## DEMOCRATIC

# THE NEW WORLD

# ORDER

ONE WORD CAN MAKE  
THE DIFFERENCE!

AND HOW  
YOU CAN HELP  
MAKE THAT DIFFERENCE!

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

WHO IS REALLY PULLING THE STRINGS ? ( THE ORION EMPIRE SCENARIO )...

**" IF THE NEW WORLD ORDER ISN'T DEMOCRATIZED BY 1997, RULE BY THE DRACO REPTILIANS AND THE ORION EMPIRE IS VIRTUALLY ASSURED "**

...Cosmic Awareness

OPENING MESSAGE

(C.A.C. General Reading, February 20, 1991)

**On the Eve of the Ground War in the Gulf**

This Awareness indicates that approximately every twenty years a major war erupts somewhere in the world; the years in between will have lesser wars as a general rule, so that almost incessantly there is some war going on all the time on this globe. That the war in the Middle East at this time, at the time of this reading, is in a transitional period, moving from that which has been called the "air war" to a ground war status. At this time of this reading, there has been an effort by the Soviet Union to assist as peace-maker with a plan to present to Saddam Hussein for an unconditional withdrawal from Kuwait which contains certain suggestions or conditions that are guaranteed by the Soviet Union if the Iraqis accept the proposal.

It has already been indicated that this is not acceptable to the Western powers and the coalition because it contains conditions in connection with the withdrawal; that the likelihood of a ground war as that which increases by the hour. Even if in the unlikely event Saddam Hussein accepts the terms of the Russian peace offer, it is likely that the ground war will continue because the Russians do not have the full cooperation or agreement with the other countries in regard to this peace initiative.

This Awareness indicates that the likelihood is that the ground war will start in the next day or two or sometime during this last week of February or last ten days of February, probably within the next two or three days; that it appears that this will go quite rapidly, and that Kuwait will be freed from Iraqi control rather quickly. There is however, still a great danger even in the event Kuwait is freed of Iraqi control in that the Iraqis may leave behind weapons that can create havoc, even in the absence of the Iraqis, so that whatever is left in Kuwait may be victorious over a very explosive and dangerous situation.

There is seen the possibility of explosive devices or biological warfare or even atomic landmines being used in Kuwait to destroy the troops that enter that area, as a punishment for their victory; that it is not certain that this will occur. There is seen a strong probability of this being part of the strategy of Saddam Hussein in a kind of: "If I can't have it, no one else will have it!" approach to the territory. That in the event that this occurs, it will of course lead to ever-deepening demands and attacks on Iraq and its leaders, moving toward an almost total destruction in order to get Hussein, and the war would not subside until the entity is captured and his military might totally destroyed.

This Awareness indicates that this entity has a reasonable understanding that the destruction of Kuwait may also be his own destruction and the destruction of Iraq, and he may think twice about this approach and may refrain from the action of destroying Kuwait after the coalition troops have entered the country. This would be the least destructive outcome considering the probable movement of energies at this time. By the time your readers read this material, the actions will be in retrospect, behind in time, and they will already know the outcome of the events.

That at this stage, the least damage to life and property appears to be in the further progress of the war, to bring it to a rapid close. This of course depending on a number of factors that may come to bear on situations. If there were any possibility of a Kuwaitite withdrawal and peaceful solution, this could be more of a life-saving action, thus avoiding a ground war altogether, but it does not appear to be any likelihood of this being the course of events.

This Awareness indicates that the aftermath of this war will be such that many countries will want to put their influence in the rebuilding of the Iraqi nation, in the way they see best benefits their own interests. The Soviet Union as having had a long relationship with Iraq; it does have some special interest in keeping that relationship going and will seek to play an important part after the war. Iran still wants the disputed territory returned to Iran, over which the Iraq/Iran war was fought. Turkey would still like to claim the northern part of Iraq which it sees as being culturally related to its own people.

This Awareness indicates that the Western alliance would like to keep Iraq total, with its boundaries intact, ruled by a government that is independently created, but friendly to the West, one particularly or hopefully of a democratic nature. The Israelis having much interest

also in the outcome or aftermath of the war, would like to see Iraq weakened as a military power and those anti-Israel hostilities silenced in Iraq. They also would like to see closer more friendly ties with Syria and some of the other Middle East nations. It is seen that with great care, all of this could occur, bringing about a stabilized area in which the various cultures could live in greater harmony, where the threat of invasion by neighboring countries is diminished.

#### The Threat of the New World Order

This Awareness indicates that this is seen as part of what George Bush refers to as the New World Order, but only a beginning of that concept. The New World Order envisioned as that wherein national interests become subjugated to international order and wherein international powers have control over the affairs of nations. For many years this Awareness has warned about the threat of the New World Order, as being that which would do away with the Constitutional rights and guarantees; that even back in the earliest readings through this Interpreter *It* warned about a new constitution, the New States Constitution, drawn up in Santa Barbara, which took ten years at a cost of some 29 million dollars, funded by the Ford Foundation, to create regions in the United States which would be used as a kind of New States concept of regional government that would supersede the United States Constitution, and the states' constitutions.

#### Bill Cooper's Book "A Classic of Conspiracy Material"

This Awareness indicates that this is still seen as a potential danger in the future, especially as this New World Order begins to unfold. That the newly released book by William Cooper, *Behold A Pale Horse*, as that which contains this document, the New States Constitution and many others. This entity has essentially compiled much of the conspiracy material that this Awareness has spoken of over the past 20 years, has compiled this into one book, this even including the information on the aliens and their place in the scheme of things. This Awareness suggests that this book as being a classic of conspiracy material in that it contains almost everything of importance in it, in a kind of mosaic of the many diverse topics in the conspiracy field.

This Awareness indicates that while it is suggested that all entities having any interest in this kind of information should have this book as a kind of cornerstone for their research, *It* also wishes to suggest that the material is so compacted as to give the impression or feeling upon reading the information that it is hopeless to expect anything other than this New World Order to be a totalitarian system. This Awareness indicates that *It* wishes to suggest that this is not necessarily so. There is a potential for things to be brought into form in a future order that carries a democratic world government into place, but entities need to be energizing this democracy of New World Order or this New World democracy in order for it to develop.

This Awareness suggests that in fact, if entities were to use the term "New Democratic World Order" instead of using 'New World Order,' this term itself would help to promote democracy in a New World Government; that as entities begin to think of a New World Order as being democratic it would become more and more difficult for it to turn into a totalitarian and non-democratic

3. order. This Awareness indicates that *It* wishes entities to be aware of the danger of a totalitarian world order, but to energize a democratic world order. It appears that a world order of one kind or another is almost certain.

#### New World Order & Mid-East War on Alien Agenda

This Awareness wishes entities to understand that this New World Order is that which is a basic reason for the war in the Middle East; that out of this war, the one important thing that those who hold power want from this is a New World Order, and that the New World Order which is being promoted is that which fits in to the Alien Agenda; that there is an effort to create an order in the world whereby the forces in control of this order will have the ability to link the organization or order that is imposed on the world into the Orion Confederation and Galactic Order.

This Awareness indicates that this is in regard to the aliens from Orion, the Orion Empire and the Draco/Reticuli Confederation who are subjects under the Orion Empire and the Galactic Order which the Orion Empire seeks to establish, generally as having established throughout most of the galaxy. That the effort to set up a New World Order as that which would prepare the world for joining that galactic empire.

That of course there are also the forces of the Galactic Confederation which are represented largely by the Vega and the Pleiadian, Lyra, and Sirius beings; that some of the beings in that area of Sirius work with the Orion Empire; that many of them are closely linked with the Pleiadians. This Awareness indicates that these entities are benefactors to humans; that the Orion Empire as that which seeks to claim the earth, its minerals and humans as resources. That this essentially is the larger picture under which the war in the Mid-East is being fought. It is but a small incident in this larger setting, but at the present it is a key and important incident that will lead to the New World Order which in turn is intended to fit into the Orion Empire scenario.

This Awareness suggests that entities can, by the *Law of Leverage*, by adding the word *democracy* each time the concept of a New World Order is presented, can use that leverage to strengthen the idea of a democratic world organization, and this can have a powerful effect on the final outcome. The New World Democracy, the New World Order of Democratic Nations; any such term can be helpful in energizing the type of order that comes out of these efforts.

#### A Possibility of Several More Wars to Force New World Order

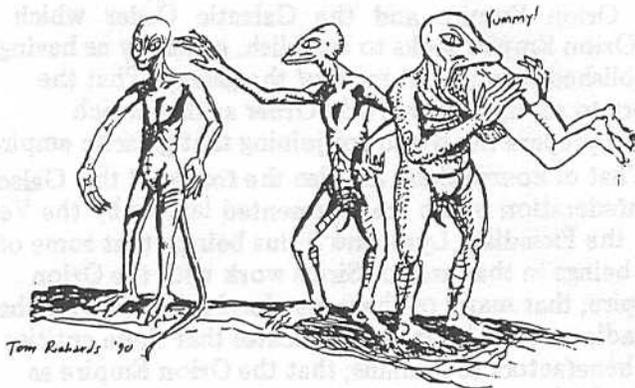

This Awareness indicates that there is a possibility of several other wars being waged within the next few years; there is seen a possibility of war in South Africa. The war would be fought in order to gain control over the minerals in that area, regardless of the reasons that might be given. If control over the minerals is otherwise obtained, the war might not be fought. Other countries that could also become likely candidates for war are Libya and Syria, although this seems unlikely at this time.

It appears that Syria has modified its standing and the war that has been seriously considered has diminished because of its alliance with the Western forces and the allies fighting together in the Middle East against Iraq. Libya still remains a more likely candidate for a future

war; this may also change.

This Awareness indicates that these wars against small countries are designed to force these countries into accepting the New World Order. That the Soviet Union, the nations comprising the Soviet Union as that which also appears to become more and more unstable; that this instability may lead to increasing strife between these small nations in such a manner as to further diminish the power of the Soviet Union as it begins to break apart.

This Awareness indicates that it appears the world is moving toward a single superpower, but this is not seen as having a long-term status, for Europe in 1992 becoming a United Europe will quickly become another superpower in the few years following. That there are many changes ahead. By 1997, if the world has not become democratic or greatly democratic and organized into a kind of world order, Democratic World Order, then the likelihood of being ruled by the Draco Reptilians and the Orion Empire will be almost assured.

#### WHAT KIND OF EXAMPLE IS BUSH'S NEW WORLD ORDER IN THE MIDEAST?

(Geo. Bush had a dream--or was it a nightmare?)

#### FOLLOW-UP QUESTION:

Isn't it kind of ironic that Mr. Bush's first presentation of the New World Order; isn't it a rather poor example by using old world order methods of war and slaughter? I mean, what kind of an example is that for the world, for a new order? One would think negotiations and that sort of thing.....

#### COSMIC AWARENESS:

This Awareness indicates that the entity sees this as a kind of catch-phrase similar to that of Kennedy when he spoke of the New Frontier, or of Roosevelt in speaking of the New Deal; that this entity wants people to rally around him for a New World Order with the understanding that he has a dream which they are supporting through their efforts and sacrifice that will bring about something better than they have experienced before. That this phrase "The New World Order" has not been defined clearly to the masses and it is simply implied that it is a desirable situation in the future. By presenting it as a phrase without description or definition, the entity doesn't have to define or explain what it is or defend it because no one can criticize it and they can only wonder at what he sees for the future and choose to support it blindly or remain silent and anticipate something wonderful coming from it.

