the MEDICAL CONSPIRACY

(AND SOME PREDICTIONS OF THINGS TO COME)

HOW THE MEDICAL CONSPIRACY IS SLOWLY CHOKING OFF ALTERNATIVE APPROACHES

.. TELLING A FRIEND TO DRINK HERBAL TEA COULD LAND YOU IN PRISON!

(CAC General Reading, July 21, 1991)

OPENING MESSAGE:

This Awareness indicates that along with the political changes that are being brought forth during this decade, in which many of the freedoms are being taken away, is also the changes that will affect entities in terms of their health care. This Awareness indicates that there are already efforts on in many of the states to curtail any alternative type of health-care, particularly dealing with diet and nutrition, wherein for example, the state of Ohio had a dietician's law passed which forbids anyone other than a licensed dietician to suggest what another entity might do to improve a health condition. This Awareness indicates it is so extreme, that even to suggest that a person go home, drink water, and go to bed, could be construed as practicing medicine without a license.

This Awareness indicates that there have in fact, been cases in which entities have been sent to prison for simply talking in a restaurant to a friend and being overheard by someone who is in the dietician's group, or who enforces the law; that to tell someone to drink a certain type of herbal tea, or to take certain types of medicine, or use some vitamins, becomes an illegal act, punishable by imprisonment.

This Awareness indicates that it is a kind of tyranny or Gestapo-like organization in that state which controls the alternative approach to health so that only the AMA pharmaceutical approach as sponsored by themselves and the dieticians are allowed to operate. It creates for them a kind of exclusiveness that shuts out any choice of health-care approach.

This Awareness indicates that this is also mirrored on Federal levels, by efforts to make it mandatory for all products to have a drug code, whereby even things that have not been classed as drugs, but things that have been considered as foods or spices, may, in the near future, be given a drug number and reclassified as drugs. For example, pepper, or cayenne, or garlic might become numbered by the Federal drug and food association, to claim these foods are drugs, so that anyone who suggests you use garlic, could be jailed for practicing medicine without a license.

This Awareness indicates that this is an attempt by the medical profession, the AMA, which is but the practicing arm of the pharmaceutical companies in dispensing their pharmaceutical drugs; it is an action of the AMA and the drug cartel of the pharmaceutical group, to corner the market on health care, and to make anything else illegal.

GH3 Declared a "Quack Medicine"

This Awareness indicates the anti-quack laws that are also being passed may soon prevent entities from having some of their favorite health products taken from the market. The World Health Group that promoted GH3 during the 80s was challenged and went to court, and won the case over the FDA over the right to continue marketing GH3, but there is still an effort to classify GH3 as being a fraudulent product and those who sell the products as being "quacks". This in spite of the fact that the Rumanian government for 50 years has promoted GH3 to factory workers and to people all over the nation, to the amount of 40 million persons being served their government sponsored GH3. It is such an absurd assessment to claim it is a quack product when it has been tested for 50 years on 40 million people with satisfactory results shown in the country of Rumania alone, and has been widely used throughout the world during this time.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'Indicate' and 'suggest'. Herbs Like Ginseng are reclassified as "Drugs"

This Awareness indicates that likewise there is further effort to remove traditional products such as ginseng, ephedra, echinacea, herbs which have been used for hundreds and thousands of years, and have been tested as beneficial to human consumption and health; there is the effort to remove these things and make them prescription drugs, dispensable only by medical doctors.

This Awareness indicates that this appears to be a trend that is to increase and become more focused in the coming years as the AMA attempts to close in on the market, eliminating much of the alternative health-care services.

Enzymes Beings Removed from Market

This Awareness indicates that one of the important elements in good health is that which is known as the enzyme. This is another area which is being targeted by the Food and Drug Administration. The effort will be to take all enzymes off of the market. That when this occurs, entities will begin to feel the real health problems increase, for enzymes are little known helpers for good health. This Awareness indicates that it is especially of concern in today's world when the enzymes in plants and fruit and vegetables being sold at supermarkets are being destroyed through irradiation, and those enzymes which are found in foods that are canned or processed are destroyed by preservatives.

Why Irradiated Fruits and Vegetables Can Harm You

This Awareness indicates that for entities to fully understand this, you must realize that enzymes are what make fruit or vegetables rot. When a banana begins to turn black, that is from the enzymes working in the banana. When fruit or apples begin to have bruise spots, brown spots, and begin to rot, it is the enzymes break-down the apple that cause the fruit to rot.

When entities irradiate fruit to prevent this rot, they are essentially destroying the enzymes in the apple or fruit or banana, so that as you eat this fruit and it enters the body, it does not digest properly, unless your body has enzymes to break it down. This Awareness indicates that in the past, entities could keep their enzymes high by eating fresh fruits and vegetables, but now the fresh fruits and vegetables are having the enzymes destroyed before entering the body, and when the body is filled with preservatives, which destroy the enzymes of the body, the fruit and vegetables are not digested properly.

Why Men Get Pot Bellies After 40

This Awareness indicates that people over the age of 40 begin to lose their enzymes and this is one of the major reasons why such entities begin to gain a pot belly, begin to grow fat after passing the age of 40. Of course a lack of exercise contributes also, but when the body does not have proper enzymes and the enzymes in the body begin to diminish more and more as one ages, the chances of their processing food, digesting foods in their body is diminished, so that the food absorbed in the intestines may just lie there and not be processed properly.

This leads to digestive problems such as gas, constipation, diverticulitis and other problems of having toxic waste in the body that is not moved; that this adds to increased chances for toxins in the body to build up to destroy the liver, the kidneys and other organs in the body, as these toxins lie there and are not moved. This Awareness indicates that this of course then leads to all kinds of health problems, which the doctors are willing to treat through operations or drugs dealing with the symptoms of these problems.

This Awareness indicates that it is a situation in which people will find the health condition of a nation deteriorating rapidly as enzymes are removed from foods and from the health food outlets from the shelves. This Awareness indicates that papaya normally is very high in enzymes that help in digestion; that papaya enzymes generally are very helpful in digesting beef and various kinds of meat. This Awareness indicates that as these fruits are irradiated so that the enzymes are killed, the fruit lasts on the shelves much longer, but the fruit does much less good in the body, particularly if the enzymes have been destroyed or greatly destroyed.

This Awareness indicates that it is a matter of degree. There may be some enzymes left, even after irradiation, but most of the enzymes in fruit are destroyed by the irradiation; also, that as entities become more aware of this problem, they may need to turn to finding foods

that have not been irradiated. The sources would be organically grown foods, locally grown foods and foods from your own garden. If you grow it yourself, you know it has enzymes.

Growing a Garden Could Save Your Life

This Awareness indicates that this may become a life-saving or health preserving factor that is absolutely necessary in the future if one is to remain healthy. It does appear that the trend now is to destroy the enzymes in foods, take enzymes off the market place or make them prescription only, and in this action, cause increased illnesses, disease and death among the masses, along with increased medical costs and problems.

This Awareness indicates that this is something to be aware of, to watch for, to concern yourself about, and to not forget, even after several years, for the problem will worsen as time goes on, until these conspirators are thrown out of power by the masses of people. This Awareness indicates of course, the masses are more likely to go along, to get along and take their lumps, take their diseases, take their operations, give up their life savings to their doctor, whom they trust, without realizing that they have been again conned out of their life savings and their life energies.

Remember: "Question Authority"!

People tend to follow authority to the gas chamber without questioning, or follow authority to the grave, to the operating table, or to the poison trough if told to go there. This Awareness indicates that people are not much different from those who followed Jim Jones, if they see the authority figure, trust the authority figure and do not think for themselves or have suspicions about what authorities are doing.

This Awareness indicates that in the 60s, there were posters and bumper-stickers that said and warned: "Question Authority!" This Awareness indicates there were many who believed those bumper-stickers were terrible and objected greatly to such slogan. This Awareness indicates that these people who refuse to question authority, but who think you should always obey authority, will be the most likely candidates for the early stages of decimation when the full program is started. They would have been eager to get in the front of the line at Auswitz and the other death camps.

IS THE A.M.A. PART OF THE 'GLOBAL 2000' PLOT?

(FOLLOW-UP QUESTION):

Are the entities promoting all these laws to withdraw herbs and natural material from the market; it's almost like they're part of that sinister "Global 2000" program.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that there are certain entities in higher echelons of the medical profession who know what is going on. Most of the doctors are not aware. They are simply educated in the schools, and the schools are told what to teach, and the schools are teaching doctors how to use pharmaceutical drugs, and in the recent past, schools did not teach doctors much at all about nutrition, and now, the medical profession, run from the higher echelons, are concerned because people are turning away from the AMA allopathic medical system and going toward natural healing methods, using diet, food or herbs to attend the health needs rather than turning to the drug pushers of the AMA.

This Awareness indicates that therefore, much business, much of the business of death and dying is being taken away from the AMA and many entities are not getting sick enough to turn to the hospitals, surgeons and drug dispensers of the AMA, and these entities look at this as money being lost. This Awareness indicates

that when an entity can spend two thousand dollars on chelation treatments to have the arteries and veins cleaned of obstruction, as opposed to spending fifty thousand dollars in getting a bypass, taking a vein out of the leg and installing it somewhere in the chest in hopes that the blood will continue to flow to the heart, when this two thousand dollar preventive medicine is available as opposed to the fifty thousand dollar bypass operation, the medical profession can easily become angered by these preventive health care approaches.

This Awareness indicates that time may be growing short for entities to have any personal control over their bodies, over their health, if these entities continue to chip away at your health choices, and yet, the masses, like sheep going to slaughter, or Jews going to the gas chambers, still obey the voices who warn against quacks and pretend they are the patron saints of health care, as they whack away at the arteries and veins, taking one from here, replanting it there to give a little more time to a clogged-up body.

Some Chiropractors Now in Bed with AMA

This Awareness indicates that only a miracle in the field of awakening of consciousness will bring humanity to a turning point. There has been some efforts to promote freedom of choice in health care through an amendment to the Constitution, but the efforts appear so far not to be strong enough. This Awareness indicates that chiropractic doctors recently won a Supreme Court decision against the medical profession which had labeled them as quacks and received public apology for such labeling, but now the chiropractic doctors, being accepted in the medical field of orthodox medicine are turning against naturopathic and alternative health medicines as though they are now accepted in the elite group and cannot slum around with those who are unacceptable.

This Awareness indicates that when one is outcast by snobs and then is brought in, one becomes a snob himself, and looks down on his old friends. This Awareness indicates that this is too bad, because whereas chiropractic medicine has a long history of working hand in hand with naturopathic medicine, they now appear not so close, and yet, many entities still trust chiropractic doctors and will find it confusing when chiropractic doctors speak against other naturopathic and homeopathic doctors.

Healthfood Store Calumny in Ohio

This Awareness indicates that the medical profession, in promoting the dieticians bill in Ohio, which prevents health practitioners from recommending vitamins or minerals, even those who have had a lifetime of study from suggesting vitamins and mineral use, approached the health food stores in the state and made a deal with them that they would let them continue to sell health food items and vitamins and minerals, even if the bill passed. These health food store owners saw this as a good way of getting rid of their competition, the people who were dispensing vitamins and minerals to their peers, who were giving them nutritional counseling, and thus, they agreed to work with those dieticians, the licensed dieticians to rid the state of nutritional counselors.

Now the health food store operators have their products, but there is no one in the field to advise entities on what products they need and the law is working to make it illegal for products to carry a name that would imply its purpose, thus, a product called Energy, or Nrgy would no longer be allowed, because the name implies its use, and thus, it is an implication through the name of what the product is for. This is seen to be an issue, and many of the products manufactured will not be allowed to carry a meaningful name, because it is akin to prescribing the product for a purposeful use.

"This Awareness indicates that the entity then, who will be entering the healthfood store looking for vitamins or minerals or combinations that will solve the problem, such as eye care, will not see the name on the bottle, but will see something that is totally meaningless, such as 428, or NXZ, and the name, having no meaning, will require that the entity approach the store owner and ask: "What is this for?", or "What can I get for my eyes?"

The store owner is not allowed to prescribe, and the bottles on the shelf do not say what the product is for, and therefore, the entity is lost and has no way of knowing what to take for his vision. Thus, in time, these healthfood stores will find customers no longer coming in because they do not get, or have any information. The only way they could use the products in the stores would be to study the books, the use of various products, the use of various herbs and vitamins and minerals and then look in the store for bottles that contain those herbs, vitamins or minerals.

