Helping People Become Aware

SPECIAL WORLD EVENTS REPORT: (The Middle East): Part 3.

THE PRELUDE TO WAR IN THE MIDDLE EAST

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'Indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

HOW TO BE PREPARED TO COPE IF IT SHOULD ALL COME DOWN...

THE PRELUDE TO WAR IN THE MIDDLE EAST: SOME BEHIND THE SCENE SCENARIOS

(PART 1): THE BOLSHEVIK CONNECTION

(Opening Message, C.A.C. General Reading) January 9, 1991

COSMIC AWARENESS:

This Awareness indicates that the events in the Middle East are moving quite rapidly in the direction of war. There is still a possibility of the avoiding of such, but the possibility is becoming but a narrow slice and the probability has increased greatly during the last month. This Awareness indicates that *It* wishes to address the possibility of war as that has now become a probability, and the effect that may result from such a war in the Middle East.

This Awareness indicates that *It* does not see a need in discussing the merits of the war at this time; that this has been thoroughly discussed in every home, on every network of television or radio, and further discussion of the merits is not seen as adding to the understanding, but *It* does wish to discuss implications and some of the facts that may need to be added to the facts already available. This Awareness indicates that a pause be allowed. (Short pause).

This Awareness indicates that there is a factor that is little known in regard to the situation in the Middle East, that your membership would understand this factor if they have been with you for some time and if they are familiar with the Dr. Beter material given in the early part of the 1980s decade. This is in regard to the Bolsheviks; that the Bolsheviks having been driven out of Russia, went to different places. Many went to the United States and to other countries and in some instances, some of these entities found these places not suitable for their interests.

A War Based on Power Blocs

That these particular Bolsheviks, seeking to regain the power that was lost in Russia, then moved to other places. This Awareness indicates that as *It* has suggested before, there are a certain number of these entities who settled in Iraq; that these entities are an influence behind Saddam Hussein and were in a great degree responsible for urging him to invade Kuwait in order to gain monetary bounty and the oil. It is their interest to gain power through greater money, and that was seen as a way of gaining quick power and of having this entity work as a kind of stooge for one, while thinking that he was simply using their advice for his own benefit.

This is understood by certain forces among the Rockefeller and Rothschild powers. You must understand that these are the powers that are controlling the nations, in the Western hemisphere especially as well as in Japan, and that these forces of power through the Rockefeller bloc and Rothschild bloc have a considerable interest in preventing the Bolsheviks from gaining any power whatsoever.

That Russia, likewise, does not want the Bolsheviks to gain any power and in the past few years the Zionists also have turned their backs on the Bolsheviks and in this sense, this is part of what has enraged the Bolsheviks against Israel. That it is essentially a war based on power blocs. Religion is being manipulated for its use in creating power blocs based on religion.

Terrorism and Germ Warfare Could Occur in U.S.

The Arabs and the Christian nations see each other increasingly as foes and this would play into the hands of those who would like to see a Holy War come out of this. This is unlikely however; that it is more likely that it will remain as a kind of war between power blocs based on the acquisition of or continued control of oil and money. This Awareness indicates that in the event war should break out after the 15th of January, which from this time is next week, *It* wishes to suggest to entities that there is the possibility and danger of terrorists acting around the world to harass and create violence in nations far away from the Middle East and this Awareness suggests to entities that unless you have a reason to be in public places, especially around crowded public places such as in large cities where there are crowds, *It* suggests that you avoid being in such places, especially if terrorist activities are commenced in any of the larger cities.

This Awareness indicates that it is a grim scenario if war does come. It does appear that it will come. It does appear that if it does not come at this time, that it will come within two years and would be even more devastating at that time because the Iraqi forces by that time would have gained greater power and would have gained more support from other Arab nations. It is seen that the predictions of Nostradamus could well come to be within two years if war came at that time.

This Awareness suggests that at this time, *It* does not see the power available to Iraq to wage a war that would lead into the conquest of Europe as predicted by Nostradamus; *It* does not see that the entire Arab world would back Iraq in such an action. This Awareness indicates that it appears the war would be of short duration. There are of course potentials for things to go awry, for blunders in terms of politics. It would appear that Israel, acting on its own in a bellicose manner could sever the Arab alliance and cause everything to go awry.

This Awareness indicates that the greater likelihood of the energies however, is that if war does come, Iraq will be hurt more than any other of the participants. It does appear that there will be some effort to stop short of totally destroying Iraq so that the country can continue to exist as an independent nation, but if there were total destruction of Iraq, other nations such as Turkey and Iran would rush in and begin to fight over possession of the territories and this could create even greater dangers in the area.

Therefore, it appears that there is no desire to totally destroy Iraq, but rather to break its will to rule the Arab world and to invade neighboring nations. That this is seen as the general overview and possible scenario of the Middle East crisis in terms of energies that are in motion and their strength and potentials. This Awareness indicates of course, when war breaks out like chaos, it is nearly impossible to ascertain which way forces will scatter. Therefore, *It* is not attempting to predict; *It* is suggesting that the likelihood, based on energies in place at this time, point to this scenario.

This Awareness indicates these energies could change at the last moment. Saddam Hussein might decide not to press his luck past the 15th and the Bolshevik advisors might also decide they are in too precarious a position to continue this madness. This Awareness suggests however, that the energies at this particular time do not suggest that the Iraqi president or his advisors have any intention of backing down.

WILL THE "NATIONAL EMERGENCY" POWERS BE INITIATED AS AN EXCUSE?

(FOLLOW-UP QUESTION):

In part of the William Cooper scenario, he said the plan was that it would be announced that terrorists had entered the United States with an atomic bomb or something of that nature, as I recall, and this would be used as an excuse to create the 'national emergency' that could bring down all of the bad news that we've been told about over the years that could accompany such a national emergency. Does Awareness see this new Arab terrorists threat as being a likely excuse that this will occur?

This Awareness indicates that this may be used. That already, even today on your news broadcasts, there have been discussions of calling for a national emergency by the President in order to extend the troop duration in the Middle East. This Awareness indicates that the troops were called for a period of 180 days; that the 180 days will, for many, be up within a month, and it would require calling new reserves to take their place, but the new reserves have not been trained and the argument is that these who have already been trained and who are already there would be effective, more effective than to bring in new troops from reserves that have not yet been trained and send these who have been trained home.

The argument is that there are two ways to do so, either by having Congress extend the duration of these reserves who are presently in the area, or by having the President declare a national emergency and impose the executive powers that can be used during national emergencies to keep the troops there. Of course, once a national emergency is called, all of the other executive powers can also be used. The national emergency essentially gives all power to the President. It is a way of creating a dictatorship based on national emergency.

This Awareness indicates that as to the degree of such dictatorship, how much is used, that will be up to the discretion of the President and those who obey and follow his dictates. It would be presumptuous to argue that such an action would lead to a totalitarian state or to mass arrests and abuse of citizens, but it is fact that such could be implemented and could occur under national emergency powers.

America Would Never be the Same Again

This Awareness indicates that those who have been members of your organization for some time may recall back issues or readings that discussed these executive orders and what can come from them, including the setting aside of the Constitution and the rights granted thereby for a duration determined by the President. It would effectively wipe out any Constitutional protections of freedom and the guarantees under the various amendments and articles of the Constitution.

The law of the land would change to be the law of rule by presidential decree. This Awareness indicates that it would be essentially the end of your nation as you have known it. This Awareness suggests that it is unlikely that it would ever again be returned to you as it now is, with the protections of the Constitution as law of the land. This Awareness indicates that entities could be rounded up and jailed if they appear to be a threat to the so-called New World Order, without trial and without representation.

This Awareness indicates that *It* does not say this will happen. *It* is suggesting this *could* happen once a national emergency is declared. This Awareness does not wish to frighten entities but to make them aware ahead of time so that if and when such occurs, they are not shocked and made incapable of adjusting. By going through the moves of a chess games before, by understanding what your chess partner may do in his or her next move, you are not quite so surprised if and when it happens.

That the action of being caught off guard creates intense stress for entities and makes for great difficulty. It makes it difficult for entities to survive or to cope in a meaningful

way when they are knocked off balance; that when one is knocked off balance, they are easily hypnotized by suggestion, thus they may be told certain things and will respond accordingly. But if entities have already prepared themselves for the danger of someone knocking them off balance when they are told something as a suggestion, they are already prepared and can cope logically, rather than from a confused state to accept or reject the suggestion.

That by being prepared for potential scenarios, one avoids being caught by hypnotic suggestions in times of confusion, but when an entity is confused, any suggestion given to them at that time is generally accepted without question.

HOW TO PROTECT A LOVED ONE WHO IS IN HARM'S WAY

QUESTION:

A question from L.I., Jacksonville, Florida, which is probably redundant, but there is a couple of questions here Awareness hasn't covered. She writes: "Dear Cosmic Awareness. I'm very concerned about what's happening in the Middle East. Our only beloved son was just activated to his reserve unit, and will be deployed to Saudi Arabia in January. Although he's in a hospital unit and not on the front line, I am very concerned for his safety as well as the safety of all our young men and women. It seems to me Bush *wants* war and is doing everything he can to get war started. Is he representing the Illuminati and oil companies in this attitude? Is there a plot to kill off our young soldiers over there who are so patriotic so they won't have to deal with them in the states when they try to force their One World Order on us? If so, how can we stop it? What can I do personally to try to protect my son from where I am?"

How to Wrap an Entity in White Light

This Awareness indicates that the best protection that you can give from where you are at this time is through your prayers and through wrapping White Light around your son on a regular basis. This Awareness suggests that *It* will go through the process of wrapping White Light. That it is very important to realize the power of this action; that in wrapping White Light around an entity it is providing them with a spiritual protection.

This Awareness indicates that those who have done this for some time will realize that it does in fact provide a great protection in terms of protecting the entity from physical or psychic or spiritual harm. This Awareness indicates that you begin your visualization of wrapping White Light with the concept of spheres or circles resembling hoola-hoops. The hoola-hoop of Light may begin at the front of the entity, extending down under the feet, coming up around the back and over the head of the entity and touching again at the front, thus creating a kind of White Light hoola-hoop around the entity from front to rear.

This Awareness indicates that you then create a second hoola-hoop of Light beginning at the top, above the head going down over the right shoulder and up along the left side, under the feet and up along the left side and back over the head connecting. You then create a third hoola-hoop of Light, beginning in front, in front of the navel, approximately two or three feet, circling around toward the right, then behind, and over to the left side and back to the front, creating a third hoola-hoop of White Light.

5. This Awareness suggests you then take the first hoola-hoop of Light, which goes under the feet from the front, under the feet up behind the back and over the head; you take this as if grabbing the hoola-hoop from the front and the back, and turn it to the right so the back goes toward the left and the front goes toward the right, making one full circle or two half-circles. You then make another full circle or four half-circles, and then another. In other words, you spin that hoola-hoop three times.

This Awareness suggests that *It* left one step out that needs to be mentioned here. On each of these spheres, or the hoola-hoop circles, you are to make each of them three times around. Thus, the first goes under the feet, up the back, over the head and to the front, three different times to reinforce that, or three times. And you then do the same with the second and third, and likewise, when it comes time to spin the hoola-hoop, making six half-turns or three full turns, that action is again a repetition of three rings around the body.

That these, this first ring then creates two spheres as it spins around the body, leaving a trail of White Light behind it as it goes. You do that again with the second hoola-hoop of Light, the one that extends out toward the sides of the body, giving it six half-turns or three full turns, so that it creates a sphere or a ball of White Light as it spins, three times around. That you then do the same with that which lies horizontal to the ground and let it go down under the feet and over the head as one-half turn, leaving a trail of Light so as to create a half-sphere, then bring it up around the back and up again over the head, and to the front, creating a full sphere of Light, doing this three times around.

