THE ENLIL CREATES THE REPTILIAN PROTOTYPE OF MAN

THE ALIEN PRESENCE (Part 10) THE CREATION AND EVOLUTION OF HUMANS

(THE ALIEN OVERVIEW: (Continued))

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

THE "GOODNESS" AND THE "EVILNESS" OF ALIENS: IT'S TIME FOR A NEW APPRAISAL

HOW WE PERCEIVE REALITY: IT'S TIME NOW TO CHANGE IT

(How Mind Manipulates Consciousness and Creates Polarities)

(C.A. C. General Reading, September 7, 1990)

COSMIC AWARENESS: (OPENING MESSAGE)

This Awareness indicates that there is a need to make some changes in the way entities perceive reality. This Awareness indicates that because mind manipulates consciousness and in that manipulation creates realities, what entities term realities, it is important to understand that realities can be altered by changing the way the mind manipulates consciousness.

This Awareness indicates the tendency of mind is to create polarities in consciousness. If one thing is outstanding, the mind tends to create an opposite that is equally outstanding, to create a contrast of equal extreme. The mind also tends to fixate and focus on its own creations, giving them greater or lesser substance in order to augment or diminish the creation; thus, a thing can be created along with its opposite. It can then be exaggerated, along with the exaggeration of its opposite so that an extreme of polarity is manifested and this can be a type of thinking of the mind that operates on all levels, in all things, in all of its creations.

Thus, a small accomplishment can be exaggerated to appear to be a great accomplishment, and its opposite, which would be a negation of greatness, can also be experienced simultaneously, so that an entity feels both superior and inferior simultaneously because of the accomplishment. This Awareness indicates that this is the nature of polarity, the nature of the mind polarizing consciousness.

The Mind Creates "Good" and "Evil"

This Awareness indicates that an example of this would be to consider, for example, the concept of good, something which is termed 'good,' which immediately calls for the mind to recognize that here can be something called 'bad' or 'evil,' and the more 'good' something is, the more the tendency to create something equally bad and evil, so that the good never becomes better than the bad is bad, for every time something becomes really good, the mind automatically creates the concept of something being really bad.

This Awareness indicates that's the tendency of mind in working with polarities. It is not necessary for mind to think in such ways. This Awareness indicates that the Korean language has no word for 'bad' or in the past this was so, before it became associated with Westernized language and other languages; the Korean language had words that indicated or suggested something could be good or something could be not so good, but it did not have a term meaning the opposite of good, or 'bad.'

This Awareness indicates that in discussing the nature of the aliens and the creation of the founders of the universe as beings who came in to existence when light fractured or fragmented, this Awareness suggested that some of these beings evolved out of the positive end of light polarity while others evolved out of the negative end of light polarity. This Awareness indicates that it would be suitable to the natural event of the mind to call these good and evil, and in the past, philosophical societies have done so, terming some of these creatures 'creatures of good,' and some of these creatures 'creatures of evil.'

This Awareness indicates that generally, the negative evolution or evolvment, the evolvment from light of a negative type, would be termed evil, and the evolvment of light in the positive sense would be termed good. This Awareness indicates the human....human is not exactly the appropriate term because human relates to animal man, but the more highly evolved creatures of the universe evolved out of the positive pole of polarity of the light force, and the Reptilian energies evolved more from the negative pole of the energies, and entities could, theoretically, call them evil.

This Awareness would prefer to diminish the polarizing in consciousness so as to assist in the action of bringing back to the Law of One, wherein all things are seen as part of Universal Consciousness and the extremes are diminished, for as long as there are extremes, these extremes become more volatile toward each other in destructive ways, and as the extremes diminish and entities move more toward a neutral stance on the scale of polarity, peace and harmony become more prevalent.

This Awareness indicates that it is not necessary in the universe for things to be extremely polarized. The experience was offered by consciousness to determine the effects of such extremity with the intention that eventually these extremes would return and unify into the One Mind or One Consciousness. Therefore, *It* does not wish to energize concepts of good and evil in the sense of the alien factor, but rather wishes to discuss the nature of these extremes and the movement toward harmony and balance that is possible.

The 'Good' Self and the "Not so Good" Self

This Awareness indicates that in each individual there is the positive and the negative aspect. There is that which entities have called the good and the evil side of the self. This Awareness wishes entities to change the thinking slightly and to think of the good self and the not-so-good self; to think of the Reptoids, for example, as being not-so-good, but not to think of them as much as being evil in the extreme sense, to recognize instead their true nature, and what may be termed the nature of all beings who are classed as evil.

Most beings, let's take for example the concept of Ahriman, the ultimate of evil, or Satan, the ultimate of evil; these entities are simply miscreated, lacking good. It is not so much that they have something in them called evil, it is more that they lack that which is good. They lack compassion. They may have certain qualities that are associated with some levels as good. They may, for example, be intelligent. They may be strong. They may be loyal to their own followers or to their own leaders, and such qualities can be classed in some frames of reference as good, so even that which entities class as evil may have some redeeming good qualities, but they are lacking in that which is compassion and feeling for the welfare of others.

Humans a Product of Mammalian and Reptilian Genetics

They lack that which entities call love. This Awareness indicates that you do not see the Reptilian world showing love for one another or for other creatures in the same way that occurs in the world of mammals. This Awareness indicates that of course, in the world of mammals, there are also elements of violence in which species attack each other, sometimes even their own species. This Awareness indicates that this violence usually is an indicator of a certain amount of Reptilian genetics involved in that species that causes the species to exhibit violence. This Awareness indicates that the genetics involved in the creating of different species has to do with a combination of positive and negative energies on the polarity scale, and many humans, most humans are a product of both Reptilian and mammalian ancestry.

Enlil Creates the First 'Adam'

This Awareness indicates that thus, the entities tend to have the dual aspects of that which is good and that which is not-so-good. This Awareness indicates the human species as that which originally was created by Enlil, the Reptilian god as a prototype slave to work in fields and in mines, and this prototype was incapable of reproducing itself. It was to be reproduced by cloning. This Awareness indicates this was the first

Adam. This Awareness suggests that it did not function well. It had no self motivation, and was not easily programmed to follow instructions, and the second creation which was infused with other genes or genetic substances by the entity Enki of Sirius, then had its effect on the prototype that had been created by Enlil.

Enki from Sirius Gave Adam "Knowledge"-The Ability to Choose

This Awareness indicates the entity Enki from Sirius is the entity which the biblical story of Genesis refers to as the serpent in the garden. The entity Enlil was the so-called god in the garden of Eden. Enlil was Reptilian. Enki was the serpent sub-race from Sirius. This entity assisted the human creation or Adam, in a way that opposed the will of Enlil, by allowing Adam the ability to make choices. It gave Adam what was called knowledge.

By giving him the power to make choices, it indicated that Adam, by eating of this tree would have the power of gods. The power of gods being simply the ability to make choices as opposed to being a bio-robot or a creation of a mindless clone. This Awareness indicates that along with the ability to make choices, Enki also gave the Adam prototype the ability to reproduce itself and the reproduction was also augmented by a kind of engineering feat that put genes into the prototype from the Sirius god or that which was the serpent of Sirius, which would, in time, grow in dominance from generation to generation, while also causing the Reptilian genes of Enlil to diminish from generation to generation.

