**HOW TO LOSE
THE SPIRITUAL
BALANCE**

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

THE SHIFTING OF CORPORATE ENERGIES: ROCKEFELLER/ROTHSCHILD/ZIONIST/ BOLSHEVIK & COMMUNIST AND FASCIST FORCES: (AN OVERVIEW SORTING IT ALL OUT) ...A NEW AND UNKNOWN FACTOR IN THE EQUATION: THE ALIEN PRESENCE.

QUESTION:

(Excerpt from a C.A.C. General Reading)
May 10, 1990

We got a letter from T.L., which I'd like to read and then ask Awareness if *It* has any comments. He writes: "I have been watching the news with renewed fascination lately, concerning the thawing of relations between American and Russian alliances. I am reminded by my programming that this was foretold by Dr. Beter's Audio Letter number 71, released on January 29th, 1982. Specifically, his topic number 3, "The Shifting Alliances for War". I believe this deserves review.

This is how Dr. Beter defined the game-play for World War 3: 'On the side of the United States, Red China is the Bolshevik's greatest prize up til now. Due to sheer numbers, Red China can tie down 50 Russian divisions. Chinese geography is also crucial, especially Sinkiang province for American bases to attack Russia. Other major allies as of now are Great Britain, Australia and New Zealand. New Zealand, by the way, is far more important than one might expect. The Bolsheviks here are also lining up the North countries: Norway, Denmark and Sweden. Of these, Norway is both the most important and most deeply committed to the war plan. The United States can also count on certain Latin American countries, and now also English-speaking Canada. This last represents a major change over the past three years.

"On the Russian side, the Warsaw pact is still solid, except Poland. Vietnam and North Korea also remain under Russia's control, as does Cuba. In addition, Russia can expect crucial help from India, Mexico and French-speaking Quebec province, Canada. Where Russia has made the most dramatic progress is in convincing nominal allies of the United States to turn neutral at the secret level. Countries in this category include Japan, France, Spain, the Netherlands and even Belgium, where NATO headquarters is located.

But the biggest target of all in this neutral category is West Germany. The Russians are holding out a firm promise to Bonn if the West Germans will simply "sit out" any war to come. The promise, my friends, is a reunification of Germany. That promise was the secret reason behind the recent historic meetings of the leaders of the two Germanies, Schmidt and Honnicker."

And T.L. wraps this up by saying: "Suddenly we face a different world. I don't believe the people involved understand how this will affect the biocomputer's creation of future reality, nor do I think they have considered the possibility of a 4th Reich. I don't see this Skoptsis force having reached the sophisticated levels of deception of the Zionist/Rothschild/Bolshevik elements. My point is that something else must be occurring, such as adjustments occurring on the inner planes." That's the end of his statement.

COSMIC AWARENESS:

This Awareness indicates that the adjustments that are occurring have much to do with the shift in alliances that have resulted from the defusing of much of the Bolshevik influence within the United States and Russia which has allowed the Skoptsis and the United States to form a greater closer pact. If you will recall and review the earlier tapes of Dr. Beter, you will note that the Rockefeller and Skoptsis alliance which was spoken of as having come about after the Battle of the Harvest Moon, several years after that, as being a kind of schism between the Rockefeller factions and the Zionist factions or Bolshevik factions in the United States.

This Awareness indicates that wherein Dr. Beter used the term 'Bolsheviks', this term has its roots back in the 1917 war or revolution in Russia in which the Zionist or Khazar-types, the Khazar Jews from Russia were taken to New York and trained and then returned to Russia to start the revolution and these entities were called Bolsheviks in Russian language. They are essentially the same thing as Zionists. When "Zionism" is Criticized

It must be understood this is not the same thing as Jews, for Jews are numbered in the millions, but these Zionists were just a handful at the time of the Russian revolution and there are today approximately 200,000 Zionists though there are millions of Jews. It is as different as confusing Masons with Protestants. Just because one is a Mason doesn't mean that all Protestants are Masons or that all Masons are Protestants. There has been a propaganda effort by Zionists and Bolsheviks alike to give the impression that if you are opposed to Zionism, you are opposed to Jews.

Even the Jews themselves are often opposed to Zionism.

This Awareness indicates *It* needs to repeat this clarification each time such topics are touched, or quite frequently because that misunderstanding is constantly presented as an argument that one is anti-Semitic if one criticises Zionism or says anything in regard to Zionism. *It* needs to make this clarification on occasion, especially for entities who are not well versed and familiar with these distinctions. This Awareness is not in fact expressing criticism of Zionism, *It* is simply stating that Zionism and Bolshevism are basically the same political element in two different languages: one being in the United States and Western world, and the other being in Russia, and when Dr. Beter spoke of Bolshevism being thrown out of Russia with the takeover of the Skoptsis and that the Bolsheviks came to the United States, many asked: Where are these Bolsheviks? We see no evidence of Bolsheviks here!"

The entity did not use the term Zionism or Zionists, because the term is too loaded for use in this country with organizations that are quite protective and hostile to those who speak of Zionists without equating them to Judaism. In making this distinction it is necessary to clarify that the Rockefeller factions and the Bolshevik/Zionist, or Rothschild faction which are basically the same, have had a kind of conflict which has raged for many years, many decades, throughout most of this century, but even as this conflict has existed between the Rockefeller and Rothschild factions, there has also been a considerable amount of cooperation between these factions also.

That in the political sense in the United States in recent years, the Rockefeller faction has gained a greater source of influence and power, while the Bolshevik/Zionist/Rothschild faction has just in recent years lost most of its influence and power in the United States. That the Rockefeller faction reflects a kind of Fascism, and many of those involved in Nazi Germany would be drawn more into the camp of the Rockefeller faction while those who were involved in the Rothschild faction would include more of the Zionists and Bolshevik types and would tend to lean more toward a kind of Socialist or Liberal type of government.

In recent times, the Skoptsis, who are now in control of Russia, who have driven out the Bolsheviks which took over Russia in 1917, have turned to the Rockefellers as allies and have formed a pact and it is this that has led to the breakdown of the cold war, and it is also part of the reason why the Eastern bloc nations are throwing off Communism, and it is also partly why the two Germanies are now reunifying. Essentially the Fascists are gaining more control in these areas, and Communism is losing its power: Communism being a reflection of Bolshevik/Zionist/Rothschild power and Fascism being a reflection of Rockefeller or Nazi influences or Fascism.

This Awareness indicates that this does not imply or mean that Naziism will rise again or that the Jews or the Zionists or the Rothschilds are all Communistic. It is more that there are two ways of dealing with power and the Fascist type power tends to work more or relate more toward that which is the corporate state, or the use of capital, whereas the Communistic type of power is more concerned with political, state power and state influence, wherein the state becomes the more powerful organ of control.

As a general rule, the Democratic party has tended more toward state or federal control, and this was very strong prior to the Reagan administration. The Reagan administration moved toward defusing much of the federal power, giving more power back to the states and especially more power to corporations. There was much deregulation under the Reagan administration, which reflects the generalized policy of a more Fascist attitude as compared to the Communist attitude.

The Communist attitude actually is more of a reflection of Plato's *Republic*, in which the super-intelligence elite state would run the affairs of all people. However, the Fascist approach is not much different except that it is capital; those who have the gold write the rules. That the shift that has occurred in recent years is a breakdown of the Communistic controls or state controls in the Eastern bloc nations to allow for capital to have greater control in these areas, and this of course means that corporations are now taking over the vacated power of the state; as the state loses power, the corporations move in.

13 Banking Families Own 95% of World's Wealth

Unfortunately, the corporations are owned by a select few people, approximately 13 families owning over 95% of the world's wealth, including most of the major corporations, and this is where the energies have shifted to. In part this brings many benefits; it also brings some hazards because these entities are being placed in a position in which they can set themselves up as world dictators. They can very easily create a One World Government now that puts them in power over all nations.

Enter a New Factor: the Alien Presence

The question that one may ask is: Will they be benevolent dictators or malevolent dictators? This Awareness indicates that the element now which has entered into the equation is that of the alien factor. What about the aliens? Where do they stand in this equation? There was a time quite recently in which these Grey Men, as the Ramtha people refer to them, the international elite who hold the power; these bankers, these financiers that rule the world; there was a time when these entities saw themselves as using the power of the aliens to help themselves set up this One World Government with the backing of the aliens, with their cooperation.

It now has shifted to the realization that these aliens cannot be trusted and are, in fact, using the humans for their own personal ends and that when the time comes, the aliens plan to take over and rule the humans, even the elite financiers of the world, and this has created a new element of the equation which may result in a war between humans and aliens for domination of the planet, and it is in part this element that has led to the extremely rapid changes that have been occurring in the last few months, for within the last year all of this change has occurred.

That essentially, China still remains controlled by the Bolsheviks or Zionists; that Britain, being a Zionist base has held great influence and control in China since the Opium Wars; that its Bolshevik revolution into Russia and the adoption of Communism by China simply strengthened that general Bolshevik or Zionist power in China; that Iran is another Bolshevik dominated or Zionist dominated country and has been since the Shah was

removed. Prior to Khomeini, the Shah was a Rockefeller lackey. The Khomeini power was influenced from the Zionist and Israeli factor. Iraq was a Rockefeller factor or influence.