Thus you have protection nine layers deep full of spheres that surround the body. These are spheres of Light. It is likened unto encasing the body in nine layers of White Light in a bubble or sphere. That by doing this, the first time you do it may see somewhat complicated and may be very time-consuming, taking perhaps five or ten minutes of visualization. Gradually, as it is repeated periodically, either daily, weekly, or perhaps every ten days, it becomes easier and easier with each action of wrapping the entity in White Light.

How the Power of the White Light Protects

This Awareness indicates that this protection affords a psychological protection, physical protection and emotional protection as well as spiritual protection. That by doing this, you are using your own psychic energy, your own mental and spiritual power to protect the entity by calling upon the power of the White Light. This Awareness indicates the power of the White Light represents the fourth power of God: resonating electromagnetic energy, and that energy is a vibratory force that then gives the entity not only an aura of protection, but gives the entity also psychic protection so that he or she would be more likely to avoid dangerous areas or to go to areas that are safe rather than to be drawn into an area of danger.

If the entity is forced into an area of danger, he or she would still have greater protection because of the White Light. This Awareness indicates there is a certain strengthening of the aura of the entity that occurs. When the aura of an entity is weakened, the entity is more vulnerable to not only psychic attacks, but also physical attacks. That if you will recall times in your life when you felt weakened and during such times you were more accident prone, or had something negative happen to you: it is because your

aura was distorted or broken or weakened by some force.⁶

Why you don't Like Barking Dogs

This Awareness indicates that it is important to constantly strengthen your aura, and the easiest way to strengthen your aura is by wrapping yourself in White Light, or by wrapping your friend or loved one in White Light, you can help to protect them also. The reason entities do not like having dogs bark at them, more than the mere embarrassment of so much attention, is that the dog's bark disrupts the entity's aura and causes a disturbance and imbalance in the aura. That is also a reason for entities to avoid a barking dog.

This Awareness indicates that on a battle field, bombs exploding nearby or people shouting angrily can also have a similar disruptive effect on the aura, thus it is important if the entity does not have time to repair and strengthen his or her aura, it is important to have someone who cares to wrap the entity in White Light, thus keeping the aura strong.

As time goes by you will be able to effect the action of wrapping one in White Light much more quickly. The mind moves slowly on the first effort, but gradually picks up speed and it becomes a very rapid action. It is just as effective, but you do not want to leave holes. Your imaging must be total and complete to be most effective.

WILL WHITE LIGHT PROTECT AGAINST GERM WARFARE ?

(FOLLOW-UP QUESTION):

There are stories out that Saddam Hussein, if Bush actually starts the war, will unleash biological warfare in the form of anthrax germs and God only knows what, which are supposed to kill off men in five days in a very horrible way. Would this White Light on an entity prevent germs like that from invading him?

COSMIC AWARENESS:

This Awareness indicates it can strengthen the aura, strengthen the immune system and strengthen the entity's ability to fight off disease of any type; that it might not always be effective on every disease, but it can strengthen the entity's resistance to such disease. This Awareness indicates that the troops in the Middle East are being vaccinated for these germs so as to be prepared in the event such germ warfare is unleashed.

The vaccination would be more effective than the White Light in this case. The White Light can strengthen the entity's immunity but if not totally immune to the disease as with vaccination, the entity might still succumb to the disease.

PROTECTING A GROUP WITH WHITE LIGHT

(Follow Up Question: Vikki):

How effective would the White Light be for considering a group rather than just one at a time?

COSMIC AWARENESS:

This Awareness indicates that this can be quite effective also; that in wrapping White Light around a group you can also have what might be termed a surrogate or substitute representing the group by one entity or one symbol. For example, you might select the symbol of a group, such as the patch worn by the unit, and wrap that patch with White Light. You might even select the flag as a symbol and wrap the flag in White Light in a similar manner as wrapping individuals.

Of course, when wrapping a group with White Light, you are protecting the group, not every single individual within the group. The group then would survive, the group then would thrive, but there might be casualties among the group, even though in the final outcome the group would survive. That likewise, an entity who is ill and suffering from some illness, being wrapped in White Light would have greater chance of survival even though many of the cells within the entity might die off from the illness.

This Awareness indicates that if you are concerned about an individual, wrap the individual in White Light. If you are concerned about the group, then wrap the group in White Light. The individual wrapped in White Light will stand a better chance individually, than if his unit is wrapped in White Light.

ED's Note: Since the war began, Vikki has inflated a large clear white balloon and set it in a pan of water near the CAC Healing Wednesday globe, which is the focus for the visualization of energy coming in from those of you who have requested healings, which are in the basket suspended below the globe. Into this new balloon, Vikki has visualized that this encloses all the members of CAC and readers of this material, and she then visualizes this balloon being showered with White Light and it begins to glow with ever and ever brighter White Light. She does this in her meditations and before falling asleep. It may be a good idea that if you have loved ones in the Middle East who are threatened by the war, that you have a backup protection and send Vikki the name of the loved one. She can then put the name under the Healing Wednesday energies as well as visualizing the entity in this protective balloon of White Light. It certainly can't do any harm, and I suggest you all try the balloon thing, particularly if you have a difficult time holding a visualization.

MR. PRESIDENT, WILL A GULF WAR BE LIKE VIET NAM?

No.

WHY NOT ?

BECAUSE I'M SURE IT WON'T.

WHY ARE YOU SURE?

BECAUSE I'M ABSOLUTELY CERTAIN.

WHY ARE YOU ABSOLUTELY CERTAIN?

BECAUSE I'M CONVINCED!

BUT YOU MUST HAVE SOME REAL REASON...

WELL, SURE...

BUT YOU KNOW, I HATE TO GET HYPOTHETICAL.

IS DR. BETER'S SPIRIT COMMUNICATING TODAY THROUGH PSYCHIC CHANNELS?

QUESTION: (MORE ON THE "PHOENIX JOURNAL")

N.M. in Calgary, Alberta, sent in a couple of pages from some kind of publication called *Kingdom Voice*, dated December, 1990. I'd like to read a little of this and ask Awareness to comment. It covers several areas, but the main one...I should probably read a little of this to lead into it. He says, "Master Rex told us on October, 26, 1990, 'Secretly our government is keeping from the public's eyes the facts that Communism is at the doorsteps in the coastal and border areas of this nation; let alone other nations who also are experiencing the same type of tactics by the Communist upon their shorelines. The monopoly by the Zionists, the Bolsheviks, the Mafia, the Rockefellers, the 'Giants of the Underworld,' are manipulating the monetary fields, especially, and the economic fields, to serve their purpose in their worldwide government control.' Did you know that the disease of Bolshevism, which plagued Russia in 1917, is now plaguing our own government, State Department and nation? Many of the so-called Russian Jewish immigrants streaming into our country by the tens of thousands are actually hard-line Communists. Many are given top jobs in our government. This has been going on for many years and all was witnessed by the son-in-law of President Franklin D. Roosevelt, Col. Curtis Dall, when he lived in the White House (see his book, "F.D.R.: My Exploited Father-In-Law"). He exposed also that top men in the White House, after WW II, shipped plane loads of our money printing plates, complete with paper and ink, to Soviet Russia! Now we find out from recent news reports, that Harry Hopkins, one of President FDR's top men, was an "unwitting" agent for the Russian KGB who worked side by side with the spy Alger Hiss to aid Joseph Stalin and Soviet Russia--against the interest of the United States!

For those who remember Dr. Peter D. Beter, he was a government "insider" with many contacts in Washington. He sought to expose what was really going on in his "Audio Letter" cassette tapes which he sent out all over the nation. He supposedly died of a massive heart attack, but, Yahweh says he was murdered! Dr. Beter was a good friend of Dr. Joseph Jeffers-Yahoshua and was on his way to visit with him when he was stricken. However, we are happy to say that he was not silenced! Yahweh has revealed to us that the spirit of Dr. Beter is now channeling his thoughts and facts through various publications, including "Phoenix Journal Express." Now Dr. Beter can go anywhere in Washington and see what's going on--even behind closed doors and in closets.

Rex told us further about Dr. Beter, (Oct. 26, 1990): "You have asked a question regarding the stories in the newspaper ('Phoenix Journal Express'), about any connection with the spirit of Dr. Beter. Well, may we now clarify that particular statement? He is channeling in accordingly. His premature death gives him the authority by the Most High to commute his thoughts to those channels who are open, who are intelligent and who are in a state physically to give to the public information that is very vital. It is a fulfilled prophetic incident which Joseph-Yahoshua gave many, many years ago."

7. I'd like to ask Awareness, is that information particularly about Dr. Beter, valid?

ED's Note: There was no address of the publication just quoted that this information was in, although I have seen this Yahweh stuff from Joseph Jeffers in years past. (I thought he had died). It is rather strange material and cult-like.

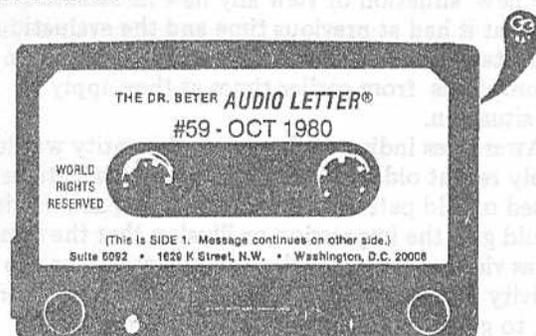

COSMIC AWARENESS:

This Awareness indicates that it appears that there have been some efforts by certain entities in the physical to communicate or contact the spirit of Dr. Beter. This Awareness indicates that Dr. Beter himself in his higher essences has moved on into higher frequencies that are not related to this plane and is preparing for further incarnations in other capacities, but there are certain frequencies relating to the physical Dr. Beter that are still present on this plane which have been contacted in the sense of the spiritualistic contacts and these frequencies or vibrations yield information.

This Awareness reminds you that information and energy go hand in hand; that energy is information, and carries information. Thus, in contacting astral energies or remnants of Dr. Beter on this plane, entities can tap into those astral energies and receive some information. The information is not necessarily of the highest, nor always as accurate as were Dr. Beter's own Audio Tapes, partly because Dr. Beter received his information not from channeling or from inner knowing, but from British intelligence and other sources.

This Awareness indicates that he received information from insiders, including information from the Rockefeller family itself; that it was this information that he gave forth in his audio tapes and was based on knowledge rather than intuition; that the information that is now being presented as coming from Dr. Beter or his spirit, is less accurate and lacks the depth and substance of the audio tapes information, but it still has some interesting points of view to be considered, not necessarily to be relied upon.

This Awareness indicates in regard to the *Phoenix Journal*, the information coming through this outlet tends to be a combination or amalgamation of information released by *The Spotlight*, by Dr. Beter and Mae Brussel and possibly some other sources, as the channeling persons own thoughts and intuitions; that the entity tends to bring together ideas and present them as channeled information, thus giving these channeled information a certain degree of depth and relevance because of the sources from which they are drawn and the depth and relevance provided by those sources.

A WORD ABOUT THE "PHOENIX JOURNAL"

ED's Note: A number of our readers subscribe to Phoenix Journal and are concerned about the scary information they get from it. I once plugged it because of one item that made sense in regard to the Middle East, but after subscribing myself, I found, alas, that the majority of the information was 'old hat' stuff taken from Dr. Beter, etc. (also CAC), and made to appear up to date. (One of the latest revelations is that the Russians and Chinese are hiding behind our borders in Canada and Mexico, waiting till our defenses are thrown into the Middle East war, then they will invade en masse the U.S. and take it over. (Paranoid bullshit). I have asked Awareness questions about this outfit and will publish it later on. Essentially, Awareness said not to take the information seriously; the publication is designed primarily to make money in a hurry. (My subscription which allegedly was for a year, was all used up in less than two months, because they mail so often). Save your money and don't believe everything you read in that publication. If you do, you'll go gunny-bags! Stark raving mad!

