COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. COSMIC AWARENESS EXAMINES THE ENERGIES FOR THE YEAR 1991

(Opening Message, C.A.C. General Reading)
November 8, 1990

A New Renaissance is Coming

This Awareness indicates that the coming year may be seen at a future time as a year that began a new renaissance; that this will usher in new creative energies, a new creative spirit. It will affect arts and music to some extent as was experienced in the 60's, but to a greater degree, the emphasis will be on social awareness. This Awareness indicates that the renaissance will touch into environmental issues and social consciousness, and will have its effect, eventually encompassing world-wide levels of awareness.

This Awareness indicates that it is a time when changes shall begin to occur in terms of the awakening of the global community, the awakening of consciousness as to a social responsibility, moreso than at any time of the past. This Awareness suggests that there will also be a tendency during the coming years for greater differences to emerge between the masses and the governing bodies in various nations throughout the world, wherein especially the individual's rights as well as the individual's taxation by those governing bodies is challenged.

This Awareness indicates that the challenge of the individual's rights will lead to certain conflicts and the challenge to individuals through taxation will lead to conflicts in which the governments will tend to be the losers in these conflicts. This Awareness indicates that you may expect to see more in regard to the pressing forth of democracy in China, especially beginning in the Spring of '91, and you may witness the completion of the democratization of Russia by 1993 or 1994. The programs begun by Gorbachev should reach their completion during those years.

Republican Party to Push One World Government

This Awareness indicates that in the United States you will be likely to see efforts pushing the population toward a One World Government and the suppression of the Bill of Rights. This may lead to considerable conflict; there will likely be conflicts that may be settled at the voting booth, but there will also likely be conflicts that erupt on the streets through protest or demonstrations. This Awareness indicates that it appears the Republican party will take the lead in promoting the One World Government. This will be to the chagrin of many who are not favorable toward this.

This Awareness indicates that this especially so for those who have expressed themselves as ultra-right wing conservatives, who now find that the one thing they most dread the One World Government, is being promoted by the Republican party. That this can cause great disruption in the ranks; this as seen as occurring during the coming two years.

An Unrealistic Optimism will Occur

This Awareness indicates that there appears there will be a greater expression of the masses, more optimism among the people, almost to the point of euphoria, an unrealistic optimism. That this may lead to greater freedom for expression in terms of liberty in spite of common sense and in spite of any rules or laws that are enacted to curtail such expression. This Awareness indicates that in general, the artistic fields are likely to express themes that border on or touch on new creative and metaphysical ideas and concepts both in music and in theatre, in drama, and in television, in movies, and even in stage plays.

This Awareness indicates that this new interest in metaphysics as likely to become greater than anything that has expressed itself in the past, and may be of such magnitude as to cause religions to embrace certain metaphysical concepts and themes that in previous times would not have been considered as suitable for their dogma. This Awareness indicates that it is a time of great change that will carry for several years beyond this, though it has its roots in this and in the coming year.

Movies to Feature After-Life Themes

This Awareness indicates that already there are slight movements in this direction. In the movies *Always*, *Ghosts* and *Jacob's Ladder*, you will see certain new expressions and creative concepts relating to afterlife experiences which are themes that have not previously been covered in such a serious and artistic manner; that these types of

movie themes will continue to be presented to the public and the public will find them intriguing and of great interest.

3.

(FOLLOW-UP QUESTION):

This Awareness suggests also the movie *Flatliners* as touching on such metaphysical concepts as relating to themes and ideas based on metaphysical ideas of afterlife experiences.

This Awareness indicates this may cause some dismay to some of the more traditional religious churches, but eventually they will begin to recognize there is a need for exploring concepts of the afterlife with an open mind rather than seeing everything as being separated at death by a choice or judgment of condemnation to hell or express to heaven; that there are actually a wide variety of experiences that lie beyond death's door that may be as much a reality as the traditional beliefs.

This Awareness indicates that traditionally, the beliefs that one either goes to heaven or hell at death will begin to appear more and more as a kind of coercion or a coercive concept to condition and manipulate entities and may lose much of its manipulative power to the concepts that life goes on, and that heaven and hell are states of consciousness that lie between the two extremes.

The Middle East Situation

This Awareness indicates that there will be the continued threat of danger in the Middle East, the danger of war. It has not subsided, but still remains as a strong potential, even with the passing of time and even with the peace that has prevailed in the area up to this point. This Awareness indicates that there is considerable potential for this war to erupt during the month of December, but it could also erupt in as late as January.

This Awareness indicates there is still a possibility that negotiations and compromise can prevent this from occurring. It does not appear that the compromise preventing this occurrence will work unless Kuwait is reestablished. This Awareness indicates also, that there is the element of the Israeli interest in the region. Israel, being concerned about the future, may establish actions to help trigger the event of war in the area, sucking the nations into the war so that Iraq and Jordan are not seen as a future threat to Israel.

This Awareness indicates that this is not intended as an indication that this will be the scenario, but that it is a possibility of a scenario based on certain interests of Israel in its own preservation and this kind of interest could play a key role in future events. There are many special interests in the region besides Kuwait, Iraq, Saudi Arabia and the United States in its need for oil.

That reference of December and as late as January; Is Awareness referring to this year, 1990, or next year 1991?

COSMIC AWARENESS:

The December of 1990 and January of '91. This Awareness indicates in terms of world economics, there is seen in the coming year, the beginnings of a new market for goods in Russia and in the Eastern bloc nations that can be of great significance and importance to producers of other countries for their goods and products; that this becomes a new marketplace that can help the economies of many of these nations who are experiencing poor economic situations at present.

That otherwise, without these markets being tapped, many of these countries will find themselves having more economic woes in the coming year, but it appears there will be opportunities as well as pitfalls so that if nations do not take advantage of the opportunities, they may find themselves losing out and suffering the consequences of poor economies due to the inability to find or to market their products.

The U.S. Economy

This Awareness indicates it appears there will be some slump in the economy but that it will begin to rally in the year of '91, and that by 1992 the productive growth of the United States and other Western nations will be moving toward a healthy rate of productivity with a good marketplace for their productions.

The Alien Presence

This Awareness indicates that in regard to the concern for the alien presence, it appears that the planetoid is orbiting in the solar system just outside of Pluto's orbit, and is slightly smaller than your earth's moon; that the planetoid has been described by different names, as Nemesis, or Wormwood, but this Awareness indicates that it appears there will be more and more release of information by government sources relating to the presence of aliens, but that the private sector will be the main source of such information.

Information first released by Cooper and by Zechariah Sitchin in his books will be used by many different authors as source material for various books that will be released during the coming year; that the public will be well supplied with information that is relatively accurate regarding the UFO presence and alien presence on this plane, with some books written to deliberately misinform the public, or to distort the truth just enough to confuse the public.

This Awareness indicates that there will also be movies released on television and in theatres to help spread the information among the masses. This Awareness suggests that bulletin boards for computer terminals to tap into; these being the electronic bulletin boards, have been used throughout '89 and '90 for carrying information relating to UFOs and aliens. Some of these, most of these, have been shut down. There are two such bulletin boards still in operation; one is operated by Bill Cooper.

This Awareness indicates that another, called Paranet is still in operation. This Awareness suggests that there is a good likelihood that in 1991 more bulletin boards will come back presenting information allowing entities to present UFO information. This Awareness indicates the

magazine *UFO Universe* by Timothy Green Beckley has been out of print due to the sale of the magazine. The entity, having sold it, intends to continue working with the magazine when it again is released. It appears a new issue will be released during this month of November, 1990.

This Awareness indicates there will be other minor publications and there is considerable likelihood of more publications of books and articles relating to the UFO phenomena continuing throughout the remainder of this year and into '91, and up until the government makes its special announcement of the alien presence, whenever that may come. That the greatest likelihood is the Spring of '91 or '92.

The United Nations of Europe

This Awareness indicates that this has been a general forecast for the coming months of 1991. There are many other areas that could be covered, but this Awareness suggests these being the more notable and outstanding. This Awareness of course recognizes that most entities are aware of changes that have long been announced, such as the formation of the European League of Countries; that which may be termed United Nations of Europe, or the European Economic Community; that these European nations planning to form into a new bloc of nations by 1992, are doing so for economic purposes to make it possible to better compete with other large countries around the world such as the United States.

