What is God ?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

WHAT IS GOD ?

(THE ILLUSION OF SEPARATENESS AND ITS EFFECTS IN OUR WORLD)

(Opening Message, C.A.C. General Reading)

COSMIC AWARENESS:

This Awareness indicates that the title of this discussion might well be termed, "What is God?"

This Awareness indicates that *It* wishes to discuss the concept of God in its full capacity, in terms of human interpretation as well as the universal understanding of the concept of God.

This Awareness indicates that the word "God" is related to the Hebrew letter Yod, which has to do with a cause, or First Cause. It is drawn in Hebrew to a shape similar to that of the sperm. It is likened unto a germ or cause of something.

This Awareness indicates that this Yod is considered in Hebrew philosophy to be a radiant, active power or force, in the name YAHWEH, or Yod He Vau Heh, YHVH, which has been interpreted 'Jehovah' in Greek. The YHVH, or Yod He Vau Heh letters, symbolizing fire, earth, air and water; that these are seen as the four pillars of creation. Fire, earth, air and water as the ancient elements, meaning ancient qualities, rather than atomic elements used in chemistry and physics. The atomic elements used in chemistry and physics today are speaking of quantities, or things, as compared to the ancient

elements, which spoke of qualities or actions. The actions of Yod He Vau Heh, or fire, air, water and earth, are symbolic of behavior, such as qualities that are found in individuals. Even within individuals, there can be the classification of fire, air, water, and earth,--mind, emotion, feeling and body.

This Awareness indicates that the ancients had an entire system of classifying the forms and substances under these four qualities, whereas modern science breaks things into substances, and gives each substance a title or name.

This Awareness indicates that in ancient terminology, the fire, air, water and earth relate to radiance as fire, vibration as air, water as magnetism, and earth symbolized stability or substance.

This Awareness indicates that all things have a certain degree of each. There is a certain degree of substance. There is a certain degree of radiance, there is a certain degree of magnetism, and these things have vibration. In the Oriental philosophies, the Yin and Yang represented the fire and water, or positive and negative. The combination would have been the earth, or substance, and the Yin and Yang would be in vibration.

This Awareness indicates the Oriental philosophy considered the two factors of positive and negative, or Yin and Yang, as being more important than the vibration or the stability, and therefore though more in terms of the two forces, rather than the four.

This Awareness indicates that other philosophies have dealt with trinities: the fire, air, water, and ignored the earth aspect. This, for example, in Tridocia and in certain religious concepts wherein the deities were listed as being positive, negative, and neutral; or Father, Son, and Holy Ghost, and so forth, in accordance with the various philosophies or religions involved. The trinity concept simply ignored the aspect of the fourth, which was the combination of the first three aspects or qualities.

The Word "God" is Unique to Earth,--Not a Universal Term

This Awareness indicates that apart from this ancient way of looking at things, and of defining the various gods by name and by qualities, this Awareness wishes entities to consider for a moment the concept that has been called "God"; that this term is unique to earth, and has been spread somewhat by entities who have communication with earth, and who communicate elsewhere in the galaxy and universe. It is likened unto a term; it is not universally used. The concept of God is not even universally used on earth. The Arabs, for example, generally think of Allah, and God is a Western term.

This Awareness suggests that, for the purpose of this discussion, *It* will use the term God to symbolize that idea or concept that might be held by any entity in any land, under any name, even on other planets, but *It* does wish to make clear that this term is not a universal term, it is more of a Western term, used in and developed from the ancient Greek and Hebrew sources, and originating in this light, rather than being a term that would be applied in other galaxies or planets or societies elsewhere. With that understanding, *It* will use this word as part of the terminology for your language, and your better recognition of the concepts being discussed.

This Awareness indicates that there are, of course, the many different ancient gods, or concepts of Supreme Being, that are found down through history, under a variety of names. There are the many tribes that have multiplicities of gods of different types. In some cases, the many gods of a tribe are designed to rule the various fields of interest to the tribe. There may be gods for corn, gods for weather, a god for fertility, a god for the protection of children, a god for nourishment, and so forth.

This Awareness indicates that essentially, this concept of God for these entities was what modern metaphysicians might think of as a kind of oversoul, or group collective consciousness, protecting or relating to that particular area or field of interest. Thus, the entity who had sheep might have a god of sheep, who looked out for the sheep as a shepherd; or perhaps the shepherd would have a kind of oversoul that assisted all shepherds in tending their flock; or perhaps the sheep might be thought of as having some invisible divine protector, which the shepherds could look to for assistance.

This Awareness indicates that this kind of thinking has to do with the consciousness of the group activity. If you will recall in previous discussions of cosmic metaphysics, this Awareness discussed the Universal Consciousness as breaking into fragments in which each fragment could become an energy or entity unto itself, having certain qualities that would process its own information in accordance with the energies that were given in that fragmented form of consciousness. Thus, for example, the shepherd watching the sheep becomes an entire system in its own right, an energy system, and if...if it exists in its own right, there is a certain kind of energy that is processed, between the shepherd and the sheep, that is unique as a kind of subsystem under the Universal Consciousness.

If energy is introduced to that subsystem in which some outside force is brought in, for example, a big spotlight, to keep track of the sheep at night, or a fenced-in

3. area, to make sure that the wolves don't get in, then the subsystem will process the new information that has been brought in to this system.

If further information is brought in, such as a wolf that can climb fences, then the subsystem must process that information also. In other words, every element that is added to something that is, alters the nature of *What Is*.

Think of Ancient Gods as "Forces"

This Awareness indicates that with this understanding, you may recognize that in ancient tribal activities, the tribes developed their subsystem, or tribal system, as a kind of group consciousness that would be altered as influences affected that group consciousness, and would incorporate those influences into the group consciousness, modifying the traditional consciousness to accommodate the new influence.

This Awareness indicates that this consciousness itself could be termed as a cause, or a god of that system, and in ancient times, many tribes had many gods for the many systems under which their tribes worked, and under which they related in their capacities to the world around them.

Therefore there were gods of the trees and forests, gods of the water, gods of rain, gods of thunder, gods of clouds, and the sun god and the various gods. If one were to substitute "force" for the word "god," then entities would not think it was so strange that ancients had many gods. Thus you can have the forest forces, the nature forces, the water forces, the air forces, the thunder forces, the sun forces, etc., and this will be quite suitable to a modern mind, but these entities called them gods, and the modern mind tends to recoil at such superstition.

This Awareness indicates that in the various philosophies that developed down through the ages, anything that was superior, or beyond the ability of man to manipulate, was perceived as greater than mankind. It became a special creation and entities considered it higher and of greater importance than themselves, and therefore gave it qualities associated with God or divinity.

Ancestor and Child Worship and Personification

This Awareness indicates that when death occurred in some tribes, they saw their ancestors still living elsewhere, and believed them to exist beyond death, and would worship them as having become gods, and thus ancestral worship developed in some areas.

This Awareness indicates that the mystery of children coming into existence on earth led some tribes to worship children, believing them to be gifts of god, and therefore very close to the divine. And concepts of divinity tended to grow and develop with anything that appeared to have mystery and a great power connected to it,--the power that was greater than that held by the individual, and many individuals were unable to match the powers of nature, the powers of life, the powers of death, and so forth. Therefore, these mysteries became for them gods, or they would assign the concept of a deity as being in charge of such events.

This Awareness indicates that it is a form of personification, just as one can personify the rain and speak of "The rain came and said I am going to drop water on your lands, so that your foods may grow." This action in literature, would be personification, giving rain personal qualities, the qualities of a person.

This Awareness indicates that there is a tendency for the mind to personify qualities and concepts just as one in creativity might create a character such as Mickey Mouse, giving the mouse human qualities.

This Awareness indicates that it is not so unusual that entities be colorful in their thinking, in their expression. It would be quite drab if they were not thus creative. This Awareness suggests however, that in some instances, entities become carried away, and insist that the personification in a literary sense should be taken literally.

