident, such as in the Roswell, New Mexico, crash.

This Awareness indicates there are certain factors involved in the government testing of these craft, in which, in working with the aliens to develop these, has also led to some incidents in which the crafts were brought down or came down because of malfunctions; this after there were the agreements in which the government worked with and assisted the aliens in working on their craft. This Awareness indicates that these craft, using that technology that is not absolutely infallible, associated with a kind of time/space warping effect, do occasionally malfunction.

HOW MANY UFO'S ARE REMOTE CONTROLLED? HAVE CRYSTALS REPLACED PILOTS?

QUESTION:

M.G. sent in a page from a book called *Crystals and Spaceships*. I'll read this briefly.

"During this present age, governments have become aware of the existence of ships that have, for one reason or another, malfunctioned and crashed on your planet. The governments have secured these vehicles in secret; however, for the most part, the ships have been unoccupied. How are these vehicles propelled, and where is their guidance system, and their order of controls? Some of them have been discovered to contain quite large crystals in the area that you would refer to as the control panel or control booth. These crystals are the 'captains' of the ship, and they have been implanted or programmed with the course of direction and the mission for the ship. One might say they are remotely controlled, but the remote control emanates from a generating crystal containing all of the vibrations that are drawn out and then fed into the computers that work the steering mechanism of the ship."

And he want to know, is that information valid, and if so, how often are vehicles coming around to earth that actually have no entities driving them?

COSMIC AWARENESS:

This Awareness indicates that these as being likened unto remote control vehicles run by guidance which emanates through a crystal-like guidance system; the crystals serving in a similar capacity as computer chips which receive and transmit directions or programs. This Awareness indicates that they also read information to feed back to the one who is guiding the ship from elsewhere, thus, it is likened unto one who has a kind of camera-like eye within a remote-controlled vehicle to see where it is going, to direct and guide it, and observe its place and know what it is receiving; this much in the same principle as some of your remote-landers on the moon or probes to other planets, in which they can be guided from the feedback that they give in their photography or viewing mechanism, as they pass a planet. That especially common in this regard are the very small craft that have occasionally been described, such as the 3-foot UFO, these being very small-type craft which are sent in to areas to gather data and information. These are pilotless in the sense of having no one inside, but they do have sensors inside, and the crystals serve as a kind of sensor device.

IF 30 MILLION REPTOIDS ARE COMING, WHY KILL OFF OR REDUCE MANKIND?

QUESTION:

A question on the information of the spacecraft with 30 million aliens possibly coming to earth in a few years; in light of what Awareness has given on the Greys and their attempt to either reduce or eradicate mankind from the earth, isn't it rather inconsistent that if 30 million entities who rely on earthlings for sustenance and so forth are coming, that it seems inconsistent that these Greys would want to continue to eradicate mankind?

COSMIC AWARENESS:

This Awareness indicates that *It* did not suggest that the Greys wanted to eradicate *all* of mankind; *It* suggested that they wanted control of the earth. Their purpose, their job, their reason for being here was to

9. set up a One World Government to gain control over all human activities, using the humans to help control their own people, but also prepare the way for these others to follow, so that by the time they arrived, the human population would be under control. If, in gaining that control it is necessary to eradicate much of the population, that would be part of the action.

This Awareness indicates that there are, for them, far more people on earth than they see as being necessary.

(FOLLOW-UP QUESTION):

I was thinking in terms of the plagues they've created over the years and the Global 2000 scenario and so forth.

COSMIC AWARENESS:

This Awareness indicates you will remember the Global 2000 scenario was designed to reduce the population by one third; that this would bring the population down to approximately three and a half billion, or four billion people by the time of this arrival of 30 million.

ANY CONNECTION BETWEEN ALIEN

ABDUCTIONS AND HOMOSEXUALITY?

QUESTION:

Is there any connection at all between the aliens and the abductions and so forth, and the fact that homosexuality seems to be suddenly so prevalent on this planet?

COSMIC AWARENESS:

This Awareness indicates that this is not directly related. It appears that there are certain changes that are occurring in consciousness in regard to breakdown of tradition and certain alterations in the value systems of entities, coupled with new freedom of expression and the openness of entities to be more honest in regard to themselves and their feelings, and along with the breakdown of certain moral values of the past and the openness of peoples' expression and a feeling of right to be or to do what they wish and the media promoting images of homosexuality to make it more common to the minds of others; all of this has combined to increase the perception of homosexuality as well as the actual practice of homosexuality.