This Awareness indicates that when this occurs, the borders between the nations will be less guarded and crossings will be made easier without the requirement of so many papers; that it will essentially begin to seem like one nation with states, even though each nation may keep its own individuality. This Awareness indicates there is seen a likelihood of Yugoslavia losing its identity in its present status, to become a different kind of country, perhaps reverting back to its older name, Serbia.

This Awareness indicates that many of the nations will change in Europe, mostly moving more toward Democratic directions. This Awareness indicates that not only will there be changes toward Democracy and away from Communism, it is seen as likely that before the end of the 20th Century, that Capitalism will also be failing and will fall, even as did Communism fail and fall, and that which remains will become a free enterprise based on Democracy in which the capital that is available is regulated more by the people or the people's government, and less by the power of individuals.

1991 - THE YEAR OF "DISRUPTION"

QUESTION:

In the past Awareness has made several references to the year 1991 as being a "very disruptive year" for entities. Could It elaborate on this.

COSMIC AWARENESS:

This Awareness indicates that this is mostly in terms of the economic situations that occur for individuals. Also, there may be an increase in the breakup of families due to the potential Middle East war, and the disruption of family cohesion. The economic situation as that which is such that some will feel a deep recession, while others do not. It is likened unto recessions that form in pockets. Depending on the kind of economy of an area, some areas will thrive while others are denied the ability to operate.

4. This Awareness indicates that in the event the Middle East conflict does not occur, large numbers of individuals will return to the United States, adding to the unemployed ranks, and this will create more of a demand for jobs, more of a demand for support for these entities. In the event there is the war in the Middle East, there will be the break of loss of loved ones, and the tragedies to families. This Awareness indicates that in either situation there can be disruptions to individuals and families, so that entities may find great difficulty during this year, either economically or in terms of domestic harmony, or both. This Awareness indicates that all of this can of course lead to political strife or conflict because of the great concern and reliance entities place on government leadership to solve the problems.

This Awareness indicates that it is on the one hand a kind of euphoric optimism that entities feel, that on the other hand there can be considerable disruption in terms of actual experiences to individuals, and families especially. There is also a grave danger to individuals who are caught in the conflict that is brewing in the Middle East. Either way this goes, there can be negatives.

If the conflict continues to brew without being settled, more sentiment from Arabs in hostility toward the American presence will fester and grow. If it is settled through war, it can also lead to much resentment by many of those in the area toward the American presence. It could lead many to new alliances with the American presence, but there can be great tragedies involved also. Nothing will come without considerable cost.

The cost is not limited to the lives lost, and those who remain at home will not be untouched by the crisis. In all likelihood they will be touched at least economically, if not directly, through the loss or separation of loved ones. This Awareness indicates there are certain efforts at hand to pass laws that would also take freedoms from individuals, especially in the event of a war in the Middle East which could be used as an excuse to begin curtailing freedom and the Bill of Rights.

The Ginrich Anti-Crime Bill to Remove More of our Freedoms

This Awareness indicates that the Anti-Crime Bill promoted by Gingrich as one which could serve for a catchall bill to round up American citizens for political purposes, because the Anti-Crime Bill allows arrests without clear evidence of criminal involvement, whereby certain individuals may be locked up for as long as five years without clear access to their Constitutional rights, or even proof of their wrong-doing, just from the accusations and claims that they were involved in drugs or some other aspect of crime.

This also would allow all of their property to be seized. This Awareness indicates that this Anti-Crime Bill as that which becomes likened unto a Catch 22 to round up citizens who might be politically opposed to those in power, or who might be seen as political threats to those in power. This bill as that which contains elements that could be extremely dangerous to the Bill of Rights going overboard in fighting crime, reaching too far in being allowed to violate the innocent in the process.

This Awareness indicates that this also could have much disruptive value on families if it were to pass. This bill as that which could also serve to force individuals to accept the One World Government being promoted.

THOSE UFO/BIBLICAL BOOKS: ANY INFLUENCE ON THE ESTABLISHED CHURCHES OR RELIGION?

QUESTION:

This spate of scholarly books that have suddenly come on the market in the last six months that relate Biblical stories with aliens and UFOs....does Awareness see this having any significant influence in the coming year on the churches in general?

COSMIC AWARENESS:

This Awareness indicates that its influence will be more on the public, long before it begins to influence the churches themselves; that the public will awaken and then the churches will begin to wonder, "What has happened to our flock? Did they wake up or something?" This Awareness indicates that once the public awakens to the past alliances of aliens and humans as has been recorded in Biblical teachings, gradually this will filter into questions for the clergy to answer, and they will then need to become aware of these matters, so that they too can know what is occurring.

It is likely that only a few of those involved in the church will, with open minds, read these books. Most will, for a time, condemn the books as efforts by Satan to destroy religion. This Awareness indicates there will be, eventually, entities who recognize that the information is too well documented and the material too well accepted by the public to ignore and it will gradually be accepted and the religion itself will need to be altered somewhat without altering the basis of the major tenets of the religion.

This Awareness indicates that churches do not like to alter the dogma that they have created and call philosophy, and therefore, changes will come very slowly. Were they to embrace a philosophy that truth is of highest priority, then they could read such books, glean the truth and adopt the truth so that their religion reflects any new truths that are found from time to time.

WHAT EFFECT ON CHURCHES WILL THE "OFFICIAL" ANNOUNCEMENT HAVE?

(FOLLOW-UP QUESTION):

When the so-called announcement, the official announcement of this alien presence is made, whether the invasion is fake or not, wouldn't this have a profound sudden effect on the churches?

COSMIC AWARENESS:

This indeed would be an event that would shake the church's foundation and cause entities to reexamine their beliefs in light of the presence of aliens on earth. They would, of course, request spiritual answers from their ministers, priests and religious leaders, and would accept whatever information was provided. It is likely the religious leaders would be given certain dogmatic answers to the general questions prior to or shortly thereafter any announcement of alien presence; that they would be given these answers from those higher up in their organization, so that the religions could continue to hold together and not be shaken too greatly.

In some cases they might be told in accordance with the government announcement that the aliens were angelic, if that is the position the government wishes or that they are seen as hostile and demonic, if that were to be the government's position, therefore, you could expect the religious responses to filter down reflecting the position that the government wants the masses to hold at the time of such an announcement of alien presence.

5. This Awareness indicates that it appears there are many books and exposes being released regarding the aliens. These could be prevented if indeed the government seriously wanted to stop this information from being released. It appears that the government wants the information released on a gradual basis by individuals without the government confirming the information so as to shock the masses. If the masses can become used to the information without being shocked by it, if they can become used to hearing about it without having to believe it because of government verification, then the government can simply sit back and allow this educative process to continue so that fewer and fewer will be shocked when the announcement eventually is made regarding the presence of aliens, for the main concern of the government is to avoid creating social shock that will trigger entities to demand or try to force the government into an action regarding the aliens. (This Awareness suggests the next question may be asked).

POSSIBLE EARTH CHANGES

QUESTION:

In regard to the coming year, does Awareness see any extraordinary earth changes occurring? I ask this because some scientists or someone recently made a prediction about an earthquake in the Midwest by a certain date and people are moving out of that area, and Mt. Saint Helens blasted off the other day, not too bad, but it went off a little bit, and so people are wondering if there's going to be anything of that nature coming up.

COSMIC AWARENESS:

This Awareness indicates that it appears the entity made a prediction of a 50% chance of earthquake of serious magnitude in the area of the Mississippi river of Missouri. It appears that this suggestion is correct. This was set for approximately December 2nd. This entity as having a track record of accurate predictions, even though other geologists in his field do not understand or do not agree with his method of making such predictions.

This Awareness indicates that 50/50 chance would indicate a likelihood of an earthquake of that magnitude on or around that date. If the event is to occur, there could well be some devastation in the area or the event could be of less magnitude, this being part of the 50% unlikelihood of its occurrence. In other words, if as the entity suggested, it is a 50/50 chance, it does not necessarily mean it will or won't occur. It might occur at a magnitude of half the strength, or it might occur sometime away from the date chosen.

This Awareness indicates that it does look as though there is a buildup in the area and that something is likely to occur in the area, on or around that date. In regard to the Mount Saint Helens' concern, this appears to be a process of rebuilding the peak of the mountain. It will take a number of small eruptions in which lava or magma is spewed outward to rebuild the peak. This may occur occasionally over long periods of time.

This Awareness indicates that *It* does not see a great earthquake separating or splitting California as some have predicted, although there are seen smaller earthquakes. This Awareness indicates there is seen the likelihood of an earthquake this year in Japan, which would have considerable strength, and this Awareness indicates that *It* does not see anything of extraordinary proportions for the year of '91, unless this were to be triggered by some artificial means.

