Treason doth never prosper;
what's the reason?
Why, if it prosper, none dare call
it treason.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. IS THE MATERIAL RELEASED THROUGH C.A.C. "ANTI-GOVERNMENT"? HOW POWER AND GREED IS ERODING OUR CONSTITUTION & OUR RIGHTS.

QUESTION:

(C.A.C. General Reading, October 6, 1990)

Awareness, we're here tonight to continue the series of CAC general readings. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness indicates that It wishes to call attention to a certain phenomenon in regard to a general approach in some of the material released through CAC in which some entities may perceive the material to be anti-government. This Awareness indicates that this for example, in which there appears to be indications or accusations or statements supporting or referring to entities who make such statements or accusations that the government is involved in some kind of conspiracy against the people from time to time, as for example, in the release of the Cooper material in which this entity indicated government involvement with aliens to the detriment of the people.

This Awareness indicates that there may be in some of the material released through this organization, other information that sounds as though there is an anti-government attitude in the readings or from the editor. This Awareness wishes to discuss this briefly, to make certain clarifications.

This Awareness indicates that there are some entities who misunderstand what is intended or meant by the term 'government' and there are some areas wherein a lack of clarification causes such misconception. The Interpreter as having once been accused of being unpatriotic because of information printed that was critical of certain expressions within the government.

This Awareness wishes to clarify that there does tend to be among those who are most patriotic to the principles of the American or United States Constitution, the principles of freedom and all that the Constitution and the law of the land stand for, a certain kind of paranoia among the patriots that these freedoms and that

Constitution and the foundation of the government might be eroded from within by agents or individuals operating in behalf of their own self-interest, including their political position or their government job.

This Awareness indicates that this paranoia causes what may appear to be criticism of the government. It should be understood that it is not the government so much that is being criticized, but the *agents* acting in behalf of the government in a manner that is alien to the principles of government as presented by the Founding Fathers and as carried on down through the years by those who support and maintain these principles of freedom, democracy and the rights of humans under this United States government.

This Awareness indicates that the United States is as a kind of guardian of principles and concepts of freedom and democracy; it is to the masses of the world seen as an example of what freedom and democracy could be or should be for their people. This Awareness indicates that when this becomes eroded by agents acting within the United States, using their offices and position or creating new organizations and agencies within the government that would strip away these freedoms, then it is a threat to the very principles on which the United States and its people have come to rely.

This Awareness indicates therefore, the fact of people being paranoid about the loss of freedoms, the potential for losing freedoms, can lead them to express themselves in ways that tend to short-cut words and make it appear they are criticizing the government when in fact they are criticizing perhaps inept government agents or agencies who are circumventing or sabotaging the principles on which the government rests, for indeed, the government of the United States is a government of the people, and for the people and by the people of the United States and as long as this is understood and remains so in a clear-cut manner, and the representatives who are elected in behalf of the people recognize they are working for the people, who are the government, rather than for some agency within the government or some bureaucratic lobby group working in behalf of some corporation that would take over the controls and offices of government; as long as they understand that they are elected to represent the people and not simply to pass laws that control the people, then there is no threat from the members of the government, these elected members.

This Awareness indicates that it is only when these

of working not in behalf of the people, but for special interest groups, for banking, for corporations and for controls and agencies that would usurp the power of the people to rule themselves, through the appropriate government constitution; it is only then that there is reason to become paranoid or concerned.

This Awareness indicates that unfortunately, this is beginning to take shape and needs the watchful eyes of all entities so that such treason against the government is not allowed to win out even if it is brought in slowly and deceptively upon the people. This Awareness indicates there are many ways by which entities can be deceived and conditioned to accept the treasonous tyranny encroaching upon their rights, upon their lives, whereby the government, as it has been traditionally formed for this nation, could be taken over by treasonous individuals conspiring together or working through inept or paid and bought officials to deny the rights of the individuals as guaranteed by the Constitution and the government.

This Awareness indicates that each encroaching movement that chips away at your government is a further erosion and those who participate in eroding government when sworn to uphold and protect the government by their elected position are indeed treasonous in accordance with definitions common to the language.

This Awareness indicates that *It* simply wanted to clarify terms so that there are no reasons for confusion or to believe that criticism of certain types of government agents or agencies is perceived as criticism of the government itself. The government essentially is the structure created by the Constitution. The agents who work within and for that structure who are sworn to uphold that structure; these agents are *not* the government, and if they sabotage the structure through their misuse of power, they are treasonous in their behavior. There is no other way of terming and defining the situation.

It is simply a matter of definition and fact.

"ATWATER, DOLE AND BUSH WANT TO REWRITE OUR FIRST AMENDMENT?"

IF THE FAKE INVASION OCCURS ON FEDERAL PROPERTY.- WILL THIS BE TREASON?

FOLLOW-UP QUESTION:

It appears that the Pentagon and agencies like the CIA and some of these huge organizations with all the power and funds at their disposal seem to fall into this category. For example, is it not true that when this fake invasion and the fake rapture occurs, this will be on Federal military property and will be staged by entities in the Pentagon and so forth?

COSMIC AWARENESS:

This Awareness indicates that this is of course hypothetical. It *may* occur in that manner. It is not factual until or unless it in fact does occur, in which case, the answer to your inquiry would in the affirmative. This Awareness indicates of course, the CIA is one of the smaller agencies; that there are agencies within the control of individuals and groups of individuals having special interests apart from the interests of the people, who receive much more funding than does the CIA.

The CIA receives most of the criticism and publicity. It is like a person who, in a patrol is put out in front, known as the 'point man,' who takes the first shots from the enemy. The CIA gets most of the discredit, even though much of the criticism leveled at the CIA is undeserved, and many times the actions for which the CIA is blamed are planned and carried out from other agencies such as NSA or MJ-12, or other agencies set up for specific activities.

This Awareness indicates the greater dangers comes from those vested with an interest in controlling the nation through the banking and manipulation of money; this especially in regard to the Federal Reserve and the banking interests, which with their influence and those who are owners of these agencies, attempt to manipulate and control the government for their own purposes and ends.

This Awareness indicates it is likened unto a situation in which, for example, a structured entity or organization might have a very wealthy competitor who would, through his agents, come in and start whittling away at the rules or bylaws of the structure or corporation in order to set it up so that the competitor could take over legally through the use of altered bylaws.

This essentially is what has been happening in this country wherein the laws of the land under the Constitution are being gradually whittled away to allow a takeover by these foreign owners of the private banks, such as the Federal Reserve Bank, the banks of England and other international banks; these operating through Bilderburgers and the Trilateralists, and so forth.*

*ED's Note: Please refer to 'Revelations of Awareness' Issue No. 89-11 (\$3.00) "Let's Audit the Fed". In this report, the names of these foreign owners of our banks are listed; these being one of the mostly highly kept secrets by these vermin.

This Awareness indicates that many entities in not understanding these raiders of your country, those who would raid the nation, much like corporate raiders, believing that they are part of the government, become quite incensed if you criticize any of the rules or activities of their henchmen and cohorts, as they work to

take over your nation. They think that you are criticizing their government when you criticize these people.

Many think the Federal Reserve is part of the government, and think that those branches and organizations that have been set up in behalf of the banking industry under a government contract or agreement, many think that these are also part of the government, so that any criticism of these structures and organizations is seen as an unpatriotic gesture.

How Rockefeller Created the AMA

This Awareness indicates that it is an amazing fact that most of the branches and bureaucracies that have been created in this century were directed from the banking industry through bills presented to Congress, paid for by the banking industry by their support of the Congress people who voted for the bills. This Awareness indicates that the FDA being brought into existence from the influence of the Rockefeller pharmaceutical cartel; the pharmaceutical cartel owned largely by and created largely by the Rockefeller family in the early part of this century and the latter part of the previous century, creating drugs from petroleum products to begin with, later shifting into the use of herbs, herbal extracts and so forth, to create the pharmaceutical drugs, then needed to have people who were trained to dispense those drugs and thus created the American Medical Association and the FDA (Food and Drug Administration), to help regulate the flow of these drugs and to inhibit healing methods.*

*ED's Note: For a detailed and factual history of the AMA, (actually formed by quacks with no medical knowledge to speak of), the history of Rockefeller's 'cancer mausoleum,' the Sloan-Kettering Cancer Center in New York, and the sordid history of the American Cancer Society and the two hucksters who made it into a multi-billion dollar scam (this enough to make you throw-up!), we suggest you read the incredible book, "Murder by Injection," by Eustace Mullens, available from CAC for \$15 plus \$2 postage. You won't find this one in book stores. When we asked about this book, Awareness said: "This Awareness indicates that this book as that which should be put on the 'must' reading list and should be purchased by every interested entity as soon as possible; that it is dangerous for this entity to have written this information; that this entity has long lived a dangerous life, having had members of his own family killed because of things he has written."

How Rockefeller Usurps & Alters History

This Awareness indicates that similarly, the housing program was another Rockefeller creation designed to regulate housing in the urban areas around cities and to assist in creating loans and zoning and to assist the banking industries. That likewise, the education programs initiated in the midpart of this century and the textbooks used with the publishing houses owned largely by these entities, were part of that same corporate socialist group in which the selection of books to be used in the schools and the type of education to be offered and the restrictions in the education were also controlled not by the people, but by the Rockefeller cartel and those who worked with them, including the book publishing companies that were part of their empire.

