"Let the children come to me, do not hinder them; for to such belongs the kingdom of God" (10:14).

CAN THE ALIENS PREVENT HUMANS FROM ENTERING THE KINGDOM OF GOD?

(THE ALIEN OVERVIEW: (Continued))

THE CREATION AND EVOLUTION OF HUMANS (Part 2)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

IS JESUS STILL OUR BROTHER? WILL GOD STILL TAKE US TO HEAVEN? (THE INFLUENCE OF ALIENS ON OUR PHILOSOPHY)

(Excerpt from a C.A.C. General Reading, August 9, 1990)

QUESTION:

A question from H.B. It contains questions that we've received from a number of members, so I'll read her statement and ask Awareness to comment. She writes:

"Dear Vikki. I have just finished reading and rereading the issue number 90-9: *The Alien Presence, An Update and Overview*, especially page 5. I feel as if I had the rug ripped from under me! How can I say this, what I am about to say? So here is my question to Awareness:

All of my life, seventy plus years of it, I have believed everything the Bible says. It has been my faith and hope in later years, especially *1. Thessalonians 4. verses 16,17*. I have always had an affection for the UFOs--thinking of them as friends (even relatives) from outer space. I think (believe) myself to be one of the "Star People" or starborn. Now you come and say they are evil and wish to make slaves of us, and through religion, allow them to take us over, thinking they are our rescuers. (The Great Deception). I feel devastated! What happened to the Angels of Light who fight against the Sons of Darkness? Surely the good ones must be somewhere, monitoring and protecting us. Where are Jesus and Almighty God in whom I have placed my trust since childhood? As he told Joshua: "Be not afraid, neither be dismayed, for I am with thee--withersoever thou goest." Is this still true,--or have we lost all hope? I cannot but believe that God is here, caring for His own and will take care of us in the last ditch. Please give us a reading on the positive side of the coin,--if Jesus is still our brother, helping us, and God will take us to heaven, as promised. I'm anxiously awaiting your reply."

COSMIC AWARENESS:

This Awareness indicates that this entity is referring to the entities outside of the physical form; that God exists in all things. God exists and permeates all of creation as a consciousness; that God's consciousness is everywhere present. This Awareness indicates that the angels are with you always; that these entities are not in physical form. There are, however, individuals in physical form who can and do serve as vessels for angels on occasion, or who can, on occasion, serve as a vessel for God to speak through or emanate through as did the entity Jesus.

This Awareness indicates that there are other God-realized beings who can, in physical form, express in behalf of the God or angel of a higher consciousness. That when you speak of angels you never thought of them as physical beings, and though you may have thought that UFOs were simply angels, even Billy Graham was not so confused. This entity warned once that these entities were not to be trusted. This Awareness indicates that you can look at the Grey aliens, the Zeta Reticuli, the Orion types and the Reptilian types, and you can presume that these entities are evil.

This Awareness suggests they are simply different. Their culture is different. While you may eat chicken, these Reptilians may eat humans. It does not mean they are any more evil than you. Their culture is simply different; that they are more threatening to you than you might want, and therefore, an entity could say they are evil. This Awareness has *not* indicated these entities to be evil, *It* is simply giving you their nature.

This Awareness indicates also that in the days of old, when many of the Biblical verses were written, there were references to some of these entities, and many of the entities in human experience in earlier times, wherein these entities were seen as gods, you may recall that many of these gods extracted human sacrifice; that this especially in the Old Testament in reference to the gods or god of the Old Testament.

This Awareness indicates that there are also those entities from out there who are angelic in nature. This Awareness has suggested to you that the Pleiadeans are your distant cousins. These entities are very much like yourself, stemming from a genetic stock that comes from and incorporates mammals in their origin; that individuals on earth in human form have reptilian origins and genes within their system, but the mammal genes and origins predominate.

You are not unrelated to the Reptilians. You are more⁵ related to the mammal types, and these mammal types tend to dominate over a period of time, so that the Reptilian genetics weaken as time passes and the mammalian genetics strengthens. This Awareness indicates that there is also a genetic factor implanted in the human creation by the entities from Sirius who were involved. This was secretly put into the human equation by those from Sirius without others knowing about this, in which the Sirius beings, or genetic engineers, implanted within the human species a kind of holographic cell that would, over a period of time, with each passing generation and with the rising of consciousness, put in a cell that upon a certain level of development, would react.

Genetic 'Time-Release Capsule' to Trigger your Cosmic Awareness

This may be likened unto a kind of time-release capsule, such as the pills you take that don't activate for eight hours and then activate at a certain time. This genetic cellular code was designed to activate with each passing generation, so that each passing generation became more aware, and as each generation becomes more aware, it becomes more God-like, a little at a time with each passing generation, and in this action, when the vibrations reach a certain state in the evolving human, it becomes possible for that cell to activate totally and the entity experiences God realization and becomes cosmically aware, or totally conscious.

This Awareness indicates that each human has this potential built in to the cells, but it does not release when the entities are engaged in selfish endeavors, self-centered activities. It does not release when entities are engaged in hostility, greed, power, lust and the seeking of control over others. It engages *only* when the entity pursues the spiritual and the Divine Light. This Awareness indicates that in this sense, you have options and those options allow you to choose a path toward spiritual enlightenment, and in so doing, to become God-realized.

For Each New Generation God-Realization is Easier

This Awareness indicates that this and each passing generation finds it easier to experience that God realization. Any entity can experience it if one turns toward the spiritual path, but each time a generation is born, the opportunity becomes greater for that newborn to experience that God realization. The opportunity can be pushed aside or destroyed by environmental influences, by wrong conditioning, by wrong values, by teaching the child improper or unspiritual values, or the opportunity can be enhanced by teaching the child the value of spiritual pursuits, and by giving the child the opportunity to develop in the natural flow of spiritual growth.

Why Our Brain has Ten Times the Potential for Use

This Awareness indicates that the human brain has a potential ten times that of its general use. It is capable of much more than it will ever do. In the process of evolution, parts are not developed that are not used. Parts are not developed without a necessity in the normal course of evolution. The question then is *why* was a brain which is ten times more capable than anything any human uses, why was it developed?

It is likened unto having a giant computer that does ten times more than you ever use it for because you have so little use for it. How then, in evolution, was

such a brain developed? This Awareness indicates that the *potential* is there. It is ten times greater than anything you need, but it was not developed by evolution; it was not developed because you needed it. It lies dormant, waiting to be used to its full extent.

This Awareness indicates that the brain was genetically engineered for humans, for their full potential. They have not yet reached that full potential. It is that coding, that secret coding that the Sirius engineers implanted in the human, that has helped them to grow, generation after generation, very quickly, to become a challenge to the Zeta Reticuli, and the Reptilian race; the humans being only about 12,000 years old in their present state, as *Homo sapiens*, have developed at an enormously quick pace, in comparison to the development of the Zeta Reticuli who are over a half-million years old, or the Reptilians who are some 5 million years old.

Our Brain Potential a Real Threat to the Aliens

This Awareness indicates that the potential of the human brain to become ten times more powerful than it presently is, is seen by the Reptilians and the Zeta Reticuli as a danger, a threat to them. The code given by the Sirius genetic engineer, in their part in the creation of the human creature as that which has allowed for humans to evolve to gain God-like powers in a very short time. They become individualistic which is beyond the understanding of the Zeta Reticuli, who must follow rules and act as a hive in their thinking.

