## AN UPDATE ON THE VARIOUS SCENARIOS PERTAINING TO THE MIDDLE EAST

## WILL THE OIL FIELDS OF SAUDI ARABIA BE WIPED OUT ? (THE ALIEN CONNECTION)

( Sept. 10, 1990 )

## QUESTION:

Awareness, a month or so ago, gave a rather brief look at the Middle East situation, and possible scenarios. I wonder if there's any new information It could give,—like, this question from R.H. He writes:

"The Mideast affair is downright scary. I remember from the Beter material, the plan for the Zionists to nuke Saudi Arabia and call for a national emergency here. The Arab economic power is oil. Iraq is controlled by the Rockefellers, and that group is losing power to the Zionists. Are "our boys" being set up to get nuked? Are some of them there to plant the nukes in Saudi Arabia, and will I wake up one morning with the announcement that we are here, we being the space brothers, to deliver mankind into the already planned new World Order? Like I said, I don't like what I see, and the whole thing is scary."

## COSMIC AWARENESS:

This Awareness indicates this entity has keen perception.

This Awareness indicates that the Saudi Arabian government has underground facilities over two miles deep, where they can retreat to. The destruction of the Saudi oil wells would have a profound effect on the entire region, in regard to a shift of power. It would also enhance the oil fields in Mexico owned by the Zapata Oil company, of which the president is a key figure. It would also free up much of the Arabian money that has been sent to European, British and American banks, this being almost a trillion dollars. It would mean that this money would not likely be sent back to that region, in any near future. It would have a profound effect on the balance of power in the Mideast, and would serve as an excuse to shut down the United States in a national emergency, suspend the Constitution, and even to announce a change in administration through one means or another, which could leave your Vice President in charge of the country, in the event your president was impeached or otherwise removed.

This Awareness indicates that there are many possible scenarios and directions in which the situation could move. There is also the threat and danger to Israel itself, in that the Iraqis could move against Israel and again shift the balance of power in the area.

This Awareness indicates that at this time, with all of the ambitions and greed and powers in focus on the region, there are many ways which this situation could erupt.

This Awareness indicates there are approximately one billion Moslems in the area, which could inflame a holy war against the West, and with enough time, could spread into Europe and fulfill the prophecies given by Nostradamus.

This Awareness indicates that British Petroleum and the Rothschilds, through the Bolshevik and Zionist factions, may also have their influence in the area, and would cause certain movements that might erupt in further altering the situation. Considering that Iran and Israel have certain ties together, that Bolsheviks are in Iraq and have certain ties with Israel in the sense of links with the Rothschilds, and that the Rockefellers have strong ties with this in terms of the Rockefeller empire, even if there are few Rockefeller entities still involved, having certain ties with Saudi Arabia, one can see that this action could well be a trap for the Rockefeller forces and could well be set up to destroy the holdings in the Mideast by the Rockefeller forces. One can also see that they may well be aware of this and feel there is sufficient power to avoid such entrapment.

This Awareness indicates that there are several plots overlaying each other, with each side believing it has certain tricks up its sleeve.

## Iraq and Israel Both Have Nuclear Weapons!

This Awareness indicates the Iraqi forces already having not only poison gas, but also nuclear weapons. Israel also having nuclear weapons and other forms of mass destruction weapons. It is not a situation that can go the way any single plan would like to have it move. Only by balancing, through negotiation, will there be true winners, and even that may lead to a long-term standoff that remains costly to all involved.

This Awareness indicates that the movement of Iraq into Kuwait in which Iraq looted the banks of Kuwait, gave them vast amounts of money. Iraq, owing many countries for the money provided during the war with Iran; Iran also owing many countries, particularly the wealthy countries of Kuwait, Saudi Arabia, Israel, and if these countries were destroyed, the debts would be wiped out for both Iraq and Iran; thus they both have an interest in working together against the Western powers and the Rockefeller forces, and those neighbors who loaned them money during their war. If Israel has an alliance with Iran through its leadership, and Iraq and Iran and Israel became closely allied, there could be benefits for all in wiping out the Saudi Arabian oil fields.

This Awareness indicates that there are many factors involved. The Russians themselves, having oil to sell, could benefit from the crisis occurring in the Middle East by putting their oil into Europe. The United States benefitting, and is in fact preparing, to send large sums of money to develop the oil fields in Mexico, which in turn will benefit especially the Zapata Oil.

