Helping People Become Aware

## the Intelligent Light and Channeling

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

**THE REALITY OF "INTELLIGENT LIGHT"**  
(More on the Near-Death Experience)

**QUESTION:**

A question from E.H. "There are many anecdotal incidences dating back centuries of instances of intelligent light helping people. In many modern-day reports of the near-death experiences, people see an intelligent light that does not form into a recognizable human shapes who may greet or communicate with them, mind to mind. Would Awareness please discuss the reality of intelligent Light?"

**COSMIC AWARENESS:**

This Awareness indicates that this is a representation of an entity from a different dimension; that depending on what level of spiritual frequency an entity is on, such as at the time of passing over or other critical states, the entity may come in contact with a being from another dimension who attempts to assist the entity, either in adjusting or to assist the entity in working through whatever problem is at hand, often sending the entity back so as not to pass over at the time.

This Awareness indicates that most entities who are oriented to a particular religion or deity of that religion will tend to perceive the Light as representing that deity to which they are devoted; thus, if one is of Hindu or Buddhist religion or Christian or Hebrew, the Light would represent the Lord of their own particular religion to them. The Light is not concerned as to how *It* is interpreted, or what name entities wish to give *It*. *It* is simply there, and often appears and serves entities in times of crisis.

**FOLLOW-UP QUESTION:**

Then every entity passing over will not necessarily encounter this Light, is that correct?

**COSMIC AWARENESS:**

This Awareness indicates it is common for entities in passing over to encounter the Light; it is not mandatory. There are some entities who do not see this Light upon passing over. It is especially the case when entities have a strong belief that they have erred in their ways and do not deserve any form of contact with higher spiritual beings. They may in such cases, judge themselves and see more negative type forces rather than Light forces, or beings.

**THE GREAT WHITE LIGHT SEEN AT DEATH**

**FOLLOW-UP QUESTION:**

This is not to be confused with the great White Light Awareness talks about entities moving toward after death?

**COSMIC AWARENESS:**

This Awareness indicates that often this is the same experience that entities report. The reporting may vary with the entity involved, but essentially, the passing over generally is accompanied by the presence of a great White Light. By stating 'great White Light' this is not necessarily implying the Light is big; rather, it has a presence of Greatness that awes the individual and causes the individual to feel that he or she is in the presence of some supernatural being, and that the being is of great importance to them.

This Awareness indicates that entities may describe this somewhat differently. Some see this Light after going through what appears to be a tunnel. The tunnel itself may be *especially* different for different individuals. One may feel oneself going through a kind of mystical opening, or being in a mystical place in which one can penetrate mist or clouds to see the Light at a distance. Others may see themselves actually moving through this tunnel in clouds, or mist, or mystical images and perceive it or describe it as though moving through a tunnel.

This Awareness indicates that it is not exactly a tunnel in the sense of tunnels that entities normally recognize in their everyday living; you might call it a hole in consciousness revealing the Light, to be more accurate, rather than referring to it as a tunnel.

**WHAT DRAWS THE LIGHT TO INDIVIDUALS OR THE INDIVIDUAL TO THE LIGHT?**

**FOLLOW-UP QUESTION: (VIKKI):**

In the cases where somebody comes near to passing over, but doesn't, and is contacted by this intelligent Light, it's not like you're being monitored all the time, but is it something intrinsic in the situation that draws this to the person so involved?

**COSMIC AWARENESS:**

This Awareness suggests the question be reasked along different lines for better clarification.

**(VIKKI):**

Rather than being monitored by Light through all aspects of everyday living, is there something that happens at a moment of crisis or near-death that brings you in contact with this Light?

This Awareness indicates it is best understood through the analogy of what science calls the Black Hole. When you pass through these Bardo states, moving from a wakened state into a dream state, or from a living state into that which is called death, you essentially are passing through a hole in consciousness from one realm to another. Some describe this as likened unto a tunnel. One could even describe awakening from dreams as though they were moving from a tunnel to the awakened state, or they could describe going to sleep as moving from an awakened state to a dream state as likened unto moving through a tunnel.

This Awareness indicates that it is similar to that use of such description when entities speak of going through a tunnel and seeing a Light at the far end of the tunnel. Some entities may witness it in that manner, just as an entity might start falling to sleep and visualize a tunnel and find that he or she, in holding that image, continuing to fall asleep, exit from this so-called tunnel into a dream wherein various things are occurring.

Likewise, one might enter into the death state and visualize a tunnel, or the Light at the far end, and upon exiting into that Light, see this as warm and friendly, as a loving Light that cares for oneself. Essentially it is likened unto that which might be termed the Higher Self or the Divine Self, or the Christ Light.

This Awareness indicates that all of these ways of looking at the experience can be described differently by different individuals, but essentially these are efforts to describe the moving of consciousness through a state of consciousness into a new realm of consciousness, much like the movement through a Black Hole, into another realm or dimension.

#### MESSAGES FROM THE SPIRIT WORLD: IS THIS REALLY A DIALOGUE WITH SIR ARTHUR CONAN DOYLE?

#### QUESTION:

In reference to the life beyond death, somebody sent me a little magazine called *Voices from Spirit*, put out by a Rev. Speaker Gerald Polley out of Orlando, Florida. I'd like to read a couple of things in regard to this subject. One is...it says: "This is an interview with the spirit of Sir Arthur Conan Doyle, the British physician, novelist and creator of the famous mystery story detective Sherlock Holmes." His words purportedly are channeled through speaker Gerald Polley. It's a series of questions and answers that are sort of like this:

Q. In actuality, who were Holmes and Watson based on?

A. Contrary to popular belief, Holmes and Watson were not based on actual personalities. Instead, each was actually the combination of the characteristics of several of my acquaintances, taking the best from each and neglecting their shortcomings.

Q. Who are your favorite detectives in today's literature and television?

A. Well, to tell you the truth, I do not pay much attention to television unless it is older classical performances, so I would not dare comment. I think there is a vast difference however, between my character Holmes, and the flamboyant, bungling detectives of today, who solve most of their cases by accident.

Q. What were your favorite types of stories to write, and why?

A. I think science fiction, because you could let your imagination run wild, and do the impossible. This I rather enjoyed.

Q. Did you mean to imply in your Holmes stories that Holmes and Watson were lovers, or what was your intent?

A. No. I did not mean to imply that Holmes was a homosexual. I meant to imply that he suffered from an ailment common

to the aristocrats of his day. Because of the frequent inter-marriages impotency was common among the aristocratic males of my era. Holmes simply had no desire for the female species. What little desire he had had been burned out in his youth. This accounted for his total preoccupation with his detecting endeavors.

Q. What do you do now in the Spirit World?

A. Well, first of all I'm a representative in our local parliament. This occupies a great deal of my time...a position I did not seek, by the way, but which I was brought to by public outcry. And of course I write for periodicals, the theater, and, television; as I stated before, mostly historical fiction, with a touch of science fiction now and then. Beside this, I also teach Spirit Guides who help their charges in the material world write speeches and such. And, of course I am in considerable demand for public appearances, so I do tend to keep quite busy.

It goes on, but my question basically is: Some of it sounds perfectly logical, actually having a dialogue with Sir Arthur Conan Doyle, but it sounds also like they've just got a duplicate of earth going wherever they're at, and they watch TV and they do the things he described in here, and it seems to me that Conan Doyle by now, should have gone on to other realms and so on. Could Awareness explain if this type of thing is actually valid and going on in other dimensions? Could it expand on this somewhat?

#### COSMIC AWARENESS:

This Awareness indicates that all of the concepts within the universe have their own unique frequencies and these frequencies carry information. As has been given: *Energy is information and information is energy.* The concept of this entity carries with it certain information. Often channels will tap in to the frequency or concept or being and read the information therein, and believe they are actually channeling the entity, even though the entity may not actually be present in that concept.

#### How to Channel Sherlock Holmes

For example, it is not unlikely that there are some channels who could be asked to channel Sherlock Holmes, even though the questioner might know that Sherlock Holmes was never a real entity. The channeler, in not knowing this, might very well tune in to the energies of Sherlock Holmes and begin channeling from those frequencies and energies and give plausible reasonable and logical responses to questions that would be asked of Sherlock Holmes.

This Awareness indicates that this does not prove *Sherlock Holmes was an entity, other than a mythological character or fictional character.* It simply implies that the channeler does not recognize this and that the channeler believes he or she is channeling Sherlock Holmes, which in actuality, the one doing the channeling may simply be tapping into the frequencies and energies that are attributed to Sherlock Holmes.

This may remind you of the previously discussed concept known as 'Conjuring up Phillip,' wherein entities working together conjured up the idea of a being, a non-physical being, and gave this non-physical being certain qualities; each member of the group giving individual qualities to Phillip, and then later, these qualities serving as a composite which could be read by those who would ask questions of Phillip based on the qualities that had been given by the group, thus, though Phillip did not in actuality exist, Phillip was created as a concept, and the concept took on energy and information from the group and began to act as an entity.

This Awareness indicates that the same principle applies in the situation described in the question.

## CHIT CHAT: ONE TYPE OF 'CHANNELING' (We Hear From a Waitress in 'Logan's World')

### FOLLOW-UP QUESTION:

I don't see how this would apply to, for example, someone who is not famous. Here's another short one in this same publication. The article is called the "Improper Channel" with notes & messages to the material world as channeled through; Speaker Linda Polley.

Hi! My name is Elana. What's so ordinary about me? I'm an American, sure, and also a waitress. BUT...my job in the Spirit World is with a place called "Logan's World." It is a futuristic city based on the one featured in the science fiction movie 'Logan's Run.' It isn't only a gigantic tourist attraction, anyone who enjoys our lifestyle can buy or rent an apartment or condominium here. Some of these resemble the apartment Logan and his friend have in the movie. Of course there's more contemporary designs also.

It is fun to work here! Sometimes it doesn't even seem like work. I love meeting the wide variety of customers we have, and seeing the costumes some choose to wear. In different parts of the city you can play Logan's Run characters, and act out their scenes for small fees.

We have several entertainment centers like this in Spirit. As a matter of fact, there's ones based on the Star Wars Trilogy, Star Trek, and Battlestar Galactica, which is still very popular here.