HOW ASTRAL SHELLS CAN GIVE INFORMATION (Tuning into Moses and Abraham Lincoln)

(FOLLOW-UP QUESTION):

In the case of these entities getting information from Dr. Beter's astral shell or something similar, it seems to me that any information that would be imbedded in that aspect would be information that went into his mind while he was alive, and it does not seem very probable that it could come up with new information as applied in this letter, that Dr. Beter was somehow picking up all this new information, intrigues, etc. and it's being channeled through his astral shell. Is this....

COSMIC AWARENESS:

This Awareness indicates that the astral shell is that which is not a static thing but has a certain ongoing energy or life of its own. If an entity were to be programmed as a child with a certain amount of information and certain knowledge was programmed into the child, and that child were then to go into a coma for 20 years and awaken 20 years later and look around at the world, the information that the entity gathered as a child would be the only information the entity would have, yet it would be confronted by new situations.

The option available for that entity, the only option, would be to evaluate the new information in light of the childhood knowledge. Thus, the entity would choose from childhood knowledge and would evaluate the new information available to it based on the childhood knowledge that it had collected which is the only knowledge that it has. That likewise, an astral shell, having certain information at the time of an entity's death, does not simply reiterate the old information only, but would view any new situation or view any new information in light of what it had at previous time and the evaluation that might take place would be an evaluation based on the presumptions from earlier times as they apply to the new situation.

This Awareness indicates therefore, the entity would not simply repeat old stuff only but would evaluate new stuff based on old patterns and thoughts and assumptions. This would give the impression or illusion that the same entity was viewing new situations. There would be the connectivity between the old thinking or old ideas, and the new, to give the impression that it was the same entity with a new evaluation of the present situation.

It is likened unto a psychic who might tune into the energies of Moses to evaluate the present status of the Jews; that it is quite possible if one puts one's focus on the concept of Moses and the energies of Moses, to speak as Moses to the modern Jew, and to carry the frequencies and vibrations of Moses in those messages to the modern Jew. That the same can be said for tuning into, for example, Abraham Lincoln, to speak to the people today.

One can tune in to the frequencies of Abraham Lincoln simply by meditating on the entity and while holding those frequencies and holding that meditation answer questions that might be asked of Lincoln, even though the questions might pertain to things today. Thus entities can channel from departed spirits in a way that gives the impression that the departed spirit is speaking through the medium.

WILL RUSSIAN BOLSHEVIKS STREAMING INTO U.S. STILL TRY TO STIR UP TROUBLE?

(FOLLOW-UP QUESTION):

There's quite a few magazines, newsletters and books still being put out about the "current" threat of Communism, like this entity just now who wrote about the "disease of Bolshevism which plagued Russia in 1917, is now plaguing our own government," and so on. This is information that corresponds with some information Awareness gave some years back, where it says now that Russian/Jewish immigrants streaming into our country today by the tens of thousands are actually hard-line Communists. Is this still a fact that they are hard-line Communists, or are they going to become democratized once they're working? He says many are given top government jobs here in the United States.

COSMIC AWARENESS:

This Awareness indicates that this is a factor; that the term 'Communism' as that which may only be loosely applied, for these entities still have a certain loyalty to the concepts by which they were raised, but their true interest is not so much in the promotion of Communism as in the promotion of their own power. They seek to rule under any name regardless of whether it's Communism or Capitalism, or something else. This Awareness indicates that having once held power, they want it back.

This Awareness indicates that there are some considerable number of these entities in mediocre positions and they are rather ambitious and if possible, would create situations whereby they could regain greater power over countries so as to again rule. They would not likely try to establish their rulership under the name of Communism because Communism would not be acceptable to the masses, but they would like to gain greater power and will probably make such an effort within the country they reside, while abiding by its rules.

This Awareness indicates that thus, those in Canada will abide by the Canadian rules, those in the United States will abide by the United States rules, as long as those rules do not interfere with their ambitions. They may break rules if it is more convenient for them and allows them to increase their status; that it is unlikely they would seek to promote Communism unless Communism suddenly became a very popular thing.

This Awareness indicates that they might promote totalitarianism if they saw a way whereby they could profit; that they have moved into many different countries, in Europe and in the Americas. At the present time they have, some of the strongest groups, have a powerful team in Iraq and are seeking to use Iraq and its invasion of Kuwait to build a great power base. They have been caught with their hands in the cookie jar and there are Americans and Russians and others who recognize that these Bolsheviks are behind Saddam Hussein, and that they are the real power pushing this man into this potential war.

This Awareness indicates that it is mentioned in the Dr. Beter tapes that the Russians had concluded that there would never be peace on earth as long as the Bolsheviks had any power at all. This Awareness suggests that the Rockefellers and Rothschilds are also of this opinion; that the Beter tapes also suggested that the Russians believed if a Bolshevik had a match, even one match, it was still dangerous, and could burn down a nation, or would try to do so, to profit from the use of that match.

This Awareness indicates that it is for this reason that there is behind the scenes considerable determination not to allow the Iraqians to get by with the invasion of Kuwait, for it is seen that this would only be setting the stage for the next Bolshevik movement in the area and that within a short time, all of the Arabic world would be under their control, creating a major power threat for the rest of the world.

That had it not been for the Skoptsis removing the Bolsheviks from power, the Skoptsis being within the Soviet empire, working their way into power to remove the Bolsheviks; had it not been for this action, there would still be cold war or threat of nuclear war from Russia, and Communism would still be a major force in the earth, shaping policies around the world.

WHY WOULD THE BOLSHEVIKS NOW WANT TO DESTROY ISRAEL ?

There's one thing I don't understand. Saddam Hussein announced that if Bush starts the war, the first missiles and bombs of all types will be aimed at Israel. Now I don't understand why the Bolsheviks would want to destroy Israel?

COSMIC AWARENESS:

This Awareness indicates that the Bolsheviks see Israel or see the Zionists as their cousins or parents; that Bolshevism essentially evolved out of Zionism in the 1917 revolution in Russia, and they see themselves being, and having been betrayed by their closest kin and unable to gain any kind of power or respect by joining with the Zionists and Israelis, they threaten them, thinking that perhaps Israel will soften and also feeling that Israel has a great control over America, the United States especially.

They see this as a way of extortion or coercion of the Zionists in order to gain some kind of power over the United States. This Awareness indicates that the Israelis are essentially a home for Zionism, the Zionists having experienced so much of the 'civilized' life in the Western world, do not see eye to eye with the Bolsheviks, whose idea of life is to rule by force and totalitarian means as was the case in Russia. The Zionists no longer feel an allegiance with the Bolsheviks.

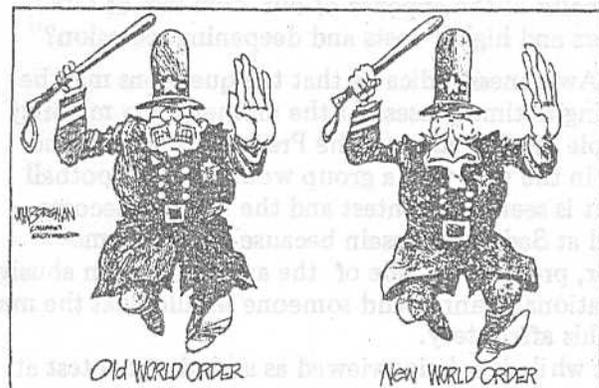

9. They see the Bolsheviks as holding to an idea that is unworkable in that Communism has failed; that this creates a schism between these Russian Jews of Bolshevism and the Zionists of the Western world. This Awareness indicates that it is important for entities to be cautious at times such as this in regard to any appearance of anti-Semitism. This Awareness indicates that *It* did not intend to state anything derogatory in regard to Jews, although *It*, in reflecting, can see that some might misread what was said and project from their own mind the idea that what was said was derogatory. This Awareness is simply explaining Bolshevism in its present status and why it is not connected as an alliance or allegiance with Zionism at this time. This Awareness indicates that those who have kept informed of the situation at this time through the various information outlets may be aware that in the event of war in the Middle East, there is a contingency plan drawn up to allow for the pick-up and/or what may be termed the round-up and incarceration of entities who might pose a threat to the United States. The odd thing about this contingency plan is that the B'nai B'rith society would be the society who gave forth the names of the individuals to round up and incarcerate.

This Awareness indicates that obviously, they could round up and incarcerate entities whom they themselves did not approve of, even if there was no threat to the United States. This Awareness indicates that *It* is simply passing information to allow entities to be more aware so that they can be prudent in their speech and expression, in times that are critical to freedom of expression, for these freedoms may not always prevail.

THESE MAY BE TIMES FOR INNER GROWTH

(Closing Message):

This Awareness indicates that the times are changing, and that these times in change may not be to the best or highest interest of entities, but this Awareness suggests that entities should realize that any time there is great change there is also great opportunity, and suggests that entities not only look with dread at the changes, but look also for opportunities. The opportunities may be only times for inner growth, but that inner growth might be what you came here for, and this critical time might be the real turning point in your life for achieving the inner growth you came here for; or there may be other forms of opportunities that are made available to you if you look for opportunity in time of crisis, but if you are not looking for opportunity, you are not likely to find it.

PRELUDE TO WAR: (Part 2): LET THE GAMES BEGIN! (THE QUESTIONS WILL COME LATER)

KICKING ASS IN THE MIDDLE EAST: THE ODDS ARE WITH THE INFIDEL...

(Opening Message):

(C.A.C. General Reading, January 10, 1991)

HOW CONGRESS GAVE AWAY ITS POWER

This Awareness indicates that in the reading yesterday *It* discussed many of the aspects of the Middle East Gulf crisis, but did not discuss those things which might be called merits of the policy employed in the Gulf region. This Awareness indicates that the Congressional debates on this as now beginning to discuss these merits and apprehensions in regard to the policies and that this can be of great significance in helping to view the situation from all sides.

This Awareness indicates that there is some strong likelihood that this can alter the perceptions held by the majority of Americans, the people, in regard to this policy; that even with altered perception, however, there are Executive Orders available that would allow the President to continue with the policy. It has been argued that the Constitution requires Congress to declare war if war is to follow and that this action in the Middle East fits within the category of war because it is not a defensive action so much as an aggressive action.

That while this is argued on the one hand, the other administrative arguments are that the President does not need Congress's approval to carry out his policy. Congress is appalled at such statements. This Awareness indicates that these statements are based on the administration's recognition that it has *already* received Congressional approval in the Executive Orders that have, over the decade been passed and put into place for the President to enact in the event of national emergency.

Perhaps Congress did not realize at the time that by this agreement or failure to disagree, that it was giving away many of its own powers. That this may become more apparent in the near future. This Awareness suggests that the nation shall become more divided over the issues as the crisis comes closer to affect entities in their families and in their homes, and entities may ask: "Why are we doing this? What is the purpose of this war in this Middle East area? Why are we protecting or seeking to restore the Kuwaitian emirates to their place of power and to their wealth at the expense of our own loss of family members and higher costs and deepening recession?"

This Awareness indicates that the questions may be mounting as time passes. At the moment, the majority of people tend to support the President's action, and view it in the way that a group would view a football game. It is seen as a contest and the entities become enraged at Saddam Hussein because he, like some wrestler, presents his side of the argument in an abusive and irrational manner and someone should beat the man up for his affrontery.

That while it is being viewed as a kind of contest at this time, the reality is quite different from a sports contest, and the cost will be enormous. Even though the probabilities of a defeat of the Iraqi leader and his forces is almost certain, it is likely that in the end, the

United States especially will be the great political loser, because it can have negative effect in the Arab world which will last for 20 years or more, in that they view the United States as being an infidel in their Holy Land and if defeating Iraq, even though the Arabic world is opposed to Saddam Hussein's actions, it is for them much likened unto having someone come in and beat up on one of their family members.

Restoring the Emerites to Wealth & Power: Is it Worth the Price?