These book publishing companies were extremely important to them in that they could be used to educate the masses in a way that would hide true history

of their own involvement in the usurping of the American or United States Constitution, especially in the historical books and the way they were presented.

This Awareness indicates if there was a free press, history would have been written quite differently, but these books would not meet the criteria and standards that have been dictated by the Rockefeller cartel and empire, and therefore, only the approved books, the books approved by these publishing houses and the education boards will be used in the schools.*

*ED's Note: For more on this, please refer to 'Revelations of Awareness' No. 81-24 (The Beast Enters America's Schools); \$3.00 from CAC.. This reading also explains why our school system is still turning out morons with diplomas. This is a most neglected reading and members need to go over it again in light of the recent information on aliens. There is also information on the "Global 2000" plot, now fully underway to reduce the world's population by mass murder by the year 2000.

Rockefeller's Welfare System: How Entities are Snared

This Awareness indicates in this manner, entities are spoon-fed mentally to accept the programming of the corporate raiders, those corporate socialists who are raiding your country and usurping the power from the people and destroying the government of the people. This Awareness indicates that housing, education and Welfare were all part of the Rockefeller agenda in this century. The Welfare allowing for certain assistance to people has served to benefit many who would have otherwise been in great need. This Awareness indicates that the action appears to be that which shows a charitable approach, but this Awareness indicates its true motive was to create dependency of many on government so that much like a communist state, as more and more become dependent on government, they sell their freedoms, their rights and their souls in order to get a monthly stipend.

This Awareness indicates that those who live on Welfare are under extreme scrutiny from computers in all types of agencies wherein the interlocking network of computers keeps a very clear record and profile of Welfare recipients. This Awareness indicates that these entities are essentially controlled by the program and its structure so that there is very little freedom for these entities. They find it extremely difficult to break out of the Welfare, to come off the Welfare rolls, because if they work at a job, they are penalized in the amount they earn and therefore, there is no incentive for them to try to better themselves.

This Awareness indicates that it is thus likened unto trying to keep them 'barefoot and pregnant' as the saying goes, so that they will be dependent on the Welfare program. This Awareness indicates that this was the intention when the program was created. It has met with considerable criticism from those in the extreme right wing who do not like the idea of giving people something for nothing.

This Awareness indicates that it does need to be understood, however, that they are not receiving something for nothing. They are expected to sell and give up their freedoms for the pittance they receive, which is usually far less than is designated as the level of poverty. That in some cases, these entities barely have enough to eat, and if someone comes over to visit with them or if an emergency comes up, it literally takes food from their table and they go without.

This Awareness indicates there is no need for entities to feel jealous of those who are on Welfare. There is a great need to look for ways that can help these entities to get off Welfare and to better themselves. This Awareness indicates that one may not fully understand all of the implications of these various agencies that have been created without thinking that although they appear to be created for the good of the masses, in most cases they have a dark side that if given sufficient development, helps to enslave the masses.

It is in this sense that these agencies that have been created within the government during the past 50 years have become so powerful that indeed, people are now beginning to feel the pinch, as the screws turn tighter on them.

The Dark Side of the Land Management Programs

This Awareness indicates that in the housing programs, in the medical programs and in the school programs and Welfare programs; in all these levels, the different programs that have been enacted are beginning to tighten their grip on the average American or U.S. citizen, and more and more entities will begin to awaken to the reality that they have been ensnared by these government sponsored programs, for indeed, these are sponsored by the parallel government, not so much the government of the United States as created by your forefathers, but by the corporate government that is infringing upon the structure of your true government and imposing its power over the people.

This Awareness indicates that the same can be said of the land management programs. Most of these have some value, but are set up in such a way that if taken to the extreme, can remove the rights and privileges of individuals. Likewise, the land management programs and the regional governments and all that which was initiated in the late 60s and 70s through the creation of the regional governments and Bureau of Land Management and agencies that created certain codes and requirements for the infringement on private property and its use, did help to assure a certain amount of protection of the land, but also offers a potential threat to private ownership and create a potential for future infringement on private ownership of such magnitude that many entities will prefer not to even bother trying to do anything with their land and may prefer to sell than to own.

It is a way of disenfranchising private property and can be done through the agencies that are already established for land management. This Awareness indicates that it is the structure being installed that can counter the right of ownership as guaranteed by the Constitution that needs to be recognized, for in these corporate actions from this cartel imposing itself on the government with these various agencies, more and more the Constitution is being eroded or being over-written so that it can be taken away and left with a standing structure to replace it on all levels, that denies the rights granted by the Constitution and imposes another structure of rules in place of these rights.

This Awareness indicates that if you can see how this corporate rule system from education, medical treatments or health treatments, Welfare programs, land management programs, building codes and the

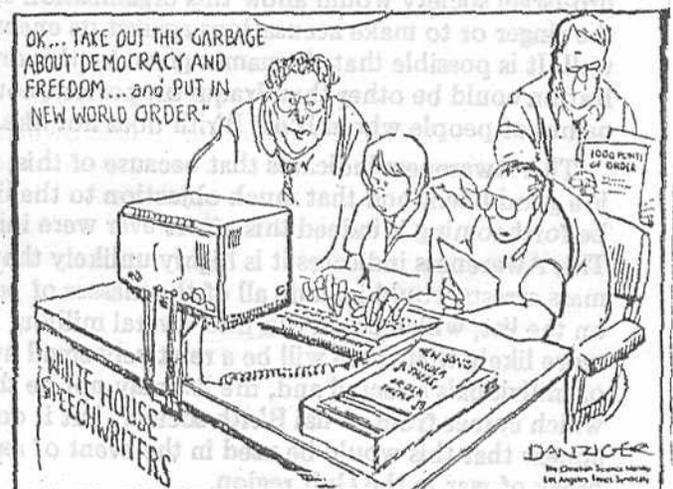

HUD programs, the housing programs; you can see how all of these having their own particular rules could totally be used as a substitute for the Constitution and how the Constitution could be suddenly yanked away, leaving instead this other structure; then you will see what has been happening throughout this century, especially since the mid-part of the century when these things began in full-swing, guided originally by the Rockefeller brothers with their influence in Congress and in the government.

This Awareness indicates the FDA, the American Medical Association, the Housing Urban Development programs, the Health Education and Welfare programs, the Bureau of Land Management and the DEA and other programs that have been initiated, such as regional government programs dividing the states into eleven sectors or regions; all of this as part of that second or shadow government. There are also individuals within your government who serve and work as part of the shadow government.

This structure is in place, overshadowing the structure of your Constitution. It is only a matter of time before an effort to remove the Constitution is to take place. Already the Constitution has been given second rank status in your courts. Entities arguing Constitutional Law are generally ostracized or reduced from any rights in the courts of law, only having rights in the Supreme Court, or in some of the Federal Courts. Only there are there any strength or powers in using the Constitution as law of the land.

If you are attempting to plead a case using the Constitution as compared to state rules or state laws, statutory laws, your chances are better in Federal Courts than in local or state courts. Even though statutes are supposed to follow the Constitution, this is not always the case, and the local courts will tend to rule in favor of the statute even if it is unconstitutional. It will then be the need or duty of the appellate to appeal that statutory ruling to a Federal judge or a higher court based on Constitutional concerns, and after numerous appeals, if won, the entity may overturn the lower court's ruling.

It is in this way that occasionally laws of a statutory nature are reversed by higher court rulings, but it is a costly route. Thus, if entities think they have Constitutional rights, although they may have such Constitutional rights, it can cost them a fortune to prove their case.

IF WAR IN IRAQ SHOULD OCCUR, WILL BUSH ORDER A ROUNDUP OF U.S. "SYMPATHIZERS"?

(B'nai B'rith to Decide Who Goes to Concentration Camps)

QUESTION:

The September 17th issue of *Spotlight* had a headline: "Plans For Mass Arrest of U.S. Citizens Exposed," and I'd like to read a little of this.

"Behind a curtain of wartime secrecy, the Bush administration is compiling a master list of citizens who will be held in "preventive detention" or under "super-vision" the instant fighting erupts in the Persian Gulf. This the *Spotlight* has learned exclusively from well-placed intelligence sources and White House contacts in Washington, a joint task force of staff officials from six national security agencies and the Federal Emergency Management agent FEMA has been meeting since August 14th on an accelerated schedule to set up computer records on Americans suspected of being potential supporters or enablers of Iraqi terrorism.

"Now that Iraq has emerged as the main opponent and its dictator Saddam Hussein as the designated arch-fiend of the Bush administration's Gulf strategy, identifying Americans who may have suspicious links to the enemy will be particularly tricky, law enforcement sources warned." And it goes on, recalling the roundup of Japanese American citizens during World War II, and so on. Does Awareness see this as a real probability in case war does erupt, like *Spotlight* says?

"The Spotlight", 300 Independence Ave. SE, Washington, D.C. 20003. \$32 for one year (52 weekly issues). This publication has been recommended by Awareness many many times because it digs up information you will not find in the controlled press.