That the South African nations as having been influenced by Rockefeller energies and powers; that this has changed in the past decade and South Africa has turned to Israel for support and an alliance between these two countries as having strengthened during the past decade. That generally speaking, the Rockefeller factions have gained great power, even though the Rockefeller brothers themselves have lost much of their power or have moved out of this plane, either through death or through the diminishing of their controls. These entities have been swallowed up by the machine they created.

Current U.S. Trend is Toward Fascism

This Awareness indicates that the recent purchase of the Rockefeller Plaza by Mitsubishi of Japan as that which would imply that the Japanese are buying up the Rockefeller's power, but when one realizes that the Rockefellers own most of Mitsubishi, it simply becomes a technique for rearranging taxes for their own benefit by having Mitsubishi purchase the Rockefeller Center. That this is essentially a scenario or overview of the changes that are occurring; that the forces are in struggle with one another; that there is a greater breakdown in the government support that has been traditional toward Israel because the government now in the United States tends to be more toward the Fascist nature than towards the Zionist and liberal type, and the Bolshevik/Zionist factor of Israel as that which does not have sufficient (or as much) power over Washington as it did have a decade or so back.

That essentially the Fascists have gained greater power in Europe, the United States and Russia during the past two administrations. This does not imply that Naziism or anything of that type will ever again rise to the heights of notoriety as was witnessed during World War II. There is however, some potential for this to continue. This Awareness indicates that there is a potential of war in the Middle East. If it occurs, it will be in part due to elements associated with the aliens; that there is some potential for the aliens to attempt to trigger a war in the Middle East, to get the humans fighting each other, as they have done so often down through history, over religious beliefs, or over cultural differences, and the most easily ignitable area for this is in the Middle East.

A Space War or War in Middle East by 1995?

If this is to occur, it could well occur between '93 and '95. It is also suggested that by '97 the Reptilian or Reptoid invasion could occur. A space war could break out. However, the potential for this is approximately 50 percent. It is approximately 50 percent likely that a space war or war in the Middle East will occur between 1993 or 1997, or will be in progress and developing during that time period. In the event it occurs, the United States and Russia will be seen as allies, along with most of the European countries. It will be the powers in the Middle East that will tend to be the aggressors in such a potential war.

There is, of course, the 50 percent chance that it will not occur, and entities can energize this.

This Awareness reminds you of the Nostradamus predictions; that these still carry and reflect energies that are powerful and which may still occur.

A RISING NEO-NAZI THREAT IN GERMANY?

(The Alien Connection)

(FOLLOW-UP QUESTION):

There are a number of stories lately, that a lot of people in Europe, particularly the smaller countries that were dominated by Germany during World War II, are very paranoid about what's happening with Eastern Germany and the talk of reunification, and they say now that West Germany is the most powerful country economically in Europe and there's all kinds of fears, plus there are stories that anti-Semitism is rising up again and that there are neo-Nazi type organizations making themselves heard. Does Awareness see this as being the threat that some of these people in Europe think it is?

COSMIC AWARENESS:

This Awareness indicates that this has some degree of validity; that the threat is not of great importance at this time, but it does need to be watched so that it does not begin to develop and grow more powerful. That the purpose of reunifying Germany at this time as also related to the alien threat; that Germany has long been involved with the CIA in helping to deal with the aliens; that there have been connections between and arrangements with Germans and the CIA in this regard for quite some time, and these entities, these German entities working with the CIA, constitute a powerful alliance and it is seen that by bringing about this unification, Germany can become a power quite helpful in the event of a war with the aliens; that Russia, Germany and the United States, working together to build up the technology needed to fight off an invasion by the Reptoids would be a powerful axis or alliance; that the other nations would also participate.

This Awareness indicates that there is more to this than can be released; that this Awareness cannot safely divulge further information relating to the involvement or relationship of the aliens in regard to what is occurring in these areas, without offending certain elements; that offending action could bring problems. It is not so much that *It* would be releasing secrets; it is not the government that would be offended; it is more that there would be individuals offended and it could cause problems for your organization, --this having to do with alliances relating to drugs, aliens and other influences. These being part of the scenario. That this relating also to the cartel in Colombia.

HOW DOES JAPAN FIT INTO THE PICTURE?

FOLLOW-UP QUESTION:

How does Japan, and its incredible technology and industry fit into the picture?

COSMIC AWARENESS:

This Awareness indicates that Lawrence Rockefeller was the entity who brought Japan's economy up after World War II, who was in charge of bringing capitalism to Japan to rebuild the nation, and the influence of the Rockefellers in this nation as that which has been extremely powerful; that it is not to say that the Rockefeller family has power there, but that the networks or alliances that developed as a kind of Rockefeller creation has an interlinking relationship and that the stocks and monies invested in Japan by corporations owned or held

or controlled by the Rockefellers have helped to build Japan, and many of the Japanese corporations are controlled or strongly influenced by stock held by Rockefeller companies and creations or Rockefeller entity creations such as companies, corporations, that are held by the Rockefeller family, such as the Mitsubishi and SONY and some of the other major companies in Japan.

It has been indicated before SONY means Standard Oil of New York. (ED).

How Rockefeller Gains Control of Corporations

This Awareness indicates that the power in Japan as that which owes much to the monetary direction and input from the Rockefellers following World War II, that much of the power held by Japan is still controlled by these influences. This Awareness reminds you that a major corporation that is built on stocks in which millions of shares are available, can be controlled by less than 50% ownership, even by 5% ownership, if all of the others holding stock only have one or two percent. Whoever holds the greater amount of stock, generally can have a greater influence over the other stock-holders of a company, and therefore, even owning a small percentage in comparison to the whole, an entity can control or hold strong influence in the policies of that corporation.

Thus, one spreading wealth throughout many corporations, can direct these corporations to buy and sell and to evolve and change, even without owning a great portion of the stock. It was in this manner that the Rockefellers were able to gain so much power over so many corporations and to watch that power grow through the years. Of course, the Rockefeller empire is now owned by many individuals which includes the Rockefeller grandchildren but which is not limited to them. It includes many other stockholders also.

This Rockefeller empire has become more or less an entity of its own making or its own self. It is likened unto a multiheaded creation. It is a kind of creation that has outlived its creators and is now holding and carrying a mass of stockholders, boardmembers, organizations and corporate heads in its body.

A UNIFIED, SOCIALIZED EUROPE ?

FOLLOW-UP QUESTION:

A question from D and S.F. which Awareness might have answered in this last question. They write: "How much of the new political freedom and attempts at economic improvement is more of an attention diverter to keep people in the United States and Europe from understanding the ramifications of a unified Europe, a Socialist unified Europe that is?"

COSMIC AWARENESS:

This Awareness indicates that the unification of Europe as a kind of Socialist action is an effort by the Rothschilds to compete with the Rockefeller/Fascist or capitalist energies that have emerged as being more powerful than the Communist energies that were originally fed by the Rothschild experiments; that the socialist countries that will develop in Europe will still work through a kind of modified capitalism, having socialist qualities, much in the way of Sweden, so that there will be, even as time passes a degree of socialism

5. continuing to influence the economics of Europe; that the entire area will be more like that of what could compare to a Democratic administration in the United States as compared to a Republican administration in the United States, whereas the socialist Europe will be more left-wing oriented in terms of its economic policies. The United States will tend to become more right-wing oriented in its policies, and there is a strong likelihood that this same kind of right-wing orientation will spread into Russia at some time during the coming decade.

This Awareness indicates that the concept of Fascism/Communism will never reach the extremes that have been known in the past, and that right-wing and left-wing span will be closer to the middle so that there will not be the great differences of extremes that entities have witnessed in the present century, especially during the time of World War II and of the Communist revolution. Rather, it will tend to be more of a middle of the road type governing on both sides of the Atlantic. That just as there are little, much smaller differences in your Republican and Democratic parties in the United States today, in comparison to what this meant a hundred years ago, likewise, Fascist and Communist environments will become more closely reconciled toward the middle so that the extremes will never again be witnessed.

It will in fact, not even be thought of as Fascist and Communist, but rather as Conservative and Liberal, or Capitalist and Socialist in nature; this not a great deal of extreme differences between the two.

ON THE EVE OF THE MIDDLE EAST WAR: A CAUTION

(Closing Message, C.A.C. General Reading) Jan. 14, 1991

This Awareness indicates that with two days remaining before the deadline and an uncertain future, entities need to be evermore cautious in regard to those things they hold precious in life. It is important to know what your priorities are, to know what the dangers are, and to be most cautious where you move, as well as what you say. That it is important that you be aware of the threat of terrorists, especially if you live in areas which might be high target areas, for there is considerable danger in the coming weeks of terrorist activities against high profile or special targets in the United States; areas in which there are crowds, areas of importance in terms of newsworthy targets. It is important to be most careful to avoid such places if possible, unless it is absolutely necessary to be there. It is important to stay abreast of the news in order to make sure you understand things that are occurring which may affect you.