ED's Note: The big earthquake predicted December 3 did not occur.

**DO ENTITIES REINCARNATING TODAY
UNDERSTAND THE ALIEN SITUATION HERE?**

(Getting Around the Galactic Rule of Non-Interference)

QUESTION:

We received a letter from W.E., and it has a couple of questions. I'll read it.

"I am currently planning, with a little trepidation, a presentation of the alien/earth connection and its ramifications to my co-workers. I only hope I don't sound as if I'm totally gone around the bend. I feel it is my duty as a planetary citizen to present this information come hell or high water, and let the listeners decide whether they accept it or reject it.

Up til now, I've only told two people who were somewhat in tune with what was occurring behind the scenes, but more, many more, must be given this information. It could mean the difference between our destruction and our survival. I tend to be somewhat selective about what personal friends I tell. I cannot even relay the alien scenario to my wife at this time because she is pregnant with our first child and I certainly have no intention of upsetting her.

That brings up an interesting question. Are souls currently incarnating to this plane at this critical stage in earth's evolution fully aware of the social predicament they must face, and have they purposefully chosen to incarnate at this particular time frame so that they would experience whatever circumstances the alien influence projects?

I believe this to be true, but these are perilous times and I feel it would get much worse and as the thought of bringing up a child in such an uncertain future does not leave me with the sense of promise, but I remember the words of Awareness when It said that mankind needs a kick in the fanny, or words to that effect, to get himself on the right track to spiritual evolution with the rest of the cosmos, and it looks like the aliens are doing the kicking. Things are looking bleaker by the day, but perhaps out of the ashes will rise a human being free from the shackles of greed, power, lust and self-absorption. If that's what it takes, then I can accept the aliens' role in this cosmic drama; however, there is still part of me that wants these bastards out of here now, because our survival should not be predicated on theirs."

Does Awareness have any comment on Wes's statement?

COSMIC AWARENESS:

This Awareness indicates that most children in the process of reincarnating are not aware of the alien presence, they are simply following their own particular destiny as they have selected it by their conscious, subconscious and karmic necessities. This Awareness indicates in some cases, entities incarnate on the earth plane specifically because of the presence of aliens.

This Awareness indicates there are approximately 40 planets in league with each other as part of the Galactic Confederation who send their best to earth to incarnate as earthly individuals to help in the conflict against the aliens. This is a way by which they get around the Galactic rule of non-interference, for if they are born of earthly parents then they have the option of being here to fight against the alien presence.

This Awareness indicates that they may not be allowed as aliens themselves from the Galactic Federation to move into earth and combat the aliens, but if they come in as

6. children of earthly parents, they are essentially earthians and thus have such right. The only difficulty in this is that these entities often have some problems remembering why they are here, and thus may need help from their home planet which is frequently given to them through dreams or through subconscious guidance so that they better understand their purpose on earth.

This Awareness indicates that it is not as bleak as it might appear because there are quite a large number of these entities on earth, and because these entities have a relatively simple job, the job being to discover the presence of the aliens, discover the nature of these aliens and to pass the information on to others. This Awareness indicates that these entities are not sent here to take arms against the aliens, but simply to alert the earthians of the aliens' intention, their nature and their presence.

This Awareness suggests that entities from the Federation, the Galactic Federation, have already made some great headway in alerting masses and have begun a kind of awakening on a small scale that is destined to spread in much greater proportions with each passing day. This Awareness suggests therefore, the game is not over just because the alien presence appears technologically advanced and highly threatening in its strength. The game is only begun because the masses have only begun to awaken.

The awakening is essentially the nature of the game for this is what most frightens the aliens, the fear that earthians will discover their presence and not be cooperative with them.

FOLLOW-UP QUESTION:

Entities incarnating now as babies with such an intent, probably won't have the time to mature and do their work. Are entities in the Galactic Command and other sources who are in favor of humanity on earth, are they coming in as walk-ins now so that they can immediately start doing something?

COSMIC AWARENESS:

This Awareness indicates that this is rare; that essentially the entities from these planets have already entered into bodies and continue to enter into physical bodies; that it is not seen as something that is too late, for there are many from these Galactic Federation planets who are already present. Some are in their early years, some in midlife, and some quite old.

This Awareness indicates much of that which has been released has come from these entities who release the information, even after passing midlife without fully knowing they were part of a Galactic Federation force converging on earth for this purpose. This Awareness indicates that there are still quite young children coming onto this plane from these areas to assist in future times when the problem will either have been solved or will need new energies from these entities.

...“The Mark of the Beast”...

MAKING THE CHOICE TO SIDE WITH OR AGAINST THE ALIENS RULERSHIP

(How to Make the Right Choice)

QUESTION:

In another part of W.E.'s letter, he writes: “Another interesting thought just surfaced. If you have time to respond, what would you do, faced with the choice of siding with the power elite and their alliance with the aliens, or becoming a dissident and fight to save the planet but risk annihilation yourself? I now have a dilemma like this because I have the responsibility of raising a child, so at this point I probably would reluctantly give in to the alien regime, if it were to come to pass.

It's possible at some point in time everyone on this planet must make this choice.”

Could Awareness comment on that?

COSMIC AWARENESS:

This Awareness indicates that the concern entities need to hold is for the welfare of others as well as for their own soul growth. This Awareness indicates that if you are in a situation in which your soul growth is of highest priority, then of course, without question, you will automatically choose to follow your own integrity regardless of cost. If you are in a situation in which the welfare of those whom you love depends on your compromising your soul growth integrity, you will experience a dilemma.

This Awareness suggests however, that in every situation, if your intentions are of the highest, there will come a moment of decision that will be based largely on all of your deepest and most inner feelings, those of love, those of duty, those of responsibility, those of desire, and in that brief moment you will make a decision regardless of what anyone has told you, regardless of what anyone has suggested, and if that decision is based on truth and integrity within yourself, and if there is no fear involved that is causing you to act out of fear, the choice you make will be the right choice.

If however, you act out of fear or greed and self-interest, the choice will invariably be the wrong choice. This Awareness indicates that it is true, everyone will need to go through moments in their lives where they need to make choices. It is possible for entities to forestall these choices by being prepared ahead of time, by circumventing the situation that would require the choice or by seeing ahead, taking steps so that the choice is not as extreme in its nature, so that a choice made does not carry such consequences.

This Awareness indicates one may prepare oneself so that they are not easily trapped into making a choice, so that they can have options at the time, more than the options provided by those who would entrap them; that this would be an appropriate way to ward off such a confrontation.

FOLLOW-UP QUESTION:

This same process would apply when making any important choice would it not, not just with the alien situation?

COSMIC AWARENESS:

This is in the affirmative. This Awareness suggests that if you see there is on the path you're taking, the potential

7. for having to make a choice, either direction of the choice being unacceptable to you, then it would be to your benefit to make your choice before reaching that crossroads and choose to avoid the crossroads by taking off early in a different direction, or preparing yourself for the event, if indeed you must come to that crossroads, so that you have more options than those which are offered. It is likened unto driving down a highway knowing there is a roadblock ahead, deciding rather than to go to the roadblock, to turn off ahead of time or to go back a different direction or to stop at a motel and wait, or if you cannot get off because, for example, you are on a train that does not stop or allow any opportunity to disembark and you know that at the next station where you stop there is going to be a confrontation with someone, then you have only the option of preparing yourself for that confrontation.

There are different ways whereby you might prepare yourself to minimize the danger of the confrontation. You might, for example, work up different ideas, a different ID, or create a disguise or prepare yourself in case there is physical conflict, or find yourself a guard to assist you; in other words, get help, or take some other similar preparatory action so that when indeed you are faced with the obstacle, you have greater strength or cunning to deal with the obstacle at the time.

This Awareness indicates that this is but a general suggestion and cannot give specific details except in regard to specific detailed considerations. This is likened unto a general formula for dealing with any potential obstacle that may come in the future. This Awareness indicates another option would be to meet the criteria demanded of you at the time so that if the criteria demanded allows you to pass through, then you could pass through; this assuming, of course, that meeting the criteria itself is not to your detriment. This Awareness does wish to make a comment here in regard to certain facets of concern that some entities may hold in regard to the alien situation.