These many different factors create an explosive situation. It is related in part to the alien situation in terms of the initial invasion by Hussein into Kuwait.

As an effort to gain entry into the areas that will allow Iraq to have access to the sea, Iraq had little access to the sea and Kuwait would have provided a good port, assuming that nothing would be done in response to Hussein's attack of Kuwait. It would then give Iraq not only greater marketing ability of oil, but would allow Iraq to regulate the price of oil on the OPEC market with greater influence, because of the combined output from Kuwait and Iraq.

This Awareness indicates there are so many factors involved in the motivation, in the efforts, in the special interests of these different nations, in terms of debts owed to one another, in terms of allegiances and alliances and shifting alliances, that it is as though something moves and the entire house of cards begins to rearrange itself, perhaps tumbling down in pieces. It is too soon to know which way things will go, but this Awareness suggests they will not follow any particular plan exactly, though it is still possible that many of the players involved, especially the banks, will again gain more from the situation and the masses and taxpayers and citizens, will as usual become the real losers, along with the soldiers who believe they are doing their duty for their country, while they are in fact being manipulated by powers that have interests only in gaining territory.

This Awareness indicates the great critical aspect of the events will occur between the latter part of September and the end of October, the period being a time which will set the motion, or set the energies in motion, so that a trend and direction becomes clear at that point.

This Awareness indicates that meanwhile, entities will generally forget the Savings and Loan scandal and other issues that would otherwise become major concerns.

This Awareness indicates that, all in all, it is bad news for the United States. It is possible it may lead to the total collapse of the government as it has been known, or to a situation that spurts into this nation, to cause a loss of freedoms.

Middle East 'Terrorists' Entering U.S. Could be the Trigger

This Awareness indicates that the threat of terrorist groups from the Middle East entering into the United States, can very easily become the excuse needed to shut down Constitutional rights, declare an emergency, and take away the rights of citizens, and in general, herd entities into a totalitarian system.

This Awareness suggests entities pray and visualize that things will not move in this direction; that entities do what they can to visualize harmony and peace through negotiations in the situation. The meditation and energizing of the Kahuna Ring can also be for this purpose of spreading peace throughout the world.

This Awareness suggests the next question may be asked at this time.

UNITED WE STAND..

ARE THE STORIES IN THE "SPOTLIGHT" TRUE?

FOLLOW-UP QUESTION:

In reference to the Middle East, the Spotlight newspaper as usual presents information that goes against the establishment press, and they claim that it's a no-win situation for Bush, and that it's going to go from bad to worst. In the August 27 issue, they had an article entitled "The Arabian Bank Heist Underway," which gives a lot of information that led up to this, and what is supposedly going on. I'd like to ask Awareness, is this article basically factual?

COSMIC AWARENESS:

It is filled with many facts regarding the incidents leading up to this.

This Awareness indicates that it is true that money from a South Carolina bank and Italian bank, connected with credits from a government agency, was used to help Hussein invade Kuwait, as is stated in one of the articles. It is true that money from the Middle East was transferred from the wealthy kings and leaders and from banks in the area to banks in Britain and New York.

This Awareness indicates there are many other truths involved. There is also some analysis as well as speculation in the articles, which may have bearing. Analysis in some ways as being accurate, speculation as being possible. There are other factors that have been overlooked in the articles. All in all, it is worth considering the information in the Spotlight, adding it to other information already available.

\*The Spotlight, 300 Independence Ave. SE, Washington, D.C. 20003, is now running an offer good until October 31, 1990, a special introductory rate of only \$19.90 for a one year subscription (52 weeks). We urge those of you who are not already subscribers to now take advantage of this offer, for this publication does, indeed, provide much information on what is going on behind the scenes. This source has been recommended by Awareness many times over the years for accurate information you will definitely not find in the controlled media.

ARE PROTEST MARCHES AGAINST BUSH BEGINNING?

FOLLOW-UP QUESTION:

Although the media would have everyone believe that the entire population of the United States is behind Bush in this operation, over the weekend, several hundred entities in Seattle marched for peace, carrying signs, "Get out of the Middle East" and chanting slogans like, "Hell no, we won't go. We won't fight for Texaco." This is surprising that this early in a situation like this that there's any protest at all. Does Awareness see this as just a fluke, or is the beginning of a growing anti-Bush movement?