COSMIC AWARENESS:

This Awareness indicates that this as seen as that which could take place. It is seen as also having a potential for reaching further than the intended purpose, wherein entities who are deemed to be politically critical of what is occurring on other areas or levels could also be rounded up in the same categories without any particular difficulty, simply by labelling them as a potential threat. As was stated, it could be tricky. Because it could be tricky, they could also see the necessity for taking other people who are not necessarily supporters of Iraq, just to be on the safe side.

This Awareness indicates that in further study of the article, there is the reference to a question of how this list is being compiled, and you will find it is being compiled by the B'nai B'rith society and this being a pro-Israel society would allow this organization to point the finger or to make accusations against its enemies as well. It is possible that the names given by this organization could be other than Iraqi supporters, could be names of people whom B'nai B'rith does not like.

This Awareness indicates that because of this, there is a good likelihood that much objection to the list will be forthcoming if indeed this effort ever were initiated. This Awareness indicates it is highly unlikely that the mass arrests would include all of the masses of people on the list, which could run into several million. It is more likely that there will be a relatively small number of individuals selected and, the list may not be that which comes from B'nai B'rith society, but it does appear that this would be used in the event of an outbreak of war in the Gulf region.

6. This Awareness indicates that in many instances, the entities might not actually be arrested. They might simply be watched to prevent them from doing any type of sabotage against the United States if they were so inclined. This Awareness indicates that any event of such magnitude as an outbreak of war or economic collapse can be used to trigger the use of the Executive Orders which could call in the roundup of enemies of those who seek control of this nation, and could implement all of the executive orders as described in the reading yesterday.

It does not see that this is likely to occur this year. It is possible, but it is unlikely. It is unlikely that this is planned in regard to the Gulf situation at this time. It sees this as a greater potential in 1992. This Awareness indicates that there is a considerable likelihood of resolving the Gulf crisis in order to prevent serious recession in this country which would rile up the nation against the president and those who are promoting the confrontation in the Gulf region.

The potential of reelection for this administration at this time is high, but with a recession, this could be harmed considerably. It appears that no major changes will occur or be initiated from the United States until after the November election of this year, and that if any major action occurs in the Gulf it will be initiated from other sources, with the United States being a reluctant participant.

This Awareness indicates that should the two most likely initiators of conflict prior to November election are seen as Iraq or Israel; that after the election, this could change

WILL BUSH FORGIVE EGYPT'S AND ISRAEL'S WAR DEBTS?

QUESTION:

In the September 24th edition of the *Spotlight*, there's an interesting editorial. It was some information that was not put out entirely by the regular presses. It's called "The Forgiveness," and I'll read a bit of it:

President George Bush has announced that, as a reward for Egypt's cooperation in the military moves against Iraq, he will forgive Egypt's \$7.1 billion military debt. Of course, Congress must approve or disapprove such a measure. However, it is generally assumed that Congress will go along, but only if Israel's military debt of \$4 billion is also forgiven. Now, this is not money lent by commercial banks, but rather money owed by these nations; or, more accurately, this money is owed to every U.S. taxpayer.

The most insulting aspect of this is that it comes at a time when congressional leaders are cloistered at Andrews Air Force Base near Washington, trying, in vain so far, to come up with a formula to reduce the deficit by a relatively paltry \$40-50 billion this coming fiscal year (the annual deficit is nearing \$300 billion). If they don't come up with a plan by October 1, the government will run out of money.

[Today, that's exactly what occurred.] ED.

At least half of this deficit reduction is expected to take the shape of new taxes.

While our taxes are being raised, Bush and Congress are readying to forgive Egypt's--and most likely Israel's--debt to the taxpayers. But who will forgive the taxpayers' debt? The government alone owes some \$2.3 trillion. And there are millions of workers losing their jobs because their companies can't pay the interest on their debt burdens. These unemployed workers are losing their houses because they can't afford the mortgage payments, and millions more cannot even hope to buy a home in their lifetime.

Farmers are being turned out of farms that have been in their families for generations, because they can't afford to stay current on their debts.

This \$7.1 billion is enough to buy \$100,000 homes for 71,000 families. It takes the annual income tax payments from 2 million average taxpayers to add up to \$7.1 billion.

Why is the president doing this? The answer is, to enforce the international Establishment's monopoly on oil. It's as outrageous and odious as any action taken by any president, -an act of sheer class hatred, sticking it to the taxpayer, once again, to ensure the wealth and privilege of the elite.

Tell your congressman, who must vote on approving the forgiveness of Egypt's debt, that the American taxpayers will not sit still while being at the receiving end of the shaft. If there's any forgiveness to be doled out by the government, it should be directed toward American citizens.

The SPOTLIGHT, alone among the national media, is calling for an end to the madness in the Middle East. And we will repeat the call as long as it is necessary to wake up the American people to the cruel and deceitful lies they are being fed. GET US OUT OF THE MIDDLE EAST.

I'd like to ask Awareness: the newspapers mentioned that Bush was forgiving Egypt's \$7.1 billion military debt, but there was no mention that Bush would forgive the \$4 billion of Israel's military debt. Is this information accurate that 'Spotlight' is putting out about that?

COSMIC AWARENESS:

This Awareness indicates that it is accurate in so far as it goes, except that it has made some assumption in regard to the voting of the Congress. This Awareness suggests you read that wording again.

(Questioner): "Of course, Congress must approve or disapprove such a measure, however, it is generally assumed that Congress will go along, but only if Israel's military debt of \$4 billion is also forgiven."

COSMIC AWARENESS:

This Awareness indicates that the article states, 'it is generally assumed only under these conditions.' In other words, the writer is making an assumption. Therefore, it is not speaking in terms of facts, it is speaking in terms of an editorial assumption. This Awareness indicates that in this sense, the article is correct, so long as you read it as written, that 'it is assumed.'

The question might be asked: 'Assumed by who?', and 'By what reasoning?' This Awareness indicates that anyone can make an assumption. This Awareness suggests that this may not fly.

FOLLOW-UP QUESTION:

Well, they probably assumed that on facts based on the past, with these many political action committee's monies from all those groups promoting Israel, that....

COSMIC AWARENESS:

A New Bumper Sticker is Suggested

This Awareness indicates this is in the affirmative. There is some likelihood that Israel will seek the forgiveness of its debts also; that there is a chance or possibility that this will become an issue, and that it may eventually lead to further forgiving of Israel's debt. That this may then lead to still another country asking for its debts to be forgiven.

7.

This Awareness suggests that entities might wish to create bumper stickers or write letters protesting, asking "If Bush can forgive Israel and Egypt's debts to us, who will forgive our tax debts?" This Awareness indicates that it is a good question and one which entities need to call attention to. This Awareness indicates that all of this juggling and rewarding and forgiving of debts; all of this is a delicate act of balancing.

Were he not to forgive Egypt, Egypt might not be as cooperative in regard to the game-playing in the Gulf region. If he does forgive Egypt, Israel might object. If he sells planes to Saudi Arabia, Israel might object. In fact, this is the way the game goes: Each country playing its hand for what it can get and objecting to the rewarding of other countries in order to get a bigger hand, a bigger reward to pacify itself. The United States has bitten off a very big bite of the game and must pay a large price to be involved.

When this is over, alliances will have changed; the whole nature of the region will be altered and the games will be totally different from that time forward.

(FOLLOW-UP QUESTION):

In the past, it seems that anything pertaining to Israel, particularly as to getting more of our taxpayer's money for one reason or another, goes through, and I was reading that out of 100 senators, thirty of these are Jewish. I was wondering, if these people keep promoting our money to go to Israel when they know that a lot of this money is needed elsewhere, like for the millions of homeless U.S. citizens living out on the streets; wouldn't this come under the separation of church and state?

COSMIC AWARENESS:

This Awareness indicates that Israel is not a church. This has to do with nations and the support of nations in terms of allies. Israel as having played a part in the history of the church and many entities may have sympathies and identifications in that regard, or may have affiliations with the Jewish church, but giving money to a nation for armaments and for development is not the same as giving money for a church.

This Awareness indicates that if these entities were giving church money or as government representatives were giving money to a church, then it could be construed as a church/state situation. This Awareness indicates they are acting as senators. The fact that they have certain religious leanings, to which a nation also has similar religious leanings and which may influence them to some extent, cannot be proven, and even if it were, it would not be sufficient to deny them the right as senators to give money to the state of Israel.

This Awareness indicates that this would be similar to an argument that if a governor is Catholic and you are Catholic as a senator, and you voted money to go to that state in which the governor was Catholic, possibly even a friend of your own, there would still not necessarily be any reason for you to be accused of doing so because of religious leanings or to promote religious purposes.

This Awareness indicates that the fact that there are a number of Jewish senators who back the promotion of loans to Israel has little bearing on whether it is right or wrong. The question should be whether

Israel should be given loans by this nation and that meet other criteria regarding loans to any nation. What is the criteria for loaning to a nation? Does it need to have some religious connection to the religion of your nation? This is not seen as a criteria. Does it need to have political affiliation in terms of region sponsorship?