That likewise, in the ancient times, as has been given, the earth has been visited by cultures from other planets, by cultures that are not human in the earthly sense, and these cultures often had greater powers than humans, and the humans were denied the right to understand any of the technologies held by these entities. Those who wish to know more may examine the Zechariah Sitchen books for a start.

The Influence of the Ancient Astronauts on Religions

This Awareness indicates that these entities were also, because of their superiority in many ways, considered to be gods, and legends were written about them, and handed down, and misinterpreted, and twisted and falsified, and passed from culture to culture, generation to generation, and used for mass manipulation and programming, and indoctrination of the masses, long after the original meaning of the writers was obscured and lost, leading to many of the various religions today that are based on ancient writings that do not really mean what is being taught in the churches and what is understood from the reading of these ancient writings, or their subsequent interpretations.

Thus entities have their religions, in which they use terms such as "God" without really knowing what they mean by the term, without even bothering to define the term. In many cases, if you ask for a definition, they cannot define it, they just simply want you to believe in God in the same way that they believe, and they believe that, in believing, all will be well. You ask them, "What do you mean when you say God?" They have a hard time explaining. Some believe God to be a white haired man sitting on a cloud, looking at them all the time, checking their behavior. Others believe it to be a spirit or force that is everywhere present, a pantheistic-type God. Others believe it is someone sitting in a wonderful place on a throne, and somehow having the ability to know what is in the heart of every human on earth, and all other planets in the galaxy and universe, and being very concerned about that, and ready to punish if there is anything impure.

This Awareness indicates that there are, of course, those who see the God as being powerful, and without compassion, and they want to emulate that God under some name. Many seeing the name as Satan, or some other entity, it does not matter what, but they are after the power of God. And many will attach themselves to the power of God in order to control others. And some will use the power of God under the name God or under the name Satan, or under some other name, in order to have a greater power for themselves.

There are some who see God as science; some who see God as the military; some who see God as the government. In any case, it is something greater than themselves,

4. to which they wish to attach themselves, for some purpose.

This Awareness indicates there are many types of gods in every culture, and many types of gods for every entity to choose from. When it is said, "Thou shalt have no other god before me," one must ask who is saying this? What is the nature of this god?

This Awareness indicates that there are many who have said such things, who have turned out to be real scoundrels, so one must ask *who* is speaking and making this demand.

This Awareness indicates that if one wishes to go beyond these levels of mundane thought in which entities tend to see the earth as the center of everything, and as being the source of all, and as having the texts and writings from ancient times as the beginning and end of all thought; if one wishes to go beyond this and think with the mind that God has given, one can begin to break out of the mold, the confines and limitations that have been placed on humans on earth, and begin to recognize a greater reality and other concepts of God.

We Can't ALL Have the Only RIGHT Religion

This Awareness indicates that it is not that the gods of earth are unsatisfactory; they may satisfy your needs. They just don't accommodate all of the universe, and as entities' consciousness expands to realize the vastness of the universe, the religion begins to shrink, like clothing worn by children, and you cannot fit into it anymore, no matter how hard you try. Therefore you wish to find new definitions, new clothing, a new religion, new understanding, that accommodates your new reality and expanded consciousness, that recognizes the vastness of the universe, and recognizes that the universe is not confined by the teachings that have prevailed on earth, by the confusions that have prevailed on earth, or by the culture that you happen to be born with on the earth, in accordance with your particular place of birth, whether Moslem, Buddhist, Protestant, Catholic, Jew or whatever. You cannot all have the *only* religion that is right, and yet you all feel that your religion is the only one that is right, and all of the others are wrong. And your basic reason for this is because you were born in a family that practiced that religion.

Occasionally one will switch from one religion to another and risk family ridicule, but for some reason, entities still cling to the traditional religions, or those that reflect in similar patterns the religion they were born with. But these religions do not consider the new realization of the vastness of the universe.

The Incredible Vastness of the Universe

This Awareness indicates that there are approximately 170 billion universes the size of this, and this universe contains trillions of stars, and trillions of planets with life on them.

This Awareness indicates that with this realization, you cannot honestly think that the Hebrew religion and the Old Testament, along with the New Testament, or the Buddhist or Mormon or the Jewish beliefs are, in fact, the absolute and *only* correct religion for all of these entities throughout this universe, on these trillions of planets, or the other 170 billion universes, with all of their trillions of planets.

This Awareness indicates that when it comes right down to actual thinking, you must begin to look at principles

and not programming. The principle of divinity deals with⁵ the Creator, the First Cause. Let that First Cause be known as God, the First Creator. And let that First Creator be understood as a force that may have some shape yet undefined, but need not necessarily be in the shape of a human being, an earthly human being, and it may not even be defined to the size of a human being. It may not be 6 foot 2 inches, or 5 foot 7 inches, may not have two eyes, or a skin tone like your own, or hair color similar to that of your own. It may not have a white beard at all. It may not even be human. What is so special about the shape of the human body that it should be superimposed on the divine Creator?

The Consciousness of the Creator

What is truly important is the consciousness of the Creator, for is it not the consciousness that creates? Is it not the consciousness that influences and affects its creation?

This Awareness suggests that you think in terms of a Creator that inhabits all of what is, and that this Creator is consciousness itself, and that it is a First Cause, a radiant energy,--fire; a vibration,--air; with magnetic influences when the radiations come in contact with themselves, as they move outward and reflect back on themselves, within the curvature of the universes, they come back striking upon themselves, slowing down, creating magnetic currents,--or water. And in continual movements of these waters, there becomes that which is static, or stability,--earth. And these stability factors in the creation, in the vibrations, may be at some levels, perceived as matter by that consciousness that is everywhere present throughout the universe.

And that consciousness is not necessarily confined in the highest frequencies. It can also be confined and move into those vortices wherein the swirling energies come together to create forms, and those forms can take on shapes, such as the shape of matter. And that energy, in passing through the universe, can go through warps, and that warp can act as a prism, to split vibrations, to split light, to split the radiation into different qualities, into fragmentations, and those fragmentations can go out and form their own unique subsystems, which is also conscious, and each of these various fragmentations can have its own form of consciousness, limited according to the degree of fragmentation and separation from the whole. And each one of these can be seen as a god. And as each fragmentation takes place it looks back at the point from which it came, and sees that as its Creator.

This Awareness indicates that these fragmentations can take on shapes, and they can join together in shapes, and the shapes joining shapes, such as molecules, can join together and form organs, and the organs joining together can form a union of organs, and create shapes and beings. And these beings can be galaxies, or these beings can be humans, or these beings can be animals, or these beings can be insects, birds, or other creatures or other types of humanoids. These beings can also be weather patterns and systems. They're all made of vibration, and they are held together by mental consciousness of some kind, some level of vibration frequency. And that consciousness that began the creation continues to vibrate throughout all creation,

throughout the universe, and it forms shapes which change and alter from time to time. And it sometimes forms a shape, then drops the shape, and leaves, and thus the shape dissolves as dead matter.

The Origin of the Forces of Darkness

This Awareness indicates that it is that consciousness that is God; it is that consciousness in the *highest sense* that is God. And that which is of the highest knows of the unity of all things; that all things come from Itself. And those consciousness fractures that spring off and become fragmented from the whole, and forget where they came from, and seek self-importance by claiming to be alone, and not part of the whole, not part of the *Law of One*; those fragmentations are the forces that become recognized or known as the Forces of Darkness. They are simply forces of ignorance, because they are ignoring the reality of the *Law of One*. They ignore the fact that they are part of the whole. They want to be separate, in order to be more important. They see themselves in separateness, and they follow the illusion of separateness to its ultimate end. In following the illusion of separateness, they find themselves much more important than being part of the group. And thus they, as in the story of the Prodigal Son, leave the father, leave the whole, leave the total, leave the *Law of One*, leave the Universal Consciousness, and strike out on their own, as though they were too important to be one of the group. And they wish to be separate, in order that they have greater power, and they stand back and look at the rest of the universe as objects, seeing it as an object of their consciousness, not seeing their consciousness as part of the total consciousness. They look upon that which is out there, rather than seeing, "My face is the same as that face, and all human faces, all faces of creation are facets of consciousness. All facets of consciousness are the reflection of God."