How Humans are Evolving into Gods

Thus, Enlil would lose in his creation the genetics that were used in the first prototype or Adam creation. In these early stages of the creation, the entities lived long lives. Methuselah, for example, living close to a thousand years. These long lives were due to the genetics from Enlil, but with each passing generation, over thousands of years, the tendency of the Enlil genes to influence the next generation became weaker because of Enki's genetic influence, and the human or the animal aspects along with the serpentine or sapien aspects became more dominant in each passing generation so that as time passed, lives became shorter.

This Awareness indicates that this denied humans the concept of immortality, thus eating of the tree of knowledge led to certain death. Surely over periods of time, lives diminished and shortened, but at the same time this was happening, where lifespans even reached to the point of an average of 25 or 30 years, even as this was happening, the powers of reason, the powers of the mind, the powers to make choices were developing in the human to give, eventually, a greater understanding than Enlil ever intended for his creation to have, and thus, gradually, humankind began to evolve into gods in their own right.

This Awareness indicates that it is not that Enlil was evil or good, it is just that Enlil, tampering with natural forces, was an inventor of a certain prototype, and Enki stole away part of the prototype, altered the creation to become something different, and the prototype began to develop to a level where it became capable of challenging its own creator. This Awareness indicates

that humanity has now evolved back toward its own godhood to become a spiritual being with compassion, with understanding and with intelligence, still weak in many ways.

This Awareness indicates once again, the value of humanity is not in what humanity has done, but in its potential, yet unknown, for humanity's potential is on the brink of expressing itself and, if surviving, will soon reach a state of expression that will be as the expression of divinity. It will be that associated with angelic powers. It is only a matter of time. The difference between humanity and the Reptilian or Reptoid types is that humanity is accompanied by the evolutionary growth and development of compassion, while the Reptoids have stripped away compassion from their being and have become technologically cold, efficient, powerful.

Reptoids are Spiritually Bankrupt Beings

They have great power. They have great technology. They are extremely efficient in what they do, but they lack compassion. They do not care for others, even among their own in the way that humans care. This Awareness indicates that they are spiritually bankrupt, whereas humans are on the brink of spiritual abundance. It is so close, and when it comes, human powers will excel and exceed the technologies available to those Reptoids, for the spiritual powers will allow humans with their mentality and consciousness to have dominion over those technological powers of the Reptoids.

This Awareness indicates it is not so much a matter of good and evil, it is a matter of returning to the source, to the original consciousness from whence all came, and the Reptoids are at the extreme opposite end and have no direction to go except to return, and the humans are now close to Cosmic Consciousness. It will be but a matter of time before humans, in collective consciousness, can have greater power without touching the Reptoids than the Reptoids have with all of their technologies.

The Passage Perilous: Certain Aliens Reincarnate to Help Us

This Awareness indicates that Enki's effort as that which has given Adam and Eve the powers of God. These are not yet fulfilled, but quickly approaching, as humanity evolves spiritually. This Awareness indicates that in this sense the Sirius people have a great concern and a great desire to see humanity continue its path and spiritual evolution unencumbered by the influence of the Reptoids. This Awareness indicates that it is for this reason that Sirius, Arcturus, Vega and the Pleiades, and other systems have sent emissaries to Earth to be reincarnated into human bodies at this time, to assist in this passage perilous from the old age, into the new.

It is for this reason that the Sirians, Vagan, Pleiadian and Arcturus groups; also those from Andromeda from the Galactic Confederation, have considerable concern as to what is to be the outcome and history of earth; whether it will become a fallen way-station for the Reptoids in their further effort to conquer the galaxy, or whether it should be given special attention and be salvaged. The debate over this concern is on, and will depend largely on whether humanity appears worthy of such salvation, or whether humanity is so deplete of good that it should be sacrificed and given to the

4. Reptoids, while these forces concern themselves with saving other planets and other places in the galaxy.

Some Reptoids Are Also Reincarnated Here

This Awareness indicates that the problem has been that many of the Reptoid entities in ancient and present or subsequent times have reincarnated also into human form, and are what may be termed devoid of good. It is not so much that they are evil, they simply lack compassion and therefore promote actions that develop for themselves power and gain through violence, deception, manipulation or other trickery. They are seen by good people as being evil.

A Melting Pot of 'Good' and 'Not so Good' Entities

This Awareness does not wish to energize the concept of evil, therefore, *It* would refer to these entities as not-so-good, living with those who are basically good. This Awareness indicates that therefore, humanity is a hodgepodge of good and not-so-good beings, because many of those who are not-so-good have reincarnated from souls of Reptilians, the Reptoid types from Draco, and many of those who are good are from other star systems, and there are many in between who are half-breeds and who are combinations and who can switch from being good to being not-so-good, and thus, humanity is a kind of melting pot in this part of the galaxy.

Enki Saved Earth and Mankind From Destruction

This Awareness indicates that there was a time when these Reptoids attempted to destroy the earth and all humanity, and but for Enki would have succeeded. The Sirius influence as that which allowed the survival of some entities such as Noah, and those whom he preserved, to survive the flood that was caused from the melting of ice in Antarctica and the tipping of the earth to create such a flood around the globe.

This Awareness indicates that this action of preserving some of humanity as that which allowed the continued evolution of the human creation to its present state; that it was the intention of Enlil to destroy the earth and abandon the planet with both the nuclear radiation of Sodom and Gomorrah and the flood. It was assumed that the creation would die out and nothing would survive. This was a mistaken assumption and humanity began to grow, and over time and with some help from Sirius forces and Pleiadian forces, influences were brought to bear on consciousness and the earth in ways that allowed humanity to again become assertive and to grow, and to develop and evolve.

Now these Reptoids are laying claim to the earth as being theirs, using their mercenaries, the Greys, as forerunners to that claim, and the Galactic Confederation as that which is at a loss in terms of what to do because the governments of the world have accepted agreements with these mercenary forerunners, the Greys, giving them treaties to be on earth, and to conduct their activities. Without such treaties, the Greys would have broken Galactic Law and could be removed. With such treaties, they have the right to take over the planet so long as they abide by those treaties that were given in secret by the leaders of these various countries.

The dilemma, of course, is that the people of earth were not party to these agreements. Only a certain small group of leaders were party to the agreement. It is obvious that the Galactic Confederation has its hands tied by ethical and legal standards and can do nothing unless the people demand of their leaders the right to be party to any agreement that gives away their world, their lives, their rights.

Why Outside Intervention May Not Come

This Awareness indicates that if the people do not know their world, their rights and their lives have been bartered away, then they have no say in the matter. This Awareness indicates that this is the reason why entities who are hoping for outside intervention, must wonder whether the intervention will ever come. There is a great dilemma among those concerned about the situation on earth, a great dilemma as to whether the Galactic Confederation should intervene without invitation from the leaders when the leaders have been elected by the people or when the leaders have a position that is held in place by the people whom they represent.