I have many actor friends staying in our area. Several who have science fiction shows like to enhance their existences by staying in our city. They say it helps them "keep in touch with their characters!"

Anyway, if you're wondering what I look like, I am in my late twenties, have a pretty good figure, if I do say so myself, and long curly dark brown hair, and brown eyes. I have dark-tanned skin coloring as I did in life because my ancestors were Spanish. But I have some kind of a New York accent, which is really fun sometimes, with being a waitress. I like to wear bright lipstick and eye makeup, even though it's a futuristic place. I like the old-fashioned look, you know, but not when it comes to uniforms...the sexier the better is my motto! You know, like those girls on all those movies like Star Trek and stuff.

As for food here, we have our own creations with far-out names, and, even our old-fashioned hamburgers have fancy titles! Of course the menu explains what everything is, thank goodness! We even have take-out orders, and phone-in ones, too, with free delivery in our city. The name of this restaurant is "The Way Station."

Well, better go for now and get back to work! Got another alien...er...customer waiting! If you'd like to ask me any more questions, feel free. I intend to be here a long time...at least 'til I'm 29! (Ha ha!) I love talking to people. I hope you've enjoyed hearing about "Logan's World", or me. I wanted to write this so you'd know that Spirits didn't only work, there were some good places to have fun here, too!

If you're ever by this way, stop in...tell 'em Elana sent ya, and have a Blaster Burger! It's on the house! Bye for now!

"Voices From Spirit," P.O. Box 533506, Orlando, FL. 32853

Would Awareness comment on that type of transmission?

### COSMIC AWARENESS:

This Awareness asks a question. What is it you wish to know about the transmission?

### QUESTIONER:

Well, I'd like to know, if this is an actual reality that this waitress is describing since she died, or is this another example of tapping in to some personality?

### COSMIC AWARENESS:

This Awareness indicates that this appears to be the creation of a fantasy realm or world based on a common

denominator, being the movie *Logan's Run* which others can relate to in hopes of finding something that can draw in more communication for this spirit from others. It appears this spirit entity does wish to have communication with entities on the earth plane, partly because the medium has a job to do and that job is to channel spirits.

This Awareness indicates that some disincarnated spirits enjoy the attention that comes from this kind of channel. It gives them a sense of importance, and if they can say something that is interesting, it helps them and helps their medium, so that the work of the medium is furthered by interesting channeling and the return of customers.

This Awareness indicates that much of this is fantasy based on helping to fulfill the wishful thinking of customers to the so-called seance.

This Awareness indicates that it is not necessarily untrue, for the mind can create realities by describing these visual images and entities can experience them in their imagination, and if, in their imagination, when passing over, they start looking for Logan's World, they may surely create it in their imaging process. If you seek to dream about fairies it becomes possible that you do so, because the mind has the capacity to image whatever is strong in the conscious mind.

This Awareness indicates that as for Logan's World existing without this kind of energizing, it never existed prior to the movie and prior to someone energizing the concept of a Logan's World. This Awareness indicates however, there are many places that can exist in dream-land or in consciousness. The question may be asked: Are these dreams and illusions the same as your own perception of reality? Are they collectively real to others who might wander into the same space and time warp?

This Awareness indicates they are not necessarily there for everyone, if others are not attuned to the same fantasy and mental expectations, but many could by tuning in to those same mental expectations, witness Logan's World, along with the one who seeks to guide them there. In other words, if one chooses to be a guide, to take those who pass over to Logan's World and a group of disincarnated spirits decide 'I want to go to Logan's World,' and they all go expecting to find Logan's World and have some similar expectation regarding this so-called 'Logan's World', then their expectations will help them to witness the same information, and if the guide defines and describes Logan's World to them, that can even add further to their mutual acceptance of the same visual experience.

### We Create Our Own Reality? Only Up to a Point

This Awareness indicates however, any one of those visitors might decide Logan's World was quite different from what he or she had been led to expect and in so deciding could create for themselves a different reality there that was not shared by the others, and in the explanation of seeing things differently, others hearing such explanation might also begin to witness differences in how it is perceived.

This Awareness indicates the collective mind is that which creates images for each other's edification. It has often been said that you create your own reality. That this is true only up to a point. It would be true if you were the only person in the field in which creativity was occurring, but if there are other individuals who are also capable of tinkering with your creation, they and you together create your reality.

5.  
ASTRAL PLANES ARE PLANES OF ILLUSION  
( How Mind is the Builder )

FOLLOW-UP QUESTION:

There's a number of spiritualist books put out years ago that talk about certain planes on the astral level where people of like minds come, for example, radical fundamentalists that want to punish Satan or something like that, and they can sit there and look down into that pit and imagine that Satan is down there undergoing the torments of the damned and so forth.

That plane however, is illusory and anyone who gets bored with that after awhile can think himself into another reality. This case just read about would probably be similar to that situation would it not?

COSMIC AWARENESS:

This as in the affirmative. This Awareness indicates the mind is the Builder. It can create. It can entrap, by its attachment to certain concepts or certain bits of information that it attaches to, or it can free itself from those bits of information and thus extract itself from the entrapment of those bits of information.

FOLLOW-UP QUESTION:

There's probably an awful lot of entities who expect more than Logan's World when they pass over; who would expect something different than illusions like that.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates however, that there are many who expect certain illusions or certain experiences and upon the passing over, often find those experiences. Many expect to be greeted by loved ones, and indeed experience the illusion of being greeted by loved ones. This Awareness indicates that in some cases they are greeted by loved ones, if in fact the loved one is still waiting for them. In some cases the loved one has other things to do rather than waiting for years for someone to die, and pass over.

At Death You Don't "Go" Anywhere!

The loved one may have, by that time, also either reincarnated or gone on to some other realm or place in consciousness. This Awareness reminds you that *all* is consciousness. It is not a matter of going to different places, or that there is a certain place entities go at best. They go into consciousness. They have always been in consciousness and they merge into consciousness at death by simply dropping the body. It is not that they go anywhere in particular, it is more that they lose the body that has housed their consciousness and they are then free to experience different kinds of conscious experiences.

They are free to involve themselves in different kinds of consciousness experiences and many of these will move towards that which is the Divine Light or highest frequencies of consciousness, while others will identify themselves with those earthbound pleasures that have entrapped them up to the time of death and continue to fascinate them, and may find themselves being drawn to entities who drink or who are involved in fleshly and physical pleasures and therefore may miss the experience of moving toward the Divine Light.

This Awareness indicates that some may have a fascination for particular fantasies, even for *Logan's Run* and futuristic worlds and may find themselves involved in such a fantasy that they have witnessed in moments of escapism and may indulge themselves in that fantasy after death. This Awareness indicates it is quite possible for

them to create an entire world around them as though they were entering into a new place with people.

It is possible for them to create, in their fantasy, the person of their dreams, and to have communication with that person on an intimate level, and not even know that it is all fantasy. This Awareness indicates that the mind is capable of creating intense illusion, once the physical body has been abandoned. It is also possible for the mind to create illusions of great suffering. If in fact the entity identifies with these things strong enough, they become very realistic illusions to the entity's consciousness.

This Awareness suggests this is why it is important for entities to seek the highest and best in terms of visualization, not only after passing over, but even prior to passing over. By drawing in images of the Highest and Best into their thinking process, they tend to bring these things into the reality levels also.

WHAT IS THE "UNIVERSAL LAW OF CHANNELING"?

QUESTION:

R.B. in Sandy, Utah, has a question. Actually there is several questions. I'll read his statement and then reask any of these questions Awareness requests.

"What is the Universal Law governing channeling? Why is it that only certain extradimensional entities become channels? Why is it that one channeling entity will not comment on the validity of the information from any other channeling entity?"

Are we to assume that as regards to channeled information it is 'buyer beware'? I have understood that each time an entity comes in through a channel, that entity, even though it is a continuing entity from times passed, should be challenged thusly: "Do you speak for the holy White Light of the Christ Consciousness for the highest and best good of all mankind?", and that it is against Universal Law for a negative entity trying to slip in unawares to misrepresent itself when challenged with those words.

Channeling is on the increase. Awareness has cautioned us to beware of crafty dark attempts to simulate Light entities and known and trusted channeled entities. Is this challenge a valid way to so protect ourselves? Has Awareness been so challenged lately? No challenged entity of the Light should take it as an insult, if that is the word to use, by being so challenged."

COSMIC AWARENESS:

This Awareness indicates that the nature of channeling is such that it is much the same as being a messenger, and a messenger can carry a truthful message or can carry a false message. This Awareness indicates that indeed, one must beware and not just assume that because someone says 'I am a messenger' or 'I am a channeler!', that their message is sanctioned by the Divine Truth or is to be accepted without question.

Problems in Interpreting Cosmic Awareness

This Awareness indicates that *It* has always indicated to entities that all channeling should be questioned, including messages that come through this Interpreter. It is not that this Awareness wishes or would desire to give false information, but that on occasion the Interpreter is in a state of unclarity or is physically imbalanced by energy loss or by circumstances affecting him that can cause him to misread information given by this Awareness.

This Awareness indicates that occasionally there will be people who try to influence the Interpreter into seeing things a certain way. It is a fact that the Interpreter cannot accurately give readings when he is emotionally attached to the answer, and therefore, the Interpreter seeks to lay aside emotion. If the Interpreter has strong beliefs and does not lay aside those beliefs, he can misread the information and prejudice the information by his own beliefs, and therefore, the Interpreter seeks to lay aside mind; mind being his own beliefs.

Thus, the Interpreter lays aside mind, emotion and also feeling. Feeling being that which is his concern for whatever is going on about him at the moment. He realizes that he does not need to be concerned about what is happening around him at the moment of channeling, if he is in a safe environment with trusted energizers. This Awareness indicates therefore, by laying aside mind, emotion, and feeling, he eliminates most of the causes for error in the channeling.

This Awareness indicates however, there are still ways whereby entities in seeking to get a particular answer from this Awareness for their own edification, may ask the question that will tend to prejudice the Interpreter so as to get an answer of a particular kind. Occasionally, entities will make statements prior to their question as though these statements were fact, as though they were absolute unquestionable fact, and then ask questions based on those premises that were presented as fact.

