Helping People Become Aware

WHY
TELL
YOU
ABOUT
THE
DARK
FORCES?

THE LIMITATIONS OF THE DARK FORCES & HOW TO REALIZE YOUR OWN STRENGTH IN THE DAYS AHEAD

OPENING MESSAGE:

(YOU ARE ATTUNED TO THE GREATEST POWER IN THE UNIVERSE)

This Awareness indicates that during the past year or two, this Awareness has given extensive information associated with the UFO phenomena and the alien presence, and information associated with the New World Order, and of concerns related to events to come during the '90s. Much of this information, in fact, *most* of this information, had been that which could easily be classed as negative or frightening information.

This Awareness does not like giving fearful or frightening information, but there is also the need to give warning and if the warning that is given causes entities to feel frightened, that is part of the necessity of the warning. This Awareness indicates that *It* does not ask entities to feel frightened by the information relating to the alien situation, or to the One World Government concepts, or to the events of the future. This Awareness asks entities only to become aware of the many things that are in or are coming into manifestation on this plane.

This Awareness wishes at this time to assist entities in understanding their own strength in dealing with the energies that might tend to cause fear in some, for it is important that entities not let this kind of information cause them to become weakened, and often when entities hear of such information they feel powerless to do anything about it, and thus feel themselves weak.

This Awareness indicates that when entities feel themselves to be weak, they tend to be less able to handle other affairs in their lives, other aspects of their circumstances. This Awareness wishes to assist entities in realizing their own strength, their own empowerment; the ability to empower themselves, even in spite of formidable difficulties that may lie ahead for humanity.

Collective Humanity is Not a Weak Species

This Awareness wishes first to point out that humanity is not as a collective body a weak species, it has great power and ability to adjust to necessity, to respond to urgencies. It has the ability to adapt itself to whatever is necessary to deal with a crisis. Thus, as a unit of humanity, you are in good company. You are able to be part of a species that can handle, and has a proven history of being able to handle, many different kinds of critical situations.

This Awareness indicates that in addition, each of you individually has access and the ability to be at one with the creative force of the universe. Each of you has the ability to be in touch with the Absolute Creator, to be one with God, to be a part of the power of the Creator. This Awareness indicates that in attuning yourself with the creative energies of the universe, with Cosmic Consciousness, with Cosmic Awareness, with the faith and vitality of the Universal Creator; in attuning to this energy, you are attuned to the greatest power in the universe, and thus have at your own fingertips, in your consciousness, the power necessary for your own protection and evolution in the face of difficulties.

How to Remain Protected No Matter What Comes Down

This Awareness indicates that even in walking through the valley of the shadow of death, you need not fear adversaries, or great negative forces, when you are indeed in touch with and aligned with these higher vibrations in consciousness. This Awareness indicates that as these years of the '90s transpire before you, even events come and go, always place your attunement with the higher creative forces, the spiritual energies of the universe, and you will find yourself protected even in spite of changes and threats and dangers that occur around you.

This Awareness indicates that there is no need to be frightened. Being frightened will only weaken your energy field. Being attuned to the power of the creative spiritual energies of the universe strengthens your energy field to protect you against these negatives that may occur. The dark forces are not all powerful. They are limited. They cannot see beyond certain levels. They may see beyond levels that are obvious to many humans. They may have insight that goes beyond your human power, but they do not have insight or ability to see those areas beyond astral planes and those areas that are in the future, or in the higher planes of existence, in the causal levels, which the higher spiritual forces control and understand, and thus, the dark forces are working in limited areas of consciousness and are actually being used without knowing so, by those higher forces.

The dark forces are used much in the way that the wolves are used to weed out the weak caribou so that the herd of caribou gradually grows stronger as the weaker ones are taken out. The dark forces are used to drive the Light Workers ever faster, ever further toward the Light, and those who are weak and failing, may be caught by the dark forces, may be used by the dark forces and may be trapped by the dark forces for a duration of time and may need to go back on the ladder and work their way through, through future incarnations, to get back on the path of Light, in order that they strengthen themselves in the Light and move on to those higher regions.

This Awareness indicates that as entities understand these dark forces moving and working on the earth plane at this time are but driving forces to speed the evolution of humanity in its appreciation and valuing of the Light, entities will also grow more rapidly toward the Light, and as they move toward higher spiritual vibrations, the changes and the benefits of those higher frequencies and vibrations become more widespread.

This Awareness asks entities who are on the path toward Awareness to not wait for the dark forces to drive them toward the Light, but to move in great speed and in great desire toward a oneness, toward a unity with the Higher Frequencies and vibrations of the Divine Consciousness, and as entities do so, they may totally escape confrontation with the dark forces in these future years.

This Awareness indicates that above all, there is no need⁵ to fear these dark forces, unless you wish to energize them and give them power by turning toward them and feeling them overpowering you. It becomes then a matter of wallowing in the shadows and darkness, for no real purpose or value. This Awareness suggests that by looking the other way, once you have already recognized the presence of the dark force, turning then to the Light and moving in that direction, you move with greater awareness and with greater freedom and purpose.

This Awareness indicates that some may then ask: Why even tell us about the dark force? This Awareness indicates that were you a caribou running with the herd and not made aware of the wolves that are in pursuit, you would become an easier victim and the prey of these wolves. Likewise, if you are not aware of the dark force and its purpose and intentions and agendas, you are less able to avoid contact with these forces.

By being aware and yet not being trapped by these forces, not getting fixated by these forces, not becoming so obsessed that you merge with these forces, but by obsessing yourself instead with the Divine Light and moving toward the Divine Light, and Universal Consciousness, you then have a clear understanding and direction of movement away from the darkness, away from the dark forces.

This Awareness indicates there is no need for fear. There is only the need to move positively in the direction of the higher frequencies. This Awareness indicates that most entities who have been made aware of these negative forces have already passed through the gates of fear and have entered into levels of understanding where fear does not control them, yet they are aware of those things that might be fearful to others in the near future.

Therefore, these entities who are already aware of these things that in the near future might frighten others, these entities do not need to experience the fear when others are wallowing in fear, for they have already looked at the face of the beast of fear and are ready to move on in a more positive direction.

This Awareness indicates it is now a time for entities to work on strengthening their courage and purpose and being, with the merging of themselves into the higher frequencies of greater consciousness. It is not a time to continue wallowing in worry about the fearful aliens or other negative concerns. This Awareness indicates it is good to be aware of these things, but it is not helpful to be fearful of these things.

ALIEN ABDUCTIONS & IMPLANTS: WHEN WILL THEY GET ME?

QUESTION:

Probably the most common fear expressed by letters from members about the alien information is that when statistics are released to the effect that 30 or 40 million Americans have been abducted and are implanted, that the entity begins to wonder, "Am I going to be next," or "When is it going to happen to me?"...this type of thing.

COSMIC AWARENESS:

This Awareness indicates that the aliens do not want to collect and implant everyone; the aliens want only those people of a rather low intelligence, or simple intelligence that they can easily control. If entities are of a strong spiritual nature, not easily persuaded, they are not prime candidates for implants or abductions. If you are easily persuaded to follow the suggestions of aliens, then you might be more inclined as a candidate for abduction, but because you have been given information, you know what is going on with these abductions, these entities can, through their instruments, monitor your

vibrations enough to know that you are not a willing participant and that you would more than likely be troublesome to them, and therefore they are inclined to leave you alone.

They do not want trouble any more than anyone else wants trouble, and therefore, because you are aware of them as a danger to you, not as a spiritual angel or guiding force, they will shun you rather than seek you. These aliens tend to abduct those whom they can easily influence. They want people who worship them, who see them as loving divine beings, and people who will be extremely cooperative with them.

This Awareness indicates that most entities who have read information given by this Awareness in regard to these entities would not fit into that category, and therefore, are more inclined to be passed over by these aliens and left alone.

WOUNDS THAT WON'T HEAL: HOW ALIENS CAN INTIMIDATE

FOLLOW-UP QUESTION:

Would the aliens have any inclination at all to try to deal with those aware entities who understand the alien agenda and are working to expose them?

COSMIC AWARENESS:

This Awareness indicates that they rarely attempt to interfere in this manner, but there is on rare occasions an effort by aliens to intimidate those who try to expose them. This has happened to Kreston and to Bennewitz in the same way, whereby the aliens entered during the night and poked a needle into the side of the finger of these entities. The finger being poked did not heal for approximately six months. It was a clear needle-mark, not a scratch, or not a normal injury that might occur in ordinary experiences.

It was a mark of intimidation, intimidating the entity or trying to intimidate the entity by making a mark to show that they had the power, the ability to touch the entity while he slept. This Awareness indicates that this was as far as they were able to go in intimidation efforts.

WHAT DOES AWARENESS MEAN BY "WHAT IS" ?

"Something is happening, but you don't know what it is, Do you, Mr. Jones?"

QUESTION:

A question from V.M., of Los Angeles. We published information on this, but evidently it isn't clear enough, at least to this lady. I'll read it and the quotation she sends in. She says: "Quite frequently Cosmic Awareness speaks of 'What Is,' and says it is important. I'd like to learn all there is to know about 'What Is'. Will you kindly request that *It* make it clear so that we can apply the laws involved? Enclosed are some quotes. These were taken from issue 91-9, on page 16:

You will find yourself being moved by the awareness of What Is. If you become aware of What Is, the awareness of What Is moves you to the right action without your deciding to do so, without your being told what to do.

Another quote:

This Awareness indicates It's purpose is to help entities to become aware of What Is. That is all that is necessary.

Another quote:

If every entity in the world were aware of What Is, there would be no further problem, for entities would all respond accordingly, and the problems would tend to reconcile in accordance with the awareness of the masses.

On page 17:

Become totally aware of whatever your issues may be, and your response will be accurate in accordance with your awareness. This Awareness suggests that is the solution to everything you will encounter in your life.

This Awareness indicates that What Is, is that which IS. There is no way to explain it any clearly; that it is not what you may wish it to be, it is not what you fear it is, it is not that which you hope it is, it is not that which you would prefer it to be; it is What Is. If you look at a situation and see it as it truly is at any given moment, then you see the truth. If you cannot see it as it really is at any given moment, then you are seeing an illusion which is projected by the aberrations of your own mind.

This Awareness indicates that it is not something that this Awareness can describe for you. It is something you must from moment to moment discover. Discover What Is. Discover what is truth; what is real, not what is hoped for, or what is believed in. Discover What Is.

This Awareness indicates at every moment, things are as they are, and to be discerning requires that you discover What Is at that moment, and in the next moment things will change, and it becomes necessary to discover something different, to discover what has changed and What Is now. This Awareness indicates that the change continues eternally, and you must always look for the truth that exists in each moment and you can only do this by being discerning and by not imposing some projection of your own mind onto the reality that lies before you.

Each moment is its own reality, and if you impose some projection of your mind on it, you are not seeing the reality clearly; you are seeing projections of your mind intermingled with circumstances before you. One person looks at a circumstance and projects things from his own mind, and sees this as being a crisis having to do perhaps with racial overtones. Another may see it as having to do with sexual overtones. Another may see it as having something to do with financial overtones. Another may see it as having political overtones, because these entities are projecting something from their own minds.