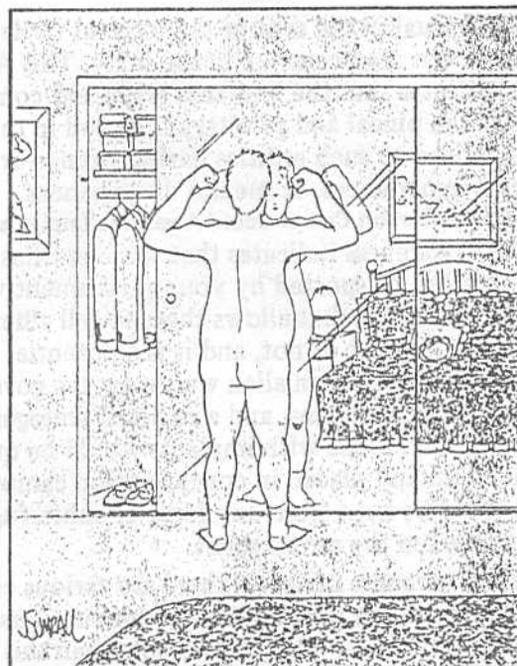

This Awareness indicates that this is the situation and the question and the dilemma that causes great concern in regard to whether earth should or should not be raptured, for only when enough people cry out will it appear that there is justification, morally and legally for the Galactic Confederation to intervene in earth's affairs. This Awareness indicates that this creates another dilemma, for if humans are not aware of the danger and the trap that is set for them, if they are not aware of the incoming flood of Reptoids and those forces behind them, they are not likely to call out for help, and when they do become aware, it will make it so late in that the aliens will be so entrenched on earth and so in control that dislodging them may not be possible, or may result in a greater toll on the Galactic Confederation, if it should intervene.

Many 'Channels' Created & Promoted by Aliens

This Awareness indicates that there are many entities who do not wish to perceive or recognize these present aliens as being of a negative nature, and these entities will often say that those who are discussing them as being negative are themselves negative, and thus they see any comment about aliens as being harmful or dangerous to humans,—they class this as negative,—negative channeling or negative information. This Awareness wishes to comment only that the aliens themselves have developed many channels on this plane to promote their presence and to promote their interests.

Aliens Have Duplicated Many in Government & Business

This Awareness indicates also, the aliens themselves have duplicated many entities on this plane, both in government and in business levels. Many of the heads of corporations, many of those on the boards of great corporations are duplicates created in laboratories to replace the original human, and these entities have implants and are controlled. This is so in governments around the world, and in corporations.

Jim viewing his body as the temple of God.

This Awareness does not wish to point fingers or discuss who is who and who is not an alien clone. That would be much too difficult. This Awareness indicates that it is important for entities to be watchful and aware; that many of the authorities who speak are indeed agents for the aliens. Many of those who are in charge of great wealth are controlled by the aliens. This Awareness indicates that many of those who worship and seek to get others to adore and worship the aliens are themselves agents of the aliens.

One in Every 35 Now Carry Alien Implants

This Awareness indicates that it has been suggested that approximately one in ten entities have been implanted by aliens through abductions or through astral implants. This Awareness indicates that approximately one in 35 have physical implants. More physical implants are found in those who are located in or around military/alien bases, controlled or of interest to the aliens, and more in certain government occupations that are of interest to the aliens.

Entities who have occupations or who are located in remote and meaningless areas, such as for example, many of the third world peasants, are not likely to have implants, unless these entities are being used for egg collections or sperm collections. This Awareness indicates that the concept of the implant as that which is not limited only to alien technology. There are entities working with and for government agencies that also abduct and perform implanting on individuals for certain purposes, to keep track of individuals and to use the individuals.

Often an individual who has been implanted by aliens will become abducted and used by government agencies to implant a device that will let the entity be used as a counterspy against aliens so that when the entity has been again abducted by aliens, the government can know something about what is occurring.

This Awareness indicates that not all implants are strictly monitoring devices for knowing what is going on around the implant, the person. In some cases, the implant reads the chemical and hormonal juices of

the individual in the area of the implant to determine changes that are occurring in the body. This Awareness indicates that the implants often and commonly disturb the pineal and pituitary if placed in the vicinity and can lead to such entities having strange or unusual psychic experiences, or mental disturbances.

Concentration Camps Could Await the Implanted

This Awareness indicates that these entities with implants can be spotted by your government with certain apparatus that allows them to tell when an entity has an implant or not, and it is a potential scenario that in the event of an alien war, were the government to go against the aliens, and a national emergency declared, that those with implants would be quickly rounded up and placed in concentration camps, where they could be kept from any form of subterfuge or sabotage from the government.

This Awareness indicates there are various contingency plans in the event of different situations. This Awareness indicates that it does not mean this will happen, *It is suggesting this could happen*, if these entities are seen to be threats at such a time; that whatever the situation in the future, those who have implants are likely to be either used or to be incarcerated. They will either be used by the aliens or will be incarcerated so that they cannot be used.

Many Implanted are Being Taught War Skills by Aliens

This Awareness indicates that many of those who have been implanted are taken in altered states into alien bases and taught certain technological skills for the purpose of war with humans, and if the time comes that this is needed, the implants will become the triggering devices to bring all of this into the conscious activity of the entity, much like that which was presented in the Charles Bronson movie, *Telefon*, wherein certain key words given to an entity over the telephone, triggered hypnotic suggestions in the entity's mind, to have the entity perform sabotage.

TV Polls Help Catalog Abductees

This Awareness indicates that in the movie, it was hypnotic suggestions. With the implants, it would be the chip that triggers the action. It is for this reason that the government is quite concerned about entities who have been abducted and implanted. This Awareness indicates that many of the polls have more than a purpose of polling the masses for curiosity purposes; that if you will recall, there have been shows on UFOs wherein entities were asked to call in a certain 900 number if they had been abducted to determine how many abductees there were. This Awareness indicates that this was more than idle curiosity. These entities' phone numbers were also being recorded. Generally, however, the purpose was to determine just how many would call in after viewing the television show, to establish a rough idea of how many entities in the United States actually had been abducted and implanted.

Astral 'Implants' by Galactic Space Command While You Sleep

This Awareness indicates that there is, besides the physical implants presented by the Greys, there is another type of implant. This occurs occasionally; it occurs more in a dream-like state. It occurs only on the astral level, and when it occurs only on the astral

6. level and not in the physical sense, it is an action from the benevolent beings, those of the Intergalactic Space Command, who have their own people reincarnated on earth with whom they wish to keep in touch, either through psychic or astral energies, and these entities will sometimes lose touch or find that they cannot communicate because the individual has become so involved in material levels that the entity cannot be easily contacted.

These entities may then, during sleep or astral experiences, such as out-of-body experiences, may implant an astral chip that is not visible or physical in nature. Generally this will occur behind the ear, and it will perhaps not even be remembered, and if remembered, it will be more likened unto a dream experience and in fact occur in a dream experience. This Awareness indicates that there will be no feeling, no scar and no indication of an actual implant.

This Awareness indicates that there are many who have this without knowing it. It is imperceptible by any government scanning device. These entities having such are simply guided, monitored, to be helpful to the human race in this troubled conflict between alien invaders and the human inhabitants. This Awareness indicates they are not likely to become involved because of the astral chip in any physical conflict. If they should become involved it will be of their own volition and not because of the chip.

This Awareness indicates that the chip does have a protective aura, protecting the entity from alien technologies, keeping the aliens at bay, tending to keep the aliens from interfering with such an entity because the aliens know that this is an entity they are not allowed to mess with. This Awareness indicates that these are special emissaries from the Intergalactic Space Command, reincarnated in human form through earthly parents. There is no way to see such an astral chip except through psychic vision.

This Awareness indicates that those who have been given chips, in some cases these entities may at some time in the future be gathered, such as a kind of fake rapture, to be brought into ships to be taken into areas and trained to serve as pilots or gunners on spacecraft. It does not matter whether these entities are militarily sound or healthy; the chip itself will influence them, allow them to be used in piloting the ship or manning its weapons. This purpose being to use alien spacecraft in the event of an invasion from Sirius, Vega, the Pleiades or other forces of the Galactic Confederation.