This Awareness indicates that often the so-called factual statements are not true at all and the questions therefore, are based on false premises so that any answer, yes or no, could be an error. This Awareness indicates that occasionally the Interpreter can sense these errors and if his mind, emotion and feeling are properly laid aside, these errors do not affect him, and the information given by this Awareness in symbolic form will be read without coloration based on the erroneous information included in the question.

This Awareness indicates that even with all this precaution there is still some chance of error, and thus this Awareness suggests you not believe anything without checking it out for yourself. That as far as the challenging of a voice speaking through a channel, there is some value, if that voice is speaking through your own channel, whereby you can ask it to identify itself. If you see the spirit or hear a spirit speaking through you and ask it to identify its true intentions and purpose as suggested in the question, then you will likely get a clear answer, an honest answer, but to expect to be able to ask a channeler or the spirit speaking through one who is channeling whether it is a true representative of Divine Light, this is not seen as a valid test, for there are indeed many who can work the interpreter in such a manner, or the medium in such a manner as to lead astray those who would ask such questions and make claims even though not true.

This Awareness indicates that *It* is essentially saying your test may hold up *if* the spirit speaking through is truthful, but this Awareness does not see that all such spirits are duty bound or bound by any Cosmic Respect or respect for Cosmic Law, to answer truthfully. This Awareness has no qualms in answering your question in this regard; that *It* indeed speaks for the benefit of humanity and for the good of all. *It* simply wishes you to know that this is not necessarily an absolute valid proof that you may be seeking as a way to testing these channels, unless that being is speaking through you or is perceived by you

"Now wait just a mintage here .... How are we supposed to know you're the REAL Angel of Death?"

You can indeed, upon perception of a disincarnated spirit, ask it to reveal itself for what it is, and it will be forced to do so. If this is a being that is being presented in your consciousness for your perception, but if it is coming through another, it is not for you to ask that question of the spirit and for you to expect to get an honest answer. You may or you may not.

If that interpreter or medium or channeler were to ask that question, he or she would be given a clear and honest answer from the spirit speaking through him or her.

This Awareness indicates that if this is not clear in terms of a proper response to the question and needs further explanation, that this be indicated.

#### ANYONE CAN BECOME A CHANNEL --BUT A CHANNEL FOR WHAT?

That was clear, but there's a couple of aspects that I don't believe were covered, like he asks: "Why is it that only certain extradimensional entities become channels, and why is it that one channeling entities will not comment on the validity of the information from any other channeling entity?"

#### COSMIC AWARENESS:

This Awareness indicates that it is unclear as to what this entity means when he speaks of extradimensional entities becoming channels. What is intended by the term 'certain extradimensional entities'? This Awareness indicates that anyone, with practice can become a channel. The concern this Awareness has in this regard is that while anyone with practice can become a channel, the quality of the channel is what is important, and the question: channel of what?, or who?, for there are channels of negative forces as well as positive forces, and there are channels of disincarnated spirits and there are channels of extra-terrestrials and there are channels of energies of a spiritual nature and there are channels of this Awareness.

This Awareness suggests that entities need to consider what is important to them about the term 'channeling' and is it important to be a channel of anything, or of something in particular. This Awareness indicates that if you are to channel the Divine Force, the Light and Truth, then it requires that you put forth a kind of devotion to the Divine Light and truth and seek always to be close to that when channeling. If you simply want to channel a spirit in order to get attention from people, that becomes an easy method. All you have to do is start babbling and letting go of your own will and control of your body, and let anything come through you.

The only thing about this is that it becomes quite dangerous. Whereas you let the spirits speak through you, there is the danger that you will lose control of yourself, your vehicle, your body, to a more powerful spirit that would like to take over and push you out, and use you for its own purpose. This Awareness indicates that disincarnated spirits are no more trustworthy than are people in the body and in many cases they are much less trustworthy and are more dangerous because you cannot see them to recognize what they are up to.

Often it is too late before you realize what they are doing to you, to get them out of your life. This Awareness indicates that it is also somewhat dangerous to channel spirits or entities from so-called extraterrestrial levels, unless you have a keen understanding and insight into who they are and what the motive is. This Awareness indicates there are many good channels. The hierarchy beings who claim to be spiritual or claim to be extraterrestrial space brothers or space sisters and who give information; much of the information carries some value, and some of it carries predictions and some of it carries suggestions or directions and some of it just makes people feel comfortable.

This Awareness indicates that you must ask yourself: What kind of channel am I speaking of? What kind of channel would I want to be? Most people are better off not trying to channel, but trying to discover and find truth for themselves and express the truth as they discover it, and therefore, relay truth, convey truth, spread truth to their fellow associates and stay away from channeling invisible beings.

If entities do wish to channel invisible beings for some reason, this Awareness suggests that you give yourself to the Highest and Best that you can possibly perceive and do so only under certain circumstances so that nothing else comes through. This Awareness indicates that the second part of that question be restated.

#### CHANNELERS WHO COMMENT ON OTHER CHANNELERS

##### QUESTION RESTATED:

Why is it that one channeling entity will not comment on the validity of the information from any other channeling entity?

##### COSMIC AWARENESS:

This Awareness indicates that it puts the channeler in the position of judging another's channel, and tends to set one against the other or create conflicts and competition. This Awareness indicates that it is very amateurish. There are quite frequently such comments from those who just begin channeling who seek to tear down the channels of others who have been around or who have given messages before, and they will make statements such as: 'This channel is totally in error, is channeling dark forces, etcetera,' and it tends to do two things:

It makes such a channeler appear to be unfairly competing in trying to destroy the other channel and it makes them look cheap and unfair. It is a kind of negative denouncement, and if the creature channeling through them is indeed speaking through them and doing these things, one would have to question its own spiritual level, because these spirits that are highly evolved do not generally go around criticizing others in such a manner.

This Awareness indicates that likewise, asking one channel to comment on the channeling of another can be troublesome, particularly when the first channel has given information such as perhaps information relating to your past life, and someone asks the second channel to comment on this message

given by the previous channel. The second channel may not get the message the first channel picked up. It does not mean the first channel was in error; it simply means that the second channel does not receive that information.

There have been many cases of this wherein entities would ask, as an example: "I received a message from a psychic who told me that I was such and such, and was related to such and such. Assuming this is so, where is the such and such that this person was alleged to have left or hidden?", and the entity expects the second psychic or second channeler to locate something that the first channeler implied was hidden somewhere.

This Awareness indicates that this may not have been an accurate reading in the first place. In the second place, the responsibility for further exploring that information should lie with the one who first opened up the question of whether there is something hidden that needs to be found, rather than a second channel who was not even responsible for the original message, and in the third place, the second channel may not see anything at all in regard to the message given by the first channel.

Yet the entity may become quite upset if the second channel does not verify the information from the first channel and also locate the hidden treasure mentioned by the first channel. It is quite frequently occurring, when entities open themselves to allow themselves as a channel, to comment on the channeling of others.

This Awareness indicates that it is unprofessional and it can create much confusion and cause extreme hardships for those who are seeking to channel. It would be better understood if you yourself, for example, were to visualize yourself giving someone a Tarot reading and then have that person go to your wife because you were not home and start demanding answers about the Tarot reading you had given.

You can see that it would put an enormous burden on her to take on the responsibility that should have been yours. Likewise, any entity in any business, whether it be changing tires or selling donuts, generally is expected to be professional and not to insult or put down or comment or criticize the works of their competitor in business or those who are doing similar work, whether it be changing tires or making donuts.

You do not go into Winchell's Donut Shop and ask them to comment on Dunkin' Donuts, for example.

#### IS THERE A UNIVERSAL LAW OF CHANNELING?

So essentially, the answer to his basic question: What is the Universal Law governing channeling?...There isn't any particular Universal Law. It's just like any other information,--a book, an article, a TV show that is coming out, that the listener or the reader makes his own evaluation according to his own intuition and intellect. Is that correct?

##### COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates the great hazard regarding channeling is that it became popular as a result of persons such as Edgar Cayce making this popular, and such entities, being good channels, caused many to believe that anyone who claimed to be a channel was probably a good channel. If you could visit all the channelers active today you would be quite disappointed and find that the majority have very little substance in the information they give and have simply learned how to fake it and make it appear to be from a high source by using certain colorful words while essentially giving little information of substance.

This Awareness indicates that most do not answer questions clearly or directly; that many give advice that is more hazardous than helpful, or is extremely simple which would be available from your sister-in-law or another member of your family, but would not be appreciated because they are not channeling. There are many entities who channel with integrity, doing as well as they can, and this is all that can be expected of them.

Some of these entities are better than others because of certain mental conditions or psychic conditions, and when you find these, and when you discover their channeling is generally reliable, then you can give certain credibility to the information, but until the information has been examined and tested by time and by common sense, it is best to look at channeling in the same way you would look at a newspaper article, written by someone who has an opinion to share, such as might be found in letters to the editor, for there is no guarantee that just because something is channeled that it has any more value than a letter to the editor, or an opinion of your sister-in-law or other family member.

#### MANY ARE IMPRESSED BY CHANNELER'S "CREDENTIALS"

QUESTION:

One of the things I've noticed from letters sent in over the years by members who read other channelings or hear tapes of other channelings, is that they are impressed by what appears to be the credentials of the being or entity or whatever it is sending the information. For example, member F.P. sent in a question which Awareness has already answered, but she writes: "A publication called *Spirit Speaks* has come into my hands, from which I will write a quote:

"Zoosh as channeled by Robert Shapiro, is from Alpha Centauri and describes himself as 'a personality without boundaries. Wherever energy can be, I can be.'" Robert also channels 'Joapah' from Leta Reticuli, animal and plant consciousness, and many others, etc." And she asks if Awareness would comment. But the point is that so many of these entities use impressive sounding names and exotic names of places where they're from, and a lot of people will swallow the message because of that.

COSMIC AWARENESS:

This Awareness indicates that if you were to be approached by someone at your door who knocked at your door and states: "I am a PHD from the university. I am here to answer questions that you may wish to ask me," would you not want to see some evidence that the entity was indeed a PHD from the university or would you be willing to hire this entity to answer question of importance without examining his claim of credentials?

