the Cattle Mutilations

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

"NEW AGE"--SCAPEGOAT OF THE FUNDAMENTALISTS (WHAT EXACTLY IS "NEW AGE" ANYWAY?)

(C.A.C. General Reading, April 2, 1990)

(OPENING MESSAGE):

How Fundamentalist Christians View 'New Agers'

This Awareness indicates there are many entities who seek to classify all of the negatives into the subheading of 'New Age'; that this aspersion on the New Age as that which is becoming a kind of buzz-word among certain Fundamentalist Christian groups, especially as appearing to be a threat to Christianity, and therefore, they label anything that is opposed to their beliefs or anything that they would oppose as being part of the New Age; they also place their devil directly in the middle of the New Age, as though it were the god of the New Age.

This Awareness indicates that this is simply caused by the realization among certain of these leaders and members of this Fundamentalist movement that there are indeed forces at work that are outside of the mainstream of religion which they cannot control or influence, and therefore, rather than leaving them to be, they warn others to avoid them in that they are of the devil. This Awareness indicates that by labelling anything New Age as being of the devil, and labelling anything that they disapprove of as being New Age and of the devil, they have found a new catchall, into which they can throw all kinds of behavioral social patterns, group studies and self-help organizations, so as to have them classified in their polarized system of thinking.

This Awareness indicates that essentially, the Fundamentalist teaching relies strictly on a polarity type of thinking of acceptance and rejection, based upon their own systematic program as being the only proper program, and anything outside is of an improper nature. That because of this attitude that is being promoted by these certain Christian groups, many of the entities who are sincerely working to find truth and are willing to look into other spiritual areas for truth, who look into other religions or who engage in comparative religion, or who research fields outside of a particular religion; these entities are being classified alongside of the satanic groups and others who are less than acceptable in society.

2.

This Awareness indicates that there is a big difference in these many different spiritual groups that relate to certain things in common and relate to new discoveries in the field of philosophy. There is a big difference between entities who call themselves New Agers. Most Fundamentalists simply see New Agers as people who are carrying crystals, and listening to channels, and who are in some way or another relying on some guru or teacher as a substitute for Christ.

'New Age' is Merely a Shift in Consciousness

This Awareness indicates that in reality, none of these are what constitutes the New Age. The New Age is simply a shift in consciousness from belief, to that of discovery and a desire to know, even at the expense of questioning one's belief, and the New Age, in its shift in consciousness is willing to explore areas that would have been taboo in belief systems, and therefore, entities check out the different philosophies that are available on the public marketplace.

In some cases, entities get caught in a particular philosophy and stay there, even when philosophy is restrictive in its nature and prevents them from thinking any further. In other words, it too becomes a belief system, and is simply a substitute for the belief system that was thrown off. This Awareness has suggested to entities that they not concern themselves so much with finding something to believe in, but rather that they keep their mind open and constantly search for truth and constantly question their beliefs in order to remain open in their quest for truth.

This Awareness indicates that as entities have this open-mindedness in the search for truth, they are capable of finding more and more information that can add to the knowledge that they already acquire or have acquired, so that their mind is constantly expanding without being closed off because of some belief system that says: "No, this doesn't fit into my belief system, therefore, I can't pay any further attention to this, even if it does have some intriguing qualities."

This Awareness indicates that essentially, the New Age has nothing to do with crystals, although crystals can well be accepted as an interesting field to explore by anyone having an open mind. The New Age has nothing to do with gurus or channels, although gurus and channels may have information that is worth exploring to an open mind that is willing to listen. This Awareness indicates that the New Age essentially is a time in which new things can come about, and be looked at without fear of punishment, without fear of being burnt at the stake as heresy and without the feeling that you will be condemned to hell for having explored or examined some area of interest.

The Piscean Age--the Age of the Fish is Past

This Awareness indicates that in other words, it is an open time rather than a time in which entities must be closed and programmed. This Awareness indicates that the Piscean Age which has passed, the Age of the Fish, which is the sign of Christianity, as that which has had its influence on entities in the sense of promoting a belief system. The key word for Pisces is: "I believe," and it is ruled by the sign opposite, which is Virgo, which equates to the Virgin in the Christian religion and is exemplified by the virgins, priests and the Age of Reason.

The qualities of Virgo being that of reason and analysis, of bookkeeping, secretarial work, and things of that nature in which things are categorized and filed. These are the qualities that prevailed and controlled the Piscean Age. The sign of Pisces itself carries the qualities of meandering, seeking, exploring and of reflection and interaction. It is equated to that of the two fishes in relationship, in a sea of water, wherein water symbolically symbolizes the psychic energies and also is symbolic of emotion in the metaphysical sense.

The Aquarian Age and its Characteristics

Therefore, the Piscean Age was an age of love in the sense of interdependency, wherein entities loved one another, psychically, and needed each other for their psychological welfare. This Awareness indicates that the Aquarian sign in astrological symbolism has been referred to as a barren sign, a sign in which feelings and emotions are less important than ideals; the ideals pertaining largely to social ideals, are important in Aquarian actions and energies. This is not to say that it is any better or any worse than the Piscean energies. It is simply different. Another quality of Aquarius is that it enjoys creativity and uniqueness. It allows for uniqueness.

You can generally spot an Aquarian by the fact that they are unique or will wear very unusual or unique clothing or in some way will be rebellious to convention. This Awareness indicates that the sign opposite Aquarius which rules the sign of Leo. Leo being that which pertains to packaging, to dress, to clothing styles, to demonstrations, to show, presentations and staging, and if entities will look, they will see that the things which most rule this age at this time are television, movies and advertisements and the packaging of things.

This Awareness indicates that this is essentially what is occurring that is bringing in this New Age. It is simply astrological energies that are influencing the change in consciousness, moving entities from dependency on reason, on logic, classification and order into more of a dramatic presentation-type society, where the people show themselves, present themselves in what they consider their best image and best light, and these entities have certain ideals which they hold and attempt to pursue.

This Awareness indicates that if an interest is in the sense of crystallography or seeking philosophical answers through some teacher or guru, or through some scientific pursuit, and the entity goes into these various fields of study, it is all part of the uniqueness of Aquarius that allows entities to seek, to find, to know, and to discover truth. If an entity prefers not to seek truth, but simply wants to be told what to believe, that entity is still clinging to the Piscean energies and the old ways which are, in fact, fading.

This Awareness indicates that if entities in their pursuit of something find themselves becoming involved in such areas as satanism or the more diabolical areas, these entities are moving away from the proper path of spiritual development. They are not necessarily exemplifying Aquarius or the Age of Aquarius. They also had, for example, satanic and devil-worshipping groups, even in the Age of Pisces.

³ These have been around for hundreds and thousands of years, wherein pagans and different groups worshipped different types of deities that were of a lesser than the highest type.

This Awareness indicates that for entities to truly understand the Aquarian Age and the difference between the old and the New Age they will need to actually explore astrology, because astrology makes the classifications, and the very term 'New Age' comes out of the study of astrology, and entities who simply ignore astrology and try to define the New Age as being this or that have no comprehension of what they are talking about. This Awareness indicates that therefore, before entities really start to understand what they mean by the New Age and before those who consider themselves as New Agers, find themselves being classed along beside the satanic cults, it would be wise for them to understand the basis of the terms that are used in defining what is the New Age and where this actually came from.

This Awareness indicates that more has been given on this in the past. More can be given in the future.

DO SOME "SPIRITUAL" ORGANIZATIONS SEEKING THE LIMELIGHT GIVE 'NEW AGE' A BAD IMAGE ?

It seems like the media focuses on these organizations that present themselves to the public in very bizarre appearances, for example, the Claire Prophet group is now making a lot of news because they are convinced that in a couple of weeks there's going to be an atomic attack by Russia, and then they make quite a bit out of J.Z. Knight and the Ramtha group, and then there's this lady down in California from Orion who periodically has a big festival preparing to welcome the UFOs.

All of these organizations say that they are "spiritual" organization, and this gives the public the wrong idea I would think.

COSMIC AWARENESS:

This Awareness indicates that this helps to mold the public opinion of other groups that are outside the mainstream of religion; that it is not the fault of the media, for their purpose, their job is to find that which is news, and as the old saying goes: "Dog bites man is no news, but man biting dog is news," and the indications being that anything that is bizarre or out of the ordinary as that which is news. Therefore, when these entities do things that are out of the ordinary stream of social behavior and when it is especially in such an organized way as to represent a number of people, then it becomes newsworthy.

This Awareness indicates if it were only one or two persons making such statements, no one would pay any attention in the news, but when there is an entire organization around an entity who comes out with information that is quite out of mainstream thinking, it can be the basis for a news story. This Awareness indicates that this may or may not have any relevance to truth, depending on what the story is, but it will be newsworthy, even if it proves to be false, and the more bizarre or unusual it is, the more likely it will be newsworthy, particularly if there are large groups of entities participating in the activity, for others may see this as a threat to their social environment.