This Awareness indicates that in reality, What Is may not have anything to do with those projections at all. It might simply be that there is something happening and you don't know what it is because you haven't looked with discerning eyes. This Awareness indicates there is a Bob Dylan song which speaks of this: "Something is happening and you don't know what it is, do you, Mr. Jones?"

This Awareness indicates that at every moment, something is happening and most entities don't know what it is, because they are busy thinking about things that are important to them and are involved in projecting those important thoughts onto the moment of What Is and do not see What Is because of that mental projection.

This Awareness indicates that a truly discerning mind however, can also see that What Is may include the mental projection that is being placed on the moment, thus, the truly observant and discerning consciousness may recognize that What Is IS and the projection is part of What Is, and therefore, must be included in the What Is of the moment, in the essence of the moment, but such a discerning mind may also recognize that the projection is being added to the 'isness' of the moment, the essence of the moment, and could be withheld and not projected, and in that manner change the essence of the moment.

Thus, the entity may decide not to add preconceived ideas about what is happening, and may not wish to add the sexual overtone, the racial overtone, the political overtone, or some other aspect to what is occurring at the moment and may in this manner, let things be without addition of some personal projection.

"WHAT IS" IS NOT ALWAYS AN INTELLECTUAL THING

(Stripping the Words from the Universe)

FOLLOW-UP QUESTION:

To view What Is isn't always in every case an intellectual thing, is it? That it's also intuitive and so-called psychic impressions involved?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates perhaps this will help: The entity Ouspensky spoke of the use of words and said that words are all lies. If you could strip all words from the universe you would see the truth. This Awareness indicates the entity was speaking also of words that are thought, and if you follow this entity's idea, it would be likened unto an entity who looks out and has no thought to project on the universe, but simply sees What Is, and if you see What Is without thinking about it, without formulating words about it, then you are seeing the reality, the truth.

This Awareness indicates that as soon as you begin to think about it, as soon as you begin to project words, names and concepts onto what is seen, you have altered the view of your reality and do not see clearly What Is.

This Awareness suggests of course you can take another look from a different point of view and recognize that all the projections and thoughts that are sent out into reality are also part of What Is, but the purpose of the admonition by Ouspensky and suggestions by this Awareness in regard to looking at What Is, suggests that you remove your opinions long enough to see things clearly before adding opinions about it.

How Mind Projections Often Work

This Awareness indicates if there is a black blob on a piece of white paper and you have no opinion about it, you can look at it and see very clearly and know for certain that it is what it is, and then you can add opinions that it is a black blob on a white piece of paper, or that it is a black blob with a certain appearance that resembles a butterfly on a white piece of paper, or you can add further that it is a black blob resembling a evil butterfly on a white piece of paper, or you can add further opinion that it is a black blob resembling an evil butterfly that is out to kill someone or harm someone, on a white piece of paper, or you can keep adding more and more projections from your mind onto this black blob until your discernment becomes so complex and so opinionated that you don't really know what it is, though you have all kinds of assumptions and opinions about it.

This Awareness suggests that you know that something is happening, but you don't know what it is, and if you then can go back and eliminate those assumptions and opinions and see it for what it is, without an opinion, seeing it with discernment, without description, without opinion, without judgment, you arrive back at the truth. The What Is.

This Awareness suggests this same approach may be used in viewing a situation involving many people. You do not have to have opinions about everything that you witness. You can simply see it for what it is, not including the opinions you may wish to draw from what you see. This Awareness indicates that if everyone could see things as they are without formulating opinions, judgments, beliefs and thoughts about these things, they would all share the same truth, or very closely the same truth, assuming their eyes witnessed colors and shapes in the same way.

FOLLOW-UP QUESTION:

5.

One of these quotations this questioner gave: "You will find yourself being moved by the awareness of What Is. If you become aware of What Is, the awareness of What Is moves you to the right action without your deciding to do so, without your being told what to do." Is this sort of like the first impression, or the first flash of insight an entity has of a situation, which turns out usually to have been the correct one?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that this assumes that you have observed sufficiently to see all the What Is that is involved, all of the essence that is involved. This Awareness indicates of course, if you only glimpse a moment, you may miss other aspects of what is going on. For example, you may see two entities arguing, and you may have your first impression, but if you watch more deeply or more carefully, or give more time or perhaps you may have already missed something that colors totally the reality of what is happening; you may find that the entities are arguing over a certain issue, and that this issue is also part of the reality you observe.

This Awareness indicates that you cannot have a full understanding of the reality without also understanding the issues involved. Therefore, the first impression may or may not be the right or complete understanding of What Is.

FOLLOW-UP (VIKKI):

I think that reference about understanding What Is to indicate your course of action was in relation to responding to an urgency in the situation.

COSMIC AWARENESS:

This Awareness indicates that this is generally the easiest way to respond correctly to an urgency, whereby you watch carefully without the thought of: "Oh! What am I to do about what is happening here?" As soon as you begin thinking of yourself as an actor in the event, you begin to want to form an opinion and want to make a judgment, but if you withhold the need or the feeling that you must somehow get involved as a cause in the situation and you simply keep observing until you see everything clearly, until you discern totally what is occurring, then your automatic response to the issue and event and circumstances is more likely to be the appropriate response.

This Awareness indicates that too often entities feel a self-importance and they see an event occurring in a situation and they want to involve themselves in it because they are important and can settle the issue or solve the needs of the issue involved, and in so doing, they may inject themselves into something without understanding it because they have not been discerning enough and they can very easily make fools of themselves or injure themselves or misjudge the parties involved.

This Awareness indicates that by withholding judgment and opinion long enough to fully understand by discerning clearly what is going on, entities are much less likely to make the wrong moves, draw the wrong conclusions or cause harm for the wrong reasons.

FOLLOW-UP QUESTION (VIKKI):

And isn't the final bottom line as far as What Is, that it really boils down to we're all vibrations and energy anyway, when you get down to beyond the illusion level?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that all vibrations are much the same, but there may be some distortions in some of the vibrations that need also to be looked at, and the situation may require that this part-

icular distortion be understood in its relationship to other things that are occurring in the various vibrations of the situation. Thus, an entity who is agitated or frustrated in a situation may be expressing distorted energies that are affecting others and if entities step into this and make judgments too quickly, they may see the reaction to this distorted energy and think that the one who is reacting is the cause of the problem.

This Awareness indicates that the reaction may simply be the result of the problem and without clearly discerning What Is, the entity may misjudge the situation.

**GREYS NO LONGER HOLDING BACK HUMANITY;
THE NEW BEING IS BEGINNING TO COME FORTH
(Molecular Structure of Man is Now Changing)**

CAC General Reading, February 2, 1992)

OPENING MESSAGE:

This Awareness indicates that the nature of consciousness for the human race is that which is now free to move toward its more spiritual evolution. This Awareness indicates that for some time, consciousness has been held in check by the consciousness of those known as the Greys. This Awareness indicates that it is not so much that these entities were deliberately or intentionally holding back the spiritual movement of entities on this plane, but more that their own consciousness, commingling in the collective consciousness of humanity, was creating a block in the spiritual evolution of humanity.

Now that most of this energy is no longer affecting the collective consciousness of humanity, the remainder of humanity is freed-up to follow its natural inclination and growth and development toward its higher evolution. This Awareness indicates that during the remainder of this decade and into the next century, the collective consciousness of humanity will begin to express itself in a more spiritual form of expression and entities will begin to develop toward a higher more evolved being.

This Awareness indicates that this is what the Awareness indicated through David Worcester's channel, when referring to the "New Being" which was to come. This Awareness indicates this New Being will have a different physical nature, more of a body of light, but will also have physical form. This new development will include two extra chromosomes in the molecular structure of the human; this being such as to alter the genetic make-up of the human being in the coming generations as the New Being comes forth.

This Awareness indicates that the main part of all of this energy as that which has reaped the whirlwind, the karma has been sowed and the karma has been reaped and the greater portion of this energy has now left the planet. Some still remains to be worked through, but there is a great opportunity for the higher aspects of the human qualities of compassion and love to have more expression now than at any time in the past four decades.

This Awareness indicates that in fact, this could go back as far as several centuries in which these forces have been influential in human affairs, and the influence basically has been decimated to where the opportunity now exists for human compassion and love to have greater expression than ever before. It will be a matter of whether humanity does fully allow this expression or holds reservations based on fear and patterns that have developed during this negative time of these past several centuries.

Genetic Manipulation Began in Atlantis

This Awareness indicates that the negativity that has existed, especially in the past two centuries, actually began in Atlantis, approximately 50,000 BC, just prior to the fall of Atlantis, through certain genetic experiments that were conducted at that time. This Awareness indicates that these were conducted by those aliens present on the planet Mars and these entities tampering with the genes of humans to effect them in a way that became adverse to the spiritual evolution of humans.

This Awareness indicates that the influence from Sirius as that which planted the seeds for the eventual release from these adverse genetic experiments and entities are now witnessing the release from these adverse experiments on the human species. This Awareness indicates that in the coming decades, many changes will occur which will allow entities to regain a great memory and understanding of who in fact they really are, where they came from, and what their purpose and direction truly is; this in reference to the human species.

WHAT QUALITIES CAN WE EXPECT IN THE NEW BEING?

FOLLOW-UP QUESTION:

In addition to becoming less violent and warlike as mankind evolves into the New Being, what can entities expect basically, that we can understand now, what could we expect entities will be like as a general species when they experience this higher evolution Awareness has referred to?

COSMIC AWARENESS:

This Awareness indicates that entities will experience greater universal compassion for one another. This will be the major change that is witnessed. There will also be certain psychic changes in the nature of human consciousness, wherein entities will have the ability to tune into themselves, turning inward to find answers and truth, so that they need not seek information from others outside themselves.

It will be a time of knowing, a time in which entities will know the truth, when they seek the truth. They shall seek the truth and know it simultaneously. This Awareness indicates that it will also be a time in which by knowing the truth, they add to the collective truth so that others also progress spiritually, simply by the proximity and relationship of being part of the human species.

This Awareness indicates that the energies and changes that will come are those which will be for the good of humanity, and will be felt by the masses in a collective sense. It is not that there will be a sudden change. It is more that there will be gradual changes in consciousness which allow for spiritual improvement to occur. Wherein as time passes, crime and violence will diminish and a new kind of collective compassion will emerge in which entities care for each

6. other, and do things to serve one another.

This Awareness indicates of course you cannot expect this to occur overnight. It will take time. All things change slowly.

DO THE ASTRAL LIMBO ENTITIES STILL HAVE INFLUENCE?

FOLLOW-UP QUESTION:

Awareness once indicated that those entities in limbo and in the lower astral levels were basically or mainly responsible for the negativity on earth, or mainly responsible for a lot of it. Will these entities influence the New Being entities when they evolve to that point?

COSMIC AWARENESS:

This Awareness indicates that the entities of limbo, many of these have already been released and have been causes for much of the problems that have occurred on this plane, but there have also been influences caused by the collective consciousness of the Greys. This Awareness indicates essentially you might equate the Greys, the more negative of these, with those entities which Rudolph Steiner refers to as the Forces of Ahriman; that they parallel those references of Steiner, in that they echo or reflect Ahrimanic forces.

In other words, wherein one develops spiritually, that entity's development helps to push along the development of others so that all progress with each other on the spiritual path, even without great effort by the individuals. That these entities, having the ability to know without study, without research, by simply looking within for answers to their questions, will have access to information which they can then verify with each other whereby others come to the similar conclusion without having found external sources to draw from.