This Awareness indicates the Arabs have a close relationship simply because they are Arabs and see each other as one large family, and tied together by their religious beliefs. They do not like the idea of infidels coming in and harming their family members. This Awareness indicates that the sanctions that have been placed, if given more time, could have been effective and would be more palatable to the Arab world wherein the sanctions could eventually have the effect of bringing down the power in Iraq, and making it clear to Iraq that any small gain from the invasion of Kuwait was not worth the price.

This Awareness indicates that it would take more time for the sanctions to work, and yet the Arabs would accept such sanctions. That from the Western point of view, it would be difficult to enforce the sanctions because many of the Arab nations would become sympathetic and want to break the sanctions. Therefore, as has been suggested by the King of Jordan, the approach of letting the Arabs solve the problem may have been the proper approach, for once they decide to solve the problem as a kind of family matter, they could be as firm as they wish, and could work on the general solutions for the region that would be satisfactory to them, while leaving out the rest of the world.

This Awareness indicates that this would not necessarily produce stability in the Middle East, but stability has never been known in the Middle East, and it is unlikely that stability will result after a war involving the Western powers. That whatever the outcome, it is likely that the Middle East will continue to be unstable, and the question may need to be asked at some time in the future: Was it worth the price in putting the Emerites back on their thrones of power and wealth, to have the Middle East still be an unstable place and have so much hostility from the Arabs towards the Western countries?

It appears the war will not solve the problems. That there is no guarantee that the next leader, if there is a further leader of Iraq, will be any better, or remain stable and respect the surrounding Arab nations any moreso than Saddam Hussein, or that a leader who is more reasonable might not be toppled by some other ambitious person who becomes another Saddam Hussein. This Awareness indicates that in general, little will come in terms of satisfaction from this war, if it does erupt, and it appears likely at this time.

Little will come that will be called 'victory' other than perhaps the momentary victory of the campaign or contest. This Awareness indicates that the United States tends to pursue its policies in a manner similar to football or a sports contest, whereby they invade a country, defeat its armies, then pull out and leave the masses to suffer from the effects of the war without further regard for rebuilding or stabilizing, such as has happened in Panama and Grenada.

This Awareness indicates that if this occurs in the Middle East, the neighboring countries may be picking the bones of the Iraqi nation, or may be fighting over the carcass, dividing the land among themselves or may be in a kind of Arabic civil war over the territory that is left, so that one nation or another is trying to lay claim to the carcass. That the option would be for Western forces to occupy Iraq for a duration to bring stability, but this would enrage most Arabic nations to have Western infidels on their holy land and could lead to further crisis and even further war against the Western nations by a United Arabic world.

This Awareness indicates that essentially, the outcome of this war may be more problematic than has been anticipated, and that it may in fact prove to be for nothing, for little or no satisfaction. It does not appear likely that the war will be prevented. It does appear that it will be objected to vocally by many Americans, but that there is a certain determination in behalf of so-called New World Order which has not been defined, and that this New World Order and the Iraqi war may simply be a vehicle by which taxes can be increased, the gasoline prices will be increased, and certain Constitutional freedoms may be denounced and taken from the people, while the New World Order and its structure is installed upon the Western world and eventually to be installed throughout the world.

The Ultimate Game of the Dark Political Agenda

This Awareness indicates that *It* does not see these times as being times for excitement and does not cheer with the crowd in saying: "Let the games begin!", for *It* does not see this as a game, but as critical moves for hidden agendas by the nations of the Western world, and that these hidden agenda programs of dark political purposes will not be for the good of the masses, nor bring satisfaction, except perhaps temporal satisfaction for those in elite positions, as they move into totalitarian states or positions of power.

This Awareness indicates that there are entities who could have all the money they could ever spend but who would not be satisfied, for they seek not money, they seek power, and money is but a stepping stone to power, and the real goal of power is what they seek, but power is never fulfilling, and they seek ever more, ever greater power, and this is the ultimate game of the dark political agenda that lurks behind most wars.

"We're going over there and we're going to kick Saddam's ass!"

George Bush, President of the United States

IS THIS THE "GREATEST MORAL CRISIS" IN YEARS AS PRESIDENT BUSH IS CLAIMING? (Solving Problems Through Violence)

(FOLLOW-UP QUESTION):

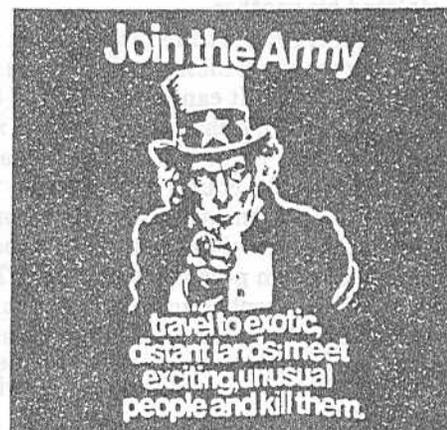

In a television interview, President Bush tells David Frost that "this is the greatest moral crisis facing the planet since World War II. It's that big. It's that important. Nothing like this since World War II." Would Awareness agree with that?

COSMIC AWARENESS:

This Awareness indicates that the comparisons are drawn from superficial levels of observation; that to some degree there are comparisons; wherein Hitler invaded Poland; the entity is comparing the invasion of Kuwait, to that of Poland by Hitler, and is seeking world support in an effort to stop and remove from the Iraqi grasp its hold on Kuwait. In this sense, the statement is applicable in the sense of comparison.

The means by which the crisis is met, may be the greater issue. If there is impatience to solve the problem of one country invading another, the obvious use of force is the first that comes to mind and it is a knee-jerk reaction. This Awareness indicates that the spontaneity of reacting with the threat of punishment through violent means is characteristic of nations ruled by men who solve their problems with force and violence, in movies, in history and in real life, at least a great percent of the time, but in a world that is developing into a more refined and civilized level, at least technologically, to speak of this as a moral action places morality in the level of abusive corrections, to use abuse to correct a previous abuse, to torture and express violence because someone tortured and expressed violence and thus, elevate the status of violence as a means to solve problems.

This was the original sin of Iraq when it invaded Kuwait. Instead of solving the problem by taking it to the Arab nations, to find a solution, Iraq used force to destroy a nation that it had a dispute with. In response, a number of nations gathered to destroy Iraq and to reinstall Kuwait. This Awareness indicates that it is the same behavior, and keeps the use of violence elevated as a problem solving mechanism. The way to solve problems is through violence: that is the message that is given to the world.

A World Court Could Have Solved Crisis

This Awareness indicates that it could have been a perfect time to use a different form of correction, especially if there had been put into place some kind of mechanism, structure or force that gave the World Court a role in the solving of the dispute, and in giving the World Court the right to decide how the dispute could be solved, allowing also the World Court to have a means by which to enforce its ruling. This may, for example, amount to a World Police Force, much like the United Nations forces that are presently involved in the Gulf region, but with the agenda of enforcing sanctions against a nation that is quarantined for its misbehavior and criminal acts.

The quarantining of a nation is much like the arrest and imprisonment of an individual, and it requires certain kinds of walls, legal and real, to be placed around the nation to prevent it from having free intercourse with the rest of the world. That the way it is now, the United States is seen as a kind of world police, self-appointed police force coming to the rescue of its friend Kuwait against Iraq, without a fair trial, without proper representation in terms of law, international law being used to settle the dispute.

Of course, there needs to be international law written for such incidences. It has to be drawn upon as precedence for future law. This Awareness suggests that to arbitrarily gather a gang of nations to punish one nation without the rules or law being spelled out as to what that nation did to break the international law, is more likened unto the ways of the old wild west in dealing with individuals. A gang of cowboys would get together and punish someone or avenge someone because that someone violated one of their friends, and without a trial or without clear laws being drawn up ahead of time, the entity would lose his life for violating a law that perhaps he didn't even know existed, or which perhaps did not exist until after he had been lynched.

This Awareness indicates that laws are basically rules; that if there are rules for countries to stand by, they should be applicable to all countries and on an international scale, available for all countries to study. That would be a great beginning for a New World Order; that all countries abide by the same rules or same laws which are made available to them so that they know what those laws and rules are, and that these laws and rules can be brought to a World Court with international lawyers who represent the nations and represent them without prejudice in the World Court, so that fair trials can be held when one nation feels violated by another.

This Awareness indicates that the invasion of a nation by another may be compared metaphorically to a neighbor invading a neighbor's home. It cannot be allowed to stand. Damages that have been done should be imposed and the entity should receive back his or her home. That applying this to international law, the courts would decide whether or not Iraq had any real claim to the Kuwaitee homeland, and whether or not the Kuwaitian homeland in being raided was a criminal action perpetrated by Iraq. That were international law present, Iraq could have gone to the courts and through the courts presented its case that it was the owner of Kuwait, and it had always been the owner, but that Britain had taken Kuwait arbitrarily and that this was an error.

12.

Giving the New World Order a Real Meaning

Whether the case presented to the courts would have stood up legally, or would had fallen, could have settled the argument formally, so that there would be a clearer recognition of who is the rightful owner of the area of Kuwait. This Awareness indicates a World Court could be a great factor in giving the so-called New World Order real meaning. Of course, the World Court can have no respect if it does not have enforcement power. This Awareness suggests that the United Nations in this case has been used in lieu of a World Court as a kind of opinion-molder, wherein as a giant think-tank, it serves as a political organization to sway opinions into blocks and groups. It does not deal actually with the legalities of law that are created to apply to every nation equally. In fact, the United Nations can easily be used to manipulate opinions, wherein especially, one or more nations has the ability and right to veto, while other nations do not have such right, and wherein one nation pays a greater portion of the bills for the United Nations and thus has the ability to withhold payment and to coerce other nations into cooperating.

This Awareness indicates that the United Nations as a forum for bringing equal justice under the law just doesn't work; that a World Court could deal with these issues with equal justice under the law if the law was written to apply to all nations, or even to all nations that assented to live under the law of the World Court. There are likely some nations that might not want to accept the World Court and its decisions; these nations could be called 'outlaw nations' or 'nonparticipant nations' but those who are participants could be given favored status and free trade or freer trade among the participating nations of the New World Order.

In this case, the idea of a New World Order could have some meaning. Up to this time there is no public definition being given to the masses as to what is meant by the buzz-word that is commonly used by the Bush administration which is the term 'New World Order.' Few know what the New World Order is, and yet they are being told that they must fight in a war for the New World Order and for oil and for jobs. These are not moral issues. If this is the most morally pressing issue since World War II, it should be more clearly defined.

Our Youth to be Slaughtered to Keep Fat Emerites on Thrown?

If entities recall, in World War II, the Nazi machine was rolling over all the countries in Europe before the United States became involved. The issues were very clear at that time. The issues in this instance are very muddled, very confusing. The emerites of Kuwait, having seven 747 airplanes for personal use and having double standards in which they keep women in a relegated state while they themselves have freedom to do as they please, while they amass great fortunes and watch other Arab nations and people poverty,--this is what you are asked to restore.

Were these entities to have a commune in Eastern Oregon, driving Rolls Royce cars instead of 747s, they would have been driven out long ago, by the very people who now support reinstatement of the Kuwaitee emerites to their thrones. This Awareness indicates that it is not seen as a moral issue that the super wealthy who have

done little for the masses deserve having thousands of Americans, Canadian, British, German and others slaughtered to get them back on their thrones so that they can have the power, prestige and glory that they once held, simply because they have garnered a region of oil because of some Britisher in 1923 drawing a map on the sand.

This Awareness indicates that it is not that this is justice for them, but there is not seen to be justice from fighting for them either. The sacrifice of families, the sacrifice of nations who must be asked to put them back in their previous position of super wealth, far outweighs the moral issue of their claim to that position. This Awareness indicates that it is hoped that out of all of this confusion, one day enough people will join together to influence the so-called New World Order to give the World Court a place with sufficient teeth to enforce its ruling. Until this happens, there will be further events of chaotic conflict between nations around the world.