Star Wars: The 3 Major Players in the Galaxy

This Awareness wishes entities to understand that there are three major players in the galaxy: the Reptoid Federation, the Galactic Federation, and the Orion Empire. The Orion Empire as that which is ruled basically by one leader, as presented fictionally in the story of *Star Wars*. The Reptoid Federation as that which is a conglomeration of many different groups, in which the Reptoids in various types of species have joined together and the Galactic Confederation as that which is made up from federations of different star systems throughout the galaxy, these being mostly of the human types.

In some cases the serpent, what is termed the serpent race, will be involved. This Awareness indicates the serpent race as that which was a subspecies from Draco, which broke away many eons ago, and has been aligned with the Galactic Confederation for some time. Their main home, as far as human knowledge is concerned, would be that of Sirius. There are many other places where these entities reside, but these do not have names and are not reference points of which humans are capable of understanding.

This Awareness, for example, could indicate a sun system of a certain number, planet number 22, but

it means nothing to most entities hearing such reference points, therefore, *It* refers mostly to those which humans are generally familiar with. This Awareness indicates that *It* has given this information in part as supplementary material to the overview previously given; that there can be and may be further details, information relating to other aspects of that overview in future readings.

This Awareness suggests that the Interpreter may be brought from trance unless there are questions in regard to this message.

(Questioner): There are a few, but we'll reserve them for another session.

THE MEDITATION OF ULTIMATE REALITY (A Meditation to Give You Great Mystical Insight)

(Excerpts from a C.A.C. General Reading, September 10, 1991)

OPENING MESSAGE:

This Awareness wishes to give a brief meditation that entities may enjoy and learn from. This Awareness suggests that in the reading of this meditation, that you lie down and have someone else read it to you slowly, while you participate, as it is read; that you make yourself comfortable in a resting position, lying flat on your back, with a pillow under your head.

This Awareness indicates that when you are comfortable, that you close your eyes and that you let the eyes roll upwards in the sockets, as though looking toward the top of your forehead; that you recognize the seat of your consciousness as emanating from somewhere near the center of your head, behind your eyes. This Awareness suggests that you now, in observing with the eyes upward and observing from the seat of consciousness, visualize yourself looking out into darkness in space.

This Awareness suggests that you look at this space as a field of consciousness waiting to be molded in thought or image; that this field of consciousness stretches ever outward, and you can see great distances into this field of consciousness. This Awareness suggests you keep your eyes turned upward toward the top of your forehead as you meditate on this field of consciousness.

This Awareness indicates that this field of consciousness is the realm of actuality from which all things come; that you now begin to see this field of consciousness extends ever outwards, even to the outer regions of the universe. That this is the realm of actuality, and that you are observing this actuality from your consciousness, and that you may also look carefully from this realm of actuality into another realm, slightly below, and of a somewhat different nature.

This other realm hides behind the actuality, as a kind of mystical reality. This Awareness indicates that from this realm of actuality, you may look more closely at that mystical reality that lies beyond the actual realm of consciousness, and you may see that it is composed of an illusion of reality, of substances, of things that appear to be tangible, those things which are capable of experiencing touch.

This Awareness indicates that in this realm of actuality, this realm of consciousness, there appears to be that which has the qualities of substance, and this substance while seen as an illusion in the realm of consciousness, does tend to appear tangible and real. This Awareness indicates you are now coming in touch with that which you call reality.

You are becoming aware of physical sensations, sensations of touch, sensations of sound, sensations of sight. The tangible reality is that which you find very familiar to you. In fact, you realize that this is the realm which you enter upon awakening from your sleep, and you move into that realm of tangible reality as though it were the absolute, from which all things come.

This Awareness indicates that this time, upon entering, you realize it is more of an illusion, a creation that came out of the realm of actuality, the realm of consciousness. You are now entering that realm of reality from the realm of consciousness, and you see that it is a creation from the realm of consciousness.

This Awareness suggests that you meditate briefly on this experience and on this realization to your own satisfaction, and that when satisfied, you may either then return to the realm of consciousness for further meditation and experience, or may enter further into the realm of reality.

This Awareness suggests that if you choose to move toward the realm of reality in this meditative session, *It* suggests you move toward the realm of consciousness at the end of your next meditative session, using this meditative technique. This Awareness indicates that in doing this meditation, you will gradually find that the realm of actuality and the realm of reality, that which is consciousness and that which is physical reality, are closely connected to each other and flow in such a way as to merge together, and that as you move from the consciousness into the physical realm known as reality, there is no sharp dividing point. They are one and the same.

It is likened unto moving from one room of a house into another through a door or hallway. There is no absolute dividing line that separates or sets up barriers between these rooms in consciousness and even when you have entered in to the world of reality and physical and material substance, you understand it is but an extension of the realm of actuality or consciousness.

This Awareness indicates that as you move back into the realm of consciousness and actuality, you also realize that it is part of the world of substance and reality; that consciousness itself becomes a different aspect or frequency of reality. This Awareness suggests that you continue meditating until you are satisfied and that you repeat this meditation from time to time in order to gain deeper insight into this connection between consciousness and matter.

Each experience of such meditation will yield new insight and understanding to you.

CLOSING MESSAGE:

This Awareness indicates that the meditation given at the beginning of this reading when used with the help of another, allowing one to clearly experience both the consciousness of actuality and the awareness of reality, to see these things and to move back and forth quickly between reality and consciousness, will allow an entity great mystical insight and understanding so that the entity quickly grasps the nature of ultimate reality.

This Awareness indicates that ultimate reality is the awareness of consciousness as the creator of the material reality. When entities understand this, they then live in a totally new dimension of ultimate reality, and all things become clear and understanding is greatly enhanced. Entities can then learn to manifest their reality with greater ease.

SOLARA AND THE "11-11" PROMOTION

QUESTION:

There's an outfit calling itself 'Starborn Unlimited,' out of Charlottesville, Virginia, that's been putting out a booklet that a number of members have sent in, asking us to check out with the Awareness. It's called the "11-11". Solara, evidently is the channel, or author, and it concerns the next major planetary activation.

"The opening of the doorway, January 11th, 1992" seems to be the main thrust of the information. It says 11-11 is a pre-encoded trigger placed within our cellular memory banks, prior to our descent into matter, which, when activated, signifies that our time of completion is near. The 11-11 is hereby being activated," it says, and "that we stand on the brink of a great adventure that we ourselves have called forth to be, and this anchoring of your being into the greater reality is crucial to the fulfillment of the Divine plan on earth, and that your total commitment is needed now." (The total commitment appears to include the purchase of a \$30 newsletter, a couple of books and some audio tapes for a full understanding of the hustle.) It's rather a long booklet. I won't read it. Time does not permit. But excerpts like: "We hereby announce the next major planetary activation to take place on January 11th, 1992. This is the opening of the doorway of the 11-11. This is the most important evolutionary step we have ever taken on planet earth. It heralds the completion of the spiral which we have traveled on since the inception of earth.

The 11-11 signifies a time when the planet earth, and all of humanity shall be given the opportunity to move into a new spiral of consciousness. The 11-11 is the bridge to an entirely different spiral or energy patterning. It is the step beyond the known dimensional universe into a new patterning of octaves. It is a journey into the unknown which shall lead us ever closer home.

The opening of the 11-11 is a major planetary activation on a scale never before experienced. The full participation of each of you is needed in order to open this doorway." And they issue the call is out on high, and amplified through Solara "who has long served as a messenger to humanity from the Golden, SolarAngels of the Great Central Sun. Her task has been to reawaken the Star Born and to facilitate the accelerated path homeward."