Aliens "Psychic" Because They Have Implants

The humans also have the ability to intuitively or psychically perceive and see things that are not based strictly on the five senses, and the perception that accompanies their senses. The Zeta Reticuli have what appears to be telepathy, where they can communicate telepathically, but this can be done through the use of their implants. They have within themselves implants that allow them to telepathically communicate to others. Without those implants, they could not do so. They are not that highly evolved, even though they are half a million years old.

This Awareness suggests therefore, you realize who, in fact, you really are. You are gods in the making. This Awareness indicates you have invisible deities, invisible angels protecting you, observing you, guiding you, even through the valley of the shadow of death. These Zeta Reticuli are without souls. *You* have a soul. You have an astral body. You have a spirit body. You have God potential. The body itself, the physical body, is but one of many of your bodies. You do not need it to survive. It simply serves as a tool to help you accomplish things on earth, to help you learn things while on earth, to help you serve others while on earth. It is *not essential* to the continuation of your life.

The Concept of Jesus as a "Personal Savior"

This Awareness indicates that your concept of Jesus as personal savior as that which is valid for you. It is fact the entity Jesus was a man, a human being who was an open channel for the Christ to speak through, and much of what you attribute to Jesus was in fact the Christ speaking *through* Jesus, the channel, and thus Christ is with you always, even unto the ends of the earth, even if the man Jesus has been crucified and has gone on to other lifetimes, or other realms, the Christ remains with you. It is available to all entities, all humans.

This Awareness indicates that the Christ may be perceived as the same as your Higher Self. It is the Christ Light that is with you from beginning to end and into other realms. It is that Christ Light that is your savior and protector. You may call it by the name 'Jesus' if that is more suitable. It is not the type of being that becomes jealous over a name. This Awareness does not care what name you call your Divine Higher Self. It is the nature of that Divine Higher Self to stay with you, care for you, to guide you, and to keep you as pure and aligned with truth as is possible. It is not the nature of that Divine Self to demand worship, to demand obedience, or to become distraught or upset if you don't call *It* by the right name. *It* is not so vain as to worry about whether *It* is being worshipped properly by the right name.

This Awareness indicates that those in Eastern countries may refer to *It* as Buddha, Krishna, or any other name, and *It* still responds as the same Christ Light responds to those who call *It* Jesus in the Western world. This Awareness indicates that when the entity Jesus spoke and said to entities: "Except you come to me, you shall not enter the kingdom of God," ...this was the Christ Light speaking through Jesus. "Except by me, you shall not enter the kingdom of God:" the 'me' speaking was the Christ Light. The mouth speaking it was the mouth of Jesus. Jesus was channeling the Christ Light.

SOME GOOD THINGS AND SOME BAD THINGS ABOUT HAVING AN ALIEN IMPLANT

QUESTION:

We received a letter from F.R. living in Oregon that contains numerous questions. I think the whole letter should be read so that the questions will make sense. She writes: "Dear Editor and Vikki T. Enjoyed your last newsletter. You will always find out more stuff! Just want to mention that I was glad Awareness plugged the Zecharia Sitchen books finally. I have been an avid fan of them since the first one came out and bugged the book store for each new one as it was being published.

"I was disappointed that Awareness didn't comment on the 12th planet theory though. It's logical the way he puts it, but is it true? The rest of the stuff, especially in *The War of Gods and Men* is fascinating. I'd really like to sit down and talk with him, but it all leads us with just as many questions as it answers. I'll bet you have been in the hot box with all this alien stuff. Certainly isn't pleasant reading. Like the "Gathering Storm" material, even *I* have to take it in small doses.

"My husband read some but said he can't really believe it, so unless a person has been through the abduction process, as I was, in the Sixties and early Seventies, *that* makes it a lot easier to believe. What was really interesting was the fact that I haven't been bothered, I don't think, since I started smoking in 1978. Don't know why I started. I called it "divorce stress," but maybe it was self-protection. I figured I was getting too old for them to be interested in me anymore.

"I just wished Awareness had come out with this in about 1982, when I started getting pissed off at Ashtar Command, when I realized that a lot of their promises didn't hold water. Left me in limbo for a few years, but

4. it's finally all coming out now. So believe me, any of your members who are abductees, need this material. The others, well they are just darn lucky, that's all. They don't even begin to understand *how lucky!*

"Three years ago I went back to Boston to one of Budd Hopkins' meetings to get some answers, and there was a big room full of pretty miserable people there. I feel lucky. I've sort of been able to let it slide by me and not let it affect me that much. A lot of that is thanks to Awareness, I think, and it hasn't all been bad because I began metaphysical studies through my interest in space people and have grown from there to here.

"I just would like to know the outcome for those of us who carry their little appartatus in our heads or wherever, and did the gods actually give us eternal life through reincarnation, as it seems, or is this just a lie too, and there are no more lives to come? Who knows anymore! Oh, well, if you kids keep up the good work, maybe we will understand all this some day!"

And that's the end of the letter, and I know there's a lot of questions. My main question is that which concerns the implants and their fate.

COSMIC AWARENESS:

This Awareness indicates that the question prior to this as that which will answer some of the entity's concern in regard to the soul and the continuation as referred to in the reference to reincarnation. Also that in regard to the implant, the implant does not detract from the soul. It does scar the entity's physical body. It detracts from the entity's normal evolution. In some ways it can benefit the entity's evolution as in this instance where it pushed the entity toward metaphysical studies, in helping her to become more curious and to study things to satisfy that curiosity.

Aliens Can See and Hear Through Your Implant

In some ways it may hinder her physically in the sense that she may not feel herself to be free from alien domination and she may find someday that she has been used or given false information through the implant to cause her to see something that isn't really there. This Awareness indicates that these implants are also designed not only to allow aliens to see through the individual, or the eyes of the individual or hear through the ears of the individual, they are also designed to project images for the individual to see in a psychic sense.

An Army of 25 Million Implants Now in U.S.

They are projected into the chip or implant that is placed near the pituitary and that in turn stimulates into the pineal and creates images that are not the reality outside the entity, but *are* a reality or perceived as a reality within the consciousness of the entity. In this sense an entity can be given an image the aliens seek to prescribe for the entity and the entity will believe it to be a reality.

You can understand the effect this might have if 25 million persons in your nation were to see the same thing at once. This Awareness indicates that it is a possibility. It is also a possibility that these 25 million persons with implants could each be given different commands or directions to follow. It would be an army of 25 million persons following the dictates of some alien presence.

That this is the potential of the implant on the masses who have these. It is not necessarily that they will be used in this manner or that your particular implant will ever be used in such a manner. It may simply be there, like a tooth, and when you pass on, like a tooth, it may still be there, or it may be that if you survive long enough, the implant can remain there and never be activated.

It is not necessarily in use by the aliens. This Awareness indicates it *can* be used by the aliens. The question had many parts and it may be that there are other areas that need to be reasked or that another question may be asked.

TAKING UP SMOKING TO WARD OFF ALIENS?

(FOLLOW-UP QUESTION):

The question about her suddenly, for no particular reason, taking up smoking after her abduction; was this something from her Higher Self for protection, or does this have significance at all?

COSMIC AWARENESS:

This Awareness indicates that the aliens do not like entities using tobacco, chocolate, sugar, or drugs, or other substances including garlic, onions...the aliens do not like entities using substances that cause the glands to secrete, or the skin to secrete odors; that the entity appears to have subconsciously chose cigarette smoke as a protective device.

This Awareness suggests it is not seen as a necessity. The entity's previous abduction experiences were for the purpose of taking eggs for experimentation. It is seen now that this is not a present likelihood or need from the aliens in the use of this entity for such purposes, and that essentially, the entity would be left alone, even without the cigarette smoke.