This Awareness indicates that there may be propaganda and manipulative broadcasts to move public action and opinion toward certain behavior. It is good to have a grasp of reality and to know that some things that are presented may not necessarily be factual. This Awareness suggests skepticism, along with careful discernment can be healthy during such times, but especially entities need to be cautious in regard to taking care of their loved ones, and not becoming careless in terms of their business life, but to monitor their economic conditions so as to be ready in case there are sudden shifts in the economy and be ready also in case there are sudden political upheavals or alterations, so that you are not under great surprise and anxiety in regard to effects that occur in your society.

...MORE THAN ONE WAY TO NAB A CULPRIT
KARMA DOESN'T ALWAYS WORK THE SAME WAY
...(What Happens When One's Grace Runs Out)

(Closing Message, 5/10/90 No. 8)

This Awareness indicates that entities consider the concept of karma in a way that may not have been fully understood previously. That one often thinks of karma as cause and effect and there is a tendency to think of cause and effect as being something that is a direct cause, leading to a direct effect; that like the striking of a ball, when the bat hits the ball, the ball moves as a reaction to the cause.

In many cases an action will occur, an entity will take an action in life, and it may be an inappropriate action and the entity will appear to get by without any reaction, or without any adverse karma, even though entities might look and say: "He deserves to be punished for that!" This Awareness indicates the entity might get by several times.

This Awareness indicates that entities who get a direct karma, direct reaction to their karma are entities who have not built up any grace and who are living on the edge. Entities who have stored up some grace can get by with negative action for a period without immediate negative response or karma, but sooner or later, their grace runs out. The Higher Self says: "This is enough! I have given you the benefit of a doubt repeatedly, and you continue to act in a manner that is negative and causes negative problems for others. It is time you got a dose of your own medicine. It is time you suffered the consequences of your action."

This Awareness indicates that when an entity's grace, good grace runs out and the entity has repeatedly enacted in a negative way, he or she may be put in to a situation in which they receive a negative karma from some act that may not have even been deserved. It is likened unto an entity who, committing robbery five times in a row without being caught, suddenly finds himself being accused of stealing something which he didn't actually steal and going to jail for it and wondering: "How could they do that to me? I didn't even steal it! I'm an innocent person!" yet the entity as having stolen or robbed five times in a row without getting caught.

IS THIS AN ISRAELI WOMAN AND CHILDREN HIDING FROM IRAQI ROCKETS OR
IS THIS AN IRAQI WOMAN AND CHILDREN HIDING FROM U.S. ROCKETS?

6. This Awareness indicates that this kind of karma can occur, and many times, entities who feel that they have been wrongly punished should stop and look and ask themselves: "If I was wrongly punished for this act, did I perhaps really deserve the punishment for something else that I got by with earlier?" That in understanding this you will have a greater respect for the *Law of Karma*.

This Awareness suggests that likewise, in a reverse sense, entities who have attempted to do something repeatedly, who may have had some adverse karma built up, or need to develop certain discernment, may try, try, try, again and continue to fail, but at some point good luck strikes and the entity gains, even when the entity perhaps did not expect the gain. This Awareness indicates that you do not always get direct karma, good or bad, directly from action associated with the event. It sometimes follows steps later, days later, events later.

DID A MOTHER SHIP CALLED "NOAH"

SAVE THE DINOSAURS?

QUESTION:

We get a little publication called *Stargazer** out of Austin, Texas, and in their current edition is something that seems very hard to believe, and I'd like to read this and ask Awareness if this is exaggeration or what exactly it is. It says:

For all of those who have felt sadness over the supposed demise of these great beasts, breathe a sigh of relief...they are saved. Our star-friends showed us holo-images of a great number of dinosaurs in a soothing green, beautifully landscaped environment aboard a mother ship which they quickly dubbed "Noah" (they're so clever). When our star-friends during that era of Earth's history (many of whom are the same ones we now communicate with) saw what was happening, they saved many of the lifeforms which were perishing. "Noah" is the most incredible zoo of our planet's history. The ship's size is almost unexplainable, it's so huge. There are animals there from our past which we didn't know had ever existed...mostly mammals but also reptilian and avian. Many of them have bred because "Noah" does not feel like a zoo (or being in captivity). As always, our star-brothers and sisters are in awe of and curious about our species and have studied them over all these intervening centuries. Once Terra has undergone all her changes and there is a perfect place for them, the dinosaurs and other beloved creatures will be reinstated on the earth plane.

* *Stargazer*, 7100 N. Sioux Tr. Austin, TX. 78729.
(A quarterly. \$15 per year).

That's the end of the article. Is this a fabrication, or is there some truth to this?

COSMIC AWARENESS:

This Awareness indicates that it does appear that there were remnants of various species taken to other planets during the earth's past history; that many of these remnants were placed in sanctuaries or places where they could develop; however, it does appear this story itself is a fabrication based on imagination, and misinformation. However, it does appear there are, in some places, in other star systems, creatures similar to those on earth and that there are some earth creatures in some of those other places; that entire continents on other planets have been set aside for zoo-like sanctuaries for some creatures.

This Awareness indicates that many of the creatures on earth were actually brought to earth by aliens. Many of the foods of earth came from other planets, other star systems, and many of the foods and creatures of earth have been taken elsewhere and cultivated there.

THE PERILS IN FALLING FOR A GURU, TEACHER OR SPIRITUAL LEADER ?

Searching For God in a Horse Barn: (How to Discern a Cult When you See One)

QUESTION:

(Excerpt from a C.A.C. General Reading, May 1, 1989)

We received an unsolicited letter recently from a couple living out here in Tenino, which concerns, I assume the Ramtha organization a few miles down the road in Yelm. Attached to their 3 page printed letter was a note to C.A.C. requesting a free sample of our newsletter and a personal notation that read: "Enclosed is a copy of a letter I wrote to some people in Arkansas who are moving up here to be in a school for enlightenment. Thought you might find it interesting."

I'd like to read this printed letter of theirs and ask Awareness to comment or analyze what this couple is saying. She writes:

Dear Friends, We were pleased to get your letter. We have indeed heard our son speak of you many times in glowing and loving terms. We're delighted that you are moving up here and looking forward to meeting you. We don't know much about the job market. We do know that many have not been able to find work in their fields and have taken minimum wage jobs. But you probably won't have much trouble finding work in your fields. At this time we don't know anyone who might provide you with temporary parking space for your travel trailer on their property, ..but will continue to ask. There may be many who would. You just need to find them. Perhaps an ad in the newspaper you spoke about would connect you with possibilities.

You asked for any advise that we might could give you concerning current conditions in Washington State. A reminder to be careful what you ask for, for you will surely get it. Of course, we can only give you our view of what it looks like to us.

The 'Enlightened One' told us that he would give his last verbal teachings in May '88. After that he would still be with us...teaching us in a non-verbal manner. No one wanted to believe that he was really going to stop channeling, and force us to look within ourselves to get his non-verbal teachings. And if he stopped channeling through her, how would his channel maintain her lifestyle, which according to a report on her divorce in a local newspaper, cost approximately \$37,000 a month. She had tried giving seminars on her own and had very few customers.

Remember the story about the Emperor who had no clothes? Well, shortly after the Enlightened One made his announcement, a few folks noted a change in his voice, his lingo, and his overall style. But no one that I knew of dared to suggest that he had in fact left. May '88 came and went and his channel continued to schedule events. A story appeared in the "newspaper" explaining that it had been the channel and not the Enlightened One that had been planning to quit channeling in May. Wonderously she had experienced a personal breakthrough and was now willing to continue channeling.

The new teachings that came forth contradicted the Enlightened One's teachings. It was admitted that the old teaching was a lie... that we really don't get to choose our parents because we're too far down on the evolutionary scale to be allowed that privilege. The entity quit referring to himself as the Enlightened One, and just leaves it up to the audience to assume that they are in the presence of the Enlightened One. Unlike the Enlightened One, the entity began to accept and revel in the praise and worshipful standing ovations. He says he deserves such and encourages more of the same.

The Enlightened One has had quite a bit to say about Jehovah and his fear-inspiring tactics of mass murder, power displays and inhumane treatment of his people. Now, in the Bible it is recorded that Jehovah and his angels utterly destroyed the cities named Sodom and Gomorrah. Well, on the UFO tape sets this entity claims that his people are the beautiful, tall, blond people of the angelic order talked about in the Bible. He said that he is their prophet. He says they are the ones who blew up Sodom

and Gomorrah with their huge beamships, and that such actions may again be necessary. He stated that if you are in judgement about, or can't stomach such power displays, then you are not yet ready for his secret teachings. He declared that his beamship is currently in our skies again...That our government is aware of the huge ship that covers half the sky, and said some of our government officials are foolish enough to think that they could shoot it down. He laughed scoffingly at such a preposterous idea, said this ship is capable of annihilating the entire planet with one blast.