This Awareness indicates that if, as in the case of entities speaking through a medium, the credentials cannot be passed on paper, then you have to rely on or seek evidence of the entity's importance, credibility and credentials in the message itself. Therefore, it is proper for entities to listen to the message given by such entities and evaluate whether these messages ring true, seem feasible and fit with other information you know on the topic, and even then, it is best to keep your mind open to the fact that these entities might not be who they claim they are.

This Awareness indicates that time often reveals the realities but it is important that you not commit yourself too much to accept important advice or directions from any such entities. Remember that there are people in this world who make claims and who have ulterior motives for

making those claims. Do not forget that many of the people who followed Jim Jones were quite intelligent people, but who simply acted on belief and faith without having any real substance for that faith until they had committed themselves to go with him out of the country and into an area from which they could not escape.

Don't let yourself become entrapped because of someone's claim that they are highly qualified, or have credentials proving themselves to be worthy of your obedience.

#### DID VIKKI T'S MOTHER "CONTACT" HER?

QUESTION: (VIKKI):

Along the line of the validity of information that comes through from the other side, after my mother died, Avaton and I worked with the Wheel of Destiny and when she came through, we identified it was her when she used a pet name that no one else knew, so we believed that my mother was coming through and we had good intentions, but the information she ended up giving us, didn't prove to be of any value to us, and our conclusion was that even though she was trying her best to communicate in a helpful way, she wasn't in a position to see things clearly enough to give us any help on our level here on earth. Is that what was going on?

COSMIC AWARENESS:

This Awareness indicates that this appear to be correct in a general sense. This Awareness suggests that while you were involved in the use of the Wheel of Destiny, you yourself knew the pet name and may have also had an influence in its use. This as an area to explore in your evaluation of the experience.

#### HOW TO HANDLE CHANNELING "GOD"

(Problems When the Chakras All Open)

QUESTION:

In regard to channeling, we received a letter from S.M. in Louisiana. I'll read it here: "In June of 1989, my energy centers opened. I began channeling a Divine Essence I called God. This is a feeling, not a voice. I do not have a lot of background on the names this is known by. Could you please tell me if any information is available concerning the evolving of the body? I have felt my brain cells literally divide and multiply, and the area between my brow enlarge under the skin. I hope I am making myself understandable. I would also like to know if there is any information available concerning raising energy at will and channeling through the hands. I was studying *A Course in Miracles* when all of this began. I cannot thank you enough for being in my dream.

I asked for help and you were the answer."

#### COSMIC AWARENESS:

This Awareness indicates that the term God as that which is overloaded in terms of consciousness, and carries too much energy for too many people and it would be best avoided in your channeling. It essentially was a communication with the higher frequencies of the Creator, but it is best to avoid super-charged words such as this for it can lead you to extreme rejection or to feel the hostility of others who would ridicule and twist your meaning and imply that you are claiming to be God.

This Awareness indicates that you may refer to it as Awareness or as Cosmic Consciousness, or as Universal Consciousness, or as Divine Light, or you may put a name to it. At any rate, whatever you decide can be helpful to you in reattuning to the energies at will. This Awareness indicates that on occasion, the chakras begin to open for entities, especially when there is much attention on spiritual things and on occasion the opening of the chakras allow entities to enter into these higher frequency levels.

Essentially that is what occurred. Your chakras opened and allowed an attuning to higher frequencies. It is likened unto changing channels on your radio and attuning to a broadcast from a higher frequency than you have experienced before. This Awareness indicates there is no easy method for doing this. Occasionally it happens due to certain circumstances coming together. There are, of course, meditative techniques that have been practiced, especially those from Hindu and yoga sources.

There are also certain Tibetan meditative practices; that Development Classes given by this Awareness also are designed to help open the Chakras. This Awareness indicates that your own act of meditating appears to be, for you, the best way for you to continue experiencing this, and through the meditation, experiencing the vibrations so that upon any attunement, you hold to that attunement with all your ability and concentration for as long as is possible.

#### PHYSICAL CHANGES WHEN CHAKRAS OPEN?

##### FOLLOW-UP QUESTION:

Were the physical changes she attributed to this opening up of her channel real or imaginary, and if so, how common is this? She says she felt her brain cells literally divide and multiply and the area between the brow enlarged under the skin.

##### COSMIC AWARENESS:

This Awareness indicates that this may have been actual or it may have been perceptual. It appears that for her, it seemed real. This Awareness indicates that it also may have been induced by the meditation or other stimulus

#### FORCES BLOCKING CAC'S EXPANSION ARE MOVED

(Excerpt from a C.A.C. General Reading, Feb. 21, 1991)

##### QUESTION:

In the C.A.C. annual Tarot reading from Sam Millar, the layout indicated that CAC is in a holding pattern and not able to make the next step forward, because it is being attacked by a basic elemental level force that feels a threat from what CAC does or represents. This force is blocking various members from making donations that would make a higher level of operations possible. According to the Tarot, at least two members have already decided to make a large donation, but this force keeps blocking them and therefore is blocking CAC's expansion program where we plan to mass-produce booklets of certain Awareness subjects and also spread the alien presence information to the masses. Would Awareness look over this situation and suggest what can be done about it?

##### COSMIC AWARENESS:

This Awareness indicates that this appears to be an accurate reading of the situation. This Awareness indicates there is little that can be done other than informing entities of this situation and letting entities decide for themselves if this somehow applies to them, and except for this Awareness moving to assist in relieving these blocking energies.

This Awareness wishes at this time to assist in removing these energies. This Awareness suggests that a count by the energizers to 144 be given at this time, while this Awareness works on these energies.

(A count to 144 is given)

This Awareness indicates that the energies have been opened, the blockage has been released, the energies are free to flow.

9. experienced at the time in which the chakras began to open. It is not seen as being a situation in which this entity now has twice the number of brain cells she had before. It is more likened unto her perceptions and feeling that these were multiplying and splitting and doubling.

#### HOW TO FIND OUT WHERE YOU CAME FROM

(Your Original Star System)

##### QUESTION:

One final question; this from B.S., in York, Pennsylvania. It's a personal question but it sort of ties in with information given, particularly last night. She writes: "Lately, I've got this burning desire to know who and what I am. I know I'm not from here, but I'm not comfortable thinking I'm from the Pleiades either. There are a lot of things about my channel that are so different from anyone else, I don't even know quite how to use it. Someday I'll write a book. It's become almost an obsession. Does Awareness offer any advice for nuts like me who feel they just must know?"

##### COSMIC AWARENESS:

This Awareness suggests that your best approach in discovering where you are from may lie in your dreams at night. This Awareness suggests you think very deeply about your origin prior to your earth incarnation, and think about this up to bed time. Put a piece of paper or notebook beside your bed, along with pencil or pen, and before going to sleep, indicate to yourself that you want to know where you are from, what planetary system or star system you are from, and that you want to visit your home planetary system in your dream, and you want to be able to remember this upon awakening.

If you indicate this strongly to yourself, and then go to sleep, there is a good chance that you will either have a dream of travelling to your home planet, and meeting old friends there and discovering things about yourself, or you will get the answer during your sleep, and upon awakening, it is important that you write this down immediately. If you wait and go back to sleep it will be forgotten the next time you awaken.

This Awareness indicates if it does not occur on the first night, try try again, until it does occur. Eventually, if you continue in this quest you will get your answer.

#### LIFE SHOULD NOT BE BORING

##### (CLOSING MESSAGE):

This Awareness indicates that life does have many areas for exploration and discovery, and entities who find themselves bored with nothing to do, have little excuse for their condition, when there is so much to be learned and so much to be discovered, simply by looking within themselves.

The Law of Gratitude is given \*

Cosmic Awareness goes to the movies...

THE MOVIE: "TOTAL RECALL"—  
IS IT BASED ON AWARENESS MATERIAL?  
(More on 'Alternative 003')

QUESTION:

A question from Tom K. in California. He writes: "Have you seen Arnold Schwarzenegger's movie *Total Recall*? I'm really turned off by movies with gratuitous violence, but a friend prevailed on me to see this one. You want to know whether the contents of Nightmare Hall has reached the general consciousness? Well, see this one!

For instance: (1) Arnold is being monitored by a political power group. (2) He goes to a clinic for a vacation trip to be inserted in his consciousness and finds that his previous life experience has been erased and a new identity installed (3) He discovers that the monitor device has been installed up his nose and he extracts it. (4) He proceeds to a colony on Mars where there are many mutants, people physically deformed by the carelessness of the power group. They include people with wings for arms, and the leader of the opposition in the colony is a man who has another physical entity embedded in his solar plexus and the entity is psychic. (5) The power group controls the air which the colony breathes and cuts it off as punishment for dissent. (6) Arnold succeeds in activating a reactor which an alien civilization has installed which the power group says will destroy the planet if activated and which, thereafter, in reality, supplies the breathable atmosphere to the entire planet. I mean, is Awareness into reading movie scripts, or are the movies reading Awareness?

I know this isn't your kind of movie either, but do see this one. Life may be bizarre at times, but like a good mystery novel, I can't wait to see what happens next." Would Awareness comment on this movie *Total Recall*?

COSMIC AWARENESS:

This Awareness indicates that there is in this movie and in many of the other movies, more truth than fiction. That this has been so for some time; that there is a continual leak of information to those who write these scripts for these movies; that it is a fact that many of the scripts for movies come from ideas connected with entities or released from entities who have some knowledge of what is going on in the realms hidden from the public. This Awareness indicates that this movie as one which fits precisely in such a category; that it includes the scenario of 'Alternative 003.'

The aliens who created the machines to release the atmosphere of Mars were in the movie said to be over 500,000 years of age. You will note that this corresponds with the age of the Zeta Reticuli. This Awareness indicates that the movie also included in that section on the implant in the nostril, the fact that it was implanted in the left nostril which is also the nostril which is used for such implants.

This Awareness indicates that there is considerable amount of valid detail/information in this movie, indicating the advisors and writers knew more than was mere chance or imagination. This Awareness indicates that another movie, *Alien Seed*, as one which entities should attempt to see; it has been difficult to find copies of this movie because copies have been removed from video stores. If you are fortunate enough to find one, be sure to see it.