4. That meanwhile, they may continue to fight for this New World Order without understanding what it is they are fighting for. It is a kind of mastery manipulation that many leaders would like to be able to conjure up in their efforts to sway masses to do their bidding; that if they fully understood what the New World Order is, they might not have the enthusiasm, but because it has not been defined, most entities do not have any idea that they could be preparing to do away with their Constitution, the Bill of Rights, and to set up a totalitarian system, designed to be used for promoting a new and greater totalitarian system throughout the world.

This Awareness indicates that *It* hopeful that enough people will influence the direction of this so-called New World Order so that it becomes a democratic order, similar to that guaranteed by your United States Constitution for the entire world to share in, but at this time, this is not what is seen. It does not appear that this is the intent of the New World Order. It appears rather, that the New World Order is being created for and by the Trilateralists Commission and Council on Foreign Relations for the powerful, by the powerful, and of the powerful, to rule the masses according to their agenda.

#### THE LAW OF LEVERAGE

This Awareness indicates the future is never fixed. The future depends on what is occurring in the present, and a change in consciousness at present will effect a change in future experiences. This is related to the *Law of Leverage*: wherein a small amount of energy exerted to change the course of events at a present time can move mountains in the future.

#### HITLER, NIXON, NOW BUSH-- ALL PROMOTED A NEW WORLD ORDER (One Worlders Creeping out from Under the Rocks)

#### FOLLOW-UP QUESTION:

That term "New World Order" was first used by Adolf Hitler if I recollect, and it was used by Richard Milhaus Nixon several times in his administration, and during his administration he succeeded in appointing over 100 entities to the Council on Foreign Relations and Trilateral Commission and so forth. Is this the same 'New World Order' that Bush is now trying to bring forth, that Nixon was trying to bring forth, and possibly even Hitler was trying to bring forth?

#### COSMIC AWARENESS:

This Awareness indicates that the entity Adam Weishaupt in working with the Illuminati back in the 18th Century, and an entity named Alfred Pike, who later helped to promote the idea of a New World or One World Government, have both contributed to this idea of a One World Government, and the New World Order would be an approach to bringing about this One World Government. Essentially, the One World Government already exists as the Trilateralists, the Council on Foreign Relations and the Bilderbergers, but these are not publicly expressed as the governing forces of this nation or others.

This Awareness indicates that essentially, the Trilateralists as indicated in the works of Cooper: the term 'Trilateralists' comes from the insignia used by the aliens, the Trilateral insignia, and the Orion aliens are behind the controls and political forces that control the economies, so that through these economies and political forces, the Orion aliens are the ones who are pulling the strings in the ultimate sense, as far as the political strings and earth influences are concerned.

This Awareness indicates that this control of the alien force on earthly affairs is that which is behind the Trilateralists, Council On Foreign Relations and Bilderbergers and which is essentially the One World Government, but it is not satisfied with remaining in a hidden position and wants to solidify its power through structure of government that unifies all nations under a central control such as through the U.N., or some other government administrative organizations to control and rule the nations, directly.

#### The Alien Cancer Eating Away at America

That therefore, the various administrative laws, rules and administrative policies or statutes that have been created in the past several presidencies as Executive Orders are simply furthering this control pattern to help bring about this so-called New World Order. It is a very gradual effort to eat away, much like that of cancer eating away at a person's body, wherein this eats away at the body of freedom, chewing out chunks of the Constitution and ignoring the Bill of Rights, --changing, altering and gradually getting rid of the Bill of Rights by creating statutes and Executive Orders and new rules and laws that may be unconstitutional but which hold up in courts of law that are not representative of the Constitution.

This Awareness indicates that there is the gradual decay of what was once America, the great bastion of freedom, and it is being replaced by this growth that comes from those who are engaged in treasonous actions. While having taken the oath to obey and protect and defend the Constitution, they instead erode it, one step at a time. That behind those money powers are the aliens, the Orion aliens especially, with their power to manipulate by giving or withholding technologies and material and information, to get entities to do what they want.

#### The Hierarchy of the Alien Force

This Awareness indicates that in the hierarchy of the Alien Force, the Orion forces control those that were mentioned as the Giza Group. The Giza Group controls the Reptoid group, and the Reptoids control the Zeta Reticuli, and the Deros are more or less on their own as natives of subterranean levels, with their continual war with the Teros; the Teros being reasonable underground beings who keep the Deros in a kind of continual war so that they cannot expand and move toward surface levels with their mischief. The Zeta Reticuli being several different types, most of them not liking the Deros, thus they too are as enemies to the Deros.

That in regard to the hierarchy system of the human level, the Orion aliens influence the Reptoids and the more powerful international bankers and these entities

influence various organizational groups,--the Zionists, Bolsheviks, and mafia, and the Bilderbergers, Council on Foreign Relations and Trilateralists, and from there, the various external organizations that run the countries such as the Senates and politicians in Europe and in the Western hemisphere. There are also influences from these countries into other countries, such as China and those in Africa. There are few countries that are totally autonomous and free from outside monetary powers; that the power flows with the money system that each country connects with as it connects with the international monetary systems.

That thus, rather than Britain having political control over some Oriental country or Third World country, the monetary banking powers located in Britain or some similar country may have the monetary connection to that country and control that country through loans and agreements, monetary agreements, so that the country is subject to the contracts or agreements of the monetary flow rather than through political influences, but this Awareness suggests this power of monetary influence is as great or greater than would be any political control over the country.

This Awareness indicates that the world monetary banks, the monetary banks and funds, the various organizations associated with the world bankers making loans to Third World countries through their various banks, gain control of those countries to some extent by their loans, especially when the loans are too generous and are so great that the country cannot pay back the loans and the interest is so high that it gradually makes the country default on the loans; at such times the banks then have control over the country.

#### 13 Banking Families Could Foreclose on the U.S.

That in the case of the United States, money being loaned to the nation for its many wars, has created a national debt of trillions of dollars. This money is owed to the banks that are privately owned by approximately 13 families and these entities by law will have the right to foreclose on the nation if the nation does not pay back the loan. The interest alone on this national debt running billions of dollars daily, keeps it increasing at a rate that would make payback impossible.

#### How to Pay Off the National Debt to the 13 Families

That essentially, default can be declared on the loan and these banking families will have the legal right, as they see it, to take over the United States, and impose a new constitution or laws on the people. That this will be, of course, The New States of America Constitution.

That there is, however, another argument that these banking families who have loaned money to the United States have done so under fraudulent conditions in that according to the Constitution, Congress alone has the right to mint and coin money and that the Treasury Notes are the money of the United States, the dollar, and that the Federal Reserve Notes are not real money. They are simply I.O.U. notes, and that the Federal Reserve Act of 1913 has given the Federal Reserve Bank a kind of manipulative power to purchase Treasury Notes with I.O.U. notes.

The Federal Reserve Notes are but I.O.U. notes; that you can, as an individual, write an I.O.U. note to anyone, and it is not money, it is simply a notice of debt to the person; that the Federal Reserve Notes are but notices of debt, and if someone borrows notices of debt from the Federal Reserve, which is a private corporation, they are not actually borrowing money, therefore, they do not have to pay back money. All they have to pay back is I.O.U. notes. This Awareness indicates that the entities, then recognizing this, could then have the Treasury write up I.O.U. notes for three trillion dollars to pay to the Federal Reserve Bank and have the national debt wiped out.

It is simply a matter of dealing with the I.O.U. notes as notices of debt; that if it is good for the goose, it is good for the gander. If the Federal Reserve can loan the government I.O.U. notes, then why can't the United States Treasury give the Federal Reserve I.O.U. notes to pay them back for those I.O.U. notes that were loaned? That this could cancel out the national debt. It would simply take some legal work and attention and the desire to deal with the problem through the official levels, the Treasury Department and Congress.

#### FOLLOW-UP QUESTION:

What are the odds that this would actually happen?

#### COSMIC AWARENESS:

Very slim. That there is not enough attention on it; the masses are not aware of it, the people are willing to accept the concept that they owe three trillion dollars. Most people believe the Federal Reserve Bank is a government branch. The ignorance is overwhelming, and as long as that ignorance continues there is very little chance of this occurring. However, there are many entities in the United States who are gradually awakening to the reality of how things work. The patriot movement in the United States understands this and it is possible that given a few years, there may be some influence to pressure Congress to do something about this national debt. If things become strong enough, clear enough and stressful enough, the masses may arise in a kind of spontaneous uprising against the Congresspeople or other leaders who may then start pointing their fingers at the real causes, and it is possible that at some stage, the 13 families pulling the strings of the Federal Reserve Bank might be noticed and the situation might be put in the spotlight of public attention so that something does occur.

This Awareness indicates, however, *It* does not see this as having a strong likelihood, not at this time. It is possible in the future, but it is not likely to happen as long as the forces that have the money also control the press and

educational system to keep people ignorant and to make them think that the government makes the money. This Awareness indicates that no schools teach that the Federal Reserve System is a privately owned system that is usurping the government's power. Therefore, the ignorance continues and the deception and control of the masses continues.

#### Commander Guy Carr Murdered for Exposing

This Awareness indicates that twenty years ago, messages such as this would have led to the death of the messenger; that the entity known as Commander Carr, in writing his book *Pawns in the Game*, was killed for exposing similar information; that there is a great debt of gratitude owed to many who have given their lives to opening up this information, yet the majority of people who hear the information will scoff at the concept of a conspiracy.

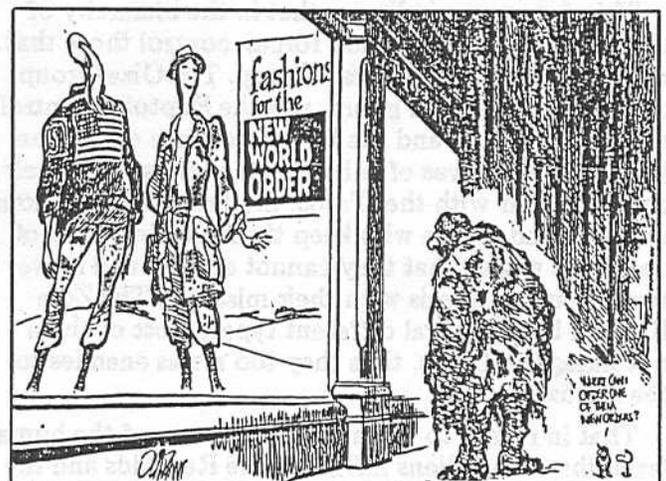

They speak as though the one who talks of conspiracy is ignorant, and in so doing, they express their total ignorance. It is because of this public nonchalance toward the idea of conspiracies that these entities who expose conspiracies are allowed to speak without threat to their lives, because no one pays attention to them anyway. The idea of a conspiracy is as ridiculous as the idea of UFOs.

The public has been conditioned to see these as indications of lunatics or people who are out of touch with the reality that others enjoy. It is much more comfortable for entities to enjoy a reality that does not have conspiracies or UFOs involved.

\*ED's Note: C.A.C. offers the books of Commander Carr, including his famous "Pawns in the Game." CAC also stocks the books of Lindsey Williams. Please refer to the CAC Price List Catalog.

For more information on the New World Order conspiracy, please refer to these recent issues of 'Revelations of Awareness'-- 87-9 (Taking Care of Business); 88-8 (An Opportunity to Turn the Table on the Beast); 89-5 (The Vanishing Farm and the Coming Food Crisis); 89-12 (Forestalling the Depression); 89-11; Let's Audit the Fed! (Rothschild family); 90-20 (Money is the Root of all Evil); \$3.00 each from C.A.C.

William Cooper's new book: "Behold a Pale Horse" which contains the text of the Santa Barbara Constitution for the New States of America, plus much much more, is also available from C.A.C. Please refer to book catalog sheet.