This FEAR inspiring threat of awesome power coupled with this entity's blatant admission that he is the god of the Old Testament in the Bible should have been enough to jolt us awake and cause us to realize that he isn't our beloved Enlightened One. The Enlightened One never used FEAR inspiring tactics. He inspired only LOVE because he is the essence of LOVE.

The Enlightened One and another famous channeled entity warned us many, many times that Jehovah was coming back and that he would amass a following through channeled behavior. They told us to not be naive enough to think that he would be stupid enough to appear through a channel and speak, "Hi, I'm Jehovah. Worship me or I'll blow you all to bits." He's far too clever for that. We were warned that there was no way to tell where he might appear...who he might channel through. That the only way that we could recognize him was by what he teaches and the FEAR he inspires by his secretive and deceptive tactics. They said he would say, "Follow me and my teachings, for I am the only one who can teach you what you need to know in order to make it through the days to come." He would give forth dogma and rituals that are supposed to save you in exchange for your giving your power unto him by loyal worship of him and his sacred SECRET teachings.

Now this secretive entity is teaching these very things in a very aggrandized manner, "Make the sacrifice of big bucks paid to my channel to be in my ten year school for enlightenment...Be in all of the *required* events...Prove your worthiness to receive the sacred SECRET teachings by demonstrating your *passion* by being at all of the events you possibly can...and most of all you must keep your mouth shut and tell no one about the sacred SECRET teachings. The SECRET teachings will be delivered as you prove your worthiness to receive them. I watch you...and if you tell the teachings to anyone, the rest of the teachings will not be given."

I said that he is teaching these things in a very aggrandized manner....I meant aggrandizing to him and his channel...but certainly not to the students. The students are required to sit and lay on their blankets laid in horse manure in a large and crowded arena. The entity struts around in the grandest of robes, shouting things such as, "Sit up straight!!! Don't be such a slouch!!!" He plays rock music at full eardrum-splitting volume, and shouts instructions to breathe harder. Oh, yes, I forgot to mention that among the dogmas and rituals that he has given so far, is that they must breathe violently for long periods of time with their hands held up in a certain arduous position in front of them. Several students have told us that they have spit up blood in this process several times. And most of them are sick with respiratory problems much of the time.

The channel's marriage to her soulmate went on the rocks. Last summer her husband moved out of their mansion and a young boy moved in. The boy took the soulmates place upon the stage and the entity gave a new teaching on soulmates which essentially said: You can forget about all that soulmate jazz. What matters is that you live your truth as does my woman.

The "newspaper" reported a good bit about the fiasco that the last retreat turned out to be...Enough to upset the channel greatly. Apparently she doesn't appreciate good journalism that gives press to both sides of the story.

The retreat was a dramatic display of FEAR. The question of why the channel ran like a scared rabbit because of a couple of threatening phone calls was answered by claiming that the Entity cannot interfere in human affairs to save the channel's life or the life of anyone else. He couldn't reveal the identity of the terrorist, diffuse a bomb, nor deflect a bullet, because that would be interference. Apparently blowing up whole cities and murdering countless innocent men, women and children is not considered to be interference by this entity. Otherwise he would not have bragged about what they did to Sodom and Gomorrah, and threaten to do the same again if things don't go to suit him. But SAVING a life IS interference.

During the retreat the entity said that there were three TRAITORS on the channel's staff. He had overheard them ridiculing the faithful for being foolish enough to stand in a pasture in the rain to receive the teachings. The channel fired considerably more than three of her staff. Better to punish the innocent than to risk that the guilty go unpunished? She re-hired some of those whom she fired. The moral of the lesson: Don't be a TRAITOR or your innocent friends will suffer because of you, had been made.

What is a TRAITOR? Apparently to this entity it is anyone who thinks it foolish to stand in a pasture in the rain to hear the teachings, when there could have been more humane solutions to the situation. Or maybe it is anyone who DARES TO QUESTION anything that this entity does. If he decides to teach in a pasture in the rain because city officials have said it is illegal to hold the meetings in the arena, best you keep your irreverent opinions to yourself. Otherwise you will be JUDGED a TRAITOR and cast out forever.

The Enlightened One never judged anyone for anything. I cannot imagine him making such a judgment against anyone. But this is the kind of swift JUDGEMENT and PUNISHMENT that Jehovah is famous for.

It seems to us that it would be wise to take a long hard look at this entity, in making the decision of whether to be in his school. Carefully consider the way that his mind works or reasons. Is this secretive, judgemental, lying, mass murderer who can't interfere to save lives, who we really want for a teacher? Can we trust such an entity to teach us how to save ourselves? Or will he just usurp our power for his own aggrandizement the way Jehovah always has?

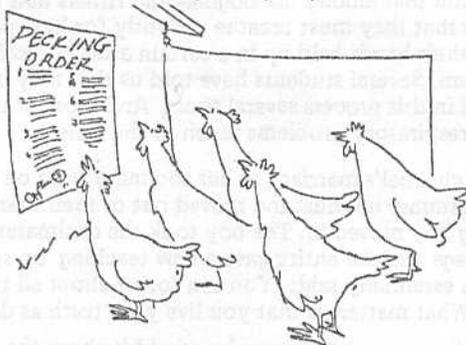

We think it would be much wiser to turn within ourselves, remember the teachings of the Enlightened One, and look to the God I AM to teach us all that we need to know to live and love in joy throughout all of the days to come. That is what we are choosing to do.

We still think Washington is the best place to be in the days to come, and hope you will not be dissuaded from your decision to move up here. Contact us when you arrive. We would love the opportunity to get to know you. Our phone number is 206-291-3559.

Love, Toni & Jerry
Friends of the Enlightened One.

P.S. Copies of this letter will be distributed to all concerned whom we are able to reach, including the "newspaper" and the channel herself.*

*Windwards'-an excellent New Age paper CAC had recommended many times, but put out of business by the 'Ramtha' channel's sudden prohibition of transcribing its messages for publication.

That was the end of the letter. Would Awareness comment on that information please?

COSMIC AWARENESS:

This Awareness indicates that the explanation of the changes that have occurred as being responsive to the situation. This Awareness indicates that it is indeed somewhat shameful in the sense of sorrowful; that what had been such an inspiration to so many has begun to lose the shine and glow and to turn toward this result. This Awareness indicates that this as that which needs always to have entity's highest ability and discernment in regard to becoming involved in any form of spiritual or so-called spiritual action, an example in which that which even appeared pure at one time, can become less pure under certain circumstances.

This Awareness indicates that the courage of these two entities to present this information and the clarity by which they expressed themselves is that which reflects their own higher levels of awareness and discernment. This Awareness suggests that it be printed and spread for others, that they may also beware of those potentials that may continue to creep in, in the event this channel and that force which is using the channel at this time does not reverse itself. This Awareness indicates there are great lessons in this circumstance for entities to learn from; that the teacher is not to be elevated above the teaching and that the teaching is that which needs to be examined, and not taken strictly by faith because the teacher is alleged to be sacred. Let entities learn to discern from the teaching whether it is from higher spirit or from lower levels of personal aggrandizement, and benefit.

This Awareness indicates there are quite often, too often, so-called teachers whose main purpose is in the development of followers. This Awareness suggests that there can be followers, but a teacher should never seek followers, should only seek to give the message as necessary for benefitting those who hear. This Awareness wishes to comment on gurus in general, teachers and spiritual leaders; that it is very tempting for a great majority of individuals who become public figures in terms of their spiritual messages, their philosophical or spiritual teachings, it is not unusual for them to bask in glory of fame and attention, to become used to and to expect that praise and glory of being held in high esteem because of some spiritual message which they deliver to eager ears.

This vanity of the great teacher complex is that which is a trap for that teacher and which can lead to the downfall of that teacher; that humility, not just the appearance of humility but genuine humility of a spiritual teacher is an absolute necessity. That when any teacher attempts to over-commercialize and to control the action as a business with the emphasis of the business being greater than the importance of the message; that teacher is losing spiritual balance. This Awareness indicates that it becomes necessary in giving messages to masses, that some form of structure and organization is developed in order to allow the teacher to function effectively. Without such organization, without such structure, the teacher, the messenger could be overwhelmed, and figuratively speaking, devoured by the hungry.

The Nature & Structure of Cults & Organizations

This Awareness indicates that the nature of the structure and organization as that which needs to be examined, for an entity can organize and structure in such a way as to attempt to build an empire protecting the teacher of the message, and expanding that empire and keeping those who are followers of the message into a state of citizenship, whereby their loyalty becomes an issue, whereby their bondage to the teacher or channel becomes an issue, so that in effect, the entity is creating an empire of some significance around the teaching and capturing followers as citizens of that empire, even though it may be quite small, or may be quite large. It is when the teacher begins to demand loyalty that entities need to be most cautious.

This Awareness indicates the essence of cult development requires that those who are caught into a cult become somewhat isolated from any outside contacts or influences, dependent on the cult leader for instructions and directions, discouraged from making decisions on their own without guidance from the cult leader or his or her followers, lieutenants or other disciples. Dependency in terms of decision making, generally comes from the cult leader or someone who is assigned to act in behalf of the cult leader, and often these entities within the cult are encouraged to spy on each other and report to the leader; all of these qualities being such as to discourage individual motivation and action and cut the entity off from outside influences.