This Awareness indicates it is all a plot to wipe out alternative medicine, alternative health-care systems. That only when all of this has been accomplished will the masses become aware of having been cheated, and realize that they have been duped and swindled and then it will be too late. This Awareness indicates that if any of you hear of, or know of, or become aware of health-care bills that promote the right of entities to choose their form of health care, it would be advisable to alert the masses, to alert all groups, to alert your fellow members, so that each can support his or her interests in the bill.

This Awareness is not saying that you should vote for the bill, but rather that you should be aware of it and vote according to your interests. This Awareness must add this comment because being a non-profit organization, there is no allowance for lobbying and this Awareness is not lobbying. It is simply informing entities that they should be aware and vote their conscience on such a matter as it may come up.*

*Ed's Note: the latest of these atrocities from our AMA brown-nosing sycophants in congress is a Draconian, police-state type bill (H.R. 2597) pushed by Representatives Henry Waxman and John Dingell, two of the most powerful members of congress. If passed, this bill would force all amino acids off the market, Coenzymes, germanium, natural herbs and over 200 other healthfood store items. It would enable the FDA to harass, bankrupt, and pursue criminal charges against every healthfood store, nutrient product distributor, physician, chiropractor and nutritionist in the U.S. It would give the FDA the power to impose penalties up to \$1 million for each act that violates any provision of the Food, Drug and Cosmetic Act. The bill would give the FDA the power to institute 24-hour electronic surveillance of any healthfood business and to issue subpoenas to force testimony and the production of records from any person in the healthcare industry at any time, for any reason at all! You also could be charged with a crime for obtaining or sharing information about life extension therapies and nutrients. Magazines such as "Longevity" could be banned, you could be charged with a felony crime with such information in your possession. Even CAC could be forced out of business because of the health information we have published over the years which is counter to the AMA establishment. The Life Extension Foundation, Box 22910, Hollywood, Fla. 33022, is running ads calling H.R. 2597 "the greatest threat to freedom in healthcare in U.S. history!" They suggest you call or write to them for info on how to stop this incredible bill. They will send you a summary of the bill, a list of every member of Congress, including addresses, phone numbers and fax numbers, plus postcards in protest of the bill to mail to those in Congress. Call toll-free: 1-800-841-5433.

In regard to chelation therapy sources, please contact American College of Advancement of Medicine (ACAM), 23121 Verdugo Drive, Suite 204, Laguna Hills, CA 92653. Phone (714) 583-7666. Also recommended is the booklet: "The Healing Powers of Chelation Therapy - Unclog Your Arteries An Alternative to Bypass Surgery" by John P. Trowbridge MD. Price, \$3.95 plus \$1.00 postage, available from C.A.C.

For a real indepth look at the entire medical conspiracy, we suggest you read the 350 page book, "Murder by Injection: The Story of the Medical Conspiracy Against America", by Eustace Mullins, published by the National Council for Medical Research, Box 1105, Staunton, Virginia, 2440. This book is also available from CAC. Current price is \$15 plus \$1.50 postage. This book will really open your eyes!

JAY ROCKEFELLER'S HEALTH-CARE PLAN

FOLLOW-UP QUESTION:

There are stories appearing in the media that Jay Rockefeller is planning to throw his hat in the ring and run as a Democrat against George Bush next year, and they're beginning to think he might have a chance because his major thrust is going to be to tell the American people that he wants to get a national health plan passed, whereby everybody in the country would be able to have this health hospitalization and insurance. The fact that this is a Rockefeller raises eyebrows, but does Awareness see this as a possibility, and if so, would the health plan he is plugging be strictly AMA oriented?

COSMIC AWARENESS:

This Awareness indicates that this entity does appear to be one who is considerably enlightened with a social conscience. It appears the entity as having an interest in the welfare of the masses. This Awareness indicates that it appears the health-care plan would tend to be such as would be acceptable to the AMA, but it appears that it is not intended as a plan to be exclusive to AMA interests; that this of course would change if by that time the AMA interests are solidified by laws, in which case the plan would not have any choice but to abide by those laws. In other words, an insurance plan is not in itself able to dictate or direct people's right to choose. It can allow, however, for alternative health-care plans if these are legally acceptable.

This Awareness indicates that there are seen probable influences in this that would assist entities in some choices of health care that are not exclusively AMA in nature, but it is not clear that the plan will work out that way, if the AMA manages to gain exclusive control otherwise.

ED's Note: after this reading was given, Jay Rockefeller announced he had decided not to run after all. Maybe he checked out the opposition forces and figured it was a losing game.

ALL INSURANCE PLANS KOWTOW TO A.M.A.

FOLLOW-UP QUESTION:

I've been told that most of the insurance plans of employers, particularly like the State of Washington Group Health and so on, that alternative medicines like naturopathy, homeopathy and even chiropractic does not come under these plans, and there's a lot of people we've talked to that would dearly love to get chelation, for example, but they don't have the money and their insurance plan does not cover these alternatives.

COSMIC AWARENESS:

This Awareness indicates this is true; that in most cases the insurance companies deal only with AMA approved medical techniques. There are some that allow entities to have a choice of chiropractic and some more rarely allow for naturopathic health care, but these generally are limited in the naturopathic areas as to what is covered.

(FOLLOW-UP QUESTION):

So it would probably be a good idea for people to write this entity Rockefeller, if he is going to go on the stump, to include these alternatives in his health plan, would it not?

COSMIC AWARENESS:

This could be beneficial to indicate an influence and interest in this direction.

THE WAR AGAINST IRAQ—WHAT KARMA IS INVOLVED?

(If You Spoke Out Against It, Did You Accrue Any Karma?)

...More On the 'Law of Love' & 'Resist Not Evil'

QUESTION:

A question from M.S. in Florida. He writes: "The decision to commit the United States to wage war on Iraq has resulted in mercifully few American casualties, but a staggering number of Iraqis killed and wounded. Accounts run from 100,000 to 300,000 dead, untold numbers bulldozed into mass unmarked graves in the desert. A UN team reported that Iraq has been reduced by the 110,000 Allied bombing sorties to a "pre-industrial level" and experiencing catastrophic conditions. The war left over 600 oil wells burning in Kuwait and a huge oil spill in the Persian Gulf. The question is: What sort of karma is involved in this situation? Can a whole country, the United States, take on karma for the actions of its military forces, or is the karma strictly at the individual level? If, in fact, Americans as individuals took on karma due to the war, do those who supported the war take more negative karma than those who actively opposed it?"

COSMIC AWARENESS:

This Awareness indicates that any time entities support an action which carries karma, the entities supporting that action will experience a portion of the karma for the action; that if the action is good, those who support the action will receive a portion of good karma. If the karma is negative, those who support the action will receive a portion of negative karma.

FOLLOW-UP QUESTION:

Can a whole country take on karma for the actions of its military forces?

COSMIC AWARENESS:

To the degree that they support those forces as individuals. If one individually supports the actions of another, or of a group whose behavior creates an action that brings about great negative karma and the individuals supporting wholeheartedly that action, they receive a degree of that karma, according to the intensity and support given.

That likewise, the entity who resists or stands against a negative action in accordance with the degree of resistance to the negative action, such an entity would avoid

karma. This Awareness indicates that this gets into some⁶ confusion in regard to terminologies, such as "Resist not evil." This Awareness indicates that the *Law of Love* is not speaking of letting a negative action continue unresisted by yourself when that negative action is damaging to others. In other words, if one is to stand by and watch while others are violated, they could say: "Well, I'm simply resisting not the evil that I see. I'm following the *Law of Love*."

This Awareness indicates that this is not what the *Law of Love* intends in that phrase: "resist not evil." What is intended in that phrase is: "Resist not the oppression of evil upon yourself. If evil seeks to oppress you and you turn the other cheek, it has less power than if you resist it." **Dealing with Verbal Abuse: Turning the Other Cheek**

This Awareness indicates that this is still another of the general rules. All general rules have exceptions. You must realize that this statement of Jesus: "That I say unto you Resist Not Evil; that you turn the other cheek;" that this statement was in reference to a principle commonly found in martial arts, wherein a force is powerful, too powerful for you to resist or deal with; rather than confronting it directly, you deflect it.

This Awareness indicates that if someone lunges at you, rather than resisting the lunge, you can step aside and let the lunge go on past you. There are verbal ways also. If someone verbally attacks you, rather than shouting back in a reflective manner, you can deflect the verbal attack by saying something that totally negates the argument aimed at you. This is a principle that has been highly developed in martial arts, in the area of action, but in the application as given by Jesus, where you, for example, are slapped on the one cheek, for purposes of humiliation, by turning the other cheek, it is a form of defiance without resistance. You defy the entity by letting the entity slap the other cheek also, as though it does not matter.

Clarifying the "Law of Love"

This Awareness indicates that it is not a technique that necessarily solves all the problems; it was, however, a technique that Jesus chose as being worthy of consideration, and therefore, it was promoted. It is a way of dealing with someone's anger without becoming angry in response to that anger. Thus, when someone strikes you, instead of jumping up and striking back, you allow them the opportunity to strike again. This Awareness indicates that this has not been clearly distinguished in the *Law of Love* or in the phrasing of Jesus when he spoke: "For I say unto you that you resist not evil. If one strikes you on the cheek, that you turn the other cheek."

This Awareness indicates that it is a principle that allows entities to retain a certain amount of dignity rather than become reactive. It allows one to maintain a control in a situation, in which someone else seeks to control it. This Awareness indicates that it does not necessarily solve every problem. For example, if you are being mugged in the street and the mugger wants to destroy you and your family in order to rob you and express his or her hostilities to you or to society, you may turn the other cheek, only to find that it riles the entity all the more, and the entity may then resort to even greater violence, or violence against your child or mate.

Sometimes You May Need to Fight Back

This Awareness indicates that you might find it essential at some point, or equally valuable at some point to reply in kind to the entity's use of force, if you have the opportunity to disarm the entity for example. This Awareness indicates that it is somewhat hazardous to create rules that can be restrictive or misapplied. This Awareness indicates that the *Law of Love* may turn the other cheek, but it may not be always the only practical approach in every given situation, to be loving in every situation.

When there is a true evil, in the sense of a being who has no compassion, who has no desire to do anything but cause pain, you may find it essential for the sake of loved ones, if not for yourself, to take some means of protection, protecting those loved ones, or protecting yourself. That to "resist not evil," if taken literally in the extreme, would mean you let others trample on you without ever doing anything about it. This is not the intent of this phrase.

The intent is not properly expressed through the phrase. The phrase being more of a poetic dramatic tone rather than to be taken literally. It is expressed poetically and dramatically so that entities understand it, so that it makes an impression that cannot easily be forgotten. This Awareness indicates that it is based on the realization that most so-called evil is simply ignorance, and that by resisting it, you make it stronger and give it strength, and by not resisting, you can often avoid intensifying it, and can often modify and diminish the strength of the ignorance.

WHY ARE THE KURDS HATED AND MISTREATED?

QUESTION:

J.S. in California, writes: "Please ask Cosmic Awareness about the Kurds. What is their karma as a group entity? Why are they so persecuted and reviled by so many others nationally? As we are faced daily with images of their pain and misery, will this work an alchemical change upon the world's consciousness, especially that of the United States?"

COSMIC AWARENESS:

This Awareness indicates that these entities have lived in these mountainous areas for many centuries. They had roots in Southern Turkey and Northern Iraq before these borders were drawn. These entities see themselves as part of the land, and have tribes within their culture; that these are closely associated with the Aramaic people of the area, that which was the culture of Jesus. The Aramaic people in that area being present, historically, over periods of time, down through the ages, in this ancient area once known as Persia, became later known as Kurds, through the influx of others in the general region as they came in and intermingled with these Aramaic entities.

This Awareness indicates that the influence of the ancient Aramaic culture may be found within the culture of Kurds, including language, terms, and also some religious concepts and practices; that these entities have long had a history of developing their own autonomy and culture and keeping a separation from the cultures of others around them. The Turks have persecuted them historically, and likewise, those in Iraq.

The border lines formed in the area today still have not broken their culture, though some have lived in Turkey and some have lived in Iraq. There are also some in Iran. This Awareness indicates that in so far as U.S. karma in regard to the Kurds, there has been some sympathy and awakening of compassion in the U.S. regarding these entities that calls for assistance to them. It is as though they are innocent victims of the war that was fought recently.