ED's Note: For an indepth discussion on the World Court, please refer to 'Revelations of Awareness' issue No. 90-22 (A World Court).

For years these 'Royal families' of the emerites, have shown disgustingly bad taste in their show of wealth, buying palaces in Hollywood and Florida, using them for horse barns, putting obscene statues in their yards; buying whores, flying in their jet planes to Monte Carlo or Las Vegas, and dropping \$10 million dollars in one night at the gaming table; all of this while millions of their people remain in poverty. Ask no questions, just go out and die for these guys, wave the flag and march in the streets?

THE HORRORS OF WAR... WILL PANDORA'S BOX BE OPENED?

QUESTION:

David Nyhan, a columnist writes about this. I'll read just a little of his observations on this thing in the Middle East. He says:

The Pope said it for the world on Christmas Day: "War is an adventure with no return."

Exactly. A one-way trip with no return from the Badlands where the Four Horsemen ride. The pontiff spoke for everyone on Earth who has no personal ambitions or vainglory staked to the gulf crisis.

Whoever starts this one kicks the lid off the biggest box of uglies in the history of mankind. Nuclear weapons, on our side for sure, on their side maybe. Poison gas. Biological gunk. Anthrax. Potential for sabotage and terrorism on a worldwide basis. That's just for openers.

Plus fire storms from 1,000 burning Kuwaiti oil wells. Smoke clouds changing worldwide patterns of life-giving rain. The desert turned to glass. Corpses melted atop the sands. Every industrial economy groaning with sand in its gears, as oil prices hit new plateaus. Every Third World economy driven back to Fourth World sustenance level as the poor are priced out of oil. We simply cannot have war."

It goes on, but my question is: are the results of this as he describes, is this literary hyperbole, or is there a basis in fact if this war actually happens?

COSMIC AWARENESS:

This Awareness indicates that all of these things mentioned are possibilities in that there are weapons that can create this. It is not seen that this is an absolute outcome of the situation, for not all of these weapons are necessarily to be used; that there are weapons that

13. can turn sand into glass through ultra-frequency, through the vibrations, and it was in this regard that Saddam Hussein made mention that the infantries would find their feet being burnt in the sand. That this is a possibility; that it is possible these weapons could be taken out from surgical strikes prior to their use, or that they may be used before they are destroyed. It is possible that nuclear weapons could be used. There are other weapons that have similar effect which are more likely to be used. It is not likely that nuclear weapons will be used in the area unless absolutely necessary to those who become desperate, because the nuclear weapons would render the oil fields useless for some time to come because of the lingering radiation.

The chemical gas and the biological warfare are strong possibilities.

WILL NEUTRON BOMBS BE USED?

How about the, I believe it was called a neutron bomb, which the United States and Israel tested on an African village, that they shoot this evidently off from a cannon or an anti-tank gun, where they use this type of thing that destroys people, but saves the property?

COSMIC AWARENESS:

This Awareness indicates that this is seen as a possible weapon which could be used in Kuwait to destroy the inhabitants, while preserving the cities, except for the consideration that many Kuwaitians would also be vulnerable. It could also be used in Baghdad and in areas which are considered holy so that the sacred shrines would not be destroyed while the living beings were. That this is in reference to the weapon used in Cameroon. *

*For more information on how the neutron bomb was tested on the innocent, please refer to "Revelations of Awareness" issues No. 88-5 (Tragic Test of Neutron Bomb in Africa: Another U.S./Israel Atrocity Revealed); also 89-9 (An Example of How the Press is Controlled); both \$3.00 ea. from C.A.C.

"DO YOU THINK WE'D BE HERE IF ALL THE MIDDLE EAST
PRODUCED WAS BROCCOLI?"

THE "END TIMES" SCENARIO AND THE UFO CONNECTION

(More on the Planetoid Nemesis)

QUESTION:

W.L., of Overland, Missouri, writes: "Please read the enclosed article to Awareness. Then consider asking a couple of questions afterwards." The article was, (I won't read all of it) in the November 19, 1990 *U.S. News & World Report*, and its title is "A Revelation in the Middle East: Did the Bible Prophecy an Oil War with Tanks?"

The world is headed for "apocalypse soon," and war with Iraq is to believe an increasingly popular refrain among preachers and Bible teachers in some Christian circles, the Persian Gulf crisis is part of a fulfillment of Biblical prophecies concerning the end of the world. While turmoil in the Middle East has often captured the imagination of believers in Bible prophecy, some clerics are convinced that armies now gathering in the Saudi desert are converging for the Battle of Armageddon--the great cataclysm described in the book of Revelation that many Christians believe will usher in the Second Coming of Jesus Christ.

This isn't the talk of a handful of charlatans, exhorting naive followers to sell their possessions and flee to the mountains. It is a message increasingly being sounded from the pulpits and airwaves of mainstream Christian evangelists and resonantly striking a chord among tens of millions of conservative Christians. In recent weeks:

--Pat Robertson told viewers of his "700 Club" television show that the confrontation with Iraq, coupled with recriminations against Israel over the shooting incident at Temple Mount, point to fulfillment of Bible prophecies that "the nations of the world are going to come against Israel" in the latter days and that the Middle East is "going to explode. It's exactly what the Bible said."

--Evangelist Jack Van Impe told his nationwide TV audience that "four major prophecies in the Bible pinpoint Iraq and the Persian Gulf as the prelude" to the Battle of Armageddon, a conflict he says the Bible suggests will begin "at the Euphrates River in Iraq."

--In a sermon at the Fundamentalist Bible Tabernacle in Los Angeles, the Rev. R.L. Hymers conjectured that the Persian Gulf crisis and the West's need for oil "may well be...what unites the West under one man that the Bible calls the Antichrist."

--And the Rev. Billy Graham, preaching to a crowd of about 20,000 in Long Island, N.Y., warned there are "spiritual forces at work" in the Persian Gulf confrontation. "History has gone full circle, and we are coming back to these [Bible] lands," said Graham. "This is not another Korea, it is not another Vietnam--it is something far more sinister and far more difficult."

Evangelical preachers aren't the only ones talking about the coming apocalypse. Brooklyn Rabbi Menachem Schneerson, leader of an ultra-Orthodox Hasidic sect known as Lubavitchers, has been telling followers that the Iraq crisis may spark the "terrible war" that members of the sect believe will herald the Messiah's arrival. And Buddhists who await the appearance of the Maitreya Buddha, a messiahlike "World Teacher", say events in the Gulf will bring the Maitreya's appearance "that much closer."

Books for the Bunker. The Middle East turmoil also has sparked a run on books on end-time prophecies. Sales of Hal Lindsey's 1970 bestseller *The Late Great Planet Earth*, which uses Bible prophecy to paint a detailed scenario of events leading to Armageddon and the Second Coming, have jumped 83% since the Iraqi invasion of Kuwait.

While few preachers are willing to predict exactly when "the end" will come, there is broad agreement among those evangelicals who call themselves "dispensationalists" as to what will

14. transpire. Their doctrine is rooted in the teachings of John Nelson Darby, a 19th-century Englishman and founder of the Plymouth Brethren, who believed history is divided into 7 ages, or dispensations, the last of which will culminate in the Final Judgment and the end of the world.

The dispensationalists scenario, popularized in Lindsey's book, is drawn largely from the Old Testament books of Ezekiel, Zechariah and Daniel and the New Testament book of Revelation. According to the scenario, the Battle of Armageddon, named for the town of Megiddo in northern Israel, will culminate history's bloodiest war and wipe out a third of the world's population before Jesus Christ returns to halt it. The battle is to be sparked by a multinational invasion of Israel, in which Babylon (Iraq) plays a key role and which eventually draws in most of the powerful nations of the world. Some Christians believe Christ then will set up a peaceful kingdom on earth that will last for 1000 years, followed by the Final Judgment. At some point, dispensationalists believe, Christians will be pulled out of the world in an event called the Rapture, although they disagree on whether this will happen before, after or midway through the "Great Tribulation," a seven-year period during which the world is ruled by the Antichrist.

Prominent evangelicals such as Lindsey and Walvoord contend that most of the prophecies setting the state for the final events have been fulfilled. Israel has been re-established as a nation, as was prophesied in Ezekiel 38-40; Jerusalem is again under Jewish control (Zech. 12-14); Arab and some black African states are aligned against Israel (Ezek. 30:4); the Soviet Union and China have become world powers (Ezek. 38 and Rev. 9) and a new Roman Empire has arisen (Daniel 7:17) in the form of the European Economic Community. "The stage is set," says Walvoord. "The Rapture could occur at any time."

The idea that foreign policy can sometimes be influenced by interpretations of Biblical prophecy is not as far-fetched as it may seem: President Reagan invoked apocalyptic imagery in his "evil empire" speech to evangelicals in 1983, experts recall. And even if the current threat of war in the Persian Gulf should subside, and Armageddon is averted, with the start of a new millennium just nine years away, the fascination with the Apocalypse is probably just beginning.

That was the end of the article and William's question is: "Is the United States in Arabia to play out a great hoax scenario, like will the USA start a war on earth that everyone will see, believe in, and the beginning of the Biblical prophecy battle of Armageddon, then the UFOs will come and put a stop to the war, and the UFOs will profess to have been sent by God to stop it?"...and he goes on with that type of scenario and wants to ask Awareness if there's any truth to any of that?

COSMIC AWARENESS:

This Awareness indicates that the scenario mentioned by William Ley as that which is a possibility; that it will not likely be that the UFOs will play a role on the battlefield so much as on the television sets. This Awareness indicates that it is a possibility that there will be a presentation of a UFO landing on television, probably through that which is Area 51 in Nevada, the place wherein the filming can be controlled, to give the appearance that these are intruders from outer space who have to straighten out the planet and to help humanity.

This Awareness indicates that this is not necessarily to take place early in this Middle East crisis; it may occur at any time, or it may be put off and occur in the future, even after the Middle East crisis is completed. It does not see that this is a definite link to the Middle East crisis but It does see that it would be a potential

linkage between the UFO announcement and the Middle East crisis. It would fit in the alien agenda for this to be linked, though it may not be part of the alien agenda.

Is The New World Order Designed to Fight Reptoids?

This Awareness indicates that the need is for the world to become...this is in reference to the perceived need of the world leaders, for the world to become united as a One World Government, in order that it can defend itself against Reptoid intruders from Draco, which may be preparing for invasion of the earth at any time. It appears after 1993, or during 1993, from that time on. There is the possibility even as early as '92; that by having the world united under a One World Government, the defense of the planet becomes greater.

It is seen also as a possibility that the Iraqi scenario and Middle East scenario at present was artificially created or allowed, to help bring about the opportunity for creating the New World Order, or One World Government; that this is a linkage relating to the miniature sized planetoid command ship outside the solar system, that would be used to bring in the armies of the Reptoid Draco forces, because the Nemesis planet outside the solar system would be too large to enter without disrupting the orbits of the planets.

This Awareness indicates that this Nemesis as being larger than Jupiter, frozen, and having been used for the past three hundred years to store Reptoid army units at sub-zero temperatures, to be brought back to life for the invasion of the planet. That the linkage between the Middle East war and the UFO situation is that which has some uncertainties. There are seen energies showing a linkage in this regard, and also connected to the fake landing of extraterrestrials on television.

This is not seen as being an absolute event. There are energies suggesting the linkage, but these energies do not show absolutely a link in these affairs. It is suggested that the Middle East situation is linked with the UFO agenda.

THE POSSIBILITY OF SAVING FACE..
ANNOUNCING THE ALIEN PRESENCE NOW!

(Blowing the Interpreter's Mind)

(FOLLOW-UP QUESTION):

Another member wrote in,--I can't put my finger on his question, along a similar line, only he suggested that perhaps the fighting, the actual war would not erupt in the Middle East because at the last moment there would be a way that both countries could emerge and save face, and this would be by Bush suddenly making an announcement of the alien presence on this plane. This would eclipse any importance of a little war over there. Does Awareness see that as having any validity?