This Awareness indicates they are operating in darkness or ignorance. They are not simply evil, though their actions may create great harm, and may destroy and hurt not only others but themselves. And they may think, because they are separate and feel alone and suffer that they need greater power, in order to have greater control over their universal environment, or their home, or their friends, or their mates, or their children. And thus, by being separate, and feeling this personal power over the weaker, they think they have gained something. And many of these entities perceive that God is associated with power, and they do not understand why their lives are so miserable, when they are working so hard to get the power that they need to control everything in their lives the way it should be controlled. And they blame those who will not be controlled by them for all the frustration that they suffer. The child cries, and the man beats the child, or as recently, stuffs the child's head in the toilet until the child is dead.

This Awareness indicates that this man simply wanted to control his environment; that is all he wanted. Because he saw himself separate from the child, separate from the environment, and wanted his personal peace.

This Awareness indicates the illusion of separateness is that which is the cause of error. The illusion of separateness is the cause of sin. The illusion of separateness is the separation from God; it is the separation from all beings.

It is the illusion of power. One cannot truly hold power and be separate from the universal forces. One can only find true power by merging with the universe itself, for there is where all power lies. The power of consciousness, of being one with the Divine.

This Awareness indicates the Chinese have the term Tao, and they speak of moving with the Tao; this in terms of Buddhism. Moving with the Tao [pronounced 'Dow'], or moving with the life force energies of the moment, moving with the consciousness of the Divine as that which allows the entity to become one with God, in each moment, from moment to moment, merging with the highest and best that one can possibly conceive in his or her thinking, is the path of the Tao.

This Awareness indicates that it is the yoke, or yoga, or connection with the Universal Consciousness, and as entities respond to that which is highest and best from moment

6. to moment, it is such a simple path. One needs not study great religions or rules; one will *know* the highest and best in each moment, and will identify with and feel the presence of the Divine Consciousness acting through them, with them, each step, moment to moment.

This Awareness indicates that it does not matter which planet one is on, in which stellar system, in which galaxy, or even which universe one is on, for all universes are created from consciousness, and all reflect that highest vibration of consciousness as the creator of those universes. And any entity in any universe can merge with the highest and best at any moment, and be one with God.

This Awareness suggests the Interpreter be brought from trance.

THE WEB OF CONSPIRACY: (THE ALIEN PRESENCE)...Continued

MORE FLESH FOR THE SKELETON (Part 8)

HOW THE UFOs ARE POWERED

This Awareness wishes to describe briefly on a limited basis, the nature of the powering of the craft used by the aliens so as to clarify much of the questions and confusions that many entities have in regard to the capacity of these craft to move at high speeds, beyond what seems physically possible, according to your physics. This Awareness indicates that in a very brief sense, the craft does not rely on air current, as do propulsion and propeller type aircraft, which sucks in and press against air in order to move.

This Awareness indicates that such craft, even the rocket ships which you use for your spacecraft use this kind of propulsion, pressing against air in order to have some kind of propulsion force to lift the rocket, to move the rocket from place to place. The same with jets, and the same with propeller driven aircraft; that these craft in fact create a field-force around the craft so that the air pressure has no effect on the craft.

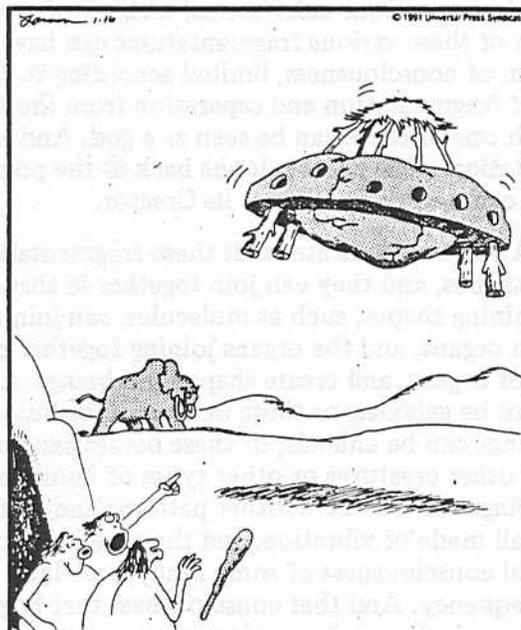

The field-force is created by the powering mechanism in a kind of electromagnetic shield or field that emanates around the craft and ionizes the atmosphere with negative ions and positive ions in different directions, with the craft being pulled in the direction of the positive ions. The greater the positive ions, the faster the craft moves in that direction. It does not matter if there is wind or air current involved at all because the ionization is not affected by the wind or air currents, in fact, the craft is simply creating its own environment within the electromagnetic field around it.

It is essentially flying inside that environment, and because of this, there is no back pressure, no friction, no inertia, and it can make sharp turns because the ionizing shifts the gravitational field as quickly as it turns and all things then revert to that direction. It is as though you were flying at a current of air or a wall of air, but

the air constantly is moved by the field that is carried in the ship, or with the ship, the field of energy that surrounds the ship.

This Awareness indicates that this is very similar to that mechanism that is used for walking through walls, departing the first field, so that the elements of the atom can pass through each other without interference, thus, the atoms of air, like the atoms of the wall or anything else, having very tiny parts and great space between those parts, though still in normal states, coming together in a kind of solid fashion, create the appearance and feel of solid matter, but under changes in the electromagnetic and ionization fields, these things simply pass through each other as sand passing through a screen, the glue being removed. Likewise, with the ship passing through air.

Primitive UFOs

This Awareness indicates that this is not a technical explanation, but it's a kind of layman's explanation to help entities to understand the difference in the kind of physics involved. This Awareness does not intend to get into disclosing secrets in a technical sense; that it is not appropriate nor necessary that entities gather such information through this Awareness. There are other sources if entities have that inclination and that background and if they have the right to that information. This Awareness indicates there are several patents relating to antigravitational craft, and there are some works that may be used to add to and to probe for further study.

This Awareness indicates that the small book, *Beyond Time and Space*,* as that which can give some insight into this new kind of physics; that from there entities can find other books to read. This Awareness indicates the entity Lazar also gave some hints into the technology of shifting from place to place wherein these craft use a kind of space-bending force in order to move from place to place.

DEYO'S "COSMIC CONSPIRACY" VERSION OF UFOs

In his book, *The Cosmic Conspiracy*, Stan Deyo devoted several chapters, along with illustrations and charts and quite a bit of detail on how UFOs are constructed and operated. Is that information essentially correct?

COSMIC AWARENESS:

There is much in that information that is valid. There is much that is also left out. This Awareness indicates it appears there may be some distortion in some of this information, not deliberate, but stemming from a lack of understanding and communication on his part, but in general, that too is a good source for information.

QUESTION:

One question that keeps coming in regarding this alien situation; Awareness may have answered this, but I'll ask it again. This one from J.D. "Why do the aliens come now that Cooper talks about to take over earth? Why not 100 or 200 years ago when there would have been absolutely no resistance? Did Christ foresee all of this fitting into the plan?"

COSMIC AWARENESS:

This Awareness indicates that these entities have been to this place many times. Their main interest in it at this time is due to their own planet and placement deteriorating, wherein the planets, several planets in their area, are becoming uninhabitable, their own planet becoming desert-like. This is due in part because of their star slowly turning to become a super nova; that the area essentially is heating up where they previously lived. These entities not tolerating heat well.