Eat Chocolate for Sexual Arousal

The aliens do not like entities using chocolate. It affects the glands to some extent in a way that they do not care for. The essence of chocolate on the glands is much like an entity being in love; it secretes certain hormones, much like that which occurs when an entity is in love with another, and has sexual arousal. Chocolate has a similar effect on the brain and on the hormones.*

To a lesser degree, sugar also falls into this category. Coffee also can have an effect similar to that effect of garlic or cigarettes or onions, of causing a certain amount of odor through the skin and glands, this which tends to be repugnant to the aliens.

*Ed's Note:

Some years back I read in "Parade" magazine that for hundreds of years in England, it has been illegal for women to buy or eat chocolate; that only recently was this law finally erased from the books. The reason stated was that chocolate acted as an aphrodisiac. (Why that should be against the law is a puzzlement). One Valentine's day I decided to test the theory and brought to the office a 3 pound valentine-shaped box of chocolate, which I presented to a stunned and surprised, but very pleased Vikki T. I worked around there all day, wondering when the action would begin. It never did. Vikki pigged out on the entire box of chocolate, gained half a pound and got a zit on the end of her nose, then announced she felt "queazy" and did not feel like going out for a nightcap. (Maybe the stuff only works when aliens are around?). No more chocolate around here!

"BACK OFF BOYS! I'M NOT AVAILABLE!"

"SCREEN MEMORIES" BY GOVERNMENT IMPLANTS

QUESTION:

A question from V.V. who writes: "Question for Awareness: The situation with alien abductions seem to indicate that a significant number of abduction experiences are in fact screen memories that have been placed there by the United States government. The screen memories give the impression that the individual was manipulated by aliens, which is also legitimately going on, but the manipulation has been done by the NSA or another intelligence faction of the government. Would the Awareness give an extended commentary on this facet of reality?"

COSMIC AWARENESS:

This Awareness indicates that this is a part of the scenario in regard to abductions of individuals and also is used by a kind of counter-intelligence action of the agencies in an effort to work with those who have been legitimately abducted with implants by aliens, to find out what the aliens *do* when they abduct entities who have been implanted. Thus, an entity may be given an implant by an alien; that the entity then may be abducted by a government agency pretending to be associated with the aliens, and the implant or a secondary implant put in, or the primary implant altered so as to allow the government to monitor that entity when and if the entity is again abducted by aliens.

The attempt is to find out what the aliens are attempting to do with the implanted individuals, or what the purpose is for the implants. There are also attempts to use implanted individuals, government implanted individuals, to serve as counterspies against the aliens, to report back to the government monitors what is occurring with the aliens.

This Awareness indicates that there has been a great amount of activity in this regard by a government agency

working with implanted agents, unbeknownst to themselves, whereby they serve the government in such capacity without full knowledge of what they are doing. It is a situation in which the government is researching in an effort to keep up with alien activities, to try to discover the purpose for these alien implants; there being approximately one in ten entities being implanted, especially those associated with government jobs, occupations, military occupations and so forth, which may be in or around sensitive areas.

This Awareness indicates that this is of very serious concern to the government, to realize that there are so many entities that have been implanted by aliens, and for reasons that are not made clear.

HOW CAN OUR GOVERNMENT ROUND UP 25 MILLION CITIZENS WITH ALIEN IMPLANTS?

(FOLLOW-UP QUESTION):

It's been estimated that, I believe it was one in ten people in this country have an implant of some type, and if there is two hundred million people or better, this would imply two million people (have been implanted). It's also been said that the government...

COSMIC AWARENESS:

This Awareness suggests this would imply twenty five million people, at two hundred and fifty million population.

QUESTIONER:

Excuse me. I think Awareness indicated that it was possible the government in the future might try to round up everybody with implants as potential threats. How could the government round up that many entities?

COSMIC AWARENESS:

This Awareness indicates this would be next to impossible. That rather than rounding up these entities, they do have certain apparatus or instruments which allow them to see an entity who is carrying an implant. This Awareness reminds you of a reference in the spring of 1990 to a tabloid picture and article referring to aliens seen in an airport, wherein someone had taken a picture of entities in an airport and discovered that approximately 20% of the entities there had strange halos around their heads. The picture was taken with a camera that could read radiation emissions, and approximately 20% of the entities had halos around their heads.*

*This photo reproduced in issue No. 90-14 (Ed.)

This Awareness indicates that these were entities with implants; the government has such instruments to be able to detect entities who have implants. If in a time of crisis, a national emergency, such entities are seen approaching military bases, or anything of such significance to where they could present a threat, they have orders written that would allow, or would command guards to shoot the entities rather than let them through.

This is because there is such uncertainty as to what these implants may be for. It is not clear whether these entities could be used as walking time-bombs or as spies, or as cameras, or for sabotage purposes, following orders being directed them by alien masters. The government does not wish to take any chances by not being prepared for such contingency.

IS ROCKY FLATS COLORADO AN ALIEN BASE?

(An Abductee is Given Amnesia by the Aliens)

QUESTION:

A final question from a letter by R.P. in Colorado. He didn't write it in the form of question, but the letter brings up a couple. He writes: "In the next few years I will be moving within about 100 miles of the Dulce base. For 30 years I have lived within ten miles of what I now think is another base,--Rocky Flats. I was once told there is a large secret underground labyrinth.

Unusual highly sophisticated research is going on. I had an abduction experience about 12 years ago that I asked Awareness about and all *It* said was that amnesia was induced. I don't think much happened to me. We were hunting grouse in the fall, in a remote area here in Colorado. We apparently stumbled onto them or something. All I know is that one moment we were descending a ridge back to the vehicle and the next we were on the opposite ridge, two miles away."

I had two questions from this: Is he correct in that there is an alien base under Rocky Flats?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that this is well-known among UFO circles.

QUESTION:

And is he correct that he had an abduction experience?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness suggests also that this entity in fact, on stumbling on these entities, was not violated, but because of the accidental encounter, was given the amnesia block and released. This entity was not even given an implant. The entities were involved in other activities, and were not interested in implanting this entity.

FOLLOW-UP QUESTION:

Is this pretty common, wherein these amnesia blocks are given instead of an implant?

COSMIC AWARENESS:

This Awareness indicates that this was an unusual encounter, wherein both were surprised by the presence of the other. It was not part of an alien mission to look for certain entities for the purpose of implanting and they do not haphazardly implant entities without directions being given for that purpose. Their purpose there was other than implanting. They were checking minerals. They were not even the type qualified for doing implanting. This is not seen as being a situation that would be a common occurrence.

7.
DON'T FEEL SLIGHTED IF YOU DON'T HAVE AN IMPLANT

(Keeping Your Soul is the Important Thing)

(CLOSING MESSAGE):

This Awareness indicates that there are many entities who have had experiences, who have much concern about those experiences. There are many others who have had experiences, but do not recall the nature of their experience. There are still others who have managed to avoid encounters, but feel slighted because they have not had such experiences.

This Awareness suggests you not feel slighted; that you count yourselves as fortunate, and that you understand it is not a game, or a matter of pride, prestige or such, to be played with by aliens of a different nature who mutilate your body with implants, pry into your privacy or use you for fertilizing or creating half-breeds or other genetic creations. This is not something where entities should become egotistical about having been implanted, or not having been implanted, having been abducted or not having been abducted.

Some entities are selected, some are not. If you are not, you are probably more fortunate than those who were. If you *were* selected, it could be that for you it was to your benefit, for had this not occurred to you, perhaps something in your own nature would have led you in a different direction that would be even more damaging to yourself. In some cases you may be harmed by the action of the aliens.