If you Accept the Alien 'Mark of the Beast'

There are many who believe that if they accept the brand or Mark of the Beast, which is essentially an alien brand marking their property, as humans brand cattle to mark their ownership of the cattle; that they will lose their soul. This Awareness indicates that in regard to the alien factor, this could well occur, since the aliens have the ability to sever souls from individuals and to make clones using souls or parts of the soul of individuals. And also, the aliens may in their agenda, promote the concept of rapture in which they pick up individuals and take them to, (this particularly referring to the Draco), take them to their own home planet to be used for breeding and husbandry for livestock, for food for their population.

This Awareness indicates neither of these scenarios appeals to individuals because each threatens the individual's own welfare and livelihood. This Awareness indicates that it is best for entities to avoid the contact with the Mark or brand. It is also best to avoid being abducted by aliens through a fake rapture. This Awareness suggests that if one can avoid these, then one is likely to be better able to survive unscathed for longer periods. If these are

not escapable, it is important to keep in mind that your soul is *your* soul, and even if severed and taken into a clone, you still possess your soul, even though in another body.

There is no Guarantee for a Happy Death

Even if you are taken to another constellation to be raised for food to feed the Reptilian gods, you are still yourself, and can remain yourself to your moment of death. This Awareness indicates that neither is desirable, but then neither is death by cancer or by any other disease of a natural order desirable. There is no absolute way of guaranteeing entities a happy death, for happiness is a state of mind, and if entities can cling to the light within, regardless of what occurs without, they can diminish the suffering of the passing over.

This Awareness indicates *It* cannot assure anyone that they will not pass over. It is enough to assure entities who read this information that by being close to this Awareness, they will be spared the extremes of these conditions. This Awareness indicates it is *unnecessary* to accept the Mark of the Beast number in order to survive. You can survive without it. You *cannot* survive with it. To not have the Mark of the Beast means you *have* to survive outside the money system.

You might need to live off the land, learn what herbs are edible, etcetera, but in taking the Mark of the Beast, sooner or later you will be harvested as one of the properties of the aliens and will be used for their slaughterhouse, to be butchered, to have adrenochrome taken from you, or to be eaten or otherwise used for breeding purposes until you have been totally drained and then put to death.

This Awareness indicates that the Mark enslaves you, therefore, this Awareness suggests you not accept the Mark. This Awareness indicates that this Mark is more than a mark on the hand. These entities will also place these implants in other spots so that they cannot be removed. Those that are on the hands may be removed. If necessary, the hand itself can be removed. This Awareness suggests that if it ever comes to this, that you get together with others who likewise want to avoid the Mark, and this Awareness suggests that you will find that there are many.

This Awareness indicates if it comes to this, there will be revolution, that many will refuse to accept the Mark and this will create havoc for the aliens in their efforts to subdue the human race. This Awareness indicates they only want a certain number of implanted humans for their slave force. Most of the Third World people will be left untouched. The greater portion of people on earth will not be implanted with this chip in their wrist or hand.

This Awareness suggests you not think it is going to be forced on you, for it will be a matter of your own choice whether you sell your soul for economic benefits that come with taking the implant or whether you remain yourself and remain your own property.

THE "MARK OF THE BEAST" IMPLANT

FOLLOW-UP QUESTION:

This Mark of the Beast implant; this would not apply to those entities today that have already been implanted by aliens, would it?

8. COSMIC AWARENESS:

This Awareness indicates that this is not the kind of mark that is placed on entities involuntarily, whereby they are not given the choice of receiving or not receiving. It is a mark in which the entity chooses, and when choosing to accept it, the entity is also choosing to be part of the New World Order, and to be part of the banking monetary system that allows a certain kind of debit system to be used whereby the Mark is an essential part.

This Awareness indicates that in terms of abductees, these entities are not part of this system as yet; that they will have a time, just as do others, in which they may be given a choice.

THE "SEVERED SOUL" --ANY KARMA INVOLVED?

FOLLOW-UP QUESTION:

This idea of the 'severed souls,' that even though an entity, whether in making a willful choice or not, ends up being raised like cattle or eaten by Reptilians; when these entities pass over, is the severed soul reunited? Is it put back together, and is there any karma involved other than the instant karma of the aliens taking these entities as humans?

COSMIC AWARENESS:

This Awareness indicates there is no karma involved so long as the entities are not willfully cooperating in the actions. This Awareness indicates that the concept of the severed soul, in which the soul is severed from the entity's body prematurely of the death process, which allows the soul to be either totally or partially split off, to be used in a robotoid or synthetic body, substituting for the entity's own body; this idea as that which may in some cases create two entities that appear identical,--a replica and the original,--and the replica would carry part of the entity's original soul.

This Awareness indicates that upon the death of both bodies, the soul parts or the severed souls would come back together as one; or with the death of one of the bodies, the part left disembodied would go to the other. There is no karma involved in this except for the aliens who are doing the operations. These entities would receive certain negative karma for such activities, when the activities are perpetrated against the wills of individuals.

If the individual subjects are in total cooperation with the aliens, the aliens would not receive negative karma for the action.

HOW TO SURVIVE FINANCIALLY ?

QUESTION:

Another question from W.E. He writes: "If this question ever arises during a session, perhaps Awareness could offer Its advice on how to survive this coming crisis on a financial basis. Is it best to save gold perhaps? Should we take our money out of banks, no matter how strong they may appear? And what of the long awaited, long dreaded currency recall? Should the humans in control decide to disassociate themselves with the aliens and make an honest attempt to save the planet, would they make every effort to strengthen the economy rather than let it go down the toilet?"

COSMIC AWARENESS:

This Awareness indicates there has been some effort in recent months to strengthen the economy, that this has accompanied a reawakening by many of those entities who have knowledge of the alien presence, that they cannot do business with these aliens, and therefore, must work to rid the planet of their presence and influence.

This Awareness indicates that this reassessment also has been instrumental in the realization that the economy must be strengthened. This Awareness indicates that in regard to the banking accounts, that one may put some amount into banking; that experts would suggest 20% of your savings and investment be in gold; that you may wish to consider a larger amount in view of the potential changes of the future, for gold, if it is easy for you to hide or preserve it in a place that is truly safe, can always be used as a medium for exchange of wealth. You must find a good strong and secure place for the preserving of your gold. You do not want it to become a target for robbers or thieves.

ED's Note: You don't want to keep your gold in the safe deposit vault of your local bank, either, for if the bank should fail, you would lose your belongings. Also, federal agencies such as the IRS can confiscate it there if they should feel like it. A safe deposit drawer in a jewelry store or some other non-bank institution is safer. Over the years, CAC has researched this gold storage question and we recommend the best and safest place is in your own home. Buy one of those little vaults you can build into your floor or closet and cover up with a throw rug. Better yet, get a couple of those phoney electrical outlets you can install anyplace in the house, or a couple of those phoney Coca-Cola cans or similar brand name item that is designed to conceal your stash of dope, or in this case, your gold coins. You can find these items in mail order catalogs.

FOLLOW-UP QUESTION:

Would certain gold stocks be a good place to put one's money rather than banks nowadays?

COSMIC AWARENESS:

This Awareness indicates this will depend on the value, the true value of the stock, not the purported value. There are many certificates of gold stock that are hardly worth the paper they are printed on. There are often paper stocks purporting to have value where in fact there is no gold behind the paper. One must be most careful in such investments.

STOCK MARKET'S REACTION TO ALIEN ANNOUNCEMENT

FOLLOW-UP QUESTION:

If the alien announcement is made in the coming year, as Awareness has suggested is possible, what would this do to the stock market?

COSMIC AWARENESS:

This Awareness indicates it appears it would cause an immediate drop in the market which would then reclaims shortly thereafter. The market tends to drop at the time any shocking announcement is made for entities pull their money out to see which way things will go, and when it starts rising again or bottoms out, they put their money back in, buying at lower rates. They begin to put their money back in to the market.

(Follow-Up Question):

Financial newsletters that are coming through the mail are predicting that in the coming year or two, the stock market will reach as high as 5000. Others are saying that next year it will go down to 1000 or lower. Does Awareness see some medium or something of that nature in the coming year? Is there going to be any violent trends either upward or downward?

