Helping People Become Aware

IT'S TIME FOR YOU TO GET OUT AND DO SOMETHING DIFFERENT!

(Many Blessing Await Those Who Try New Adventures!)

OPENING MESSAGE:

(C.A.C. General Reading, January 10, 1992)

This Awareness indicates that there are many times when entities become so focused on a goal or purpose or a routine in their lives that things seem to get stuck and they are often stuck in a situation where they can do nothing but wait for something to change. This Awareness indicates that often entities are waiting for something to improve, but they cannot seem to push the right button to make the improvement occur.

This Awareness indicates that when you feel this kind of stagnation in your life, or when you feel that things are just not going anywhere, it is suggested that you take time out and do something different, something perhaps that you have not done in a number of years, or perhaps something you have never done before. Many of you have never gone to a concert. Perhaps you have never gone to an opera, or to a stage play. Maybe you have never had any interest in doing so, or maybe you have not felt you would really enjoy it. But do it anyway!

Do it just to do something different; just to add a new experience to your life. This Awareness indicates if this is too much for you to pursue, then go to a local car lot and test-drive a car that you know you can't afford, then let the salesman know that you have to give it some thought, you have to think about it, and you have to go over your budget to see if you could possibly buy it at some time in the near future. You may let the entity know ahead of time that you may not be able to buy it, but you would like to try it out, just to see what it is like in the expectation that you might, in the future, come into extra money or save extra money to be able to buy it.

This Awareness indicates the idea is to do something that you haven't done before which is not dangerous or threatening to yourself or anyone, which is not really illegal or unethical; that to do such gives you a different feeling about your life. It can help you to realize that you are not in a rut, except the rut you have selected to put yourself in, and that you are free to leave the rut, at least from time to time, as long as you attend those things which your lifestyle demands and which you have obligated yourself to attend.

This Awareness indicates that you might find, in attending a concert, that you actually enjoyed it, perhaps you would rather go out into the country. When was the last time you had a country picnic? When was the last time you had a picnic next to a stream in the country? When was the last time you went to a beach, or a lake or an ocean?

This Awareness indicates that these things can give you a new insight and give you a feeling of greater potential. You might find that this refreshing new action in your life brings new courage, new energy, a new sense of self-worth, and it might help you to solve some of the problems that you have encountered in your lifestyle or in your particular situation, because you have the ability to look at the situation in a new way.

This Awareness indicates that when an entity is too attached to a certain repetitive way of thinking, a repetitive lifestyle, repetitive behavior, it may be very difficult to step out of that repetition and behavioral pattern, to think of new ways of dealing with situations, but if you have stepped out, just for a Sunday afternoon, for example; perhaps you have gone to a museum or to an art gallery, or to a movie, or play or something; you have gone somewhere, and done something unusual; it allows you to return to the old problem refreshed, and gives you the ability to look at it with freshness, a fresh look, a fresh approach.

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

This Awareness indicates that this fresh approach may give you some kind of opportunity that you overlooked before, may let you see it in a different way. This Awareness indicates that you do not have to feel bound to trying something new, but you have the option of looking at it afresh, with a new point of view; that by doing something different in your life once in awhile, your life tends to take on a new sense of vitality and movement.

If you recall as a child how going to new places, seeing new things, gave life a sense of wonder, a sense of adventure, and that sense of adventure in life often is lost when entities retrace the same actions day in and day out, and they become fixed in routines in such a way that anything that does not fit in the routine does not get handled, or if it cannot be solved within the routine, it may not get solved at all.

This Awareness indicates that if entities step outside the routine once in awhile, they become more creative, their thinking becomes more creative, they become more daring, more willing to try something different, to try a new approach, or to take on some new activity. This Awareness indicates that there are many many blessings that come to the entities who accept new adventures in their lives and are not stuck like a rat in a maze, going through the same routine repeatedly, day in and day out.

This Awareness indicates that much like the vacation that entities often need, just the action of doing something different, even in the middle of the week, even for an hour, can create a new feeling of adventure and stimulate enthusiasm in your life. This Awareness asks: How many of you who have boredom in your life could not perhaps find it an adventure to go bowling, or to go hiking or to drive across town to a new restaurant, or to a theatre?

This Awareness indicates that there are so many things that can be done to stimulate yourself into new enthusiasm, just by doing something different. Take a night class. Take an art class, a music class, develop a skill, study some new craft, new field of science or information. Learn about computers, study a musical instrument, take a swimming class or go to swimming classes at some local pool. Join an aerobics class, a weight-lifting class, a karate class, something that interests you, something that you would enjoy, even if you only do it for a short period of time.

This Awareness indicates sometimes entities live in an area where there is little to do. Sometimes there is a gymnasium nearby or a school or a civic center, a service center. Perhaps you can talk to the people in charge and talk them into letting you or your group play volleyball or basketball on certain evenings of the week for a certain payment for use of the gymnasium, or perhaps you can have a kind of library club in which you meet each other at the library to research something of interest: genealogy, or some particularly interesting field of study.

This Awareness indicates there are so many things that can add more interest to your life. You do not want to get yourself into a position where you cannot stop and get out if you become tired of the activity. You do not want everyone depending on you to keep things going, but you can create activities in which others are involved and you can make it so that you do not have to be present every time there is a gathering.

This Awareness indicates that when starting a business or an activity, you may want to ask yourself: "Should I leave room, should I leave a back door so that I can get out?, or am I creating something in which I will entrap myself to obligations that I cannot abandon?" This Awareness indicates that it would be unwise to take on obligations you cannot abandon, for you may, after some time, tire of those particular obligations and you may want to do something different, or in creating obligations which you cannot leave, you are simply creating another rut for yourself.

This Awareness indicates that it is important to leave doors open so that you can enter and leave freely, particularly when it is for your own enjoyment. You do not want to entrap yourself into some recreational activity that then becomes a chore and an obligation requiring your dedication to keep it going for others. You do not want to start something that only you can continue. You want to start something that can be fulfilled by others, if you are not available.

This Awareness indicates that *It* wishes entities who feel that life is going nowhere for them to take a few risks, go out and see something different, shop at a different store, walk through a mall that you have never walked through. Familiarize yourself with new areas, new activities,

new fields of study, new cultural expressions, new forms of art; things that are different from your usual experiences. It will be most healthy and give you much greater enthusiasm for life.

Play games you have not played before. Visit people you have not spent much time with. Get to know new friends; all of these things add something different to your life, to give you a new approach, a new sense of change that enlivens your interest. This Awareness indicates that these are all new adventurous actions which you may enjoy.

This Awareness suggests that if you find yourself too involved in too many activities and that it is becoming stressful to you to keep up with all the activities, you may find it necessary to go the other way; to isolate yourself and shut down certain hours as though you are closing shop to the world and spend some time alone, doing something you wish to do without interference.

This Awareness indicates you can effectively do so even when you have many people trying to get in touch with you. Simply tell them ahead of time that from this time to this time of the day, I will not be available. I will be working on something. This way they will not be trying to get in touch with you. They will not be even worrying as to how they will get in touch with you. They will simply know that they must wait until after this time has passed to get in touch with you, and you will have your time to yourself.

If you wish this to occur on a daily basis, simply let all of your friends know that during these particular hours you will not be available. This is as important to some people as finding something new in life is to others. Some entities find their lives empty of new adventures and activities. Others find their lives filled with more than they can handle, and their greatest need is privacy.

Learn to deal with these things and take care of your needs accordingly. This Awareness indicates you have a right to reach out, to explore, or you have a right to close up shop and research in privacy, if that is your choice. Your obligation to others is to communicate and let them know your needs and to be available to them at times you designate.

If you wish to be available at all times, then you may expect entities to drop in when they need you; that too is alright, if it is satisfactory to you.

DO BAD THINGS HAPPEN FOR GOOD REASONS?

QUESTION:

A question from P.N., Issaquah, Washington. "Twelve years ago, I visited with a shaman in Peru. What I want to ask Awareness to do is to comment on a statement of the shaman's in reference to Jesus and other great messiahs. According to him, such men did not stand on the side of good as opposed to evil; rather, in the middle, between good and evil. Why? Because good things happen for bad reasons, and bad things for good reasons. A comment on this statement by Awareness, and then two questions.

COSMIC AWARENESS:

This Awareness indicates that the statement is that which may represent the viewpoint of the shaman; it is not necessarily the viewpoint of this Awareness. Particularly questionable is the statement that good things happen for bad reasons, and the statement that bad things happen for good reasons. Both these statements may have truth in some circumstances, but are not necessarily true in every circumstance.

Good things can happen for good reasons, and bad things can happen for bad reasons. This is equally true. This Awareness indicates that many times, entities latch on to slogans, slogans being statements that sound interesting and intriguing because of the sentence arrangement; the way things are said; and entities latch on to such things often without thinking them through, often simply because they have a certain ring to them that makes them rhetorically intriguing.

This Awareness indicates that you can find many reasons why bad things happen, and they may be quite obviously bad reasons. The entity who gets himself excessively drunk may be the bad reason why the entity gets into an automobile accident which causes injury, which is bad. The entity who comes along the highway sober, having avoided any excessive drinking, perceives the accident and stops to help and call for help, creates an action that is good for those who have been involved in the bad accident, and this good is caused because the entity was good enough to avoid excessive drinking and to feel compassion enough to stop and help. Thus, a good thing happened for good reasons, and a bad thing happened for bad reasons.

This Awareness indicates that a rule that is spoken which does not apply all up and down the line is not a true law or principle, therefore this shaman's statement is but a rhetorical and intriguing remark, but one which should be challenged by any thinking person.

This Awareness indicates the entity who needs or thinks he needs dope may go out and rob another and take money from the other in order to buy his drugs. Was this a good thing happening for a bad reason, or a bad thing happening for a good reason?

Obviously not. Neither the reason or the action that followed were good.

ARE ALIENS RESPONSIBLE FOR NEW SUPERBUG?

(Will the Poinsettia Whitefly Eat Up All of California?)

QUESTION:

A question from J.S., Pacifica, California. "Suddenly there appears on the scene a voracious menace to California's agriculture: the poinsettia whitefly. These superbugs (as described in the enclosed newspaper article) have already eaten \$300 million worth of crops in Southern California. Entomologists claim this is a new strain of the sweet potato whitefly. Knowing the alien forces' technological capabilities in the area of genetic engineering, it has occurred to me that the sudden appearance of these ravenous bugs might be due to alien manipulation of the genes

of the sweet potato whitefly. An entomologist for the Calif. Dept. of Agriculture, Ray Gill, is quoted in the story as saying, "This is like dealing with something from Mars. We don't know what caused it, where it came from or what its full potential is. It has found a new home here in California, at least in the south, and it likes it here."