Many entities suffer in different levels from the abduction experience. Most abductions result in greater harm than good. In some cases, entities are grateful for the experience. This Awareness indicates that all of this is *what is*, and does not need to touch your soul. There are some entities on earth who are slaves to others, yet they still have their soul, and as long as they keep their soul, they are more blessed than those who own the souls of others, than those who would seek to entrap and control the souls of others.

It is important, more important than anything else, to realize always that your body can be violated, even against your will, but your soul can never be violated, except if you so let it. If you will or allow your soul to be violated, then indeed the real suffering begins. This Awareness indicates that even though the body is tortured, mutilated or otherwise destroyed, the soul can remain intact, so long as you cherish it as yours, shared with the Divine, for it is the link that holds you and God together.

The Law of Gratitude is given.

IN A SEARCH FOR THE "RIGHT" MATE, SHOULD ONE TRY TO CALL BACK ONE'S "TWIN FLAME" OR "SOUL MATE" ?

Living together in peace...(Continued).. (The Search for the 'Perfect Relationship')

QUESTION:

M.C. in Canada asks: "Is it possible for us to call to our twin flame or soul mate if they are not on the earth at present, and ask that they join us here? If that is possible, would they be able to do so through the walk-in process?"

COSMIC AWARENESS:

This Awareness indicates that it would be foolish to do so, even if it were possible. It would disrupt the natural path of the entity and could interfere with the life of another entity, for in the walk-in process, if you were to call someone to join you and they were to do so, whose body are they going to walk into?, and who is going to leave their body to allow this?

This Awareness indicates that it would be much better for entities to stop thinking of twin flames and start learning to relate to other people, for there is a chance of finding another person with whom you can become very intimately close to, to share ideas, feelings and tenderness, but if you are looking for that twin flame or soul mate, you are expecting to find someone with whom you do not have to put forth effort in order to have a decent relationship.

You are looking for the perfect relationship without any personal effort on your part. Such is fiction, for all relationship requires work and there are many entities with whom you can find a very intimate and close and wonderful relationship if you are willing to give something of yourself to the other person. Most entities who seek that soul mate or twin flame are very selfish in nature and want someone to come to them and be the perfect mate, according to their ideal. They want the perfect mate to fit into this perfect mold which they have envisioned as their perfect counterpart.

This Awareness indicates *It* wishes to discourage this kind of wishful thinking and to encourage entities to look at other people more closely for the good qualities that are there and not to expect perfection from others, but to find those qualities that are compatible and enduring to you. This Awareness indicates that a good relationship is one in which your counterpart is somewhat abrasive to you and causes you to look at yourself and grow from the examination.

Definition of a Good Relationship

A good relationship is that wherein your counterpart stands up to privately, stands with you publicly, defends you publicly and stands beside you in your pursuits and efforts and one who comforts you and stands over you to assist you when you have fallen or are in need of help, when you are ill or when you are weakened. The entity who assists you when you are in need, confronts you when you are in error, defends you when you are in public, and attacked publicly; this entity is a good mate.

This Awareness indicates that it is also a fact that you are a good mate when you are also of this calibre to your loved one. This Awareness indicates that often your mate will annoy you with pickiness or criticism, but often these things are for your own good; that if the criticism and pickiness is more than you can bear, it is your right to object.

This Awareness indicates that the give and take and the conflict involved in the relationship goes both ways to teach each other that as well as sharing the most enjoyable times, entities need to share the difficult times; that in order to find one who is a good mate, you should lead first with your head and follow with your heart. Too many entities fall in love with the wrong person because their head has not

been engaged and they simply see something in the person that appeals to their emotions and instincts. They do not recognize a truly good quality for long-lasting relationship.

What to Look For and Consider in Your Future Mate

This Awareness indicates that by following first with the head, knowing what kind of person you want, what kind of person would bring a good lasting marriage, you can mentally recognize and pick the person that would be ideal for you on a mental level and then let your heart follow as the relationship develops. That this is much more lasting in terms of relationship; that you not simply become the victim of your emotions, letting the emotions reach out for someone whom you know in your head would not be the best person for you to be with.

This Awareness indicates also, it is beneficial for entities to find someone whose behavioral patterns are somewhat similar. If you are one who likes to sit and read and are quite inactive and the person you choose is one who likes to get out and socialize and be very active physically, you may find that your life will be repeatedly and consistently like that: your mate out hiking, while you are at home reading or watching television.

If this is alright for you, and for her, then it is no problem, but if you want to do things together, and she wants to go out hiking or traveling around the country and you want to stay at home, you are likely to run into conflict. If your general interests are greatly different, if your backgrounds are greatly different, if your families are greatly different, these can also lead to conflicts.

There are many entities who think they are marrying a person, only to discover six months later they have married an entire family, and an entire background and lifestyle of the other person. Entities should realize, that is the case in marriage, that you marry everything the person is and has been. This Awareness indicates that her friends or his friends will become your acquaintances, whether you like them or not.

That these are things to think about in the head before you extend your heart totally. This Awareness indicates that eventually, the heart will find itself becoming attached if there is enough that is acceptable to the head in its evaluation and communication with the entity. This Awareness suggests however, that if you are looking for an ideal through some spiritual miracle of a twin soul or soul mate, you may very well pass up a person who would be idyllic, in terms of your real needs, who could help you to evolve and grow and become very appreciative.

"Well, maybe I'm not one of the ones who just want to cuddle! Maybe I'm one of the ones who want hot, steamy sex!"

8.

If you are one who is capable of tolerance, then you can live with a person who is somewhat different from yourself. If you are a rather intolerant person, you had better be cautious and find someone who is quite like yourself, has very similar interests or is extremely flexible and willing to submit to you.

This Awareness indicates that of course such entities may become boring to you if you are too rigid and you may become oppressive to them, and this too can create problems. Any entity contemplating a relationship with another would be wise to develop considerable amount of flexibility. That entities should also realize that they do not have to fulfill all of their mate's fantasies and desires and wishes, but they should be willing to listen and to communicate about these things so that their mate can speak of it and explain his or her feelings about things that are of concern to them.

This Awareness indicates that as far as calling a twin flame from another dimension into this lifetime, it is highly improbable that it would be effective. The entity at best might be able to call forth a being who could enter as a new child being born in physical body, and in that manner have a relationship with someone with whom he or she has previously known in another lifetime, but to expect a twin flame to appear full-grown from another dimension, such as through the walk-in process, would no doubt cause more problems than benefits, and is very very unlikely to be effective at all.

RESPECT--THE LASTING BASIS IN RELATIONSHIP

FOLLOW-UP QUESTION: (VIKKI):

As a teenager, the best advice I got about relationships was: "The basis for a lasting relationship is respect." If you respect the other person and receive mutual respect, you have a good chance for a long productive relationship.

COSMIC AWARENESS:

This Awareness indicates that this is good advice; that respect means to look more deeply at the other person and hold that other person in a kind of high regard from that deeper look. This Awareness indicates that it is possible for entities to love another person but have no respect and the love will quickly die and fade, but if an entity has great respect for another person, love is very much inclined to develop and grow.

This Awareness indicates that it is also important to realize that one must keep one's own self-respect in order for others to respect one, and if one feels that he or she is not being treated with proper respect, the entity should know that you cannot force respect, you must *earn* respect. You may need to demand respect from another by your behavior or action, but to simply demand it without earning it, without deserving it, is useless.