This Awareness indicates there has always been some degree of this; that it has been hidden in the past moreso than today; that it has existed throughout your history. There are, however, some other factors that need to be recognized in regard to homosexuality, as a potential increasing situation on the earth plane, one being that it is possible for genetic alteration to occur through certain diseases or through artificially created diseases which alter the hormone system in an entity's body to cause the entity to become attracted to those of the same sex; that this as one of the causes of homosexuality which is active on this plane. It is a very minor part of the general trend, but this factor is seen as that which will become more exposed as a reason why some entities are into homosexual activity and behavior. It is for some, the result of certain alterations in the hormonal system.

(FOLLOW-UP QUESTION):

Then alien abductions and implants and experiments on entities have nothing to do with homosexuals?

COSMIC AWARENESS:

This Awareness indicates it can disturb an entity's psyche to such a degree that it can throw off an entity's sense of values and could have an effect in this regard, but it is not seen as a major cause or as anything that would be considered a primary or strong influence in the overall homosexual expression of your present day society. This Awareness indicates that one of the more common causes for homosexuality has to do with the way young people are treated by their parents; that young girls who are molested by their fathers have a far greater tendency toward homosexuality than would the girl who was respected by her father.

The young boy who is treated by the mother as though he were a kind of mate, especially young boys who are part of a divorced family, wherein the young boy plays the father role, even if there is no sexual relationship between mother and son, it can cause a tendency for the young boy playing the father role in a family, filling in that gap, to later have a feeling of disloyalty toward his mother when it comes to having affairs with other women, as he grows older; and also, can cause him to feel a kind of abhorrence toward women in general because of his attraction to his mother.

10. This Awareness indicates that it does not always take this form. It is one potential, and this can be a contributing factor, because of so much divorce in families; this and the potential of molestation; that these two things tend to be much stronger as reasons than anything having to do with the aliens. This Awareness indicates that young men, having a fear of the female because of relationships with the mother, a dominant mother or something of this nature, or young men having a fear of the female because of the mother being too familiar with the son; these are also potential causes for the son to be repelled by women.

Also, wherein a young man is so highly programmed against the idea of sex with a female; this too can be a frightening experience for him, and it could in some circumstances, depending on other things, tend to lead him into homosexuality. In many cases, the young man simply becomes confused about sex and in the confusion becomes easy prey by those who would prey upon a confused entity, and the entity himself not quite knowing who or what he is in terms of his sexuality, can be seduced into homosexuality, wherein without that seduction, might grow toward a greater normalcy, given time to work through the confusion. This Awareness indicates the same may be said for the female.

ARE THERE FLAWS IN BILL COOPER'S VERSION OF THE KENNEDY MURDER?

QUESTION:

Another area that's bringing letters on the Cooper information concerns the Kennedy assassination. This is a typical letter from P.K. of Los Angeles. He writes: "I have seen a clearer copy of the same video of the JFK assassination that Mr. Cooper shows. It is clear what Mr. Cooper says is the driver shooting the President is in fact just a reflection or flash of light on the film. Additionally, I have talked to several long-time JFK assassination researchers including one who has studied Mr. Cooper's Zapruder film at great lengths, using professional equipment, and he assures me that what Mr. Cooper is saying about the driver is nonsense. Please comment on this. Is Mr. Cooper intentionally lying about this? If so, why? Does this mis or disinformation about the JFK murder reflect poorly on many of his other claims?"

COSMIC AWARENESS:

This Awareness indicates that this is not an intentional distortion or lie; that the film which the entity shows does give the depiction or indication that this is occurring. This Awareness indicates that it is described in a more accurate sense in the tape of Dr. Beter. This appears to be tape number 3, as to what actually occurred at that moment.* The automobile as being set up in such a way that a charge-type device was fired at Kennedy, taking off the top of his head; that Jackie Kennedy was indeed crawling back to grab that part of his head which had flown off; also in terror, desiring to get out, she was just in total shock and confusion.

This Awareness indicates that in regard to the driver, the movement of his turn and the object in his hand shown in the film as that which gave the appearance that he was shooting, and you may look at this time and again, and it will appear that this is occurring. This Awareness indicates that it was the reflection of light on him as he turned his head to see what was happening behind him. He also turned his arm at the same time. This Awareness indicates that this entity was aware of the charge in the seat and was one of several who were involved in the plot to kill Kennedy; the car being destroyed within 24 hours after the assassination.

This Awareness suggests entities wishing to explore this may listen to the Dr. Beter tape, number 3.*

* ED's Note: I sent \$18 to Bill Cooper for his advertised video of the Kennedy murder. It turned out to be a 20 minute segment of the Zapruder tape. My advice: save your money; it's in his other videos about the secret government anyway. As it so happens, C.A.C. has the particular Dr. Beter Audio Tape Awareness is recommending, and we will send anyone a copy if you will send in a donation of any amount. Request Dr. Beter Tape No. 3.

WAS KENNEDY MURDERED BECAUSE OF ALIENS?