## THE CAMPAIGN TO SCRAP OUR CONSTITUTION BEGINS!

### QUESTION:

N.J., of Buffalo, New York writes: "I would like to ask a question of Awareness. I have enclosed an editorial entitled: "It's time to replace the Constitution with something that works!" I think I'd better read this because I've seen similar editorials like this circulating around. It's written by James G. Driscoll of the....

### COSMIC AWARENESS:

This Awareness wishes to comment; that this is but the beginning of a campaign that will be increasing as time goes on, leading to what will be promoted as a 'constitutional convention' to make changes in the Constitution. Once these changes begin, the entire Constitution is likely to be scrapped and the New States Constitution implanted. This Awareness wishes to inform entities that this New States Constitution denies most of the freedoms that you now enjoy, and while it is worded in legal terminology to give it the appearance of creating something that will diminish crime and so forth, it is also creating a police state such as the reserving of all powers now given in the New States Constitution to the police.

This Awareness indicates that this kind of phraseology as that which means everything *except* what is covered in this Constitution is under the jurisdiction of the police, therefore, if it is not covered in the Constitution, the police then can make up any rules they want for any situation that is not covered in this document. That there are so many similar and tricky phrases in the New States Constitution that there will be little room for anyone to move or have any rights of freedom, including freedoms of speech, assembly, etc.; that it will make it almost impossible to ever escape from the domination of these laws, or to ever again gain freedoms that have been allowed under the Constitution. This Awareness suggests the question continue.

### QUESTION CONTINUES:

Okay. I'll just read some of this editorial written by James G. Driscoll who's a syndicated columnist for the Sun-Sentinel of Ft. Lauderdale, Florida. The title:

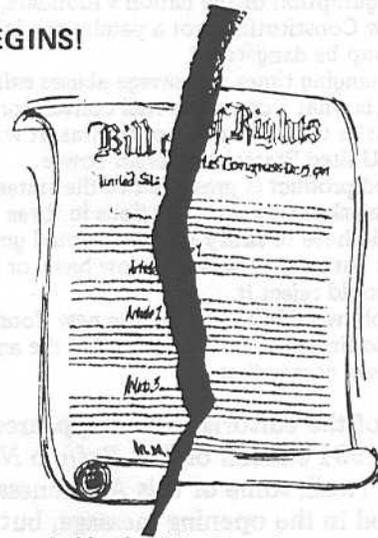

**IT'S TIME TO REPLACE THE CONSTITUTION WITH SOMETHING THAT WORKS.** It no longer applies to the way the nation and its people live.

A new year ahead for America, and the government doesn't work.

Like a broken watch, we should return the government for repair. This time, though, no mere tinkering. The whole inside has to come out and be discarded, to be replaced by something that works.

This means convening a constitutional convention to scrap the current Constitution, or most of it, and substitute a new document for today and tomorrow. The old Constitution worked remarkably well for two centuries, but it no longer applies to the way the United States lives or to the people Americans have become. It can't be held together by glue and baling wire much longer. It's past time for a new model.

This conclusion wasn't reached quickly, easily or comfortably. The United States of America was the world's foremost constitutional democracy, and the document produced two centuries

ago was remarkably flexible. For what seems forever, the Constitution was admired worldwide, but it's no longer true. Emerging democracies look elsewhere for guidance on how to set up a government of rights and responsibilities, a government that works.

Of the three branches of federal government, only one comes close to being functional, and then only infrequently. The judicial system at times serve the purpose for which it was designed, although monumental caseloads are crippling the lower courts. The Supreme Court, for all its critics and despite its varying political tinges, manages to do its job much of the time.

Not so the executive or legislative branches. Who was the last president on top of his job, in control? Who can remember that far back?

President Bush flees Washington every chance he gets because, like his predecessor, he doesn't know what to do about the worsening domestic nightmare of budgets and deficits. He can't keep his own administration under even reasonable control, and he hardly knows what's going on. A shocking ruling on college scholarships for minorities came from nowhere, issued without Bush's knowledge.

The Congress is worse. Members of Congress are routinely bought by campaign contributors; the congressional process is predicated on money for re-election. With few exceptions, whatever integrity and rectitude the members of Congress brought to Washington soon is pounded out of them, never to return.

The Keating Five don't constitute an exception. As one of their senatorial supporters said, in effect, everyone in Congress acts this way.

Like the president, Congress refuses to cope with the nation's \$3 trillion debt, and therefore the United States is slipping out of superpower status. Like members of Congress, the nation itself is being bought--by foreign investors who because they paid the piper, will call the tune.

When the constitutional delegates convened in Philadelphia in 1787, it was thought they would merely revise the ineffective Articles of Confederation. Instead, they created a whole new Constitution, meant for the long haul.

"In framing a system which we wish to last for ages," the estimable James Madison said, "we should not lose sight of the changes which ages will produce."

They were farsighted, but not this far. Modern conditions out-distanced the brilliantly conceived document, which retains its usefulness by providing for overriding changes. A national convention to amend the Constitution may be called by the Congress at the request of two-thirds of the states.

The states should so request. The Congress should so call. And the delegates should reflect today's United States.

All delegates to the 1787 convention were white males. This time, the delegates must include females, African-Americans, Hispanic-Americans, Asian-Americans and the usually forgotten Native Americans. And every other kind of American, hypnated or not.

If they have the gumption of the nation's founders, they will insist on a full new Constitution, not a patchwork job.

Could such a group be dangerous?

Certainly. But changing times and savage abuses call for a revolution, which is what a constitutional convention could and should be, just as the 1787 convention was. It will be a revolution of the United States' best brain power.

When the finished product is presented to the states, three quarters of their legislatures--or conventions in three quarters of the states--would have to ratify before it would go into effect.

If the result isn't better than what we now have, or is flawed badly, the states could reject it.

But, they probably wouldn't, because the new Constitution doubtless would be first-rate, meant to last for the ages, or for 200 years, whichever comes first.

That's the end of the editorial which appeared in the January 6, 1991 edition of *The Buffalo News*. His question is: (well, some of this Awareness has already answered in the opening message, but I'll read his letter):

"The editorial makes vague references to a document which Awareness has described in the past which the Rockefeller think-tank produced and proliferated in a book written by Rexford Guy Tugwell, a Franklin Delano Roosevelt confidant.

"My question is: Is the orchestration of hostilities in the Iraq/Kuwait scenario part of an overall/current scheme to overthrow the Constitution of the United States?"

COSMIC AWARENESS:

This as in the affirmative.

QUESTION:

Is George Bush intentionally exceeding his Constitutional authority as Commander in Chief of the armed forces to force this confrontation?

COSMIC AWARENESS:

This Awareness indicates that it is not seen clearly that this is an intentional motive. The energy seen is that the entity believes already that he has the powers to do what he is doing based on Executive Orders which have been signed into Executive Law through his and previous administrations, and which the Congress did not object to at the time. Also precedents, wherein certain executive actions of the past have been taken allowed the entity to believe he had precedence for what he was doing.

Tradition, in other words, serves as a kind of authority, and if a previous president has taken a certain action without permission of a constitutional or legal document and gotten by with it, then it would imply that the current president would have a similar right. Thus, tradition serves as a kind of authority to back his action. There have been many wars, mostly smaller wars, that have been started without a declaration of war from Congress. Of course, Congress *did* give its approval at the last minute, to allow the Mid-East war to begin, after the deadline of January 15th.

QUESTION:

By that time they didn't have much choice, did they?

COSMIC AWARENESS:

There was very little choice. It is likened unto a situation in which two boys want to fight each other and someone says: "You can't do this without

the principal's permission, and thus, they run to get the principal, who recognizes that whether or not he gives permission, they are going to go at it because there is such energy on it, so he arranges it in such a way that they do it legally. He might put them in a ring and give them boxing gloves or something like that. This Awareness indicates that all Congress did was make it legal in appearance, so that they did not appear to be shirking their duty.

WHEN THE MONEY IS CHANGED WE ALL  
BECOME CITIZENS OF THE NEW STATES  
OF AMERICA & OWNED BY 13 BANKERS!

QUESTION:

N.G.'s question continues. Awareness has answered this, I believe. "Is the sudden bandying about of the term "New World Order" a further prong in Bush's attempt to supersede the current U.S. Constitution with another document under the auspices of the United Nations?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that before the New World Order has been implemented, the current Constitution will come under scrutiny. A constitutional convention is probable and the currency of the United States or Federal Reserve Notes is likely to be exchanged for the new money system. This is seen as probable for 1992. This Awareness indicates that the new money is already in banks and has been for years. It is awaiting the time for the complete change in government.

That when the new money is changed, at that point you will no longer be citizens of the United States of America, a democracy. You will then be citizens of the New States that are owned by the banking families which include the Rockefeller empire run by John McCloy and the Lehman Brothers of New York, the Rothschilds...that these families are named in Lindsey Williams' book; that this can be found listed in his works.\* That these are a total of thirteen families who control the Federal Reserve Bank and the plan is to take control of the United States, change currency and Constitution and rules, and do all of this with a minimum amount of disturbance to the masses, keeping them happy, economically while it occurs.

Later, the screws will tighten on the masses and entities will realize they have no longer the rights, the freedoms or the privileges they enjoyed under the United States Constitution. This Awareness indicates that messages such as this will be forbidden. Entities such as the staff at C.A.C. and the Interpreter, are likely to be rounded up and put into concentration camps as threats. Anyone who objects to the changes will be seen as an enemy of the state, and dealt with harshly.

Be Cool but Do What you Can

This Awareness indicates that the only recommendation for entities in order that they not over-jeopardize themselves, and still assist, is that they promote the New World Order as a *democracy* based on the Constitution's Bill of Rights for all people; that by promoting something positive in this manner, you are not likely to stir up antagonism or have your name put on a list of rebels or anything that would be classed as antagonistic to the changes.

There is nothing wrong with promoting freedoms and the Bill of Rights. Even your president has been suggesting to Gorbachev that he lighten up on the Latvian and other Baltic nations; that this approach does not raise hostilities or feelings of threat when entities promote freedom. It is only when you object to slavery or bureaucratic oppression that you are likely to be classed as a discontent or dissident.

This Awareness suggests that entities be cautious not to be classed as a dissident; that you may freely speak out in favor of the positive, but be cautious about speaking in disfavor about the negative, for that makes you a dissident. There will be definite rules in regard to how to treat dissidents. This Awareness sees this not before 1992, but near that time when Europe becomes united. All of these things appear to be reaching a culmination at that time. There will likely be a situation that calls for dramatic action. Perhaps the announcement of alien presence on earth or something of a similar nature to make it easy for entities to accept the major changes that occur, such as a constitutional convention to scrap the old Constitution.

#### Some Scary Parts of the New States Constitution

This Awareness indicates that entities really need to read the New States Constitution. It gives the president a 9 year term in office, and senators also have a long term. It creates a way of dealing with certain people whereby they are placed in insane asylum situations if they are not cooperative and there is not a trial or

QUESTION:

#### WHAT IS THE BEST APPROACH TO PREVENT THE DEMISE OF OUR U.S. CONSTITUTION ?

A couple of other questions from N.J. He writes: "If the above questions are answered in the affirmative, then what is the likelihood of Bush's success in overthrowing the Constitution? Also, what would be the best legal approach for your readership to take to prevent the demise of the Constitution?"