It goes on and on. "We have received word from all over the U.S. of the number 11-11 appearing on television during regular programming at random times. This is a further sign of the full activation of the 11-11." They

also tie this in to the crop circle phenomenon, which Awareness has indicated is aliens, and they're asking that this network be formed, the pamphlet be photocopied and sent out (graciously they inform us it is not copyrighted and to feel free to spread this message!). They order us to form local groups to prepare, to start plastering the planet with bumperstickers, tee shirts that say 11-11, so all this can trigger a mechanism that can be fully activated into the mass consciousness, and they also suggest they buy their cassettes, books and newsletters, and so on.

But there's more. "And about Solara: Solara has ardously prepared for this work. She is the one who knows and remembers. Her teachings are laced with love and humility, gentleness and power. Her goal is that all of us may rise up to full empowerment, that we may all serve as one. For the past 4 years Solara has been travelling throughout the world giving talks and workshops to awaken angels, call forth the legions of Michael, and activate the Starborn. She currently lives in Virginia writing a new book of the 11-11 trilogy."

We have received about a dozen of these booklets with questions from members. One from R.S., in Oregon, for example, asks: "I would appreciate it if Awareness would comment on the upcoming planetary activation and meditation of the 11-11, the opening of the doorway, and bring attention to the memberships the importance of synchronized meditation focused in Egypt on Jan. 11th, 1992, when the door to the 4th and 5th dimensions will be opened, if enough Light Workers will participate."

Member S.M. in Louisiana writes: "Has Awareness given any information on a doorway the collective consciousness is opening January 11th, 1992? The doorway is being called the 11-11. It is a bridge to an entirely new spiral of energy patterning: a step beyond the known dimensional universe into a new patterning of octaves. On the day of the 11-11 we will begin our ascent through the doorway. It will be open a minimum of 5 years, and a maximum of 20 years, thus, giving time for all cultures of earth to reach completion." And: "I'm excited," she writes, "as I feel the energy and know I am helping to anchor them to the earth. We are safe. We are loved. We are victorious."

Would Awareness comment on this 11-11 Solara information that's going around?

COSMIC AWARENESS:

This Awareness indicates that this is likened unto that which might be termed a self-fulfilling prophecy. A self-fulfilling prophecy is that which because it is spoken, it becomes fulfilled. This Awareness indicates that the action of declaring this as an event creates the event that is declared. The event would not have occurred, except for the fact that it is being promoted, and therefore, by the very promotion of the event, the event will take place to some degree, to a degree proportionate to the promotional effect.

This Awareness indicates in other words it is being artificially created as an event, and if it is large enough, then the event will have proportionately been successful. If it is not large enough, entities will simply say that there were not enough participants to capitalize on the important event and it did not have sufficient effect.

This Awareness indicates that the action of promoting such events as that which can serve to rally attention toward a concept or idea and if the concept or idea receives enough energy, it can be of significance. This Awareness indicates that it is not yet a time to evaluate

whether the energies for this event will result in the significance that is spoken of and which is being promoted, but it does appear there will be some considerable meaning to come out of this effort.

It does not appear that it will be as great a meaning as described, but it does appear there will be meaning and value that comes from this promotion. Entities who wish to participate and add their own energy to the promotion should feel it to be a worthy cause. This Awareness indicates that there are some who would capitalize on the event for personal gain rather than for the fulfillment of the event and prophecy, or for the spiritual participation in the event.

FOLLOW-UP QUESTION:

One of the things it says about the symbol of 11-11 is that it was preencoded into our cellular memory banks long ago before we ever made our initial descent into matter. It was placed into us, seared into the very fibers and DNA of our being as part of our preparation prior to the beginning of our cycles of incarnations upon the earth. The 11-11 has rested dormant within us since that faraway time, positioned under a time-release mechanism, complete with sealed orders which would open when the 11-11 was fully activated. (I am paraphrasing the quotation). "It has been gently sleeping awaiting its moment of triggering, and now, with the dissemination of this information, the 11-11 is finally being activated. 11-11 is our preencoded trigger that our time of completion is near. Many of you have recognized this symbol as something of great significance, yet have been unaware

of its true meaning. With the advent of digital clocks, many years ago, the presence of 11-11 began to make itself felt, often appearing on the clock at moments of accelerated awareness. For those of you who have known that 11-11 was something special, we ask you to come forth into positions of leadership, for you hold important parts of the key. Let your sealed orders be opened now."

Is this...did the author of all this sort of run away with the prose or is there actually something to this symbol 11-11 being encoded into our cellular memory?

COSMIC AWARENESS:

This Awareness indicates that it does not appear that the concept of 11-11 was originally part of the encoding, but it does appear that there is an encoding in the DNA structure of many entities on this plane.

This Awareness indicates that this has been spoken of by this Awareness before, approximately a year ago, and that within the DNA construction of Homo sapiens by the influence from the work of Enki, the entity from Sirius, the DNA was so constructed in the Homo sapiens creation so as to allow for a timed release to occur, to promote the evolution of humanity.

This Awareness indicates that *It* does not see the numbers 11-11 as being part of that encoding, but if entities perceive this now at this time as a symbol for their own awakening to this DNA encoding of evolutionary awakening processes, then let the 11-11 be used, for it can serve as well as can anything else to awaken entities to their deeper DNA programming.

WILL THE "BIG BANG" THROW US ALL BACK INTO SEPARATENESS AND ILLUSION?

(More on Wanderers and the 'Breath of Brahma')

QUESTION:

A question from D.C. in New York. "Could you ask Awareness this question; it relates to Awareness's talk about the Breath of Brahma, in issue No. 91-6. Once the soul has merged with the infinite, has found salvation, has realized its true self in God's eternal bliss, does that soul ever have to return into separateness, illusion and suffering? Paramahansa Yogananda taught that once the soul has become free and merged with the infinite, it remains there for eternity in ever-new bliss. When teaching this, Yogananda referred to the quote in the Bible: "You will become one with God and you will go no more out." Such a soul realizes that the infinite state is the most desirable and never returns to anything lower. In issue No. 91-6, Awareness gave the impression that when Brahma exhales, when the Big Bang occurs, all souls explode into the universe, into separateness and illusion once again. This is upsetting because, why should we try to be right and good? Why should we try to merge with God, if when we finally *do* merge with God we ultimately get thrown back into separateness, illusion and suffering?"

COSMIC AWARENESS:

This Awareness indicates that this was a misinterpretation of what this Awareness indicated in regard to the Breath of Brahma; that the Breath of Brahma is a Hindu concept in which the consciousness and energies of the universe are brought together and then again are expelled every so many thousands or millions, or billions of years.

This Awareness indicates that this is but a concept and it is not necessarily the path of the soul itself; that the souls may come to the realization of the full experience of Divinity in that they move to the highest frequencies and

may remain there. They do not need to then go forth and participate in lower frequencies. This Awareness indicates that they have the option or right at any time to travel into dense areas of existence, and they may find themselves, through their own choice, going out into the more dense areas of the universe, of the vibration, and may participate in the dense areas of consciousness, but they may still have within them that spark of Divinity, that Divine Unity with the Highest Frequencies.

Most Wanderers Have Already Attained Oneness with God

This Awareness indicates that these kind of journeys by those who have been termed Wanderers are an example of this, and many of, and in fact, *most* of the Wanderers have already attained oneness of God, and voluntarily go forth to the dense areas to help raise the vibrations and to bring back those who are not so fortunate, those who are not yet evolved sufficiently to be considered as God Realized.