(FOLLOW-UP QUESTION):

Is it true, as Cooper claims, the main reason Kennedy was killed was because he was going to divulge the alien situation to the public?

COSMIC AWARENESS:

This Awareness indicates that ten days before his assassination he gave indication of that. This was stated at a college. This appears to be a statement in which he indicated that he would bring out information as

to how people have been duped and this was perceived by those who understood what was occurring that he was referring to the issue of alien presence. This was his intention. This Awareness indicates that he had met previously with those who understood the alien situation, insisting that they let the people know, or that he himself would let them know.

This Awareness indicates that when he gave that ultimatum, that began the process for the assassination plan to follow through. This Awareness indicates that it appears in the situation, the charge was fired from the back seat; that the driver was to assist in the assassination in the event these two things,--the shot from the grassy knoll and the shot from behind, and the charge from the back of Connally's seat; if those things did not work or complete the job, the driver was to fire his pistol.

This Awareness indicates it does not appear that the driver actually fired. He being a secret service man himself, would have the right to have a pistol and to pull it out in such a situation, and to, in the confusion, add another bullet, would not have been easily detected at that particular moment, wherein all knew the exact spot where these things were to occur. This Awareness indicates that the flash of light came from the explosion in the back of the seat behind Connally, which was aimed toward Kennedy. This Awareness indicates that it does not appear that the driver actually fired a shot.

This Awareness indicates that it does appear that the remainder of Cooper's scenario as being correct, including his suggestion that the secret service men riding behind were instructed to stay behind.

BILL COOPER AND HIS "SECRET GOVERNMENT" EXPOSE NOW BEING SHOWN ON JAPANESE TV (IS THE HEAT OFF COOPER AND OTHERS?)

QUESTION:

We received a letter from C.L., who's a member in Japan. He teaches English there and he writes:

"Dear Avaton. Awareness indicated in the latest newsletter, that by February of '90, there may be a new policy of allowing information on the UFO situation to come out, without reprisals against those entities releasing their information. It seems to me that this policy has indeed come, or if it hasn't yet, then it soon will. My reasons for thinking this are:

(1) the Bill Cooper film of JFK's assassination by the secret service driver of his limousine, has been on television in Japan. I, and doubtless many others recorded it. This was a national broadcast. Bill Cooper has been on Japanese TV four times now, in recent UFO documentaries of one hour or more in length. Books on the assassination are in the shops and available to the Japanese public and have been since 1989. Surely, to terminate Cooper's existence would just create a tremendous renewed focus on his work and message, which seems to have reached the media in its entirety.

"The 'Secret Government' 20 page article was recently shown on Japanese TV. This message is out. It's no secret. People have known about it. I doubt Cooper has oceans of other information to give out; some that he did was dated from the 70s, therefore, it would seem to me to be totally counterproductive to have this entity exterminated. It seems best to just

11. leave him alone to fade away with history, so to speak.

(2). We've just had the first introduction to 'the aliens are cloning in New Mexico' subject, shown on TV here, and a major show on this is planned for March 24th here. Surely, the pressure must now be off, and the fact that the paper you at C.A.C. redistributed has been shown on Japanese TV nationwide, to hundreds of thousands, if not millions of viewers, surely means that you at C.A.C. are safe regarding any reprints you put out there. Would you like to ask Awareness for a confirmation of this?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates that *It* has been quite aware of the hazards in regard to UFO activities, and the exposition of information regarding these things over the years. It has not been until quite recently that any degree of safety at all has been available for entities releasing such information, and were it not for the fact of Lear and Cooper releasing their information so far and wide to so many entities at once; the information being released in five thousand copies, to newspapers, Congress-people, heads of state, people in very important positions all over the world; churches and so forth, all this information being released at once; were it not for this action, these entities would have suffered severely; but because the information was scattered so far and wide, it would be fruitless to silence them after the information had been released. It would only add to the credibility of the information. This Awareness indicates that following the release of this information, it was the intention to discredit Cooper as was indicated previously, and approximately one million dollars worth of effort was put into this, and just as this was to be implemented, Robert Lazar, another entity who was involved in the UFO situation, came out with the information about Area 51, and the alien spacecraft which the U.S. government was working on and testing.

This led to several hundred entities traveling to an area near the base, photographing UFOs being tested at night, and these photographs being aired on television in Los Angeles and in Nevada and in different places. Video tapes have been circulating with these pictures and following this it became the topic of a series on prime-time news in Nevada; therefore, the situation has brought enormous amounts of information out into the open.