COSMIC AWARENESS:

This Awareness indicates that the entity William Cooper has filed a suit against George Bush for high treason. It is unlikely this will go far, but this Awareness suggests that it is a possibility that if large numbers of people began to write objections to their Congressional leaders and senators, to the talk of changing the Constitution, or if they write asking for clarification as to what is implied by the concept of the New World Order, stating that they do not want to give up their freedoms, that this will cause these representatives to take a more firm stand in defending these constitutional rights.

The elected officials pay considerable attention to their constituents and to their support groups in an effort to get reelected, and they are likely to pick up, when there is a trend in terms of concern about certain topics, and if they pick up on this, these things can also become topics for discussion among them and also on certain of the television networks they may become topics of discussion. It would be helpful also for entities to write to those who have panel shows such as 'Capitol Gang' and 'Crossfire,' on CNN, to ask them to discuss the New World Order, what it means, whether it it a

remedy to give them the chance to defend themselves. It would allow entities who are political antagonists to be removed from society and treated by psychiatric drugs or experimentation or given lobotomies or whatever else is prescribed for their social redemption.

It is a very frightening document if entities read between the lines as to what is being said in the document, for there are ways of saying things that do not sound so bad until you stop to think about what was left out or what can be implied from a general term. For example, it would allow private property to be taken without due process. It would allow private property to be taken without reasonable payment. There are so many areas in this that by leaving out a word, allows for all kinds of violations.

Where it appears in the reading that it is saying one thing favorable, such as a statement that property cannot be taken without compensation, sounds like: "Well that's fair!", until you stop to think, the word left out that was in the old Constitution was *just* compensation. They could give you ten cents for it and take your property under this constitution, but if it were "*Just*" compensation, they would have to pay you fair market price or something close to fair market price. Thus, by leaving out a term here or there, this constitution appears to say one thing on the surface, while in actuality creates a means by which you have *no rights* and can have those rights taken from you for little cost or for little provocation.

threat to the Bill of Rights, to the Constitution guarantees and to voice their concerns to these people who either work for the public as representatives or through the media as messengers, for these are ways whereby information can be influential.

If enough entities get this dialogue going with their expressed concern and desire to see the freedoms of all people expanded through the New World Order, then it can preempt any effort to curtail freedoms before they can be taken.

#### WHAT IS THE BEST "LEGAL" APPROACH?

(Which of Bush's Two Oaths is Most Important?)

QUESTION:

Nels had one final question which I think Awareness just answered. "What is the likelihood that George Bush or any other American currently involved in the plot to overthrow our Constitution will be impeached or even better, tried for high treason? What would be the best legal approach for your readership to promote such a result? Please be specific when referring to legal sources and approaches."

COSMIC AWARENESS:

This Awareness indicates that this information is available in the Cooper documents relating to this. That the legal grounds by which this could be used is all there; that these entities have essentially been sworn in to office and in their swearing in have vowed to uphold the Constitution, thus if any attempts were made to scrap the Constitution, they would be guilty of malfeasance, of failing

to do their job properly. It simply needs to be researched; that the pattern is presented in the Cooper material and anyone can take that pattern and apply it themselves to whatever or whomever they wish to apply it toward.

This Awareness indicates that all government agencies, even those serving in the military, are sworn to uphold the Constitution. Of course, this swearing in to uphold the Constitution is a kind of ironic situation when pledges are taken for Trilateralists membership in which entities are sworn in such a manner as to pledge that their loyalty to the Trilateralists or Council on Foreign Relations supercedes any other loyalties.

That this very act would be grounds for concern if an entity is sworn to protect the Constitution and then swears in the joining of another organization that his previous oath is less important than the new oath to his new organization. One would have to question where the entity's oath of allegiance truly lies. If the entity is worthy of being president of the United States or a member of the Council on Foreign Relations, which of these is more important to the entity?

#### YOU ARE NOT ALONE !

(CLOSING MESSAGE):

This Awareness indicates that it is important to realize that the talking about a New World Order is one thing, the creation of a New World Order may be something quite different, and that if you feel concerned about the potential loss of freedoms, keep in mind there are two hundred and fifty million others who feel a loyalty to the freedoms that have been granted under the Constitution, and although they might be fooled for some time, when the freedoms actually appear threatened, there will be many who will not agree with the changes that are seen coming and there may be far many more than just yourself who object vehemently to having these freedoms taken.

The danger, of course, lies in that the freedoms will be gone before the entities wake up. This Awareness indicates that there are, however, many entities who are intelligent enough, that even though all may not wake up in time, there will be many, and these many, if they have vocal chords or if they can write, can awaken many more very quickly when they see these freedoms being threatened. It appears it will be too much, too many to silence, and that even though there is likely to be an attempt to set up this totalitarian system, it may not actually occur in the way that is envisioned and entities may in fact, alter the outcome and nature of the New World Order to be that which is a Democratic World Order.

This Awareness suggests that entities promote, when they write to their Congresspeople and to those newsmakers and Crossfire and McLaughlin Group and others who discuss things on television, that they write these terms: "Democratic World Order" to get the idea of a New Democratic World Order to supersede the concept of a New World Order that is undefined and which could be totalitarian in nature, for all you know. Start promoting the concept of a *Democratic World Order* and you may prevent the potential of a totalitarian world order.

\*\*\*

(The Law of Gratitude is given)

#### ED's Note:

Someone mailed me a 40 page booklet called "Desert Shield and the New World Order" written by Nord Davis, Jr. and published by Northpoint Tactical Teams, PO Box 129, Topton, N.C. 28781. The price is listed at 50 cents each, but it can't even be mailed for that as the postage is more than this. Send them \$2 and ask for a couple of copies. It is a very interesting linkage of the Illuminati from way back when, up through the years of FDR and today's Bush administration. One of the more little known 'asides' pointed out in this document relates to George Bush's wartime experience as a navy flyer, wherein under Japanese attack, Bush panicked, baled out of the plane he was piloting, leaving his two crewman trapped to go down with the plane. The crew was sealed in a compartment that could not be opened in flight because of the tremendous pressure of the airstream against the door. Had Bush stayed with the aircraft into lower levels to relieve the air pressure as the crew pushed against the door, his men could have been saved. Although Bush was awarded the Distinguished Flying Cross, *Navy Times* recently was highly critical about the incident of abandoning his crew. Navy pilots who flew with Bush insisted he had the aircraft ability to put the plane down in the water so his men could get out safely.

It appears his tendency to rush into things on the spur of the moment did not decline with age. The booklet by Nord Davis, Jr. is worth reading if for no other reason than his New World Order scenarios he is certain will follow the Middle East war. Although printed and published before that war ever began (and now is ended), the scenario presented is one many of us believed would occur,--a long, dragged-out affair with many casualties.

(I sent Nord some alien info but it was returned with a demand to take him off our mailing list as he did not have time to peruse the material). He never was on our list anyway.

In hindsight, Nord like many of us, would say Bush 'lucked out.' But did he really? On the surface, yes. But he knew all along what the rest of us didn't, as he promoted 'this just and noble cause', that Saddam Hussein did not have the 4th strongest army in the world, as touted, but a ragtag band of tired veterans who fought Iran for 10 years and now wanted only to return to their families, plus a huge force of recruits, mainly teenagers he had drafted into his army, untrained, often un-fed and given more primitive weapons rather than the high-tech weapons we were led to believe his armies controlled. Before the ground war ever began, it was a PUBLISHED fact that "Iraq is a Third World military that is incapable of fighting mobile armored battle. That even by Third World standards, the Iraqi army is below average as a fighting force." (From the Chicago Tribune).

Bush's action is likened to sending a tiger out to discipline a wayward mouse, but he led us all to believe, including the sychophant media, the event like the Superbowl, would be a monumental clash of titans. Instead, the action is a shame and a stain on America, but Bush has made his point: The New World Order is here, like it or not, and his poetic "thousand points of light" are revealed for what they really are,--thousands of napalm and cluster bombs raining death and destruction on fellow human beings. What our president has taught every kid in America: If you don't like somebody, pull a gun and kill him.

While America basks in patriotic frenzy, welcomes the conquering heros, even appearing to finally forgive the butcheries of Vietnam, hoisting flags and tying yellow ribbons around nose and member; when the euphoria of this national hysteria wears off, when it finally sinks in that our relentless bombing wasted at least 150,000 of these Iraqi men and a possible equal number of Iraqi civilians, mainly women and children; after all the rejoicing and that "Mother of all Parties"--sobriety sets in, and perhaps the realization that once again our government has used the people to commit mass murder. We have shown the world, and our children, that as role models we have reaffirmed

the idea that resorting to mass violence is a legitimate and desirable way to resolve a conflict between two groups of people. We have once again forgotten that we all belong to the family of man, which includes the Iraqi Arabs, and have brought tremendous grief to tens of thousands of fellow human beings,—grief that will thwart an individual's ability to contribute positively to the growth and evolution of humanity for many years to come.

While it is easy to "blame Saddam" for the death toll, as everyone seems to rationalize, 'blaming the victim' needs to take into account the brutality and immense devastation rained upon the Iraqi populace, the real defenseless victims of this outrage which could have been prevented by negotiations and sanctions. Many Americans appear proud that in less than six weeks we have devastated a tiny little country, wasted thousands of lives in a war that continues to trigger the deaths of uncounted more through contamination of drinking water, and lack of public-health facilities, food and medicine. Meanwhile Bush has stated we won't pay a dime to help restore sanity to a country we destroyed, and we are besieged by politicians and media hailing the glory of a "bloodless" and "efficient" war. If Bush wants to flex his muscle, next time how about picking on a '1st World' country of equal size: let's bully it and send the CIA or the Mafia into those little Third World countries to knock off tyrants like Saddam Hussein. Oh, yes, we 'liberated' Kuwait (after totalling it) and the tyrant Emir Saad Abdullah has been restored to his throne, after basking out the war in luxury at the Saudi Arabi Hilton, and his first official action was, of course, to impose martial law and seek out and destroy those freedom fighters who long to bring democracy to their country.

But the real loser, thanks to Bush's impetuosity, is Mother Earth, our planet. Michael Rennar of Worldwatch Institute estimates that the 3 million barrels of oil burned out of control from oil well fires set deliberately by Iraq or by bombs dropped by Allied planes will have far-reaching consequences.

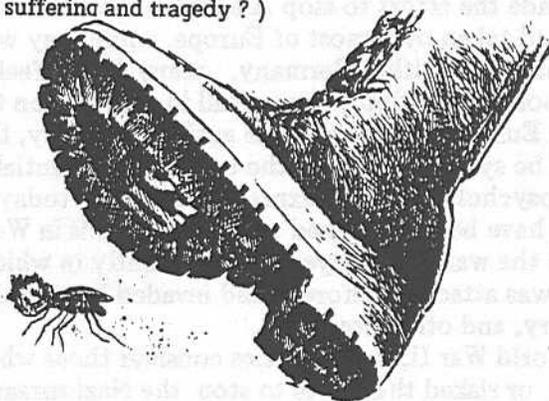

11. Wars like these will end up killing far more people than third-rate military dictators like Saddam Hussein because our environment, the air we breathe will never be the same again.

George Bush is a dangerous man, and all this is yet another example of his impetuous bailing out during World War II.

Sadly, for the majority in this country, it appears, the media, the masses, the sheep about to be shorn, the Mideast 'war' was America's "feel good" movie for the year, just like the commercials said, and other than the 100 or so Americans who lost their lives, one way or another, no remorse nor mention of the 200,000 or more Iraqi people who now lie bloating in the desert sands, whose only friends are blow-flies. In a way it could be called a 'racist' victory, for obviously these were not human beings, only Arab stereotypes unworthy of note or discussion. Racist also because it was just another Third World nation; for 50 years, all our wars have been against Third World countries.