This Awareness indicates that the Reptoid interest as having more to do with a strategic placement of a base to help them have greater advantage and control of this sector of the galaxy. These entities being on a space conquest program. This Awareness indicates that the tendency for these entities to move at this particular

time is also influenced by the fact that the earth has developed certain technology that was seen as growing to become a threat. The use of atomic weapons is of grave concern to any in the galaxy as a planetary use of atomic weapons or nuclear weapons can have adverse effects on other planets and star systems.

The example of Maldek or Marduk for instance, the planet which resided between Mars and Jupiter being blown apart into the asteroid belt created extreme disturbances throughout this sector of the galaxy, especially within the solar system and this brought in the Nephilim, or the space aliens at that time. There also was the release of atomic weapons at the end of World War II which triggered a greater interest in this planet at that time. The buildup of nuclear arms on this planet was reason enough for aliens to seek domination over the planet to prevent these arms from being used.

Aliens Defused our Nuke Silos in Event of Use

This Awareness indicates that many of the nuclear weapons were essentially made harmless by aliens, these in the silos. They would simply, using their technology, put the people to sleep who were supposed to be in charge of a particular silo weapon and take out or disarm or otherwise defuse or make impotent the warhead of the weapon. They are very much opposed and afraid of nuclear weapons and the effect it could have on this planet, knowing that the planet itself is a prize that could be wasted, by miscalculations.

GREYS PUSHING FOR A FIRST NUCLEAR STRIKE?

(FOLLOW-UP QUESTION):

But wasn't it the Greys that were behind the push for a first nuclear strike some years back?

COSMIC AWARENESS:

This Awareness indicates that it appears they were pressing for the buildup of tension and a limited use of nuclear weapons as a way of setting the stage for greater control. This working through the Bolshevik/Zionist faction. This Awareness indicates that it was not ever intended to become a totally uncontrolled nuclear holocaust.

(FOLLOW-UP QUESTION):

Well, if it did, the Greys do have technology for decontaminating the radiation, do they not?

COSMIC AWARENESS:

This as in the affirmative; that they do have a capacity to help shorten considerably the lifespan of the radiation effects.

WHY SPEND ALL THAT MONEY IF U.S. ALREADY HAS SPACE TECHNOLOGY?

QUESTION:

Another commonly asked question is this one by P.C., of Los Angeles. "If the government has all of this advanced spaceship technology for example, why all of the expense and effort on the outmoded shuttle program?"

This Awareness indicates that a great deal of the money which is allocated publicly for these many expensive programs does not actually go into the program; that much of the money goes into other high-tech secret operations, the NFA being the branch that controls the greater amount of monetary budget as far as being allocated funds for secret operations and development. This Awareness indicates that many of these programs are used as excuses to extract large amounts of money for projects that in fact do not cost as much as is claimed.

This Awareness reminds you of the \$57 hammer of the Pentagon; that these monies and expenses were being given not simply for hammers, but they were ways of giving corporations monies to be used for other projects that were of a secret nature. This Awareness reminds you that many of these corporations are also included in the government/alien alliance.

HAS C.A.C. STAFF BEEN MONITORED BY ALIENS?

(The Importance of Not Making Pacts)

QUESTION:

Have we, Avaton and I, been monitored through contact with our abductee friend, and/or should we be concerned about such a possibility or any other aspect of contact with him?

COSMIC AWARENESS:

This Awareness indicates that this does not appear to be of any great concern. It does appear that a certain aloofness in that relationship be maintained; that you not develop any closer ties. The entity himself as having certain troubles in regard to personal identity. That it appears that your occasional visitation and brief communications in regard to eating at his restaurant or discussing things in a mundane and light manner are without great consequences, even if there were some monitoring occurring.

It does not appear the aliens have any kind of designs on you or Avaton because you have never had any pact with them, in any past-life relationship, and therefore are off-limits to them. There is, however, some concern in regard to the work you are doing and the fact that it is exposing information, which they seek to keep quiet. This does require a certain amount of discipline on your part; that you not feel too confident or too careless and negligent about your own safety.

This Awareness indicates that, for example, there are certain edges on occasion, edges of danger; that some of the questions asked and some of the information released touch the edge of danger. If this occurs too frequently, there can be hazards involved in this work that could become extremely troublesome. That generally, it would take place as something other than physical threats or physical abduction, but it could occur in ways that could be extremely harmful to you.

This Awareness indicates that therefore, it is important to be cautious, courageously cautious, wherein you have a certain daring and a certain degree of cautiousness. It is likened unto walking a tightrope. Just because your members wish to know something doesn't mean you should risk your life giving it to them. Let them think for themselves. This Awareness indicates that there are many

things that entities can figure out for themselves; that in many cases the skeptic wants others to think for them, and it is not always necessary to please your members to the degree that you take on the karma for finding out everything that satisfies or pleases others.

This Awareness indicates therefore, there will be from time to time a lack of forthcoming information on some questions, which may be interpreted by some of your membership that they have found an area that can't be answered or indicates a discrepancy or shows a fallacy or something to this effect. However, it does not necessarily mean such. It could be that there is something in the answer that is dangerous to be released. This Awareness indicates that you have already released far more than others could have released in the past, or under certain circumstances. Your readers being given information that others have died for in trying to pass or in trying to discover.

CAC Readers Must Do Something with the Information

This Awareness indicates that many of your readers have grown to expect too much from you. This Awareness indicates that it is important, occasionally, to let them know there are limits and that if they expect great daring from you that gives them such information to satisfy them, that they are also responsible for that information they receive, to do something with it. This Awareness indicates that if the entity has demanded more information in their attitude and continues to demand more information, they are essentially responsible to do something with the information they receive in order to keep a proper karmic balance.

If they did not ask for the information, it was given without their asking, they are not responsible to do anything with that information. This Awareness indicates that there have been some in your organization who demand information, then demand that somebody do something about the information they have received and expect you to be the one who takes charge and responsibility for the information that they have demanded.

This Awareness indicates that there are others who take the information and demand others in authority do something with the information they have received through your organization. 9. ever heard of MJ-12, perhaps even fewer than one in a thousand. It is likely that one in a half million or quarter of a million has heard of Nightmare Hall.

They themselves simply sit in the middle passing information and making demands in order to find some kind of comfort in the knowledge they have received, seeking importance in the knowing and then demanding security because the knowledge has stirred their security, has disconcerted them and they want their comfort back along with the knowledge they have received. That fortunately, these are few. Most of your members and readers absorb the information and either become more aware and accept that awareness and wait for inner guidance or wait for any demand placed on them or share that information with others, or simply hold the information, as vessels, adding to the general awareness of the mass-mind. This being a suitable action, or they may pass on the information to others so as to make society more aware.

This Awareness indicates that some entities cannot stand knowing something without doing something, and there is often a lesson involved, having to do with biding your time or knowing when to keep silent and when not to speak out, or when to release your information. At present entities can do well by passing information, especially to local, intelligent and stable people. It is not seen as being of great benefit to concern yourself with passing information to authorities who already know more than you have been given.

It is likened unto the entity who in receiving information about the Dulce base, Nightmare Hall, of the genetic experiments on the human types and creatures being created in grotesque forms, responded by saying: "The police should know about this!", and thinking that he should, or you should go down and tell your local police. It shows a total lack of perspective in proportion to the reality involved.

SHOULD THE ALIEN INFORMATION TAKE PRIORITY OVER OTHER INFO?

QUESTION:

This alien information, does Awareness suggest that which we have yet to publish take priority over the other information in relation to the possibility that the window could close, or does *It* see this window remaining open and the information could be sent out over a period of 6 months or year or so and be balanced with other information?