In fact, they were already victimized before the war began and only the circumstances of the war have altered their situation somewhat, bringing to a head much of the conflict that previously lay hidden and dormant or erupted occasionally. It is as a volcano, waiting to erupt or smoldering on occasion, wherein these entities were persecuted, but not as severely as after the Gulf war. The persecution increased after the Gulf war.

This Awareness indicates they have become a kind of symbol or a reflection of Saddam Hussein's cruelty and sadism toward these people. Their plight as causing entities to become more desirous of ridding the world of Saddam Hussein's influence.

ARE KUWAIT OIL FIRES CAUSING EARTHQUAKES?

QUESTION:

D.C. from Babylon, New York writes: (this was dated May 1st, 1991) "I just finished watching the noon news and noted that Alaska had an earthquake sometime between yesterday and today, measuring 6 point something on the Richter scale. That makes 4 earthquakes that I know of in one month. The first was in Connecticut and upstate New York about 3 weeks ago, a small one, the second in Central America last week, one in Russia a day or two ago, and now this one, or should I say, the most recent one. I'd like to know if no one else has asked Awareness if these earthquakes have anything to do with the oil that is being spilled and burnt in Kuwait? I feel that oil is a natural lubricant for the plates of the earth and, in fact, helps keep earthquakes from happening."

COSMIC AWARENESS:

This Awareness indicates that there is not seen any direct connection between the oil being spilled and burnt in Kuwait and the earthquakes that have occurred during that time period; that these appear to have other triggering forces causing them. This Awareness indicates that the oil can, in some instances when near fault lines, be an influence on the triggering of earthquakes. When the oil is taken from a particular area in which there is a fault line it can help to cause the plates to slip, if the oil has been removed. In some cases, oil companies replace the oil with water in an effort to keep this from occurring. This Awareness indicates that it is not a great or major factor in most earthquake occurrences.

ARE KURD CAMPS REALLY FOR NWO DETENTION?

She had one other question. She writes: "Also, I have a strange feeling pertaining to these camps being set up for the Kurds, which are to be run by the United Nations forces. Are these camps actually the beginning of a type of prison camp for the New World Order?"

COSMIC AWARENESS:

This Awareness indicates that this is not the case in regard to these Kurds, but there is some information or data being used in regard to the camps as to material, data or information that can be applied to prison camps in the event of similar use elsewhere, thus, the data derived from the logistics aspects of these camps may be reexamined for future use in other similar camps, including prison camps.

ARE DETENTION CAMPS BEING BUILT IN NATIONAL FORESTS

QUESTION:

Speaking of prison camps, there are articles I've seen recently that talk about the Forest Service, particularly in Washington and Oregon and Idaho I believe; that deep within these national forests they are clearing, along with some contractors on some occasions, I believe 40 acre tracts, and they are digging everything out of these and putting up cyclone fence at least 8 feet high or taller, and the fence extends under the ground 4 feet, and they claim that they're doing this to grow seedlings and to keep animals out. Does Awareness see this as the real intent of these places that the Forest Service is preparing right now in the national forests?

COSMIC AWARENESS:

This Awareness indicates that this appears to be the story that these entities were told and have been given in regard to these areas, and it appears that this will be the actual purpose, but that these also will have a potential second purpose if necessary or if desired in the future to serve as detention camps.

This Awareness indicates that there are contingency plans for these camps, or for these areas to be used as

7. prison camps, although they may never be used as such. That likewise, you may see some buildings such as schools, or other constructions that could allow the building to very easily be turned into a prison in some future scenario. These are not constructed as such by accident in this manner.

This Awareness indicates that quite frequently there are contingencies in these government programs and structures for potential future uses that would require only moderate changes to convert the project or construction into something of a different nature.

GEORGE BUSH'S RECENT HEART "FIBRILLATION"

QUESTION:

Several people have written in similar questions about President Bush. They write: "Guess you and many of your readers have the same sneaking suspicion I have. Bush's "fibrillation" might have been brought on electronically. Meanwhile, he has lost 10 pounds and has to rest every day, and Quayle is waiting in the wings. I guess Bush has become a liability now that "October Surprise" is out in the open."

Does Awareness see that Mr. Bush's recent heart fibrillation has any overtones as suggested in this letter?

COSMIC AWARENESS:

This Awareness indicates that this is seen as a possibility for the contingency planning in the event the October Surprise scenario becomes more prominent. It appears that this health problem was triggered by artificial means; the intention is not seen clearly. The questioner...the entity asking the question has expressed a concern that has a degree of validity, but that this Awareness does not see clearly at this time the absoluteness of this conclusion.

FOLLOW-UP QUESTION:

G.M. in New Jersey also asks about this. He writes: "Something that would be interesting to ask Awareness. Bush was sent to Bethesda under a phony heart problem, and we were threatened with a Quayle presidency. Presidential medical emergencies *always* go to Walter Reed Hospital. It is well-known that Bethesda is a mental hospital and place for problem leaders. The question is: What did Big Bush do to cross the powers? He recovered the next day evidently, so was he converted in philosophy or synthesized?"

COSMIC AWARENESS:

This Awareness indicates that there is a blockage of information on this. It is an area that contains what might be termed an element of danger to get too deeply into this at this time. This Awareness suggests that it does appear that the entity who entered and the entity who departed were two different entities. This Awareness does not wish to go into this more deeply at this time. The energies are not clear, and the energies contain warnings as to certain hazards for proceeding further in this line of questioning.

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that the membership has become quite observant in many areas. It is with considerable joy to this Awareness to see the way in which entities have developed over the years in

8.

their ability to look, to question, to perceive energies and events with a distinctive quality, seeing through the facade to the actual events behind the surface.

This Awareness asks entities to continue probing, questioning, thinking and observing, for there may come a time in which that kind of observation becomes critical in helping you to understand and move in the right directions, and this Awareness might not always be present through this Interpreter to assist you. This Awareness indicates that in some instances these entities are more insightful than is this Interpreter in being able to see the situation clearly. The Interpreter is in a position where he is not always able to respond to such questions without jeopardizing certain security factors and therefore, wherein the Interpreter cannot disclose information it is good that individuals have the insight to discover for themselves what is going on.

(The Law of Gratitude is given)

(C.A.C. General Reading, September 9, 1991)

THE REAL STORY BEHIND THE RUSSIAN 'COUP'

COSMIC AWARENESS: (OPENING MESSAGE)

This Awareness indicates that since the last of these readings in Olympia, in July, the world has witnessed a major event, involving the so-called 'coup' in Russia. This Awareness indicates that this as a shifting of energies that needs to be more clearly understood. This Awareness suggests that it is not yet finished in terms of the shifting patterns and that there are still potential reverses that can occur before this becomes a settled matter.

This Awareness indicates that in terms of what occurred, there are some hints that emerged in the news during the event, in which the general information tended to portray what became the recognized historical version, but wherein there were occasional bits of news emerging that did not seem to fit in the recognized version. One such statement coming out of the Republic of Georgia, that Gorbachev had set up the coup, was quickly dismissed as being an opinion with no substance.

This Awareness wishes to discuss briefly why this was stated and the substance for such a statement. It was not accurate, but there was some substance to the statement. It was not Gorbachev who set up the coup. It was, for those who recall the Dr. Beter scenario, it was the Skoptsis who were seeking to smoke out what may be termed Bolshevik moles within the government structure, and by getting these people to come out into the open, to rid the government structure of these Bolsheviks.

This Awareness indicates that these entities were still in the government structure and those Skoptsis who were aware of this devised this coup as a plan whereby they convinced different Bolsheviks whom they knew to be involved in the government that this was the time, and it was necessary for them to assert themselves, or they would never again have another chance.

This Awareness indicates that in some instances, these Skoptsis pretended to be part of the coup to encourage the Bolsheviks to make their move. They were also there to help stop the coup at the right time and make sure it did not succeed. That along with this effort by the Skoptsis was the intent and effort to assure that the Republics gained as much independence as possible and that the independence would assure democracy to those Republics.

Frustration for Bush's New World Order

This Awareness indicates that of course, the United States and Soviet Union leader Gorbachev, along with

George Bush, had an agreement to keep the Baltic countries and other republics from actually achieving independence if possible, in order to make it more certain that the New World Order could be formed with the least amount of difficulty. This Awareness indicates that had it not been for the Baltic states making efforts to find their independence, the New World Order would have taken place very shortly after the end of the Iraq Middle East war.

This Awareness indicates that this coup and the increased independence of these republics has delivered a damaging blow to the plans of the New World Order. You can look in the future for the United States to withhold support to the nations in and around, and having made up the Soviet Union, until that union is reestablished, until those Baltic countries and others who have sought independence are ready to go along with the concept of a union under the New World Order.

This will most likely be promoted through economic efforts, whereby these countries will not receive United States aid through the International Monetary Fund until they have reached certain agreements and the aid which will be given at some later date will only be given when it is clear that all of these countries are willing to give up some of their democratic independence in order to work with the International Monetary Fund and the New World Order.

This Awareness indicates that there is a strong determination that this New World Order be implemented all over and that none of the individual nations be able to stay outside of this order, and have any influence or ability to operate without entering into the order.

This Awareness indicates that it does appear that this will, in time, have its effect, even on these independent nations in the area surrounding Russia. However, it should be recognized that these countries in the area of Russia and Russia itself are only now emerging from 70 years of Communist totalitarian control and are not likely to want to give up that control to foreign powers, even under the name of New World Order.

It appears that Russia, and the surrounding nations will seek to find their own destiny and direction. There may be some efforts, even including physical and military conflicts. It does appear however, that the economic pressures may have the greater influence on these nations to sway them into this One World Government rule.

This Awareness indicates that there tends to be the growing belief in these countries that the West will rescue these nations with economic support. It appears that the economic support for these nations will have strong strings attached if it comes to them. It also is seen clearly that these nations could survive without Western help by using their own assets and by backing their currency, the ruble, or some new currency, with minerals such as their gold and silver, to give it a value that has worldwide recognition.

Russia Could Evade Bankers' Trap by Using Minerals

This Awareness indicates that this is the only other option seen other than to subvert the nations to the control of the International Monetary Fund which would set up the One World Government to administer and rule over these nations, essentially taking away their independence, much the way the independence in Western nations has been eroded by the banking factions of the Western World.

This Awareness indicates that in the Edgar Cayce readings it was suggested that the hope of the world would come out of Russia. This Awareness indicates that the only way this will be possible is if Russia and those surrounding nations maintain their independence through the use of their own monetary system being backed by something of value, namely the minerals, and other goods of Russia, and the nations associated with Russia.

By doing so, the currency then will have its own inherent worth and can be used on the world market for buying and selling and there will be no need to rely on Western banking efforts and agreements for loans to Russia in order to bring the economy of the Russian people and the surrounding nations into the world market place.

This Awareness indicates there is a common practice used around the world allowing script to be issued against stockpiled goods. This often is referred to as warehouse script which can be used in the place of money. The Russians can use this kind of warehouse script as currency for trade of goods in which the warehouse script is backed by minerals that have been mined and are stored in Russia.

This Awareness indicates that essentially, they already have this possibility as a means of purchasing goods from around the world. It appears they have not yet recognized this as a way of dealing with their financial problems. This is mostly because they have been entrenched with programming and education dealing with Communist concepts rather than capitalist free market ideas, which include trade and documents to substitute and represent commodities of value.

WILL RUSSIANS STARVE THIS WINTER?

FOLLOW-UP QUESTION:

There's much talk in the papers that winter is coming, and the Russians usually have severe winters and not enough food, and there is fear of mass starvation over there in Russia. Does Awareness see this as occurring?

COSMIC AWARENESS:

This Awareness indicates that it appears there are already offers for humanitarian loans and gifts to Russia to provide some help in feeding the people through the winter. This will not be sufficient to bring the economy to a reasonable standard of living, but it appears it will be sufficient to prevent mass starvation.

This Awareness indicates that much of this will come from other countries, particularly countries from the European community.

DID THE COUP FLUSH OUT ALL THE BOLSHEVIKS?

FOLLOW-UP QUESTION:

Was the coup successful in that it flushed all of the Bolsheviks out, or are there still some remaining?

COSMIC AWARENESS:

This Awareness indicates that it flushed out the major Bolsheviks. It led to the ability to find or locate those who were in lower levels whose energies supported the coup, or who did not resist the coup in such a way as to allow a list of suspects that had not been as clearly suspect previous to the coup. There are still some who have Bolshevik leanings who may be somewhat on the fence or not clearly decided in their political views.