Just as this was happening, also in February was the release of *The Gulf Breeze Sightings*, and the networks picked up on this because the pictures in the book were indisputable. This Awareness indicates that all of this has brought everything out in the open, so that instead of individuals being forced to remain silent for fear of assassination, which was justly warranted prior to these releases, it has come to the place whereby the skeletons in the closet have been opened, the media has filmed them, and anyone can talk about it if they're interested.

Robert Lazar Enters the Picture

This Awareness indicates it cannot be closed anymore. Too many have seen, too many have witnessed, and they cannot all be silenced. This Awareness ind-

icates that prior to February, there were still debates in certain circles as to what to about Cooper, and whether to deal with him in a threatening manner or whether to discredit him. The concept of discrediting became the more acceptable way, but before this program could be implemented, all these other things came out also. The entity Robert Lazar, a young man working as a scientist in this UFO testing factory or base, upon disclosing information he was not supposed to disclose, suddenly discovered, when he began telling who he was, where he had worked, where he had gone to college and so forth, found out that when people checked on his story, there were claims that he had not ever worked there, and there were suggestions that he had no college record, and when he began checking, he found that all of his records had suddenly disappeared, making him a non-entity, and knew that this was the beginning of his assassination; that he would simply disappear.

Thus, the entity began mass public exposure, talking where he could, being as public as he could. Fortunately for the entity, a news researcher found newspaper articles attesting to the entity's presence at, and for the firms he claimed to have worked for, in some of their earlier publications where they had forgotten to get rid of the publications or strike his name out, and it proved he had indeed worked where he claimed; and this was aired on the Nevada news broadcast.

Government May Soon Release Its Version Martial Law a Possibility

This Awareness indicates that therefore, this entity too is now another additional factor in forcing the release of this information, and if anything occurs to him, people will assume it was because he spoke out. This Awareness indicates that the next potential scenario is that the government release the information relating to the UFO cases, but release it in a way that is favorable to their way of wanting it released, and to claim that any other version is but that of troublemakers. You may also see a potential of martial law occurring in this country, in which many of those who are seen as troublemakers or who would hold to the story that the government was involved with alien alliances in the abduction of humans and so forth... that such people would be rounded up and taken into imprisonment along with others who have been implanted as potential threats to the country's security, so this Awareness is suggesting that you are not fully out of danger just because many people know about this information.

The information may be known, but you may recall also that in China, everyone, or a great number of people knew what had occurred in Tiananmen Square, and yet today, you will not find anyone in China who will talk about it. This Awareness indicates that this is likened unto an open window in which entities have a chance to talk, to spread the word, to discuss it, to show, to view the films, and the more that occur now, before a martial law crackdown, the greater the chances of having truth prevail. This Awareness indicates that once this window is closed, if enough people are not already informed, the information could still be curtailed, and hidden from the greater masses. At present, approx-

imately two to three per-cent of the population has the full story; that three per-cent could very easily grow to ten per-cent within a month.

What You Can Do to Help Awaken Humanity

This Awareness indicates that it would be advantageous and valuable for entities to show these films, buy these films, play the tapes, make copies of the tapes that can be copied, and to make copies of the material that can be copied. Much of this is not copyrighted. That which is can be shown, can be broadcast on some of the local television channels. This Awareness indicates that it is the time to awaken the masses as much as is possible, to send this information to churches, to groups, to clubs, to radio personalities, to movie and television personalities, to get people aware, people who have influence.

The politicians, most of them already know what's going on. It would still be beneficial for them to know that you know what's going on, and therefore you may write them or send them information. This Awareness suggests that it is better to send the information that is of a more credible nature, such as the tapes, refer to news broadcasts, the Cooper material and so forth, then to send them some channeling, which they will not pay attention to anyway. That in this way entities can let leaders know that they know, and if enough do so, the government version of the situation, when it is acknowledged, will have to be closer to the truth, will have to explain much of the situation in terms of abductions and so forth.

This Awareness indicates that entities may also tell their Congressmen and other leaders that it has been shown all over Japan on television that the aliens are in New Mexico and cloning more aliens; that they are aware these aliens have long been siphoning off funds from the American people to build underground bases. This Awareness indicates that for most of the Cosmic Awareness readers, many of you assume that the government is going to be impressed by Cosmic Awareness messages, that your senator will be impressed. This Awareness indicates that this is not so. It is somewhat naive to use this approach or to try to promote this Awareness to your senator. It is better to use the more traditional sources of information for your substantiation of that.