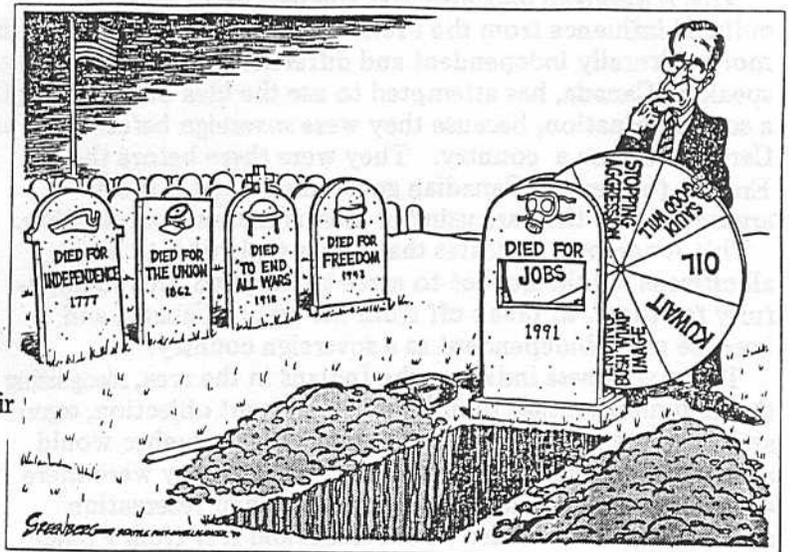

COSMIC AWARENESS:

This Awareness indicates that this will depend on what occurs in the Middle East. If indeed war occurs in the Middle East, the market will tend to fall. The price of oil will tend to increase. If the war ends quickly, then the market will tend to rise quickly thereafter, and may continue going quite high. This Awareness indicates that it also depends on the interest rate and whether the Federal Reserve raises, lowers or keeps the interest rate where it is.

If it lowers the interest rate, the market will rise. If it raises the interest rate, the market will drop. If the price of oil increases, inflation is likely and if inflation increases, interest rates may tend to increase until the Federal Reserve lowers the interest rate, if it chooses to do so. This will depend on whether or not the Federal Reserve bank wants a recession or wants growth in the gross national product levels.

At this stage there are a great number of factors, many too volatile and uncertain to be able to see anything clearly in terms of a market trend.

This Awareness would like to comment that it appears the recession which some say is at hand, others question whether there is a recession; that the downturn in economy will continue into '92, but it will not be nearly as deep a downturn as was experienced during the early Reagan years, during the early 1980's. That is the general appearance. These generalities may be altered by events, but it appears from a general sense, that there will be a mild downturn which will last throughout the next year, this not being very serious, much as has occurred during the fall of this year, with mixed signals.

THE ONE WORLD GOVERNMENT: TWO POSSIBILITIES

QUESTION:

One final question, this from W.E. "Could it be that those in control may want to form a One World Government, not as a means of controlling the world population, but in uniting the planet into one government that would cooperate in fighting the alien occupation, perhaps in the event the Orion and Zeta Reticuli Greys decide not to be disloyal to the Reptilians?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. That is one possible scenario. The other possible scenario is that they are forming the One World Government at the direction of the Orion Greys who want a One World Government so that they can better manipulate humanity.

WHY AWARENESS GAVE SUCH A LIMITED PREDICTION

(Closing Message):

This Awareness indicates that the energies seen at this time are likened unto that which might be similar to boiling

10.

water. You think of a pan of water as being clear, wherein you can look into the pan and see something on the bottom of the pan, but when the water is boiling, everything becomes distorted. There is constant movement, constant change, and therefore, you are not sure what you are seeing at the bottom of the pan.

This Awareness indicates so it is with the energies pertaining to events. Wherein there are events sitting at the bottom of the stream, and you seek to see those events but there are distortions because of movements that are in conflict with one another, much like the boiling of water, so that what looks clear at one moment, becomes distorted in the next, because of new energy popping up.

This Awareness indicates that until there is some kind of clarity in the surface of things, a clear description of the future is not available. It is for this reason that this Awareness gave a limited prediction in the first part of the reading; that those things which followed that limited prediction are more unclear, and therefore, more uncertain. This Awareness indicates that as things clear up in the future, It will attempt to clarify these areas also.

WHAT'S GOING ON IN CANADA? (THE QUEBEC QUESTION)

(Excerpt from a CAC General Reading)
Sept. 11, 1990

QUESTION:

J.M. of Calgary, Alberta, wrote a long, rambling, three page letter and asked me to ask Awareness about it. I've read it several times, and I can't do it. It's too long and rambling and full of political personages, but I think essentially she'd like Awareness to look at the Canadian situation where there's been rioting and all this sort of thing, particularly in Quebec, that wants to secede from Canada, and there's been a lot of fighting with Canadian Indians and so forth, and she's very concerned with all that's going on. She thinks that her beautiful Canada is slipping away, and she wonders if Awareness could look at that situation briefly.

COSMIC AWARENESS:

This Awareness indicates that there is a good reason for concern in this area.

This Awareness indicates that Quebec, being a strong cultural influence from the French aspect of Canada, being more culturally independent and different from English-speaking Canada, has attempted to use the idea of becoming a sovereign nation, because they were sovereign before Canada became a country. They were there before the English formed the Canadian government, and it is this argument that they are using in their argument for secession.

This Awareness indicates that it was their wish to have all citizens within Quebec to agree to this, and thus to hopefully for them, to break off from the rest of Canada, and become more independent as a sovereign country.

This Awareness indicates the Indians in the area, recognizing this argument, rather than agreeing without objection, argued and stipulated that they would agree only if Quebec would also acknowledge their sovereignty, because they were there even before the French, and if so, then their reservation and territory should also be sovereign and free from French domination.

This Awareness indicates this is the basis for the dispute, and it has led to the conflict between the officials of Quebec and the Indians, and even though this has not come out in official broadcasts, this is essentially the position of the Indians in their argument. They are simply arguing the same law for themselves that Quebec is trying to use for their own argument for independence.

This Awareness indicates that it is having a very interesting effect. It is also stirring quite a controversy and conflict that could end in violence. It could result in a serious loss of freedoms for many.

This Awareness indicates of course the British aspect is that if the French and Indians can't get along, they are not obliged to help settle the issue, since they don't particularly care to let either have their independence anyway.

This Awareness indicates that the official action is to keep the real purposes of these positions from being clearly explained to the masses, and therefore they make it appear that it is simply an argument over a golf course trying to intrude upon Indian sacred land.

THE ROTHSCHILD/ALIEN/REPTOID CONNECTION IN CANADA

QUESTION:

S.J., another Canadian member, writes: "In a previous news letter, Awareness mentioned a potential alien takeover. The question is this: Is the ongoing English-French language and cultural controversy here in Canada to be taken as a part of this long-range plan, as it unfolds here? This difference, which has been threatening to separate our country, seems to be getting almost daily media coverage, and agreement on this subject is just not happening. Thank you."

This Awareness indicates that this could lead to considerable conflict, and there is a threat and danger in this regard.

This Awareness indicates that the entire British empire, or whatever word one wishes to use, is generally under the influence of the Rothschild order, or powers, which in turn controls much of the banking powers of the world, and does have links to those alien energies, through aliens and in connection with the Reptoid aliens, essentially working under an influence that is associated with these powers for many decades.

This Awareness indicates that the Canadian forces are likely to come into and under the same stress as the United States in regard to these coming influences. It is not only in Canada, but also Australia and other British-held countries.

This Awareness indicates that these things will become more clear in the near future, particularly after next year, in 1992, when the European continent begins to join together in a common nation. There will be very powerful realignments occurring, and much information released, and entities would begin to see the direction of movements at that time.

This Awareness suggests that the alien situation is not simply a problem in the United States; it is a worldwide situation. This Awareness addresses it in the United States mostly because 95 percent of the membership of this organization are in the United States.

WHY THE DECAL ON CERTAIN CANADIAN MONEY?

QUESTION:

S.J. in Canada had one other question. "When I have gone to the bank for quite some time now, the teller gives me only one fifty dollar bill among the others, with a shiny numbered decal on it. Can you explain the purpose of this practice? It seems to me I heard something about this being done to keep track of money used in drug sales. I'm not positive. Could this have another purpose for the government that they won't disclose? Could they be monitoring our cash spending habits?"

COSMIC AWARENESS:

This Awareness indicates that this could be a part of a bank policy that perhaps is associated with policies that are gradually being implemented for such purposes. This Awareness does not see this as being universally applied from all banks at this time. It does appear that it has some covert purpose; that this may be made more clear in the near future.

WHAT WAS MARGARET THATCHER'S ROLE?