This Awareness indicates that it is somewhat regrettable that many entities thrive on being the center of news in such a controversial manner, even though the majority does not accept them socially for their stand. It would be more appropriate for them to avoid news attention and to keep a low profile, and to work quietly, but often entities seek attention which is more harmful to them than beneficial.

CRUSADING FOR THE NEW AGE NOT NECESSARY
-IT'S COMING WHETHER YOU WANT IT OR NOT
(Shirley MacLaine and Johnny Carson's Gonad Chakra)

FOLLOW-UP QUESTION:

The New Age is coming, ready or not, and it isn't necessary, is it, that entities in a position where the news media might seek them out, like Shirley MacLaine, for example, I've read they don't necessarily have to crusade. I mean, I've read her books, which are good, but when she gets on television, like on the Johnny Carson Show, and she's there to promote a movie or something, funny jokes are made about her reincarnations and some of her theories, and at one time she made a demonstration of where the chakras were by having big colored stars and placing them over Johnny Carson's body, which seemed rather ludicrous because everybody laughed at her.

So my question basically is, these people who are involved in what they think are New Age movements and activities, they don't need to crusade necessarily, because it's coming whether people want it or not; is that true?

COSMIC AWARENESS:

This Awareness indicates the New Age is coming whether entities want it or not just as winter comes, summer comes, night comes and day comes. Time passes, and with the passing of time, cycles pass and energies follow these cycles, so the New Age will come, and in fact is already having its effect, but this does not prevent entities such as Shirley MacLaine from having a message and being a messenger if she so chooses to do so.

This Awareness indicates that having, for example, placed those ludicrous chakras on Johnny Carson, she has made such an indelible image in the minds of viewers and the audience that there are few of those entities who saw that who will forget what a chakra is and how they relate to the human body. How many of those entities would know anything about chakras at all had this entity not demonstrated this in such a ludicrous way? It is simply another form of promotion, just as advertising some brand of aspirin in a ludicrous way sticks in the memory so that you never forget that kind of aspirin or that product.

4. This Awareness indicates the same can be said for other metaphysical teachings; that as entities are exposed to these reluctantly or not, they absorb information, which may be helpful in their knowing and in their future deprogramming, for ignorance is dispelled by any amount of knowledge that takes the place of the ignorance.

This Awareness indicates that the entity basically has a considerable amount of courage to put herself in a position of being laughed at and letting people laugh at what she is doing, in order that they might learn something. Much of the laughter, by the way, is from their own nervousness and their own sense of uncertainty. They do not know how to relate to this kind of information. They do not know whether to take it seriously, or to reject it, therefore, they chuckle or laugh and that way they can accept it without appearing to be too serious.

This Awareness indicates that it would be quite valuable for humanity to learn more about some of the metaphysical concepts that come out of India and out of metaphysics, and if entities have to save face by laughing as these are presented, that is alright, because at least they are being exposed to the teachings which they may not receive anywhere else. How many entities have the courage to go sign up for a class that teaches about chakras? But how much courage does it take to listen to someone like Shirley MacLaine as she teaches about chakras?

This Awareness indicates that this kind of teacher of metaphysics is rare and there needs to be more of them; that as entities learn more about metaphysics, they begin to have opportunities to decipher some of the ancient texts and meaning such as found in the *Book of Revelation* and its seven candlesticks, seven churches, as being relate to the seven chakras, and as entities in reading the *Book of Revelation* are also exposed to the reality of the chakras, they have a greater chance of understanding deeper meanings in the *Book of Revelation* rather than simply taking the shallow message promoted by most churches.

ED's Note: For related information on this subject, Please refer to 'Revelations of Awareness' Issue No. 84-19, (New Age-What It Is, What It Isn't), the True Nature of the Spiritual Path; \$3.00 from C.A.C.

THE INCREDIBLE CHANGES IN RUSSIA LATELY (Let's Drink to the Rebirth of Freedom in Russia!)

(C.A.C. General Reading, January 11, 1992)

OPENING MESSAGE:

This Awareness indicates that the events that have transpired during the month may be recognized as events that basically herald the end of the communist empire in Russia. This Awareness indicates that there have been enormous changes in that area, and there are perhaps more changes to come in the rebuilding of the commonwealth as movements toward democracy in the area, but even the most hard-nosed skeptic must finally acknowledge that this communist empire known as the Soviet Union no longer exists and that the coup or so-called coup was not simply a trick to lull the West into disarmament in order that they might strengthen their arms in comparison to those of the West.

This Awareness indicates that the greater concern now is where those arms held by Russia will finally end up in the world marketplace. This Awareness indicates there are already many of them that have been sold to Iran and to other Middle East countries and this can become a concern for the other peoples of the world to find

perhaps their neighbor possessing nuclear arms when they did not heretofore have any technological knowledge in this direction. There is a strong likelihood that many of these arms will gradually appear in different countries which have not previously had arms of this type.

The Parallel of Russia Today and "Star Trek 6"

This Awareness indicates that the movie *Star Trek 6* as that which is quite timely in paralleling the situation that challenges people on earth. There were many on earth who could not believe the Soviet empire was actually dead or dying and wanted to carry on the cold war in spite of the facts that were emerging, just as in *Star Trek 6* there were the conspirators who could not allow the peace accords or peace greetings to transpire between the Klingon and the Federation, for if peace were to occur, many of these entities would be out of work; their lifetime career would be over. They would have no future value, and therefore, they felt it necessary to keep the hostilities alive, to keep the hostilities going so that they could still be valuable.

The old warriors, by being such good warriors, had worked themselves out of a job if the peace program actually succeeded, therefore, they set out to destroy those who might promote the program for peace. This Awareness indicates that there is a strong parallel in this movie and in that which occurred during the past year between many who did not want to see the Soviet Union break apart and become a friendly nation. After all, when you have spent a lifetime hating a nation, to have it turn around and become a friendly nation can devastate your belief system and your whole purpose in your cause and drives. This Awareness indicates however, it would seem that many entities should at this time, if they have not already done so, raise their glass in cheering for the end of communism and the rebirth of freedom in that area of Russia, for all those who have struggled, who have lived under dictatorship and who now have a chance at freedom.

Even if they enter into the capitalistic type of activities and economic system in the midst of that which would be considered a disastrous depression, for indeed they are coming into freedom totally broke, with nothing but the remains of the dead body of communism, and will need to start from scratch, and prove from scratch the workings of free enterprise and a free society, that such can work for them.

This Awareness suggests that entities who still wish to hold hostility toward these people will need to scratch hard for reasons to feel envious or hostile, and that rather than feeling hostile, these entities should be in their prayers as they embark in the new freedoms and free enterprise effort to raise themselves toward a free society.

HAS ALL RUSSIA'S GOLD BEEN STOLEN BY CROOKS? (Enter Henry Kissinger Once Again!)

FOLLOW-UP QUESTION:

In reference to Russia being broke, there have been stories that high Russian officials over the years have been shipping and stashing billions of dollars of wealth out of Russia to private banks in Switzerland and elsewhere. Not only gold bullion, but artifacts worth incredible amounts of money. Is there any truth to these stories?

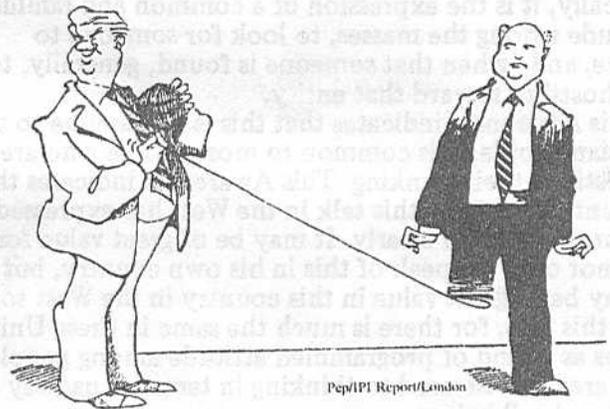

COSMIC AWARENESS:

This Awareness indicates that this appears to have substance; that these were high-ranking communists and officials working often with politicians and individuals from other countries to loot the Russian people of their treasury in order to secure their own position of wealth and prestige, when they saw the handwriting on the wall, that the country was going down, and that communism would not survive.

This Awareness indicates that there have been some indications that Kissinger was employed to help some of these entities or that his organization participated in helping some of these entities loot the gold. This Awareness indicates that the tons of gold that were available to the Russians seem to have disappeared during the past year, but could have been used by the people in rebuilding their country, their commonwealth, without the extreme reliance on the International Monetary Fund, but since this is not present, since the gold has been looted, the need for loans and assistance from other countries is necessary, is an issue which many of the West resent.

Why Can't the Russians Just Help Themselves? Why Should We Help?