This Awareness indicates that wherein entities, turning inward, reach similar conclusions, they tend to verify each others' conclusions and thus confirm each others' discoveries of truth. This Awareness indicates that this will be a new way of confirmation of information which might otherwise be totally questionable and lacking in credibility. Gradually, the confirmation by these various individuals reaching the same conclusions through inward search will tend to confirm each others' discoveries and recognition of truth.

This Awareness indicates that there will also be ways whereby these truths may be tested, depending on the type of truth being considered. Some truths may be tested. Other truths are not so easy to test, but as entities begin to test and verify some truths, then they will find that other conclusions and truths they reach through this inner knowing are that much more trustworthy, if those which can be tested are proven trustworthy.

This Awareness indicates that entities in discovering, by turning inward and finding themselves capable of discerning new truths, such entities will be made more aware of the higher consciousness that is available to all entities who learn how to perceive and accept that higher consciousness.

THE DENSITY CHANGE IN 2012: WILL NEW BEINGS BE AFFECTED?

FOLLOW-UP QUESTION:

Will these New Beings manifest prior to the change to the next density level in the year 2012, or will they be more prominent after that occurs?

COSMIC AWARENESS:

This Awareness indicates that the year 2012 as being but a fulcrum or focal point for the energy change. There will be some who go through the change somewhat earlier than others, and some who may lag behind somewhat, but that will be the focal point for these changes, and entities will

move through these changing vibrations in or around that time period.

It is likened unto pointing to a time of the year and saying: "This will be the peak of summer," or "This will be the peak of winter!" This Awareness indicates it is not that the particular date or particular time of year will be the coldest day for everyone on earth at that time. Some areas may be warm on that day compared to others. Some areas will be cold. Some areas will not be as cold that day as on the next, or a few days before.

Weather varies from day to day, week to week, even in the midst of winter, so that the peak of winter or the mid-point of winter is not necessarily the coldest day for everyone in every spot. Likewise, the year 2012 is but a target or focal point, and not necessarily the absolute moment for everyone to experience this change which is coming.

Some entities will experience it much sooner than others. Some will experience it later. This Awareness indicates that in general, the majority will experience it in or around that time, and the changes that occur will be such that entities are more sensitive after that date than before to those new vibrations and to the frequencies of compassion and love and sensitivity, and these entities so touched, will be more able to feel higher vibrations and know more from those vibrations about what reality is and what it has to say.

Entities will be more knowing from their sensitivity. They will not need to gather empirical evidence in order to know something. They will simply be able to know it because of their sensitivity and ability to feel. This Awareness indicates of course, again, this kind of sensitivity will be first experienced in a slight degree which then continues to grow ever stronger as entities evolve.

ARE THE GREYS RESPONSIBLE FOR MAN'S SUFFERING?
(Much Violence on Earth is Result of Greys' Vibrations)

QUESTION:

L.F., of Franklin, Tennessee, asks: "Aren't they, the Greys and the Reptoids, a more deadly extension of sorrow, suffering and tragedy on this plane for us than even we humans are to ourselves, or as often used by their technology to control our actions?"

COSMIC AWARENESS:

This is in the affirmative; that not only have they been of considerable threat to humanity, the very nature of their consciousness tends to influence human consciousness in a like manner to express in a similar kind of Ahrimanic type of sadism. This Awareness indicates that part of the reason for entities becoming more fascinated with violence is due to the sadistic frequencies and vibrations emitted by these entities into the collective consciousness, which is shared by all humans. As this is eliminated or diminished, the fascination for sadistic violence also will be diminished.

OTHER CHANNELS CONFIRM ALL GREYS NOT BAD

QUESTION:

L.J., Moneta, Virginia, writes: "Dear Avaton and Vikki. I want you to know I heartily support and follow with a great interest the information on the government cover-up and alien connection. I have cross-referenced this information with other channeled information from Bashar, Daryl Anka, Lyssa Royal and Pleiadians with Barbara Marciniak, together with a background study of metaphysics. There are some points recently covered by the Pleiadians channeled by Marciniak that I feel would be important to explore for your readership:

(1) Not all Reptilians, Dracos or Zeta Reticuli should be construed as "unfriendly." Some members of the Family of Light have incarnated within these realms to help them change and evolve from within.

What comes to mind is the scenario on the TV series 'V', where the humans team up with the friendly Reptilians to defeat those Reptilians in control. The Pleiadians have taught us to judge others or situations, not with our logical minds, but with our solar plexus, the feeling center, and I'm sure intuition will plan an important role." And she asks: "Could Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates that this is correct; that there are always exceptions and always there are entities of one culture who do not stand by the behavior of their culture. This Awareness indicates that there are particularly similar conflicts when a culture acts in a way that is contrary to principles of what may be termed good and decent values, compared to a culture that is acting with values that are not noble.

This Awareness indicates that because there are people who even in the worst of cultures have certain degree of decency, will not go along with their cultural majority, and likewise, there are those in a good society whose values do not fit with the majority and therefore they become rebellious to that good society; these are exceptions in the society and it is good to be aware that there may be exceptions, even in regard to the Reptoids.

This Awareness indicates that *It* has already spoken of some of the Zeta Reticuli sub-cultures who are more inclined to merge and work with humans because they appreciate the human values more than those of their masters, the Reptoid types. This Awareness indicates that it is not so much that these entities are evil, it is more that they have not developed a clear and healthy compassion for others, even within their own culture and without a clear compassion, they are simply intellectual and technological in nature, having no social conscience.

Therefore, they are not capable of acting with compassion toward each other or toward other living beings. There are, of course, many humans that are, through programming, devoid of compassion also, at least to a great degree. Usually the humans have somehow trained themselves away from having compassion. It is not natural for them to be without compassion. It is more natural for humans to have compassion, whereas with the Greys and Reptoids, it is more natural for them not to have compassion.

This Awareness indicates the Reptoids have somewhat more compassion than do the Greys, but each of these cultures are fascinated by compassion and emotion and seek to better understand, because they do not understand it and find it very difficult to intellectualize it. Intellectualizing is about all they *can* do. They haven't the ability to experience or feel emotions such as compassion and love and they try to understand it logically and intellectually. This Awareness indicates that this, of course, creates difficulties for them.

It is what sets them apart from humanity more than anything else.

LIVING IN FEAR OF ALIENS CREATES THAT REALITY (Nuking of Alien Underground Bases Has Lessened Threat)

QUESTION:

Another question from L.J. "There is not one world as we think of in a linear fashion, but the world is really layers of reality. The realities we individually experience could be based on our choices and the probabilities that arise from those choices. If we stay focused in love and light, chances are that we would never encounter lower vibrational entities such as Dracos, unless we wished to have some interaction with them. Therefore, I feel it is important to know about such things as the government's secret agenda and alien connection, but to not dwell on such or live in fear of such as that only serves to help create that reality."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that it is important for entities not to allow fear and obsession with these things to become excessive in their consciousness. It is important to understand and recognize the nature of these forces, but to retain your own faith and the identification with Divine Forces in order to retain your own spiritual power.

If you become too obsessed and frightened, you tend to invite frequencies or vibrations into your aura and energy field. This Awareness indicates that *It* assumes that entities who are receiving these messages understand, at least they *should* understand from the messages that this Awareness has given in the past, should understand that fear needs not be part of your understanding of what is happening in reality and that what really counts is for you to know what is occurring and to add your light, to bring light to bear on these things and help to raise the vibration of these energies so that reconciliation and understanding and clarification is made part of your reality without you becoming victimized by what you learn.

This Awareness indicates there are very few entities receiving this kind of information who accept it as material to enhance personal paranoia. Such entities are not acting from levels of Awareness, if so inclined. This Awareness indicates that personal paranoia is not the purpose of giving information of this nature; that this Awareness wishes entities to remain strong, courageous and filled with the spirit, and in discovering these things, help to spread the information throughout mass-consciousness, or the collective consciousness in a way that allows the problems to be worked through and dealt with and reconciled.

This Awareness indicates at this stage, most of these extremes that have been discussed in the past two years are no longer quite so dangerous or threatening as the majority of those forces have been eliminated by actions from government sources as indicated previously. This in reference to the nuking of certain underground bases used by these entities.

DULCE BASE SEVERELY DAMAGED

FOLLOW-UP QUESTION:

Was the Dulce base in New Mexico, where Nightmare Hall existed one of these bases that was eliminated?

COSMIC AWARENESS:

This Awareness indicates that this appears to have been damaged severely and much of it put out of commission, but not totally destroyed.

8. ARE REPTOIDS ON NEMESIS AWARE OF UNDERGROUND NUKING?

FOLLOW-UP QUESTION:

Are the Reptilians, who are heading this way as Awareness has indicated, now coming into our solar system; are they aware by now that this action has occurred down here with the Greys?

COSMIC AWARENESS:

This Awareness indicates that it appears there has been a communication alerting these entities and that it has caused them to become very apprehensive. This Awareness indicates that the Reptilians are not used to experiencing danger. They are used to having others do their fighting for them. They have relied heavily, depended heavily, on the Zeta Reticuli to set up situations ahead of them so that they could simply come in and take over without any threat to themselves.

They are not prepared to take heavy losses and are very apprehensive about the action of coming into a real confrontation with others. Therefore, there is some question as to whether they will venture forth into an area that could be most dangerous to them or whether they will hold back. It would seem that their intention will be to carry forth their efforts because they do not appear to have the means in terms of fuel and so forth, or supplies to turn back and go elsewhere.

This Awareness indicates that to go forward, they realize is a risk. The uncertainty is that which disturbs them greatly. They do not really know what they are facing. They do not know how far the human race has advanced since they were last here. They *do* have some scouts of their own kind who have been here recently, and they do have reports from the Zeta Reticuli and the Greys from Orion, but their information is not completely up to date in regard to the status and condition of the earth and its inhabitants; in regard to their coming to this planet.

NASA TO LAUNCH "ALIEN SEARCH" THIS FALL?

QUESTION:

Sue H., in Iowa, sent in a clipping I'd like to read and ask Awareness about. It's called "NASA to Launch Alien Search".

Pasadena, Calif. (AP)--NASA is celebrating the 500th anniversary of Christopher Columbus' arrival in the New World with a \$100 million project to look for aliens from outer space.

The National Aeronautics and Space Administration will begin setting up equipment in the Mojave Desert this week to carry out the search, which will begin on Oct. 12, Columbus Day.

The holiday was picked because "it celebrates the spirit of exploration," said Michael Klein, manager of the Jet Propulsion Laboratory's part of the Search for Extraterrestrial Intelligence.

"What we are trying to understand is...are we alone in the universe and what is our part in this incredible universe?" Klein said. "I strongly believe someday we will make contact with other civilizations."

More than 50 searches for space aliens have been conducted since 1960, scanning the heavens for radio signals generated by an intelligent civilization within our Milky Way galaxy and others.

NASA's \$100 million effort will be the most extensive. It will scan the entire sky for a wide range of radio frequencies and conduct a highly sensitive search for radio signals from any planets that may exist roughly 1,000 sun-like stars within 100 light years--588 trillion miles --of Earth.

"Circumstantial evidence suggests countless Earth-like planets exist in our galaxy," Klein said.