If an entity does something that is unworthy of respect and then demands respect anyway, the other will lose even more respect. This Awareness indicates that if an entity does not respect you and you feel this entity has wronged you, it may be that you are not respecting yourself properly and should stand up for your rights and show that not only do you respect yourself and your rights, but show the entity that he or she needs to acknowledge your right and to respect you if he or she is going to have a relationship with you.

This Awareness indicates that too often an entity will grovel before another whom he or she loves and thus lose respect of the other, because, rather than groveling for affection, the entity should be demanding an apology or threatening to disrupt the harmony of the relationship if the disrespectful party does not toe the line of the marriage vows.

This Awareness indicates that *It* does not advocate entities fight frivolously, but does suggest that sometimes a marital conflict will resolve the problems that entities otherwise might not resolve, simply for the purpose of avoiding conflict, and if entities are attempting to keep the relationship alive by avoiding confronting problems, the problems will simply grow and become more pronounced in the marriage.

This Awareness indicates that entities need to respect themselves and to expect others to respect them in a reasonable way. Entities also need to be able to express themselves and not to worry so much about always being right. This Awareness indicates that if you feel you have been wronged by the other, you may wish to discuss the incident with the understanding that if in the discussion you find you are in error, you can always admit the error and apologize for making a big deal over nothing.

There is nothing wrong with apologizing to your mate when you actually discover you are in error. This Awareness suggests also, it is important not always to seek to be a winner in a conflict. The best purpose of a conflict or argument is to find the facts so that both see each other's point of view and can come to understand the realities and reach a compromise or conclusion that is acceptable to both parties.

The 4 Stages of Marriage

This Awareness indicates that young people first marrying go through a romantic stage where the other can do no wrong. This generally lasts until the marriage and perhaps a few weeks after. When this stage is completed, they begin having a stage in which there is a tug-of-war, each trying to get the other to be more responsive to them, each expecting the other to be more perfect, to measure up to their expectations, and this becomes a time wherein the entities have their arguments, and the marriage appears to go to pieces.

Entities cry a lot, shout a lot, and accuse each other and feel betrayed, and then make up and start over again the next day with another cause for dispute. This Awareness indicates this may go on for some time, even for several years, until they reach the next stage, in which they may give up on each other, and say, "I just don't care to fight with you anymore! I'm not going to cheapen myself in these conflicts!", and at this point, the entities in giving up, may either walk away or may simply allow the other to be who they are and do what they will, and at such a stage, this third stage, the entities may seek divorce.

If the entities can stay together and look at each other afresh, they may move into the 4th stage wherein they begin to rediscover the other person and appreciate the new perception of that person. They see the other person doing things that are important to them, and they begin to appreciate what the other is doing. It intrigues them, it interests them, and they approach the entity to talk about it, and they appreciate who the entity is, and rather than trying to control the entity, they admire the entity for being who they are.

This 4th stage is that which can bring on the true marriage, if it has not totally been shattered in stage three. This Awareness indicates that the 4th stage can last throughout the remainder of their lives. Of course these stages are not necessarily completely separated from each other. Even in the 4th stage entities might slip into stage one of romanticism or into stage two of the tug-of-war, or into stage three in which they become bored with each other and give up on each other, but these overlaps are not the focal point of the stage; they are not the actions that are emphasized.

The more dominant actions will be those which determine what stage you are actually in. This Awareness indicates that entities in the first or second stages may even experience moments of the 4th stage; that these stages can have hints or superimposed moments of other stages within them.

ABOUT THE ANITA HILL, JUDGE THOMAS HEARING

Opening Message

(Excerpt from a CAC General Reading, Oct. 21, 1991)

COSMIC AWARENESS:

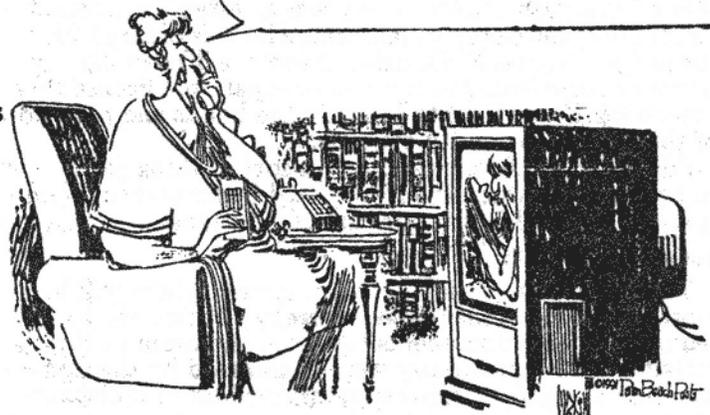

This Awareness indicates that during this last month, entities were treated with the television coverage of the Thomas and Hill conflict, and were not allowed to see the Gates coverage, the coverage of the Gates hearing in the Senate. This Awareness indicates that the Gates hearing began to get too close to the truth in the Iran/Contra areas and other areas and was taken offstage and substituted with the Anita Hill and Thomas conflict which was hyped up to become a greater interest-grabber than anything else on television at the time.

This Awareness indicates that by the time this was over, the Gates hearing had also been completed and the entity was approved without the public really knowing anything about the man or what transpired in the closed hearings. This entity who is now head of the CIA is commonly known as the "Fix-It" Man. He fixes things so that they work for those who want things to work a certain way. This Awareness indicates that it was crucial for Bush's New World Order plans to have this entity in place to help enforce the New World Order when the time comes for its implacement.

This Awareness indicates that the amount that can be said on this topic is limited, due to the effect of certain things this Awareness understands in regard to the hazards of speaking out about this, and therefore, in order to protect the staff of CAC and the Interpreter, this Awareness will not be giving much information on the New World Order other than to inform entities that in all likelihood, it will be ushered in without too much

attention, without shocking the masses, and will gradually be put in place with the structure and mechanisms involved so as to implement all of its power at a later time but not exercise controls over the masses at present time, so that entities get used to being under and accepting this New World Order before the clamps are tightened and the screws are imbedded.

HELLO, IS THIS THE NETWORK? WHAT HAPPENED TO CLARENCE? WILL LONG DONG TESTIFY? IS ANITA HAVING SEX FANTASIES? IS DOGGETT WACKO? DID THURMOND WAKE UP? ALL I'M GETTING IS SOME DULL *SO* SOAP OPERA!

This Awareness indicates that the full impact of what occurs through this New World Order will not be felt probably to its full extent, even until the next century, until after the millennium, after the year 2000. There will be some recognition that occurs beforehand by those who realize the nature of the changes in law and in application of New World Order policies, but it may not be fully felt until after the year 2000, then gradually and slowly, entities will begin to become more and more aware that they have indeed lost something and the old has faded and is replaced by a new system that is not as dedicated to the rights of individuals.

ED's Note: There was no further word in the papers that I could find on the Gates hearing until November 5th, when a small article on the back page announced that he had been confirmed by the Senate, and a brief blurb on the TV nightly news that the Congress confirmed him because they did not want another dirty laundry type spectacle like the Judge Thomas hearing.

WILL THE POPE HEAD UP THE NEW WORLD ORDER?

QUESTION:

A question from R.H., Somerspoint, New Jersey. "I have one particular question I would like Awareness to answer. Bill Cooper has stated in his book that an entity by the name of Lord Maitraya or the Pope may head the New World Order as the Illuminati's main man. Could Awareness divulge any information about this? It seems the Pope would be a likely person to head this evil scheme since he seems to have most of the world 'snowed'."