COSMIC AWARENESS:

This Awareness suggests that the most poignant, most precise, most important information be released first; that the other information may be seen as likened unto the flesh that fills out the skeleton; that there could become a time wherein this information would be stopped. There could be circumstances that would prevent the release of the information and this information indeed does need to be released. There are many releasing information, but in proportion at this time, less than one-percent of the population has any inkling of what is really going on, and at least 5 percent would know.

If 5 percent of the population knows what is happening then it is only a matter of time before the whole of the population will be made aware; that probably one person in a thousand or even fewer at this time has ever heard of the information released even by Cooper or the elements involved in such information. Probably one in a thousand has

Of course, this is changing and more and more are hearing of this. That such information could be given to tabloids and immediately upon publication, these figures would change enormously. A recent tabloid did include information relating to Cooper and to Lazar, and much of the population became aware, but to a very limited degree, since the article was only approximately one half page in length. The important thing is that entities share the information with others who have some curiosity, not to think that they can force C.A.C. to prove this information by bringing it to the authorities of their state or federal government or agencies, but to search for themselves to see if this is accurate.

What to do if you Doubt the Alien Information

If you have questions or doubts about the accuracy of this information, go out and become a researcher for yourself, or if you don't wish to do so, toss the paper in the garbage can and forget it. There are some entities who seem to think that if they hear something that offends them they should turn it over to an authority and make the authority check out the source to see if it's true. This Awareness indicates that *It* is giving you the sources, so that you can check them for yourself. If you do not like the information, close your ears, cease your publication, stop your subscription or don't bother to read it.

If you want to be aware, if you want knowledge, if you want truth, you have to be open to hearing even things you don't really like to hear. This Awareness indicates that this information isn't for everyone. It is for the courageous, it is for the strong, it is for the daring. It is for those who dare to be aware. It is not the responsibility of C.A.C. to check the validity of all of this information. It is simply passing along information. It is giving you the sources so that you can check the validity.

Be Careful of Authorities you Contact About Aliens

This Awareness indicates that in checking the validity, you don't go to the people who are unaware, and you don't check on a 'whistle-blower' by going to the one who's had the whistle blown against them. Thus, if Karen Silkwood blows the whistle on some nuclear plant or group of people who are causing some environmental hazards, you don't go and ask those in charge of the creation of the hazards whether Karen Silkwood has her facts straight. You don't ask the fox in the henhouse if it has seen a fox in the henhouse.

This Awareness indicates that unless entities understand the nature of the purpose of these communications, to give them enough information that they may search further for themselves if they so desire, and there have been many over the years who have desired, in fact, almost demanded information about UFOs; if the information is given and entities do not like the information, that is their problem. They simply can ignore the information. They do not have to attempt to rewrite the information.

If they do not like the story *War of the Worlds*, turn off your radio. Don't expect to be able to rewrite the script. There are many who have demanded and requested for over a decade that this Awareness give information relating to the UFO phenomena. Such information would have

likely resulted in the death of the individuals herein present had *It* given information previously. It is only recently that even the higher authorities have become aware of the activities of the aliens in regard to some of these atrocities, to the point that they have had enough dissension within their own ranks to debate whether to let the public know.

It is only recently that a few involved in the inner circle of knowers having knowledge about UFOs have had the courage to release information in spite of death threats, in spite of knowing that others have been killed for far less. This Awareness indicates that with this reality, with this opportunity, this window that has suddenly opened, you who have received the information from these entities and comments on this from this Awareness, you are likened unto an elite privileged few. The chances of having such information is so remote: less than one in a million or one in 50 million people at this time know what you know.

This Awareness suggests you not expect too much, and that you help in the dissemination of such information, but that you do it in a way that is appropriate; that you not endanger yourself, that you not endanger others in the way you disseminate the information.

DID GREYS PROGRAM THE SEX DRIVE INTO HUMANS TO ENSURE A BIGGER HARVEST OF FOOD FOR THE REPTOIDS?

(FOLLOW-UP QUESTION): Vikki.

In reference to the earlier information about the long-time influence the Greys have had on human beings, is it correct that humans' sex drive was programmed into the homo sapiens by the Greys in order to ensure a bigger harvest for the Reptoids when the time comes?

COSMIC AWARENESS:

This Awareness indicates the Greys did not, even though they claimed they did, did not create the human beings, or the homo sapiens. There are some references implying such, there are some claims by the Greys as to having done so. They did have some influence in some of the earlier evolutionary species of humans, but the more recent homo sapiens were the product of those beings of the human type, the more human type of beings. It is they who created the sex drive; this as referring to the human-type Divine or alien from whom the Pleiadeans, those from Sirius, and the earth humans were created; these being what would be termed the Els or Elohim. The Greys as having created other types of creatures.

This Awareness indicates that the sex drive of humans as that which was intended to create a high population. It was during the early history that the war between the Pleiadeans and the Greys became pronounced on this plane, which led to the loss of the earth being dominated by these Pleiadean deities, and left the Greys who were the underground deities from Orion, left them having greater influence on the earth plane.

The Council of Andromeda Could Determine Earth's Fate

This Awareness indicates there is, at this time, this in reference to a general time, a debate between the Greys and the Pleiadeans who are representing humans on earth in the Council of Andromeda regarding who has rightful claim to the earth. The Pleiadeans

arguing that human's remains found seven million years ago, the skeleton being that of a Pleiadean on the earth plane, gives them a claim to the earth. The Greys argue that they have ruled the earth for many thousands of years without interruption and also presently rule, and therefore have right and claim to earth.

This Awareness indicates that some of the Greys couldn't care less what the Council rules, and are prepared to take over by force. Others want it established by general agreement. The Reptoids are not interested in who wins the debate. They simply plan to take charge. Those Greys who object and don't care what the ruling is are referred to as the Orange Greys who are most inclined to rebel and revolt against the Reptoid invasion. That generally is the scenario.

This Awareness indicates in the event the Council does not rule in favor of the Pleiadeans, they are not likely to return in 1993. Otherwise, if they are still able to return in spite of their war and if they have what they consider the legal right to return, they may appear in 1993.

UFO CONFERENCES AND SEMINARS - ARE THESE OF ANY SIGNIFICANCE?

QUESTION:

We received a news release the other day. I'd like to read a little of this, and there's a question that comes up. It says:

"UFO Conference to Feature Investigators and Abductees. A dozen UFO researchers and abductees will tell of latest developments in ufology at the 4th annual international conference on the "UFO Experience" on Oct. 13-14, 1990 at the Holiday Inn, North Haven, CT. The conference will offer a comprehensive look at the UFO phenomenon. Eminent investigators from around the world will present their findings and opinions about what UFOs are, where they come from, why they are here, what the government knows about it and why it is covering it up.

Former Apollo astronaut Brian O'Leary, Ph.D., will speak on "UFOs and Inner/Outer Space." The author of *Exploring Inner and Outer Space*, Dr. O'Leary has called for a Congressional investigation of the possibility of government coverup of the UFO phenomenon. An astronomer and professor of space sciences and physics at Cornell, Princeton, Cal Tech, O'Leary has personally explored the UFO phenomenon and believes it deserves full-scale scientific research. He also believes that investigation of the Martian geological formation called "The Face on Mars" is needed because the formation may be evidence of extraterrestrial life.

Abductee Travis Walton of Arizona, author of *The Walton Experience*, will tell of his five-day abduction in 1975 by alien beings in a UFO. The aliens appear to be about four feet tall with high-domed, hairless heads, large catlike eyes and grayish, leathery skin, although one was taller and humanlike with Nordic features. Walton's action was witnessed by six people, who passed polygraph testing of their story. When Walton reappeared he was tested also and found to be telling the truth as he knew it. His story is being filmed by Hollywood as *Fire in the Sky*.

Abductee Ed Walters and his wife Frances of Gulf Breeze, Florida, will show slides of the UFOs which have appeared to them near their home since 1987. There are hundreds of other witnesses. Ed Walters' photos and videotapes have been analyzed by experts and pronounced authentic."