Will we ever think about these entities again? Hail to the New World Order! We won't think about that either. Let's have another beer, sit back, switch on the ol TV and see what King George will present for us next. Maybe he can top this one!

(And who was it who said, we are on this planet to help lessen the sorrow, suffering and tragedy?)

## CHILDREN AND THE WAR

OPENING MESSAGE:

(C.A.C. General Reading, Feb. 21, 1991)

This Awareness indicates that the likelihood is that by the time entities receive this reading, there will be numbers of allied troops casualties, many being shipped home in body bags and that this can be alarming especially to children, between the ages of four and twelve. It is possible that the war will be over by the time this message is printed and mailed and received, depending of course on whether things are as easy as the allies expect in the ground war with Iraq.

This Awareness brings up this topic as an issue in regard to the concern for the children who hear about and talk about and feel the concerns expressed by many, perhaps in their schools or among their school-mates in regard to the war and suggests that parents be sensitive and attentive to their children and their attitude toward this concern, if their children do express any concern about it. Most of the children will understand that it is far away and does not pose a great threat to them personally, but some may not understand the remoteness of the war to them personally, and may begin to develop fears that the war will come into their own lives, and if these children begin to develop this fear, they may need some help either from parents or from counselors, in order to put it into a different perspective which allows them to better cope with the information they receive from various sources.

QUESTION:

This Awareness indicates that of course the children in the wartorn countries will have traumatic experiences that may scar them psychically and physically for life. There is little that readers can do for these entities at this time. This Awareness suggests however, that if you yourselves have children, be sensitive, listen to them, and be aware, if they have concerns about the war, to give them assurances as to their own safety.

### DO WE ALL BEAR KARMA FOR THE WAR? (More on Positive and Negative Karma)

As these entities over there, children, women and men blown apart and incinerated by United States bombers, and God only knows what will come with tanks and so on; isn't this creating karma for every person in the United States?

COSMIC AWARENESS:

This Awareness indicates that there are degrees of karma, and some entities may receive greater karma for the events than others. There are many who will receive no karma for this action, participating in no way in it. There are others who, by their silent consent will receive small amount of karma. Others, who by full consent will receive a greater amount of karma and those who have assisted in setting up the scenario will receive still greater karma. But it must be understood also that this is in reference to negative karma.

There are also positive karma elements that come from situations, not only the negative. There are entities who sacrifice to the effort of helping to stop the Iraqi forces from further invasions into other countries or from maintaining the spoils of the invasion of Kuwait for helping to put an end to Saddam Hussein's territorial grabs, keeping this entity from further violence against neighbors; this too carries a certain good karma for entities who help to stop this kind of negativity.

This Awareness indicates that it is not that Saddam Hussein is a really nice person, and people are violating the entity and therefore receive negative karma; it is not that simple. This entity has caused suffering and pain throughout the region over there and would continue to do so if unchecked. That if unchecked, this entity would soon become a dictator of all Arabs, and would then seek to amass power to go out into other regions of the world to conquer and slaughter and gain control over other territories.

It is much like the situation of World War II. If entities had made the effort to stop Adolf Hitler's armies before they had taken over most of Europe, while they were still contained within Germany, many would feel that this poor little nation was so small in comparison to the rest of Europe and the alliance against Germany, there would be sympathizers for the underdog. Essentially that is the psychology that is expressed by many today and would have been expressed toward the Nazis in World War II, had the war been played out differently in which Germany was attacked before it had invaded France, Austria, Hungary, and other countries.

In World War II, most entities consider those who sacrificed or risked their lives to stop the Nazi spread were doing the world a favor and should have been given what you would term "good karma." That the same can be argued in the present situation to a lesser degree, because the same kind of energy would be expressed, had the coalition not stopped this action at this time. You might also recall that the West helped to set up the Nazi army, and thus, there are parallels when it is recognized that Iraq was also helped by Western nations in its buildup of power, and Saddam was encouraged by this kind of support to expand. Therefore, even while there is some degree of negative karma, especially for some entities, there is also that which may be termed a positive karma. Much of it depends on how the entities receiving the karma view their participation in the situation. If they are simply involved because of the excitement of hitting a target and it is like a game to them, that is one thing. If their attitude is based on their sincere belief that though they do not really want to hurt anyone, they are put on the spot to stop the further violence from the Iraqi forces, then these entities with such an attitude will have a more positive karma from their action.

This Awareness reminds you of the entity Sergeant York, in World War I, who captured some 400 German soldiers, and though he was essentially a pacifist at heart, when asked how he managed to outflank and capture these entities after having seen himself as a pacifist, he responded that: "They were killing our people, and I did it to stop the killing." That this of course would merit a positive karma rather than a negative karma for this entity.

## QUESTION:

With Saddam Hussein's decision today to hang in there, it seems like this man is a fanatic and has totally lost touch with reality. Would a check perhaps, of some of his past lives bring to light why he doing all this? Is there some significant past life that he's got some carryover from?

## COSMIC AWARENESS:

This Awareness indicates that the name 'Genghis Khan' is seen; that this entity is seen as having been one who conquered many nations and that the entity has built his world and his being as one who thrives on organizing armies to conquer others. This Awareness indicates the entity Adolf Hitler as having been that Atlantean being known as Baal; that some of these entities just do not get clear of the warrior syndrome and return again and again, for the same kind of lifestyle; that they are more or less open to influences that mold them in the direction of a warrior/conqueror type.

[ Genghis Khan--a 13th Century Mongol who conquered most of the known world, from China to Russia ]

## QUESTION:

So it appears Saddam is going to go for martyrdom ?

## COSMIC AWARENESS:

It appears the entity has tricks which he believes will create enormous numbers of casualties that will cause the American people to cry out for an end to the war, and that he will then negotiate from strength, and thus be seen by the Arab world as a winner of the war. The tricks appear to be related to mass-destruction, partly through the use of gas and partly through the use of other means, including pulling back and letting the allies enter Kuwait and then setting off explosive charges and other mass-destructive weapons for those who remain in Kuwait.

The biological warfare may be employed at that time to spread throughout the region so that even after the U.S. appears to have conquered the area, they will only begin to feel the force of his trickery and the chemical and other means of mass-destruction will then begin to be felt. This Awareness indicates however, that it must be understood that the allied officers and intelligence gatherers are not naive enough to assume he will not try to do something of this nature, therefore, there is some preparation. It is a matter of how well can the preparation work, in regard to the actualities that will be encountered.

This Awareness indicates that if there are great numbers of casualties, the masses will not hear about how many are actually experienced, and if there are great numbers of casualties, the allied troops will go on into Iraq, searching for Hussein, to totally destroy his regime.

## QUESTION:

Awareness has indicated that Hussein does have some atomic weapons. Does *It* see these as being used?

## COSMIC AWARENESS:

It appears that this entity has, through some kind of secret dealings, received covertly, and not necessarily with the awareness of Russian leadership, but has received covertly from Russian sources, atomic land mines.

These are nuclear devices that can be planted in a city or in a field, to be detonated to scatter radioactivity over an entire region and that the entity is considering, seriously considering, using these in Kuwait, to make the country a no-man's land after allied troops have entered the area.

This Awareness indicates that the one cause for hesitation of this is that he risks retaliation from the allied nations and censor from the Arab nations of such enormous condemnation and punishment that he could not survive in any way, and the entity does intend to survive, therefore, he may not have the nerve to use these atomic land-mines for this purpose. It will depend on how he assesses the aftermath of such use and his ability to survive if he does use these weapons.

QUESTION:

Saddam has made a quite a bit of noise about a dream he had, where allegedly the prophet Mohammed came to him and told him his guns were pointed in the wrong direction. Is this significant at all?

COSMIC AWARENESS:

There is seen no great significance in this other than his interpretation and it appears that he interpreted this to mean that his guns should point toward Israel rather than toward the coalition forces.

QUESTION:

One puzzling thing he's done is sent a good percentage of his best airplanes, his air force, over to Iran. Does Awareness see him somehow pulling these planes out and using them against the allied forces, even though Iran has said they can't be removed?

COSMIC AWARENESS:

This appears to have been an effort by him to cause an incident that would bring Iran into the war. If the United States and other countries were to have believed Iran was sheltering Saddam Hussein's air force and were to make an incident of this, especially as in attacking those planes, he would hope that Iran would turn against the coalition forces and enter the war. This of course was not the case. It was a desperate move because his planes were being destroyed systematically on the ground and he had no place to hide them, and in desperation felt that if he could get them to Iran, Iran might be sympathetic enough to let him store them, and also that there might be an incident provoked whereby his pilots could launch an attack from Iran and thus bring Iran into the war, on his side.

QUESTION:

With all the relentless bombing by the American Air Force and so on of Iraq, what is the status of the Bolsheviks that Awareness indicated were behind this whole thing over there in Iraq? Have they left entirely, or are they still there?

COSMIC AWARENESS:

There are some few remaining in his staff of advisors. These may be referred to at times in the press releases as "Russian" advisors. Occasionally you will see references to "Russian" advisors in the Iraqi theatre, and there are many more who have either fled or who have been destroyed by the bombing of military targets.

13.

### WHY DIDN'T THE PEACE MEDITATIONS WORK? (Bush's little "Sanitized" War)

QUESTION:

A question from T.M. We've received several along this line. She's in Vashon, Washington. She writes: "Dear Staff. What's happening in our world? After reading your last mailing I thought things might simmer down in the Gulf area. What a shock to learn we had started a war! My question is: What happened with the energy that some of your membership, myself included, has been manifesting for peace? I've written to our Congress-members urging negotiations, but they were voted down. Now I am writing to our representatives to repeal their salary raises upon Ralph Nader's urgings. How long is this war going to continue? I have friends with sons and grandsons over there. My son will be caught in the next round-up. The peace demonstrations are being trashed by the public. Just what can we do to compensate for this evil surge that is taking place?"

COSMIC AWARENESS:

This Awareness indicates that it appears that the quickest way to end the war is to let it proceed on course at this point; that this is not a guarantee for the chances are still strong that it will last for months, but it does not appear that there is, at this stage, any likelihood of the few voices that call out for peace to have a great effect. The war fever is strong and will continue to run its course as long as victory is smelled in the air. Right now, the allied forces feel they have total control of the situation and that victory is their's in a matter of days or weeks at the most. It is possible that this may be so. At any rate, it would not be possible for the few voices of discontent to alter this presumption until something indicates otherwise; that the syndrome of Vietnam as that which affects the thinking of many people. Many who believed that Vietnam was an unjust war, who believed it was not appropriate for our involvement, and who understood some of the complexities, including the drug involvement of certain vested interests in the region, found themselves justified in protesting the war, and after some time, had a profound effect on bringing the war to a conclusion without victory.

This Awareness indicates that this gave peace movements a feeling of great power. This Awareness suggests that there are many who think that it can be repeated again through marches and slogans and speeches in this Gulf war, but this war is being presented in a much different way. Rather than having the television carrying the war to the living rooms of the masses in which entities watch the bodies of Vietcong, of children, of villages, being picked up and placed in piles or put in different areas as occurred in the Vietnam war, just about dinner time, on a daily basis, this war is being presented more as a kind of video game with targets being seen from high altitudes and no bodies being shown. It is referred to as a "sanitized" war.

Occasionally, numbers get through as when Saddam Hussein stated that 20,000 Iraqians had been killed, but this is a rare exception. Normally, very few numbers are ever given; that it makes it more palatable to the American viewer not to hear about the number of casualties, even on the enemy's side. This Awareness

indicates that the recent showing of the bomb shelter and the bodies being removed as that which was an exception and as that which had a strong propaganda effect, raising questions about whether the allied forces were going too far.