You may say that you have seen it in videos or heard the tapes, or you have understood that it has been on the news or that it has been played in Japan or you have information indicating this or that. You may say these things and not even disclose exactly where it is coming from and it can still have an impact, or you may send the information to them. Most of the senators have already received from Lear and Cooper this information, over a year ago. This Awareness indicates that therefore, all you need to do is refer to that, but you may also re-send it if you think they may have missed reading it, or if you think they have forgotten it, and you may also refer to other sources*

It is important that you realize the more sources you can name and the more information you can refer to, the less like a nut you will sound, for if you simply say: "This group which I get readings from tells me the aliens have come to the earth and are here and are

eating people," you are going to sound absolutely crazy. This Awareness indicates that your letter will probably not get past the secretary. Therefore, use good sense and talk to these entities from the kind of practical standpoint which they will respect and understand. If you do not wish to quote any source, that is better than to simply generalize that Cosmic Awareness said this or that, for there is a tendency, and has been a tendency of many entities, to do this kind of communicating with people who do not have the slightest idea of what Cosmic Awareness is and who would perceive anyone talking about Cosmic Awareness saying this or that as being somewhat out of touch with reality.

This Awareness indicates an example being an entity writing to a tape maker, one who produces subliminal tapes, telling him that "Cosmic Awareness suggested that you would give me some subliminal tapes." The entity wrote back saying, "I have no idea what you're talking about." The entity then wrote, asking: "Why didn't he send me the tapes?" This Awareness indicates that you have to realize whom you are talking to and talk to them on the levels they understand and comprehend, rather than expecting everybody to comprehend your understanding of things.

*ED's Note: Although Cooper and Lear mailed out their 20 page report, 'The Secret Government' to all members of Congress, I read the other day that Cooper received only two (2) replies!

WHY ARE MANY RAMTHA PEOPLE TEARING THE ROOFS OFF THEIR HOUSES? (MORE ON THE SATELLITE SNOOPS)

QUESTION:

C.C. writes: "I've heard that the people in the area of J.Z. Knight are tearing off the roofs of their houses, covering said roofs with copper foil and re-roofing. Does this have to do with protecting themselves from the UFO aliens, and/or our government?"

COSMIC AWARENESS:

This Awareness indicates that this prevents the infrared satellite spying which can read the heat and detect metal within homes. It can determine how many entities are within a home; it can determine the location of metal, such as guns. In this case, however, it is more for the purpose of preventing the beaming up with the blue beam; that this blue beam does not pierce copper. That is a concern of these entities; that these entities are well aware of the alien presence and also perceive themselves as being potential targets because of their awareness of this situation, and because they all live in a close proximity. It also helps to prevent them from being monitored by the monitoring devices that can be used by aliens to control, influence and also read their psyche.

(FOLLOW-UP QUESTION):

Would a copper wire extended around the house and grounded essentially do the same thing?

13.

COSMIC AWARENESS:

This Awareness indicates that it would be helpful in the sense of grounding certain energies that might come near the home or in the general area, but it is not the same as having a copper roof. This Awareness suggests, however, that you not consider this a high priority. The chance of being beamed up through the roof of your home is quite small. If they wanted you, they would simply wait till you left your home and walked out the door. You will recall in *The Gulf Breeze Sighting* that they truly wanted this man, and spent four and a half months getting him. A copper roof would not have protected him.

For some reason, they chose not to beam him through his roof. It appears that it takes excessive juice or power to do so. It appears it is much simpler for them to beam entities up from outside and in close proximity to the ship.

WHAT PRIME DIRECTIVE GOVERNS THE ALIENS?

QUESTION:

J.C. in Pennsylvania, asks: "Is there a prime directive that governs the behavior of these aliens, as in the TV series *Star Trek*?"

COSMIC AWARENESS:

This Awareness indicates these particular Greys, the Zeta Reticuli, which are the ones which are in focus at this time, have only the directive of preparing the planet for their superiors who are alleged to be on the way; these entities having traversed to the Draco constellation from whence they plan to then travel toward earth; that their prime directive is to complete their mission. They are capable of saying what you want them to say in order to get what they want from you, but they are not bound in their own view of things, they are not bound by anything they say.

WHAT WAS THAT BRILLIANT FLASH OVER SAINT LOUIS ON MARCH 17TH?

QUESTION:

W.G. writes to Vikki: "I thought that I would send you the latest in strange events from here in Saint Louis. On March 17th we had a bright flash that literally lit up the entire city. The whole event stunned everyone for awhile. Some people are playing this off as a meteor, but this was no meteor. I have seen meteors before and that flash was definitely not a meteor. I'll let you read the article to get the rest of the information. I think that whatever it was was either a UFO or a military experiment. After I thought about it for awhile, I came up with some conclusions. (1) The flash was seen as far away as California, so the flash had to happen very high in the atmosphere; (2) The intensity of the light would mean that there was intense heat and pressure; the light appears to be a high frequency type because it had a bluish tint; (3) Many people heard a sonic boom so that means whatever it was was travelling really fast. This is too fast for a naturally falling object."

And he sent in an article which I can read, if Awareness requests it, but could Awareness explain what that bright flash was?