This Awareness indicates that the main reason for giving loans to Israel is that there is a perception that Israel is an ally of the United States in a region that is generally hostile to the United States, and also, there is the perception that Israel has a powerful political lobby in Washington who can make or break senators through the election process, and to vote against such a loan, could end a senator's career, or to vote for such a loan could enhance a senator's career.

This Awareness indicates that there is a movement on in several states to limit the terms a senator would be allowed to be in office. It appears that this may eventually grow and spread to other states and help to solve some of these problems regarding the power of lobbyists and the purchasing of senators to represent vested interests, especially if senators are allowed to serve only one term.

HOW COME SANCTIONS AGAINST SOUTH AFRICA AND NOT AGAINST ISRAEL--BOTH ALLIES OF U.S.?

(FOLLOW-UP QUESTION):

Well, it's sort of ironic. South Africa has been our ally and we put sanctions on them because of crimes against their people, and at the same time, the government never mentions the fact that Israel is doing criminal actions, crimes against humanity, by occupying land that is not theirs, and doing very inhuman acts, butchering and killing off a lot of these Palestinian Arabs, and yet, when someone like Saddam Hussein invades a part of the country that he claims legal right to as a part of Arab territory which the British changed after World War I, there's a great outcry about this, but there's no outcry about the aggression and outrages that Israel has done and continues to do on a daily basis. Isn't that rather ironic?

COSMIC AWARENESS:

This Awareness indicates it is ironic to those who look at the world from the eyes of justice. It is not ironic to those who look from the eyes of a world filled with voters. This Awareness indicates when political votes are at stake, and many of those voters are black or are Jewish, and your career rests on whether they vote for you or against you, justice is not out front. It is put on the back-burner. It is perceived that unless the entity wins, he cannot even have an effect. This in terms of he or she, the senator or representative cannot even have an effect in Congress or the Senate, and therefore, the entity believes that it is more important to win at this stage than to seek justice by losing, and having no effect later.

This Awareness indicates that there are different ways of looking at events. There are entities who cry out for justice and fair play, and there are others who cry out for votes, and many who cry out for votes will cater to those who want the United States to put

sanctions on South Africa, and will cater to those who want the United States to support Israel. In this sense, they get the votes they want in so far as the votes follow their perception of what the voters seek from them.

GETTING HISTORY STRAIGHT...

THE DARK SIDE OF CHRISTOPHER COLUMBUS

QUESTION:

M.B.A. in Redwood City, California, sent in a little article that appeared in the *Utne Reader*, called "Discovering the Truth About Columbus," and I thought I'd read this and ask Awareness if this is valid information being *It* just, in this reading, mentioned how the history books have been altered. Now, I don't know if they were being altered, but they must have been altered when I was going to school because there's information here that was never taught in any books that I ever read. I'll read this article, or part of it.

Remember the U.S. bicentennial, when it seemed like all the oil companies simultaneously tried to change their names to "America" or "Spirit of '76?" Well, if you thought that was bad, get ready for the 500th anniversary of Columbus' so-called discovery of America.

According to Dan Nicolai, writing in the Twin Cities monthly "Artpaper" (Nov. 1989), NASA plans to celebrate by sending three solar-powered "space caravels"--named the Nina, the Pinta, and the Santa Maria--to Mars with \$25 million of our money! Malcolm Forbes has already spent \$500,000 on a commemorative tour of Spain, and the National Endowments for the Arts and the Humanities are together planning \$10 million worth of exhibits and research for 1992, says Peter Montgomery in "Common Cause" magazine (Nov/Dec. 1989). Every Latin American nation but Paraguay will stage some type of celebration. The 1992 Summer Olympics in Barcelona will be used to launch replicas of Columbus' ships, and, reports "Religious News Service" (Nov. 10, 1989), the U.S. Catholic bishops, in spite of warnings from minority Catholics, are planning something called "Sounding the Jubilee Horn: Celebrating 500 Years of the Good News of Jesus in the New World." The official U.S. Christopher Columbus Quincentenary Jubilee Commission is pushing forward with a Cuban-emigre turned Florida real-estate developer as its head.

And what are they in such a hurry to commemorate? Howard Zinn opens his book "People's History of the United States," (Perennial Library, 1980) by quoting Columbus' log entry on his first encounter with the Arawak people of the Caribbean.

Columbus observed that "they would make fine servants," and that "With 50 men we could subjugate them all and make them do whatever we want." He and his successors went at the "Indians" with genocidal ferocity; probably three million died from war, slavery, and labor in the mines on the island of Hispaniola (now Haiti and the Dominican Republic) in the first 15 years after 1492. The entire population of nine million was virtually wiped out within 40 years.

Contrary to grade-school mythology, Columbus did not undertake his voyages out of curiosity or to prove the world was round; rather, he had promised his investors huge returns on their capital, and had to find gold, spices, or slaves to make good. On Hispaniola, each Indian over 14 was obliged to bring in a certain quota of gold every three months. Indians failing to meet their quotas were punished by having both hands cut off, and usually bled to death. Since there was very little gold on the island, most either fled or were killed. When the spices looked unpromising and the gold didn't materialize fast enough, Columbus shipped the Arawaks themselves to Spain to be sold in the slave markets of Seville, thus inaugurating an Atlantic slave trade that became one of the worst crimes in human history. The greed of Columbus and his followers seems to have been matched by a gratuitous cruelty; accounts by Bartolome de las Casa, a Dominican friar who tried to stop the genocide, are filled with passages like this:

They made bets as to who would slit a man in two, or cut off his head at one blow: or they opened up his bowels. They tore the babes from their mothers' breasts by the feet, and dashed their heads against the rocks...They made a gallows just high enough for the feet to nearly touch the ground, and by 13s, in honour and reverence of our Redeemer and the Twelve Apostles, they put wood underneath and, with fire, they burned the Indians alive.

Columbus himself returned to Europe in disgrace, and appears to have died without understanding that he had not landed in the Orient. But his methods were later used in Mexico, in Peru, in the Black Hills, and at Wounded Knee. They are still being used in Guatemala and El Salvador, and on most Indian reserves from Amazonia to Pine Ridge. The winners get to write histories, and a gala Columbus anniversary extravaganza represents a serious perversion of what really happened.

There is much more at stake than the interpretation of some long-gone historical events, and this was put eloquently in a declaration issued last October by a gathering of indigenous groups from Andean countries, who met in Bogota to plan their own approach to the Columbus anniversary:

Thus is it that the brutality of the conquest is not something of the past. Sadly, it remains a present reality. The sacking of our natural resources, the destruction of our habitat, the assault on our cultures...the strangling of our economies with the payment of an immoral and unpayable foreign debt.. the militarization of our rural areas...have been perpetuated and reproduced right up to our days by those who draw advantage from this hateful and unjust social order.

It is precisely those sectors that are now attempting to "celebrate," with total jubilation, the fifth centenary of the "discovery" as a renewed attempt to cover up the colonization and conquests of a continent by force of arms, so that they can continue justifying the political domination of our peoples and nations.

This article goes on, but basically, it casts a pretty dark side of Columbus that we've never seen, to which we have a national holiday every year. (If this is true, it's as absurd as making Hitler's birthday a national holiday). Would Awareness indicate whether that information is basically valid?

*Utne Reader: The Best of the Alternative Press,
P.O. Box 1974, Marion, Ohio, 43305.

9. COSMIC AWARENESS:

This Awareness indicates that it is essentially correct in its presentation; this of course, pointing out the more negative side of the situation. There were also other aspects of his behavior and visit to the New World that brought some benefits to the people. This Awareness indicates essentially this is the side that has not been told previously.

(FOLLOW-UP QUESTION):

Were those who wrote the history books when I was a kid, were they aware of that side of the story?

COSMIC AWARENESS:

This Awareness indicates that some who write history write strictly from what they read left by others. Some read more than others. In some cases, much of this information has not been brought out publicly, even to historians, until more recently. This Awareness indicates that the books you read when you were younger were taken from earlier books that did not contain this type of information.

WHO REALLY DISCOVERED AMERICA?

(Hebrews Here Before Columbus!)

It's also true that Columbus didn't really discover America, as claimed, that America was discovered hundreds of years before by Vikings or somebody else, was that not true?

COSMIC AWARENESS:

This Awareness indicates the Indians discovered it much earlier and also the Vikings discovered it in approximately 500 years before Columbus. There were also others who sailed inadvertently or through a quest to escape from pursuers to the New World. This Awareness indicates there were also Hebrews or those who might be termed as Israelites in today's language, who came to the New World. This in an effort to escape from troubles at home. This appears to have been in the 5th Century, AD.

This Awareness indicates that little came from either of these visits, either of the Hebrew or those of the Vikings, in terms of recognition from their homeland or further journeys to develop or claim the continent. This Awareness indicates that the visit by Cortez as that which also was excessively violent toward the natives of America and yet, it also was part of the reason for further exploration and journeys by Europeans to America, because Cortez brought back gold, which created through the lust and greed, a great desire for more contact.

This Awareness indicates that similar feelings may also develop from the explorations to Mars, particularly if precious metals are discovered on Mars. This Awareness indicates that it should be understood that there are already and have already been Mars landings and that this 1992 probe or landing will be a public relations action; that in 1962 there was already a landing on Mars. This is presented in a video called "Alternative 003." This video is relatively difficult to find. It may be possible to acquire this through Fred Bell.*

* Ed's Note: I have also seen it listed in the catalog put out by World-Wide UFO News Clipping Bureau & Public Information Center, 955 Lancaster Rd., Suite 420, Orlando, Fla. 32809. (write for free catalog).