They wonder, "Why can't they help themselves? They dug themselves into this hole through communism, and should be able to dig themselves out!" This Awareness indicates however, that it was not the people who dug themselves into communism, it was the Western bankers

Pep/PI Report/London

who set up the communism and it was certain individuals in the Communist party working with certain individuals from the West who have looted the Russian treasury; that this should be investigated and pursued, and the money returned, but it is unlikely that anything will come from this, and it is more likely that the Western banks will make loans only if the banks can control the minerals and wealth of the Russian people, thus creating a new kind of invisible tyranny for these people based on capitalism, in which the banks control the bottom line of the economy.

ARE "FALSE PROPHETS & MESSIAHS" TAKING ADVANTAGE OF THE RUSSIAN CRISIS? (The Russian Church as a Spiritual Healer)

FOLLOW-UP QUESTION:

There was an article the other day about false prophets printed on Soviet unrest, and I'd like to read this and ask Awareness if this is actually what is happening.

The spiritual leader of the Russian Orthodox Church said yesterday that "false messiahs and false prophets" are taking advantage of the crises in this country and finding a sympathetic response.

"They confuse people by pointing to concrete people or groups to blame allegedly for all of our troubles," Aleksy II, the primate of the church, said in a speech at Georgetown University.

These agitators, he said, insist that those blamed "should be expelled or denied their rights, or even executed and then, somehow, our country would be an earthly paradise."

The Soviet people, Aleksy said, are too used to thinking in "we-they" or "friends-enemies" terms and listening to the agitators.

He said that was a disease caused by "the virus of totalitarianism which has contaminated the human souls with hatred, spite and intolerance."

The speech was the primate's first major public address during a nine-day U.S. tour.

"Our country is never to know a life of prosperity and peace if our people do not overcome this disease," said the spiritual leader of 70 million Orthodox Christians living in Russia and other parts of the Soviet Union.

"The church, as spiritual healer, will help them recover from it."

He said the people's attitude is being shaped by the economic, political and social crisis.

That's the end of this Associated Press article. Is that significant, what he's talking about, and also, how important will the church be in Russia now that communism has disappeared?

COSMIC AWARENESS:

This Awareness indicates that the entity describes a problem that is much more widespread than is known, because it is not some thing that makes the news.

Basically, it is the expression of a common and familiar attitude among the masses, to look for someone to blame, and when that someone is found, generally, to feel hostility toward that entity.

This Awareness indicates that this is not unique to the Russian people; it is common to most people who are dualistic in their thinking. This Awareness indicates that this entity in giving this talk in the West has expressed the problem quite clearly. It may be of great value for him not only to speak of this in his own country, but it may be of great value in this country in the West to hear this also, for there is much the same in these United States as a kind of programmed attitude among people who are likewise used to thinking in terms of us/they and good and evil beings.

This Awareness indicates that it is very difficult for some people to think of everyone together in this problem and dealing together to solve a problem. It is much easier to think in terms of blaming entities for the problem. This Awareness indicates that there are often entities who *do* play the antithesis of a position and this of course will further aggravate the dualistic thinking. However, it is better to get away from the polarized thinking and try to work in ways that lead to solving the problem rather than blaming a force or a group for the causes.

The Reconciliation of 'Yes and No' Could Occur in Russia

This Awareness indicates that it appears that Russia may be the place wherein this concept of reconciliation of the yes and no will take hold in consciousness. It may occur there strictly out of desperation and lead the world into the recognition of a need for inner reform and for working to reconcile the opposites and extremes rather than polarizing these.

This Awareness indicates that it appears that this could be the way by which all humanity learns to stop pointing the finger and blaming each other and instead, start demanding that all work together to solve the problems. If such demands are made, it becomes difficult for those who would divide and conquer to generate their mischief among the masses, when the masses will not divide.

THE PROGRESS OF THE NEW WORLD ORDER IN EUROPE: ARE THINGS ALL ON SCHEDULE?

QUESTION:

Vikki received a letter from a member in Eindhoven, Holland. It's Jan V.T., who is head of the Foundation for Alternative AIDS Research; he's got a question here. It's an interesting letter, it's short, and I'll read it:

"Dear Vikki. Thank you for the quick handling of the ordered books and information. The Cosmic Awareness newsletters and literature are of an important value, specially as just a few persons of our foundation are preparing the international symposium of AIDS next year in Holland.

"It is like David against Goliath exposing the factors causing AIDS and the possible ways to rebuild the natural immune system.

"I have visited more than 50 times your beautiful country over the last thirty years. I have observed with sadness all the junkfood available to the general public and in the schools promoted by the newsmedia, destroying precious lives.

"For more than 12 years I have collected and documented all concerning our daily food items, our daily needs to stay healthy. I have noted that even in the natural food movement there is a lot of confusion as so many contrary concepts are written down. The picture gets clearer once we

6. study the laws of nature and that is why my unique over the years collected material and experience is about.

"Hereby I offer to all Cosmic Awareness readers to make use of my information which I collected and studied to serve the community.

ED's Note: we assume his information is written in Dutch, but for our members in Holland who are interested, please write to Vikki for the address.

"The other item is about the 'New World Order.' Here in Holland we hear almost nothing about this through the newsmedia. As we are preparing now a study panel, people within politics, science, health-care, economy, education, etc. I would like to ask Awareness how Europe is going in line with this "Order." Brussel is the main center for the European Community, also working behind closed doors, and close to my home address Eindhoven. Can Awareness comment on the progress in Europe.

"My english is not so perfect but the contents are coming straight from my heart. Thanks and regards from Holland. Jan."

COSMIC AWARENESS:

This Awareness indicates that the so-called New World Order as a term or name for changes that are being considered, will focus mostly at the beginning on giving more power to the United Nations to settle world disputes, wherein the nations working in unison will be used in solving the world problems by vote and by pressure from other countries in the United Nations, in a kind of political alliance coercion factor, whereby much in the way the Gulf War was handled or brought about, nations band together to influence further alliances, to gang up on nations that are not cooperative.

This Awareness indicates it is a kind of political pressure of nations, pressuring those who do not align themselves with the majority, and this type of pressure for political coercion is not seen as a final or totally just way of doing things because the pressures and powers and economics of the more powerful nations give greater advantage to them than to those who may be under pressure whereby if a nation is not cooperative to its own disadvantage, it may be pressured and the more wealthy nations may assert themselves on other nations to pressure them, even to bribe them with loans or special favors to go against the weaker uncooperative nation.

This Awareness indicates however, it does appear that over years the situation may change. It is possible that the situation may change to allow a more just form of relationship to emerge, whereby rules are made as to how nations can be influenced or how nations must behave so that these rules create a greater fairness to the various nations.

This Awareness indicates that *It* has previously given suggestions on how to establish a more harmonious world government that allows nations to solve their problems through economic means, through world courts, and through agreements as to what behavioral arrangements each nation is expected to abide with through favored nation statuses in the community of nations. *It* has indicated this information previously.

It does not appear that the so-called New World Order is fitting into this pattern which this Awareness has suggested; that it appears the grouping of nations as a kind of New World Order is but an organization based on United Nations coming together under influences from the more powerful countries for the purpose of

peacekeeping throughout the world in the way that these more powerful countries want peace to go.

There still appears to be motives that arrange and coerce other countries toward a particular avenue of expression, forcing them to be categorized or become enemies of the New World Order, and therefore, it appears to be somewhat of an order that relates to the use of power for coercing entities to behave in a prescribed manner, not entities as people, but as nations, to behave in such a manner to fit into the prescribed behavioral pattern of the more powerful nations.

This Awareness indicates that as to the European Community, it seems that it, as well as the rest of the world, must be unified under a kind of central control in order to have a greater influence in these affairs and also to be more powerfully organized, to influence any of the countries under its central power.

Breakup of Russia Put Back New World Order Schedule

This Awareness indicates that the New World Order would have done much more organizing further along, perhaps even already established, had it not been for the breakup of the Soviet Union into these smaller nations, but as the commonwealth of nations in and around Russia join together, they can be brought into the New World Order through a kind of centralized united group, much in the manner of a Europe that is centralized, so that these can fit into the New World Order scenario.

It appears that the New World Order was stifled for some time because of the breakup of the Soviet Union, but can be brought back on course for its continued development. This Awareness indicates that you can watch for other areas of the world also to become more unified and in groups of nations brought into the New World Order; this as a kind of network of groups of nations.

This Awareness indicates that in order for the ambitions of President Bush to be fulfilled, he will need to be re-elected in 1992. It is seen as an ambition of his to assemble the New World Order during this next term. This Awareness indicates that at present time, there are indications of some problems with the potential of his election because of the economy, and unless this is turned around quickly, the entity may not manage to get the reelection he needs in order to further push the New World Order.

This Awareness indicates that *It* does not see the New World Order as presently conceived to be the ultimate solution to man's needs, but *It* does see that it is a crude attempt at organizing nations to work together and that with some further thought and understanding, a different kind of order could bring nations into a harmony based on economic rewards that would encourage and reward nations for healthy and honest dealings with each other.