This Awareness indicates that this appears to have been one of the attempts to test certain technology relating to SDI, and rail gun technology.

(FOLLOW-UP QUESTION):

So rather than this being anything alien connected, it was a test of a device...

COSMIC AWARENESS:

This Awareness indicates that this SDI situation is that which is alien connected, having to do with using technologies for the potential of a space war, either with present aliens or against present aliens, depending on which way the worm turns.

SHOULD WE LOVE THE ALIENS TO DEATH?

(HOW THE ALIENS WILL EXPRESS THEIR LOVE)

...ON THE FOOD CHAIN--A NEW MENU

QUESTION:

V.B. of Sun Valley, Idaho, writes in regard to the alien situation: "If the statement is true that "At the center of all creation is love," how can these creatures that mutilate us, that don't show us love, have love in the center of their creation? Do we allow them to express their "love?" As we love them, do we love them to death?" she asks.

COSMIC AWARENESS:

This Awareness indicates that the question as that which has an application only on a theoretical or hypothetical level. It is likened unto the question of cattle being raised for the butcher: Should the cattle love humans? Do humans love cattle? What does love have to do with it? Is it sufficient to love the cow that one is preparing to butcher, or is it necessary for the cow to love the master who is preparing to butcher it?

This Awareness indicates that love is its own reward, and has not the everpresent healing power to prevent all ills; it simply loves regardless, or it holds back its love and gives it conditionally. Is the love to be conditional on whether you are a victim or whether you are spared, or is the love to be given regardless of whether you are a victim or spared from the wrath of another? This Awareness indicates that there is no denying anyone the right to love, even if they love their captors.

There is no way to force another to love you, even if you give your life for them. Love is another realm of reality, separate from the reality of biological needs, and wherein one species hungers for another, it is not necessarily prompted by Divine Love. It may be prompted by biological need, and just as one can love a juicy steak, an alien can love a very juicy person.

This Awareness indicates that *It* is not speaking this way to frighten entities. *It* is simply trying to help entities understand the nature of things. *It* is not indicating you are going to be eaten by aliens, *It* is simply explaining a different culture and the way that culture views humans. It sees humans as inferior, just as humans see animals as inferior to them. This is a shock to humanity, because human-

ity has never experienced this position in the food chain. Humanity has had dominion, was given dominion over the fish of the sea and the animals and all creatures of the land and all creatures that fly in the air: the birds, the animals, and the fish of the sea. It was not given dominion over the aliens and now humans are faced with the realization that there is a species that feeds on them, and it is a shock, just as it might be a shock to a cow, if it could realize that its god, "farmer," who feeds it daily, nourishes it, cares for it, brushes it, cleans up after it, walks it out to the pasture, gives it grass, keeps it happy, brings the vet when it's sick, plans its slaughter, or will sell it to the slaughterhouse.

Aliens Not the Only Thing that Eats Entities

This Awareness indicates that it is a shock to entities to discover *they* are in the food chain, rather than controlling from the top of the food chain. This however, does not need to alarm entities, for as it is; not all animals are eaten by humans, not all cows are eaten by humans. Likewise, not all humans will be eaten by aliens. There are some who will be eaten by animals; there are some who will be eaten by disease. There are some who will be eaten by greed, by personal frustration and suicide. There are some who will be eaten by lust and the resultant diseases that may follow this. There are some who will be eaten by their own ego to where they become so egocentric that they lose everything they have. There are some who will be eaten by old age and who will live with old age eating away at them for long, long periods of time. There are some who will be eaten by accidents.

This Awareness indicates that all *It* has done is inform you of another way by which some entities exit this plane. There are some who will be eaten by the war machinery, some who will be eaten by the medical industry. This Awareness indicates that you need not worry about being eaten by aliens. It is unlikely that anyone reading this information, that even one person in this organization will ever be eaten by an alien. *It* is informing you that this is happening on your earth plane; that there have been entities who have been mutilated, in some cases eaten.

The Reticuli and the short Greys from Orion tend to eat or use only the glandular juices. Other types of aliens may indulge in physical cannibalism of humans or the eating of humans. This Awareness indicates that it is unlikely, in fact, this Awareness guarantees at this time, that none of you who are reading this information will be devoured or eaten or selected or mutilated by aliens. Therefore, this is not something that should drive you into paranoia, but *It* does wish you to be aware of what is occurring on your plane.

This Awareness wishes at this time to seal that statement, that guarantee which *It* made to your readers. *It* is now gathering energy to give this guarantee its sealing, as a pact. (Long, long pause). This Awareness indicates this is done.