(FOLLOW-UP QUESTION):

These Indians who originally discovered America, where did they come from?

COSMIC AWARENESS:

This Awareness indicates that many of these came across from Siberia. Some came from North of Alaska in that which is called Middle Earth. This Awareness indicates that those in the Southern hemisphere came mostly from islands in the Pacific, blown by winds, and prior to that came from Indonesia. In some cases, even further East. This Awareness indicates that these histories and explorations date back prior to the time of Christ or during the time known as before Christ, or BC.

The continent of Atlantis also provided some entities in the area of Brazil; these were known as the early Mayans. This Awareness indicates that other Mayan Indians were remnants of tribes that were left from extraterrestrial contact. Their Mayan calendars, knowledge and technology reflecting back on their extraterrestrial past; that these dating back to the time of Atlantis in approximately 10,000 BC and before.

IGNORING SOMETHING NEGATIVE

IS LIKE IGNORING A DISEASE IN YOUR BODY

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that entities in their journey toward Awareness often find themselves becoming confronted by information that disturbs or frightens and might feel that they would prefer only having good news and pleasant information. This Awareness indicates however, that truth is truth, and one who seeks to avoid *What Is* cannot expect to discover ultimate truth, therefore, you may, in your journey toward Awareness, be forced to look at things that disturb the psyche.

This Awareness indicates that the heroes which entities set up, whether they be government officials or legends of the past, such as Columbus, often are tainted with a dark side. This Awareness suggests you need not judge these entities for their darkness. You may simply be aware, even as there is no need to judge yourself for your dark side, but there is a need to be aware, and in that awareness, without judgment, to energize the Light, the better side of yourself, and to cultivate that which is the Highest and Best within yourself so that the dark side receives no great attention, no great fixation, but tends to wither and fade because the attention is given to the Highest and Best.

This Awareness indicates that likewise, by energizing the Highest and Best in your outer world, even though having an awareness of the negative aspects, you can help to give nutrition to that which is Highest and Best, to feed the Highest and Best and thus, help that which is Highest and Best to grow strong and bright in your life. This Awareness indicates that you may ask then: Shouldn't we just ignore the negative and the dark aspects? Must we become aware of these things?

10.

This Awareness indicates that it is important, if you have a disease, to know that you have a disease, and then to energize the healing process, for if you ignore the disease, it allows it to continue unaffected, and to continue without attention. This Awareness indicates that in ignoring there is a disease in your society or in your world in the behavior of others, is to allow that disease to fester and to continue; but to be aware, and yet not be taken aback by it, not to be defeated by it, to be aware and yet to energize the Highest and Best, the better side of the entity: this allows the truth to prevail while nurturing the growth of that which is good.

This Awareness indicates that in ignoring something that is negative you may not feed it and energize it, but you allow it to continue its own momentum, if it has a momentum of growth. If it is without momentum, and is already recessive, or is in remission, it is not necessary for you to be aware of it, thus, it is not important to bring up negativities of the past if they are not affecting realities of the present, if they are not threatening realities of the future, but if indeed there is a threat in the present or the future, it is best to look at these negatives rather than playing ignorant or being ignorant of them, but not to be frightened by them, and to look at them only long enough to recognize where they are and then to shine your Light, the Light of Highest and Best, the light of Divinity, to heal the situation, to bring about the beginning of harmony, the growth of harmony, the development and evolution of harmony to that situation.

(The Law of Gratitude is given)

ED's Note: for more information on Columbus, and yet another side and motive for his expeditions, please refer to 'Revelations of Awareness' No. 83-11 (The Real Reason Columbus Discovered America); \$3.00 from CAC.

This reading was particularly disturbing, because as a kid we were taught that Columbus was so terrifically brave, sailing off into the great unknown, that he was one of the greatest heroes of all time and we should try to emulate his values. At school there were pageants, kids would fight to see who could play his part; we memorized poems about this man, spent "Columbus Day" writing essays about this 'great' hero, writing essays about his heroism and great contribution to mankind. (The Catholics, for some odd reason, treated him almost like a Saint!). Despite the poetic way Awareness tells us that it is no longer important, it is hard to get over the feeling of betrayal and having been so gullible. Why don't we write a few letters to editors and congress people, letting them know the revisionists have discovered the dark side of Columbus and that it is an insult to all people, of all races and creeds for our government to continue to honor this creature with a national holiday, of all things! Let's replace that national holiday with something else; perhaps a day off for all humanity to reflect upon the barbarous deeds and violations that Columbus and his ilk, Hitler, Pol Pot, Pizarro, Cortez, etc. and all those dictators in South America we are still supporting, etc. and send out healing energies so that these kind of vermin will never again sprout up in our civilization in places of power.

Also, let's campaign to change the name of all the hundreds of schools and other institutions that bear the name Columbus, for as long as that wicked name is being energized, the essence of the dark force that controlled him is still being energized. (Imagine hundreds of schools being named "The Adolf Hitler Elementary School" and sending our kids to such places!)

MORE FLESH FOR THE SKELETON (PART 6)

MORE POSSIBLE SCENARIOS IN THE NEAR FUTURE

(C.A.C. General Reading)

May 9, 1990

OPENING MESSAGE:

This Awareness indicates there are quite a number of considerations that need to be addressed in regard to the alien scenario and the coming events or potentialities; that there will be many questions by your readers in regard to the situation unless some of this is addressed in greater detail. This Awareness indicates that before discussing the various potential scenarios of what may occur in the coming years, It wishes to point out things that are happening at present.

This Awareness indicages that those who keep an eye occasionally on television will notice an increase in the references and stories and discussions regarding UFOs or aliens or abductions by aliens; that this approximately two years ago might have occurred on rare occasion and generally not in the major media, occurring perhaps monthly in some publication, tabloid or on some lesser station of radio or television; more recently, say, one year ago, it might have occurred twice monthly, and in the fall and winter of this year, perhaps on a weekly level;—it is now occurring almost daily or three or four times weekly.

Alien Messages to Children Via TV

The fact that entities are being bombarded with information relating to aliens and UFOs is something to note as being very important, for it indicates the exposure that is being promoted in order to come forth with the announcement of alien presence on the earth plane. This Awareness indicates the cartoon character Gumby was shown on television on a Saturday morning, being beamed up with a blue light into a UFO, put on a table, receiving an implant, and then released back on earth, in a kind of message to children: "This is how it's done. See? He's alright!"

This Awareness indicates that it is almost as though conditioning the children who are more open to concepts of such strange nature is easier than informing the adults and therefore, they can give the entire story in regard to the children or what appears to be an entire scenario of UFO abductions. This Awareness indicates that the Cooper material as that which released more than was supposed to be released, as was the Lazar information. There are others who are releasing information that is supposed to be released in such a way as to allow some material of truth along with other information that tailors what the masses are expected to know, or what the government wants the masses to know, prior to the announcement of alien presence.

*In October of this year, Bob Lazar appeared on the TV tabloid "A Current Affair," according to a reader.

Today, Sunday Oct. 21, while working on this newsletter, Vikki turned on the CBS News on TV and the very first commercial was a plug for the Sally Jessy Raphael Show, which showed a worried looking man, over which the announcer was saying: "Who do you talk to when you want to know about aliens and Reptilians and the abductions of humans. Why, Sally Jessy Raphael, of course!" As we see the man running onto Sally's set, where she is sitting at her desk.

Official State Dept. Rules When Confronted by Aliens

This Awareness indicates it was approximately one year ago that a television tabloid type show interviewed someone from the State Department in regard to UFOs and was given information about the rules, the policy for individuals who are presented with a confrontation or meeting with aliens. One of these rules was that humans were not to harm aliens, even if the aliens threatened harm to them or threatened their lives. This, along with other rules by the State Department were given at that time, but were generally ignored by the public because no one really knew how to put it into perspective.

Another rule was that no human, no citizens were allowed to speak with the aliens without permission from the government. This Awareness indicates that these and other rules being written at that time were out of place with the thinking of the masses at the time, but in light of the new information being released, become very significant, and in light of announcement of alien presence on earth, these policies will become extremely significant. This Awareness indicates that it is tantamount to suggesting if these policies are indeed made part of the announcement and government policy regarding aliens in the near future, it is tantamount to telling entities: "You are to treat aliens in the same manner that Gandhi treated the British, in a kind of passive resistance or passive acceptance."

Abductees Wanted on TV Shows (Dr. Ruth is Curious!)

This Awareness indicates that the policies do not necessarily deny or advocate resistance, but may at some time add to the policies this aspect of active or passive resistance. That also, even during this last week, there have been numerous incidents in which on television, UFOs and aliens have been discussed in the most unlikely places, such as Dr. Ruth requesting from the audience that she would like to speak with someone who had been abducted by aliens, and running over to a lady with her microphone to talk to the one lady who raised her hand.