This Awareness suggests that these need to come under a lawful document that would guarantee, much as the Constitution for a strong democracy, a world constitution that guaranteed the rights of nations and individuals in those nations in a strong general way in which nations' relationships to each other were spelled out and in which individuals' rights within nations were clearly spelled out with remedies and purposes defined clearly by law to protect even the smallest nations or even the most lowly of individuals.

When this world document of rights and protection is introduced, it could allow for nations to ratify a world order and gradually, through the ratification, the nations would become favored nations in terms of economic privileges with those who have further ratified or heretofore

ratified, and in this way, as more and more nations enter, it could bring about a kind of unified nations of the world, or United Nations body, or a world community of nations that promoted higher values and freedoms on a world-wide scale.

IS THE NEW WORLD ORDER PLANNING A SERIES OF CRASHES TO PANIC THE U.S.? (Why Are U.S. Armed Forces On an Alltime "High Alert"?)

QUESTION:

A question from C.P. of Clarkston, Georgia, along this line. He writes: "Larry Abraham wrote a book entitled *Wipe Out* which he gives as a bonus to subscribers of his 'Insiders Report' market-letter. He says the planners of the New World Order are planning a series of crashes and when the public is in a state of panic, they will accept a one world currency which the New World Order will offer in exchange for our currency. They will try to keep the federal deficit as high as they can until we can no longer pay interest on our bonds and then, international investors will quit buying our bonds and then you have the planned panic. I suggest that you stress in *Revelations of Awareness* that the armed forces should be reduced and there should be a peace dividend. The armed forces should be brought home to spend their earnings here which would help business here at home. Foreign hand-outs should be reduced considerably. Dick Cheney and others are spending all they can at the direction of David Rockefeller and if the public gripes enough they will stop that charade. Suggest you stress that people should complain about these \$400 billion deficits and the people should refuse to stand for this foolishness. Bush is in Japan to try to get business and we should bring our troops home from Japan. We are being set up for a panic and people should be complaining like hell! Check this out with Awareness."

COSMIC AWARENESS:

This Awareness indicates the entity is absolutely right on all counts, but there is very little that can be done other than as he suggests; the few members who could write or do anything probably would not be enough to have an impact sufficient to sway things. This Awareness indicates that the efforts to keep the spending high are even at this moment being continued as the armed forces are put on higher alert in the DEFCON 2 level.

It is a strange thing that a time when peace is supposedly occurring that the armed forces are on higher alert than at any time in recent history. This Awareness indicates that it appears in part to be due to nuclear devices being sold from Russia to various countries which may be seen as a precarious arming of nations that are unstable. Perhaps this is the excuse used for the military readiness of the DEFCON 2 status.

This Awareness indicates that there is much in this entity's statement that should be restudied by those who wish to do something. This Awareness indicates that as the people become involved in the concern about the waste and ever-rising national debt, there is the possibility that the increasing voices of the masses could begin to turn the high spenders off and create a more conservative approach to the spending of money that is not available, for as this national debt increases, it is much like a business that overspends; it eventually must go bankrupt, and whoever has loaned money to it can foreclose and claim all of the assets that have been pledged.

This Awareness indicates in the national debt, the assets that have been pledged for this mortgage of the country is the country itself and amounts to a takeover of the

nation by the international bankers, particularly the families that run the Federal Reserve Bank. These families could, in a short time, become the owners of the masses. They could in time own all of the country, the land; anything the United States government has controlled or owned could be taken over and new rules, new laws created to satisfy the wishes of the new owners.

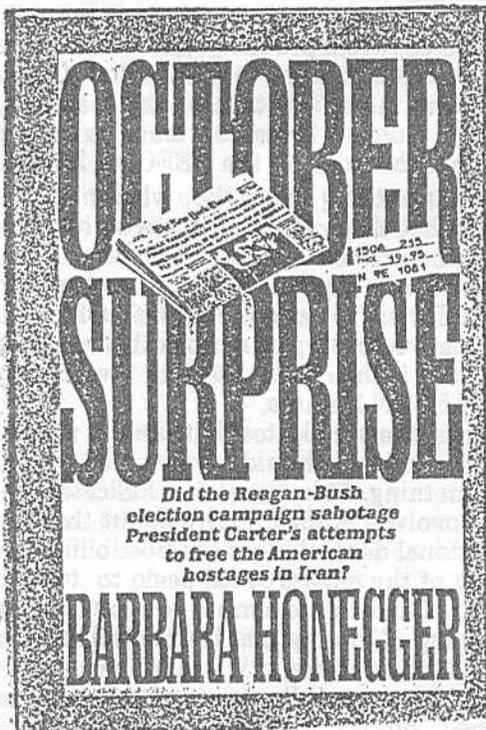

A Legal Way to Get Out of the "National Debt"

This Awareness indicates that the Constitution, the Bill of Rights, all of these things could be thrown out and new rules, new laws, even dictatorial or tyrannical laws could well be introduced to govern the masses. This would all be legal. This Awareness indicates there are a few entities who recognize that the Federal Reserve was set up illegally and the loans from the Federal Reserve to the country were set up to make loans and notes that were not bonafide money and therefore, were improperly made, and there are few people who see it as a legal way out of the so-called national debt; that the country declare a national moratorium against the national debt because it was not legally made.

This Awareness indicates the Federal Reserve note is but a note based not on U.S. money, -the dollar, -the treasury note being the correct dollar or monetary unit and the Federal Reserve note being created improperly because it was done unconstitutionally could be seen as reason to void the debt that has been created.

This Awareness indicates there are some entities who understand this clearly. It is questionable whether they could have the influence necessary to turn this around and prevent the privately owned Federal Reserve Bank from foreclosing on the nation.

ED's Note: for more information on the Federal Reserve and a list of the families that own it (all Zionists, most being of foreign origin), please refer to 'Revelations of Awareness' issue No. 89-11 (Let's Audit the Fed!); \$3.00 from C.A.C.

What happened to this book? Why isn't it displayed in book stores? It was published 3 years ago!

8. WILL EARTH CHANGES DISRUPT NEW WORLD ORDER? (Morton Scallion and His Predictions, -How Accurate?)

QUESTION:

We've received quite a few questions sent in about the Matrix Institute that puts out a monthly newsletter called *The Earth Changes Report*, by Morton Scallion, and this entity is supposed to have had some kind of divine experience which gave him the ability to see all of the earth changes going on around the world, and so he publishes this newsletters to warn entities about it, and he supposedly has an 85% accuracy. The latest member to send in a letter about this is T.M., Akron, Ohio, who has some questions based on the influences of earth changes and predictions by this entity. He writes: "Additional questions concerning the effects of the physical earth changes as predicted by Morton Scallion, depending on if they occur and to what degree or extent. The formation of a common market in the European community or EC, including whatever terms one wishes to use to identify the new political structure seems to be well under way.

"The New World Order, initiated by the Bilderberger Trilateral Internationalists is rapidly moving into a reality. The question is: Will this not be a hollow accomplishment if, as predicted by Scallion, the drastic and disconcerting inundations and quakes destroy and disrupt so many of the countries and the British isles of the European community? This could well happen within two to five years. Would Awareness please comment?" he asks.

COSMIC AWARENESS:

This Awareness indicates that this could alter many of the plans of both mice and men. This Awareness indicates that human frailties, even with all of their massed power and wealth and gangs and conspiracies, are still subject to disruptions of nature and this can be a major factor in altering these plans.

FOLLOW-UP QUESTION:

Does Awareness see his prediction (Scallion's), I guess is the term, or calculations, that these devastating quakes will occur in Europe, according to the percentage that he claims?

COSMIC AWARENESS:

This Awareness indicates that there appears to be a high degree of correctness in this entity's assessment of things to come. It is not seen as absolute, or infallible in specifics, but it is seen as having considerable accuracy in general. This entity is speaking of quite a number of events over quite a period of time. Some of these events appear quite likely, perhaps to some degree varying from that described by the entity or changing in terms of timing, but it does appear that the entity has received considerable insight into the energies that are in motion.

HOW TO HANDLE FEAR DURING THE "TRIBULATIONS" (How Spiritual Energies Will Protect Entities in Danger)

QUESTION:

Another question from T.M. "The term 'tribulations' seems to convey a rather ominous period of time to the eyes of most religions and beliefs that recognizes it. The period of 1991 through 1997 is sure shaping up to be an experience for all of us. Awareness has repeatedly suggested that fear is not the way to go; that you merely attract that which you fear and draw it near.

"Being well informed, realizing that you have several options or choices of what you can do to ameliorate forthcoming conditions, and taking whatever actions

you select as the most appropriate seem to be a logical approach. Does Awareness suggest that one's attitude, confidence and creative sense of spiritual empowerment contribute more effectively for one's protection and well-being?, and does this apply to periods of time in years, months, or even in matters of minutes and seconds?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that generally, if one has the spiritual energies in their lives, they are protected, even in momentary situations they are protected through the long-term travails through life in the crisis situations and even in momentary situations.