There were also of course, many who simply sought security for themselves by staying quiet and not lending support or denying support from the coup.

DID THE COUP STRENGTHEN GORBACHEV'S POWER?

FOLLOW-UP QUESTION:

Does Awareness see that these events strengthen the power of Gorbachev, or in the long run, actually weakening it?

COSMIC AWARENESS:

This Awareness sees that within three years, the entity Yeltzin will be the leading force in the area and Gorbachev will have faded in terms of any great power that has been held. He may still hold some positions of significance, but will not be recognized as a world leader. This Awareness indicates that Yeltzin's era is just beginning.

ARE SOVIET NUCLEAR WEAPONS STILL A THREAT? (Diastrophism in 1993 to Make U.S. a Third World Power)

FOLLOW-UP QUESTION:

As the Soviet Republics are splitting, there's a continued question of the nuclear arms threat and those who control these thousands of nukes that are aimed at Europe and America. Does Awareness see any potential threat from their nuclear capabilities as these countries are dissolving?

COSMIC AWARENESS:

This Awareness indicates there is always a potential of threat. It does not see that there is any strong likelihood of the use of these weapons occurring in this decade; that essentially, the decade as that which will move in other directions. This Awareness indicates that the power of the United States is that which will not be diminished by nuclear attack, but by nature. That this is likely to begin to occur in 1993 as great earthquakes diminish the West coast, particularly in California, destroying much of the economy and the wealth of the nation. This can have great effect on the power

and prestige of the United States, and of Japan, who is heavily invested in the United States, and it will lead to greater proportional power in Europe as a result of the diminishing power of the United States.

Israel May Fight Jordan with no U.S. Help

This Awareness indicates that Israel also, by repercussion, will diminish in its power as the United States loses its economy and strength including its military and financial strength. This Awareness indicates that Russia, in the meanwhile, will become more powerful under the direction of Yeltzin, but *It* does not see any indication of war from the Russians toward the United States. *It* does see the probability of a Middle East war directed toward Israel when the United States is so weakened.

This Awareness indicates that *It* sees this as a result of an Israeli initiative against a neighboring country; it appears to be Jordan, which leads to a strong backlash against Israel with the United States unable to assist Israel.

New World Order Set Back a Decade Because of Earth Changes

This Awareness indicates that *It* does not see the future having a strong New World Order developed within this decade; it does appear that there will be some movement in this direction, but serious breakdowns through nature, and economic difficulties will bring about a great hindrance to any of such plans.

This Awareness indicates that the so-called New World Order may be established to some degree for a certain short period of time before the breakdown of structures from the natural and economic levels begin to also break down the order between countries and nations. This Awareness indicates that the European economy will be the victorious and strongest of the forces to emerge, with the Russian economies gradually growing in an alliance with Europe. Japan will diminish in its economic power.

WILL RUSSIA RISE ECONOMICALLY AFTER BREAKUP?

(A Major Spiritual Force Will Rise Out of Russia)

FOLLOW-UP QUESTION:

Does Awareness see Russia as rising in economic power, now that the dissolution is occurring?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates *It* also sees this as rising in spiritual influence and power; that the spiritual influence in Russia as that which will serve as a model for other nations around the world. That there is that which will create new spiritual philosophies, intellectual clarities that come from the Russian experience as it begins to unfold into its new freedom, and this will enlighten mankind spiritually as has not yet occurred on this plane. That the spiritual influence from Russia as that which is yet to be understood, but it will be a major force in the world of the future, particularly after the turn of the century.

THE NEW WORLD ORDER & THE ALIEN THREAT

("Project Grey Van" May Eliminate Opponents)

QUESTION:

Are the energies any clearer as to the real intent of Bush's New World Order? Are there any indications, for example, that the intent really is to unify the world against the potential Reptoid threat as an example?

COSMIC AWARENESS:

This Awareness indicates that there are some things that are extremely dangerous to discuss. That there appears to be a project on the.... This Awareness indicates there is that which is seen as plans to eliminate entities who are recognized as opponents to the New World Order; that these projects...there is that which

10. appears to be named "Project Grey Van," in which entities highly trained in quick combat techniques such as SWAT team tactics, are trained to enter into a town or city and locate those who are classed as opponents to the New World Order, and to exterminate those entities quickly and be gone within an hour or two from the city, moving from city to city in such a manner as to not leave much trace for local authorities to follow. The plan would be to claim these entities were involved in drugs and that it was part of a drug war, and to keep the information out of the news media as much as possible while eliminating any opposition to the New World Order in the United States.

This Awareness indicates that this implies, of course, that people who are speaking out against the New World Order could be placed on such a list. This Awareness indicates that it appears that entities need to be cautious in regard to expressions of opposition to this New World Order, or that entities need at a certain time to speak out or operate in such a manner as to alert the masses without the masses being overtly hostile and getting themselves into trouble or on a list.

If this list is long enough, large enough, of course the Grey Van operation would not be practical. This Awareness indicates that it appears the Grey Van operation of eliminating opposition to the New World Order would be of little value anyway, if the real cause of the New World Order to break down comes from nature, and this appears to be the direction that things will evolve in.

New World Order & Earthquake Both to Occur in Spring 1993

This Awareness indicates that it appears the natural forces disrupting this stability for the New World Order will be experienced close to the time that the major thrust for promoting the New World Order comes into being: in the Spring of '93. This Awareness indicates that the energies involved are not seen as being of a political nature, but of a geophysical nature; these being the energies that will disrupt violently the economies as well as the geophysical areas of part of California and will affect the infrastructure of the United States in such a degree as to suddenly set it back to the level of a Third World nation, which requires many years for recovery.

WILL THIS BE EDGAR CAYCES LONG-PREDICTED QUAKE?

FOLLOW-UP QUESTION:

Is this the famous quake that Edgar Cayce predicted by any chance?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that there will be certain portions along the shoreline, from San Francisco south, that will be inundated; this also to include a great portion of San Diego. The influence carrying even into Mexico and to a lesser degree into Central America. This Awareness indicates that the Northwest appears to be relatively safe from this except for the potential of some tidal waves that may hit the shores in lowland regions.

This Awareness indicates that there would also be considerable chaos in terms of exodus from the area and looting and panic that accompanies such natural disasters. The social unrest will have its further impact.

A Relected Bush Will Get Blame for Disaster

This Awareness indicates that the entity George Bush is seen as being relected, but as being unable to deal effectively with the chaos, and therefore, not having support from the masses at the time, or thereafter. It is as though the masses blame him for the work of nature, or hold him responsible to combat with nature and make things right. It is an unfair situation to the entity, but it is also the responsibility that goes with the office of being a leader, wherein the masses expect the leader to have answers and deal with all problems, even acts of God.

Will these major earthquakes be confined to the West Coast, or will they also occur in other parts of the United States?

COSMIC AWARENESS:

This Awareness indicates that this is seen as the most extensive of the earthquakes. There may be lesser earthquakes elsewhere. There are also seen lesser earthquakes in other areas of the globe. This will be the major earthquake of such proportion as has not been known in modern times, and will disrupt the status quo in terms of economics and power within the world of nations. It will remotely bring down Israel also, unless Israel wisely avoids antagonizing her neighbors during this critical time.

Otherwise, the rest of the world tends to benefit from the weakening of the United States in terms of economy, except for Israel and Japan. This Awareness indicates that other nations become proportionately stronger after the event and the economies of these nations become recognized as more stable, and therefore, benefit generally because of the weakening of the United States economy.

This Awareness indicates that in another sense, the whole world loses to some degree because of the loss of productiveness from this nation and from the repercussions of the earthquake.

ED's Note: For more information on the "Grey Van Operation", please refer to 'Revelations of Awareness' issue No. 91-8 (The Moonlight Scenario); \$3.00 from CAC.

In reference to earthquakes, this editor cannot recall Awareness going this far out on a limb with such a prediction; this could, in fact, be the long-predicted "Big One". However, Awareness has assured us many many times that the future is not fixed, and particularly in the case of earthquakes that it is the consciousness of the area which is the real cause of these events, and this consciousness can indeed be changed. In fact, it was Awareness Itself that informed us the Edgar Cayce quake, which was scheduled to occur some years back, did not occur because several Hippies living on the San Andreas faultline near Bakersfield, inadvertently moved the energies out to sea, over a long period of time, because of their daily meditations. There were many eruptions far out to sea, but they did no damage because they were not allowed to build up to any catastrophic point.

CAC has many members in the state of California, so rest assured we are going to stay on top of this 'prediction' by Awareness and will keep you informed as the time gets nearer. Do not, please, send in questions about this, at least not for a year or so, when the energies Awareness sees will be much clearer. The good news is that if I recall correctly, almost all of the predictions by Awareness of a negative nature never did occur, and sometimes angry readers would write to us saying "I told you so!" (Nuclear war was one of these predictions). Why they were mad these calamities did not occur is a mystery to me. However, those of us at CAC, having witnessed these 'predictions' over the years and the following non-occurrence of same, have a theory about all of this, which is: When Cosmic Awareness, through the lips of the Interpreter, utters a prediction, that very utterance puts that prediction into the mass consciousness where it is looked at and dealt with on various levels, physical and psychic levels. Once it is looked at and dealt with it does not occur. It is no secret that the geophysicists in California are predicting the 'Big One' within the next 2 or 3 years. Perhaps enough Californians will look at that prediction and through various means, such as meditations, will divert the energies before they are allowed to build up to such a crisis quake. Anyway, just because Awareness is now making the same prediction, don't get paranoid and make any foolish moves or decisions. Awareness's track record simply is not that good when it comes to making predictions.

Just stay tuned. We intend to stay on top of this one.

QUESTION:

Right now Israel is demanding the American taxpayers send them ten billion dollars in cash to help settle the Russian Jews that are coming into their country and so forth, and Mr. Bush is saying that he doesn't want to settle this issue for a few months, because he's afraid it would interfere with his negotiations with the other Arab countries, in reference to his New World Order peace plans, and Israel is sulking about this, being sassy and belligerent, and putting out new settlements into Arab territory, which it isn't supposed to be doing. Does Awareness see this situation of the expansion of Israel into other territories, illegally, using the Russian Jewish immigrants as an excuse or is it going to have a peaceful settlement, where the fighting amongst these countries down there actually comes to a halt and peace will occur?

COSMIC AWARENESS:

This Awareness indicates that it appears there will be conflict in the area within two years, in which the fighting will again occur on an increased level. That fighting may continue in its usual levels until that time. That by 1995 this will become extremely serious, leading to an outbreak of war and an invasion by Israel into Jordan, which will then reverse any peace efforts that have been formulated, whereby the neighboring nations of the Arab world will unite against Israel.

By this time the United States will be so weakened economically that it will not be able or interested in coming to Israel's rescue.

ED's Note: Here again Awareness is going out on a limb, However, this one seems more believable in light of what is going on. The day after this reading, one of Shamir's high cabinet officials arrogantly called President Bush "a liar and an anti-Semite," that Bush was creating "another holocaust" when Bush announced he would veto if the Congress went ahead and voted to give Israel all that money. This sounds like a new Bush to me, and it is possible he is trying to break the back of the powerful Jewish lobby, which quickly mustered over 1000 leaders and lobbyists to Congress to "demand" the money. (Can you imagine, a full battalion, 2 lobbyists for each member of Congress, racing up those Capitol steps, checkbooks at the ready, to bribe and remind the politicians of that heavy debt for past 'favors'.) The TV news showed Jewish pickets parading in front of the UN, the nation's capitol and other cities (within minutes!), while thousands of organized letter-writers were penning in their latest letter to the local editor complaining once again how poor little Israel is being persecuted. Letters and articles in the controlled media continue to issue the party line bull that there is no organized "Israeli lobby" and that all Congressmen think for themselves and if they support those bills that continually force the U.S. taxpayer to send billions of dollars annually to Israel, it is because they know "it's the right thing to do." (So is keeping the bowels regular if we are to believe that Quaker Oats commercial!) That line is pure horse manure, gang. An example of what the Israeli lobby pays out in bribes in this country was demonstrated recently on a TV discussion panel wherein one Rep. Owens, D-Utah, agreed in bald-face manner that he had indeed received "over \$100,000" from the Israeli lobbyists. He also stated that the sum was "only 5 percent of his budget and there was no way he could be influenced by that sum. (Come on, now. Not even a 'little teensy weensy' bit?) How many of us truthfully now, would accept a \$100,000 cash bribe and not be influenced to do something in return? Jews are not known for stupidity when it comes to money and it is not likely they pour this kind of cash down a rat-hole for nothing.