Does Awareness see indications of alien involvement here?"

COSMIC AWARENESS:

This Awareness indicates that *It* does not see direct alien involvement, but it does appear that this was created through a genetic engineering process that was derived from or evolved from alien technologies. There appears to be some hostile reasons for the development of this whitefly. It appears to be related to an effort aimed at creating higher prices on foods, shortages of foods, at a time when the economy is in decline so that the masses become more desperate.

This Awareness indicates that this appears to be a situation that will not deepen much greater in terms of the intended results and that the food prices, while being affected somewhat will not reach the intended proportions and the crisis will not be as dire as once expected. It appears that this will improve; that there will be measures taken to eradicate the whitefly's effects on the food in the area of California.

This Awareness indicates that the area as suffering a number of problems, ranging from drought to fire to fruit flies, to whiteflies and also economic distress and shut-down of plants, particularly the high technology plants, so that there are now many closures, layoffs and unemployment pockets in the area. It appears that the problems are compounding and that this will continue for some time yet to come.

It appears also that a departure of population from this state will diminish the casualties of the future earthquake in the region.

WILL CALIFORNIA'S EARTHQUAKE BE MANMADE?

FOLLOW-UP QUESTION:

In regard to that future earthquake, Awareness indicated the other day that if this occurs in the spring of '93, then entities will know for sure that the alien agenda is on schedule.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative.

QUESTIONER:

So this is going to a man-made earthquake, is it not?

COSMIC AWARENESS:

This Awareness indicates that this not necessarily human made; it may be artificially created by alien technology. This Awareness indicates that it appears that it will throw this nation into a kind of chaotic turmoil in which martial law is imposed, in which refugees flood North and East and Southeast, and in which the economics of the United States plummets and whereby Japan also suffers because of the economic conditions of the United States.

It appears also that during such time the Middle East will flair up against Israel who will expect help from the United States, but the United States will be unable to come to the rescue; that this may leave Israel vulnerable to the mercy of the Arab and Moslem countries in the Middle East.

This Awareness indicates that this appears to run through a period of approximately two to three years.

5.
ARE THE MASS LAYOFFS AND THE WHITEFLY CONNECTED
(Awareness Reveals the Extent of the Orion Conspiracy)

QUESTION: (VIKKI):

Is there a connection between the forces behind the genetic engineering that got the whitefly infestation going, and the forces that are perhaps behind the mass layoffs in the American economy these days?

COSMIC AWARENESS:

This Awareness indicates that there appears to be a manipulation of the economy that is founded in the techniques promoted by the Orion aliens. This Awareness indicates that all of this kind of discussion is that which entities should take with a kind of skepticism; that in giving the information, if entities take this information and begin talking to others about this, they are likely to be ridiculed. They are likely to be insulted and looked at as if they were insane.

But this Awareness wishes to tell it as it is seen, and hold back nothing. This Awareness indicates the Orion aliens have much influence over the economic systems of the world, of the earth, and have introduced many of the techniques used in the economic systems that are implemented in the various nations of the world, and this Orion economic technology tends to link many areas of social and economic situations together so that the farming, the industrial, the military technologies, taxes, banking, lending, interest programs and the political and trade programs; all of these things are inter-related in a kind of structural relationships whereby all are part of a flexible economic network that can be altered by pulling the strings in one area to affect another, and another, and another, and another, or by influencing a change in a different area, to cause a compounding of other areas in their reactions, so that the entire economic system can be manipulated from any of many different areas of the network of factors.

A Single Command Can Collapse the World Economy

This Awareness indicates that it appears that the Orion aliens have enough of this put together in different countries that along with their human lackeys and agents, they can effect major changes in the economy to bring about major changes when desired. A collapse of the economy throughout the world is possible on command. This Awareness indicates that it appears that there are some checks and balances that humans are capable of using to offset some of these efforts to create collapsing economies, and in some cases, already some of these checks have been employed.

It appears that there are efforts in some area to keep such influences from collapsing the economy in various areas of the economic network and that these may have enough effect to slow down or prevent the total collapse. This Awareness indicates that it is difficult to hold all of these factors in a picture or pattern for the Interpreter to see long enough to find words to describe these things.

The Interpreter is finding it difficult to translate the images into clear and precise words and language as to how this all fits together and can be effected. It is likened unto a series of draw-string bags that in some way come together, whereby pulling a string in one area affects all of the bags, pulling a string elsewhere has its effect on shaping the other bags, and whereby someone interfering with this system has installed knots to keep strings from being pulled so that bags don't collapse or so that areas remain open which were intended to close.

This Awareness indicates in other words there are economic traps set up and designed to snap shut at certain commands, or from certain triggers, and there are those who have gone through these economic traps and defused some of the triggers so that the snapping of these economic traps will not take place, at least not on schedule.

This Awareness indicates that the scheduling, the timing can to some degree be quite important to the overall plans of the alien agenda, and if the timing is thrown off, the agenda plan may not transpire properly. This Awareness indicates that there are those who understand this completely and are working to keep the alien agenda from taking place by working with timing and with events, to throw off the events or the timing so as to neutralize the outcome.

This Awareness indicates that *It* has attempted to stay away from information relating to aliens, but these entities seem to be at the heart of so many areas, it is like talking about the wheel and the spokes in the wheel without ever discussing the center hole where the spokes come together. It is very difficult to avoid seeing that these aliens are in the center of the activities that occur on so many levels in so many areas, particularly when questions asked keep getting deeper, and the deeper one goes, the closer one must come to discussing the connection with alien relationships.

How Awareness Could Avoid Using the Word 'Aliens'

This Awareness could, if entities prefer, as some may, *It* could simply state that *It* does not wish to discuss a certain topic any further because *It* relates to areas that are taboo and entities would recognize this referred to aliens, and in this manner, entities could avoid any further readings relating to aliens. This Awareness would not mind doing this, if it pleases the membership.

There are some who are objecting to continued references to aliens, and this Awareness would like to accommodate those entities without having to avoid discussing certain things which are asked about, and this would allow a way of answering certain questions and avoiding further discussion of aliens, while still letting entities know that there is a connection. *It* would simply indicate that further discussion would lead into taboo areas.

QUESTIONER:

If *It* did that, we'd probably get letters and questions asking for more information about the taboo areas.

COSMIC AWARENESS:

This Awareness indicates that entities can't have it both ways unless they want this organization to exist only for them and no one else. They must allow for the fact that some entities do not want to hear any more about aliens, while others want to hear whatever they need to hear in order to receive the full accounting or response to the question.

This Awareness indicates that this Awareness simply does not know how to accommodate this kind of conflict between the readers. *It* cannot find a way to erase references in some of the newsletters, while leaving them in in other newsletters, and this is what entities seem to be asking for. Therefore, entities, the readers, may simply have to change, may either need to become tolerant and listen to further references or may need to be willing to project their own consciousness further into what is being said and read behind the lines, wherein this Awareness avoids talking of aliens and readers recognize that *It* must be referring to aliens in this or that paragraph.

This Awareness indicates that it is a problem for the reader⁶ moreso than for this Awareness. This Awareness indicates that getting back to the original question, it does appear that there is a connection though it is quite remote between the economic recession and the whitefly epidemic affecting the fruit, particularly in that California is called the Breadbasket of America because so much of the agriculture and foodstuff for the United States comes from California and is now being devastated by the whitefly.

This Awareness indicates that it appears that this whitefly will cause a rise in food prices and a shortage in certain types of food, particularly vegetables and green foods and somewhat also fruit and this occurring at the same time the economic situation is on the verge of deepening or possibly even collapsing.

U.S. Economy Still May Collapse After the Election

This Awareness indicates the effort by the Federal Reserve Bank to lower the interest rate even further as that which may help to keep this collapse from occurring, but this lowering of the interest rate to stimulate the economy is not nearly as effective as it has been in the past, partly because so much of the economy is affected by the mishandling of funds as with the Savings and Loans scandal, and the more spending and heavy national debt that has accumulated so much in the past decade.

These two factors tend to influence the economy so heavily that even the reduced prime interest rate may not be enough to stimulate the economy toward a recovery. This Awareness indicates that there is a possibility of the gradual improvement coming from this reduced prime interest rate that might be effective enough before the election of '92 so that the administration can return, but it does not appear that this will solve the problems, and there may still be an intense recession or even a depression potential after the election of '92.

CAN EARTHQUAKE ENERGIES BE ALTERED?

(A Remote Possibility Alien Agenda Can be Altered)

QUESTION:

In reference to that California earthquake: Awareness in the past has indicated that the future is never fixed and consciousness in the area of potential earthquakes, can alter a potential earthquake. Is *It* now saying that the *only* thing that will alter this is to change or alter the alien agenda which would possibly prevent this big earthquake from happening?

COSMIC AWARENESS:

This Awareness indicates that the alteration of the earthquake would alter the alien agenda. It is part of the agenda. This Awareness indicates that by altering or stalling or negating the earthquake, the aliens' plans would be altered. This Awareness indicates that is a remote possibility. *It* sees this as remote at this time because there are not seen many energies focused in the effort to prevent this earthquake. This Awareness indicates that as time grows closer, this may change.

This Awareness suggests that the consciousness on earth is indeed speeding up, vibrations are changing, and as consciousness moves into higher vibration, higher frequency, the opportunities for changing this pattern of the alien agenda will become easier and more of a potential. This Awareness indicates that at present time it would take an enormous amount of energy to make these changes.

Give approximately one year and the vibrations may be high enough that these energies will be able to affect and avoid the earthquake, preventing it from occurring. This Awareness indicates that this is still a "maybe". It

is even then somewhat remote, but it can be done, particularly if other things occur also. This Awareness indicates that the government itself at this time appears to be in a state of undeclared war with the Greys in their underground bases, and this may have a major impact on hindering the ability of these Greys to promote and further their agenda.

This Awareness indicates that this appears quite significant in this regard.

FOLLOW-UP QUESTION:

There's always been a few stories over the years of the potential for another "Big One" as they call it in California, but more and more there have been stories, you see them, and hear commentators talking about them on TV documentaries about it. I saw one the other day where it was saying it could happen any time, and all of the calamity it would create, even inundating part of San Diego, some of the very details that Awareness said could occur. My question is: Are these stories, do they come from experts in the field of geology and so on, or are they stories deliberately planted by those forces that would create the earthquake, so that when it does happen, that everyone will think this is just a natural inevitable event. It was going to happen any moment, and now it's happened?

COSMIC AWARENESS:

This Awareness indicates that the circumstances are such that with the faultline in California, it is a disaster waiting to happen. The alien technology that could trigger the disaster is simply a technology that would make use of the already teetering situation. It is a possibility that the earthquake could even occur prior to the triggering by these alien technological tools.