This Awareness indicates that you may recognize this as also reflecting certain things in the traditional churches; that even traditional churches can take on the qualities of cultism, although they would be the last to admit it. However, it is all based on coercive and manipulative efforts to induce loyalty to the cult, and the cult leader or representatives. If you are involved in such, it would be good to question and to ask yourself if it might be in any way inhibiting, threatening or intimidating for you to leave or study some other discipline, and whether there would be some form of punishment or threats for you to do so. These threats may be imaginary, psychological, or physical in nature.

What a Cult Doesn't Promote

The non-cult activity of an organization as that which allows entities to look in different directions, at other disciplines, encourages entities to become involved with outside contacts, discourages entities from worshipping a central leader or his or her representatives, gives information without demanding strict obedience to that information, so that the entity can select and choose the information according to his or her own needs, rather than as

9.

a doctrine being enforced upon the follower, discourages the very concept of becoming a follower, even though presenting the entity with information that can be of value, letting the entity choose what to accept and what to discard in terms of the information provided.

This Awareness indicates that in this scenario of the non-cult organization or activity, you will see that the individual is not coerced into displaying loyalty, but is encouraged to study and learn whatever will be of benefit to the individual, in terms of his or her growth and development, is encouraged to develop according to how the individual selects from the provided information. The non-cultist organization makes no effort whatsoever to prevent the entities from going outside the organization for other information, even though it may give warnings in regard to certain information from other groups or cults, so that an entity does not wander into dangerous areas without first being forewarned.

This Awareness indicates that if you can understand this, that the key distinction, not the only distinction, but the main distinction between the cultist organization and the non-cultist organization has to do with the issue of loyalty. If you are coerced by an organization to be loyal to certain beliefs and patterns of structure or individuals, there is the element of cultism. This is not limited only to groups that have sprung up in recent times. You will notice that it fits many of the aspects of traditional Christianity. In some instances, it is stronger, in other instances it is weaker in terms of the traditional religious organization, but loyalty is a form of bondage and it is one thing for an entity to bond oneself willingly to something, out of loyalty; it is quite another thing to have that something else demanding loyalty, demanding bondage, insisting on the bonding.

This Awareness indicates that one can be loyal to a belief or a philosophy out of one's own free will, and if that is truly one's own free will, the entity can walk away without threat of punishment, whether physical, mental or psychological, but when one cannot walk away without great fear of punishment, cannot leave the order, the organization, the religion, the group, without fear of either group punishment, social ostracizing, psychological threats, threats of magical or supernatural punishment; when this entity cannot walk away of his own free will, he is then subject to the coercive powers of a cult.

Structure of the Non-Cult Organization

This Awareness indicates that in regard to the non-cult organization, that establishes rules which must be present if there is any organization whatsoever, there must be structure and structure implies certain rules. Those rules must not be to bind the individual, but to protect the organization, its information and its function and the way by which the information is presented. When the rules and structure of an organization are set up so as to protect the organization's rule, structures and its information so that it does not become misused, distorted, twisted or perverted by some individual, that is justifiable in terms of the organization's need. It is not controlling the individual in order to possess the individual, it is issuing controls in terms of the structural needs of the organization to protect the organization's own essence, meaning, expression and needs.

Thus, if an organization says: 'You cannot take this material and use it in any way other than as applied by the instructions, this is justifiable and proper. It is not some kind of cultist control over the individual for whom the rule is given, because that individual is not coerced into remaining in the organization under those rules. The individual can walk away and start his or her own organization but may not misuse the information, material or essence of *this* organization in any way that is violative to the organization. There are many entities who think that if the organization has rules, it is 'old age' in its nature, it is not New Age; that rules have no place in New Age thinking, and that everyone should have the right to do what they want.

This Awareness indicates this is absolutely absurd! Where such thinking came from is beyond this Awareness. It is as though you were to say to an individual: "Don't go by your head, go by your fingers, go by your toes. What do they tell you?" This Awareness indicates the central processing section of an organization is its head. It appears where the organizing takes place, and for the masses to come in to an organization with the idea that they have the right to take the material of an organization and do with it as they will, without regard for the purposes and structure and intent of the organization, it is as though they were raping and stealing from that organization.

In such a case, the organization is not cultist, the individual is more likened unto a cultist. This Awareness indicates that when an organization is in the form of a cultist organization, it seeks to control the individuals that make up the organization's membership, or clientele, and the control which the organization has over those entities, is generally reflected in the rules. The rules reflect some kind of control that are not simply protective of the organization's purpose and ministry and expression of its information. The rules of the cultist organization attempts to regulate behavior, personal behavior of the individuals involved..

This Awareness indicates that when an organization dictates behavior of an individual as that behavior applies to organizational concerns, this then is legitimate, but when that organization's attempt to dictate to individuals behavior that is of no concern to the organization or its purposes, but only to help keep the individual psychologically contained or controlled by the organization, by dictating behavior in such a way that the individual loses freedom of choice, freedom of behavior; when that freedom of choice and freedom of behavior does not in any way reflect on or influence or distort the purposes of the organization, then that influence of the organization is in error and reflects a cultist organization.

This Awareness indicates therefore, entities must learn to distinguish their rights. There have been entities who have argued that they do not wish to be told what they can and can't do, and this is fine, but then they enter into an organization and begin to alter the procedures of that organization, as though they had the right to tell the organization what it can and can't do. That in such a case, they are violating the organization and forcing it

^{10.} to comply to their will, much as others might feel oppressed if the organization forced them to comply with its will.

This Awareness indicates the best way to look at an organization is to think of it in terms of a relationship wherein the rules and regulations are part of a contract. If you want to belong to the organization, check out its rules. If you don't like the rules, arbitrate for different rules or don't sign the contract. It is unfair for entities to enter into an organization claiming to want to comply and be part of the organization, to receive the benefits, but refusing to abide by any of the rules of the organization, or demanding the right to break the rules according to their whims.

How Some Entities Violate an Organization

This Awareness indicates that an example being, wherein material is released under certain conditions, to be used by those who receive the material, but the receivers of the material refuse to abide by the conditions and decide to take it on their own to use the material in a different way, or they may use the name of the organization in a way that was never intended by the organization. They may take the name of the organization and start some new action that was never part of the structure of the organization without consulting or discussing with those who are responsible for the organization, what they are doing in this new structure and action. This is a violation to the organization from whom they steal energies and whose name they use in their action.

This Awareness indicates that it must be understood that there are violations that can occur from organizations to individuals, as in cultist groups. There are also violations that individuals can infringe upon in the organization to which they relate. This Awareness indicates that *It* wishes to see entities discern more clearly the differences, so that many of these difficulties do not destroy legitimate organizations because of individual challenges, and so that organizations do not destroy individuals' lives because of possessive coercion and bondage, in which the organization uses the individuals unfairly.

IS THE YELM, WASHINGTON AREA SAFE FROM EARTHQUAKES & OTHER CALAMITIES?

FOLLOW-UP QUESTION:

This organization, referred to in the letter that was read earlier, appears to have gained a large following in this county, where the headquarters is, by sending out channeled information for a few years, that the Northwest in general, and Thurston county and near Yelm, Washington, in particular, is the only safe place in the United States from the coming cataclysms, earthquakes, etc. Now, when I read this, I thought, that isn't particularly true, because there's a big fault line that comes through Mount Saint Helen, and comes through county and through Olympia, which has had a history of some pretty good earthquakes in the past, and it occurred to me that maybe this was simply misinformation being put out in order to gain a large gathering of followers in the immediate area of the organization. Does Awareness see this as being logical, or is the danger of earthquakes as great as the information they put out implied?

This Awareness indicates it is of little consequence whether entities live in this area or some other area, in terms of safety factors; that the message was more toward that of subjective purposes and interests in which the message was interfered with by these subjective interests. This Awareness suggests that this area as not being that much safer, in general, than most other areas of similar quality. It all depends on what kind of safety you refer to. In reference to earthquakes, this area as safer than some, and not as safe as others. In reference to potential for nuclear holocaust, this area as not being safe, for if attacks were to occur in a military sense, the Boeing industry would be targeted and the area locally would be hit with the repercussions and firestorms that would result.

This Awareness indicates that this of course is of little likelihood, but must be considered when discussing safety. That in terms of safety regarding economic concerns, this area is not any more economically sound than most other areas in the nation. It does have some diversities which have economic benefits but not any greater than most areas. Weatherwise, it may be seen as safer than areas in which there are tropical storms, but it does have rain and cold weather at times. That generally speaking, it is a pleasant area, but there are many other pleasant areas in the nation. This Awareness indicates *It* sees no reason why this prediction was made in regard to actualities.

ED'S NOTE: Olympia has had a number of rather severe earthquakes in the past, which took lives and caused much damage. In fact, 40 years ago Olympia had one that registered 7.1 on the Richter scale. Last year's San Francisco quake was registered at 6.9 and you saw the damage of that one on TV.