It goes on and on. There's a number of other people, including Fred Max, a hypnotist who works with abductees, a nuclear physicist, Stanton Friedman of Canada, Jacques Vallee, Ph.D., scientist and author of many UFO books, etc. But my question to Awareness is: These are some pretty impressive people that are meeting for this thing, and if these stories, or this information gets into the newspapers, won't this help considerably to alert the public to what is going on?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that there also have been gatherings in different parts of the nation; in Florida, and in Arizona and in other places already this year; that these generally draw some news attention; that there are also visitations by many of these entities who travel from city to city lecturing and it draws in terms of local news. The whole phenomena as that which is becoming more opened and the public is getting more information. Much of it however, from these entities is surface level. Some is speculation, some scrapes into the deeper levels.

It is difficult for many of these entities to really get into the heart of the matter. The value of having information such as released by Cooper, Bennewitz and Lazar and others like them is that these entities are giving you the inside look rather than having you go at it from outside trying to look in to the phenomena. You could spend \$150 attending the conference, spend three days listening to speakers and still not know even a tenth of what is available from these inside sources.

This Awareness indicates the Ed Walters phenomenon is simply a vivid account of an abduction. There have

11. been thousands of abductions, tens of thousands of abductions. You may be satisfied with the vividness and details of one abduction and you may be satisfied with the speculation, thinking process and analysis of the UFO phenomena as presented by some speakers, or the arguments to why the government should or shouldn't cover up the information, but these are surface level scratchings of the phenomena.

This does not mean you can't enjoy yourself at such a convention. It does not mean that you cannot find people to share your information with. That would be an excellent place to share information with entities. You should of course be aware there will be various agents present also.

This Awareness indicates that the Cooper information, the Bennewitz information, the Lazar information are as diamonds in the field of UFO information compared to semiprecious stones and glass cuttings that have been for so long part of the various conventions and discussions of a public nature. The Jason Bishop information also as likened unto diamond quality of information.

HOW JASON BISHOP AND OTHER UFO RESEARCHERS GET THEIR INFORMATION

FOLLOW-UP QUESTION:

How did Jason Bishop get all of that information?

COSMIC AWARENESS:

This Awareness indicates that this entity as having researched work from interviewing people who had been into these places; that Bennewitz lived in the general area; that the entity also had a device which he accidentally discovered in his electronic work which allowed him to pick up information from aliens. This being much like the telog device. The aliens would appear on his screen, superimposed over regular television shows. The entity was then able to further perfect the attunement process and gain their ability to monitor and to determine from the information received much of what was occurring.

This Awareness indicates the entity Bill English as having been one who was privileged to be inside the intelligence agencies long enough to get looks at documentation and to investigate certain aspects of the UFO field, as was Cooper. These entities having inside contact, and being able to verify each other's information and to research certain areas that they were assigned to. There are others who in the future will also come out with information that has long been hidden in connection with this which will still further verify the information from these entities.

This Awareness indicates that Lazar as one who was hand-picked by Teller, a member of the MJ-12 and father of the H-bomb, to work at Area 51 in Nevada, and Lazar being a good scientist but being somewhat young and naive, had a conscience, and his conscience got the best of him and he felt that people should know what was happening, and was so convinced and so conscientious, he was willing to risk his life to release the information.

ALIEN EMBASSIES ON EARTH STORY: ANY SUBSTANCE, OR JUST FANTASY?

There's an article being circulated through various UFO magazines and others, called *Alien Embassies on Earth*, by Diane Tessman. I'll read some of it now:

Are "alien embassies" opening around planet Earth? There is convincing evidence that this is exactly what is happening as the new decade of the 1990s gets underway.

The space intelligences who are visiting Earth and contacting its citizens, of course cannot staff these embassies directly because they would be immediately imprisoned by the governments of Earth. However, those humans with whom the aliens have had ongoing contact are working harder than ever to bring peace, justice, and unconditional love to Earth, while helping to stop the destruction of the planet itself. And it is these humans—star people and light workers—who are staffing the embassies.

There have also been reports of actual aliens appearing at these embassies on a regular basis; citizens around the globe have been able to meet them, face to face, in a friendly, relaxed way. This is certainly a new phase of alien contact with Earth and one which promises to continue and grow.

"I wandered into a healing in a Dublin hotel," reports Mrs. Carol McFarlane of Finglas, a suburb of Dublin, Ireland. "I hoped to get some ideas on how to help my mother who has a serious form of cancer. In fact, I did receive some wonderful instruction in healing and my mother is holding her own currently, whereas before, she was not. But I had no idea I'd meet an alien and be asked to visit his embassy on Earth. That's exactly what happened! I got to chatting with who I first thought was a child, then I thought he was a dwarf, when I looked at him across the room. Up close, it quickly dawned on me and—he told me psychically, explaining himself—that he was a space alien. I could feel how loving and enlightened he was and his conversation, in perfect English with a slight accent, was very much this way as well. We talked for about 15 minutes, though that's hard for me to guess because I was so enthralled I lost track of time. He asked me to visit his embassy—that was the word he used—in the countryside, and gave me the location. He explained that embassies of foreign nations are always in cities but that for his safety's sake, the permanent embassy for his planet was outside the city of Dublin but that this healing seminar was a temporary extension of the embassy for that weekend."

Carol's experience is similar to other reports which we have received from New York, San Francisco, Atlanta, Los Angeles, Detroit, London, Rome, Paris, Frankfurt, Amsterdam, and Melbourne. We are sure that there are many other cities worldwide from which we have yet to receive active reports. This is a wondrous development which has just begun to occur as the year 1990 gets underway.

In some cases, New Age bookstores and crystal shops are also embassies. If a person frequents these places and talks in depth with the staff, he may well find himself being asked to meet a very special friend shortly thereafter. Sheila of The Rising Moon Bookstore near Detroit, Michigan, explains, "Adelle and I own this little bookstore and it is a part of our star purpose, we fell. It is a dream come true. In addition to the first dream come true, we have also recently had another dream come true...a special friend who is not of this Earth has become available to us on a regular basis. The one thing she asks is that she be able to meet as many human beings as possible as long as we first decide that the individual human is non-violent and has a good attitude about meeting an alien. I know this sounds crazy, but this is exactly what is happening. Our friend became available to us in this endeavor on January 5, 1990, so it is strictly a phenomenon of the new decade."

The alien embassies are not yet in the huge conservative buildings where embassies of foreign nations are usually found. There is no alien flag which flies (in fact, our alien friends do not believe in flags as a nationalistic proclamation for themselves. They feel that flags are fine for Earth nations but they do not have the same need for such a proclamation). However, as 1990 dawns, the proof continues to mount up: alien embassies are indeed being established on Mother Earth!

My question is this: Is there any truth at all to this information, or is this, as I suspect, more of the Pollyanna type stuff being put out by so many?

COSMIC AWARENESS:

This Awareness indicates that this appears to be more of the what you term 'Pollyanna' type of information. It appears that it is related to the more fantasy phenomena associated with the so-called 'Star Children.' This being that which relates to the human phenomenon that this Awareness referred to at one point as the Wanderers, but which is more or less a commercialization of the work resulting or springing out of the book, *Star People*; that it is based somewhat on wishful thinking and somewhat on a psychic belief in the UFO aliens as being here to help humans. This does not appear to be related to the Pleiadeans, nor to the Greys. It appears rather to be more of a earth/human phenomena organization based on New Age concepts and wishful thinking; however, it could become organized sufficiently so that some alien force could take control of such and use it for purposes of an embassy or network interfacing with humans. At this time it does not appear this was organized in any way by aliens, not in the sense of extraterrestrial aliens; that the humans who see themselves as 'Star People' having been born of earth parents; that they may have had origins in previous lives from other planets, or other places.