"We hope someday we'll detect the existence of other intelligent civilizations from those planets."

Scientists eventually will use sophisticated radio-signal analyzers and giant dish-shaped antennas already located at NASA's Deep Space Network tracking stations at Canberra, Australia, and Goldstone, Calif.

The Cornell University-National Science Foundation Arecibo Observatory in Puerto Rico and the National Radio Astronomy Observatory in Greenbank, W. Va., also will participate.

Klein said Jet Propulsion Laboratory engineers and scientists will start setting up a radio signal analyzer, computers and other equipment this week at Goldstone, in the Mojave Desert, 85 miles northeast of Los Angeles.

Their counterparts at NASA's Ames Research Center in Mountain View, Calif., will do the same later this year at Arecibo.

Steven Spielberg, director of the films "E.T., the Extra-Terrestrial," and "Close Encounters of the Third Kind," donated \$100,000 to the project.

That's the end of the article. Would Awareness comment on that article, please?

COSMIC AWARENESS:

This Awareness indicates the article speaks for itself in its content. The effort being to portray to the public the need for setting up a telescope that reaches out into space to search for extraterrestrial life. This Awareness indicates of course, the government already is aware of extraterrestrial life and the purpose of the telescope is to track it. This Awareness indicates that the tracking of extraterrestrial life is now a priority of SDI and NASA and other programs by the government in order to preserve the safety and acquire information for the safety of the people on the planet.

This Awareness indicates that if you will notice as the military budget is cut in terms of intercontinental warfare projects and equipments so that wars between nations are less important and are seen as diminishing in probabilities, the SDI budget is being increased. This Awareness indicates that you also notice that with the increase in the SDI budget there is also an increased interest in keeping track of things that are going on in space.

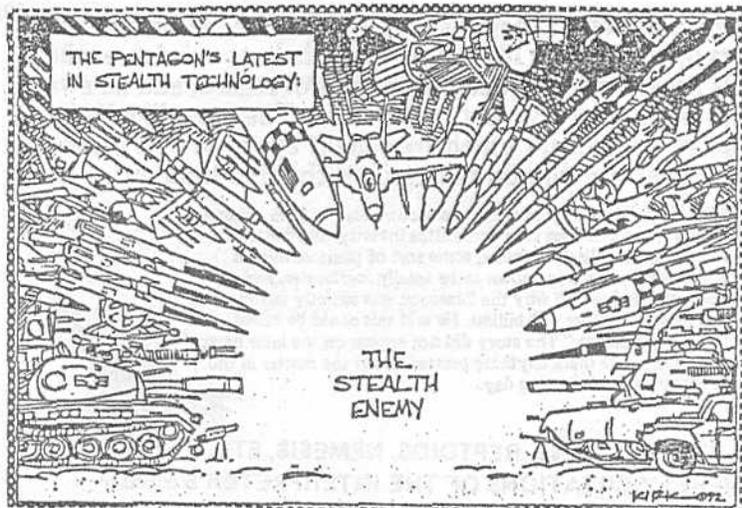

The Vice President, for example, is in charge of keeping track of any incoming comets and meteors. This Awareness indicates that he has recently dedicated a new telescope in New Mexico for this purpose. The action of watching the heavens and creating SDI weapons for use in outer space are being given a high priority. This Awareness indicates that as this occurs, even as this message is given, the nation has moved toward DEFCON 2, a serious position of grave condition toward wartime footing.

This Awareness indicates the question is: At a time when the cold war is over, as was indicated yesterday in the visit between your President Bush and the President of Russia, Mr. Yeltzin; why, if the cold war is over, should the United States move toward a grave footing for war, toward DEFCON 2 level, and also devote or request more funding for the SDI technology for fighting war in space?

Reagan's 'Alien' Remark to Gorbachev

This Awareness indicates that the obvious answer, when looking at all the facts that are available, is that there is indeed a threat from "out there". This Awareness indicates that the President Reagan mentioned this threat in Iceland to Gorbachev, stating to the effect, "I have often wondered what would happen to our countries, how quickly we might come together in mutual cooperation if we were threatened by a force from outer space!"

The President Yeltzin in his speech yesterday with your President Bush alluded to this also, referring to the need for global protection. This Awareness indicates that anyone who thoroughly watches, who has done any research in the area of UFOs and who watches the reports and research that is being done by the Pentagon and government agencies in regard to new military techniques and systems obviously

is confronted with the indications of a government concerned with outer space threats.

Government Coverup May Work if Planetoid is Destroyed

This Awareness indicates that couple this with articles from newspapers relating to an incoming planet; such reports being given for almost the past ten years, and the indications start to add up to a clear message. This Awareness indicates that there was some effort recently in the news media to begin the action of disinformation in regard to the incoming planet in order that if this planet is stopped or blown apart in deep space, it can be covered up or it can be denied that it ever existed.

There was a reference briefly given that the scientists who had claimed to have spotted a planet now state that they had made a mistake. This Awareness indicates that this can become a useful statement in the future if this planet is destroyed, to allow the government to hide the war, the space war totally, so that the public never really knows it existed or that anything ever occurred.

This Awareness indicates that this would be worth watching in the future for any further comments or any further references that may relate to this situation or to incoming planets or to planets being destroyed or to planets that were spotted by scientists, now being denied by those scientists.

TV INTERVIEW WITH YELTZIN LET ONE SLIP BY

FOLLOW-UP QUESTION:

While working in the shop the other night, Vikki and I overheard on the television which we were listening to, but not watching, a newscast, the announcer said that during an interview with Mr. Yeltzin, that he was explaining the dismantling of the nukes in Russia and the nukes over here in the United States, that because of this, we are no longer enemies but friends, and that we would now concentrate on a "world defense system." The announcer, as usual, did not follow through to ask Mr. Yeltzin what the world is going to defend itself against, and I was wondering if that was one that accidentally slipped through or they deliberately let that one come through so the people could begin asking questions themselves about what the world needs to defend itself against?

COSMIC AWARENESS:

This Awareness indicates that this was something that slipped through because the interpreter was not clued in to filter out the message. The entity interpreting from Russian into English interpreted exactly as indicated by Yeltzin to the best of his ability and it came through as spoken. The statement later was omitted in any further quotes or discussions of Yeltzin's speech so that it was not again repeated, nor was this printed in publications afterwards.

This Awareness suggests that entities keep their eyes and ears open for such little slips which help to reinforce what this Awareness has been giving in this regard, and be aware that these slips may not be repeated. These are like little slips of the tongue which are caught by those who censor the news, but who do not catch it the first time out.

ED's Note: We caught another one around March 25th, wherein a member of Congress on a committee investigating Pentagon waste, was angrily denouncing some sort of plane or missile which for 3 years was known to be totally ineffective, and did not work, and asking why the Pentagon was secretly putting into this project another \$7 billion. He said this could be called "a criminal action." The story did not appear on the later news-casts, nor was there anything printed about the matter in the newspapers the following day.

ARE THE ALIENS, REPTOIDS, NEMESIS, ETC. MERELY CREATIONS OF THE INTERPRETER'S MIND?

(Is Paul Shockley Pulling Our Leg?)

QUESTION:

While we're on this subject of aliens, telescopes and so on, a question from R.H., Winter Garden, Florida. Actually, he's not asking a question, he's making a statement, and I'd like Awareness to comment on this. He writes:

"I'd like to make a general comment on the past year's readings, primarily about the Reptilian invasion that has occupied so much space in CAC. Frankly, I think that the coming invasion by Reptilians who are now in a huge space ship in the outer reaches of our solar system, falls into the percentage of errors in the readings. Either the medium, the channel, is unconsciously distorting the information or the spiritual guide giving the information is providing the wrong symbols to the medium.

"A space ship as large as described could not be hidden. Even if dark and made of light-absorbing material, the sheer size would cause distortions in magnetic fields and spectroscopic changes of which I don't have a background to list. However, around the world, there are professional astronomers with an array of instruments capable of detecting such a space ship. In addition, in recent years I have become impressed with the sophistication of amateur astronomers who have progressed well beyond the optics and into utilizing all sorts of electronic scanning.

"The point is, the *Time* article notwithstanding, that the numerous governments, professionals and amateur astronomy magazines and private individuals could not possibly conspire to keep the information from the average person. Such a discovery would preoccupy their activities and publications. Similar reasoning can be applied to a great deal of the other alien information, eg, government treaties with aliens, underground bases, Illuminati alliances with aliens, etc.

"UFOs exist. I don't believe they exist in the context put forward by your channeler. I cannot offer a more rational explanation because I don't have enough information, however, I am fighting internally to keep an open mind. In summary: I really benefit from the spiritual advice that CAC presents. My continuing subscription is testament to my support. One suggestion comes to mind: Devote a *portion* of each issue to a serious summary of channelings by other mediums.

"Also, this would provide you with a foundation for expansion, even survival, if the present channeler becomes ill or otherwise unable to continue with the readings. I doubt that the present medium being used would object, since CAC apparently provides him with a paid platform to publish his views."*

That was his statement. Would Awareness please comment on that?

10. COSMIC AWARENESS:

This Awareness indicates that *It* has given information as clearly as possible in these readings. This Awareness indicates that the references to the planet as seen by astronomers in the past have been printed up in newspapers as early as the first year of the last decade and has been reported several times since. The fact that this entity has not read these newspaper reports is not the problem of the Interpreter but is a concern of his own and the fact that he has reached conclusions without having information is not the fault of the Interpreter, but of his own.

This Awareness indicates that the Interpreter could accommodate this entity and find references to the newspaper articles which mention this planet sighting and description of the planet as sighted by these astronomers. It will be somewhat troublesome for the Interpreter to do so, and this Awareness would not direct the Interpreter to do it, but the Interpreter may choose to do so if he wishes. This Awareness does not see any real reason why the Interpreter should do so, but suggests that the Interpreter may do so.

It is not the job of this Interpreter to prove everything this Awareness indicates through him to all of the disbelievers who read the material which he channels. This Awareness indicates that it is not the job of this Interpreter to lead this entity to the underground bases of the aliens or to take him to Nightmare Hall or do any such action to relieve the skepticism in this entity's eyes.

*ED's Note: the suggestion that CAC include in this newsletter information from other 'channelers' does not wash with this editor. What channelers would he suggest? Space brothers, 'ascended masters,' perhaps? The trivia emanating from those who play with Ouija boards or those who allow disembodied spirits to take over their bodies and spout about what Aunt Julia is having for breakfast today in the spirit world? No, CAC is, has, and will be publishing only that information coming from 'Cosmic Awareness' levels. One reason is because so much of the channeled material really says very little, and rarely anything new. It may soothe and flatter some readers with its saccharine pomposities, its salutations such as "Beloved," or "My dear ones" (be real leery of this kind!), but if you analyse the message, chances are you have gone round in circles and wonder what the message was about. At best, the message is something you have heard before, probably many times. If CAC were to publish stuff like that, the staff would yawn to death with the first issue. Another reason, now that the alien material is being presented, is that so much bull and disinformation is deliberately being released, much like the foul flatulence of a beer-drinking drunk who has spent too many hours sitting on a bar stool. Such stuff reeks, in my opinion, and I doubt that many of our subscribers would appreciate it if we started to include some of the 'messages' coming from some of those 'spiritual' windbags out there. The CAC newsletter is, and has been for 20 years, a unique alternative for those whose awareness has risen above the trivial, sanctimonious, self-indulgent 'messages' which so many so-called 'channels' have been polluting consciousness with for so many years. All kinds of channelers have come and gone, but the messages from Cosmic Awareness remain in poise, informative yet spiritual, gently guiding those who are truly seeking the path and the truth, consistent, steadfast in its philosophy, ever without judgment, year after year after year. I am sure there are some really fine channelers out there, in fact, I read and follow lots of their material, but these people already have their books and publications and these are available to anyone who can pay the price. Longtime readers are familiar with this editor's personal prejudices in this field and the reasons why CAC has stuck with what we are convinced is the ultimate communicator to this plane.--Cosmic Awareness. (When It quits, we quit).