This Awareness reminds you of the shooting incident in which Vikki T., walking up the path heard a shot in the woods and then for some reason, without knowing the reason, stopped briefly to look at something and heard the bullet go past her face. This Awareness indicates that the spiritual energies or guides accompanying her led her to stop, to prevent that bullet from striking her. This Awareness indicates that this is an example of how, even to the moment, spiritual energies can protect entities who are working within the Light and the spirit.

THE ADVANTAGE OF BEING AWARE IN THE COMING TIMES

(Cosmic Awareness Suggests Daily Meditations Begin Now)

QUESTION:

Another question by T.M. "At this time of choices, tribulations, the best-laid plans may be foiled or incomplete. What does Awareness suggest to further assure one in the turmoil of so many things going wrong, changing, confusing and fatiguing conditions that will give them further hope for transition into the next appropriate level of vibrations or level of consciousness?"

COSMIC AWARENESS:

This Awareness indicates meditate as often as possible. Remain poised in spirit and have faith in higher spiritual forces, and be aware, become aware of all things that are occurring to the best of your ability. This Awareness indicates that by being made aware of what is occurring, you can know what to do when a moment comes, you can better know what to do when a moment comes than if you are unaware and something occurs.

If you know anything about what is happening because you have learned something previously to the event, you have an advantage over the entity who enters upon an event without any understanding of it at all. This Awareness indicates that if you have faith in higher forces, in spiritual beings, in the protection of these entities in your life, to a life, if you have this kind of faith, then you have less fear.

If you have less fear, you are less apt to panic. If you are not panicking, you are not likely to do something foolish in the moment of crisis. This Awareness indicates that by remaining poised in spirit you have the comfort of the spirit within you; you will feel courage. You will be able to respond in accordance with whatever is needed at the moment.

If the moment calls for you to sit and stay for hours where you are before seeking to make an escape, then you will stay and you will not be fearful. You will not be driven out by fear, because you will be in poise, in harmony with the spirit, but if the moment calls for you to flee and run, by being with the spirit, you will sense that the moment is right and you will flee and run.

This Awareness indicates that it is important for entities to meditate because it brings them into a state of poise, of centering, whereby they are not so easily influenced by external forces. They remain calm and tied to the light of the spirit within. It gives them an assurance and a tie with things of the spirit, and therefore, throughout a circumstance, though it be dangerous or though it be frightening or the security of the entity is threatened, or the financial security is disrupted; the entity who is calm within has a greater chance of acting properly and doing the right thing to get through the crisis.

This Awareness indicates the entity who is in a state of panic only adds to the problem when a crisis is at hand. This Awareness indicates also, that the entity who is in a state of poise is more open and receptive of spiritual guidance and spirit guides can move them at the right time to the right place to avoid the wrong experiences.

FEAR NOT THE NEXT FEW YEARS,--IT'S AN ADVENTURE!

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that *It* does not wish entities to enter with extreme apprehension into the next several years, for in most cases, entities who have spiritual attachment and who have a reasonable level of awareness will pass through these years untouched by the events that will occur, and those few influences or events that touch you will, in most cases, be of such a nature as to only add to a sense of adventure or a sense of wonderment.

This Awareness indicates that always the prediction of things to come are more psychically frightening than the events that transpire, even if perfectly described. This Awareness indicates that if someone tells you there is going to be an earthquake tomorrow, you may be quite frightened by the possibility because it is such an unknown, and if you trusted the person and if you knew that the entity was telling you the truth, you could be quite distressed because you do not know exactly what is meant or what the earthquake would mean to you, but if you, the next day experienced the earthquake, it may simply be a feeling that your bed is shaking. It might wake you up, or it might be you are driving and your car weaves, and you wonder if the wind blew it, or it might be that you see the buildings sway and then stop.

The Purpose of these Cosmic Awareness Readings

Often the fear of something is far greater than the actual experience, because the experience is an event that occurs and fear does not operate so much with the event as with the thought of the event. The person who describes to you something that you do not want to happen can generate more fear than the actual event. This Awareness indicates that *It* wishes entities to realize the purpose of these readings is not to instill fear or to make you to be apprehensive.

The purpose of these readings is simply to prepare you or to give you reason to prepare yourself for potential events that may occur. *It* does not see that *any* individual in this organization is in danger during these coming two years. There *are*, of course, individuals in this organization who will experience danger, but this Awareness does not see these. *It* has not looked for these dangers. *It* has not looked for danger for individuals.

It is simply telling you that there are things that will happen, and there are certain energies that are likely to occur, and when *It* speaks of this, if you take *It* to mean:

"You are in danger!" then you are projecting further than what Awareness has given you, further than what Awareness has said, for *It* is not saying that any of you are in danger, even though perhaps there will be some who experience danger during these coming years.

This Awareness indicates even if this Awareness had not given such information, the same dangers in the coming time would still apply. Therefore, this Awareness is not creating dangers for you to worry about. If anything, *It* is informing you of potentials which you may wish to prepare yourself for, and if you get further insight, you may wish to avoid certain places or actions in accordance with your insight.

(The Law of Gratitude is given)

EVENTS IN RUSSIA FOLLOWING THE "COUP"

(What Mr. Gorbachev Will be Doing)

(From a C.A.C. General Reading, January 12, 1992)

OPENING MESSAGE:

This Awareness indicates that there are many entities who have some curiosity in regard to events in Russia following the coup. This Awareness would like to help clarify precisely what occurred for there have been many different versions and opinions. This Awareness indicates that in a brief statement, the coup and aftermath resulted in the hard-liner doves or what might be termed hard-liner Skoptsis having taken control of the country.

This Awareness indicates that prior to the coup, the soft- or dove-skoptsis were strongly active. The more firm or right-wing type skoptsis are now fully entrenched. This Awareness indicates that this is a situation that will help to assure the communists will not be able to reinstate them-

MORE FLESH FOR THE SKELETON: (Part 16): THE CATTLE MUTILATIONS

(C.A.C. General Reading, August 12, 1990)

WHAT COULD SPLIT CATTLE HAIRS DOWN THE MIDDLE?

This Awareness indicates that an area that this Awareness has not yet covered in connection with the alien situation as that which relates unto the cattle mutilations that have occurred throughout your nation and other nations; that this has been occurring for a number of decades; that this does have an area which does need to be looked at somewhat briefly, because there is considerable loss for farmers when an animal is mutilated. This can be an expense as well as a shock to a farmer, to have a cow mutilated.

This Awareness indicates that much of the purpose for cattle mutilation has already been covered; this in particular is related to the use of the substances from cattle glands and from their blood and from the entrails that are taken from the cows in terms of the uses to which they are put as food for the aliens. Often these cattle mutilations are blamed on Satanists or other types of cults, but the activities and nature of the mutilation is not something that can be conducted by humans or unsophisticated non-technological types of instruments and entities.

10. selves in the offices of that country or gain any serious foothold in the Republic.

This Awareness indicates that these entities are thoroughly dedicated to movement toward democratic reforms. They may have some difficulty and the democratic reforms may, if not coaxed with help, may require some interferences that are less than democratic and more official in terms of state controls but it will not be towards the old state controls of communism.

This Awareness indicates that the questions for this reading may now be asked.

QUESTION:

In relation to Russia, Mr. Gorbachev has resigned and left the scene. Does Awareness see him leaving the scene completely?

COSMIC AWARENESS:

This Awareness indicates that *It* sees this entity as taking a position in the private sector, working on international business levels with the potential of returning to the political scene at a later time. This Awareness indicates that *It* sees the entity Boris Yeltzin continuing in his position up through 1995 and possibly longer. This Awareness indicates that the entity Gorbachev has led the country out of totalitarianism into freedom, but has done so at a great expense in terms of his own prestige at home, because so much expense to the people for which he was blamed, which has come as a result of the change-over from communism to a more free enterprise system.

This Awareness indicates that as the nation begins to regain a stable economy the entity Gorbachev will be appreciated more in hindsight than at present time, and that this may allow him a new respect in the future. This may allow him a political position in the future of the commonwealth.

of the cattle mutilation is more likened unto a processing than a mutilation taking place in a field. In fact, in most cases the cows are beamed up and mutilated aboard ship and then dropped back into the field, either from which they are taken, or elsewhere.

This Awareness indicates that thousands of mutilations occur yearly throughout this nation and that most of these go unreported, as far as the public is concerned, though there are special phone numbers and instructions for police to notify in the event of cattle mutilations in their area. That akin to this is the fact that human blood and cattle blood is very similar, in fact, a human can accept a transfusion from cattle blood if necessary on a one-time basis.

There is also a new technology that allows cattle blood to be processed in such a way that it can now be used in making artificial human blood that can be repeatedly injected into humans for transfusion. That this appears to be that which will in the future take the place of blood donations and help to prevent the spread of AIDS through blood transfusions; that this also will make use of blood that would otherwise be wasted in the slaughterhouse where it is poured down the drain.