It appears that the technological tools would be used by the Spring of '93 if it does not occur naturally beforehand, and if the aliens have their ability to stay with their agenda. This Awareness indicates the reports around this potential appear to be reports from people who have been trained in geology and are looking at potentials with the realization that these things could happen. It does not appear that they are trying to prepare a coverup for when it happens, to make it look like a natural event.

IS THE BANK OF ORION STILL IN EXISTENCE?

QUESTION:

One last question; this in relation to the Orion connection mentioned earlier. About 10 years ago, Awareness touched on the subject of Orion, in that somewhere in the Middle East there was a bank called the Bank of Orion, and *It* did not give any details that I recall other than that. Is this Bank of Orion still in existence?, and are the entities who run that bank aware of its origin and purpose?

COSMIC AWARENESS:

This Awareness indicates that it appears this is in existence. It appears that most entities involved in the operations of the bank simply receive their directions from rules set up as with any other bank and are not directly informed of the purposes and actions related to those who are behind the scenes. It appears that the Bank of Orion is headquartered in Europe, in various nations, closely associated with the Rothschild banks.

This Awareness indicates that there is a fluctuation and weakness in the energy field and the question is not energized effectively for clear response for the Interpreter; that the Interpreter needs to be brought from trance.

AN UPDATE ON CALCIUM/MAGNESIUM USE (Use for a Limited Time Only)

(OPENING MESSAGE):

This Awareness wishes to tend to some loose ends in regard to some information that needs to be brought in relating to previous messages. This Awareness indicates the first issue relates to a mailing that was just released from CAC in which *It* spoke of the use of calcium and magnesium together, in which *It* referred to three times the amount of magnesium to calcium. [ED's Note: Issue 92-2, number 394 on health] This Awareness indicates that this ratio would be for a limited time, particularly for those who are already over-balanced in terms of excessive calcium in the system, particularly for elderly people, who have excessive amounts of calcium or calcification in their system, and wherein three times the amount of magnesium could be beneficial for a limited time.

This Awareness suggests that the time limit for this ratio would be approximately 3 to 4 month. Thereafter, the ratio would best be maintained at 2 parts magnesium to 1 part calcium, for approximately a total of 6 months. This Awareness suggests that 6 months, perhaps as much as 8 months of 2 parts magnesium to 1 part calcium, depending on the individual, would be seen as satisfactory in most cases.

This Awareness suggests that it should not be maintained on a permanent month in month out, year in, year out basis; that after 6 or 8 months the entity should simply stop the use of this proportion for perhaps 6 or 8 months before beginning again. This Awareness indicates that equal parts be used in between; that of course, also, the advice of your doctor be considered especially in the event of any related personal needs such as if you have problems with calcium/magnesium imbalance.

This Awareness indicates that in a general sense, the 2 parts magnesium to 1 part calcium for 6 months out of the year or 8 months out of the year appears to be a good optimum ratio for most people. Every individual may have some uniqueness and some individuals may need alteration to this amount. This Awareness indicates that *It* can only give generalities.

The excessive reliance on calcium in the diet has come about largely from influence of the dairy producers and their influence on society. This Awareness indicates that most diets are insufficient in the amount of magnesium. The magnesium helps to enhance flexibility not only in the joints but also in the sense of the skin flexibility and helps also to prevent the calcification of the skin, leading to wrinkles and other blemishes on the skin.

POPULATION OF GREY ALIENS BEING DECIMATED

(An Update on the Reptoid-Loaded Planetoid Nemesis)

This Awareness indicates that in relation to another matter, this Awareness wishes to touch upon, this having to do with the recent announcement, approximately 6 months ago, in late August, by the entity Harley Byrd of the nuclear bombing of the underground base at Ton-epah, used by the Grey aliens, in which approximately one million of these entities were killed.

This Awareness indicates that it appears there were at least two other similar events, and that the major force of Greys on the planet has been decimated, leaving a smaller number of Greys in isolation in various parts of the planet. This Awareness indicates that one group of these entities appears to be working with governments, especially the United States and others, in regard to plans with dealing with the incoming armies of the Reptoids.

This Awareness indicates that the incoming planet or planetoid is traveling at approximately 6 to 8 thousand miles per hour and is now within the parameter of the solar system, and it appears to be moving toward a rendezvous with an asteroid belt between Jupiter and Mars; that this is seen as its intended projection and destination; to serve from there as a launch station to earth.

This Awareness indicates however, that the cooperative Greys who are working closely with the earth governments, have in the past served the Reptoids as a kind of mercenary force, and they have now, as previously mentioned, switched loyalties because they have dreaded their Reptoid masters and have been mistreated and prefer working with humans than working with the Reptoids.

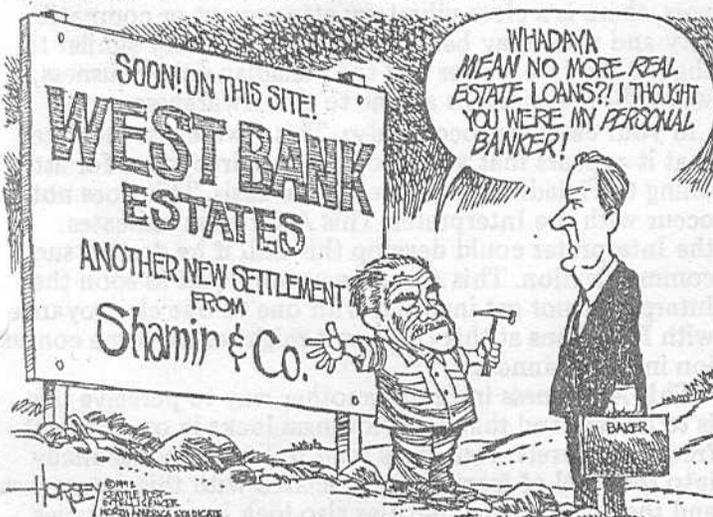

This Awareness indicates that these entities appear to have given important technology to the earth governments which will assist them in dealing with the incoming planet of invaders. This Awareness indicates that it appears that this will allow for these entities to be stopped in deep space before reaching their rendezvous point in the asteroid belt. This Awareness indicates that while essentially, it is still too early to give absolute certainty of the outcome, the indications are that the forces of invasion will not be successful and that the earth will become free and independent from the influence of these invading aliens.

Human Race to Prevail Against Aliens

This Awareness also sees that the earth stands on the threshold of a new and glorious future. This Awareness indicates that it is too early to say there has been a successful outcome, but it is not too early to say that the forces in motion indicate a victorious outcome for the human race in this situation.

This Awareness wishes to comment further on this at this time; that the earth stands at a point of transition in which, as has been suggested, it is ready to move into a higher dimension. This Awareness indicates that in the movement to a higher dimension, it has also been suggested that there are many outside cultures or influences from other cultures acting upon the earth during these critical times. This Awareness indicates that there has been the suggestion of a total of 144,000 cultures influencing the earth at this time of transition, and of these 144,000, approximately 3% or 4% of these cultures being negative; the Greys, including the Zeta Reticulins and the Reptoids being among that 3% or 4% of the so-called negative cultures influencing the earth at this time.

This Awareness indicates in looking at the negativity, one could find considerable concern about the time of transition, but entities should also consider the fact that

there are a great number of other forces involved from other cultures who are waiting for the right moment to act and to bring the earth into its higher and more completed destiny and purpose.

This Awareness indicates that these forces acting upon the earth during this transition period are not related to the Greys, Reticuli or Reptoids, and have a certain influence in bringing the earth to its higher and more spiritual evolution. Entities understanding this will see a more positive outcome from these energies in movement than in dwelling on the more negative aspects.

This Awareness suggests therefore, that while the negative aspects are playing an important role in the transition of the earth to its new higher dimension, the implications of the negative aspects are less worthy of concern than they would appear. This Awareness indicates that *It* wishes entities to understand the outcome is more or less preordained to be of a positive nature, preordained by the influences that are already in motion.

WHY INVASION ATTEMPT WILL BE UNSUCCESSFUL

FOLLOW-UP QUESTION:

What did Awareness mean when *It* said that the invasion attempt would be 'unsuccessful?' Is this because of new technology the world will use against the Reptoids, or will this be because of other civilizations in this system are also attacking these Reptoids?

COSMIC AWARENESS:

This Awareness indicates it is in part due to the very nature of the spiritual energies in motion, also due to the rapid progression of technological development on the earth plane and the fact that the earth humans are working more closely together and fighting each other less, and with a more cooperative spirit and the new additional technology provided by the Greys will have opportunities for improving their own options and dealing with the external threats.

This Awareness indicates that it needs to be realized that viewed from these higher levels, conflicts of galactic cultures are part of the movement of energies and these galactic cultures in motion are of a nature similar to wars on earth, and this movement of the Reptoids in an effort to take control of the earth may be equated historically from a galactic sense as paralleling Napoleon's Waterloo experience. It can be disastrous for them in their ambition for conquest in this section of the galaxy.

This Awareness indicates that this is seen as probability, not as absolute outcome.

HAS THE AWARENESS MOVEMENT BEEN INFLUENTIAL?

FOLLOW-UP QUESTION (VIKKI):

Has the information Awareness has given on this subject and the energizing or thoughts on the matter by our readers had any effect on the equation or situation?

COSMIC AWARENESS:

This Awareness indicates that that which occurs in consciousness to allow entities to become aware as that which has an effect on anything about which entities become aware. If entities become aware of an illness, the awareness has an effect on the illness. If entities become aware of a situation, that collective awareness has its effect on the situation. This Awareness indicates that it is more difficult to define precisely what the effects are because it is also difficult to determine and define exactly how aware entities have become, to what degree that awareness has spread and how such awareness and information have been perceived and understood.

⁶ This Awareness indicates however, that it should be realized that the events that are occurring at present did not begin in the most recent months; these events began some 60,000 years ago, culminated approximately February of '72 in conjunction with influences from Sirius acting with entities on earth, which includes entities in the Awareness Movement. Many of the entities in the Awareness Movement were reflecting points or receivers for energies from Sirius. This as Sirius B, and these energies, acting upon the entities of the Awareness Movement in February of '72 and prior to that in the Golden Cloak ritual, which created a change in consciousness on the inner plane, brought about a major shift in the destiny and direction of the earth planet, creating a new experiment for the earth's evolution of which entities do not yet foresee the outcome.

This Awareness indicates the outcome will be advantageous for earth but it is not seen how this will occur. This Awareness indicates that the formation of *Cosmic Awareness Communications* in February of '72, is a kind of reflective by-product of the energies that transpired at that time in connection with this energy exchange between Sirius B and the earth.

IS THE INTERPRETER TAPPING INTO PLEIADIAN ENERGIES?