BEAM ME UP,

ASHTAR

11.
ARE ASTRONOMY MAGAZINES BEING CENSORED?
(How Infrared Telescope Keeps Track of Nemesis)

FOLLOW-UP QUESTION:

Is it possible that Astronomy magazine and some of these other technical journals that deal with this sort of thing could be censored or be commanded by certain powers that be not to publish information on what amateurs and so on have spotted through their telescopes?

COSMIC AWARENESS:

This Awareness indicates that amateurs do not have the telescopes and the sophistication needed to spot this planet. This was spotted by that which is known as IRIS. This appears to be an infrared telescope capable of reading energies of near absolute zero. It is capable of reading this planet because it is in a frozen state of near absolute zero. It is colder than other energies around, and it is almost as large as Jupiter, and was first spotted outside of the orbit of Pluto, in the direction of Orion, moving toward the solar system.

This was approximately 10 years ago. It has been watched since that time by various scientists and occasional reports as to its new location being given. This Awareness indicates that the entity Kreston as having made reference to the articles and the sources that refer to the original sighting of this planet in the *Alien Digest*, and that this can be researched through this entity by the Interpreter, if the Interpreter so desires to spend approximately twenty dollars in gas and several hours in time tracking down this information for the questioner.

This Awareness indicates that the alternative is to let the questioner keep his opinion, which he is satisfied with, and not to concern himself with trying to change the questioner's mind.

DINOSAURS WILL BE SEEN SOON SAYS A CHANNEL

QUESTION:

A final question from L.J. in Juanita, Virginia. She says: "The Pleiadians, in a recent channeling said that much of the world's gold reserve has been siphoned off and traded for certain alien technologies. Specifically, some silver spheres which orbit the earth and serve to break down the 'barriers' between the different dimensions. Consequently, we on earth will experience a greater incidents of mysteries and scientific anomalies. For example, they say that dinosaurs have recently been witnessed in certain jungle areas in Africa. Could Awareness elaborate on this?" she asks.

COSMIC AWARENESS:

This Awareness does not see this information or the energies around this question clearly enough at this time to elaborate further. It is true that there have been reports of some entities having seen dinosaurs. It is not clear that this is somehow connected with the trading of gold for technologies and other activities suggested in the question. This Awareness indicates that the energies are not clear at this time to elaborate on this question.

ED's Note: Awareness has given considerable information on the subject of dinosaurs. Please refer to the following issues of this newsletter: 78-15 (Prehistoric Creature Discovered); \$2.00; 81-15 (The Dinosaur Hunt in Africa); \$3.00; 85-13 (What Killed Off the Dinosaurs?); \$3.00; 86-4 (Dinosaurs--Have We Seen the Last of Them?); \$3.00 from CAC.

YOU CAN'T PLEASE EVERYONE !

CLOSING MESSAGE:

This Awareness indicates that there are many difficulties in presenting information through a channel that can be satisfactory to all who read the information. If you give *too* much information that is not clearly acceptable or ready, then you are accused of presenting bizarre or even outlandish information that has no substance. If you do not give *enough* information or if the information you give is the kind that is already acceptable to the public, then entities look at it and wonder, "Why do we have to get this from a source of special nature such as Cosmic Awareness, when we can simply go to the library and find the same information?"

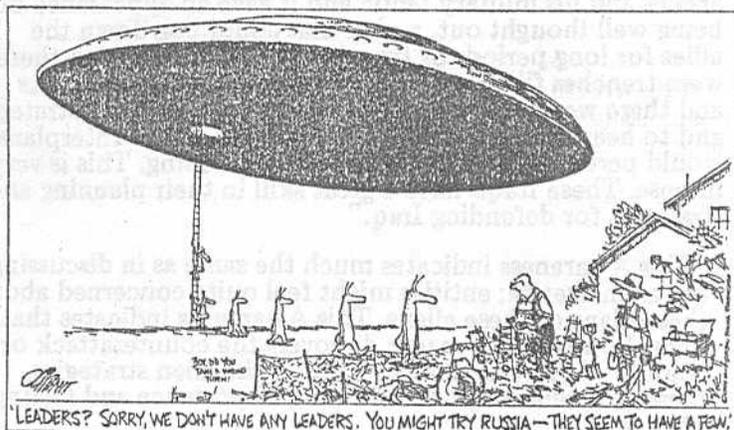

If you get information through this channel that is not researchable at the library or easily available or repeated frequently enough on CNN that everyone knows it, then you get the skeptics who doubt and want proof, and of course, this Awareness cannot always supply the footnotes for everything *It* says, for everything *It* gives, especially when there *are* no footnotes.

Often this Awareness will not give information that cannot be substantiated somewhere else, because entities demand proof and substantiation for things that are given through a channel, and then of course entities become upset because they want Awareness to give information that is not available elsewhere. They feel that perhaps the channel received the information on his own and is not actually channeling Awareness, if it is available elsewhere.

This Awareness indicates that therefore, regardless of how the messages come, there are always problems in satisfying the readers who are in a position of skepticism. This Awareness suggests that it becomes easier for the channel to either quit channeling and let entities do their own research at the library and see if they can find the information they need, or to let entities stew in their own skepticism and not worry if they have doubts, because you can never remove their doubts or never help them, nor does it matter anyway, or it may just be that it goes with the territory and the entity channeling needs to accept the fact that there will always be displeasure along with others who appreciate the effort and one cannot please everyone all of the time.

This Awareness indicates that this latter approach to the channeling is the approach which this Awareness suggests the Interpreter take if he is to continue channeling, for it is not possible to please everyone. If you please one entity, you will displease someone else and if you try to please that displeased entity, it will probably displease someone else, and so on.

(The Law of Gratitude is given)

POSSIBLE EFFECTS ON THE ALIEN AGENDA BECAUSE THE CLONING BASES HAVE BEEN NUKED

(Excerpt from a CAC General Reading, Feb. 3, 1992)

OPENING MESSAGE:

This Awareness indicates that in reference to the discussion prior to this reading, referring to the changes that have occurred as suggested by the previous reading, wherein in comparison to that which was given approximately a month ago to the one given yesterday, indicating the changes that were more of a positive nature in yesterday's reading, compared to a month ago in which this Awareness indicated that entities should watch for the signs of the alien agenda in progress.

This Awareness indicates that it is not so much that anything actually has changed during this last month, it is simply a different way of looking at the events that are in motion during the past month. A month ago this Awareness discussed the potential for the alien agenda to have its effect on earth, and gave entities the information which would allow them to watch for certain indicators of the alien agenda.

This Awareness indicates that yesterday this Awareness discussed the potential for the more positive outcome and gave entities some idea as to how this outcome would occur. The actual changes between those two readings, a month apart, are negligible in terms of what changes may have actually occurred during that time. The focus of attention as that which was different.

This Awareness indicates that in the reading yesterday this Awareness discussed the energies that are in place which would indicate a more probable outcome. The reading a month ago discussed the energies of a plan which was in motion; this relating to the alien agenda. This Awareness indicates these two are still both vying for the same time and space. The energies of the plan,--the alien agenda,--are still present and still are in motion, with certain forces attempting to bring about this alien agenda, whereas the energies of reality are also present which suggest the alien agenda and its plan are not the more likely outcome in the future.

To discuss these changes is likened unto looking at a basketball team, and based on its record, one could say: "This is the probable outcome of its next game, because it has 'this' record and 'this' particular talent and skill to draw from." This Awareness indicates that from this one can project the probable outcome of the game if there is a strong enough indication of comfortable discrepancies. If the team is good enough in opposition to the other team, one can feel with reasonable certainty that the outcome will be 'this' or 'this'. This Awareness indicates on the other hand, if one wishes to discuss the intention of the teams that will be in conflict with each other, one could find that the underdog has a strong urgency to win and they discuss that, and the strategy and plans for the winning of the game, and it may sound quite threatening to those who hear the plans of the underdog.

This Awareness indicates that prior to the Gulf War, one of the magazines printed up the strategy of Saddam Hussein's armies and his military tactic and it gave an appearance of being well thought out, a plan that could bog down the allies for long periods of time in the desert, in which there were trenches filled with oil that would entrap the tanks and there were all kinds of entrapment devices and strategies, and to hear that entities not knowing of the counterplans would perhaps think, "This is very frightening. This is very intense. These Iraqis have a great skill in their planning and strategies for defending Iraq."

This Awareness indicates much the same as in discussing the alien agenda; entities might feel quite concerned about these plans of these aliens. This Awareness indicates that once, however, the reader discovers the counterattack or counter-plans, the plans to counter the alien strategies, these strategies begin to lose their importance and feeling of power.

12. Likewise, when this Awareness gave information yesterday relating to the general future outcome of the alien scenario, *It* was not trying to say that it is all over and that humanity has won, but more that with the changes in consciousness that are, and will, and have been occurring, the probability and likelihood of human success and continuation is at a high degree and that entities can feel confident in the more positive outcome.

This Awareness indicates that it is not over by any means and there can be some varieties of change or uncertainty yet in the future in relation to this scenario, but this Awareness wished to give entities something more hopeful as entities were beginning to look at the future with some despair. This Awareness indicates that still, this Awareness sees a bright future for humanity on the horizon, more to be hopeful about than to be discouraged about.

This Awareness indicates that even so, *It* is not trying to down-play the fact that there are still to be problems in these areas. This Awareness indicates that the Reptoid/human scenario has not yet fully played itself out and an absolute outcome is not clearly seen. The probability, however, is that the Reptoids will not feel as strongly inclined to deal with humans directly as they are used to having others fight their battles of ambition and territorial conquest for them.

This Awareness hopes this clarifies the apparent discrepancies. If not, this Awareness suggests that questions be formulated for further clarification.

FOLLOW-UP QUESTION:

Well, one of the basic questions, or I should say, apprehensions expressed by the membership in the last year or so, is the Reptoid invasion of our planet and the altering of the weather and trying to alter the elements to be more fitting to them when they arrive.

It seems to me that what Awareness is saying is, well, back when World War 2 started, for example, I think most Americans, when they heard the president's speech and they heard Mr. Churchill talk about Hitler as being that 'e man who will be driven to defeat, everybody knew in their hearts that this war *was* going to end one day and the allies were going to triumph, but before that occurred, there was an awful lot of tragedy and misery and suffering.

So, I think what people are going to ask as a result of Awareness's reading, is: Is *It* saying that by knowing the outcome in the end is going to be positive, which most people feel anyway, is this going to eliminate these fears they might have of an *actual invasion* and having to go through all the hell connected to that?