COSMIC AWARENESS:

This Awareness indicates that this does appear to be the more likely approach, but there is also the effort from the Rothschild camp to promote the Lord Maitraya; that it has not caught on in the manner that was expected in earlier efforts in the promotion of Maitraya, and therefore, may be scrapped, while the Pope has become a more prominent and acceptable figure world-wide, particularly refreshing the communist bloc nations.

There has been considerable efforts to promote the Pope into these Eastern nations that were under the Soviet Union and its satellites, and this does appear to be the more likely approach. This could change, however.

A PASTOR IS PUT IN JAIL FOR REFUSING TO BUY A LICENSE TO PREACH THE GOSPEL

(Will This Sort of Thing Increase Under the New World Order?)

QUESTION:

The *Barrister's Journal* has a long article, which I won't read, but it concerned a pastor named Lowry in Kentucky who was ordered by the city to buy a license in order to preach the gospel, and he had to pay a percentage of all salaries, wages, commissions and other compensation earned in his ministry to the city, and he protested under his Constitutional rights that he had the right under the Constitution to preach without having a license, and in November, they came and arrested him. They issued a bench warrant and he failed to appear, so on the 15th of May of this year, Pastor Lowry was arrested in his church, handcuffed and taken to jail, where he was ordered by the judge, Thomas McDonald, to serve a 30 day jail sentence for refusing to have an occupational license to preach the Gospel and to produce the books and records of the church to county officials.

I'd like to ask Awareness: Is this sort of thing going to be the trend when the New World Order comes in? It seems to me this is totally unconstitutional.

COSMIC AWARENESS:

This Awareness indicates that it appears there will be more and more similar cases, whereby entities will be required to have documents for more and more of their activities which previously were guaranteed by the Constitution as rights of expression or freedom of movement, etcetera.

THE GRISLY TEXAS RESTAURANT MASSACRE --WAS THE ASSASSIN MOTIVATED BY AN IMPLANT? (U.S. Citizens Fear Their Government More Than the Mafia)

QUESTION:

I have a question relating to the subject of implants which we were discussing the other night. The other day a berserk gunman drove a pickup truck into a restaurant in Texas and coldly proceeded to methodically execute some twenty or more innocent people, wounding a number of others, in the worst non-war-type slaughter in U.S. history. Was this action instigated by an alien implant, or more perhaps an implant by some government agency that would like to see public outrage and a mass-support of gun control? Coincidentally, the day after this occurrence, Congress was to vote on certain portions of anti-gun bill.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the entity as having been programmed by mind control techniques to do this; that there were certain preliminary circumstances leading this entity to this action which were set in motion days before the event to coincide with the vote on gun control in the House.

This Awareness indicates that it was believed that the action would shock the masses and shock the nation into voting for a ban on the weapons so that it would begin the gradual disarmament of the nation. The thing that went awry in the plan is that the type of gun used by the entity was not the same as those listed on the gun control ban being voted on, so opponents of the ban argued that even if the ban had been passed prior to the shooting, the gun used would still have been legal.

This Awareness indicates that there is a powerful gun lobby in the nation whose concern as individuals and groups is that a disarmed nation may be a greater threat than an armed population in that nation, even with the criminals on the streets. This Awareness indicates it is as has been stated: people are more afraid of the government than of the mafia and crime lords, and thus, they do not wish to give up their guns.

This Awareness indicates this reference to government is not referring to the people as the government, but to the elected officials and those who pull the strings behind these elected officials, those powerful money barons that control the nations through power and money.

ALUMINUM AS A CAUSE OF ALZHEIMER'S DISEASE
(Jacque Kervorkian's 'Suicide Machines')

11.

Green Algae for Alzheimer's Disease

This Awareness indicates that the green algae as that which is a genetically engineered algae from Hawaii; this also can be helpful in treating the disease. This green algae as available from the Aquarian Church. It has other benefits such as the treatment of arthritic conditions. It also assists in the treatment of cancer as it contains high amounts of Beta Carotene. This Awareness indicates that a clinic in Colorado uses the green algae in treating cancer patients and claims an 80% success rate. As it is illegal to make claims, the information just given should be taken with that in mind, that the clinic cannot publish such claims. The statement was alleged to have been given in comment to a distributor of the green algae; this in a private conversation on the telephone.

How to Get Around the Prescription Laws

This Awareness indicates that therefore, you may take the statement with a grain of salt, so to speak. There are however, entities who may testify as to their own situation and benefits. This Awareness indicates that it is legal for entities to make statements such as: "If it were me, I would take this, this and this," and if stated in that manner, the entity can even describe the amounts that he or she would take. That this is one way whereby entities can get around the law which prevents prescribing. Thus, while one entity might be arrested for saying: "Drink 6 eight-ounce glasses of water every day, two hours apart," this would be a violation of that law, but if the entity were to say: "If it were me, in your condition, I would take 6 eight-ounce glasses of water every two hours!"; this is not prescribing and therefore, would not be illegal.

THE QUESTION OF EUTHANASIA

FOLLOW-UP QUESTION:

His question about the 'suicide machine'--this doctor who says it's part of the Hippocratic oath to help alleviate people's suffering. There's a ...

COSMIC AWARENESS:

This Awareness indicates however that it is a lesser part. The greater part of the oath is to save the lives of entities.

QUESTION:

There seems to be a lot of stories of brain-damaged people, and vegetable-type people who they've hooked up to very expensive hardware in hospitals, and ...

COSMIC AWARENESS:

This Awareness indicates that *It* wishes to make a comment on this. That in certain European nations, euthanasia is allowed by the authorities and it is practiced by doctors. This Awareness indicates that in this country it is very likely that the time will come wherein it becomes a more practiced system of dealing with entities who cannot be saved by the medical system. This is not to say that it is right. It appears that rather, it will be allowed when it becomes more economical to pull the plug on these entities.

If, for example, the care for such entities became a burden on the government or to insurance companies to such a degree that the insurance companies lobbied for laws, then the euthanasia programs would be brought in and would be allowed in this country. It is generally a matter of money at the bottom line, and right now, the greater lobbying power lies in the hands of the doctors who make more money taking care of people who have prolonged illnesses who will not recover and yet whereby they can bring in greater amounts of money by prolonging the lives of these entities. This Awareness indicates that this may clarify the question the entity was asking.

QUESTION:

A question from L.K. in Canada. "Jacque Kervorkian, who developed the "suicide machine" that puts you to sleep and then kills you; it was not illegal in Michigan to assist a person committing suicide at the time Kervorkian helped a woman who was developing Alzheimer's to end it all. He was forbidden by a Michigan judge to use this suicide machine, so he developed another one. He says it is part of the Hippocratic oath to help alleviate people's suffering. Was he stopped by religious fundamentalists or by the Rockefeller faction who would like to continue to see people sick indefinitely so they may buy all those prescriptions?"

COSMIC AWARENESS:

This Awareness indicates that it appears that this was a simple court ruling based on tradition and based on the view that a doctor's role is to help prolong and extend entities' lives rather than to take their lives. This Awareness indicates that the Alzheimer's disease is one which can be retarded or even reversed. The disease generally in its most common form is caused by heavy metals in the body, particularly aluminum; that it is extremely prevalent in today's society because of the high use of aluminum in deodorants in the past and the high use of aluminum cookware.

This Awareness indicates that by removing these heavy metals from the body, such as through the use of chelation, the disease can be retarded or even cured in many cases. There are also other substances that are being researched and being used for this disease that have reversal effects. This is an aside to the question, but may be of interest to entities who in present or future times might contract the disease. It is better to reverse the symptoms early.