L.B. writes: "There are very few questions that I could ask Awareness that I can't get from my own channel. For a number of years now I've been using CAC to verify my own information. Not too surprising, I am usually channeling. My hands are too broad for the keyboard to type. What might be interesting to you is my channel insists that Paul and I are tapping into Pleiadian energies; that we are channeling on an etheric level. Most of the channeling in all of the myriad literature available is done in etheric, but on an astral level, like mediumship. Both the astral and the etheric bodies are in touch with the mental body, where higher intelligence arises, only on the astral there is too much opportunity for interference and the color of one's own personality to interfere with accurate information. On the Pleiadian etheric level, we can tap into a general information wave or have a personal one on one conversation with an individual Pleiadian. One almost has to be clairvoyant to sense the difference".

Would Awareness comment on this information, please?

COSMIC AWARENESS:

This Awareness indicates that the Interpreter does not have one on one contact with any Pleiadians. This Awareness does understand, however, that the Pleiadians are of such consciousness level as to be capable of tuning to this Awareness, and in their attunement to this Awareness, there is a close vibratory attunement or compatibility and what may be termed a harmony very similar to that of the Interpreter and the Pleiadian consciousness, when these Pleiadians attune to this Awareness.

In your case, this occurs also. This Awareness indicates that it appears that you also have a clairvoyance for attuning to Pleiadians on a one to one basis. This does not occur with the Interpreter. This Awareness indicates the Interpreter could develop this skill if he desired such communication. This Awareness would just as soon the Interpreter not get involved with one to one clairvoyance with Pleiadians at this time, as it might cause some confusion in his channeling.

This Awareness indicates another way to perceive this is to understand that consciousness locks in on different frequency levels. Pleiadians tend to lock in occasionally into the level of frequency associated with this Awareness, and therefore, when entities also lock into frequencies

similar to this Awareness, that is on a similar frequency to those Pleiadians who are locked into the frequency of this Awareness, there are compatibilities and overlapping frequencies between the Pleiadian consciousness and the individual on earth, the human consciousness.

This Awareness indicates it would be likened unto two radios tuning in to a particular frequency of a broadcasting channel and the radios, being on the same frequency as a broadcasting channel, would put them more or less on the same frequency with each other.

HOW INTERPRETERS CHANNEL COSMIC AWARENESS

(Cosmic Awareness Describes Itself Again)

FOLLOW-UP QUESTION:

Is this true what he says, that most of the channeling in all the myriad literature available is not done in the etheric, but on the astral level, like mediumship?

COSMIC AWARENESS:

This is so with most of the so-called channeling. This Awareness indicates that it is for this reason that this Awareness has distinguished between mediumship and interpretation. The Interpreter for this Awareness interprets from a certain vibration levels, whereas most mediums channel from spirits or from astral entities and astral energies. This Awareness indicates that most channels receive their messages from these astral beings, energies and so forth, as a medium, serving as a medium between the listener and the astral shell or individual.

This Awareness indicates that in some cases, these channelings reach beyond the astral plane. In even fewer channelings, the energies reach into the higher frequencies in which energies are contacted and individuals are not even present. This Awareness indicates that this Awareness, for example, is not a single entity or personality, *It* is an energy in the universe and *It* does not speak, *It* simply emits energies in response to questions, the energies of questions, and the Interpreter reads or perceives those energies and interprets them, to respond to the energies of the question.

That Story of the Student Channeling Awareness for First Time

The words then are influenced by the interpretation of the energies involved, in accordance with the Interpreter and his or her particular manner of interpreting. This Awareness indicates that an example which this Awareness has referred to before is very enlightening in this regard, wherein an entity in Palo Alto some years ago wanted to participate in doing an Awareness reading. The entity was talked into the Awareness trance level, and then asked if there was a message.

The entity moved his mouth several times, but could not speak. He kept trying to speak, but nothing would come out. Finally, someone said: "Would you like to come from trance?", and the words: "This is in the affirmative," came forth. They brought the entity out of trance, and asked what happened. The entity explained: "I wanted to say 'I love you,' but there was no 'I'." This Awareness indicates that the entity had tuned in to this Awareness and was trying to speak in behalf of this Awareness while being the entity, and there was no "I" for this Awareness.

Thus, this Awareness could not say "I love you," because there was no individuality in this Awareness, and the entity was stifled as to how to express the words that were felt in regard to a message this Awareness expressed through the entity. The solution for the entity would have been to indicate by saying "This Awareness loves you." This would have been possible and acceptable and the entity could have expressed it in these words, but could not express it with the words "I love you."

This Awareness indicates that this is an indication of how the Interpreter is confined by certain parameters of speech when attuned to this Awareness.

THE SYMBOLIC LANGUAGE PROJECT: FOR WHAT PURPOSE?

FOLLOW-UP QUESTION:

The Interpreter has indicated that much of the information from Awareness appears as symbols which reminded me that back in the early Organization of Awareness days, Awareness gave, through the Interpreter Ralph DUBY, this symbolic language project, in which the members were to practice and meditate on these symbols. Was the purpose of that symbolic language at that time, to develop more Interpreters for Awareness?

COSMIC AWARENESS:

This Awareness indicates that the purpose was to assist entities in receiving and understanding messages that would be emanated from this Awareness, either for themselves or for interpretation for others. It was not necessarily for the purpose of developing more Interpreters in the sense of persons interpreting messages for this Awareness for dissemination, but the use of symbols in consciousness would allow entities to recognize the meaning with the symbols that are seen in their consciousness, so that this Awareness could convey messages more easily to them.

This Awareness indicates that the present Interpreter learned only a few of those symbols and seldom uses or receives symbols from the symbolic language when interpreting for this Awareness, but does receive pictures and images relating to the message this Awareness seeks to give and interprets these pictures and images by how he feels about the image or picture, and puts this into words.

This Awareness indicates an example being, a cone-shaped image, which may be interpreted according to the way the Interpreter feels, as indicating the focusing of energy through the cone, toward a point, and this may mean something in regard to manifesting from a broad collection of energy into a single-pointed idea or concept or thing.

This Awareness indicates that of course, the same type of cone in another question might symbolize something different to the Interpreter. It is more important to feel what is meant by the image or picture that you visualize in trance than to have a particular symbolic language that is used and which may be insufficient.

Therefore, if you do learn the symbolic language and use it, you may wish to be creative with it, finding ways to commingle different symbols together in order to recognize a meaning from two or three symbols shown at once. This Awareness indicates that these symbols are not to be seen as absolutely fixed in the sense as words are fixed in meaning, but rather as carrying images that may have several meanings out of which you pick a meaning that fits within the context of the question.

This Awareness indicates the present Interpreter having had some background in other metaphysical symbols, such as astrology and Tarot symbology, often sees messages through these symbols, moreso in fact, than through the symbolic language this Awareness gave through Ralph DUBY.

Astrological Symbols Brought Thru the 144 Correspondence Lessons

This Awareness indicates for example, the Correspondence Lessons, the 144 lessons that were given over a period of approximately a decade; these were given through the Interpreter via astrological symbolism and even almost to the details of the messages, the astrological symbolism helped to portray the message that was being

presented within those lessons, those Correspondence Lessons, through the various seas of Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

This Awareness indicates that other messages often came through from a single symbol that would give a clear idea or understanding but which might take many words to explain and perhaps a question being asked would allow a symbol to be shown and then this would be followed by an explanation of the meaning of that symbol by the Interpreter which could last for several pages.

The symbol being interpreted in context with the question, would then provide the answer required. This Awareness indicates the point being that there is no individual speaking except the Interpreter who is interpreting energies from this Awareness which are conveyed symbolically or perhaps even geometrically, in shapes and patterns, but these shapes and patterns and images also carry feelings which help to interpret their meanings.

Therefore, if the Interpreter knows something in terms of words or concepts relating to the question, it becomes helpful in the interpretation of a pattern or an image or symbol to answer a question. If the question is of a certain field of knowledge with which the Interpreter is totally unfamiliar, the Interpreter might see a pattern but not understand the language, even the language involved in the question, to know what the pattern means or to know what the question is about.

Therefore, the Interpreter needs some broad understanding of many things in order to be able to use the right language or terminology to interpret, to understand the meanings of symbols, pictures and images seen and to find the right words, to express them to the entity asking the question. The entity may see something that looks like blackberries in a question relating to chemistry and may need to answer according to what is seen.

If the chemist asking the question can interpret the language of the Interpreter, who speaks of blackberries into and understanding of molecular structure of chemistry, then the chemist can understand what the Interpreter is trying to convey from the images seen, otherwise, the answer will be as much gobbledygook to the chemist as it is to the Interpreter.

ED's Note: The Symbolic Language Project Awareness brought through the channel of Ralph Doby was comprised of 144 basic symbols, which entities in their meditation would observe in series and thus attempt to interpret etc. The symbols were also required for the Development Classes. The Book of Symbols and the Advanced Symbolic Language booklet are now out of print and there appears to be no particular reason to reissue them. Those interested in the 144 symbols given, however, can find these in the back of "Revelations of Awareness" issue No. 75-76; \$2.00 from C.A.C.

THE INFLUENCE OF MUMMIFICATION ON THE INTERPRETER (How Lifetimes of Mental Retardation Paid Off)

FOLLOW-UP QUESTION:

What percentage, if any, accuracy or efficiency as an Interpreter does the present Interpreter have over other Interpreters or past Interpreters of Awareness, because of his mummification years back, which Awareness explained as similar to the unpeeling of an onion?

COSMIC AWARENESS:

This Awareness indicates that this can be and has been somewhat of a benefit to the entity in this position as Interpreter, particularly in that the mummification experience and subsequent lifetime stemming from the time of mummification has caused this entity to live a number of lifetimes suffering great humility.

This Awareness indicates that the entity having been mummified experienced subsequent lifetimes with only partial consciousness brought into those lifetimes, the

10. remainder of consciousness still locked into the mummy. This left the entity in what would be termed a retarded state of consciousness and the entity experienced great humiliation in a social sense during those lifetimes.

This Awareness indicates that this humiliation helped to diminish the egocentricity of the entity so that self-importance was not even a pursuit of the entity; simply surviving and trying to cope was enough to concern the entity with, let alone trying to be more important than others, and therefore, the entity, having lived a number of lifetimes in a humiliated state of retardation, finally reaching a time in which the greater part of his consciousness returned to him in his present lifetime, still having much of his youth experiencing a kind of feeling of retardation.

The entity, not being in pursuit of self-importance, has become a better channel for it; that the primary purpose or goal of the entity is to channel well rather than to be an important channel. To be an important person for channeling is of no concern to the entity, but to channel well, when he is channeling is a primary purpose to this entity, and this makes a big difference in comparison to many others who attempt channeling.