COSMIC AWARENESS:

This Awareness indicates this is not completely clear at this time as to what degree of actual contact between these entities and earthlings might occur. It may develop that a strong contact occurs between these entities or it may be that it is totally avoided. It is not seen as having been determined yet whether the contact between these galactic cultures will be made directly or will be kept at a distance.

It does appear that there are energies in motion, strong energies in motion within your governments whereby the intention, the desire and plan is to prevent this alien culture from coming into close proximity with your own earth culture, at all costs, if possible. This Awareness indicates that whether there will be some actual intrusion is the question.

It is possible that the alien technology may be capable of overcoming earth technology to allow for direct contact. It is not seen clearly at this time how these energies will transpire. It is seen that what previously was a very strong likelihood of this occurring is no longer as strong in that the Greys who were to be of assistance in implementing this plan are not available to help the intruders in the near future.

Thus, the plan becomes less likely to be successful and the greater likelihood of it being abandoned is seen. As indicated in yesterday's reading, however, the invading force, being dependent to some degree on the need for

supplies and fuel from elements on earth, or from some source such as earth, to take them home, creates a bind or problem which may have an influence on the decision whether to stay or go. If they do not have sufficient supplies and fuel to travel home, they may, by circumstance, be forced to move on into contact with earth in order to accumulate necessary supplies and fuel.

THE EFFECT ON THE NEW WORLD ORDER PLANS

FOLLOW-UP QUESTION:

There was a question on the other scenario Awareness has indicated, that this push for a One World Government has been motivated by aliens and we're all familiar with the possible outcomes of that. Does this information just given on the Reptoids and the Greys; will this affect that particular scenario at all, or will it allow it to just remain in motion by those entities?

COSMIC AWARENESS:

This Awareness indicates that it appears the concept of the One World Government has been put on the back burner. It is no longer seen as an urgency at this time. This is in part because there are other urgencies that are in the forefront, partly due to economic distresses and partly because of the decision to deal directly with the Greys in the manner that confronted their build-up of personnel through high intensity cloning activities, and the destruction of these cloning bases, and the fact that there has been success in diminishing these cloning bases to prevent them from being of much help to the Reptoids.

This Awareness indicates that because of these changes that have occurred, it is not seen that the One World Government is as great an urgency to the leaders of the earth plane as it has been in the past. The urgency now has more to do with getting the earth nations organized and in harmony in a way that will allow them to deal collectively with any external forces or influences.

This Awareness indicates that this is the focus of the efforts at this time in terms of the need to bring peace throughout the world and to bring nations together at this time for a collective and unified co-operation among earth nations in the event a conflict becomes a reality between earth and extraterrestrials.

GOOD NEWS FOR THOSE WITH ALIEN IMPLANTS

FOLLOW-UP QUESTION:

This information then should be good news for those 20 million or so entities on this planet that have implants by aliens.

COSMIC AWARENESS:

This as in the affirmative.

WHAT HAPPENS WHEN ALIENS TRIGGER THE IMPLANTS? (You Really Don't Want to Know)

FOLLOW-UP QUESTION:

In the event those implants were activated, how would they be activated, and would it be simultaneous?

COSMIC AWARENESS:

This Awareness indicates that this is a part of a plan in what may be termed the alien arsenal, to use entities to create disruptive activities throughout the land at a given time. It is a kind of contingency operation for creating disturbances among humanity. This Awareness indicates that of such a nature that this Awareness finds it difficult to discuss as it could be quite disturbing to those who know themselves to have implants.

It could create too much disturbance for entities to be given this information. This Awareness wishes not to discuss this at this time. It is not welfare and benefit of those who may be aware of having implants to be told of how they could be misused in their society. This Awareness requests that questions on the use of these implants not be presented.

ALIEN AGENDA THROWN OFF ITS SCHEDULE --IT'S TIME FOR ENTITIES TO TEND TO BUSINESS

C.A.C. General Reading, March 6, 1992

OPENING MESSAGE:

This Awareness indicates the so-called Alien Agenda as that which has twice been thrown off in terms of its starting point. Certain events were to have occurred in the month of February which did not occur; this as a result of certain human interference in the scheduling of these events. Because of this, there may be a continued uncertainty as far as the scheduling of the alien agenda and the events as they were prophesied in the Fatima prophecies.

This Awareness indicates, however, it is not of such consequences as to absolutely assure these prophecies will not come about. Be especially watchful for any action of war in the Middle East that might flare into something of greater significance. This Awareness indicates that in the meantime, relative peace covers the earth, relative to the general condition. The condition still is volatile and some areas are in danger of greater flare-up, but entities can be grateful for what degree of peace is present on earth at this time.

This Awareness indicates that the time is good for entities to focus on their own lives, their own particular situations, and to attempt to bring their lives into greater harmony on all levels. This for some will mean restoring financial balance, or improving a financial base. For other it means balancing relationships and social situations and for others it can mean career or personal changes.

This Awareness indicates that it is a good time to turn your attention toward your own and your family's needs and to work on those areas; this at least for the next three months.

THE PENTAGON'S 7 SCENARIOS TO JUSTIFY A CONTINUED HUGE FINANCING FOR WARS

QUESTION:

The Pentagon has released an outline of 7 scenarios recently for conflicts in the post-cold war era, and I'd like to read a little of this and ask Awareness to comment.

In its first detailed military planning for the post-Cold War era, the Pentagon envisions seven scenarios for potential foreign conflicts that could draw U.S. forces into combat over the next 10 years, according to internal Pentagon documents.

Maintaining forces capable of fighting and winning one or more of the 7 scenarios outlined in the documents would require a robust level of defense spending into the next century.

The classified documents indicate that the leadership of the Defense Department has instructed the military chiefs to request forces and weapons sufficient to fight large regional wars--in two scenarios, against Iraq and North Korea, and in a third scenario, against both countries at the time.

A fourth scenario envisions a major military campaign in Europe to prevent a resurgent Russia from pursuing expansionist aims.

In the fifth and sixth scenarios, the document also says the United States should be prepared to respond to contingencies like a military coup in the Philippines that endangers the 5,000 Americans living there, or a "narco-terrorist" plot against the government of Panama that threatens access to the Panama Canal, requiring both a Marine amphibious invasion and an airborne assault.

In a seventh scenario, the documents call for a strategy to deter the re-emergence later in this decade of a global "adversarial rival" or "international coalition with an aggressive expansionist security policy." To do this, the United States would have to maintain a technological and doctrinal edge "and a credible capability to expand military forces.

The planning does not mean that any of the conflicts described are inevitable or imminent and the Pentagon itself calls the scenarios illustrative and not predictive.

Given current circumstances, many seem improbable. Iraq, for example, seems years away from rebuilding its military forces to the point where it could seriously threaten its neighbors with an invasion, although its remaining nuclear ability remains a source of concern.

But unlike the dozens of contingency plans the Pentagon develops for the use of U.S. military forces abroad, the seven scenarios will serve as the foundation for long-range budget planning and determining the number and kind of troops and weapons the country should maintain.

It goes on and on, but would Awareness comment on these scenarios that the Pentagon is putting out to educate the public into continuing to invest billions of dollars into their budget?

COSMIC AWARENESS:

This Awareness indicates that these are mostly attempts to excuse the action of requesting more money for military purposes, without disclosing the true reason for these needs. This Awareness indicates of course, as has been suggested, the real reason the Pentagon seeks to continue the Stars Wars research and development programs is because of the alien situation. This Awareness indicates that there have been recent situations whereby the military has been on high alert in reference to DEFCON 3, approaching even higher readiness, but apparently remaining at DEFCON 3,

This Awareness indicates that this as seen as a kind of activity of readiness in the event of great global threat. This Awareness indicates there is only one nation on earth at this time that could pose a threat of the kind that would require the amounts of money and the resources and readiness that the Pentagon appears to desire, and that nation would be China. There appears to be no indication at this time of China actually planning or seeking a war against the United States.

This Awareness indicates that such readiness would seem to be unnecessary. This Awareness indicates, however, that is an area that does deserve to be watched, even while also watching what this Awareness sees as the greater potential threat; the threat from the extraterrestrial forces.

WILL THE ALIENS' MANIPULATION OF HUMANITY BACKFIRE AND EVENTUALLY BE THEIR UNDOING?

QUESTION:

D.A., in Austin, Texas, writes: "It seems that the alien force in manipulating humanity into wars for thousands of years, are actually creating something that will backfire on them. Haven't they in doing so created a race that is not adverse to and even skilled in warfare? Haven't individuals been unintentionally created with great talent for tactics, stratagems and leadership and so forth? It appears this would be of some influence if conflict between humans and aliens occur."

COSMIC AWARENESS:

This Awareness indicates that this is a very good observation; that this indeed is a result of the manipulations by these entities of the human species.

This Awareness indicates that another factor that has developed out of all these centuries of war is that humanity is able to adapt quickly to changes as becomes necessary. They may be able to adapt more quickly even than the aliens in the present scenario. This Awareness indicates it has also assisted in the development of free thinking in humans, whereby entities have learned to make quick decisions as needed in order to save their lives or the lives of their fellow compadres.

This Awareness indicates that also, out of warfare have come many new inventions that have helped to increase the

¹⁴ speed by which technology is absorbed and developed on earth. It has been said that the alien's technology is perhaps a half million years ahead of human technology. This would be more in terms of a half million years by alien time-keeping, but that humans have a way of catching on quickly and developing new technologies quickly so that they can indeed learn from new things and apply those new things which may have taken hundreds of thousands of years to develop; these can be learned and applied in a matter of decades or years.

PRESIDENT BUSH'S COLLAPSE: IS HIS LIFE IN DANGER?

QUESTION:

R.K., in Washington, D.C., asks: "A couple of questions regarding Mr. Bush. First of all, I have very funny feelings about his collapse at the Japanese dinner last week. Can you give us some insight as to what exactly is going on here? After his episode with thyroid problems last May and now this, is there something sinister going on that we do not know about?"

COSMIC AWARENESS:

This Awareness indicates that there does appear to be a certain danger to this entity. This appears to be from factions that do not like his policies, particularly as they apply to the Israel and Palestinian situation. They see this entity as turning against Israel more and more as time passes. It appears that there are some insiders who would like to see this entity removed from office.

It appears these two events were tests of his vulnerability to determine whether the entity could be touched through ways that are less easily described as assassination. It would seem that the entities have used certain agents for this purpose. This Awareness indicates that this entity does need to be most cautious during the coming months prior to the election, especially.

THE REAL REASON BUSH PICKED QUAYLE AS V.P.

QUESTION:

Another question from R.K. He writes: "I look forward to hearing from you, because the newsletter continues to give me insight on the news events of today. What about Dan Quayle? There was a special seven-segment article series in the *Washington Post* this past week about his campaign to be Bush's running mate. What is the real, and I mean REAL reason for his selection when there were so many other more qualified people, both men and women, for the ticket and the job of Vice President?"

COSMIC AWARENESS:

This Awareness indicates that some of this reason is explained in the work by Honegger, the lady who wrote the first book entitled *October Surprise*; the lady who worked with Reagan in his campaign and staff, in which she described Quayle's role in the situation. Part of this also relates to the fact that Dan Quayle is a distant relative of Bush, a distant cousin.