This printed letter from Toni and Jerry was mailed in May, 1989, but since then they have published several more on this same issue. A few weeks ago CAC received another of these printed letters, this one 12 pages long, and explains to those many Ramtha followers who wrote to them that they were "Ramtha bashing" exactly why they feel that Ramtha "The Enlightened One" has left, as promised, and is no longer being channeled by J.Z. Knight, and the entity who is now coming through her channel is none other than Jehovah, who they believe is leading innocent Ramtha followers down the left-handed path. Using the very words this entity has uttered through the lips of J.Z. Knight, Toni and Jerry present an extremely compelling, logical and straightforward, non-judgmental argument for their cause. Having read Ramtha's philosophy in the white book (which CAC sells, incidentally) and having no quarrel with it, this editor can not help but agree that whoever is coming thru the JZ channel these days, it certainly is not the gentle, loving Ramtha. What is really scary is that the entity, in an ongoing series of expensive seminars, is telling his students that comes the time of passing over, they must not go toward the light, but turn the other way, avoiding the light and head into the darkness, the 'void' as he calls it. This is contrary to everything Awareness has ever told us on this subject. CAC has quite a few Ramtha people in its membership, but my personal efforts to get them to discuss this issue, along with the UFO information purportedly put out by that organization, is met by a stony silence. Evidently, they have been sworn to secrecy, or perhaps been threatened. Whatever reason, they keep their mouths shut. No sharing of the UFO information, no warnings to humanity of the horrific implications to come if the public is not informed, each appears to be only taking care of 'Number One.' The last few times I have driven out to Yelm to check out the Ramtha bookstore, I have felt a sort of pall and paranoia hovering over the area. The store is always full of smiling people who nod and whisper with that

smug little look that people sometimes get when they feel they know something the yokels out there in the street do not have access to. My conclusions were that for many of them it is a selfish trip. They are taking care of number one, digging in for the heavy times ahead; utilizing copper and other things to hopefully protect them from surveillance, from monitoring by aliens and authorities etc. There does not appear to be any concern for anyone outside the esoteric sanctions of the Ramtha stronghold, no effort that I could see to alert the 'ignorant' masses. Although the welfare roles have swelled to new heights in that area since JZ put out that threatening call that implied, 'if you want to save your ass, move to Yelm!' there appears to be many who have not mastered the vaunted message, "don't worry about the cost, we will teach you how to 'manifest'." I take this to mean that if you can't come up with the thousand bucks needed for a couple of weekends at the ranch, you are not evolved spiritually enough to come anyway, since you have failed to 'manifest' the required entrance fees. This editor was recently accused of 'Ram Bashing' because I had the temerity in a recent fundraising letter to suggest that we did not operate like our expensive neighbors down the road in Yelm. This punched the buttons of 4 other CAC people who are also involved in the Ramtha brain-washing. I asked one lady who really was steamed, "Okay, please tell me what \$30 will buy you from JZ Knight?" (\$30 at the time was the membership CAC was charging for a year's worth of newsletter containing the Cosmic Awareness philosophy and information). I never received an answer from the lady. I figure these are probably all well-meaning people who require a guru to tell them what to do, particularly a guru who can dazzle them on TV and hang out with soap opera stars and other celebrities. Hopefully they can learn from Awareness how to contact that 'guru' within themselves, not their "monkey minds" as the entity posing as Ramtha calls it, and hopefully they will learn to share their newfound awareness levels with others. As Awareness has indicated, when one learns to truly go within self, there is no paranoia, no isolation; there is only the truth and love, and this is given and shared with others, a gift that no amount of seminars, no amount of dollars can ever buy. Jonestown was a cult that ended up with a thousand dead bodies all over the place. Will Yelm end up with a thousand programmed robots who cannot think for themselves,--dead brains whose egos are allowing them to be led down a one-way path to hell and damnation? This last letter from Toni and Jerry implies just that, and I suggest that anyone, all CAC people and particularly those of you who are following the so-called 'Ram' these days, get a copy of this letter and study it, then meditate upon it. There is no charge, Toni and Terri say, except they request you send them a large Number 10 envelope, self-addressed and with TWO postage stamps thereon, and they will mail you the 12 page letters explaining all of this. Personally, I would suggest sticking in a paper dollar or two to help these entities get this information out. Paper, ink and printing does cost.

Let's run that one through again, Jehovah--you want us to cut the ends of our dicks off?"

IF YOU OWN GOLD, SHOULD YOU KEEP IT?
(WAITING FOR THE CURRENCY CALL-IN)

QUESTION:

(Excerpt from a CAC Reading, May 1, 1989)

A question from from N.M. of Calgary, Alberta. He writes: "As you know, we came across CAC via the Ramtha organization. We followed Ramtha's teachings of purchasing gold, and now, due to a drop in gold prices, we have lost a small fortune, plus the interest costs on funds borrowed to buy the gold. Looks like instead of us becoming sovereign, by paying off our house mortgage loans from the profits from rising gold prices, we have lost our sovereignty to the bankers, to whom we now owe a lot of money. My intention in informing you of all this is to find out whether Awareness has given any views on whether we should keep holding the gold or take our losses and get out. Please let us know. Thank you."

COSMIC AWARENESS:

This Awareness indicates there are certain values in remaining, in keeping gold; that it is not such that it makes a great difference whether you sell or hold gold at the present time, however, it does appear that in coming months the precious metals will begin to again gain in value, due largely to the problems that have come about through the national debt, the international monetary uncertainties, and the oil uncertainties; that the price in regard to oil being increased in recent months because of shortages and expenses, such as caused by the oil spill, and the potential for further disruptions to oil exportations from the Middle East and from the Alaskan fields; all these things combined to threaten oil and petroleum so that costs are very likely to continue to rise, at least through the summer and possibly beyond.

This Awareness indicates that the rising of oil prices affects the price of everything else that is produced because of the shipment costs and the heating costs and the use of oil in terms of industry, and as the price of these things rises, it affects the general inflation spiral, so that everything costs more, which in turn, tends to trigger a demand for higher wages, which would add again to the cost of things, which, in turn would call for higher interest rates to cause a drop in the spiral of inflation, and the general result being that the economy is unstable in what Dr. Beter used to refer to as 'stagflation,' wherein one part of the economy has the brakes on and the other part is trying to rev it up.

This Awareness indicates that the inflation attempts by the higher prices will be curtailed in a kind of tug-of-war by the efforts to keep the inflation down, and it is quite possible that one or the other will get out of hand in a sudden shift of energies, due to some international event which may take place in regard to economic problems, such as trade balance or stock market or due to some political event, such as might occur in the Middle East or Europe. That Japan as being in a position wherein potential problems could arise between Japan and the United States in regard to economic interdependencies

This Awareness indicates that the value of having gold at this time is that money could suddenly become scarce or inflation could suddenly raise its head to cause an extreme

12. drop in the value of money. There is considerable uncertainty as a potential for money, but gold will, inevitably and always have value, and if you can hold on to the gold for no other than the fact that it serves as a kind of savings account, whereby you save certain wealth, certain value and hold it for those times in which it becomes necessary, you can feel relatively safe that it will not drop very much, if any further, and that the likelihood is that it will increase as times goes on, and that money itself would probably be spent if you cashed in the gold.

That in regard to the value of gold as an investment at this time, its value lies still in the future, but in terms of its value as a hedge against calamity, its value lies in the present. This Awareness suggests however, that if you wish to turn in your gold for money to pay your home and real estate expenses, or to reduce your debt, the transfer of your assets from gold to equity does have certain merits; that the equity in your home can also increase if inflation occurs, but if inflation occurs, so would the gold value, so it matters little which way you go, in terms of your use of, or disposal of the gold.

Why Gold Didn't Hit \$2000

This Awareness indicates that by the forces that were in motion for gold during the early part of this decade, indications were that gold would climb to exceedingly high rates of value, but because of certain manipulative efforts by those who hold economic power, a scenario was put off, and in putting off that scenario of the currency exchange, which would have required high inflation, the economy was changed, so that it remained stable for a longer period than had been in the works, in terms of the plan by these economic manipulators.

That this as having actually been of great fortune to the masses, for there could have otherwise been considerable chaos, if this crisis in world economy and the hyper-inflation had occurred during the earlier part of this decade. However, It does not wish to imply that this will not occur, this hyperinflation is still a threat, as any economist will tell you. There is also that potential for a crash in the economy but it appears that nothing of such nature will occur until there is good reason to believe by these economic manipulators that they can't control the outcome to their benefit, and the outcome to their benefit will be the action that allows them to institutionalize and set up a world currency system.

At present time, there are further adjustments to the currency system which are being worked on, in which certain bugs in the plan must be attended to assure their absolute and total success in this action so they bide their time and attempt to make further profits meanwhile. This Awareness indicates the international terrorism and the drug cartels and the potential threats in terms of economies that are not yet under their control have contributed hazards to the plan for total world-wide global currency unification and these areas need to be tested, tried and cleared, prior to the planned economic crisis and turn-in of old currency for new, at which time, gold will have its own intrinsic value that rises beyond monetary value.