QUESTION:

J.W. writes: "Has Awareness ever mentioned Margaret Thatcher in any of the topics covered? I'm wondering just what role this entity is supposed to play in the world. She's a Libra and according to time of birth given in an astrology magazine some years ago, I would have expected her to be voted out by now. I think the time was wrong. I don't like her politics, being Irish, and having visited the North many times and seen the results of British occupation there and her iron-handed, cruel methods. I think she should be doing more to bring peace there, and wonder what Awareness would have to say about her."

This Awareness indicates that the entity as representing the forces associated with the banking conspiracy, the powers that would manipulate and control as much as possible that which works for the banking cartel.

This Awareness indicates that she is working for the World Order, as are most statespeople. There is frustration by these entities in regard to the Irish situation, because it is not under their control. It is a kind of activity of war that is not directed by the cartel. The banking cartel wants to be the only force creating wars and peace activities.

This Awareness indicates this being a kind of religious war in Ireland, is out of control, and not satisfactory to the cartel. There are seen some efforts to influence the direction of the war if it is not controllable.

This Awareness indicates you must understand that the overall situation is that anyone who is elected in England, just as in the United States, is quite likely to be a puppet for these banking cartel forces.

ED's Note: About a month after this reading was given, Margaret Thatcher, the 'Iron Maiden' and counterpart of Ronald Reagan of the U.S. was unceremoniously voted out as England's Prime Minister and replaced by what appears to be a male clone who will work for the same ends as she. Seeing that her tush was about to be kicked out into the street, she resigned. It appears the English may have at last grown tired of right-wing extremism.

ALIEN CONSPIRACY AND BASES IN CANADA

A question from S.N. in Pickering, Ontario. "In regards to the alien presence, Awareness has given much information in regard to the USA, but I would like to know what's happening here in Canada in regards to the aliens. It was mentioned that they have bases in Canada, and those bases funded by the Canadian taxpayers, like those of our neighbors in the U.S. How much is the Canadian government aware or involved in the alien conspiracy?"

COSMIC AWARENESS:

This Awareness indicates it appears there is a base in Quebec, that it appears this has been in operation for approximately fifteen to twenty years. It appears there have also been some contacts with Russian scientists involved in this activity, along with Canadian officials.

This Awareness suggests that it appears there are other bases. The energy is not seen at this time in regard to these, but it does appear there are at least two other such bases in Canada.

This Awareness indicates that the tall, grey Orion types are inclined more to the northern climates, whereas the short greys are inclined more to the southern, warmer climates. This Awareness suggests that you may wish to look at some of the maps made available in the publication called *Alien Magic*, this put together by Hamilton, and that these and other similar maps from various publications. It appears there are also maps in Howe's book, *Alien Harvest* that may give some indication of areas where there is high UFO activity in regard to cattle, and these can be indicators of bases.

This Awareness indicates that where there are tunnels going in a direction and where these tunnels stop or turn, you can assume there is a base there, and where there are high cattle mutilations, you can assume there are some nearby bases in that general vicinity, this in reference to UFO bases.

WHAT'S GOING ON IN CANADA? (Cont.)
CANADA IS EXPERIENCING FIRST
WHAT THE U.S. WILL EXPERIENCE SOON.

QUESTION:

Nov. 10, 1990

We have quite a few members in Canada, and a number of them in corresponding back and forth ask essentially this question I'm going to read from B.F., in British Columbia. He writes: "You may have noticed that Canada is in a state of revolt. Mulroney is despised from sea to sea. The polls for them are down to 15%, the lowest ever recorded. The natives and the Senate are in open revolt. The Ontario government, the most secure in the country, was turfed out last month. They now have a socialist government for the first time. The NDP is now tops on the national poll. The economy is dropping like a stone. Free trade has eliminated 50,000 jobs, if not more. Our high dollar exchange has killed off the lumber industry and exports. High interest rates are killing construction.

The new goods and services tax coming next year will kill off tourism. It appears that our government is taking its orders from Washington. This isn't new, but the boot-licking gets sickening. Now we're rattling sabers about invading Kuwait."

Is there any additional information about Canada that Awareness could give at this time that was not covered in previous questions?

COSMIC AWARENESS:

This Awareness indicates that Canada is suffering from much the same kind of political banking manipulation that is occurring in other countries, but because Canada's economics is such as to be more easily manipulated, it has experienced the crash, or effects of such manipulation, sooner than is occurring in the United States. This Awareness indicates that much of Canada's economy is so closely tied to that of the United States through its corporations and the laws that relate between the countries that these will affect the Canadian economy and bring about difficulties that Canada is presently feeling.

This Awareness indicates that nor can Great Britain be seen as less an influence on the Canadian economy for it too has its influence in these areas. This Awareness indicates that it is a difficult time for all countries, especially those countries that are not well diversified into quite a large number of activities and which are not filled with natural resources to draw from.

This Awareness indicates that it appears there will be a change of government soon, but it does not appear that the change will come soon enough to help the country avoid much belt-tightening and personal sacrificing of its citizens. This Awareness indicates the inflation, the shortages of jobs, are all taking a toll on the people; that this is likely to be felt in the United States also in the coming year. Canada is experiencing this sooner, rather than later.

This Awareness indicates it appears that Canada will also recover sooner than will other countries not yet experiencing the difficulties. This Awareness indicates the Canadian people are very resourceful and have a pioneering spirit which allows them to not only live off the land, but survive off the natural resources through different ways other than those which are commonly provided by the government. This Awareness indicates that many of these entities will find themselves involved in barter and trade, trade of services and goods to one another in order to bypass the need for jobs and government assistance, or to help stretch their meager income to allow them other

12.

means of livelihood.

This Awareness indicates it is important that entities become aware of the fact that they do not need to have access to the resources of the entire world or of the United States in order to survive. If the entire surface of the earth existed only in that which is called Canada, everything necessary for survival in that earth known as Canada would find its proper place. Entities could produce in Canada everything necessary for the survival of the civilization. The fact that there is a large productive nation South of Canada tends to influence many of those in Canada to become somewhat dependent on and reliant on the economy to the South, and when that economy to the South fails them, they suffer. This Awareness suggests that by becoming self-reliant this will not occur.

WHAT FORCES ARE MOTIVATING MULRONEY?

(Bankers' New World Order Begins to Hit Canada)

FOLLOW-UP QUESTION:

What are the forces that are motivating Mulroney to do these things which are so unpopular? Is it...

COSMIC AWARENESS:

This Awareness indicates this entity, like other leaders of Western nations, is under pressure by the world bankers and Trilateralists to help set up the country for the One World Government so that all can be controlled from a central office rather than each nation being independent and individuality having its place within the nations. This Awareness indicates that in this New World Order individuality will be seen as a threat to that New World Order.

This Awareness indicates that the dangers involved in attempting to set up a New World Order where the elite rule over the masses has only begun to be glimpsed. This will become more pronounced as the New World Order becomes more actively implemented by those promoting it.

This Awareness indicates there will come a time when even messages such as this will be seen as unlawful, whereby opinions cannot be expressed that are unfavorable to the New World Order.

This Awareness indicates that there will come a time when answers will not be allowed to questions such as this. The time may not be far away. It is possible that this will not come about if the masses of people catch on to the nature of the New World Order. This Awareness indicates there are some entities already working to alert the masses, such as the entity Ron Paul.

Ron Paul's New Patriot Organization

This Awareness indicates that this entity is attempting to set up an organization to spread the word far and wide over television and radio, to alert the masses of the plans being implemented by those who would promote this One World Government or New World Order, and if enough people awaken, it will become impossible for those forces to implement this enslavement of the masses under the One World Order.

This Awareness indicates that the activity in the Middle East is promoted in part to help bring about this New World Order and to impose certain of its principles and values on the people of earth. It is also closely linked to the presence of aliens on earth and their influence in human affairs. This information has already been touched upon in earlier readings.

QUESTION:

Speaking of the New World Order, H. H. sent in a copy of *Youth Action News*, out of Alexandria, Virginia. It's about pages called "The New World Order War Conspiracy," by B. Baker. I'll read just the opening paragraphs here.

In his September 11th speech to the U.S. Congress, President George Bush claimed that it was necessary to send hundreds of thousands of U.S. troops to Saudi Arabia, in order to defend the "NEW WORLD ORDER."