This Awareness indicates that the selection as Vice President was a kind of payoff for his complying with certain of Bush's needs in terms of public activity that Bush did not want exposed. This relates in part to the drug connection also. This Awareness suggests these areas may be investigated individually by those who wish to pursue the matter for themselves. This Awareness does not wish at this time to go into this in any depth or greater detail, but that those who have copies or have access to Honegger's book *October Surprise* may search for information there.

There are also books and information linking connections of Bush to other entities that are available from the Christic Institute. The entity Antony Sutton also has written a series of books exposing the Bush connection to groups

and elements of the past; that the grandfather of George Bush helped to finance the Bolshevik revolution and that Bush's father helped to finance Hitler, and that Bush himself belonged to the Skull and Bones Society at Yale, which was a direct American counterpart or link with the Skull and Bones Society set up by the Nazi Germans in Berlin which through its secret rites, prepares young Nazis for the coming dictatorship and war beginning with Hitler, who espoused the New World Order, even as does George Bush at this time.

This Awareness indicates that these are connections which are not commonly found in your press, but which need to be researched and explored by those who are interested in these things. This Awareness indicates that this is not to say that the entity is to be necessarily forever tainted by what he did in college, what secret orders he belonged to, or what group he belonged to in college, for often young people will get involved in a group because a friend was involved in the group and may later change their mind and leave the group without any particular loyalty remaining. This Awareness indicates however, it is of interest to many people that these connections exist and it can be part of the reason why certain Israeli apprehensions about the entity George Bush also exist today.

ED'S Note: Barbara Honegger's book, "October Surprise" is published by Tudor Publishing Co., 255 E. 49th St. Suite 25D, New York, N.Y. 10017. It appears this book has been taken off the market. Order direct from publisher or ask your local bookstore to do so. The price is \$19.95 ISBN-0-944276-46-6. It is illegal to publish a book copyrighted previously and using the same title. Although Honegger's book "October Surprise" was published in 1989. In 1992 a book was published with this same title, but by a different author, and this book casts President Bush as the "good guy" whereas the first book cast Book as a conspirator who kept the hostages in Iran confined for months, until after Reagan's election so he would take the credit for releasing them. Antony Sutton's book, "The Two Faces of George Bush" which explores the Skull and Bones connections is published by Veritas Pub. Co. PO Box 6755, Station 'O', Vancouver BC, Canada V5W3V1. It is also listed as being available CPA Book Publisher, P.O. Box 596, Boring, Oregon 97009, Price \$7.95 plus \$1.50 postage.

WHAT COULD TRIGGER AN ARMED REBELLION?

(A Black Against White Race War Could Occur)

QUESTION:

A question from B.F. in British Columbia. "Regarding the civil war in the United States, what circumstances could trigger an armed rebellion? Would the armed forces fracture, some units fighting for the government, and some against? Would the present two party system also fracture as is now happening in Canada, where we have 5 potential power blocs?"

COSMIC AWARENESS:

This Awareness indicates that one thing seems quite likely in the United States which would be less likely in Canada and that relates to the potential for a race war; that there are factions in the United States already that are building toward this polarization of the races; that you will notice the entity Pat Buchanan and the entity Duke as both being very similar in their messages even though both come from different backgrounds.

This entity Duke coming from a Klu Klux Klan background and Pat Buchanan coming from a television panel of 'Cross-fire' background, yet both have made statements of a similar nature showing their philosophies are not that much different. This Awareness indicates that this of course creates considerable apprehension and fear among the blacks to have people of this nature going around making speeches that would inflame racism.

This Awareness indicates that in the creation of fear among the blacks, you automatically stimulate hostility among the blacks, for fear and hostility always go hand in hand. When someone is threatened, they become angry, and they begin to think about defending themselves, and when one thinks of defending themselves, they automatically think that the best defense is the attack.

This Awareness indicates it does not take a genius to realize

that in creating considerable fear among the races, you are also creating considerable threat and hostility that could explode into violence over some issue. This Awareness indicates the beating of the black man in Los Angeles by the white police officers could serve as a trigger if it is not resolved in a way that satisfies the blacks, or it may only result in another thorn in the soul of the blacks who see this as further proof that they are seen as second-class citizens and cannot get justice from the justice system, and it may simply add to the inflammation that is growing in your country between the races.

This Awareness indicates that it would not be too difficult for a group of organized entities seeking to start a revolution or a civil war between races or groups to do so at this time. It would perhaps feed into the fascism that is developing in this country to give it the greater force, much as facism developed and grew in Nazi Germany as the clamp-down on Jews occurred, wherein Jews were blamed for all the ills and hard times of the economic system in Nazi Germany during the early '30's.

After the Election 1993 Could be a Bust

An economic crisis is not seen in this country until after the election. It appears the present economic recession will lessen its intensity so that from summer on through fall, relatively good times will be prevalent throughout the country. Unemployment will drop and earnings will increase. It appears this will occur in part by George Bush's plan to have the IRS take less withholding tax from the working class.

Of course, if the withholding tax is not taken or it is only partially taken, that money will be spent in society to stimulate the economy, but what happens in 1933, when it comes time to pay taxes and entities discover they have not had enough of their money withheld to pay the taxes they owe? Then they have to dig deep into their spending money or into their savings and find money to pay taxes and the economy then goes into a downturn because people are not able to spend and buy or sell goods.

This Awareness indicates in other words, this would simply put off the recession, create an artificial high prior to the election to help assure the reelection of the president, but do nothing to create a healthy robust economy after the election, and therefore, when the next year arrives, and entities are again facing economic distress and if, during such time, there are conflicts between the races which have been stoked and fermented for another year, it is not unlikely that by that time a real crisis could erupt here and there, which could be fueled into demonstrations and violence, clashes between whites and blacks or other minority groups.

This Awareness indicates that It sees this as a possibility, not as a certainty. It is important to watch this carefully and not to energize this racial conflict. This Awareness indicates it is not seen as likely that Buchanan or Duke will have a great effect on the nation's policies, unless Buchanan continues to gain momentum in which he might become a potential threat to the reelection of Bush, and if such were the case, and the polls indicated this, Bush might consider having him as a running mate in the '92 election.

It does not appear that Quayle will be the running mate in the coming election.

IMPORTANT NOTICE!

Are you getting tired of information on aliens, conspiracies, etc. in this newsletter? Then send in some questions to the editor! NOW! Due to an acceleration in monthly readings, CAC is literally running out of questions. We need questions on personal relationships, philosophy, religion, sex, mysteries, Current Events, unusual personal experiences of a general interest. If you want more detailed info on any subject previously covered by Awareness, send in the quote and your questions for further in-depth elaboration. Come on, Gang! We're serious. Put on your thinking caps and send those questions in now! Send to Editor: 'Revelations of Awareness', P.O. Box 115, Olympia, Washington 98507. (Thanks. Alien questions are also welcome!)

QUESTION: IS THE U.S. ECONOMY REALLY IMPROVING?

Stories are already appearing in the papers about how the chain stores' profits have suddenly leaped 20% and that factory orders are reaching an all new high and that sort of thing, to show that the economy is really beginning to turn around. Are these stories true, or are these stories the government is planting in order to reassure Mr. Bush's reelection?

COSMIC AWARENESS:

This Awareness indicates this is in part true, based on the recent drop in the prime rate, which allowed many of these factories to borrow money at very low rates, to stimulate the manufacture and growth of their companies, and this then becomes a kind of shot in the arm for the economy. This Awareness indicates that also the fact of printing such glowing and optimistic information tends to make the public feel optimistic so that they are more willing to let loose of money they may have been hoarding or saving for bad times or emergency, and thus, as the public begins to spend its emergency money, the economy is given a further boost.

This Awareness indicates that there is in this sense, a benefit to the economy from the stories and the stories are encouraged, the printed stories of increased economic well-being are encouraged and when coupled with the facts of improvement, this will tend to turn the economy around very quickly. This Awareness indicates that by June, most entities will see a rather robust economy, and those who are out of work will find it much easier to find jobs, to find work, and to acquire the money necessary for their purposes.

This Awareness indicates that this economic issue which is now a major concern hindering Bush in his bid for reelection will go away in the summer and fall and there is every reason to expect his reelection. This Awareness indicates however, as suggested, the economic high that follows shortly will be artificially created for the economic realities are not changed by the manipulations to the economy. The deficit stills remains beyond reason. The costs of paying the interest on the deficits still runs into billions more than can be paid, and there is seen no real earning potential in this nation to offset the spiraling deficit or cost.

The only clear way of overcoming these costs of the national debt would be to create a moratorium on the national debt, simply stating it does not exist because the Federal Reserve was an illegal operation from the beginning, but this is totally unlikely.

12 MILLION JOBLESS: WHERE WILL JOBS COME FROM?

(Will There Be a 30 Hour Work Week?)

QUESTION:

The government puts out figures that the unemployment is something like 6.9 million or 7 million, whereas other figures show that the real unemployed figure is closer to 12 million, about 5 million who just disappeared off the charts, and the factories that are doing these massive layoffs and totally restructuring themselves are saying that they will not be rehiring under this new competitive system, so, where are the jobs going to come from for these 12 million unemployed people?

COSMIC AWARENESS:

This Awareness indicates there is a good likelihood that within the next 5 years and more likely within the next 2 years, that a proposal will be passed through Congress to create a 4 hour or 6 hour working day. More likely the 6 hour working day will be proposed, which would allow those businesses or factories or industries that are open 24 hours a day to have four shifts instead of three.

16. This Awareness indicates that this 6 hour shift would then create a need for more hiring to fill the extra shifts available each day and all entities could then have jobs. The standard of living would most likely drop somewhat because the number of hours worked would decline, but as it lowered the average income for the working class, it would also create more opportunity for those who are presently unemployed to have a piece of the pie.

Thus, there would be more people sharing in the gross wage amount in the nation, but they would mostly get a somewhat smaller amount. This appears to be a situation in which many entities would accept for many entities would like to have the extra two hours a day to work on other things anyway.

This Awareness indicates that many entities would be quite willing to go from 8 hours to 6 hours, even if it did cost them 2 hours daily in terms of wages. This would then allow not so much an increase in the spending, but it would allow a sharing of the wages and help to eliminate the unemployed class by bringing them into the employment rolls.

This Awareness indicates that this is seen as very likely to occur within the next 2 years.

WILL 1993 EARTHQUAKE CREATE FOOD RIOTS?

QUESTION:

Another question from B.F. in British Columbia. "Would the Spring of '93 California earthquake disrupt food distribution and trigger food riots across North America?"

COSMIC AWARENESS:

This Awareness indicates that this is seen as possible; that it would create a shortage of food as the area is known as the food basket for America; however, there are many areas in Northern California that would not be severely hit by such an earthquake and much of the food supply would still remain intact or repairable, so that in the following years, some recovery would occur.

This Awareness indicates it appears the event could create massive problems in the immediate time period following. This Awareness indicates that it also appears that the event would create such a shattering of the general U.S. economy that it would be many years before it could recover, and that it might never become the major power in the world that it presently experiences.

CONJUNCTION OF PLANETS IN 1993 IS BAD NEWS

FOLLOW-UP QUESTION:

One other question from B.F. "What effects will the conjunction of Uranus and Neptune and Capricorn have?"