FOLLOW-UP QUESTION:

I read somewhere that there's aluminum in an awful lot of the nonprescription drugs, antacids and that sort of thing that are sold to people by the millions, and also in cooking there is a lot of aluminum. Is that true?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. That the majority of baking powders have aluminum as a major ingredient; that entities can purchase baking powders from health food sources which do not have the aluminum content. This Awareness indicates that many of the antacids containing soda, aluminum bicarbonate and other substances will also have this kind of effect on the entity and should be avoided.

If one has an upset stomach, the treatment should be that of half a glass of warm milk to begin with and see if that will be helpful to the stomach. This Awareness can not or does not wish to give information in terms of ounces, for this would come under violation of prescription laws regarding prescribing.

FOLLOW-UP QUESTION:

So, regular chelation if taken by entities so many times a year, will prevent Alzheimer's. Is that true?

COSMIC AWARENESS:

This Awareness indicates that this may be effective in that it assists in removing heavy metals from the system. It is known also to take out aluminum from the system; that the removal of aluminum can be of great benefit in retarding or reversing the disease.

This Awareness indicates that there can be similar problems for entities through the aging process, particularly if they do not have good circulation and are deprived of certain necessary vitamins and minerals in their systems; that as a general rule, the so-called Alzheimer's disease as that which came about from the heavy metal in the body particularly known as aluminum.

WHAT IS THE ORIGIN OF THE VARIOUS RACES?

QUESTION:

J.R. in Pennsylvania requests that we ask Awareness sometime as to the origin of the various races; the yellow, black, red, brown and so forth.

COSMIC AWARENESS:

This Awareness indicates that the Semites as that which has been discussed already, as having been cloned by Jehovah, on Mars, and transported to earth. This was approximately the time that Atlantis was near the time of sinking. This appears to be approximately 10,000 BC, give or take two thousand years.

This Awareness indicates that the red man as the Atlanteans or Atlans, those who originally were on Atlantis. These descendants of those who are called the Atlans. The Atlans were a space people; these entities appear to have come from Vega.

This Awareness indicates that the yellow race was earlier, from the interior of the earth. These entities appear to have been the original natives of earth, prior to the others.

The blacks are seen as having come from a planet... that the origin or location of this planet is not seen clearly...that this appears to have been in the direction of Orion; that this appears to be related to that which is called the Dog Star, as a general location of this particular planet. That these entities did not like being in their location because of the Orion Empire infringing into their territory and many of these entities came to earth through the assistance of others who were traveling to earth at the time. This Awareness indicates that the Pleiadians assisted them in relocating to the earth and the Reptoid group that was then mining on the earth attempted to use these entities as slaves.

This Awareness indicates that the whites came to that area of Carpathia from the Pleiadian system. They brought the whites in and left groups in Carpathia and from there, these entities moved into different directions.

This Awareness indicates that the different races were originally created by that which has been termed as the Prism of Lyra, the white hole through which light enters into this universe and spreads into different rays as though a prism, and each ray having created its own species of humanoid type being.

12. This Awareness indicates that the green ray and the blue ray, indigo and violet, red, orange and yellow rays, each creating a different species. That the black race and white race were created at the same time, but were later changed by environmental conditions that altered their pigments and genes because of separation into different locations; these on sub-levels.

This Awareness indicates that all humans except the Semites were created through the same ray. The Reptoids, the Zeta Reticuli, the Orions and others were created from different rays, but the humans all began as the same beings, the same type of being, and what you see now are sub-races of the human race. These were created largely by their movement into different places, having different kinds of environmental influences on them, to cause them to alter and progress in different directions, toward different coloration, pigmentation and physical features.

This Awareness indicates that the Semites were a race created from the cloning process of Jehovah in the area of Mars and that they were transplanted on earth by the Orion engineers. This Awareness indicates that these entities were then placed on earth to be used for mining in the areas of Africa, but were found to be disobedient and therefore, unworkable in that capacity.

The Orion entities were driven away; this including Jehovah, and the Sirius entities entered and influenced the further development and progression of the races and entities on earth for some time, establishing certain structures and organization to keep the civilization progressing.

This Awareness indicates that the Pleiadian influence had occurred on earth before this time period, but that it was again repeated at a somewhat later date in which the Pleiadians again returned to influence their seeding of the planet. This Awareness indicates that essentially, the planet was a kind of dumping ground for misfits and people who did not work out, the experiments that did not work out in other places, and this being much like Australia, wherein Australia was an isolated continent that could be used as a dumping ground for prisoners to get them out of society in Europe and yet let them live their own lives as they desired.

This Awareness indicates that this was the case for many of these who were brought to earth.

THE ORIGIN OF THE BROWN AND BLUE RACES (Blue Race?)

FOLLOW-UP QUESTION:

I've read before that there was supposed to have a "brown" race, like in India.

COSMIC AWARENESS:

This Awareness indicates that this is a cross between the yellow and the black and Semite; the Hawaiians also being a cross between the blacks and yellow race; that there were many whites in early India; also that the so-called "brown" race is not truly an original or pure race. It has more to do with pigments. There is some influence from the black race in the earlier Indian origins. This appears to be less dominant than the yellow race influence on these entities.

This Awareness indicates that also there was an influence of a blue race in the early origins of these entities. It appears that this was from beings who were of the Orion origin, wherein these entities being a kind of blue-grey color; the Ooans as also having such coloration. These were the fish people.

FOLLOW-UP QUESTION:

For years there have been lots of jokes about "little green men from Mars," before the alien question came up. Is there indeed entities that are green living in other realms, or other planets. Also, are there other colors than have been listed of entities?

COSMIC AWARENESS:

This Awareness indicates that those who are Reptoid are of a greenish color, but they are generally much taller than the average human adult. This Awareness indicates that this does not negate the possibility of those reports because there are many species of travelers through the galaxy that pass through and sometimes stop on the earth before traveling on. Most of these entities do not particularly care for the earth and so do not stay, but many stop on their search for other places.

There are 76 different alien species or types on the earth at this time, or who have recently been in contact with the earth. The major ones have been mentioned before. Most of these are in very small numbers except for those that have been previously mentioned and these entities can be quite different from one another.

WHY ARE THE JAPANESE
SO GIFTED SCIENTIFICALLY?

(Why the U.S. Has Deteriorated
Scholastically & Economically)

QUESTION:

R.F. in Brooklyn, New York, would like to know the reason why the Japanese are so gifted in scientific development and what is their future role in world-wide industry?

COSMIC AWARENESS:

This Awareness indicates that the Japanese are *not* good inventors. They are not creative by nature, but they have good organizational abilities and a good eye for art and they are able to take a system or pattern and perfect it. This artistic ability has been applied to their industrial and manufacturing efforts so that they look at a pattern that is workable, much of which was presented to them by America, after the war, and improve on the pattern or system.

Thus, the work patterns that were originally started by people like Henry Ford in the assembly lines are adopted in Japan and improved upon by those who work in the planning department, much the way an artist would take a pattern and improve on the pattern to create a more esthetic work of art.

This Awareness indicates that the gift of the Japanese is that they have taken American ideas and inventions and improved upon them and mass-produced them at a cost that is much less than those things made in America, and then have sold these and developed world markets, using marketing techniques that have been patterned off of marketing techniques used in America, but which are improved upon, expanded, and made more streamlined.

They are into disciplining and cutting away all extras, getting rid of any spontaneity and being very precise in the work, the patterns, the marketing techniques, the systems that they use, whereas in the United States, the workers have gone from an ethics of quality work to one of getting the job done quickly so as to be able to go home and enjoy life and the comforts of life; thus a more careless attitude has led to a deterioration in the United States workplace and the poor qualities of the products created.