Likewise, watch for other similar movies such as *They Live*. There is another movie, approximately ten to fifteen years old in which the Zeta Reticuli are mentioned directly by name. The name of this movie appears to be *Starship Invasion*.

This Awareness indicates there are also many cartoons, especially those aimed at children in which much of this information is being given in accurate form, including such things as the abductions using the blue beam, and detailed information in regard to the relationship or the pattern of abduction techniques. That this is quite a number of different children's cartoons.

It appears there also are leakings in old newspaper cartoons such as sometime back several years ago, Mandrake the Magician ran a series in which there were Reptilian invaders. This Awareness indicates the movie television series *V* was intended as more of a scenario to put into human consciousness as a possibility of a future event than merely to entertain the masses.

ED's Note: Bosom watchers will have a field day if they check out that movie "Total Recall" or see it in a theater, for among the mutants there is a 3-breasted woman that appears so lifelike, it makes one wonder where they found her. (The laundered TV version will no doubt censor this work of art from the movie).

HOW DID THE ALIENS SHOW THE CRUCIFIXION  
OF CHRIST TO U.S. AUTHORITIES?

(More on Time Travel Technology)

QUESTION:

On the William Cooper tape, he mentions that aliens showed a hologram depicting the actual crucifixion of Christ to U.S. authorities. Is that information correct, and if so, how did these aliens do that?

COSMIC AWARENESS:

This Awareness indicates there is a technology that is extremely complex and is as far beyond what this Awareness has given in regard to alien information as the alien information is beyond the previous information relating to global conspiracy. It is though you are asking a question that could open up another door that goes far beyond anything that has been discussed yet. This relates to that which is called time travel.

It is a technology that is available; that can be or has been examined and experimented with by some of the corporations through the use of money that was obtained from gold stolen from Nazi Germany after World War II. This Awareness indicates the technology as that which made use of certain information and technical material retrieved or gained from both scientific knowledge and also from alien technology, but particularly that which came out of the Philadelphia Experiment.

This Awareness indicates that this relates to the creation of a certain kind of electromagnetic vortex, through which entities can move to enter into different time zones or time lines, and witness things of the future and the past. This Awareness indicates that the hologram as that which accompanied a time-travelling episode, filming what may be termed a crucifixion; that this crucifixion as one of thousands that took place during the early part of the time line in the period near that which is the time of Christ.

It is seen as a representative of the crucifixion and is not the same entity as represented in Biblical literature, which is a composite, but of one of the entities crucified during that time who was used in making or in representing an aspect of that composite. This Awareness reminds you that if you are to examine earlier writings from other cultures you will find parallel stories of the same nature in regard to the Christian story, in other cultures writings that predate the New Testament story of Jesus.\*

The New Testament story being a composite of various earlier writings, other religions and of groups and sects that were prevalent in the time of Rome at the time Constantine ordered the various religious sects of Rome to come up with a catholic, which means universal, Roman religion. In other words, to come up with a common religion that all of the various sects of Rome could accept as being the official Roman religion, and that was the origin of the early Christian religion of Rome; the word 'catholic' meaning 'universal.'

This religion, this composite of the various religions, wherein all of these religions added or worked together to make a single religion out of the many, became recognized as the official Roman Catholic religion.

This Awareness indicates that in terms of any wish to explore further in the area of time travel and that which this Awareness has alluded to as an area that has been researched; the Interpreter can provide information for a video that will be beneficial in filling in further information in this regard.

#### A Technical Time-Travel Video is Available

This Awareness indicates *It* does not wish to get into a discussion of the physics and formulas of this technology; it would be too difficult. The Interpreter is not suitable for such level of channeling and it would be too difficult for your readers to understand. However, there is technical information on the video for those who wish to pursue this further in regard to the nature of the project, when it was conducted, how it was conducted, pictures of the place where these experiments were held, the nature of the experiments, the effects of the experiments and some of the discoveries of the experiments.

This information is on the video, and there can also be other contacts with entities who provide the video for still further material.\* This Awareness indicates of course, the government does not claim to have any involvement or connection with this, and in fact it was all conducted under a corporation supplied by money from large corporations without much connection with the government; the information provided by entities who were present in the experiment.

This Awareness indicates the aliens as having this type of technology perfected even further, wherein they can move in time travelling. It is for this reason that they are able to project into the past and the future and give predictions in regard to future events. This Awareness indicates that even though the future is not fixed, often it is so strongly influenced, that one can predict with a relatively strong probability that something will occur.

This Awareness indicates there are always possibilities of changing the forces that are in movement, but these forces are not to be changed without some outside influence acting upon the forces that are in movement, and therefore, one can make predictions regarding the future based on the assumption that no outside influence will interfere with the movement of forces presently in action.

\*For a list of these, please refer to 'Revelations of Awareness' No. 80-20 (Should Children be Taught the Fundamental Christian Doctrine?) \$3.00 from CAC.

This Awareness indicates it is in this manner that occasionally, frequently, aliens and psychics can predict future events with a considerable degree of accuracy. It is from this technology that aliens have been able to put together the Fatima prophecies, based on their reading of the future. This Awareness indicates of course, the future is not fixed. There is a strong probability that the Fatima prophecies will follow, but there is also the potential for these prophecies to be altered as consciousness rises to new levels and becomes aware of its own power to alter the future, or to alter the forces in motion.

\* Time-Travel video info can be obtained by contacting: Bill Knell, Enigma Tape Library, 164-22 77th Rd., Flushing, New York, 11335. Send \$3.00 for their catalog. You may also be able to obtain this information by calling UFO Hotline: (719) 380-8644.

## SOME OF THE PHYSICS INVOLVED IN THE CRUCIFIXION HOLOGRAM

### FOLLOW-UP QUESTION:

Could one say that the hologram of the crucifixion might be analogous of the Akashic Record, and someone 'freezing a frame' of that particular incident, and it being like taking a photograph as it went by?

### COSMIC AWARENESS:

This would be a good analogy. This Awareness indicates that it must be understood that the moment of 'now' is always and ever present. It is the dance of light on the moment of now that creates the difference in appearance that appear to be changes from moment to moment. The now is likened unto a screen that fills the universe. It is the screen of space.

The patterns of light which make up all things flood and fill that space and dance on it, as images; some dense, and some not so dense, some very etheric, and these things also tend to express themselves on various levels or vibrations. Some of the vibrations being much more subtle, and others being much more dense.

That which occurs for an entity in a particular vibration occurs in that vibration as a movement, just as the making of a sound occurs in what may be seen as a moment, and that sound then begins to fade away, or that event begins to fade out of consciousness, until it is not perceived or is superceded by the next sound or the next event, but as you know from physics class, the sound never ceases. It continues to fade away, eternally, and if you could hear with sharp enough ears, you could trace down sounds that occurred thousands of years ago, that are still fading away.

Those sounds are simply the vibrations that are still echoing and vibrating slower and slower and more and more refined. These sounds continue to fade, but they also continue to exist. It is the same with experiences, and it is possible that if you had the right kind of instruments to attune to those fading experiences and the vibrations that were present in those experiences that made up the things: the tangibles, the visuals, the sounds, the tastes and colorations which all are fading from the present now, it is possible that you could, with the right kind of instrument, recapture those images and experiences, in the instrument's reading of the vibrations.

#### 1950's Radio Programs can be Heard Today!

This Awareness indicates that essentially these vibrations go into different levels and different frequencies. There are radio waves that were sent out in the fifties which were recently picked up by entities travelling in the Bermuda Triangle, wherein they heard some of the broadcasts that were being made during the fifties, even though the year was in the late 1980's, and they knew this to be a real broadcast, because the advertisements were also advertising old products from the fifties, and it went on for several hours.

This Awareness indicates that their radios simply attuned in a kind of freakish manner to those signals that were still floating around from the fifties, which got caught in the flux of energies in the Bermuda Triangle vibrations. This Awareness indicates that this is a similar principle to that which relates to the time machine, the ability to create a high frequency vortex of electromagnetic energies such as was used to transport the ship in the Philadelphia Experiment, not only to another place, but also into another time.

#### Travel Based on Philadelphia Experiment

This Awareness indicates if you have seen the movie *The Philadelphia Experiment*, you may recall that there was, in that movie also, a time warp experience. This was based on reality that occurred, and those who were involved in the more recent experiments regarding time travel, found themselves linked likewise to the time in the 40's when the Philadelphia Experiment slipped into a time warp that reached into the future, into that area which later became the location for this time travel experience, experiment.

This Awareness indicates all this is discussed on the video tape. It is very complex and in great detail, but it can be very enlightening. It is not something that can be explained, nor is it something that entities can talk about without seeming to be absolutely kooky. You will find that after listening to the tape you won't want to talk to anyone about it if you want to appear to be normal and sane, for most entities will consider it totally insane and you yourself would realize that what you have heard if you have not heard so much detail, would be considered as near insanity.

It is extremely complex and has much to do with alternate reality, a reality that is not the same reality that entities perceive as the normal reality. It suggests that if you do purchase the tape and preview the tape that you not try to show others how much you know regarding time travel, or that you impress others with your new-found information, for you will simply appear to be foolish.

It suggests rather that if you wish others to understand and to share the information with others, that you let them borrow your tape and ask them afterwards what they thought after hearing the information.

#### QUESTION:

We received a letter from J.A. who ran some ads, and posted some notices around his town to get people to come in and listen to the Cooper tapes. He described that in another letter, and he writes to me: "Dear Avaton, something else I want to tell you about in connection with our Cooper tapes program. Two things: One,—Somebody seems to be going around town removing posters that I put up. We had an ad in the local weekly newspaper too, and ads in newspapers tend to draw many more responses than posters anyway, so it didn't really damage attendance, but two posters on public bulletin boards and one in a grocery store mysteriously disappeared very soon after I put them up. I put up many posters for many causes in this town and such things haven't happened before. Other posters put up on more private bulletin boards such as in restaurants and on the inside of store windows remained up, so whoever did it was only going for very easy targets. Two: a guy came to the program who, in the discussion following the tapes, said that he used to work for NSA, the National Security Administration. He seemed like a real nice guy, and seemed to act as if now he wasn't particularly fond of the NSA, even said some things about how eating natural foods raises your consciousness, which tended to make me trust him.