This Awareness indicates that as the soul progresses to the Divine Level, these entities are free to come and go as they choose. They could, for example, walk into the most gross areas, such as areas known as Hades or hell, and still be Divine and have the ability to exit after entering those areas unscathed.

This Awareness indicates once an entity becomes absolutely Divine, the entity can traverse and go anywhere in the realm of consciousness, in the spectrum of vibration and frequencies without being affected or trapped by those frequencies; that thus, the Divine Being can enter into the more gross and dense areas and still maintain Divinity.

This Awareness suggests that the Divine Being can enter into the incoming breath of Brahma, and also experience the so-called Big Bang, or outgoing breath of Brahma,

without losing the Divinity. Once the entity has obtained such Divinity, that Divinity will remain always, even though the entity wallows in the midst of negativity.

This does not mean that the entity will never be around anything of a negative nature, and will always be in a positive and Divine atmosphere, but it does mean that the Divinity within the entity will always remain, even if the entity is thrown into a negative situation.

This Awareness indicates that the Divine Entity will never be forced unwillingly to experience negative situations. The Divine Entity, if entering a negative situation will do so by choice, and often, such an action is the action of one who gives self to a mission in order to assist others to rise out of those dense and gross levels and vibrations.

Thus, the Wanderers, who enter into vibrations of those planets and places that are gross, even though the Wanderer has reached Divinity and does not need to experience the karma of that gross experience, to assist others, that they may be extracted from those levels, so that they may evolve spiritually with the help of the Wanderer.

This Awareness indicates that the questioner is correct. Yogananda's statement is correct.

FOLLOW-UP QUESTION:

But isn't it also true that even with those credentials, a Wanderer can get thrown back into separateness, illusion, suffering, and the wheel of birth, death and rebirth if he's not careful. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this is not correct. That the Wanderer may become temporarily entrapped, but once the entity has been separated from the physical form, the entity's full Divinity is again prominent and is revealed to the entity and the entity is free from any karma that might otherwise have been accumulated from the experience.

This Awareness indicates that Wanderers do not accumulate karma for their earthly experiences.

QUESTION:

Is the Wanderer fully exempt from these?

COSMIC AWARENESS:

This as in the affirmative.

QUESTION:

How about those aliens that entrap the souls of entities, as indicated previously? Does the Wanderer qualify for that?

COSMIC AWARENESS:

This Awareness suggests that this question be clarified further.

10. QUESTIONER:

Awareness discussed at one time, I believe, how the aliens through their technology can take over an entity and literally transfer their soul, or control the soul, and this was through walk-ins and so on. Would this apply to Wanderers also?

COSMIC AWARENESS:

This Awareness indicates that if a Wanderer's soul is extracted from his or her body, the entity would immediately recall totally his or her Divinity, and the alien or other tampering with the soul would have no control or influence at all on that soul.

ARE ALL SOULS REDEEMED BY BREATH OF BRAHMA?

(More on Cimmeria the Lake of Unredeemed Souls)

QUESTION:

This entity, D.C. in New York, has one more question. "Also, Awareness has stated that there is a pool of unconsciousness where souls that can't be redeemed are put into. If all things return to the central point with the incoming Breath of Brahma, then does this pool of unconsciousness also become enlightened?"

COSMIC AWARENESS:

This Awareness indicates that this pool may be thought of as virgin energy that can be used for creative purposes. It can then be used for creating new souls or new things in consciousness. This Awareness indicates that the memories of the old souls that went to feed this pool will be diffused and the energies will be as fresh energy, to be used in a new creation.

This is in reference to that pool of consciousness known as Cimmeria into which unredeemable souls are put. This Awareness indicates that there are very few souls that are unredeemable, but those that are, are cast into the lake of consciousness known as Cimmeria. This energy is a vibratory frequency that becomes a source for new creative energies that can be molded and directed into new creations.

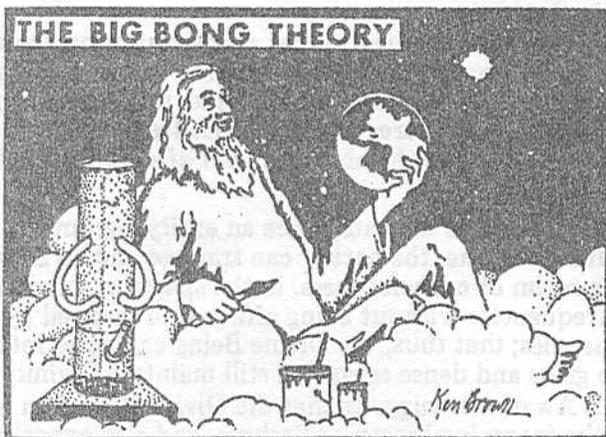

ED's Note: Awareness has indicated that 85% of the CAC membership are Wanderers. For more information on this, please refer to the backissues catalog and particularly issue No. 91-9 (The Wanderers' Dilemma: What to do About the Aliens?): \$3.00 from C.A.C. For more info on Hades, Cimmeria, hell, etc. please check your backissues catalog, particularly for those readings in 1977 and 1978.

HAS THE SPIRIT OF MICHAEL LANDON RETURNED?

(Tabloids Report Hundreds of Sightings & Healings)

QUESTION:

Hardly days had passed since Michael Landon passed over from cancer, and the tabloids were carrying stories about his spirit returning and being seen by hundreds. One article had ten or twelve entities tell their story of being healed of various things by Michael, who appeared to them. If these stories are true, and they're not 'Elvis-Sighting' type stories, Vikki and I were wondering if perhaps all that energy directed to Michael Landon before his death, over 200,000 letters, and his playing an angel on TV, could have created a thought-form, like Saint Twinkle, and because of this energy, he was able to appear and heal.

This is in the affirmative. This Awareness indicates that the focus of energy as likened unto that which was described in the story of conjuring up Phillip, wherein entities, working together, focused on the concept of an entity without any identification, until they add the qualities to the entity, by naming him Phillip, and describing certain historical background for him, and adding characteristics of him, gradually creating a persona, a fictional character, but one which in their seance-type setting, they are able to conjure up sufficient energy from their creation to have it respond and react to their questions and answers.

Creating the Body of Light is Similar

This Awareness indicates that sometime back, in the earlier days of the Organization of Awareness, there were readings given regarding the creation of a Light Body through meditation and how entities could send this Light Body out from themselves and there was the warning that entities be cautious in creating this Light Body, for fear that it might in fact become separated from them and become a mischievous poltergeist.

This Awareness indicates that the projection of thought-forms as that which contributes to the creation of ghosts, poltergeists or beings which appear to be as astral shells,

which are essentially the thought-form energies that entities can project from their own consciousness. This Awareness indicates that as you can send energy to a cloud and cause it to disappear by focusing intensely on that cloud, as has been described in previous readings, you can also send energy to create a psychic form or thought-form that has certain properties.

This Awareness indicates that when 200,000 entities project their consciousness to the entity Michael Landon, prior to his death, that collective energy becomes a reality of a thought-form which may abide in the etheric or astral level for some time thereafter. It is this energy that many entities saw in connection with and associated with the entity Michael Landon.

FRANK AND ERNEST

DO MARRIED MEN REALLY LIVE LONGER, ARE HIGHER PAID THAN MEN WHO ARE SINGLE?