This Awareness indicates that one cannot channel when one has self-importance in the back of his or her mind during the time of channeling; that one cannot channel well when one is seeking to be important or to glorify self or to do something that favors self. It isn't possible to get self out of the way in order to allow this Awareness to come through, if one is still holding onto self.

This Awareness indicates therefore, it requires a selfless kind of dedication and this requires that the entity be more focused on doing the right kind of channeling than doing an important and recognizable job that will get attention for the Interpreter. There are many who, in seeking to be Interpreters, think more in terms of competing with others and trying to be the best Interpreter in comparison to others, or give the best message in comparison to others. This kind of competition of self over someone else has ruined many who attempt to interpret for this Awareness.

FOLLOW-UP QUESTION:

Those lifetimes Awareness indicated the Interpreter lived in a humiliated state of retardation; *It* was referring to mental retardation, was *It* not?

HOW RETARDED ENTITIES SPEED-UP EVOLUTION (The Influence of John F. Kennedy's Retarded Sister)

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that especially in some of the earlier lifetimes it also had its effect on the physical body to give the outward appearance of the handicap that sometimes accompanies retardation.

FOLLOW-UP QUESTION:

Is this connection with mummification and other entities that are retarded, is this a common link, or was this an exception?

COSMIC AWARENESS:

This Awareness indicates that it is very common for entities who have been mummified to have subsequent lifetimes, particularly closer to those mummified lives, to have those lifetimes closely connected to mummification as being retarded. In some cases, the mummified entity would not be due for reincarnation for several thousand years, but because of the realization of a need for the release of certain things held by the mummified entity, they would be compelled or urged by certain forces to come back into physical manifestation, into physical form prior to their due date, and in this early return, they would experience this retardation. They might have waited a thousand or 1500 years or more, but still might be early, and thus, be retarded upon

their arrival in physical form. This Awareness indicates ¹¹ that the retarded entity would have an effect on those around in helping to bring about certain changes in consciousness, sometimes emanating ideas through the psychic levels to influence those entities into action that was of great urgency at the time.

This Awareness indicates that John Kennedy, for example, being influenced by a sister who had some retardation, received much of his urgency to act and do things from the energies that he received psychically from this sister. This Awareness indicates that much of what the world appreciated from the efforts of John Kennedy actually began from the emanations on the psychic level from this sister, while he was still quite young and receptive to her psychic emanations.

This Awareness indicates that the entities who are retarded often carry with them extra-sensory perceptions and messages of a psychic nature that present great spiritual insight and truth and stimulation to others around them. It is as though they are giving the seeds to others; that they might manifest great work for the rest of humanity. Thus, it is quite ironic that many of the entities who have been recognized as retarded are doing great work for humanity in a silent unseen way and in the past, they were often seen as possessed by demons, where it is just the opposite.

Most were emanating high spiritual vibrations to inspire others to excel in the work of helping to speed the evolution of humanity in one way or another.

FOLLOW-UP QUESTION:

Is that the basic reason for retarded entities on this plane and is this karmic or voluntary?

COSMIC AWARENESS:

Usually it is voluntary. Sometimes it is caused by earth karma, wherein these entities are rushed back ahead of time because the earth cannot sustain its ways without emergency help and these entities are then brought in prematurely to help speed up the evolution of consciousness on earth.

FOLLOW-UP QUESTION:

Awareness has indicated their ESP and so forth is very sharp. Is there also other forces or entities directing information or channeling through these retarded people on the psychic level?

COSMIC AWARENESS:

This Awareness indicates that these entities, being highly spiritual in their attunement, channel these higher vibrations and frequencies and entities who reside on those higher frequencies can communicate through these entities via these vibrations, if they so choose. It is not necessary or not necessarily always the case that there are higher spirits communicating through these entities, but they can be used by higher spirits to communicate message through these entities, through a psychic communication.

HOW MUCH OF THE INTERPRETER IS STILL A MUMMY?

FOLLOW-UP QUESTION:

In reference to the mummification of the Interpreter, would Awareness please explain what percentage of him is left and when will this all be complete?

COSMIC AWARENESS:

This Awareness indicates that most of this was extracted during the years 1970 to 1975; that this occurred through certain help from the entity Dan Spivey and through the entity Judy Leerman. The entity Judy Leerman had been an Atlantis priest who assisted in the mummification of the Interpreter. This entity recognizing, recalling the event, and helping the entity to reattune to the energies and thus work through the energies.

This Awareness indicates that in working through these energies by going back to the energies in meditation, the energies were released and approximately 95% freed from the entity. The remaining 5% as being of little importance, practically negligible in terms of any effects on him. This Awareness indicates that the remaining energies can be released by the entity simply reattuning through meditation to those energies of the mummy and letting go, but there is little importance attached to this action.

ED's Note: For more info on Paul Shockley's mummification, his association with Ra-Ta (Later Edgar Cayce) in Atlantis and Egypt, please refer to 'Revelations of Awareness' issues No. 78-15, and 79-12 (All About Mummies); \$2.00 each from C.A.C.

**ALIEN FORCE HITS PAUL SHOCKLEY AGAIN
IN ANOTHER ATTEMPT TO SHUT DOWN CHANNEL**

QUESTION:

The Interpreter experienced recently what his doctor says was either a small stroke or a low blood sugar condition which affected temporarily the coordination to his memory and speech. Does Awareness have any information regarding this experience, or suggestions for preventing it or something similar from happening again?

COSMIC AWARENESS:

This Awareness indicates that this was largely stress related, brought on by the alien force in an effort to shut down this channel. This Awareness indicates that the idea being from the alien force point of view, to stop the channel, began in the early or mid-70's; that there has been a strong effort by the alien force since the mid-70's to shut down this channel. It is only because a few entities have from time to time been responsive to the Interpreter, his needs, and in some cases have recognized physical needs, that the channel has remained open as long as it has.

This Awareness indicates that the efforts of yourself and Vikki have also been of major contribution to keeping the channel open, particularly in regard to the health care that you have provided the Interpreter over the years. Had it not been for this health care, this channel would have been closed long ago. This Awareness indicates at least 5 years ago; that in all likelihood, the year 1984 would have been his last on this plane. It was a year in which the alien force took many of the channels from this plane.

This Awareness indicates that there have been numerous efforts to remove this channel, but the entity does have some understanding of spiritual protection, self-protection through spiritual means, and also there are certain higher forces that direct protecting energy to the entity and these forces are not always sufficient to keep the stress from taking its toll. This Awareness indicates that naturally, all entities are subject to stress, so it is not something that is totally avoidable, if entities are to live on this plane, and the more involved an entity is, the more likelihood the entity will be to come into stress.

The more involved in various projects, the more stress one is likely to experience. Day to day, having spread himself quite thin in regard to the activities, has increased stress load at a time when most entities are thinking of retirement. This Awareness indicates that this is an opportune time for the alien force to make a special effort to block the entity's future work on this plane, and also the fact that the entity is channeling information relating to the alien presence on this plane motivates the alien force all the more to stop the channel.

This Awareness indicates that there were opportunities presented in the past several years whereby the Interpreter was given a chance to earn vast amounts of money for the church, for the Awareness Movement, for CAC and for friends and family, and yet the partner involved failed to uphold his end of the agreement and created a situation in which legal recourse was required and the fact of a lawsuit has added some stress.

There is a good likelihood that should the Interpreter survive, the lawsuit would be ruled in his favor. It is almost a certainty to be ruled in his favor, since the partner has violated all rules of business conduct, and has, more or less, acting as president, looted the company of assets and put them into another company of his own control. This will not stand in any reasonable court of law.

This Awareness indicates that this however, has caused certain stress for the Interpreter and has added to the problems experienced in terms of both financial and energy loss. This Awareness indicates that it appears that when the spiritual forces seek to assist one of their own to make sufficient money to get projects going, the alien forces find ways to throw blocks into the path if possible. This Awareness indicates that it would seem that cocreative action will bring about a harmonious resolution to the outcome of this situation, and in the long run, provided the Interpreter keeps his health, that the two organizations: Cosmic Awareness Communications and the Aquarian Church will both profit and thrive in the years to come.

This Awareness indicates that much of this will depend on whether entities who have had dedication and who share in the concern for this do indeed wish to assist and cocreate in the continued growth of this financial opportunity. This Awareness indicates that there are some difficult times, mostly difficult if it is borne by one or two persons without help from others, but in a more broad sense, the price of legal cost is minimal in comparison to the outcome of the projects and moneys involved in the completion of these projects.

This Awareness indicates that the Interpreter will be able, with the help of Cosmic Awareness Communication, in doing readings, to pay for the legal expenses through these readings. It will be difficult, but it will be possible. The only concern is the stress factors may be of considerable detriment to the entity. This Awareness indicates that those who would care to assist can either do so through donations or through prayers or through visualizations of the Interpreter being in good health and in strong energy, all of which would be of great benefit during these times.

It appears that the period of time in question or of concern will be most of the year 1992, at least through November.

SOMETHING STRANGE IS HAPPENING

CLOSING MESSAGE:

This Awareness indicates that the transition energies that entities are now already in the midst of are those which are beginning to shift toward the light, and most entities will recognize that many of the things which even a few months ago sat threatening on the horizon now seem to have subsided into the shadows. You do not hear much of the New World Order today. It has been put on the back burner. The President has chosen not to push it during this election time, as it is not very meaningful to most entities; his concern being to get reelected first, and not to confuse people with the concept of a New World Order, which means nothing to them, when they are looking for food on their table, and their next house payment.

This Awareness indicates that the times are such that entities want meaningful offers in life, not something

12. that is illusionary or thrill-seeking or entertaining. These things may still have some interest to a few people, or for a short time, to entities, but entities are beginning to look now towards something that has more meaning.

The entertainment field has discovered that violence is not selling as well as it did last year, and that entities want something more human, more interactive, something they can relate to and learn from in terms of human values, and they are turning to movies and entertainment that gives them a sense of relationship, where they can look at someone and like them for who they are, for what they are and not necessarily for who they blew up or how quickly they can draw their gun.

This Awareness indicates that people are growing tired of seeing the negative side of humanity; they want to see something positive, something they can be proud of, something that makes them feel good about being human. You will begin to notice a turn-around in the coming years, wherein entities reembrace the old values that were experienced in the pre-World War 2 days, wherein entities seek longer relationships or meaningful relationships, relationships that showed concern for each other, wherein entities' words begin to mean something to themselves and to others, wherein the word doesn't change every day, wherein contracts are contracts and agreements become agreements, and are not simply a tool to reach a certain end in order to take something from someone and split.