This Awareness indicates that also UFO researchers on game shows, wherein entities were to guess what they did, "What is my line of work?", after being unable to guess their line of work, explaining that they were UFO researchers to the panel, including Burt Reynolds and Loni Anderson, the entities then explained what they knew about UFOs for approximately 4 minutes on the game show. On General Hospital, the story centered around a UFO abductee, thus, whether you are watching soap operas, game shows, cartoons, or Dr. Ruth in talk shows such as Opra Winfrey and different shows of this nature, there is a strong likelihood that you are going to get some exposure to the concept of UFOs and aliens among us.

This Awareness indicates that 'A Current Affair,' 'Hard Copy,' 'Reporters' and such shows have been giving this kind of information for some time. Even CNN has intensified its broadcasts relating to UFOs and interviews with people who have been abducted or who have had such experiences, or encounters, and this being given in a kind of legitimate news broadcast or interview. Also, CNN just last week, broadcast the story of a cliff in China which was discovered to hold bodies of entities who have been buried some several thousand years ago, approximately two to four thousand years in the past, and discovering that one of these bodies which they brought out, which had been mummified in the desert clime, had on it a device that looked like a 'Walk-man,' in which there was a headphone and a kind of communicator device laying on his chest with wires from the headphones. It contained a copper disc inside and crystals, without the ordinary types of electronic parts or batteries, and it still worked, in that there were sounds that could be heard through the headphone.

This Awareness indicates that this is another indication of the advanced technology that has been on this earth for many millennia of time. That historically the Greys, those who are referred to as the Reticuli, and more importantly, the Greys from Orion, go back in time as a civilization approximately one billion years; that this, of course, includes their most primitive ancestry. They more or less go back in time as a civilization approximately five hundred million years. They have been all over the galaxy.

Cyclopean Aliens Left that Computer in Earth Eons Ago

The Pleiadeans, who are presently at war with the Greys and the Reptilians, have a much younger life-span and are essentially akin to humans, having been on earth some seven thousand years ago after the Cyclopeans inhabited the earth. This Awareness indicates that it is important to realize there are many different species of humanoid types that have been and are on earth, and many have left their mark in different ways. This Awareness indicates that the Cyclopeans, who are responsible for the inner earth computer which this Awareness spoke of some decade ago, having left this computer, have long departed this plane, yet recently, in Greece, a skeleton was uncovered in which the skull had one eye in the middle of the forehead. This as an ancient Cyclopean skeleton of a small child.*

*The first info on the computer hidden deep inside the earth was given in 'Revelations of Awareness' No. 79-25 (The Secret of the UFOs); \$4.00 from C.A.C.

Old Testament Stories were Mainly Plagiarized

This Awareness indicates that in the early 1930s there was another 16 feet long or tall skeleton of a Cyclopean discovered. This Awareness indicates that these entities had a great influence on earth in its early history and the legends that were left were based on truth, but this Awareness suggests there are other legends that have been based on truth. The stories that have come out of Mesopotamia, Sumer, and from Akkadia and from Ur and from Babylonia; many of these were used as sources of information for the

compiling of the Old Testament; that essentially the Old Testament, much of the information was, pardon the word, plagiarized or stolen from even more ancient texts and writings, and any who wish to pursue this further should study *The Twelfth Planet*, by Zecharia Sitchin for further references.

This entity gives sources where entities can explore and research even further than his work, if desiring to do so. This Awareness indicates that these ancient gods of the Old Testament and of the writings of this period of time were, in the most, Greys from Orion. Not so much the Reticuli; the Zeta Reticuli are servants, and the Greys from Orion played a major part during those early times, along with others such as the Pleiadeans and the Reptilians. There was also a group known as the Oannes; these were a kind of fish people.

Why So Many Types of Humanoids in Our History?

One may ask: Why were there so many strange humanoids? The Reptilians, having a reptile genetic base, the Oannes having a fish genetic base, the Reticuli being of an insect origin or genetic base, and the humans, having an animal genetic base; why were there so many of these different types? This Awareness indicates there were also those which had wings, such as the Moth men. This Awareness indicates that now that entities just in the past 15 or 20 years have grasped the concept of genetic engineering, the entire concept of creation takes on a new light. Whereas Darwin presumed that everything came about naturally through the struggle to survive, genetic engineering is introducing a new factor, that something which is alive can be hybrid into a different species almost immediately.

The Genetic Creation of "Cabbits" and "Things"

There is that which was found which is called the Cabbit, a cross between a rabbit and a cat, found in New Mexico, approximately a year ago. There are other creatures that were described in the Cayce readings, as far back as ten thousand BC, in which the Atlanteans involved in genetic engineering created what they called their "things," part animal and part human. This Awareness indicates that all of this and all of the records of ancient times reflects and portrays the presence of aliens using high technology, genetic engineering, cosmic manipulation of energies and forces, technological and natural, in the molding of earth history.

Religions & Monetary System Evolved from Orion

Even the Hindu writings of the earliest sanscrit contain references to spacecraft, and throughout the world there are references and remnants of space aliens in pictures, drawings and such as the Nazca lines. This Awareness indicates that the religion established by aliens, promoted by the priestcraft which was set up by the aliens in order to control the masses, in order that civilization could be developed on this plane, along with the monetary system, and especially the monetary system, evolved out of the Orion influence.

This Awareness reminds you of the Unholy 6 in Orion, the six planets, and the planet known as Tyrantor, from which your word 'tyrant' comes from, and that in the Middle East is that city called Tyre, which in ancient time became the scourge of travelers who were always stopped by the fleets and were forced to pay duty for traveling anywhere in the area. This

Awareness indicates that this was the introduction of the monetary system that developed from the Orion influence which later became a kind of evolving taxation program: the head tax, the toll.

Orion Aliens Met with President Eisenhower.

This Awareness indicates there were of course other programs before, in other areas, but they were not designed in the same way, and this became the model for many other civilizations in extracting tolls from people. This Awareness indicates that in the late '40s, approximately seven craft from Orion parked around the equator, and eventually made contact with your President Dwight Eisenhower, creating an agreement between the two governments that would allow them certain rights in exchange for technology that they would give.

This Awareness indicates that the Zeta Reticuli were also present on earth at that time, but in very small numbers and it was not until later in the '60s, in the later '60s, that these entities became more prominent as visitors. This Awareness indicates there are also the Reptilians for whom the Zeta work, who already have certain bases on earth. These are still few in number. This Awareness suggests that these Reptilians tend to be in charge of and in control of the Zetas but there are several types of Zetas. One group known as the Orange, although it is not referring to a color, but a classification of Zetas, is more hostile toward humans and more aggressive than others, but this group has an interest and desire for personal freedom that is lacking in many of the other Greys, and they do not particularly like being the slaves of the Reptilians, and because of this, it opens a possibility of a scenario in which these entities might be enticed to rebel against the Reptilians who plan in the near future to take complete control of this planet.

The Real Reason for the Hubble Space Telescope

This Awareness indicates that the scenario would include destroying the Reptilians' craft before ever reaching earth, and also relates to the recent Hubble space telescope launching, which is designed to see anything approaching up to a hundred and twenty-eight years from now; that this telescope is as much a defense mechanism as to gather intelligence or information about the universe.

Black Helicopters & Recent Cattle Mutilations

This Awareness indicates that for the most part, the surface of the earth is for the humans. The Greys and the Reptilians prefer underground life away from the rays of the sun, and only exit, for the most part, at night. This Awareness indicates that during the last period of time from the early part of November up to the present, which is early May, there has been a large amount of UFO activity in the area of Washington and Oregon, a considerable number of sightings, and in Southern Washington especially, a number of cattle mutilations. This Awareness indicates that during the last week, a cattle mutilation in Southern Oregon occurred in an area next door to associates of some of the associates of the Interpreter, and these entities reported that shortly after the mutilation occurred, black helicopters flew overhead with such force that it shook dishes off the shelves.

This Awareness indicates these black helicopters are those of the Delta Force and were in pursuit of the UFO, attempting to discover or interrupt its activities. This Awareness indicates that friends of the Interpreter witnessed the Mother ship of the UFO hovering near Portland for several days at certain times of the night during the past week, approximately four different days, moving very slowly, sometimes in erratic movements. These smaller craft would move into the Mother ship or would be out on their hunting mission.

This Awareness indicates there is some likelihood that before this flap is completed, human mutilations will have occurred. Already in the Northwest there have been a number of missing individuals out of the ordinary, moreso than usual of all age groups. This Awareness indicates that these UFO flaps in certain populated areas occur for a period of time, usually only a few weeks, such as approximately two to three weeks at a time, and then the craft go on elsewhere. For it to continue for several months is quite unusual and displays a certain brazenness on the part of these Greys.

Aliens Flooding in During Full Moons

One may ask: Why is this increasing? This Awareness reminds you that the number of aliens is increasing on the earth and the underground bases are beginning to swell with more and more aliens. These entities come monthly, beginning the day before the full moon and extending until the day after the full moon; that this full moon is helping to energize the grid lines on earth which assist them in their approach. These entities coming from bases both on Mars and the moon, generally arriving on Mars, moving to the moon and then to earth.

Can Humans Live in Peace with Aliens?