This guy proposed that those present should meet again, and very conveniently, he happened to have a stack of 3 x 5 cards in his briefcase which he passed out, asking us to put our names and addresses on the cards so we could be contacted for future meetings. I was reluctant to put down my address, but did put my name and phone number on a card, which I now regret having done. It seemed a little too convenient that this guy who used to work for the NSA just *happened* to have a stack of 3 x 5 cards and proposed that those present meet again.

Not that I think NSA would have difficulty tracking me down if they wanted to get me. It was posted on the co-op bulletin board that I was responsible for the workshop and it's no secret where I live, or what my phone number is, and I would expect the NSA experts to recognize my style and the lettering on the poster. At least, I can recognize the style of most of the artists here in town right away. Maybe I'm giving NSA credit for more artistic consciousness than they deserve. Maybe the guy was for real, maybe he's still working for the NSA. You might want to mention this for the benefit of other CAC members who play the Cooper tapes at public programs, so they can be alert for similar such happenings.

If such things happen at other programs, well, as Goldfinger said: "Once is happenstance, twice is coincidence, three times is enemy action." Best Wishes. J.A."

I'd like to ask Awareness: Is this the way these NSA people operate, or was this a legitimate person interested in what was going on, and is this a possible threat to other members who play the Cooper tapes?

#### COSMIC AWARENESS:

This Awareness suggests that entities be careful in observing this kind of action if it occurs repeatedly; that the action of this entity carrying these cards with him to the meeting clearly indicated his intention to get the names of all people present; that the purpose of this being to have these entities' names recorded for possible future watching, the possible future watching of the entities in the event a threat should come from such meetings.

This Awareness indicates that the threat of course being to the government from grass-roots Cooper movements. That it is simply part of the intelligence operations to keep track of entities' interests and behavior, even if it were a group of people meeting to discuss which whiskey is best. You can expect that there would be an agent of some sort present in such a meeting who might be interested in taking names.

This Awareness indicates it is not something seriously to worry about, but if individuals were to begin causing trouble and the name of the individuals were on file and more information could be added to the individual's names regarding their behavior and activity, this would begin to build a profile. Entities wishing to find what the government has on them in terms of their name can write in regards to the Freedom of Information Act and find from the different agencies what is on file for them under their name.

This Awareness indicates that there is hardly anyone who doesn't have something on file under his or her name. It does not mean that you are a criminal. It does not mean that the government is suspicious or is building a case against you. It simply means that the government has a policy and a program by which they can create a profile on the citizens based on their interests, their activities and their associations, and if per chance in the future, that information is needed, they can then look to the information to find what they wish to find.

This Awareness indicates that this also does not mean that the government has much information on entities. The majority of the information they have would probably come from your own financial records rather than from such things as the meeting discussed in this question. Entities who attend meetings or discussions can also expect that if these meetings have any serious political overtones, such as in the past there have been meetings on how to beat the IRS at its own game or how to avoid paying taxes, or such discussions as conspiracy exposes; things where, for example, witnesses may testify or give talks about the Iran/Contra affairs or such; these things that have to do with political exposes, you can expect that there will be agents out in the parking lot taking down license plate numbers.

This does not mean there is any kind of case against the person whose car is thus parked; they just simply want to have the information on hand. In the event they ever want to check out a person for some reason, they may then be able to cross-reference and find a profile on the entity to help determine what kind of person this is.

This Awareness indicates that the government does not like information given out in regard to how it operates in such clandestine activities, therefore, this Awareness has said too much, more than is really appropriate, but because this information is relatively common knowledge for most entities who have had any understandings of the workings of the government, it is not actually forbidden in regard to what has been given, but *It* does not wish to pursue this discussion further.

This Awareness would say however, that it is not that the government seeks to spy on individuals or even to curtail their rights to free expression in such meetings, but rather that they wish to know what is going on in the event something gets out of hand. They wish to have a collection of information. It is more or less a responsibility of government to keep the peace, and part of keeping the peace in the nation is being prepared for

"Hello, Emily. This is Gladys Murphy up the street. Fine, thanks...say, could you go to your window and describe what's in my front yard?"

different contingencies in the event that something might occur that could disrupt the peace.

They want to have on hand information that will help them sort out the causes of the disruption and find ways to bring that back into harmony; thus, the need to be aware of citizen's activities. This is the justification of such actions.

**YOUR CREDIT CARD PROVIDES A PROFILE OF YOU**

**FOLLOW UP QUESTION:**

In regard to various agencies building a profile on entities, I was surprised to read in an obscure newsletter recently, that all the credit-card companies upon request by any of these agencies will supply copies of the purchases of any entity, going back for months, which shows them what restaurants they patronize, what stores they go to, what they purchase there, and what filling stations they use, and so forth. I thought at the time that this article might not be true, but it sounds to me now like it probably is. Does Awareness confirm this?

**COSMIC AWARENESS:**

This is in the affirmative.

**UFO ABDUCTIONS AND THE ORANGE LIGHT  
(How to Keep From Being 'Probed')**

**QUESTION:**

B.H., in Virginia, mentions in a note to Vikki: "My daughter in the Tampa, Florida, area is being visited by some ETs. I was there visiting with her the night she was nearly consumed by an orange light while she was in her car on her way home. Only one other couple saw this light, and thank God, reported it. Since then she tells me she knows they are around. I have not shown her this new material, but I fear now for her life and her two children and have asked her to surround herself with the White Light. I don't know what else can be done."

I'd like to ask Awareness: She mentions an orange light. That's the first reference to orange light I've heard of, is this...

This Awareness indicates that these are likened unto probes. These are mechanisms by which aliens can probe an area or probe an entity. It is kind of an orange ball that is used to assess or observe an entity's behavior and psyche. This Awareness wishes at this time to send protective energy to this entity and to her children and family, to cover this entity with protection, a shield.

[ 4 minute pause while the energies are moved ]

This Awareness indicates that this entity has been shielded; her family and her children and her home have all been shielded. This Awareness indicates that it is possible to command these orange probe balls of light to leave. By making the command in the name of the Highest spiritual being you can perceive, you can have a powerful effect on forcing this to stay away.

This Awareness indicates for example, an entity having a strong belief in Christ or the Christ Light, can command the ball to leave forever your presence in the name of Christ. If you are a Buddhist or some other faith, you may use the name of that entity who is held in highest esteem. If you are in the Awareness Movement and wish to use the White Light, you may also command the energy to leave you in the name of the White Light of Awareness or in the name of the Christ Light or in the name of God, or whatever you perceive to be highest.

It is the psychic attitude and intent that carries the power to revoke the intrusion. This Awareness indicates these entities have some difficulty in recognizing that they are intruding in your life because they do not recognize that you have any rights, but they do have some apprehension of your relationship with higher spiritual forces, and it startles them to feel the power of your mind in regard to such faith, and such firm repulsion of them.

They can deal better with entities who are confused, who do not know what they want or what they are doing. They can deal better with the entities who have a confused feeling about the aliens and their trickery, for if an entity is ambivalent, unsure, unclear, they are also extremely vulnerable to whatever the alien may tell them.

#### SILVER BEEBEE IMPLANTS: WHAT ARE THEY FOR?

##### QUESTION:

A recent "Nevada Aerial Research" newsletter published a letter to the editor from a publication called the 'Star Beacon.' I'd like to read this and ask Awareness what this is about. The letter goes:

Dear Anne: I liked the story of the silver beebie; see Star Bulletin, Feb. 1990 issue. I also have one. I was about 9 years old when it started to bother me. I don't know when I got it, but it was under my skin in my midriff section just below my right rib. I went to the doctor and he sent me to the hospital to remove it. I saw when he put it in the tray; a little silver ball about one quarter inch around, maybe smaller. I also still have the scar. Dr. Mundy, a therapist who speaks about contactees told us at a workshop one night about these silver beebies. Apparently, they are or were a communication tracking device. The ball was not given to me. The hospital kept it. Dr. Mundy told us that during this time period in the 1950s, the government informed all doctors and hospitals to be on the alert for these beebies. I wonder if there is a special beebie department. I was also told someone must have shot me with a beebie gun. There were no kids in my neighborhood that had beebie guns.

The letter was signed Linda Dudar, Washington, New Jersey. Could Awareness explain these silver beebies, if they're significant at all?

Nevada Aerial Research newsletter can be obtained from Arcturus Book Service, PO Box 831383, Stone Mountain, Ga 30083. (Write for catalog)

This Awareness indicates that this was not the same as most implants that are used in the optic nerve or in the head; that this was more in line of keeping track of individuals, much like the marking of an animal by a tracking device, by an implant that is read by a tracking device. This Awareness indicates that the beebie did however, have a certain kind of individual vibratory frequency that allowed them to know who the entity was, simply by the beebie.

In some cases, these entities are selected for future pickup or abduction. In other cases, they are the offspring of abductees. In many cases the abduction of a parent, the abduction of one entity will be followed by the future abduction of the entity's children, so that families, from father to son or mother to daughter or father/daughter/mother/son...the offspring will become the next generation of abductees.

This Awareness indicates these beebies are not used as frequently in present time as during the fifties; that the aliens have also used implants in the ribs of some entities. There also have been some implants placed in the navel of some entities, but generally, the favorite places of implanting are in the head, behind the right ear, up into the left nostril, next to the pituitary and the optic nerve, and under the chin, and in the back of the neck by the medulla oblongata.