COSMIC AWARENESS:

This Awareness indicates it appears to be organized. It appears to be funded by certain factions that have money, play on the theme of anti-war concerns, not particularly well thought out, but dealing more with

the emotions of entities in terms of their not wanting to be involved in the war. They do not fully understand the concept of the conspiracies involved, or the plans of the principal players in the game, they simply don't want to play along with those players, or for these players, and Texaco is seen as simply a symbol for oil, and chosen because of its name, its rhyme with their jingle, and its use in the Vietnam War, in a parallel jingle or slogan. This Awareness indicates that it has nothing to do with Texaco over any other oil company.

This Awareness indicates that *It* sees a serious danger to the troops in Saudi Arabia in the near future, in that the United States has some of its best equipment in the area, including Stealth fighters, and has considerable vulnerability to a large scale attack from these troops, because they are all assembled in close proximity, where nuclear weapons or gas could wipe out many at once. It could serve as an excuse for some in this country who want a national emergency, to use it as an excuse for calling a national emergency if such a crisis and devastation occurred. It would, of course, be the end of Bush as a leader, but this Awareness indicates there are some who would want this to occur, and it would set the stage for your Vice President to take command, and this entity would likely be under the domination and control of the same forces that pull the strings to bring about such a situation.

Things do not look favorable at this time.

This Awareness suggests, however, that things can change, things can be avoided. Energies can shift.

#### A Possible and Scary Scenario with Dan Quayle Taking Over!

This Awareness suggests that entities visualize the highest and best, visualize negotiations occurring that will help to reverse that trend that is in motion.

This Awareness suggests if rioting on the streets became prominent, and a crisis overseas occurred simultaneously, that the riots on the streets would simply add to the excuse and reason for declaring a national emergency. It is in this sense that there are perhaps already being formed groups enticed to get out and start protesting, as in the sixties.

You may wish to visualize that possibility or scenario of protests likened unto those of the sixties occurring in the United States while American troops suffer a surprise attack and many die from gas or nuclear strike, wherein Stealth planes are destroyed by surprise attack, wherein the country then is in turmoil, with the President becoming the scapegoat for all that has occurred, and someone or the masses demand an end to his Presidency, and a national emergency called with powers given to the President to declare such a national emergency, and everyone agreeing that the President has such a right, and needs the right to do so, and the national emergency suspending the Constitution and putting in place the rules, the laws, that are provided in the event of national emergencies, and entities losing freedoms. Homes can be entered; entities can be rounded up, put in concentration camps; food rationing can be made such that only if you are registered at your post office for your number, your national contingency number, are you eligible for food; money taken from

circulation, credits being allowed through a kind of debit card. Within weeks, the country would become more tyrannical than Soviet Russia ever was, all in the name of national security. Thousands, even millions of entities could be hauled off, shot, gassed, killed, incarcerated, all in the name of national security.

This Awareness indicates that this is not far-fetched. It is a possibility. It is not that your present government is plotting this.

This Awareness suggests however, there are elements on earth, behind the scenes, who themselves are plotting such, and are able to set up situations that can lead to such events. And the elements of the Middle East in the formula or plot is an element of great danger toward fulfilling this plot.

This Awareness sees that there are many in your government who would hope to prevent such from happening, that your leaders, your President, is not seen as party to this plot, but may be led into being used, being deceived, being misled, by not being told everything.

This Awareness indicates that, likewise with other world leaders.

#### Rothschilds are in Contact with the Reptoids

This Awareness indicates that the factor that may better help entities to understand, is that the Rothschilds do have contact and communication with the Reptoids. In understanding this you may better understand some of the alliances that are being activated, and some of the plots and plans that are being initiated.

#### President Bush Given Another Karmic Chance to Make Good

This Awareness wishes to comment also that this lifetime for your President Bush is an opportunity for this entity to make amends for errors that were expressed and committed by this entity along with others in ancient Atlantis, where this entity was once a great and powerful man. This action in Atlantis by this entity, along with others, helped to lead to the demise, the sinking of Atlantis, the fall of Atlantis. This entity has been given another chance,—a chance to gain great power and to this time overcome or stand up to the alien threat. In the Atlantean experience, the entity was used by the aliens. It appears that in this lifetime, this entity has chosen to stand against the alien threat.