#### Why the War is Really Being Fought

Many more of these television images would cause wide-spread questioning in regard to the war as to its propriety. It is likely that this war is less vicious and cruel than other wars which are not televised at all, but there may be more deaths involved because of the excessive use of weapons. That the peace movement does not tend to reflect a full understanding of the situation in the Middle East, and often implies a kind of naivete and acceptance or sympathy toward Saddam Hussein, and this in turn causes a greater backlash against the peace movement by the majority who back the actions of the war. The majority generally will follow whatever forces are seen as being likely to win, whether it is an election or whether it is a war, and whatever forces have the backing of whom they perceive to be the rightful authorities. Most people follow authority without question. This Awareness indicates that this war is not being fought for oil, although that is a side-effect. The war is not being fought to bring peace or justice to the Middle East, although that might be a side-effect. The war is essentially being fought to create conflict out of which will come the next step toward a New World Order.

This Awareness indicates it is following a formula that is used and has been used down through the years for several hundred years of creating conflict, of thesis versus antithesis, one side against the other in order to find a synthesis, something in between that is different from both sides that originally clashed. Rather than entities promoting a New World Order and trying to get people to buy it, they create a war, a conflict, and during the conflict, begin to speak of the New World Order and gradually convince entities that the conflict will bring about this New World Order which will solve the problems to keep these conflicts from occurring in the future.

#### Even the Peace Movement will Fall for the NWO

When this alleged New World Order is eventually imposed on the public, they will welcome it as something to prevent wars and even the peace movement is likely to fall for this because that is what they wish to see, and they will find that they are supporting a New World Order to prevent future wars and will be asked to scrap the Constitution of the United States, including the Bill of Rights, and all the freedoms that are guaranteed therein, in order to participate in this New World Order.

This Awareness indicates that many will be persuaded; that this is something they deserve for having won the war. They will be persuaded that it is a reward for having fought and lost their sons and daughters in the war, and they will grasp at it eagerly as they give up their freedoms and rights and privileges. Essentially, this is Hegelian philosophy, or dialectics. It is a kind of formula used.

It has been used in several wars during the past two centuries, wherein the wars were but part of the form-

14. ula wherein the conflict was necessary in order to produce a predetermined outcome that the elite world planners wanted imposed upon the masses.

It is likely there will be need for other wars before the New World Order will fully be imposed upon the world. This particular action brings it a step closer, as did World War I and 2, and as did the Cold War and the other wars in Korea and Vietnam; with each war there were certain political and legislative changes, and relationship changes that led closer a step at a time, to the New World Order. Some of these changes were economic in nature. All were designed to help bring about the New World Order.

#### THE PRELUDE TO WAR: BEHIND THE SCENE

(Ron Paul Looks at the New World Order)

##### QUESTION:

In the February 15th Ron Paul Political Report,\* he brings up a couple of questions. I'll read a little of this report and ask Awareness to comment. He calls it "The Iraqi Disaster."

One of my most vivid memories of 1989 is the stricken look on the faces of George Bush and James Baker when the Berlin Wall came down.

These men had built their careers on the warfare/welfare state, based on taxing the productive private sector to subsidize the government itself and its favorite special interests, including the munitions manufacturers. These are the firms the isolationists of the post-World War I era called the Merchants of Death. Later baptized the Arsenal of Democracy, now I guess they're the Armory of the New World Order.

The collapse of Communism must have been a frightening event for Bush and Baker: the federal budget might actually have to be cut. Not the phony cuts of the last budget, when projected increases were lowered. No, real cuts. But as an unnamed Pentagon official told the *Washington Post* last summer, "You've got to give the Devil his due. Saddam Hussein saved our budget."

And when a Pentagon speaker addressed a defense contractors' meeting in Milwaukee in October and said, "Thank you, Saddam Hussein," he got a standing ovation.

From the beginning George Bush has wanted a war with his old ally from the Reagan administration, Saddam, and he set out to get it. (The U.S. had egged Saddam on to attack Iran, and even supported his aggression with money, food, and weapons. We even prevented the U.N. from condemning him!)

Because Bush wanted a war, U.S. Ambassador April Glaspie told Saddam just before he invaded that his dispute with Kuwait was seen by the U.S. as just an "intra-Arab border dispute," and if he invaded, the U.S. would express disapproval, but that was all. Thank goodness Saddam recorded this interview, which for some reason the lapdog press has shown little interest in.

After the invasion, we poured troops into Saudi Arabia, allegedly to protect it, although no one believes Saddam intended to attack it. That's why we had to twist the Saudi government's arm with Defense officials calling them "wimps who didn't want to defend themselves."

We were only there for defensive purposes, Bush lied, while getting the U.N. to authorize an attack. Two days after the November election, the prevaricating president doubled the number of troops and announced he intended to attack if Saddam wasn't out by January 15th.

Advised by the psychological warfare of his old agency, the CIA, Bush deliberately humiliated Saddam, talking about "kicking his ass," mispronouncing his name (it's SaDOM, not SaD'em). Every possible peace overture, including an area peace conference (which another allegedly sacred U.N. resolution called for), was called "rewarding aggression," and ruled out. Saddam was told to leave with his tail behind his legs, while Bush hinted at destroying his alleged "military machine" no matter what Saddam did. Ike had said you should always leave your enemy a means of retreat. But Bush did not, for he wanted war.

As Murray N. Rothbard points out, imagine if a superpower U.N. had ordered Bush, in the same humiliating language, to get out of Panama after the U.S. invasion. Would Bush have left? Of course not, and there would have been war. (Note: our invasion of Panama cost as many lives as Saddam's invasion of the oil company called Kuwait.)

No one is talking about this, but there are real border questions between Iraq and Kuwait, and even the State Department admits that the Kuwaiti dictator was drilling diagonally underneath the border and stealing Iraq's oil, using it to breach a price agreement he made with Iraq. That doesn't justify Saddam's actions, but it's good to know.

Bush calls Saddam "The Dictator" and "The Aggressor." (This is the same Bush, of course, who has just given himself dictatorial powers over the economy by executive order and who invaded Panama and installed a puppet government that is, to this day, kept in power only by thousands of U.S. troops.) We have aggressors on our side (Turkey conquered and seized Cyprus, Syria did the same in Lebanon, and Israel in Lebanon, Syria, Jordan, and Egypt) and dictators (Syria, Saudi, Egypt, Red China, the USSR, Kuwait, etc. etc.) All are bought and paid for by the U.S. taxpayer.

When Bush talks in messianic language of the "whole world standing against Saddam," he includes such new U.S. allies as Communist Ethiopia, run by the African Stalin, Mengistu, who has murdered millions. Ethiopia was courted by Baker at the U.N.

Speaking of the USSR, Russian dissidents believe--and I agree--that Bush made a deal with Gorbachev at the Helsinki summit. Gorbachev would support the U.S. war with Iraq, subsequent U.S. control of the oil in the area, and the New World Order. In return, he would be made junior partner in the NWO, get billions in aid and other support, and have a free hand to wage war against the Baltics and other captive nations yearning to breathe free with his vicious "Black Beret" troops. What a stench emanates from that deal, reminiscent of the Stalin-Roosevelt pacts. Of course, this doesn't count as "rewarding aggression."

And he goes on and on, but would Awareness comment on Ron Paul's comments?

\*Ron Paul Political Report, 1120 NASA Blvd., Suite 104, Houston, Texas 77058. \$50 a year.

#### COSMIC AWARENESS:

This Awareness wishes to ask the question: Does this also discuss the country known as Bahrain, in which George Bush through his son owns vast numbers of oil wells which might be subject to threatened take-over by Saddam if the U.S. troops were not there to guard this?

#### QUESTIONER:

I don't see that in here, but I think that was covered in a previous report he put out.

#### COSMIC AWARENESS:

This Awareness indicates that essentially this entity does considerably deep research into the causes and activities behind the surface; that the entity's research is generally correct on all levels. This entity as one who over the years has been very forthright in his assessment and very outspoken in his concern for the erosion of freedoms and the corruption in politics.

This Awareness indicates this entity will some day be looked upon in retrospect as an heroic and true American patriot. This in reference to Ron Paul. The entity did put out a newsletter updating events periodically, with an emphasis on economics and foreign affairs.

ED's Note: He still does. You can get info from the above address.

#### (FOLLOW-UP QUESTION):

Is his analysis of the deal that Mr. Gorbachev and Mr. Bush made, basically correct?

#### COSMIC AWARENESS:

This is in the affirmative. There are however, some underhanded activities among the Russian leaders wherein they are attempting to play a double-crossing type of activity or game, in which they work under the table with Saddam Hussein, and overtly work with the alliance, so that they are trying to gain benefits from both sides. This Awareness indicates that the Russian leader as being under extreme pressure due to internal forces that are controlling him and also the internal pressure of the economics of the Soviet Union that demand that he cooperate with the West in order to receive any benefits or assistance for the Soviet Union economic needs.

It is indicated that with the cooperation, there will come economic assistance in the future through trade and through other agreements.

QUESTIONER'S COMMENT: Ron Paul makes a comment that's sort of interesting. He says: "During the Congressional charade, I hate to admit that I liked the speech of my old opponent on economic matters, Ron Dellums. He said that his colleagues should imagine they had two kids in the desert. One will be killed and the other maimed, and the maimed child will ask, 'Dad, was it worth it?' If you can answer yes, said Dellums, vote yes. Otherwise, vote no."

#### WHERE IS THE U.S. ECONOMY HEADING?

#### QUESTION:

We got a letter from P.K.--several questions. "I am requesting a reading from Awareness on several subjects. While these subjects are directly applicable to my personal situation, they may also encompass the situations of many subscribers as well as society at large." (I should probably read his entire letter and then go back and ask individual questions, if Awareness requests)

"I subscribe to many newsletters, many of them financial in nature. They would be considered alternative from the mainstream and have a past history of good accuracy. The newsletter writers almost uniformly paint a picture of an extremely weak U.S. and world economy that is destined for a severe correction of the excesses indulged upon during the 1980s that were preempted by the intentional destructive actions of the Rockefeller forces over many years. Several months ago, I believe it was, Awareness stated that the U.S. economy would be in a general but not particularly severe downturn in the first part of 1991, and then turn up to more prosperous times from that point on. Is there some event in the near future that is going to negate the effects of the extreme debt-load of the United States and self-destructive spending habits of the U.S. government?"

#### COSMIC AWARENESS:

This Awareness indicates that it is likely that the economy will pick up when the Federal Reserve lowers the interest rate and keeps it at a steady pace or steady rate. This has been already lowered to some degree but there is talk of raising it because the cost of living has increased the threat of inflation, but this has increased largely because of certain expenses and increased costs in areas of gasoline and other power sources and increased taxes. That as the price of gas settles to a lower level in cost, the threat of inflation will decrease and the Federal Reserve can keep a lower prime interest rate and the economy will gradually improve. This Awareness sees this as coming during

the spring and increasing throughout the rest of the year. The other event that may forestall the predicted crisis of national debt would be the planned money exchange, which may be centered around a new, what may be termed a new takeover of the government by the banking families, as described elsewhere by this Awareness, in which new currency is introduced.

This Awareness indicates that the new currency may be brought in as a kind of 5 to 1 ratio or some similar exchange ratio to cause a new evaluation of the money system in the nation, along with new imposed monetary regulations and other political and legal controls that would be imposed upon the nation to substitute for the Constitution.