COSMIC AWARENESS:

This Awareness indicates that both of these planets are related to earthquakes and seismic disturbances. They are also both related to accidents and sudden explosive occurrences or surprises. This Awareness indicates that Uranus relates to the sudden unexpected, explosive or unusual occurrence. Neptune relates to that which is gaseous or deceptive or undefined, unclear, or that which is falling apart. In an earthquake things are falling apart. Things are not solid, thus, the Neptune factor plays its role in earthquakes

Uranus being that which concerns those things that are sudden and unexpected also applies to events such as earthquakes. This Awareness indicates that Neptune also relates to poison and gas and pollutions. It could also relate to ozone layer depletion which might have a sudden effect because of Uranus being present, of creating extreme and unusual problems for people on earth.

This Awareness indicates the fact that it is in Capricorn¹⁷ which has to do with crystallization and structure would help to suggest earthquake problems, the breaking up of structure, the suddenness of the event. This Awareness indicates that there will of course need to be other triggering factors, such as squares or oppositions or the crossing of Mars to a point in which these planets are in conjunction.

This Awareness indicates that in the year 1993 the planet Jupiter will have moved into Libra and may trigger from that position an influence on the two planets of Neptune and Uranus as Libra is square to the sign of Capricorn, and this can contribute also to the effect.

THE ECONOMY OF CANADA: IS IT IMPROVING ALSO? (Both Countries Need to Prepare for the Worst in '93)

QUESTION:

B.F. also writes in his letter some interesting information about Canada. He writes: "I certainly hope that Awareness is correct about improved economy for Canada in '92. This past year has been bad! The general sales tax is killing many small businesses as hordes of people go to the United States to shop. Free trade is a disaster for us so far. Mulroney tried to get out of it by going to the U.N. We were hoping to get rid of him. He has destroyed much of Canada and will not stand for election. He knows he can't win. I suspect he will resign and be appointed or appoint himself to the senate. Our senate is not elected. Our constitutional debate is a mess. A commission went to Manitoba to talk to the people. Not one person showed up. The commission collapsed in disgrace. This was the third or fourth commission and obviously a stalling tactic, which the people ignored.

"Quebec will have a referendum this fall on independence. Many English Canadians just don't give a damn anymore and would like to see them go. Quebec on its own would immediately lose two billion dollars in federal money. The economy is in bad trouble. They would find out very fast that outside Canada they would be ignored and unable to compete in an English speaking North America. The recession may bring them to their senses. I just saw a new book out called *Take Back the Nation*. Basically it says the government has sold out the people and the people must retake control. How this is to be done, I don't know. I'm not paying the \$30 to find out."

I'd like to ask Awareness, does *It* still see the positive side of *Its* prediction that Canada was going to come out of this all right?

COSMIC AWARENESS:

This Awareness indicates that *It* sees that the improved conditions in the United States economy for this year will have a reflective effect in Canada; that Canada's economy will improve somewhat. *It* does not see this as being the answer to the problems for Canada. *It* does see that Canada will continue to experience problems for some time, and that, in fact, the problems which Canada is now feeling, which may improve slightly this year, may return after the U.S. election and the U.S. economy again goes through its collapse, and that the United States' economy will then begin to mirror the problems that Canada has been feeling.

Grow Gardens Now and Store Beans and Grains

This Awareness indicates that it is very likely that the entire U.S. economy will become much worse after the year of 1993. This Awareness suggests that entities, if possible, should move,—this not necessarily a move in location, but a move in their consciousness, so as to be able to sustain themselves in the event the economy worsens during '93 so that they can grow some of their own food in gardens. This Awareness suggests that greenhouses also could be

useful in some areas, but by growing your own food in gardens or greenhouses, you can help to improve your survival chances so that the suffering of a recession or depression that may follow within the next two or three years will not be disastrous on you.

This Awareness indicates that if you live in an area where you are not permitted or allowed to grow a garden in your yard, consider joining with others in finding a lot or renting a vacant lot in which you can grow a collective garden with your neighbors and work the garden together. This may not be of any importance this year, or even next, but consider that within the next few years, it may be of great importance to remember this message.

This Awareness indicates also, the purchase and storage of rice and beans and those grains and foods that can be stored without freezing or without canning is another way to help improve your survival and lifestyle during a depression. This Awareness indicates *It* is not wishing to state there *will* be a depression, but *It does* see that this is a strong potential in the next 3 or 4 years after the '93 election.

There is seen a great value in manipulating the country into a depression in order to bring in the NewWorld Government and scrap the Constitution, and that this may be part of the plan. *It* does not see that this is absolutely certain, but *It* wishes entities to be aware of the potential of a depression being staged so that entities may be prepared for that event.

This Awareness does not wish to see entities victimized by these manipulations any more than is necessary.

IS THE N.E.S. COMPUTER RIGGING ELECTIONS? (How Dr. Beter Lost the Governor's Race in West Va.)

QUESTION:

A question from R.B., Salt Lake City, Utah. "A new book just published titled *Conspiracies, Crimes and Cover-Ups* has a chapter titled "Vote Scam" wherein is detailed the existence of a private company called News Election Service which is owned by the three major TV networks and the Associated Press and the UPI. This company has been granted a legal monopoly by the Federal Government to tally all the votes cast on election day on a single large computer operated by NES. All of the votes cast around the country on election day are run through this computer and this is the sole source for all of the information disseminated by those 5 news-mediums on election results for all national races. The opportunity this presents for mischief in terms of manipulation of the votes is awesome. For Awareness: Was the creation of this company for the purpose of being able to manipulate the votes; has it been so used at some time in the past? and is it seen that it could be so used in the future?"

COSMIC AWARENESS:

This Awareness indicates that the entity Dr. Beter spoke some years ago of the voting booth systems, those which counted the votes, as being monitored or attended by a New Jersey company which was also responsible for keeping track of casino machines and which could be used to alter the counting of votes by as much as ten to one; for ten votes counted, one vote could be added or subtracted by the counting booth.

This Awareness indicates that the entity also explained that this company was a subsidiary company of the Rockefeller cartel and that it was created for the purpose of manipulating votes and that he, himself, when running for governor of West Virginia, was approached by entities and told that under certain circumstances could he be elected, and that if he would agree to those circumstances, he would be elected, the votes would be rigged in his favor; that otherwise, the votes would be rigged against him.

The entity refused to accept the bribe and lost the election.¹⁸ This Awareness indicates, in fact, it seems the entity denounced the election and dropped out, claiming the election was rigged. This Awareness indicates also, the entity spoke of these booths as still being used on a large scale counting of votes throughout the country by the various precincts thereafter.

This Awareness indicates that in this sense, it appears that the networks themselves need not necessarily be part of a conspiracy, if the machines that count the votes are controlled in a conspiracy to mislead the results. This Awareness indicates that even if the machines are accurate it is possible also that the networks could be part of the conspiracy since the networks are controlled by entities who are part of the conspiracy establishment: the Council on Foreign Relations, and Builderberger Society.

This Awareness indicates that when entities are all part of a closed club or group and are all involved in running the show, it is very likely that they will co-operate with each others' general and overall plans, as these plans are effected and released for mass-consumption.

TALKING ABOUT REPTOIDS ON RADIO: HOW DANGEROUS? (Hypnotized Abductees Are Talking About Reptoids)

One last question from R.B., who also has a radio program, and this is the second question in regard to this. Awareness answered one last month. He writes: "On a personal note, I have found a MUFON investigator who does hypnotic regression on abductees. He was a guest on one of my radio shows several weeks ago and he is coming back in a couple of weeks to discuss, get this: the coming Reptoid invasion among other things. In a phone conversation I mentioned to him the CAC readings. He was familiar with these and then pressed him on his knowledge about the Reptoids and he then told me that this was exactly what he had been learning from his regression subjects lately. Nothing like validation for this information from Awareness coming from MUFON investigators. A MUFON is about as down to earth as they come. His name is Forest Crawford from Illinois and I would like to ask Awareness if it is advisable for us to be putting out this information? Are we likely to be targets from those who would seek to put down those of us who speak of such things, and can Awareness provide shielding for us?"

COSMIC AWARENESS:

This Awareness indicates that it depends on how you put the information out. If you put it out in such a way as to make it acceptable to your masses so that they do not become frightened, if you put it out in such a way as to step back somewhat as though you were not the promoter of the information, you are simply curious about it, and that you notice it is coming from different sources, and there are many people asking about this, then you are in a more safe position.

In other words, as a moderator, you should remain neutral. You are simply relating and responding to a phenomena coming from your listeners and coming from different sources. If there is then hostility by any forces that do not want this information out, they cannot fault you. They may simply tell you, "We don't want any more programs like that!" That would be the most they could do.

The next thing they might do is to object to the guest giving such programs and tell the guest, "We don't want you giving out any more information like this." This Awareness indicates that by doing it with a kind of neutrality, as a naive questioner wanting to know "What is this phenomena of people talking about Reptoids and the invasion of

Reptoids?" This Awareness indicates that by speaking of it in that way it can help you to get the information out without being endangered.

You may also recall some of the advertisements that came out during the past couple of years, recalling for example, the truck falling from above screen to the highway, which then asks: "Where were you when the Reptoids came?" (This Awareness indicates it appears this was a Nissan ad), and that there were several other types of ads in which Reptoids were used. One put out by those who warned against drugs; that the drug-pusher himself being a kind of Reptoid, and pointing out that there are more and more reptile-type creatures in commercials and in cartoons and on television and that there has recently been an upsurge in the research on reptiles, which all leads you to wonder: Is something really going on here?, particularly when you receive information from different sources about Reptoids who may be invading the planet.

This Awareness indicates you may wish to also read some of the information relating to reptiles and Reptoids in the past; that the editor of CAC can provide you with these books or with the name of such books, including the books of Sitchin and a book called *Flying Serpents and Dragons*, which relates to the UFO phenomena and the historical past of earthlings in their connection with Reptoids.*

*This book written by R.A. Boulay, published by Galaxy Books, Clearwater, Florida. Also, a sequel of this book by this author called "Dragon Power" has just been published which is also available from C.A.C. (\$15.95 plus \$2.00 postage, price each book).

This Awareness indicates that by being prepared for this kind of information, and by taking the approach of one who is curious because the information is so strange and you are getting it from so many sources, you can give a lot without being personally endangered, and when, and it is possible and even perhaps likely, someone approaches you and tells you, "Do not give out any more of this kind of information to your listeners!", simply tell them, "Oh! All right! But why? What am I doing wrong?", and let it drop. Just let them have their way.

In the meantime, you have already released much information. You should provide them with other sources where they can select books to read or research further if they are interested in searching the subject for more information.

CLOSING MESSAGE:

This Awareness indicates that it is always helpful to receive verification for information that this Awareness has given, as it helps to supply the readers with the realization that they are not relying solely on one source. This Awareness has spoken of the Reptoids invasion, now this entity speaks of abductees whom another has hypnotized and these entities speak of a coming Reptoid invasion. It is good to have several verification sources so that entities do not feel that they are totally alone, out on a limb, and believing something that has no verification from any other source.

This Awareness suggests that the editor of CAC may wish to make contact with this entity who becomes a guest on this radio show, or may request a copy of the transcripts from the radio show so that this can be used in the future as reference and verification for messages that have been sent from this organization. This Awareness indicates that it helps entities to have more than one source of information, particularly when the information is so bizarre.

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, WA, 98507 (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will! ('How many have you served and how well?')