This Awareness indicates that the same has occurred in schools which leads to a work force that is less disciplined and less able to compete with those in other countries where the schooling has been carefully structured. This Awareness indicates that this is in part the reason for the difference that has developed over the past 20 or 30 years between the Japanese economy and the American economy. It is a matter of quality of work, quality on all levels, from planning and from distribution and marketing, all the way down to the worker in the factory.

This Awareness indicates another factor that has made Japan much stronger economically than the United States is that Japan has no military budget to speak of, whereas the United States taxes its people heavily for military defense budgets and also gives enormous amounts of money to other countries to boost their economy and this deprives many of much of their income and motivation to work hard; that they cannot take great pride in their work if they do not feel they are being rewarded justly for their work. This Awareness indicates that the Japanese are very determined or careful to make sure that their workers are rewarded well. They give them good health care and vacations and the Japanese workers take great pride in their work; in fact, the Japanese are almost fanatical about their work. An entity who feels he is not doing good work in Japan may even go so far as to feel disgraced before his family and friends if not appreciated for his work. Some entities even have committed suicide because they failed in their efforts to achieve some work goal or appointment to an office or job.

This is not necessarily a happy society, even if it is a wealthier society. This Awareness indicates that also, the Rockefellers put a great amount of money into Japan, using the cheap labor after the war and this has been of great help to building the Japanese economy. This Awareness indicates the question also asked: Where will it lead? That this is not certain.

This Awareness indicates that there is the possibility that it could lead to a world in which Japan becomes a kind of economic superpower, but it does not appear that Japan will become the political leader of the world, and it does appear that Japan will gradually accept a greater role of assisting other nations to build up their economies. It appears there will be some assistance from Japan to Russia and to other countries in the areas between the Philippines and through India.

This Awareness indicates that Japan may also have some influence in Central and South America in use of its financial power to build and to create jobs for people in these areas; that it will, of course, continue its other markets also. It appears that it will also develop further ties in and around its own shores with neighboring countries. There is seen some possible problems in the future in regard to North Korea. These could be resolved by certain treaties and trade agreements before they develop.

THE FUTURE OF CHINA?

FOLLOW-UP QUESTION:

China is often called the Sleeping Giant. It has more people than any other country in the world; I believe over a billion. Could Awareness tell us a little bit about the Chinese and perhaps what their future in this area is going to be?

COSMIC AWARENESS:

This Awareness indicates that it appears these entities will attempt to draw in more Western investments into their country and they will attempt to send out more articles and items created in their country at lower prices. It is seen that what China tends to do is to buy from the better Western sources, those things that are in demand and to take them apart, find out how they work, and build duplicate or similar items at a cheap price and then sell them on the world market.

The Chinese have recently purchased some high quality personal computers. It appears these were purchased from Japan, but only a handful. It appears that these entities plan to start building computers for sale on the world market, using cheap labor. It is a question of whether the quality can be of high enough level to be suitable for sale on the marketplace, but it does appear the Chinese plan to enter into the economic field, to start making computers, VCRs, television sets, etcetera; anything from the small hand calculator and up.

This Awareness indicates that it appears also they will seek to establish more tourists to China, creating tourist attractions to bring in money from foreign countries. It appears that the entities in charge will try to keep things on a level that maintains a peaceful appearance, even if the people of China are restricted under a kind of hidden totalitarian state.

It appears also that the Tibetan people may eventually regain their homeland from the Chinese. It is not seen that this will occur in the near future, but that it will gradually occur over several decades unless there is outside diplomacy or influence to speed this to a conclusion more quickly.

WHY DON'T "DIVINE FORCES" DO MORE TO HELP ENTITIES ON THIS PLANE?

(Opening Message, CAC General Reading, Sept. 26, 1991)

This Awareness indicates that entities often wonder why the Divine Forces do not do more to help them in their needs. This Awareness indicates that the situation is such that even when Divine Forces do make an effort to help entities in their needs, there are too often interferences from other forces or sources on the earth plane to block those influences that come from Divine Forces.

This Awareness indicates that essentially there is so much corruption and fraud on this plane at this time that any effort of Divine Intervention quickly becomes corrupted by the fraud once it enters into this plane. That this is, in part, triggered by the greed factor of many entities, including sometimes, those who seek to receive Divine Gifts, who think that they are deserving of a Divine Gift, when in fact they may simply be looking for something of a free hand-out, while on the other hand, offering nothing of great significance to their fellow humans, or offering nothing of any great significance to further Divine Purposes.

This Awareness indicates that many times entities find it impossible to notice their own inadequacies or their own fraudulent expression because those are simply perceived as problems that could be solved if only the Divine Forces would grant them something of significance to allow them to pay back what they owe to others.

This Awareness indicates that they may short-change others with the hope of eventually gaining some great benefit and wealth, by which they can then go back and make amends for the debts they have left behind.

This Awareness indicates the idea has been expressed in a statement (something to the effect that) the path to hell is paved with good intentions. This Awareness indicates that many entities have good intentions, but the path they take does not yield the results they expect and leave others holding the bag, so to speak.

14. That this of course, does not fit the category of provable fraud, because in order to prove fraud, one must intentionally seek to wrong another by whatever method used to extract information or goods or property, and must also give some kind of misinformation in the process of defrauding the other. If the intention and the misinformation are not present, then the entity has not actually committed fraud.

Nevertheless, to the victim of a poor situation, the result may be the same. They may be out their energy because they trusted someone who could not perform as intended, or as agreed. This Awareness indicates that because of inability or out and out fraud and misrepresentation, many of the gifts that the Divine Forces intended to present to entities on this plane may become distorted or rerouted, or totally lost in the shuffle.

This Awareness indicates that the Divine Forces cannot force entities to be totally ethical and proper in their thinking and ways of dealing with each other. That is for entities to work out themselves. It is likened unto a game of life, in which there are certain recommended rules for entities to follow in order to play the game so that all may benefit in the game-playing through a cooperative effort, but there are many on the floor who do not wish to be cooperative and therefore become competitive and begin to cheat in the game, and seek to make it more difficult for others to have their winning, and instead of the game of life being a win/win situation for everyone, it becomes a win situation for few, and a losing situation for many who then become angered, and turn around and decide: "If that's the way you're going to play it, then two can play the same game!", and they then in turn make sure that the next round is in their favor and the first winner will lose.

Thus, the players all lose in the long-run when the competition begins to turn sour and seeks to destroy each other, rather than to help each other in their winnings. This Awareness indicates that fortunately, there are a few entities who are beginning to recognize concepts of win/win situations, whereby they help others to win, and working with them, gain more from so doing.

This Awareness indicates that when entities find people who can cooperate with each other to help each other to win, then they have indeed found good relationships that need to be enhanced and preserved; that wherein there is the competition in which the entities involved each try to stab each other in the back, whether this is business, love or friendship; it is a lose/lose situation.

This Awareness warns entities to avoid such kind of entanglements, for the energies involved will not produce good outcomes.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization.

MEMBERSHIP LEVELS (Honor System)

LIMITED INCOME: \$30 per year or \$9.00 quarterly.

INDIVIDUAL: \$42 per year or \$12 quarterly.

FAMILY: \$52 per year or \$20 quarterly.

CONTRIBUTING: \$77 per year or \$25 per quarter.

SPONSORING: \$144 per year or \$40 per quarter.

BENEFACTOR: \$500 per year or \$150 per quarter.

PATRON: \$1000 per year or \$250 per quarter.

ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details.)