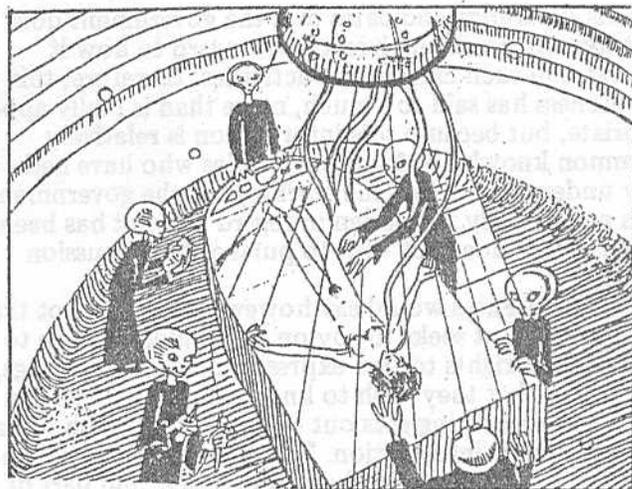

#### DO IMPLANTED ABDUCTEES POSE A THREAT? ( How the Egg-Takers Operate )

##### QUESTION:

A.C. of Dobbs Ferry, New York asks: "Will implanted abductees actually pose a threat to Light workers, or should a close association with them be avoided?"

##### COSMIC AWARENESS:

This Awareness indicates that one of the criteria common for abductions, but not exclusive or necessarily a cause, but one of the common criteria is association with one who is an abductee, particularly when the abductee is in continued communication with aliens. An example being an entity who is being used on a monthly basis, having eggs taken from her, who mentions this to an associate friend who did not believe her; this lady feeling somewhat miffed because her associate didn't believe her, informed her alien handler that she would like them to visit her friend and gave them her address and name.

15. Then, after such a visit, the second lady was visited and became a donor of eggs to the aliens. Her children were abducted, she having two boys. The one boy in discussing the situation was found to be terrified of alien visitations to the point where he surrounded himself with knives when he was alone at home; this being a teenage boy of 13. The younger boy of 7 put cotton in his nose before going to sleep so the aliens can't "do it to him." He did not like the implant operation.

This came about because of the entity's association with one who was a willing donor to the aliens. This Awareness indicates that it can be hazardous for entities to be in a too close proximity with those who are donors or those who are in contact with aliens. This Awareness indicates that this example as related to two entities living in the Portland area; and that this is an actual case, wherein close proximity brought about the implant and the disruption to the entity's family and her children.

Therefore, this Awareness suggests you be most cautious in having close proximity or relationships with entities who are or have been abductees or who have an ongoing relationship with aliens, especially those who have the ongoing relationship with aliens.

#### CAN CATS BE MONITORS FOR THE ALIENS?

(What Really Lies Beyond those Big Alien Eyes)

##### QUESTION:

One final question; this also from A.C. "Can pets, especially cats, be used by the Greys to monitor individuals?"

##### COSMIC AWARENESS:

This Awareness indicates that this *could* be done. It does not appear that this is done. It does not appear that the cats are used in this manner. This Awareness indicates that the Greys are related to the cats; that the eye-covering that looks like rounded wrap-around eye-glasses, the big black eyes of the Greys are actually but shields, lenses, covering the Greys' two eyes which are more cat-like with vertical slits, or pupils, much like those of the cat's.

The outer lid covering is an artificial covering. You might say the Greys have two eyelids: one inside, and the other a kind of exterior eye-glass type. This Awareness indicates that those big black eyes that are generally associated with the Greys are not their true eyes. Their true eyes are behind those lenses. That under those masks, they are more Reptilian in appearance.

#### STUDY ALIENS AS YOU WOULD STUDY SPIDERS

##### CLOSING MESSAGE:

This Awareness indicates there are many energies involved in the discussion of aliens. It is important that entities not dwell too much on the alien factor to the point of neglecting or failing to keep a strong focus on their own personal life; that for most of the entities, there will never be a physical contact with aliens. Most entities will live their lives much as they have before, and the main contact they will have will be that of a psychological concern from what they are learning about the aliens.

This Awareness suggests that it may be such that like the biologist who specializes in the study of spiders, does not ever really have to come in contact with spiders, but may read about the spiders in books and have spiders in his or her mind without ever really having to live with spiders or deal with spiders in reality. This Awareness suggests that entities not energize the possibility of having to come face to face with aliens.

Simply study them as you would penguins or other creatures, as an interest in learning about them, and do not become too fixated or too concerned. Know them through understanding, through reading, for the knowledge will give you greater power, if and when it becomes necessary to have a confrontation or association with them.

This Awareness indicates that *It* does not wish to energize such associations, but wishes to prepare entities in the event such associations might ever develop, so that you know something about the beings who are there. This Awareness indicates *It* also wishes you to understand the nature of the present change on your earth, the presence of these entities and the influence that these entities may have on your earth..

This Awareness indicates that it is because there is something within the human form, something within the human soul, something that is a potential for greater expression and evolution that does need to be cultivated and salvaged, for the human has a potential of becoming a god higher than that of the Reptoids or other lesser gods. It has the potential of becoming One with the creator, and this is worth preserving and cultivating.

It is for this reason that this Awareness attempts to enlighten and inform and make entities aware of the situation regarding the alien presence.

\*\*\*

*The Law of Gratitude is given.*

#### WISDOM OF AWARENESS

ON WARNINGS AND PREDICTIONS: ...the very purpose of warning is to rally assistance to change that which is threatening.

ON ABORTION: This Awareness indicates that wherein an entity enters your home because your door is left open and inviting that entity, do you have the right to slay that entity for violating your home?

ON OPENNESS: This Awareness denies entities nothing nor does *It* force rewards through closed doors.

ON SEXUAL PLEASURE: This Awareness suggests that in giving yourself pleasure wherein no other is hurt, there is no violation; that wherein another is harmed by your own pleasure, then there is violation.

ON MATERIAL POSSESSIONS: This Awareness indicates that concepts are of no greater spiritual value than are material goods, for material goods do also have their purpose. This Awareness indicates that an entity who is starving cannot eat a concept, but would do well with a sandwich. Entities can be idealistic about possessions, but when an entity begins using his fingernails for a screwdriver, idealisms fly away.

## "THE PHOENIX JOURNAL"--HOT AIR AND PARANOIA?

(Excerpt from a CAC General Reading, Nov. 11, 1990)

### QUESTION:

For the past year or so American West publishers, in California now, have been putting out a newsletter called *The Phoenix Journal*. A number of entities have written asking us to ask Awareness about it. At first I thought it was a channeled publication, and I would write and tell them that Awareness had requested we not ask *It* to evaluate channels, but as it turns out, the lady called Dharma, whose real name is Doris Ekker, is not a channel, but only a 'scribe', so I guess it's alright to ask about this.

In a recent issue, for example, it covers a number of things, including a warning that now it's time to sell your stocks and buy gold, and it talks a lot about the conspiracy and treasonous people in our government. One of the things they are doing it says is "they are truly considering a massive earthquake on the Hayward and San Andreas faults to keep Californians from the polls." Well, that didn't materialize. There's a lot of information in these journals, a lot of which rings true, a lot of which is based on Dr. Beter's information, cosmonauts and all that, robotoids; a lot of it seems to be information Awareness has mentioned over the years; a lot of it, sometimes word for word, is lifted right out of the Spotlight, and so on. Most of it is negative and disturbing information, and I'd like to read one of the letters coming in on this that might pretty well cover this matter; this from B.N. in Omaha, Nebraska, who writes:

"I am not tired of alien questions, but I have a very sincere question concerning publications that many of your subscribers are also receiving. These publications not only cover the alien questions, but a tremendous amount of covered-up knowledge that would take the average seeker years to obtain. These publications are known as the Phoenix Journal and are said to be transcribed by a woman with a code name of Dharma. The information is coming through a transmitter from 4th dimensional Light Beings, supposedly Pleiadians, and specifically those called Hatonn, and Ashtar.

Word from knowledgeable sources has stated that this information is only copied from already existing materials and the government is actually behind this adding mistruths to a percentage of the information in order to confuse and mislead those who have a high amount of awareness concerning covered-up issues. My question specifically:

### COSMIC AWARENESS:

This Awareness suggests the last paragraph be reread.

### QUESTIONER:

"Word from knowledgeable sources has stated that this information is only copied from already existing materials and the government is actually behind this, adding mistruths to a percentage of the information in order to confuse and mislead those who have a high amount of awareness concerning covered-up issues.

### COSMIC AWARENESS:

This Awareness indicates that this as having validity. This Awareness suggest the continuation of your question.

### QUESTIONER:

"My question is specifically, who is actually behind the transmitting of this information, and are those involved with transcribing, printing and distribution of the belief that the source is of higher 4th dimensional intelligence, or do they know that the government is involved with this, if this is the case?

Please print the above question and edit it any way you like in order to get the message across. You may or may not have an idea of how these publications are affecting the lives of countless people, but the amount of truth in them that can be verified through many sources make them easy to believe. The psychological effects in thinking the information is from Light beings quadruples the effect. I have enclosed one of the booklets in case you are not familiar with these publications."

### COSMIC AWARENESS:

This Awareness indicates that it appears the information used in this publication is approximately 80% compiled from previously available information, including the Dr. Beter material; that much of the information relating to the Dr. Beter material is not lifted word for word, but rather as a kind of background scenario from which other presumptions are raised and expressed that pertain to more recent news and attitudes and developments.

The entity appears to comment on current affairs based on a background or backdrop of the Dr. Beter scenario of Bolshevik/Zionist/Skoptsis/Rockefeller influences; that this in general has a degree of validity that helps many entities to perceive from certain levels a different point of view. This Awareness indicates that there does appear to be some information that parallels or reflects material given by this Awareness over the years, and there is other information that is apparently reflections of sources from other channels or intelligence sources that tend to give news that is not available in the controlled press.

This Awareness indicates it does not appear that this information is promoting a government line in the sense of trying to spread disinformation in the favor of a government message to the reader. It appears rather that the information may be designed to lead entities into looking for the truth of factors that are stated in the material which never can be verified or to have scenarios presented which never come about, or as in the case of the question, have predictions made that don't occur, in order to discredit the messages or scenario given by Dr. Beter and other sources that pertain or relate to much of the material associated with or similar in nature to the material covered.

This Awareness indicates that an example being that there has been a considerable amount of speculation in the letters regarding the Middle East situation, much of which as suggested, came from *The Spotlight*, and other similar sources. This Awareness indicates that it appears there is a considerable amount of, if not plagiarism in the sense of infringement on copyright. at least there is infringement on the plagiarism of ideas. This appears to be more for the purpose of gathering information to peddle, to inform and to sprinkle with the entity's own version of what is happening.