This Awareness indicates, however, that this does not mean the network could not change at some future date to become a genuine bonafide network for alien interface with humans or even with implant humans.

*ED's Note: There's a mail order hustle that's been going on for some years that preys on the gullible egotist. You get a computerized letter, using your personal name, stating that you are a "star person" and one of a privileged few (they can tell by your sun sign!) and if you send them \$20 they will send you a written certificate that proves it. For an extra \$10 they will even send you a book on the subject of 'Star People'. This is all supposed to make you special from others, appealing to your spiritual snobbery. This is horse manure, pure and unadulterated. Everyone on earth is a 'star person' in a sense and if you have to pay money to be convinced of that fact, you haven't learned much in this lifetime. Over the years this editor has received some really remarkable bull in letters from people who used their purchased 'Star Person' handle as credentials for the 'channeling' they enclose for my benefit. Get real, you guys! That's not where it's at. Awareness has told you how to find out who you really are. Save your money!

THAT MOVIE: "THE THING"—BASED ON FACT?
(MORE ON MOVIES THAT REFLECT UFO PLOT)

QUESTION:

A question from J.C., in Pennsylvania. He writes: "Looking back to the middle 50's a movie came out called *The Thing*, about a space ship found in the Arctic with a frozen alien on board. To make a long story short, it was a plant-based life form. It drank mammal blood and didn't like us humans too much. The movie also stuck to my consciousness as having a hint of truth to it. The ring of truth has become the sound of a siren of reality. Question: was this film based on at the time, of known facts about plant-based aliens?"

COSMIC AWARENESS:

This as in the affirmative, as was *The Invasion of the Body Snatchers*. That this too relates to the aspect of the replica being reproduced. That it is a deviation of the science involved but does carry some hint and story line associated with the reproduction of duplicates. In fact there were many movies that have in some ways presented scenarios or plots that relate to the UFO phenomena, often based on real aspects of it.

This Awareness reminds you of the *Last Starfighter*, which showed the young man as playing the video game in which the entity is training to shoot down enemies and later becomes selected for intergalactic battle with Reptilians. That this as a hint as to a potential future for that generation. Also the movie, *Enemy Mine*, in which a human and a Reptilian type became friends after being shot down on a strange planet close to each other; that this was implying they could somehow reconcile differences.

This Awareness indicates that there also have been movies relating to underground people, including the movie *Time Machine*, in which those who lived underground ate those who lived above ground. The movie *THX-1136* describing an underground society of the future; that there have been numerous others, that most entities can think of without further prompting from this Awareness. This Awareness indicates the *Star Wars* epoch as

13. having its roots in legends relating to the constellation of Orion and the battles of that time; this in regard to the Unholy 6; that the blowing up of the space station as but a deviation of the destruction of Tyrantor, the planet which was the home base for those of Orion who sought to conquer other planets in the area,—this referring to the "Deathstar."

HOW COME WE DON'T FIND SPACE 'JUNK'
LEFT OVER FROM ANCIENT UFO VISITORS?

QUESTION:

A question from L.K. in Indiana. This type of question has come in numerous times. Awareness has commented on this, but perhaps there is a little more information. Larry writes: "A subject of interest would be for Awareness to comment on is what happened to the junk from the advanced beings and UFO pilots who have lived on the earth for eons of time? Why do archaeologists find only primitive tools and bones from subhumans and extinct animals? Have artifacts and advanced machinery been found and the news suppressed? I remember reading once that most museums have unidentifiable objects and equipment stored in their basements that can't be explained. Either the management is too embarrassed to display them, or some government agencies have told them to keep them out of sight."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that there have been occasional leaking and reports of such craft, such as the one found in an excavation in Italy of a craft that looked much like a modern-day jet. That generally, when these are destroyed or placed aside, they are destroyed underground; that most of these craft do not wear out in the way your craft wears out. The material is quite different. There are no moving parts, and therefore, they do not wear out in the frequency that is common to your craft and machines.

That of course, the society lives underground, and therefore its waste is generally very underground, and since they do not eat in the same manner as humans, they do not have the same kind of productivity, food packaging and disposal of such packaging or sewage, as do humans.

THAT "SPARK PLUG" FOUND IN A GEODE

(FOLLOW-UP QUESTION):

A similar question sent in by B.S. some years back. She writes: "In 1961, three rockhounds, one of them named Mikesell found a geode in the Cosgo mountains of California that was encrusted with fossil shells. When the geode was cut in half, instead of a cavity, the object contained a circular section of apparent ceramic material with a two millimeter shaft of bright metal in its center. Sliced in two, the object showed a hexagonal part, a porcelain or ceramic insulator with a central metallic shaft, and the remains of a corroded piece of metal with threads. The impression is that the object is man-made, and some kind of electrical device,—specifically, a sparkplug. However, geologists say the fossil shells encrusting the outer edge of the geode must have taken at least 500,000 years to attain its present form. Is it possible for Awareness to tell us the origins of this artifact and perhaps something about the culture that produced it? Is it actually what it appears

to be; is it one-half million years old and if it is, does the history of Homo sapiens on this planet have to be rewritten? Is the artifact of extra-terrestrial origin and if it is are there more items of this nature which have been discovered but have not been recognized for what they are? (This information came from the March 4th 1979 issue of Parade Magazine, Page 10).

COSMIC AWARENESS:

This Awareness indicates that this as having been from an alien origin; that there have been many artifacts left mostly buried by time and by earth coverings; that if you drop a spoon in the countryside, it is only a matter of one or two years at most that the spoon will be under the soil and within time it can be quite deep, the soil constantly covering and devouring anything on the surface. That given sufficient time and sufficient type of environment, these things can be encrusted or covered; that in a recent tabloid and also on CNN, the Chinese government announced the finding of a burial ground in the side of a cliff. It was not understood how they were able to bury these entities in the side of a cliff.

The cliff being almost straight up, not quite, and the bodies being buried back into the cliff, were discovered as having been there for several thousand years. Upon the excavation they discovered this one body with what appeared to be a kind of recording device or a Walkman-type device. This Awareness indicates this simply indicates the technology of space aliens, or human aliens of the past and their influence on the earth from ancient past, showing that technology in the past was much higher than humans ever imagined, at least until now.

It is as much like a primitive island in a remote area on earth wherein a civilization in the United States and Europe is thriving, but on the primitive island, the entities have never seen anything of that civilization, except occasionally seeing some strange bird going overhead that hums and flies in a straight line, and on occasion finds something on their island that is out of place with their reality. If at some point, one of these strange birds would land near their island and develop for them a more modern civilization, and then in their excavation they would discover that deep down in the earth they had found a pickaxe, dated long before the arrival of the civilization, they might wonder: "How could

14.

this be possible? We have only learned to make pickaxes in the last 50 years, yet here obviously is a pickaxe that dates back several hundred years."

This Awareness indicates the mystery would seem overwhelming to them viewed from their point of view. If on the other hand, they were part of the crew of the ship that helped bring civilization to the island, it would be quite simple. Obviously, before these entities were born, someone else had come and brought a pickaxe.

HOW ALIENS ARE CHANGING YOUR REALITY

(Closing Message):

This Awareness indicates that there is an entirely new world for entities to discover at this time. The world that entities have lived in, has been changed by the change of information they have. What was real is now unreal, but what would be considered unreal yesterday has now become a reality. The element of the equation of the presence of aliens on your earth, in your history, in the universe as creators and destroyers, alters the concepts which you have long lived with. Your realities have changed and will continue to change as you absorb and digest this information.

This Awareness indicates that at any time new information enters into a system and is processed, it is possible for entities to benefit by the way they perceive their new reality, or to suffer by the way they perceive their new reality. This Awareness suggests you look always at the new reality, from day to day, from moment to moment with a perception that brings you and your loved ones greater benefits and that you minimize fear and strengthen your faith in the future, and in yourselves, and in those things which are held dear to you.