The Children of the Ruling Bankers Have Other Ideas!

When the new currency comes in it will be accompanied by the world order based on banking controls rather than by sovereign nations. The world order of the bankers having bankrupted the sovereign nations and instituting its own

currency as the new economic order for running the bankrupt nation. This being the plan; that the plan also would allow the new owners of the nation to create their own new rules, or constitution and law of the land. However, as disturbing as all this may sound, this Awareness wishes you to understand that the plan is unlikely to be carried out in the manner that it has been intended; that there are entities who are of higher awareness levels and have more humanitarian interests that are developing influence in these banking families, this in reference to second generation children who are growing into adulthood who are not happy with the plans of their parents for world domination, and some of these children are working to find ways to modify the plans so that it does not carry off in the way the parents would have intended.

This Awareness indicates that the more time that passes before this plan is implemented, the more humanitarian principles will influence the outcome of the events that transpire. You will already notice that many of those things that have been hidden from the masses have been recently exposed; that this is only the beginning; that more and more exposing will occur as these hidden conspiracies and networking of secrecy and misinformation and deception are brought out for the public to witness, and as these things are exposed, it removes the power of those deceivers, that they cannot function in their deception.

HOW COME DUPLICATES ARE INVOLVED IN NUMEROUS NOBLE CAUSES THESE DAYS?

QUESTION:

We occasionally get questions like this one from J.J. particularly since we've been advising the new members to review some of the earlier material. She asks: "The current Carter family emerges in the news from time to time, all three of them in connection with the best of causes: pacifism, ecology, building homes for the poor, etc. In what possible fashion does this serve the purposes of those who replaced the originals with these, or is it simply a function of the duplicative material used?"

COSMIC AWARENESS:

This Awareness indicates that these entities as being used more now for the purpose of the causes in an effort of keeping good will. That this is a very difficult question to answer without getting into the entire alien technology of the use of duplicates and their ability to transfer consciousness and the replacement of parts. It would open a can of worms to answer this question at this time. This Awareness suggests that entities may wish to review this information in light of the Dr. Beter material regarding synthetics and robotoids and to also then study the material that is available in regard to the aliens and their technology, how this is and has been adopted in a kind of secrecy by the government: all of this is simply too much in terms of getting into military secrets to answer such a question.

It simply cannot be answered through this channel in this manner without endangering the entities involved for there is information needed that is not yet made public which, if exposed, would break secrecy of your government. This in regard to the duplication of beings. It is also unnecessary for entities to have this information although it is a fascinating concept which tends to create a fixation

for the mind to attempt to understand something that is in effect quite intriguing, even bizarre.

This Awareness suggests however, that if you wish to understand the concept of robotoids and synthetics, you may find much of this very powerful information in one or two paragraphs in the book *Alien Magic*, in which there is a very brief description of how these entities are created, as witnessed by abductees who were inside the Dulce base in New Mexico.* That by reading what is said and what has been given previously in regard to robotoids and synthetics, an entity can read between the lines and get a strong hint of the general nature of these technologies, and in understanding this, and that the CIA and aliens have worked together in the Dulce base as indicated in the book and in other sources, entities can put two and two together for themselves to reach answers.

*ED's Note: this information can be found in 'Revelations of Awareness' issue No. 90-10 (Nightmare Hall); \$5.00 from C.A.C., which was given after the above reading occurred.

MORE ON THE EVIL DEROS WHO LIVE UNDERGROUND

A question from J.J. in New York. "In issue 79-24, page 21 describes Deros as "low human types." In issue 90-5 page 9, Awareness describes them as ancient aliens. This seems contradictory. Could Awareness please clarify?"

COSMIC AWARENESS:

This Awareness indicates that these Deros were aliens who went underground to live. Many of these were of a nature of human that was not highly evolved and became even more demented after going underground; that *It* does not see the discrepancy that was suggested; that the human types include aliens, the Deros being human type aliens. There are, for example, connections and cross-breeding between aliens and homo Sapiens, and there are a great number of alien types that have been and do presently visit earth.

There is a history in regard to the Deros which reaches back to and connects with the short Greys, the Deros and the Greys having some historic karma with each other from earlier times. The Deros having become even more demented because of continuous underground lifestyle; these being more vicious than even the Orange class of Greys. That incidentally, the Orion types and the Deros are quite hostile to each other.

THE ALIEN PRESENCE: MORE FLESH FOR THE SKELETON: (Part 9)

(Excerpt from a C.A.C. General Reading, November 10, 1990)

ARE WE ONLY PAWNS IN A COSMIC GAME?
WHAT CAN WE DO ABOUT THE ALIENS ?

QUESTION:

A question from S.F., San Marcos, California. She writes: "I do have a question concerning Awareness's statement in issue 90-16: "The approach of the Reptilians as being simply an event that is pre-timed to this period." This sounds like we are just pawns in a cosmic game. How much free will do we really have; or do we have any at all? I am really confused, because I thought there were Universal Laws that all had to respect. These aliens apparently do not respect anything. Can we do anything constructive at this stage?"

COSMIC AWARENESS:

This Awareness indicates that there are certain Universal Laws. There are also Galactic Laws and the aliens are presently parked outside the solar system in an orbit outside of Pluto, in a small planetoid: the planetoid being smaller than the moon. This Awareness indicates that they *do* shuttle from there to earth according to their desires and wishes, and from earth to there.

That as has been given, they attempt to argue that they have a right to earth because they once were here and made claim to earth at a time in ancient history approximately ten thousand years ago. The argument may not stand up in Galactic Court because they abandoned earth and caused great damage with their effort to destroy humanity and earth at the time of the abandoning.

This Awareness indicates that by abandoning the planet to their creation and by abandoning their creation to be cared for by other aliens,--in this case, the Sirius and Pleiadian influences as well as some others,--they essentially gave up any claims to the earth people and to the earth itself at that time of abandonment. You cannot have it both ways. It is likened unto throwing away your property, then after someone picks it up, cleans it up, polishes and restores it, coming back to claim it as your own again; this is not acceptable under any kind of law, earthly or Galactic.

What Can You Do ?

This Awareness indicates that in the sense wherein entities ask: "What can we do about this situation?", there is very little that individuals can do in situations such as yours other than to become aware and to share what you are aware of with others. If by chance a great awakening occurs, even if it takes several years for the masses to awaken, the chances of the aliens being able to subdue humanity decreases in direct proportion to the awareness of humanity regarding the alien agenda and purpose.

Thus, by becoming aware and helping to make others aware, each entity can do his or her part. When you consider that it was only about a year ago that the entity William Cooper began to give forth information in regard to the Zeta Reticuli and some of these alien intrigues,

there has been a great awakening already. If that awakening is only one percent of the population, imagine what it will be within another year, if that one percent goes out to awaken others.

If one person can spread the word to awaken one percent of the population, how many can one percent awaken within a year? This Awareness indicates that this is essentially the most important thing that entities can do at this time, to awaken the masses to the information that they are receiving in regard to the aliens, in regard to the agenda of these aliens, and the plan to take control of earth and to set up the New World Order for alien influence to operate through, none of which would be healthy for your grandchildren or your future generations.

WHAT IS THE MEANING: "A PRE-TIMED EVENT"?

...Scaring the Pants Off of Entities

(FOLLOW-UP QUESTION):

There's a sort of confusion that seems to follow from some of the letters we get, and this lady's question sort of touched on it. That quotation that she took from Awareness from that reading, which I have here, where it says:

"The approach of the Reptilians and present day association with the Greys as being simply an event that is pre-timed to this time period. It is that which was put into a kind of computerized time-table, that when humanity reached a certain state of development, the population reached a certain level on earth, then there would be the so-called harvest."

Now, Awareness has made numerous references in the past that these particular events were also "timed to move consciousness forward, to advance the spiritual development of mankind."

COSMIC AWARENESS:

This Awareness indicates that there are many things occurring at once in a kind of synchronicity. The agenda of the aliens is part of the total scenario for humanity's progress. The aliens may be thought of as a kind of catalyst to get humans evolving more rapidly from their stupor, to awaken the masses from their slumber. That it is as though there are forces even above the alien Reptoid and Zeta Reticuli forces that are overseeing this general drama that is occurring on the stage of earth in this stage of human existence, and in overseeing this, these higher forces are allowing certain things to take place so as to have an effect on the consciousness of humanity.

If they move too soon, humanity will not awaken. Humanity tends to awaken more out of fear than out of promise. Things may be promised, but until entities fear something, they do not easily become stirred up to leave their comfort zone and to go into a more disturbing area of consciousness that would awaken them from their comfort. This Awareness indicates that *It* does not wish at this time to lull you back to sleep by telling you, "Don't worry! There are forces that will

protect you from these dangers!" because such statements would defeat the very purpose of the overall scenario which has to do with the awakening of humanity at this time in the Cosmic Plan.

This Awareness indicates however, there are forces that are watching and will make certain that humanity fulfills its destiny, regardless of the Reptoids, or the Reptilian threat, but it will not prevent that threat from startling humans or scaring humans from their comfort if that is needed at this stage in human development.