This Awareness indicates that this is not a pleasant topic for entities but it is information that needed to be covered in connection with the alien information because it is closely linked and tied with alien technologies and their processing of food and experiments.

ED's Note: For more information on cattle mutilation, Please refer to 'Revelations of Awareness' issue No. 79-25, (The Secret of the UFOs; The Night Mutilators); \$4.00 from C.A.C. Also, the book "An Alien Harvest", by Linda Moulton Howe, a massive book with full color illustrations devoted to this subject. Please refer to CAC Book Catalog Price Sheet.

Mutilated cows in Logan Co., Colorado; hides cut, organs removed, no blood, no clues

MYSTERIES:

The Midnight Marauder

Each day, just before dusk, ranchers and farmhands pile into pickup trucks and fan out across the rolling prairie of northeastern Nebraska. They park mostly on ridges or hilltops, where they can scan the pastures and the narrow roads that wind through them. With rifles and shotguns leaning against their trucks, the men watch nervously, smoking cigarettes and talking with each other over a network of citizen's-band radios. Some of the men will stand guard all night, yet none of them really knows what he is looking for. "I've never seen anything like this," says State Sen. Jules Burbach, who has represented Knox County for eighteen years. "Folks are almost hysterical."

Since last May, more than 100 cattle have been found dead and gruesomely mutilated in Nebraska, Kansas and Iowa. On John Sunderman's farm outside Madison, Neb., a cow was killed with a blunt instrument last June and her udder and sexual organs were cut off. When a veterinarian examined the corpse, he found that all of the animal's blood had been drained. On the nearby ranch of Vern Stringfield, a month-old bull calf was clubbed to death. Its blood was drained off, too, and someone cut a hole in the calf's side, removing the intestines and coiling them neatly next to the head.

Cattle Mutilations, UFOs Are Talk of Logan County

By DOROTHY ALDRIDGE
GT Staff Writer

The carcasses of three mutilated cattle, one appearing to have been alive when cut on, have been investigated by the Logan County Sheriff's Department in northeastern Colorado.

The incidents, confirmed as mutilations by investigating officers, brings to 76 the number of animals that have mysteriously died and suffered disfigurement at the hands of unknown butchers since the scourge began in Logan County in August 1975.

Almost nightly sightings of unidentified flying objects have been reported to Sheriff Harry L. "Tex" Graves, whose policy is to investigate anything that might have a possible connection with cattle mutilations.

Deputies flying over a pasture west of Sterling en route to investigate two other possible mutilations Aug. 20, saw a Hereford cow lying on its side.

Their investigation Aug. 22 revealed that the animals sex-

organs had been precisely removed along with four teats from the udder. A large section of hide had been peeled away from the right front shoulder and neck, leaving the cross hairs untouched. Removed and missing were glands from the lower side of its neck, its left eye and ear. The rectal area had been bored out as much as 18 inches into the animal.

Officers believe the cow was probably alive during the incident because it appeared to have tossed its head and splattered blood around the area.

Officers said the mutilation appeared to have been done in the pattern that has become characteristic of cattle mutilations in some 23 states: No tracks or clues were in the immediate area of the animal.

Investigated Aug. 20 north of Sterling were the carcasses of an Angus bull and heifer.

The bull was found in a pasture, the skin on its lower left

jaw peeled away and its left ear cut off, officers said. Approximately a mile away, the dead heifer was found flat on her back in a ditch, with an 18-inch square piece of hide removed from the brisket.

Residents of Logan County in November 1976 began noting the frequent activity of unidentified objects, which is still continuing, according to Undersheriff Jerry Wolever. At the start of their frequent appearances, the UFOs were generally seen between 8 p.m. and 10 p.m., but recently sightings have been reported up to 4 a.m.

From a high vantage point 30 miles west of Sterling early Thursday, Wolever watched UFOs flying "very low" in the sky, he said.

"There were several of them that kept flashing bright for a few seconds then faded out," he said. "You could spot them, because they seemed out of place in the sky."

HOW DO BEINGS FROM ANOTHER WORLD FIT IN?

QUESTION:

(How the Shaman Works 'Magic')

A question from S.B. He writes: "I would like to hear Awareness comment on the innumerable beings from other worlds who come to earth in non-physical vehicles, working with higher vibrational energies, not material. They are typically of a loving nature and are here to assist us. Some earth people may detect their presence, as the reader who reported hearing crickets. This is literally the sounds of their body's energies and if heard continuously for a period, one might assume a mutual attraction. Most experiencing this may have prearranged this or perhaps had or have residence on their world. If such a one is so inclined, elevating one's vibration and surrounding self with a light before calling these beings with the intent and willingness for collaboration may assist clarifying the contact. Would Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates that there are innumerable entities within the universe residing in the electromagnetic scale at different frequencies, many of which can travel or traverse frequency levels going from one octave to another; that this is a source of inspiration for some entities, and that it is also a source of strength and energy and spiritual guidance for some entities.

Depending on how entities with to tune into and what energies entities attune to in regard to these beings, they can benefit, or in the case of negative beings, can be harmed by their attunements. That at different times in the course of history of human consciousness, there have been changes or phases in which humans sought attunement to these invisible beings and in their attunement had certain descriptions. In some cases they would see these as fairies or as angels or as lights or as animal types or beings of humanoid shapes and so forth; all in realms of consciousness.

How the Shaman Attunes Into Spirit

The shaman, for example, might travel into an imaginary hole, one which is created in his imaging process, a hole in a tree or a hole in the ground or a hole in the wall, and in the travel in this meditation, the shaman would then, entering into the hole, see himself entering a new dimension: a field or a valley or a place where there is sunshine or some other nature scene, wherein the entity then comes across images of animals or birds or some other special spirit being that becomes his or her special ally. It is in this way that shamans will pick their special nature spirit or animal spirit and in this process, they then attune in this meditative process, they attune to this and gain energy. In some cases, rather than an animal or a living creature it will be a crystal that they come to and they will gain energy from the crystal. It also can be a tree or some other object that gives them energy.

EXCERPTS FROM A DIARY OF A NEAR-SIGHTED ALIEN...

12.

This Awareness indicates that the shamans down through the ages have used this technique, for strengthening themselves, for gaining power and strength of a psychic nature, to let them heal themselves or heal others or to heal situations, to carry greater force than they themselves would have alone. Still another entity might seek to have an alliance with what would be visualized or described as an angel, thus they visualize an angel from God, an angel from some heavenly abode that comes to them in their meditations and they align themselves in a kind of harmony with this being, and in so doing, gain greater strengths, gain courage necessary for the task they face.

Still others use other types of beings and make their connections with them. It varies with the religion, with the beliefs of the entity, with the training of the entity, with the general focus of the entity, with the culture of the entity, and with the time zones in which the entity lives. This Awareness suggests that these beings, when given attention through such meditation gain energy for themselves and the energy they gain also helps to strengthen the alliance so that the entity who attunes to them begins also to gain energy.

It is much like the action of conjuring up Phillip, in which one can visualize a being and the being in time takes on the energy of the one who visualized, and in time that energy helps the conjured being to have a greater substance and to take on an appearance of actual beingness. In some cases these beings already have been energized by some other creator of the past and in the other energizing of the being you may attune to these entities and gain from what has already been created and add your energy to this.

Thus, you may attune to an angel that is umpteen thousand years old, such as the concept of Raphael, or some other being, and in attuning to raphael, you may add more energy to this attunement and gain from the adding of your energy to Raphael's energy and thus strengthen your alliance with this entity. This Awareness indicates that it is impossible to simply narrow down a number of beings and say "There are this many of the invisible beings. There are this many of *this* type or *that* type, for there are unlimited types of entities in various realms and frequency levels according to what entities wish to call upon and rely upon in their attunements.

This Awareness suggests that you be most cautious to draw and to bring yourself in alignment with only the highest and best.

THE ASURAS CREATURES OF AHRIMAN WHO CONTACT ENTITIES IN THEIR SLEEP

QUESTION: (Cruelty in the Home Attracts these Entities)

A related question from M.B., Carter, Arkansas. She writes: "The material on aliens have even gotten my husband interested in reading the last couple of newsletters, which is a breakthrough, because he is such a pragmatist. If I didn't know better, I'd think he was from Missouri, the "Show Me" state; which brings us to a question for Awareness on the Asuras. Could Awareness please expand on the interdimensional type known as the Asuras, who contact people during sleep. For instance, how does one know if this has happened to them? Will there be a memory of such an assault? What can be done to protect against such violation? I presume people abducted or contacted in this manner are as much a victim as when kidnapped physically be aliens."

This Awareness indicates the Asuras are those creatures or beings that work under the direction of Ahriman. They may be thought of as little pesky demons; that they only have the strength that entities give them. If you have fear of them, they are stronger than if you totally ignore them. If they have some kind of outlet or channel that brings them into your presence, it sometimes is difficult to ignore them, and they will tend to come into your presence through entities who are involved in drugs, drink or any kind of sadistic activity or hostility, excessive hostilities.