This Awareness indicates that times are changing in the sense of human values. Human values are going to take on greater value, and you will see this occurring, and in order to be part of the movement, you must examine yourself and ask yourself, "What is it I truly value? What can I do to show how much I care?, and how can I express to my loved ones my love for them?"

The Giving of Unconditional Love: Some Rules to Go by

This Awareness indicates that as this develops, you will also find that it becomes reciprocal very quickly. People begin to feel that same concern toward you. This Awareness indicates that there are some instances in which you, in becoming concerned for the welfare of others, may find yourself being used. Entities will take advantage of your kindness, of your goodness, of your concern for them, because they are still living in the old ways, and it is important for you to be aware of these entities, and to help them to learn that you are not there to be used, you are there to give according to your love for them, but not to have them take from you.

This Awareness indicates that when they understand they need to be fair and honest with you and to respect you in order to take your love, in order to earn your love, they will gradually begin to look at you in a different way. It is a form of teaching them. You can later become unconditionally loving to them when they deserve unconditional love, but it is important to realize that the only person who really deserves unconditional love is the person who cannot do anything for themselves, and who cannot meet any conditions.

This Awareness indicates that giving unconditional love to a person who is capable of doing something for that love, such is a way of spurring the entity, such is a way of indicating to the entity: "You don't have anything to give me. I can give to you, but you can't give anything to me. You are free to my love. I put no conditions on you, and therefore, you do not have to do anything."

This causes the entity to feel that they have no control over their lives. You give to them, and they can do nothing to earn it. Therefore, they have no personal control over their lives and it does not give them a sense of security as you might think. It is better to give to them with some

condition, perhaps a slight condition, or even an unspoken¹³ condition. Assume that they will behave themselves in a normal reasonable lifestyle, and if they don't, call them on it.

"I can't support you if you're going to waste everything I give you, and if you're going to mess up your life, there's nothing I can do to keep your life in order!" This Awareness indicates this puts a condition on them. "If you are to get my support, you have to take care of yourself." This Awareness indicates that it is only fair that you have some conditions that you put on others on occasion, no matter

how much you love them. In fact, *because* you love them, you may want to put certain conditions on them; especially if they cannot discipline themselves and handle their affairs properly.

This Awareness indicates that in these future times, new values will create new situations and require new understanding of what is happening. These will be the subject of many different considerations which this Awareness can discuss in future readings.

(The Law of Gratitude is given)

WHY AND HOW MASS ABDUCTIONS ARE INCREASING (HOW THE ALIENS CAN ABDUCT AN ENTIRE SCHOOLROOM)

QUESTION:

(Excerpts from a CAC General Reading, January 8, 1992)

I had a question from the last reading. Awareness said abductions have greatly increased in the last few months; mass abductions, also children. My question is how have these abductions greatly increased, and why?

This Awareness indicates that there are new ways by which the aliens, particularly the Greys, have developed techniques which allow them to abduct entities out of their bodies, whereas the bodies will remain and the aspects of the entities may be taken up and out of their bodies in such a way that observers do not even recognize the absence of the entities.

The purpose of this activity is not to violate the entities but to condition them, to influence and program them to accepting the aliens as their friends. This Awareness indicates that in some instances, for example, an entire classroom in a school will be the object of abduction and the entities may be abducted right out of their bodies while their bodies remain sitting in the classroom and the astral body taken, and the astral body being conditioned aboard their ship to accept and develop a kind of rapport with the aliens aboard the ship before they are returned to their physical bodies.

This Awareness indicates that there is really little that can be done to prevent this and there is little that can cause harm to the individual at this time from the particular event. The alien purpose is to condition the human to feel a rapport with the aliens so that they do not in future confrontations have a fear of these entities because their astral and emotional bodies will have already harmonized, and to some extent bonded, with the aliens aboard ship. Mass Eradication of Greys is Accelerating

This Awareness indicates that normally, these mass abductions do not result in implants since it is but the astral body that is abducted, but there does become a potential for further visitations which could later result in implants from the further potential abductions. This Awareness indicates that it is because of the alien insistence on abducting humans and implanting humans, and in some cases mutilating humans, that the government has in recent years begun to alter its relationship and attitude toward the aliens and there have been confrontations between the human governments and aliens leading to annihilation of...it appears there have been several million aliens in underground bases who have been affected by these confrontations, who have been annihilated, and that this is likely to continue because of these alien misdeeds to humans and the realization of the alien purposes toward the human population.

Half-Breeds Could be the New Creation

This Awareness indicates that further activity toward violating of humans will quite likely result in further reaction from humans toward the annihilation of the aliens and their plans on earth, by the humans. This

Awareness indicates that these half-breed humans who also reside in caverns beneath the surface will in time very likely play a major role in the conflict that is rapidly developing between the aliens and the human bases. It is a question of whether the half-breeds will in the future work more with the alien purpose or rebel and work for and closer to human purposes.

This Awareness indicates that there is also the possibility that the half-breeds will work for neither of the space races, neither the humans nor the alien Greys. This Awareness indicates that the purpose for breeding the half-breeds was to use them in the war against humans and to create a new species that could help the Greys to develop their own reproductive abilities by commingling with the half-breeds and instill another hybrid. At present time the Greys are only capable of reproducing themselves through cloning, but with further genetic experimentation and interbreeding, they hope to reintroduce to their race the ability to recreate through sexual means, their own species, because the cloning process creates inferior downline species.

This Awareness indicates that it appears the half-breeds could perchance become the new emerging being if the Greys were to become extinct through wars or through the inability to continue reproducing themselves in the cloning process, and if the human creatures were to somehow destroy themselves through their excesses, as they have in recent years threatened to do.

H O T .

He's more than hot.
He's a fire hazard!

8PM CBS KIRO 7

This Awareness reminds you that in history passed, the so-called evolution of mankind occurred in sudden movements; these sudden movements in history producing the different developmental stage of a new being were the result of space alien intervention in the affairs of earthlings, wherein genetic alteration was created in much the same way the half-breeds are the creation of a newer species on earth.

In the future it may be seen that at the time of the 20th Century AD, a new being appeared on earth, and people who study archaeology may find this new being to have been a great link in the evolution of humanity in which the new being had different physical features from their parents or previous generations of humans. It may be that they will simply have stumbled onto skeletons of the half-breeds that date to this time period and they may not understand how this new being suddenly appeared anymore than they understand how the cro-magnon type suddenly appeared in the past.

This Awareness has digressed from the question asked into another area, but this Awareness suggests that the digression may have had value to entities or may have saved entities from asking questions in this regard. This Awareness suggests the next question may be asked.

DOES C.A.C. STAFF HAVE ASTRAL IMPLANTS?

(The Awareness Promise to Protect the Membership)

QUESTION:

In regard to implants, we got a letter from L.B. up in Maine, and he writes: "I have waited with my donation because I am receiving massive amounts of channeling info relative to the ET info. My files are piling up rapidly, however, I do not go public with the information. I share it only with my companion. By now you must have found that both of you have implants as my companion and I have. We have both Zeta and Pleiadian implants. There is also Orion implants at a lower level; Pleiadian, 5th density; Zeta; 4th density; Orion; 3rd density and so on." And he goes on.

But my question is: Is this valid information that Vikki and I do have implants on these levels as he seems to think?

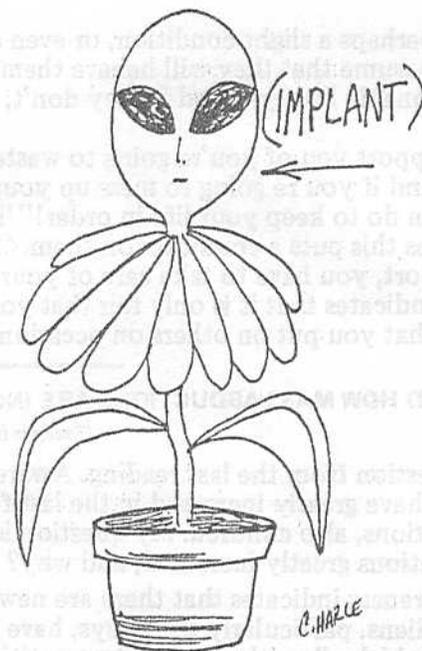

COSMIC AWARENESS:

This Awareness indicates that this is negative; there are seen no implants in either of you, nor with the Interpreter. This Awareness indicates that the entity is projecting certain concepts upon you because of an identification with you in which he feels himself to be in a similar situation, having an involvement with the UFO phenomena and believing himself to have implants, and presume that since you are putting out information on aliens, that you too, like he, must have implants.

This Awareness indicates that you're not one who would be suitable to the Zeta or Orion types to have an implant, and that the Pleiadians are not the type of beings who approach entities to implant them without their permission and knowledge. This Awareness indicates that the Pleiadians are as a culture more respectful of the individuals and would communicate openly rather than with implants or would communicate psychically rather than through implants.

There are government forces also who may implant entities. *It* does not see any implants from this source, or any other within either of you. This Awareness indicates that *It* has indicated previously, this Awareness protects you and the membership from implants by the aliens, unless those entities have a willful agreement and pact with the aliens and want to be implanted.

This Awareness indicates that *It* does not see any of the membership receiving implants since this Awareness communicated this message to them. There have been some who

received implants prior to this Awareness's warning of the alien presence and the dangers of the implants. This Awareness suggests that you not worry about implants in yourselves and that if you are concerned about others who you know are being implanted, simply use the White Light wrapping technique, wrapping them in White Light and call upon this Awareness to protect them from any alien contact, and this Awareness will respond.

It will not interfere with an entity's will. If the entity wills to have communication and association with the alien entities, then this Awareness cannot interfere with those entities' willful decisions.

THE PURPOSE OF NONPHYSICAL IMPLANTS

FOLLOW-UP QUESTION:

When he speaks of 4th and 5th density, I was assuming he was referring to astral bodies of entities. Is it possible that the astral or etheric bodies could receive implants?

COSMIC AWARENESS:

This Awareness indicates that this may be the meaning and intention of this entity's concern; that there is seen a possibility of some astral or etheric implantation. *It* does not see the Greys as being involved in this kind of implant, and sees them involved only in physical implants. *It* does see that there are certain beings that can move into higher and more etheric levels who may implant an etheric device into the etheric body or an astral device into the astral body. This Awareness indicates that these are seen as possibilities and *It* sees that these nonphysical implants are designed more for monitoring and reading the soul growth, the mental and emotional balance and the etheric and spiritual development of entities. It is seen as a way whereby your guardian angels and higher spirits can read your evolution and development from these nonphysical implants.

This Awareness indicates that these are nothing to worry about, nothing to concern yourself about, for they cannot be used to control you. They can only be used for reading your development. This Awareness indicates they cannot be used to influence or control your behavior, and your activities. This Awareness indicates that many entities have these nonphysical implants. They essentially amount to nothing more than antennae to allow etheric beings to monitor and keep track of you.