There has been a change, which has occurred in the past several years, moving this entity toward a true concern for the people of earth. This shift is becoming stronger. The alliance with Gorbachev and others, particularly associated with the Skoptsis and Rockefeller forces, are in movement toward actions that are pulling away from any collusion with aliens in their plan to dominate earth.

This Awareness indicates however, that you must be aware that it is not an easy act to pull away from the aliens in this manner. It is extremely dangerous, wrought with great danger. It is not easy to break away from such control, from such alliances that were formed in the past with these entities.

This Awareness indicates that there are some areas where there is still cooperation, and there are some areas where the lines of cooperation are being cut, wherein the

aliens are being cut loose from any government connections or assistance, and because of this, there are great hazards for your government, for your nation, and much of what is occurring in the Middle East is a reflection of this kind of hazard.

This Awareness indicates that it requires great courage to pull oneself away from an action that is of such magnitude.

This Awareness suggests your prayers be with your President, and that you visualize this entity being strong, that you visualize those working with him and around him, and all of your allies, being strong in dealing with this problem.

This Awareness indicates it is a most critical time,—the time between now and 1992—as that which will be wrought with danger, many changes occurring, global changes, economic changes, political changes, and changes in regard to your knowledge about the universe and the value systems that have long been held on this earth plane. These will all be under great stress and change.

This Awareness indicates there will be much deception during the coming several years, at least until 1995.

ED's Note: In the Sept. 17, 1990, issue of 'Spotlight,' the lead story reads: "Plan for Mass Arrests of U.S. Citizens Exposed." The story describes a list of citizens who will be held in 'preventive detention' the instant fighting erupts in the Persian Gulf. It also has a long, researched article on how we can expect a staged 'incident' in the Middle East that will be so violent, involving American troops in all probability, that the U.S. public will call for all out war. The incident will of course be staged by Israel's secret service, the Mossad, and will be made to look like 'Arab terrorism'. This much like

the previous atrocities like the La Belle discotheque in West Berlin on April 5, 1986, which prompted Reagan to bomb Libya, killing more than 100 people, including Qadaffi's small daughter. According to Spotlight, the Bush administration is under heavy pressure from Israel to attack and deliver a knockout blow to Saddam, and the powerful Israel lobby is working round the clock to get the Senate and House to back the administration's battle plan. Essentially, Israel wants American boys to fight its wars in the Middle East and give it an excuse to wipe out Palestine. A contingency plan for a multi-front war against Iraq are part of the military options being prepared by President Bush in the event a United Nations trade embargo fails to dislodge Iraq from Kuwait and he decides to pursue a military option. The staged 'incident' is expected momentarily, probably by the end of September or in the first two weeks of October, according to Spotlight. Awareness seems to be correct, it is "bad news for the United States" no matter how you stand on the issue.

By the way, in reference to the Rothschild family, in the past year out here on the West coast, there has suddenly almost overnight sprouted up all over new filling stations calling themselves "B.P." Almost overnight, many stations suddenly changed their names to "B.P." All green and white gasolene stations and little quick-stop type markets. "B.P." it turns out, stands for "British Petroleum," a worldwide corporation solely owned by the Rothschild family. Keep this in mind when you tank up. There may be better places to spend your money.

### AN UPDATE ON THE MIDDLE EAST SITUATION

(Excerpt from a C.A.C. General Reading)  
October 3, 1990

#### QUESTION:

In reference to the Middle East, it's been about a month since Awareness gave information on that situation, and since then, Saddam Hussein has declared that if they continue to blockade his country he is going to destroy the oil fields, and he's going to attack and wipe out Israel. Since then he has toned down somewhat and Bush has toned down some of his belligerence somewhat, and I was wondering if there's something that entities should know. We're going to send our next mailing out on the Middle East thing, and I was wondering if there's anything we might tack onto that particular newsletter that might be of any pertinence?

#### COSMIC AWARENESS:

This Awareness indicates that it does not appear that these energies in development will lead to a major war in the region at this time. It does appear that there may be war in the region within two years, but it does not appear that this is imminent at this time. This Awareness indicates of course, this will depend much on the influences involved, especially those of Israel in its manner of dealing with the

threat, for if it sees the need for aggressive attack it could trigger the event, however it does not appear that Saddam Hussein himself really wants to spread war in the area, nor does it appear that this is wanted by the other nations in the area.