Essentially it is likened unto someone who wants to bankrupt a company. In this case it is the United States of America, by forcing the company to borrow and borrow and borrow in order to protect itself against foreign aggressors and run up a national debt which is too high to be paid off. Once it is high enough and an economic crisis occurs to prevent the debt from being serviced, the banks making the loans, the lenders, would have the legal right to foreclose on the bankrupt company in this case, nation. In the foreclosure, they then take over the country or company and are no longer bound by the old rules of the old company. It is as simple as that, but played on a national level.

This Awareness has covered some of this before in regard to alternatives, especially in relation to the fact that the nation was not loaned money, which, according to the Constitution is the dollar, but was loaned instead Federal Reserve I.O.U. notes. This Awareness indicates that if there are enough brave people in the government, they could print up the dollars needed to pay the national debt, and pay back the I.O.U. notes owed to the Federal Reserve families and stockholders.

This would prevent the loss of the nation.

QUESTION:

#### AN UPDATE ON GOLD

Another question from P.K. "Along these same lines, the price of gold has been acting very unlike its historical behavior with the falling value of the U.S. dollar and rising inflation. I have read that the Rockefeller forces have attempted to gain control of the price of gold, such that it would not spoil their plans for the destruction of the U.S. dollar, U.S. economy, to allow a comfortable merging with Russia. Have they in fact accomplished their purpose or are they only initially successful because the investing public in general has not realized what is going on as yet?"

COSMIC AWARENESS:

They are still in the process of completing these plans. This is not totally solidified as yet. They are seeking to back the new money that they have printed which no longer calls itself a note, an I.O.U. note or Federal Reserve Note; they are seeking to back this new money with gold, much of which was stolen from Fort Knox in the 1960s as reported by the late Dr. Beter.

By backing this new money with this stolen gold, it will legitimize the currency or give the appearance of legitimate currency, but will then be under their control rather than under the control of the United States Treasury.

16.

#### THE KARMA FOR USING DEADLY FORCE (How Far Does One Go to Protect Loved Ones?) More on Spiritual Protection

QUESTION:

He continues: "Additionally, if in fact a severe economic decline/depression were to occur, possibly lasting several years, what could we anticipate as a state of society in general? There are many dark and disturbing scenarios of a general breakdown of the structure of society, with general lawlessness interrupted only where the government can maintain martial law, with similar deleterious effects. What if we are placed in life threatening situations where deadly force appears to be the only way to protect oneself and family? What would the karmic outcome be of applying deadly force? Is there a better way?"

COSMIC AWARENESS:

This Awareness indicates that *It* has given information on this previously. This Awareness suggests that an entity has the right to protect oneself and one's loved ones, particularly if the entity has a value or purpose in life and is not a danger or hazard to the rest of society. If you, for example, have a history of causing great harm to others, your right of protection in a spiritual sense diminishes. You may still protect yourself, but you are not spiritually authorized to the same extent as if you had something worthwhile to offer society.

This Awareness indicates that the right to protect your family, your loved ones, is always inherent, and because of this there is a certain degree of rightness in the protection of your nation, and culture and group culture, because those things are part of your personal and family protection, but it is important to realize the right of protection diminishes greatly as it moves out from being a direct threat to you and especially when your nation or your group culture is in violation of the rights of others, wherein there is a violation of their right to life and liberty, by your group or by your family.

Your right to protect yourself, your group, your right to protect your family, is diminished by the degree of violation and threat to others, therefore, it is suggested that you not seek to protect yourself at the expense of others, if you are the aggressor in pursuing a violation against others, but if they are aggressive toward you and you need to protect yourself at their expense, you have that right.

This Awareness suggests the right extends to the degree of force that is necessary to disarm or render the aggressor as harmless. If it requires that you kill the other, then that is a part of the scenario, but if killing is excessive and you could render the entity harmless without such killing, then killing would be excessive and would be in error.

This is in reference to spiritual rights of self-protection. It has nothing to do with legalities of your land, which may rule otherwise.

#### THE MONEY RECALL IN RUSSIA: IS THIS A PREVIEW OF THINGS TO COME IN U.S.?

QUESTION:

A number of people have written in about the recalled money in Russia. One sent in a news clipping which I'll read, called "Ruble Pandemonium Rules. Gorbachev's Currency Recall Causes a National Panic. In Moscow, the Soviet Union ground to a halt yesterday as millions of people swarmed banks, government buildings and workplaces with one question on their lips: Were they going

to lose their life savings? The hysteria was sparked when Soviet President Mikhail Gorbachev announced Tuesday night [...this was January 24th of last year] that the 50 and 100 ruble notes--\$90 and \$180, respectively...

COSMIC AWARENESS:

This Awareness suggests that this was January of this year.

QUESTIONER

Excuse me. Yes, I see this now.... "respectively, at the official exchange rate--were being immediately withdrawn from circulation. His aides said the order would help confiscate the billions of ill-gotten, black market rubles in the country and sop up the huge excess of rubles fueling inflation. But working people and pensioners--many of whom shun banks and instead stuff socks and mattresses with thousands of rubles in those denominations--say the order may hit them the hardest. Citizens have until tomorrow to trade in one month's salary--about 250 rubles--of the larger notes, but anything over that amount requires a special appeal.

Professional black marketeers long ago switched from dealing in rubles to convertible currencies, such as dollars, and are unlikely to be affected by the change. Once the illegal money has been gathered, the government will introduce new 50 and 100 ruble notes that are now being printed, officials said."

That was the end of the article. Most of the people that wrote in asked: Does this sound like the scenario that will happen when *our* money is recalled, and also, what is the significance of this in Russia at this time?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that this is a parallel to what will be implemented in this country, probably in 1992; that the significance in Russia is basically that it allows the government to gain greater value for the ruble at the expense of those who have held or own large numbers of rubles in storage, who have hoarded money away. These entities are likely to be the losers.

It can have some bearing on the persons involved in black market dealings. In the United States it could effect those who are involved in drug activities in which the money is hoarded rather than put into banks. It also allows the introduction of money that can be traceable, so that with each transaction, the money is to be introduced can be electronically read so that a record of its movement as to who is depositing or who is withdrawing can be recorded at the time of deposit or withdrawal, or even in expenditures if desired.

This Awareness indicates that the electronic monitoring of the movement of money, of these denominations, can become part of the society as these new monies are introduced. It will allow for the taxation to be better and more efficiently monitored.

ARE RUSSIANS AND CHINESE LURKING ON BORDERS READY TO INVADE THE U.S.? (Are Awareness Messages Being Compromised?)

QUESTION:

We received another letter from R.M. in Honolulu. There's one question in it, but I'd better read the whole letter. Awareness has answered most of this information, even though it hasn't been published yet. He writes:

Avaton: Questions come to mind with the statement in the latest issue concerning the position of Russia that "not only will there be changes toward Democracy but away from Communism..."

Russia's aim is to rule the world, and toward this end her plans are all on track. Russian military equipment and men are poised in hidden bases in Mexico and Canada, ready to invade the U.S. when the time is ripe. This is planned for 1993, when the problems with her satellites will have subsided. But there is no telling if this may be moved up with the opportunity present today with the U.S. unprotected and the NATO forces greatly reduced.

We are already under the president's Executive Orders as well as the Constitution of the UN, and our economy is in shambles. Bush is making deals with Mexico and South American countries for open trade, which will see an exodus of manufacturing plants to these countries with cheap labor and widespread unemployment in the U.S.

If the aim of the president is to keep our troops in the Middle East in order to ease the employment problem in the U.S., why has he signed the bill to increase immigration quotas by 40%. From my information, it is to keep the U.S. unguarded when the New World Order power grab takes place.

The troops sent to fight Iraq are expendable to Bush, and his plan is to have them destroyed with the terrible weapons that Iraq has from Russia, Germany, and even from the U.S. The secondary aim is to occupy Saudi Arabia and take over the oil. Of course, Israel and Russia will have something to say about this, for each has its own plans to do the same.

A great disservice is being perpetuated by concealing the serious threats that we are being exposed to. It appears that the thought machines of the CIA, KGB, and the Mossad have been successful in compromising the messages coming from Cosmic Awareness to further entrap us.

Isn't it strange that much of the information on the aliens are coming from ex-servicemen, who might well be in the pay of the CIA to continue to mislead us. Another question: Why was Bush willing to start this war and use up a great deal of his military potentials when there is a threat of an alien invasion in the near future, as we have been apprised of?

I wish that you would take a hard look at this and come up with straight answers how America can be saved."

COSMIC AWARENESS:

This Awareness indicates that the entity has taken a presumption and built a premise on the presumption from which he continues to build a more or less logical argument. That if the premise is not accurate, no matter how logical an entity's argument is, the outcome will still be in error. This Awareness indicates that these arguments regarding the presence of Russian, and in some cases the arguments are that there are Chinese tanks in Canada, are simply not based on fact. That the Canadians would not permit Chinese troops or Russian troops to enter their country and build up an armada along the border, nor would the country of Mexico have hidden underground bases for these Russian tanks; that it appears to be based on references that Dr. Beter made in regard to Russians being in Nicaragua in the late 70s and early 80s; that there were indeed Russian advisors there in Nicaragua and they were selling Russian arms to Nicaragua.

This Awareness suggests that the questions asked be restated; that one of the questions being: "Why would Bush have a war going on in the Middle East if there were to be an alien invasion?" This Awareness indicates that it is part of the alien scenario to develop a One World Order, and that Bush as head of MJ-12, is work-in-behalf of the aliens in their scenario which they seek to develop. That the other questions be repeated.

QUESTION:

Okay. "If the aim of the president is to keep our troops in the Middle East in order to ease the employment problem in the U.S., why has he signed a bill to increase immigration quotas by 40%?"

COSMIC AWARENESS:

This Awareness indicates that this entity begins with a hypothesis that is misunderstood, or is misapplied. In the event that this Awareness indicated that the aim was to decrease the unemployment, it was in reference to a minor aim, and not a major purpose; that this is but one aspect of the Iraqi war.

QUESTION:

His other last question I think is absurd, but I'll read it. "A great disservice is being perpetuated by concealing the serious threats that we are being exposed to. It appears that the thought machines of the CIA, KGB and the MOSSAD have been successful in compromising the messages coming from Cosmic Awareness, to further entrap us!"

COSMIC AWARENESS:

This Awareness that this is a reflection of the entity's own mental apparatus in attempting to assess; that the entity can believe anything it, he wishes, and it is usually pointless to become concerned about such statements. This Awareness suggests the entity is attempting to make accusations which have no foundation, even in his own arguments, because he begins with an assumption that is based on fallacy and then assuming that fallacy is correct, presumes to condemn this Awareness as being an agent of the MOSSAD, CIA and KGB. This Awareness indicates that the accusation does not require a response from this Awareness.

QUESTIONER:

My feeling from that question was that he's got some kind of information that thought machines, or some kind of technology is being used to interrupt the transmission and change the messages rather than accuse Awareness of being a MOSSAD agent or anything of that sort.

COSMIC AWARENESS:

This as in the affirmative; the entity presumes that this Awareness is being used by these entities with their high-tech thought machine. It is good science fiction thinking. The entity should consider writing science fiction. This Awareness indicates however, it is not original. There are frequently other entities who, in not agreeing with messages from this Awareness will write to indicate that the Interpreter's consciousness is being modified by radionics machines, or by this or that other interfering device.

This Awareness indicates that if that is what you believe, then go elsewhere for information.

WHAT'S GOING ON IN RUSSIA?  
IS A DICTATORSHIP COMING?

The question about Russia, is a very common one these days; this one from K.L. of Fairfax, California. I believe he's a new member. He says: "In issue 91-9 wherein it was remarked that communism had failed, the question is, is Russia now benign as far as a world force and its goal of world domination, or are we being treated to a subterfuge in Gorbachev's reform and economic collapse? And so on?"