It is as though the entity is promoting certain point of view and uses information from various sources to carry her point of view. This Awareness indicates that *It* does not actually see government involvement in the sense of a strong propaganda or disinformation projected being involved in this. *It* does see more of a commercial effort on the part of those involved to present information which they value and to add personal opinion to that information.

The plagiarism appears to be a kind of gathering of material from sources other than original or authoring the material in order to promote opinions they feel are valid, or ideas they perceive to be as valid. This Awareness indicates *It* sees this information as being a kind of reflection, an action of reflecting material from different sources to the reader with some alterations included.

This Awareness sees this as having some error and some accuracy, but being of such a nature as to give a different perspective for those who want to have different ways of looking at a situation. It appears that many of the assumptions and much of the conclusions given in these writings will be of little real value in the final outcome, but there can be considerable value in helping entities to explore different concepts or different ways of looking at world situations that are covered by this newsletter.

This Awareness indicates that the fact that it can lead entities into concluding there is nothing to the scenarios that are presented may hinder the receptivity to organizations and publications that have been used, such as the *Spotlight* or Dr. Beter, or other sources, but this Awareness suggests this does not appear to be a great concern. This Awareness indicates that generally, it appears the information as having considerable amount of interesting and newsworthy viewpoints, many of which may be valid, many of which will be stimulating to entities in their evaluation of world affairs, and *It* sees little harm in the material presented.

*It* does suggest you not take it too seriously, because there is likely to be a great deal of mere opinion that is passed on as truth. This Awareness suggests that it does serve as a kind of source for reflected information from the *Spotlight* and from Dr. Beter, through the reflective lenses of an entity who you might say is attempting to do your thinking for you; that you might find yourself being able to do this thinking better for yourself by familiarizing yourself with the Dr. Beter information and the *Spotlight* and other information, and applying that material to current affairs.

This Awareness indicates that many entities could also benefit from getting copies of the Mae Brussell material; that some of this is still available; this entity having covered much of the hidden non-printed or nonpress material, material that was not printed by the controlled press.

#### QUESTIONER:

In a memo to the membership sometime back, I recommended a particular issue of *The Phoenix Journal* because it went into how the bankers were involved in the Middle East situation. Other issues that have come out since also cover some of that, but the material to me was really confusing because it was putting out so much negative and paranoid stuff all at one time, and my first feeling was that it was sort of like the disinformation campaign put out on UFOs; that there was a lot of truth mixed in with a lot of other confusing information.

#### COSMIC AWARENESS:

This Awareness indicates that it appears that the entity herself is gathering information from various sources and attempting to compile it all together without fully understanding the entire situation. It appears that she is presenting the information without first becoming familiarized enough to know fully what she is talking about.

This Awareness indicates that this can be done, but it leaves the material in a kind of disorder that does not sit well with the reader; that part of the reason for this confusion is that the entity is trying to get the information out quickly and often needs to draw from different sources to get a compilation of material. This, of course, may be the result not of the entity's own efforts, but of whoever provides her with the information. Perhaps they are attempting to compile the material too quickly.

#### 17. (FOLLOW-UP QUESTION):

Another aspect of this is covered from this note from Sally F., in California. She writes: "Hi Avaton and Vikki! I sent for the August '90 issue of the *Phoenix Journal Express*, as you recommended in your Sept. 3 memo. The material rings very true, but I would like Awareness to comment on this source. It's so frequently so very condensing to the reader. I do not see what is to be served by this approach. I'm disturbed because I think there's a lot of Light workers who want constructive spiritual guidance and a little hope. The tone of the *Journal* makes me wonder where it's coming from!"

#### COSMIC AWARENESS:

This Awareness indicates this appears to be a common feeling in regard to the information; that it might be of benefit to write this information to the editors of the newsletter so that they too can determine how they might better please their readers. That perhaps they have not been given feedback to the degree necessary to alter the general tone.

#### QUESTION:

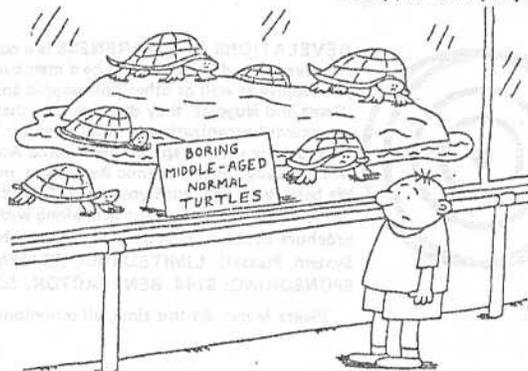

These *Journals* evidently are put into booklet form when there's enough of them, and some of the information, when you read it, looks like they're talking about current stuff, but then there will be a reference, for example, to something that raises eyebrows like "there are 30,000 Chinese troops on the border of British Columbia," and that makes me think of information given by Dr. Beter years ago, but this journal makes it look like this is what's happening right now, so there is some confusion in some of the way they present this information.

#### COSMIC AWARENESS:

This Awareness indicates it appears there is a greater desire to sell the *Journal* than to present the facts. It is much like a tabloid that does not research stories for their present value and validity. This Awareness indicates that much of the information given by Dr. Beter in the past still has value, but some of the details and statements in the past would be totally out of time with present realities and such statements could cause entities to have considerable misinformation and to make fools of themselves or to act or react based on false information, or outdated information in such a way as to cause them embarrassment or loss and damage.

This Awareness indicates that it is dangerous for this publication to write such statements as that, for entities could file suit if they were damaged by the information of the publication in to doing something as a result of that information which left them damaged. This Awareness suggests it would be valuable for entities to write and make suggestions to this publication that there is some hazard in giving false information.

## HAVE DINOSAURS EVOLVED INTO ET TYPE ALIENS?

### QUESTION:

Iris N. sent in a clipping from what looks like a tabloid, with the caption: "Are Dinosaurs Visiting Earth?" I'll read. "Had dinosaurs not died out 65 million years ago they would have evolved into big-brained big-eyed creatures, says leading Canadian Paleontologist Dr. Dale A. Russel, who created this model. The creature strikingly resembles space aliens described in many sightings and raises the question of whether dinosaurs continued to evolve on other planets and today are visiting earth aboard UFOs."

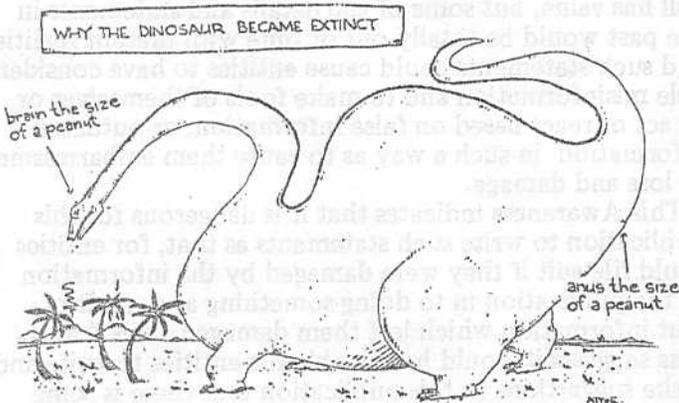

And it showed a picture of his model, looking very much like the ET character in the Spielberg movie. Is there any truth to this article?

### COSMIC AWARENESS:

This Awareness indicates that he is presenting an hypothesis and therefore it is not intended as the truth. It simply, other than to say that if this had occurred then this would be the case, in which the answer would be that the hypothesis is correct; if these dinosaurs had evolved, they could have developed into this type of appearance. They need not necessarily have developed in that type of appearance however.

This Awareness indicates that the appearance given as that which relates to an appearance equating very closely to some of the alien features and could be an attempt by this entity to suggest a Reptoid ancestry for aliens; that in this sense, and under some conditions, the entity is correct, but this Awareness does not see that reptiles on earth have evolved into the creature that he has presented in the picture.

For more on dinosaurs, please refer to 'Revelations of Awareness' No. 86-4 (Dinosaurs: Have We Seen the Last of them?); \$3.00 from CAC.

## Are dinosaurs visiting Earth?

HAD DINOSAURS not died out 65 million years ago, they would have evolved into big-brained, big-eyed creatures, says leading Canadian paleontologist Dr. Dale A. Russel, who created this model. The creature strikingly resembles space aliens described in many sightings and raises the question of whether dinosaurs continued to evolve on other planets and today are visiting Earth aboard UFOs.

...How to bring love into one's life?

## HOW TO CREATE A VACUUM IN ONE'S LIFE

( Casting Your Bread Upon the Water )

### QUESTION:

J.Y. in Oklahoma has a rather strange question: "I would like to ask," he says, "how does one create a vacuum in one's life? Say, like a single person who needs to be married; how to create a vacuum in one's love life, so it will be filled?"

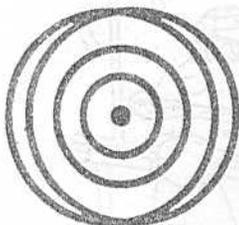

### COSMIC AWARENESS:

This Awareness suggests there is the need in regard to Huna philosophy, there is always a need to give up something in order to create a vacuum which can then allow you to feel the right to receive something in return for what has been given. This is also the concept of giving away something or sacrificing something in order to be deserving of something else. This Awareness suggests that if you want love in your life, then you would need to give away the love you have, give the love to someone else without strings being attached, for if you attach strings, you are not really creating a vacuum. You are fishing. This Awareness indicates that the concept of casting your bread upon the water means letting go of the bread, giving it away. The concept of casting love or giving love does not have room for giving traditional love or giving love with the intent of getting more love back.

This Awareness indicates that when you give love, you cannot give it with the psychological plan or intent that you are giving your love to this person upon the condition that this person returns it to you, and you cannot give it even with the hope that the person will return it to you. You simply give it, and then you accept whatever comes from the gift, if there is anything at all returned.

This Awareness indicates you may find yourself expressing affection or giving service or giving help to many different people long before you find one who returns it in a way that satisfies you so much that you want to live with the person thereafter.