COSMIC AWARENESS:

This Awareness indicates that this would be a possible way of putting an end to the significance of the conflict, allowing both to save face and get out of the conflict without losing face among their countrymen. It is seen as a way of shifting focus. This Awareness suggests *It* does not see this as being on the agenda, for it would not accomplish for the aliens or for those of the government any particular impetus to rush toward a One

World Government. It could be useful if in the event the aliens were, in their communications with the earthly humans, to warn of future invasion; it could be then used to help motivate the nations to rush toward a One World Government, but this does not appear as a strong energy to back up this indication or surmise or assumption. This Awareness indicates that it appears there will be some delay after the 15th of January before war begins, in which scenarios similar could take place. That if an alien presence were made known and announcements warning of incoming extraterrestrial threat to the planet were presented, then the war in the Middle East would become unimportant and the entire situation could fizzle out, giving great mobilization toward a uniting of forces for the true battle of Armageddon that takes place between the Earth and intruders. That is seen as a strong energy and indication as a potential.

Problems in Interpreting the Awareness Energies

This Awareness indicates that you must understand, that this Awareness can only provide energies. The Interpreter interprets those energies as he perceives them to the strength of the energy and patterns and shapes and symbols which are supplied by this Awareness, and the Interpreter in reaching into interpretation of things of this nature, is on very tenuous and shaky ground in his attempts to interpret such things that seem so outlandish as being real. To interpret something that is alien to his thinking, even when Awareness gives energies that are clear, may not always be interpreted in accordance with this Awareness because of the Interpreter's own personal interference, when things become too outlandish for his perception.

It is likened unto a language interpreter trying to convey a message from one language to another. If the first entity says some thing to the second, and the interpreter between cannot believe what he or she is hearing, may attempt to modify slightly the message so that the second person upon hearing the message in his language, hears a modified version of the first message; the interpreter not being able to present the message as perceived, or not even being able to perceive the message as the first speaker intended it to be. The same with this Awareness.

While this Awareness can give information through symbols and energies, the Interpreter cannot always find the right words or pick up the right message from viewing those symbols and energies, to precisely convey what this Awareness intends. It is for this reason that there are many who can enter into Awareness levels of consciousness, but it is difficult for them to interpret messages from this Awareness, and especially difficult to interpret complex messages from this Awareness so that others get the precise information this Awareness intends.

This Awareness suggests therefore, that you understand the messages given by this Awareness through this Interpreter should always be questioned. There is no point in attempting to take everything interpreted by the Interpreter as an absolute interpretation from this Awareness, nor to assume that because it says it is Cosmic Awareness speaking that it is unquestionable. This Awareness indicates that *It* can only convey in

symbols and energies; the Interpreter attempts to find the words to the best of his ability.

This Awareness indicates in some instances, questions are asked and the answers cannot be given or the energies cannot be presented because of blocks, either in the consciousness of the Interpreter or because the message is not ready for delivery to or through the Interpreter and though the Interpreter seeks to grasp a message, perhaps only a very small splinter of energy slips through and the Interpreter attempts to give a message based on that minute amount of energy. It can be erroneous.

This Awareness indicates that when messages come through from this Awareness and the Interpreter's door is opened, and the energies are strong from the energizing of the questions, then the messages can be very powerful and correct and clear. It is for this reason that at times, not all questions can or should be answered, even though entities may feel frustrated in not getting their answer. It is better to get no answer than to get an improper answer.

Why Cosmic Awareness Walks a Tightrope

This Awareness indicates that for the most part, this Interpreter reads clearly when there is the correct amount of energy on the question and when it is appropriate for that energy to come through. There have been times in the past when entities seeking information, such as on UFO phenomena, would not be given any information. In retrospect, it can be clearly seen why, and all of the anger or frustration at not being able to get information regarding the UFO situation, later becomes clear.

It would be likened unto opening a Pandora's box, where entities were not ready for such information. That had this information pertaining to UFOs been given ten years ago, there would have been few members remaining in the organization; that without further reading or reference to other sources, many of those receiving those messages would think that the Awareness information was from some deranged spirit, but because the messages also made reference to other sources, entities having such concerns could look at other sources, such as the Cooper, Lear material, or the Ed Walters book, and those many other books which have recently appeared on the market, and find that they were not totally out in left field for reading such stuff.

This Awareness indicates that *It* does not wish to give information to entities which is too far out of their realm of reality because some entities either go into the bizarre information too far and make it a major part of their lives or they reject it totally, and in so doing, reject the other information available through this organization, and therefore, when giving messages to the members of C.A.C., Awareness must walk a tightrope, considering all of the consciousnesses involved and how much they can tolerate on the one hand, while considering also their need to know and desire to know on the other hand.

This Awareness indicates that much of the information given by this Awareness has at times hinted at more, and in some cases has given more than was asked, but in most cases, refrained from giving everything that entities asked, especially if the topics are supercharged in terms of emotional concerns.

GETTING FACTS CLEAR ON NEMESIS AND THE HUBBLE SPACE TELESCOPE (THAT DUST STORM ON SATURN)

(FOLLOW-UP QUESTION):

In reference to Nemesis, there was some confusion in the mind of the Interpreter last month when Awareness gave information on that dust storm on Saturn. I'd like to ask now, does it seem that the United States did or did not hit Saturn from some secret launch here on earth or from a satellite already in space that created that dust storm?

COSMIC AWARENESS:

This Awareness indicates that *It* does see this as having been initiated from earth; that *It* does not see this as having been from the Magellan craft or from the Galileo launch, *It* sees this as having been a separate, what may be termed 'military' launch in which the dust storm served as a kind of marker. It was seen as an explosion that was large enough to be marked to serve as a marker that the trajectory had hit the target. This was seen as being a trial to determine whether the small mc on-sized planetoid could be hit at a safe distance from earth, if the Reptoids were on the way to earth for purposes of invasion.

This Awareness indicates that the Hubble telescope as having been launched to view the deeper regions of space, was turned toward Saturn at that precise moment when the dust clouds were spotted on Saturn, the so-called storm which was approximately three times the size of the earth. That this is indication that the Hubble telescope was being used for that purpose of checking or the launch. Otherwise it should have been focused not on that spot on Saturn, but out in space, for its intended purpose.

This Awareness indicates the intended purpose, the hidden intended purpose of the Hubble telescope is to watch for that incoming planetoid, the moon-sized planetoid.

HAS HUBBLE TELESCOPE ACTUALLY PHOTOGRAPHED UFOS IN OUTER SPACE?

- Q, Tabloid articles have said that the Hubble telescope has actually picked up on alien ships and sent this information back, and it's top secret. Is there any truth that this telescope with its so-called 'imperfections' which supposedly prevents it from doing its job, actually could pick up UFOs?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the announcement referring to Nemesis in the early 80s which was printed in newspapers around the country, referred to this planet outside the solar system beyond Pluto and mentioned that the strange thing scientists had noted was that there were asteroids being emitted from the planet in a direct course toward the earth. This Awareness indicates that these were spacecraft, and being interpreted as being small asteroids.

This Awareness indicates that if you have read the Sitchin books and have a recollection of his description of the pathway through the solar system to the earth, this will not seem unfamiliar to you, and if you have, in reading the *12th Planet* recalled what Sitchin stated, that when these entities left, they left to their abode above. The abode above which was above being another

planet and the entity also suggested that when they returned the next time, their technology would be high enough that they would return in a planetoid. It is the moon-sized planetoid that these entities have now returned.

Negative 'Giza Group' Taken to Another Planet Recently

This Awareness indicates that in connection with the Reptoid concern, it should be noted that the Pleiadians have taken the Giza Group from the earth and transplanted them onto another remote planet, and their power on earth has diminished; however, the Reptoids are searching for them and within time are likely to discover where they are. That this has been a favorable turn of events insofar as earth security is concerned. It also has been beneficial for the Pleiadians.

What the Reptilians Look Like

This Awareness indicates that entities who have seen the movies *Predator* and *Predator 2*, are being presented with information that is relatively accurate in regard to the Reptoid types; that these entities in the movie are made much more ugly and complex facially than are the Reptoids. The Reptoids generally have relatively smooth skin and facial features, though their skin is scaly. That the representation of the Predator in the movie as having infrared vision, is that which is accurate; that entities who study reptiles, understand that most reptiles see from heat and cool rather than from color reflection because they do not have rods and cones in their eyes, within their eyeballs.

This Awareness indicates that the ability of these entities to pick up heat or cool energies allows them to see in the dark, or in the light, almost equally, but they do not see clearly, and the representation in the movie is that which shows this with reasonable accuracy. This Awareness indicates that many of the Reptoids in ships have come to earth, are traversing to earth and that South America at present appears to be their favorite abode. This is largely because the people do not have the high technology and because they can situate themselves in mountainous areas and be relatively safe from detection.

THE ARMAGEDDON SCENARIO --WHAT ARE THE ODDS TODAY?

(FOLLOW-UP QUESTION):

In regard to that *U.S. News & World Report* article, are these fundamental dispensationalists referred to now energizing to millions of Americans the Armageddon scenario? How much of this is actually helping to raise the odds that all of this will actually come down?

COSMIC AWARENESS:

This Awareness indicates the *Book of Revelation* is the alien agenda, along with the Fatima prophecy, and these things have been prophesied and are being energized and worked on as a kind of plan, promoted by the aliens. The likelihood of all of these things being carried off on time is relatively strong but not absolute. There are forces that are aware of the agenda and the timing of these events because of these prophecies, especially the Fatima prophecy, and these forces may seek or may have sufficient strength to alter the timing of the events, and in some cases alter the events, preventing them from occurring.

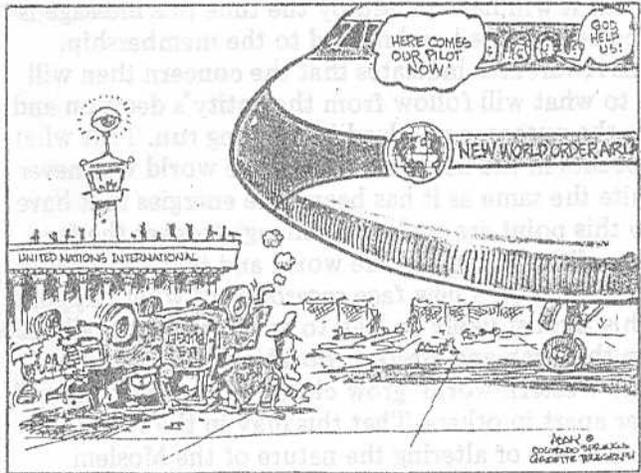

This Awareness indicates that it is not certain that these events will be altered; that the potential of war and the invasion of Reptoids are part of the agenda. How it will go is not absolutely clear, for there is much energy on these factors moving the factors from moment to moment in each succeeding universe as it appears and disappears ever 4 quadrillionths of a second. Eventually, unless there is an alteration of the inertia, eventually these things will come about. The question is whether the energies being pushed by the inertia of these prophecies and this alien agenda can be altered, so that at some point in the movement of moment to moment events, the energies become diffused and the events do not transpire.

That keeping in mind that all things appear and disappear every 4 quadrillionths of a second, that every universe follows every 4 quadrillionths of a second, the previous universe, and that whatever is in one universe at one micromoment, flows into the other universe in the next micromoment because of the Law of Inertia, and that forces continue in a straight line, unless something changes them, unless another force acts upon them to deflect them or to alter them, then these things would surely come about, but if another force acts upon them to alter or deflect them, these things may take a different path.