Money not only talks, it screams, and even if Bush vetoes, the money will go to Israel, it always has, sooner or later. Never mind that Israel is a racist state, treating non-Jews and the native Palestinians like serfs and mental inferiors, prohibiting them from owning property or living there. Forget the thousands they have butchered and tortured, whose homes were destroyed by bulldozers (purchased with our tax payer's money) and all the atrocities these many years. What should gail Americans is that we are the ones paying for these things and in the process are taking on

karma, whether we like it or not. While there is always money for the Israeli lobby, huge debts which are always "forgiven" by our government for some reason, there is never money to take care of the crises at home. Never mind our country's infrastructure is deteriorating, the streets are being ruled by criminals with guns, banks, farmers, businesses going broke by the thousands each day, Bush refuses to make money available to deal with these monumental problems. It is time the public overrides the sycophant Congress who are terrorized by the Israeli lobby, and inform Israel it has no natural right to plunder the U.S. Treasury and that U.S. taxpayers (most of whom are not Jewish) and government of the United States were not put on this planet exclusively for the convenience and benefit of Jews located inside or outside the territory of Israel. U.S. citizens do not owe Israel anything. It is our money they are using, among other things, to expand illegally into Arab territories.

Let's hope that "different" Bush who walked out of Bethesda Hospital, which Awareness has indicated did occur, will stick to his guns on this issue, for the "humanitarian" reasons we are all being intimidated by Israel to cough up all this cash, is the very reason why we should not. Maybe when they start to consider the "humanitarian" issue when dealing with the Palestinians, it might be easier to swallow. Food for thought: Could it be that the Skopt' have made their way into the U.S. government once again and are creating duplicates that will force the Bolsheviks or those with Bolshevik type programming, of which there are many abounding the hallowed halls of the Congress, out of business and out of political hair? Stay tuned!

WERE RECENT EARTHQUAKES FAKED TO TRAP NEW AGERS?
(Possibility that 1993 Quake Could be Triggered Artificially)

QUESTION:

In reference to earthquakes, several members have sent in a publication called *New Thunderbird Chronicle*, out of Los Angeles, written by Michael Topper, and it's a three page reproduction called: "The Quake's a Fake!", and this question from T.N. is typical: "The enclosed article states that the recent California earthquakes were artificially produced by secret government and the paper circulated among New Age people in Los Angeles, is to make the survivors move to the Southwest. The massive quakes will be used to implement national martial law, ala FEMA, and to bring in the New World Order. The paper gives exact dates and sizes, mostly in September. It listed a number of earthquakes that were to begin on September 8th, 10th, the 17th, the 23rd; and it states: "Anyone reading this information now living in Los Angeles is therefore warned that the destructions are coming with exceedingly few survivors. Move out of the area! It is now over 98% likely that this will occur August through November, 1991."

He says, analyzing this information, which seems to have come out of Sedona, Arizona, with no apparent author, but something based on astrology, and so forth, he says: "If we've been paying attention, this is precisely where the joint military underground bases are most massively concentrated, and where the abductions, implants, animal mutilations etc. are most thoroughly networked. Best to get survivors massed in one place. And note: Survivors of a special kind: New Agers, who therefore know about these New World Order things." It goes on and on, but does Awareness see any truth to any of this?

COSMIC AWARENESS:

This Awareness indicates that it appears there is much speculative imagination involved in that scenario. There appears to be some substance on which the scenario is based, but it is mostly connecting dot to dot type information to form a picture wherein there are not enough dots to substantiate the final outcome of the picture. It is like coming to a conclusion from evidence that is only half there. The conclusion needs more support to be acceptable in a logical sense. This Awareness indicates that it does appear to this Awareness that the government does have the ability to create earthquakes; it does appear that the use of cobalt bombs to create earthquakes has been used. It does appear that there have been considerations for creating earthquakes in order to set up a national emergency and that this may be used in the future.

This Awareness indicates however, it does not appear that this is a direct plan that is to be implemented. It is rather a contingency plan drawn up amongst hundreds and thousands of other contingency plans for use in the case of certain necessities for government manipulation, if it so becomes needed. This Awareness indicates that it appears the earthquake mentioned to occur in the Spring of '93 may in fact be artificially triggered. If so, it will be far more devastating than intended, and the effects may not be as easily controlled as the perpetrators would wish.

This Awareness indicates that this is not seen at this time clearly as to whether or not for sure that the '93 earthquake is to be triggered artificially.

FOLLOW-UP QUESTION:

Does It see that a quake of this magnitude, if it occurs, would bring down the Federal National Emergency powers?

COSMIC AWARENESS:

This absolute.

FOLLOW-UP QUESTION:

And the suspension of the Constitutional rights of entities?

COSMIC AWARENESS:

This Awareness indicates that this could be implemented. It does not see that this is an absolute in this regard. It is seen as quite likely.

IS AWARENESS "OVEROPTIMISTIC" ON THE ECONOMY?
(Respected Bankers' Newsletters says "Flag is Up for a Depression")

QUESTION:

B.B., who evidently owns a savings bank in Ohio, writes: "I have read and enjoyed your letters for quite a while, but must disagree with your view on the American economy. You are too optimistic. If you have a chance, please read these very interesting reports. It's not a very rosy picture." And he sent in several issues of the *Financial Research Center Money Forecast Letters** dated June of this year and August of this year, and the basic statement is in their headline: "The Red Flag Is Up! Stand By For a Depression!" Now this is a newsletter that goes to the savings and loans and the banking institutions. It isn't one of these things that are hawked by Wall Street newsletter writers, and it IS a scary report. I won't read it. It's very long, but it is information taken from all the way across the country, in regards to the instability of the banks and the Federal savings and loans, and the whole financial institution in this country is about to go under according to this highly-documented and researched report. Does Awareness wish to comment on this statement that It has been too optimistic about the economy of the United States?

COSMIC AWARENESS:

This Awareness indicates that by normal economic standards, the economy would be considered as extremely shaky, but there are forces acting that do not yet want the depression. It is possible to keep the economy moving by artificial means simply by putting money into circulation through the printing press to keep things moving. The danger of course would be that inflation may begin having its effect on the economy.

This Awareness indicates that before you witness a depression, you will most likely witness a heavy inflationary trend, except in the event the depression is artificially

13. triggered for purposes of the banking establishment, those in control of the money system. This Awareness indicates that this does not appear to be likely this year. This Awareness suggests however, that it does appear there will be a release of the new currency in November of this year, slowly and gradually being released into the public over a period of five years, after which all of the current money will have been taken out of the system, out of circulation.

The new money being that which contains fibers that can be read by a computer to register a transaction and what has been purchased, and to match that with the entity's identification, eventually with an implant or other marking device identifying the entity. That with the new money, each bill would have its own individual signifier so that money could be traced from person to person and from purchase to purchase, thus knowing what each entity has bought or sold and when it occurred.

This Awareness indicates that this is seen as probably being introduced in November of '91.

NO "CALL-IN" WHEN NEW MONEY IS ISSUED IN NOVEMBER

QUESTION:

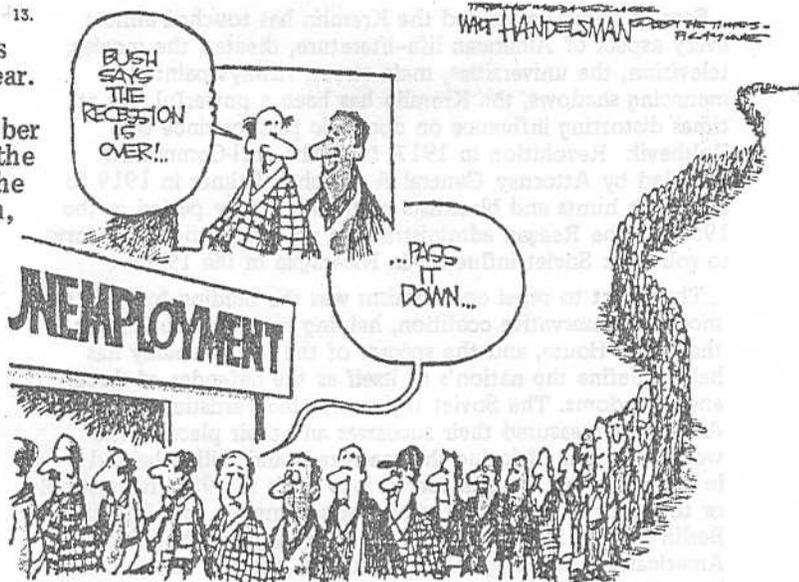

The original 'new money' Awareness talked about some years back was going to be issued at say: one dollar for every ten of the current dollars; that there would be all of the money recalled at a certain ratio. Now they are putting out the same money in the same amount, but, as Awareness indicated, with new implants in them so the money could be traced. Does Awareness see that original plan to issue money at a ten-to-one recall ratio, or some other ratio, has been scrapped?

COSMIC AWARENESS:

It appears this is so. The original plan was implemented at a time when inflation was a problem; that the present monetary situation is such that the production of currency would not be as urgently tied to a reversal of monetary ratio. However, this Awareness does not wish to rule out the possibility of a ten to one, or five to one ratio in terms of money. It does not see clearly how this is to be done, but It does see that this would be a practical move to reduce the cost of such a change-over by making each one dollar of the new money equivalent to ten dollars of the old money. The cost of printing would be cut to ten percent. This Awareness indicates however, it would create much difficulty in terms of bookkeeping among all the businesses in the nation, and it appears the cost of printing versus the cost of bookkeeping would be the major concern.

The cost of goods would eventually also have to be tied to the new currency level. A three dollar value in present time would be worth thirty cents in the new money, and therefore, coins would need to be introduced. It appears that it could serve as a means by which in time, plastic coins could be introduced to allow for the confiscation of silver coins or other metal coins. The coins having copper or silver or nickel would then be taken out of circulation and used for other purposes, while plastic coins would take the place of dollar bills, and currency below ten dollars.

Prices of course would drop proportionately so that a two thousand dollar car today would sell for two hundred dollars of the new currency. This is still seen as a strong possibility. It is not seen as absolute. This Awareness does not at this time see clearly how the transfer will be conducted in terms of the proportionate value. It does appear however, the November will be the month and that it will be phased in over a period of several years, not something that occurs overnight as previously indicated.

WILL JAPAN AND U.S. GO TO WAR AGAIN?

QUESTION:

There's been a number of articles recently about the United States, that so-called "Japan Bashing" is going on in an increased fashion, fueled by the fear of people and writers that the Japanese, who are now superior in world trade and buying up large sections of American property and businesses, is creating a situation that could ignite, and in Japan, at the moment, one of the best-selling books is a book written by Americans George Freedman and Merideth Lebard, called *The Coming War With Japan*, and this book predicts that the growing economic conflict between these two superpowers could erupt in World War III. Does Awareness see this as having any validity?

COSMIC AWARENESS:

This Awareness indicates that this is not seen as occurring. It is seen as a potential based on values, trends and conflicts that are emerging. It sees rather that the economic difficulties in the United States after 1993 will bring down the Japanese economy in the world market, and is likely to have a devastating effect on Japan economically. That both countries appear to suffer in the future.

WHO WILL BE THE ENEMY NOW FOR THE U.S.? (When Will Bush Give Us the "Peace Dividend"?)

QUESTION:

There's been a lot of commentary in the media since the dissolution of Russia has occurred, and this one out of the *New York Times* in a recent paper is typical. I'd like to read this and ask Awareness a question or two. The caption of the article is "Who Will Be the New U.S. Enemy?"

Just when the United States had adjusted to the idea that the Kremlin had turned from implacable enemy to benign adversary, the breathtaking events in the Soviet Union have forced the country to confront the possibility that soon there may be no adversary there at all. The sudden prospect that the Soviet Union will cease to exist in its current form has implications that go far beyond Soviet-American relations, and the Soviet upheaval has already forced the Bush administration to begin re-examining its fundamental policy goals.

For 45 years, the Soviet Union has been the lens through which American foreign policy around the world and American military thinking, especially nuclear strategy, have been focused.