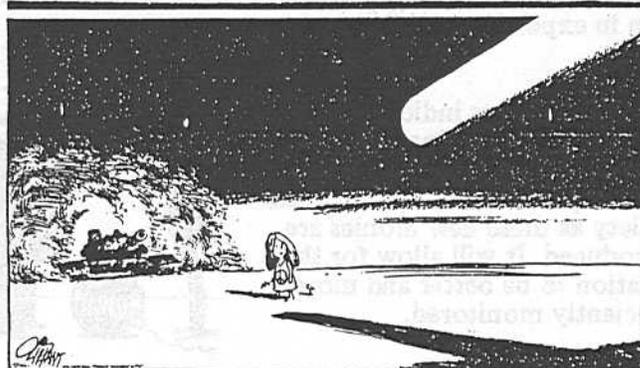

COSMIC AWARENESS:

This Awareness indicates that the entity Gorbachev, who is the reincarnation of Peter the Great, made a personal and special and individualistic effort to alter history of the Soviet Union and to bring the country into closer alliance with the West. This was the same action that Peter the Great had in his lifetime, as his main motivation; that the problem that has faced Gorbachev in this effort is that not everyone in Russia agreed with him. Some wanted things to move more quickly. Others wanted to stop the movement altogether, and still others expected immediate answers to their economic needs which were not immediately forthcoming, and the problems began to mount.

The more the problems began to mount, the more those who were still dedicated to the communist control mechanisms, brought their energies to play upon the entity, and attempted to force the entity to tow a hard-line, while of course, those who wanted things to move faster insisted that the entity Gorbachev was holding back the progress and movement toward freedoms and democracy which should be implemented more quickly.

Some, being aware of these forces pulling on both sides of the entity, warned against the danger of dictatorship reemerging, and not wanting to be part of it, withdrew. This left Gorbachev alone and under the control of the hard-liners, the more dedicated communists. It is this strong military force of hard-liners that is now the driving force behind Gorbachev and his very survival requires his cooperation with them.

Therefore, it is doubtful at this time that the Soviet Union should be trusted very far in its dealings with the West or with any hopeful movement toward a more democratic state. It is more likely that there will be a reemergence of a dictatorial government. This Awareness indicates that as it occurs in Russia, do not be surprised if it begins occurring also in the West, especially in the United States as the New World Order is imposed.

### Consider the Time Factor in These Readings

This Awareness indicates that it is quite unlikely that the CIA or KGB would be influencing messages of this type through this Awareness, if that is still a concern of this entity. This Awareness indicates that part of the difficulty in giving readings has to do with the time factor. A reading can be given by this Awareness, or ten readings may be given in a row, and depending on the priority of the readings, the tenth reading given or the first, or the one of least priority may not be delivered until perhaps five or six months later, and by that time, situations may have changed.

Therefore, comments made by this Awareness according to energies operating at one time may be read at a different time where energies are now operating, and different situations are acting; that the activities of the Russian crackdown on the Baltic states, for example, give an entirely different impression and likewise, the fact that the troops are in the Iraq war at the present time is a factor that was not necessarily complete or only partially so at the time the previous message was given.

There are events that change between the time the message is uttered and the time it is read, and depending on when the date was on the reading, the message may not be as applicable at the time it is read.

ED's Note: This was particularly true during the last year when the UFO/alien presence information was released. This editor felt the urgency in getting this information released, and in the process, many other readings relating to topical things were superseded. You may have noticed over the years, as I have, that when Awareness gets into a new area of information, IT usually will repeat the information three times, but each time from a slightly different frame of reference; this usually occurring in entirely separate readings. Often, I do try to work in at least one of these readings which express one of the frames of reference on the new topic, and relegate those with the more or less redundant information for later release sometime down the road. There are times, such as the recent Mideast war, that the information needs to get out immediately because of their timeliness. Even so, the major Mideast information just happened to be given a few days before the deadline of Bush's ultimatum, and our next session a few days from the start of the so-called 'ground war.' I thought these readings were particularly interesting because Awareness had to call the shots before the actions actually occurred, and the readers by time they received the newsletters were viewing the information in retrospect. Anyway, It is not always easy being an editor and having to make decisions on what will go into a given issue. However, there have been few complaints so far in that area.

#### HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization,

#### MEMBERSHIP LEVELS (Honor System)

LIMITED INCOME: \$30 per year or \$9.00 quarterly.

INDIVIDUAL: \$42 per year or \$12 quarterly.

FAMILY: \$52 per year or \$20 quarterly.

CONTRIBUTING: \$77 per year or \$25 per quarter.

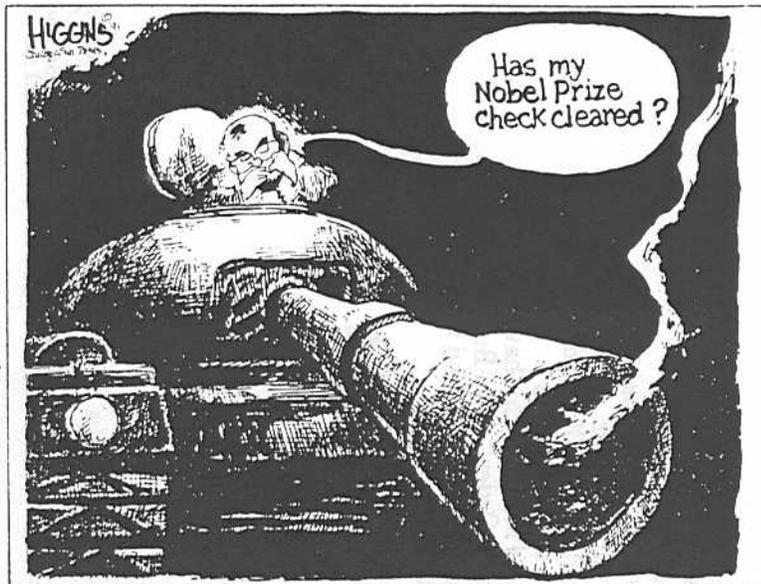

SPONSORING: \$144 per year or \$40 per quarter.

BENEFACTOR: \$500 per year or \$150 per quarter.

PATRON: \$1000 per year or \$250 per quarter.

ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details).

### WHAT A DIFFERENCE A YEAR MAKES !

(Closing Message):

This Awareness indicates that while *It* may have given a glowing report on Gorbachev and his activities at one stage, at another time when that glowing report is read, the situation may have changed and the entity may have been involved in some kind of mischievous crackdown in the Baltic states. That entities need to be aware of the time factor. You must not forget that the entity was given the Nobel Peace Prize approximately one year ago.

At that time, the Nobel Peace Prize was completely appropriate. It would not have been appropriate at the time when the Black Berets were cracking down on countries in the Baltic States. This Awareness indicates that all of these things need to be considered when reading the messages. Otherwise you can misapply old information to something that is current and get a distortion of reality, either by accepting erroneously something that is said or by rejecting it without recognizing it was meant to apply to something earlier.

This Awareness indicates that the energies of the current world situation are quite unlike those of 1989, when euphoria ruled as communist blocs began to crumble under the call of freedom. At that time, it became so focused in consciousness that the world demanded freedom and democracy, it would seem impossible to suggest a dictatorship was on its way in. This Awareness indicates that no one would have believed it and it would have spoiled all of the fun of the time. What would have been the point?

This Awareness indicates that times have changed. It is time, the walrus said, to speak of many things. This Awareness suggests it is time to think of many things, and to rethink many things.

\*\*\*

(The Law of Gratitude is given)

LET'S GET THE NEW WORLD ORDER DEFINED  
NOW ! NO WAFFLING ! (Please turn to back page)

Here are some suggestions for letters to write to the president, your Congress people, and "Letters to the Editor" of your local papers, prepared by Vikki T. ( I really like the "Gee Whiz" approach!) . The questions suggested can be used when making up other letters. The questions can also be used when you call in to talk shows. Ask lots of questions when you phone in, but have a check list of references handy in case the talk show host asks you where you got your information. For example, most do not know the Federal Reserve is owned by private families and not the federal government. Cooper's book "Behold a Pale Horse" is full of facts and references and you might want to refer to it and others, such as Lindsey Williams and Eustice Mullens who have books on these subjects. We are all going to hear a lot more about "The New World Order" from Bush and Awareness as well. Now is the time to help deflect the energies on this concept so it will end up being a "Democratic" New World Order and not the world order they plan to enslave us with!

You might also mention that there are bills in congress at this moment to audit the Federal Reserve. Most editors and talk show hosts are probably unaware of this fact. These are but suggestions so you will have some ideas on how to go about it.

#### GEE WHIZ APPROACH

Dear \_\_\_\_\_,

What a wonderful time to be alive and be an American! I listened to President Bush's speech March 6 and was proud. He said the war showed the 'weak were protected by the strong', and showed "freedom and respect for human rights".

If this is, indeed, the beginning of the New World Order, what wonderful ideals it will embody. I think we should call it the New World Democratic Order to explain to others that it means they too, will now have the rights we Americans have.

For people in other countries, we could make copies of our Bill of Rights and show them the way freedom and respect for human rights are protected here. Maybe that should be put right into the New World Democratic Order manifesto. Or does one already exist? If not, let us begin with the Bill of Rights and share the freedom and justice for all that we just fought for!

God bless America and the New World Democratic Order!!  
Now everyone in the whole world will have OUR rights, right?

#### SUSPICIOUS

New World Order--hearing this term from President Bush and others has implications that sound good, but we need facts. We can't blindly support a program or movement without definition.

Is this for the good of all or for the good of the CFR and the Trilateralists? Is this being promoted by the owners of the Federal Reserve? Is the private ownership of the Fed the only behind-the-scene power force in motion, or is there more citizens need to be alerted to?

Is this New States Constitution that was researched in Santa Barbara, funded by the Ford Foundation, for the expanded freedom of the people? Is this part of the proposed new order?

We don't want to lose any of our rights and freedoms. Perhaps we could specify New Democratic World Order, include the Bill of Rights and spread the ideals of American rights and freedoms as President Bush mentioned in his March 6th speech--"freedom and respect for human rights" where the "weak were protected by the strong" as the democratic basis of this New World Democracy.

#### PRES BUSH

Dear President Bush (or Congressman, etc),

Let's hear some more about this New World Order. The references in your March 6 speech where you said it represented 'the weak being protected by the strong' and protecting 'freedom and respect for human rights'. That sounds good. What else is there?

For now, we can only wonder what you see. We can't blindly support an undefined phrase, but we could put our hearts into promoting a world Bill of Rights--a new world Democracy. We don't want to give up any of our rights or freedoms. Please share your vision with us.

#### QUESTIONS

We're certainly hearing alot about this "New World Order" lately. Just what is being discussed? Is there a document that has been written defining this new order? Can we see it? Who wrote it, if one does exist?

In President Bush's March 6 speech, he said the New World Order stood for the weak being protected by the strong and for 'freedom and respect for human rights'. That sounds good. That sounds like our Bill of Rights. Is America's Bill of Rights the new world order? Is it a part of the new order? If it hasn't been up til now, let's be sure it is included from this moment on.

Let's get a clear, succinct definition of this new order, so as not to let it be confused with the term as used before--like when Hitler used that same phrase. So that there will be no possible confusion, let's start using the term New Democratic World Order. And if it is not written up already, let's start with the Bill of Rights. And if there is something written up, let's have a look at it and start discussions in the American tradition and have a voice in this new order our soldiers died for.