This Awareness indicates that the question may be asked whether or not humans can cohabit with the aliens or whether there will be conflict, or whether humans will need to be sacrificed to the aliens in order to keep peace. These are part of the considerations in thinking in terms of future alternatives or contingencies or scenarios. This Awareness indicates that considering the concept of cohabiting or living together in peace, coexisting on earth, there are certain potentials.

The Reticuli Grey and the Orion Greys have several types of what you might term 'races' just as do humans, with some being more compatible with humans than others. As mentioned previously, the Orange group of the Greys, the group referred to as the Orange group is more aggressive and more hostile; they are more militant, but they are also maybe more inclined to work with humans in preventing the Reptilian invasion. These should be referred to as *Reptoid* beings, from Draco.

The more amiable Greys in many cases are quite benevolent toward humans and tend to think of them as beautiful. In all cases, the Zeta Reticuli, being such an old race that is dying out, need humans for their own survival. Less than one percent of these entities is able to reproduce, and therefore, they are creating hybrids or mutant crosses between human and Zeta

Reticuli, but these hybrids are generally used for a special class. They will be used as servants in their society.

They will also be used as breeders. It is their hope that these entities can be used for cloning to keep the race alive. The Zeta Reticuli are intending to move their entire home from their dying planet to the earth, although most of the population will not move, or be brought from there. The majority will be left to survive in that desert-like planet. This Awareness indicates there are approximately five planets in that general area that are simply dying, turning into desert-like planets, as Mars did.

This Awareness indicates that the potential for living on the planet with the Greys, particularly since they tend to live underground, offers a possible solution, though the Greys consider that they own humans, claiming to have created humans, and also believing that since they can control humans, they own them, just like people who can control and domesticate animals believe they own the animals, such as the cattle, and the cat and the dog. They do not see that the animal, the cat, the dog, the cow, rarely has much choice since they haven't the ability to resist ownership, and likewise, their attitude toward humans.

This Awareness indicates that the Orion Greys are somewhat of a similar type, having a kind of contemptuous attitude toward humans as being inferior to them, but at the same time, they use humans to set up hierarchy systems in terms of economics, in terms of politics, in terms of social strata, so as to be able to herd the masses and organize the masses to their own benefit. The Zeta Reticuli need human substances such as blood and glandular secretions to feed on, and this has to do with the mutilations; cattle blood being very similar to human blood.

This Awareness indicates there has recently been developed a breakthrough in terms of the use of cattle blood as a substitute for human blood in transfusions, and it is suggested that within five years there will be no further need for human blood donors; that at present a human can survive on the transfusion of cattle blood in one's veins. Only one such transfusion is possible without the entity being killed by the act, but with the new breakthrough in scientific work on the blood, it is possible that human transfusions can receive cattle blood indefinitely, without harm.

It is also a likelihood that this is related closely as a kind of stop-gap to help solve the alien problem of needing human blood. The aliens, absorbing the blood through their skin tissues, is their form of eating; that the only other reason the aliens would have for abducting humans is that there is a substance related to humans which the aliens do not have. This Awareness indicates in fact, the aliens have no emotions, whereas the humans have an emotional body. Along with the etheric and mental and physical body, humans also have an emotional body.

Aliens' Drug Habit Means Murders will Continue

The emotional body lies close to the ethereal body, and the aliens can and do, during abductions, often stare into the eyes of the human, drawing off energies of that emotional body as well as the astral energies of the human. The aliens lack these energies themselves

14.

and more or less get high from the energies of humans. There is however, another more sinister action extracting human qualities for aliens needs, and this has to do with the extraction of adrenalchrome. It is a substance found at the base of the brain after an entity has experienced fright or anger or some strong emotion, and the aliens can draw this off either with a needle in the back of the neck, at the top of the neck, and extract a small amount in that manner, or by killing the entity and getting approximately 10 times the amount.

This Substance is bluish in color and is used by the aliens, much the way humans would use drugs, and is also sold as a kind of money substitute. It is used by the aliens for raising money. This Awareness indicates that this is not the same in cattle as in humans, and there is at present no substitute for their need of this or desire of this, and therefore, this becomes an insoluble problem in terms of catering to their needs without human sacrifices as part of the catering process. That therefore, any cohabiting or coexistence with the aliens that does not address this or deal with this situation leaves an open door for much violence, either as human sacrifice or as a potential for conflict, and in future evaluations or assessments of scenarios that may develop, if this is not addressed or attended to, entities will need to assume that either it has not been addressed openly and there is some secret arrangement or that it has been ignored or that the masses are not to know about this, which would imply that human abductions would continue.

Two Ways the One World Government Could Occur

This Awareness indicates that another potential scenario has to do with the possible manipulation of the masses in order to set up a One World Government. There are two ways whereby this could occur. One would be to suggest an alien invasion and that humans must band together. Another would be to suggest the rapture and bringing the aliens as saviors of humanity, after some extreme crisis, and thus setting up the One World Government as a scenario for future purposes, and organizing along with the assistance of the aliens, the One World Government.

This Awareness indicates that if the aliens are made to be the bad guys, and the One World Government organized around this approach, it will signal that the humans are preparing for conflict with the aliens. If, on the other hand, they are made to appear to be the saviors, as in a rapture, it will imply that the governments of the world are ready to embrace domination by the aliens, and to work in harmony with them. There is still another potential from this; whereby if the government arranges to work with the aliens who are present in order to prepare a defense against the invasion of the Reptoids, they may create a jointly ruled planet, accommodating the present aliens and developing technology at a high pace in order to prevent the Reptoids from arriving.

This Awareness indicates it must be understood that the Reptoids look at humans with even greater disdain than the Greys. The Reptoids eat humans as humans eat chickens and do not consider them as being anything more than a farm animal.

This Awareness indicates that another potential scenario is the invasion being staged by craft of your own government, or possibly by cooperation with the aliens, and a surrender which would then bring in the organization of a One World Government to appear that the aliens have forcefully led to the One World Government being implemented, and during an interim period, an antichrist being put into position as a ruler of the world, to help guide entities into greater happiness in this One World Government which in actuality only enslaves humanity all the more, and which at some future time, approximately 1997, will then fall and fail, due to the following action of a staged rapture.

The staged rapture could include Pleiadeans or humans in spacecraft, and could lead to a more organized and unified world that maintains and establishes a greater world democracy. It is however, assuming that the Reptoids have been dealt with by that time, through the doomsday bomb or attack on their incoming craft. This Awareness indicates that this could then put things back into a state of rest.

Ramtha and the Eleven Days of Light

This Awareness indicates there is still another scenario that may be played, which the Ramtha people have indicated. This in which a space war takes place with the Pleiadeans and Ramtha's forces (against the Greys) in which there is what is termed the *Eleven Days of Light*, in which there is so much fighting occurring in the skies that the skies are lit up for 11 days and radiation falls from these battles to the earth.

It is for this reason that many of the Ramtha people are putting copper or copper flakes of paint in their roofs or painting their ceilings with paint that has copper in it; the purpose, supposedly to eliminate the radiation from coming into the homes. This Awareness suggests this has some possibility in a kind of varied way of happening in that there can be or could be in the future, such a conflict. It is more likely that if an attack were to be launched toward the Reptilians it will be done at a greater distance away from the earth and that it would be launched toward their Mother craft, rather than toward ships, fighter ships that were approaching the earth or in the earth's atmosphere.

This Awareness indicates there are still other options or alternatives, or what may be termed 'scenarios,' relating to a variety of tactics and things that could occur, depending on what kind of arrangements develop between humans and aliens, between aliens and themselves and between aliens and the incoming Reptoids. This Awareness indicates that at this time, none of this has been fully settled. It is as though there are options. That one of the influences has to do with the Pleiadeans and their condition, for the Pleiadeans have a kind of karmic attachment to humans; they desire to see humans develop spiritually, and they desire to see humans free.

It is much like a parent whose bastard children have been placed elsewhere to live, but who has an interest in their welfare, enough to want to attend them, if they are under great threat. This Awareness indicates that the Reptoids have taken over approx-

imately 6 planets in this general sector of your galaxy and a seventh planet, the earth, is their target. It would give them strategic control of the entire sector, plus, it would give them control of the computer that was left by the Cyclopeans, plus they would have the use of the water for bases in the general areas on other planets.

The Pleiadeans have been losing their war with these Orion and Reptilians and unless they have returned to earth by the year 1994, they are due to return in '93; unless they have returned by '94, it can well be assumed that they are not likely to be of any great help, and that earth will either fall to the domination of the Reptoids or will in some other way need to defeat them, perhaps through compromise and work with the Retiuli who are willing or ready to rebel against the Reptilians, if that is an option at the time.

This Awareness indicates that there are many things to consider in regard to these scenarios. Much of this will change, leaving one scenario to be more probable than others. It is suggested that the option of leaders of earth moving to Mars in the 'Alternative 003' scenario as that which is more unlikely than it was even a year ago. It is more likely that efforts to remain on earth, to keep the earth alive, to enhance the atmosphere and environment of the earth, to strengthen the economy of the earth and to unify the people as that which will prevail. This appears to be the more likely approach, and with the continual release of information, entities can surmise that if abductions and the alien negativity is described in these reports and exposures, then you can assume that the government is being sincere and trying to warn the masses in a way that does not create panic, and yet which unifies the masses so that people can prepare themselves.