### IS THE MOSSAD PLANNING TO STAGE AN 'INCIDENT' TO OUTRAGE AND ENFLAME THE U.S. INTO ALL OUT WAR?

(Follow-Up Question):

*The Spotlight* has been putting out that they've uncovered information that plans are being made to stage an event or an incident over there and it implied that this was being engineered by the Mossad, to ignite the world in anger against Saddam, and there would be a universal cry for war. It sounded like it would happen somewhere to American troops because they are so concentrated over there is such a few areas.

Does Awareness see such an incident as the *Spotlight* is claiming is supposed to occur sometime in the first week or two of this month, actually being planned, and will such a thing happen?

### COSMIC AWARENESS:

This Awareness indicates that this is seen as a strong possibility; that the use of chemical weapons against a large number of American troops is seen as a grave danger; that this would in turn create sufficient cause within the United States to enact the National Emergency Powers and to suspend the Constitution and to create considerable change in the way people have lived, giving a great curtailment of freedom in the United States.

It is seen also as a way by which many of the efforts to implement a world government could be triggered and put into place. This Awareness indicates that it is seen as a strong possibility that the oil fields in Saudi Arabia also might be destroyed, creating a demise of the Rockefeller powers, giving the Rothschild forces and the Israeli government a greater power and control over oil and over the Middle East region.

This Awareness indicates that on the other side, it appears that the Rockefeller empire is aware of this danger and that certain measures are in place to counter or to offset this danger. It appears that the threat of Saddam Hussein to go after Israel in the event of war is such that it was designed to counter that possibility or scenario, and this Awareness indicates there are other factors in the equation that have not even been considered by these entities, in regard to the potential for events.

Any who think that the outcome of war in times like this can be directed are fooling themselves.

6. ED's Note: As this issue is about to go to press, an incident occurred in Jerusalem wherein the Israeli police response to stone throwing Palestinian teenagers resulted in a blood-bath, killing at least 19 of the youths, some as young as 12 years of age, and wounding about 100 others. The youth were throwing stones down on Jewish worshipers at the Wailing Wall, injuring 20 Israelis. The Israelis said the rock throwing at the wall was a premeditated ambush aimed at diverting world attention from the Iraq crisis. The Palestinians said the demonstrators had gathered in response to reports that Jewish extremists planned to march on mosques on the adjoining Temple Mount, considered Islam's third holiest site, after Mecca and Medina in Saudi Arabia. It was a particularly arrogant gesture by the Israeli government at a time President Bush was trying desperately to unite the Arab nations against Saddam Hussein. The implications of the slaughter at the Temple Mount have begun to spread quickly, like a bloodstain, throughout the Arab world, and threatens to turn the situation in the Persian Gulf another crank toward war. It offers Saddam Hussein the perfect opportunity to press the notion of a link between the Iraq invasion of Kuwait and the plight of the Palestinians and the whole issue of the occupied lands west of Jordan, which Israel previously "annexed" as blatantly as Hussein 'annexed' Kuwait, only Israel's aggression did not create any whining or crying out by the president of the United States, who in fact to the contrary, encouraged the aggression. In a move to appease the Arabs, Bush is reluctantly asking for a rebuke by the U.N. against the Israeli outrage, the 'rebuke' being essentially that Israel should have used 'more restraint' in quelling the unrest. Whether this will ignite the Arab countries to war against Israel remains to be seen. However, this blatant slaughter of Palestinian youths appears to reinforce the notion that Israel has nothing but contempt for its Arab neighbors and is looking for any excuse to wipe them out with their superior military and air power.

Over the years, this editor winces every time Awareness goes out on a limb and makes a prediction, for most of these predictions, thankfully, did not occur, either because the energies of the situation were changed by other forces or that 15% error in reading the energies of Awareness by the Interpreter created the error. One of the most recent of these faux pas' was the prediction by Awareness that East and West Germany would not be unified in this decade, a most embarrassing 'prediction' which Awareness, in a recent reading not yet published, stated that the energies were 'misread' and was an example of the 15% error. Over the years we have learned not to ask in questions for specific predictions by Awareness, but often Awareness goes out on a limb and makes them anyway, and thus Vikki T. your faithful Correspondence Secretary and yours truly are destined to answer those many inevitable letters that arrive, the first words being "How come...?" (Please. Have mercy! We only work here.)