The threat of communism has been at the heart of virtually every crisis the United States has faced since World War II, crystallizing national resolve in such seminal events as the Berlin airlift of 1948 and the Cuban missile crisis of 1962, or convulsing American society in darker passages, like the Vietnam War.

Fear of communism and the Kremlin has touched almost every aspect of American life--literature, theater, the movies, television, the universities, main street. Always painted in menacing shadows, the Kremlin has been a powerful and at times distorting influence on domestic politics since the Bolshevik Revolution in 1917, from the anti-Communist raids led by Attorney General A. Mitchell Palmer in 1919 to the witch hunts and blacklists of the McCarthy period in the 1950s to the Reagan administrations politically divisive efforts to roll back Soviet influence in Nicaragua in the 1980s.

The effort to repel communism was the binding force of the modern conservative coalition, helping to keep Republicans in the White House, and the specter of the Soviet enemy has helped define the nation's of itself as the defender of threatened freedoms. The Soviet Union was the yardstick by which Americans measured their successes and their place in the world: the fear of losing the space race and falling behind in science when Sputnik soared into orbit in 1957, for example, or the national jubilation when sledgehammers tore into the Berlin Wall in 1989, and now for many a sense that the American-led stand against communism and the Soviet Union has succeeded beyond anyone's expectations.

When President Bush offered his 'new world order' a year ago to explain why the nation had to face war with Iraq during another tumultuous August, he grounded his vision on the assumption that there would continue to be a Soviet Union--much like the one that had existed since 1917, just friendlier and less of a military threat.

Last Week Bush seemed to acknowledge the passing of that epoch. "Out of this change in the Soviet Union, if we handle it properly and if things keep going forward instead of slipping back, there's an opportunity for a vastly restructured national security posture," he said.

Cautious as ever, he added, "It's way too early--way too early --to get into that."

But even as he spoke, his government was in the early stages of what eventually may be a fundamental rewriting of American policy, and a new debate was quickly developing in Washington about whether to make deeper cuts in the Pentagon budget.

Now that was the end of that particular article, of which there's a lot these days, and it triggers the question most often asked: "Is the so-called peace dividend which Bush has promised to be given to the public in other forms of social services and solving some of the economic problems here at home, if the threat of communism was defused?, and since it evidently has been, can Awareness give us some kind of a forecast as to what will occur in the United States in relation to this phenomenon? Is, for example, the military budgets going to be cut, as most Americans think they should be? Now that there isn't a visible enemy left in the world, why should such a huge percent of the taxes go to the Pentagon? And the other question is: Will there be such a thing as a peace dividend coming down the road for the American public?"

COSMIC AWARENESS:

This Awareness indicates that *It* does not see any peace dividend being released to the public. *It* does see that there will be the funding by the public of many of the expenses that have been incurred through such things as the Savings and Loans crisis. There will also be further expenses in regard to the SDI projects, and to other related expenses associated with the military research in these areas.

This Awareness indicates that it appears a situation will occur in which more taxes will be the solution. This may be tied in with the alien scenario in the not too distant future. This Awareness indicates that also, the situation relating to the earthquake as that which will require more taxing. That this appears to be in the Spring of 1993. The energy is not totally clear on this. That this can be clarified at a future time.

This Awareness indicates that it appears to be '93 for the time period of the earthquake.

14. HAVE YELTSIN OR GORBACHEV BEEN "ROBOTIZED"? (Is there an "Alien Connection" We Don't Hear About?)

QUESTION:

E.K. in Florida, writes: "Dear Awareness, has either Gorbachev and/or Yeltzin now or ever been replaced with a synthetic robotoid? As a state prosecuting attorney discussed the alleged coup d'etat in the USSR, she speculates that perhaps the aliens were behind it in some way. I immediately received a strong wave of goose-flesh which I understand as arising when the truth is self-evident. Does Cosmic Awareness see this also as true? Please elucidate with whom and how the aliens are connected to the members of the Soviet leadership.

COSMIC AWARENESS:

This Awareness indicates that this does not appear to be aliens; that it appears to have been Skoptsis involved in setting up the coup as indicated previously. This Awareness indicates that there does appear to be some Skoptsis/alien connection, but that these aliens connected with the Skoptsis are the friendly Pleiadian types rather than the Greys or Reptoid types. This does not mean that these entities were in any way connected with the coup, but it does appear that the Skoptsis do have some connection with the Pleiadians.

This Awareness indicates that *It* does not see either Yeltzin or Gorbachev as being replicas or duplicates.

THE NORIEGA TRIAL:

WILL THE WIFE AND KIDS RECOGNIZE A DUPLICATE?

QUESTION:

Speaking of duplicates, the trial of Manuel Noriega, of Panama, after some 20 months incarcerated in a Florida jail, is coming to trial, and the newspapers show picture of his wife and children being there in the courtroom with him and so forth. Awareness indicated that the real Noriega was taken up by helicopter at the time United States troops assaulted Panama and he was executed immediately and a double was whisked to Florida. The question is: Is the wife and children, who are there to view the trial and talk to him also doubles? One would think they could tell if he was a double or not.

COSMIC AWARENESS:

This Awareness indicates that it does not appear that these entities are doubles. It appears more that they, having been separated for 20 months, are subject to getting reacquainted, when speaking with him, and have expected changes in his behavior and when something is forgotten or not quite like his usual self, they simply attribute it to his stress and long-term incarceration.

This Awareness indicates that the entity has been oriented to understand the individuals of the family, their background, and knows enough to snoop by playing the role of one who has been under great stress. The family does not see him intimately very often or for long lengths of time anyway.

This Awareness indicates that the entity may be released on technicalities to be allowed to go home with his family. This is not seen as certain, but it is seen as a strong possibility and the trial concluded without great amounts of information coming out. If the entity does go home with the family, it appears that the relationship would be strained and may not last for any great period of time.

This Awareness indicates that it is not seen as a cut and dry issue as to what will occur in this regard, but it does not appear that the entity will be allowed to give heavy damaging information; that information will touch upon some of the high points

of his involvement with drugs and the CIA, but that this will not be substantiated with any hard evidence, and therefore, the information will be discounted and the entity will eventually be freed or released to hush up further critics and to bring the topic to a close.

At this point it is of little concern to those who were involved with him in regard to these activities, since this is not the real Noriega, and the entity can only tell what he is told to say in court. It appears that his assistants, those who are coaching him in terms of his defense have some connections with the U.S. government agencies.

FOLLOW-UP QUESTION:

Mr. Bush's original reason stated for invading Panama and causing all the problems and misery for the people there was to put a stop to the drug network that Noriega was instrumental in. The papers now say that since then, in Panama, the drug traffic is far greater than it was at the time Bush invaded Panama. Does Awareness see this issue being brought up in the case of Noriega?

COSMIC AWARENESS:

This is not seen as likely to be brought out in trial. This Awareness indicates that there is also seen connections of Noriega's activities in running drugs with the Zapata Oil as a contact point for shipment, and also in Florida, in relation to certain airport stations connected with the George Bush Jr., who assisted in helicopter lifts in relation to the movement of drugs.

This Awareness indicates these things will not come out in the trial. There are individuals in the agencies who know about these things and these things may eventually be released through other outlets, but it is not seen as information that will be released through testimony in this trial.

The trial apparently will be but a sham for public consumption, and it is very likely that technicalities will be raised as to why the United States could enter into another country to arrest a non-U.S. citizen to bring him to trial, and this may be used as an excuse to release the entity.

It appears that there is now the desire to release the entity and close the case as neatly as possible, without digging into further aspects of the unique relationship this entity had with the CIA and the entities George Bush and his son.

WHAT WILL HAPPEN TO CASTRO AND CUBA?

(Is Fidel Already in his Grave?)

QUESTION:

One final question: As the Russian monolith falls apart, it has indicated that its aid to Cuba and Fidel Castro is coming to an end, and I'd like to ask two questions. The Weekly World News recently ran a picture showing a photo supposedly of Fidel Castro being put into his grave; that he had died of a heart attack, and secondly, what does Awareness see is the fate of Cuba in light of what has occurred in Russia?

COSMIC AWARENESS:

This Awareness indicates that it appears the Cuban economy will worsen at a very accelerated pace and that this will eventually, most likely within a year, lead to an uprising against the government and the total downfall of the controls of Communist rule in that island. It appears that it will be much like that which occurred in the Eastern European countries, prior to the breaking down of the Berlin Wall and that there may be some actual civil war outbreak in the area if the rulers of the country remain firm in attempting to control the nation during a collapsed economy.

This Awareness indicates that in the reference to Fidel Castro being put into his grave, this is not seen as being a fact. It appears this was a mistake of identity. This Awareness indicates however that the energies of this reading have depleted, and this last observation may be questionable; that energies are not strong enough and cannot be fully trusted in this. This Awareness suggests therefore, that the situation may be other than has been indicated; that a later reading may clarify or see this in a different manner. This Awareness suggests that the Interpreter be brought from trance at this time.

MORE FLESH FOR THE SKELETON: THE ALIEN PRESENCE

(PART 14): THE 'ASHTAR COMMAND', 'HATONN', THE 'SPACE BROTHERS', JESUS SANANDA ETC.
HOW DO THEY FIT INTO THE ALIEN PRESENCE SCENARIO ?

(Excerpt from a C.A.C. General Reading, April 14, 1991)

QUESTION:

A question from R.S., Roseburg, Oregon. He writes: "A question for Awareness, and thank you for years of much guidance and inspiration and assistance in understanding the difficult challenges of this time of transition. Would you please comment on the identity of the entity known as 'Lord Sananda'. My understanding has been that this is the Higher Self soul name of Jesus the Christ. I also understand that he incarnated as Moses the Lawgiver and as Elijah the Prophet, who foretold of the coming of the Messiah. Thus, as Jesus, he 'came to fulfill the law and the prophets,' which is the hidden meaning of this statement by Jesus. Also, in the transfiguration on the Mount, the transcending presence of the ascending Jesus was linked with the ascended Moses and the ascended Elijah, whom the disciples understood Jesus to be referring also to John the Baptist: was this not also a hidden secret message

for us now to understand as referring to the reincarnations of these great entities?"

There's several questions in this question.

COSMIC AWARENESS:

This Awareness indicates that the reference to Elijah as that which was answered by Jesus himself when he explained that "Elijah has come and is John the Baptist"; that this was a reference to the reincarnation of Elijah. This Awareness indicates that in reference to the concept of Jesus and Moses being the same entity in different incarnations, that this is not seen as being the same entity.

This Awareness indicates that the so-called Lord Sananda as that which refers to an entity in spirit form, not of this physical dimension, and being that of a composite of energies that serve as a kind of representative of a Divine Presence, is more of an allegorical or metaphorical creation than an actual being.

This Awareness indicates that it is what may be termed part of the 'spiritual hierarchy' which is created from observations of certain earthly entities who give names to different energy points, or vibratory rates, attributing personification of a deity-type nature.

This Awareness has discussed this kind of topic previously; that the 'spiritual hierarchy', popularized by Summit Lighthouse as that which is a system of expression, much in the way one might attribute to the cabala personalities in describing the various sephirah. This Awareness indicates that these energies of vibratory points in the hierarchy of the resonating electromagnetic scale, describing the spiritual hierarchy energies are giving personification, more for the understanding of those who need to have reference that is easy to relate to.

This Awareness indicates that if one were to say, "This is a light energy resonating at a point in the resonating electromagnetic scale at such and such a vibration," it would be difficult for some entities to understand this. Therefore, names are attributed to these energies and they are presented as entities. This Awareness indicates that in a sense, all energies are entities, and all entities are but energies.

The Creations of the Summit Lighthouse People

This Awareness does not describe the makeup of the universe with the same system that is used by Summit Lighthouse and others that reflect that Summit Lighthouse philosophy, therefore, it is probably inappropriate to ask this Awareness to describe an energy field from a system that is created by another organization.

This Awareness indicates that these names are likened unto names from a foreign language. It is likened unto the Catholic priest being asked to explain the concept of the "Born Again Christian" as presented in fundamentalist Christianity; that from the viewpoint of the Catholic priest it would be requiring or requesting the priest to describe something from another religion, another system, another frame of reference, foreign to the understanding of things held by the priest or that body of information that he represents.