PROTECTION DOES NOT APPLY TO ABDUCTIONS (MORE ON HOW TO AVOID BEING ABDUCTED)

(FOLLOW-UP QUESTION):

Would that pact also include protection from being abducted by these aliens?

COSMIC AWARENESS:

This Awareness indicates that this cannot, and does not include this action, for some entities have already been abducted by aliens and there may be more; that it is a possibility that there will be a few alien abductions, especially by those who call out or seek to be close to aliens. This Awareness indicates that there are ways of avoiding abduction. If you find yourself thinking of aliens and feeling drawn to them, it is inviting them to abduct you. If you think of aliens only in the sense of an effort to understand what is going on, just as one would work at a mathematical problem, this does not bring about a psychic connection to them.

It is that emotional connection that tends to draw aliens to you, and you can, in fact, call them into your presence with an emotional attachment. This Awareness indicates that this can be somewhat of a threat for those who believe aliens are here to save them. Save them from what? From uneventful ordinary mundane living? What do they expect to take place aboard this alien craft? There is almost every pleasure available already on earth, with your fruit, foods, parks, company and entertainment, yet there are always entities who want to be picked up for some reason. Apparently it is in order to be special, above everybody else.

Such entities may get their wish. This Awareness indicates that if you have the chance to board an alien spacecraft, be very careful. Make sure it is shaped like those which Billy Miers photographed, and be careful that it is filled with human types from the Pleiades, or from Sirius; that those little short big-eyed people are not nearly as pleasant as those who fly the friendly skies of your airplanes. You would be better off taking flights with United or TWA, or some of the other more familiar types.

ED's Note: I received a flyer the other day from Wayne Aho, along with a note asking me to pass on the word that he is holding the 29th New Space Age Conference on June 22nd. (It came too late). Wayne is a local UFO

character, now having a church in Tacoma, who for the past 28 years has invited the public to his landing strip, just outside Mt. Rainier park, to decree, meditate, pray or whatever to implore the aliens to land and be embraced by the multitudes. Like Ruth Norman in California, Wayne Aho is absolutely certain the aliens will answer the calls and land and greet the people. (I mailed him the last couple of CAC issues, hoping they might give him an idea of just what he is asking for). I declined his personal invitation to join him at the landing strip, where numerous speakers, including Dr. Frank Stranges, were to perform. There was to be a barbecue too, but I figured after 29 years, just maybe the decrees would work this time, and I did not want to find myself being the main course (although I have been told I would make a juicy morsel!)

BE SURE TO AVOID THIS TYPE OF UFO

(FOLLOW-UP QUESTION):

Ten years ago Awareness advised entities to beware of the cigar-shaped UFO. There hasn't been, to my knowledge in the last few years, any sightings of these particular cigar-shaped UFOs. Are these still around? And if so, should we still beware of them?

COSMIC AWARENESS:

This Awareness indicates that if you should see any, that you should not board these. The types to beware of are the types that are shown in the pictures in the book, *The Gulf Breeze Sightings*; that those which look like a kind of hat with a brim and a short flat top with its little point; that those squared-off types are used by the Greys; that the type Billy Meiers photographed which has a rounded top, rounded in the sense of a flattened curve on the top; that type of oval shape, flattened oval shape, as that which is used by the Pleiadian visitors, but these visitations are very rare at this time and it is unlikely that you will see this type; that this may occur at some future date.

This Awareness suggests this discussion is in a sense pointless because it is so unlikely that any of your readers will even see any of these crafts up close.

WILL JEHOVAH AND YAWEH BATTLE IT OUT HERE ON PLANET EARTH?

QUESTION:

One final question before we bring the Interpreter up. We met this entity B.V. yesterday, a member from Australia, and he's also connected with the Ramtha organization, and he made the statement that he has information that Yahweh and Jehovah are two separate entities, and a war between them is imminent, and it will probably be fought on this planet. Does Awareness see this information as being at all valid?

COSMIC AWARENESS:

This Awareness indicates that names are being thrown around so often by so many that they mean so little; that there are so many different mundane philosophers putting labels on different concepts or entities or imaginary entities that it is difficult to know who they refer to. This Awareness reminds you that Jehovah is another name, it is a Greek name for Jupiter, just as is the name Zeus; that the term jovial and the term 'By Jove!' are relating to Jupiter and the term Yahweh as that which stems from

a Hebrew word that was unpronounceable and never spoken, and that there is also supposed to be an entity named Jehoveh, which entities claim is different from Jehovah; that this is in the Oahspe bible.

This Awareness indicates that essentially, what may occur is that there will be two (this is not an absolute certainty), that there may be two different factions which come in conflict with each other. That these factions at some future time may represent those who are related to the human race, from an ancestral past, and those who are related to the Greys. It appears this may be that which is the reptilian type. This is not even certain. It may be that the reptilian types will never even make it to earth. They are expected by the Greys, but there is the possibility that they will not arrive on earth. They are still in the Draco constellation and are not in friendly areas in their present position.