Middle East War Taxes Really for Fighting Reptoids

This Awareness indicates that there are forces building within your government to deflect the incoming planetoid of the Reptoid invading army, the Reptoid intruders, and it would seem that they have the means and capability for the task of stopping that invading planetoid. That much of the means for doing this comes through the SDI research and that the Middle East threat is to serve as a way by which taxes can be raised to bring about more research for the SDI programs; that the taxes which entities would otherwise oppose, become more easily released by the public when they feel it is necessary to do so in order to win a war.

Thus, part of the motivation for this Middle East crisis is to raise more taxes from the willing American public, but much of that which is being raised for war actually will be diverted to the SDI programs for the protection against the Reptoid intruders from Draco.

(Closing Message)

This Awareness indicates that if anyone has experienced a problem with boredom, rejoice, for the coming years are not likely to produce much boredom. If entities have excessive anxiety, then it is time to find places or moments in which to escape and seek solitude. This Awareness suggests moments of meditation wherein the mind can be totally emptied of all concern, so that the psyche can find moments of peace.

This Awareness suggests that a most relaxing meditation may be experienced in simply watching the air from your breathing as it moves in and out, and listen to the incoming breath, and listen to

the outgoing breath without thinking any words at all, allowing this to give you moments of absolute thoughtless peace. This Awareness suggests 5 minutes can do wonders in calming one's nerves.

This Awareness indicates that once you have practiced finding that absolute peace within, know that it is *always* there, even if it is being covered by chaotic events on the surface, so that when you are engaged in critical situations, you are also aware of the absolute peace within yourself, and in so being aware, you may experience that which is called the peace that passeth understanding, so that even in the midst of conflict, you are at peace with yourself.

THE PRELUDE TO WAR (Part 3): THE COUNTDOWN TO ARMAGEDDON? ...THE WORLD WILL NEVER BE QUITE THE SAME AGAIN REGARDLESS

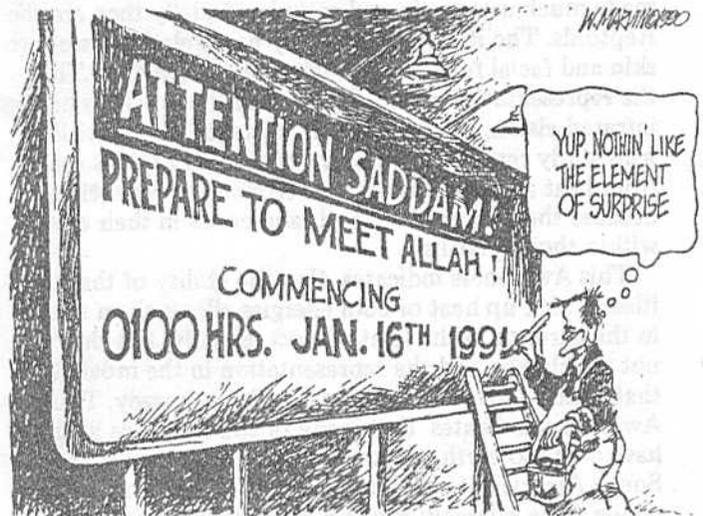

(Opening Message):

(C.A.C. General Reading, January 13, 1991)

This Awareness indicates that at this time it is two days away from the deadline given to the Iraqi leader to pull out of Kuwait; that you can well imagine what is going through this entity's mind; that he is torn in different directions as to what to do. By the time the membership of your organization reads this, it will be already past history. That the entity is on the one hand seeking to find ways to stall for time, looking to the meeting with the head of the United Nations and hoping that this will provide some kind of means by which he can stall for time, and the entity is also considering alternative moves, much as that which the energizer has just recently been discussing with the Interpreter: the concept of a preemptive strike against Israel before the deadline in order to break down the alliance between the United States and the Arab countries.

That it is a potential for this entity to consider as a way to shift some of the energies to his favor, if the entity is determined to stand firm. The entity also is considering the option of backing down at the last minute in order to preserve peace; that he is considering ways to save face and save country for another war at another time. This Awareness indicates that by the time this message is read, it will be clear as to which way the entity moved. The urgency as that which is felt at this time in consciousness, but it will have passed by the time this message is transcribed, printed and mailed to the membership.

This Awareness indicates that the concern then will be as to what will follow from the entity's decision and where the outcome will lead in the long run. That whatever occurs in the next few weeks, the world will never be quite the same as it has been. The energies that have led to this point are such as to change forever the face of the political arena of the world and that the Middle East will take on a new face regardless of what happens, and this is most likely to lead to an alteration of alliances within the Arab and Western world so that the Arabs and the Western world grow closer in some regions and further apart in others. That this may in the long-term have an effect of altering the nature of the Moslem nations, so that eventually, the extremism experienced in many of these countries will gradually be modified toward a more liberal level, but the time for this change may be slow in transition.

ANOTHER SCENARIO: THE PLOT TO DISMEMBER SAUDI ARABIA BY SADDAM'S ARAB COHORTS

QUESTION:

One of our members sent us a copy of a page from a magazine or newsletter called *Strategic Investment*. It gives some interesting information from their point of view on this whole thing. I'd like to read this and ask Awareness, is this basically what happened to set this up? It says:

The plot to dismember Saudi Arabia. The cause of the Gulf Crisis was a plot between Saddam, its ringleader, Yasir Arafat, King Hussein, and Yemeni President Mohsin Alaini. Arafat had PLO agents in the Kuwait banks ready to transfer Kuwait's \$200 billion in worldwide assets to Saddam once the Iraqi army took Kuwait. Saddam was to secure Kuwait, then move down the east coast of Saudi Arabia to seize the main oil fields. At the same time, King Hussein had his army ready to move down the west coast of Saudi Arabia, known as the Hejaz, reclaiming the land once ruled by his grandfather, the Sherif of Mecca. The founder of the Saudi state, Ibn Saud, conquered the Hejaz in 1924, and the British made the Sherif ruler of Jordan (then Transjordan) as a consolation prize. Simultaneously, Mohsin's formidable forces were to seize the three Saudi provinces of Asir, Najran, and Jaizan, which were annexed by Ibn Saud in 1924. Outgunned only in air power, Yemen received a squadron of 15 Mig 23s from Iraq a week before the Kuwait invasion. Only George Bush's amazingly quick action in freezing Kuwait's assets worldwide and deploying tens of thousands of troops to the Saudi

sands prevented this scenario from being enacted. The conspirators will now lose the farm: Saddam will lose his life in a military cataclysm, King Hussein will lose his throne, Yasir Arafat may be assassinated and the PLO dismantled, and Iraq will be dismembered instead of Saudi Arabia. Iraq was created by the British after World War I out of three vilayets or provinces of the Turkish Ottoman Empire. The northernmost, Mosul--which is Kurdish, not Arab, and contains most of Iraq's oil--will be awarded to Turkey. Only Yemen's Mohsin, with a little groveling to the Saudis, may come out unscathed.

That's the end of the article. Does Awareness see that scenario as being the original plot for this whole Middle East scenario?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that this as that which was cooked up or put together by the advisers to Hussein who were Bolshevik in their origin; that the Bolshevik plan was to create greater power for the entity Hussein and to gradually lead to an Arab state which they would rule and whereby they would control the greater portion of oil for the world, and again begin to build up a new power base for themselves, having been kicked out of Russia by the Skoptsis in the last decade, the decade of the 70s and early 80s.

THAT BIG NEW OIL STRIKE IN SAUDI ARABIA--ANY SIGNIFICANCE ?

COSMIC AWARENESS:

L.T., a member from Connersville, Indiana, asks: "Recently the *Spotlight* had a story about an oil strike in Saudi Arabia, the biggest in the world in 20 years. How much has this got to do with Kuwait and other problems in that area? I suspect a lot!" he says.

This Awareness indicates that it is a supplementary item rather than a contributing item. It happened at a time when the other things were also occurring but it is not seen as a particularly strong contribution other than as causing those Bolshevik forces to feel even more hopeful in dividing Saudi Arabia amongst themselves. That the Rockefeller and Rothschild forces, exemplified by British and British Petroleum for the Rothschilds and the Rockefeller oil interests, could not or would not permit the Bolshevik forces to take over the wealth of these nations in their pursuit of oil for it infringes on their own wealth.

The Skoptsis Russians also are not in favor of the Bolsheviks gaining any further power in the world. They would prefer the Bolsheviks to fade away, and for this reason, the alliance quickly came together. Those in the nations of Saudi Arabia and others nearby also saw the threat to their own sovereignties and also saw certain benefits to be gained by joining the alliance. Some of the benefits including the weakening of the Iraqi power which was out of proportion to other Arab nations in the region.

There is also the matter of debts owed between various countries in the region; that this played some part in the formation of the alliances, on both sides.

AFTER THE WAR IS OVER-- WILL THE BOYS ALL COME HOME?

Patrick Buchanan, who's a very perceptive columnist, asks some questions. I'll read what he says about this situation. He says:

After the war is over, will troops come home?

To watch Secretary of State James Baker grimly explain the deadlock at Geneva, to see the anguished face of George Bush as he manifested his disappointment, is to understand neither man wants this war.

But neither does Saddam Hussein. In late July, he spoke to the U.S. ambassador in Baghdad, April Glaspie, and was led to believe an invasion of Kuwait would not mean war with the the United States. Since that invasion, he has not dared to challenge a U.S. naval blockade that is an act of war against his country.

But if neither nation wants war, why are we on the brink? Are the vital interests of either at risk? Again the answer is no. Iraq has vast oil reserves and does not need Kuwait's; we will prosper whether the emir reclaims his throne or not.

The reason we are on the brink of war in which both nations--Iraq foremost--will suffer irreparable damage is that both leaders have irrevocably engaged their personal prestige and sense of honor. Neither man can back down.

Nevertheless, the debate is over. If Saddam Hussein does not find a way to withdraw, in days if not hours, President Bush will attack Iraq, and the Middle East, the world and American politics will be changed forever.

After the fighting begins, Mr. Bush's support will be virtually unanimous. He will, after all, be commander in chief of an army in battle; and the fighting men and women will not be representing a party or movement. They are out there as Americans. But when the fighting ends and the cheering stops, a new argument will begin.

All the U.S. leaders who have gone out to the gulf have told our men that, when it is over, they will be going home. But how can we go home? If Iraq is only wounded by this war, who but Americans can protect liberated Kuwait, the Saudi monarchy and the sheikdoms of the gulf from Iraq's vengeance after the wounds heal? If Iraq is ruined, who but Americans can prevent the predator states of Syria and Iran from moving in and feeding on the carcass?

Americans entered World War II with far greater resolution than today. Yet, after the war was over, not even the presence of Stalin's Red Army in Central Europe could stay the clamor to "bring the boys home!" When the war against Iraq is over, American troops will be coming home, whether Mr. Bush wishes to keep them there or not.

Americans will demand it; and economics and politics, if nothing else, will dictate the outcome. Some \$4 trillion in debt, with a true deficit rising toward \$500 billion, the United States simply does not have the wealth to build a New World Order in which Americans and Brits do the fighting while everyone else--Germany, China, Japan, the Soviet Union--pursues his own selfish interests.

Nor is there the will to keep an American army indefinitely in the gulf. While the invasion of Kuwait is as clear a case of naked aggression as we shall find, support for sending troops to rectify that outrage was nowhere near unanimous. Deep in recession, Americans are going to demand that our freeloading allies start defending their own national interests. This time it will not be a polite request.

When the dead and wounded come home, there will be a sense of disillusionment, a question of: Was it worth it? Five years after World War II, when Stalin had raped Poland, for which Britain went to war, when Mao Tse-tung captured China, for which the United States had fought, the backlash here was terrible and sweeping.

Even now, as we moved toward war for the New World Order, old world cynicism is visible. Already, there is evidence Moscow intends to use a gulf war as cover to settle accounts with liberation movements in the Baltic republics, Ukraine, Georgia, Moldavia and Armenia. Belgrade has similar objectives in mind in Croatia and Slovenia. Egypt's President Hosni Mubarak is warning that if Israel becomes involved, he will reconsider his country's stance: "I do not think Israel would get involved but if it did Egypt would take a different position."