This Awareness indicates the reason for this hesitation in answering this question in a simple straight-forward manner is that this Awareness does not actually acknowledge the existence of Jesus Sananda as a real being. *It* sees this as a creation of the mind of humans who have agreed upon this, much the way the entity Phillip was created in the story and experiment known as "Conjuring Up Phillip," where entities got together and attributed qualities to an imaginary entity named Phillip and then experienced a relationship with the entity Phillip,--this being experienced through what may be termed a seance.

This Awareness indicates the entity did not exist prior to the conjuring of the group who together added individually different qualities for the entity and the entity became representative of those various qualities the group attributed to him.

This Awareness indicates it does not mean the Summit Lighthouse material is invalid; it can be workable as a way of meditating and a way of dealing with spiritual growth. This Awareness simply does not see these as being part of the universe, except as a creation of a religious order or system.

This Awareness indicates it is like asking this Awareness to describe who in fact is Mickey Mouse? This Awareness indicates that Mickey Mouse exists within a certain frame

16. of reference, but when entities begin to assume that frame of reference is in what is perceived as collective reality, then it needs to be looked at from a different approach. This Awareness could describe Mickey Mouse within the framework of the Disney creations as this Awareness could describe Jesus Sananda in reference to the Summit Lighthouse creation.

This Awareness indicates however, when attempting to bring Mickey Mouse out of its frame of reference, and relate Mickey Mouse to early Hebrew history and asking: "What is Mickey Mouse's relationship with Moses and Jesus?", it becomes a question that cannot be answered in the manner required for the seeker.

This Awareness indicates the entity Jesus Sananda is but a name with qualities attributed to it that has become a creation of entities dealing within a certain framework of concepts and ideas and not actually having an historical basis other than that which is mythically attributed to the entity by the creators.

This Awareness explained this principle when *It* described that entities could create an entity known as St. Twinkle. This Awareness does not wish that entities in the future, even though St. Twinkle may take on a mythical reality for some entities, *It* does not wish that in the future entities think of St. Twinkle as an absolute historical being, such as to ask: What did St. Twinkle do to become a saint? and what relationship to Jesus did St. Twinkle have?

The creation at that point would become a greater problem than example of the point this Awareness expressed or wanted to make when conjuring up the concept of St. Twinkle to be used as an example. This Awareness indicates that *It* recognizes there will be objections to the answer this Awareness gave in referring to Jesus Sananda as not having real substance in the real world or historical world, but this is the response that this Awareness can give and still remain truthful. If it offends entities, then it must be so.

This Awareness would rather offend and be truthful than to falsify for the sake of sparing any conflict in this regard. This Awareness indicates that there are many stories that take on the feeling of reality. One could ask questions about Huckleberry Finn. Some entities believe Huckleberry Finn was an historical character rather than a literary character, and if asked about Huckleberry Finn in an historical sense, some entities could respond, giving information about Huckleberry Finn, knowing that Huckleberry Finn was but a literary character and not historical, and it would further perpetrate the myth of his being a living historical being, but they would be furthering a misconception.

This Awareness indicates that while you can do this, such as promoting Santa Claus as a real being, there comes a time when entities need to be told the truth. There comes a time when the lessons available from the story need to be seen as lessons for whatever good they may offer and entities need to be told and corrected when following a misconception.

This Awareness indicates that you do not always want to believe that Humpty Dumpty was real person who fell off the wall. You eventually want to learn that it is but a story, and not a fact of history, and even though you may be saddened to discover that Santa Claus is but a character of fiction, it is best for entities to learn the truth at some point. This Awareness indicates that this does not mean they have to give up their appreciation for the spirit of Santa Claus and the value the myth brings to their life.

This Awareness indicates that many entities learned ¹⁷ great lessons from the *Star Wars* adventures, even though they knew these were fiction stories. This Awareness indicates there will in the future, without doubt, be some entities who believe the *Star Wars* stories represent actual historical information from the past. They will view these films as though they were historical documentations of past experiences featuring real entities and will have questions about Luke Skywalker's historical personality, and will ask about his previous lifetimes and subsequent lifetimes, but even if they presume he was historical, the stories still will remain fiction, whether people realize the stories are fiction or not, and it would be a disservice for entities to not be informed by this Awareness at that time in the future that *Star Wars* is but fiction and not a reality of history.

This Awareness indicates that *It* does not deny the spirit of Luke Skywalker as a mythical influence on humanity, *It* simply denies Luke Skywalker's historical essence as a true living being of history. This Awareness indicates the same can be said of Jesus Sananda.

WHO OR WHAT IS THE "ASHTAR COMMAND"?

(The Real Truth About the "Space Brothers")

FOLLOW-UP QUESTION:

A question from M.C. in Canada, along this same line. "Awareness," he asks, "is there such a thing as the Ashtar Command, and if there is, what is its purpose?"

COSMIC AWARENESS:

This Awareness indicates that this again is more fantasy than reality. This Awareness indicates that there were some contacts in the 50's between human types and earthlings and some of these contacts, the extraterrestrials speaking with the humans gave the impression that they were present for the purpose of assisting humanity. This Awareness indicates that this led to many unusual ideas and it was assumed that there was a great command force of extraterrestrials just waiting out there in space, waiting for humanity to evolve sufficiently for them to come in and rapture humanity and help humanity to reach new and greater heights of expression.

This Awareness indicates that these ideas were projected onto the UFO scene at the time, wherein entities would spot unidentified flying objects and hear stories about extraterrestrials being here for some noble purpose, to assist to put a kind of spiritual and cosmic order to fill in the blanks and missing parts of the situation, so as to help the mind make sense, and in this process, some entities began to channel or pretend to channel in such a way as to promote ideas which included the concept of the Ashtar Command, and this particular channeling became quite popular in its narrow sense, among many who wanted answers and did not particularly need evidence.

This Awareness indicates there has not yet been any evidence presented that the Ashtar Command exists. There has only been parroting of words about the Ashtar Command and channels, allegedly giving information on the Ashtar Command. This Awareness indicates that this does not mean that entities of extraterrestrial or ultraterrestrial dimension do not communicate with humans, *It* is suggesting, however, that the Ashtar Command concept is more fiction than fact.

This Awareness indicates that much of the information that has been given in regard to this group and the entities named in the channelings is more fiction

than reality. It is given because entities wanted answers and were willing to accept information without evidence, if it could help solve the riddle of the UFO phenomena.

This Awareness indicates that it provided material that could fill in the gaps when other more factual material was yet unavailable; that if you will recall, many of these earlier contacts with extraterrestrials were reporting that the extraterrestrials were from Venus or Mars or some other neighboring planet and did not explain how these entities got from the planet to the earth without being subjected to the freezing temperatures of the planet or the extreme hot temperatures of the planet from which they came.

This Awareness indicates that gradually, the origin of these entities became less in focus and the entities ceased to speak about their coming from Mars or Venus, as the space program began to define the temperatures and natures of those planets, and entities began to realize that those planets were not capable of supporting the human-type life that was attributed to the extraterrestrials whom they represented in their channelings. Gradually, rather than saying they came from Mars or Venus, the extraterrestrials were in spaceships, floating around the earth, waiting for the right time to rescue humanity. This time has gone on for approximately 25 years, these entities still floating up there somewhere, waiting to rescue humanity. This Awareness indicates it would seem that their plans for the rescue were not well thought out, or they have over-extended their time and used an enormous supply of energy and food over the 25 or 30 years, just to waste the time waiting for humanity to reach the time when it should be rescued.

This Awareness indicates that rather than understand the nature of the phenomena, entities prefer to stick with the information about this so-called Ashtar Command, and the 'space brothers', because it is comforting. It is illogical that they would sit there for some 25 to 40 years waiting for humanity to be ready to be rescued. It is illogical that they would keep a supply of food and fuel constantly circling for that length of time or that they would return to wherever they allegedly came from, and then come back and keep waiting.

It would seem that if they wanted to rescue humanity they would have made some direct attempt, direct contact rather than holding back and channeling through this person or that person and never letting themselves be seen. This Awareness indicates that the concept of the Ashtar Command and the 'Space Brothers' as presented is another myth.

This Awareness indicates that *It* does not mean there is no such thing as extraterrestrials who have an interest in the earth. The Pleiadians are real entities, and they have some interest in the earth, but they are not part of the so-called 'Ashtar Command.' The Vegans and the Arcturians and certain of those from Sirius are interested and benevolent and friendly to earthlings.

There are also those who are hostile, indifferent to earth, but for personal gain, have an interest in earth. These have been discussed: The Orion Empire, the Reptilian Federation from Draco, and the Zeta Reticuli. These and a few other extraterrestrials have their designs on earth also, but they do not go by the name Ashtar Command, nor do those who are represented as the Ashtar Command ever actually show themselves physically, nor have they ever done anything physically for entities to rescue them from abductions, or to assist them on earth levels, except as might occur for an entity

who believes in a myth, wherein the entity's myth helps him to feel better or to have enough faith to try something that they might otherwise feel incapable of trying. 18.

This Awareness indicates that if one believes that a kernel of popcorn holds mystical powers, and attempts to do something, that kernel of popcorn can be quite helpful in getting the thing done. Is the kernel of popcorn actually powerful, or is the *belief* the power that is acting?

This Awareness indicates that many entities believe in the Ashtar Command and it gives them comfort and strength, just as a child might believe in a security blanket and might feel terrorized and naked without it. The security blanket might help the child through a frightening time or experience, just as the belief in the Ashtar Command could help some entities during their times of crisis.*

This does not mean the security blanket has any mystical power; it simply has a psychological influence because the entity believes in it. In itself, it has nothing but the ability to keep an entity warmer, but the energy attributed to it by the entity who believes in it is the force that gives it mystical power.

FOLLOW-UP STATEMENT BY QUESTIONER:

An interesting anagram for the word Ashtar is the word trash.

LET'S PUT THEM AWAY ONCE AND FOR ALL I

*ED's Note: Over the years, Awareness has been oh so gentle, often beating around the bush whenever we asked questions sent in by members about 'Ascended Masters', 'the Space Brothers', 'Ashtar Command', 'Jesus Sananda', 'Monka', 'Kuthumi', 'St. Germain', etc. etc. The usual response, like mentioned above, is the old story about 'Conjuring Up Phillip', Santa Claus, Mickey Mouse, St. Twinkle etc. However, as this reading indicates, Awareness seems to be getting a mite tired about the subject, seeing that entities are still sending in questions asking about these entities and their predictions, etc. in spite of the fact we have been publishing its response for many years. Since some of you apparently still haven't figured it out yet, none of the above exist, except maybe in the imagination of those allegedly 'channeling' them, promoting them and hustling them to make money out of books, seminars, videos or whatever. For the most part their so-called messages, 'marshmallows' as Awareness has called some of it, often laced with dire predictions and promises that those who follow these thoughtforms will be 'raptured' up comes the axis shift, the 'end times', the earth cleansing or whatever catastrophe with its many dire consequences; it's all bullshit, gang; pure and unmitigated. It is hard enough trying to get the truth out about the alien presence without these various masters, space brothers, Ashtar Commands etc. spreading their horse manure around, adding even more confusion to the subject, often scaring the hell out of their followers with their dire forecasts of calamity awaiting mankind. This stuff, much of it lies, disinformation, with

just enough semi-believable stuff thrown in, is beginning to be taken seriously by those in the UFO field who should know better. Several famous researchers solemnly mention the 'space brothers' and the 'Ashtar Command' as possible options for earth's salvation in their lectures, workshops and books and articles. Even 'Mr. UFO' Timothy Beckley publishes books and articles on this drivel, which indicates how much investigation into the UFO phenomenon he has done. It's a shame too, because he also publishes books by William Hamilton, Commander X, which for the most part reflect the truth about the aliens here on our planet. But then publishers are in the business to sell books and make money, aren't they? There are a few entities on the circuit who are telling the truth about the aliens: Bill Cooper, Bill English, John Lear, and you do not hear them spouting the Ashtar Command or the 'Space Brothers' bull, because they know the truth and wouldn't give them the time of day. At most every UFO convention you will find entities who allegedly "channel" Ashtar and space brothers etc., who spout their bullshit then proceed to throw in a few good words about Cooper and bad aliens he has discovered. Of course, these channels are also hawking tapes and books and assorted items which allegedly will 'protect' you from aliens etc. There are numerous so-called 'New Age' publications, many out of Arizona for some reason, who run series of articles written by entities who claim to channel these various extraterrestrials with the weird-sounding names. Such material is strewn with 'New Age' terminology, with words like 'Light' and 'Love', some will even speak of Cooper and the Greys, abductions etc. Then on the next line they will espouse the bullshit about the 'spiritual hierarchy', Ashtar Command, Sananda et al. Either these people are simple and naive or they are being duped by dark forces, aliens or are CIA plants, designed to spread their trash, mixed with a few known truths about the aliens, in order to spread confusion about the aliens to a public that is already terribly confused about the subject.