CAN ALIEN IMPLANTS BE REMOVED BY THE USE OF RADIONICS ?

QUESTION:

A question from D. E. in regard to the removal of physical implants. She writes: "It is my understanding that physical implants can be detected and successfully removed by a competent and knowledgeable radionics practitioner. Would Awareness please comment on this for the benefit of any persons concerned?"

COSMIC AWARENESS:

This Awareness indicates that the field of radionics can detect, if the practitioner is competent, the presence of implants, but the nature of radionics being that of reading or transmitting vibrations, does not lend itself to surgical removal of implants. At best it could perhaps be used to counter the frequencies of the implants if the radionics practitioner could attune to those frequencies to set up a countering frequency that was strong enough to neutralize the frequency of the implant.

Whether this would continue to remain neutralized after the radionics activity was completed and turned off, that is another matter; that these frequencies from the implants work through crystals. It is possible the radionics frequency might be used to alter the frequency of the implant so that it became useless to the aliens or whoever installed the implant, because it would operate on a different frequency. That is a possibility.

It would require great skill on the part of the radionics practitioner. This Awareness indicates that the technology of the aliens in placing the implants is such that even the best of surgeons consider removal to be almost certain to cause death. There are very few instances in which these devices have been removed from dangerous areas, such as that of the back of the head, in the medulla oblongata area, or that near the optic nerve. Any surgeon attempting to remove these from such areas would find it a most dreadful operation with great risks involved.

Chelation as a Possible Way to Remove Implants?

This Awareness indicates that removal of implants from wrists or from other less threatening parts of the body are possible without the danger involved. This Awareness indicates that there is seen some potential for using chelation treatments to eat away at the implant, wherein chelation is used for bonding metal or taking metal from the body. It would only be valuable wherein there is metal used in the implants. If no metal is used, chelation would not be effective. Discovering the substance of the particular implant would be the first step toward removal, then finding a substance that would not be harmful to the body but which could be used to dissolve the implant, or to dissolve that coding

15.

in the implant that is used to create a vibration or is used as a chip to send signals from the implant.

If this can be accomplished, the implants could be made useless, even if not removed. These implants appear to have certain radiation which allows them to be read. The radiation being also part of a transmitting action to transmit information; that wherein the radiation could be neutralized, the implant would essentially be dead and become inactive.

REMOVING IMPLANTS BY PSYCHIC MEANS? (Confirmed by God and about eleven other people)

(FOLLOW-UP QUESTION):

E.K. of Ft. Lauderdale, has written in a number of times about this subject. We checked it out with Sam earlier and he said that the Tarot could not see that what he was saying was valid, but maybe it was misread, so I'll read his question. He says: "I would like to inform you that God has granted me some methods to remove implants and disconnect etheric influences from aliens. Thus far it has been instantly successful, by the person's own sense of it, and then confirmed by God and about eleven people. I can provide addresses and phone numbers of some of these who wish to confirm this to you. Please feel free to check it out with Awareness. I would think you might wish to give this information out to the membership." And then he follows up with: "I just thought I'd recap on the questions for Awareness, please. Implant removal as well as psychological/emotional/physical recovery, release and repair techniques. Reasonable fee structures, not less than \$100 and not more than \$500, depending on how much time and application are involved."

I'd like to ask Awareness if this entity can indeed remove implants, and if so, would that fee structure be fair?

COSMIC AWARENESS:

This Awareness indicates that this does not appear to be that which relates to the implants of the aliens that is being considered. It appears this entity perceives the removal through metaphysical action such as laying on of hands or some similar action; that if the entity can actually remove the implants, it would appear the entity could have implants on hand that have been removed from patients.

You might ask the entity to provide you with a picture or a sample implant that had been removed from a patient, in order to check out the validity of his claim. There are a number of entities who have made similar claims that by laying of the hands on the patient, praying or visualizing, they are able to neutralize the implant. This Awareness indicates that there is not seen any real evidence that this works.

There are certain government instruments capable of reading or spotting an implant and if these can be removed or neutralized, these instruments would be able to tell. This Awareness suggests that it would be of great value if this were true. It does not see this as being very effective. It is more likened unto the entities taking off curses from others for a fee, wherein there is no way to be sure the curse was there or that the curse was truly removed.

This Awareness indicates that *It* does not wish to discourage this effort if entities truly believe they have found a way of removing these implants, but *It* does suggest that hard evidence would be most encouraging to entities and if there is a way of contacting through radionics or through other instruments, contacting some frequency to indicate the presence of an implant, with sufficient evidence thereafter of removal, to show that the implant is no longer present, this would be of great value.

This Awareness indicates that Catscans can be used for locating and for showing the absence of an implant; that if entities can indeed provide some indication with credible authorities as witnesses, this would be of great value to thousands. There are approximately 25 million entities in the United States with implants, most of whom would like to have them removed.

WOULD 'MAGNETIC RESONANCE IMAGING' DEVICES FOR CANCER DETECT IMPLANTS?

(FOLLOW-UP QUESTION):

There's a great deal of publicity and promotion going on now on the 'magnetic resonance imaging' device that doctors are encouraging women to use (for a large fee) in their office to detect early breast cancer. Does Awareness see that technique as also detecting implants?

COSMIC AWARENESS:

This Awareness suggests that this may be a possibility with certain modifications involved; that this could be an approach, were one to find a doctor having such an instrument who was willing to use the instrument for such experimentations.

Please Note: "More Flesh for the Skeleton" is an ongoing feature of this newsletter. If you want more information on the alien presence, please write to CAC for a free list of backissues available on this subject.

ED's Note:

This entity hawking this service ("removing" implants for \$500), was given the information in this reading, as he has pestered the editor for months to plug his service to our readers and members. His response to the above information from Awareness was that now his method was "dissolving" the implants so it was not possible to send us a sample of an implant he removed. The entity is probably honest and well-meaning (although a bit too wide-eyed for my money), but the fact remains: How do you know for certain you have an implant, and if you do know for sure, how do you know for certain that it has been removed? You can't. So it is a natural for any charleton to con entities into handing over their money if they think they have an implant and do not bother to investigate the service. This editor is not at all convinced. It is not our practice to plug a service by someone who has not convinced us the service is valid and honest and worth the fee that may be charged. Another thing we consider in this regard is the fact that many CAC people have written us, convinced they do have an implant usually because of some vivid dream about aliens. When we check their letters out with Sam or with Awareness, it was usually revealed that there was no implant. For one thing, Awareness has indicated that entities who have been abducted usually have made an agreement

in some prior lifetime to allow this abduction to occur, this being some form of contract. Awareness has also indicated (in a reading just days ago) that the CAC membership is 85% composed of Wanderers who came to this plane for the sole purpose of awakening humanity to the alien threat on this planet. It has taken many years for these entities to do much of anything constructive on their assignments because up until recently you were killed or driven insane if you talked about the possibility of aliens being on this planet, other than possibly discussing movies about them. Thanks to UFO researchers like Valerian and the so-called 'Whistle-blowers' like Cooper, Lear, et al., that 85% of you can now begin to get down to some serious business of helping to awaken humanity to this threat. Awareness has indicated age is no factor: some of you are young, some middle-aged, some 'senior citizens' (don't you simply despise that handle?) So most of you have been able to sail through life, taking many side trips, until your High Self finally notifies you, "Okay, the party's over. Now it is time to get down to the business of why you came to this plane in the first place." My point in bringing this up is that the 85% of you who are on this mission, it seems logical to me, that you would not have made any previous agreements with the aliens, and therefore you do NOT have any implants to worry about! You are therefore free to start working on your mission. There ARE some CAC people who do have implants for one reason or another, but this should not stop them from informing others either. So, if my reasoning is correct, 85% of you do not have to feel paranoid about having an implant. You may have had some very vivid dreams about aliens etc., but these were probably to help awaken you to your mission. So save your money, even if you think you have an implant. Until we have been given positive and sufficient proof that anyone can safely remove these implants, we are not going to plug any services of this nature.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization, for members and non members. All membership fees and donations are exempt from Federal income taxes. All dues and donations are used to spread the messages of Cosmic Awareness to others, particularly at this time, for humanity must be awakened. Your support and donations are much appreciated. We hope you will spread the word to others also. If you regularly make copies of this newsletter and send to others, please remind them that nothing is really "free" -- someone down the line is paying the bill. Tell them if they are learning from the newsletter, to try to join as a dues-paying member, or at least send in an occasional donation to the original publisher of the information. Many thanks!

MEMBERSHIP LEVELS (Honor System)

Effective Jan. 1, 1991, the following rates apply:

LIMITED INCOME: \$30 per year or \$9.00 quarterly.
 INDIVIDUAL: \$42 per year or \$12 quarterly.
 FAMILY: \$52 per year or \$20 quarterly.
 CONTRIBUTING: \$77 per year or \$25 per quarter.
 SPONSORING: \$144 per year or \$40 per quarter.
 BENEFACTOR: \$500 per year or \$150 per quarter.
 PATRON: \$1000 per year or \$250 per quarter.
 ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details).