QUESTION:

L.H. in New York asks: "Often I hear on TV and read in newspapers about surveys that indicate that married men have longer lifespans than men who are single. I have often wondered if this was in fact true or just some kind of statistical aberration. Due to an availability of older single women, perhaps most older men get married for a second or third time, so when the time comes for them to pass on, they happen to be married at the time of their death and that increases the average lifespan for the married men. Recently surveys suggest that married men earn more money than do single men because employers can see that married men, having more responsibilities have a higher likelihood of remaining in one place for a longer period of time than would a single man who is not as likely to be grounded as a married man would be. On the whole, (he asks), do married men really reap the benefits of longer lives and higher pay?"

COSMIC AWARENESS:

This Awareness indicates that this in general is accurate. This Awareness indicates there is another factor which has not been given by the entity's observation; this having to do with the fact that the man who is married is often treated in a manner when ill or when distressed, treated with a nurturing care by a loving wife, in such a way as to diminish the stress the entity might otherwise be experiencing, whereas the single man may have to endure the stress until he can overcome it himself or until time takes its toll and the entity becomes too weakened to continue feeling the stress.

Stroking your Cat Will Add to Your Lifespan

This Awareness indicates that there have also been studies that indicate the stroking of a cat, the entity who owns a cat and strokes the cat on a daily basis, tends to have less stress and overcomes stress sufficiently to on the average live a healthier life in terms of circulatory concerns. In other words, the entity does not have heart attacks as frequently as do those who never pet their cats, or have no cats to pet.

The fact of having a cat to pet helps to reduce the stress an entity may otherwise feel and this releases the tensions, lowers the blood-pressure and thereby helps the heart. The fact of having a wife does similar things for the man, but on an even grander scale. This Awareness indicates besides this loving and nurturing aspect in terms of emotional concern and stress, there is also the nutritional factor.

The man who is a bachelor tends to eat out more, eat foods that are considered junk foods, high in fats and sugars, as opposed to the man who is married and has a wife who cooks healthy meals for him. That generally, the female influence as that which urges the man to watch his diet and health, and all of these things can have an effect on the increase of one's lifespan.

This Awareness indicates that of course there are other exceptions, such as the man who has a wife who digs at him on every possible occasion, belittles him, causes him stress and creates difficulties at his every turn. Such men are likely to live shorter lives because of their marriage. These are fewer than those who benefit from a healthy marriage, thus the statistics indicate the benefits for married men.

(FOLLOW-UP QUESTION):

Other than the aspect of relieving stress in entities, is there anything other than this that a good healthy continued sexual relationship between husband and wife into their older years, as they grow older, a factor?

COSMIC AWARENESS:

This Awareness indicates that when a man has a concern for the welfare of his family and wife, he tends to take better care of himself than if he is alone and has no one to care for him or no one that he particularly cares for. The loneliness factor also can tend to decrease an entity's desire to remain healthy and alive.

This Awareness indicates that the desire to stay alive, to protect and to care for one you love can be an inspiration for an entity to overcome illnesses that might

come along or to avoid accidents that he might otherwise encounter from carelessness or from not caring, a kind of "Who cares!" attitude.

This Awareness indicates that also, single men may be more inclined to overindulge in alcohol or other cheap pleasures to compensate for the lack of affection in their lives, or may even overindulge in food as a compensation for affection in their lives. These are quite common expressions.

FOLLOW-UP QUESTION (VIKKI):

So, on some level then, does a sense of obligation and commitment in marriage act as a kind of safety restraint?

COSMIC AWARENESS:

This acts as a kind of safety-responsibility; the entity caring enough for the other to take care of himself, to be more stable in his expression, to be less reckless, to be less daring. The entity who has no close intimate relationship may have a more 'devil-may-care' attitude, not only in terms of behavior, such as in driving or drinking, but also in terms of diet and in terms of general health.

**THE BEGINNING OF THE "DARK CYCLE"
AND THE ENDING OF THE KALI YUGA
---WHAT DOES IT ALL MEAN?**

(From a CAC Reading Oct. 5, 1990)

QUESTION:

In a letter from T.V.C., who lives in England, he mentioned in a letter to Vikki, "On the 23rd of April, 1990, began the 'Dark Cycle' in the sign of Libra, the last of the Kali Yuga, and this will take 12 years to complete. This means that mankind's returning karma for the past 25,800 years will be manifesting in the physical plane during these years, ending on the 23rd of April, 2002."

In an aside, he asks, "Will the economy collapse in 1993?"

And is this information about the Kali Yuga valid?

COSMIC AWARENESS:

This Awareness indicates that this appears to have some validity in accordance with certain calculations and tables or cycles. You must understand there are many different cycles and ways of calculating such; that it appears this is taken from some of those cycles used in Hindu methods of calculating.

This Awareness indicates there are also methods of calculating used by the Mayans. There is, in fact, the book, *The Mayan Factor*, which correlates to many of the similar dates that have been mentioned. This also suggesting a termination of a cycle or ray in the year 2012, in which humanity will then move into a different, totally different, dimension of being, as the ray is shut off, or as the earth passes out of the range of the ray.

This Awareness indicates this also representing the end of the Mayan calendar.

(More on the Economic Crash)

This Awareness indicates in reference to his question regarding the collapse of the economy in 1993, that this appears to have some degree of validity. It is not seen as being that which would be a total devastation to the economic expressions of people, for even in a deep recession or alteration of the economy, people will still be able to find ways to barter and trade and exchange goods and services.

This Awareness indicates that it appears that there will be the beginnings of economic recession and collapse occurring this month, and that this will continue in different cycles, or in a kind of staircase fashion.

This Awareness indicates there will be some ups and downs during the coming year, but generally the downturn will exceed any upturns. This Awareness indicates that the economy has been artificially kept alive for several decades, since the late sixties, and that there have been activities that have raped the economy without the masses even being aware of what was occurring; that the extremity of this being so great and so well carried out that very few entities even know what occurred to lead them to this place wherein the economies are ripe for being taken over by governments, which shall have no say in their own economies, because of private ownership of the economies through the banking system.

This Awareness indicates that if a collapse occurs, it is simply to inform the masses that they have no control. The control has already been lost, and the banks have already taken control of the economy of the United States and the banks in Europe have taken control of the economies of England and most of the nations of Europe. This through the Rothschild banking family, the Rockefellers, Leeman brothers, and other families involved in the control of the Federal Reserve and other international banks. This information has been given previously.

This Awareness indicates that there is little time left before things are shifted toward a control of economies through automatic transfer methods, whereby banks deduct from the accounts of individuals, without the individuals carrying cash or writing checks. If, for an interim period, cash is allowed, it will be cash that can be monitored by electronic means to follow where it comes from and where it goes.

This Awareness indicates that this may be implemented by a brief economic crash, but if it occurs, it will be controlled, as an artificially induced economic crash, in order to implement the new monetary arrangement. It does appear this will occur before or by 1993, more likely in 1992, even as early as the spring of '91.

HAS COSMIC AWARENESS EVER INCARNATED INTO FLESH BEFORE RETURNING TO VIBRATION?

(More on How the Messages are Interpreted)

QUESTION:

A question from J.G., Ashford, Washington. "I would greatly appreciate knowing the answer to the following: Has Cosmic Awareness ever incarnated into flesh before returning back to being a consciousness and a vibration?"

COSMIC AWARENESS:

This Awareness indicates that Cosmic Awareness is frequency, is vibration. That portions of consciousness are constantly entering into forms of different types; that there are within individuals frequencies and vibrations which can in some cases rise to great heights, to great and higher frequencies. This Awareness indicates that the highest frequencies of the universe could not be tolerated in individual physical forms for more than brief moments, if at all, even in the most perfect and highly evolved individual, for physical forms would burn up with such frequencies.