According to Awareness in recent readings, this appears to be the case in many of these instances. It has indicated that the aliens have been using these types of 'channels' for decades to spread their disinformation; the CIA and other covert organizations are doing the same. It was revealed the entity Hatonn whose paranoid bull is published regularly in the 'Phoenix Journal' falls into this category, with Awareness implying or suggesting: Wouldn't it be convenient if the CIA or the KGB created such a character and organization simply to spread confusion? This appears to be what is happening.

For example, members are sending me copies of publications and printed letters they are receiving through the mail, some of it anonymously, with messages from Ashtar, Sananda and Hatonn all calling Bill Cooper a liar, a deceiver, traitor, a phoney. This is some of the most remarkable bull I have read in years. Here is but a brief sample:

"ASHTAR REGARDING BILL COOPER. I stand with Commander Hatonn in renouncement of Bill Cooper. He is a dupe at the least, or a deliberate tool of darkness. He is a good example of one sent forth to give the party line. Dear ones, we used none of his information which was not already in published form elsewhere to avoid the very thing he has claimed. He has come forth to make money from the public and was quite frankly terrified he would find his name on the list of ones deliberately (sic) setting forth false information. There are no bad little Grey men set forth to enslave you. The space people in your country have been most badly used. Let me tell you what happened. Your government applied the pressure with a very cute little scenario. There would be an out thrust to bring terror and fear against any aliens coming into your space. Cooper spoke enough to throw you off, as is always the case. There would be terrorist situations set up and aliens would be blamed and the hostility would be incredible, when any of us would make an appearance. Mr. Cooper and Mr. Steiger and others are on a deceitful mission."

"SANANDA REGARDING MR. COOPER. Few there are who will go forth and print my words and carry my sword. I am coming forth at this time to clear some points for ye ones. Will ye fold at the first counter attack? Ye bear truth. Thine enemy bears lies. The

press in Sedona is not in harmony with my truth. They bear the drivel of any and all who claim to have communication and insight with the world beyond. They have nothing to offer except lies unto mine lambs. The book Hatonn has penned is truth; the book the one Cooper has penned is lies. I, Sananda, will no longer tolerate the martyrdom of mine workers. William Cooper is a face of that which is unworthy to walk in mine beloved handmaidens footprints and Ye shall not yeild unto him. I suggest you serve Mr. Cooper with a law suit for utilizing my material. I fully propose to meet Mr. Cooper with a counter suit on the 28th of September. He has stolen from every honest historian regarding the events of the UFO study. I denounce him as an enemy to me and unto mine people. If ye denounce these one's words as false you shall be stricken with dumbness of ignorance, for ye are vile and what ye sow thereof shall ye reap. Ye who attack, my beloved ones, shall be attacked and MINE IS A TWO EDGED SWORD THAT SHALL CUT TO THE QUICK. These blessed ones are in the protection of mine wings and they shall prevail. I care not what ye do with the drivel of the infidels who bear false testimony against mine cosmic breathen. I prefer ye be bright enought (sic) to toss it into thine garbage pails wherein it belongs. I suggest you toss Mr. Coopers garbage out and gather commanders Hatonn's and Ashtar's unto thine bosom and take action to save of thine people's."

This document goes on and on, but you get the drift. And they have the gall to refer to Cooper's material as "drivel"! Come on, guys, I can't believe even an imbecile would believe a word of this crap. So let's put Ashtar, Sananda, Hatonn and all the other windbags and bullshitters to rest, and lets get on with the question of what to do about the alien presence. And particularly you new people just starting to get into this subject, do try to avoid entities, organizations, publications and books that promote this confusing crap, for it has nothing to do with the real alien problem and it is obviously designed and created and promoted by those who do not want you to find the real truth about the aliens. And please, stop sending me questions about these bull spreaders. My question file is literally constipated with questions of this kind and they are all being thrown out. We have published enough on the subject and if this editorial doesn't spell it out for you, then you have no business calling yourself aware on the subject. Do not be duped on the subject. (At least Awareness tells you not to believe everything It tells you). Sananda and Ashtar are threatening your life if you refuse to believe them! Anyway, I know this subject is highly charged and we have lost many members over the years because of things Awareness has indicated and comments made editorially by this editor that the idea, for example, of 'ascended masters', 'space brothers' etc. makes me want to throw up, such comments do seem to stir entities up and excites them into sending me long nasty letters to think shame for such an unspiritual attitude. You can write if it will help you get it off your chest, but don't cancel out, stay with us, hang in there, because I can assure you there is much more to come! Not just about aliens, but about earth changes, even the end of the world so to speak. Look, if you have bought the marshmallows from these thoughtforms all these years, just consider this new information is like being told Santa Claus really doesn't exist, or that you were really in Disneyland or fantasyland and suddenly woke up to good old reality. Awareness promised to 'stretch the minds' of those who could hang in there long enough, and for some of you disillusion may set in for a time, but in the long run you will realize your mind was really stretched out, and in retrospect you will be glad that it was.

The following is a postscript to the above information. This appeared in a CAC general reading September 11th (the tapes are not even transcribed yet, but I remember the answer to the following questions):

Q. From W.F. in New York. "In the 'Alien Digest', Billy Meier asks about the 'Ashtar Command,' and Samjase answers: 'All the reports and statements on alleged contacts of earth people with extraterrestrials of a so-called 'Galactic Union,' or a group named 'UMMO,' or with the much mentioned and alleged 'Ashtar Command,' are founded on swindle, lie, fraud, and schizophrenic hallucinations...'"

Regarding Ashtar Sheran there is yet to say that this name on earth rates as a pseudonym for the extraterrestrial criminal and querulous Aruseak. In earlier times, that extraterrestrial was operating illegally and criminally on earth.'

Could you please ask Awareness for the truth about the above statements.

COSMIC AWARENESS:

"This Awareness indicates that entity as being correct in her statement entirely." Enough said. (Avaton).

HOW KGB & CIA SET UP SOME "SPIRITUAL" GROUPS

(Excerpt from a C.A.C. General Reading, Sept. 11, 1991)

ED's Note: As I was putting together the final pages of this newsletter, the transcription of the question just referred to came in from Seattle. Since there is space left, here it is again but in its entirety.

QUESTION:

A question from W.P.F., of New York. "In the *Alien Digest*, Billy Meier asks about the so-called Ashtar Command, and Semjase answers: "All the reports and statements on alleged contacts of earth people with extraterrestrials of a so-called 'Galactic Union,' or a group named 'UMMO,' or with the much mentioned and alleged 'Ashtar Command,' are founded on swindle, lie, fraud, and schizophrenic hallucinations. Regarding Ashtar Sheran there is yet to say that this name on Earth rates as a pseudonym for the extraterrestrial criminal and querulous Aruseak. In earlier times, that extraterrestrial was operating illegally and criminally on Earth."

Could you please ask Awareness for the truth about the above statements. Thank you."

COSMIC AWARENESS:

This Awareness indicates that entity as being correct in her statement entirely.

This Awareness wishes to make a brief comment here.

This Awareness indicates that throughout the '60s, and especially in the '70s and '80s, the KGB operated in India and in their work in India, made considerable effort to locate and to establish organizations and groups of a so-called 'spiritual' nature that could be used for mind-control purposes to set up gurus and mind-control operations to export throughout the world. These gurus often were but stooges for the KGB, creating religions, philosophies, ideas, for mass consumption to confuse the masses with misinformation and to be used at later times for KGB purposes.

This Awareness indicates that while this was occurring in India, CIA activities and some KGB activities were also being promoted in a similar nature within the United States. Some of these dealt with New Age groups, where New Age groups were created and set up, as the entity Stan Deyo pointed out in regard to the One World Family being nothing but a CIA organization.*

This occurred in many areas, relating to UFO information, especially those which promoted the UFO beings as friendly little space brothers, hoping to help mankind in its hour of need, whereby these organizations could develop considerable numbers of followers that could later be used to help promote the acceptance of these aliens. This was especially prevalent during times when the government still trusted the aliens.

* [This is the same One World Family that tried, unsuccessfully, to divert the energies of the Unified States of Awareness at Yorktown, in 1977. Its guru, Allen-Michael, who calls himself 'The Cosmic Messiah' channels books of cosmic bull, very similar to Hatonn.]

This Awareness indicates that since the late '70s, a gradual mistrust of these aliens has been building among those in the government agencies, and there are now factions that see these aliens as being of considerable danger to humanity, and allowing the truth to come out.

This Awareness indicates that there are still elements in MJ-12 that would like to keep the public from mistrusting the aliens in hopes that by working with the aliens, they will somehow, in the future, be given special privileges when the aliens have taken control of the earth.

This Awareness indicates that because of this, some of the organizations that were established in the '70s to promote the Space Brothers concepts are still promoting these concepts and using the organizations and those channels to discredit anyone who speaks against the presence of the aliens as a benefit to mankind.

This Awareness indicates that those who speak out and warn entities of the alien presence are being targeted by these organizations that were created by these agencies to promote the alien presence and in the targeting they are often accused of being false or of giving misinformation.

This Awareness indicates that a recent release claimed that William Cooper was working for the CIA and giving false information and that the Ashtar Command would see to it that he was severely punished for his false information. This Awareness indicates that it continued, even threatening anyone who spoke out against this Ashtar being. This Awareness indicates that Ashtar is but a myth. In reality does not exist. But it is a force that has been created, much in the same manner as conjuring up Phillip, or in the same manner as creating Saint Twinkle.

If you create a name and give it energy, and everyone talks about it and describes it the same, it becomes a force, even if not a reality. Thus, Santa Claus is a force in consciousness. Ashtar is a force, but it is also just a myth.

(FOLLOW-UP QUESTION):

The Ashtar force isn't strong enough to be significant, to do any harm like it claimed it would discipline William Cooper?

COSMIC AWARENESS:

This Awareness indicates that it doesn't have nearly the strength of Santa Claus, and Santa Claus would not harm Mr. Cooper. This Awareness indicates that it is simply trying to keep the adherents in line and keeping them from following Cooper's line of reasoning or discussion.

(FOLLOW-UP QUESTION):

This same principle also applies to the so-called 'Ascended Masters' with all their various names, does it not?

COSMIC AWARENESS:

This Awareness indicates that these Ascended Masters are not so much entities in the sense of people. They are, however, energies or names of energies that symbolize vibrations and frequencies of an hierarchial order. In other words, if you go down the electromagnetic scale, beginning with consciousness and follow down through the different octaves of vibration, and you were to name each of these octaves with a human name, or a god name, you would have a kind of vibrational hierarchy, and you could call these entities Lords, or Divine beings, and it would symbolize the vibratory frequencies of the hierarchial energies of the electromagnetic scale.

This Awareness indicates that in this sense, the so-called Ascended Masters hierarchy has a certain amount of validity, if understood symbolically. They are personified points in the sense of a symbol being given human, or personification qualities. In actuality, they are but vibrations.

(CLOSING MESSAGE):

This Awareness indicates that it is quite difficult for entities to understand what is real and what is fantasy in your world, when there are so many forces speaking symbolically or giving misinformation for ulterior purposes or for commercial purposes, and when there are energies and entities in your world who are seeking deliberately to deceive in order to gain controls, the discernment that entities may develop when observing all of these conflicting bits of information may be in error in one or two ways, yet those one or two areas of misinformation can distort a total assumption so that the entity is completely off in terms of a conclusion made.

This Awareness indicates therefore, rather than making conclusions, keep your mind open, keep gather information, and sometime, as information is gathering information of the evidence will begin to emerge to allow you to see which information appears to be the more valid and which appears to be misinformation or pure deception.

"LOOK PAL! IN THREE DAYS I'VE SEEN A FAILED COUP, A POPULAR DEMOCRATIC UPRISING, THE F. OF GORBACHEV, THE DISMANTLING OF THE KGB, THE DEMISE OF THE COMMUNIST PARTY, THE END OF COMMUNISM AND THE TRANSFORMATION TO DEMOCRACY IN THE SOVIET UNION, SO IF YOU THINK THIS IS GOING TO SHOCK ME, THEN YOU'RE CRAZY!"