Few people who heard that speech understood that this "New World Order" concept means the transfer of vast amounts of America's wealth (derived from skyrocketing oil prices) to Saudi Arabia, which in turn, is depositing that wealth into Chase Manhattan Bank, Citicorp, and other big international banks that are allied with the Trilateral Commission. Under this sinister and complex conspiracy, these international banks will utilize their new Saudi deposits to make vast new loans to the Soviet Union.

Because it is politically impossible to send the tens of millions of U.S. taxpayer dollars DIRECTLY to the USSR (as foreign aid), George Bush and the other Trilateralists arranged a clever, indirect foreign aid scheme.

In order to create their NEW WORLD ORDER, the Trilateralists have long planned to deliberately create a serious political and economic crisis. Iraq, because of its massive newly discovered oil fields, became a threat to the interests of the bankers and at the same time the perfect target to set up as the so-called "cause" of the crisis.

Iraqi President Saddam Hussein has made repeated foreign policy blunders. It was relatively easy for the Trilateralists in the Bush Administration and the Soviet KGB (which has a strong influence on all levels of the Iraqi Government) to encourage and manipulate Saddam Hussein into invading Kuwait, so that invasion could then be used AS AN EXCUSE TO JUSTIFY WAR AGAINST IRAQ, SKYROCKETING OIL PRICES, AND THE ESTABLISHMENT OF A NEW WORLD ORDER.

It goes on and on, but would Awareness say that is basically a scenario?

* *Youth Action News*, PO Box 312, Alexandria, VA. 22313, Single copy: \$4.00.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. That also, a part of the reasoning used to encourage Iraq was the fact that Iraq was unable to pay its loans owed to banks due to its war with Iran; that Iran also is in deep debt to foreign banks, especially to Saudi Arabia and to Kuwait, and therefore, it is to Iran's interests that Kuwait not be reestablished as a country because Iraq owes vast amounts of money to Kuwait for loans paid to it in its war with Iran. This Awareness indicates that by having war with Iraq and the events that may follow, new alliances will be created to strengthen the hold on the oil claims.

This Awareness indicates that vast amounts of money from Saudi Arabia have already been transferred into the Rockefeller banks and also to banks in London owned by the Rothschilds. This Awareness indicates that the loan of such money to Russia will be helpful toward creating new alliances with Russia and Eastern Europe, strengthening these areas along with the European community and the United States to give a huge powerful alliance, controlled by Rockefeller money and Rothschild money, along with their connections the Middle East with the Saudi Arabians.

This Awareness indicates that the unknown element is that of Israel and this Awareness suggests the missing ingredient in this formula or the uncertainty in this formula is whether and how and if Israel will be a cooperative member in the New World Order, or will seek to carve out a place of its own or to find a way of controlling part of the New World

Order at the expense of the Rockefellers. This Awareness indicates this uncertainty creates an element that makes it difficult to foresee the outcome of this plan, even though it is well thought out on other levels.

This Awareness indicates the other area that is unknown relates to the role of the Arabs, for the Arabs themselves are not, as a collective group, as materialistic as are the rest of the people in other countries. Their religion means more to them than their money holdings, and whether or not they can be manipulated by banks and money from Western nations; this is a question that appears to be very much inclined to create or lead to a disappointment in terms of such manipulation.

It appears that the religion of these people will be much more important to them in the final analysis than the money or economics involved, and the New World Order, based on money and power, does not understand this kind of thinking, and therefore, may not be able to control this kind of thinking or the people of the Arab world.

This Awareness suggests that even as you saw the fall of Communism in 1989, this Awareness suggests that by the end of this decade, you may expect to see at least the beginnings of the fall of Capitalism; Capitalism being that in which the wealthy control the masses and the governments of the world. After this fall of Capitalism, true democracy may then begin to form anew.

DOES BUSH PLAN PERMANENT OCCUPATION OF MIDDLE EAST BY U.S. TROOPS?

(FOLLOW-UP QUESTION):

President Bush keeps increasing the force over there in the Middle East, and he's announced that there will be no rotating of American soldiers over there. Does Awareness see this as a plan to permanently keep large amounts of American troops over there indefinitely?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. The purpose in part having to do with the plans for the Middle East, in part keeping the European GI's from coming home, where they would require more jobs or be on unemployment and add to the unemployment of the nation, being thus an economic burden. The action of keeping the full army and military force deployed in the Middle East keeps all of those entities off the unemployment lines at home, or allows jobs to go to others so that they do not need to be on unemployment lines, and this then being funded by the need for national security, which entities tend to be willing to let their tax monies go to, serves a purpose of paying for these entities to have a job in the Middle East playing soldier.

This Awareness indicates that the tax burden for this may be more expensive than paying unemployment payments to the entities standing in line in the United States, but the masses are more willing to let their money be used for such purposes.

This Awareness indicates that this is another aspect of the game of war. It is always important to have lofty sounding reasons. In the past, the reasons are generally stated to promote freedom or preserve freedom as being reasons for war by the United States. In this instance, you are being told to prepare for war in order to preserve the New World

Order. The New World Order has not clearly been defined to most entities.

Most entities do not know what the New World Order is. The government has not even told you what it has in mind as a New World Order. This Awareness indicates that if entities truly understood what the New World Order implies, they would want the troops home to fight *against* the New World Order, for the New World Order will, if carried out according to plan, chip away at human rights and the rights guaranteed in the Constitution; this being done under the guise of 'national security,' and under laws passed that would appear to be anti-drug laws but which can be applied outside of the criminal area of drugs and related crimes, to include political applications, so that entities who do not agree can be arrested, incarcerated under drug laws or laws set up for drug purposes without even being told what they are charged with, and without having any evidence or proof of wrongdoing, and even without having charges brought against them, they may be incarcerated for up to five years.

This is an anticrime bill by Gingrich in which the laws would be presented as anti-crime, pertaining especially to drug laws, but which could be applied to anyone whom the police or government considers to be a threat to their total control so that even political disagreement could become a crime.

This Awareness indicates that entities do need to be aware of this bill, this anti-crime bill, and also become aware that it is part of the leverage that will be used in setting up and enforcing the New World Order, and that part of the New World Order enforcement will include executive orders of the President suspending parts of the Constitution, allowing actions to be taken that would otherwise be criminal and treasonous toward the citizens of the country.

This Awareness indicates that the letter by Ron Paul warns of some of these steps that can be enacted when this New World Order is activated. This Awareness suggests that entities should become aware of these things prior to the initiation of the programs, for it will be impossible to get information of this nature after this has begun. This Awareness suggests that the energizer has a copy of the Ron Paul newsletter with this information on the table near his typewriter; that this may be browsed for the pertinent material relating to these executive orders that would take place at the time of activation of the New World Order.

ED's Note: I had been wondering what happened to that Ron Paul information; I knew it was buried in one of my stacks, but which one? Awareness directed me right to it. Essentially, Ron Paul, ex Congressman who blew the whistle on the forthcoming "new money", and who publishes the Ron Paul newsletter, which CAC heartily recommends, has started a non-profit organization called National Endowment for Liberty, 1120 NASA Blvd., Suite 104, Houston, Texas, 77058; phone: (713) 333-1988. The main thrust of this new organization is to inform the public on the many ways our Constitutional rights are being eroded away, informing them by bypassing the establishment media and, via satellite, beam a long series of TV shows on these subjects to every cable TV system in the U.S., where they will be offered free of charge to cable viewers. Some of these programs focus on Bush's "New World Order" and explain, what Bush has yet to do, exactly what that ultimately means to entities. This is an extremely worthy cause promoted by a man we have all learned to trust. You can donate as much as you like to this

new organization, with a \$25 contribution being on the low end. I suggest you write or phone Ron Paul and ask for his free information on his new National Endowment for Liberty. All of this ties into what Awareness has been telling us for years, and like It said, if enough entities are informed, the entire hapless mess of possible enslavement and death can be avoided. We applaud Ron Paul for this noble effort!

THE MIDDLE EAST: A Last Minute Update

December 14, 1990

QUESTION:

We're in the process of putting together for our first mailing in January, the forecast for '91 Awareness gave in November. Is there any information Awareness has at this time that needs to be included, or should be included in that particular mailing?

COSMIC AWARENESS:

This Awareness indicates that there is a potential that the situation in the Middle East will not result in war in the area, but will threaten right up to the last, at which time the Iraqis would suddenly reverse their position, move out of Kuwait, appear to be conciliatory, unconditional, while in actuality having gained some concessions in private levels that are not made public. This in regard to certain of the Iraqi needs for sea-ports and for the use of disputed oil fields that lie beneath Kuwait and Iraqi borderlines.