Oh, and what might that be?

When American bombs fall on the Arab people of Iraq, every Arab regime will be destabilized. Some, Jordan perhaps, may not survive. When the war is over, Egypt, Syria and Saudi Arabia will insist, as payment for their support and to restore shattered Arab unity, that the U.S. push Israel out of the occupied territories. But any such attempt by Mr. Bush would split his party, put him in bitter conflict with Congress and polarize the American people.

Here at home, debate over a gulf war has already sundered the anti-communist coalition Ronald Reagan led to victory in 1980. The debate has found liberals calling for war and conservatives arguing no vital interest was at stake in the Shatt al-Arab, and, of course, vice versa, with military heroes on both sides. Given the divisions that exist in our body politic, the divisions that actual fighting will engender are certain to be deep-between the parties and within the parties. When the first American air strikes hit, a new world will indeed be born; but it does not look much like the New World Order of stability and peace Mr. Bush has in mind.

The debate on a gulf war has been full and free; and Mr. Bush appears to have won. Some of us disagreed because we believe the Middle East we know now is preferable to what will come from, and after, the first Arab-American war. Now, we shall see.

That's the end of the article. Does Awareness see that this is a pretty good analysis of what's going to occur if the actual war does happen?

COSMIC AWARENESS:

This Awareness indicates that this is a very well analyzed and thought out argument. There are of course other factors that are yet unknown which will emerge for the outcome of a war in the Middle East, providing it does transpire. There may well be some areas of greater stability that are not mentioned in the article, and there may be other areas of even more instability; that the masses of the region will tend to become much more opposed to Western interference in their affairs and it is quite likely that a new anti-Western sentiment as not known before will flare up among the masses.

This could create instability for the leadership of those nations that are closely aligned to Western nations. The other influence from this can be found in the economic costs in the Western world, particularly to the United States, as this may be sufficient to put the country into a kind of tailspin recession that may be necessary or may be an excuse to call for a national emergency in which a new economic order could be imposed on the people. It may be that the New World Order turns out to be an economic dictatorship based on economy rather than some abstract political idealist outcome.

This Awareness indicates the New World Order has not yet been clearly defined by any of the political forces which use the term and it can, in the final analysis become a world order that fulfills the prophecies of the Book of Revelation, or something to that effect, in which entities may be forced to live in cashless societies, having numbers or tattoos placed on their hands or foreheads so that they are properties of the state rather than free individuals in a free nation. This Awareness indicates that this is an outcome that needs to be guarded against as this so-called New Order is imposed on the world.

This Awareness indicates that a New Order for the world in which the world embraces a kind of democratic constitution among nations, wherein nations are given certain rights, such as are states given rights within the United States, and wherein these nations of the world are given equal justice under world law, and wherein they have the option to join in union with the other nations in a World Order, with certain benefits and certain responsibilities in that World Order; this much as has occurred in the formation of the United States, wherein the first 13 states ratified the Constitution and joined the union, and then gradually others came in to embrace the promises of general freedom and cooperation as exemplified by the democratic principles of the Constitution, which served as a law giving equal justice or promoting equal justice.

This kind of action for a New World Order could go much further than warlike expressions in the creation of a New World Order, whereby entities can believe under a New World Constitution that their country has certain rights, the same as the larger countries, and can have use of a World Constitution that provides them with the rights and the right to sue for those rights if those rights are violated; this kind of expression into a new body of law, of international law that provides remedy for violated nations and provides certain and proper punishment for nations violating each other, through this international law in which sanctions are first imposed and force being the last resort; this can create a New World Order that could help to gradually ensure peace on this plane, on this planet during the next century, to lead away from wars and create greater intercourse between nations for business and for commerce of various types, and trade and cultural exchange so that entities from one nation can travel freely to others, much as entities travel freely between states in the United States or between provinces in Canada.

PEACE

CANNOT BE KEPT BY FORCE.
IT CAN ONLY BE ACHIEVED
BY UNDERSTANDING.

Albert Einstein

This Awareness indicates that the world stands on the threshold of possible utopian opportunities, or it could also result in a kind of totalitarian world government if improperly structured. These are things to be very watchful of during this year and the coming several years as this so-called World Order is assembled, erected or constructed around you.

This Awareness wishes to comment one step further. Much of that which has occurred in this situation in the Middle East hints at the recognition of many of these principles this Awareness has spoken of; the use of an embargo to cause the Iraqi country to behave in a more civilized way is a step in the right direction. It is shameful that a World Court has not been established to hear both sides and to make a fair ruling based on the arguments of both sides of the issue, and that the U.N. was used based on the political influence of nations who held greater influence than others.

This became a political decision as to the U.N. resolution which is less justified than would be a trial by a World Court that in all fairness represented the issues through international law and procedures to give all grieving nations and the aggressor nation equal opportunity to present its case, and when the case is presented and ruled upon by judges that are unbiased, this would then have a greater likelihood of true justice in the outcome of judgment.

This Awareness indicates that in the case of using the United Nations as judge, jury and police or law enforcement, it puts too much power in one body. They create their law, enforce their law, and judge each lawbreaker and there isn't a division of powers as provided in the United States Constitution which allows for a better chance at justice. It is as though one tribunal has all the

power and those who have the greater power in that tribunal tend to influence the outcome. It is a political influence that determines law rather than a justice based on international law equally applied to all nations, and therefore, this is not seen as constituting a proper New Order, although it is a step in the direction that may eventually evolve, as a democratic world society in which all nations are equally represented under the law.

ED's Note: For more information on the Middle East situation, please refer to "Revelations of Awareness" issues No. 90-15 (Possible Scenarios); \$1.00; and 90-19 (Special World Events Update); \$2.00 from C.A.C.

Also recommended are two readings given on the Middle East some years back. These are 80-7 (Turmoil Beneath the Sea of Consciousness: the Monsters of Consciousness; \$2.00; also 80-3 (What is Going on In Iran? Putting the Puzzle Together); \$2.00 from C.A.C.

READ THE BACK PAGES OF THE PAPER

This Awareness wishes to make a suggestion to entities, that during times when there is great attention on certain energies that are strongly in focus, such as in this time there is great attention on the Gulf Crisis in the Middle East; it is suggested that entities not only read information from the front page of the paper, pertaining to that which is in focus, but also to read articles in the back pages, regarding other events that would in all likelihood be major headlines were it not for the events that are taking the headlines.

This Awareness indicates that those who hide their activities often carry out mischief during such times when entities are focused on a strongly dramatic event that takes the headlines and attention away from other activities being done in the shadows. This Awareness suggests therefore, those who wish to be aware should look around in the shadows while the spotlight is on something else, attracting the attention of the crowd. This Awareness suggests that it does not mean you should ignore what is going on under the spotlight, but that you should not be deceived into missing other information that may be occurring in the shadows while the spotlight is shined elsewhere.

ED's Note: What ever happened to Neil Bush, the President's son, whose criminal activities in the S & L scandal was headline news until his pop declared war?

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

"Revelations of Awareness" is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization, for members and non members. All membership fees and donations are exempt from Federal income taxes. All dues and donations are used to spread the messages of Cosmic Awareness to others, particularly at this time, for humanity must be awakened. Your support and donations are much appreciated. We hope you will spread the word to others also. If you regularly make copies of this newsletter and send to others, please remind them that nothing is really "free" -- someone down the line is paying the bill. Tell them if they are learning from the newsletter, to try to join as a dues-paying member, or at least send in an occasional donation to the original publisher of the information. Many thanks!

MEMBERSHIP LEVELS (Honor System)

Effective Jan. 1, 1991, the following rates apply:

LIMITED INCOME: \$30 per year or \$9.00 quarterly.
 INDIVIDUAL: \$42 per year or \$12 quarterly.
 FAMILY: \$52 per year or \$20 quarterly.
 CONTRIBUTING: \$77 per year or \$25 per quarter.
 SPONSORING: \$144 per year or \$40 per quarter.
 BENEFACTOR: \$500 per year or \$150 per quarter.
 PATRON: \$1000 per year or \$250 per quarter.
 ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details).

GOVERNMENT SCIENTISTS CALL NEWLY DISCOVERED HEAVENLY OBJECT A STRAY ASTEROID

Astronomers Worldwide in Disagreement with Official Explanation; Call Phenomenon an Intelligently-Guided Object

By LUCAS HAMILL
Special to The New York Times

WASHINGTON, October 6—United States government astronomers at the National Radio Astronomy Observatory and NASA have identified an uncatalogued planetary object near Jupiter as an asteroid from outside the solar system. Their conclusion has been contested by leading astronomers across the world, who believe the object is not a natural phenomenon.

The object, designated 8-13A, was discovered on Monday by Dr. Leo Moffatt of the Green Bank Radio Astronomy Center in West Virginia. Dr. Moffatt made the discovery while searching for evidence of an atmosphere on Io, a moon of Jupiter. His instruments detected a small object not previously recorded just outside Io's orbital path. The existence of the object has been verified by scientists worldwide.

Dr. Moffatt initially believed that the object was a tiny moon of Jupiter, but its course and velocity persuaded him otherwise. He then assumed it was an errant asteroid on an extremely elongated elliptical orbit around the Sun. He named it Asteroid 8-13A, in accordance with the observatory's classification system.

When the discovery was announced to the scientific community on Tuesday, astronomers throughout the world

focused their attention on 8-13A. Its size was approximated to be 7 kilometers (about 4 miles) in diameter. Scientists expressed surprise that the object had hitherto escaped detection, and focused their attention on plotting its course. No trace of an orbital curve could be found. The object is apparently on a straight trajectory that will take it very close to Earth. According to calculations there is no danger of collision, but if 8-13A's rate of deceleration remains constant it should take up an orbit around Earth just inside that of the Moon, on or about October 25.

In light of the discoveries concerning 8-13A's trajectory, Dr. Moffatt modified his original statement and described the object as a "cometary body from interstellar space" which was making its first and only visit to this solar system.

Not all scientists agree with this explanation, however. Dr. Laurence Rood of the British Interplanetary Society stated, "The facts surrounding 8-13A effectually discount the possibility of a natural origin for the object. First, the object is on a perfectly straight path toward Earth. Second, it is traveling at just the right speed to enable it to enter into a stable orbit around Earth. If it were traveling any slower, it would be pulled into Earth by gravity, with catastrophic results. If it were any faster, it would pass by our planet and move on out of the solar system. Finally, the fact that 8-13A is decelerating as it approaches implies guidance: natural celestial bodies do not decelerate of their own accord. It is my belief that 8-13A is neither an asteroid nor a comet, but an intelligently-guided vehicle from beyond the solar system."

Other announcements similar to Dr. Rood's have been released by independent astronomers and research centers across the country. Scientists at Lincoln Laboratory in Cambridge, Massachusetts have been observing the object's light curve in order to estimate its shape by measuring the different amounts of sunlight it reflects as it rotates. If 8-13A were to show no change or a regular cycle in its light curve, evidence would suggest that it was entirely

smooth and thus, of artificial origin. However, the data shows an irregular light curve. To the undaunted supporters of the artificial-origin explanation, this fact merely means that 8-13A must have a complex shape.

The United States Government is sticking to the natural-object theory despite the evidence presented by leading authorities. At a news conference here yesterday, a spokesman for the National Radio Astronomy Observatory stated, "8-13A is an asteroidal or cometary body which originated in another star system and has traveled here through the emptiness of interstellar space. The apparent deceleration of 8-13A is a natural effect brought about by its passage close to the strong gravitational fields of the outer planets. The possibility of its entering Earth orbit should be regarded by all members of the scientific community as a unique opportunity to study matter from beyond the solar system. This matter, it should be emphasized, will prove to be entirely natural: 8-13A is not, as some radical scientists would like to believe, a spaceship from another world."