They tend to express themselves through entities who are developing or have already developed a kind of meanness or sadistic or cruelty in their attitudes, and it is through such entities that they find an anchor in order to locate themselves in a general environment. Thus, you may find them in some situation where a home has been dominated by or highly influenced by a being that expresses cruelty or hostility or the cold sadistic type of energy.

This Awareness indicates the Asuras feed on that kind of expression. They thrive on seeing someone suffer and will tend to hang around an environment where such an agent who would bring about such suffering could operate. If your home is peaceful, if there are loving beings, if the entities do not tolerate cruelty, if they do not allow it, these Asuras cannot find an anchor to stay in such areas. They are the ones who encourage cruelty wherever it is found. It is through their encouragement that the cruel become more cruel, the sadistic find new ways of becoming more sadistic.

This Awareness indicates that healthy entities need not concern themselves with Asuras; that these entities cannot take root or anchor themselves where this kind of cruelty is not already present. If it is present, you can rid yourself of these entities by reducing and eventually eliminating any expressions of cruelty. This Awareness would suggest counselling for those who are channeling such Ahrimanic cruelty.

(FOLLOW-UP QUESTION):

She suggests that these entities contact people during sleep. Is that correct?

COSMIC AWARENESS:

This is only in regard to those who would have an anchor in an area wherein they can attempt to promote the seeds of cruelty in an entity's mind. Wherein there is sadism in the home or in the area or someone is channeling sadistic attitudes; these are nonphysical beings. They are energies or thought-forms that can essentially contact an entity when the entity is open or when the consciousness guard is down, such as in sleep. It is not necessary that an entity be asleep, however, to channel the Asuras' energy.

This Awareness indicates that entities wishing to study more in regard to Asuras, may study the works of Rudolf Steiner in his descriptions of Ahriman and some of the beings associated with Ahriman.

ED's Note: For more information on the Asuras, Please refer to 'Revelations of Awareness' issues No. 82-24 (The Forces of Ahriman: a Special 25 page report); \$4.00; also, issue 91-6 (Gods Gone Mad; The Giza Group; the Force Behind the Alien Force; \$3.00 from C.A.C.

THE RELATIONSHIP OF "CLOSE ENCOUNTER" ALIENS, ORION GREYS' DEROS, TROLLS, "THE THING" ETC.

(Some of the Wonders of Genetic Engineering in the Past)

QUESTION:

V.B. writes: "I was reading past issues; like ten years ago Awareness states the Greys were cloned from cow's eyes and so forth. Now Awareness is stating they are insect-based from Orion. The important thing is to be aware, but I got a little confused: cow earth aliens, or insect Orion aliens; I'll keep reading and maybe I'll figure it out. Maybe it doesn't matter."

I think she was in error there, but what she was referring to was in a UFO issue about ten years ago regarding cattle mutilations, Awareness went into an explanation on how these fluids were being used, the Tirpo acid and so forth, and it closed the information with: "These creatures as also being a kind of robotized biological creation that served as servants to those who are the alien force on this planet. This Awareness indicates that there are other types of UFO creatures or beings, that this is but one which has been popularized through the movie *Close Encounters of the Third Kind*; that the eyes of these creatures are cattle eyes; the brain as being the brain from a cow."

COSMIC AWARENESS:

This Awareness indicates that the use of substances to form a matrix for genetic engineering as that which can be used for various types of creations; that the beings that were portrayed in the movie *Close Encounters* were not what are presently termed the Zeta Reticuli. These were what have been described as white in color. These are a kind of offshoot creation. There are a small number of these beings and rarely are they seen or reported. They were simply used as a pattern for that movie. The eyes were cloned from the genetic qualities found in cattle eyes through the action of mutilation. It is important not to confuse the Zeta Reticuli with the beings that were shown in *Close Encounters*; these were not the 500,000 year old Greys that have been described.

There are several types of these Zeta Reticuli Greys. There are those whose behavior is more cooperative with humans, and there are those who are quite hostile to humans, and there are those who have been on earth for extended time, underground, known as the Dero. These are still another type of Grey; these being the more vicious and cruel type. They do not tend to venture to the surface; that there are rare occasions in which they come to the surface and there are legends of them told in stories, such as in the stories of Trolls. These are essentially stories that originated from Deros or underground beings.

This Awareness indicates that the statement of the Greys being insect-based is only in part correct. There is a strong reptilian base, just as there is a reptilian base in humans which serves in the spine of these entities. There is also a certain amount of photosynthesis that goes on in these Greys which would indicate in some of them, certain types, that that there is a plant-base, a vegetation base in their being.

This was especially dramatized in the movie of the early 1950s known as *The Thing*, in which James Arness played the thing that was created from a kind of plant life base. That the insect qualities of the Greys is that which affects their ability to think in a manner of a hive, and this was the point of the expression; the reason for bringing out the insect-base in their genetic engineering is that they have a hive-like mind.

They also have eyes, at least one type has eyes much like that of the cat. This Awareness indicates that the cat has evolved from a combination of certain reptilian and mammal, what may be termed, associated with the monkey; the mammal and reptilian genes working together as being the source for the genes that make up the cat, and the cat's eyes and the alien's eyes are very much the same, although many of the aliens will have a tear-drop lens over their eyes so that you cannot see the cat's eye beneath.

This Awareness indicates the sabre-toothed tiger and some of the ancient animals that have disappeared as having contributed genetically; these also as having had some connection, even in an earlier time with reptilian type genes. It appears there is also a connection between the seal and the cat in terms of genetics, but this as being very minor; that these energies, when genetically spliced from animal to animal or creature to creature, are not always easily traced, once the new creature is formed.

This Awareness suggests that this is likened unto the creation of a totally new being rather than an evolution. You cannot, for example, think of colors of crayons as having evolved out of each other. Each may be created separately from combinations of other colors or primary colors. The primary creative forces were those that are based on positive and negative poles along with the center point which would be called neutral.

If a spine is brought into existence and the positive side is given a head, and the negative side becomes the tail, the entity tends toward that which would be more of a mammal in nature. If it is reversed, and the negative side is given the head, and the positive side becomes the tail in terms of polarity, the spine then tends more toward that of the reptilian types. Birds and reptiles all evolved from the negative; their heads evolved from the negative point on the pole of the magnet, and their tails evolved from the positive pole of the magnet which is the spine, whereas humans or mammals tended to evolve the other way around, with the heads evolving from the positive poles of the magnet, and the tail areas evolving from the negative poles of the spine.

The Magnetic Difference in Cats and Dogs

This Awareness indicates that various combinations, mixing genes from these creations leads to a creature in between; the cat, or feline being more on the negative side than the dog, or canine, for example; the canine having a more positive head orientation, and negative tail orientation in terms of polarity. This Awareness indicates that when *It* speaks of positive and negative, the negative side is more associated with that which is magnetic and the positive with that which is radiance. It is not a matter of good or bad, but one can see that the more magnetic a pole, the more self-centered or self-interested would be the pole and the more radiant, the more outgoing would be that pole. Therefore, the dog is more outgoing in its expression than the cat, and the cat is more 'me' oriented and self-oriented. The cat may be just as intelligent or perhaps moreso. It is more independent than the dog. The dog is more expressive than the cat.

The human is more expressive than the snake or a serpent of any type, a reptilian. This Awareness indicates that in understanding this you may begin to recognize that the mixture of genes from these different points on the magnetic pole of life, by creating a creature from genes taken from different places will determine the kind of expression it might have. The cat is more graceful. Its movements are more like that of a snake than that of a dog which often is quite awkward in its expression and movement.

"The Thing" was 8 feet tall, hairless and mewed like a cat. It had no nerve endings and bled green. It came from outer space and crashed at the North Pole and was frozen inside this cube. It was hacked by axes, set on fire, and one arm torn off by dogs. It grew another arm. "The Thing reproduced itself asexually by podding, drank human blood, and was a vegetable. It was more intelligent than man, stronger than 10 of them and was unshootable. It looked like Boris Karloff. It wasn't however, it was James Arness, in his first movie and before *Gunsmoke*.

This Awareness indicates that to some degree the monkey is more graceful than that of the dog. This is because the monkey has a certain number of reptilian or negative genes in it, moreso than are present in the dog. The human being, like the monkey, also has a certain number of negative polarity or that which is magnetic energy, more magnetic energy than that of the dog. This magnetic energy allows an entity to be more self-aware. It has certain value.

Thus, you cannot simply say that the negative pole is bad and the positive pole is good, or that reptilian genes are bad and its opposite (mammalian) are good, or vice versa. It is a combination that distinguishes what is. This Awareness indicates that the Zeta Reticuli are not emotional like would be a dog or a human because they are more toward the magnetic end of the pole than is the human, the human being more on a radiant end of the pole of life, and therefore the human is more expressive and has more outlet for emotional expression.