Most of these etheric beings are benevolent or the friendly types. This Awareness indicates that only in the case of an entity who reaches a high spiritual evolution and then

for some reason falls into more negative and demented nature; only such an entity could have the nonphysical monitoring device used by a demented being such as an Asura or other low frequency being.

FOLLOW-UP QUESTION:

So essentially, there's no violation to the entity when these nonphysical implants are put in?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that from the physical sense they are simply established as a mental implant. It is much like hooking an antenna to someone through the imagination to allow the entity to be found in a crowd. If you can imagine trying to keep track of a spirit and in keeping track of the spirit you imagine yourself attaching an antenna having a certain vibrational frequency which perhaps you assign a number to and you call the entity the spirit by its number 462, or by a name RD2X or some other name, or number of figures.

This helps you to relocate that frequency and vibration by having the imaginary antenna with the name or frequency assigned. This Awareness indicates that it is all done mentally. It is all done with the use of the imagination, but as with anything in the imagination, when it is gone it is gone, and to find it again, you need a mental handle through which you can retrieve it. The mental handle for tracking down a spirit or an energy field is the name or in this case, it may be the imaginary implant, and the implant may have its own frequency label or a number or a name by which the spirit hunter locates the hunted spirit by calling forth that imaginary implant by its name, number, or frequency.

It is all as harmless as images in the mind. It is capable of serving to locate an entity. It is also possible for the entity to avoid being located. If the entity wishes to cancel out his etheric or nonphysical implant, all that is necessary is for the entity to imagine an operation in which the implant is removed, or imagine some kind of device that shoots the implant, a ray comes out and dissolves the implant and leaves everything else intact.

What one imagines into existence can be imagined out of existence by another. This Awareness indicates that these are just mental exercises. They only have power in as much as entities wish to give them power, much in the same way that an entity can convince another in the darkness that there is a monster in the room, while realizing in fact no monster exists except in the mind of the entity who believes in the monster.

No implant exists except in the minds of the entities who imagine the implant in existence. The installation of a psychic implant is removable by the psyche of one who does not want the implant. Physical implants are not so easily removed.

"A THREE HUNDRED DOLLAR TAX REBATE — WHY, NOW WE CAN GET A NEW SOFA FOR THE DEN!"

QUESTION:

Stan W. In England has a question, he says to help understand the nature of the beast. He writes: "Human life is exceedingly fragile with pitfalls and difficulties seemingly escalating a long life's route with accidents, ill health or despondency prevalent when one has reached his later years. Do the aliens have to endure this style of existence or are they more robotic throughout their lifespan?"

COSMIC AWARENESS:

This Awareness indicates the aliens, particularly this is in reference to the Greys, the small Greys, are quite weak and fragile. They physically would not have any power at all. They would be totally helpless and cowering next to humans except for their technology. This Awareness indicates their health is poor, their lifespans quite short. The only way they continue existing is through repetitive cloning and increasing their numbers through the mass-cloning techniques.

They must stay close to each other for protection. They must keep their weapons and technologies handy or they would easily be destroyed. This Awareness indicates that they are essentially a dying race, but through their technology they manage to continue and through the developing of new technologies of mixing with humans, they hope to develop a stronger species that can survive without depending on cloning and technology alone.

CAN THE REPTOIDS REALLY RELY ON THE GREYS?

(Many Types of Greys Exist With Mixed Loyalties)

QUESTION:

A question from J.J. in New York City, which Awareness has answered I'm pretty sure, but maybe *It* will update. She writes: "At the present time, are the small Greys following their own agenda, or the Reptilians? They want people for experimentation, cross-breeding, and maybe us gone so they can have the planet. The Reptilians on the other hand, seem to want as many of us fattened up as possible prior to their arrival. This is confusing. Poverty, war and AIDS seem inimical to that goal."

COSMIC AWARENESS:

This Awareness indicates that the small Greys are not happy as mercenaries of the Reptoids; they would prefer to have their own independence and freedom. For this reason, some of these Greys wish to work for humans against the Reptoids or Reptilian race. Others are fearful of the power of the Draconians,--the Reptoids, and do not dare to cross them for fear of reprisal. Their loyalty is based on fear, but they are loyal to the Reptoid or Reptilian types.

So, there are factors of both types of Greys and this Awareness suggests that the agenda may vary from one group to the other in accordance with how the Greys feel toward their Reptilian masters, whether they are loyal to them or rebellious and willing to throw in with the humans in hopes of finding a kinder association with humans.

The Reptilians see the Greys as but servants to them. They are hired mercenaries and they are not recognized for their own individual worth by these Reptilian types. This Awareness indicates that therefore, the situation of relationship is not one of a simple arrangement, but may be quite complex or diversified, depending on what Greys are being spoken of, and what Greys are expressing their loyalties to, for some Greys you speak of, are the more independent types. Others are loyal to the Reptoids, and are fearful of any appearance of independence.

This Awareness indicates of course the Orion types are totally independent of the Reptoids. They, in fact, in one sense are masters of the Reptoids, though they are not physically as strong, nor technologically superior. They are more cunning and they have organization that is superior to the Draconian Reptoids, so that they could, if they so chose, defeat the Reptoids through vast imperial armies. which gives them a political superiority over the Reptoids and leads the Reptoids to hold them in high respect even though they are physically weaker.

This Awareness indicates that the Reptoids do not dare attack the Orion Greys for fear of reprisal from the Orion Empire.

WHAT IS THAT MYSTERIOUS OBJECT HEADING TOWARD EARTH?

QUESTION:

V.G., in Covington, Georgia, sent in a small article taken from the December 15th, 1991 Atlanta Constitution, which says:

Last month, astronomers spotted what appeared to be a small asteroid, roughly 30 feet wide, heading Earth's way. On Dec. 5, the object passed Earth only 50,000 miles farther out than the moon. In space terms, a close call.

As it passed by, astronomers discovered something intriguing: The object was winking at us. Every 7.5 minutes, it would become three times brighter, and then go dark again. Asteroids don't act like that. Astronomers now theorize the object is artificial and that the winking is created as sunlight glints off a revolving shiny surface.

The only thing is, searches through the archives of space exploration have turned up no clues about the object's origin. And if it didn't come from earth...?

Can Awareness explain what this object is these astronomers spotted out there so close to earth?

COSMIC AWARENESS:

This Awareness indicates that *It* does not see a total response to this question. *It* sees clearly a word describing the object as being a probe. It appears that it is likened unto a forward scout that goes ahead of the main body to look and report back. This Awareness indicates that it appears that it is artificial and that it moved in a manner which could be described as tumbling every 7 minutes, but the purpose of the tumbling was to allow it to view all directions. The tumbling movement was intentional so that it could allow views in all directions as it moved.

THE FAR SIDE By Gary Larson

"Why . . . yes . . . thank . . . you . . . I . . . would . . . like . . . a . . . knuckle . . . sandwich."

FOLLOW-UP QUESTION:

A probe like that doesn't necessarily have life forms on it, does it?

COSMIC AWARENESS:

This Awareness indicates that it does not necessarily need life forms. It can be an artificially created probe having electronic instruments aboard. It appears that this did have electronic instruments and it appears there was also some life form aboard; that the life forms were in a state of hibernation.

WAS THE REAL PURPOSE OF THE MIDDLE EAST WAR TO DESTROY ALIEN BASES?

(Excerpts from a CAC General Reading, Feb. 6, 1992)

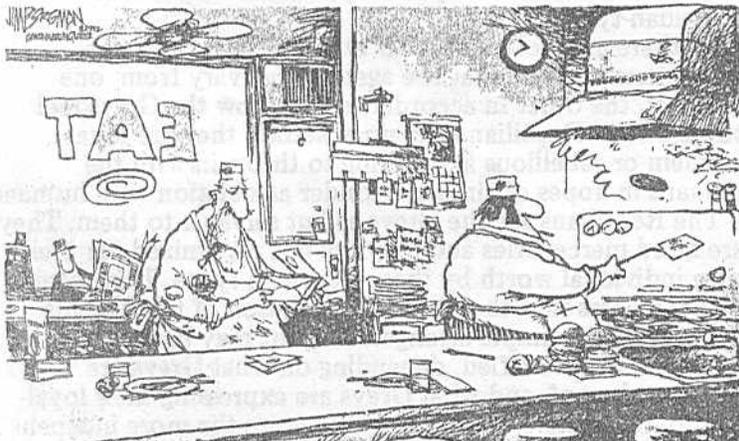

QUESTION:

A question from T.F.S., Albuquerque, New Mexico. "An East coast channel, Barbara Marshenak (sp.?) has explicitly said on repeated occasions that there is a huge underground base run by the Greys in the vicinity of Kuwait, and that there are known entrances that are sometimes secretly used by surface humans to gain access to the underground complex. Could Awareness comment on this allegation? Please note: that what is requested here is not an evaluation of the quality of the channel Barbara Marshenak, but what is requested is commentary relative to the existence of such an underground facility in the vicinity of Kuwait. Marshenak further alleges that the war with Iraq was used as a cover to engage in military action against this base; such that the intense nature of the war, along with the unprecedented degree of military news censorship by the Pentagon, prevented the public at large from ascertaining that another secondary military action was being waged against the Grey base underground. Would Awareness care to comment?"

COSMIC AWARENESS:

This Awareness indicates that *It* has seen a base run by Greys in the area of Iraq; this appears to be to the north of the area which this entity speaks of. This Awareness indicates there may have been a mention of this in a previous reading; it is an ancient base that has been in existence since ancient history. This Awareness indicates that in reference to the base in the area of Kuwait, this has not been ascertained by this Awareness.

This Awareness wishes to look at this area. [Short pause] This Awareness indicates that it does appear that this exists and that it has been known by the United States and was known in Kuwait that it was part of an earlier agreement,

"WELL, LOOKA HERE... A STAMP WITH YOUR PICTURE ON IT, PRESLEY."

17. much as the Dulce base was part of an agreement, and that since the Greys have violated their contracts or agreements with the governments of the world, this became an action in which the governments decided to terminate that base, along with other bases of the Greys, for fear of what they were planning for the rest of the world.

This Awareness indicates that it appears that much of what has happened in the world during the past two years has been closely linked to a secret war with the Greys. This includes also the events that have occurred in Russia; that the harmonizing of relationships with the Russians was an urgent part of waging this war with the Greys.

This Awareness indicates it appears also that the Bolsheviks working in Iraq were attempting to work with those Greys, prior to the war and wanted to establish close relationships with the Greys under the control of Iraq. That was part of the purpose of Iraq invading Kuwait, to bring closer proximity to the base with the Greys, in hopes of expanding an alliance with these entities for the Iraqis and Bolsheviks operating in Iraq, with the technologies available through the alliance with the Greys in Kuwait.