(C.A.C. Member Discovers Spouse is a Robotoid)

QUESTION:

A question from XX, who writes: "When my husband Robert retired last year, I noticed what looked like scars with pink scar tissue behind his ears. Also, the space under his ears was more concave. His Personality also changed (for the better). This will sound like a strange question, but I'll ask it to help other women in a similar predicament. Is this man who is so similar yet different than my husband of many years, a double of my real husband? Is his body now inhabited by a walk-in? What is going on?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative; that it appears your husband was deeply involved in levels and projects of a very unusual nature; that this entity as being different. This Awareness refers you back to the messages of Dr. Beter and earlier messages from this Awareness in regard to the creation of duplicates and the transplanting of intelligence from one entity to another.

This Awareness suggests this as something you may prefer to keep to yourself as it would be of no benefit to pursue further concerns.

This Awareness indicates however, that you also need to be aware the scars behind the ears as implying the implants of monitors that can have some control over this entity. This Awareness suggests that names be stricken from this question, so that this entity can be identified.

(Follow-Up) Vikki:

For her own benefit, is it best for her to pretend to herself that this still is her husband and maintain as normal a relationship as possible?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative; that this entity may make the best of her relationship with this entity in accordance with what feels proper to her; that the entity actually is modified to be a better husband for her; that some of the more gentle qualities of this entity have been made stronger and the more harsh qualities have been removed, in this creation.

THE WILL STEGER EXPEDITION TO SOUTH POLE —WHAT WAS THE REAL REASON FOR THE TREK?

(More on the Hollow Earth)

QUESTION:

A Question from W.E., St. Paul, Mn. Actually there's several questions. I'll read his statement. "A lot of media attention is being given to the Will Steger expedition and his trek across Antarctica, especially in Minnesota, his home state. His international team will travel to the South Pole, transversing the continent in the process and will probably come home as heroes. Anyone who is familiar with the Awareness readings on the Hollow Earth, knows that there is a polar opening several hundred miles wide, and the South Pole is nothing but a point in space above the opening. Is this expedition a gigantic put-on to deter any suspicions that there is no South Pole or a polar opening leading to an inner world? Is our government afraid that too many may learn the truth too soon? How long do they expect to keep the truth from us? I believe that Steger will circumvent the polar opening, claiming to cross the South Pole, or does Awareness see the expedition set up by the government to explore the opening? I also believe the world population will be outraged once the truth is learned of the openings and how the world governments purposely withheld this information in the name of world security. Could Awareness please comment?"

COSMIC AWARENESS:

This Awareness indicates that the pole itself as a hypothetical point, but the magnetic pole is that which moves around the rim and entities in moving in that direction will find their compasses suggesting a kind of haywire activity, so that they cannot determine which way is South when they get into

15. the close vicinity of this line that tends to follow the rim for some distance, this magnetic line of energy.

This Awareness indicates that generally, the cover-up will continue in this regard for a number of years to come, and the entities involved in the trek, many of them being unaware of the opening, because it is not as though they could walk up to a hole; there is never that sense of walking up to a hole; they could walk and walk and would even walk into the hole without even knowing it if they were to walk in that direction because the curvature leading into the hole runs many miles and they would simply see themselves going over a hill, or over terrain for a long distance.

Light would alter, cloud-covering might change, but they would be more likely to assume it was natural phenomena than to realize it had to do with their entering into this hole, keeping in mind the opening as that which is hundreds of miles across. This Awareness indicates that indeed, this would be a considerable shock to the public were this to be officially released, that there is an opening into the inner part of the planet.

This Awareness indicates however, that in time, this information will be released, most likely after entities are told of similar hollow qualities in other planets. This Awareness indicates that much of this potential release of this information will also depend on which way things go in regard to the alien issue.

(Follow-Up Question):

The life-forms that Awareness has referred to in the past as existing in the so-called Hollow Earth, and all of those books and stories relating to this thing; these are different entities are they not, than the entities Awareness has been referring to as the aliens in New Mexico?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that these inner earth entities as being more highly evolved; that those of the subterranean bases are technologically evolved, but have certain lack of spiritual evolution and have evolved along different lines than humans, and of course those that have been referred to as Deros are even less human, more as subhuman types, being a kind of cross between humanoid and the aliens; more of a short squatty animalistic human type. This in reference to Deros.

(Follow-Up Question):

Are the Deros and these aliens referred to lately, going to get along together if the tunnels sort of run into one another?

COSMIC AWARENESS:

This Awareness indicates they do not like each other. They are very similar in some ways in terms of their lack of compassion, but they are what may be termed mortal enemies. They simply do not like each other; they see each other as threats to their own plans and there is some cooperation or recognition of boundaries, but there is considerable hostility between them.

A WORD ABOUT THE MESSAGES YOU RECEIVE

(AWARENESS ASKS: "WHERE DO YOU STAND?")

(Opening Message, C.A.C. General Reading)

October 7, 1990

COSMIC AWARENESS:

This Awareness wishes to express appreciation to those entities who have assisted C.A.C. financially and in other ways in getting the information regarding the UFO and alien situation out during this past year. This Awareness indicates that it has been a considerable expense in terms of the time and energy as well as money for this organization to accomplish this particular mission which has its own unique urgency at this time.

This Awareness indicates that there are some entities who appreciate and understand the urgencies and need for the support from the readership. There are many who do not understand this. *It* wishes to remind entities that organizations such as this in getting information out are the kind of organizations that can help preserve the comfort, freedom and lifestyle that most entities wish to maintain, and this Awareness suggests those who have not contributed toward this, should recognize and appreciate the efforts of those who have.

This Awareness indicates in a sense, others contributing are taking on some of your karma for you in making life easier by helping to spread information that is urgent in keeping your lifestyle free of those forces that would enslave you; that down through history this has always been the way things occur. There have always been those who shoulder or help to shoulder the responsibility of caring for others, and there are always those who are willing to let others shoulder such responsibility and who meanwhile, care for themselves.

It is suggested that each entity determine where you stand and whether indeed you are doing what you feel is right for you in this regard, and that you consider this to be a measure of karma owed you or karma you may owe to others, in accordance with your responsiveness to such urgencies. This Awareness suggests those who have contributed little should feel a great gratitude toward those who have contributed much.

Without the contributions of those who have taken on responsibilities for the organization, the information could not have been released. It is so likewise in regard to future conditions, for this organization. This Awareness essentially wishes to remind entities that they are making these messages possible by their contributions to the work.

This Awareness suggests that questions now be asked.

TAKE TIME TO SMELL THE ROSES!(Closing Message, C.A.C. General Reading)
Sept. 11, 1990

This Awareness indicates that enormous amounts of information have been channeled during the past nine months, regarding the alien technologies, regarding the events and potential events to come. Enormous information has been given prior to that regarding cosmic metaphysics and along with this, the expansion of consciousness into the realization of life throughout this universe and other universes. It is enough to cause one's head to sweat with confusion, with questions, with a desire to ask no more questions, with a desire to forget everything that has been asked.

This Awareness indicates that entities should not forget now and then, in spite of all that has been given recently in this past year, should not forget to take time to smell the roses, to walk along the path in nature, to enjoy an outing near the shore, to visit friends, to play with children, to call a loved one.

This Awareness indicates that it is important that entities maintain some contact with their mundane lives, in spite of all that has been given, which would literally spin the heads of entities around in 360 degrees or more.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization, for members and non members. All membership fees and donations are exempt from Federal income taxes. All dues and donations are used to spread the messages of Cosmic Awareness to others, particularly at this time, for humanity must be awakened. Your support and donations are much appreciated. We hope you will spread the word to others also. If you regularly make copies of this newsletter and send to others, please remind them that nothing is really "free" -- someone down the line is paying the bill.