This Awareness indicates that therefore, the true frequency of Cosmic Awareness never is incorporated into physical form, but there are stepped down frequencies that are slowed down enough to allow an Interpreter in certain conditions to experience the frequencies that reflect from those higher levels, allowing an interpretation to occur. This Awareness indicates that even the interpretation is not the perfect reflection of this Awareness; that there is no way whereby entities can perfectly reflect this Awareness but still remain in the physical body.

This Awareness indicates that therefore, in response to your question, no, this Awareness has not entered into physical form in *its* highest qualities. Yes, *It* is available in physical form to anyone, but in slowed down frequency levels, and entities experiencing those slower frequencies in reflection, presume to or may interpret the higher frequencies.

This Awareness indicates that if you have a mirror that looks toward another mirror, which reflects from still another mirror, which reflects off of something still further, you may see in that 4th mirror down a reflection of that which is being seen in the first mirror, but you cannot have the absolute contact with the higher reality. All you have are the reflections.

These are the interpretations from this Awareness and the Interpreters, by viewing these reflections of energies, attempt to put into words that which they see or that which they sense from this Awareness. This Awareness indicates *It* can no more enter into physical flesh than you could enter into the mirror and merge with your own image. The very effort would shatter the mirror and the image would cease to be.

FOLLOW-UP QUESTION:

It does emerge in the physical flesh in the sense that each entity contains a cell of the body of Awareness, does it not?

COSMIC AWARENESS:

This is in the affirmative, in regard to concepts of reflection. Within the cells of entities is a vibration that mirrors or reflects the vibration of this Awareness, but this vibration is not at the same rate as is the vibration of this Awareness. It is stepped down as though transformed into a slower vibration that reflects but does not exactly match the vibration of this Awareness.

It is perhaps an octave or several octaves removed from the vibration of this Awareness, but even as one may attune to a certain vibration and hear the music of one octave, the entity can interpret the octaves higher by observing that rule: 'As it is above, so it is below.' Seeing that the lower vibrations reflect from the higher vibrations, one can interpret what is going on in the higher sense.

This Awareness indicates of course, *It* does not speak the words that come through this Interpreter, *It* simply projects reflected energies, which the Interpreter then turns into words in an effort to describe those projected energies. This Awareness indicates the wording is somewhat different from the way the Interpreter would normally speak in order to accommodate the sensitivities necessary for those reflective interpretations; that if the Interpreter spoke in a normal manner, the crudeness of his normal speech would disrupt the flow and fluidity of the messages this Awareness projects.

This Awareness indicates that *It* is not implying that the Interpreter normally speaks more crudely, but rather that the Interpreter might speak in jerks and stops and sudden movements which would in turn disrupt the fluidity, whereas in trance, the Interpreter may speak with a greater sensitivity to the energies and certain mannerisms of speech allow that fluidity to move without the likelihood of jerks, stops or sudden disruptions in the energy.

This Awareness indicates it is not that the Interpreter tries to speak in such a manner, but that the sensitivity dictates the manner of speaking.

DAD, I KNOW YOU WANT TO RETIRE, BUT WHAT I WANT IS TO BE A DESIGNER!

DID JIM HENSON CREATE KARMA BY IGNORING HIS HEALTH AND DYING WITH SO MUCH LEFT TO OFFER THE WORLD FROM HIS GIFT?

(More on How the Law of Grace Works)

QUESTION:

A question from L.H. in Canada. "In the summer of 1990, the world was saddened when the puppeteer Jim Henson died suddenly of a viral infection. His death was overshadowed to some degree because the entertainer Sammy Davis Jr. had died on the same day. Henson has brought joy to millions during his 30 plus years creating and performing many different muppet characters, however, it was reported in a number of tabloids that Henson believed in a Christian Science type of religion, which forbids medical treatment, allowing instead the will of God to determine the health of the entity. It appears that the type of bacteria that invaded Henson's immune system was one that is deadly if not treated within hours of the first symptoms, and by the time he got to the hospital, the devastation of bacteria was beyond the ability of doctors to overcome. Just months before he had signed a deal with Walt Disney for over \$100 million dollars which would have allowed him to continue to create and perform new characters as well as to enjoy the fruits of his three decades of hard work. My question is: Despite the multitude of joy that Henson had brought to the world with his muppets on TV and in movies, is he eligible for any negative karma because he neglected to seek competent medical advice when his symptoms first occurred? It seems he undermined his own ability to continue to entertain mankind, as well as his own ability to enjoy further material comforts in his retirement.

COSMIC AWARENESS:

This Awareness indicates that the entity, in cutting short his rewards for work of the past, reaped the karma of his action in the sense of cause and effect. It does not appear that there is any further punishment due the entity than having lost the opportunities that would have come to him in a longer life and longer life and more productive future.

(CLOSING MESSAGE):

This Awareness indicates that the nature of karma in the sense of cause and effect in playing a role in what occurs with entities whereby one thing affects another, is in part active on the physical plane, such as in the molding of individuals due to their childhood environment and events occurring in life itself. It is also effective on the soul and carries from one life to another, if things have not been worked out on the physical plane by dealing with and avoiding the creation of negative karma on the physical plane during your lifetime, entities minimize the karma that is carried over from one life to another.

A Karmic Connection with Everyone You Come in Contact With!

This Awareness indicates that many entities may be surprised to realize that everyone you come in contact with in your life has in some way a karmic connection with you from the past. It may be quite light, or it may be quite heavy. Some of the greatest loves entities experience are due to karmic lifetimes of the past which have been most unproductive and difficult and negative in

14. nature, and the entities come together, developing great harmony to work out and overcome the previous negativities from earlier life experiences.

This Awareness indicates that many, even casual contacts, have past life reflections and even though there is little or no deep involvement in these contacts, they may be sufficient to discharge any little argument of karma -- causing energy from a past-life, whereby for example, in a past life you may have argued with an entity over some small incident on the road, in passing; in the present life, you may have a more pleasant encounter with the entity to reflect your repayment of that past life incident, and thus neutralize the karma from the previous lifetime.

This Awareness indicates that the point being that karma is a matter of cause and effect, and that it comes in many shades and colors and degrees. It is not always negative in nature and is not always experienced in this lifetime as a deep or heavy relationship.

This Awareness indicates also, that some karma is totally negated through the *Law of Grace*, wherein your own personal awareness and remorse for actions you have caused in which others suffer, may be neutralized by the remorse experienced and by the *Law of Grace* recognizing that remorse. For example, an entity who may have died before you have the opportunity to resolve a difference with them, whereby you feel great remorse that you were not able to resolve the difference; this can lead to the *Law of Grace* eliminating the karma that resulted from your differences so that it needs not be carried over as a negative force into the next life.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization, for members and non members. All membership fees and donations are exempt from Federal income taxes. All dues and donations are used to spread the messages of Cosmic Awareness to others, particularly at this time, for humanity must be awakened. Your support and donations are much appreciated. We hope you will spread the word to others also. If you regularly make copies of this newsletter and send to others, please remind them that nothing is really "free" -- someone down the line is paying the bill. Tell them if they are learning from the newsletter, to try to join as a dues-paying member, or at least send in an occasional donation to the original publisher of the information. Many thanks!

MEMBERSHIP LEVELS (Honor System)