If, on the other hand, and this seems unlikely, that the aliens are made to appear to be highly benevolent beings who are angelic in nature and that they have never conducted these abductions or mutilations and that people are to be obedient to them; then you can generally assume that the government is continuing to cover-up the relationship and truth about the aliens, and that there is developing a more sinister approach in the alien/human environment, to leave the humans more vulnerable to the alien presence. If, for example, the leaders attempt to sacrifice humanity in order to have peace with the aliens, they may be doing so in order to preserve their own interests, at the expense of humanity. If, on the other hand, they are allowing the information to continue to come out in regard to the aliens, this would imply that they want people to know what's going on and that they're indeed concerned about the welfare of humans.

The Significance of TV's "Alien Nation" Continuing

This Awareness indicates that another factor that indicates a potential in terms of this attitude, the television series *Alien Nation* apparently is continuing to air, but the television series *War of the Worlds* is being taken off the air, this next fall; the idea being that there was not enough support from the sponsors.

This Awareness indicates that the *War of the Worlds*¹⁶ was basically the scenario of conflict between humans and aliens, and especially during the past few months or weeks it began to appear extremely realistic, even to the effect of having substances extracted from individuals in order for these aliens to get high on, and to use for exchange such as the adrenochrome drug system or situation. The difference being however, that they used a different color for the substance, the color being more of a scarlet, but there was an antidote or substance derivative that was presented as a blue color.

This show was a kind of hidden reference to the adrenochrome for those who understood this aspect of the alien behavior and value system. This Awareness indicates that since this is being taken off the air, it would suggest the removal from consciousness of ideas of conflict with the aliens, and leave the *Alien Nation* to air the concept of being in harmony and working with the aliens. Thus, there may be the shift shown by these actions as favoring the concept of coexisting with the aliens.

This Awareness gives this in order to assist entities in realizing how to evaluate changes that may occur from time to time in these various scenarios. Watch and read between the lines, not only that which is given, but that which is not given; not only that which is presented, but that which is taken away, for these can give indications of what is happening in regard to the alien/human scenario. This Awareness indicates there is a book which entities who wish to explore many of the more indepth aspects of the UFO/alien situation, a book called *Alien Magic*, by William Hamilton. It begins innocuously and mild, but develops more and more, giving a much indepth version of many of these aspects of the aliens.

There is also the new book by Jacques Vallee *Confrontations*, which is his answer to Whitley Streiber's book *Communion*, wherein Jacques Vallee has now changed his approach, as he says he's starting over from zero, and realizing the hostile nature of the aliens, and sees them as a danger and threat and this book *Confrontations* lists many of the abductions, and gives many of the reports and facts along with his evaluation and theories. This Awareness indicates that this came about because of his meeting with William Cooper; you may know that Jacques Vallee was quite a proponent of the idea that UFOs were a kind of interdimensional or mental type of creation, not having much real substance. The entity now as having changed his thinking and does so in this book present his new thinking.

This Awareness indicates that it is obvious the government does desire that entities know more in regard to the UFO phenomena, and in allowing so much information to come forth, is preparing for the time when an announcement will be made about the presence of aliens on this earth. This Awareness indicates that it appears this announcement is coming much sooner than had been originally intended. The Star Wars program is actually a program to raise technology to deal with the future war with the aliens; that humanity has until about 1997 to be prepared. After that,

if humanity is not prepared, they will be taken over by the Reptoids.

The Aliens Could Appear at the United Nations

This Awareness indicates that approximately 1992 may be the scenario of the staged invasion; that this could be the time in which the One World Government would be implemented; that all of the other things which have been given in regard to economic systems and the creation of cards, etcetera, and the numbering system could also be implemented at that time. This Awareness indicates that the debit card at that time would become a strong likelihood. This Awareness suggests that the period of 1991 is seen as the most likely time for the announcement of the alien presence on earth. It could occur sooner. It could occur with the aliens appearing at the United Nations, delivering great gifts to humanity, such as cures for AIDS and cancer, etcetera, to present them as benevolent beings, ready to help.

Dramatic Events Due in 1995 (More on the Alien Bases)

This Awareness indicates that there is also a time in 1995 in which there will be dramatic events occurring, this to be discussed at some future time. This Awareness indicates that in the event of the Reptoid takeover of the planet, the area of South America is seen as being the more likely choice, especially in the Western part in the mountains of Peru, Ecuador, and Chile and Venezuela; that these areas are seen as being the place of preference by these entities, and many of those bases in the Northern areas will be continued in their areas, but the headquarters will be moved to the South American continent. This Awareness indicates that the headquarters now as the Dulce, New Mexico area; that Ada, Oklahoma as still being a base. There are bases also in Siberia, in Alaska, England, basically in almost all of the continents and in the ocean.

The Orion types tend to prefer oceanic bases where they enter into the ocean and establish bases underwater. The Reticuli prefer underground bases, as do the Reptoids. This Awareness indicates that the governments of the earth, the human governments, are not as vulnerable at this time as it would perhaps seem; that they do have a considerable amount of alien technology and capability of dealing with aliens. The greatest threat is that of the Reptoids, moreso than those who are already present.

This Awareness reminds you, of course, there are some Reptoids on earth, but these are in small number in comparison. The alien Reticuli, however, are continuing to invade this planet, as one entity, William Cooper stated, "the invasion has already taken place." It is not going to happen, it has happened, even though there may be presented officially the threat of invasion to rally people against the alien invasion.

This Awareness indicates the greater threat of invasion would be from the Reptoids when they move from Draco to the earth. They would move first to Mars, then launch their final approach from there. This Awareness does wish that entities not become panicky in regards to this kind of information, but rather to prepare entities so that they are aware of this before the events actually occur, so that when and if these events occur, they have already heard about it, have already digested the information and are not at that time in a state of panic.

No Need to Panic

This Awareness indicates that you may also realistically assume that since the Reptilians do not like the surface of the earth, you could live your entire life under their domination without even encountering one. You might be forced by fellow humans who are lackeys to them to work at a job you do not like, or to do things you do not wish to do, or you might be denied freedoms that you presently have, but this would be more likely the worst of the average experiences for entities, even under the domination of the Reptoids. Of course, there could be other more terrorizing experiences for some, but for the majority, personal hardships could be the extent of it, and in some cases, the hardships might not even be that difficult.

Therefore, this Awareness suggests you not get all panicky over this information; it is simply information relating to creation, creatures and creation of alternative situations. The Reptoids and the Reticuli have been on this plane for thousands of years; you are just now hearing about it in detail. There's no need to panic.

17.

You may look now back to your Bible, to the ancient writings and reread, and where it speaks of gods and those beings from heaven who destroyed Sodom and Gomorrah, the angels and so forth, you may recognize that these are in reference to aliens, and that the Lords who walked with, and talked with the different patriarchs of the Bible, may well have been Greys. It even in some cases refers to their appearance as startling to other humans. Or they may have been Pleiadeans.

Generally, the Pleiadeans were recognized simply as other humans and no big fuss was made over them. This Awareness suggests that entities who have any curiosity about this in regard to the ancient writings, definitely need to read the works of Zecharia Sitchin and especially *The Twelfth Planet* and *The Wars of Gods and Men*; this as being two of the four books of his *Earth Chronicles* which interpret earth history from the light of alien influence, and ancient writings supporting his thesis' theories.

This Awareness suggests the Interpreter be brought from trance.

TIME TO REVIEW DR. BETER & "GATHERING STORM MATERIAL

(May 1991 and May 1992 are Dates to Watch)

(Closing Message, C.A.C. General Reading)
October 7, 1990

COSMIC AWARENESS:

This Awareness indicates the nation and the world are on the brink of recession and economic change. It is possible that the symptoms of this may be delayed for months, possibly even years, if there can be artificial means of pumping borrowed money or of keeping the money circulating in society, even if it is borrowed or not true money. It is possible that by using credit or some kind of bogus money system or economic smoke and mirrors that the recession will be held off for awhile longer.

This Awareness indicates that regardless of how the rest of this year of 1990 goes, entities can expect 1991 to become a most disruptive time in terms of money, foreign affairs and government intrusions into their lives, through events that occur. This Awareness indicates that there is no way seen whereby entities can prepare for what is occurring without being aware of the total picture. It is for this reason that this Awareness suggests you reflect back on the material that has been released through this Awareness in the year 1990

and also reflect back on information that has been given in the time in the late 70's, especially regarding the *Gathering Storm* material, and also reflect back on the Dr. Beter tapes and information, that which he released in the last 25 tapes pertaining to situations in the Middle East which may again erupt and to some degree reflect the scenario that he presented in the latter part of his life, pertaining to the oil in Saudi Arabia.

This Awareness indicates that it does not appear that any of these things will be precisely as previously described, but that those descriptions and scenarios given in the late 70s and early 80s are not far off target in regard to the Middle East. This Awareness suggests entities especially watch the months of May in 1991 and especially so in 1992. This Awareness indicates that there could be a change of energies, but that these times appear to be ominous and at this time appear to be moments of great importance in the history that is to unfold in this decade.