This Awareness indicates that it is approximately a 50/50 chance of this settlement preventing the war scenario from erupting. In the event the war does take place, there will be much greater hardship for the human race in the next several years, as all would suffer great losses, in lives, in comfort, and economically, except for those who always gain in times of war: the super-wealthy, who sell their products for making war, and who end up with the spoils of war, controlling the victimized countries at the end of the wars.

This Awareness indicates that if the war occurs, entities can also expect to lose many of the long held freedoms that they take for granted as the Constitution becomes eroded, its rights being removed and martial law imposed. This Awareness indicates that entities may prefer to energize and work towards a peaceful solution in the Middle East, where a more equitable solution than war settles the problems.

This Awareness indicates that already there have been losses and these losses cannot be undone, even by vengeance. Therefore, war will add to the losses rather than taking away and restoring that which was lost. The war may give back the land, but it cannot return the lives of those who have already been slain. It cannot return the broken homes and separation of families or restore the happiness that has been taken.

Reconciliation through negotiation can bring about some solutions to the problems, but it cannot undo the damage that has already occurred. It can however, prevent further damage that would occur in the event of warfare, for that which has already occurred will be seen as miniscule in comparison to the damage that would follow warfare.

This Awareness suggests therefore, that negotiation is the less painful solution, where there is room and willingness for negotiation to lead to some kind of settlement that is relatively equitable, even if not a perfect solution, even if not an atonement for the losses and damage that has already occurred. The choices are: accept the damage that has occurred and seek a solution to prevent further damage, or to seek vengeance for the damage that has occurred and seek through a war a solution based on the destruction of the enemy.

The enemy being, of course, both sides, depending on which side one is on. The greater destruction and greater loss would follow those efforts toward war as a provider of solutions. This Awareness indicates there will be no clear-cut and absolute winner. There will be two losers, two or more losers in the event of war, with each claiming victory.

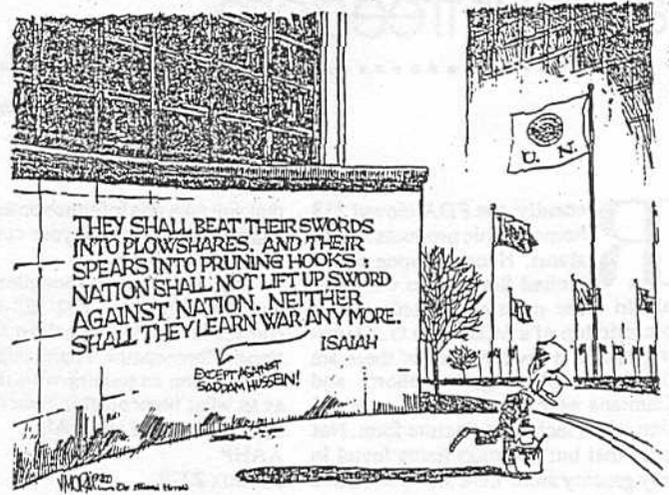

ED's Note:

I had planned to ask a similar question at the end of the December CAC readings, regarding any updates on current events, but after the 7th readings, on December 17th, a huge storm blew into our area, with 60 MPH winds and a bone-chilling Arctic front roaring in behind it. We were just getting ready to do the 8th of 12 readings, when a huge tree limb snapped off and hung up on the power lines in the street out front. There was an explosion as the limb shorted out the electricity and the transformer up the road blew apart. The night was lit with a terrible and magnificent light during those few seconds, then everything went dark. The cold front, which is still socked in, brought record-breaking lows (5 below zero for Olympia, with a wind-chill factor of 30 below), along with much snow and Arctic winds. There was no point in waiting this out to continue the readings, so we bundled Paul into his van and he took off for Oregon, just a few hours before the snow and ice shut down the interstate highway he was on. He got home safe and sound, just in time to wrap his water pipes and prepare for what could be the worst storm in 100 years. Hopefully, this will all melt one of these days and we will resume the monthly CAC readings, which will, of course, include current affair questions and updates on the Middle East

And of course, there will be questions on aliens. In the meantime, if you have any good questions, alien or otherwise, please send them in. Many thanks. (Avaton).

the FDA strikes again at your freedom

by Richard Hahnemann

Recently, the FDA moved 218 homeopathic products to a Rx status. Hence anyone in the United States who wishes to obtain these must do so only thru a prescription of a M.D. or D.O. Alarming as this is seventy four of these are botanical. Ginseng, Hawthorn, and Damiana were all moved to a prescription status including tincture form. Not only that but common items found in any grocery store were also placed in a prescription category. These include Asparagus, Cucumber, Strawberry, Papain and Niacin. (homeopathic)

Those of us in the homeopathic field are not sure how this will affect the herb and nutritional industry. Clearly this is a very serious threat to the freedom we all enjoy as to how we choose to take care of our bodies. The purpose of this letter is to inform those in the health food industry as well as the public that we all need to raise our voices and let the legislators know that we object to this blatant stripping of our rights and freedoms.

If the health food industry, herbal industry and homeopathic industry communicate with each other and inform the American public about this current threat, much could be accomplished toward preserving our freedoms. It is my sincerest wish that whatever area of the industry you are currently in

that you take this information seriously and update and inform your customers and/or subscribers.

For more information please contact Faye McCoy 1-602-323-1344 or contact the AAHP (American Association of Homeopathic Pharmacists) This organization negotiates with the FDA as to what homeopathic remedies can be manufactured and sold.

The U. S. Constitution, Article 1, Sect 8, authorizes only the Congress to have the power to make all laws.

But the politicians violate their oath of office by circumventing that oath by finding other means to establish power and control over the people.

One such method is by a simple process of using the FEDERAL REGISTER to create "the force of law".

This is how it works:

The Executive Branch, or any government agency under it can ("legislate law" by printing) their rulings, decisions, acts, and regulations in the FEDERAL REGISTER and state the time and date it is to become effective.

Unless it is challenged by the Congress or unless the Congress passes a law to circumvent these other acts, they have the force of law and can be enforced.

This included article is a classic example of how this insidious process works. In this case, the FDA prints its regulations and establishes the date it becomes effective and can be enforced.

Only a FLOOD OF MAIL to your Congressman and your 2 U. S. Senators will prevail in this case, or a court action to enjoin the FDA can stop it!

FDA Putting Squeeze On Natural Remedies

EXCLUSIVE TO THE SPOTLIGHT

By TOM VALENTINE

The ongoing program of the Food and Drug Administration (FDA) to remove hundreds of time-honored natural remedies from the over-the-counter (OTC) market has taken a giant, and final, step.

Once again the powerful agency has quietly published its intentions—in the *Federal Register* of May 16. This time many common and popular remedies are being made "illegal" for anyone to sell. Two years ago the FDA eliminated "stomach acid supplements" in the same way.

No longer are such standards as eucalyptus oil or peppermint oil to be allowed in any cold or sore throat remedies; no more boric acid or allantoin in dandruff remedies; no

more pepsin, pancreatin, papain or pancrelipase allowed as digestive aids.

If you want to try clove, coriander, eucalyptus oil, ginger, lemon oil, menthol or quinine ascorbate as a means to help quit smoking the ingredients will no longer be allowed.

Camphor, castor oil, iodine, menthol, ascorbic acid, acetic acid and calcium pantothenate are ingredients that will no longer be allowed in preparations for the removal of warts, and the list goes on.

"The agency [FDA] has determined that no substantive comments or additional data have been submitted to the OTC drug review to support any of the ingredients listed above as being generally recognized as safe and effective," the FDA stated in the *Federal Register*.

The proposed rule becomes effective 18 months from the date of the publication in the *Federal Register*. The end time is therefore September, 1991.

Even though the FDA has been reviewing what they call over-the-counter drugs since Congress gave them a mandate in 1972, the move to outlaw so many time-honored ingredients came as a shock to thousands of health-conscious Americans who use natural remedies.

A campaign to derail the FDA's plans for the very important digestive enzymes has already commenced. (See story, page 6)

Digestive enzymes, especially papain from the papaya, and pancreatin, an extract of animal pancreas, have long been vital ingredients in high-quality digestive aids.

The FDA has long sought to ban natural remedies, even foods that are used for medicinal purposes, to help the Establishment medical monopoly and the pharmaceutical industry tighten their grip on America's health dollars. If the proposed rule does indeed go into effect, they will to a large extent have succeeded.