HOW TO PRESERVE WEALTH IN THE COMING TIMES?

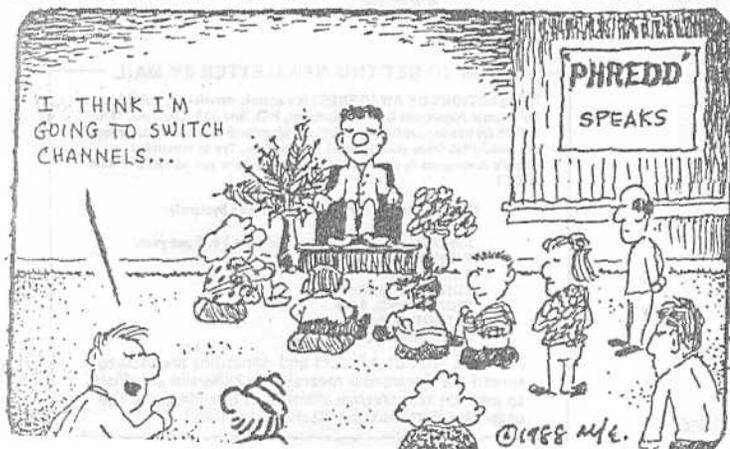

QUESTION:

J.J. in New York would like to know: "Concerning the predicted economic collapse and alterations, what specifically can we do to prepare for or hedge against this?"

COSMIC AWARENESS:

This Awareness indicates that it all depends on what entities have to work with to begin with; that some entities have so little, there is not much that can be done. Other entities have many assets which could be transferred into things that can be liquidated for emergency purposes. This Awareness indicates that it does not appear that a truly serious crisis will occur until after the next election, probably into 1993, and that there is not seen a great deal that entities are going to be able to do one way or the other that is not already apparent to most entities.

This Awareness indicates that there are many who give advice in terms of how to preserve wealth in a coming economic crisis, and if entities don't have wealth to preserve, then you simply have to live on faith and be flexible and able to adjust to whatever is necessary. This Awareness indicates that It suggests the entities having these concerns are so different from one another that a single response, a blanket response for all is utterly impossible. This Awareness suggests therefore, that entities take stock of their own holdings, and seek advice from financial experts whom they can trust. This Awareness finds the question too complex to answer at this time; the energies for this reading being depleted, and the question requiring too many other and various considerations to be answered in a single reply.

HOW TO RECEIVE A MESSAGE 3 DAYS BEFORE IT IS SENT (How Seeing Into the Future Works)

QUESTION:

L.K. in Indiana has a question. He writes: "An unbelievable study on thought projection is covered in *Unconditional Life*, by Deepak Chopia, MD. At Princeton, Robert G John and Brenda J Dunne conducted experiments with ordinary people, and found that they (ordinary people) could broadcast messages telepathically no matter how far away the receiving person was. In some cases the messages were received up to 3 days before they were sent! Can Awareness comment on how this is possible?"

COSMIC AWARENESS:

This Awareness indicates that this is most difficult to explain in the sense of entities' view of time and space. This Awareness indicates that It has previously given or suggested to entities that time flows in two directions simultaneously. One moves toward the past, the other moves toward the future. These are likened unto currents of consciousness and entities, especially during sleep state tend to tune at times, tend to tune into the current that moves toward the future and they may move from present along these currents into the future and see things that are to be.

Other entities, especially in the awakened state, tend to look more clearly at things of the past and refer to these things as memories, and they can recall things that happened in the past. If an entity didn't have a memory and another entity did have a memory, the entity who did not have a memory would consider the entity who had a memory as having a strange unexplainable gift to be able to see into the past.

This Awareness indicates that likewise, if everyone could see into the future, but few could see into the past, and suddenly someone said: "I can see what happen I know how this came to be! I recall that I was there, and this and this and this occurred, which left it like this, as you see it!"; this person would stand out in the crowd as someone who had a strange gift, the gift of hindsight.

This Awareness indicates that because most entities can see backwards, but cannot see forward, the entity who can see forward is very rare indeed, and the phenomenon is not that easily understood. This Awareness indicates that wherein the entity can easily see backward, but can see forward, such an entity finds it most difficult to understand how something in the future can be witnessed in the present, but the entity has no problem in understanding how something in the past can be witnessed in the present.

This Awareness indicates it is because some entities can see forward, and others can see backward. Most entities can see backward and cannot see forward, and therefore, they can talk about the past, but when an entity can see forward and attempts to describe something that is of the future it is seen as unusual, even miraculous.

This Awareness indicates that to see something that is in the mind of another is also an action that is difficult for entities to understand until they have done so. It is uncommon for entities to project an image to someone else. The best common way of explaining this phenomenon is to use that of the radio, the broadcast station and the receiver, tuning to the same vibration.

If you and another entity can match each others' frequency or vibration, all that is necessary to communicate from one mind to another during those moments of matched frequency is for the one to think of something and it will be broadcast to the one who is in the recep

mode. This Awareness indicates that in order for it to be broadcast from the future, three days from now, the entity who would be receiving the message would need to move into future vibration to pick up the vibration and the image that would eventually appear there when the message is broadcast.

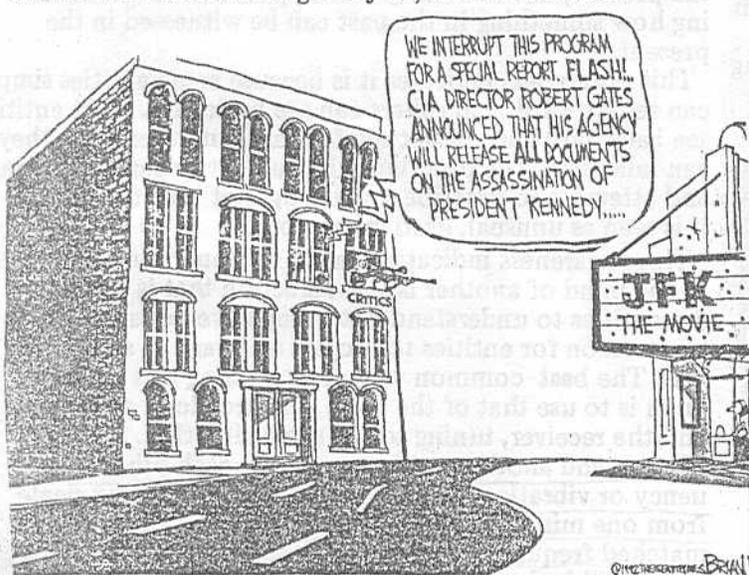

This Awareness indicates that in broadcasting a message into the future, one needs only to send it at present time and the future frequency immediately knows and picks it up. This is extremely difficult to understand. It is that the present influences the future and an image broadcast at present creates the ramifications of the energies that are broadcast to affect not only the present, but to affect the future.

This Awareness indicates that an entity who can move into future frequencies and vibrations from the past may pick up the future vibrations ahead of the broadcast because the broadcast emits the energy into consciousness and it appears in the future, even though it was broadcast simultaneously.

This Awareness indicates that it is the mind that sees time as linear, when in fact it is all one great moment, and while the mind attempts to see the events of the future... This Awareness indicates that this is almost impossible to explain to the mind, because the mind works in a dimension utterly different from intuitive experience. The mind works in lines of thought, in lines of reason, in lines of time.

A time-line does not exist outside the mind. Take away the mind and all time is present, but the mind orders things into time-lines. For an entity to send a message which is picked up three days before the message is sent, suggests that the receiver of the message went into the future and received the message as it was being projected, but in actuality, there is no future and no past, and the message was an experience and the receipt of the message was an experience and the apparent time-line was a mental interference or projection into the experience.

This Awareness indicates that *It* cannot, through words, using mental terminology, express a clear explanation of this. It can only be understood through experiential levels and this Awareness cannot through words create the experiences to explain. This Awareness suggests that you may wish to work with this phenomenon whereby you attempt to tune into another's consciousness three days from now, and then have the entity, three days later, send you a message. Meanwhile, do not tell the entity what message you received three days earlier until the entity has completed and sent his later message to you, and disclosed it.

18. You may work with these without understanding mentally, but with experiential actions, because it cannot be explained mentally, for mind does not encompass the ability to describe such experiences.

TWO WAYS INFORMATION IS ABSORBED (How to Play "Stump Cosmic Awareness"?)

QUESTION:

Thank you. Does Awareness have a closing message.

COSMIC AWARENESS:

This Awareness indicates that this question was quite challenging to this Awareness in that seldom are there questions that cannot in some way be put into words. It is quite interesting to find a question that cannot be experienced and also expressed verbally for the mind to understand. This Awareness indicates however, that there are two different ways to absorb information which entities need to recognize.

One is by the mental approach, the other is by the experiential approach, and sometimes both can be experienced somewhat whereby the words can create some form of experiential understanding, but there are occasional times when experiences cannot be described in words, cannot be explained in words, can only be experienced. Words become inadequate. Such times this Awareness, through this means of expression, is incapable of answering a question.

Why Can't the Development Classes be Put on Tape?

This Awareness indicates that there are development classes which create experiences, and words cannot share those experiences and many entities have asked: Why can't the development classes be put on tape or printed in a book for the rest of us to share? They cannot be put on tape or in a book for the full experience simply because they are uniquely experiential. Portions of the development classes can have expression through words, but the full experience of the development classes is an experience, not a mental understanding.

This Awareness indicates that this entity's question relating to the present time and future time and one picking up a message that had not yet been sent, and asking for an explanation of how this is possible, presents a similar problem in that words cannot explain the experience. It is an experience that lies beyond words or logic and therefore, it has no reality for the mind because the mind is one dimension behind the experience of entities.

All experiences are a dimension ahead of the description that the mind gives to the experience. One can talk about the journey, but the talking about the journey is not the journey. The journey is the experience. The talking is but a reflection, and in some cases the experience has no reflection in words or concepts. It cannot be expressed through the reflection of mind. *****

HOW TO GET THIS NEWSLETTER BY MAIL

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, WA, 98507 (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will! (How many have you served and how well?)

MEMBERSHIPS AVAILABLE (Honor System!)

LIMITED INCOME (Broke, poor, etc.) \$30 per year.
INDIVIDUAL: \$42
FAMILY: \$52
CONTRIBUTING: \$77
SPONSORING: \$144
PATRON: \$1000
ENDOWING: \$5000

PLEASE NOTE: All dues and donations are used to spread the Awareness messages to others in an effort to awaken and prepare entities on this planet to the urgencies that must be attended to NOW!