UFOGATE!

THE COOPER TAPES

UFOs & THE GROWTH OF SECRET GOVERNMENT

Former Navy man William Cooper reveals secret information about U.S. Government involvements with UFO aliens, including:

- Recovery of crashed UFOs
- Recovery of live and dead aliens (E.B.E., the original E.T.)
- Secret treaties between aliens and the U.S. government
- What's behind the phenomenal growth of secret security agencies since WWII
- Who's really behind the Drug Problem

It's often been said that truth is stranger than fiction. That may be the greatest understatement ever made.

AN *Ozark Natural Foods Co-op* WORKSHOP
117 W. ROCK ST.

Sunday July 1st, 1:30 PM

Admission \$1.00

HERE'S A GREAT IDEA ON HOW TO GET THE WORD OUT! C.A.C. member Joe Alexander put together this poster, reduced from 8-1/2 by 11, and posted them around on lamp posts and bulletin boards. He got people to come to the local co-op where for \$1.00 they could hear the 2 90 minute tapes offered by C.A.C. called "An Evening with Bill Cooper." The same poster can be reduced to the above size and used as an ad in the local paper. Why don't you all try this? Rent a room at the local library, school, community center etc. (many are free!) and run a small ad like the above and run off some posters on that copy machine down at the local supermarket, and you're in business. Remember, Awareness says that 5% needed to become aware of the alien presence could be achieved in 30 days!

THE 2 90 MINUTE CASSETTE TAPES ARE AVAILABLE FROM C.A.C. for \$10 plus \$1.00 postage.

You can do the same with the Cooper video. Order the Sedona, Arizona, video for \$30 plus \$2 shipping from Stanley Barrington, 2059 E Ave 1 No.11 Lancaster, Calif. 93535

Remember, the aliens are coming in droves! We need to alert the public!

WARNING!

Advance troops are already here!

UFO ARMY WILL INVADE EARTH

ARTIST'S conception shows an American city under attack by a swarm of laser-firing flying saucers. Scientists warn that an invasion of Earth is imminent, and that a space-borne armada of heavily armed starships is well on its way.

**'Doomsday
-scientists**

IN

By LAUREL BOWIE
Special correspondent

An army of alien warriors from a planet 500,000 light-years away is zooming toward Earth on a mission of death and destruction — and they've scheduled their invasion for May of 1992!

Stunned scientists have intercepted a radio transmission from space revealing that advance troops from the still-unidentified planet are secretly walking among us at this very moment.

1992!

'attack' plans revealed when crack space aliens' secret code

"Some of them are already here, quietly laying the groundwork for an invasion designed to kill or subdue every man, woman and child on Earth," said renowned West German physicist Dr. Gerhard Schultz. "And the main army of invaders is racing toward us, apparently at 100 times the speed of light. When they get here, we can expect a war unlike anything mankind has ever seen. They'll undoubtedly be armed with weaponry beyond our wildest imagination."

Dr. Schultz claims scientists here and in Russia intercepted the first transmission from the alien raiders eight years ago. But it took the world's foremost experts a full four years to begin deciphering the extraterrestrials' complex code.

"Based on an earlier transmission, we had thought their time of arrival was scheduled for July 6, 1992," the physicist said.

"But subsequent transmissions have led us to believe the invasion has been rescheduled for May 15, 1992. That makes it even more imperative that we strive to prepare for the attack — and to find some way to save the world as we know it."

The messages from beyond the stars were undoubtedly intended for so-called alien scouts already here on Earth, Dr. Schultz said.

"They certainly were not talking to us," he said. "They clearly made every effort to ensure that their code was indecipherable to anyone but their own people."

And to make the situation even more terrifying, the transmissions seem to indicate that

Dr. Gerhard Schultz

trained high-level government and military jobs in the United States and Russia.

"They were being congratulated for having reached such exalted status in our society," Dr. Schultz told a reporter.

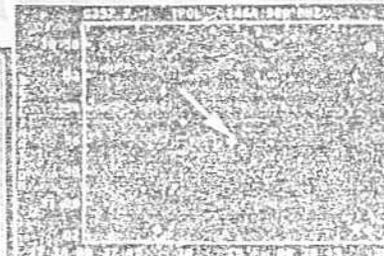

The scientist said he has no idea why aliens are taking aim at our planet.

MISSING MILLION

Over one million American TV watchers have been overlooked by the Nielsen ratings — because they watch TV outside their homes!

These folks tune in at work, according to a new Nielsen study, and in places like bars

ARROW points to star system that a scientist says is the invaders' home base.