The DNA Code Determines the Nature of the Creature

This has certain advantages. It also has certain detrimental effects. Likewise, the Zeta Reticuli, being more magnetic and inward and disciplined with the magnetism, tend to have certain advantages and also certain disadvantages. The combination of DNA code in the genes that make up their being, (this in regard to any creature), determines the nature of the creature. It does not indicate in itself good or bad, except as it relates to the values of others. Thus, an intelligent mouse would think that cats are bad; an intelligent cat that likes to eat mice might think that mice are good. That were the mice twenty times their size and the cat smaller, the value systems would change and the cat would think the mice were bad, and the mice might think the cat was good. This Awareness indicates that value systems are something quite separate from the creation of beings and their very nature, the nature of what they are. The value systems are but measures of what each creature prioritizes for its own survival and for the good of the things that it values in regard to its survival.

This Awareness suggests that one more question be asked, or that the Interpreter be brought from trance.

"CLOSE ENCOUNTER" ALIEN ?

(FOLLOW-UP QUESTION):

What was the purpose of that alien used in the movie *Close Encounters*, where the creature had cattle eyes and the brain being the brain from a cow. What would be the purpose of creating an entity like that?

COSMIC AWARENESS:

This Awareness indicates there was a number of such creations; this being an attempt by the Greys to find a way to enhance their own immortality or the stock for improving the continuation of their race. You will recall that the Greys are more or less a dying race because they are copies of copies of copies of copies of copies of copies, for thousands of years, and each copy loses a certain amount of essence in the repetition of the cloning process so there was this effort by these entities to use parts from cattle, mixed with their own usual cloning methods, to see if they could improve the race and this was the result.

There have been a few reports of these white types. There have been some reports; they are much more rare. It was an experiment, conducted some time back, approximately two decades ago.

PUTTING THE ALIEN PUZZLE ALL TOGETHER

-DON'T GET BOGGED DOWN IN DETAILS

(Being Obsessed with Aliens Not Too Cool)

CLOSING MESSAGE:

This Awareness indicates that there has been an enormous amount of information given in regard to the aliens. There is an enormous amount of information now out and in books, in publications. Much of it is confusing. Much of it in a kind of inconsistency with other information. It will be impossible to answer all questions or to clarify all of the information out there as to whether it is accurate or inaccurate. Entities have a general overview. It is not essential that entities have all the details in place.

This Awareness indicates that if you are putting puzzle together, if you can see what the puzzle portrays in a general overview, it is not essential every piece is properly in place, particularly if you have other things to do with your life, rather than putting together all the pieces of the puzzle and making every one fit perfectly. If, of course, you want every piece of the puzzle properly placed, then you must continue sorting out and looking for absolutes and clarification.

This Awareness suggests however, that you should be aware, the more precise and exact the information you seek, the more difficult it becomes. It is not hard to get a general overview of accurate image and picture but as you start trying to double-check and cross-check every little detail, you may find that the rest of the effort to finish the picture can take you many years unless you are really in need of exacting all detail. You may wish to spend your time in some other manner there are other things in life rather than being obsessed with aliens and alien technologies.

These are a portion of the human experience that is to be seen and observed and explored. The human experience is yet a greater puzzle and the alien presence in human existence supplies a portion that helps to give some hint or indication at the rest of human existence. This Awareness indicates that *It* will attempt to keep filling in pieces of the puzzle in regard to humanity's place in the universe, its destiny and purpose, but *It* prefers not to get bogged down in details, in any one area of human existence when there is so much to cover.

This Awareness indicates this does not mean *It* will not answer further questions in regard to the alien situation. *It* is simply attempting to put things into perspective. This Awareness has generally given 95% of everything you need to know regarding aliens. It is time to look into other areas, perhaps areas that are affected by this information and see how these tie in with other areas of your lives.

PROTECTIVE ENERGY GIVEN BY AWARENESS TO ALL READERS

OPENING MESSAGE C.A.C. GENERAL READING

This Awareness indicates that *It* wishes at this time to send protective and healing energies to all entities within our organization, and all others who come across this information.

This Awareness indicates that this energy and protection was designed especially to counter any negativity that might be drawn in by the entity through worry or fear such as associated with the messages that have been sent by this Awareness during the the past year in regard to UFOs and aliens.

This Awareness indicates that *It* wishes this energy to be presented and used by entities for their protection for their betterment and to give them more harmony in their lives, so that they can better cope with things that are presented in their lives around them without added frustration because of this information that has been

This Awareness indicates *It* is drawing in energy at this time to be distributed to each and every entity who has been touched by messages from this Awareness in

regard to these things that might have some disturbing energy in their lives and in their associations, so that indeed they can experience greater poise and harmony, and have protection in their general lives.

This Awareness indicates the energy as having been gathered.

This Awareness indicates the energy as being sent to all entities who are touched, or have been touched, by messages from this Awareness may thus be protected and allowed energies for harmonizing purposes, a balance centering to take place within their psyche. This so that they may be at least as harmonized, balanced, and protected as they would have been, had they not received this information, which in some cases could have disturbed the value to entities.

This Awareness indicates the energy as having been sent and being effective through the auras through the etheric body, and/or assisting each entity.

This Awareness suggests

Closing Message, CAC General Reading, April 27, 1991

QUESTION:

A question from T.H. "A strange story appeared in the press on Sept. 3, 1983. It says that Indian experts are investigating reports that thousands of birds have flown long distances every September for the past several years only to commit suicide in the jungles of Northeastern Assam. The birds, mostly waterfowl, have killed themselves by diving into fire pits or by starving in the Jatinga forest. Some experts believe that changes in the region's geomagnetic fields have disoriented the birds, while others theorize that they crash because of the thick fog that is normally found there in September. Are either of these versions true or are these birds doing the same thing as the whales have been doing for several years? Would Awareness please comment?"

COSMIC AWARENESS:

This Awareness indicates that it appears there is a kind of disorientation that these birds experienced. It is in part associated with certain directional devices; these directional devices having to do with the minerals in their system that work in a fashion much like a compass. These certain minerals are drawn or pulled in certain directions, and the birds sense these directions and use them for instinctive guidance systems along with weather, temperature and magnetic currents to orient themselves for their yearly migrations.

This Awareness indicates that because of certain toxins in their environment, the minerals have been disrupted and they have lost a certain degree of orientation, and this affects also their metabolism and mating patterns. This disorientation as that which leads them to a kind of psychological imbalance and their suicide is much like that which occurs with elephants who have reached an age in which they feel they have no further desire to continue, so that their action calls them to a certain place known as the elephants' graveyard where they follow instinctively to this place to die.

This Awareness indicates that this appears to be of a similar nature with these birds. It appears to have been caused in part by environmental pollutions that have disoriented and affected the birds in their natural patterns, metabolism and directional finding mechanisms; that this also appears to have something to do with light; that the light is involved in assisting the birds in their migration patterns. They tend to move toward light, and away from the increasing darkness, thus they fly South in the winter, North in the summer, from the Northern hemisphere; that the excessive heat and the light and temperature, along with magnetic currents and their own minerals within their guidance system in conjunction with the earth's magnetic system, all tend to work together to affect what is seen as their migrating instincts.

When these are disrupted, it disorients the patterns by which they have migrated and navigated for the countless generations.

This Awareness indicates that the changes during this decade are likely to be beyond the comprehension of most entities. Whether this organization survives during these times is in great doubt. This Awareness indicates that entities do need to learn as much as is possible on self-survival, on growing crops, on being able to grow gardens, to live with a minimum of dependency.

This Awareness indicates that they also need to learn caution in expression; that freedom of speech may be nearing an end and that what entities say and do may in the near future be proscribed by law within certain limitations. This Awareness indicates that there is some danger that this nation is being set up to be taken over and turned into a modern equivalent of Nazi Germany. It is possible that this can be avoided. It is possible this will be avoided, but it is likewise very possible that it will occur, and that entities and organizations such as this will be some of the first victims of the new creation.

This Awareness indicates that there are some who believe that change can only come through violent action. The changes that have come through the breakdown of communist countries, especially Germany and Poland, have kept a minimum of violence and yet the change was enormous. It is possible that this can again express in changes that are due and planned for this nation.

HOW TO GET THIS NEWSLETTER BY MAIL

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, WA. 98507 (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will! ('How many have you served and how well?')

MEMBERSHIPS AVAILABLE (Honor System!)

- LIMITED INCOME (Broke, poor, etc.) \$30 per year.
- INDIVIDUAL: \$42
- FAMILY: \$52
- CONTRIBUTING: \$77
- SPONSORING: \$144
- PATRON: \$1000
- ENDOWING: \$5000

PLEASE NOTE: All dues and donations are used to spread the Awareness messages to others in an effort to awaken and prepare entities on this planet to the urgencies that must be attended to NOW!
